

Beast 341

Chapter 341 Shi Yu vs the Admiral (2)

Super skill, Cell Speed!

“Jiu!!!” This scene made the bird spirit’s red eyes spread open in the sky and solemnly look at the Demon Sea Star opposite solemnly.

At the same time, Xiao Qin crossed her arms and also revealed a serious expression. “You’re indeed very strong.”

After a short confrontation, Chi Tong and the Demon Sea Star were still in a stalemate, making Huang Qi and the others swallow their saliva.

Both parties were so strong. As expected of General Xiao Qin’s daughter and the sister of Legend Xiao Shuang. This family was so abnormal. The strength was still so great even after the previous trump card’s fall in a mission.

How strong was General Xiao then, who commanded trump cards?

“Strengthening talent is really a headache.” Shi Yu also chuckled and scratched his head.

“A Beast Tamer without strengthening talent is too disadvantaged in battle.”

Even if Chi Tong was a full-level skill and had an extremely high use of energy, it was still at a disadvantage.

Xiao Qin nodded and said, “That’s true.”

“The two of you, can you hurry up and use whatever moves you have?” At this moment, the gem cat really couldn’t wait anymore and urged in pain. Wu Wu Wu Wu, it didn’t want the gems to be stolen by other kittens.

“...” Seeing the gem cat say this, Xiao Qin was stunned. Then, she said, “In that case.”

“Next, we have to do our best,” Xiao Qin said. “Demon Sea Star, go berserk.”

Although this sword spirit was very strong, the Demon Sea Star that she had strengthened was still a little lacking. If it was in its normal state, they would definitely not be its match, but talent was also a part of strength. Why not use it?

“Ah!!!”

As soon as Xiao Qin finished speaking, the redness in the Demon Sea Star’s eyes immediately became even deeper. A black vortex even appeared in its pupils, and its entire body instantly emitted a wildness ten times stronger than before, like a ferocious beast coming out of a cage.

Splash.

At the same time, its hands and feet quickly wrapped around the red water wave that looked like a glove.

“Ha ~” The aura of a demon was undoubtedly displayed on the Demon Sea Star.

Seeing this, Shi Yu knew that he couldn't continue underestimating the enemy. Otherwise, Chi Tong would definitely fail on its own.

“Then let's end the warm-up.”

“I want to contribute to the battle too.”

As Shi Yu finished speaking, Xiao Qin, who was opposite him, said, “Huh?”

Huang Qi and Qin Mingzhi were also stunned.

“Chi Tong, possess me.” Soon, Shi Yu's voice sounded, making the expressions of the three change. They had almost forgotten about this.

Possession?

Could it be that this undead with abnormal strength also knew the possession skill?

Although many undead had mastered possession, some undead races didn't. This wasn't a racial binding skill.

Chi Tong was already so strong. Xiao Qin originally thought that its abilities had all been focused on its own body. Now, he was telling her that such a powerful undead could still fuse with a Beast Tamer?

“Jiu!!” At the same time, Chi Tong didn't want to fight alone anymore. It gradually descended from the sky. There were two of them, and it was too much of a loss to fight alone.

Soon, Chi Tong landed in Shi Yu's hand. Under everyone's gaze, it turned into a fire sword spirit again. At the same time, a red flame flowed from the sword spirit to Shi Yu's entire body. Suddenly, a shocking aura swept out of Shi Yu and Chi Tong.

Under the blazing aura, Shi Yu's eyes and hair color were dyed red. His thin figure and deep eyes seemed to have stepped into the realm of

gods.

Boom!

The powerful aura spread, making Xiao Qin's expression change, and the other two majors reveal shocked expressions. They felt that the increase in Chi Tong's strength was even greater than the increase in the Demon Sea Star!

“Ah, fight.”

Almost instantly, Shi Yu's body emitted an aura that made even a ferocious beast like the Demon Sea Star feel danger. Its gaze focused, and it instantly arrived in front of Shi Yu. Ripple Fist wrapped around its hand as it suddenly smashed out!!

Boom!!

Intense white mist spread.

Then, a shocking wave of air spread from their bodies, shattering a layer of ice and sweeping up waves a thousand meters away.

The smoke dissipated, and the Demon Sea Star's punch did not succeed. Shi Yu held his sword in one hand and stood the sword in front of him, easily blocking the wave fist.

Shi Yu's red pupils looked at the Demon Sea Star that was even taller than him and said, "You're too anxious."

With that said, an illusory huge red pair of wings spread out behind Shi Yu. Every feather on these gorgeous phoenix wings seemed to be formed by a sword spirit, emitting a strong phoenix might. Seeing this, the Demon Sea Star suddenly had a bad feeling.

"Stay away from him!"

Xiao Qin shouted.

The Demon Sea Star exerted strength with its legs, and indeed, its pupils constricted as it quickly retreated.

At the same time, Shi Yu raised the sword spirit slightly. It was as if thousands of sword lights shot out from behind him, sweeping up a hot wind and instantly devouring the Demon Sea Star that was quickly retreating. The thousands of sword lights instantly began to cut its body like a thousand cuts, making it let out a miserable cry in the hot wind!!

"Ah!!!"

In the hot wind, the figure of the Demon Sea Star gradually blurred. The injuries on its body were one after another, making Xiao Qin take a deep breath. She instantly revealed an extremely serious expression and stared at the red-haired young man opposite her.

Impossible.

She had seen undead that could possess and Beast Tamers that could fuse.

However, it was just possession. There was no reason for its strength to increase so ridiculously!

Of course, what Xiao Qin didn't know was that Shi Yu's physical fitness and the full-level possession skill couldn't be considered a simple combination anymore.

Chapter 342 Shi Yu vs the Admiral (3)

This was cheating!

At this moment, seeing Shi Yu transform into this posture and almost invincible form, Huang Qi and the others were already stunned. This was the first time they had seen it. Even in Dragon Palace City, they had never seen it!

In this state, they actually felt that Shi Yu was even more terrifying than the hundred-meter-long Iron-eating Beast back then!!

“Ahhh!!”

Soon, the hot wind dissipated, and half of the ice disappeared. The Demon Sea Star, which was already broken, stood on the water and looked at its opponent in silence.

If it were a normal life form, at this level, it would already be a life-threatening injury. However, the Demon Sea Star had the super skill Cell Speed. The healing effect of this skill on itself was also at the top of super skills.

It could be said to have an immortal body. Even after enduring the joint attack of Shi Yu and Chi Tong just now, it was fine. After roaring, it instantly recovered completely.

“Ahhh!!!”

After recovering to its original state, the Demon Sea Star directly sank into the water, as if it wanted to launch a surprise attack from the bottom. However, at this moment, Shi Yu, who was standing on the ice, was very calm. Under the lock of transcendent super vision, even if the enemy dived into the water, in his eyes, it was no different from a frontal attack.

as

“Wave Fist!!” Xiao Qin didn’t know if a sneak attack in the water was useful, but she could only give it a try. The current Shi Yu made her very uneasy.

Boom!!!

After the Demon Sea Star hid in the water for a long time, the ice around Shi Yu suddenly shattered. Seven to eight wave cannons shot out from the water. Shi Yu ignored these wave cannons because these were only fake attacks of the Demon Sea Star. In front of its super vision that could see through the changes in energy, the ice and water couldn’t stop its control of the battle.

Crack!!

Then, with a feint, the Demon Sea Star in the water didn’t wait long. It smashed over with all its might. At the same time, Shi Yu slowly stabbed the sword spirit into the ground.

If Eleven were to face this Demon Sea Star, it might have a headache. This was because its cell speed was too difficult to deal with. Even if Eleven’s eruption could turn it into meat paste, it might not necessarily be able to insta-kill it. However, if it encountered Chi Tong, it could only be considered unlucky.

“Soul Slash.”

Boom!

As Shi Yu finished speaking.

In the next moment, a gray airflow erupted from the sword body, forming a soul sword domain. Moreover, it was wrapped in spiritual deterrence. The substantialized deterrence instantly turned into red sword feathers that filled the sky. Like an illusory sword dance and the cry of a hundred phoenixes, it swept towards the wave cannons in all directions.

As Shi Yu floated slightly in the air, the sword spirit he inserted in the ground increased in size with a bang under the incredulous expressions of Xiao Qin, Huang Qi, and the others. It immediately turned into a hundred-meter-long sword, like a divine weapon that suppressed the ocean. It instantly erupted with a terrifying soul pressure, and the sword pressure smashed onto the Demon Sea Star that was just about to break out of the ice.

In the sea, the Demon Sea Star sensed the huge pressure that descended from the sky. Its berserk eyes instantly recovered their clarity and revealed a frightened expression. In the next moment, with a final scream, with a splash, its eyes turned white from shock without a trace of injury and it kept falling into the sea!

Boom!!

At the same time, the sea roared, and huge waves swept in all directions.

Countless ice layers instantly turned into ice flowers.

“Cough.” At the same time, sensing that the Demon Sea Star had lost its mental connection with her and its strengthening had been interrupted, Xiao Qin took a step back in dizziness and looked up at Shi Yu, who had red hair and red eyes.

“This.” The other two majors were at a loss. Only the gem cat smiled and said, “Alright, the outcome has been decided. We should set

off.”

With that said, its Psychic power wrapped around the Demon Sea Star that fell to the bottom of the sea. With a designated Instant Transmission, it fished this guy out and sent it to Xiao Qin.

Demon Sea Star: @.@

Looking at the stunned Demon Sea Star, Xiao Qin was extremely silent. She looked at Shi Yu and said, “I lost, but you defeated me with your telepathy talent at level five. Are you a monster?”

The last person she recognized as a monster was the grandson of the commander-in-chief of the three armies, Ye Xing. This guy had stepped into the Legendary level before the age of 30, and he had contracted two overlord-level lives. He had even personally hunted three overlords. He was a monster in name only, even more abnormal than her sister back then.

As for Shi Yu, he was a monster in another sense. With his telepathy talent, he had such strength...

Of course, what she couldn't understand was Shi Yu's identity as the minister of the Environmental Protection Department.

And if he combined all of this... it didn't seem that difficult to understand.

“Monster.” Seeing Shi Yu still so calm, Huang Qi and Qin Mingzhi, who were not far away, were in disbelief.

If they remembered correctly, Shi Yu's sword spirit was still at the commander level in Dragon Palace City.

It was not a problem to break through to the monarch level now, but to immediately have such a terrifying strength after breaking through... If it wasn't a monster, what would it be if Shi Yu was given some time to strengthen his pet?

"You flatter me. I'm still far from it." At the same time, Shi Yu exited his possession form. Chi Tong also turned into a bird spirit and landed on Shi Yu's shoulder again. Shi Yu said, "And if it weren't for the accident that happened to your trump card, General Xiao Qin..."

This trump card of General Xiao Qin seemed to have suffered a lot of losses. Otherwise, she wouldn't have been transferred from the front line to the mechanical army.

"It's all in the past. It's not so bad now. Let's go then, Minister." After Xiao Qin lost, she acknowledged Shi Yu as a minister wholeheartedly.

"Alright." Shi Yu nodded.

At this moment, the most anxious one was still the gem cat. When it heard their words, it directly moved the few of them and their pets onto the battleship.

A moment later...

"Why is this big guy so slow..."

"Then take the battleship and teleport together."

"Forget it, forget it..."

At the same time, at the moment that the few of them headed to the Rainbow Islands, the initial version of the sequence ranking that countless people were looking forward to was finally out. This was the ranking of strength according to the various battle results of the Beast Tamers under the age of 30 in the country.

Moreover, this ranking quickly caused a huge commotion in Dong Huang.

Among them, there were many figures that Shi Yu was unfamiliar with, and also many figures that Shi Yu was familiar with.

For example, the first sequence: Ye Xing.

First place in the Three Armies Martial Arts Tournament, level-seven in the Beast Taming Space, legendary Beast Tamer, contracted two overlord-level lives, and had the battle record of killing overlords.

For example, the fifth sequence: Ji Feng.

A certain national individual champion that had graduated from Imperial Capital University. He had the Beast Taming Talent, All Things Affinity. Not only could a top-notch master have affinity with various ferocious beasts, but he could also have affinity with the power of nature. He could let his pet mobilize the power of nature at the monarch level. As an outstanding figure among top-notch masters, he successfully assassinated an overlord-level life form during the undercover totem area and escaped unscathed. He even had the battle record of defeating the genius of Bureau 11, Lu Qingyi.

For example, the seventh sequence: Lu Qingyi.

Although her reputation was usually not obvious, and the basic race of each pet was not high, as a genius archeologist, she had once obtained a huge opportunity in the Mythical Ruins. Some pets had received the Mythical inheritance and mastered the strongest super skill, "Mythical Revival". It could allow pets to easily fight above their level.

For example, the eleventh sequence: Zou Yun, Heavenly King Zou.

As the current Heavenly King of the Master Tournament, he was happy to mention the lucky number 11.

There was also the national individual champion, Gao Xuan, who was ranked 22nd. He was in the front row. He was the youngest at 21 years old. There was also the navy brigadier general, Xiao Qin, who was ranked 29th. They were all huge hot topics.

The current ranking was only ranked in the top 100 according to their past battle results and current situation. Among them, the contestants at the top had one characteristic, which was that they had fought with overlord-level creatures!

A certain someone had also signed up online. He didn't know if Dragon Palace City's battle results were included, but because he had never fought an overlord-level life form, his ranking... didn't seem to be high.

Chapter 343 Pirate King Ruins

On the endless ocean, a battleship was driving quickly, as if it was rushing to reincarnate. "Is there any more news about that legendary gem, such as its attributes, allusion, color, and size?"

The gem cat looked at Xiao Qin, its eyes shining. It drew circles with its claws and kept gesturing

As everyone knew, the attributes and colors of the evolution gem depended on the eye color and skill attributes of the gem cat after evolution.

Although it was a mutated species and had already used more than ten gemstones to evolve more than ten times and obtained many attributes, this didn't stop it from thinking about the characteristics of the new gemstones.

"So where are we going?" Xiao Qin's gaze stopped on Shi Yu. Didn't they say that they were going to the Rainbow Islands to meet the members of the Environmental Protection Department of Dragon Palace City? Why did she feel like she was going to treasure hunt with the gem cat? Why did this cat keep thinking about the legendary gem of the Pirate King?

"Wait, don't tell me you want to rely on this illusory legendary gem to break through?"

Suddenly, the corners of Xiao Qin's mouth twitched as she looked at the gem cat in confusion.

Now, it could be said that they still didn't know anything about the gem. They weren't sure if it was a strengthening resource, but this cat was already eyeing it?

How obsessed was it with breaking through?

Moreover, even if it was a strengthening-type legendary resource, the chances of an overlord breaking through to the totem level seemed to be pitifully small. This was even under the situation where the gem attribute and the pet attribute were completely compatible.

“You don’t understand.” The gem cat looked into the distance leisurely.

It was a mutated species. If it wasn’t picky, it was also an old gambler. As long as it was a gem, it could absorb it.

“It’s on the way anyway.” Shi Yu yawned, but he didn’t have much hope for the legendary gem.

Did it think this pirate king was a fool? He was about to die, but he still left the resources as a mystic realm for then?

The key was that how could a pirate be so kind?

However, he could understand the gem cat’s desire to break through to the totem level.

In this world, awakening to commander rank was basic battle power.

From monarch level to overlord level, it was a medium to high-level battle power.

Only after reaching the totem level could one stand at the top of the pyramid. Not only were pets pursuing this realm, but Beast Tamers were also pursuing it.

A few hours later.

Everyone drove out of the Dong Huang Sea Region and arrived at the Chaotic Sea Region.

After entering the Chaotic Sea, this was the territory of the totem area.

Between the Dong Huang Sea and the Seven Islands Sea, apart from Dragon Palace City in the sea, there were four other totem factions on the ground island.

They all had one unified characteristic, which was that they had all separated after the seven islands became independent. They had been enemies with the seven islands since ancient times.

These totems were the lava beasts born in the volcano.

The giant ape totem that had mutated and evolved because of the radiation of the moon.

The Orochi snake with eight heads, with an ancient background,

And the island god that had become a spirit and evolved into a floating island.

Among the four totem factions, there were humans who believed in them, in the territories of the eight-headed snake, the island god, and the giant ape.

As for the Lava Beast’s volcano island, it was purely a faction gathered by transcendent creatures.

Compared to the seven islands, Dong Huang was much luckier. There were basically no hostile totems around the sea area.

Because Dragon Palace City was too strong, the enemies were basically all destroyed by Dragon Palace City.

Although the eight-headed snake, the island god, the giant ape, and the other totems also coveted the Dong Huang Continent, they were all restricted by Dragon Palace City and didn't dare to cross.

However, although there were fewer threats in the sea, Dong Huang still had many threats on land.

For example, the current Dong Huang Continent was surrounded by eleven totem factions, and the situation was even worse than the seven islands.

More importantly, none of these totem factions... Factions that could last until today after many totem battles, were easy to deal with.

The larger totem faction was even similar to Dragon Palace City. It was an alliance formed by multiple totems. "A Pirate Ship has been discovered."

Not long after entering the Chaotic Sea, Xiao Qin, who had detected a special situation, frowned.

She observed the battleship monitor floating on the deck and said, "The most powerful Beast Tamer of the Black Snake Pirates is a master-level Beast Tamer with a bounty of 12 million."

Shi Yu also looked at the monitor. On the monitor was a huge ship. However, compared to the mechanical battleship they were riding, the other party's huge ship was still an ancient ship. Although the construction materials looked very expensive and the hull was very resistant, the difference in era could be distinguished at a glance.

Obviously, apart from the seven countries, most factions didn't have the ability to build mechanical lives.

At this moment, this huge black ship was being dragged by two incomparably huge monarch-level black sea snakes.

Shi Yu watched for a moment and said in surprise,

"The bounty is pretty high. This way, even if there are no legendary gems, it doesn't seem to be a loss to wipe out the pirates who gathered because of the news?"

Xiao Qin: "?"

Didn't they agree to meet the members of the Environmental Protection Department of Dragon Palace City in the Rainbow Islands?

It was fine if the gem cat cared about the gem, but why was Shi Yu also starting to be greedy!

Why did it change its mind again!!!

"Leave it to me!" At this moment, the gem cat was the most excited to discover a pirate. It happened to want to ask the local tyrant about the legendary gem.

After all, didn't Xiao Qin say that the news of the Pirate King Ruins had started to spread among the pirates first?

The gem cat's figure flashed and hung on the railing of the huge ship. It looked into the distance that Shi Yu and the others couldn't see with their naked eyes.

Chapter 344 Pirate King Ruins (1)

"The other party is at least 20,000 meters away from us," Huang Qi and Qin Mingzhi, who were standing guard beside him, said.

But just as they finished speaking, they immediately shut up.

Because as the gem cat's gem eye lit up, with a boom, under the sweeping of the powerful Psychic power, a huge tsunami 20 to 30 meters tall formed with a bang and charged into the distance.

"F*ck... So fierce." Seeing this, the two weak and pitiful majors swallowed their saliva. It was difficult to compare this fierce cat to the gluttonous cat in Dragon Palace City.

A few seconds ago.

On the Black Snake Pirate Ship, as a sea eagle landed, a pirate in charge of reconnaissance in the sky also informed his boss of the discovery of the Dong Huang Navy battleship immediately.

On the deck, a middle-aged man with a black snake tattoo on his face and a black singlet walked out with a frown. "The Dong Huang Navy and the Seven Islands Navy have been active recently."

"Let's avoid them. We won't provoke them. Let's leave quickly so they won't pester us..." Just as the pirate leader finished speaking, the dozen or so pirates on the ship widened their eyes and looked into the distance.

"F*ck, f*ck, Boss, sea, tsunami!!"

The Beast Tamer with the black snake tattoo looked into the distance and saw a monstrous sea roar that instantly formed. It was roaring towards them at an extremely fast speed.

Seeing this scene, the Beast Tamer was immediately stunned. Then, he cursed, "F*ck, didn't I just poach some sea beasts? Is this necessary?"

"Overlord level, it's definitely overlord level!!"

"F*ck."

The Black Snake Pirates often transacted with the Orochi Totem Nation to find some sea beasts with weak dragon bloodlines in the East Sea to hunt. Then, they would be transported to the Orochi Totem Nation. In the Orochi Totem Nation, snakes were respected, and dragon blood was the favorite supplement of the snake-type pets there.

However, in this way, it touched the interests of Dong Huang and Dragon Palace City. They were also wanted because of this.

In fact, they could understand why cannonballs flew out of the battleship and sea beasts swam out, but why the hell did a tsunami suddenly appear!

Boom.

As the tsunami approached, the two sea snakes turned around and fled with the pirate ship almost crazily. However, if escaping worked, wouldn't the overlord cat lose face?

After a roar, only a broken Pirate Ship was left swaying on the water in the distance. Under the power of a group of Pirate pets, the Pirate Ship barely didn't completely sink, but it had already lost its mobility.

On the shattered deck, a group of heavily injured Beast Tamers and sea beasts looked at the approaching silver sea battleship with anger, as well as the four humans standing on the battleship.

"A brigadier general and two majors, bad luck." The Beast Tamer with the black snake tattoo seemed to have long ignored life and death. At this juncture, he still had a fierce expression.

He stood on the circling giant snake and looked at the messy Pirate Ship and many missing crew members. Finally, he looked at the culprit of this attack.

His gaze leaped past Xiao Qin, who had the military rank of a brigadier general, and Huang Qi and Qin Mingzhi, who had the military rank of a major, and landed on the gem cat in front of Shi Yu. This was because the overlord aura of this gem cat made the two blackwater snakes he contracted tremble.

At the same time, Xiao Qin and the other two were also watching everything in front of them in silence.

As expected of the guardian overlord of Ancient Capital University.

Although it looked out of place, this power was really strong.

"Buggy, go!" At this moment, the gem cat didn't want to talk to these pirates at all. It decided on a hypnosis skill and wanted to directly hypnotize all the surviving pirates present. Then, it issued an order similar to that of a Beast Tamer.

Shi Yu and Buggy : "..."

Just as Xiao Qin and the others were still confused, the Butterfly of Imagination on Shi Yu's shoulder sighed. It controlled its spiritual consciousness to invade the dreams of these pirates and began to search for the information the gem cat wanted.

"Have you found it?"

The gem cat looked at the butterfly flying in the air in anticipation.

A moment later, Buggy's spiritual consciousness retreated from the boss of the Black Snake Pirates and nodded.

"Wu!! (Yes, it's said that a pirate has obtained some clues. The ruins left behind by the Pirate King are about to appear on the 'Hot Summer Island', so a large number of pirates in the Chaotic Sea, as well as some Beast Tamers from the Orochi and Giant Ape Totem Kingdoms, have already headed to Hot Summer Island. That place has already become the most chaotic island in the Chaotic Sea at the moment.)" Buggy sent a telepathic message.

With full-level Psychic power, it was also the first pet in Shi Yu's team to use telepathy.

The voice that fell into the minds of Xiao Qin and the others was the voice of a child.

“Wu... (Of course, its accuracy can't be confirmed.)”

As for whether any ruins would really appear, the captain of the Black Snake Sea Pirate Ship didn't know. He was only a small figure in the Chaotic Sea. He thought that he wouldn't gain anything by going to Hot Summer Island, so he planned to do more business while many factions were attracted by Hot Summer Island.

However, who knew that he would directly encounter Shi Yu and the others... He was unlucky.

“Yes.” After obtaining the specific news, the gem cat nodded in satisfaction.

“Target, Hot Summer Island.” It patted the boat with its cat claws, and the lazy voice of a big sister came out. However, this time, there was a very strong tone of anticipation in the laziness.

“...No.” At this moment, after a moment of silence, General Xiao Qin couldn't help but say, “Just the pirates are difficult enough. At the moment, although there are no legendary Beast Tamers in the East Sea, there are many powerful top-notch masters. In the totem country, there are countless ferocious creatures. It's too dangerous to go there.”

Chapter 345 Pirate King Ruins (2)

“Even if you're very strong, there's still a risk.” She looked at everyone.

Because her trump card had died in battle because of pirates, Xiao Qin was very cautious.

The gem cat sighed and wanted to go solo.

Because it was a professional at running away.

“If the news is accurate, the navy must have planted people to lurk on Hot Summer Island too, right?” Shi Yu asked.

“Yes.” Xiao Qin nodded.

“Why don't we do this? Let's split up.” Shi Yu licked his lips and said, “A portion of us will go to Hot Summer Island to take a look at the situation first, while the other portion will go to the Rainbow Islands to find reinforcements.”

At this moment, although Shi Yu felt that it was unreliable, the word ruins also had a natural attraction to him.

So many Beast Tamers were on Hot Summer Island. It shouldn't be a problem for them to keep a low profile and take advantage of the situation, right?

Shi Yu was also very confident in the escape ability of the gem cat.

In other words, if there was really a legendary gem that could allow Teacher Cat to break through by fishing in troubled waters, it seemed more convenient for him to have a gluttonous totem-level backer when exploring other dangerous ruins in the future.

“Isn’t this worse...”

“It’s alright.” Shi Yu patted Buggy beside him. Buggy immediately created an illusion clone.

At the same time, the bird spirit, Chi Tong, possessed Shi Yu. Shi Yu, who had entered the red-haired Chi Tong state, also created a red-haired clone beside him.

In the blink of an eye, two Shi Yu appeared on the ship, making Xiao Qin and the others reveal shocked gazes. Wait, this clone of yours didn’t make sense.

Shi Yu said, “So the problem now is whether to let the phantom clone go to the Rainbow Islands or to Hot Summer Island. This thing can still be maintained for a few days.”

Everyone : “...”

The gem cat revealed a praising expression. As expected of its student, it finally understood how to squeeze a clone dry. If it wasn’t very necessary, it could just leave it to the clone to settle!

With that said, it also created a clone, but this clone had a long face.

Hot Summer Island.

This was an island in the Chaotic Sea under the influence of the Lava Totem.

However, because the Lava Beast Totem slept in the volcano all year round and it didn’t nurture human believers, the only clansmen it had lived everywhere in the volcano, so the area near its habitat was basically a free area.

The environment on the island was hot, and the beach and fruit trees coexisted. The scenery was pretty good.

After spending another half a day, Shi Yu and the others arrived. However, after approaching, they didn’t dare to drive the warship over.

Shi Yu directly put the warship into the ruins space at the last minute. Shi Yu, Xiao Qin, Huang Qi, Qin Mingzhi, and the others, as well as the gem cat, changed their clothes and boarded a pirate ship to Hot Summer Island.

At the moment, there were already dozens of pirate ships of various sizes around Hot Summer Island. Countless skeleton flags fluttered in the wind. Shi Yu and the others’ arrival did not attract much attention.

As for where their pirate ship came from, it was naturally conjured by Buggy. At the same time, the clothes similar to the style of these pirates were also conjured by Buggy and temporarily draped over their bodies. This was not an illusion. The thing that was conjured by Buggy was a real object. As long as its power was not exhausted, it could exist forever, and it could even last longer than real similar items.

“We’re here.”

Just as they stepped onto Hot Summer Island, many shouts came from the surroundings. Among them were Dong Huang language, the seven islands language, and some unknown native language. As the

navy, Xiao Qin and the others had received professional training and could understand and talk to these languages.

Shi Yu had even less of a problem. He had the gift of telepathy and could even understand Panda language, let alone the different languages of humans. Even if he went overseas in the future, going to the seven islands, Rongguang, and Tingxiang could allow him to communicate with the local humans without any obstacles.

Therefore, there were still many Beast Tamers with the gift of telepathy...

“Let’s find a place to ask for information first,” Xiao Qin said helplessly after landing on the island.

He was originally here to join the Environmental Protection Department, so why did he inexplicably come to explore the ruins??

Was it the Marine Environmental Protection Department or the Marine Ruins Exploration Department?

However, when she recalled that Shi Yu was from Bureau 11 and that he was an archeologist, she was relieved. It was too much.

“Yes, Boss,” Huang Qi and Qin Mingzhi replied, making the corners of Xiao Qin’s mouth twitch again.

It had to be said that the scar on her face made her look more like a pirate than Shi Yu and the others.

In fact, with Xiao Qin’s identity and status, it wasn’t difficult for her to find a way to get rid of the scar. However, in order to commemorate her dead pet, she chose to let the scar from the battle be permanently preserved on her originally young and beautiful face.

Hot Summer Island wasn’t big.

But at this moment, many wooden houses and stone houses had already been temporarily built on the island.

From the construction traces, it was obvious that it was built through the power of pets. For example, using wood-element skills and earth-element skills to carry out the combination skill “Civil Engineering”.

Apart from the temporary buildings that could be seen everywhere, there were also traces of battle in many places. In such an orderless place, accidental conflicts were too common. Even if someone died, no one would care.

Just as Shi Yu and the others arrived at the island, two more pirates started fighting not far away. At the same time, a group of pirates saw that they were young and wanted to come over to collect the protection fee.

Chapter 346 Pirate King Ruins (3)

“Hey, are you... newbies? Do you know the rules?” As they walked over, Shi Yu raised his head slightly.

“Get lost.” As soon as he finished speaking, a terrifying deterrence emitted from his pocket. It was like a thunderclap exploded in their minds, making them instantly fall to the ground in a daze.

Xiao Qin and the others didn't take another look. Under Xiao Qin's lead, everyone walked to the street and entered a huge wooden house tavern that looked fancy.

After following Xiao Qin in, the fragrance of wine instantly came from the room, and it was very noisy. Shouts, curses, and the sound of alcohol kept circling in the smoke-filled tavern.

"A veteran..." Shi Yu muttered when he saw Xiao Qin's experienced movements.

"This is the garrison symbol of a pirate group that specializes in intelligence business." Beside him, Huang Qi and Qin Mingzhi were also knowledgeable and introduced it to Shi Yu.

After the four of them entered the tavern, Xiao Qin walked to the front desk.

Standing at the front desk was a female pirate with a fiercer expression than Xiao Qin.

"Drink?" she asked the few people who came in.

"Drink," Xiao Qin replied in the next moment, but when she heard this voice, the fierce-looking female pirate was immediately stunned.

She looked at Xiao Qin's face carefully and revealed an incredulous gaze.

"Hello." Then, she called her companions to take her place and looked at Xiao Qin and the others.

"Follow me."

This development stunned Huang Qi and Qin Mingzhi.

However, Shi Yu had already reacted thoughtfully.

Then, Shi Yu and the others were brought to another room by this person. Then, they entered the underground room with stone steps.

At this moment, Xiao Qin said, "They're with

us."

As soon as she finished speaking, Huang Qi and Qin Mingzhi were shocked.

Holy shit, the huge pirate group that often sold information in the Chaotic Sea was one of them?

This group of spies.

"Xiao Qin, you, why are you here!!" At the same time, the female pirate still looked at Xiao Qin in shock.

"Are you also here because of the rumors about the ruins of the Pirate King?"

"Sister Shi, let's not talk about this anymore. How's the situation on the island now?" Xiao Qin smiled bitterly and asked.

The female pirate named Sister Shi pondered for a moment and said, "Nothing happened. I can't even tell if the news is true or false."

“However, on this island, there are many extremely ferocious guys gathered. Among them, the most noteworthy is an overlord-level snakeman on the Eight Qi Island and an overlord-level Vajra on the Great Ape Island. They all have human servants beside them, and their strength is quite extraordinary.”

“Two overlords?” Xiao Qin was shocked.

“Yeah, it’s fine if the pirates were attracted over, but even the overlord races were attracted over. It’s probably their human servants fanning the flames behind their backs again,” Sister Shi said in frustration.

“Two overlords...” Upon hearing the battle power distribution on the island, the gem cat yawned. Serpentman and King Kong? They sounded stupid. If it wanted to run, the other party definitely couldn’t catch up to it. It was stable, alright?

If there was really a legendary gem, it would slip away!

“This cat...” Sister Shi looked at the gem cat that spoke.

“This...” Xiao Qin glanced at the gem cat and the freeloading Shi Yu and the others. She introduced them to Sister Shi.

“Huang, Qin, the rising stars have monarch-level pets. They’re my subordinates.”

After being stunned, Sister Shi cast an appreciative gaze at the two young hunks. Not bad! The navy was getting stronger and stronger, and the master-level Beast Tamer was getting younger and younger.

She looked at Shi Yu. This one was even younger. He looked less than 20 years old. Could he also be a master-level Beast Tamer?

Then, Xiao Qin looked at Shi Yu and said, “This is my new superior.”

Sister Shi: “?”

Sister Shi opened her mouth slightly. What?

Wasn’t Xiao Qin General Xiao’s daughter? A top-notch master less than 30 years old, a former super genius of the navy. Why, why did she suddenly have a boss around 20 years old??

What was going on?

At this moment, Shi Yu also narrowed his eyes slightly and said, “There’s no news about the ruins at all?”

“No, there’s no trace at all. We can’t even determine where the rumors came from,” Sister Shi immediately replied after being stunned.

Upon hearing that, Shi Yu looked at the gem cat and shrugged.

It meant, look.

It was most likely a rumor.

The gem cat pouted stubbornly.

It suspected that Shi Yu was targeting it!

Without the legendary gem and the ruins of the Pirate King, what good would it do!

He clearly wanted to explore it himself.

“Then, is there any ruin or stone statue related to the Pirate King on this island?” Shi Yu asked.

“Also, can we sell information? Can you help me spread information? Let’s say that in the Pirate King Ruins, apart from the precious legendary gem, there’s also a legendary quality Undying Ginseng. One whiff can extend one’s lifespan by a hundred years. If you put it in your mouth, you can even live forever...”

Baby Ginseng: Your head will explode.

Sister Shi looked at Xiao Qin in confusion. Who exactly was he? She couldn’t do this anymore.

Chapter 347 Threat from the Two Overlords

“Things related to the Pirate King...”

“No, but to be honest, this island is rumored to be the place where the Pirate King died... Does it count?”

Shi Yu : “...”

This...

Did it count?

Could it be that he had to kneel on the ground and listen for the spiritual hints or something??

Although it wasn’t impossible, it didn’t suit his handsome figure.

“Also, what’s this Undying Ginseng rumor?”

Sister Shi’s gaze kept lingering on Shi Yu and Xiao Qin.

It was as if it was saying to Xiao Qin, “Help, why don’t I understand your new superior’s orders?”

Xiao Qin was also a little confused.

What was the Undying Ginseng? Good question. She also wanted to know.

“Can you do it? I was just casually mentioning it. It’s alright if you can’t,” Shi Yu said indifferently.

“Yes, I can,” Sister Shi said. “But I heard that the Pirate King died of old age. If the Undying Ginseng is so powerful, how could the Pirate King die?”

Shi Yu fell into deep thought.

“Because the Undying Ginseng wasn’t mature yet.”

“It’s the greatest regret of the Pirate King that he couldn’t eat the mature Undying Ginseng. Therefore, he modified a mystic realm suitable for the growth of the Undying Ginseng and prepared to give it to the fated person along with the gem after it matures.”

“Well, is that alright?”

Xiao Qin, Huang Qi, Qin Mingzhi, and Sister Shi were silent.

Tears welled up in his eyes. Why did he say it out loud?

The gem cat was also a little teary-eyed. It suddenly suspected that the news of the legendary gem was also casually made up by someone like Shi Yu to deceive a naive and honest little cat like it.

...

At the same time, in the Rainbow Islands in the Chaotic Sea.

Half a month ago, this was still a paradise for poison-type creatures.

But now, everything had changed.

Every island was occupied by a group of shrimps and crabs.

A group of monarch-level ferocious beasts that ruled the island submitted without any resistance under the deterrence of the overlord that enveloped the archipelago.

When the Dragon Palace City army arrived, anyone who didn't submit would die.

On Qishui Island, the old leader of the Water Slime Susu, the Cleansing Water Sprite King, looked at the two members of the Ocean Environmental Protection Department in front of it in shock.

The famous deep sea overlord, the Sky Penetrating Whale, claimed to be a core member of the Ocean Environmental Protection Department of Dragon Palace City.

The son of the Sea Dragon King of the East Sea Dragon Palace City, the White Azure Dragon with a totem bloodline, called itself an ordinary member of the Ocean Environmental Protection Department.

Although it knew that the Marine Environmental Protection Department of Dragon Palace City was very strong, the Cleansing Water Sprite King didn't expect it to be so strong. Therefore, when Shi Yu first came, what did he mean by giving it the title of deputy minister??

Did it still count?

Facing the Sky Penetrating Whale and the White Azure Dragon, it didn't dare to mention it, nor did it dare to ask.

“Minister Shi Yu called us here,” the little white dragon that came to earn results said to the Cleansing Water Sprite King in a dignified manner.

“From today onwards, the Rainbow Islands are under the jurisdiction of Dragon Palace City. The Marine Environmental Protection Department wants to cleanse the ocean from here!”

“Yes.” The Sky Penetrating Whale nodded. It was here to be a bodyguard. As for its performance merits, it should be given to the little white dragon.

“Welcome, welcome...” The Cleansing Water Sprite King and the water sprites behind it expressed their welcome.

“Reporting...” But at this moment, a monarch crab rushed over.

“What’s wrong? Didn’t the suppression of the other islands go smoothly?” the little white dragon asked.

“No, no. General, Second Prince, a mysterious ship is coming from afar. The figures on it seem to be... the minister and the others.” “Huh?”

se

...

At the edge of the island.

The Sky Penetrating Whale, the little white dragon, and the Cleansing Water Sprite King heard the report and quickly came here.

However, when they saw the blurry figures on the ship floating over from afar, they instantly fell silent.

“Aba, Aba, Aba, Aba...” As it was too far from the main body, Shi Yu’s clone couldn’t withstand it just as it arrived at the destination and directly disappeared.

“Wu Wu Wu Wu Wu...” Buggy’s phantom could still persist, but because it wanted to slack off, its form was relatively rigid. At this moment, it suddenly didn’t know the meaning of its life and slowly disappeared.

Only the gem cat clone with a depressed face looked at its two dead shipmates in disappointment.

What a disappointment. They still lacked training

“Vice, Vice Minister?” “What’s going on?”

Seeing the gem cat, the little white dragon asked in surprise.

Was this a traveling illusion troupe?

What was going on?

“Great, they’re all here.” The gem cat was very happy to have successfully arrived at its destination.

“Has the Rainbow Islands been recovered?” It looked at the Sky Penetrating Whale, the White Azure Dragon, and the Cleansing Water Sprite King curiously. “I didn’t disappoint!! After my hard work...” The little white dragon started talking non stop to the gem cat, the deputy minister of the Environmental Protection Department, and talked about its contributions. It was hoping that it could increase in value as a cadre and obtain the Time Fruit.

“Wu!” The gem cat cast an appreciative gaze. As expected of a second-generation heir, it actually had an overlord bodyguard. This saved trouble.

“Very good!! Then the matter here has come to an end. Next, there’s something more important. Head to Hot Summer Island of the Lava Totem Domain and meet Shi Yu. He has prepared a large number of Ice Dragon Badges to be transported to Dragon Palace City,” the gem cat said.

“Hot Summer Island?” The Sky Penetrating Whale was stunned. “Wasn’t there a rumor that some Pirate King ruins appeared over there recently?”

“That’s right.” Seeing that the Sky Penetrating Whale had also heard of it, the gem cat’s eyes lit up. “Dragon Palace City also paid attention?” “No, it’s just a legendary gem. I don’t know if it’s real or fake. It’s not worth Dragon Palace City’s attention,” the Sky Penetrating Whale said honestly. After all, there were also many ruins, mystic realms, and even Mythical resources in the deep sea.

Chapter 348 Threat from the Two Overlords (1)

They really didn’t pay much attention to the things on the ground.

Gem Cat: QAQ.

Hot Summer Island.

Soon, some strange rumors began to spread on the island.

“Haha, have you heard? In the ruins of the Pirate King, it’s said that not only is there a legendary gem left behind by the Pirate King, but there’s also a legendary quality Undying Ginseng. It’s getting more and more ridiculous.”

“There are no gems, no Undying Ginseng. It’s all fake. Only a fool would believe it! Bah.”

“However, it’s said that this Undying Ginseng can not only increase the evolution aptitude of pets, but also increase the lifespan of both humans and pets. Why do I feel that it’s even more attractive than the unknown legendary

gem?”

The pirates discussed. Two overlords from the totem country also received the news.

Somewhere on the island.

A snakeman several meters long with a black snake tail and a human female upper body. Her upper body and face were covered in green scales and she listened to the news brought back by her subordinate and revealed a disdainful gaze.

“Undying Ginseng, I’ve never heard of it. Moreover, is the legendary gem you mentioned true or false?”

“We’ve been waiting for a day, but we still haven’t seen anything.”

Opposite the snake stood a young man in a cotton shirt. He said to the snakeman overlord in front of him, “It should be true. Although the treasure map passed down from the Space Emperor Era has been destroyed, the pirate factions who fought for it at that time clearly determined that the location of the treasure ruins was here.”

“Moreover, the opening time of the ruins recorded on it is recent.”

“Most importantly, according to the rumors, the Pirate King indeed died here.”

“I’ll believe you this time.” The overlord-level snake picked up a fruit beside it, opened its mouth, and swallowed it with a gulp.

Elsewhere, a huge black ape six to seven meters tall was sitting on a huge rock like an overlord, listening to the reports of the two strong men in front of him in boredom.

“An Undying Ginseng that can increase evolution aptitude and extend lifespan?”

“It sounds good, but are you sure that such a thing really exists?”

“Master, we’re not sure either. It’s information spread by pirates...”

“Then what are you guys talking about? Where’s my gem!?”

Now, many people were tortured by the news of the legendary gem and the legendary Undying Ginseng.

As for the guy who spread some information, he was walking leisurely on Hot Summer Island.

According to what Shi Yu knew, there were a total of six relatively powerful factions on the island.

The snake overlord and the black ape overlord from the totem country were considered two. They were respectively subordinates of the eight totems and the golden giant ape totems.

It was too common for many overlord-level creatures of various sizes to gather under some totems.

Apart from the two overlords from the totem country, the other four factions were all great pirates who had top-notch masters presiding over the Chaotic Sea and had battle records against overlords.

In this situation, Shi Yu felt that they were relatively safe on the island. After all, the gem cat was one of the few overlords on the island. Moreover, it had the rare spatial divine skill, Instant Transmission.

At this moment, not only were many pirates searching for traces related to the Sea King Ruins, but even Shi Yu began to take action.

“I’m counting on you, Yu.” The gem cat cosplayed as a pirate cat and walked arrogantly beside Shi Yu with a pirate hat and eye mask.

“Even if you say so...”

Shi Yu sighed.

“Believe in yourself, you can do it!”

The gem cat trusted him very much.

In its opinion, Shi Yu, this genius of Bureau 11, was more reliable than these pirates no matter what.

“Sigh, I’ll just try.”

“It might not necessarily work.”

Shi Yu sat down in silence and patted the ground.

He closed his eyes and activated his listening talent. He sensed the entire island and listened to the sound of the island.

Of course, as usual, he couldn't hear anything

However, Shi Yu had a killer move.

(You've been a Pirate King for half your life and plundered so many treasures. In the end, you only left behind a legendary gem. You're too poor.)

[No, there might not even be a single gem. After all, I haven't even seen a shadow of the ruins. Don't tell me it's all bragging.]

[In addition, after doing so many evil things like burning, killing, and looting, why don't I believe that you're so kind as to give me gemstones?]

Shi Yu expressed his thoughts to the ground of the island telepathically.

Generally speaking, he didn't think that this was useful, nor did he think that it was a good job.

However, the strange thing was that Shi Yu really heard some strange sounds in his daze.

"Ha ha ha..."

It was like the evil laughter of an old man!!

Apart from that, there was nothing else.

"Ha ha ha..."

"Holy shit." When the terrifying laughter entered his ears, Shi Yu's mind rumbled. He suddenly stood up with a shocked expression.

He could tell that it was the Voice of History.

The voices left behind by some life forms at a certain historical time on this island.

But this was the first time he had encountered such a situation.

"What's wrong?"

Seeing Shi Yu suddenly shocked, the gem cat immediately asked nervously.

"Why do I feel that something is wrong?" Shi Yu's face darkened.

"This island is indeed not simple. Some secrets are hidden, but it's definitely not a good thing."

"Let's run! Believe me, believe my intuition as an archeologist," Shi Yu said.

"Ah!" The gem cat was stunned, but it didn't hesitate. Considering the death rate of the members of Bureau 11, it teleported Shi Yu back to the tavern just now and went to meet Xiao Qin and the others again. It planned to leave first.

Chapter 349 Threat from the Two Overlords (2)

In the tavern.

Sister Shi was chatting with Xiao Qin and the others in surprise.

Xiao Qin and the others hid Shi Yu's identity.

However, some vocation information couldn't be hidden.

After all, before Shi Yu left just now, he had said that he wanted to investigate.

"Your new boss is actually an archeologist?" Sister Shi was surprised. Archeology and ruins seemed to be pretty compatible.

He just didn't know what good news Xiao Qin, his new superior, could bring back.

"I'm back."

As they were communicating, a white light suddenly flashed. Shi Yu and the gem cat appeared in front of them.

"So fast?" Shi Yu had returned less than an hour after leaving, shocking Xiao Qin and the others.

However, they realized that Shi Yu's expression didn't seem very happy. "What's wrong?" Shi Yu said, "This island might be hiding some unknown danger. Let's retreat a little first. Let's return to the sea and see the situation first."

"Sister Shi, your people should go too. Gather them."

Sister Shi was instantly at a loss.

However, after Xiao Qin's expression turned serious, she chose to believe Shi Yu immediately.

"Let's do as he says."

Shi Yu took a long breath. What did that laughter mean?

Forget it, He'd challenge this island when the reinforcements from Dragon Palace City arrive!

Forget it, I'll meet this island when the reinforcements from Dragon Palace City arrive!

However, while Shi Yu's idea was good, but accidents were always a step faster.

With a loud bang, Shi Yu and the others, who were about to leave the island, suddenly trembled.

Boom!

On the oppressive island, a huge vibration suddenly came from the sky, breaking the string in everyone's hearts.

The pirates in the tavern were instantly shocked and threw the wine aside.

"Holy shit, the ruins have descended."

“The ruins must have descended.”

The huge change instantly attracted the attention of everyone on the island.

It also made Shi Yu, Sister Shi, Xiao Qin, the gem cat, and the others widen their eyes in shock.

“Let’s go out first.”

There was an earthquake.

The ground cracked, and the buildings on the island instantly collapsed, forcing everyone out.

Boom!

When he arrived in the outside world, under the shocking vibration, a dark blue vortex seemed to appear in the sky.

And space seemed to have been sliced open, and a huge crack appeared.

The big pirates and two overlord-level foreign races all over the island revealed looks of ecstasy when they saw this scene.

“It’s indeed a ruin!!!”

“There really is a Pirate King Ruins!”

“Wahaha, legendary gem, legendary Undying Ginseng. No matter what treasure it is, it’s mine!”

On the island, the vigilance of many factions was raised to the extreme.

After all, if there was really a treasure, then a storm of blood would definitely arise on this island.

Treasures could only be obtained by the strongest faction.

Under the gaze of countless lives, the sky changed again.

A dazzling white light shone in the sky, as if a treasure had fallen from the vortex.

At the moment, although they couldn’t see what it was, the pirates attacked very quickly.

“It’s a gem, I can sense it!”

“There’s really a legendary gem!” At this moment, the most shocked was still the gem cat.

Just as the phenomenon appeared in the sky, it could feel the gem eye trembling crazily.

It felt like he had been hungry for a long time and would subconsciously drool when he saw delicious food.

Out of racial instinct!

“Did I sense wrongly? Since it’s a treasure, we’ll snatch it too!!!” Shi Yu shouted at the gem cat.

Damn, there was really a legendary-level treasure.

No matter what kind of sinister laughter it was, as long as it was a real treasure, it was a hearty and kind laugh.

As for the two overlords, he really wasn't afraid. With Etherealization and Concealment, these two overlords who weren't spatial overlords would be at a loss.

10 billion, 10 billion.

The treasure appeared.

In an instant, many pets flew into the sky and rushed towards the vortex. It was already impossible to tell which pet was which faction.

However, with a shocked roar and vibration, all the pets in the air froze.

“Roar!!! (Get lost!!!)”

Under the gaze of the pirates on the island, a black giant ape relied on its jumping power to directly leap into the sky. Moreover, its entire body emitted a huge overlord deterrence. A perfect-level deterrence instantly blew away the pets who wanted to snatch the treasure like a tornado.

With a wave of its arm, the monarch-level pet that blocked the way was instantly smashed into meat paste, making many pirates' faces turn pale.

“You're the one who wants to get lost.”

However, at this moment, the Black Ape overlord wasn't the only overlord on the island.

As an equally powerful deterrence spread, the two overlord deterrence formed a confrontation in the sky. It was as if the sky had cracked, making countless pirates reveal serious expressions.

Putting aside the group battle strategy, these two overlords should be the strongest two life forms on the island.

“This is for Lord Yaqi. You get lost.”

In the sky, a snakeman also flew up with the light, forming a confrontation with the giant ape. A moment later, under the collision, the two overlords were bounced back.

However, no one expected that at this moment, a third party suddenly stepped in. A powerful Psychic domain instantly spread and enveloped the sky. With the advantage of its attributes, it was the first to touch the gem. Then, under the envelopment of Psychic power, the gem quickly disappeared with the spatial ripples! “You're courting death!”

Seeing this, the snakeman overlord and the giant ape overlord were stunned for a moment before flying into a rage.

In the sky, they looked in the direction where the Psychic Domain came from.

Apart from them, countless pirates also acutely locked onto the direction.

Of course, the most shocked were still the pirates near Shi Yu and the others.

Sister Shi, Xiao Qin, and the others, as well as the nearby pirates, saw it with their own eyes. The gem cat beside Shi Yu erupted with powerful strength. When the snake person and the Black Ape overlord weren't paying attention, it used its Psychic and spatial abilities to combine and teleport the treasure to its side.

Then, the treasure instantly disappeared, as if it had never appeared in the world.

In fact, the gem cat had given the gem to Shi Yu to store in the ruins space the moment it snatched it.

Unfortunately, it couldn't be sloppy when absorbing legendary-level resources. It needed time, or else it would want to absorb it now.

"Meow." At this moment, after snatching the gem, the gem cat looked pleasantly surprised and excited.

The moment its Psychic power locked onto the gem, it already knew what it was.

It was a legendary gem, nine-colored jade.

It was a core crystal that could only be taken out by killing a totem-level creature, the Gem Beast King!

Legendary-level resources were all worth more than ten billion.

Moreover, it was a super resource that even money couldn't buy.

Among them, the nine-colored jade was even considered a relatively top-notch legendary resource. It contained the power of nine attributes!

However, snatching the treasure was equivalent to becoming a hatred attraction on the island.

In an instant, a terrifying deterrence enveloped half the island.

Countless figures moved crazily towards them. Among them, the snake overlord and the Giant Ape overlord were the fastest.

It arrived almost instantly.

Boom!

The giant ape overlord landed on the ground and smashed a huge pit. In the smoke, it stared at the gem cat fiercely.

The snakeman overlord followed closely behind with a ferocious expression.

This scene almost frightened Sister Shi, Xiao Qin, Huang Qi, Qin Mingzhi, and the others. They were instantly nervous to the extreme.

However, at this moment, Shi Yu and the gem cat were still licking their lips. They were not afraid at all because of the overlord's hostility. There was a gene called madness and risk in their bones.

"You're courting death!!!"

The overlord giant ape was the first to roar. However, it also discovered that the gem cat was an overlord. It didn't attack first, afraid that the snake overlord would benefit from it.

“Hand over the treasure!!”

The snake overlord looked at Shi Yu and the others fiercely and said, “Otherwise, you will become the enemy of the entire country.”

In the face of the threat of the two overlords, although Shi Yu also broke out in cold sweat, he still said calmly,

“Impossible. The so-called treasure belongs to the capable. I won’t hand the Undying Ginseng to you!!!”

“I won’t give you the Undying Ginseng even if I die!!!”

Chapter 350: Towering Emperor Self-Exploding Overlord

Undying Ginseng!!!

Upon hearing Shi Yu’s words, the two overlords’ hearts surged.

The pirates who rushed over were instantly extremely serious.

Only Sister Shi, Xiao Qin, and the others were silent.

Was this also part of his plan?

At the same time, Shi Yu stared at the two overlords and kept asking himself in his heart whether the cat was reliable.

< Name > Snake Lord

[Race Level]: Low-level overlord

[Level of Growth]: Overlord

Energy Points: 43,990,000

< Introduction > It’s a hybrid race created by the Orochi Totem with its blood essence. It’s a noble of the Yamata Nation. It’s extremely dangerous!!

< Name > Earth Demon Ape

[Race Level]: Mid-level overlord

[Level of Growth]: Overlord

Energy Points: 51,730,000

< Introduction > It’s one of the five overlord apes under the Seven Islands Giant Ape Totem. It’s extremely dangerous!!

Shi Yu realized that his third and eleventh bureaus could actually detect their specific origins.

Extremely dangerous...

“It’s alright to deal with one person alone, but not two together. But we can escape. Shall we?”

When the gem cat focused, it was also communicating with Shi Yu.

Shi Yu fell into deep thought.

At the same time, everyone was attracted by Shi Yu’s words.

“Undying Ginseng?”

“No legendary gem?”

On the island, not everyone immediately heard the Undying Ginseng’s rumors.

The time it took for the rumors to spread was still too short.

Only some relatively powerful factions obtained this information immediately.

Obviously, the two overlords knew this news.

“Only the Undying Ginseng?”

“Really? I don’t believe it.”

The snakeman overlord let out a sharp voice, more willing to believe that there were many treasures.

The eyes of this snake girl were surprisingly sharp.

Seeing the treasure disappear surprisingly, its gaze locked onto Shi Yu’s bracelet.

Suddenly.

Its gaze became even hotter.

She quickly figured out why the treasure had disappeared.

It didn’t expect that the human in front of it actually had such a treasure.

Spatial equipment!

Even in the entire Orochi Totem Country, there weren’t many overlords with independent spaces.

This snakeman overlord didn’t expect that apart from the treasures in the Pirate King Ruins, it could actually encounter humans with treasures.

It instantly revealed a greedy expression.

“Eightfold Dance!!!”

Boom!

In an instant, a strong aura erupted from the snakeman overlord. Black clouds lingered behind it.

Under the lingering clouds, along with its own tail, eight huge black tails that kept extending danced in midair, sweeping with a terrifying deterrence as it attacked Shi Yu and the others.

“Not good!”

Seeing this, Xiao Qin, Sister Shi, and the others were shocked. But in the next moment, the gem cat attacked.

The gem eye in its eye turned ice-blue. As it flickered, overwhelming cold air emitted from its body. In an instant, the cold air swept over, and the eight huge tails of the snakeman overlord froze in the sky!

Half of the snakeman overlord’s body was also frozen.

“That’s all?” the gem cat said disdainfully. It suddenly felt that this guy wasn’t very strong.

What a joke! After all, it was a pirate cat!

Would it be defeated by a mere snake!

“I’ve decided. I’ll crush them!” Shi Yu thought to himself after deciding.

Gem Cat+Baby Ginseng might be able to crush them.

The Dao Validation Battle was today!

“Damn it!!”

After failing to succeed in one attack, the snake overlord revealed a ferocious expression. Under the force of its entire body, frost shattered, and eight huge tails attacked again.

At the same time, she shouted, “Big guy, this human has spatial equipment, so he must have a pile of treasures on him. Let’s work together to destroy them first. When the time comes, we’ll split the treasures equally. Don’t forget, our countries were once allies.”

“Only this once.” The giant ape overlord beside her felt that it was alright.

Seeing this, Shi Yu retreated and said, “You’re bullying me with numbers. Are you afraid!”

Boom!!!

At the same time, the Snake Lord’s eight giant tails collided with the gem cat’s Psychic Shield, stirring up huge sand that swept across half the island.

“Hahahaha, you humans are the least qualified to say this,” the Snake Lord said with a ferocious expression.

“Yeah, in terms of shamelessness, you humans are still better!!”

Boom!!

At this moment, the Earth Demon Ape also completed its transformation. Its body increased exponentially, and its entire body was covered in black and brown matter. Its body was like dry land, and even its eyes emitted a dark light.

It cooperated with the Snake Lord and raised its fist, smashing it at the gem cat’s Psychic Shield.

“Holy shit, I already said one by one.”

What it was afraid of came. At this moment, seeing that the Earth Demon Ape had also joined the battlefield and wanted the righteous two-on-one, the gem cat instantly felt a headache, and its pirate hat was instantly blown away.

On this topic, the Snake Lord and the Earth Demon Ape seemed to have reached a consensus that humans were the most shameless.

This angered Shi Yu. He was such a simple person.

“Since you’re unwilling to let go, no one can get the Undying Ginseng. I choose to eat it directly!!”

With that said, Shi Yu stretched out his hand. A white light flashed in his hand, and a ginseng baby with its eyes closed was pulled into his hand from the ruins space.

At the same time, an incomparable fragrance bloomed from Baby Ginseng.

Every wisp of the max-level sweet aura was the feedback of his countless nourishing effects. Almost at the moment Shi Yu took out the ginseng baby, a shocking fragrance swept out like a violent wind!

As the fragrance spread from Baby Ginseng’s body, the entire sky was like the birth of the Undying Divine Medicine, condensing a very spectacular natural phenomenon in the sky.

The fragrance became clouds!

At this moment, the huge fragrance seemed to contain endless magic, instantly attracting the attention of all life!
