

Beast 381

Chapter 381 - Killing in the National League

Ancient Capital University.

After Shi Yu finished feeding Eleven the gold, he came out to check on Susu's cleaning results.

"Ning!"

It was still so perfect. The room was filled with a fresh aura.

If he could have had the combination of purification and sweetness earlier, he wouldn't have been so impatient in meditation.

"Beautiful."

"Ning!"

"Let's go, I'll take you around the school."

Shi Yu stretched out his hand. Susu hopped onto Shi Yu's arm and climbed onto his head.

Susu: (.í_ì.)

At this moment, Shi Yu looked like he was wearing a blue hat, looking especially young.

This was the first time Susu had come to Ancient Capital University.

If it was going to the Undead Battlefield to train next, it would have to stay here for a long time. Shi Yu planned to bring it to familiarize it with the environment first.

In addition, he had not returned for a long, long time. He didn't even participate in the final exam this year. Being this kind of student... was really awesome!

...

Battle Club.

As the National League was in two days, Shi Yu came over to take a look.

When he arrived, Principal Feng seemed to be there too. He should have gone out to take a look at the contestants of Ancient Capital University after giving him the Gold.

Dean He, the instructor of the battle club, was also there. He was lecturing the members of the battle club.

"There are no master-level teams participating in the team competition this year, so if you guys get the last place again this year, it won't make sense no matter what."

"Xu Ze, you're the vice president. What do you think Ancient Capital University will get this time?"

Vice President Xu Ze looked conflicted and said, "Well, it's hard to say..."

“You guys are cowards. I’ll set a number. The top five of the team. This time, all the members of the battle club will go to Demon Capital together, including the reserve members. However, regardless of whether you participate or not, you have to write a post-battle analysis of no less than 100,000 words according to the competition situation after the competition.”

As Dean He finished speaking, the expressions of the hundreds of battle club members below immediately turned bitter.

Damn it!

Even if the training was doubled, it was better than 100,000 words of post-battle analysis.

“Eh, Shi Yu is here.” At this moment, Principal Feng, who was listening to Dean He lecture the members, suddenly looked at the door.

To be honest, he didn’t have much hope for the team competition of Ancient Capital University. After all, the school’s resources were completely different from the resources of other schools. At the moment, he was hoping that Shi Yu and White Brook, the two members who participated in the individual competition, could do well.

This year, it was decided that the individual competition received more education funds.

In the past years, the results of Ancient Capital University were indeed not very good, so the annual education funds were basically crushed by Imperial Capital and Demon Capital University several times. But next year, they might be able to be generous for once.

The results of the Green Silkworm cocoon of the Feeding Department, the results of the Iron-eating Beast of the archeology Department, and in addition to the battle results of the National League, it was definitely the achievement of a top-notch school in the first tier.

And all of this... seemed to be thanks to the super genius Lu Qingyi picked up from that small county.

“Shi Yu?” Upon hearing Principal Feng’s voice, the hundreds of members of the battle club and Dean He looked at the door.

“Cough.” At this moment, Shi Yu also coughed dryly and entered in embarrassment. He didn’t expect everyone to be in a meeting.

“Dean He, Principal Feng.”

“Shi Yu, you came at the right time.” Seeing Shi Yu, Dean He smiled.

The other students also looked at this god in silence, their gazes extremely complicated!

The reason was very simple!

It wasn’t because Shi Yu had once swept through Imperial Capital University and defeated the careless vice-captain of Imperial Capital University with his equipment.

Instead, Shi Yu, who had disappeared from Ancient Capital University for a few months, had actually appeared in the top 100 of the Sequence Battle!!

This was what shocked everyone the most.

Although Shi Yu didn't feel anything at that time, once the ranking of the Sequence Battle was announced, every student of Ancient Capital University, especially the Beast Tamers of the battle club, was very shocked.

After all, the Beast Tamers in the Sequence competition weren't just university students.

In other words, among all the students of the nine major universities, only two had entered the top 100.

One was Gao Xuan, and the other was Shi Yu.

Even Bai Wenjie from Imperial Capital University, who Shi Yu had once defeated, and the official captain of Ancient Capital University, White Brook, were ranked hundreds away.

Although Shi Yu was quickly "killed" in the top 100 and his ranking fell, he had entered it before.

The top 100... The top 100 were all super geniuses who had already grown up, seniors who were several years older than them and had already graduated for a long time, or people who had reached the top of other systems. Among them, almost all were top-notch masters. In this situation, Shi Yu, a freshman, entering that? It made those who knew Shi Yu feel like they had seen a ghost.

In their impression, Shi Yu was only a high-level Beast Tamer. Although he could fight above his level, he was only a high-level Beast Tamer. However, looking at this ranking, there was no doubt that Shi Yu had definitely broken through again. Not only him, but some pets must have also reached the monarch level and their battle power was off the charts.

Not many people knew that Shi Yu had broken through to the master level in the Emperor Wu Ruins. Even fewer people knew that he had gone to Dragon Palace City. Therefore, this gave these Ancient Capital University students the illusion that it was suddenly unscientific.

Now that they finally saw the missing Shi Yu, many people started to guess what Shi Yu had experienced.

"What he had experienced..." In the crowd, Yu Shu, who knew part of the truth and had been to Dragon Palace City, cried.

Chapter 382: Killing in the National League (1)

What Shi Yu had experienced was the kind of thing that no one would believe even if he was telling the truth.

Therefore, Yu Shu was tactful and didn't publicize the matter of Dragon Palace City. In Yu Shu's opinion, Shi Yu's battle results in Dragon Palace City were indeed worth entering the top 100 of the Sequence battle. That Iron-eating Beast was a monster.

Not to mention these students, even Dean He didn't know at all. He hadn't reached that level.

However, he also had a guess. At least, he knew that Shi Yu had contracted the heroic spirit of the overlord race, Mu Huiyin, and the Butterfly of Imagination of the overlord race. He knew that Shi Yu was

a member of Bureau 11. He suspected that these two pets might have completely grown up under the secret investment of Ancient Capital University and Bureau 11 and reached the monarch level.

The other students didn't know Shi Yu's identity, but they knew that the cultivation resources Shi Yu obtained were definitely much more than these ordinary students.

"Shi Yu, you know that only you and White Brook are participating in the individual competition this time, right?" Dean He said.

"Well... But hasn't Senior Xu broken through yet?" Shi Yu asked subconsciously.

Among the nine major universities, it was said that including him, there were a total of 21 master-level Beast Tamers.

Apart from him, White Brook was the only master in Ancient Capital University. It was too much.

As the vice president, why was Senior Xu Ze so weak?

Xu Ze: "?"

Why was he being dragged into this? Damn.

It wasn't that easy.

"The mission of Xu Ze leading the team competition is also very difficult," Dean He said. "However, all of you still have to learn from Shi Yu. Shi Yu. White Brook isn't around today. As one of the few contestants in the battle club who can participate in the individual competition, do you have anything to say to everyone?"

After the new rules of the National League were changed, White Brook temporarily handed the mission of training the school team to Dean He. She returned to Wu Ling City to prepare for the individual competition. Her family also prepared some resources for her.

Shi Yu knew this very well. In his conversation with Senior Bai, he had already learned that White Brook had already strengthened three pets to the monarch level. They were the Immortal Feather Crane, the Nine-tailed Light Fox, and the Heavenly Light White Tiger. Although they weren't male or the heir of the Wu Ling Bai family, the ruins space, the spot in Dragon Palace City, and then a large amount of resources were invested. Senior Bai seemed to be very favored in the Bai family.

"What I want to say?"

After a moment of silence, Shi Yu said, "Everyone... good luck?"

Everyone : "..."

Was it any different from not saying anything!

...

The next day.

The group from Ancient Capital University started to head to Demon Capital.

There was a mighty super team of more than a hundred people, including teachers and students.

As for the other students who wanted to come and watch the battle, they had to think of a way themselves.

Of course, someone with connections like Senior Panda must have been taken advantage of by Shi Yu for a public trip.

Before leaving, White Brook arrived at Ancient Capital University. However, when she heard from Principal Feng that Lu Qingyi was cultivating in the ruins and wouldn't go to watch the battle, she couldn't help but be very sad.

However, being able to stick to the beautiful panda senior, White Brook quickly recovered her good mood.

Demon Capital.

At this moment, a large number of geniuses from the nine major universities had already gathered in the National League Village near the East Sea.

Soon, the team battle and the individual competition final would be held in the East Sea Arena near the contestant village.

Of course, the venue of the individual competition, an island filled with ferocious beasts, was naturally elsewhere.

In the contestant village of Ancient Capital University, after everyone arrived, White Brook, who had not seen her teammates for more than half a month, immediately gathered everyone and asked about the training and tactical arrangements.

Even though Dean He had already arranged it properly, she was still worried and planned to check again.

Shi Yu also sat beside her in boredom. The more he listened, the less hope he had for the team competition of Ancient Capital University.

After White Brook dismissed the ten main team members, White Brook looked at Shi Yu, who was playing with his cell phone in the corner.

"How's your preparation?" she asked.

"Not bad."

"What are you doing?"

"Looking at the video edited by Buggy... It plans to post Mu Huiyin Legend Two..."

The corners of White Brook's mouth twitched. So, the National League was around the corner, and it was fine if this guy's pet didn't train seriously... But it actually didn't even rest and was doing this?

Although... she had also subscribed...

"Don't you have any sense of urgency?" White Brook asked.

“It doesn’t matter if it’s others, but there’s still Gao Xuan!”

Gao Xuan, a super monster who was only 21 years old and ranked in the top 20 of the Sequence Battle, couldn’t be ignored.

The Sequence Competition Committee ranked Shi Yu’s battle results in Dragon Palace City at more than 80 and Gao Xuan at more than 20. This meant that Gao Xuan definitely had hidden trump cards and stronger battle results.

“Don’t worry, my goal is the same as Senior Lu. It’s the world competition. If I can’t kill indiscriminately in the National League, I don’t have to go to the world competition.” Shi Yu was very serious.

He didn’t underestimate the enemy. The number of trump cards he had prepared was definitely not what the beast-eared girl could imagine.

White Brook: !!!

Damn it, he was bullying her for not being qualified to go to the World Tournament.

“Your pets are really at the monarch level,” she asked.

“Yeah.” Shi Yu smiled.

When they were in their natural state, at least.

Apart from that, he had a bunch of fancy combinations.

“Alright then.”

White Brook sighed and felt a little tired. Compared to worrying about Shi Yu, she should worry about herself first.

...

At this moment, geniuses from various top universities were gathered in the National League’s contestant village.

Chapter 383: Killing in the National League (2)

Imperial Capital, Ancient Capital, Demon Capital, Divine Capital, Star Capital, Demon Capital, Spirit Capital... At the same time, special rare pets from various cities appeared everywhere in the contestant village with Beast Tamers. It could be said to be an unprecedented grand occasion.

Media teams shuttled through the contestants’ village one after another, looking for contestants to interview.

On the Internet, there were also endless speculation discussions about the National League.

Although it was a rare occasion, Shi Yu still chose to return to the contestants’ dormitory to lie down. The competition would begin tomorrow, and today was another boring day.

Tomorrow was the individual competition preliminaries.

At that time, 21 masters would compete on an island filled with ferocious beasts. The final contestants could enter the finals to determine the individual champion.

The individual competition preliminaries, team competition, and individual competition finals would determine the order of the National League this time.

After returning, Shi Yu continued to take out his cell phone and swipe it.

It wasn't because of the discussion about the National League on the Internet, but because the preview of "Lost History 001: Legend of Mu Huiyin" released by Buggy had passed the review.

It was another short and powerful super short film that was more than a minute long. It was as short and weak as the Green Silkworm.

However, although it was short and weak, there were many explosive scenes added this time.

The ID [Time Traveler] had increased by 100,000 fans since it was flipped over by the official account of Ancient Capital University.

Many people were looking forward to the follow-up of Mu Huiyin's legend.

Unfortunately, he disappeared for nearly a month.

Therefore, the moment preview 2 passed the review, many strange comments were added.

"Grandpa, the author you were following has finally updated."

"It's fine if it's a monthly, but why is it a preview! This is too much!"

"I'll like it first before looking at it. I'll develop a good habit..."

These were the comments before watching the content.

As for the comments after watching the content...

"Wu wu wu wu, General Mu Huiyin's childhood was so miserable. Not only was she ostracized by her clansmen, but she also suffered the torture of the fire bloodline."

"Because the fire bloodline in her body is too strong, she has no choice but to contract an ice-element pet to suppress it? Hiss, no wonder General Mu Huiyin contracted an ice-element pet even though she clearly has a fire talent. The bloodline power of a hybrid human can actually be so strong? She needs an ice dragon to suppress it?"

"I also have a hybrid friend. There's no such situation at all. It's just that she has too much hair and can't suppress it."

"Holy shit... Emperor Shi used undead and time-element super skills to transform General Mu Huiyin's bloodline power into a heroic spirit and sealed it in the ruins?? Really??"

"Damn, why does this ruin look so much like the heroic spirit ruins of the ancient capital?"

This time, in the preview of "Lost History 001: Legend of Mu Huiyin", the information revealed was that General Mu Huiyin of the hybrid race was tortured by the power of her bloodline, so she had no choice

but to contract an ice-element pet to suppress her strength. By a freak combination of factors, she obtained the title of Ice Dragon General. At the same time, she displayed General Mu Huiyin's tragic childhood and the suffering brought by her mixed blood during her growth.

Although an expert had already analyzed the previous video, after this time, everyone finally confirmed the reason why General Mu Huiyin erased her traces.

Because her mixed blood was not accepted by the world.

Indeed, before the era of Dong Huang and the empress dynasty, the mixed-blood humans had always been treated as foreign races.

Such a bumpy experience made many modern Beast Tamers sigh.

Their hearts ached for General Mu Huiyin.

However, what made countless Beast Tamers even more concerned was that General Mu Huiyin's bloodline had actually turned into a heroic spirit form and even existed in the world??

It was sealed in the heroic spirit ruins of the ancient capital by Emperor Shi??

Soon, this news was completely confirmed.

Because the official account of Ancient Capital University reposted this video again.

At the same time, the University commented, "According to archeological discoveries, General Mu Huiyin's heroic spirit was indeed sealed in the heroic spirit ruins, and the so-called heroic spirit ruins are..."

The Ancient Capital University account began to explain what the Heroic Ruins were.

Then, the main point came.

"Not only the heroic spirits of General Mu Huiyin, but the heroic spirits of the generals under Emperor Shi also exist in the heroic spirit ruins."

"Our Ancient Capital University organizes students to go to the heroic spirit ruins every year to communicate with the ancient heroic spirit and inherit the will of the predecessors. Those with outstanding talent even have a chance to obtain the recognition of the heroic spirit and contract them. It's better to act than to be tempted. Welcome to the archeology Department of Ancient Capital University next year. Hug.jpg."

The conspiracy of the admissions office of Ancient Capital University!

No, it was a conspiracy!

All the Beast Tamers wiped their saliva and suspected that this was the recruitment method of Ancient Capital University.

Being able to come into contact with the heroic spirit ruins was indeed the core competitiveness of Ancient Capital University.

However, not everyone liked undead.

Even if its predecessor was an ancient sage, some Beast Tamers couldn't accept it.

They felt that under the same conditions, it was inferior to other races. The dragon-element resources in the Imperial capital and the mechanical pets in Star Capital were similarly attractive.

Ancient Capital University had its own core competitiveness, and so did other universities. Every university could take out rare pet resources that were not inferior to the heroic spirit ruins to attract new students.

Moreover, the conditions for the heroic spirits in the heroic spirit ruins to recognize their master were indeed high. There was no doubt about this.

But this time, it had to be said that General Mu Huiyin was too charming. A hybrid human, red hair, red eyes, powerful strength, and a beautiful general. The combination of multiple labels made many Beast Tamers go crazy.

"I understand. I'll apply to Ancient Capital University next year!"

"Is it too late to change schools now?"

"Damn it, I want to go to Ancient Capital University. My mom signed me up for Star Capital University."

"I'm eight years old now. I can go to university in ten years. I wonder if I still have a chance..."

"Dream on. Also, Ancient Capital University, transfer me money." Shi Yu looked at the comments and shook his head.

However...

During the National League, if everyone knew that he had contracted Mu Huiyin's heroic spirit in advance, would he become the public enemy?

Chapter 384: Deterrence that Exceeded Transcendent

Union calendar, December 1, 178.

After lying down for a day, the National League officially began.

Millions of gazes focused on the National League.

Those with qualifications came to the scene of Demon Capital.

Without any conditions, they waited for the live broadcast in front of their cell phones and television.

"Dong Huang Radio and Television Station, Dong Huang Radio and Television Station."

"This is the East Sea District of Demon Capital. The 114th National League is about to begin."

On the live broadcast of the National League, the female host said, "I'm the host, Han Lu."

The male host said, "I'm the commentator, Gu Yu."

These two had already presided over the five National League competitions. To the audience who paid attention to the competition every year, they were all familiar faces.

Soon, as the two of them spoke nonsense, colorful fireworks rose outside the East Sea Arena. The school flags of the nine Beast Taming Universities of Dong Huang also fluttered.

At the same time, nine teams of more than ten people began to enter the venue from different directions.

In the Ancient Capital University team, Shi Yu followed behind White Brook. Behind him were the high-level Beast Tamers who participated in the team competition.

After the contestants and audience were in place, on the platform of the venue, an old man with a big beard started to talk.

Shi Yu looked at the bent, white-haired, and bearded old man. He knew him, but not completely.

If Shi Yu wasn't wrong, the other party should be the person in charge of the eighth bureau, Zhong Yan, Principal Feng's superior.

He had the powerful battle results of finding and teaching a Titled Legendary and a Legendary Beast Tamer.

As for his own strength, that was unknown.

Beside him was a very beautiful long-haired lady with a very cool aura. She was a legendary Mechanic, Xiao Shuang, who was also General Xiao Qin's sister.

It was said that the security of the individual preliminaries of the National League was handled by her overlord-level mechanical life form, the Eye of the Stars.

As for the last very dignified middle-aged man, Shi Yu also knew him. He was the president of the Beast Tamer Association of Demon Capital City, the legendary Beast Tamer Xia Man. Because it was Demon Capital's turn to hold the competition this year, this person naturally had to attend.

As for why Shi Yu knew him... It was because this guy was the husband of Dr. Zuo, who had developed the Ice Phoenix Moth. His daughter, Xia Qingwei, had even been Shi Yu's assistant at the Feeding Conference... He had clearly not been promoted previously. This promotion speed was pretty fast.

"Cough." Good heavens, the three important people who attended this year's National League were not simple.

A long time later.

Director Zhong and President Xia finally finished speaking. Many contestants looked at the platform again. At this moment, Madam Xiao Shuang, who was wearing a black trench coat, stood up. With a thought, her figure teleported under the platform.

As she walked, she said, "I'm Xiao Shuang. Due to the special rules of this year's National League, I'll be the special guest judge. Next, the contestants of the individual competition of the nine major universities, come and draw lots."

“The result of the draw will determine where you will be teleported to the competition island, Glass Island. Glass Island covers an area of 40,000 square kilometers. The internal environment is complicated. The initial location will affect the outcome of your competition to a certain extent.”

“The time for the individual preliminaries is one day. In one day, you need to eliminate two contestants on the island, regardless of the school. Only in this way can you meet the conditions to advance to the next round. If the conditions aren’t met after a day, you will fail to advance.”

“During this process, the more contestants are eliminated, the more rewards can be divided in the end. At the same time, the island is filled with ferocious beasts. Every monarch-level ferocious beast hunted can also receive ten million yuan.”

When they heard this rule again, everyone felt that it was very difficult!

There were only 21 contestants in this individual competition.

Moreover, they were all master-level Beast Tamers.

In this situation, it was as difficult as ascending to the heavens to eliminate two people in the specified time.

Moreover, although there were no overlord-level ferocious beasts on Glass Island, there were definitely many wild monarch-level ferocious beasts. In other words, after arriving at the island, not only did they have to worry about competitors, but they also had to worry about the threat in the wild.

It was still more comfortable to play the team competition in the arena.

“Let’s go.” In the Ancient Capital University team, White Brook called Shi Yu and called him to draw lots.

“Yes.” Shi Yu nodded.

At the same time, a total of 21 master-level students from the nine major universities walked to the designated location of Legend Xiao Shuang.

During this process, the 21 people were observing each other, but there was actually no need to observe.

Because they were all old acquaintances. They had fought in the National League last year.

The only unfamiliar face was probably Shi Yu.

Therefore, most people sized up Shi Yu.

[That guy who evolved from an archeological Iron-eating Beast.]

[A genius who developed the Green Silkworm cocoon and contracted the Butterfly of Imagination.]

[I heard that he defeated the vice-captain of Imperial Capital University in the Imperial Capital exchange event.]

[Top 100 at the start of the Sequence Battle, a freshman. Are you kidding?]

The contestants from the other universities muttered the information they knew in their hearts.

Among the many contestants, even Gao Xuan's presence couldn't suppress Shi Yu. After all, Shi Yu's achievements had crossed several domains.

"There are many more masters than last year."

On the platform, as the contestants of the individual competition went to the preliminaries to draw lots, Old Master Zhong Yan chuckled.

"Your daughter is also here, right?"

"She just broke through not long ago, and she's just here to make up the numbers. It's good to train," President Xia said with a smile.

Chapter 385: Deterrence that Exceeded Transcendent (1)

"Which one do you think the individual champion will be?" Zhong Yan touched his beard and said.

"Well..." President Xia pondered. He wanted to say Gao Xuan, but there was indeed a variable this year.

He looked at Shi Yu, who was drawing lots. Others didn't know about Shi Yu's battle results in Dragon Palace City, but his daughter, Xia Qingwei, had also gone to Dragon Palace City. As a father, he naturally knew.

Therefore, it was very likely that this year's champion would be between Shi Yu and Gao Xuan. It depended on how much progress the two of them had made during this period.

One was a genius from the fourth bureau, and even the rewards for this year's competition were specially customized for Gao Xuan.

One was a dual domain genius from the third and eleventh bureau. He had even created such a huge miracle in Dragon Palace City. His rise was so fast that it was difficult to understand.

"I'll bet on Shi Yu," President Xia said with a smile.

As for Bureau Chief Zhong, he laughed and said, "Then I'll bet on Little Gao."

Below.

Everyone had basically finished drawing lots. Shi Yu didn't know what kind of place the "Yunying Mountain Range" was. He didn't understand the detailed map of Glass Island in advance. It didn't matter. In any case, with their speed, as long as they used the right pet, it wasn't difficult to search for opponents on an island of 40,000 square kilometers.

"Prepare to land on the island."

After drawing the lot, Xiao Shuang said straightforwardly.

At the same time, his gaze, like President Xia and Director Zhong, paid more attention to Gao Xuan and Shi Yu.

One was a junior in the mechanical field... She had also heard of the other from her father and sister.

Crushing two overlords, was this for real?

If that was the case, what was the point of Gao Xuan fighting? Wasn't the resources for the fourth round of the National League wasted?

Of course, she didn't believe this, because his father and sister didn't know what was going on either.

Xiao Shuang was more willing to believe that Shi Yu had relied on external forces, just like how Gao Xuan could use small forbidden weapons.

In short, she felt that it was a little ridiculous. She planned to let the Eye of the Stars broadcast Shi Yu's situation more later.

Boom.

In the sky, the sea of clouds broke open, and a hundred-meter-long mechanical huge eye that looked like a blue star appeared.

"Gulp." Countless people suddenly looked at the sky.

< Name > Eye of the Stars

[Level of Growth]: Overlord

"!!!" This big guy reminded Shi Yu of the Eye of Heaven during the Ancient Capital vocation assessment. He was very emotional.

Soon, countless pillars of light shot out of the Eye of the Stars in the sky and landed on Shi Yu and the others. There were a total of 21 contestants.

Then, everyone slowly disappeared from the spot!

Only countless spectators and the team competition contestants of the nine major universities looked at the venue eagerly.

"In the next 24 hours, the Eye of the Stars will broadcast the situation of the 21 contestants at the same time. When they don't encounter other contestants and monarch ferocious beasts, the live broadcast will choose to use the blurry distant scenes. When they encounter each other or encounter monarch ferocious beasts, the clear live broadcast will be carried out," Xiao Shuang said.

"Please arrange your time reasonably." She mainly said to the other team battle contestants. After all, tomorrow was the team battle immediately after.

If they stayed up late to watch the individual competition preliminaries, although it was not a burden considering the physique of a Beast Tamer, it would more or less affect their state.

"Dong Huang Radio and Television Station, Dong Huang Radio and Television Station."

"I'm Han Lu. I'm Gu Yu."

"In the next 24 hours, we will explain the entire preliminaries of the National League's individual competition."

At the same time.

On the big four-sided screen of the East Sea Arena, in various places in the contestant village, on various major Internet platforms, and on the television channels, the two commentators in charge of presiding over the National League continued to show their faces.

Even Xiao Shuang, Zhong Yan, and Xia Man sat quietly and watched the two of them explain. These two were both experienced masters and industry insiders. It was not a problem for them to explain the National League.

Moreover, Xiao Shuang would also be in charge of supplementing the situation that they couldn't explain through the Eye of the Stars.

"It's starting!"

"I'm a little nervous." At this moment, the students of the nine major universities looked at the disappearing pillar of the school and the gradually lit up live broadcast scene. They swallowed their saliva.

The principals and teachers of the various universities had also arrived. At this moment, Principal Feng brought Dean He and the others to a certain place to watch the live broadcast.

There were a total of 23 live broadcast images. Among them, 21 small images were in the corner and were blurry. They matched 21 contestants. As for the clear main image, it was the area mainly responsible for broadcasting when the contestants had any conflict. The remaining small image was the profile picture of the host, Han Lu and Gu Yu.

"As the contestants will be scattered and teleported to various places on Glass Island at the start, the contestants won't encounter each other for the time being."

"Before that, I, Han Lu, will introduce these 21 contestants from the nine major universities in turn."

"Firstly, it's the personal champion of the last National League, the leader of the champion team, the genius Mechanic from Imperial Capital University, contestant Gao Xuan!"

"According to what I know, he even participated in the Sequence Battle this year. Now that he's ranked 24, he can be said to be quite impressive!"

"This means that among the young Beast Tamers under the age of 30 in Dong Huang, contestant Gao Xuan's strength is enough to rank in the top 30! You have to know that he's only 21 years old this year."

"Look, he's starting to summon his trump card machinery."

Chapter 386: Deterrence that Exceeded Transcendent (2)

"Middle-level overlord race, Ultimate Holy Dragon Beast!"

At this moment, the situation of Glass Island had already clearly appeared in the scene. On a plain, Gao Xuan, who was wearing a silver battle suit, was teleported here.

After arriving at Glass Island, Gao Xuan's expression was calm. A huge spatial array appeared behind him. A handsome Ultimate Holy Dragon Beast mecha descended. It bent down and stretched out its huge hand to lift Gao Xuan up and send him to the cockpit.

[Gao Xuan, charge!]

[Ultimate Holy Dragon Beast, Handsome Explosion!]

[Champion, consecutive championship.]

[Sequence ranking 20+. Captain Gao will definitely be stable this year. It's up to the Ultimate Holy Dragon Beast to kill!]

On the Internet, as Han Lu introduced Gao Xuan, it immediately caused a flurry of comments.

At the scene, the old principal of the Imperial Capital University and the director of the battle club of the Imperial Capital University were all smiling. Those Imperial Capital University students, such as Yin Zhengfan, who was sitting in a corner of the audience, also trusted Gao Xuan very much.

At the moment, all 21 contestants had arrived at Glass Island.

Shi Yu was no exception.

After arriving at Glass Island, he was teleported to the Yunying Mountain Range. The geographical environment was surprisingly good. The mountains were clear and the rivers were beautiful. Naturally, there was sufficient energy. The surroundings were clear, and his vision was wide open. Seeing this, Shi Yu was amused.

He suddenly had a bold idea.

Didn't they say just now... that the more contestants eliminated in the individual competition, the more monarch-level ferocious beasts they defeated, and the more rewards they would get in the end?

If he meant if, if he could "pack up" the remaining 20 contestants on this island, would the reward explode?

What final? The preliminaries could just be the end.

It was still the same thing. If one couldn't even kill everybody in the National League, why would they go to the World Tournament to hunt overlords and totems?

"Even hunting monarch ferocious beasts has rewards, but among these people, apart from Gao Xuan, no one should be so bored as to provoke monarch ferocious beasts," Shi Yu muttered to himself.

After all, the reward for entering the main competition was even richer. Among the first place prizes, just the Hundred Transformations Stone alone was worth more than a billion. The rewards for the other rankings weren't bad either. On the other hand, if they gave up everything to hunt monarch ferocious beasts and didn't enter the main competition, it would be a huge loss.

"The competition authorities specially cleaned up the overlords of Glass Island, leaving behind an empty shell of Glass Island without overlords for the contestants to harvest resources. Then I won't be polite."

“If the others hunt another monarch, I’ll lose 10 million. I have to think of a way to move faster. It’s best if I can attract the ferocious beasts and contestants at the same time.”

He wondered how many monarchs there were on Glass Island. If there were enough, it would be a considerable number.

With that said, Shi Yu took a deep breath and made a decision.

At the same time.

After Han Lu, the commentator of the National League, spent a few minutes introducing Gao Xuan’s battle results, she immediately switched to Shi Yu.

As a host, she had also done her homework. Naturally, she had to choose the popular contestants to introduce first.

As the only two Beast Tamers who entered the top 100 of the Sequence battle, it was never wrong to introduce them first.

“The second contestant we’re going to introduce next, I believe everyone is not unfamiliar with him.”

“He’s from Ancient Capital University. He’s only a first-year student of Ancient Capital University now. He’s only 19 years old. It can be said that he’s the youngest contestant in this competition. More importantly, although he’s young, his achievements are very legendary. He’s a first-year student of the archeology Department of Ancient Capital University, Shi Yu!”

“When contestant Shi Yu was a Beast Tamer intern, he discovered the evolution method of the Iron-eating Beast through archeology. Later on, he even personally researched the important result of the evolution chain of the Green Silkworm cocoon, which was beneficial to the country and the people. He’s a very outstanding young talent. More importantly, contestant Shi Yu’s strength seems to be very terrifying.”

“According to the information, contestant Shi Yu has also signed up to participate in the Sequence Competition of the world competition. The Sequence Competition Committee even set contestant Shi Yu’s initial ranking at 81. This is very unbelievable. Now that contestant Shi Yu has appeared here, perhaps he has already proven his strength like us... A master below the age of 20 is still very rare. Next, let’s see how contestant Shi Yu performs.”

“Uh.” Just as the commentator Han Lu finished speaking, Shi Yu began to summon his pet in the scene.

Unlike Gao Xuan, Shi Yu didn’t directly summon an ace battle beast that could be used to escort him to kill everyone.

With countless eyes staring at the live broadcast screen, Shi Yu stretched out his hand and summoned a... ginseng baby?

A small ginseng baby appeared in Shi Yu’s hand, making most of the audience fall into deep thought.

[Baby Ginseng?]

[What’s going on...]

[He's tired before it starts?]

It was fine if he came to a dangerous wild area and didn't summon his pets to protect himself, but what did he mean by summoning a ginseng baby??

Moreover, a genius who had entered the top 100 of the Sequence competition contracted a ginseng baby?

"As expected of you." In Ping Cheng, although the young Beast Tamers who had participated in the supplement heat and imitated Shi Yu's method had become useless themselves, they were very emotional when they saw Shi Yu, who was getting stronger and stronger, taking out the supplement immediately.

They lost!

Of course, these were all people who didn't understand Shi Yu. They only felt that Baby Ginseng was a transcendent race and a supplement.

Those who had a deeper understanding of Shi Yu, such as students from Ancient Capital and Imperial Capital University, froze when they saw this ginseng baby.

Chapter 387: Deterrence that Exceeded Transcendent (3)

This was not an ordinary transcendent ginseng baby, but... a battle ginseng that knew attack skills!

Moreover, its strength was not bad.

Some students and teachers of Imperial Capital University were even more solemn. Shi Yu's ginseng baby had undergone an evolution in Imperial Capital University.

The old principal of Imperial Capital University was one of the few people who knew about the Undying Ginseng. Although Yin Zhengfan and the others didn't know about the Undying Ginseng, they had also seen the commotion caused by the ginseng baby at Imperial Capital University.

At that time... the fragrance that filled the sky almost attracted all the pets in Imperial Capital University, including overlord-level pets.

How nutritious was this ginseng baby?

Now, when they saw Shi Yu choose to summon this pet immediately, they revealed serious expressions. What was Shi Yu... doing?

"Holy shit."

In the next moment, a shocking scene occurred.

A fragrance that was almost corporeal bloomed from Baby Ginseng.

A fragrance visible to the naked eye flowed into the sky like a tide.

Even through the live broadcast, the Beast Tamers had never seen such a ridiculous sweet aura skill.

In the impression of people, sweet aura skills were silent.

However, on Shi Yu's ginseng baby, it seemed to have gone from being soft and silent to a fragrant tornado.

As the fragrance spread from Baby Ginseng's body, the entire sky was like the birth of the Undying Divine Medicine, condensing a very spectacular natural phenomenon in the sky.

"Gulp." Everyone could clearly hear the grunt coming from the live-stream screen.

"Whose voice is it?"

"It sounds a little mechanical."

"Could I have heard wrongly?"

[Eye of the Stars]: Aggrieved.jpg

On the platform of the East Sea Arena, Xiao Shuang's face was speechless. She sensed the desire of the Eye of the Stars for the ginseng baby from afar.

Wait, was there something wrong? Why was a mechanical pet of the Eye of the Stars interested in the ginseng baby?

Xiao Shuang was very puzzled.

However...

This ginseng baby...

Xiao Shuang looked at the ginseng baby in Shi Yu's hand on the screen with a deep gaze. She had heard from her father and sister that Shi Yu had... crushed two overlords through a ginseng baby!!

Now that Shi Yu had summoned Baby Ginseng, what did it mean??

No... Perhaps the intention was already very clear.

As Baby Ginseng appeared, it emitted a fragrance. In an instant, with Shi Yu as the center, the countless ferocious beasts in the surrounding area began to stir. Moreover, this area... was still expanding!!

This fragrance slowly spread to the entire island with the wind of nature. Although the smell gradually faded, the fragrance was like a fuse that connected to the richest center!

If nothing went wrong, soon, the entire island would be able to smell this fragrance!

"This..." The host, Han Lu, clearly immediately realized Shi Yu's intention. She found it very difficult to understand." Contestant Shi Yu... Contestant Shi Yu, he summoned Baby Ginseng and made Baby Ginseng release a large-scale sweet aura skill!!"

"As everyone knows, the sweet aura skill is a special fragrance to relieve fatigue, but in the wild, many creatures are actually attracted by this sweet aura. What is he doing? Could it be that he wants to attract the ferocious beasts?"

"Using this method to attract monarch-level ferocious beasts to hunt?"

"Looks like contestant Shi Yu is very confident in his strength."

Gu Yu: "I think so, but the sweet aura skill of contestant Shi Yu's ginseng baby... seems to be a little too terrifying. What level has this ginseng baby's strength reached... Could it have reached the monarch level? Monarch-level ginseng baby?"

"Everyone, look. There's already a terrifying number of ferocious beasts moving in the direction of contestant Shi Yu!!"

Initially, the two commentators wanted to introduce the 21 contestants before there was any conflict.

However, who knew that this Shi Yu would not follow the routine and cause such big news?

As a result, they couldn't move the scene away and could only concentrate on explaining Shi Yu's situation.

At this moment, under Xiao Shuang's mental instructions, apart from the basic commands, the Eye of the Stars also began to mobilize more images from other places.

Soon, the situation around Shi Yu was broadcasted in the form of an aerial view.

In the next moment, all the spectators gasped and their breathing almost stopped.

"This..."

"How is that possible?"

"There are at least 100,000 of them!!!"

Because in the live broadcast, as Baby Ginseng released its fragrance, at least 100,000 ferocious beasts, from transcendent to monarch level, walked towards the mountain range where Shi Yu was with red eyes.

They involved various races and types. They were all ferocious beasts that posed a huge threat to humans in the wild recorded in textbooks. During their journey, the sky and the ground were pitch-black and dense. Just the tens of thousands of transcendent-level Killer Bees led by the Queen Bee made all the spectators' hair stand on end.

"What kind of sweetness is that?"

"This Shi Yu is crazy."

"With such a big commotion, forget about the ferocious beasts, the other contestants nearby should also be attracted by him."

The rules of this preliminaries were originally to let every contestant be careful of ferocious beasts in the wild and other contestants. Everyone was like hunters hunting in the dark forest and needed to be careful. It was best to defeat others through sneak attacks and picking up scraps. In the end, Shi Yu released a signal flare into the sky to mark himself?

Chapter 388: Deterrence that Exceeded Transcendent (4)

Looking at the dense army of 100,000 ferocious beasts marching towards Shi Yu in the aerial map, countless spectators gulped.

Even the beast tides encountered in some cities were only so-so.

“The analysis results are out...”

“Among these ferocious beasts, there are a total of ten monarch-level ferocious beasts. About 3,000 commander-level ferocious beasts, and 110,000 transcendent-level ferocious beasts.”

The commentator, Han Lu, gulped and said.

A beast tide of this level could almost instantly paralyze a third-level city like Ping Cheng.

And this was only attracted in less than a minute after Shi Yu summoned Baby Ginseng??

In the East Sea Arena, Senior Panda sat nervously in her seat.

“Don’t worry.” A moment later, a female voice came from the side.

A big white cat had arrived at some point in time and joined the audience of Ancient Capital University.

“Teacher Ying!” Lin Xiuzhu was surprised to see the gem cat.

At the same time, the contestants on the competition island might not know the situation, but the teachers and students of the nine major universities outside the island widened their eyes in unison. They looked at all of this in disbelief and at Shi Yu’s crazy actions.

It had attracted nearly 120,000 ferocious beasts!!

Ignoring everything else, just the ten monarch-level ferocious beasts were enough to make several contestants suffer.

“This kid is dishonest. We can’t let Qingwei find such a boyfriend in the future.” On the platform, President Xia’s gaze was deep.

“Even if all his pets master perfect-level deterrence, it’s still difficult to disperse such a huge beast tide, right?” Director Zhong clicked his tongue.

Wasn’t this inviting trouble?

Generally speaking, deterrence couldn’t deal with monarchs of the same level. As for the 100,000 ferocious beasts, although they could be dealt with by deterrence, there were too many of them. Even if they used deterrence, they would be exhausted.

Moreover, the monarch commanding them would also help resist the deterrence. In this situation, Shi Yu’s situation was rather dangerous.

Even if these pets dispersed in the end, Shi Yu himself would probably consume a lot of energy.

At this moment, no one cared about the situation on the other contestants’ side.

All eyes were focused on Shi Yu.

At the moment, there were already ferocious beasts very close to Shi Yu.

As for Shi Yu, he also sensed the aura of wild beasts from all directions.

“Eleven, come out. Let’s settle one wave first.”

After Baby Ginseng, Shi Yu summoned his second pet.

An extremely confused little Iron-eating Beast that was more than a meter tall appeared beside Shi Yu.

The moment it came out, its body subconsciously emitted a faint deterrence. Although the hundreds of ferocious beasts near Shi Yu looked at Baby Ginseng with burning eyes, they didn’t dare to act rashly.

[Iron-eating Beast...]

[Shi Yu summoned the Iron-eating Beast. I watched the Iron-eating Beast Knight grow up.]

[So what does he do next? Don’t tell me he’s going to let the Iron-eating Beast fight. In my opinion, slip away. It’s more exciting to run after showing off.]

Countless comments quickly flashed across the major live-stream platforms.

At this moment, Shi Yu began to do serious things.

“Make as much noise as possible and attract all the contestants.” Shi Yu gave Eleven an order.

“Wuu!!” Eleven patted its chest, indicating that it would take care of it.

In the next moment.

The Little Iron Eating Beast walked a little away, and then white light began to linger on its body.

Boom!!!

Under the light, a terrifying deterrence erupted from its body.

Apart from that, an invisible white flash of flames erupted from Eleven, who was covered in white light, like an erupting volcano. Blue electric arcs flickered in the huge flames that were several meters tall.

Under this light, Eleven’s body suddenly enlarged. It was two meters tall, five meters, ten meters, twenty meters, fifty meters, a hundred meters, and it was still increasing!!

At this moment, a shocking change made the audience watching the scene suddenly open their mouths and quietly watch everything.

Countless people widened their eyes and looked at a little Iron-eating Beast that was more than a meter tall. It suddenly multiplied to more than a hundred meters.

Although they knew that there were Beast Tamers who could master the skill of enlarging after the Iron-eating Beast evolved, wasn’t enlarging to this size... a little against common sense?

In the giant transformation, Eleven’s form was also changing.

As the light dissipated, its entire body was wrapped in hard black armor... Its face and head were covered in armor that had already become the color of silver lightning.

Apart from that, the place where its limbs touched its body, the iron ring-shaped thick armor also turned silver-white with lightning lingering.

Mysterious, domineering, honorable, and wild were the qualities revealed by the iron-eating beast today.

At this moment, Eleven's originally black eyes had completely turned into a sky-blue color that contained lightning. Coupled with the black and white armor and the flowing electric current on the armor, it looked extremely ferocious, like an overlord that could suppress everything!!

"Roar!!!" Eleven, who had entered the sharp state and erupted with all its might, immediately roared at the sky, its king's might erupting!!

Dao Proficiency Deterrence!!!

Deterrence of this level had already exceeded the transcendent deterrence of the binding object and skill. It could already imprint deterrence in the depths of the souls and bloodlines of other lives, branding it in the ethereal natural power, fusing, and triggering the powerful natural power to display its might.

In other words, Eleven didn't need to consume a huge amount of physical strength at all. Just once, it could trigger the lightning here to transform into its own will and consciousness to deter the ferocious beasts that came!

Chapter 389: Deterrence that Exceeded Transcendent (5)

Boom!!!

With Eleven's roar, the sky immediately exploded with a loud bang that resounded through the sky. A shocking bolt of lightning swept across the sky and emitted incomparably dazzling lightning, like a divine judgment.

An incomparably terrifying bang instantly appeared in the hearts of the 100,000 ferocious beast army that rushed over one after another. It resounded in their ears. The explosive deterrence exploded their minds, hearts, souls, and bodies, making their pupils turn white. They fainted one by one. Before they arrived at the location of the ginseng baby, their consciousness collapsed uniformly!

Bang! Bang! Bang! Bang! 100,000 thuds fell to the ground. It was almost like an earthquake as it resounded in this place. Be it transcendent, commander, or even the ten monarch-level ferocious beasts in the beast tide, after witnessing the deterrence lightning that flashed in the sky, all of them lost their ability to fight without exception. Their eyes turned white from fear. For these ordinary monarchs with less than two million energy points, ordinary monarchs whose deterrence proficiency level had yet to reach perfection, this shocking lightning was the difference between a god and a mortal. It was impossible to surpass.

The hundred-meter-tall beast looked down at the fallen ferocious beasts and instantly killed 100,000 ferocious beasts. To Eleven, there was nothing to be proud of. Its full-level royal deterrence might only be useful in this situation. It couldn't be helped. Although its deterrence level was very high, in the team internal competition, its teammates were also transcendent-level deterrence. It was really not useful.

However, for Eleven, it might be a very ordinary thing, but for the audience watching the live broadcast at this moment, it was an unbelievable thing that was enough to make their eyes explode and almost pop out.

“This...”

Looking at the 100,000 ferocious beasts that instantly fell to the ground with a thunderclap, even the ten not weak monarch-level ferocious beasts lost their ability to fight. The two hosts in charge of explaining the National League instantly opened their mouths wide, completely unable to explain this deterrence.

At this moment, the comments in the major live-streams stopped for a moment. Countless spectators looked at the scene in disbelief.

The audience at the scene was similarly confused. Not to mention them, even the top big shots on the platform were extremely silent.

Then, Zhong Yan took a deep breath and said in disbelief,

“This is...”

“This is a deterrence that has exceeded the transcendent level and reached a higher level. At the moment, this level of deterrence has never appeared on a Beast Tamer’s pet in the modern era. Only those foreign kings are qualified to have it.”

“This Nine Li Battle Beast... What’s going on?”

First, the fragrance slowly spread throughout the island, followed by a thunderclap. Shi Yu indeed instantly became the center of attention. Even from very far away, many contestants sensed the energy fluctuations here and were attracted by the commotion here. They carefully rushed over to take a look at the situation. One of the faster ones had already arrived on an elemental pet at a low altitude. However, he looked at the pets lying on the ground nearby with confusion in his eyes.

At the contestant area of Ling Du University, at this moment, the school leader of Ling Du University was surprised to see his contestant appear in the area where Shi Yu was playing on the blurry small screen. His eyes immediately widened and his gaze exploded.

Damn, silly child, run!!! Why did he go there for no reason? Don’t get targeted by that monster!!!

That kid wasn’t kidding. He... really wanted to attract all the monarchs and contestants to kill them together!

Chapter 390: The Lucky Person Who Was Crushed by the Slime

“Dong Huang Radio and Television Station, Dong Huang Radio and Television Station!!!”

“An extremely unbelievable scene has appeared!!!”

“After contestant Shi Yu attracted a large number of ferocious beasts with Baby Ginseng’s sweet aura skill, he actually instantly killed all the ferocious beasts!!!”

“Ten monarchs, thousands of commanders, 100,000 transcendents. Unbelievable. According to the recorded information, even in the main battlefield of the totem battle, there has never been a record of a monarch-level pet instantly killing 100,000 ferocious beasts!”

“This should still be deterrence, right???”

After Han Lu and Gu Yu were shocked, they quickly reacted and immediately explained.

Since he didn’t know how to explain this phenomenon, he would repeat the live broadcast in words. It was an old basic skill.

They were professionals!

[What the hell?!]

[I’m not blind, I can see.]

[Who can explain what’s going on? Is this reasonable!! I’ll believe it if you say this is an overlord-level Iron-eating Beast.]

A question mark from the audience.

Boom.

In the scene, lightning flashed continuously, and occasionally, lightning arcs landed on Eleven.

Eleven used the lightning of nature to charge itself, shrinking and recovering.

In the blink of an eye, they saw the huge beast that had grown to a hundred meters and returned to its cute mini form. The audience was silent for a moment.

[I remember that when Shi Yu participated in the vocation assessment, although its Iron-eating Beast could also expand, it was only to an acceptable level of ten meters...]

[And now, this size... reminds me of those totem beasts in movies.]

[Can other contestants still play? They’ll get insta-killed!]

“Contestant Shi Yu’s performance exceeded everyone’s expectations. Regarding contestant Shi Yu’s performance, Director Zhong Yan has something to say.”

The host, Gu Yu, also knew that the two of them couldn’t explain this situation alone, so she could only ask the three guests for help.

Soon, the camera turned to the platform and to Bureau Chief Zhong, President Xia, and Legend Xiao.

At this moment, the three of them were also very silent. Director Zhong pondered for a moment and said, “It’s indeed as Master Gu Yu said. This is a deterrence skill!”

“However, it’s a very unusual deterrence.”

“After training the deterrence skill to the expert level, it can form a monarch’s aura. It can stun creatures with willpower, weak minds, and much weaker strength than itself on a large scale.”

“However, there’s still a limit to the monarch aura. It definitely can’t reach the level of stunning ferocious beasts of the same level. Moreover, just now, contestant Shi Yu’s Nine Li Battle Beast didn’t show an obvious monarch aura. Instead, it was accompanied by a thunderclap that resounded through the sky that stunned 100,000 ferocious beasts. This is no longer a monarch aura, but a higher-level deterrence!”

“It’s not perfect, nor is it transcendent. Instead, it has exceeded the transcendent realm. With a thought, heavenly lightning is born, turning lightning into will, and intimidating everything in its place. This skill even exceeds the entanglement skill of transcendent deterrence. Since ancient times, animals have feared fire, lightning, and all natural disasters in nature. This is the fear engraved in their bloodlines, and that deterrence just now has already reached the level of fusing the power of nature to deter everything.”

“As for why this Nine Li War Beast can train deterrence to such an extent, I also find it very difficult to understand...”

“However, to be able to stun a monarch of the same level, that Nine Li Battle Beast is undoubtedly a natural king. The pet cultivated by contestant Shi Yu might have created a record, a miracle.”

There were very few overlord-level creatures that had mastered transcendent-level deterrence. As for creatures that had mastered higher-level deterrence, they were too rare in the areas that humans could come into contact with.

As soon as Director Zhong finished speaking, the scene was silent. A deterrence that exceeded transcendent proficiency??

For most spectators, although the skill Deterrence was very strong, their impression of it was that it was a divine skill to torture noobs and was useless in battles of the same level. However, after seeing Shi Yu’s Iron-eating Beast instantly kill 100,000 ferocious beasts, at this moment, they couldn’t say that this skill was just a divine skill to torture noobs.

Their deterrence could only torture noobs because its proficiency wasn’t high enough!

Even ten monarch-level ferocious beasts of the same level were instantly insta-killed!!! There were even 100,000 low-level ferocious beasts!

“Hahahaha.” At this moment, in the audience seats of Ancient Capital University, Principal Feng was shocked for a moment. After a long silence, he laughed.

“We might be able to give an explanation here!”

Beside him, the panda senior, Lin Xiuzhu, was so excited that her face was red. She looked at the changes on the screen. Eleven rushed forward, and so did Shi Yu.

Their commotion immediately attracted Xiao Shuang’s attention. The camera turned to the audience seats of Ancient Capital University and to Principal Feng and Senior Panda.

“Principal Feng, what do you think of contestant Shi Yu’s performance in your school?”

“That’s indeed a deterrence that exceeds transcendent. As for why Shi Yu’s Iron-eating Beast can train its deterrence to that extent, that’s because Shi Yu’s Iron-eating Beast is from the royal family of Iron-eating Beasts, and the royal family of Iron-eating Beasts is one of the strongest king beasts!!”

“According to archeological discoveries, the legendary Beast Tamer, Emperor Wu, had the thought of changing his trump card after seeing the Iron-eating Beast King! This is enough to prove the Iron-eating Beast’s potential!”

“And the one who discovered all of this is Shi Yu. He traced the history of the Ancient Capital’s Iron-eating Beast Ruins and cracked the Emperor Wu Ruins in Wu Ling City. He discovered the truth of this loss and even found a way to help the Iron-eating Beast awaken its royal bloodline. His Nine Li Battle Beast has already completed the final evolution towards the Iron-eating Beast King, on the basis of the information about the Nine Li Battle Beast that has already been announced!”
