

Beast 391

Chapter 391: The Lucky Person Who Was Crushed by the Slime (1)

“Now, the race level of his Iron-eating Beast has already reached the high-level overlord race. It’s the indisputable strongest race, a true beast king. It’s normal for it to have such a performance.”

As soon as Principal Feng finished speaking, the entire Dong Huang Domain trembled again. Countless spectators looked at the old man on the screen in disbelief.

Everyone was naturally not unfamiliar with this person.

The principal of Ancient Capital University, one of the most famous big shots in the archeology world.

There was no reason for everyone to not believe what he said.

Shi Yu had discovered the iron-eating beast’s overlord race evolution method after the Iron-eating Beast King evolution method?

Iron-eating Beast King?

High-level overlord race???

Legend had it that Beast Tamer Emperor Wu had also wanted to use the Iron-eating Beast as a trump card?

As the old principal of Ancient Capital University revealed this news, countless people widened their eyes and looked at the little Iron-eating Beast on the screen in disbelief again.

/

Holy shit, holy shit, holy shit, high-level overlord race???

Didn’t Shi Yu already contract a Butterfly of Imagination of a middle-level overlord race? He actually had another monarch of a high-level overlord race?

Higher than the race level of Gao Xuan’s Ultimate Holy Dragon Beast???

F*ck, no wonder Shi Yu could be ranked 81st by the Sequence Competition Committee!!!

Everyone believed the racial level mentioned by Principal Feng without a doubt, because if it wasn’t a beast king of a high-level overlord race, the deterrence that instantly killed a beast of the same level just now was impossible to explain.

Now, everyone looked at the screen and was deeply shocked. The Iron-eating Beast King was so strong.

Shi Yu was so strong.

If nothing went wrong, from today onwards, the Iron-eating Beast race would immediately become the target of all Beast Tamers! It would be even crazier than before!

At the side, the panda senior was still excited. Alright, alright!!!

She started planning for the incoming panda popularity.

...

The level of attention in the National League couldn't be said to be small. This royal deterrence, together with Principal Feng's certification, instantly made the reputation of the Iron-eating Beast King sweep through the country.

This made Yu Shu, Yin Zhengfan, and the others, who had fought Shi Yu in the vocation assessment from the start, silent and at a loss.

It felt familiar.

Back then, Shi Yu had promoted the archeological discovery of the iron-eating beast's evolution in the vocation assessment.

Again?

Addicted?

If he really went to participate in a world competition, would he go to the world competition to promote archeological discoveries again and show off to the totem clans?

"This old man..." Director Zhong looked at the smug Principal Feng and felt a sense of loss. Good lord, this old man had really picked up a super genius this time.

Beside him, President Xia was a little stunned. In his impression, it was already impressive that Shi Yu could nurture a pet like the Butterfly of Imagination. In the end, there was an even higher race??

"Hey, hey, hey, no way..." Legend Xiao Shuang was also silent. Although she was shocked, at this moment, compared to the Iron-eating Beast, she was still more concerned about that ginseng baby!

Did these people forget something?

That ginseng baby instantly summoned 100,000 ferocious beasts. No, the ferocious beasts from other places on the island were still coming over one after another. It was also very terrifying, even more terrifying than that Iron-eating Beast, alright? Moreover, it had a battle record that was suspected to have crushed two overlords...

[Why do I suddenly feel that Captain Gao is unstable?]

[F*ck, I've only seen high-level overlord races on television.]

[Captain Gao is definitely stable. Don't forget, the most impressive thing about mechanical pets is that they can fuse with Beast Tamers. Moreover, Captain Gao has the same Beast Taming Talent as that person.]

Many supporters of Gao Xuan from Imperial Capital University suddenly wavered.

However, a large portion of them still believed that Gao Xuan was stronger.

"Contestant Shi Yu has once again made us understand his astonishing achievements in the archeological field."

“Iron-eating Beast King, the Iron-eating Beast King that instantly killed 100,000 ferocious beasts. Impressive!!”

The host, Han Lu, and Gu Yu, were very teary-eyed. This wasn't their fault. They couldn't explain anything about this new archeological discovery that hadn't been announced.

Fortunately, at this moment, there was other content to explain.

“Contestant Shi Yu's ginseng baby is still continuing to create fragrance. Thunder is also continuing to rumble above contestant Shi Yu. Apart from absorbing a large number of ferocious beasts nearby, the huge commotion here seems to have also attracted some contestants.”

“I originally thought that it would still be a while before the contestants would meet, but I didn't expect that because of the commotion created by contestant Shi Yu, the distance between the two contestants would be at the stage where they were about to encounter each other so quickly.”

This change surprised the two commentators again. Damn, they had only introduced two of the 21 contestants. They originally wanted to finish introducing them for a while, but now it looked like they had to get to the point.

The entire Glass Island was 40,000 square kilometers, larger than several Demon Cities added together. They didn't expect the contestants who had deliberately scattered could encounter each other so quickly. As expected, apart from deliberately attracting ferocious beasts, this Shi Yu was also deliberately attracting contestants from other places on the island!

“Let's see which contestant is closer to contestant Shi Yu...”

The scene changed.

What entered the screen was a green pet more than three meters tall. It looked like a large sparrow. Although it looked like a bird, if one observed carefully, they could tell that it wasn't an animal, because its body and every feather was like a green tornado, fluttering messily.

Chapter 392: The Lucky Person Who Was Crushed by the Slime (2)

< Name > Tornado Sparrow

[Race Level]: High-level monarch

[Level of Growth]: Monarch Level

< Introduction > It's a wind-element life form. It can create a tornado with a flap of its wings. It's extremely dangerous!

On this Dragon Tornado Sparrow rode a fully armed young man in a green battle suit. Everyone recognized him at a glance. After all, there were only 21 contestants in total. There were too few people.

“It's the captain of the school team of Spirit Capital University, Li Qiu and his pet, the Dragon Tornado Sparrow!!”

Spirit Capital, the capital of elements, produced elemental pets. As the representative of Spirit Capital University, Li Qiu's trump card pet was also an elemental life form, and it was the Tornado Sparrow known for its speed and destructive power.

At this moment, not only were Li Qiu and the Dragon Tornado Sparrow attracted by the fragrance, but they were also attracted from afar by the huge lightning just now. For a moment, Li Qiu and the Dragon Tornado Sparrow actually didn't think that there were contestants nearby. Such a charming fragrance made the Dragon Tornado Sparrow's heart pound. It only made them think that some natural treasure had appeared nearby.

However, the Blood-eating Ants, Killer Bees, Gale Sparrows, and other ferocious beasts everywhere nearby also made their hair stand on end and they shuddered.

"Something's wrong, something's wrong, something's wrong. It's definitely not as simple as the birth of a natural treasure. From the looks of it, they seemed to have fainted from the lightning. What exactly happened? For safety's sake, we can't go. Let's observe and hide first."

Li Qiu felt a sense of danger.

"Jiu!!!" However, when the Tornado Sparrow smelled the fragrance, it really couldn't hold it in anymore. Its entire body was restless and uneasy. Under the surging airflow, the strong wind made Li Qiu's lower body hurt.

Delicious!!!

The Dragon Tornado Sparrow shouted.

"Bear with it. With such a big commotion, the other contestants will definitely be attracted over. We can't act rashly first!!"

Li Qiu didn't have the strength of Gao Xuan and Shi Yu, so he didn't dare to relax too much.

The restriction of his thoughts didn't make him think that someone was deliberately fishing.

"Silly child, run, run quickly. Ah, right, right, right, don't go. Turn around and leave now. Don't be curious!!!" The teachers and students of Spirit Capital University said to their representatives in their hearts.

The principal of Spirit Capital University didn't think that his student could defeat that little monster, Shi Yu.

At the first year of university, he had already contracted two overlord species pets, and they weren't ordinary overlord races. What kind of monster was this? Why did Ancient Capital University pick it up?

Just from the battle results of entering the top 100 in the Sequence battle of Shi Yu, it could be determined that apart from Gao Xuan, the others were definitely not Shi Yu's match.

"Although Li Qiu and contestant Shi Yu are the contestants with the greatest hope of encountering each other at the moment, Li Qiu doesn't seem to have any intention of continuing to explore the truth. At the moment, there's still a certain distance between them. If he maintains this, I wonder when they will encounter each other."

When the host, Han Lu, saw that Li Qiu didn't follow the direction of the fragrance and continued exploring the commotion just now, she couldn't help but say regretfully.

"Wait, wait a minute. Although contestant Li Qiu hid in the valley and didn't continue forward, contestant Shi Yu and the others seem to have suddenly looked in the direction of contestant Li Qiu!!"

In the scene, Shi Yu, Baby Ginseng, and Eleven, who were standing on Shi Yu's shoulder, looked into the distance in Li Qiu's direction.

Transcendent super vision.

With their extremely powerful reconnaissance skills, Baby Ginseng and Eleven sensed the powerful monarch-level energy wave that suddenly approached.

Although their figures couldn't be seen at all, the monarch-level energy wave that spread could be clearly "seen" by Shi Yu and the others.

"The first opponent is here, but unfortunately, it's not Gao Xuan," Shi Yu thought.

Let's get rid of the other party first...

Shi Yu thought for a moment and decided to take the initiative to attack.

Although the other party seemed to be hiding very far, Shi Yu's pet could reach this distance quickly.

Apart from Baby Ginseng.

"Contestant Shi Yu is indeed looking in the direction of Li Qiu's candidate..."

"Could it be that he discovered the other party? This distance... is unbelievable. Everyone, look, contestant Shi Yu has summoned a new pet again!!"

Three blue summoning arrays appeared around Shi Yu.

Under the dazzling light, Shi Yu's other three pets also appeared in the audience's vision!

The first thing to come out of the summoning array was a beautiful butterfly-type creature with gorgeous and exquisite blue wings that were less than the size of a palm.

The moment they saw this pet, although its size didn't match, everyone still determined what kind of creature it was immediately!

Mid-level overlord race, Butterfly of Imagination!

For the first time, it was this pet that allowed Shi Yu's name to be widely spread throughout the country. For the first time, Shi Yu's personal potential was evaluated as someone with a super rare pet that could potentially become a legend!

Apart from the Butterfly of Imagination, not many people had seen Shi Yu's other two pets.

One was a red fire sword spirit in the form of a spirit body.

This sword spirit was also very pocket-sized. Like Baby Ginseng, Mini Eleven, and the Butterfly of Imagination, it was less than the size of a palm and very small.

As Shi Yu's pets were all at full level at multiplication, unless the racial characteristics were especially obvious, such as ginseng babies and iron-eating beasts, it was difficult for the audience to clearly determine what pet it was.

However, as expected, the group of pets in the form of babies immediately caused a wide discussion.

[It's all in the form of a baby. Big Boss Shi Yu definitely has the heart of a girl.]

Chapter 393: The Lucky Person Who Was Crushed by the Slime (3)

[What girl's heart? Didn't you see the giant Nine Li Battle Beast just now? Didn't you see the normalized Butterfly of Imagination? They're all so handsome, alright? You lost if you were deceived by their appearance.]

[Holy shit, is that a Water Slime???)

Apart from Buggy and Chi Tong, Susu was also summoned.

Originally, the little sword spirit of an unknown race should have caused the most discussion and let people discuss what pet this was.

However, Susu quickly stole Chi Tong's limelight.

The reason was not that no one knew it, but because they knew the Slime race too well, so they were very stunned.

"Contestant Shi Yu summoned three more pets!! One is the Butterfly of Imagination, the other is a fire-element sword spirit, and the other is the Water Slime?"

Water Slime, a pet of transcendent race.

Although it was much stronger than the Green Silkworm and the Dragon Carp and was even rarer in Dong Huang, this couldn't let it escape the fact that it was at the bottom of the elemental food chain.

No one was surprised that Shi Yu had broken through to the master level and could contract five pets. However, Shi Yu, who had contracted two overlord races, had given a contract slot to a pet like the Water Slime. Many people were extremely confused.

[No, you can't judge a book by its cover. Have you forgotten about the transcendent ginseng baby just now???)

[A transcendent ginseng baby that can instantly attract 100,000 ferocious beasts, is this reasonable? It's probably a thousand-year-old ginseng!]

[This Water Slime must also be terrifyingly strong. Otherwise, it wouldn't have been contracted by Big Boss Shi Yu!]

That was right. The initial form of the Nine Li Battle Beast, the initial form of the Green Silkworm of the Butterfly of Imagination, and that ginseng baby didn't look like very powerful pets. However, the few in

Shi Yu's hands clearly looked different from other Iron-eating Beasts, other Green Silkworms, and other ginseng babies. This Water Slime was definitely in the same situation.

At this moment, countless spectators were more willing to believe that this Water Slime was also very unusual. However, they were more curious about what was so extraordinary about this Water Slime that Shi Yu could contract it.

With this thought in mind, everyone continued watching.

In the scene, Shi Yu carried Baby Ginseng and called Eleven, Buggy, Chi Tong, and Susu.

"Buggy, you're in charge of guarding the east."

"Eleven, you guard the west."

"Chi Tong, you guard the south."

"Susu, guard the north. I'll leave that enemy to you."

The Four Holy Beasts, Green Worm Buggy, White Panda Eleven, Fire Bird Chi Tong, Turtle Shell Susu. Perfect!

"Baby Ginseng, continue to release your fragrance here. Next, ferocious beasts and contestants will come from all directions. As long as ferocious beasts and contestants enter your vision, deal with them. Don't place them on me and Baby Ginseng. Let's see who can defeat more opponents. The prizes for eliminating contestants and dealing with monarch-level ferocious beasts are all yours. They'll be divided according to number."

"In that case, it's more efficient than moving together."

"Wu?" "Wu?" "Mi?" "Ning?"

The four pets were stunned and then full of energy.

"Yiya!!" Baby Ginseng cried. Why couldn't it go? Why did it have to continue releasing fragrance as bait? It could fight too!!

"Of course, the final reward will definitely be divided with Baby Ginseng. It's all up to it to gather monsters."

"Yi." Baby Ginseng was delighted. That was more like it. This was what it meant to be lying down and winning?

Moreover, two overlords had already been blown up. Baby Ginseng was indeed not interested in the small characters here!

After Shi Yu made the arrangements, the four pets started moving.

Electricity lingered around Eleven's body. It used electromagnetic levitation and flew with the power of lightning. It instantly turned into a lightning afterimage and flew west.

As for Buggy, it teleported and instantly disappeared from the spot, heading east.

Chi Tong made a “Mi” sound and burned the power of the Sun Flame, turning into an orange-red sword light that flew south.

As for Susu, it didn’t have their speed. Its speed was only one level faster than Baby Ginseng. However, this was merely the speed ranking in the team. Buggy had Instant Transmission, and Eleven and Chi Tong had full-level speed racial skills. Susu naturally couldn’t compare. But outside the team, its speed was also very terrifying.

After all, it was an elemental creature. After mastering the ability of elementalization, it was basically a flying expert. It wasn’t something Baby Ginseng could compare to with its speed of condensing wings with grass.

“Ning!!”

With a whoosh, Susu compressed the huge water elemental power onto its body and compressed itself into a high-speed water spear that shot out. In an instant, it also turned into a blue afterimage, like a high-speed shooting star, and flew fiercely in the direction it wanted to guard.

Because Susu was at the bottom of the team in the previous internal competition, in order to take care of Susu, Shi Yu gave it a battle result for free. Just now, the area where they had captured the contestants was the north where Susu was about to go!

“Eh!!!” At the same time, Shi Yu summoned all his pets in one go and sent out four of them, including the powerful overlord race, the Butterfly of Imagination, and the Nine Li Battle Beast. The scene directly shocked all the audience and made the host speechless.

He... He actually... scattered his pets??

Was he letting his pets find someone to fight on their own?!

Chapter 394: The Lucky Person Who Was Crushed by the Slime (4)

“Contestant Shi Yu, after he summoned all his pets, he actually sent four of them out, leaving only a ginseng baby beside him! What does he want to do!”

In the contestant area of Spirit Capital University, the ten elites who participated in the team battle and hundreds of teachers and students looked at the Water Slime that turned into a water afterimage and flew towards the north towards Li Qiu in shock. For a moment, their brains couldn’t process it.

The other pets were alright. There were no contestants or active ferocious beasts in a certain range, but the Water Slime was quickly approaching Li Qiu.

The speed of the water jet was actually much faster than the tornado sparrow just now!

Swoosh!

Soon, the Water Slime Susu shot into the sky above Li Qiu. Then, it suddenly landed and looked at the enemy!!

The creature that suddenly descended also shocked Li Qiu and his Dragon Tornado Sparrow, who were hiding on the ground and silently observing the situation. Then, they saw the... Water Slime that landed on the ground?

“Wh-what’s going on?” Li Qiu and the Tornado Sparrow looked at the Water Slime that had descended without anyone noticing with stunned expressions.

Water Slime?

When?

At this moment, in the valley surrounded by mountain walls, Li Qiu stood on the ground with the Tornado Sparrow beside him. The two had already left their riding state, and the Water Slime landed opposite them and faced them.

Seeing the Water Slime sent by Shi Yu descend beside Li Qiu from afar, apart from Li Qiu, who still didn’t know what was going on, the audience behind the scenes widened their eyes in disbelief.

Holy shit, Shi Yu, the Beast Tamer himself, didn’t move. He directly sent a pet to snipe Li Qiu???

He had indeed discovered Li Qiu, right!!

However, was he serious about only sending one Water Slime?

Don’t tell them that this Water Slime’s growth level had also been cultivated to the monarch level by Shi Yu!!

Although the contestants of the individual competition were all outstanding figures of the nine major universities, among these masters, two to three monarch-level pets were considered outstanding.

All five contracted were at the monarch level. That situation was very, very rare.

Moreover, even if it reached the monarch level, did it have to fight one against six and deal with Li Qiu and his other five pets he contracted?

The confrontation between the captain of Spirit Capital University, Li Qiu, and the Water Slime sent by Shi Yu immediately made all the spectators who were paying attention to the individual preliminaries of the National League swallow their saliva.

“Ning!!!” In the next moment, the Water Slime in the scene erupted with strong power, instantly making Li Qiu and the Dragon Tornado Sparrow’s pupils shrink.

Boom!!!

It was as if an invisible blue tsunami erupted from the Water Slime’s body!

As it looked at its opponent, the surrounding air began to hum and vibrate. A substantial deterrence wave formed a blue deterrence aura around it. This scene suddenly made Li Qiu and the tornado cloud reveal extremely serious expressions.

Monarch aura, expert in deterrence?

Water Slime, how was this possible!

A terrifying deterrence wave spread!

“Tornado Sparrow,” Li Qiu called.

Li Qiu’s Dragon Tornado Sparrow was not to be trifled with either. It also instantly erupted with a strong deterrence wave. It was actually also an expert-level deterrence. The almost substantial green deterrence aura quickly pressed down on the Water Slime.

But...

Crack.

With the Water Slime as the center, the deterrence that spread out cracked the surrounding ground and rocks. Li Qiu and the Dragon Tornado Sparrow’s gazes were immediately shocked to the extreme.

It wasn’t expert level deterrence.

It was a perfect-level deterrence that could materialize and cause physical destruction!!!

Boom!

The monarch aura erupted by the Dragon Tornado Sparrow was immediately shattered. A terrifying deterrence enveloped the Dragon Tornado Sparrow and Li Qiu.

The Dragon Tornado Sparrow’s spiritual consciousness instantly trembled. It directly felt a suffocating terrifying aura. It looked at the little creature in front of it in disbelief, its face filled with incomprehension. Its mental state was seriously affected.

As for Li Qiu, he wasn’t much better. The defensive pendant equipment on his chest trembled violently and swayed. It even showed signs of cracking, making Li Qiu’s face pale. It was a little difficult for him to do anything else. His thoughts and movements were restricted.

At the same time, dazzling water waves gathered in the Water Slime’s mouth and wrapped around it with shocking deterrence.

Transcendent Level Deterrence, Deterrence Entanglement!

At this moment, Li Qiu’s pupils constricted again as he felt an incomparable threat.

“F*ck, it’s not perfect, it’s transcendent. What the hell!!!” he shouted.

Then, its body erupted with powerful potential. As it resisted the deterrence with difficulty, it erupted with all its strength and used its wind-element strengthening talent on the Tornado Sparrow!

Buzz!

The aura of the Dragon Tornado Sparrow rose steadily. In the blink of an eye, its strength far exceeded before.

However, as the terrifying water that had been compressed to the extreme moved in the Water Slime, Li Qiu and the Tornado Sparrow were not at ease at all.

Boom!!!

Deterrence Armor, Water Element Control, Water Cannon!

It was fired!

The blue light flowed in the Water Slime's mouth and eyes. With a boom, it was incomparably thick and its speed was astonishing. It compressed the water cannon the size of a sea and directly locked onto the Tornado Sparrow with deterrence and attacked.

"Jiu!!!" At this moment, under the two levels of deterrence lock-on, the Tornado Sparrow still found it difficult to move. It could only condense the "Jade of Wind" in its mouth with difficulty and use a compressed and spiral huge wind ball to resist this water cannon.

Chapter 395: The Lucky Person Who Was Crushed by the Slime (5)

However, this water cannon was, after all, Susu gathering the power of nature and mobilizing the sea stored in its body. It was also wrapped in a powerful attack of deterrence. It was not something the opponent could block at all. Even after being strengthened by the Beast Tamer, the energy value of this Dragon Tornado Sparrow was still less than half of Susu's.

In the face of this attack that contained terrifying deterrence and water-element power, the moment the white Wind Jade made contact with it, it was immediately like a balloon falling into a waterfall. It was torn into pieces by the water and finally swallowed.

The water cannon hit the Tornado Sparrow.

In an instant, under the Dragon Tornado Sparrow's sudden expression, its entire body was swallowed by the water cannon and charged into the distance!

Boom...

The entire valley shook!

Because the water cannon directly charged the Dragon Tornado Sparrow into the mountain wall. The moment the two parties touched, the entire mountain instantly collapsed because of this water cannon. The rumbling sound was like a tsunami and an earthquake.

The mountain wall cracked, the ground rumbled, and a storm fell from the sky. Scattered deterrence waves flew in all directions, and the Tornado Sparrow slowly sank into the newly formed small lake, accompanying the gravel. Its expression was tragic, and it completely lost its ability to fight.

As for Li Qiu, who had brushed past the water cannon, he also stood on the spot in a daze. He felt the cry of the Dragon Tornado Sparrow that had lost its battle power, and his mind went blank.

"Ning! (Surrender!)" Seeing that this Beast Tamer wasn't very smart, and that his reaction was slower under the deterrence... It didn't continue attacking and was extremely considerate.

At this moment, Li Qiu had indeed lost his ability to think. He didn't understand what this Water Slime was.

It was a wild ferocious beast, right? But then, which wild ferocious beast looked like this and was so strong?

Li Qiu had never heard of anyone contracting a Water Slime, and it was a Water Slime with such abnormal strength. Most importantly, he had never even seen this little guy's Beast Tamer.

At this moment, Li Qiu was unwilling to face the truth. He only felt that he was still in a dream. The National League would only begin tomorrow.

Although the other spectators didn't have their values shattered as directly as Li Qiu, when they saw a Water Slime erupt with such powerful strength and instantly kill the high-level monarch-level Dragon Tornado Sparrow that had been strengthened by the Beast Tamer in one hit, their minds also rumbled and they were extremely shocked.

"This, this, this, this..."

"I'm a little doubting my eyes now."

The two commentators were once again unable to explain the situation in front of them.

"This is a f*cking Water Slime???"

At that moment, as the encounter between the Water Slime and Li Qiu turned into a conflict and ended with Li Qiu being crushed, the teachers and students of Spirit Capital University were confused. This, this, this, who could tell them what was going on!!

It was fine if Shi Yu's Butterfly of Imagination was strong, but why was this Water Slime so unscientific!!

Everyone looked at the Tornado Sparrow that was insta-killed.

This was undoubtedly Li Qiu's trump card. It had been insta-killed. They didn't doubt at all that even if Li Qiu summoned all his pets, he still couldn't escape the fact that he would be killed and shattered by this Water Slime.

This was not the same dimension at all.

Silly child, they told him to run, why didn't he listen? Look, wasn't he going to be the first unlucky person to be eliminated? Moreover, he was eliminated alone by a pet raised by the Beast Tamer. How depressed would he be if he knew the truth after coming out?

In the previous National League, under the same level of monarchs, only Gao Xuan's Ultimate Holy Dragon Beast had such strength.

But this time... there was a random Water Slime??

Not only Spirit Capital University, but the teachers and students of the other universities also looked at the scene in shock. Only the Imperial Capital and Ancient Capital University were extremely silent. They only felt that this situation was both familiar and unfamiliar.

Obviously, this didn't make sense!

Chapter 396: Butterfly with Physical Strength of a Dragon

“Too strong...”

“Contestant Shi Yu’s pet has refreshed our understanding again!”

Regardless of whether it was scientific or not, since it had happened, it was reasonable.

Han Lu and Gu Yu, the two commentators, looked at the Water Slime in the scene in shock, as well as the shattered rock.

“Transcendent Level Deterrence!”

“A water spear with power comparable to a tsunami!”

“Not only did it easily defeat the Dragon Tornado Sparrow, but it also relied on the impact of the water to instantly collapse a mountain wall and drown it into a lake!”

“Is this still the Water Slime? Is it really that transcendent elemental creature?”

“This level of deterrence, this level of elemental control... I even believe that it’s the Slime King. No, even the Slime King can’t do this!”

The Slime King was the only high-level life form of the Slime race. It was a monarch race, but its evolution method was unknown. Only slimes that were born as a Slime King had been discovered.

Moreover, Shi Yu’s Water Slime looked like a normal Water Slime. It was completely different from the Slime King.

“Is there really such a water slime?” The two commentators asked the three big shots on the platform.

They couldn’t understand how a Water Slime could be so strong unless it used water-element legendary resources.

The audience also couldn’t understand why Shi Yu’s pets were so ridiculous.

Similarly, this time, the three big shots on the platform were speechless again.

This was the first time Shi Yu had publicly sent the Water Slime to battle.

Apart from a few people, the others didn’t know the situation of this water slime at all.

At this moment, on the platform, President Xia looked at the camera and slowly said,

“I only know that contestant Shi Yu’s Water Slime was contracted in the East Sea Dragon Palace City.”

“Obviously, it might not be as simple as an ordinary Water Slime.”

When President Xia finished speaking, everyone was speechless.

Dragon Palace City?

As long as it was a Beast Tamer who had passed their history test, they naturally knew where that was.

It was all thanks to a huge monster like Dragon Palace City that the sea area of Dong Huang was so peaceful.

That was the paradise of the dragons.

There had been several Dragon Kings in history that shocked the sea.

There were countless ocean overlords.

Shi Yu's Water Slime was contracted in Dragon Palace City???

Upon hearing that this pet had the background of Dragon Palace City, the audience instantly fell silent. The information they could obtain was that Shi Yu had been to Dragon Palace City, but if he was qualified to go to such a place, he undoubtedly had a chance to see more rare pets, even purebred dragons. In this situation, Shi Yu had only contracted one Water Slime. What exactly was this Water Slime...

Perhaps there was no need to be puzzled at all, because the battle just now very well explained the power of this Water Slime. If it were any other Beast Tamer, they wouldn't mind such a Water Slime.

[It's too exaggerated. I'll even believe it if he says that this Water Slime is the illegitimate son of a totem dragon king in Dragon Palace City!!!]

[Me too, I heard that totem-level creatures can change their race at will. Could this Water Slime really be a totem descendant?]

[So annoying... I want such a Water Slime too!]

In the audience of Ancient Capital University, Principal Feng chuckled.

What were they thinking?

Be bold!

This was the reincarnation of the Blue Sea Sprite!

Of course, this matter was very important, so Principal Feng couldn't reveal more.

Compared to now, Principal Feng looked at the screen.

He hoped that one day, after this Water Slime really obtained the name of the Blue Sea Sprite, Shi Yu could still control it to fight!

At that time, Shi Yu's name would be comparable to the legends of Dong Huang!

...

The competition had already ended before it even started. What kind of experience was this?

As Li Qiu didn't have telepathy and couldn't understand Susu's words, he wouldn't surrender. Without a doubt, he was directly shattered by Susu.

A bubble skill sent Li Qiu to heaven.

Then, the Eye of the Stars took charge of the aftermath.

As the first contestant to be eliminated, Li Qiu from Spirit Capital University was completely brought back to the East Sea Arena in a daze.

Even when he was sent back, he didn't know what that Water Slime was.

"I'm..."

In the East Sea Arena, when the Eye of the Stars clone teleported Li Qiu back, Li Qiu stood on the arena, feeling the gazes of the 100,000 spectators in the arena and looking at everything in confusion.

"Contestant Li Qiu..."

At this moment, the comforting voices of Gu Yu and Han Lu came from the screen.

"Contestant Li Qiu unfortunately encountered the pet water slime sent by contestant Shi Yu. After a defeat, he was judged by the judge to be eliminated. It's too regretful."

"Looks like... the first contestant to be eliminated has appeared!"

"Contestant Li Qiu is already cautious enough. In the face of the fragrance and commotion emitted by contestant Shi Yu to lure his opponent, he maintained enough vigilance."

"Unfortunately, contestant Shi Yu still discovered him and sent out a terrifying Water Slime!"

"Forget about Li Qiu. Someone seems to be heading towards Shi Yu again." The comments flooded the screen.

Li Qiu: "?"

What the f*ck???

What were the two of you explaining just now? Say it again?

"Wu wu wu Li Qiu, my Li Qiu..." In the audience seats of Spirit Capital University, the juniors who supported Captain Li Qiu cried and said, "That Water Slime is so strong and cute."

The school leaders of Spirit Capital University were silent. Their team leader was the first to be eliminated. They didn't know what to say.

Chapter 397: Butterfly with Physical Strength comparable to a Dragon (1)

Was Li Qiu weak?

In terms of pet growth level, there was naturally nothing to say about the monarch level.

In terms of race level, apart from Shi Yu, Gao Xuan was the only one among the students of the nine major universities who had contracted an overlord race pet. Therefore, high-level monarchs were already the top batch, they were naturally not weak.

In addition, Li Qiu could strengthen the pet's energy level to more than two million through the pretty good talent he developed. Among the master-level contestants of the nine major universities, he was definitely not weak.

Therefore, it was completely because the other party was too abnormal.

At this moment, Li Qiu clearly realized how much he had experienced.

Li Qiu listened to the key words “Shi Yu”, “the Water Slime sent out”, and “the first to be eliminated”. He also saw the Water Slime standing on the huge rock and looking at the sky. His gaze and mentality slowly changed from confusion to explosion...

His expression gradually became ferocious.

“Ah...”

Damn, that Water Slime was Shi Yu’s???

The school leaders of Spirit Capital University cast comforting gazes.

[It’s alright, it’s alright... As long as the other schools are as miserable next, no one will care about our Spirit Capital University.]

[Look, aren’t the unlucky people from the other schools also heading in the direction of Shi Yu and Baby Ginseng?]

In fact, that was the case.

Those who were closer to Shi Yu were all pretty unlucky. Li Qiu wouldn’t be the last.

At this moment, the only thing that comforted the teachers and students of Spirit Capital University was that another figure was gradually approaching Shi Yu from the east. Clearly, it was also attracted by the commotion.

“It’s the vice-captain of the school team of Divine Capital University, Chu Yi’ang.”

The principal of Spirit Capital University’s tone was filled with joy.

On the side of Divine Capital University, when they saw their contestant rushing over second, their expressions immediately changed.

It was a huge dragon lizard with a horn that looked like a golden crown, and its body was covered in golden feathers. It flew in mid-air with a hedgehog-headed young man sitting on its rough body.

At this moment, the feather dragon and the young man were communicating in confusion.

“Roar... (There’s no mistake, it’s a lightning-element natural treasure!)”

“Roar... (The birth of thunder-element natural treasures is often accompanied by lightning. This taste, this array, will definitely be a resource above level-seven!)”

The Feather Dragon crazily painted a beautiful picture for its Beast Tamer. Go, go, go. As long as it obtained this, it would earn more than crushing ten monarch-level ferocious beasts.

“The competition authorities also arranged for natural treasures to be fought over by the contestants? Could it be that they want to use this method to stimulate the conflict between the contestants and accelerate the competition? If that’s the case, there might be other contestants nearby who will be attracted over. We can’t be careless. Be careful.”

As for Chu Yi'ang, he also believed in the feather dragon. The two of them carefully went over.

"It's the Thunder Crown Feather Dragon and Chu Yi'ang!"

< Name > Thunder Crown Feather Dragon

[Race Level]: High-level monarch (Quasi overlord)

[Level of Growth]: Monarch Level

"Not good, that direction is..."

After many teachers and students from Divine Capital University compared them, they silently discovered that their contestant, Chu Yi'ang, and his pet were flying in the direction of Shi Yu's Butterfly of Imagination!

If it was said that before this, when Shi Yu was mentioned, the first pet people thought of was definitely the Butterfly of Imagination!

This pet that allowed Shi Yu to be evaluated as having legendary aptitude... That was displaying incomparable light at the Butterfly Meeting and the Feeding Conference...

"I didn't expect that less than half an hour after the competition, there would be consecutive encounters!"

"I have to say that contestant Shi Yu's strategy has had a very good effect. According to our observation, a large number of contestants are gathering in this direction. Among them, the vice-captain of Divine Capital University, Chu Yi'ang, is the second contestant to encounter Shi Yu after contestant Li Qiu!"

The two commentators were very excited.

This was the first time they were explaining such a national competition.

They also admitted that Shi Yu really knew how to play.

This kind of direct battle with all contestants and ferocious beasts, telling the other party "I'm right here", was too crude.

"However, the one who's about to encounter contestant Chu Yi'ang and the others won't be contestant Shi Yu himself, but another pet he sent in this direction, the Butterfly of Imagination!"

"Everyone is definitely not unfamiliar with the Butterfly of Imagination. This is one of the pets representing contestant Shi Yu. It's a powerful butterfly-type creature with both mental and spatial attributes."

"I wonder what kind of sparks will fly after it encounters contestant Chu Yi'ang..."

Glass Island, in mid-air.

Chu Yi'ang was riding the Thunder Crown Feather Dragon when they suddenly stopped. The Thunder Crown Feather Dragon and Chu Yi'ang instantly revealed serious expressions.

"Roar!!!"

The Thunder Crown Feather Dragon's Thunder Crown was like a radar that could sense the surrounding situation through electromagnetic waves. Just now, they sensed the change in a powerful spatial magnetic field wave. A very strong ferocious beast was attacking!

Buzz!!!

Just as Chu Yi'ang and the Thunder Crown Feather Dragon sensed the change and retreated crazily, with a bang, under the spatial ripples, a huge butterfly-type creature descended!!!

A huge butterfly about four to five meters tall slowly appeared with a strong pressure.

It had incomparably huge wings. The entire surface of the wings was like white waves surging on the blue sea. Its color and patterns were very spectacular, like a piece of art!

At this moment, a string of beautiful white halos embedded at the edge of the huge butterfly's blue sky-like wings shone. It was very dazzling and gorgeous. The moment it descended, its gorgeous figure instantly shocked Chu Yi'ang and the others.

Chapter 398: Butterfly with Physical Strength comparable to a Dragon (2)

At this moment, Buggy was overjoyed.

He didn't expect himself to be so lucky to encounter a bonus so quickly.

Buggy was very happy, but Chu Yi'ang and the Thunder Crown Feather Dragon were not very happy.

The Butterfly of Imagination?! Why?!

Holy shit.

"As expected, there were other contestants nearby who were attracted by the natural treasures. This pet..."

"This pet is... Shi Yu's Butterfly of Imagination!"

There were only 21 contestants in the individual competition. Chu Yi'ang had memorized almost all the known pet information of the contestants, let alone a celebrity pet like Buggy. It was instantly recognized by Chu Yi'ang.

After leaving Shi Yu, as it was going to fight, Buggy returned to its normal state, so it was not difficult for the other party to recognize it.

No, compared to normal, to be precise, it was called battle mode now.

The battle state of the Dragon of Imagination!

At the moment, Buggy was doing training to transform the Dragon of Imagination state into its normal state. Compared to Eleven and the others' explosive skills, its Dragon of Imagination, as long as it didn't use high-level props to exceed its limit, was actually not that difficult to bear now. It was easier to use than Eleven's Inner Power, Chi Tong's Infinite Converging Sword, and Baby Ginseng's Time Fruit.

Most importantly, after transforming into a dragon's physique, it could specially magnify the advantage of a certain dragon race, such as the advantage of a dragon with powerful recovery abilities, to make up

for its endurance. For example, if it transformed its physique into the physique of the Sky Dragon God, just eating air could recover its physical fitness. Of course, with Buggy's current ability, it definitely couldn't do a perfect transformation, but even if it replicated a trace of its physique, it would benefit infinitely.

These were all the benefits of visualizing the Dragon God Statue, giving Buggy various choices that approached perfection.

If Buggy's stats were like this: life force (extremely low), energy value (medium), physique (extremely low), then in the Dragon of Imagination state, it was this: life force (extremely high), energy value (extremely high), physique (extremely high), and was extremely ferocious.

Such a ferocious quality naturally made the enemy feel a strong threat.

In an instant, Chu Yi'ang didn't say anything else. Although he didn't know why he didn't see the Beast Tamer, he immediately ran as if this butterfly was a calamity!

No way!!

If it were other contestants, he might still fight, but Shi Yu... He couldn't see through him. As one of the few overlord races in this competition, only a fool would fight head-on!

However, Chu Yi'ang also seemed to feel that running was useless.

Therefore, the moment the Thunder Crown Feather Dragon and he turned around, another Thunder Crown Feather Dragon instantly appeared between them and the Butterfly of Imagination!

"Look, contestant Chu Yi'ang and contestant Shi Yu's Butterfly of Imagination have met! However, contestant Chu Yi'ang doesn't seem to have any intention of fighting. Instead, he immediately turned and left. However, in order to stop the Butterfly of Imagination, he used his Beast Taming Talent, 'Clone'!"

"The Beast Taming Talent, 'Clone', is similar to the pet's Clone Skill, but not completely the same. Through this Clone Talent, the Beast Tamer can create a clone with 100% perfect replication of the pet's strength. However, the duration of this clone depends on the Beast Tamer's physical fitness. At the moment, the new Thunder Crown Feather Dragon is clearly the clone of contestant Chu Yi'ang's Thunder Crown Feather Dragon. Although it's a clone, it also has a completely similar strength!"

"I wonder if this Thunder Crown Feather Dragon's clone can buy some time for contestant Chu Yi'ang's tactical retreat..."

The scene on the screen turned into a confrontation between the Thunder Crown Feather Dragon and the Butterfly of Imagination in the blink of an eye.

The audience took a deep breath.

Most people had only heard of the Butterfly of Imagination, but they had never seen it fight.

Spirit, space, what kind of sparks could these two attributes create?

Only some spectators from Imperial Capital University thought of some bad memories.

In order to buy enough time for Chu Yi'ang to retreat, the Thunder Crown Feather Dragon's entire body was surrounded by blue-purple flames as it attacked the Butterfly of Imagination!

"Roar!!!—"

Suddenly, the Thunder Crown Feather Dragon's flying speed increased, releasing an aura that made the air tremble. With a whoosh, it tore through the air, and its flying speed turned into an afterimage. At the same time, blue-purple flames surged all over its body, and the flames all over its body led the Thunder Crown Feather Dragon's flying speed. The aura filled with killing intent was mixed with the Thunder Crown Feather Dragon's faith. Seeing this scene, the audience immediately recognized this unique skill.

"It's a super skill, Dragon Charge!!!" The two commentators said, "A dragon-element ultimate skill that can cause physical and elemental damage!!"

"The incomparable physique of the dragons, together with their unique dragon energy, dragon-type skills have always been synonymous with destructive power!"

The blazing blue and purple dragon figure surged forward.

Although Dragon Charge was a dragon-type skill, it also had some fire and lightning properties. It was very easy to cause burning and paralysis effects. It was a very threatening skill.

This powerful move was definitely not to be touched by bugs, especially weak bugs like butterflies.

Even overlord-level butterfly-type creatures were unwilling to be attacked by the dragon-type skills of monarch-level dragons.

The audience understood this, so they subconsciously judged the next situation.

However, just as everyone thought that the Butterfly of Imagination would use its skill to counterattack violently or dodge through the strange spatial element, a shocking scene occurred.

The Butterfly of Imagination didn't move on the spot, completely ignoring the Thunder Crown Feather Dragon that was charging towards it!!

Chapter 399: Butterfly with Physical Strength comparable to a Dragon (3)

That's it?

Buggy wanted to despise the power of the other party's unique skill. It couldn't even compare to the power of its leader that didn't use skills. In the empty dragon state, using other skills was a waste of energy.

Boom!!!

Because Buggy ignored it and let the skill collide, a huge explosion immediately came from the sky.

The Thunder Crown Feather Dragon's body trembled as it hit the Butterfly of Imagination, but the Butterfly of Imagination floated steadily in the sky without moving at all. Just now, it was like a grasshopper hitting an elephant, unable to cause any damage to it at all!

Sensing the huge reaction force and the pain in its body, the pupils of the Thunder Crown Feather Dragon clone constricted, and its heart was shocked to the extreme.

This scene was also shocked by a bunch of spectators and two commentators!

[Holy shit!!!]

[What's going on??]

[The butterfly's body resisted the ultimate move of a dragon-type creature??]

[Eye of the Stars, film it more carefully... Zoom in! Holy shit, it took the hit physically...]

[I'll report it. This is not legal at all!!]

At this moment, all the Beast Tamers watching the live broadcast were shocked.

Then, an even more shocking scene occurred. The Butterfly of Imagination glanced at the Thunder Crown Feather Dragon clone. Then, its right wing flapped slightly, and its body came into contact with the Thunder Crown Feather Dragon's body. In the next moment, the Thunder Crown Feather Dragon's body directly caved in by a large half, as if a huge rock had violently pressed onto its flesh and blood. Almost instantly, the Thunder Crown Feather Dragon's pupils turned completely white. Under the slap of the worm, its body fell towards the forest on the ground like a falling meteor!!

Boom!!!

Smoke rose, and the fallen Thunder Crown Feather Dragon directly scraped the ground, dragging a deep trench. It knocked over dozens of big trees in succession before the sound at the bottom fell silent.

There were no energy fluctuations the whole time. Buggy completed it with its physical strength.

This scene stunned many people.

[F*ck, Butterfly, killed the dragon with a slap!]

[Is this a f*cking butterfly? Legend Hua, who specializes in butterflies and cries weakly every day, is seriously protesting.]

The two commentators were also stunned.

At the same time, Chu Yi'ang, who had already walked a distance away, sensed the situation of the Thunder Crown Feather Dragon clone. His brain immediately rumbled, and his gaze was filled with disbelief and fear. Then, a scene that made his gaze explode appeared. From an incomparably far distance, his and the Thunder Crown Feather Dragon's bodies were suddenly frozen by the blue Psychic light that appeared out of thin air!

"Roar!!!" The Thunder Crown Feather Dragon that was flying at high speed immediately roared loudly, but it was useless. Then, under Chu Yi'ang's frightened expression, he separated from the Thunder Crown Feather Dragon he was riding. Then, under the control of Psychic power, with a boom, the Thunder Crown Feather Dragon's main body was also smashed to the ground from the sky!

Boom!!!

The smoke rose again. This time, the power was even stronger. It still dragged out a deep ditch that was more than a hundred meters long. It knocked over dozens of big trees in succession before the sound at the bottom fell silent.

The forest surrounded by smoke looked like two meteorites had just fallen. It was a mess.

In the sky, Chu Yi'ang, who was frozen and couldn't even see the figure of the Butterfly of Imagination, was directly scared silly, afraid that he would be accidentally crushed by the Butterfly of Imagination.

"F*ck, I admit defeat, I surrender..."

"Let go of me..."

"Another, another, another one."

At the same time, looking at Shi Yu's Butterfly of Imagination that easily eliminated another contestant, the audience's mouths were dry. As they sympathized with Chu Yi'ang, they felt even more deeply the horror of Shi Yu's strength. This Butterfly of Imagination's strength was even more f*cking unscientific!! This was the spiritual and spatial element? What was this physical strength, was it not the spiritual, spatial, and dragon elements?

Chapter 400: Baby Ginseng Crushing the Land

"The second one."

In the center of the Yunying Mountain Range, Shi Yu and Baby Ginseng sat quietly on the huge rock.

Susu had solved one, and Buggy had also solved one. Not bad.

"A little more."

Shi Yu was happy to be free.

His leisure and smile fell into the eyes of the audience. He was completely a demon.

"Another, another, another one!"

"The pet sent by contestant Shi Yu has eliminated another contestant!"

"This is the Dong Huang Radio and Television Station. At the moment, it's broadcasting the individual preliminaries of the National League for you. contestant Shi Yu's pets are simply unbelievable. The weak butterfly-type creature actually insta-killed the dragon-type with just its physical body?"

"Even if its overlord race, this..."

The entire country's audience was numb.

Especially those Beast Tamers who had cultivated the evolution form of the Green Silkworm Butterfly.

They summoned their butterflies and pinched their delicate skin. They were speechless.

[Butterflies: Excuse me???)

"Wu wu!"

The encounter between the Butterfly of Imagination and contestant Chu Yi'ang from Divine Capital University made the teachers and students of Spirit Capital University extremely excited.

Li Qiu, the captain of Spirit Capital University, sat back in the audience with a blank expression. He kept feeling that this scene was familiar.

Only the teachers and students of Divine Capital University had bitter expressions.

They knew that this pet that Shi Yu had contracted early couldn't be weak.

However, they were really sad that Chu Yi'ang was insta-killed without being able to fight back.

At least hold on for a while...

As long as they successfully fought back a bit, Divine Capital University wouldn't lose face. After all, everyone knew that Shi Yu was very strong and that he had entered the top 100 of the Sequence battle.

But... a dragon-type pet was shattered by a butterfly-type creature with just a wing. What was this?

Even if it was a clone, it was a clone that matched 100% of the main body's strength. Moreover, the main body didn't show off much. It was directly smashed down by someone's Psychic power from ten thousand meters away... and insta-killed by a low-level mental skill.

How embarrassing!

Only Shi Yu, the gem cat, and a few others knew that this... was completely normal.

Chu Yi'ang didn't have any strengthening talent. In terms of energy value, his Thunder Crown Feather Dragon wasn't even two million. It was over-killed by Buggy several times. In addition, it was a mere alternative dragon. No matter how strong its physique was, compared to the perfect dragon physique that had absorbed the advantage of the demigod-level Dragon God physique, it was nothing in front of an expert.

This time, Gu Yu and Han Lu, the two commentators, also learned to be smart. They directly got the three big shots on the platform to explain this ridiculous phenomenon again.

After a moment of silence, President Xia said, "That's why I said that contestant Shi Yu is a genius."

"As everyone knows, Dr. Zuo successfully let the Green Silkworm obtain the Phoenix Race bloodline during the evolution process and evolve into an Ice Phoenix Moth with the characteristics of a Phoenix."

"In fact, everyone should have heard of the natural phenomenon that appeared when contestant Shi Yu's Green Silkworm evolved at the Butterfly Meeting. At that time, a divine dragon appeared."

"Therefore, I think that contestant Shi Yu's Butterfly of Imagination might have used dragon-element resources to strengthen its physique when it evolved, and it succeeded!"

"For example, dragon blood and dragon balls are resources that can strengthen other lives and physiques. To be able to absorb such resources so perfectly during the evolution of the Green Silkworm, as expected of a genius researcher who can develop the evolution chain of the Green Silkworm cocoon..."

President Xia explained weakly, but that was the only explanation.

Everyone acknowledged and understood what he said, and they knew that it was the truth.

Everyone naturally saw the situation of the Butterfly Meeting.

However, the problem now was that Shi Yu's Butterfly of Imagination was no longer as simple as its physique being improved by dragon-element resources!

It was useless. It insta-killed a quasi overlord dragon type that was using a super dragon type skill!!

Even a divine dragon of the high-level overlord race couldn't do it!

If dragon-element resources were so impressive, the price wouldn't still be suppressed by time, space, and other attributes. Moreover, this Butterfly of Imagination was a spiritual and spatial attribute.

What resource could strengthen it so ridiculously?

"Wu wu wu, my Dragon Ball, my Dragon Ball." President Xia touched the Gem Cat's sore spot. As soon as he finished speaking, in the audience seats of Ancient Capital University, the gem cat immediately pressed its cat claws on its face and cried silently with tears streaming down its face. This, this, this was the Dragon God's Dragon Ball!!

After Shi Yu learned the origin of the Dragon Ball from the Sea Dragon King, he didn't hide it and openly told the gem cat. This telling was no different from adding fuel to the fire, almost causing the gem cat to have a heart attack and suddenly die.

If it had known that the dragon ball with the lost energy was the dragon ball of the Sea Serpent Dragon from countless years ago in Dragon Palace City, it would have signed a "hundred-year-old food contract" with Shi Yu and Baby Ginseng before giving it to Shi Yu no matter what, and not be tricked by the lousy fruit Shi Yu created with a few ginseng treasures at the commander level.

"Teacher Ying, are you uncomfortable?" Lin Xiuzhu saw the gem cat's expression suddenly change, and her body twitched as she immediately said.

"I... I'm just crying from joy. I'm happy to see Buggy so powerful."

"I'm happy too." Lin Xiuzhu's beautiful eyes flowed with anticipation. The Iron-eating Beast and Green Silkworm package should increase in price again!

At this moment.

The commentators, Gu Yu and Han Lu, suddenly exclaimed!!!

"Look."

"The captain of Imperial Capital University, Gao Xuan, is also heading in the direction of Shi Yu and the others."

"The distance between Gao Xuan and Shi Yu is much greater than the distance between contestant Li Qiu and contestant Chu Yi'ang against contestant Shi Yu."
