

## **Beast 441**

Chapter 441: An Chang's Family Treasure

In the ruins space.

Shi Yu and Eleven had been waiting for this day for a long time.

The other five pets also ran over to join in the fun.

Now that everything was ready, Shi Yu and the others finally prepared to use the Meteorite Fragment to let Eleven evolve to a higher life level.

In terms of strength and willpower, Eleven was already not weak.

In terms of external forces, Susu had the strongest cleansing power. Baby Ginseng could also increase Susu's cleansing power through the Time Fruit.

Apart from that, Shi Yu had telepathy. Beast Tamers with talent in telepathy were the least prone to being hypnotized and confused by external forces.

The reason was very simple. This was because this talented Beast Tamer usually had a deeper spiritual and mental connection with his pets than other talented Beast Tamers. It was easier to awaken his pets through contracts.

In terms of data, Susu and Ling analyzed the power of the meteorite fragment together and judged that it wasn't a big problem for Eleven to overcome its power.

Therefore, with everything prepared, Shi Yu felt that Eleven could already charge forward!

Demon God Panda, charge, charge!

"Wuu!!!" Eleven held the meteorite fragment and roared in anticipation.

At the side, Buggy, Baby Ginseng, Chi Tong, and Susu were in deep thought.

Eleven was already so strong. Let's continue strengthening Eleven?

After being first in the team, it was strengthened by the Burning Gold and Yun An fragments one after another. Then, there was the exclusive skill set meal and legendary resources. How could they fight in the future?

"Let's begin."

At the same time, as Shi Yu gave the order, Eleven entered a sharp state. The Nine Li Battle Beast form descended. It swallowed the meteorite fragment that emitted the power of the Dark Demon God with ease!!

In the arena, Eleven, who was wearing impressive armor, had extremely deep blue eyes.

As it swallowed the meteorite fragment, its expression quickly changed.

As expected of a legendary-level evolution resource, the reaction of the meteorite fragment was completely different from the previous few times.

Boom!

Just as it swallowed it and before Eleven could start carving inscriptions to digest the power of Yun An, the substantialized dark magic power was like a messy and destructive airflow that immediately lingered on its body, blowing the hair under its armor!

At the same time, Eleven immediately felt that the dark magic power in its body had formed a deer-shaped creature that tried to corrode its spiritual consciousness and the depths of its heart.

In an instant, Eleven almost lost its mind. Its blue eyes were dyed with a trace of violent black mist. Its mind was so confused that the figure in front of it began to blur. Looking at Buggy, Baby Ginseng, and Chi Tong, it could no longer see the original appearance. Even Shi Yu looked like a distorted demon in Eleven's eyes.

"Engrave inscriptions."

Shi Yu's voice appeared in the depths of Eleven's heart.

"Roar!!!"

Eleven immediately roared. Before its willpower was completely corroded, it immediately carved the very deep inscription in its memory into the armor.

Squeak...

As Eleven carved the corresponding inscription, it relied on this method to "quickly absorb" the power of the evolution resource. The dark power brought by the meteorite fragment was first suddenly suppressed, making Eleven more awake. Then, the dark power began to counterattack. Even if Eleven was very strong, there was an extremely terrifying resistance that prevented it from perfectly carving this inscription.

"Roar!!!" During the inscription process, Eleven's eyes began to turn red. It was extremely difficult. Beside him, Buggy, Baby Ginseng, Susu, Chi Tong, and Ling swallowed their saliva. Especially Susu, who had been waiting for Shi Yu's command to cleanse Eleven's negative emotions at any time.

However, Eleven didn't seem to need help at all. In all aspects, it had already reached the point of absorbing the meteorite fragment. Although it was difficult, soon, the dark power converted from the meteorite fragment was suppressed in Eleven's body.

The dark power gradually converged, and Eleven's aura rose steadily. In a short moment, his physique, energy, spirit, and mind had been baptized by the dark power and strengthened.

"Success?" Seeing this, Shi Yu's heart immediately tightened.

At this moment, sensing Eleven's surging power, Buggy and the others watched eagerly, extremely envious.

"Wuu!!!" Eleven also continued to absorb the power of the Demon God that it had suppressed excitedly, trying to do further racial evolution and awaken new super skills.

Boom!

Black evolution light began to spread from its body. Its energy value continued to increase steadily, and in the blink of an eye, it broke through the five million energy mark.

However.

“Wuu?”

Although it was extremely smooth at the start... As the black evolution light spread on Eleven’s body, five seconds passed and ten seconds passed. Eleven was stunned. It actually felt that its body was rejecting the dark power in its body. This newly converted power couldn’t completely integrate into its body and become a part of it to assist it in breaking through the existing level of life.

Shi Yu was also stunned. To be precise, Shi Yu was completely stunned. He looked at the sign in front of him that was no different from “evolution failure”. For a moment, he was a little confused.

“This...”

To be honest, Shi Yu had thought of the possibility of failure, but that probability was established on the basis that the power of the meteorite fragment was too strong and Eleven couldn’t withstand it at all. But now, it didn’t look like Eleven couldn’t withstand the evolution power of the meteorite fragment no matter how he looked at it. It had clearly suppressed it very smoothly.

However, it still failed.

“Huh?” As his body rejected the dark power, Eleven was completely at a loss.

The evolution light on its body also began to dim. It looked at the Beast Tamer for help.

Chapter 442: An Chang’s Family Treasure (1)

What was going on?

Shi Yu opened his mouth slightly and looked at Ling for help.

Buggy, Baby Ginseng, and the other pets looked at each other.

At this moment, Ling fell into deep thought and analyzed Eleven’s current state.

“It failed...” Ling said. “This situation is recorded in the Feeding index, but it’s very rare.”

“What’s going on?” Shi Yu quickly asked.

In order to let Ling better customize training plans for Eleven and the others, Shi Yu directly threw the data chips regarding feeding knowledge in the Feeding Index to Ling to learn. It was very difficult to perfectly absorb the intelligence crystals of many feeders in Dong Huang with the learning ability of humans. However, it was different for machinery. Therefore, it was easier for Ling to find the direction of some unorthodox feeding knowledge than Shi Yu.

“This wave-shaped energy rejection phenomenon is because Eleven’s current racial foundation is too strong. The power of this meteorite fragment alone is no longer enough to support it to increase its life level greatly again.”

“What do you mean?”

“In short, its foundation is too strong. If it wants to successfully complete its evolution, it needs more meteorite fragments or other methods to evolve. The evolution method suitable for most ordinary iron-eating beasts is already very weak for it.”

“Its race has already deviated too much from normal iron-eating beasts for some reason... The evolution resources needed might also multiply.”

Eleven : “...”

Ling spoke slowly with a strange expression. That meteorite fragment was a legendary level-eight resource.

Such resources were actually not enough to change Eleven’s current racial attributes and let it evolve in other directions?

As expected, it was a monster.

Eleven showed an innocent expression.

“This...” Shi Yu was stunned when he heard Ling’s words.

Was it a bad thing to have a strong foundation?

Ling’s words were not difficult to understand. Now, Eleven had both metal and lightning attributes. Moreover, the low-level racial skills of these two attributes had been pulled to the maximum level by Shi Yu, and its foundation was incomparably firm. As for the Meteorite Fragment, if Eleven wanted to add new dark attributes and greatly change Eleven’s race in this situation, it had to first have the effect of being stronger than Eleven’s current racial foundation.

But clearly, the power of this meteorite fragment was not enough to change Eleven’s current race.

The other resources like Burning Gold that didn’t change their attributes and forms were still alright. They were only absorbed by Eleven, but the mechanism of the Meteorite Fragment was different. It was a resource that could change Eleven’s attributes and race, so it was immediately rejected by Eleven, who had a strong racial foundation.

“Wu wu wu!!!” Eleven cried. What was going on?

In other words, if it wanted to evolve again, it had to eat more meteorite fragments?

But the problem was, where could he find Yun An? This was even a gift from Zhong Xuan.

“Lin, is there no other way?” Shi Yu looked at Lin.

“Three directions. The first is to continue searching for the meteorite fragments. By devouring a larger number of meteorite fragments, you can complete the traditional evolution path of the iron-eating beast that you discovered in archeology. As long as you collect enough meteorite fragments, you can continue to complete the evolution. Moreover, it will be a stronger super demon that is far stronger than what the super-heavy Xuan acknowledged.”

“Second, give up this evolution path and give up the power of darkness. In the future, it will evolve in other directions and open up a new evolution form.”

“Third, retain this dark power in your body and find other metal evolution materials that can complement the meteorite fragments. Replace a larger number of meteorite fragments and open a new evolution form through the combination reaction of different evolution resources.”

Ling looked at Shi Yu.

As for Shi Yu, he fell into deep thought. Initially, when he threw the news of Yun An to the association, he didn't pay much attention. He thought that since he couldn't find it, and since he already had a Yun An fragment, it no longer had much to do with him.

But who would have thought that a meteorite fragment was not enough?

If the Dong Huang Association couldn't find Yun An and deal with it, Eleven wouldn't be able to evolve according to the evolution path of the iron-eating beast ruins.

“I suddenly remember.”

Shi Yu was stunned.

Back then, they had asked the Prediction Owl where Eleven's evolution opportunity was.

The scene predicted by the owl was Eleven fighting an unknown totem, not Zhong Xuan giving treasures and evolving in the ruins.

In other words, if the owl's premonition was correct, and they were experiencing evolution here, failure was inevitable? If they wanted to evolve, they would eventually fight Yun An and chase after it?

“Ah...” Eleven rubbed its stomach. Although it didn't evolve successfully, it was full.

“...Eleven, store the power of the Demon God in the source of physical strength first,” Shi Yu said after a moment of silence.

Eleven: “Yes!!”

...

Eleven absorbed the meteorite fragment and became lonely. Apart from its energy level increasing, its skills didn't awaken, its race form didn't change, and its attributes didn't increase. It couldn't become a rare three-element transcendent creature.

Ling's three suggestions circulated in Shi Yu's mind.

One was to continue searching for Yun An according to the evolution method discovered by archeology and complete the evolution, following the path researched by the ancients.

The second was to give up the power of the Demon God and give up this evolution path. He would find an opportunity to study other things.

The third was established because he couldn't find other meteorite fragments and didn't want to give up the power of the Demon God in his body.

He needed to find materials that could replace and cooperate with the meteorite fragment to complete the evolution in another way. It was also equivalent to opening a new evolution path.

## Chapter 443: An Chang's Family Treasure (2)

Shi Yu was a little confused for a moment. He chose to let it go first. He sighed and walked out. Then, he discovered a missed call.

Shi Yu called back. It was from Senior Bai.

A moment later, Senior Bai's voice came from the other side. "Shi Yu, where are you now?"

"I just came out of the ruins space. What's wrong?"

"There's someone looking for you. Are you free? I'll give him your dormitory address."

"Who?" Shi Yu.

"Do you still remember An Chang? You mentioned the person who helped him evolve into a Dragon Carp in Wu Ling City previously. He later joined the Bai family's dojo and came to the ancient capital to participate in the vocation assessment. Then, he found the Ancient Capital University's battle club and said that he wanted to see you."

"Him?" Shi Yu was stunned and immediately thought of who it was.

Back then, when An Chang's mother was seriously ill, he had no choice but to sell his family heirloom, the Awakening Mirror, to save her life. Shi Yu was the only person who discovered the use of the Awakening Mirror at that time and bought it.

That person had joined Senior Bai's dojo... That was normal. After all, it was a Fusion Talent and had the pet of a monarch race. It had proper master potential. Only a fool wouldn't accept it.

Of course, Shi Yu didn't know why this guy was looking for him, but he was fine now, so he casually said, "Let him come over."

Soon after.

The rather reserved An Chang arrived outside Shi Yu's dormitory villa and carefully pressed the doorbell.

At this moment, Shi Yu and Baby Ginseng were watering the flowers outside. As An Chang arrived, Shi Yu looked over.

"Senior Shi Yu," An Chang said. "I'm very sorry to disturb you."

"It's you. How is it? Is your mother feeling better?" Shi Yu asked.

"Thanks to you, there's no problem anymore. Thank you very much," An Chang thanked.

"But from your expression, you seem a little weak?" Shi Yu had a strange expression.

"Cough... Cough, cough." An Chang said in embarrassment, "Because the race level of the Sea Dragon is too high. Even if I have a Fusion Talent and a very good physique, I often consume too much energy and need to rely on supplements to maintain my state every day. But it's alright."

Shi Yu smiled. This was a blessing in disguise. If he was always weakened, his physique would become better.

"I heard from Senior Bai that you seem to want to participate in this vocation assessment and apply to Ancient Capital University, right? In that case, your Beast Taming Space has reached level two, and your pet has also broken through to the transcendent level, right?"

"Yes." An Chang nodded. This was also thanks to Shi Yu. This was because Shi Yu had evolved its Dragon Carp into a sea dragon of a monarch race. Only then could he become a genius apprentice of the Bai family's dojo under Dean Bai's recommendation and receive good training.

At the second level of the Beast Taming Space, it contracted a low-level monarch race, a transcendent-level dragon-type creature. This foundation was already close to Yin Zhengfan back then.

If nothing went wrong, An Chang should be a super rookie in this year's Ancient Capital assessment.

"You came to find me for something, right?" Shi Yu asked.

An Chang was stunned, then nodded and said, "Thanks to you, I entered the Bai family's dojo to learn under Dean Bai's recommendation. During this period, I also heard many of your legendary experiences and knew that you were a very powerful archeologist... Therefore, I want to give you something when I came to the ancient capital!"

With that said, he quickly flipped through his backpack. Under Shi Yu's surprised expression, he handed over a box containing a transparent glass ball.

"This is also our family's heirloom. It comes from the totem era, but Father warned us not to sell it. It's a very important treasure, so we didn't sell it last time..."

"But it's a waste to leave this unknown ancient item in our hands. I think that Senior Shi Yu, you're an archeologist... This antique might be able to play a more meaningful role in your hands and find its use."

"For me?" Shi Yu subconsciously observed the glass bead and discovered that it was indeed an antique from the totem era. Moreover, it was extremely close to the year of the Awakening Mirror. The difference couldn't be more than a hundred years.

This discovery, together with An Chang's words, stunned Shi Yu. At the same time, his heart immediately tightened.

Could it be...

Shi Yu took the glass bead and looked over.

[This... Could it also be a treasure left behind by the Yue Maiden?]

As Shi Yu locked onto the clue, he made a guess.

In the next moment, his brain rumbled.

It triggered the listening state like the last time he saw the Awakening Mirror.

[This is for you.]

In the blurry scene of history, Shi Yu saw the blurry figure of a white-haired old woman.

Although it was an old woman, Shi Yu vaguely felt that he had seen her somewhere before!

In the scene, the old woman took out a bag and distributed the dozens of transparent glass balls in the bag to the group of children in front of her.

[Take it.]

[This is the 'Talent Bead' that I created with my talent. As long as I chant an incantation to it, I can use them to extract the abilities of dying ferocious beasts and make them into toys...]

[Of course, using it on a Beast Tamer who's on the verge of death and can't resist... is also effective. However, you have to remember to eliminate the roots and not leave any clues.] The old woman smiled kindly.

The scene changed.

"Plunder!"

"Plunder!!"

It was another girl. She held the "Talent Bead" and sealed the skills of the defeated ferocious beasts in the bead, playing happily.

Every bead had been modified into a precious artifact that consumed the user's physical strength and could release skills.

Chapter 444: An Chang's Family Treasure (3)

This scene completely stunned Shi Yu.

A moment later, Shi Yu woke up. His pupils constricted as he looked at the transparent glass bead in his hand.

He had just... entered a listening state again?

Wait a minute, that old woman just now... Could it be the Yue Maiden who mastered the "plunder talent" mentioned by Senior Lu?

"Senior Shi Yu." At this moment, when he saw Shi Yu suddenly staring at the transparent glass bead in a daze, An Chang asked nervously, "What's wrong?"

"This thing... Is there a problem?"

Shi Yu remained silent. He looked at the Talent Bead and then at An Chang.

"Yes."

"This is indeed a treasure."

If he wasn't wrong, this Talent Bead was similar to the Awakening Mirror. It contained a certain "talent ability".

If the Awakening Mirror contained awakening abilities, then the Talent Bead was the "predatory ability" of the Yue Maiden.

He could plunder skills from ferocious beasts and transform the Talent Pearl into a skill toy... Of course, this ability was definitely extremely useless to Shi Yu because he had the skill index and could replicate skills casually. As for this Talent Pearl, it looked like a one-time toy no matter how one looked at it. Otherwise, the Yue Maiden wouldn't have taken out so much for children.

However, from the description of the Yue Maiden, the "Talent Bead" could also plunder the Beast Taming Talent of other Beast Tamers!

This was an ability that Shi Yu's skill index didn't have.

If it only plundered talents like "Attributes Strengthening" and modified the Talent Bead into an attribute strengthening tool, it naturally wouldn't be very useful.

But if he used the Talent Bead to plunder some extremely precious talents, such as awakening talents, the value would be great.

Therefore, An Chang's father was right when he said that this was a treasure that could not be abandoned.

As long as he found the right target, its value might even be greater than Shi Yu's Awakening Mirror.

"Re-really?" An Chang was stunned.

"Yeah, but if we maximize its value, it's also a lethal weapon... It can't be used casually in Dong Huang." Shi Yu was silent. This was a man-eating treasure.

Stealing the Beast Taming Talent of a dying Beast Tamer was no different from killing him.

Unless that person was about to die of old age or was on the verge of death due to certain circumstances and was willing to donate his talent.

And if someone created plundering conditions and had a target, that would be hunting people.

"Then I have no choice but to leave it in your care, Senior Shi Yu," An Chang said. "Sorry to trouble you."

Shi Yu looked at An Chang and said, "You really plan to give this to me?"

Shi Yu was indeed tempted. The real use of this thing was not to plunder the skills of ferocious beasts, but to plunder even more strange Beast Taming Talents. Although there might only be one chance, if the plundering was right, its value was even greater than the Awakening Mirror.

In Dong Huang, there was probably no longer a stage for the Talent Bead to display its potential. However, if it went out of the country, especially on a stage like the World Tournament where one had to fight the totem clans, the Talent Bead might be able to gain a lot. When it came to that side, there were probably many top-notch Beast Taming Talents.

"Yes."

Shi Yu was silent and said, "The value of this thing is indeed extraordinary. It's not an ordinary ancient item. It might involve a legendary Beast Tamer from the totem era. Its value is extraordinary. If you pass this to me, according to the rules, you can ask for a certain reward. Do you have any needs?"

The ownership of the family heirlooms belonged to the individual, but if he took the initiative to hand it over to the archeological Association, he would receive a certain reward. The right of Bureau 11 was above the archeological Association. All the highest management rights of ancient artifacts and ruins in Dong Huang were on Bureau 11. Therefore, it was no different for An Chang to hand the Talent Bead to the country. Bureau 11 was the highest representative of Dong Huang in the archeological field. There was no higher level.

Upon hearing Shi Yu's words, An Chang immediately stammered. To be honest, he had sent this purely to thank Shi Yu. However, when he heard Shi Yu's words, he couldn't help but be tempted. That was human nature.

"Can I really mention it..."

Shi Yu thought to himself how un-shameless this kid was. If it were him, he would have long asked for a lot.

"Of course," Shi Yu said.

"I haven't contracted a second pet..."

"So, you want a top-notch pet? That's simple."

"It might be difficult for overlord races, but you can choose any monarch race."

"No... I actually already have a goal. The second pet, I want to contract a Green Silkworm or an Iron-eating Beast," An Chang said. "So... What I want is to acknowledge you as my master!!"

"I want to be a Beast Tamer as outstanding as Senior Shi Yu."

Shi Yu : "..."

Damn, Shi Yu didn't expect this guy to become his fan.

What was there to contract between the Green Silkworm and the Iron-eating Beast? It was just rotten fish and shrimp. Were the Iron-eating Beast and the Green Silkworm strong? No, it was money that was strong.

"This..." Shi Yu immediately fell into deep thought.

"Can I?" An Chang said nervously.

Shi Yu : "..."

If he had known earlier, he wouldn't have said so much.

It was troublesome.

"You're about my age. I don't have much teaching experience either. It might delay you. If you want to take me as your master, I can recommend you to other Beast Tamers, even legendary Beast Tamers."

An Chang shook his head and said, "I still want to become a Beast Tamer as outstanding as you."

"Of course, it doesn't matter if it's not okay..."

In his eyes, Shi Yu was indeed much stronger than ordinary legendary Beast Tamers.

Could a legendary Beast Tamer contract five overlord species pets? Could a legendary Beast Tamer be proficient in battle, archeology, and feeding in three fields at the same time?

Moreover, Shi Yu was his benefactor.

Most importantly, Shi Yu from the National League was too handsome. He also wanted to do what he did in the National League one day...

Moreover, he really wanted to contract the Iron-eating Beast. After hearing that the Iron-eating Beast was also a trump card of Emperor Wu, his Fusion Talent was immediately tempted. In terms of nurturing the Iron-eating Beast, Shi Yu was undoubtedly the most powerful Beast Tamer in Dong Huang. Even Titled Legends couldn't compare.

Shi Yu :“ ...”

“How about this? There's no need to become a disciple. If you really plan to nurture Iron-eating Beasts and Green Silkworms, I can teach you the cultivation experience, and even the cultivation experience of the Sea Dragon.”

“Alright.” An Chang smiled when he heard that. He was already very satisfied.

At the same time, Shi Yu heaved a sigh of relief. Fortunately, this child didn't go through hell insisting to become a disciple. Otherwise, it would be really difficult.

“Eh, wait.”

“Speaking of which, can I enter the Education Bureau of Principal Feng and Director Zhong if I nurture a legendary Beast Tamer?” Shi Yu suddenly fell into deep thought and muttered to himself.

Soon, he shook his head. He wasn't a legend yet. How long would it take to teach a legend...

However, since he had already promised An Chang to guide him... Shi Yu thought for a moment and immediately had an idea.

He had yet to contract the Iron-eating Beast and the Green Silkworm. He should put them aside first. As for the Sea Dragon... he could strengthen it.

He had the “Sea Dragon King Scale” and “Level-seven divine dragon blood essence” on his side. They were both top-notch resources. He just happened to have no use for dragon blood. From the looks of it, there was no need to sell it. After diluting it, it seemed to be able to directly allow the Sea Dragon to approach the overlord race. At the same time, it could strengthen An Chang's physique to the limit of the same level.

“I'll leave Ancient Capital in a few days, but before I leave, I'll give you some guidance on the vocation assessment,” Shi Yu said. “I'll find a place for you to stay at Ancient Capital University later. You can stay at Ancient Capital University these few days.”

“Alright!”

As An Chang replied, Shi Yu looked at the Talent Bead again...

This thing...

If he could really snatch a Beast Taming Talent, he had to investigate what powerful talent it was. It would be best if it was like the Awakening Mirror, a talent that could be very helpful to his foundation. If he used it well, it would be no different from having the third and fourth Beast Taming Talents!

Chapter 445: Mad Replication Skill

Speaking of which, what exactly were An Chang's ancestors doing?

There was a big boss among the ancestors...

And a tomb raider?

After putting away An Chang's two family heirlooms, Shi Yu muttered in his heart.

Something was wrong with this family.

How could a normal person have so many family heirlooms?

Moreover, they were all related to legendary figures from more than 7,000 years ago.

If it was an ordinary family, he wouldn't believe it even if he was beaten to death.

However, Shi Yu thought that An Chang didn't know about this himself.

Otherwise, they wouldn't have empty family heirlooms but not know how to use them.

"Compared to the 'incantation' of the Awakening Mirror, the incantation of the Talent Bead is much simpler."

"From the looks of it, the Awakening Mirror might be a toy made by the Yue Maiden when she was young, so the incantation is more down-to-earth."

"The Talent Bead is an exclusive special tool developed by the Yue Maiden after she became a powerful Beast Tamer and could involve the source of the Beast Taming Talent."

Shi Yu looked up at the sky.

Although he didn't have the time to take in a troublesome disciple, it wasn't bad to take in so many benefits from the other party.

In fact, Shi Yu had the ability to teach. Even if he taught a legendary Beast Tamer, it wasn't impossible. However, he found it troublesome.

After all, he still had a bunch of things to learn and really didn't have the energy to teach others.

However, it was still possible to continuously provide some resources.

He had nothing but resources! Ahem, the resources he created.

Of course, there were also some special resources that he didn't create himself.

At this moment, Shi Yu found a number and dialed the student dormitory management office.

After the call was made, a middle-aged man's voice came from the other side. "Who is this?"

"Teacher Zhang Dongsheng?"

"I'm a first-year student of the archeology Department, Shi Yu. I want to ask you for a favor and help a new student settle in in advance. He hasn't participated in the vocation assessment, but it shouldn't be a problem for him to enter the school."

"By the way, his name is An Chang. Can you let him look for you later?"

"Shi, Shi Yu?" After being stunned, the teacher on the other side immediately expressed his understanding. "Alright, no problem. Leave it to me."

Shi Yu had only met this Teacher Zhang once when he entered school, but this didn't stop him from knowing him and opening a back door for him.

After hanging up, Shi Yu looked at An Chang and said, "Next, you should look for this Teacher Zhang."

"After you come back, I'll prepare something for you."

"Sorry to trouble you, Senior." An Chang nodded heavily and admired Shi Yu even more. He was too impressive. He was clearly only a first-year student, but he felt that the school was run by Shi Yu's family.

...

Next, Shi Yu returned to the dormitory and began to screen resources for An Chang.

It didn't take long for An Chang to run back excitedly.

It was too big.

The dormitory prepared for students by Ancient Capital University was simply too big. He thought that Shi Yu's residence was special, but he didn't expect that any student dormitory was like a villa.

"You're back?"

At the same time, Shi Yu had already finished. He was sitting in the courtyard happily drinking tea and waiting for An Chang.

"Senior Shi Yu, Teacher Zhang has helped me complete the procedures."

"Alright, sit first. Have a drink of water."

"Just now, you said that you want to apply to Ancient Capital University and haven't contracted a second pet, right?"

"Yes..."

"Then have you thought about what department you want to enter?"

"Battle department."

"I see..." Shi Yu nodded.

“In addition, you also said that your second pet wants to contract an Iron-eating Beast or a Green Silkworm, right?”

“Yes... But I haven’t thought of which one to contract,” An Chang said. “Senior Shi Yu, do you have any suggestions?”

“Wu...”

“In my opinion, it’s better to contract the Green Silkworm.”

“The growth period of the Iron-eating Beast is too long, and the evolution materials are too complicated. It can’t form battle power in the short term. It’s suitable to return and nurture it after having a certain amount of strength and resources.”

“As for the Green Silkworm, its evolution cycle is fast, and the cultivation difficulty is relatively low.”

“Most importantly, the diversity of evolution can make up for your shortcomings.”

“For example, the evolution form of the spiritual element can make up for your shortcomings in terms of mental strength compared to your weaker physique. If it’s an Iron-eating Beast, it might repeat the positioning of the sea dragon. They both strengthen the physique after fusion.”

“That makes sense.” An Chang nodded.

“Of course, it’s not that easy to nurture a Green Silkworm. To have high evolution potential, the proficiency of the worm silk has to be at least transcendent, right? This is very difficult to nurture with personal strength.”

An Chang smiled bitterly. Transcendent Worm Silk... He felt that it was actually pretty good already to have perfect.

“You have to have goals.”

“The Ancient Capital vocation assessment is in less than a month. It’s not very meaningful for you to contract a second pet now. How about this? If you can obtain the top scholar in this Ancient Capital vocation assessment, which is first place, I’ll apply to Ancient Capital University and give you a Green Silkworm that has mastered the proficiency of the transcendent worm silk. How about that?”

Shi Yu chuckled. As the green cocoon system was born, a large number of feeders surged into the research of the green cocoon. In the past few months, green worms that had mastered the transcendent level of worm silk would be produced a fixed batch for research every once in a while under the consumption of manpower, material resources, and financial resources. It was very simple for him to find one.

“First, first place?” An Chang was shocked.

“Just first place in the vocation assessment. They’re all newbies. It’s not as difficult as you think. You contracted a dragon-type creature of a monarch race, and it’s a Fusion Talent. Although I don’t know the level of the other candidates this year, with your configuration, it shouldn’t be a problem to rank in the top three in our batch. If it were a simpler batch, you would be first place.”

## Chapter 446: Mad Replication Skill (1)

“Besides, there’s still time to prepare.”

“I heard that because of you, Senior Shi Yu, the vocation assessment of Ancient Capital University this year might be even crueler than the vocation assessment of Demon Capital and Imperial Capital...”

“...It’s not a big problem, not a big problem.”

“Don’t forget, I’ll also teach you the cultivation experience of the sea dragon.” Shi Yu smiled.

“There’s still more than half a month until the Ancient Capital vocation assessment. This period of time is enough for you to undergo a new round of strengthening.”

As Shi Yu spoke, he directly took out a bottle of about 100ml of golden red blood.

“Do you know what this is?”

“This is...” Seeing the blood, An Chang was immediately stunned.

“The blood essence from an overlord-level purebred divine dragon can strengthen your sea dragon’s bloodline, physique, and your own physique.”

“Of course, this is a level-seven resource. You can’t use it directly, but after dilution, it can be used for a long time. It’s completely fine to use it at the monarch level and master level.”

He originally planned to sell all the useless resources through Ancient Capital University before the trip to exchange for money, but from the looks of it, there was no need to sell the dragon blood inside.

The divine dragon blood essence was a top-notch resource to purify the bloodline of dragon-type creatures and strengthen the physique of Beast Tamers and pets. The Sea Dragon King had asked Prime Minister Turtle to send him this bottle of level-seven dragon blood. For Beast Tamers with Fusion Talent and contracted dragon-type creatures, it was definitely the best resource.

“This...” When Shi Yu finished speaking, An Chang’s gaze was shocked. He said in disbelief, “Level-seven divine dragon blood essence?”

“This, this, this, this is too precious.”

“I can’t accept it.”

Level-seven resources were worth about 100 million. Among them, the price of dragon-element resources was even doubled. In other words, this small bottle of blood essence might be worth hundreds of millions. An Chang couldn’t take it anymore, and his heart thumped.

“It’s indeed quite precious,” Shi Yu muttered in his heart. However, at the moment, An Chang’s previous Awakening Mirror and the Talent Bead were clearly more precious. Shi Yu thought about it and treated it as an unequal exchange. In any case, the resources he was lacking couldn’t be filled with a bottle of dragon blood.

It was better to give it to this kid to make him feel at ease.

This kid was strange. Perhaps there were other family heirlooms waiting for him to appraise... Shi Yu would even believe it if he said that he was the descendant of a Yue Maiden.

“Keep it. You have to know that I definitely won’t let myself take a bad deal.” Shi Yu didn’t give the other party a chance to refuse and confessed.

Under An Chang’s shocked expression, he continued to take out a blue scale.

“This is the scale of friendship of a totem-level creature, the Sea Dragon King. Back then, your Dragon Carp used its power to evolve into a Sea Dragon.”

“I’ll lend it to you for safekeeping now.”

“If your Sea Wyrms has the chance to evolve into a dragon of an overlord race, I can also send you to Dragon Palace City to cultivate.”

Shi Yu took a look at the Sea Dragon King’s scale and decided not to let Susu swallow it. Compared to the other resources he had recently obtained, the Sea Dragon King’s scale was purely dispensable. After all, it wasn’t created by the Sea Dragon King. It didn’t have any special power, so it was better to have the Ice Dragon Badge with the Heavenly Frost Cold Energy.

However, it was useless for him and Susu, but it was extraordinary for An Chang. After all, the Sea Dragon evolved through the power of the Sea Dragon. Carrying the Sea Dragon King scale could also subtly change the Sea Dragon bloodline. If An Chang’s talent was good, he could let An Chang take the Sea Dragon King scale and let him accept the guidance of the Sea Dragon King through the channels of the Environmental Protection Department.

Shi Yu thought for a moment. Although he didn’t have the time to take in a disciple, it wasn’t bad to nurture a little brother and help the Marine Environmental Protection Department run errands in the future. At that time, it wouldn’t be impossible to establish Bureau 14!

“This...” An Chang revealed a shocked expression again, shocked by Shi Yu’s actions.

His ears... Did he hear wrongly? Totem-level creature, Sea Dragon King scale??

“And these.”

“Although this sea dragon-shaped pendant is a level-five resource and a consumable, it contains a water dragon phantom inside. At the critical moment, it can be used to protect your life. You can also summon it with your consciousness to guide the sea dragon’s skill training.”

In terms of skill proficiency, Shi Yu got Susu to use the full-level Water Dragon Ball+full-level Water Protection+expert-level Water Element Control. Coupled with Buggy’s Illusory Phantom+Dragon of Imagination+Dragon Might, he made a “Sea Dragon Statue” figurine for them to comprehend. At the same time, it was life-saving equipment. With this, it was basically not dangerous to encounter non-overlord-level creatures.

“And, this bag of beans.”

“It’s a supplement to recover physical fitness and injuries. There are 100 pills. It’s recommended to break it open and use it when you’re at your weakest. Save it.”

Shi Yu had just gotten Baby Ginseng to use the seed to create a bag of divine beans. The effect was better than the divine beans on the market. It was the kind that could strengthen the body's life foundation without harming the body.

These things could basically make An Chang almost invincible at every level before the master level, laying a very powerful foundation. Even if it were other teachers or legendary Beast Tamers from Ancient Capital University trying to plan a growth path, it was impossible for them to do better than Shi Yu's growth plan. The resources on his side were too rich.

"I..." At this moment, looking at the table of resources, An Chang was already stunned.

Shi Yu thought that it wouldn't make sense if this kid couldn't get first place in the vocation assessment now... Apart from this batch, the personal rewards for the previous National League champions might not necessarily be this rich!

These resources were completely built for an invincible foundation. Back when Shi Yu was a Beast Tamer intern, he didn't even have such good resources.

Chapter 447: Mad Replication Skill (2)

"I'll still be at Ancient Capital University in the next two days. You can look for me if you have any questions, but I'll be going out for a while. I'll contact Dean He from the battle department. You can look for him if you have any questions in the future. He'll definitely be very happy to guide you." Shi Yu smiled.

After what he did, this An Chang might be the genius with the greatest potential in the battle department of Ancient Capital University in the next four years. Dean He definitely had to guide him like a treasure...

...

After giving the pile of things he didn't need to An Chang and sending him away, Shi Yu got Buggy to send the rest of the useless things to the gem cat and entrusted it to help exchange them for high-level resources to replenish life energy, such as the Life Water.

Soon, Shi Yu prepared to add some super skills. From his previous experience, teaching super skills was very harmful. Just the nourishment of the ginseng baby might not necessarily be able to do it. Therefore, Shi Yu still needed an additional batch of resources to ensure the endurance of himself and the ginseng baby.

He estimated that it wouldn't be long before he needed to continue buying the Water of Life given by Dragon Palace City.

About two days later, the gem cat was done. It sent Shi Yu a pile of level-seven life supplements, "Resurrection Grass".

Of course, apart from the word resurrection in its name, its effect was completely unrelated to revival. It was possible to save a dying person, but it was impossible to revive the dead.

At this moment, apart from some precious resources and a pile of life supplements that could not be sold for the time being, there was completely no useless junk left on Shi Yu.

“You’re so prepared. Where are you going?”

“Don’t tell me we’re going to blow up overlords again?”

“Principal Feng said to watch over you and not let you mess around anymore.”

The gem cat licked its claws and stared at Shi Yu, who was putting away the resources, with a doubtful expression.

“No, I just want to travel around during the summer break. I won’t go abroad.”

“The first stop is the insect border. Are you going?” Shi Yu chuckled.

Insect Border City, a second-level city. Outside the city was the paradise of the insect race. In the forest over there, there were a large number of wild insect-type ferocious beasts. It was a forbidden area for inexperienced Beast Tamers. If they weren’t careful, they would die inside.

However, it was a dangerous place in the country after all. As long as it wasn’t a place where totems that couldn’t be dealt with were sealed, it was no different from a backyard for the current Shi Yu. This was because it was impossible for there to be overlord-level creatures. The highest was at the monarch level, so there was no danger.

The “Ultimate Absorption” skill he wanted to replicate was a bug-type super skill.

It was very difficult to find in the ancient capital.

After some investigation, Shi Yu discovered that there was a famous wild worm king in the insect border who had mastered this skill.

Although there were also Beast Tamers whose pets had mastered it, compared to replicating the skills of wild ferocious beasts, it was too troublesome to find Beast Tamers.

“No, I hate bugs the most.”

“Buggy is very hurt.”

“It’s not considered a bug.”

“Buggy is even more injured. What’s the difference between this and saying to people that you’re not human...”

“Why aren’t you leaving yet!”

“Teacher Ying, the level-eight soul pearl in your treasure vault shouldn’t be especially valuable, right? After all, it can’t be sold for the price of ordinary level-eight resources.”

Gem Cat: “?”

“I don’t want anything else. It’s useless for you to keep this one. In any case, you don’t have to save money to buy legendary resources anymore. Why don’t...”

The gem cat: ???

...

The next day, Shi Yu left the ancient capital.

As for the gem cat's pearl that sealed the overlord soul of the Undying Race, Shi Yu still obtained it in the end.

This was the spoils of war of the gem cat, the remnant soul of an overlord it had once killed in the Undead Battlefield.

This thing indeed couldn't be sold for a good price, but it was very useful to Shi Yu.

With the help of the gem cat, Shi Yu let Chi Tong absorb it through Spirit Release.

Chi Tong's normal energy level directly went from nearly 4 million to 5.51 million, becoming the second in the team.

It also increased the proficiency of the Spirit Release by a lot. It was one step closer to perfect level.

Unfortunately, Chi Tong couldn't learn any skills.

However, speaking of skills, before going on this trip, Shi Yu had taught Chi Tong a high-level undead skill, Nether Cold Fire. It was currently entry-level.

Although this skill had a mixed name, cold and fire, it was not related to ice and fire. It was a pure undead skill.

It was considered a mutation of the ghost fire. If the ghost fire skill was the death aura that burned the soul, then the Nether Cold Fire was the death aura that froze the soul. It was just that it existed in the form of flames.

The reason why he taught this skill was because Chi Tong's Interlocking Sword required two conflicting energies to maximize its power.

And judging from Chi Tong's current accompanying moves, although the Soul Slash skill and Sun Flame skill could barely cooperate, the compatibility was not very good. It was inferior to Eleven's lightning, Susu's water-element power, as well as Chi Tong's original partner, ice-element power. This also caused Chi Tong to not be able to perfectly display the advantage of the Interlocking Skill alone in a one-on-one situation.

Therefore, Shi Yu copied an undead-type skill with the "cold nature" as the core, Nether Cold Fire, to let Chi Tong cooperate with the Sun Flame skill with the "hot" as the core to counter the undead to form the Interlocking Sword. This way, Chi Tong's individual battle power could be even stronger.

It wasn't very troublesome to replicate the skill Nether Cold Fire. After all, the ancient capital was the capital of the undead. After letting Buggy search in advance, Shi Yu casually went to the wild area and found a wild undead to replicate the skill. Apart from that, Shi Yu even caught an Earth Mouse on the way and replicated an Earth Escape skill for Baby Ginseng.

Chapter 448: Mad Replication Skill (3)

These two skills were not difficult to find in the ancient capital.

Among them, the Nether Cold Fire was mainly for the sake of cooperating with Chi Tong to use the “Gemini Silver Armor” to train the proficiency of the Interlocking Sword. Before the armor was used up, there was no hurry to strengthen Chi Tong with the legendary resource, the bone sword. After all, it had just absorbed a level-eight resource and needed to continue digesting it.

Apart from that, Susu also began to devour the tsunami sprite’s elemental core, water-element star, memory crystal, Ice Dragon Whiskers, and a pile of idle Ice Dragon badges. It slept and digested them. It would probably sleep for a while. If there were no special circumstances, Shi Yu didn’t plan to wake it up. As for assisting Ling, it was enough to have the water-element clone it created with the control of the water-element.

After it completely digested it, its race level could probably be strengthened to middle or high-level overlord. Even if it didn’t accept the Blue Sea Sprite inheritance, it could be much stronger.

As Eleven, Baby Ginseng, Chi Tong, and Susu began to strengthen to different degrees in succession, with even the sixth Ling starting to study the “mythical domain”. Buggy began to panic.

Therefore, this time, Shi Yu’s first destination was Insect Border City. He wanted to find the ultimate skill to make Buggy feel at ease. Of course, although they would feel at ease, he definitely couldn’t teach it in the short term. He would definitely prioritize low-level skills to teach when Susu was sleeping and couldn’t help with the burden.

...

Two days later.

Insect Border City.

In the White Twilight Mountain Range filled with ferocious bugs, a young man in a dark red exploration suit and a blue butterfly appeared.

After two days of searching, Shi Yu locked onto one of the kings of the Baimu Mountain Range, the Six-Winged Ghost King Mosquito.

Buggy sighed at how difficult it was. It was clearly a pretty butterfly, but it had been swept up by the team to learn the skills of mosquitoes.

However, this move was not exclusive to the mosquito beast.

Among the butterfly-type creatures, Legend Hua’s ‘Hundred Flower Goddess Butterfly’ had actually mastered this skill, but Shi Yu didn’t want to touch Legend Hua’s pet. It was too troublesome to find an opportunity, so he came to find the easier Six-Winged Ghost King Mosquito.

To be honest, this guy had quite a lot of underlings. It was very good at hiding. The millions of mosquito beasts all over the mountain were its cover. Fortunately, Shi Yu and the others had max-level deterrence and mosquito repellent perfume. Otherwise, it would probably be difficult to find the Mosquito King’s nest.

[Replication successful]

As he replicated the ultimate absorption of the Six-Winged Ghost King Mosquito, Shi Yu was in no hurry to teach Buggy. Instead, he continued to run to the next destination, planning to wait until Susu woke up.

During this period, he was upgrading Baby Ginseng's Earth Escape and Chi Tong's Nether Cold Fire skill proficiency.

Two days later.

Shi Yu touched the high-level skill "Tempering Steel" on the Golden Flame Beast in the deep mountains of Spirit Capital.

He also replicated the high-level skill "Protection Flame" on an elemental creature from a local fire mountain. This skill was similar to Protection Water. It was the same type and was prepared for Chi Tong.

Chi Tong had gathered a total of 18 defensive and protective skills that theoretically matched it. Shi Yu felt a headache coming on. It was impossible for him to find all of them for Chi Tong...

Defensive and protective skills were not what Chi Tong thought at all. The more the better. Firstly, many skills were conflicting. Secondly, using them consumed time and energy. In Shi Yu's opinion, he just had to find one or two that were more cost-effective. For example, the Flame of Protection could defend against everything. It was still automatic, so it was easier.

Therefore, after discussing with Chi Tong, Shi Yu planned to replicate a few defensive and protective skills with higher cost-effective ratios.

A week after Shi Yu left the ancient capital.

Shi Yu had separately touched the two high-level skills "Iron Bones" and "Overlord Body Armor" among the pet beasts in the Demon Capital.

Even if these high-level skills were very rare, finding and touching them was very easy for the current Shi Yu.

Unlike the Shi Yu when he had just transmigrated, even if he only wanted to replicate a mere healing skill, he had to hurt himself and find an opportunity first.

However, although things were smooth, Shi Yu was quickly stumped by the most important skill that needed to be replicated.

< Name > Undying Golden Body

[Attributes]: Metal

< Introduction > It's a super metal-element skill that transforms the body into an Undying Golden Body. When injured, it can transform the damage into life force to heal injuries.

This skill, like Inner Power, was a top-notch skill among metal-element skills. It was very rare, and there were very few metal-element pets that mastered it.

It was said that when trained to the transcendent level, one could achieve an effect where the incoming damage matched the recovery. Unless it was insta-killed or killed through special methods, it was an immortal existence.

In Shi Yu's investigation, no Beast Tamer's pet in Dong Huang had mastered this skill.

Among the wild ferocious beasts, there were only three races that had mastered the Undying Golden Body.

First, the Destructive Divine Mammoth.

This was a beast of a totem country around Dong Huang, a totem-level divine elephant who had mastered the transcendent Undying Golden Body. Therefore, totems that could survive the totem battle were all old immortals with super trump cards.

Shi Yu definitely couldn't go to the totem country. Even if he brought the cat along, it was too hard. The power of the cat's little skill was still passable when it came to fighting the weak Vortex Demon Beast. To fight the Destructive Divine Mammoth, which had mastered the transcendent Undying Golden Body and had astonishing strength and defense, it would be like giving it a massage. The damage they could deal wouldn't even be higher than the recovery amount.

It was too dangerous. Even if the cat had Instant Transmission, running after touching it was still life-threatening...

Second, the Golden Phoenix Dragon Sparrow.

This was a creature of a middle-level overlord race. At the same time, it had the bloodline of a dragon and phoenix. It was very powerful. However, this thing didn't exist in Dong Huang at all.

Chapter 449: Mad Replication Skill (4)

It was a species of the Ancient Kingdom of Ming Hua, and even in the Ancient Kingdom of Ming Hua, it was an extremely rare overlord. Only legends were qualified to contract it. Shi Yu had nowhere to look now.

But the problem was that this Undying Golden Body was important to Eleven's battle system...

Third, high-level monarch race, Undying Dragon.

Although this guy was called a dragon, it was actually an earthworm. It was of the earth and metal elements. It lived by living underground and eating metal mineral veins. It rarely appeared on land, so it was very difficult to find. It also mastered the Undying Golden Body skill. Though, in the ancient times of Dong Huang, the Undying Dragon had a record of appearing. It might be Shi Yu's only chance at the moment.

Therefore, Shi Yu's method was to help Baby Ginseng maximize its Earth Escape skill. Then, he would go to the place where more earthworm-type transcendent creatures gathered and slowly search.

This kind of creature didn't live on the surface, so it was difficult to find. However, as long as he aimed his gaze underground, there might be a chance. Shi Yu planned to spend a month searching first. During

this period, he wouldn't be idle. He would first arrange other skills for his pets. He could continue to replicate other rare skills along the way.

If he couldn't find it no matter what, he could only find an opportunity overseas in the future.

About half a month later.

More than 20 days had passed since Shi Yu left the ancient capital.

At this moment, the vocation assessment was about to be held in the ancient capital. Shi Yu was looking forward to that person's performance.

However, he had a headache. Although he copied three rare low-level skills on the way and gave them to Baby Ginseng, Buggy, and Chi Tong, he still couldn't find the Undying Dragon.

This guy had only been discovered twice in more than 2000 years of history recorded by Dong Huang. Clearly, it was a super rare creature, making Shi Yu extremely angry.

At a high-end restaurant in Divine Capital.

After traveling here, Shi Yu, who had put on makeup to avoid being recognized, sighed. He didn't know when he would be able to find this bastard Undying Dragon.

After ordering delicious food, he took out his cell phone and started browsing the news during the meal.

It had been a while since the end of the National League. The current hot topic was basically the change in ranking in the Sequence Battle, but Shi Yu didn't participate. He felt that it was more important to increase his strength at the moment. As for ranking, it wasn't too late to charge in at the end. In any case, it wasn't time for the settlement of the legendary resources yet.

[Big news!! The fifth-rank 'Ji Feng' failed to challenge the fourth-rank 'Jiang Tianyang'!! The legendary young master has returned!]

"Ji Feng?" Shi Yu was a little surprised to see this news.

The fifth in the sequence, Ji Feng, was a national individual champion. He graduated from Imperial Capital University and was an elite of the Intelligence Bureau. He had the Beast Taming Talent, All Things Affinity, the sixth level of the Beast Taming Space, and a top-notch master. Not only could he be intimate with various ferocious beasts, but he could also be intimate with the power of nature, allowing his pets to mobilize the power more easily.

Back then, Senior Lu lost to this guy in the National League.

However, that was also because Senior Lu had yet to master the Mythical Revival skill at that time. Now, Senior Lu's strength was already different from before.

But looking at the sequence ranking, Ji Feng's ranking was still above Senior Lu's ranking. He was definitely stronger than a few years ago.

It was mainly because this guy's Beast Taming Talent was very powerful. It was considered a fusion of a special and strengthening talent. It had special effects and could strengthen the pet's control over natural power. Therefore, every monarch-level pet could display power comparable to an overlord

through a large amount of natural power, and it was the kind without side effects. The only thing that limited this guy was the physical consumption of using its talent.

“Fifth...” In the current situation, if he didn’t use the Time Fruit, Shi Yu didn’t have the confidence to defeat this guy. Even if he used the Time Fruit, it was hard to say if he could defeat the other party in a short period of time.

“Did this guy lose?” After seeing the news, Shi Yu opened the details. The one challenged by Ji Feng was a genius legendary Beast Tamer under the age of 30.

The top four of the Sequence battle were all legendary Beast Tamers.

Among them, the legendary noble son, Jiang Tianyang, was the son of a certain financial group leader of one of the five major financial groups of Dong Huang. He was a super rich second-generation heir.

Although he was rich, he kept a low profile and didn’t participate in public competitions. He rarely appeared, but there were rumors that when Jiang Tianyang was still a master-level Beast Tamer, and that the basic energy value of every monarch-level pet was above five million. They were all piled up with strengthening resources.

Only when the other party registered for the Sequence battle did people know that this very low-profile noble son had already reached the legendary level.

Ji Feng vs Jiang Tianyang, a top-notch master and a legend. It was normal for him to lose.

Unfortunately, Shi Yu did not manage to find the battle video.

He scrolled through other hot topics in boredom.

A moment later...

Shi Yu’s pupils constricted as he discovered a sentence that stimulated his nerves.

[Ming Hua’s exchange team has arrived at Dong Huang!!]

[After the World Tournament is confirmed, the Seven Nation Alliance and some totem countries have signed a year-long non-aggression treaty. The focus of both parties is on the preparations for the World Tournament. A certain amount of exchange will be carried out between the seven countries.]

[According to sources, the hundred-man exchange team of the Ancient Ming Hua Nation arrived at Dong Huang a day ago under the lead of a titled legend and two legendary Beast Tamers.]

[Among them...]

“Legendary Beast Tamer of the Ancient Kingdom of Ming Hua, Katavi, represents a battle pet, overlord-level Golden Phoenix Dragon Sparrow.”

When Shi Yu saw the name of the legend leading the Ming Hua’s exchange team, his expression immediately turned solemn. He immediately recalled the information he had investigated when he was searching for the Undying Golden Body skill.

Damn.

He didn't find the Undying Dragon, but he found the Golden Phoenix Dragon Sparrow. Shi Yu's expression was complicated, not knowing if he should be surprised or depressed.

He wanted to go to a forum and ask for help! How could he shatter the legend of the Ancient Ming Hua Nation and touch the Golden Phoenix Dragon Sparrow? It was quite urgent!

Chapter 450: Birth of the Mechanical Beast

Divine Capital.

After Shi Yu finished eating, he immediately left.

In the outside world.

Shi Yu called Principal Feng.

"Huh?"

Principal Feng's surprised voice came from the other side.

"Kid, why are you suddenly calling me?"

"I just want to ask..."

"As I said last time, there's only one last process left. It probably won't be long before it's delivered to you."

"It's not about the legendary resource," Shi Yu said.

"Oh, Qingyi hasn't come out yet."

"No! Principal Feng, I just saw the news. It's said that the exchange team of the Ancient Kingdom of Ming Hua has come to Dong Huang?"

"Uh..." Principal Feng was stunned.

He suddenly had a bad feeling.

"Yeah, what's wrong?"

"Where are they now?"

Shi Yu said warmly, "I'm quite interested in the history of the Ancient Kingdom of Ming Hua. I want to communicate with them."

At the moment, among the seven countries, only Dong Huang and Ming Hua were known as ancient countries. The development history of Beast Tamers was relatively complete.

The history of the Ancient Kingdom of Ming Hua could also be traced back to the totem era. The evolution process was very complicated.

On the other side, undead were prevalent in the Netherworld. There were many Spirit Mediums, but there were also traditional Beast Tamers who pursued transcendent races such as cows, snakes, elephants, and peacocks.

“You...”

When Principal Feng heard that, he pondered for a moment.

He fell into deep thought.

This time, the exchange team that Ming Hua came to Dong Huang with was a very complete exchange team. There were elites in the business world, archeologists, feed masters, mechanical masters, and young Beast Tamers who might participate in the World Tournament to broaden their horizons.

In theory, Shi Yu was a member of the third and eleventh bureaus. As the owner, it was completely fine for him to welcome and communicate with the guests.

However, why did he have a bad feeling when he heard Shi Yu’s excited tone?

Shi Yu... was restless...

“They should be in Demon Capital now...”

Principal Feng said, “Are you sure you want to go over?”

“Then can I contact President Xia?” Shi Yu asked.

He knew the president of the Demon Capital Association.

The exchange team was in Demon Capital. In theory, President Xia would definitely be in charge of receiving them.

“Yes.” Principal Feng nodded and said, “But our school’s Director Li also went to communicate with the Ming Hua’s exchange team as an archeologist representative. If you want to go over, you can look for Director Li over there.”

“But generally speaking, apart from commercial trade and sparring among the younger generation, there’s nothing else to communicate about this kind of exchange. It’s just a formality. It’s actually meaningless for you to go,” Principal Feng said.

“I’ll go take a look.” Shi Yu was rather serious.

He had liked the Ming Hua culture and Ming Hua pets since he was young. After communicating with the Ming Hua Legend through various methods such as battle, feeding, and archeology, it wouldn’t be too much to “hug” and take a photo with the other party’s pet.

This was already giving Legend Ming Hua a lot of face!! This was a friendly opportunity to communicate with a super big boss who was also a member of four bureaus!!

...

In the suburbs.

Shi Yu summoned Chi Tong’s clone.

“Mi!”

Chi Tong’s sword bent with tears on its face.

It had the same expression as the gem cat clone.

The tool sword was ready.

“To Demon Capital.”

Shi Yu hung the ruin ring on Chi Tong’s clone.

“I won’t possess you to fly today. You fly yourself.”

After locating it, Shi Yu himself crawled into the ruin ring, leaving Chi Tong’s clone sighing and looking south.

Life was not easy, the clone sighed.

This time it was Chi Tong’s clone that was transporting him!

At the same time.

In the ruins space.

Shi Yu heaved a long sigh of relief. After searching for so long, he had to replicate the Undying Golden Body no matter what.

Otherwise, if he missed this opportunity, he might not be able to see this skill again.

“Let’s see Eleven and the others’ training.”

After arriving at the space, Shi Yu strolled.

For the past 20 days, he had been in pain and joy.

In 20 days, he went to many places in Dong Huang and ate many unique delicacies. He also replicated a bunch of rare skills.

However, the skills copied also had to be added as points.

A bunch of high-level skills was tiring work.

However, in less than a month, the increase in the strength of Shi Yu’s pet was also very gratifying.

This kind of reward that could be seen made Shi Yu feel that being exhausted was worth it.

The temperature was getting hotter and hotter.

Soon, Shi Yu arrived at a desert area.

At this moment, there was a worm creating a sun. At the core of the sun was a black and white panda...

It widened its big eyes and enjoyed the burning of the flames...

In the four corners of the Worm Sun, there were also four Bean Bears. From time to time, they would release a super electromagnetic cannon from four directions to bombard the injured Eleven inside.

“Well...” Shi Yu rubbed his head.

In the past 20 days, Eleven had learned a total of three new high-level skills.

The reinforced iron bones that became stronger after being beaten, the tempered iron that became stronger after being burned, and the Overlord Body Armor that exceeded the limit of enduring damage!

Not only did Eleven learn it, but it had also been raised to perfection by Shi Yu.

Of course, the upper limit of these teaching skills and skill index was only transcendent.

However, although it was only transcendent proficiency, the increase in Eleven's physique was ridiculously large.

At this moment, even if Eleven didn't use any skills or energy, it wouldn't be a problem for it to fight ferocious beasts of the same level with its physical strength alone.

Even if he didn't use any defensive skills and relied on his body to resist Baby Ginseng's energy explosive fruit enhanced by the Moon Explosion, Eleven wouldn't be heavily injured.
