

Beast 461

Chapter 461: Still Killing indiscriminately (5)

"Amy Rui, you're too much. Who said I'm the weakest?" The man named Karen was furious.

The other four looked at him appraisingly, leaving him speechless.

"Grab the opportunity. After all, if you miss this opportunity, you might lose your only chance to win." The curly-haired woman, Ayasha, smiled.

The other two men also smiled and nodded. Then let's leave this good opportunity to Brother Karen.

"I'll go then. I also want to see five overlord races," Karen said.

On Ming Hua's side, the young man named Karen quickly walked out. On the other hand, Shi Yu was immediately helpless when he saw that the opponent wasn't Amy Rui.

There was a one in five chance of missing!

Forget it, since he wasn't the target opponent, he should send other pets to fight first to avoid wasting Chi Tong's energy.

"Ming Hua's Karen." After the curly-haired young man went on stage, he greeted Shi Yu.

"Karen."

As Karen came out first, the two legends of Ming Hua nodded. They also knew that Karen was the weakest among the few of them. However, even if he was the weakest among the few, he was still a super genius ranked in the top ten of the Beast Tamers under the age of 30. It shouldn't be a problem to deal with a level-five Beast Tamer with a telepathy talent, right? Even if the other party's pet race was very high.

"Kid, you can do it!"

In the Ming Hua audience, some of the Ming Hua Beast Tamers cheered for Karen.

Although the hundreds of people in the Dong Huang audience might not be familiar with Shi Yu, with Shi Yu's reputation, they still all knew Shi Yu, this super new star who had just revealed his talent in the National League. They immediately waited for Shi Yu's performance.

The great demon king of the National League had finally stopped fighting the Baby Cup and came to fight the super genius who was ranked in the top ten of Ming Hua?

"Can he win?" Xia Qingwei said nervously. She clearly hoped that Shi Yu, who had tortured her thousands of times, could win.

"I don't know..." Dr. Zuo shook her head.

"Both parties are ready..."

At this moment, President Xia was already above. The part-time judge spoke slowly and advanced the process of the exchange.

As he spoke, in the arena, Shi Yu and Karen's expressions immediately turned solemn. They focused and prepared to summon their pets.

"Battle..."

"Begin!"

Boom!

As President Xia finished speaking, with a boom, a violent wind howled. A huge purple and blue summoning array appeared under Karen and Shi Yu's feet. At the same time, the figures of two pets instantly appeared in front of them on the summoning array.

"Roar!!!" On the purple summoning array was a huge beast more than four meters tall. It had a steel-like explosive body, held a huge axe that contained a golden stone texture, and had a pair of curved golden bull horns. The monarch aura involuntarily spread out, shaking the ground until layers of dust flew in all directions.

On Shi Yu's side, accompanied by the flickering of blue lightning, was an Iron-eating Beast more than a meter tall. It stood naturally, its entire body covered in black and white interweaving. Its deterrence was shown, and it had blue eyes.

"Huh?"

At this moment, when the two pets faced each other, Shi Yu and Eleven's mood was a bit different.

< Name > Iron Bull King

[Attributes]: Metal

[Race Level]: High-level monarch

[Level of Growth]: Monarch Level

Energy Points: 2.7 million

This guy... Wasn't this race close to Master Qu Jie's Ox-Headed Beast King!

Little cow, you're here again.

"Roar!!!" The Iron Bull King was extremely domineering. It made the huge axe fall naturally and looked at the big dot opposite them in confusion.

Karen was also very silent. This was an overlord race? An overlord race looked like this?

Not only were they puzzled, but the contestants and audience of Ming Hua were also quite puzzled. After all, they had only been in Dong Huang for a short period of time and couldn't connect to the Internet. They didn't receive much information at all. Or rather, this kind of exchange activity was the process of receiving information. Now, they were preparing to receive information!

"Iron-eating Beast, a middle-level transcendent Iron-eating Beast? This is Dong Huang's unique pet!" A Ming Hua audience member recognized Eleven's race and asked in confusion.

No matter what race it was, at this moment, the battle was about to begin. There was no time for the two contestants to react. As golden light flashed on the bodies of the Iron Bull King and Karen, with a boom, the Iron Bull King's aura rose steadily.

Energy Points: 6,590,000

"Roar!!!" The Iron Bull King roared and raised its battle axe. Cracks instantly appeared on the ground, and its figure turned into a golden flash. It arrived almost instantly, and its speed was extremely fast!!

Perfect mid-level metal-element speed skill, Metal Ripple!

It instantly arrived beside Eleven and swung its huge golden axe down!!!

Giant Diamond Axe!

Boom!

A dazzling golden light filled the world.

Under the golden light, golden scratches appeared on the surrounding top-notch materials.

Everyone from Dong Huang focused their attention and looked at the Iron-eating Beast that was being attacked by the Iron Bull King. Their hearts skipped a beat.

However, at this moment, a voice sounded. "This guy isn't your trump card, right?"

As soon as the voice fell, a scene that made everyone's eyes widen appeared in the arena. The one-meter-tall Little Iron-eating Beast didn't use any skills. It slowly raised its palm with its physical strength and actually blocked the falling steel huge ax. Then, with a boom, the surrounding airflow wreaked havoc like a storm, but the Iron-eating Beast didn't move at all. The falling huge axe even stopped in midair, unable to fall at all!

For a moment, the huge Iron Bull King and the little Iron-eating Beast seemed to have frozen in place!!

Everyone widened their eyes.

After purely using his physical strength to receive the opponent's attack, Eleven slowly raised its head and saw the Iron Bull King's incredulous gaze.

Similarly unbelievable were Karen, the other four Ming Hua contestants, and the Ming Hua audience.

The reason why they widened their eyes was that the Iron Bull King's attack under Karen's strengthening was actually... actually easily received by the creature opposite without using any skills??

"How is this possible!!!" Karen shouted almost instantly. Even if this Iron Bull King was only the third strongest pet in his team, it had only been strengthened by level-eight resources. Its super skills were close to expert level, and its low-level skills were all above perfect level. After strengthening, it was a powerful monarch with nearly 7 million energy points. He widened his eyes and looked at the attack easily received by the Iron-eating Beast. His pupils constricted in confusion.

The Beast Tamers watching the battle couldn't understand either...

Boom.

The Iron Bull King's expression was ferocious as it erupted with the super skill Diamond Body. Its body increased again, and its physique strength rose steadily. However, the Iron-eating Beast opposite him still didn't move at all.

At this moment, Karen was completely stunned. In the next moment, the Iron-eating Beast's entire palm spread and superimposed a layer of black substance. It gently raised it up. Then, the Iron-eating Beast raised the bull's gigantic hardened body. Then, with a swing and a boom, the Iron Bull King flew out again like a golden flash under the huge force's rotation. It was smashed into the protective wall of the arena with a panicked gaze.

Crack...

A crack appeared in the wall.

The Iron Bull King's entire body seemed to have been penetrated by an invisible shock wave. Its pupils instantly turned white, and it vomited before sliding down the wall.

At this moment, even Dong Huang's own people, such as President Xia, Director Zhong, Heavenly King Zou, Zheng Hai, and the others, looked at this Iron-eating Beast in extreme shock.

Holy shit... What happened just now... The Iron Bull King was directly insta-killed by a low-level skill?

They could sense that the Iron Bull King was definitely not weak. After strengthening, its energy level definitely exceeded five million, and its physique was incomparably strong. However, even so... it was insta-killed? And it was a low-level skill?

Holy shit, no way. This wasn't the National League anymore. The other party was a super genius ranked in the top ten of Ming Hua. How could Shi Yu still kill randomly??

"That's it?" Shi Yu muttered in his heart. contestant Ming Hua was indeed weak. It shouldn't be a trump card, right? This was even inferior to General Xiao Qin's Demon Sea Star...

At this moment, Eleven also shook its arm in the arena. Wu wu wu, Reinforced Iron Bones and Tempered Iron were really useful.

With the enhancement of these two passive physiques, a low-level skill Hardening could instantly kill the opponent. Again!

It looked at its opponent fiercely, and Cullen was immediately shocked. No, this was definitely not an overlord race. This was a f*cking Mythical race!

...

Chapter 462: Eleven, Who Was Exhausted (1)

"What's wrong with that pet!"

As the Iron Bull King was defeated so easily by his opponent, his four teammates suddenly stood up.

On the platform, the two legends, Ming Hua, were also shocked. They looked at President Xia and Director Zhong.

They knew Karen's strength, and they also knew the strength of the Iron Bull King. If the opponent had erupted with an extremely strong super skill and won, they wouldn't feel anything.

However, resisting the unique skill with its physical strength alone and sending the enemy flying like drinking water, was this something a bear cub more than a meter tall could do?

Even the Diamond Dragon King of a quasi Mythical race couldn't have such physical strength, right?

"Is he really only ranked 22nd?" Katavi wondered.

Yesterday, she was still analyzing with the five contestants that there was no need to care about Shi Yu. The most important ones were Zheng Hai and Zou Yun, but who knew that Shi Yu was so strong!

Even if it was a quasi Legend in the same profession, he would have to use talent to defeat the Iron Bull King so easily. As for Shi Yu, not only could his Beast Taming Talent be ignored... He only used a low-level skill. This was too ridiculous.

"It's indeed 22, but this ranking is also related to the fact that he has almost never participated in the ranking battle, so his full strength... It's difficult for the Sequence Competition Committee to determine," Director Zhong said with the corners of his mouth twitching.

Their Dong Huang didn't do any ranking fraud. Don't misunderstand!

It was purely because Shi Yu had never fought a proper ranking battle since the registration began!

This ranking was still according to the national competition.

National League...

Speaking of the National League...

Director Zhong and President Xia were a little silent. They suddenly realized that the current Iron-eating Beast was only in a restrained state. The endless power in its body had yet to erupt!

Ming Hua's guests were restricted from connecting to the Internet and didn't know the situation, but they had personally seen the Nine Li posture of the Iron-eating Beast that mastered the power of lightning after multiplying to a hundred meters in the National League!

Dear god... Just how strong was this Iron-eating Beast?

President Xia and Director Zhong also wanted to know.

Unfortunately, during the National League, although Principal Feng revealed that Shi Yu's Iron-eating Beast had evolved from the Nine Li Battle Beast and was a quasi Mythical race, more information was not revealed at all. This was the highest secret of the country.

"I see."

The expressions of the two legends darkened. They continued to watch and didn't fully believe this saying.

At the moment.

Cullen was extremely nervous. He didn't know if his teammate was scamming him or what. This... was this really the other party's weakest Beast Tamer??

As the Beast Tamer ranked the lowest among the seven, Shi Yu already had this strength. How terrifying would the others be?

"Wu ~ ~ ~"

In an instant.

The Iron Bull King's figure disappeared, and an even larger creature appeared in the arena. It was a metal-element giant elephant five meters tall. Its body was covered in golden-green rust, and the metal color on its body formed irregular patterns.

Boom.

As soon as it appeared, its thick and long nose that was like steel bars whipped at Eleven. This slap was as heavy as a mountain collapse, the sky fell, and the air instantly howled.

The audience of Ming Hua naturally recognized this pet. This was Karen's second main force, the quasi overlord race's Golden Mountain King Elephant. It had mastered an expert level super skill, which was also the move being used at the moment. Its normal energy level was as high as 3 million, and after being strengthened by the Beast Taming Talent, it could exceed 7 million. In addition, its incomparable strength...

However.

Karen still didn't realize the difference. Eleven, after five level-eight metal resources, including a demigod fragment, had a normal energy level that had exceeded six million. Apart from that, its physique had been tempered into steel and it had reinforced iron bones. Just its physical strength was enough to match an expert super skill!

With this comprehensive attribute, facing the Golden Mountain King Elephant, even if it didn't use any skills, it could still fight evenly. If it wanted to win, it didn't even need to evolve. It only needed to superimpose a skill on the current powerful foundation.

For example, max-level hardening again.

Eleven looked at the huge nose that was whipped over and its eyes flashed. Its fist was filled with a black metal luster, and it punched the elephant nose in the form of an ordinary Iron-eating Beast!!

"Wuu!!"

Hardening Punch!

Boom!!!

Eleven finished condensing and threw a punch. At this moment, the huge nose was still a few meters away from Eleven, but with a huge sound, the Golden Mountain King Elephant had already sensed a terrifying power. Its nose instantly distorted in mid-air, and the destructive power appeared. In the huge

shock wave, Eleven's fist wind swallowed the shrunken Golden Mountain King Elephant's huge nose and spread into the distance!!

A powerful wave even swept up a huge storm, directly lifting up the floor with cracks!!

Accompanied by the shock wave, the Golden Mountain King Elephant was also sent flying almost unsurprisingly. Cullen used his arm to block the strong wind that was blowing at his face in shock. He looked at the Golden Mountain King Elephant that was also sent flying and gradually lost the ability to think!

"It's still the same!"

With this hit, Karen's throat was dry.

Of course, the defense of the Golden Mountain King Elephant seemed to be stronger than the Iron Bull King. After taking the attack, it didn't lose its ability to fight. It only suffered a certain amount of injuries and rolled on the ground with a wail, wanting to get up.

Seeing this, the Ming Hua audience was immediately speechless. They looked at the little Iron-eating Beast in disbelief.

Chapter 463: Eleven, Who Was Exhausted (2)

"Just send out your trump card."

Shi Yu suggested. He didn't want to cause too serious an injury to the other party. He only wanted the other party to understand the difference in strength and move faster.

At this moment, sweat flowed down Karen's forehead. The other contestants of Ming Hua also had serious expressions as they analyzed what they should do if they encountered this strange pet.

"What race is this?" contestant Ming Hua was solemn.

Iron-eating beast? Impossible. Iron-eating beasts were only middle-level transcendent races. The pressure of this pet was about to exceed that of an overlord race!

"So strong..." In the Dong Huang audience seats, Xia Qingwei was speechless. Beside her, Dr. Zuo said after a moment of silence, "In addition to the performance of this Iron-eating Beast in the National League, I suddenly understand why Principal Feng said that even the legendary Emperor Wu wanted this pet as his trump card!"

This was a power that was difficult for bug-type pets to reach...

At the same time, after Cullen realized that it was still impossible for the Golden Mountain King Elephant to be a match for this pet, he didn't fight to the death. Instead, he directly retracted the Golden Mountain King Elephant.

However, he was not in a hurry to summon a new pet. Instead, he stared at the Iron-eating Beast and Shi Yu and said,

"Before I summon my trump card, can you tell me its race?"

“Although it looks like an Iron-eating Beast, it’s definitely not that simple.”

“I heard that every pet of yours is an overlord race and is very powerful. I’ve finally seen it for myself, so can you tell me its true race?”

The reason why they participated in the Ming Hua exchange team was to see more foreign pets and increase their knowledge.

The expressions of the Ming Hua contestants led by Cullen were solemn. They didn’t expect to see a powerful pet they had never seen before when they had just arrived at Dong Huang.

“Sure.”

Shi Yu had no intention of hiding it. He looked at Eleven and said, “The iron-eating beasts were indeed transcendent creatures without evolution potential.”

“However, ever since a genius archeologist discovered the evolution method of the iron-eating beasts, everything changed.”

“After the Iron-eating Beast evolves, it’s called the Nine Li Battle Beast, and the Nine Li Battle Beast can still evolve again.”

“According to the different cultivation methods, the racial level after evolution is also different.”

“My Iron-eating Beast has reached above a high-level overlord race. It can be called a quasi-mythical race!”

“If nothing goes wrong, soon, the Iron-eating Beast will become a national treasure creature with a status comparable to a dragon and phoenix in Dong Huang.”

Eleven crossed its arms and looked proud. Buy, buy, buy, buy. It wanted to see who wouldn’t choose the Iron-eating Beast as a pet! Eleven still seemed to be brooding over the fact that no one bought it back then...

Karen’s pupils constricted.

The pupils of the Ming Hua contestants, the audience, and even the two legends constricted.

They wondered if they had heard wrongly.

Quasi, quasi Mythical race?

This race actually didn’t exist in the evaluation of the Beast Tamer Association of the Seven Nation Alliance. The highest racial evaluation was just a high-level overlord race.

Only those totem-level creatures that had reached the totem level and modified their bloodlines to the best were qualified to be called quasi-mythical races.

And when a Feeder and a Beast Tamer called a creature that wasn’t at the totem level a quasi-mythical race, apart from bragging, there was only one possibility. That was that its talent potential indeed far exceeded and completely defeated ordinary overlord races.

It was a rather arrogant and confident judgment.

“High-level overlord race?” Regardless of whether it was quasi-mythical or not, as Shi Yu said that the iron-eating beast’s race level had reached above a high-level overlord race, the two Ming Hua legends were shocked. Although they were both holding overlord races, the difference between low-level and high-level was still very huge.

They looked at President Xia and Director Zhong, but the two of them smiled faintly.

Iron-eating Beast that would become a national treasure creature with a status comparable to a dragon and phoenix in Dong Huang... Shi Yu’s ambition was indeed not small, President Xia and Director Zhong thought.

Dragons and phoenixes were totems that had been worshiped by the humans of the Dong Huang Continent since the totem era...

“Dong Huang... discovered a new evolution form with high-level overlord potential again? And it’s... an archeological discovery?” Legend Katavi was shocked. They were both ancient countries, so why was the foundation of Dong Huang so strong? It had been a long time since the Ming Hua Nation had discovered a new species of high-level overlord races.

“Which archeologist is it?” Legend Ming Hua Fade asked. He had to let his archeological team communicate.

President Xia and Director Zhong : “...”

President Xia: “Is there a possibility... that the genius archeologist Shi Yu mentioned is himself?”

The two legends of Ming Hua : “...”

“Quasi Mythical race??”

On the other side, after being frightened by Shi Yu, Cullen indeed trembled in his heart, but soon, he bared his teeth.

His desire to win was even stronger.

The more impressive Shi Yu was, the more he wanted to defeat Shi Yu after two defeats.

Dong Huang’s national treasure, a quasi Mythical race? Only then would it be exciting to defeat it.

“Impressive, this is the first time I’ve heard of it.”

“You guys are indeed very strong, but this is the end.” Karen couldn’t help but say.

He had to win the last battle even if he had to risk his life.

“Jiu!!! ~ ~”

In the next moment, as golden light flashed on Cullen’s body, a huge bird pet nearly ten meters long after spreading its wings appeared in the sky. It had a gorgeous golden feather crown and golden feathers all over its body. Its figure was incomparably domineering, and its red eyes revealed the sharp gaze of a top-notch predator!!

Chapter 464: The Exhausted Eleven (3)

< Name > Golden-Winged Roc

[Attributes]: Metal, Wind

[Race Level]: Low-level overlord

[Level of Growth]: Monarch Level

Energy Points: 4,690,000

Boom!

Energy Points: 10 million

Karen finally sent out the trump card battle beast. The strength of this pet was indeed different from the previous two. Karen himself instantly erupted with the greatest strengthening strength, sending the energy value of the Golden-Winged Roc to break through the ten million mark. He lost twice in a row. This time, he couldn't be tortured anymore. In order to save face, he had to take this "national treasure of Dong Huang" down no matter what!

At this moment, as Karen summoned the Golden-Winged Roc, Shi Yu and Eleven revealed shocked gazes for the first time.

As expected, how could Ming Hua's super genius be as weak as before? It turned out that he still had some skills.

"This Roc..." As this overlord race's Roc appeared, Zheng Hai, Zou Yun, and the others in Dong Huang's contestant area narrowed their eyes.

Although they couldn't easily deal with the two pets sent by Karen just now like Shi Yu, it wasn't troublesome to deal with them either. However, this golden roc... They looked at the golden particles tearing the air around the golden-winged roc and its heavy aura and immediately understood that this golden-winged roc was definitely not on the same level as the two pets just now.

It could already be called a top-notch monarch.

In the Beast Taming Domain, Beast Tamers called those monarch-level creatures that could reach ten million levels of energy after strengthening through Beast Tamers or increasing through explosive skills... a "top-notch monarch".

If a top-notch master wanted to have a chance to fight against overlord-level creatures, it would be very difficult if there was no top-notch monarch in the team.

Obviously, this Ming Hua's super genius, Karen, could already do this with just one pet. He didn't need the support of other pets at all to reach the top monarch level. In the eyes of Zheng Hai, Zou Yun, and the others, this was already very strong and could win their respect.

"Top-notch monarch..."

However, although the strength of this Golden-Winged Roc had clearly reached the level of a top-notch monarch, it was impossible for Shi Yu's Iron-eating Beast not to be a top-notch monarch.

Zheng Hai, Zou Yun, and the others' expressions turned serious. Their previous opponents were relatively weak, but the Golden-Winged Roc this time should have some weight. They didn't know how much strength the opponent could force out of Shi Yu and that Iron-eating Beast...

"Golden-Winged Roc, Dragon Hunt!"

As the battle began, Cullen immediately spoke. Expert level super metal and wind dual-element skills, Dragon Hunt!

In Ming Hua, the Golden-Winged Roc ate alternative dragons as food. Even if the target was an alternative dragon, it had a strong physique. Therefore, in order to successfully hunt food, the Golden-Winged Roc trained a dragon hunting skill that contained terrifying tearing power!!

It could instantly tear apart the body of a dragon!

"Jiu!!!" The Golden-Winged Roc was like a sword that hung down from the sky. The surrounding area was filled with the illusion of huge claws intertwined with green and gold. They wrapped around its entire body and instantly entered the Dragon Hunter posture. It streaked a golden beam of light towards Eleven underground with a boom!!

Below.

Eleven was locked onto by the perfect-level deterrence of the Golden-Winged Roc at the same time. The cracks in the surrounding ground cracked again, but Eleven was naturally not affected by this level of deterrence. It looked at the huge bird diving down and an electric current flashed in its eyes.

"This guy..."

It was not good to only use hardening.

Let's add two more skills...

Shi Yu's thoughts fell.

Eleven let out a cry, stretched out its palm, and squeezed in the air.

Karen and everyone's eyes flickered. What skill was this?

Squeeze... in the air?

"Didn't it rely on its huge strength and huge metal-element energy to create a shock wave previously..."

"Wait, it's not even metal-element energy this time!"

Suddenly, Karen sensed that the blue particles filling the sky were completely different from the previous power fluctuations.

"Thunder."

Cullen's pupils constricted. After realizing that it was a thunder-element skill, he didn't feel anything at first, but as this skill appeared, he was stunned.

Crack!

In the blink of an eye, lightning filled the sky.

With a boom, almost everyone covered their ears and widened their eyes.

The Iron-eating Beast squeezed in the air.

A lightning palm that was a hundred meters long and wide formed almost instantly. The power of the palm covered the sky and earth. Compared to it, the Golden Winged Roc was extremely small!!

Dao Proficiency Giant Transformation+Transcendent Thunder Palm+Dao Proficiency Deterrence!!!

Profundity: Divine Might Thunder Palm!!

He still didn't use super skills and only relied on the basic skills to form the strongest profundity.

Eleven released its energy and pinched it towards the enemy. It was quickly formed into a terrifying lightning palm print by the enlarged lightning palm and deterrence. It appeared between the two pets, making the pupils of the Golden-Winged Roc that was tearing down shrink. Its brain instantly rumbled, as if it was in an endless sea of lightning!

Cracks instantly appeared on the Roc's perfect-level deterrence, and a hole appeared in its mind. Its energy even dissipated because of this, and its battle power instantly weakened greatly. At the same time, the Dragon Hunting Skill and the Thunder Palm collided. The energy of both parties first compressed, and then it suddenly erupted. However, it erupted towards the Golden Winged Roc!!

Boom!!!

In an instant, the huge Golden-Winged Roc was pinched in midair by the huge palm. Endless lightning clenched into a blue ball in the sky. Then, like a blue planet exploding, the terrifying electric current instantly turned into tens of thousands of electric snakes that scattered in all directions. At the same time, the Golden-Winged Roc's figure fell from the sky extremely weakly!!

Chapter 465: The Exhausted Eleven (4)

"Jiu!!!" The sad cry of the Golden-Winged Roc came from the sky!!

The scene was extremely spectacular.

The magnificent lightning snake that was like a firework disappeared a few seconds later.

There was instant silence.

Most Beast Tamers recognized at a glance that this was not a move, but a profundity formed by multiple moves, but...

"Boom! Boom!!!" Cullen took two steps back, his eyes exploding. However, the power of this move was difficult for everyone to understand!!

Karen was stunned.

This was no longer related to race.

What was with this profundity!!!

Why did it feel like it was almost catching up to the effect of a perfect super skill!!!

This was very normal. After the proficiency of low-level skills was high, the effect was not much worse than expert-level super skills. Moreover, it was a profundity formed by multiple skills... Before super skills reached perfection, the profundities formed by the low-level skills of pets like Shi Yu could still form an incomparable dominance in terms of skills!

“Holy shit, this guy.”

As this move appeared, Zheng Hai, Zou Tianwang, and the other Dong Huang contestants couldn't sit still anymore. They immediately looked at Shi Yu in shock.

This move... This move... Even they couldn't guarantee that they could withstand it.

Most importantly, Dong Huang's own people knew better than contestant Ming Hua. Shi Yu's Iron-eating Beast was in a f*cking normal state. It had yet to enter a battle state!!

“Your ranking is definitely wrong!!”

The two Ming Hua Legends widened their eyes. Stop fooling them.

If the young Beast Tamer ranked 22nd in Dong Huang had this strength, what kind of monster was in front?

The people of Dong Huang were definitely fooling them!

What was wrong with this person?

It was one thing for pets to have such a terrifying physique because their race was ridiculously high, but why didn't their skill proficiency fall behind? They almost completely defeated Cullen in all aspects. The most terrifying thing was that this guy had a telepathy talent and not a battle-type strengthening talent!!

“There must be a mistake.”

“However, it can be updated soon.” The corners of Director Zhong's mouth twitched.

“Putting everything else aside, can you bring some of this Iron-eating Beast into the Ming Hua?”

Legend Katavi said, but then he was rejected by Director Zhong righteously.

“Other pets, sure, but the Iron-eating Beast has already been classified as a special-level protected species of Dong Huang. Its management is very strict. Sorry.”

Iron-eating beasts were related to the stable cultivation channel of overlord races. How could they be given to other countries!

Upon hearing that, the expressions of the two legends darkened. How stingy!

...

“Karen... lost just like that?”

Similarly confused were the Ming Hua contestants. Seeing that Karen among them was defeated so easily by the opponent, their hearts were also extremely solemn.

He clenched his fists, his heart thumping.

At first, he was a little traumatized by the words Beast Tamer of Dong Huang.

Although he knew that there was a difference between Ming Hua and Dong Huang... Was the difference... really that big?

How could a Beast Tamer with a telepathy talent less than 20 years old be so abnormal!!!

What made their hearts skip a beat was that Shi Yu's gaze suddenly looked over, as if he was choosing his next opponent. Among them, Amy Rui even pursed her lips. She felt that this person seemed to be looking at her!! What did he want?

"Are we still fighting?" Shi Yu felt that the Golden-Winged Roc still had battle power, but he looked at Cullen himself. He seemed to be unable to hold on anymore. His face was a little pale. He had strengthened three pets in a row and was defeated three times in a row. The last one was even strengthened to the limit. He seemed to be unable to hold on anymore.

He urgently needed supplements.

"I..." Cullen gritted his teeth.

"Go down, Karen. Rest first." On the platform, Legend Katavi took a deep breath.

As a legend, she was also a little pessimistic at this moment. Although the exchange had yet to end, she still felt that Ming Hua's strength would definitely be inferior to Dong Huang. With such strength... Was Ming Hua really going to participate in this world competition?

The opponent of this world competition was not merely the other six countries. They still knew to hold back, but the totem clans that had once suppressed the seven countries wouldn't! Back then, they had suppressed them all until they couldn't breathe!

As soon as Legend Katavi finished speaking, in the arena, Cullen was a little dizzy. Although battle-type talent was useful, it did consume a lot of energy.

However, what stunned everyone even more was that on the other side, the quasi-mythical race that had just displayed its might, the "national treasure of Dong Huang", the Iron-eating Beast, suddenly turned "pale" after the competition outcome was announced. Its gaze wandered, and it took a step back in a daze, looking a little exhausted.

"Wuu..."

Eleven looked at the girl with the Golden Wind Dragon Sparrow. Come on, come on. As long as she came down, it will immediately run out of stamina and leave the arena. It was enough for Chi Tong to go on stage.

Chi Tong was much weaker than it.

"That Iron-eating Beast... is exhausted?"

“Indeed, that move just now seems to have consumed a lot of energy.”

“To be able to deal with Cullen’s attack so easily, there must be a huge consumption behind his calmness!”

The Beast Tamers of Ming Hua were suddenly stunned. So that was the case.

Karen stopped in her tracks. Damn it, just a little more?

“...” At that moment, looking at the Iron-eating beasts that had never even erupted or evolved before “their stamina was exhausted”, the Beast Tamers of Dong Huang had a huge question mark on their heads?

What was going on, little brother...

Chapter 466: Shi Yu, Who Was Exhausted (1)

“That Iron-eating Beast’s stamina is running out...”

“Who’s going?”

At the Ming Hua contestant area.

Quasi-legend Kailo and Amy Rui’s gazes were deep.

The two top-notch masters, Prash and Ayasha, were a little serious.

“Damn it.”

Under the orders of Legend Katavi, Ming Hua’s Karen could only give up the battle and retreat.

After he retreated, Ming Hua had yet to choose who to continue fighting.

5VS7 arena battle.

The current situation was quite disadvantageous for Ming Hua. It could be said that they had failed at the start.

Although Cullen was the weakest among them, how weak could he be?

Plash and Ayasha, who were also top-notch masters like Cullen, weren’t confident that they could defeat that Iron-eating Beast in Cullen’s position just now.

After all, the strength displayed by that Iron-eating Beast was overwhelming.

However, the current situation was that this Iron-eating Beast seemed to be exhausted. Just now, it acted cool and instantly killed its opponent. It was most likely some special racial ability that consumed a lot of energy.

Therefore, the two top-notch masters, Prash and Ayasha, suddenly felt that they could do it.

“Why don’t I do it...”

Plash was just about to take revenge for his fallen brother when Legend Katavi suddenly said,

“Amy, you go next.”

“Teacher?” At the Ming Hua contestant area, Amy Rui was stunned, but she quickly nodded.

On the platform, Legend Katavi made a decision.

This Shi Yu was not simple. After all, according to the information, this guy had five overlord species pets!

Even if this Iron-eating Beast’s stamina was exhausted, his remaining two were definitely overlord races.

What if it wasn’t weaker than this Iron-eating Beast?

Letting Prash and Ayasha go up was still sending them to their deaths.

It was better to let the most trusted disciple fight.

No matter what, Amy Rui had also reached the quasi legendary level. He was two realms higher than Shi Yu, so it was impossible for her to lose.

“You’re actually letting your quasi legend go on stage?” Director Zhong was surprised.

“Director Zhong, stop kidding. Your Shi Yu is clearly not an ordinary Beast Tamer,” Ming Hua’s legend said.

They also said just now that this Shi Yu didn’t match this ranking!!!

Was it wrong for them to send a stronger Beast Tamer?

“That’s true, haha...” Director Zhong laughed. However, Shi Yu was only level five after all... Forget it, forget it. In any case, he estimated that Shi Yu still had the ability to fight.

He wouldn’t believe that this Iron-eating Beast had no stamina.

This Iron-eating Beast was clearly still in a restrained state.

The Ming Hua people didn’t know what the Iron-eating Beast’s evolution looked like and thought that this was it. However, Dong Huang’s own people knew that the Iron-eating Beast had mastered the BUG skill of Inner Power.

It could even defeat a top-notch monarch in one move in its restrained state. After its sharpness erupted, it would be an actual instant kill. It could fight an overlord-level pet with its own strength!

...

“This, this is the other party’s quasi legend, the personal disciple of that Legend Katavi. It’s written in the information.”

“The trump card of Legend Katavi. It all depends on Amy Rui!”

When Amy Rui appeared, it was the turn of the Dong Huang contestants.

A young man ranked thirteenth with short hair that was almost bald said in surprise.

“Quasi legendary, and the Golden Phoenix Dragon Sparrow of a middle-level overlord race. The other party doesn’t want Shi Yu to stay in the arena anymore,” Zheng Hai said.

“Quasi legendary...” Zou Yun curled his lips and felt that it was alright.

If he hadn’t placed his focus on training pets, he might have been able to break through his Beast Taming level.

This was actually a choice.

Some Beast Tamers were willing to invest in themselves first and buy their own cultivation resources with various resources. They would spend a lot of time meditating, and their Beast Taming levels would increase faster.

Some Beast Tamers were willing to invest more in pets, so their cultivation speed was a little slow.

Zheng Hai, Zou Yun, and the others were not surprised that a quasi legend of this age could appear on Ming Hua’s side. After all, the difference between the rich and poor of Ming Hua was huge, and the resources were all focused on the Beast Tamer genius at the top.

“Ming Hua, Amy Rui.”

After Amy Rui came over, Shi Yu and Eleven were extremely excited.

It came up, it came up.

The protagonist was here!

The Undying Golden Body could be taken from this person!

As long as it beat up the other party’s Golden Phoenix Dragon Sparrow, he could record skills!

However, Shi Yu had to beat it up himself.

This mechanism often made Shi Yu sigh with emotion. Why couldn’t he have an additional Fusion Talent?

This way, when he fused with Eleven and became a super panda or fused with any pet, he would have countless opportunities to come into contact with enemy pets in battle.

Now, if he wanted to come into contact with the enemy pet more smoothly, he still had to choose Chi Tong and possess it.

“Wuu...”

As Amy Rui appeared, Eleven took a deep breath and shook its head tiredly. It was not very energetic.

Shi Yu asked Eleven, “Is it alright?”

“Wuu!! (I can still fight!)”

“Forget it, stop showing off. Leave the rest to Chi Tong and the others.”

After Shi Yu finished speaking, he summoned the formation and slowly retracted the indignant Eleven, making Amy Rui's expression freeze.

It was really taken back!

That Iron-eating Beast had indeed consumed a lot of energy!

"Just a little more, just a little more, I would have defeated the quasi Mythical race's national treasure, Dong Huang!" In the Ming Hua contestant area, after returning, Karen slapped his thigh and was filled with hatred.

Only the Dong Huang audience had strange expressions. They kept feeling that something was wrong.

President Xia and Director Zhong looked at each other. Damn, why did he take the Iron-eating Beast back? It couldn't be that it really didn't have any stamina, right?? What was going on!

Chapter 467: Shi Yu Without Stamina (2)

"Let's go."

"Yes."

Right on the heels of that, Shi Yu and Amy Rui didn't say too much. They summoned their pets at the same time!!

Under the strong wind, golden flames spread in the black summoning array in front of Amy.

Accompanied by golden flames, a monkey-shaped pet more than three meters tall with its entire body burning with endless flames appeared!

"Roar!!" Its face was like a ruby, its fur red. It was tall, its tail was strange and long, and its roar was like thunder. Its aura was like a volcano erupting.

Its ferocious face was like that of a monkey king.

< Name > Red Gold Divine Fire Ape

[Attributes]: Fire

[Race Level]: Low-level overlord

[Level of Growth]: Monarch Level

Energy Points: 4.7 million

This energy value had clearly been strengthened by a pile of level-eight strengthening resources.

It was even higher than the Water Slime that Shi Yu had trained in a bunch of max-level skills, let alone Buggy with lacking energy...

As expected of the Ming Hua representative...

Boom!!

As soon as the battle started, the Red Gold Divine Fire Ape erupted with powerful deterrence.

The substantialized perfect-level deterrence hit him like hot golden magma!!

On Shi Yu's side, flames were also spreading on the blue summoning array, but on this side, it was orange-red Sun Fire.

"Buzz!!!"

In the interweaving of the Sun Fire, accompanied by a sword cry, a shocking fire sword intent rose from the flames, turning into a substantial deterrence wrapped in flames that swept over.

Dazzling flames tore through the sky and lit up the sun. A red sword spirit stood in the air. The sword aura domain erupted, and its aura instantly suppressed the deterrence of the Red Gold Divine Fire Ape!

< Name > Chi Tong

Energy Points: 5,710,000

At this moment, both pets were in their normal state, but in terms of strength, Chi Tong was still higher.

The sword power that shot out instantly penetrated the other party's deterrence, making Amy Rui and the Red Gold Divine Fire Ape's pupils shrink.

"This fire sword spirit... is also strong!!"

Not only did Amy Rui discover it, but the expressions of the other Ming Hua Beast Tamers also changed. They didn't understand why Shi Yu's pets were so fierce.

But soon, with an even louder roar, an even higher energy erupted from the Red Gold Divine Fire Ape!

Under the flames that shot into the sky, it instantly grew two heads and four arms, reaching a three-headed and six-armed state. Its body also increased exponentially!!

At this moment, one could see golden light shining between Amy Rui's eyebrows. Seeing this, the Ming Hua Beast Tamers knew that she had activated her Beast Taming Talent.

"However, even if it's very strong, it definitely won't be able to be cool in front of Amy Rui for long."

[Dharma Talent]

Through the Beast Taming Talent, each pet could release a suitable Dharma form under the contract state with the Beast Tamer.

As soon as this talent appeared, the Red Gold Divine Fire Ape became the Three-Headed Red Gold Divine Fire Ape. Just the energy value alone reached a terrifying 17 million because of the enhancement of this special talent. It was close to the minimum energy value of the monarch race's overlord level, 20 million.

"Not good..."

As the Three-Headed, Six-Headed, Red Gold Divine Flame Ape appeared, Zheng Hai, Zou Yun, and the others revealed extremely serious expressions.

So strong.

They had underestimated this woman's talent.

This Red Gold Divine Fire Ape was clearly not the legendary trump card, but its strength could actually be increased to this extent?

President Xia, Director Zhong, and the others also revealed serious expressions.

They were naturally not unfamiliar with this talent. Legend Katavi beside them had this Beast Taming Talent, so he took Amy Rui in as a disciple.

The battle power enhancement of this talent was much stronger than ordinary strengthening talent...

"Can we..." However, when they recalled that this was the heroic spirit of General Mu Huiyin, they had some confidence.

Using that move... the move used in the National League... They might be able to resist!

However, the problem was that the rules of this exchange, the rules of the prohibited props!!!

Could he summon an ice dragon without tools?

Crack!!

Chi Tong's sword intent instantly disintegrated. As the three-headed, six-armed, and scarlet-gold Divine Fire Ape roared, explosive golden flames appeared on its six fists!!

Golden flames also spread in the three pairs of eyes, releasing endless power!!

"Red Lotus Hell!" Emily shouted.

Under the voice, endless golden flames directly erupted from the Red Gold Divine Fire Ape. Super skills above expert level were released with a bang!!

Seeing this, the eyes of the Ming Hua Beast Tamers burned.

This was a fire-element ultimate move that countered undead!

Although it was a fire undead, they really didn't know what Shi Yu was thinking.

In Ming Hua, undead ran rampant. Beast Tamers were usually divided into two factions. One faction pursued undead from the Netherworld, while the other faction was made up of traditional Beast Tamers. For Amy Rui to reach this strength as a traditional Beast Tamer in this context, it was obvious that she was very good at fighting undead!

"Roar!!"

The Red Gold Divine Fire Ape's expression was ferocious as it roared. The surrounding heat wave began to sway, and countless body hair instantly ignited with flames. The explosive flames expanded with a bang.

All the Beast Tamers present had a certain level of experience and understood what this flame represented!!

This move could already hurt overlord-level pets!

Hu ~ Hu ~ Hu ~

On the arena, with the Red Gold Divine Fire Ape as the starting point, an extremely huge fire wall instantly swept up, sealing the arena like a tsunami and devouring towards Chi Tong!!

“Big Sister Amy Rui is awesome!” When Cullen saw this confrontation, he immediately felt good.

Although he didn’t win it himself, it wasn’t bad for his teammate to win it for him.

Chapter 468: Shi Yu Without Stamina (3)

Boom ~ Boom ~ Boom ~ Boom ~

Accompanied by the roar of the flames and the explosion of heat waves, Chi Tong and Shi Yu’s thoughts were in turmoil under this huge attack.

“It’s indeed very strong...”

Even Shi Yu and Chi Tong were shocked by Amy Rui and the Red Gold Divine Fire Ape’s state.

A quasi legendary Beast Tamer was indeed powerful.

If it were Chi Tong a month ago, it really wouldn’t have been able to defeat it without the help of props. It would have been quickly suppressed.

Unfortunately, the version was updated.

Times had changed.

The Ming Hua audience stared at the arena, wanting to see how Shi Yu and this strange fire sword spirit reacted.

But in the next moment, they rubbed their eyes together and felt that the figure of the sword spirit on the arena instantly blurred.

They originally thought that it was the hot flames that distorted the image, but what followed was Chi Tong’s energy eruption!

Countless clones instantly appeared and began to overlap through the possession skill. Their speed was extremely fast, making it difficult to see clearly.

The final profundity of possession and clone, Myriad Sword Convergence!

Chi Tong’s energy level instantly exceeded ten million. It was forcefully superimposed by Chi Tong to 17 million like the Red Gold Divine Fire Ape!!

The price of doing this was very huge!!!

However, although the price was huge in theory, for the current Chi Tong it was as if nothing had happened. This was because around it, a transparent “scapegoat” that was like a little ghost was covered in cracks of various sizes. It bore the physical burden of the Myriad Sword Convergence for Chi Tong!!

Under the scapegoat's suffering, Chi Tong only suffered a portion of the damage, but this loss could be instantly recovered with the Flame of Regeneration under the sun!!

Others could strengthen their pets through the Beast Taming Talent, but Shi Yu could also fill a pile of skills with the skill index and let his pets strengthen themselves. The effect was the same!

Swoosh...

After completing the profundity transformation, Chi Tong's sword bent and swung down!!

The Interlocking Sword, activated by the Sun Fire that countered undead and the Nether Cold Fire, slashed out with a bang!

The sword pressure was incomparably vast, instantly forming the same scale as the Red Lotus Hell. At this moment, the shocking explosive energy directly made Amy Rui opposite cry out in disbelief, and also made the Ming Hua Beast Tamers widen their eyes.

In the next moment.

The Interlocking Sword crushed the world. A shocking sword light instantly formed a confrontation with the Red Lotus Hell. Then, as a scapegoat around Chi Tong directly died, under the huge burden of damage to itself, the Interlocking Sword erupted with incomparable power and instantly swallowed the Red Lotus Hell. Then, the sword pressure gradually converged, wrapped around deterrence, and locked onto the huge monkey with three heads and six arms!

“Roar!!!”

With the move broken, the huge monkey took a step back in disbelief. Looking at the sword light close at hand, its six arms instantly intertwined and used the proficient super defense skill, Divine Fire Armor!!

The golden flames spread into a corporeal golden patterned armor!!

However.

After the sword light attacked and swallowed the huge monkey, the armor on its body directly shattered. It was also directly smashed into the distance like a kite with a broken string. The dual injuries to its body and soul instantly made the huge monkey spit saliva. During the process of flying backward, it even withdrew its three-headed and six-armed posture!

Boom!!!

Another pet was nailed to the wall, making all the Ming Hua Beast Tamers widen their eyes in shock and silence.

The entire place was silent.

One by one, contestants of Ming Hua and Amy Rui opened their mouths wide in disbelief.

“Impossible!” Legend Katavi spoke.

“This sword spirit...” In the Ming Hua contestant area, another quasi legendary Spirit Medium stood up with an incomprehensible shocked expression.

When President Xia and Director Zhong saw that Chi Tong didn't have any props this time and also erupted with such powerful strength, they also opened their mouths wide.

This sword spirit was actually so strong!

"This..." Heavenly King Zou and the others were also shocked. When Zheng Hai and Heavenly King Zou saw that Shi Yu was so fierce, they were immediately speechless.

"Chi Tong!"

This time, Shi Yu did not choose to stop while he was ahead. This was because although the attack just now was fierce, it had only just beaten the Red Gold Divine Fire Ape back to its normal state. It did not cause too serious an injury. He had to pursue victory!

On the other side, Amy Rui looked anxious. She wanted to let the Red Gold Divine Fire Ape enter the three-headed and six-armed state again. However, Chi Tong's speed was too fast. Moreover, the Red Gold Divine Fire Ape's condition was really not very good. It could no longer withstand the power of the Dharma Idol!

Just as the Red Gold Divine Fire Ape was about to use its recovery skill, a Light Flame Sword instantly arrived and attacked.

"Roar..."

As the Red Gold Divine Fire Ape roared, its body was penetrated again, covered in injuries!!

"You guys..."

At this moment, Amy Rui finally experienced what Karen felt just now. She felt her brain go blank, not understanding why Shi Yu's sword spirit was so strong.

In Ming Hua, she had fought countless undead. Even the undead of the quasi-legendary Kai Luo she fought didn't feel as fierce as this sword spirit.

She was angry.

At this moment, Amy Rui only wanted to finish Shi Yu quickly. She took a deep breath and the figure of the Red Gold Divine Fire Ape disappeared. Following that, a huge peacock six to seven meters tall stood on the ground with golden and green feathers interweaving. Its tail trembled and flickered with light like a metal luster.

Seeing the change in pets, although Ming Hua's Beast Tamer was still in shock, they could clearly understand Amy Rui's mood at this moment.

Chapter 469: Shi Yu Without Stamina (4)

She directly sent out his trump card.

She planned to teach his opponent a lesson.

Amy Rui summoned her pet, the Golden Phoenix Dragon Sparrow!

< Name > Golden Phoenix Dragon Sparrow

[Attributes]: Metal

[Race Level]: Mid-level overlord

[Level of Growth]: Monarch Level

Energy Points: 5,960,000

“This is the end!” Like Karen, Amy Rui didn’t seem to be appeased if she didn’t say anything.

As soon as she finished speaking, the Golden Phoenix Dragon Sparrow’s gaze was deep as it raised its golden and green intertwined tail feathers. The moment it opened its wings, Amy Rui’s talent was also activated, giving the Golden Phoenix Dragon Sparrow the ability to activate its Dharma Idol. Towards the sword spirit, they naturally didn’t dare to be careless and directly entered the strongest state.

In an instant, the huge arena darkened.

It was as if they had entered another domain.

At the same time, a thousand golden eyes opened in the dark domain and stared at Shi Yu and Chi Tong with Amy Rui and the Golden Phoenix Dragon Sparrow.

Such a change made all the spectators discuss.

“Dharma, Thousand Eye Domain.”

In an instant, the energy value of the Golden Phoenix Dragon Sparrow reached the 20 million mark. In this state, it completely had the ability to fight against weaker overlords.

In addition, the Golden Phoenix Dragon Sparrow controlled the Undying Golden Body. This was Amy Rui’s strongest battle power!

“It’s finally here.”

In the next moment, an incomparable deterrence erupted from the thousand eyes again. The deterrence of the Thousand Eye Domain was clearly many times stronger than the deterrence of the giant monkey just now. It was enough to pressure any monarch-level creature.

At the same time, golden light condensed in the thousand eyes. The super metal and light dual-element ultimate move, Golden Annihilation Divine Light, locked onto Chi Tong.

On the other side, Amy Rui pursed her lips, hoping to finish the opponent here.

Boom!!!

Then, beams of light that filled the sky bloomed from the Thousand Eyes. Golden light enveloped the sky and earth, and it was impossible to determine where the attack was coming from. Or rather, with such a huge number of eyes locking onto it, the entire place was a target.

However, although Amy Rui displayed incomparable strength again this time, the scene was terrifyingly silent. Especially the Beast Tamers of Dong Huang, who suddenly swallowed their saliva and thought of something.

Amy Rui's move was indeed strong.

However, that... didn't seem to be the limit of General Mu Huiyin's undead!

Everyone suddenly recalled Shi Yu destroying the special state Gao Xuan had entered in the National League!!

This sword spirit... could still possess Shi Yu!!!

After the ten thousand swords became one... Possession again!

Just as everyone thought about it, this scene appeared.

Under the golden light, the figure of the undead, Chi Tong, instantly disappeared from the scene!

At the same time.

Red flames erupted from Shi Yu's body and shot into the sky. In an instant, the world changed and the Thousand Eye Domain swayed.

Under the light of the flames, Shi Yu's gaze seemed to contain flames as well. The color of his eyes gradually changed in the direction of Chi Tong's burning eyes.

With a boom, a fierce spiritual aura that was like the flames of the sun turned into flames that wrapped around Shi Yu's entire body. At this moment, Shi Yu's entire body was even thinner but more powerful!!

Moreover, at this moment, Shi Yu's hair had completely turned bright red. His skin was even fairer under the illumination of the fire spiritual energy!

Shi Yu's aura completely changed as he stepped into the overlord domain. Chi Tong's originally extremely terrifying strength increased again. At this moment, Shi Yu and the others' strength completely exceeded the limit of the monarch level as the second scapegoat died!!

"Don't forget, undead can possess you."

"Beast Tamers with talent in telepathy aren't completely useless in battle."

Perhaps he could become a pendant for his pet?

As Shi Yu's voice fell, opposite him, Amy Rui's gaze instantly became absent-minded, and she revealed an incredulous expression again.

Because as Shi Yu transformed, the flames that surged into the sky alone caused cracks of various sizes that instantly appeared in the Thousand Eye Domain, burning with flames!!

"Jiu!!!!"

Then, with a high cry, flames erupted. A shocking phoenix might swept up from the flames, and orange flames that shot into the sky completely filled the sky.

The dazzling flames tore apart the Thousand Eye Domain and illuminated the venue again. At the same time, the phantom of a huge fiery red bird soared in the flames in midair. Its dazzling orange-red tail feathers were very long. On its perfect body, the crown-like feather crown on its head, the dazzling

feathers, the shining wings, the colorful appearance, and the pleasant cry all displayed the might of the king of birds.

Under the might of the Hundred Bird King, the power of the Golden Phoenix Dragon Sparrow opposite was directly shattered, making it unable to breathe.

Its attributes and bloodline were both suppressed!

In the next moment.

The red-haired and red-eyed Shi Yu appeared on the Golden Phoenix Dragon Sparrow at an extremely fast speed, almost as if he had teleported!

“Undying Golden Body, golden light!!!”

Seeing this scene, Amy Rui’s mentality was almost chaotic to the extreme.

She hoped that the Golden Phoenix Dragon Sparrow could rely on the Undying Golden Body and the golden light to withstand the enemy’s attack.

“I’ve been waiting for your Undying Golden Body!” The falling Shi Yu thought.

In the next moment, Shi Yu pressed the Interlocking Sword down on the enemy again. Then, with a boom, the ground caved in, and a huge pit more than ten meters in diameter appeared. With a loud bang and a cry, the huge body of the Golden Phoenix Dragon Sparrow was directly pressed underground!!!

“Boom!!!” A loud bang sounded for the second time, and smoke and fire snakes immediately filled the sky.

Chapter 470: Shi Yu, Who Was Exhausted (5)

At the same time, the Golden Phoenix Dragon Sparrow activated its Undying Golden Body. The huge damage turned into the life force of the Golden Phoenix Dragon Sparrow to a certain extent, directly allowing it to withstand Chi Tong and Shi Yu’s strongest attack!

At the same time, the entire body of the Golden Phoenix Dragon Sparrow in the huge pit emitted an intense and dazzling golden light. The golden light carried a powerful repulsive force, instantly bouncing Shi Yu and Chi Tong, who were pressing the Golden Phoenix Dragon Sparrow’s body, back into the air.

Buzz!!

Shi Yu flew in the air and stabilized his body. At this moment, even the second scapegoat had completely died. The powerful side effects of possession began to stack on Shi Yu and Chi Tong themselves.

At the thought of spending a few days to condense a scapegoat, Chi Tong felt stifled.

However, it was all worth it.

< Name > Undying Golden Body

[Recording successful]

“Again!”

In the next moment, before Shi Yu could rejoice for long, Amy Rui’s indignant voice sounded. Seeing that Shi Yu and Chi Tong’s attacks weren’t enough to instantly kill the Golden Phoenix Dragon Sparrow, she relaxed. As long as she didn’t lose, there was still hope!

Boom!!

The shattered Thousand Eye Domain fragment slowly condensed again.

In the huge pit below, the Golden Phoenix Dragon Sparrow also slowly flew up, its thousand eyes filled with anger.

Seeing this, Shi Yu frowned. If the skill was replicated, who would still fight this thing!

“Go!!!”

In the sky, Shi Yu directly threw the Chi Tong Sword down.

Buzz! Buzz! Buzz!

Right on the heels of that, under everyone’s stunned expressions, the fire sword spirit that wasn’t even a huge sword to Shi Yu directly increased to a hundred meters in length during the fall, becoming a huge sword that shook the sky and earth. It swept up a terrifying deterrence and intertwined with the power of yang and yin as it fell!!

Under the enhancement of the giant transformation, its power was simply several times greater than before.

It made Amy Rui and the Golden Phoenix Dragon Sparrow open their mouths in confusion!!!

Previously, if not for the fact that it was difficult to replicate skills with such a big sword, Shi Yu would have long erupted.

Boom!!!

In the arena, just as the Golden Phoenix Dragon Sparrow flew up, the next moment, the hundred-meter-long sword pressed down again...

Even if the Undying Golden Body could transform some injuries into life force, in the face of absolute power, the transformation range was completely insufficient to revive it. After all, its proficiency level was too low...

“Jiu—” With a hiss and a boom, the venue instantly turned into ruins. Amy Rui’s figure was also instantly blown out of the venue.

In the blink of an eye, the outcome was decided.

Under the huge dust mist, the miserable figure of the Golden Phoenix Dragon Sparrow fell into the ruins.

Amy Rui was sent flying into the distance by the aftermath. Her face was pale as she half-knelt on the ground. She supported her body with one hand and had an expression of disbelief.

On the other side, Shi Yu and Chi Tong had also retreated from the possession state with a huge burden. They were very tired. Fortunately, with the Flame of Regeneration and Shi Yu's physique that was comparable to a monarch-level ferocious beast, Shi Yu didn't have to consume as much energy as the other party. Shi Yu was used to having all of his pets attack at once. It was still acceptable for Chi Tong to possess him and swing one or two times.

At this moment, as the outcome of this round was decided, all the Beast Tamers present had already lost their ability to speak. They were stunned by Shi Yu's shocking strength.

Especially the two Ming Hua Legends. They couldn't understand how their quasi legendary genius could be shattered by one person and one sword consecutively!!

"Impossible!"

Legend Katavi, who was proud of Amy Rui, stood up in disbelief. He couldn't accept that his disciple was defeated by a level-five telepathy talent Beast Tamer.

The other legend also had a serious expression. He pulled Legend Katavi to calm him down.

Although President Xia and Director Zhong, who were on the same stage, looked calm on the surface, they only looked calm on the surface. Their hearts were just as shocked as the contestants and audience below the stage.

Could it be that... this was Shi Yu's true strength?

The National League was really the Baby Cup!!!

A moment later.

"I admit defeat." In the silent arena, Amy Rui, who was opposite him, felt indignant for a moment. She sensed the situation of her physical strength and considered the strength of the third main force. She was silent for a moment and didn't discuss it with anyone. With the two main forces defeated, she directly raised her head and looked at Shi Yu, wanting to deeply remember the appearance of this Beast Tamer Dong Huang and admit defeat.

In this situation, she could no longer defeat Shi Yu.

As Amy Rui admitted defeat...

Contestants of Ming Hua and of Dong Huang opened their mouths slightly.

Ming Hua looked at Shi Yu fearfully.

Dong Huang looked at Shi Yu in shock, especially Heavenly King Zou. His sense of danger had reached the extreme.

He kept feeling that this guy's strength could not only snatch his headlines, but also his ranking!!!

But in the next moment, Heavenly King Zou was stunned.

"Cough..."

As Amy Rui admitted defeat, Shi Yu was actually stunned immediately. His face instantly turned pale. With the etherealization experience of Dao Proficiency, he acted as if he had consumed too much energy. From his state, he looked a hundred times weaker than Amy Rui. No one could find any fault with him. "You're very strong and have forced us to the limit. My state isn't suitable for battle anymore. Let's leave the next battle to the others."

"Mimi?" As Shi Yu finished speaking, Amy Rui, who was opposite him, was first stunned. Then, Chi Tong, who was beside Shi Yu, was also stunned.

Chi Tong: Have you reached your limit?

Was it not because he wanted to go to Mother Dragon's place to eat roasted meat and couldn't be bothered to fight?
