

## Beast 581

### Chapter 581: Sweeping Through the Beast Tamers of the Seven Islands (4)

Hundred God, who was relatively calm just now, changed his expression almost instantly.

It actually... instantly reached 18 million energy points without the strengthening of the Beast Tamer??

How was this possible!

The expression of the girl beside him, who was also part of the new generation Beast Tamer of the seven islands, suddenly changed.

It wasn't strange for Dong Huang's geniuses to pass a few levels. Even if he reached the seventh, eighth, and ninth levels, they wouldn't be surprised. However, in their imagination, he should have experienced a difficult battle to reach this level. What was with this huge difference in battle power!

"Impressive." At this moment, only the Beast Tamers of Dong Huang secretly clenched their fists. This Lu Bai really had some skills!!

Tong Yan, Zou Yun, Ning Tianming, and the others finally relaxed.

How could they not be relieved!!

If this guy had only insta-killed the guardian of the second level, they wouldn't be like this. However, at this moment, Shi Yu still had no intention of stopping. Instead, he continued to walk towards the third level. This directly made Ji Feng and the others of Dong Huang understand how strong and confident the incomparably weak looking Beast Tamer was!!

"Dong Huang's genius is indeed worthy of its reputation." At this moment, after a moment of silence, the Warring States Legend of the seven islands spoke to himself, his expressions no longer changing.

He instantly knew that Dong Huang's secret trump card was not simple. He began to relax and let Shi Yu challenge it. The top-notch master of the true strongest ladder team of the seven islands was waiting for Dong Huang's challenger in the eighth and ninth levels!

If he had the ability, come. He didn't believe that Shi Yu could continue like this.

Just as the Beast Tamers of the seven islands "expected", Shi Yu charged ahead.

In the third level, outside a forest, a middle-aged man from the Green Wood Dojo, a top-notch master of the seven islands, commanded the monarch-level Giant Spirit Tree to set up an iron wall to fight Shi Yu!

In order to fight the Dong Huang challenger, the seven islands had indeed put in a lot of effort. This was a plant controller stronger than the previous guardian.

However, as expected, under the shocked expressions of all the seven island Beast Tamers, Shi Yu made the ice elemental life form beside him use the same trick again. This time, Susu's energy level instantly increased to 20 million!!

“How can it still increase!!!” The Beast Tamers of the seven islands looked at the monarch-level ice elemental life form that could still erupt with stronger strength before breaking through the enemy’s defense.

A frozen stream that froze everything sealed a large area of the forest, turning the Green Wood Forest into an ice forest and finishing the opponent!

“Let’s go.” Under the gaze of many Beast Tamers on the Sky Ship, Shi Yu still did not stop and continued walking forward.

After the third level, Susu had one more recovery method.

Apart from transforming the energy in its body through Infinite Devour, its body was also enveloped in faint starlight. It was connected to the stars and used the power of the sea of stars to recover its energy.

This skill was unprecedented. Even the legends and titled legends of the seven islands couldn’t recognize this skill.

They could only determine through various performances that this was a method to recover its energy through external energy off-planet.

The power of time... the power of the stars... and that unbelievable energy eruption skill made the Beast Tamers of the seven islands extremely serious.

What race was this! Who could tell them!

The fourth level!

He was the leader of an ancient Ninja Village on the seven islands. He was a top-notch master who was proficient in dark and assassination. He was also the old man who Zou Tianwang had approached at the start. After watching Shi Yu’s performance in silence on the Sky Ship, he went to prepare.

Unfortunately, no matter how well prepared the old man was, he was still insta-killed in the fourth level when facing Shi Yu’s unethical performance!!

Susu continued to erupt with power that far exceeded the monarch level!!

22 million!!

Boom!!!

A drop of frozen water froze everything in the world and sealed the shadow in the mountain wall forever.

Instant kill again!

The Beast Tamers of the seven islands couldn’t sit still anymore, their gazes exploding.

“Doesn’t he need to change pets???”

At this moment, four guardians had been insta-killed in succession, and they were all famous top-notch masters in the seven islands. The legend of the Warring States finally couldn’t sit still.

In the eyes of a titled legend like him, the strength of a top-notch master like Shi Yu was naturally nothing. However, from the perspective of someone of the same level, the strength Shi Yu displayed was simply unbelievable!!

If it was just insta-killing one or two opponents, it would be fine. It could indeed be done with explosive power.

However, why could this guy instantly kill four powerful opponents of the same level without any pressure or consumption?? Then, he still continued forward calmly and without any intention of changing pets?!

Did his pet have unlimited energy???

“He’s good at training pets. He doesn’t have any shortcomings in energy,” the Tyrannical Sea Legend still said calmly, but he was equally happy in his heart. This was surprising? When Ji Feng appeared later, his elemental lord’s storage of hundreds of millions of energy points probably wouldn’t need to change pets either!

Shi Yu and Ji Feng could completely make the seven islands suffer!

At this moment, the various powerful performances of the Blue Sea Sprite Reincarnation shocked the Tyrannical Sea Legend. He knew better than anyone that the Blue Sea Sprite was proficient in water-element power, but the power Shi Yu and the others had always displayed was inclined towards the ice-element... Therefore, they had yet to display their full strength?

## **Chapter 582: Sweeping Through the Beast Tamers of the Seven Islands (5)**

How high had the current strength of the Blue Sea Sprite’s reincarnation reached?

Was there any hope of the trump card Iron-eating Beast comparable to Shi Yu if it erupted with all its might??

At this moment, the Tyrannical Sea Legend was a little shaken. Although the Nine Li Battle Beast was Emperor Wu’s trump card battle pet, its inheritance had already been broken. Even if it was the Nine Li Battle Beast with the perfect inheritance, with Emperor Wu’s top-notch Fusion Talent, it was very difficult to defeat Yun An.

As for the Blue Sea Sprite, at its peak, it was an existence even more impressive than Yun An. If the reincarnation of the Blue Sea Sprite awakened some of the power of the Blue Sea Sprite in advance and leaped to become Shi Yu’s strongest pet, he could completely accept and believe it.

That was the strongest demigod in the ocean!

Tyrannical Sea Legend’s expression changed again as he looked at Shi Yu. What a lucky guy.

“Monster...” At this moment, the power Shi Yu displayed completely formed a sharp contrast to his sickly image. Tong Yan, Zou Yun, and the others swallowed their saliva. Even Ji Feng, a monster with super talent, took a deep breath and acknowledged Shi Yu’s strength.

This Lu Bai was not bad.

He was the second Beast Tamer they couldn’t understand after Shi Yu. They couldn’t see the limit of this “Lu Bai”.

Just like that, Shi Yu continued forward with an invincible and unstoppable image.

In the fifth level, the snowfield seemed to have become Susu’s home ground. The opponent was the cold witch from the Ice Snow Temple.

He had contracted a thousand-year-old snow woman of an overlord race. Be it Beast Tamers or pets, they were all so beautiful and freezing. Heavenly King Zou and the others from Dong Huang felt pity for her.

However, while girls were precious, ruins were even more expensive.

22 million.

18 million, 20 million, 22 million. Every time they arrived at a new checkpoint, Susu’s energy level beside Shi Yu suddenly rose to a new height. This never-ending increase directly made the expressions of the opponent and the seven island Beast Tamers change collectively again.

Was there really no limit to this guy’s explosive power?

Did he really not need to rest???

Such an eruption... had no side effects?

After the ice and snow fluttered, Shi Yu took a deep breath and walked past the beautiful ice sculpture with Susu.

In the ice sculpture was the panicked gaze of the beautiful snow maiden.

For all the resources of the seven island ruins, no one could stop him!!!

Just like that, a super genius whose strength was enough to rank in the top five of the top masters under the age of 30 in the seven islands was defeated by Shi Yu in a single move.

Shi Yu walked deeper into the path of the champion step by step. Although he didn’t stop to rest, his slow progress was actually a kind of rest.

The mountain range was so vast. He had only walked through five levels, and more than two hours had passed. Shi Yu didn’t use his pets to travel. He killed an opponent every second and advanced slowly. This was also to let Susu adjust as soon as possible after every eruption.

At this moment, on the seven islands, everyone’s scalps were already numb. What was numbing was not that Shi Yu had passed the fifth level, but that he had not changed his pet and passed five levels in an

instant. When Shi Yu advanced, it was a huge pressure for the seven island Beast Tamers of the Sky Ship, as if they were being dominated, especially for the next guardian.

When Yu arrived at the sixth level, the waiting big sister of the Yin Yang Master was already drenched in sweat. She was uneasy the whole time and was directly shocked by Shi Yu's powerful battle results of the previous five levels. She was a little nervous when facing Shi Yu.

The sixth level, 24 million!

Shi Yu still didn't go easy on her.

It even erupted with stronger strength and defeated the opponent.

This time, Susu directly erupted with a huge amount of energy value of 24 million.

This energy value was undoubtedly overwhelming for top-notch masters at the sixth level of the Beast Tamer and the monarch level of the pet.

After all, in the Ming Hua exchange team, the level-seven Beast Tamer who contracted a powerful battle pet like the Golden Phoenix Dragon Sparrow had only 20 million energy points after being strengthened to the limit.

As for the guardians on the road to champion, their Beast Taming levels were all at level six. Unless there was an abnormal talent like Ji Feng, or a Beast Tamer like Senior Lu who had abnormal opportunities, more than 20 million energy eruptions were a massacre for the opponent!

Of course, Susu actually didn't need to erupt with such strong strength to defeat its opponent. However, the reason why Shi Yu let it erupt a little stronger every time was also to train it, train the Holy Water Ring, and train Susu's endurance.

He had to make some preparations for the next few levels, especially the tenth level, in case Susu couldn't hold on if it erupted with too much power in one go.

He just didn't know how strong the overlords sent by the seven islands were... If it was a top-notch overlord, Shi Yu would probably directly raise a white flag, but if it was an ordinary overlord like the Earth Demon Ape and the Snake Lord...

He felt that he could let Susu give it a try. After all, the skill Infinite Devour was equivalent to allowing Susu and Baby Ginseng to cooperate according to the rules. The strongest attack when the power of time was completely activated was their trump card to fight the overlord.

"He..."

Shi Yu was still advancing step by step.

Using his actions, he told everyone present that his footsteps were unstoppable. Any opponent facing him would only be swept away.

At this moment, as Shi Yu's battle style gradually appeared, some of the new generation Beast Tamers on the seven islands had already developed fear. Even the older generation looked at this Dong Huang monster heavily.

They had completely remembered Lu Bai's name.

The endless rising energy eruption made the legends of the seven islands and the titled legends of the seven islands feel a cold illusion.

"This Beast Tamer of Dong Huang, he's warming up!!!"

This brat, he was using the opponents in every round to gradually adapt to stronger strength. He was moving his body and warming up!!! His goal was very big!!

"He can't be warming up, right..." At this moment, the girl in JK also sensed something sensitively. Her face was pale. How could there be such a monster in Dong Huang?

She quickly looked at the strongest master of the new generation of the seven islands who should be guarding the eighth level, the Thousand River Hundred Gods.

This strongest master of the new generation of the seven islands, who was full of confidence just now, was already covered in sweat. His brown hair was completely soaked, and his expression was incomparably pale. Before the battle, his heart was already thumping.

"Hundred God, what's wrong with you, Hundred God? Are you feeling unwell?"

"I..."

Qian Chuan was extremely silent. It indeed seemed a little uncomfortable...

Was it too late to change now?

He felt that at this rate, he would also be insta-killed if he went up. Son of a b\*tch!!!

If he had known earlier, he wouldn't have pretended!!! What kind of monster was Dong Huang's Beast Tamer!! Who would save him? Were there any seniors who didn't like this guy who could show up instead of him!! Help!!

### **Chapter 583: Battling the Number One Person Below Legend of the Seven Islands**

At this moment, Shi Yu had already reached the seventh level.

The guardian of the seventh level was a monk in a black robe.

Seeing this scene, Qian Chuan, who was guarding the eighth level, took a deep breath and still went down to prepare resolutely.

The legends of the Seven Islands, Legend Ju Qian Yao, Legend Su Zijin, and the others were silent the whole time.

He had no intention of changing the guardian at the last minute in the first eight levels.

It was mainly because this "Lu Bai" was too strange and too strong.

Even if they wanted to deliberately target him, for a time, the seven islands couldn't find anyone in the range of a top-notch master.

At this moment, the legend of the Warring States looked at a middle-aged Beast Tamer from the seven islands on the sky ship.

He was wearing a black tight battle suit with red laminated armor on the outside. There was a long saber at his waist.

Sensing that the legend was looking at him, the middle-aged Beast Tamer with messy hair also looked at the other party.

His gaze was calm, as if he didn't have much emotion. Then, he nodded.

"I'll give it a try."

"We're not trying, we have to win." The Legend of the Warring States' gaze sent a signal.

This man was the strongest level-six Beast Tamer in the seven islands.

It was him who guarded the ninth level of the champion's path and interrupted the path of the strongest master of the new generation of the seven islands, the Thousand River Hundred God.

He was called Demon Sword.

"No matter what, we can't let Dong Huang's Beast Tamer pass the ninth level."

The gaze of the legend of the Warring States was filled with command.

"28 million!!!"

At the same time, cries of surprise came from the sky ship again.

Below, Shi Yu had already collided with the monk guarding the seventh level.

However, this collision made the Beast Tamers of Dong Huang and the seven islands extremely annoyed.

Because the situation was still the same as the previous stages.

Under Shi Yu's eruption, the opponent was frozen without any resistance.

Shi Yu continued forward!

At this moment, no matter how slow they were, a group of Beast Tamers holding energy detectors could discover the pattern.

Almost every new level, the ice-element pet beside Shi Yu would erupt with an extra two million energy points!

Shi Yu and the others... had been maintaining this overwhelming attack!

In other words, if Shi Yu and the others could continue, the energy value they erupted with in the eighth level could even reach 30 million??

Monster!!

“Mr. Yu, the geniuses of your country have really broadened my horizons.”

“I wonder why he isn’t ranked in the Sequence of Dong Huang if he’s so powerful?”

At this moment, when he thought of how this Lu Bai didn’t have any ranking on Dong Huang’s Sequence ranking, he felt confused.

This way, there was not even a reference for them to study!

He looked at Ji Feng, Ning Tianming, Tong Yan, and the others. How strong would these people be?

Heavenly King Zou, who was ranked eleventh, had already been figured out by the seven islands because he had been carrying out public competitions. They could still understand and accept Zou Yun’s strength.

However, how strong were those Beast Tamers in the top ten? This was something the seven islands couldn’t determine.

This Lu Bai was so strong, his strength was definitely enough to rank at the top of Dong Huang, but how were the others compared to this Lu Bai? The legend of the Warring States Era wanted to know very much.

“As you can see, his health isn’t very good, so he didn’t register for the Sequence Battle from the start.”

Tyrannical Sea Legend said, “However, from the understanding I obtained from his teacher, his strength is definitely not weaker than non-legendary Beast Tamers in the top ten of the other sequences.”

The legend of the Warring States looked at “Lu Bai” walking in the snow in silence... This was called poor health? He still climbed the mountain himself if he was in poor health??

He had been climbing for two to three hours, but he didn’t seem tired!

“...Next, his opponent is the strongest top-notch master of the new generation of our seven islands,” said the legend of the Warring States.

“If I remember correctly, the strongest master of the new generation in Dong Huang is Dr. Shi Yu, right?”

Sequence five, Shi Yu, the number one person below the legend of Dong Huang!

Because he had developed the mechanical phantom beast system, Shi Yu’s name quickly spread throughout the seven islands and Shen Feng.

“Yeah. Although Lu Bai is not bad, he should still be a little inferior to Shi Yu.” Legend Sea Tyrant nodded.

It was very reasonable to say this, he was inferior because he wasn’t using his full power. He wasn’t lying.

“...” The legend of the Warring States was confused.

Initially, before the Dong Huang exchange team planned to come to the seven islands, the seven islands had tried their best to invite Shi Yu to visit the seven islands for an exchange. However, Dong Huang directly rejected this, saying that Shi Yu was not free.

Regarding this, the seven islands was also helpless. If it were them, they would definitely protect such a genius in the country well and not let him run around.

Shi Yu wouldn't come. At the start, the seven islands sighed and felt that they had missed an opportunity to rope in a super genius. But from the looks of it, if Dr. Shi Yu, who was stronger than this Lu Bai according to the Tyrannical Sea Legend, came, wouldn't the path of champion be cleared faster!

"It's already 28 million... He can't continue to increase his strength, right?" Legend of the Warring States gritted his teeth in his heart. How could he erupt like this?

"I can't make a judgment either," Tyrannical Sea Legend said with a smile.

"How are Lu Qingyi, Ji Feng, and the others compared to this Lu Bai?" The legend couldn't help but ask again.

The Tyrannical Sea Legend said, "Well... I can't say for sure."

Almost all Lu Qingyi's pets mastered the Mythical Revival. After the eruption, her energy level was basically guaranteed at 20 million.

As for Ji Feng, the power of the skills released by his pet after being enhanced by talent would not be inferior to this level.

## **Chapter 584: Battling the Number One Person Below the Legend of the Seven Islands (2)**

It was hard to say... It was mainly because he didn't want to answer the other party.

At this moment, the Tyrannical Sea Legend was relaxed. His original worry was gone. It looked like it wasn't difficult for Shi Yu to pass the nine levels. It was stable now.

At this moment, the heart of the legend of the Warring States skipped a beat. Hard to say? Then it was about the same? Why were there so many geniuses in Dong Huang!

Twenty years ago, it wasn't that ridiculous. Was this Tyrannical Sea Legend for real or was he bragging?

"This guy is too stable."

"Did he challenge that ruin back then?"

At this moment, Zou Yun and the others also looked at Shi Yu, who was walking forward, in shock and extremely curious.

What would the outcome of the skill of freezing time versus the skill of mysterious space be?

He didn't know which was stronger, this ice pet or that Void Mantis.

At this moment, even Ji Feng had to look at this "Lu Bai" solemnly. After a comparison, he actually realized that unless he sent out his trump card, no matter which pet he sent, it couldn't be as outstanding as him in the first seven levels.

“Another ridiculously strong guy has appeared,” Ji Feng thought to himself. This was the second opponent of the same level that he felt he should be cautious against after Lu Qingyi.

As for Shi Yu, Ji Feng had already given up struggling in the short term.

The pressure brought by that Iron-eating Beast still made Ji Feng unable to breathe.

He had already decided to challenge him after becoming a legend.

[The difference between battle talent and non-combat talent will become greater and greater.] Ji Feng also believed in this principle.

An hour later, as Shi Yu walked, Susu recovered. They walked to the next opponent.

The opponent was another young man. His expression was serious as he looked at Shi Yu solemnly with the pet beside him, a black cat with eight huge tails.

“I’m...” Seeing Shi Yu, Hundred God was just about to introduce himself as the strongest master of the new generation of the seven islands and end Shi Yu here, but in the next moment, a biting wind blew.

Shi Yu didn’t want to know too much at all. After seeing his opponent, he directly attacked.

“30 million.”

This time, under Shi Yu’s instructions, the Ice Snow Saintess-like Susu directly used the time power stored in her body to reach a new height!

Before coming, it had eaten more than ten Time Fruits. Its stomach even stored a year’s worth of food, enough for Shi Yu and the others to squander.

After the strong wind howled, the huge cat that had yet to grow into a nine-tailed cat and his Beast Tamer turned into works of art in the snow.

“He’s far inferior to Ji Feng and Senior.”

Shi Yu was silent for a moment before continuing to the next level, leaving Qian Chuan gradually losing consciousness in the snow in despair.

[I’m so stupid, really... Why did I come down even though I knew this was the outcome...]

“Hundred God...”

After Shi Yu easily defeated the strongest master of the new generation of the seven islands, he continued walking forward. On the sky ship, the JK girl who was sitting beside the Thousand River Hundred Gods at the start was already completely silent.

Didn’t he say that there were 100 ways to deal with him?

Didn’t he say that he wouldn’t exceed his level? That he would guard the eighth level and block all enemies?

“Fourth place of the seven islands, just like that...”

At this moment, on the sky ship, the new generation Beast Tamers of the seven islands and all the top-notch masters who had come to guard the ship had ugly expressions.

The expressions of the two ordinary legends and the titled legend began to become unstable.

In the Seven Islands Association, there was also a ranking for the contestants of the world competition.

Among the Beast Tamers under the age of 30, there were two legendary Beast Tamers on the seven islands, their battle power ranked in the top two.

There was a Beast Tamer who had reached level seven but had yet to nurture an overlord-level pet. His battle power was ranked third.

Next was this Thousand River Hundred Gods. His Beast Tamer level was level six, his pet was a middle-level overlord race, the monarch-level Nine-tailed Cat, and he was the strongest master of the new generation of the seven islands. In the end, the fourth-ranked Beast Tamer in this Seven Islands World Tournament still couldn't withstand a single move from this Lu Bai??

"Is this the difference between the upper four countries and the lower three countries??" At this moment, the expressions of some of the Beast Tamers on the seven islands changed.

They were clearly shocked by the situation in front of them.

Among the totem factions, some totems ranked the seven countries.

Among them, Dong Huang, Shen Feng, Xue Yuan, and Rongguang were the four upper countries. Their overall strength was stronger, and they posed a greater threat to the totem factions.

As for Ming Hua, the seven islands, and Tingxiang, they were the lower three countries. Their overall strength was slightly inferior.

Regarding this, the seven islands were naturally unwilling to admit it. However, the current situation made them speechless. Today was destined to be a day of humiliation for the seven islands' Beast Tamers.

...

Soon, the Thousand River Hundred God was brought back to the Sky Ship.

Apart from him, the guardians of the first to seventh levels were also here.

At this moment, the guardians were extremely uncomfortable.

"Uncle, cut him down!!"

After returning, Hundred God immediately cursed in his heart and cheered for the Beast Tamer in the ninth level.

The Beast Tamer of the ninth level of the champion path made the legends of the seven islands take a deep breath.

They completely didn't expect things to develop to this point so quickly.

This was only the first day...

He definitely couldn't let this Dong Huang Lu Bai pass the ninth level!

"The ninth level." At this moment, even the usually serious Tyrannical Sea Legend revealed a thick smile.

### **Chapter 585: Battling the Number One Person Below the Legend of the Seven Islands (3)**

He was very happy.

Seeing this, the legend of the Warring States snorted and said, "The first eight levels are only the foundation. The ninth level is the core of the bet. Although this Lu Bai is not bad, this is the end..."

"In that case, is the guardian of the ninth level very strong?" Legend Xiao Shuang smiled and asked Legend Ju Qian Yao beside her.

Legend Ju Qian Yao was also very conflicted at this moment. After all, if they lost this bet, it would have a huge impact on them.

"Mr. Demon Blade is considered the number one person below the legends of our seven islands. There's naturally no need to talk about his strength." Ju Qian Yao took a deep breath and said.

"Letting the number one person below the legendary level guard the stage... Is this champion path really here to help the younger generation?" On the seat, Dong Huang's fourth place, the legendary noble son Jiang Tianyang, said.

The number one person below the legends of the seven islands in the ninth level, the overlord-level ferocious beast in the tenth level... The seven islands had no intention of rewarding the younger generation with legendary resources at all, right? They were far from being as generous as the Dong Huang Sequence Tournament, directly taking out five legendary resources as a reward.

"How can one break through the limit without being challenged? If the new generation is inferior to the older generation, they will become more and more backward." Legend Su Zijin looked at this rich second-generation heir of Dong Huang in a low voice.

"Destroy him, destroy him, destroy him..." As for Old Master Ke of Bureau 11, he couldn't wait anymore. They were just short of one level. As long as he shattered this number one person below the legends of the seven islands, he could explore the ruins and mystic realms of the seven islands.

"Is it Senior Demon Blade's turn?"

The Beast Tamers on the seven islands had been holding their breaths.

Because Dong Huang's Lu Bai had too strong a momentum. He instantly defeated the first eight levels all the way, and his unstoppable aura was like a huge mountain that suppressed the top masters of the seven islands until they couldn't breathe.

Be it the top masters of the new generation on the seven islands or the top masters of the older generation, when they saw Shi Yu's heaven-defying performance along the way, their hearts trembled. They couldn't believe it, but they were helpless.

Because they could clearly determine that they were completely no match for this Dong Huang monster.

None of the seven island Beast Tamers felt good to be flaunted in their own territory.

Therefore, when the number one person below the legends of the seven islands, Demon Sword, waited silently in the valley of the ninth level, the beasts of the seven islands felt the flames of hope again.

Just as the legend of the Warring States said, the ninth level was indeed completely different from the first eight levels.

Back then, the Thousand River Hundred Gods also easily passed the first eight levels. After resting, they relied on their relatively full state to challenge the ninth level.

However.

It was just a slash.

Demon Blade only used one slash to finish off the strongest master of the new generation of the seven islands and the genius who had defeated many top-notch masters of the older generation.

Top-notch master Demon Blade... This Beast Tamer's reputation on the seven islands was greater than most legendary Beast Tamers!!

"Demon Blade..."

As Shi Yu and Susu walked in front of this Beast Tamer wearing armor, a long saber at his waist, and a face filled with vicissitudes, the atmosphere seemed to have frozen.

At this moment, Shi Yu could also feel the difference between the person in front of him and the first eight guardians.

At that moment, Tyrannical Sea Legend, Legend Xiao Shuang, Jiang Tianyang, and the others also narrowed their eyes slightly and recalled this figure.

Demon Blade, Shen Dai.

20 years ago, he represented the seven islands in the world competition.

Although the real dazzling ones in the World Tournament were those legendary geniuses, the gods of the top masters at that time also obtained a lot of attention.

As a super genius back then, had he not broken through to the legendary level yet?

Thinking about it carefully, it seemed normal.

Countless people looked at the saber at his waist.

Just like his name, this was a demon saber.

It was a demon soldier unearthed from a legendary ruin on the seven islands.

At that time, countless geniuses from the seven islands wanted to obtain the recognition of this demon soldier, but their life force was greatly reduced by the backlash and they almost died.

This was a demon saber that could devour the life force of Beast Tamers at any time after the contract.

It was born in ancient times, in the era when antique swords could still nurture spirits. It was a powerful weapon that had been artificially forged.

Legendary Beast Tamers found weapons evil and were unwilling to contract and nurture them. Ordinary Beast Tamers didn't have the strength or capital to contract them.

Initially, the Seven Islands Association planned to give up on this demon soldier, the Shen Dai appeared. But at this moment, he appeared. He had an extremely rare "transfer" talent and successfully raised the Demon Blade with this talent.

The transfer talent could transfer some of the damage and consumption of the Beast Tamer to the contracted pet.

At the start, he let other pets consume their life force in his place. Later on, he suppressed the Demon Blade and transferred the life force loss to the Demon Blade himself, making the Demon Blade admit defeat. The growth of Shen Dai was very bumpy. Although he contracted a powerful weapon like the Demon Blade, he also missed the best opportunity to break through to the legendary level in order to suppress it.

Be it top-notch masters of the older generation or top-notch masters of the new era, they had all heard the story of this Senior Demon Blade and knew his strength.

With just one person and one saber, borrowing the "Demon Blade Curse" skill, he could display strength comparable to overlords.

"Young man, this is the end." Demon Blade Shen Dai stood not far from Shi Yu and slowly pulled out the Demon Blade. This was a sword that was filled with purple mist and emitted powerful evil thoughts.

"My name is Shen Dai. They all call me Demon Soldier Master or Demon Blade Shen Dai."

"Uncle, you also play with swords." Shi Yu realized that the other party's aura was rising steadily. It was rare for him to talk nonsense with this guardian.

#### **Chapter 586: Battling the Number One Person Below the Legend of the Seven Islands (4)**

Because this uncle indeed looked strong.

He and the Demon Blade seemed to have entered a state of fusion, possession, and symbiosis. It was as if their bodies were filled with energy fluctuations that gradually rose to 31.91 million!

"This!!!" As the aura of the Demon Blade God Generation rose to a terrifying level, purple patterns appeared all over its body. Zheng Hai, Zou Yun, and the others from Dong Huang couldn't help but be shocked. It was actually more ridiculous than Lu Bai's pet?

Were these people really only level-six Beast Tamers? Were those pets really only monarch-level?

“It’s a little troublesome,” Ji Feng muttered.

Dong Huang’s legend also revealed a serious expression. At the moment, the other party had definitely used a skill with huge side effects. However, because of the existence of the talent transfer, the side effects were transferred to the “other pets” in the Beast Taming Space, causing him to not be affected much.

“I remember that all the pets he contracted are of the possession type, right?” The Tyrannical Sea Legend’s gaze was deep. He only used a demon saber and was already so powerful. If all the pets possessed him and he couldn’t be too injured as a transfer container and could let the pets bear it themselves, how strong would he be? This number one person below the seven island legends was indeed worthy of his name.

It was equivalent to a low-level Emperor Wu! Unfortunately, his future was delayed because of a demon saber.

At this moment, Tyrannical Sea Legend and the others also looked at Shi Yu.

Just now, Shi Yu’s pet had also erupted with 30 million energy points. It might not be impossible to fight, but at the ninth level, it was probably not that easy.

“Do you have anything to say?”

At this moment, on the canyon battlefield, when Demon Blade God saw Shi Yu say, “You also play with swords,” he was immediately confused. He looked at the ice elemental life form beside Shi Yu. Indeed, this humanoid ice life form also held a sword...

However, Yao Dao didn’t think that the two could be compared.

“It’s nothing. It’s just that I also know a Beast Tamer who’s very good at wielding a sword. Unfortunately, he didn’t come to the seven islands,” Shi Yu said calmly.

That person was the number one person below the legend of Dong Huang, Shi Yu.

If it weren’t for the fact that Susu wanted to clear the level and couldn’t expose Chi Tong’s sword spirit form, Shi Yu really wanted to sacrifice two scapegoats to fight this uncle.

At this moment, as the two parties faced each other, the atmosphere froze to the extreme. The Beast Tamers on the seven islands didn’t believe that Shi Yu could still pass this level.

“Is that so?” Shen Dai didn’t care about the Beast Tamer Shi Yu mentioned at all.

Boom!!!

Demon Blade Shen Dai swung his saber.

A sword aura that was nearly ten meters tall and filled with evil aura directly swept up an overwhelming power, shaking the mountains on both sides of the canyon, blowing away the stagnant clouds in the sky, and turning into a light that slashed at Susu beside Shi Yu with endless curses.

This power made the Beast Tamers of the seven islands and the guardians who had been insta-killed by Shi Yu feel their hearts tremble. This attack was definitely stronger than any attack Shi Yu had displayed just now!!

This guy was done.

Senior Demon Blade was indeed powerful!!!

“If you have the ability, insta-kill me again.”

Just as Qian Chuan, Bai Shen, and the other new generation geniuses were shouting in their hearts, and Ji Feng and the other Dong Huang geniuses had serious expressions, no one realized that Shi Yu’s expression was still calm.

Regarding this, Shi Yu only watched calmly. In the next moment, all the seven island Beast Tamers holding the energy index were stunned. This was because the value used to detect the energy value of the demon saber, “31,910,000”, had changed on Shi Yu!!

“Impossible!!” Seeing that Shi Yu’s pet could still increase the energy value on the basis of 30 million, these seven island Beast Tamers instantly found it difficult to accept. What was even more difficult to accept was that this time, it wasn’t just an increase of 2 million!!

10 million... 15 million... 20 million quickly jumping values didn’t stop at 32 million!!

32 million, 35 million... 40 million... 45 million!!!

The energy value jumped at an extremely fast speed, making almost every Beast Tamer of the seven islands widen their eyes. They opened their mouths wide and looked at the value in disbelief.

“Crack.” On the platform, the chairs of the three legends of the seven islands were suddenly cracked by them. They also revealed shocked gazes, not believing the scene in front of them no matter what.

A level-six Beast Tamer and a monarch-level pet were already very powerful if they could increase their energy value to 10 million. Pets could be called top-notch monarchs, located at the top of the monarch level. Raising the energy value of a monarch-level pet to 20 million and reaching the lowest standard of the monarch race overlord level, was already one in a hundred million. It was rare in the world. At this level, raising the pet’s energy value to 30 million was already very against common sense...

And now, Shi Yu’s pet was no longer just erupting with 30 million energy waves. Instead... it had raised its energy level to the same standard as the overlord race!!

More than 40 million!!

How was this possible!

At this moment, a terrifying energy wave on Susu’s body swept over like an ice-cold hurricane. Just a snowstorm blew gently, and it instantly froze the demonic sword aura that shot into the sky, making the pupils of the Demon Blade Shen Dai opposite suddenly tremble, revealing an incomprehensible expression.

“You guys...”

He looked at the young man opposite him and found it difficult to understand. Even in the world competition 20 years ago, he had never seen such a ridiculous top-notch master in the other six countries.

“You’re very strong...” Shi Yu felt that this guardian of the ninth level was the only person who could be considered a powerful guy. Unfortunately, his opponent was an overlord race life form that had eaten the full-level Time Fruit and mastered Infinite Devour.

In front of the power of time, only the appearance of beasts that had truly stepped into the overlord domain could pose a threat to them.

Boom!!!

In an instant, the number one person below the Seven Islands Legend still didn’t escape the same outcome as the previous guardian.

It was frozen in the ice called time and stared in disbelief.

At this moment, the legendary Seven Islands War State, the legendary Mechanic Ju Qianyao, and the legendary Beast Tamer Ling Mujin stood up together, their gazes incomparably shocked.

The other top-notch masters also had their values almost shattered. They looked at the battle situation in the valley below in a daze.

The ground had already become an icy plain, and the sky had already frozen. The continuous mountains on both sides instantly became snow mountains.

On Shi Yu and the others’ path, the number one person below the legends of the seven islands completely turned into ice.

“How... How...” The seven island Beast Tamers led by the Thousand River Hundred God stuttered. His words were stuck in his throat and he couldn’t say anything. It was as if the cold air had forced its way here and frozen his thoughts.

[If you have the ability, insta-kill me again...]

“F\*ck...” Among the Beast Tamers of Dong Huang, Zheng Hai, Zou Yun, and the others looked at this scene in disbelief. Wait, wait, they looked at the Tyrannical Sea Legend and the others stiffly.

Was he sure this was their Dong Huang’s younger generation...?

Are you sure this was cultivated by that President Ye?

What exactly was going on? What exactly happened? This guy’s battle power was wrong, completely wrong!!!

Not to mention them, even legends like Dong Huang were stunned. They didn’t know why Shi Yu, who didn’t send out his trump card, was so fierce!!

What a joke!!! This guy also insta-killed the number one person below the legends of the seven islands??

Even if he was the number one person below the legendary level in Dong Huang, this was too ridiculous!!!

What was going on? Could it be that this pet was Shi Yu's true trump card??

"This..." At this moment, Jiang Tianyang, who was fourth in the Sequence, was extremely stunned. He also knew Shi Yu's true identity and knew that this guy was the number one person below fifth in the Sequence behind him.

It was said that Shi Yu was the number one person below the legendary level, but why did he feel that this guy's ridiculous ice-element pet could already threaten his trump card? And it was said that... Shi Yu's trump card didn't seem to be this guy?? What a joke!! Suddenly, the legendary young master, who was originally excited to watch the show, felt that his own safety couldn't be guaranteed!

This guy, after returning from the Seven Islands Harvest... What if he came and challenged him? He'd be in trouble!

### **Chapter 587: Shocking the Seven Islands (1)**

Ninth level, in the valley.

A cold wind blew, and ice clouds covered the sky.

As Shi Yu's mysterious ice pet erupted with dazzling power and instantly shattered the number one person below the legends of the seven islands, the Beast Tamers of the two countries fell silent.

45 million...

Such a ridiculous situation made the seven island legends tremble.

The ninth level was cleared just like that?

All the way... instantly?

"This doesn't make sense!!!"

Thousand River Hundred God widened its eyes and said with all its might.

Just as he finished speaking, Susu beside Shi Yu slowly closed its eyes, its energy falling to a low point.

Its entire body seemed to have disintegrated, gradually turning into an ice flower. Its body became an ice elemental core like an ice bead, as if it had finally exhausted its strength this time.

"This..."

Seeing that Shi Yu's pet had finally lost its battle power, the Beast Tamers of the seven islands were still not happy at all.

It suddenly erupted with overlord-level power. If it could still fight even after that, that would be even more unscientific.

But now, Shi Yu had already cleared the ninth level. What was the difference if the pet lost its battle power or not!

Moreover, the challenger on the road to champion had a total of ten hours to challenge. There were a total of six contracted pets to use. Even if this pet lost its battle power now, who knew if Shi Yu could take out other more powerful pets? Who knew if this ice pet would recover later?

In short, the Beast Tamers of the seven islands were completely afraid of this Beast Tamer named “Lu Bai”.

Not only the new generation, but also the older generation. Even the legends standing at the top of the seven islands felt their hearts race as they looked at the young man below in shock.

“Hahaha, the ninth level is cleared!” After being stunned, Tyrannical Sea Legend laughed out loud. He laughed very happily and instantly felt that this trip was not wasted.

As for the legend of the Warring States beside him, his expression was extremely ugly. He never expected such a ridiculous situation to happen.

Although Demon Blade only sent one pet, under the effect of transferring talent, the damage and consumption of him and the Demon Blade could be transferred to other pets to a certain extent. In fact, to a certain extent, it was no longer purely 1VS1, but it still followed the rules! After all, using one’s Beast Taming Talent was forbidden.

Facing such a demon blade, he had never thought that anyone could win.

“Really... Not bad.” The legend of the Warring States couldn’t maintain his calm anymore.

He took a deep breath and kept comforting and hypnotizing himself.

It was nothing, it was nothing. It was not a big deal. It was just that he couldn’t buy Dong Huang resources at a low price during the transaction. The normal price was acceptable, and it was profitable.

Didn’t he just have to let Dong Huang explore the unsolved ruins mystic realm of the seven islands? He didn’t believe that Dong Huang’s Beast Tamer could gain anything in a few days!

As long as Dong Huang didn’t pass the tenth level, it was fine. Letting Dong Huang use the Mythical Ruins would really consume a lot of energy!

It wasn’t a big problem... Not a big problem! The tenth level was definitely not something that non-legendary Beast Tamers could pass!

“This ‘Lu Bai’... Don’t tell me his other pets also have such strength?” Legend of the Warring States gritted his teeth.

If other pets weren’t inferior to this mysterious ice pet, that would be difficult to understand!

But no matter what, he had to suppress this guy in the tenth level!

“This...” Legend Sea Tyrant couldn’t say for sure again.

However, at this moment, he was also inclined to believe that this Blue Sea Sprite Reincarnation was either second or first in Shi Yu's team.

"Look..."

At this moment, someone suddenly realized that Shi Yu had stopped moving.

After he sat beside the frozen Demon Blade Shen Dai, he seemed to be resting on the spot.

Seeing this, countless people cried. Did this guy finally start to rest on the spot? Did he finally stop challenging?

"Rest for a while before continuing," Shi Yu said.

Shi Yu's performance made the seven islands heave a sigh of relief.

Now, the seven islands had also determined that the Tyrannical Sea Legend was most likely not lying. The reason why this guy's pet was so strong was definitely because of a special cultivation talent, so that was why he didn't use his battle talent the whole time unless he was hiding his strength!

Since he didn't use battle talent or skills like possession, the one resting was definitely not Shi Yu himself, but his pet.

"This Lu Bai still plans to challenge using this pet!!!"

Soon, the people of the seven islands judged. After all, if they wanted to use other pets, the difference between resting and not was not that big.

The reason why this result made the Beast Tamers of the seven islands heave a sigh of relief was that since he was facing an overlord-level pet, Shi Yu didn't plan to change pets. Instead, he took the opportunity to rest and still used this pet that had consumed too much energy. This meant that that frost pet was 100% Shi Yu's trump card.

Shi Yu was only confident of challenging an overlord when he used this pet!

After seeing that Shi Yu didn't have other reliable pets, they relaxed. If Shi Yu could still take out other powerful pets, their hearts would really collapse! One monster pet was better than two...

"No one cares about this uncle?" When Shi Yu sat down to rest, a miniature summoning array appeared on his fingertip. A wisp of dark blue ghost fire floated out and floated towards the Demon Blade Shen Dai.

In the next moment, the blue ghost fire melted the ice and snow. The frozen Demon Blade and Divine Generation gradually recovered their consciousness, but they were still in indescribable shock.

Shi Yu immediately supported the ninth guardian who was about to fall with one hand and looked in the direction of the Sky Ship.

## **Chapter 588: Shocking the Seven Islands (2)**

“Legend Ju,” Legend of the Warring States said to Legend Ju below after a moment of silence.

“Yes.” Legend Ju nodded and immediately teleported the fallen Demon Blade God back to the Sky Ship to recover.

At the same time, Shi Yu yawned and continued resting.

[After thinking about it, I should replicate it.]

[Confirm recording]

Skill: Demon Blade Curse

[Level]: Super level

< Introduction > It’s an undead skill. It can obtain the power of ghosts and gods by killing enemies and can use the power of ghosts to strengthen itself limitlessly!

The greater the increase, the stronger the curse on the body, and the easier it was to lose oneself!

At the same time, in the state of a ghost god, the attack had the power of a curse. It could also make the attacked enemy lose themselves!

“Good skill!”

This skill... was very strong.

The feeling it gave Shi Yu was that it wasn’t inferior to Eleven’s Inner Power, or Senior Lu’s Mythical Revival strengthening skill.

This skill should be the core skill of this Demon Blade guy.

It could allow them to obtain incomparably powerful power without legendary power!

Although it looked a little evil, Shi Yu didn’t care.

He had copied it for Chi Tong to learn.

Chi Tong’s Spirit Release originally relied on killing enemies to increase proficiency. Its bone sword also had to kill enemies to be useful. Now that it had a similar skill, there was nothing to worry about.

As long as it was useful.

As for the curse...

In any case, with Susu’s cleansing, these curses were just for show. In addition to the energy suppression, the instant kill just now was actually also the suppression of the cleansing power.

With Susu around, how could Chi Tong and the others lose themselves? If they were afraid of this, it was better to worry about losing themselves in the points.

Moreover, they had also sensed the nature of the power of ghosts and gods just now. It was very conflicting with the power of the sun that burned the darkness. It was also very suitable to be the energy for the Interlocking Sword.

That's right. This way, Chi Tong didn't have to worry about encountering an awkward situation where the level of the Nether Ghost Flame couldn't keep up with the level of the Yang Flame.

At the moment, Chi Tong really had a little too few super skills. Apart from Ling, it was the least in Shi Yu's team... The key was that Ling still had a bunch of super skills waiting to be taught. Apart from three super racial skills, Chi Tong actually didn't have any teachable super skills.

Considering this, Shi Yu decisively chose to replicate this skill after discovering that it was not bad.

It was good to go abroad to train. Otherwise, where could he find such a skill that matched Chi Tong in the country?

"Apart from that, that Demon Blade God's Beast Taming Talent feels pretty good..."

"Unfortunately, the other party isn't a mortal enemy... Otherwise maybe he could steal that talent despite it resulting in death..."

Shi Yu, who was in deep thought with his eyes closed, had clearly discovered the uniqueness of the other party's talent just now. It was a talent that could transfer its injuries and consumption to pets...

If he had this talent, didn't that mean that the physical fitness and life lost could also be divided among the pets?

Wasn't this infinitely increasing points?!

However, Shi Yu wasn't sure if he could achieve such an effect. After all, if he wanted to plunder "transfer talent", transferring talent wouldn't appear on him. It wouldn't let him have a third talent. Instead, it would be absorbed by the Talent Bead and make it a talent tool.

At that time, if he wanted to activate the talent transfer, he could only use the Talent Bead as a transceiver and transfer it to his pet. It was similar to using the Awakening Mirror.

However, considering that the level of the talent he had plundered might not be very high and could not continue to increase, Shi Yu felt that the transfer talent was a little useless. After all, when his level was high, if the transfer range didn't increase, the transfer talent bead would be useless. It wasn't as practical as a tool like the Awakening Mirror.

He needed a special talent that could display permanent strategic value even if it couldn't be upgraded after plundering. Therefore, ordinary attribute strengthening talents, which relied very much on the increase in Beast Tamer level and required subsequent development, weren't Shi Yu's first choice.

...

When Shi Yu closed his eyes to rest, the sky ship was already in a mess.

On the Beast Tamer's side, when they saw Shi Yu resting seriously, they also started to place their attention on the tenth level like Shi Yu.

From Shi Yu's state, he was clearly preparing for the tenth level. Moreover, his seriousness was much greater than the previous ninth level.

"The tenth level, overlord-level creature..."

“The seven islands probably won’t let a top-notch overlord guard the tenth level, right?” The Tyrannical Sea Legend looked at the War State Legend.

“Hmph, the seven islands aren’t that immoral,” said the legend of the Warring States.

“That’s good,” Tyrannical Sea Legend said with a smile.

As long as the seven islands didn’t place the top-notch overlords in the tenth level, he still had some expectations for Shi Yu, Ji Feng, and the others. Of course, this anticipation was very small.

Tyrannical Sea Legend also knew that even ordinary overlords weren’t so easy to defeat in a head-on battle...

Although the Blue Sea Sprite Reincarnation had erupted with more than 40 million energy points just now, which was ridiculously high, this was only the low level of overlord-level creatures.

Ordinary overlords and conventional overlords referred to overlords with about 50 million energy points. The proficiency of super racial skills didn’t exceed the perfect level too much. Back then, the gem cat was at this level.

But even so, it could still become the guardian of one of the nine top universities of Dong Huang. It was obvious how rare an overlord was.

After the Blue Sea Sprite Reincarnation erupted with such power, it was exhausted after one attack. However, for ordinary overlords, it was not difficult to use such an attack, nor was it difficult to resist.

### **Chapter 589: Shocking the Seven Islands (3)**

Therefore, it was extremely difficult for monarchs to defeat overlords above their level. They needed various favorable conditions! For example, the environment... attributes... abilities to counter... Beast Taming Talent, and so on.

Even if a top-notch master was said to be able to resist an overlord for a short period of time, that was built on the foundation of all pets.

And if he wanted to kill an overlord, he had to rely on various factors. For example, although Ji Feng, Tong Yan, Shi Yu, and the others had battle results of killing overlords, it was actually very difficult to replicate.

Ji Feng had used the energy crystal mineral vein to set up the array in advance and planned for a long time to lure the enemy in. Then, with the help of his talent, he communicated with a large amount of natural power and combined it with the power of many pets. Only then did he successfully erupt with a dazzling attack head-on and kill the other party before the overlord ferocious beast could react in time.

As for Tong Yan, he relied on carefully concocted poisons to slowly kill with various methods. He still didn’t fight head-on. In a head-on battle, who would want to take the enemy’s poison?

Even Shi Yu's destruction of the two overlords was mostly a tactical component, not a frontal confrontation. Moreover, ever since then, Baby Ginseng's skill cooldown had not recovered for months.

Therefore, it was really difficult to defeat the other party head-on while the overlord was fighting seriously. Zheng Hai, Ji Feng, and the others looked at Shi Yu solemnly again, curious about what he would do.

"I hope it's an easy guy to deal with. There's only one chance."

Shi Yu rested for two hours before setting off again.

This time was already very fast for the various Beast Tamers watching the battle on the sky ship.

They looked at Shi Yu, who continued walking forward, with burning gazes. As for a huge beast at the end of Crown Rainbow Mountain, which had been guarding the end of the road of champions, it suddenly opened its eyes.

"Roar!!!!"

It walked towards the cliff step by step, revealing its domineering figure. When it roared, the wind and clouds changed, and a rainbow light flashed. This was a huge tiger more than five meters long, tall and powerful, covered in golden hair.

The moment it roared, Shi Yu, the Beast Tamer of Dong Huang, and the Beast Tamers of the seven islands looked up at the mountain.

< Name > Heavenly Cloud Tiger

[Attributes]: Wind, Light

[Race Level]: Mid-level overlord

[Level of Growth]: Overlord

Energy Points: 54,910,000

"Ning!!!"

The moment this huge tiger appeared, Zou Yun was shocked. F\*ck, the seven islands really didn't treat humans well. This huge tiger didn't look easy to fight.

"The Heavenly Cloud Tiger is the overlord of the Crown Rainbow Mountain Range. It has been designated as the guardian of the tenth level from the start. It has always been like this. Even the Beast Tamers of the seven islands have to face it if they come to the tenth level."

Legend of the Warring States slowly said to the Tyrannical Sea Legend beside him, meaning that they weren't targeting them.

"This huge tiger..." The fourth-ranking Jiang Tianyang was stunned." So, is the path of champion really prepared for the young people of the seven islands? "

In his opinion, that Demon Blade Shen Dai just now was already very overboard. And the path to clearing the championship still required him to defeat this thing. As expected, the seven islands didn't want anyone to pass. As expected, they didn't want to give their challenger legendary resources!!

"Wind, light... Tiger... Mid-level overlord race..." Legend Sea Tyrant was stunned.

This was troublesome...

At the side, the legend of the Warring States muttered to himself quietly, "If you have the ability, insta-kill it again!! Instant kill!"

So what if that ice-element pet erupted with more than 50 million energy points? 70? 80?

It was still impossible to instantly kill the overlord-level Heavenly Cloud Tiger.

This was the suppression of life level. Apart from having a high energy level, overlord-level creatures' physiques would also undergo a qualitative change. Their affinity for natural power would also undergo a qualitative change.

Although the Heavenly Cloud Tiger wasn't a top-notch overlord, it was definitely strong among conventional overlords. It wasn't something a hooligan overlord like the Prediction Owl could compare to. After all, its race was the king of beasts.

The seven islands indeed didn't think that their contestants could defeat it, but that didn't mean that the seven islands couldn't pass it. The path of the champion was originally set up to test and choose the elites of the seven islands. As long as the time was right, they would let Shen Dai and the Heavenly Cloud Tiger go easy and let the seven islands' geniuses pass and obtain legendary resources. There would be rewards and training.

However, at this moment, the seven islands definitely wouldn't let the Heavenly Cloud Tiger go easy on Dong Huang's contestant. Therefore, this battle was unsolvable. The legend of the Warring States didn't believe that Lu Bai could still pass this level.

"It's also a cat. Steady..." At this moment, Shi Yu also noticed this big guy.

For some reason, he suddenly heaved a sigh of relief.

It wasn't a difficult undead overlord, nor was it a difficult mechanical overlord, nor was it a difficult elemental overlord. In terms of attributes, it didn't have fancy attributes like the spatial element. Moreover, it was a cat. There was hope!

"Let's go." Shi Yu took a deep breath and continued walking towards the mountain.

After a long time, he climbed the mountain under everyone's gaze.

The Crown Rainbow Mountain towered into the clouds. The wind was cold and the altitude was already relatively high.

Shi Yu approached step by step. High above, the gaze of the Cloud Tiger also stared deeply at this challenger.

As the overlord of the Crown Rainbow Mountain Range, the previous nine battles had already fallen into its eyes.

This young man was indeed different from the previous seven island Beast Tamers. However, it was too simple to challenge it with just this level.

#### **Chapter 590: Shocking the Seven Islands (4)**

As Shi Yu approached, the atmosphere on the sky ship had already frozen to the extreme.

Many gazes were waiting for Shi Yu to enter the battle area.

“Why...” At this moment, there was a strange phenomenon. Ever since Shi Yu recalled his ice-element pet to rest in the last battle, he had never continued to summon new pets. Be it the other pets or the ice-element pet just now, he didn’t summon them again.

From the beginning to the end, Shi Yu was climbing to the peak alone.

They were about to approach the battle area. The Heavenly Cloud Tiger was not far away, but Shi Yu still did not summon his pet.

On the other side, the Heavenly Cloud Tiger’s deterrence gaze locked onto the little ant not far away. It was also very strange.

“No matter what, he definitely can’t pass this level!”

The Beast Tamers of the seven islands were extremely determined this time.

Then, they saw Shi Yu’s footsteps suddenly stop before he entered the battle area. His gaze faced the huge tiger opposite him!!

“Human brat, come at me!!!” The Heavenly Cloud Tiger roared and looked at the Beast Tamer of Dong Huang in front of it mockingly.

“Who gave you the illusion that we haven’t entered the battle area?” Shi Yu grinned.

Then, Shi Yu stepped into the battle area with a firm gaze. In the next moment, the pupils of the Heavenly Cloud Tiger constricted, and its expression changed drastically!!

....

Before challenging the champion, Shi Yu looked at Susu in front of him and said, “Even if we erupt with all our strength through the Time Fruit and fight head-on, we won’t be a match for overlord-level creatures. Therefore, it’s very difficult to pass the tenth level.”

“Ning!!” Susu felt wronged. What should it do?

Eleven couldn’t appear either.

If it couldn’t, it felt that Sister Chi Tong was also hard pressed!

“However, it’s not impossible. We can bet once.”

“Do you remember that even if Baby Ginseng self-destructed, it would be very difficult to blow up the Earth Demon Ape that resisted with all its might. It would only blow it to half to death.”

Susu nodded.

“Your attack power is definitely much worse than Baby Ginseng’s self-destruction.”

“However, it’s worth mentioning that Baby Ginseng’s other target was destroyed. There was nothing left. Do you know why?”

“Ning!!”

Because Baby Ginseng had run into the other party’s mouth, and the other party was not prepared at all, unlike the Earth Demon Ape. It was far away and even used various skills to be heavily guarded!

“Yes, so the only way we can pass the tenth level this time is to let the other party attack from the other party’s weakest point without any defense. Moreover, the premise is that the other party isn’t a difficult elemental or undead life form...”

“It’s not spatial either...”

Susu nodded and suddenly understood Shi Yu’s strategy!!

“We want to enter the other party’s body to attack!”

“Baby Ginseng entered the other party’s mouth because the other party took the initiative to eat it.”

“And if you want to enter the other party’s body, you can only take the initiative to enter, and you can’t let the enemy discover you.”

“As long as you enter the battle area, the challenge of the path of the champion is a field battle. There’s no need to talk about virtue. Do you know what your greatest advantage is compared to Eleven, Buggy, Baby Ginseng, and Chi Tong?”

“You’re an elemental creature. You can elementalize in any form of water and ice elements. You’re not easy to detect. You can break down your body into very small pieces and become one with nature.”

“Apart from that, your multiplication skill is the only one in the team who has reached Dao Proficiency.”

“Eleven can erupt with power that exceeds the limit through the Giant Transformation. You can too. Of course, the key to this battle is not the Giant Transformation, but the shrinking in the multiplication. The shrinking of the Dao Proficiency!!”

“This, only you can master it, and the shrinking of Dao Proficiency can make you even smaller than the smallest unit even more than after Ling breaks down into the smallest unit!! So small that it’s even smaller than the unit of natural energy floating in the air.”

“In this state, using the Time Fruit to seal the power and hide your aura is the best opportunity to enter the enemy’s body!”

“As long as you enter the enemy’s body and instantly activate all your strength, the enemy will definitely be unable to resist. Even an overlord will find it difficult to resist the power erupting from the body.”

“Moreover, you have the Heavenly Frost Cold Energy. It can make the enemy unable to react immediately and assist you in completing the attack! 0.1 seconds is sometimes enough to determine the winner.”

“!!!” Susu widened its eyes. Was this alright? Wasn’t this too sinister?

“If there’s a skill, why not use it?” Shi Yu took a deep breath and said, “Of course, there’s definitely some risk. I heard that overlord-level creatures can sense danger. If the other party’s mental strength is stronger and can predict danger, it’s still very difficult... Therefore, right now we have to experiment with Eleven, Buggy, Baby Ginseng, and Chi Tong to see if they can detect it. Then, we can try with the totem-level cat teacher. If even it finds it difficult to detect, it’s definitely more stable!!”

“Oh, in the end, I’ll use its clone to test this power. It won’t be good to kill the seven island overlords. Not everyone has Eleven’s physique.”

For example, the cat was already at the totem level, but it wasn’t as sturdy as the monarch-level Eleven.

...Who said that the path of the champion still had to be fought head-on?

He could still do a frontal assassination!

Tactics.
