

## Beast 601

### Chapter 601: Second Team's Construction (3)

"However, its growth speed is definitely inferior to Susu. This way, the danger can always be maintained in a controllable range."

"When it can ignore the influence of the Abyssal Demon Duck one day, escape from it, control it, and live its own life, I'll give it freedom. Now, be a good fighter and experimental material!"

"Ning!!!" Susu's eyes lit up. It promised to cleanse the Duckbill Beast into a good duck.

At that time, they would cooperate from the inside and attack the Abyss Sea!

"Wuu..." "Wu..." "Yi..."

The other pets looked at each other and fell into deep thought, instantly imagining a scene.

When the Abyss Sea revived again, under the lead of the Abyss Demon Duck and the Duck God, it was just about to fight the guardian of the Blue Sea Sprite to the death. Suddenly, the Abyss Demon Duck directly betrayed the Abyss... and became the number one lackey of the Blue Sea Sprite.

Abyss Sea: Why are you attacking us, your majesty?

"Quack..."

Just as Shi Yu and the others were harboring ill intentions, duck cries came from the other side again.

"Quack... (Kill or stew, do it quickly!)"

Swoosh.

Seeing this, Eleven and Baby Ginseng directly untied the restraints and cage, making Duckie widen its eyes in confusion.

"Cough." Shi Yu looked at it solemnly and said, "Just like what you've experienced, there's an evil existence that wants to possess you and replace your will. It's our true enemy, and also your enemy. And you're innocent. You don't want to be its puppet, right?"

"The enemy of an enemy is a friend."

"In that case, how about we help you become stronger and get rid of it?"

Shi Yu stretched out his hand and said, "From today onwards, we're comrades."

"Wuu!" "Wu!" "Yi!" "Mi!" "Ning!" "Hm..."

Duck Beak Beast: ???

Looking at the group of people who suddenly changed their expressions, Duck Duck fell into deep thought.

Although it didn't know what was going on, it seemed like it didn't have to die.

....

Next, Shi Yu and the others tricked the Duck Beak Beast for several hours.

Throughout the whole process, the duck's expression was especially serious.

Shi Yu was right at the start. Even if the Duck Beak Beast was really the reincarnation of the Abyssal Demon Duck, so what? As an independent will, who wanted the will of their previous life to replace their current self?

If it were anyone else, they probably wouldn't admit that they were still themselves in their previous life.

This was also why the inheritance mechanism of the Blue Sea Sprite only inherited the will and racial skills to protect the sea and not the memories.

Of course, this was only the inheritance mechanism of the Blue Sea Sprite. It didn't mean that all pets would start again after reincarnation. For example, Zhong Xuan had said that after its reincarnation, it might awaken its memories. As for the Undying Dark Phoenix, it was actually a reincarnation. It also retained its memories.

Therefore, Shi Yu and the others couldn't say for sure if the Duckbill Beast would awaken the memories of the Abyss Demon Duck later.

From the perspective of the Duckbill Beast, it was very unwilling to let some Abyss Demon Duck replace it. Therefore, although it had experienced humiliation at the hands of Shi Yu and the others, after several hours of brainwashing, the Duckbill Beast understood.

In the end, if it didn't listen, it would definitely be made into soup.

Then it chose to follow Shi Yu and the others to cultivate and strive to control its fate!

"That's right!"

Seeing that the Duckbill Beast was so smart, Shi Yu was very satisfied. From today onwards, Duck was a member of his team!

Well, the mechanical Tyrant Dragon had been working hard for so long. In addition, it might still be studied for a period of time and had invested a lot of resources. That mechanical Tyrant Dragon was also one of the members of the second team.

Shi Yu temporarily didn't plan to contract or add points to them, but he would use other methods to help them grow.

The mechanical Tyrant Dragon naturally grew, became stronger, and evolved through continuous mechanical experiments.

As for the Duckbill Beast, the growth process was the process of constantly controlling the power of the Abyss Demon Duck in his previous life.

The upper limit of the mechanical Tyrant Dragon's growth depended on the upper limit of Ling, while the upper limit of the Duck-billed Beast's growth was at the demigod level. Therefore, in the end, the potential of the two of them was probably not bad.

After Shi Yu decided to start the second team, his mood was especially good. Alright, the team was going to be lively again. The mechanical Tyrant Dragon finally had a companion. Otherwise, Shi Yu would feel quite apologetic that the mechanical Tyrant Dragon had always been incompatible with other pets.

Now, it could make friends.

It was indeed lively...

As a member of the second team, the address of the Duck Beak Beast was built beside the address of the mechanical Tyrant Dragon by Shi Yu and the others.

Perhaps it was because they didn't get along, or perhaps it was because they had just fought, but when the two pets met, their eyes were especially red.

"Roar!!! (I am the overlord of the earth!!)"

"Quack!!! (Earth? Earth belongs to the ocean!!)" The Duckbill Beast wearing the translator Ling glared at it. It finally knew what this guy was talking about. No wonder it was so unhappy with this guy.

The Duckbill Beast's territorial awareness was very strong. Under the influence of its previous life's will, its greatest obsession at the moment seemed to be transforming the ground into its own territory, water territory...

Buzz!

Swoosh!

The earth-yellow sharp blade and the water-blue sharp blade were condensed by the two pets.

"Roar!! (Space Splitting Sword!)"

"Quack!! (Water Blade!!)"

Boom!!!

In the distance, smoke rose.

Shi Yu fell into deep thought. "The relationship is so good. Ling, look after the mechanical Tyrant Dragon, Susu, look after the Duck Beak Beast... As long as nothing happens."

"Roger!" Ling nodded.

"Ning!!" Susu also nodded.

Rather than saying it was Shi Yu's second team, it was more like it was Ling and Susu's little brother.

An ancient phantom beast junior, an abyss demigod junior... Beside him, Eleven, Buggy, Chi Tong, and Baby Ginseng revealed envious expressions.

Clone skills felt different from underlings with their own will.

“Mi!!” After thinking about it, Chi Tong decided to kill an undead puppet that retained its will later and join the big family of the mechanical Tyrant Dragon and the Abyssal Demon Duck as its sidekick.

“Yi...”

Baby Ginseng pondered for a moment and shook its head. Forget it, forget it. It should work hard to become the number one in the team first. At that time, it could directly let Buggy be its underling and form a dimensional reduction attack on Susu and Ling.

“Wuu!” Eleven also looked at Buggy. It had the same thought. What kind of underling was better and more functional than a tool worm?

Buggy: “?”

Bastard!! It was team one!! Stop thinking about squeezing it into team two!!

## **Chapter 602: Beauty Trap from the Seven Islands (1)**

Seven Islands Region, Star Wilderness Island, Bonfire Village. This was an ordinary village.

There were a total of three professional Beast Tamers in the village, and the highest level was only an intermediate Beast Tamer.

Even if such a village faced the invasion of commander-level ferocious beasts, it would quickly become ruins without external help.

And today, a super ferocious beast that stood above transcendent, commander, monarch, and even overlord descended on this place.

“Meow ~ Found it.”

Standing on the roof, a creature with a wedge-shaped head and dark eyelids covered its blue eyes swung its long and fluffy tail in boredom, calling out to someone.

At the same time, its gaze kept sizing up the altar in the abandoned area of the village.

“I’ve found the Space Emperor Altar, but it looks broken. Who knows if it can still be used?”

“Found it? Double joy.” Another figure quickly appeared.

He sat in the house and said, “By the way, Teacher Cat, I’ve also figured out the origin of that duck just now.”

The gem cat turned around. “Huh?”

“What?” It asked with interest. “So it’s edible?”

Shi Yu chuckled. “In its previous life, it was the demigod lord of the Abyss Sea, the embodiment of pollution and radiation. Are you sure you want to eat it?”

“It’s alright if you have diarrhea. I’m afraid you’ll mutate into an Abyss Demon Cat.”

“What!!??” The gem cat shouted with a shocked expression.

Wait... demigod overlord of the Abyss Sea?!!

What a joke!!!

It widened her gem eyes and looked at Shi Yu.

However, how did he come up with such a low-level name like Abyss Demon Cat?

“I’m not kidding.”

“I’m thinking that if we can apply for a large number of cultivation resources with the Blue Sea Sprite, how much can we apply for to modify this duck...”

“The Environmental Protection Department’s Shi Yu, Susu, and the Guardian Cat Ying... After countless hardships and life-and-death crises, they subdued the boss of the Abyss Sea... This achievement is a good start for the Environmental Protection Department,” Shi Yu muttered.

Its performance was better than the other thirteen bureaus!

It wasn’t too much to get a promotion and a raise, right?

“There’s credit for me too?” The gem cat was stunned and revealed a knowing expression.

“Forget it, let’s take a look at this egg first.” Shi Yu took out the Space Beast Egg.

He looked at the Space Emperor Ruins the gem cat had found.

“Wait, tell me about the duck first!” The gem cat was angry. He was just leaving it halfway! What exactly is going on!

“Uh.” Shi Yu scratched his cheek.

“Speak.”

Shi Yu sighed and told the gem cat about the “Reincarnation Fruit”.

Shi Yu was actually unwilling to tell the gem cat about the “Reincarnation Fruit”. The reason was very simple...

As expected, just as Shi Yu finished speaking, the gem cat’s eyes lit up.

It instantly forgot about the Abyss Demon Duck and said, “Tell me, I’m so powerful. Could it be that in my previous life, I was a half-god empress and also the king of totems? I even left me many precious treasures in my previous life...”

The gem cat felt that the possibility was very high.

After all, it was too special as a gem cat.

Other gem cats could only use one gem to evolve and could only evolve once. As for it, it could use many pieces to constantly evolve without limit. No matter how one looked at it, it was very unscientific.

Even if it was a mutation, there had to be a reason. In its previous life, being a big boss was a possibility.

The gem cat revealed a shining gaze and felt that its demigod path was on this Reincarnation Fruit.

“No...” Shi Yu said, “I’m afraid you were also a villain in your previous life. If you eat the Reincarnation Fruit and can’t control yourself, I’ll be finished...”

The gem cat: “Give me one, give me one. I can control myself! Don’t you believe in my will?”

Shi Yu shook his head crazily and very quickly. Yes, he didn’t believe it!

This half-god reincarnation had its own overlord will, but this...

Shi Yu said, “We’ll talk about it when I become a legendary Beast Tamer and can suppress totems with a flip of my hand.”

The gem cat: ???

This guy wanted to suppress it?!

...

...

To be precise, the Space Emperor Ruins was at the edge of a dilapidated altar.

After the gem cat isolated a large area from its perception of this place, Shi Yu came here with the egg.

According to the parchment, as long as the Starry Sky Egg was placed in the groove of the altar, it would automatically activate the ruins array and let the egg absorb the starlight to accumulate the nutrients for hatching.

Shi Yu compared it to the altar and took a deep breath. He placed the Space Beast Egg on it...

According to the description, the normal reaction was that when the pet egg absorbed the power of the stars, a faint halo would spread. The absorption process would last 24 to 48 hours. After absorbing enough specific nutrients, the light would dim and stop absorbing.

Therefore, after putting the pet egg on it, Shi Yu was very nervous. He was afraid that the altar would break, that the egg wouldn’t light up, or that the egg had already become a bad guy and couldn’t be absorbed normally. After all... it had been so long.

Crack.

Shi Yu and the gem cat beside him stopped breathing and looked at the Space Beast Egg nervously.

1 second, 2 seconds, 3 seconds...

A few seconds later...

A weak halo spread from the white-striped pet egg!

White and purple intertwined!!!

“It can be used!” Seeing this, Shi Yu was overjoyed. His expression was filled with surprise.

“I feel better, I feel better.”

When the gem cat saw this, it said, “I mean, is there a possibility that when the time comes, three altars can be used, but the last altar can’t be used, causing the hatching progress of the egg to be stuck at 3/4. It can’t hatch and becomes a useless egg. I don’t like useless eggs.”

## **Chapter 603: Beauty Trap from the Seven Islands (2)**

Shi Yu : “...”

Was this something a normal cat could care about?

....

The Space Beast Egg had successfully absorbed the first special star power!!

Shi Yu’s mood continued to be happy.

As expected, hatching an egg was more exciting than knowing in advance.

As he waited for the Space Beast Egg to absorb the nutrients, Shi Yu did not stay idle. He studied the Duckbill Beast with the gem cat.

At the moment, the two skills of the Duckbill Beast, Water Blade and Heart Strike, were both above Perfect Level Proficiency, close to transcendent. Their levels were very high.

In comparison, the few skills of the mechanical Tyrant Dragon were relatively lousy. They were all entry-level proficiency.

In addition, the Duckbill Beast could use the overlord’s will. No wonder the Tyrant Dragon was suppressed by the transcendent Duckbill Beast. If it weren’t for the fact that its race was stronger, it might have knelt very quickly.

Today, it was rare for Duckie to join the team. Shi Yu and Susu gave it a greeting gift.

“Cleansing Memory Water.”

It could help the Duckbill Beast learn, master, and increase its cleansing skill. After learning it, it could cleanse itself.

As for Team One, Shi Yu was helpless. He had yet to recover from the temporary addition of the Heavenly Frost Cold Energy. If he wanted to continue increasing Buggy and the others, he might have to wait a day.

...

Heavenly Rainbow Island.

Shi Yu’s quiet departure did not mean the end of the challenge on the path to champion.

A new round of battle began.

The next day, Dong Huang's Ji Feng followed suit.

Ji Feng's strength was undoubtedly the strongest in the Dong Huang exchange team apart from a few legends and Shi Yu. His appearance also made the seven islands curse continuously.

It also swept through the first few levels as fiercely as "Lu Bai".

However, what made Seven Islands glad was that Ji Feng wasn't that abnormal. After reaching the last few stages, his condition was clearly not as good as before. After all, his strength was established on the "Myriad Affinity" talent, and this talent would cause Beast Tamers to exhaust their physical strength in battle.

But even so, because Ji Feng was willing to change pets, he didn't have a single pet the whole time. He easily passed the first eight levels until he arrived at the ninth level and faced the Demon Blade God.

The seven islands were extremely solemn.

Today, on the sky ship that was watching the championship path, apart from the original team from yesterday, another person came here.

She was wearing a white and red witch suit. She had an oval face and exquisite and beautiful facial features. She had a beautiful black smooth hair style, and her red eyes were calmly looking at the young man below.

Her name was Jie Yi of the Phoenix Court, a witch from the Phoenix Divine Shrine. She was currently ranked third among the younger generation of the seven islands.

[Jiyi, your mission is to get close to the young man named 'Lu Bai' in Dong Huang and get closer to him.]

In the eyes of the Seven Islands Association, a woman who could attract an outstanding young man like "Lu Bai" definitely had to be extremely outstanding.

The disciple of a legendary Beast Tamer was also a quasi legend. At the same time, the Phoenix Court, which had the Phoenix bloodline as a hybrid witch, was naturally the best choice.

The higher-ups of the seven islands knew very well that the people of Dong Huang worshiped dragons and phoenixes very much. In their opinion, if they let the Phoenix Court come into contact with "Lu Bai", Lu Bai would definitely fall into it. After all, because of mixed blood, the Phoenix Court's appearance was also top-notch on the seven islands.

However, it was a pity that "Lu Bai" didn't appear at the competition venue today.

"This person's strength is not bad either." Jie Yi looked at Ji Feng below and fell into deep thought. So how strong was Lu Bai who instantly cleared ten levels? She wanted to see it.

In the end, Ji Feng from Dong Huang barely defeated the number one person below the legends of the seven islands, the Demon Blade God Era, again stimulating the nerves of the seven islands. However, at this point, Ji Feng no longer had the strength to challenge the overlord. His challenge ended here.

The third day.

Zou Yun of Dong Huang issued a challenge. As the first two contestants of Dong Huang were ridiculously abnormal, Heavenly King Zou was targeted very badly. He only passed seven levels and knelt at the eighth level.

This made Tong Yan and the others feel disdain.

It was also on this day that the gem cat and Shi Yu secretly returned to the Dong Huang Base in Tian Hong City. They were considered to have “recovered”. Next, they could walk around casually.

After sending a private message to Tyrannical Sea Legend and the others to tell them that he was back, Shi Yu couldn’t help but plan to take a walk as Lu Bai.

He wasn’t afraid that the seven islands would plot against him after discovering him.

His trump card was never his strength! Nor was it this bodyguard, the gem cat!

Instead, it was the demigod-level Dragon God Protection on its body!!!

At the moment, the Dragon God was the greatest rich woman and the thickest thigh!

With this thing, safety was naturally guaranteed at the maximum level.

However, Shi Yu realized that he had underestimated the seven islands.

On the seven islands, they had mobilized a method that even the Dragon God’s Protection couldn’t stop. Shi Yu had just left the Dong Huang Base and was about to walk around when a red-eyed woman in a witch suit stopped in front of Shi Yu.

“Lu Bai?” Jie Yi looked at the young man in front of her and smiled. “I found you.”

“You are... May I help you?” Shi Yu saw the beautiful witch in front of him and immediately became cautious.

The words “Beauty Trap” appeared in Shi Yu’s heart.

Not good!

This gem cat and the Dragon God Protection couldn’t help him block it.

It was time to test his willpower.

### **Chapter 604: Beauty Trap from the Seven Islands (3)**

Eleven had obtained the overlord’s will by adding points. In theory, his willpower wouldn’t be low after experiencing so much pain!

“Beast Tamer of the seven islands, Phoenix Court Jie Yi. Level, quasi legendary.” Jie Yi’s red lips swayed slightly as she said, “The higher-ups of the association asked me to approach you and build a good relationship with you.”

Shi Yu: “?”

Initially, Shi Yu was still thinking about how to reject the other party, but the moment the other party spoke, Shi Yu couldn't do it anymore.

She's showing her hand?

How could she use a beauty trap like this?

Did she know how to play?

No, that wasn't right.

Instinct told Shi Yu that this girl's skill was very high... He had to be careful.

Shi Yu said with a pale face, “Cough, I'm sorry. I have an infectious disease and don't like to make friends.”

In the alternate space, the gem cat looked at the two people fighting and shook its head, happily munching on melon seeds.

In the outside world, Jie Yi was silent for a moment.

He indeed looked sick.

However, she smiled and said, “It's alright. I have the Phoenix bloodline in my body. I'm immune to all diseases. Since I was young, there have been no diseases that can get close to me.”

Shi Yu was slightly stunned. Wait a minute, Phoenix bloodline?

Jie Yi of the Phoenix Court said, “I've heard of your deeds. If the higher-ups let me come into contact with others, I won't hesitate to tell them to get lost, but I'm still very interested in experts.”

“Even I might not necessarily be able to clear the path of the champion. You're very strong, and most importantly, you're not ugly. Even as a future partner, I won't be very against the idea. How about it? Do you want to try getting to know each other?”

Shi Yu's heart was like still water. He took a deep breath. If not for the fact that he had many female fans in Dong Huang and was already used to confessions, he would have been tempted.

“I...”

Shi Yu was just about to reject her when the Phoenix Court's Jie Yi said, “By the way, isn't there a mystic realm crack in the bet between Dong Huang and the seven islands? I'm from the Phoenix God Shrine. Our divine temple has an unsolved mystic realm. Do you want to take a look?”

“Although it's very difficult to crack, I think the Beast Tamer of Dong Huang will be very interested in the mystic realm of the Phoenix Race, right?”

“Apart from that, there are many interesting things on Phoenix Mountain.”

Shi Yu was stunned.

Phoenix... Shrine?

Shi Yu looked at this witch. As expected, Phoenix bloodline, witch. He was wondering what was wrong. So, this guy's teacher was the legend of the seven islands who accidentally entered the Phoenix Mystic Realm?

Shi Yu fell into deep thought and silence.

If she wanted to talk about this, it was a different story.

However...

Did she know what it meant to play with fire and "lure a wolf into the house"???

"Alright." Shi Yu nodded and looked at the beautiful witch opposite him. "But I have to wait for my companions."

"Alright."

Seeing that Shi Yu had agreed, Jie Yi immediately understood that Shi Yu still couldn't withstand her attack.

After giving Shi Yu an "exploration mystic realm", Shi Yu took the bait.

At that time, as long as she provided some more information about the Phoenix Mystic Realm and strategies, Shi Yu would definitely have a good impression of her+1+1+1+1.

Unfortunately, the Phoenix Mystic Realm was destined to not be cracked by ordinary people. During this period of time, Shi Yu and the others would waste it.

"Then it's decided." The Phoenix Court's Jie Yi smiled.

"Yes."

In order to let this person leave faster, Shi Yu immediately agreed.

Then, Jie Yi left, leaving Shi Yu behind to think about life...

He hoped that after tearing down the Phoenix Mystic Realm, this witch wouldn't transform into a witch and curse him.

....

Soon after that day, the Tyrannical Sea Legend and the others returned from the Crown Rainbow Mountain Range.

After returning, Tyrannical Sea Legend immediately met Shi Yu alone.

"There's something wrong with you!!!"

As soon as they met, the Tyrannical Sea Legend widened his eyes and said, "So, the greatest gain from your trip with Senior Ying is not that you gathered the energy of the Starry Sky Egg, but that you casually caught an Abyss demigod reincarnation??"

"Yes, yes," Shi Yu said. "My luck is really good..."

Tyrannical Sea Legend: ???

He opened his mouth slightly.

This, what was this!

Shi Yu, this kid... This couldn't be attributed to luck anymore, right?

Was he some Mythical creature that cultivated luck?

Shi Yu smiled in embarrassment. "Let's talk about this when we return to Dong Huang. The main problem now is still business. Business, business in the seven islands."

The corners of the Tyrannical Sea Legend's mouth twitched.

It felt like even if the reason they came here didn't work out, this trip would not be a loss.

"By the way, the surveillance cameras at the base today captured the vicinity of the Phoenix Court's Jie Yi. They captured your contact with her. Did something happen between the two of you?" Legend Sea Tyrant took a deep breath and temporarily forgot about the Abyss Demon Duck Shi Yu mentioned and talked to Shi Yu about "business".

"She's the personal disciple of the legendary Beast Tamer who accidentally entered the Phoenix Mystic Realm. Both of them are dedicated to cracking the Phoenix Mystic Realm."

"It's not a big deal." Shi Yu touched his chin and said, "The Seven Islands Association probably asked her to rope me in. Then, she invited me to play at the Phoenix God Shrine later. I agreed."

"We'll go over sooner or later anyway."

Tyrannical Sea Legend : "..."

He had never seen anyone court death like this.

"I understand," the Tyrannical Sea Legend said. "But I have to remind you... don't fall for the beauty trap of the seven islands. Well, it also includes Shen Feng, Tingxiang, Rongguang, Ming Hua, and Xue Yuan. You're indeed not young anymore. If you have any thoughts, our Dong Huang also has many outstanding female Beast Tamers."

#### **Chapter 605: Beauty Trap from the Seven Islands (4)**

"I remember that Lu Qingyi, Tong Yan, and even Divine Bell are all single. If you have such thoughts, they're undoubtedly more outstanding. They're not what a mere Beast Tamer from the island country can compare to."

Shi Yu smiled bitterly and said, "Don't worry, I know the severity. Do I look like someone who can't resist temptation?"

Tyrannical Sea Legend: "Yes."

Shi Yu : "..."

Damn it!

"Let's not talk about this anymore." Seeing that the Tyrannical Sea Legend was so bored, Shi Yu coughed dryly and said, "Uncle Yu, how's the situation on the path to champion?"

"Ji Feng stopped at the tenth level, and Zou Yun stopped at the eighth level," Tyrannical Sea Legend said, not too surprised.

Shi Yu was stunned. Ji Feng was alright, but what was wrong with Heavenly King Zou!

This time, he could already imagine... Heavenly King Zou being scolded on the trending list.

It was alright. They were different after all.

"By the way, didn't they also say that after passing the tenth level of the Road of Champions, you can enter the seven island Mythical Ruins to cultivate for seven days?" Shi Yu said. "Is there any information about this Mythical Ruins? What are the specific cultivation effects inside?"

Shi Yu began to think about his most important reward.

Tyrannical Sea Legend nodded and said, "I've already obtained the information. This Mythical Ruins is a ruin that increases the efficiency of skill training. In theory, in seven days, it can allow the pet cultivating inside to train a super skill that has just entered the entry level to nearly expert level and master it at a very fast speed."

"Of course, if the skill trained by the pet is at the expert level, it's still effective. The rule is that the lower the skill proficiency, the easier it is to increase. And vice versa. It's said that with this ruin, it can steadily nurture overlord-level pets. The effect is comparable to a renewable legendary resource."

"However, every time this ruin opens, it consumes a huge amount of resources. The cost-effective ratio of nurturing ordinary overlords isn't high, and it's only suitable for geniuses. If nothing goes wrong, the two legendary world contestants from the seven islands and the Phoenix Court that you came into contact with must have cultivated here."

Shi Yu: "?"

What?

That was it?

Seven days? Just add more points, right?

The cultivation effect of the Mythical Ruins was only at this level?

Compared to the seven island Mythical Ruins, adding points could also train the pet's will and physique. In comparison, Shi Yu immediately felt bored.

Shi Yu compared it to the Mythical Ruins that Senior Lu had cracked.

The Mythical Ruins that Senior Lu cracked gave her the corresponding Mythical bloodline of the five pets and even inherited five perfect Mythical Revival skills... In comparison, although the Seven Islands

Mythical Ruins couldn't be said to be useless, it was useless to Shi Yu, who had the skill index. It wasn't as attractive to him as the ruins that Senior Lu cracked.

As expected, Mythical ruins were also divided into levels. That's right... It was impossible for the seven islands to open the ridiculous ruins to outsiders.

"Seven days of cultivation is not bad. Most importantly, all the contracted pets can enter together. If used appropriately, it will welcome a very good increase," Tyrannical Sea Legend said.

Shi Yu thought for a moment and shook his head. "Transfer this opportunity to Big Brother Zheng Hai. I'm now Lu Bai, so it's not convenient for Eleven and the others to enter the ruins to cultivate. Moreover, seven days is not very meaningful for my strength to increase. Isn't Zheng Hai's pet only a little away from the overlord level? Using this opportunity, perhaps Dong Huang can immediately have a new legendary Beast Tamer."

Shi Yu said decisively on account of the Tyrannical Sea Legend's Infinite Devour! Upon hearing that, the Tyrannical Sea Legend was stunned. This was because Zheng Hai was his disciple. He completely didn't expect Shi Yu to say that he would give the opportunity to enter the Mythical Ruins to Zheng Hai.

"The price will be discounted according to legendary resources. Friendly price." Shi Yu looked up and said, "Uncle Yu, are you paying or Zheng Hai?"

Selling this opportunity to buy supplements to increase points was more cost-effective.

Tyrannical Sea Legend: ???

"Cough, cough." Legend Sea Tyrant's scalp went numb. "Although I don't know what you're thinking, you can talk to Zheng Hai yourself later."

"As for him, if he wants that Leviathan to perfectly advance to overlord, he didn't miss any super skill proficiency upgrade chances, so his progress is a little slow. He should indeed want this cultivation opportunity in the ruins very much."

"If he doesn't have enough money, you can come to me."

"Alright, it's just a gesture. I'm mainly afraid that you and Brother Zheng Hai will feel embarrassed if I give it to you for free," Shi Yu said with a chuckle.

The corners of Tyrannical Sea Legend's mouth twitched. This guy really knew how to talk!

However, the Tyrannical Sea Legend had a good impression of Shi Yu at this moment. After all, the one who cleared the level was Shi Yu, but the one who benefited was his disciple.

He didn't become a bodyguard for nothing.

Wait a minute, after Zheng Hai reached the Legendary level and participated in the World Tournament, would he also have to be Shi Yu's bodyguard?? With Shi Yu's courting death level... The Tyrannical Sea Legend's scalp went numb again.

## Chapter 606: Phoenix Shrine (1)

Zheng Hai.

The personal disciple of the Tyrannical Sea Legend, Yu Zhihui. His talent was a water-element strengthening talent, a very common talent. The reason why he was taken in as a disciple by the Tyrannical Sea Legend, a titled expert, was because Zheng Hai's contracted Blue Salamander accidentally mutated into the Leviathan race after swallowing unknown resources due to a cultivation mistake.

This experience could be said to be identical to the Tyrannical Sea Legend. In the early years of the Tyrannical Sea Legend, it was only an ordinary fishing youth. His initial pet was also the Blue Salamander of a low-level transcendent race. It only knew one bubble skill.

However, it was precisely because this Blue Salamander accidentally swallowed an unknown resource and completed its mutation evolution that it obtained the super racial skill Infinite Devour. This allowed the Tyrannical Sea Legend to directly rise and become a super expert at the top of Dong Huang.

Zheng Hai was similar. In the beginning, he was just an ordinary fishing youth, so he was lucky. However, he wasn't as lucky as the Tyrannical Sea Legend, because after his Blue Salamander mutated, it didn't master Infinite Devour and only completed the racial mutation.

But even so, because the Tyrannical Sea Legend had seen some possibilities on Zheng Hai's Giant Leviathan, after a test, he also took Zheng Hai in as a disciple. Now, under the nurturing of the Tyrannical Sea Legend, that ordinary fishing youth had already become eighth in the Dong Huang Sequence!

The trump card pet had also mutated all the way to a middle-level overlord race and mastered three super racial skills. Moreover, it had been trained by Zheng Hai to nearly perfect level.

"Master, you're looking for me?"

This time, Zheng Hai was also brought to the seven islands by the Tyrannical Sea Legend. After all, the seven islands were the country of water, and it was very suitable for Zheng Hai to train. Unfortunately, the champion path this time prohibited quasi legendary participants. Although Zheng Hai's pet wasn't at the overlord level, his Beast Taming level prevented him from challenging the champion path.

Zheng Hai also felt that it was a pity. However, to be able to see Dong Huang's genius Beast Tamer, Lu Bai, sweep through the seven islands, he also felt that he didn't come for nothing. This Lu Bai was really impressive. He felt that even his overlord race, the Giant Leviathan, definitely couldn't withstand a single move from that ice elemental life form.

At this moment, Zheng Hai was very confused because he suddenly received a message from his master to come to "Lu Bai's" room.

After arriving, Zheng Hai discovered Lu Bai, who was sitting and communicating with his master, in the room. He also discovered that his master's expression didn't look right...

"Yes." Tyrannical Sea Legend nodded.

"Because Lu Bai passed the tenth level of the champion's path, Dong Huang obtained the right to use the Seven Islands Mythical Cultivation Ruins on the seventh day."

Zheng Hai also nodded. He naturally knew this.

“Originally, this cultivation opportunity was Lu Bai’s, but for some reason, he planned to pass this cultivation opportunity to you to use.”

“What!!!” Zheng Hai widened his eyes and looked at Shi Yu eagerly. “Brother, is this for real!”

Looking at Shi Yu, who looked like a white-haired youth, Zheng Hai called him brother in shock.

With this, his Giant Leviathan’s three super racial skills had reached perfect proficiency. It would definitely not be a problem to break through to the overlord level.

Apart from that, the strength of the other pets could also increase in the short term.

It could save him a lot of time and ensure that he had more time to stabilize his strength before the World Tournament began!!

Wait a minute, Lu Bai was not related to him at all. Why would he give such a huge opportunity to him?

Zheng Hai was puzzled for a moment, but he quickly understood that his master might have fought for it for him.

He was immediately touched.

“Cough, cough.” Shi Yu coughed dryly and said, “Wait a minute. It’s not a free gift. It’s according to the internal friendship price. There’s no problem, right...”

Zheng Hai’s eyes flickered. “Of course. I won’t let Brother Lu Bai suffer a loss. Even if I sell the Binhai Training Hall and go bankrupt, I definitely won’t let Brother Lu suffer a loss.”

Since it was arranged by his master, he naturally wouldn’t let Lu Bai suffer, lest Lu Bai and President Ye looked down on them!!

Wasn’t it just money!!

He would give double the amount Lu Bai wanted!

Zheng Hai wasn’t stupid. He had calculated it.

If he obtained the cultivation opportunity gifted by Lu Bai, his Giant Leviathan could quickly become a perfect overlord.

At that time, he would be the fifth legendary Beast Tamer in the top ten of the Dong Huang Sequence!!!

Coupled with his water-element strengthening talent, his overlord Giant Leviathan’s strength was definitely extraordinary.

Even monsters like Shi Yu, Lu Qingyi, and Ji Feng definitely couldn’t defeat the Leviathan race that had the enhancement of Beast Tamers.

Then, in theory, he should be able to enter the top five of the Sequence.

At that time, the reward for the Sequence Battle would be a legendary resource!!!

What was wrong with investing more now? In any case, after breaking through to the legendary level, the resources could be quickly returned.

He had already wasted too much time to let the Giant Leviathan perfectly advance to an overlord. He had to seize this opportunity.

“Brother Zheng Hai, no need to be polite,” Shi Yu said with a smile.

“No, I should be the one thanking Brother Lu Bai. I won’t stand on ceremony. This opportunity is indeed very important to me,” Zheng Hai said.

“There’s actually another reason why I called you over this time,” said the Tyrannical Sea Legend.

“Tomorrow, you and Old Ke will go to the Red God Island with Lu Bai to visit the Phoenix God Shrine and try to crack the Phoenix Mystic Realm behind the Phoenix God Shrine.”

“Huh?” Zheng Hai was stunned.

Although he had reached the quasi legendary level and was also a legendary disciple of the Tyrannical Sea, like Ji Feng and the others, he didn’t know the real purpose of the Dong Huang exchange team coming to the seven islands, nor did he know the true identity of “Lu Bai”.

## **Chapter 607: Phoenix Shrine (2)**

At this moment, when he heard his master say that he wanted to send them to some Phoenix Mystic Realm, he immediately said, “Are we going to start cracking the ruins mystic realm of the seven islands? So our first goal is this Phoenix Mystic Realm?”

“With Bureau 11’s ‘Old Ke’ as the core...” Zheng Hai said, “What do I have to do. ”

“You?” Tyrannical Sea Legend said, “Just follow Lu Bai to discuss business. There’s no need to do anything.”

Make a good relationship with this guy so that he wouldn’t kill you!!

Tyrannical Sea Legend was really worried that his disciple would suffer from Shi Yu. After all, for Shi Yu to be able to get so many legendary resources from the association, he was definitely not easy to deal with.

Zheng Hai : “...”

...

Because the member of the Dong Huang exchange team, “Lu Bai”, had been invited by the Phoenix Witch of the seven islands, “The Phoenix Court”, to visit the Phoenix God Shrine, the Dong Huang exchange team decided to form a special exchange team and go together.

Legendary Beast Tamer, archeologist Ke Yingzong of Bureau 11, quasi legendary Beast Tamer, Sect Master Zheng Hai of the Binhai Training Hall, and Shi Yu himself. It was a very simple combination of three.

Of course, there was definitely the gem cat behind the scenes. However, most of Dong Huang's own people didn't know that the gem cat following them the whole time was Dong Huang's guardian, let alone the seven islands.

The next day, the challenge on the road to champion continued. Today, Ning Tianming, who was a hybrid of human and ghost, continued to challenge. As for Dong Huang's special exchange team, they had already set off for the Red God Island and the Phoenix God Society.

On the ocean and the huge ship, Zheng Hai kept feeling that this special exchange team was strange, but he couldn't tell what was strange.

"Old Ke, are we really going to explore the mystic realm?" He asked the archeologist from Bureau 11 beside him, Senior Ke Yingzong.

"What else?" Old Ke said.

"Why do I feel that it's to prevent Brother Lu from being abducted!" Zheng Hai looked at Lu Bai and the Phoenix Court couple who were "romancing" side by side in the distance and felt confused and envious.

Wait, wait, wait, when did Lu Bai hook up with the Phoenix Court, the number three on the seven islands?

Compared to exploring the mystic realm, why did he feel that the goal of the Dong Huang exchange team this time was to look after "Lu Bai"?

Damn it, why didn't the seven islands send someone to use a honey trap on him?

He also wanted to challenge his weakness.

"Look at yourself..." Old Master Ke shook his head.

He didn't believe that Shi Yu would be swayed by beauty in front of a Phoenix Race ruins mystic realm. The will of their Bureau 11 archeologists... was definitely firm!

Ruins! Ruins! Ruins!

Women would only delay their speed of tearing down the ruins!

"If anyone's getting abducted, it should be us who abducts that little girl to Dong Huang." Old Master Ke was a person with great ambition.

The Phoenix Divine Society was established to protect and worship the Phoenix Mystic Realm.

As long as they moved the Phoenix Mystic Realm to Dong Huang, the Phoenix Shrine would also move to Dong Huang. It was very reasonable for a group of witches to marry into Dong Huang.

This Zheng Hai had definitely never heard of a popular idiom in Bureau 11.

Because Shi Yu, a newcomer to Bureau 11, had cracked the mystic realm of the ruins too quickly after joining Bureau 11. In Bureau 11, the saying that “times had changed” had been circulating for a long time... It was probably no exception this time.

However, he wasn't sure if they could do it this time. Hopefully it wasn't a demolition.

“Ah...”

Zheng Hai, who didn't know the purpose of this trip and Shi Yu's identity, only felt deep confusion.

...

“I didn't expect you to make a decision so quickly. I thought you still had to think for a while.” On the huge ship, Jie Yi of the Phoenix Court, who was wearing a witch suit, looked at the sea and said in surprise.

“It's mainly because Senior Ke from the exchange team was very interested after hearing about the Phoenix Mystic Realm and couldn't wait to explore it,” Shi Yu coughed dryly and said weakly.

His short white hair fluttered, and she looked like she was about to die in the next moment, making Jie Yi, who was beside her, a little panicked.

She was afraid that “Lu Bai” would suddenly fall beside her.

In that case, it would make it seem like she was here to “assassinate” Lu Bai.

“Is that so?” Jie Yi of the Phoenix Court forced a smile and said, “However, I have to remind you in advance that although the Phoenix Mystic Realm is also an unsolved mystic realm, it's still fundamentally different from other ruins.”

“Huh?” Shi Yu said. “Please elaborate.”

“My teacher has done sufficient research on this mystic realm. In this mystic realm, only humans with special phoenix bloodlines have any hope of communicating. It can be said that people of mixed blood are the key to cracking the Phoenix Mystic Realm.”

“Other methods can't cause any changes in the Phoenix Mystic Realm, so compared to wasting too much time on the Phoenix Mystic Realm, my suggestion is that under my lead, we visit the Phoenix God Shrine and Phoenix Mountain more. The scenery here is still very beautiful,” the Phoenix Court's Jie Yi said.

Shi Yu fell into deep thought.

It was similar to what he had learned.

The Undying Dark Phoenix also said that Chi Tong's bloodline was the key to opening the Phoenix Mystic Realm.

As for Chi Tong's power, it was essentially a hybrid of a human and a phoenix. Although it was a heroic spirit now, the nature of its power would not change.

“Is there anything special over there?” Shi Yu asked again.

“Of course,” Jie Yi said. “On Phoenix Mountain, hundreds of phoenixes dance together. It’s filled with rich Mythical colors. It’s the most unique of the new shrines on the seven islands.”

“These are all pets of the witches in the shrine.”

### **Chapter 608: Phoenix Shrine (3)**

“Apart from that, the spiritual plants on the mountain are also unique. They’re rare in the outside world.”

Shi Yu said, “I heard that the witches of the Phoenix Shrine are all mixed-blood?”

He had been curious about this for a long time. Even in Dong Huang, apart from Mu Huiyin and the empress, he had never heard of anyone being a phoenix hybrid.

Why were there so many on the seven islands?

Could it be that the hybrid faction of the Phoenix Race escaped from Dong Huang to the seven islands?

This was also a possibility.

Dong Huang’s geographical area was incomparably vast, many times larger than the seven islands. As for Dong Huang, it was the center of the totem battle in ancient times and a place to fight for. Therefore, at that time, in order to leave the center of the war, many Beast Tamers fled to relatively barren and peaceful places.

Not far away, Old Ke was researching this. The Dong Huang bloodline was distributed in the dozen or so totem countries near Dong Huang.

Therefore, it was completely possible for a portion of the Phoenix Race to escape to other countries during the internal strife of the Phoenix Race.

“Yes. They’re all the same as me. The difference is just the density of their bloodlines and their compatibility with the Phoenix bloodline,” the Phoenix Court said.

“At that time, after my teacher came out of the Phoenix Mystic Realm, she began to study how to increase the purity of her Phoenix bloodline. After ten years of hard work, she developed a resource called the Phoenix Fruit. This fruit can not only give a specific human Phoenix bloodline and make it a hybrid, but it can also strengthen the bloodline concentration of the Phoenix species pets. The entire Phoenix God Society was built relying on the special resource, the Phoenix Fruit.”

These were not secrets. She told Shi Yu bit by bit, making Shi Yu’s expression change slightly.

Phoenix Fruit?!

“There’s such a resource?” Shi Yu found it very unbelievable.

Back then, the information obtained by the Tyrannical Sea Legend and the others didn’t mention such a thing.

“This is the fruit of Teacher’s hard work, but unfortunately, after creating countless keys through the Phoenix Fruit, the Phoenix Divine Society still can’t crack the Phoenix Mystic Realm,” the Phoenix Court said. “Although, it has cultivated many outstanding mixed-blood Beast Tamers.”

She smiled and said, “If it weren’t for Teacher, I would never have such achievements, let alone reach level seven at this age through the Phoenix bloodline.”

“Senior of the Phoenix Court is really impressive...” Shi Yu said.

If this were Dong Huang, this person could at least get a high position in Bureau 12!

Bureau 12, hybrid bureau!

In Dong Huang, there were many mixed-blood Beast Tamer families.

Apart from some Beast Tamers with rare bloodlines, those who could join this bureau were basically the patriarchs of some mixed-blood families or successors with extremely high potential. For example, Ning Tianming was the heir of a large family.

Their status in the hybrid world was important, and they were a very important part of Dong Huang’s Beast Taming power.

However, until now, apart from normal reproduction, Dong Huang had no stable way to create mixed-blood Beast Tamers.

The Phoenix Fruit developed by the owner of this Phoenix Shrine could actually steadily create Beast Tamers with the Phoenix bloodline in batches?

No matter how weak the bloodline was, mixed blood still had a certain advantage over ordinary Beast Tamers!

[I can let Baby Ginseng and Ling study it someday. They can even develop strange things like the Soul Heart Fruit and the Reincarnation Fruit. There’s no reason why they can’t develop the hybrid fruit...]

[At that time, I might be able to use this research result to enter Bureau 12 and take a look.]

Shi Yu muttered to himself.

“Why, are you very interested in the Phoenix Fruit?” Jie Yi said.

“I’m indeed very interested. I wonder if my body can become better after becoming a hybrid...” Shi Yu coughed dryly and revealed a weak expression.

“Unfortunately,” the Phoenix Court said. “The Phoenix Fruit is only effective for women, and not on any woman. Apart from the hard condition of being a virgin, probably only one in a million people has the corresponding compatibility.”

Shi Yu: “Cough, cough, cough.”

He wanted to say: “Give me the fruit cultivation method. I’ll help you study and optimize it!”

He trembled in anger. When could the male Beast Tamer stand up?

Men could also have the Phoenix bloodline!

If Shi Yu wanted to, he could let Chi Tong transform him into a hybrid through max-level possession.

However, Shi Yu was afraid that something bad would happen to his body, such as his entire body being covered in red feathers, causing his later years to be inauspicious, so he didn't have this thought.

In short, let Chi Tong, Baby Ginseng, and Ling study the fruit... Perhaps it could really be optimized!

"That's a pity," Shi Yu said.

"But maybe in the future, the Phoenix God Shrine can develop a way to make men become Phoenix Race hybrids." Jie Yi of the Phoenix Court smiled and said, "If you still have any thoughts at that time, you can come and find me."

"Alright." Shi Yu smiled.

"By the way." Jie Yi of the Phoenix Court looked at Shi Yu and said, "This time, apart from showing you around the Phoenix God Society, I also want to fight a Beast Taming Battle with you. It can be considered a response to the missions of those higher-ups."

"Battle?" Shi Yu said. "What you're talking about shouldn't be a simple battle, right..."

"Yes, there's a bet."

"If I win, you'll date me."

Shi Yu: "?"

Shi Yu immediately grabbed the railing and said, "Then I'm sorry. After becoming a Beast Tamer, I've never lost a battle. I won't lose."

#### **Chapter 609: Phoenix Shrine (4)**

"Besides, what if I win?" Shi Yu asked.

The Phoenix Court's Jie Yi smiled. "If you don't mind, I can also date you if you win."

Shi Yu said, "I'm still more interested in the Phoenix Fruit. If I win, can you give me one?"

Phoenix Court's Jie Yi: "?"

So he was really interested in the Phoenix Fruit?

She was silent for a moment. "Only teacher has the right to handle the Phoenix Fruit. If she agrees, it's fine."

Shi Yu said, "But speaking of which, according to what I know, the shrines on the seven islands should be the residences of various legendary Mythical creatures or the guardians of the seven islands... The Phoenix God Shrine established by your teacher enshrines and sacrifices..."

“Of course it’s the founder of this Phoenix Mystic Realm, the owner of this place,” Jie Yi said. “Teacher said that this mystic realm changed her fate. If not for this mystic realm, she would already be a dead person. In that case, she’s willing to worship the owner of the mystic realm as a guardian.”

More than ten years ago, no, even now, some rural areas of the seven countries were still very feudal.

The founder of the Phoenix Divine Temple, the legend of the seven islands, Ji Xiang of the Phoenix Court, came from a feudal countryside. At that time, this place had yet to change from the thoughts of the totem era.

They felt that they needed to carry out a “life sacrifice” to the gods every once in a while to obtain peace.

At that time, Ji Xiang and her pet from the Phoenix Court were the targets to be burned alive and sacrificed.

Because she didn’t want to die, Ji Xiang chose to escape.

At that time, Ji Xiang of the Phoenix Court was only a Beast Tamer intern. The outside world was incomparably dangerous, and ferocious beasts were everywhere. She was already mentally prepared to die in the mouth of ferocious beasts during her escape.

However, the truth was that as a Beast Tamer intern, she accidentally entered the Phoenix Mystic Realm during her escape and awakened her bloodline.

With this opportunity, she and her pet changed their fate. In just ten years, they became legends whose names shook the seven islands.

After that, in order to protect and explore the Phoenix Mystic Realm, she established the Phoenix Divine Society.

She had also changed her original surname to her current surname, Phoenix Court.

Ji Yi of the Phoenix Court knew this and knew her teacher’s experience, so she also sincerely protected the Phoenix Mystic Realm. However, although she was a teacher, Ji Xiang of the Phoenix Court was actually not much older than the group of witches of the Phoenix God Society. She was only in her thirties now, comparable to Legend Xiao Shuang of Dong Huang.

“Unfortunately, due to the serious break in the history of the seven islands, the origin of this mystic realm is already impossible to determine,” said Jie Yi of the Phoenix Court with a shake of her head.

Being unable to know the history of the Phoenix Mystic Realm had always been a knot in the Phoenix Court legend.

Shi Yu was slightly stunned.

Therefore, the one they worshiped was indeed the Undying Dark Phoenix.

If the Undying Dark Phoenix knew that it had accidentally obtained a large number of believers, who knew what it would think...

“I hope that through our offerings, the owner of the Phoenix Mystic Realm can appear one day,” the Phoenix Court said. “Through the power of faith.”

“That day will come...” Shi Yu was silent.

If the prophecy of the owl was accurate enough, one day... Chi Tong would probably break open the seal of the Undying Dark Phoenix.

However... there were actually believers of the Undying Dark Phoenix on the seven islands. This was a dangerous sign. Fortunately, there weren't many believers.

The power of faith, this power, really existed.

No one knew the first creature to collect the power of faith, but many totems could be created to strengthen their skills through the power of faith. This was also why some totems had to establish countries and fight for territories and citizens.

Becoming a god through the power of faith was also a very widespread legend.

Although many powerful totems disdained this, such as Yun An, who completely relied on strength to attain the Dao, it was undeniable that this was also a path to become stronger. For example, the fox gods of the Heavenly Fox Nation around Dong Huang were totems that mainly collected the power of faith.

Even the legendary emperors of Dong Huang had studied the power of faith.

Even some transcendent creatures were born from the power of faith. For example, the Blue Sea Sprite was a combination of the power of faith and the power of the sea.

Therefore, this was also the third high-level ability that could be studied apart from optimizing races and creating skills.

If the Undying Dark Phoenix could also collect the power of faith to become stronger... Wouldn't this Phoenix God Society be helping the Undying Dark Phoenix break through the seal in disguise?

No... He had to think of a way to break the power of faith of the Undying Dark Phoenix!

## **Chapter 610: Yun An and the Dragon Palace Environmental Protection Department**

The destination of the Dong Huang exchange team, Red God Island.

There weren't many legendary factions on this island. There were only five.

The Phoenix Shrine was one of the new legendary factions.

Apart from that, there was also a relatively new legendary faction, the Ke Yuan Financial Group.

This was a technological faction. It involved many industries such as medicine, healing, life engineering, and biological modification, including many top-secret plans that couldn't be made public...

....

The huge ship from Heavenly Rainbow Island to Red God Island slowly approached the shore. Shi Yu looked at the huge island in front of him that was like a continent and was already prepared to fight.

However, just as he was getting closer and closer to the island, he suddenly sensed something and was slightly stunned.

“This wave is...”

After being stunned for a moment, Shi Yu asked the gem cat to use its clone to investigate the situation.

At the same time.

Somewhere in the depths of the sea area of the Red God Island, a group of hidden sea creatures was on standby.

Among this group of sea creatures, there were two overlords and more than ten monarchs. They basically had spatial, spiritual, and undead attributes. Their lineup was incomparably luxurious. If they worked together, they could instantly cause a huge and nasty impact on the Red God Island.

However, this group of sea creatures hid very well. The investigation methods of the Seven Islands couldn't discover their traces.

This group of sea creatures also thought that they had hidden very well. They dived into the dark deep sea to rest and didn't notice that a totem clone was approaching them.

At this moment, a light suddenly shocked them, making them feel as if they were facing a great enemy.

Impossible!

How could they be discovered!

“Cat, cat, it's a cat, there's a cat in the sea!!!” After an instant of observation, they were even more shocked. This was because in this dark and deep sea, a cat with bright eyes that illuminated the deep sea suddenly appeared in front of them!!

After the shock, they were calm. The hearts of these sea creatures suddenly stopped, because why did this cat feel a little familiar?

“Vice, Vice Minister?!!”

The leader of the ocean overlords widened its eyes.

“Hi!!”

The gem cat looked at these hidden sea beasts strangely. If it weren't for Buggy sensing the phantom fluctuations it created through the environmental badge, they really wouldn't have discovered these guys.

Yes, the group of sea beasts hidden near the Red God Island were members of the Marine Environmental Protection Department of Dragon Palace City!

The Ice Dragon Badge they carried was the most important thing that Shi Yu could instantly sense their movements. As long as it reached a certain range, Buggy could sense the illusion it had created, and inside the Ice Dragon Badge was the Ice Dragon Phantom created by Buggy.

Through this ability, in times of crisis, Buggy could also call the members of the Environmental Protection Department who carried badges within a certain range to save them.

It could be said that Shi Yu had this plan when he created the badge.

Otherwise, wouldn't it be very boring to lead such a group of overlords but not be able to use them?

Therefore, although these sea beasts hid very well, they were still instantly discovered because they were holding Buggy's locator.

"What are you guys doing here?"

"We... we're on a mission," the spatial jellyfish overlord in the lead said.

Mission...

The gem cat was stunned for a moment and said, "Could it be that it's investigating the Poison Dragon Totem that invaded the sea area of Dragon Palace City a few months ago??"

"That's right!!!" The Space Jellyfish overlord cried and said, "But why don't you know anything about the mission of the Environmental Protection Department, Deputy Minister?"

The gem cat : "..."

It wasn't just it.

Their minister probably didn't know.

"Then did you... find out anything?" the gem cat asked.

The Space Jellyfish overlord's expression was serious as it said, "The birth of the Poison Dragon Totem might be related to a faction called the Ke Yuan Financial Group on the Seven Islands. The Poison Dragon Totem is an experimental subject of their biological modification experiment. A few months ago, an unknown experimental base of the Ke Yuan Financial Group was destroyed. The experimental subject defected. This experimental subject that defected can basically be determined to be the predecessor of the Poison Dragon Totem, the Poison Dragon overlord."

"In addition, we've also obtained some evidence of other secret experiments on the Ke Yuan Financial Group. We've already gotten others to send it to Dragon Palace City. We're all on standby here."

"But according to the investigation, the core figure of this Ke Yuan Financial Group seems to have slipped away a few months ago..."

"Ahhh?" The gem cat's expression became serious and fierce.

The Poison Dragon Totem was indeed related to the Seven Islands?

It smelled a big event.

It would be fine if it was just biological modification. Which country had not done it?

However, the biological modification on the Poison Dragon Totem was not simple!

The power fluctuations on its body came from Yun An!

King of totems, demigod Yun An, a powerful extraterrestrial creature that had once forced Emperor Wu to a dead end!

Not only was Dragon Palace City investigating, but Dong Huang was also investigating the Poison Dragon Totem for the clues behind Yun An.

Now, they actually found out something?

What was the relationship between this Seven Islands Science and Technology Financial Group and Yun An?

It could already imagine how Dragon Palace City would use the excuse to start extorting the Seven Islands after receiving the news.

It could already imagine what Dong Huang would do after learning that Yun An might be related to the Seven Islands.

“However, what do you mean the core figure slipped away??”

“Tell me everything about the investigation,” the gem cat said quickly.

The Space Jellyfish Overlord said, “We suspect that this Ke Yuan Financial Group of the Seven Islands has colluded with the totem faction...”

....

On the huge ship that arrived at the Red God Island, Shi Yu synchronized the information through the gem cat’s main body. His mood and expression became more and more serious.

He didn’t know if it was a good thing or a bad thing...

“We’re finally here.” Zheng Hai stretched. Red God Island!

“Yes.” Senior Ke Yingzong smiled and nodded.

He had been looking forward to the Phoenix Mystic Realm for a long time.

Although he had also explored many mystic realms in his country, they weren’t as fragrant as other ruins mystic realms.

The grass was always greener on the other side...!

“The Phoenix God Shrine is located in a remote place. Next, let me lead you to the Phoenix God Shrine,” Jie Yi said to the three Beast Tamers of Dong Huang.

“My teacher’s already waiting for you all, Senior Ke.”

“Teacher wants to know more about the Phoenix Race from you, Senior Ke.”

The founder of the Phoenix God Society, Ji Xiang, was very interested in the Phoenix Race because she was a hybrid. The one who studied the Phoenix Race the most was Dong Huang, because since the totem era, dragons and phoenixes had been the supreme totems of the Dong Huang Continent.

The worship of dragons and phoenixes was far greater than that of other countries. Of course, before other countries left the control of the totems, they also had their own supreme faith. For example, Xue Yuan worshiped bears.

"This..." Senior Ke Yingzong said, "I indeed have some new archeological discoveries here, but unfortunately, I can't confirm it yet. The one who discovered it wasn't me, but another archeologist from our Dong Huang."

"Shi Yu."

"Brother Shi Yu?" Beside him, Zheng Hai was surprised. Then, he said, "That's true."

Shi Yu's Mu Huiyin's heroic spirit was related to the Phoenix Race. It was a hybrid. He believed that Shi Yu had studied the Phoenix Race.

"Ah, Shi Yu." Shi Yu also said from the side, revealing a curious expression.

"I've heard of this name. He's the number one person below the legends of Dong Huang, a genius archeologist," the Phoenix Court's Jie Yi said.

With that said, she looked at Lu Bai, wondering who was stronger between Lu Bai and Shi Yu.

'Lu Bai' had a calm expression and smiled. "That person is indeed powerful."

"Has Brother Lu Bai interacted with Shi Yu??" Zheng Hai asked curiously. In his opinion, these two people were super geniuses.

"Not yet, but I've heard of it long ago. When I return this time, I should challenge him and see how powerful the number one person below the legendary level in Dong Huang is," Shi Yu said calmly.

He challenged himself.

The number one person below the legendary level, Shi Yu, vs the hidden genius, Lu Bai, who had swept through the Seven Islands!

The outcome might depend on whether Susu could defeat Eleven at the moment.

At the side, the corners of Senior Ke's mouth twitched. This guy was really addicted to playing this role.

He had reason to suspect that he wanted to occupy two Sequence positions and cheat more resources!

"Really?" Upon hearing that Lu Bai wanted to challenge Shi Yu, Jie Yi of the Phoenix Court revealed an interested expression and said, "But before that, I hope Lu Baijun can fight a battle with me without any regrets."

Shi Yu covered his mouth and continued to cough dryly. His face was pale as he said, "Of course."

Naturally, he had to negotiate with the legend of the Phoenix Court first before fighting.

He didn't want to fight a meaningless battle.

However, no matter how many times Shi Yu repeated the title Phoenix Court Legend, he kept feeling that it was strange. He felt like he was singing the name.

Something like 'The mystic realm of the Seven Islands is my love~ The ground under the ancient ruins is cracking~'
