Chapter 611: Secret Art of Time (1)

The Phoenix Shrine was located on a remote mountain in the depths of the Red God Island. This was a fiery red mountain. From afar, the mountain was filled with fiery red spiritual plants. It was beautiful.

Shi Yu and the others ascended the steps. After a complicated etiquette, they entered the Phoenix God Shrine. At this moment, Chi Tong, who was in Shi Yu's Beast Taming Space, sensed the fluctuations of the mystic realm just like how Buggy sensed its illusion previously.

Chi Tong, Shi Yu: o(" '▽' ")o

The Undying Dark Phoenix was right.

There was really an inheritance!

Shi Yu's mood immediately improved.

However, perhaps because of the special situation today, there were no people from the Phoenix God Shrine who came to pray. The interior was very cold.

"Senior Jie Yi, distinguished guests."

As Jie Yi of the Phoenix Court led Shi Yu and the other two to the divine temple, a woman who was also wearing a red and white witch dress walked forward. She was about twelve or thirteen years old and looked very young. She raised her head and said, "This way, please. The Divine Master is waiting."

"I understand." Jie Yi of the Phoenix Court smiled at the young witch and said, "Everyone, please follow me."

Ke Yingzong, Zheng Hai, and Shi Yu nodded.

Soon, Shi Yu and the others were brought to an ancient house. In the house, Ji Xiang of the Phoenix Court had already made tea and was waiting for the arrival of the guests.

She was a legendary Beast Tamer in her thirties. She wore a pure white feather sweater over her white and red kimono. Her orange-red long hair naturally fell. From the outside, she didn't look much older than Jie Yi from the Phoenix Court. However, the aura emitted from his body instantly made Ke Yingzong, Zheng Hai, Shi Yu, and the others' hearts freeze.

They felt that what existed in front of them was an overlord-level ferocious beast.

This was a powerful pressure unique to high-level mixed-blood Beast Tamers.

In Dong Huang's team, although Ning Tianming had already started to emit pressure, compared to this legendary Divine Master of the Phoenix Divine Shrine, he was still a child in comparison.

"Welcome, esteemed guests."

After the legendary Divine Master of the Phoenix Shrine got up to welcome him, she smiled calmly and said,

“I’m the Divine Master of the Phoenix Divine Society, Ji Xiang of the Phoenix Court.”

“Legend of the Phoenix Court. Hello, I’m the legendary archeologist of Dong Huang, Ke Yingzong,” Ke Yingzong replied.

“Zun Hai, quasi legendary Beast Tamer of Dong Huang.”

“Top-notch Beast Tamer of Dong Huang, Lu Bai.”

Shi Yu and the others also introduced themselves one by one. Ji Xiang’s gaze swept past the few of them one by one. Then, it stopped on Shi Yu for a while and her heart skipped a beat.

She didn’t feel threatened from the legendary Beast Tamer Ke Yingzong or the disciple of the Tyrannical Sea Legend, but this sickly Lu Bai made Ji Xiang feel strange.

As a wild beast, if she was a Phoenix Bird soaring through the sky, then the “Lu Bai” in front of her was a giant with a body comparable to a mountain and extraordinary strength that could pluck stars and grab the moon and reach her.

How was this possible...

He clearly looked like a sickly young man, but the pressure was even stronger than those titled legends...

This pressure was not related to the strength of the Beast Tamer. It was purely produced by the Beast Tamer’s bloodline, physique, spirit, and will.

After being slightly surprised, Ji Xiang from the Phoenix Court calmed down and said, “I’ve long heard of your names. Please take a seat first. Jie Yi, you sit too.”

“Yes, Teacher.”

Soon, the five of them started talking. The host, Ji Xiang of the Phoenix Court, was the first to start the topic. “Legend Ke should be here for the ‘Phoenix Mystic Realm’, right? I’ve also heard of the bet agreement on the path of champion. I wonder why Legend Ke and the others chose this ruin?”

At the side, Jie Yi from the Phoenix Court immediately became reserved...

“This... I heard it from ‘Lu Bai’. In addition, the dragon and phoenix have been the representative totems of Dong Huang since ancient times, so I’m naturally a little interested,” Ke Chuanqi said.

Ji Xiang looked at Lu Bai.

Shi Yu said, “Eh, wasn’t it you, the legend of the Phoenix Court, who invited us to explore?”

Shi Yu put the little witch on the spot.

Ji Xiang of the Phoenix Court looked at Jie Yi of the Phoenix Court.

“...” Jie Yi of the Phoenix Court was silent.

This, this, this, wasn't this because Teacher had the higher-ups of the association asking her to come into contact with this "Lu Bai"? Wasn't she just trying her best to make him interested?

Ji Xiang from the Phoenix Court pondered for a moment and quickly understood the cause and effect.

In the end, she looked at Shi Yu.

Shi Yu revealed his sharpness. The Seven Islands Association had taken a fancy to Shi Yu's potential and hoped to keep him here. Even if they couldn't keep Shi Yu here, they could let him have a few more children on the Seven Islands. It would be good if they could inherit Shi Yu's mysterious "Beast Taming Talent".

Among them, the first and first choice to come into contact with Shi Yu was the Phoenix Court.

Even Ji Xiang of the Phoenix Court felt that this was nothing. Although the strength of the Phoenix Court's Jie Yi was not bad, she had already judged that it was not the key to open the Phoenix Mystic Realm. Therefore, compared to the Phoenix Court's Jie Yi, the Phoenix Court's Ji Xiang looked forward to what changes the child of the Phoenix Court's Jie Yi could bring.

After all, bloodlines could also be passed down through reproduction. If one party's bloodline was outstanding enough, it might even optimize the other party's bloodline. The Phoenix Court's Jie Yi and "Lu Bai" were undoubtedly very outstanding. The Phoenix Court's Ji Xiang didn't care about nationality or anything. She only cared if both parties had enough outstanding bloodlines to give birth to a child who could become the key to the Phoenix Mystic Realm.

Chapter 612: Secret Art of Time (2)

Therefore, when the higher-ups of the Seven Islands looked for the Phoenix God Shrine, Ji Xiang of the Phoenix Court was not in a hurry to refuse. Instead, she fought for the opinion of the Phoenix Court's Jie Yi. The Phoenix Court's Jie Yi was not a weakling anymore. This kind of thing naturally should be taken into consideration by Jie Yi herself. Fortunately, the Phoenix Court's Jie Yi was also interested in the strong.

However, Ji Xiang of the Phoenix Court didn't expect that this girl would use the Phoenix Mystic Realm as a date venue and bait him.

"Forget it, this isn't important. I also have some questions I want to ask Legend Ke." Ji Xiang of the Phoenix Court shook her head. In any case, in her opinion, it was impossible for this group of people to crack the Phoenix Mystic Realm.

After she became a legend, she went to various places to train, including the seven countries and the totem country. According to what she knew, in the seven countries, their Phoenix Divine Society was the only one with mixed blood. Therefore, the only possibility of cracking the Phoenix Mystic Realm was still on them.

Although Dong Huang used dragons and phoenixes as totems, it was mainly hybrids of humans and dragons. They were known as the successors of dragons, but no one was a phoenix hybrid.

“What?” Ke Yingzong felt that it should be about the Phoenix Race.

“According to what I know, although Dong Huang doesn’t have the mixed blood of the Phoenix Race anymore, in ancient times, that legendary Beast Tamer known as the empress was a mixed blood of the Phoenix Race. Therefore, I want to ask Legend Ke if he knows the related origin of the mixed blood of the Phoenix.”

“I know that.” Before Senior Ke Yingzong could answer, Shi Yu answered first, making Ji Xiang look at Shi Yu in surprise.

Shi Yu said, “I’ve only heard of it, but I don’t know its accuracy.”

“Tell me about it.”

Shi Yu said, “More than two thousand years ago, the development of the Phoenix Race fell into a certain bottleneck. A voice appeared in the Phoenix Race. The power of the bloodline is about to be given to some humans with suitable physiques to break this bottleneck with humans with the Phoenix bloodline.”

“However, because the growth of hybrids requires too many resources and the Phoenix Race has many members who pursue the purity of their bloodline, two factions have been divided in the race.”

“One side supports the hybrid human plan, while the other side firmly opposes humans sharing the resources of the Phoenix Race. From this, the Phoenix Race’s internal strife was born. Many mixed-blood humans were chased by the purebloods. Some died, and others escaped.”

“The internal strife lasted for thousands of years. In the end, the hybrid faction gained the upper hand. The Empress of Dong Huang was said to be the strongest among the mixed-blood Beast Tamers at that time, and the origin of the Phoenix Race’s mixed-blood was also Dong Huang. If Senior Phoenix Court is curious about your identity, you might be able to go to Dong Huang in the future to take a look too.”

“Perhaps your ancestor was the Dong Huang person who escaped from the Phoenix Race’s internal strife back then,” Shi Yu said with a smile.

After he finished speaking, Senior Ke, who was beside him, exclaimed was shocked. This guy was just starting off with that right off the bat?

He didn’t just want to take away the mystic realm, right? He also wanted to move the entire Phoenix God Society to Dong Huang!

As Shi Yu finished speaking, Ji Xiang’s expression changed. She didn’t expect that she could really obtain some secrets from the Dong Huang people that she didn’t know before. However, just as Shi Yu had said, even he didn’t know if this was true or false. Ji Xiang didn’t immediately believe it.

At the side, Jie Yi from the Phoenix Court also opened her mouth slightly. “Lu Bai” said that Teacher’s ancestor might be from Dong Huang?

“Is this Dong Huang’s archeological discovery?” Ji Xiang from the Phoenix Court asked. “You can’t determine the accuracy because there’s no evidence?”

Shi Yu nodded and said, “There’s no conclusive evidence.”

“But actually, the discoverer himself is decisive evidence. The Beast Tamer who discovered this secret is said to be the genius archeologist of Dong Huang, Shi Yu. He has already made several epoch-making archeological discoveries in Dong Huang. With his qualifications, the authenticity of this statement should be very high.”

“Shi Yu...” It wasn’t the first time Ji Xiang had heard this name.

“Did Shi Yu discover this too??” Beside him, Zheng Hai was very shocked. But soon, he came to a realization and said, “Yes, the heroic spirit contracted by Brother Shi Yu, General Mu Huiyin, is also a hybrid of a human and a phoenix. It’s not strange for him to know some inside information.”

“Mu Huiyin, heroic spirit? What’s that?” Ji Xiang asked.

Although the higher-ups of the Seven Islands Association had investigated Shi Yu, Ji Xiang didn’t know much about him.

Therefore, the saying that Dong Huang didn’t have mixed blood now was actually an old version.

Shi Yu smiled and said, “It’s said that the fourth pet of Shi Yu, the number one person below the legend of Dong Huang, is a heroic spirit formed by an ancient sage. That sage is also a hybrid of a human and a phoenix.”

Ji Xiang was stunned. So, there was a hybrid in Dong Huang now?

Soon, she shook her head. It didn’t mean much. Not every hybrid was related to the Phoenix Mystic Realm.

There were so many mixed-blood Beast Tamers in the Phoenix Divine Society, but they still couldn’t open the mystic realm.

Moreover, they had already turned into undead. They shouldn’t have any bloodline concept anymore.

She looked at Shi Yu and said, “You know this Shi Yu very well.”

Shi Yu said, “With his reputation in Dong Huang, everyone should know him. It can be said that the younger generation of Dong Huang lives under his light.”

Zheng Hai: !

The corners of Old Master Ke Yingzong’s mouth twitched crazily. Was this f*cking guy done? His alternate identity was about to fall, fall!!

What Old Master Ke didn’t know was that Shi Yu no longer cared about the identity at this moment because he already had a premonition that the relationship between the Red God Island, or rather, the Seven Islands, would immediately become tense.

Chapter 613: Secret Art of Time (3)

The legendary faction of the Seven Islands was studying Yun An... This kind of thing was clearly about to happen. Dong Huang didn't know, but at least Dragon Palace City had long wanted to extort the Seven Islands. They just didn't have evidence previously.

This time, the Environmental Protection Department caught the evidence and even sent it back to Dragon Palace City. If Shi Yu's judgment was right, it shouldn't be long before several totem-level Dragon Kings came to the Seven Islands to take a look and see if they could compensate for the loss of mental pollution.

The Seven Islands... were about to be in turmoil. Who would care about a small master like him?

He wanted to lay the foundation for Shi Yu's information. Perhaps in the future, he would have the chance to deceive the Phoenix God Shrine into joining Dong Huang as a member of Bureau 12. After all, the other party worshiped the Undying Dark Phoenix, and he was the designated heir of the Undying Dark Phoenix!!

If the other party's faith was sincere enough, they would split the grave to save their mother.

"Moreover... a friend I know also contracted a phoenix bloodline pet, so he's also a little concerned about these aspects," Shi Yu said.

"I see," Ji Xiang said and nodded at Shi Yu. Although this Lu Bai looked a little sick, his strength and knowledge looked pretty good. He was worthy of Jie Yi.

Unfortunately, if it was the combination of Shi Yu and Jie Yi that the other party mentioned, it might be even more perfect.

But Ji Xiang also knew that that was unrealistic.

She didn't know his strength, but in terms of talent, that Shi Yu was definitely better than Lu Bai. Jie Yi probably couldn't come into contact with such a super genius protected by Dong Huang.

"Jie Yi, when are you guys getting married?" the Divine Master of the Phoenix Court asked.

"Pfft..." Old Ke and Zheng Hai almost spat out their tea.

"Cough." Shi Yu himself almost choked.

Holy shit, this legend of the Phoenix Court was even more direct than this witch.

The Phoenix Court's Jie Yi also coughed and said, "Teacher, how can progress be that fast? I still have an unfinished battle with Lu Bai. If I win, he's willing to date me."

Ke Yingzong and Zheng Hai: ???

The two of them opened their mouths wide and looked at Shi Yu. Holy shit, did someone really seduce him?

They suspected that Shi Yu/Lu Bai would deliberately lose.

Wait, they shouldn't even talk about whether it was intentional or not. The opponent was at least third place on the Seven Islands, a quasi legend. How could he dare to agree? Was he thinking that it wouldn't be a loss whether he won or lost?

"Is that so?" Ji Xiang was surprised. "Then when are you preparing to fight?"

The Phoenix Court said, "Anytime, but I can't agree to Lu Baijun's request. His bet is that if he wins, he wants the Phoenix Fruit cultivated by the Phoenix God Society."

Phoenix Fruit!

Upon hearing this bet, Ji Xiang's expression immediately became serious. She looked at Shi Yu and said, "You want our Phoenix Shrine's Phoenix Fruit?"

"It's not like it's something that can't be used as a bet, but what do you want it for?"

The Phoenix Fruit was a rare spiritual fruit that she had researched for ten years with a plant-type pet with the Phoenix bloodline and her own bloodline power. It could be called an "exclusive secret manual".

Not only could it give a specific human Phoenix bloodline, but it could also purify the racial strength of the Phoenix bloodline pet. It could be said to be the foundation of the Phoenix God Society. Even the witches here found it very difficult to obtain one.

"You probably don't want to become a hybrid Beast Tamer yourself, right?" Ji Xiang of the Phoenix Court looked at the sickly Shi Yu and said.

As long as a mixed-blood Beast Tamer could survive, their physical fitness, lifespan, and cultivation speed were a little stronger than ordinary Beast Tamers. Looking at Shi Yu's dead appearance, it wasn't impossible for him to have thoughts about mixed-blood bloodlines.

"How could that be?" Shi Yu smiled and said, "Miss Jie Yi has already told me the conditions to become a hybrid."

"I think if it's because a friend of mine has a pet with the bloodline of the Phoenix, I heard that the Phoenix Fruit is a rare resource to increase the bloodline of the Phoenix Race. I want to give one to her."

This saying was clearly more normal in everyone's ears.

"Her?" But soon, Jie Yi discovered the blind spot.

A woman?

She used "love" as a bet, but he was thinking about another woman?

Although she originally didn't have any emotional foundation for "Lu Bai" and only worshiped the strong, at this moment, the corners of the Phoenix Court's Jie Yi's mouth couldn't help but twitch. She clenched her fists and had the urge to beat Shi Yu up.

It was decided.

After defeating Shi Yu, she would date him for a day and immediately dump him to become a woman he could never have.

“Sure.” At this moment, Ji Xiang from the Phoenix Court nodded and said, “Alright, if you can defeat Jie Yi, I’ll give you a Phoenix Fruit.”

“Thank you.” Shi Yu was immediately excited when he heard that.

A Phoenix Fruit...

He wondered if Ling, Chi Tong, and Baby Ginseng could develop a replica through research.

After researching it, he would give it to Senior Lu. If the research failed, it would be fine.

“Then let’s fight now,” the Phoenix Court said. “The rules, double, is that acceptable?”

“Double?”

“Yes,” Jie Yi said.

Although she had contracted many pets, two of them were the strongest and had the best cooperation. At the same time, her Beast Taming Talent’s current limit was to stimulate the power of both pets at the same time. Therefore, the double rule was the most beneficial rule for her.

Chapter 614: Secret Art of Time (4)

Since she wanted to defeat Shi Yu, he naturally had to choose the rules that were most beneficial to her.

“Sure.” Shi Yu nodded.

“Is it really alright?” Zheng Hai looked at Shi Yu. Double... He didn’t seem to know about “Lu Bai”’s other pets apart from his ice-element pet.

Senior Ke also looked at Shi Yu and judged that Shi Yu probably wanted Mu Huiyin’s heroic spirit to fight...

In the form of that “bird spirit”, it could also be said to be a “bird spirit”.

Although that form didn’t have any characteristics of a sword spirit, it actually still had some characteristics of the Phoenix Race. Was it alright...

....

As Shi Yu was going to fight the Phoenix Court, the Phoenix Shrine immediately prepared the venue.

The venue was set in the divine vision domain of the shrine. This venue was turned into a battle venue domain with a divine gaze, representing absolute fairness.

Among the witches of the Phoenix Court, Jie Yi was the one with the most outstanding experience and strength. She was the senior of all the witches here and the only one who had been accepted as a disciple by the legend of the Phoenix Court.

The fact that she was fighting an outsider in the Divine Vision Domain immediately attracted all the witches to watch the battle. This was also a tradition. The battle of the Divine Vision Domain required the witches to watch as representatives of gods.

“Ah... How nice.” In the Divine Vision domain, Zheng Hai looked at the eight Phoenix Witches around him and sighed. This Phoenix God Society was much better than his Binhai Dao Field.

If his training hall apprentices also changed from ugly fishing youths to water dancers wearing gorgeous swimsuits, their hair tied into a bun, and wearing various beautiful head accessories... The training hall might be able to have more funds for pet cultivation...

“Senior Jie Yi wants to fight...”

“I know who her opponent is. It’s that Beast Tamer from Dong Huang who passed the champion path.”

“It’s said that the Thousand River Hundred Gods, Mr. Shen Dai, and the overlord of the Crown Rainbow Mountain Range couldn’t even last one move against him...”

“Stop discussing. The Divine Master is also here. Hurry up and tidy your appearance and sitting posture.”

The group of witches whispered to each other and discussed softly. They were all mixed-blood Beast Tamers with the bloodline of the Phoenix. Their strength ranged from the trainee level in their teens to the professional level and master level in their twenties.

Coupled with the red and white witch clothes, their young and beautiful faces, as well as their red hair, white hair, red and orange eyes... They were very dazzling.

At this moment, they were extremely curious. Not only were they curious about the recently rumored Beast Tamer of Dong Huang, Lu Bai, but they were also very curious about the outcome of the battle between him and Senior Jie Yi.

“Let’s begin.”

In the Divine Vision domain, the Phoenix Court’s Jie Yi, who was wearing a witch suit, looked at Shi Yu calmly and took a deep breath. To be honest, the pressure Shi Yu gave her was still very high.

If she were to participate in the challenge of the path to champion, her results might not necessarily be better than Shi Yu’s. She might even lose to the ninth level and lose to the number one person below the legendary level, Shen Dai.

However, she still wanted to fight. She was betting that Shi Yu was only strong in one-on-one battles, but if he played doubles, his strength would gradually decrease. There were many such Beast Tamers who specialized in the cultivation of a certain pet, and they even only cultivated one pet. It was very common.

For example, the current legendary Valkyrie of the Seven Islands had only contracted one pet, but who could say that she wasn't strong? One person and one pet could display the strength to crush top-notch totems. No one on the Seven Islands could defeat her.

"Alright." Shi Yu nodded.

In the Divine Vision domain, the Divine Master Phoenix Court's Ji Xiang, Dong Huang's Ke Yingzong, Zheng Hai, and the others were also paying attention to the battle between the two people below like those witches.

There shouldn't be a problem...

Seeing Shi Yu's calm appearance and Shi Yu's previous battle results, Senior Ke and Zheng Hai nodded. There was definitely no problem!

Soon.

After looking at each other, Jie Yi directly summoned her pet!!

"I set the rules. According to tradition, I'll send out my pet first." Her sleeves fluttered, and a black summoning array appeared in front of her. On the array was a dazzling red light, and a fiery aura spewed out. A huge tree slowly appeared.

This was a huge tree that enveloped the arena after appearing. It was 20 meters tall. It had brown branches, green leaves, and fiery red flowers. The flames ignited by the flowers burned half the sky red. It was beautiful. In the flames, a huge red bird appeared and landed on the huge tree. Its entire body was also burning with flames. Its phoenix feathers were like flames as it stared at Shi Yu with a bright and dignified gaze.

"The leaves are the feathers of a flying phoenix, the flowers are the crown of a phoenix. My pets are the Phoenix Fire Tree and the Undying Fire Phoenix. It's your turn."

After summoning the two powerful monarchs, Jie Yi looked at Shi Yu calmly.

"It's so beautiful."

At this moment, Zheng Hai looked at the fiery red arena and the Undying Phoenix that landed on the Phoenix Fire Tree. His eyes were lit up by the flames.

"It doesn't look like much now, but this Phoenix Court is a quasi legend. After using the Beast Taming Talent, the two pets should become very strong..." Zheng Hai analyzed.

Even if it was a strengthening talent that had never been developed, it was not difficult for a level-seven Beast Tamer to increase the pet's energy level by ten million.

If it was some special talent, it would probably increase even more.

Moreover, Jie Yi of the Phoenix Court was a hybrid. Moreover, her pet and her bloodline were the same. Who knew what bonuses there would be?

Chapter 615: Secret Art of Time (5)

“Are they all pets with the Phoenix bloodline?” When Shi Yu saw this, he said regretfully, “You’ve already lost.”

“What do you mean?” As Shi Yu finished speaking, the expression of the Phoenix Court’s Jie Yi changed. What a joke.

Was he humiliating her?

However, in the next moment, it was indeed the Phoenix Court that was shocked and realized the life and death crisis.

No, even the expressions of the surrounding witches and the legend of the Phoenix Hall, the Divine Master of the Phoenix God Shrine, changed drastically.

A huge purple array appeared in front of Shi Yu. Then, cold air condensed in the sky.

Seeing this change, the Phoenix Court thought of the ice-element pet immediately.

The first pet Shi Yu summoned was indeed Susu.

However, it was still Susu’s mimicry!!

This time, Susu wasn’t in a humanoid form anymore. Of course, it wasn’t an Ice Slime either. Instead, through enlarging, it enlarged into the form of an Ice Phoenix that was even larger than the Phoenix Fire Tree!

The extreme cold cut through the sky filled with flames, almost freezing the entire battlefield. As the cold rose, the ice mist gradually faded, revealing a huge figure.

It had beautiful blue feathers, and its wings seemed to be made of ice.

On its head was a crown made of three dark blue prismatic ice crystal feathers, making it look like a king had descended.

As the colorful flag-shaped long tail fluttered, snow lingered, forming a confrontation with the pet summoned by the Phoenix Court.

This wasn’t the reason why everyone’s expressions changed drastically. This was just a very ordinary ice elemental mimicry. There was nothing strange about it. However, as a bird spirit wrapped in cold blue ghost flames flew out of the black summoning array, it flew and fused with the huge ice phoenix, causing its ice crystal wings, ice crystal crown, and ice tail to ignite the ice blue extreme cold flames. A terrifying deterrence erupted from the pet, shocking everyone!!

The Time Fruit was activated.

Because of possession, Chi Tong and Susu enjoyed the enhancement of the Time Fruit at the same time and arrived at the overlord level together.

It was equivalent to the overlord-level Chi Tong and the overlord-level Susu.

At the same time, due to the existence of Chi Tong's scapegoat, the explosive burden they suffered was all borne by the scapegoat.

Boom!

Right on the heels of that, with Chi Tong's mental strength as the main body, it reached perfection and displayed the might of a phoenix!

This was Phoenix Might.

Just like the supreme might of a dragon, the might of a phoenix was the bane of a hundred birds.

In a battle between races, the deterrence level was important. This was a decisive skill.

Just like how Xia Qingwei's Ice Phoenix Moth couldn't develop battle awareness when facing Buggy's perfect-level deterrence back then.

At this moment, the deterrence level of the Phoenix Fire Tree and the Undying Fire Phoenix, which were far from transcendent, instantly constricted in the face of Chi Tong and Susu's combination skill, revealing incomprehensible shock.

Chi Tong and Susu combined profundities.

The dignity of the Ice Phoenix King.

Boom!!!

It wasn't just these two pets. At this moment, as Chi Tong and Susu erupted, the dignity of a king of the overlord-level Phoenix Race was revealed. Even the witches with the phoenix bloodline like Jie Yi also felt a bloodline suppression that was even more terrifying than ordinary deterrence.

In an instant, sweat flowed down the forehead of the Phoenix Court's Jie Yi before quickly freezing into ice crystals. The deterrence from her bloodline directly made her feel like she had fallen into an ice cave. Her body, spirit, will, and soul seemed to have been frozen and shattered by this Ice Phoenix King at this moment.

"Jiu!!!!!!"

Now, the Phoenix Fire Tree and the Undying Fire Phoenix, who were facing Chi Tong, Susu, and the others' joint deterrence "bullying strategy", didn't even have the strength to resist before their consciousness instantly disappeared. Even at this moment, their Beast Tamers didn't have time to use their Beast Taming Talent to increase and strengthen them.

The Phoenix bloodline indeed allowed the Phoenix Court to have talent that exceeded ordinary Beast Tamers, but it also allowed her to obtain some weaknesses that ordinary Beast Tamers didn't have. For example, when she encountered a phoenix pet with a very high deterrence level, she would instantly lose the ability to resist and the will to fight. In nature, unless she had the will of an overlord, it was very difficult for creatures to cross this kind of suppression that came from the bloodline and level of their own race. This was also one of the reasons why Shi Yu was unwilling to become a hybrid.

Boom!!!

Under the strong deterrence, the Undying Phoenix directly fell from the sky and fell heavily to the ground. The flames ignited by the Phoenix Fire Tree also quietly extinguished, and the domain was silent.

The Phoenix Court's Jie Yi blacked out and fell forward in shock. She half-knelt on the ground and forcefully supported her body. Her mind was incomparably confused.

How was this possible...

What happened...

She... They...

They were actually scared out of their minds by this Lu Bai's pets' deterrence skill?

"Jie Yi!" At this moment, the Divine Master of the Phoenix Divine Shrine, Ji Xiang of the Phoenix Court, suddenly stood up. At the same time, sweat flowed down her forehead. She also looked at the huge Ice Phoenix in shock and confusion. In an instant, she actually felt that her trump card, the Phoenix Pet, seemed to be only so-so in front of this Ice Phoenix.

She looked at Lu Bai in the domain in disbelief.

She suddenly understood why Mr. Shen Dai, the number one person below the legends of the Seven Islands, and that Heavenly Cloud Tiger couldn't withstand a single move from him.

This guy was a monster.

Not only was his ice-element pet ridiculously strong, but the mysterious bird spirit just now, the bird spirit that burned with the Ice Blue Ghost Fire, was also ridiculously strong. Its strength was definitely not weak. After all... it had transcendent deterrence!! Even her pet had yet to master it.

Chapter 616: Secret Art of Time (6)

Moreover, that deterrence wave couldn't be wrong. That was the Phoenix Might. Only pets with the Phoenix bloodline could show the special deterrence that countered hundreds of birds.

This guy had also contracted a pet of the Phoenix Race. Was it that ice-element pet or that bird spirit?? Could the real race of that ice-element pet be the ice-element phoenix? Could that bird spirit have been a phoenix when it was alive? For a moment, Ji Xiang was a little confused and kept guessing.

"Senior Phoenix Court, with this... I won, right?"

At this moment, in the arena, Shi Yu stretched out his hand. The Ice Phoenix King in the sky slowly shrank to the size of a sparrow that Chi Tong had when it just appeared. It landed in Shi Yu's hand in the possession form of an ice-blue mini phoenix.

If Susu was in this state, even if it didn't rely on assassination, it could still fight the overlord tiger head-on for a few rounds and suppress the other party during this process!

Even Eleven would probably be quickly suppressed by the Chi Su combination in this state. It couldn't be helped. It was shameless to use the Time Fruit in a 2v1.

"You..." Ji Xiang from the Phoenix Court still found it unbelievable. She only felt that Shi Yu was talking nonsense. She glanced at the half-conscious Jie Yi from the Phoenix Court and at the surrounding audience. Although they weren't unconscious, they were seriously shocked. She felt that this Lu Bai was extremely ridiculous, because even her heart was thumping just now.

Ji Xiang of the Phoenix Court looked at the disciples of Legend Ke and Tyrannical Sea Legend. What made her silent was that even the two companions of "Lu Bai" had their mouths slightly agape, as if they were very shocked by the scene in front of them.

In other words, even his companions didn't know how strong this guy's true strength was.

"You win..." Ji Xiang of the Phoenix Court said. At the same time, she sat down again and said to the two people beside her,

"With such strength, is he really just a top-notch master?"

Even the two legendary new generation geniuses of the Seven Islands... In the opinion of Phoenix Court, she felt that they were slightly inferior to Lu Bai in that state just now.

"This..." How could Legend Ke know that Shi Yu was also so fierce? He didn't see the energy value that erupted in an instant just now, but it definitely far exceeded ordinary overlords.

In addition, Shi Yu didn't want to pretend anymore. This time, Shi Yu and Lu Bai both had undead with the Phoenix bloodline. What if they were associated with it? Although... The power system and undead form were still different, and the Phoenix undead wasn't a unique pet in Dong Huang, Legend Ke still didn't know what Shi Yu was thinking.

In fact, Shi Yu didn't use his full strength in the battle just now. Otherwise, the mental impact could even destroy the enemy's spirit. At this moment, only a moment later, the Phoenix Court's owner woke up in a daze. Then, she recalled in extreme confusion. In the end, she was stunned on the spot.

She instantly recalled the scene of her and her pets falling into the other party's deterrence without any resistance. Then, her face turned pale.

How was this possible...

She dragged her heavy spirit and looked at Shi Yu, who had retracted his pet. At this moment, Shi Yu also looked at her in embarrassment and said, "In that case, thank you for the match."

"That's Phoenix Might, your pet has the Phoenix bloodline. Is the friend you're talking about yourself?" Jie Yi asked.

Perhaps there was a possibility that "Lu Bai" wanted to give the spiritual fruit to her after winning the Phoenix Fruit and give it to her as a gift to the Phoenix Court.

Shi Yu: "?"

What kind of strange focus was this?

“Hahahaha, we came at the wrong time.”

Just as the battle ended, the witches covered their foreheads with shocked expressions. Outside the Divine Vision Domain, two people slowly walked over from the outside world. At the same time, a laughing old voice sounded.

It was an old man with sunken eyes, no hair, a walking stick, and a face filled with wrinkles. Beside him was a female researcher. Like Shi Yu, she looked sick. She was wearing a white coat, her brown hair was casually scattered, and her eyes were listless. She was about 40 to 50 years old.

When Jie Yi saw the two of them, her expression changed slightly.

“President of the Island. Legend Xiao Yuan,” she said to the two.

“Hehehe... I believe these are the guests from Dong Huang, right?” The old man raised his head and looked at Shi Yu and the others. “I am Yuan Yi of Temple Island, the president of the Beast Tamer Association of Red God Island. Welcome to Red God Island.”

“Divine Master of the Phoenix Court, please don’t mind my sudden disturbance.”

Ji Xiang’s expression didn’t change. “Of course not.”

When the two of them arrived, Senior Ke Yingzong’s gaze landed on the female researcher.

The female researcher also looked at Ke Yingzong and said, “Senior Ke, long time no see.”

“Long time no see,” Ke Yingzong said in surprise.

These two people probably didn’t come just to welcome them.

The president of the Red God Island Association was a legendary Beast Tamer, and this Legend Xiao Yuan was an archeologist of the Seven Islands. He was one of the few top archeologists on the Seven Islands who had the ability to listen to the Voice of History.

On the Seven Islands, there might not be five Beast Tamers with the listening talent, so this Legend Xiao Yuan had a very high status on the Seven Islands.

As a legendary archeologist, Ke Yingzong naturally knew the other party.

“President of the Temple Island, Legend Xiao Yuan, why are you here?” the Phoenix Court Legend said.

“Hahaha.” The president of the temple island laughed and said, “Look at what you’re saying. Of course, we’re here to see our honored guests from Dong Huang. I heard that Dong Huang’s Legend Ke, the disciple of the Tyrannical Sea Legend, Zheng Hai, and the super genius, Master Lu Bai, who passed the path of the champion, are going to visit the Phoenix God Shrine. As landlords, we naturally have to visit some.”

Chapter 617: Secret Art of Time (7)

“It’s rare for Legend Ke and the others to come over. I called Legend Xiao Yuan over to communicate. Everyone can gain more.”

“Also, from the looks of it, was there a battle just now??” The president of the island looked at “Lu Bai” and the Phoenix Court standing on the arena. Seeing that their faces were pale, he asked despite knowing the answer.

Ji Xiang from the Phoenix Court chuckled in her heart. They were probably worried that Jie Yi wouldn’t act according to the mission and wouldn’t be able to keep “Lu Bai”. Probably, they were even more afraid that the Dong Huang exchange team would really obtain some benefits in the Phoenix Mystic Realm, so they came to supervise.

Although the Phoenix Mystic Realm was protected by the Phoenix Divine Palace, just like Dong Huang, the Seven Islands also had relevant rules. The ownership of the ruins mystic realm in the country belonged to the country, so the Phoenix Mystic Realm was not the personal property of the Phoenix Divine Palace. At most, the Phoenix Court’s Ji Xiang could get more resources as the discoverer and guardian. Over the years, the other factions of the Seven Islands also wanted to get a share of the Phoenix Mystic Realm. Unfortunately, the Phoenix Mystic Realm was not so easy to crack.

As for the Phoenix Mystic Realm, it was also located on Red God Island. Therefore, if the mystic realm was cracked, the Red God Island Association would naturally be the greatest beneficiary. In this situation, knowing the bet between the Dong Huang exchange team and the Seven Islands Association, how could the president of the Red God Island Association sit still? He was afraid that the Dong Huang exchange team would crack the Phoenix Mystic Realm and take all the resources away, or that they couldn’t crack this and lock onto the other ruins mystic realms of the Red God Island. In that case, he didn’t know if the Phoenix Association would suffer a loss, but the Red God Island Association would suffer a huge loss.

He had to think of a way to lure them to other islands!

“Lu Bai and Jie Yi fought, but from the outcome, it seems Jie Yi’s cultivation isn’t good enough,” Ji Xiang said.

Below, Jie Yi of the Phoenix Court also didn’t expect the difference between her and Lu Bai to be so huge, to the point where it was unimaginable.

Unless her pet broke through to overlord as soon as possible, she might not be able to cross this gap.

“Did Jie Yi lose?” The president of the island was silent.

“But from the looks of it, Dong Huang’s guest hasn’t started exploring the Phoenix Mystic Realm.”

“Yeah.” Shi Yu looked at the old man, wanting to see what he was saying.

President Shi said, “There’s nothing to explore in this lousy mystic realm.”

Ji Xiang and Jie Yi of the Phoenix Court: ???

“It’s almost been studied by the Divine Master of the Phoenix Court. One needs to have ‘mixed blood’ to be qualified to cause changes in the mystic realm. Moreover, it’s only a mere change. It’s very difficult to crack it. It requires a very high concentration of bloodline. I’m afraid it’s already difficult to achieve in

this era. I know that there's an unsolved legendary ruin on Star Sea Island with a long history. Its exploration value is extremely high."

"Legend Xiao Yuan beside me has explored that place before. She might be able to give you some advice."

Shi Yu, Legend Ke, and Zheng Hai : "..."

This old man was very bad.

Wasn't it just because they didn't want them to explore the ruins mystic realm on Red God Island? It was too obvious!

Legend Xiao Yuan pushed up her glasses. To be honest, she didn't want these guys from Dong Huang to obtain benefits from any of the Seven Islands' ruins. It was the same for Red God and Xingye.

If the ruins and mystic realm of the Seven Islands were dug away by the archeologists of Dong Huang, she was very worried that she would do something rash.

"By the way." Suddenly, Shi Yu in the crowd said, "The Phoenix Mystic Realm should be in the back mountain of the divine temple, right?"

"What's wrong?" Legend Xiao Yuan looked at this beautiful young man with hair, pale face, and weak tone. She wanted to punch him to see if he could fall.

This was Dong Huang's genius who had swept away the path of champion.

The world was really big, and there were all kinds of strange things.

"When I was fighting just now, I seemed to feel that something was calling to me. It seemed to be the Phoenix Mystic Realm. The bet agreement has already taken effect, and the time has already started. If I crack the Phoenix Mystic Realm, the resources inside will all be mine, right?" Shi Yu pretended to be in deep thought. With one hand as a palm and the other as a fist, he patted gently and looked up.

Phoenix Court Ji Xiang, Phoenix Court Jie Yi, the many witches, the president of Temple Island, Legend Xiao Yuan: ???

What did he say? Did he faint from exhaustion? What was he thinking? The mystic realm was calling him?

Senior Ke widened his eyes. Was it coming? Had he sensed it?! That secret time power history thing?

Zheng Hai blinked, confused.

Chapter 618: One Mythical, Two Legendaries (!)

Shi Yu suddenly spoke, making everyone look at him.

The Phoenix Mystic Realm was calling him?

What a joke!

“What do you mean?”

The Divine Master of the Phoenix Court stood on the high platform with a burning gaze.

Legend Xiao Yuan, an archeologist from the Seven Islands, also frowned and looked at Shi Yu.

What nonsense was this guy talking about?

Did he think he had a listening talent? The mystic realm was calling it?

“What did you hear?” Legend Xiao Yuan asked.

“It’s also possible that I’m dizzy from exhaustion. I got a little absent-minded.” Shi Yu shook his head slightly.

To be precise, it seemed to be calling Chi Tong.

After sending Chi Tong out to fight just now, the mystic realm in front was even more attractive to Chi Tong.

This attraction, in Chi Tong’s strange metaphor, seemed to be like that show “Little Tiger Returning Home”, or “The Temptation to Go Home”.

In any case, there was definitely something from the bloodline that attracted Chi Tong in the mystic realm.

Everyone : “...”

“Senior Phoenix Court, I won the battle, right?”

At this moment, Shi Yu stopped thinking about the mystic realm and repeated the battle results.

Upon hearing Shi Yu repeat it a second time, Ji Xiang’s expression darkened.

There was no need to repeat it so many times!

“I understand.”

Ji Xiang immediately understood what Shi Yu meant and waved at Shi Yu with an unfriendly expression.

In the next moment, a Phoenix Fruit in her spatial equipment, a special fruit that looked like a Phoenix Pear but had red skin and leaves, flew towards Shi Yu.

Shi Yu directly raised his arm and caught the Phoenix Pear... Phoenix Fruit with one hand. He scanned it through the third index, which was the invisible lens in his eyes.

There was no information.

However, it could be judged by the energy level. It was a level-seven resource.

It was filled with the power of fire.

Even if she wanted to give it the Phoenix bloodline, she would probably make it to the Fire Phoenix bloodline, just like the Phoenix Court, so she was a fire-element pet.

At the same time, even if it could increase the strength of the phoenix pet bloodline, it had to be from the fire-element phoenix race.

As for Senior Lu's Green Phoenix, it was wind-element. It looked like if she couldn't develop a mutation, it was useless.

For Chi Tong, there was no need for this thing. After all, Chi Tong's bloodline was top-notch even in the Phoenix Race.

Apart from divine-level bloodlines, Chi Tong's bloodline was the highest level. This thing naturally couldn't have any effect on Chi Tong.

"This is..."

At this moment, the president of the Red God Association and Legend Xiao Yuan, who he had invited, were immediately stunned when they saw the fruit in Shi Yu's hand.

He quickly understood that there was most likely a bet in the battle just now.

As for the winning item of Shi Yu's battle, it was the core resource of the Phoenix God Shrine, the Phoenix Fruit.

[Lost again...] At this moment, after confirming that the number three of the Seven Islands World Tournament had also lost to "Lu Bai", the president of the island and Legend Xiao Yuan were a little silent.

Although this was very normal. After all, if they fought with all their might, the Phoenix Court Jie Yi might not necessarily win against the Demon Blade God Generation, but battles couldn't be generalized like this. After all, fire countered ice. It was very normal for different Beast Tamers to have different wins and losses.

And now, apart from the two legendary contestants of the Seven Islands, "Lu Bai" had tortured both the older and new generations. This was undoubtedly a huge blow to the Beast Tamers of the Seven Islands.

"Thank you, I'll take it." At this moment, Shi Yu smiled. He directly put away the Phoenix Fruit through the ruins space. With his current trump cards, he didn't mind showing his spatial equipment.

At the same time, he looked in the direction of the back mountain of the Phoenix Shrine and said, "Next, can we take a look over there?"

"I keep feeling that there's something I care about."

"Next, we want to take a look at the Phoenix Mystic Realm," Ke Yingzong said.

Regarding this request, the president of the temple island, Legend Xiao Yuan, and the Divine Master of the Phoenix Court were silent.

Usually, they were naturally unwilling to let outsiders explore the unsolved mystic realm protected by the Seven Islands.

However, the Seven Islands Association and the Dong Huang Association had signed a bet contract. At this moment, they had no right to stop Dong Huang from exploring the ruins mystic realm of the Seven Islands.

“Of course,” the Phoenix Court God said.

“He really won’t give up until the end,” the president of the island said with a headache.

Damn Dong Huang, obediently go to the next island and explore any other island.

Although he didn’t think that the Dong Huang exchange team could crack the Phoenix Mystic Realm, President Shi was still unhappy.

It was as if his girlfriend was being peeked at.

“Jiyi, prepare to enter the Divine Realm,” Ji Xiang said.

“Yes, Teacher.” At this moment, Jie Yi had already recovered from the deterrence. Her mind gradually calmed down, but she still felt a lingering fear as she looked at Shi Yu with a complicated expression.

This “Lu Bai” was stronger and much more terrifying than she imagined.

He had more than one legendary powerful pet. Apart from the legendary ice-element pet, he also had at least one other pet that was very terrifying and could fight against overlords.

At this moment, Jie Yi understood why the higher-ups and teachers of the Seven Islands wanted her to befriend “Lu Bai”.

At the same level, even the two legends from the Seven Islands might not necessarily be Lu Bai’s match.

For such a genius, legendary level was only inevitable.

This terrifying Beast Taming strength was like an unreachable throne. It was probably very difficult to conquer him from the Beast Tamer perspective.

[Perhaps he’s really not interested in me.]

Jie Yi thought a lot in an instant, and then a will to not admit defeat appeared.

Chapter 619: One Mythical, Two Legendaries (2)

As Shi Yu put away the Phoenix Fruit and looked at the Phoenix Mystic Realm again, the Phoenix Court’s Jie Yi woke up.

At the same time, she had a strong hostility towards the female friend with the phoenix bloodline that Shi Yu mentioned.

So, the reason why this “Lu Bai” was not interested in her was because there was another female Beast Tamer who was better than her and stronger?

Who was it...

....

Divine Realm.

It was where the Phoenix Mystic Realm was.

After the Phoenix Court's Jie Yi recovered, she brought thousands of thoughts and the other witches who had yet to recover from their shock to lead Dong Huang and the others, as well as the president of Temple Island, to the back mountain of the Phoenix Divine Temple to visit the Phoenix Mystic Realm.

Even the ground was red.

Not to mention the fiery red spiritual plants all over the mountain.

This was indeed a holy land for phoenix pets, especially fire-element phoenix-type pets.

"Actually, the entire back mountain is the Phoenix Mystic Realm."

After arriving, the Divine Master of the Phoenix Court said calmly.

"Back then, I accidentally entered the Phoenix Mystic Realm here. At that time, this place was still an ordinary green forest, but after time passed, the environment had already been turned into this by the mystic realm after a long time."

She looked at everyone and said, "Let's go."

"I've actually always been curious about something," Ke Yingzong said. "Legend of the Phoenix Court, did you hear or see some strange voices and scenes when you accidentally entered the Phoenix Mystic Realm?"

"According to what I know, you also have a telepathy talent."

The special use of the telepathy talent was not a secret among legends.

Upon hearing this question, Ji Xiang from the Phoenix Court smiled. "You mean the listening talent? Unfortunately, I don't know either."

"Because before I entered the mystic realm, I fainted. When I woke up, I was already in the mystic realm. From what I know, my talent has never shown anything special."

"It's all because you're too obsessed with the Phoenix Mystic Realm." Legend Xiao Yuan chuckled and said, "If you want to become a top archeologist, you have to learn universal love. If this mystic realm ignores you, then change your research."

"A person like you won't understand," the Divine Master of the Phoenix Court said coldly.

As the legendary big boss spoke, the group of witches beside him didn't dare to interrupt.

"Heh heh." Legend Xiao Yuan shook her head and looked at Shi Yu, who was in deep thought, confused, weak, and surprised. "Kid, your expression changes quite a lot. Do you want to say that you heard something again?"

Shi Yu looked at the “members of Bureau 11” of the Seven Islands and shook his head.

At this moment, Chi Tong could already confirm that it had already overlapped with the mystic realm.

However, at this moment, Chi Tong didn’t feel how it should open the mystic realm.

As for the mystic realm, he didn’t take the initiative to open it either.

What should he do next...

Shi Yu was thinking about this.

“Then what about you, Senior Ke?” Legend Xiao Yuan chuckled and said, “You’re a senior in the archeological world. Have you thought of any other ways to open the mystic realm apart from relying on the key of the Phoenix hybrid?”

Senior Ke smiled and said, “Aren’t you asking the obvious? For ruins mystic realms with exact rules, following the rules is the only way. Apart from that, it’s to crack it violently, but this clearly won’t work. This looks like a very high-level mystic realm.”

“Moreover, even if we open the Phoenix Mystic Realm, it’s useless.” The Divine Master of the Phoenix Court had a calm expression.

“Because this is an inheritance-type ruins mystic realm. The interior of the mystic realm is filled with endless flames. The deeper you go, the more pain from the burning of the bloodline. Therefore, even if the mystic realm is opened, as long as there aren’t enough rich phoenix mixed bloods, you can’t take away the core resources,” Ji Xiang said.

This was also why she had been researching how to increase her bloodline and try her best to create a phoenix hybrid.

It was so that after the mystic realm opened, she could enter the core area of the mystic realm one day.

“Hahaha, Legend Ke, did you hear that? This kind of ruins mystic realm with clear cracking rules is the most difficult.” The president of the island shook his head and said.

As he listened to everyone’s conversation, Shi Yu gradually had an idea.

Hu hu hu hu ~ ~

Hu hu hu ~ ~

Just as the president of the temple island finished speaking, Shi Yu raised his hand. A purple summoning array appeared in his palm. Chi Tong, who had been summoned in the battle just now, landed on the back of Shi Yu’s hand in the form of a blue bird spirit filled with ice-blue ghost flames.

“Jiu ~” Chi Tong shook its hair and looked around.

Seeing Shi Yu suddenly summon his pet, everyone looked over again.

Especially the witches of the Phoenix God Shrine and the legendary Divine Master of the Phoenix Court, who looked at the blue bird spirit solemnly.

Even Zheng Hai widened his eyes and sized up the bird spirit.

This was... the pet that had possessed the Ice Phoenix just now.

Although the feeling it gave was that its aura wasn't strong, and from its appearance, it was only so-so, everyone knew that this was only its appearance.

This pet was definitely very strong.

"Jiu Jiu Jiu ~ ~" Suddenly, Little Chi Tong, who was summoned by Shi Yu, cried out helplessly.

Under Shi Yu's request, it cried out helplessly.

The Divine Master of the Phoenix Court and Legend Xiao Yuan wanted to hear what it was calling.

Because they had the gift of telepathy, they realized that this bird spirit had sealed its mental fluctuations and didn't want them to hear it.

Chapter 620: One Mythical, Two Legendary (3)

Damn it, encryption? Was it something embarrassing?

"Jiu ~ ~ (Mom, I'm back. Open the door!)"

"Jiu ~ ~ (Mom, open the door!)"

At this moment, everyone looked at Shi Yu, who had suddenly summoned the blue bird spirit who started to cry. They were confused.

Only Shi Yu suddenly revealed an extremely abnormal expression.

Because he had already clearly sensed the feasibility of doing this.

Just as everyone from the Phoenix Shrine, the two legends, as well as Zheng Hai were extremely stunned, the world suddenly changed.

Shi Yu's mouth opened slightly and he said silently to himself... "Exactly as planned."

Boom!!!

With a bang that was like a volcano erupting, the entire ground of Phoenix Mountain suddenly cracked, making Ji Xiang's expression change drastically, and also making the expressions of every witch in the Phoenix Divine Temple change drastically.

Hu!!!

In the cracked ground, space overlapped, and fiery red light spread, emitting a shocking heat.

The rumbling wave instantly made the entire mountain collapse. The shock wave emitted by the mountain even spread out with a bang, causing a strong vibration in the huge area with the Phoenix God Shrine at the center!!

Earthquake!!

Boom, countless buildings in the Phoenix God Society collapsed, making the witches open their mouths wide. It also made Ji Xiang and the Phoenix Court open their mouths wide.

The shrine... collapsed?

The president of the island and Legend Xiao Yuan were even more stunned. Of course, the most stunned at this moment was still Zheng Hai, who didn't react at all. His gaze was stunned and his expression was blank. On the other hand, Senior Ke, who was beside him, couldn't bear to look at it. He didn't expect the descent of the Phoenix Mystic Realm to be so big.

This was going to be difficult.

"What happened!!!" The violent change shocked the president of the Island and Legend Xiao Yuan.

In the next moment, everyone here felt the gradually rising heat. This heat further made everyone's expressions change.

"Yes, the Phoenix Mystic Realm and reality have overlapped!" Ji Xiang was the first to discover the change and immediately said with a shocked expression.

"What?" Ji Xiang's words also shocked the Witch Sect, President Shi, and the others.

At the same time, in the outside world, although the Phoenix God Shrine was located in a remote area, due to the huge fluctuations of the descent of the mystic realm, the entire Phoenix Mountain had already become a burning cloud.

As strong energy fluctuations and vibrations, as well as the red phenomenon in the sky, many Beast Tamers from the Seven Islands in the distance could see the shocking change from the Phoenix Divine Temple as long as they raised their heads. Their gazes were stunned. After being stunned, they quickly rushed in the direction of the change.

Including the headquarters of the Red God Island Association, they immediately detected this energy wave that exceeded 100 million, like a powerful energy reaction of a totem descending.

On Phoenix Mountain, flames rose.

Now, the area where Shi Yu and the others were was already covered in flames.

Of course, this place had just entered the range of the mystic realm. It was the outermost flame, so it couldn't hurt everyone yet.

The most terrifying thing was the energy fluctuations and temperature coming from the core area of the Phoenix Mystic Realm at the top of Phoenix Mountain.

That was where the core resources of the Phoenix Mystic Realm were.

As the Phoenix Mystic Realm descended, the Divine Master of the Phoenix Court, Legend Xiao Yuan, and even the president of the island were stunned for a moment before quickly reacting.

Among them, the archeologist of the Seven Islands, Legend Xiao Yuan, directly summoned a huge black crow. Lightning flickered on the crow's body. Legend Xiao Yuan directly leaped up and headed straight for the core resource.

"This wave can't be wrong. At least two legendary-level resources, and even a Mythical-level resource!!"

Legend Xiao Yuan shouted in her heart, but as she approached the core area of the Phoenix Mystic Realm, the heat wave that erupted with a bang was like the rising sun in the core area of the sun. A terrifying power that even totems, no, even top-notch totems, feared greatly suddenly made Legend Xiao Yuan and her Thunder Crow, who were charging straight for the core resource, feel only a trace of threat. Their pupils immediately constricted and they gave up advancing.

The aftermath of the rising power directly sent them flying.

"Idiot!" Seeing this, Ji Xiang of the Phoenix Court in the distance cursed coldly. She remembered that she had reminded them that the core of the mystic realm was not something ordinary Beast Tamers could approach at all.

Only a phoenix hybrid could avoid burning. No, even if it was a phoenix hybrid, if its compatibility with this mystic realm was insufficient, it would still be blocked.

She was like this back then.

She couldn't obtain the three most precious resources at the core of the mystic realm no matter what.

"Jiu—" With a scream, the Thunder Crow, whose hair was almost burned, and Legend Xiao Yuan, who was on its body, landed on the spot miserably. Legend Xiao Yuan relied on her etherealization ability to dodge a life-and-death crisis. However, even space was directly burned just now, directly pushing her to the gates of hell.

"Damn it!!" Legend Xiao Yuan also cursed in a low voice. She couldn't tolerate the disappointment of being unable to take away Mythical and legendary resources in front of her.

"That temperature is very difficult to pass even for totem-level, no, even top-notch totems. Don't act rashly," the Phoenix Court Divine Master said.

The owner of this mystic realm was definitely a demigod-level existence. She was very sure.

"What exactly is going on!!" The president of the island was stunned and pleasantly surprised. He was pleasantly surprised that the Phoenix Mystic Realm had actually opened. He was stunned that he didn't know how it opened.

Of course, there was also shock. Seeing the miserable state of Legend Xiao Yuan, he immediately knew that the resources of this ruins mystic realm were not so easy to obtain.
