

## Beast 631

### Chapter 631: Releasing the Beast Shi Yu (5)

"I believe that the Seven Islands won't betray the Seven Nation Alliance."

"However, Legend of the Warring States, please seriously investigate the situation of your country's Ke Yuan Financial Group and whether they colluded with the totem country."

The Warring States Legend sighed and said, "I will. If a traitor appears internally, we will definitely punish him severely and give Dong Huang and Dragon Palace City an explanation."

"Explain!!!" The Dragon Palace City Lord, the Sea Dragon King, who had come to claim compensation this time, said, "That's easy to say. Can your Seven Islands afford the loss of a totem invasion!!!"

"Based on the losses in Dragon Palace City..."

"This matter won't end without ten legendary or one Mythical resource!"

Legend of the Warring States, Red God, and many legends of the Seven Islands: ???

Damn, how could they ask for so much!

The legend of the Warring States said with a dark expression, "After investigating the matter, we will naturally give Dragon Palace City a reasonable explanation."

In order to appease the Dragon Kings in Dragon Palace City, he didn't directly refuse, but he didn't agree either.

In short, if he really found out something, it had nothing to do with him either!

The Keyuan Financial Group was one of the ten largest financial groups on the Seven Islands and had a rich family background. If there was really a traitor inside, the Keyuan Financial Group would definitely confiscate it. At that time, they would directly compensate from the Keyuan Financial Group!

Now, the only thing the legend of the Warring States was worried about was that the core assets of the Ke Yuan Financial Group had also been transferred away. If the higher-ups of the Ke Yuan Financial Group disappeared collectively, it might be a conspiracy by Dragon Palace City or Dong Huang. Then, if the core assets of the Ke Yuan Financial Group also disappeared, there was definitely a problem internally.

This was the worst situation for the Seven Islands.

"I hope your country can give us a reasonable explanation. In addition, shouldn't your island's guardian give us a certain explanation for attacking our Beast Tamer Dong Huang?" At this moment, after the Tyrannical Sea Legend finished playing the role of a good cop in Dragon Palace City, his tone suddenly rose as he said to the Warring States Legend and the Red God.

"Lu Bai, are you alright?"

At the same time, the Tyrannical Sea Legend looked at Shi Yu and immediately asked about Shi Yu's situation. From Shi Yu's arrogant appearance, it didn't seem like anything was wrong.

"I'm fine," Shi Yu said. "It's that big guy who wanted to snatch my resources. If it weren't for the power of the mystic realm stopping it, I might have died."

Red God: "???"

Damn it, was this guy being reasonable? That cat had definitely been hiding beside him the whole time. Even if it didn't block the fire, he was fine, alright? Moreover, its fire hand originally wanted to snatch resources, so why would he die!

"Legend of the Warring States, the agreement is clear in black and white. If the Seven Islands' unsolved mystic realm is cracked by our country's Beast Tamer during this period, the problem of the resource ownership is very clear. Therefore, what does your country's guardian mean by snatching the resources??"

The Warring States Legend had a defeated look the whole time today. He looked at Red God in silence, and Red God's rat tail swayed. It turned its head and didn't look at him directly.

"Lord Red God has been asleep for a long time. It didn't know about the bet. A Mythical-level resource and two Legendary-level resources suddenly appeared in the mystic realm. Such a powerful energy wave is even coming from Lord Red God's protected territory. It's normal for it to be awakened and protect the resources," the legend of the Warring States said.

Legend Sea Tyrant was not satisfied with this statement and said, "This matter won't end without ten legendary resources or a Mythical resource."

Legend of the Warring States: ???

At this moment, the Beast Tamers of the Seven Islands could tell that this group of people were bandits!

At this moment, the people from the Dragon Palace, led by the Sea Dragon King, were also very surprised when they heard these conversations. This was because they only knew that Shi Yu had been bullied, but they didn't know why Shi Yu had been bullied.

At that moment, when they heard that he was bullied because Shi Yu had dug up a mythical and two legendary resources on the Seven Islands, they immediately widened their eyes. They also wanted to bully Shi Yu and ask for protection fees.

Especially the Ice Dragon King, who said in shock, "Kid, is this for real? One mythical, two legendaries??"

"..." Shi Yu looked at the totem dragon kings who suddenly stared at him and the corners of his mouth twitched. Holy shit, could it be that these bandits had their eyes on him? They weren't going to snatch a child's money, right?

They should be extorting the Seven Islands!

Why were they staring at him!

“Yes... However, the two legendary resources are both fire-element. They don’t seem to be useful to you seniors.” There was no fire-element Dragon King in Dragon Palace City. This made Shi Yu heave a sigh of relief. At least he didn’t have to be worried.

“What is the Mythical resource?” the Sea Dragon King asked curiously. The other Dragon Kings also looked at Shi Yu eagerly. After all, Mythical resources were super top-notch resources even for them. They had a chance of being used to try to become top-notch totems and demigods!

At the mention of Mythical resources, Shi Yu smiled and said, “Let’s talk when we get back.”

That thing... was already in his stomach...

Fortunately, he had already eaten it. Otherwise, Shi Yu estimated that this group of Dragon Kings would be envious. At that time, no matter how he dealt with it, it would be very troublesome. It was better to eat it himself.

Of course, although he had eaten the Undying Fruit, Shi Yu didn’t plan to commit suicide. This thing was equivalent to a revival armor. It only had one effect. He could wait for himself to die of old age or in an accident.

Even Shi Yu didn’t know when the Undying Fruit he ate would take effect.

“Let’s talk when we get back!”

The totem dragon kings were extremely excited. At the same time, because of the conversation just now, these dragon kings thought of something.

Shi Yu was a super archeological genius who could even crack the Blue Sea Ruins and was recognized by the Dragon God.

In a mystic realm, Shi Yu had obtained one Mythical resource and two Legendary-level resources. Just now, weren’t the resources they were asking for too little in comparison??

The Ice Dragon King was very smart. It looked at the legend of the Warring States angrily and said, “We’ve changed our mind. Apart from what we mentioned just now, from today onwards, the ruins mystic realm of the Seven Islands will be permanently publicized to Dragon Palace City. All the gains from the mystic realms will belong to Dragon Palace City.”

They wanted to go all out!

The other Dragon Kings felt that it was very impressive.

Wonderful.

Legend of the Warring States: ???

The Dragon Palace City wanted to release Shi Yu on these guys!

**Chapter 632: Officially Stepping Into the World of the Top Experts (1)**

Ice Dragon's words made the Dragon Kings feel that it was very good, and also made the Tyrannical Sea Legend and the others feel that it was very good.

What a genius idea.

As the victorious faction in the last world-wide totem battle, the seven countries currently enjoyed the richest resources.

Even countries that once lacked resources were rich after the totem battle.

Ruins and mystic realms were also a resource.

Among them, no matter which country it was, there was a pile of unsolved ruins and mystic realms.

Obtaining the permanent exploration right of a country's unsolved ruins mystic realm was much more exciting than ten legendary resources.

What was important was sustainable development!

"Alright, alright."

Old Master Ke was extremely excited. There was such a good thing?

If it really worked, he estimated that more than half of the archeologists in Bureau 11 would run over.

The Dong Huang archeological Association would also establish a Dong Huang branch on the Seven Islands.

After all, although there were more mystic realms in the Dong Huang Ruins, they were basically impossible to crack.

Dong Huang's archeologists had been messing around with old ruins and mystic realms all day. They were probably tired of it long ago. It was better to develop new resources to relieve their boredom.

At that time, it was suggested that the Seven Islands directly change their name to: [11th District].

"This is too much!!!"

Dong Huang felt that it was not bad, but the eyes of the legendary Warring States and the Red God Totem turned red.

Bastard, would Dong Huang and Dragon Palace City be stationed on the Seven Islands when the time came?

This kind of unfair treaty that disgraced the country was definitely impossible to accept, but! They looked at the covetous expressions of the six totem dragons and fell silent.

He only felt that the current situation had reached a certain level of disaster. He had to awaken the legend from seclusion.

Otherwise, they had no right to talk to these two factions equally.

"Please give us some time to investigate the relevant matters of the Ke Yuan Financial Group."

“After the investigation results appear, we will definitely give everyone a satisfactory explanation.”

“At the moment, everyone is gathered here, but it can’t solve the problem. The most important thing is to investigate the truth. If it’s really as you say, after all, it involves the infiltration of the totem country into the Seven Islands.”

The legend of the Warring States took a deep breath and said, “Compared to the internal conflict, the key is for us to cooperate and investigate that totem country.”

At the moment, looking at Dong Huang and Dragon Palace City, no matter what the investigation results were, they would definitely eat a piece of the seven islands.

And the only way the current legend of the Warring States could think of to reduce the losses of the seven islands was to use this opportunity to start a war with a certain totem country.

Benefits from war could reduce the losses of the seven islands.

If the Ke Yuan Financial Group really betrayed the country, neither the Ke Yuan Financial Group nor the totem country behind them would be able to escape!

Although the seven islands were at the bottom of the seven-nation alliance, compared to most totem countries, they were still huge factions.

“Therefore, I hope to use the evidence of Dragon Palace City to carry out a joint investigation,” the saga said. “In addition, I’ll gather the higher-ups of the seven islands as soon as possible to officially negotiate about this matter.”

In short, a large-scale conflict definitely couldn’t happen here. With the destructive power of this group of totem dragon kings, even the Red God Island would probably sink. At that time, the losses would be even greater.

After the legend finished speaking, it looked at the dragons.

The Dragon Kings of Dragon Palace City were silent.

Damn, so be it.

They also knew that forcing the legend of the Warring States at this moment couldn’t solve anything. He couldn’t afford so much compensation alone, so he still had to negotiate with the real representatives elected by the seven islands.

“Then let’s investigate together,” Tyrannical Sea Legend also said.

At that moment, apart from claiming resources, Dong Huang valued Yun An more.

After all, this was the totem king that had once caused the destruction of the Dong Huang Dynasty. Whether it made a comeback or if the faction it left behind was active in the dark was a very bad sign for Dong Huang.

The potential real threat had to be eliminated! Moreover, Yun An had another extraordinary meaning to Dong Huang!

They had to search in detail within the seven islands!

It would be best if they could find Yun An's main body!

If it came to the point where they had to use forbidden weapons, it was best to fight on the seven islands or other places, not involving Dong Huang.

"In that case, let's launch a joint investigation first!" The Sea Dragon King said. "The seven islands have to cooperate with the Environmental Protection Department led by the Ice Dragon King to investigate."

"The investigation this time must be supervised by Dragon Palace City the whole time. After all, the seven islands have yet to clear their suspicion of colluding with the totem country!"

"Apart from that, we will be stationed in the Seven Islands Region during this period until the matter is resolved!"

In any case, Dragon Palace City didn't plan to participate in the world competition. They had plenty of time to accompany the seven islands.

The Dragon Kings planned to freeload for a few months on the seven islands first. Although it would consume a lot of energy since they were all active, it would be no problem if the seven islands took care of food.

"Dong Huang will also immediately send a special investigation team to the seven islands to investigate the possible totem invasion," Tyrannical Sea Legend said.

"In addition, the seven islands have to give an explanation in the negotiation meeting!"

At this moment, the legend of the Warring States and the Red God wanted to cry.

Especially the legend of the Warring States. He didn't know why a good exchange event would become like this.

If he had known, he wouldn't have welcomed the Dong Huang exchange team this time.

The Legend of the Warring States and the others came to the Red God Island because they originally wanted to split the resources "Lu Bai" obtained from the Phoenix Mystic Realm no matter what, but now, forget about these three resources, why did the seven islands still owe 20 legendary resources?? They even wanted them to give up their land?

Chapter 633: Officially Stepping Into the World of the Top Experts (2)

....

At this point, the conflict temporarily stopped to avoid escalation.

It was impossible for Dragon Palace City and Dong Huang to really have a violent conflict on the seven islands.

After all, there were still too many civilians. At that time, they would undoubtedly be condemned by the other allies. Of course, it would only be verbal condemnation.

Apart from that, the most important reason was that there was a legendary figure on the seven islands.

Be it the Legendaries of Dong Huang or the Dragon God of Dragon Palace City, they basically only attacked when Dong Huang and Dragon Palace City were in danger. Therefore, if they forced the seven islands and ignited the killing weapon, the Seven Islands' Valkyrie... Dong Huang and Dragon Palace City were unwilling to see this scene.

At the moment, no faction could withstand a demigod/legendary invasion without huge damage.

As long as the seven islands didn't really betray the Seven Nation Alliance, this incident would ultimately be resolved at the negotiation table. Of course, from the current situation, there was no doubt that Dong Huang and Dragon Palace City, who were stronger and had a reason, would receive a large sum of compensation.

In the end, the six Dragon Kings of Dragon Palace City pulled the "Red God" as a rat hostage and opened a temporary mystic realm on the Red God Island as a residence.

[Red God: QAQ]

As for the members of the Dragon Palace City Environmental Protection Department who came with the Six Dragon Kings, they entered Red God Island openly. They wanted to investigate the Ke Yuan Financial Group with the cooperation of the seven islands.

As for Dong Huang, they also decided to stop the exchange activity first and escort the members of the exchange team back to the country. Moreover, they would mobilize their battle power from Dong Huang to the seven islands.

At this moment, looking at the Dragon Kings of Dragon Palace City, the gem cat, the Tyrannical Sea Legend, and Lu Bai entered the mystic realm space that the Sky Dragon King had temporarily opened. On the seven islands, the Legend of the Warring States and the others wanted to cry but had no tears. They were helpless.

The current tense situation had calmed down. However, this was clearly only the beginning. Neither the seven islands nor Dong Huang knew which side the situation would develop next.

"It's over..."

In this conflict, even a legend like the president of the Red God Island couldn't interrupt the whole time. Legend Xiao Yuan, God Lord Red Fire, and the others stood trembling underground the whole time.

Fortunately... there was no battle. Otherwise, none of them would have survived.

Of course, the most miserable victim of the seven islands this time was none other than the Phoenix Divine Society. Their home was gone.

Ji Xiang of the Phoenix Court stood silently on Phoenix Mountain. The Phoenix Court's Ji Yi and the other Phoenix Witches stood beside the legend of the Phoenix Court and silently looked at the ruined divine temple.

This was the first time they had seen so many totems and such a huge formation. For a moment, they had yet to recover from their fear.

“Teacher, what should we... do next?” Jie Yi asked.

Ji Xiang looked at her and said with a complicated gaze, “Next, lead them to find a place to settle down... I might have to go to Dong Huang.”

“Teacher, you want to find that ‘Lu Bai’ to ask about the Phoenix Mystic Realm, right?” Jie Yi immediately said, “I want to go with you.”

....

In the independent mystic realm established by the Space Dragon King.

It was like a super conference room.

After Dong Huang and the Dragon Palace entered, the Tyrannical Sea Legend said to Shi Yu,

“Next, you should return to the country first. There might be some conflict in the subsequent negotiation process. The higher-ups of the seven islands will probably all gather. If the other higher-ups of the seven islands are also involved with the totem country, it’s undoubtedly very dangerous to stay. After all, you’ve just obtained Mythical and legendary resources here.”

Shi Yu said, “I understand, I understand...”

He didn’t want to stay anymore.

“It’s just about my ten legendary resources... I have to find a reliable negotiator.”

Tyrannical Sea Legend: ???

“Do you really think the seven islands can take out 20 legendary resources?” The corners of the Tyrannical Sea Legend’s mouth twitched.

“Don’t think too much. This negotiation will probably last for a long time. Compared to this, Yun An’s traces are the most important.”

“Then the right to explore permanently is fine too.” Shi Yu felt that Mother Dragon was right. After he became stronger, it would be more convenient to have a legal right to explore the seven islands.

Tyrannical Sea Legend sighed and felt tired.

At this moment, he thought of something and asked,

“What are the resources you obtained from the Phoenix Mystic Realm?”

“Yeah, what are the Mythical resources you obtained from the seven islands?!”

At this moment, as they entered the independent space, be it the Tyrannical Sea Legend, the Totem Dragon King, or the gem cat, they all stared at Shi Yu intently.

As for Shi Yu, he fell silent for a moment and revealed an embarrassed expression.

He said, “The two legendary resources are the Sun Flame Flowers, which cultivates the power of the sun.”

“Huh?”

Many Dragon Kings revealed bored expressions.

Tyrannical Sea Legend nodded. Just like the Sun Flame Flame in the Phoenix Mystic Realm outside, it was also the same as the description of the Undying Dark Phoenix. It looked like the Phoenix Mystic Realm was really an inheritance resource left behind by the Undying Dark Phoenix for Chi Tong?

“What is the Mythical resource!!!” Ice Dragon King roared. Damn it, it didn’t even obtain Mythical resources when exploring Mythical ruins like the Dragon God Ruins. Why could Shi Yu, this damn thing, obtain Mythical resources when he came to the seven islands?

“Well...”

“The situation was dangerous just now. That big flame guy wanted to attack me, and I was shocked. When I thought that there might be more seven island totems coming to snatch it later, I ate the Mythical resource first... That’s the Undying Divine Medicine, the Undying Fruit.”

Chapter 634: Officially Stepping Into the World of the Top Experts (3)

Shi Yu scratched his cheek in embarrassment.

It meant that they should stop thinking about it.

The mythical resource has been eaten...

Silence, complete silence. At this moment, the entire mystic realm space was dead silent.

The moment these words came out of his mouth, every super life form present, including the Tyrannical Sea Legend, the Gem Cat, and the various totem dragon kings, widened their eyes and opened their mouths wide. Their hearts exploded.

“!!!!”

Among them, the extremely crude Ice Dragon let out a heart-wrenching cry.

Undying Fruit!!!

Wasn’t this the super Undying Divine Medicine that Emperor Shi had searched for but could never find?!

Shi Yu obtained it? He obtained it?

It was fine if he found it, but he even ate it himself??

What was this if not a waste!!!

The Tyrannical Sea Legend, the Totem Dragon King, and the gem cats looked at Shi Yu with stunned expressions.

“You, you, you ate it???” Legend Sea Tyrant was stunned.

“That Undying Fruit that will let you reincarnate into a totem-level undead after eating it, be it because of an accident or normal death??” The Sea Dragon King looked at Shi Yu in shock.

The Azure Dragon King, the Immortal Dragon King, the Thunder Dragon King, the Space Dragon King, and the other totem dragon kings looked at Shi Yu with red eyes.

What a waste.

Why did he eat such a good thing?

Wasn't it good to give it to them?

He was a Beast Tamer. Shouldn't he keep it for his pet??

“Yes, that Undying Fruit. If I die, my soul should be able to be preserved and become a totem-level undead life form,” Shi Yu said with a sigh.

“Do you feel anything else unusual?” Legend Sea Tyrant's expression was complicated.

Was he not afraid that the fruit will have side effects??? How could he?

However, looking at Shi Yu's lively appearance, he seemed to be fine.

In other words, Shi Yu's next lifespan might be longer than that of a legendary Beast Tamer?

It could even survive for a thousand years and become the guardian ghost god with the longest inheritance of Dong Huang?

“No, oh, wait, the strength of my soul seems to have increased a little. I should be completely immune to soul and spiritual attacks below the totem level now. Even above the totem level, I should be able to avoid most of the damage,” Shi Yu said.

After eating the Undying Fruit, he could already clearly feel the power of his mental strength and soul power.

His body was already extremely strong. At this moment, after the Undying Fruit entered his mouth, there were no shortcomings inside or out.

From now on, if some enemies wanted to curse and attack him through mental abilities, it was very likely that they would be ignored by Shi Yu unless it were a totem level attack.

Unfortunately, there were no other obvious effects. The true effect of the Undying Fruit could only be displayed after death.

Of course, this was also not bad. The increase in mental and soul strength also meant that Shi Yu, after being possessed by Chi Tong, could erupt with stronger power.

Even if he didn't eat the Time Fruit, with Chi Tong and Shi Yu's current cooperation, it shouldn't be a problem for them to clear the ten stages of the path of champion and defeat that Cloud Tiger head-on.

It could be said that the red-haired Shi Yu form now had the initial battle power of a “stable overlord”.

The strength was not much inferior to the gem cat before it broke through.

Though, he didn't know if it was strong or weak.

Apart from that, Shi Yu felt that his meditation efficiency had also improved greatly. If nothing went wrong, the success rate of contracting an overlord-level pet with a level-six space would also be higher.

"Roar!!!" The Dragon Kings, the gem cat, and the Tyrannical Sea Legend still stared at Shi Yu.

At the thought of Shi Yu eating the Undying Fruit, their hearts bled.

"Wu wu." Especially the gem cat, whose eyes were filled with tears.

Did anyone know how much effort it had spent to break through to the totem level? How long had it been saving up? It had gone through quite some pains...

As for Shi Yu, he had only become a Beast Tamer for a few years, but he was about to have totem-level strength.

At the thought that after Shi Yu died, his strength would immediately be on par with its own, the gem cat cried.

The other totem dragon kings and Tyrannical Sea Legends also instantly understood the meaning of Shi Yu eating the Undying Fruit.

Although it was impossible for Shi Yu to want to court death now, after he died, he would undoubtedly become Dong Huang's new guardian.

Totem-level battle power!

If what Shi Yu said was true, then he could completely be on equal footing with the guardian level/totem level now.

In Dong Huang's position, he would leap into the core circle, equivalent to a Titled Legendary expert, with one foot in the ranks of top experts!

The totem dragon kings looked at Shi Yu in front of them and were speechless.

"When do you plan to die?" Many experts asked Shi Yu.

Shi Yu: "?"

"It's best if I die of old age!" Shi Yu said.

Now, Shi Yu was most worried that he couldn't die, especially after he had already become a Mythical Beast Tamer and cultivated a bunch of Mythical pets.

Then wouldn't the Undying Fruit be eaten for nothing? What a waste.

As for why it was wasted, it was because he suspected that it shouldn't be difficult to create an Undying Fruit after Baby Ginseng reached the Mythical stage.

....

At this moment, the seven islands were in turmoil.

Apart from the legendary Valkyrie, three of the guardians of the other five islands had already awakened.

Apart from the Warring States Legend, the other two Titled Legends of the seven islands also understood the cause and effect. They flew to Red God Island in silence.

Although the chances were not high, in order to prevent the conflict from escalating and causing damage to the new generation, Ice Dragon and the Gem Cat, as bodyguards, began to escort the non-legendary battle power of the Dong Huang exchange team back to the country under the teleportation of the Space Dragon King. The exchange activity was temporarily suspended.

Chapter 635: Officially Stepping Into the World of the Top Experts (4)

At this moment, Zheng Hai, Ji Feng, Zou Yun, and the other members of the Dong Huang exchange team were in a ruins space. They were brought back to the country faster by the cat.

In the space, Zou Yun and the others felt that it was extremely exciting this time. They all knew what had happened just now.

Lu Bai cracked the Phoenix Ruins and obtained a Mythical and two Legendary resources!

It also attracted the guardian totem of the Red God Island to tear up the contract and snatch the resources!

It was a very soul-stirring matter, but because of the sudden reversal of the six totem dragon kings, Red God was slapped in the face!

As for the reason why the six totem dragon kings descended, it was because the Seven Islands Keyuan Financial Group and the totem faction had colluded to invade Dragon Palace City!!

Right on the heels of that, Dong Huang and Dragon Palace City joined forces to pressure the seven islands. The situation was unprecedentedly tense.

“Unfortunately, this kind of thing definitely can’t be publicized.” What a hot topic... Zou Yun felt that it was a pity.

“Speaking of which, where’s Lu Bai?” Zou Yun said.

“I don’t know, I didn’t see him,” Ji Feng said.

“He should still be on the seven islands?” Ning Tianming said.

They were extremely envious. This Lu Bai was so ridiculous. Not only was he powerful, but he also became a key figure in cracking the seven island mystic realm. Even those famous archeological big shots in the country didn’t obtain one Mythical and two Legendary resources from the ruins mystic realm in one go, right?

Although they estimated that Lu Bai would still have to hand over these three resources, especially the Mythical resource, judging from Lu Bai’s performance, it was completely no problem for him to be rewarded with two legendary resources later.

This guy was already strong enough. If he obtained two suitable legendary resources, wouldn't he be invincible?

"Zheng Hai, tell me. Weren't you at the scene? What's going on?" Zou Yun Heavenly King asked Zheng Hai beside him.

At this moment, Zheng Hai still had yet to recover.

He was filled with confusion.

Why were the totem dragon kings of Dragon Palace City so familiar with "Lu Bai"?

Why was there a guardian overlord of Ancient Capital University beside Lu Bai... Oh, no, it should be Dong Huang's guardian gem cat now. Why was it protecting him?

Why did Lu Bai easily crack the Phoenix Ruins mystic realm even though he was clearly a disciple of a feeder?

Although this guy's appearance, temperament, name, and age looked different from a certain person he knew, his identity configuration was too similar.

Moreover, that person had the Water Slime with abnormal strength, and Lu Bai's ice-element pet had also appeared in the form of the Ice Slime King...

That person had the Phoenix hybrid heroic spirit that mastered the Sun Flame, while Lu Bai had the bird spirit that mastered the Phoenix Might of the Blue Ghost Flame!

Moreover, after this phoenix bird spirit possessed Lu Bai, it could actually make that realm disperse as if it had met its master. No matter how he thought about it, it didn't seem right. It was too much of a coincidence.

So, this Lu Bai couldn't be the person he was thinking of, right...

Zheng Hai's expression was exaggerated, and the corners of his mouth twitched.

He could even make the connection. If nothing went wrong, soon, the seven islands might also be able to make the connection.

Sigh, of course, what made Zheng Hai most uncomfortable was that he didn't know if he could still enter the Mythical Ruins of the seven islands to cultivate.

"Hey, hey, hey, Zheng Hai, what are you thinking about?" Zou Yun looked at Zheng Hai, who was sitting on the sofa in silence and deep in thought.

Zheng Hai was stunned. He raised his head and looked at Zou Tianwang. "It's nothing. I just thought of a subtle and painful possibility."

"I better not talk nonsense with you guys..."

The truth might be too cruel.

....

Seven islands, Red God Island.

Ji Xiang, the legendary Beast Tamer of the Phoenix Temple, was not concerned about the conflict between Dragon Palace City, Dong Huang, and the seven islands. At this moment, she was gathering information about the number one person below the legend of Dong Huang, Shi Yu.

At this moment, Shi Yu had already successfully arrived at Dong Huang, Demon Capital!

The signal between Dong Huang and the seven islands was not connected, so during the time he was on the seven islands, the information Shi Yu's cell phone received from Dong Huang could not be displayed. There was a delay.

At this moment, after entering the Dong Huang Sea Region again, Shi Yu's cell phone seemed to have been bombed. There were many messages.

Among them, the one who sent the most messages was the legendary Mechanic from Shen Feng.

[Dr. Shi Yu, when can we communicate?]

[Dr. Shi Yu, the Shen Feng exchange team has already arrived at Dong Huang. Among them is the mechanical pet that you want to study to master the 'super alloy' skill.]

[Dr. Shi Yu...]

Shi Yu was silent. He had almost forgotten about this guy. This Mechanic from Shen Feng had also participated in the Mechanical Conference at that time. He had been eyeing Shi Yu's mechanical phantom beast technology and wanted to poach him.

At that time, Shi Yu only asked one question. Did the other party have a pet that had mastered the super alloy skill?

After this Dr. Aiqi said no, Shi Yu decisively ignored him.

He didn't expect the other party to be so persistent... Shi Yu patted his forehead.

"Forget it." He originally wanted to find an opportunity to replicate the superalloy skill on the seven islands on the way, but he seemed to have forgotten. In that case, it looked like he still had to deal with this Dr Aqi.

After replicating the skill, he could study Eleven's Light and Darkness Evolution. However, before that, Shi Yu estimated that after returning to the country, it would be so troublesome to deal with various matters related to the seven islands. The association would have many things to ask him to understand.

"This matter is indeed more troublesome. It's not just Yun An, but also the Abyss Duck... Let's stay quietly and steadily in Dong Huang for a while..."

"Be good and add points. Should I go to the Heavenly Fox Nation first, Rongguang, or Tingxiang?" Shi Yu fell into deep thought.

However, he felt that he couldn't use Lu Bai's alias anymore.

Even if no one connected Lu Bai to Shi Yu, Lu Bai would probably be banned from Tingxiang and Rongguang.

Therefore, it was indeed more suitable to go to the Heavenly Fox Nation where vixens were everywhere... Shi Yu also had another plan, which was to use the [Bone Sword and Undead Revival] to kill some enemy overlords of the totem country to be Chi Tong's servants. He felt that the nine-tailed fox was pretty good!

--

Chapter 636: Sigh, It's Great Having Two Alternate Accounts (1)

Dong Huang, Demon Capital.

The specific incidents of the Seven Islands incident had already been sent back to Dong Huang before Shi Yu and the others.

President Lin of the Dong Huang Association had been waiting for Shi Yu and the others to return to Demon Capital for a long time.

Just as Shi Yu and the others arrived in Demon Capital, Shi Yu was summoned by President Lin.

In the absence of the mechanical legend, President Lin Xiao stood at the peak of Dong Huang's power.

Division 13 of Dong Huang was established by President Lin alone. Division 13 was also led by President Lin Xiao alone.

He and the other titled legends also represented Dong Huang's strategic power, which was comparable to a human-type forbidden weapon.

"Yun An's tracks..."

"Two Sun Flame Flowers..."

"And the Undying Fruit you ate..."

In the private room, a young man in his twenties in luxurious clothes was drinking tea quietly. He looked calm, as if what happened on the seven islands still couldn't shock him too much.

President Lin looked at Shi Yu in front of him and fell silent. He put down his teacup.

As expected, he was a troublemaker. He was like a moving attraction, having some of his ancestor Lin Feng's style.

However...

Whether there were factions on the seven islands that might collude with the Yun An faction, or that Dragon Palace City would one day attack the seven islands, or that there was really a possibility of Mythical and legendary resources appearing in the Phoenix Mystic Realm, President Lin Xiao actually expected all of the outcomes.

The only thing he didn't expect was that the Mythical resource would actually be the Undying Fruit. Moreover, the fact that Shi Yu actually ate it directly.

"What good luck." Even President Lin couldn't help but sigh.

At the same time, he felt a little regretful.

If only such a fruit had appeared earlier.

If it could be eaten by the mechanical legend or the Dragon God, it might be able to be of greater use.

Of course, it was reasonable for Shi Yu to eat it. After all, this inheritance was left behind by the Undying Dark Phoenix for Shi Yu and the others. At the same time, Shi Yu and the others were the ones who cracked the Phoenix Mystic Realm.

It was alright. Compared to still relying on the older generation, believing in the new generation might be a good choice.

After eating the Undying Fruit, Shi Yu's safety in the World Tournament would be greater.

He might not be able to determine the future of the other new generations, but Shi Yu...

Not only did he obtain the recognition of the Blue Sea Sprite, but he also obtained a Mythical opportunity. He would definitely become a totem-level guardian ghost in the future.

However, President Lin kept feeling that it was still a little unstable.

"You've already eaten the Undying Fruit. The Sun Flame Flower seems to be a useful resource for you, so you should use it reasonably."

Shi Yu nodded crazily. "Yes, yes."

In that case, he accepted it.

"Apart from that, I'll give you a mission. The mission reward is a legendary resource."

Shi Yu's eyes lit up.

"Anyone is good. Try your best to get married and have children before you turn 30. For every child you have, I'll give you a legendary resource," President Lin said.

"Pfft..."

Shi Yu almost spat out his tea. What kind of mission was this?

Although it looked simple and looked like legendary resources were readily available, why did he feel that it was even harder than cracking a Mythical Ruins?

"Next is to investigate Yun An with all our might."

President Lin stood up. In his opinion, compared to seeking compensation from the seven islands, it was more reliable to deal with Yun An as soon as possible. It could strengthen Dong Huang's national strength.

In particular, the Ke Yuan Financial Group had used the power of Yun An to develop a totem-level radiation monster without the seven islands noticing. This was impressive... The value of Yun An, this extraterrestrial monster, might be even greater than they had imagined at the start.

“President Lin, there’s one more thing...”

“Tell me.”

“Our Environmental Protection Department subdued the boss of the Western Abyss Sea, the Abyssal Demon Duck, on the seven islands.”

President Lin: “?”

“Reincarnation,” Shi Yu said. “As I have the Blue Sea Sprite Reincarnation here and can supervise it, I’ll keep it beside me and raise it first...”

President Lin was silent. This guy was the god of troublemaking.

...

After Shi Yu returned to Dong Huang, he returned to his original appearance.

After his secret meeting with President Lin, he rushed to Ancient Capital and went home.

Of course, there was also the gem cat that didn’t plan to return to the seven islands.

It yawned. Although it felt that it was pretty good to return to the seven islands to eat and drink with Bing Bing, considering that it was not safe there, it still decided to retire in Dong Huang.

“I have a feeling that as they talk, they will definitely fight on a small scale,” the gem cat muttered.

After all, the seven islands still had a legendary figure. It was impossible for her to still not come out after such a big thing...

It didn’t want to be beaten up!

“Can you look forward to something better?” Shi Yu said.

“Do you think we should look for the Undying Dark Phoenix after returning to the ancient capital?” the gem cat asked.

“Let’s ask about two more ruins locations.”

The Phoenix Mystic Realm was so fragrant.

Unfortunately, there were no resources it could use.

Gem, gem, gem! It wanted a gem!

“Forget it, forget it.”

The corners of Shi Yu’s mouth twitched. He would digest his gains first.

This time, when he cracked the Phoenix Mystic Realm, he didn't find any abnormalities in the Undead Battlefield in the ancient capital. This also made Shi Yu conflicted about the Undying Dark Phoenix's words again.

Perhaps this guy was really a good person?

When Chi Tong reached the totem level and mastered the transcendent-level Sun Flame, should it really save the Undying Dark Phoenix?

Well, they definitely have to save it...

However, considering that the Undying Dark Phoenix Transformation might have been at the demigod level when it was alive and its methods were extremely terrifying, Shi Yu felt that it was not very stable to only master transcendent-level Sun Flame and totem-level strength to save it.

It was better to upgrade Chi Tong's Sun Flame to the "Dao Proficiency" level and let Chi Tong's strength approach that of a demigod. After possessing him, they could reach the level of a demigod. Then, they could save it. It was stable.

Chapter 637: Sigh, It's Great Having Two Alternate Accounts (2)

During the process of rushing to the ancient capital, Shi Yu sent a message to Dr Aqi of Shen Feng and arranged a time to meet him.

He was prepared to find an opportunity to replicate the "superalloy" skill.

Apart from Dr. Aqi, something else happened during Shi Yu's time away. At the same time, Senior Lu had also sent Shi Yu a very important message.

The Void Mantis had broken through to the overlord level.

Fortunately, she successfully tricked the Void Mantis and became its guide to travel all over Dong Huang. For the time being, she could still meditate and cultivate in the Space Emperor Ruins.

When I go to the other three Space Emperor hatching bases, I might be able to call the Void Mantis along, Shi Yu thought.

Overlord-level spatial element.

And it was cultivated by the Space Emperor.

It should be better than Buggy.

It could be used during the time the gem cat went on strike...

...

Ancient Capital University.

Mechanic class.

Ever since “Dr. Shi Yu” developed the mechanical phantom beast system, this specialization had taken off.

The Mechanical Beast course had also become a compulsory course for Mechanic students of Ancient Capital University.

Even many students from other departments insisted on changing majors.

Including some other schools, they also sent exchange students to the Mechanic class of Ancient Capital University to learn.

For example, Fang Lan and her parents were currently studying and researching at Ancient Capital University...

For a moment, the limelight of the Mechanic class of Ancient Capital University vaguely exceeded that of Star Capital and Imperial Capital University.

“Dean Hao.”

In the Mechanical College, Dean Hao had already regarded this place as his home.

At this moment, he was working hard in the office. He was definitely going to turn the Mechanic class of Ancient Capital University into a top-notch specialization in the country.

Initially, this was hopeless, but because of the all-round genius of Ancient Capital University, everything became hopeful.

“Shi Yu???”

At this moment, when he heard a familiar voice from outside the door, Dean Hao was stunned. He immediately welcomed him in surprise. He ran over to open the door himself. After opening the door, he saw the energetic Shi Yu and laughed. “Why are you here?”

No more than ten people in Dong Huang knew that Shi Yu had gone to the seven islands, so Dean Hao thought that Shi Yu had been cultivating there for the past half a month.

After Shi Yu entered, he smiled and said, “I’ve made an appointment with Shen Feng’s exchange team. They should bring the ‘Alloy Monster’ to Ancient Capital University to visit later. I’d like to ask you to prepare some metal materials and cooperate with research to explore the evolution skills of the Alloy Monster.”

“Shen Feng exchange team?!” Dean Hao was stunned. “You invited them?”

“They also wanted to visit the Mechanic class of Ancient Capital University previously, but they were rejected by me and Principal Feng.”

“This group of people has been thinking about the mechanical phantom beast technology these days.”

“Because they haven’t been able to get it, it’s been very noisy these few days.”

Shi Yu smiled. “Of course not. Just brush it off. I’m mainly more interested in their alloy monsters.”

Dean Hao nodded and said, “Alloy monster... What do you want it for?”

Shi Yu said, "It's a superalloy skill. It can help pets complete evolution by fusing different metal powers. Don't you think it's very suitable for iron-eating beasts?"

"Ah..." Dean Hao had a strange expression. "It makes sense, but isn't your Iron-eating Beast..." "

Didn't it f\*cking evolve into the Mythical race?!

Why was he still researching evolution!

Moreover, superalloy was a Mechanic skill.

Did he want to modify a mechanical panda?

Shi Yu smiled and said, "Eleven and I naturally don't have many thoughts. Isn't this to benefit the entire iron-eating beast race? After all, a conventional evolution method is too difficult. Not every iron-eating beast's Beast Tamer can afford to consume it."

As if ~

He wanted Eleven to continue evolving.

Although there were no other race levels during this period of time, even just a quasi Mythical race was insane. The difference in this level was incomparably huge.

After transcendent life forms reached the totem level, they were constantly optimizing their race. As a quasi-mythical race, the optimization of the Red God Totem of the seven islands would definitely be worlds apart from an optimization of a demigod like the Dragon God.

Therefore, evolution was endless.

"I see. Alright, basically, you want to prepare some rare metal materials," Dean Hao said.

Shi Yu nodded and said, "Yes."

....

Director Zhong of the Sequence Competition Committee was very happy that the Dong Huang exchange team that went to the seven islands returned early.

He immediately contacted Ji Feng, Zheng Hai, Zou Yun, Tong Yan, and Ning Tianming and pulled up an online chat.

Director Zhong: "I've already heard that there was an accident with the seven islands exchange, but you came back at the right time."

Zou Yun: "What's wrong, Director Zhong? Could it be..."

Director Zhong was the person in charge of the eighth bureau's Education Bureau. At the moment, he was in charge of the Sequence Battle selection and a member of the Sequence Battle Committee. Under normal circumstances, if the exchange teams from other countries came to Dong Huang, Director Zhong was most likely one of the people who picked them up, just like when he received the Ming Hua exchange team.

Director Zhong: “Not long ago, the Shen Feng exchange team came to Dong Huang. Among them, there are two Shen Feng world competition contestants. In the beginning, they only carried out ordinary Mechanic academic exchanges, but in the past few days, they have started to challenge the Sequence contestants of Dong Huang.”

[Originally, they wanted to challenge the top ten of the Sequence, but you guys weren't around when you went to the seven islands, so they started to challenge the top 20 of the Sequence. Now that they've basically challenged everyone, our people have all lost.]

[Every time they win, they like to post the results on social media. At the moment, the online reviews are very bad for us. We urgently need a victory.]

Chapter 638: Sigh, It's Great Having Two Alternate Accounts (3)

[Many netizens hope that you can come out and fight, but you weren't in the country at that time. Now, who's interested?]

Zou Yun: “Me, me, me, me, me, me, me, me, me! I'll do it! Don't fight with me!!”

[I knew it was this matter. I have a lot of fans tagging me and asking me to fight when I return.]

In the Dark Club in Demon Capital, Heavenly King Zou's eyes were red.

Damn it, he didn't get any hot topics on the seven islands this time. After returning to the country, there were finally hot topics.

Thank you, Shen Feng's friend, for laying the foundation for his popularity!!!

When he insta-killed this group of Shen Feng world contestants, he would directly take off!

Everyone: [...]

Zheng Hai: “Aren't Shi Yu, Lu Qingyi, and the others around?”

Director Zhong: “I can't contact Lu Qingyi. For Shi Yu... Shen Feng's exchange team is here for Shi Yu's mechanical phantom beast technology. Shi Yu is probably avoiding them too. It's better not to trouble him.”

Zou Yun: “So, leave it to me!”

Director Zhong wasn't very convinced. “Little Zou, are you stable? Although the other party isn't a legend, he's a genius Mechanic of Shen Feng. He's known as the Shen Feng Mechanical Gemini. He's the first or the second person under legend in the new generation of Shen Feng under the age of 30.”

Zou Yun: “Huh?”

Ji Feng: “Let me do it. After dealing with the number one person below the legendary level of the seven islands, I can use the number one person below the legendary level of the Shen Feng to try. These people can't be stronger than Shi Yu and Lu Bai, right?”

Director Zhong: “Eh? Looks like your experience on the seven islands is pretty rich. But who's Lu Bai?”

Who was Lu Bai...

The Beast Tamers who went to the seven islands were stunned. Director Zhong actually didn't know about Lu Bai?

Tong Yan: "A disciple of President Ye in the third bureau..."

Director Zhong: "When did Little Ye take in a disciple?"

....

Ancient Capital University.

After discussing with Dean Hao, Shi Yu (Buggy) teleported back to the dormitory and waited for the Shen Feng exchange team. He lay leisurely and swiped his cell phone, planning to rest for a day before working hard.

The matter of Shen Feng's two mechanical Gemini coming to Dong Huang to challenge the Sequence contestants had indeed caused an uproar. It was everywhere on the Internet.

Shi Yu only swiped casually and saw the relevant news. He couldn't help but yawn in boredom.

"They actually stole the show while Heavenly King Zou wasn't around."

"Old Zou is probably so angry that he exploded."

Shi Yu chuckled. What made Heavenly King Zou uncomfortable was that he might not be able to defeat the other party.

The number one or second person below legend of the new generation of Shen Feng...

Shen Feng's strength was not something Ming Hua and the Seven Islands could compare to.

The champion of the last World Tournament was won by the legendary Mechanic of Shen Feng. Now that more than 20 years had passed, it was unknown if that Mechanic had broken through from legend to the legendary level after being blessed by the World Tree.

If he broke through to the legendary level, Shen Feng would have three demigod/legendary experts.

Therefore, the number one or second person of the new generation of legends in Shen Feng was completely winnable for geniuses like Ji Feng and Lu Qingyi. Heavenly King Zou probably couldn't defeat them.

"Why are there so many people tagging me?" Shi Yu realized that on the Internet, there were many voices calling him, Lu Qingyi, and Zou Yun to fight.

The two young Beast Tamers of the Shen Feng exchange team were too high-profile, causing the young people of Dong Huang to feel very unhappy with them.

But they couldn't defeat them themselves, so they could only tag Big Bosses to come out and fight.

"This..."

Shi Yu scratched his ear and thought for a moment. It wasn't impossible.

After all, he was the one who provoked the Shen Feng exchange team to Dong Huang. It was not a problem for him to clean up the mess.

However, he had just invited the Shen Feng exchange team to study the alloy monster together. Wasn't it too unfriendly to beat up their contestant?

Should he fight after studying it?

"Forget it, why don't I let 'Lu Bai' finish them?"

Shi Yu thought for a moment and took out a Time Fruit to eat.

As the special Time Fruit entered his mouth, Shi Yu's body immediately shrank and his hair turned white.

Then, he summoned Chi Tong's possession and clone.

In an instant, apart from Shi Yu, who was sitting on the sofa, a "Lu Bai" clone immediately appeared on the ground because of the clone skill.

After splitting out his clone, Shi Yu's main body removed the possession and time power and returned to the form of the black-haired Shi Yu. On the other side, Shi Yu's Lu Bai clone was still standing on the ground, waiting for Shi Yu and Chi Tong to control it.

"Lu Bai, can you deal with the number one person below the legend level of the new generation of Shen Feng?" Shi Yu asked.

Lu Bai rubbed his eyes and said weakly, "Don't talk to yourself, alright? You look really dumb."

"Mi!! (This is what I wanted to say)" Beside him, Chi Tong was speechless.

Shi Yu smiled. At the moment, after eating the Undying Fruit, his soul power had increased greatly. With Chi Tong possessing him, he could obtain stable overlord-level battle power. At this moment, even if it was a clone, in Shi Yu's opinion, it wouldn't be much inferior to Senior Lu and Ji Feng's trump cards.

And this was only under the situation of the clones of Shi Yu and Chi Tong.

If it was Shi Yu and Chi Tong's main body, their strength could still be stronger.

If he distributed another pet, it would be even stronger.

"Chi Tong, transform into a blue bird spirit and challenge the number one person below the new generation of legends with your clone later."

"Of course, this isn't very stable. Bring Susu and Ling along. Ling stays home all day to study the Tyrant Dragon. How boring. Let it fight too."

[Ling: Master, thank you.]

"Mi!! Chu!"

Chi Tong changed from the form of a sword spirit to a blue bird spirit. It landed on the clone's shoulder happily, indicating that it understood.

Chapter 639: Sigh, It's Great Having Two Alternate Accounts (4)

When the three sisters went out to battle, the land would be desecrated!

Shi Yu continued to lie down. Sigh, clones were so useful. It was like he had two alternate game accounts.

With a clone, he could let his pet bring the clone to fight everywhere, and he would slack off!

....

At the same time.

A plane was heading to Ancient Capital.

In the plane, the seven-man-sized Shen Feng exchange team members had different expressions.

Dr Aqi, who was in the lead, looked troubled.

Hard work paid off. This damn Shi Yu finally agreed to communicate with them.

And the premise was to let Dong Huang study the unique pet alloy monster of their Shen Feng.

If it were other technological products, Shen Feng might still be conflicted, but the alloy monster... The seven islands also mastered this technology, so there was no problem. If Shen Feng didn't give it to him, Dong Huang could also go to the seven islands to study it. It was better to let Shi Yu get his way in this case, lest the seven islands beat him to it.

Therefore, Dr Aqi immediately gathered some researchers from his hometown and let them bring two alloy monsters over.

Among them, the two strongest Mechanics under the legendary level among the new generation under the age of 30 also came over.

They were extremely curious about this Dr. Shi Yu, the number one person below the legend of Dong Huang. They had long wanted to learn from him.

Unfortunately, they had not even a single trace of him.

"I can finally see that Dr. Shi Yu."

On the plane, a golden-haired young man spun a key with anticipation in his eyes.

"Lundi, several Beast Tamers in the front row of the Sequence on Dong Huang's side suddenly responded to the challenge. Ji Feng, Zou Yun, and the others." Beside him, a blonde and blue-eyed woman held a cell phone and said in surprise.

Lendi shook his head and said, "Don't worry about them. We just have to challenge the number one person below the legend of Dong Huang."

"The two of you, shut up!" Dr Aqi said angrily. "Don't mess around. Our goal is the mechanical phantom beast technology. We want to befriend this Dr. Shi Yu, not let the two of you challenge him!"

"Can the two of you save me some trouble?"

The blonde woman smiled and said, "Doctor, how can Dong Huang communicate with us about mechanical phantom beasts? We just have to deal with the tasks above. Don't tell me you really think you can gain anything?"

"Why don't we let this Shi Yu see the strength of our Shen Feng? When he knows the strength of Shen Feng, he might directly join our Shen Feng. No matter what, we're also the number one country among the seven countries."

Aqi said, "That won't do either!"

Lendi said helplessly, "Then answer the challenge of that Ji Feng and Zou Yun."

....

The Shen Feng exchange team arrived very quickly. During this period of time, they had encountered a wall in Dong Huang for a long time. This time, Shi Yu and Ancient Capital University finally agreed to communicate with them. The Shen Feng exchange team was extremely teary-eyed.

As the number one technological country, when they went to other countries to communicate about the Mechanic class, they had never suffered such grievances!

The only regret the two young Mechanics had was that the leading doctor didn't allow them to challenge Shi Yu, afraid that it would ruin the friendship between the two countries and cause them to be unable to obtain the mechanical phantom beast technology.

At the second airport of the ancient capital, a tall, white-skinned exchange team walked out of the airport. When the people by the roadside saw them, they started discussing.

"The Beast Tamers of the Divine Eagle Nation?" A passerby immediately exclaimed after discovering them.

This group of people had not stopped in Dong Huang recently. They were even more high-profile than the previous Ming Hua exchange team!

In Shen Feng, Internet communication was much more developed than Dong Huang, so the people and Beast Tamers there had developed the habit of showing off on the Internet.

Therefore, the itinerary for the past few days, especially the battle experience, was announced online anytime and anywhere. They even registered on Dong Huang's social media accounts because of this.

Many Beast Tamers were also familiar with Dr Aqi, who was in the lead. This was because this guy's arrogant performance at the Mechanical Conference made the Beast Tamers of Dong Huang very unhappy.

As soon as they appeared in the ancient capital, they immediately attracted a lot of attention and guessed their goal in coming to the ancient capital.

"I knew it. We can quickly become famous in Dong Huang." Listening to the chattering around him, Lendi, who was looking straight ahead, smiled. He looked smug and enjoyed this feeling very much.

"Although it's not really a friendly kind of famous," the blonde woman, Elise, said casually.

Apart from the two of them, the other five middle-aged and old Mechanics were also chatting. “Now, I’m more and more certain that in the past 20 years, our technological level has already far exceeded Dong Huang.”

“This is very normal. Among our Beast Tamers, Mechanics account for more than 50%, and it’s already not bad for Dong Huang to have 5%. Obviously, they haven’t given up on the other Beast Taming branches.”

“However, it can’t be denied that there are indeed some geniuses among them. If this Shi Yu can migrate to Shen Feng, he can definitely obtain better development. His talent will be delayed in Dong Huang.”

The few old men discussed and spoke in bird language that others couldn’t understand. After coming out of the airport, they directly walked in the direction of Ancient Capital University.

Although the surrounding passers-by were curious, they didn’t dare to take photos of them and go up to talk to them. They could only take out their cell phones and use words to post that the Shen Feng exchange team had come to the ancient capital.

After all, among this group of people, they were all above top-notch masters. Taking another look was also very stressful for passers-by.

Chapter 640: Sigh, It’s Great Having Two Alternate Accounts (5)

“Shen Feng’s Beast Tamers?” In the crowd, a figure frowned and looked at them.

“An Chang, stop looking. You can definitely surpass them in the future.” A delicate girl tugged at the young man’s clothes and said, “An Chang, An Chang, let’s go watch a movie.”

“I said, I’m not free. Stop following me.” The first-year student of Ancient Capital University, An Chang, looked at this girl helplessly. This was a genius Beast Tamer from the same vocation assessment as him. He had defeated her before, but now... was she pursuing him?

An Chang had already rejected her. In his opinion, if he wanted to catch up to Senior Shi Yu, he had to use all his time to cultivate. Being in a relationship would only delay his Beast Taming speed.

“Huh?” An Chang was just about to refuse again when he suddenly realized that a figure had stopped the Shen Feng exchange team in front of him. He looked over with a shocked expression.

It was a white-haired young man less than 1.7 meters tall who looked extremely weak. On his shoulder stood a blue Ghost Fire Bird Spirit. On his wrist was a technological white mechanical watch.

An Chang could sense that both the blue Ghost Fire Bird Spirit and the white mechanical watch were very powerful pets!

It was so powerful that it was definitely not something his strength could compare to.

The appearance of this white-haired youth also stunned the people from the Shen Feng exchange team who were heading to Ancient Capital University. Many passers-by around them cast surprised gazes.

After Shi Yu's clone, Lu Bai, found the group of people from the Shen Feng exchange team, he looked at the golden-haired young man and girl and coughed weakly. "Sorry to disturb you. Are you Lendi and Elise, from Shen Feng?"

"Who are you?" The golden-haired young man looked at the weak white-haired young man in front of him in confusion.

"Lu Bai, Beast Tamer of Dong Huang. I heard that the two of you are pretty strong. I've come to take a look." A smile appeared on Lu Bai's weak face.

Upon hearing that, the surrounding passers-by were immediately shocked. These two Mechanics, Shen Feng, had been very famous in Dong Huang recently. They had defeated most of the Beast Tamers in Sequence 10 to 20. This person actually took the initiative to challenge them?

Lu Bai... Who was this?

Why had they never heard of it?

"An Chang, do you know this person?"

Beside An Chang, the delicate ponytail girl was also attracted by Shi Yu's clone.

"No, I don't, but..." An Chang said, "He looks very strong."

"How can you tell??"

"Weak," An Chang said. "He looks very weak. This means that he has cultivated too much. That white hair is the best proof."

"He became weak but also stronger."

The ponytail girl was stunned. What nonsense was this?

Shouldn't it be becoming bald that made one stronger?

At this moment.

The sudden challenge of this white-haired young man named Lu Bai undoubtedly made many passers-by watch the commotion, and also made the challenged Lendi smile.

"Sorry, I won't accept the challenge of an unknown Beast Tamer."

"Let's go." Elise wasn't interested either. She still had to see the mechanical phantom beast next and couldn't waste time.

"Your courage is much inferior to the number one person in the new generation of the seven islands, the Thousand River Hundred God, and the number one person below the legends of the seven islands, the Demon Blade Shen Dai." Shi Yu's clone revealed a playful smile.

At this moment, when they heard these two names, Lun Di and Elise's expressions changed.

The relationship between Shen Feng and the seven islands was very close. This was because the Mechanic class of the seven islands had once been supported by Shen Feng alone. Therefore, Shen Feng

knew the situation of the seven islands very well. The two of them naturally knew the status of the Thousand River Hundred God and Demon Blade mentioned by Shi Yu.

What they didn't understand at this moment was why this Beast Tamer of Dong Huang also knew so much.

Moreover, from his tone, he had even fought with the two of them?

"What do you mean?" Lundy said.

"It means that they weren't so afraid when fighting me."

Shi Yu's words made Lendi and Elise fall silent. Who was this person? Why could he fight the Thousand Rivers Hundred God and the Demon Blade of the seven islands? Why didn't they have any information?

"Alright, then I'll waste some time on you." In order to figure out what was going on with this white-haired youth, Lendi narrowed his eyes and said.

Seeing this, Dr Aqi and the others were silent for a moment. They felt that it was very troublesome. Unlike Lendi, they were not interested in this Lu Bai at all.

Dr Aqi said, "Lendi, follow when you're done. Elise, you go with Lendi."

"..." Elise was stunned and said helplessly, "Alright then."

With that said, Dr Aqi and the others continued walking towards Ancient Capital University. They didn't think that the two of them would lose to a baffling Beast Tamer from Dong Huang.

As for Lendi and Elise, they stared at the mysterious white-haired young man who stopped them.

"A full team fight then," Lu Bai said. "Follow me to the Ancient Capital Arena."

"Alright." Lendi cracked his fingers and smiled.

At this moment, the passers-by beside him were completely shocked. They didn't expect that these two mechanical Gemini of Shen Feng would actually really accept the challenge of this white-haired youth who came out of nowhere.

"Damn, who exactly is this person?"

"I'm not sure. In any case, it can't be a student from Ancient Capital University."

"Of course."

The passers-by discussed it again. Many people directly followed Lu Bai, Lendi, and the others to see if they could sneak into the Ancient Capital Arena and watch the battle.

An Chang hesitated for a moment and immediately followed.

"Eh, An Chang, wait, wait for me."

....

Ancient Capital University.

Because of the visit of the Shen Feng exchange team, Principal Feng was also forced to open for business. After all, there were two legendary Mechanics in the other party's team.

Of course, he wasn't afraid that the other party would cause trouble. The guardian of Ancient Capital University was the strongest among the nine universities!

Principal Feng, Dean Hao, and Shi Yu had been waiting for Dr Aqi and the others for a long time.

Although they had a deep grudge just now, as they saw Shi Yu in person, the faces of these Divine Wind Mechanics immediately bloomed like brilliant chrysanthemums.

"It's good to see you again, Dr. Shi Yu ~"
