

## **Beast 641**

### **Chapter 641: Blue-haired Gun God Lu Bai vs Red-haired Sword God Shi Yu (1)**

Location, Ancient Capital Arena.

This was the largest battle arena in Ancient Capital City.

The highest defense facilities could withstand overlord-level battles.

As the Sequence battle project began, if Ancient Capital City carried out a high-level Sequence battle, it would basically be carried out here.

“Master Qian, bad news.”

It was Qian Tongming, the in-charge of the Ancient Capital Arena, a top-notch master.

At this moment, he received his subordinate’s message and revealed a shocked expression.

“Those two Shen Feng Nation Mechanics who go around challenging Sequence contestants have come to our arena!”

“There’s also a white-haired Beast Tamer with them. From the license level, he’s also a top-notch master. They should be fighting!”

“This... These two scourges, why are they in Ancient Capital?” Master Qian cursed. He directly put on his coat and rushed to the arena under the stunned expressions of his subordinates.

At the same time, he was puzzled. Who was the white-haired top-notch master?

Outside the Ancient Capital Arena.

Shi Yu’s clone, Lu Bai, and the two Mechanics, Shen Feng, were waiting in the hall for the staff to arrange the battlefield.

The Beast Taming license Shi Yu handed over was actually fake. It was for the convenience of going to the seven islands.

Of course, because it was forged by the officials of Dong Huang, it was actually not fake.

Even in the headquarters’ database, one could find someone like Lu Bai.

And using this identity card to use the battle facilities of the Ancient Capital Arena was naturally not a problem.

As for the Beast Taming License of Shen Feng’s mechanic Lendi, it had also been activated when he came to Dong Huang. He could also use some of Dong Huang’s battle facilities.

Therefore, their battle application was very smooth.

At this moment, after confirming their identities, Shi Yu and the others chose the “bet battle”, which was the battle mode Shi Yu had used with the top student Chen Kai for the first time. Whoever lost would pay the venue fee.

The two of them weren’t in a Sequence battle, so the officials naturally wouldn’t give them free use of the venue.

After choosing, Shi Yu sighed. Why not update the venue of the Ancient Capital Arena?

This was a free opportunity. He just had to extort it later.

“Master Lendi, Master Lu Bai, the security guard said that there are many passers-by outside who want to watch the battle...”

The female staff carefully asked for Lu Bai and Lendi’s opinion.

Under normal circumstances, both parties had the right to refuse and fight in private.

Of course, if the two parties didn’t mind, the arena could also open the audience seats and let the audience in.

“Ask him.” Lendi casually shook his golden hair and said,

“I don’t mind, but your Beast Tamers in Dong Huang seem to like to fight secretly. Are you afraid that your trump cards will be seen through?”

“But no matter what, I’ll say this in advance. If you lose, I’ll still record your defeat.”

Lu Bai smiled. “The audience? It doesn’t matter. Let them in.”

“Hey, you just said that you fought with the Thousand River Hundred God of the seven islands and the Demon Blade. What happened? Who won?”

At this moment, after arriving at the Ancient Capital Arena, the blonde Mechanic, Elise, who was browsing her cell phone behind Lendi, looked up and asked.

“You’ll know after the battle.”

Shi Yu’s clone, Lu Bai, chuckled.

These words made Lendi and Elise show unfriendly expressions. Damn it, he really deserved a beating. Could it be that he had heard the names from somewhere and was here to trick them?

“Very confident. Then you shouldn’t mind if I do a live broadcast.” Elise pursed her lips.

....

“We’re in!!!”

“Yay!”

Shi Yu and Lendi didn’t care if there were spectators. After checking the identities of the spectators in the arena, those with qualified identities were let in one after another.

Students from Ancient Capital University like An Chang naturally entered the audience seats easily.

He found a place to sit down in anticipation and took a deep breath to observe the situation below.

In the front row of the audience, there was also a blonde woman sitting. There was no one sitting around her. Idly, Elise summoned her mechanical pet and let it connect to the cell phone.

A moment later, a live-stream called "Another Overconfident Challenger" appeared on her social media platform.

In the past few days since Lundy and Elise came to Dong Huang, if their opponents allowed it, they would often do this to broadcast battles to increase their attention.

This effect was indeed very good. In just a few days, because of their powerful strength and their identities as foreign Mechanics, they obtained more than a million followers.

At that moment, Elise started broadcasting again. The Beast Tamers from Dong Huang, who was paying attention to her, immediately received the news.

[Damn, these people came to the ancient capital???]

In Ancient Capital University, the "Dragon King" and "Dragon Knight" Yu Shu were also one of the people who paid attention. The moment he saw the cover of the live-stream, he could tell that this was the arena of Ancient Capital.

Because of the ostentation and strength of these two Divine Wind Shen Feng Mechanics, Yu Shu really wanted to teach them a lesson himself, but he had yet to develop completely.

[If they've come to the ancient capital, open the door and let Shi Yu loose on them!!] Yu Shu was anxious.

However, from the looks of it... the challenger didn't seem to be Shi Yu?

It was a Beast Tamer he didn't know?

Yu Shu revealed a regretful expression. At the same time, he was worried about this Beast Tamer.

After all, this Lendi was really strong...

Demon Capital, Dark Club.

Because he had responded to the challenge of the mechanical Gemini, Zou Yun also used his alternate account to pay attention to their movements.

He also received their broadcast reminder immediately and clicked on it.

This was impressive. After entering the live broadcast channel, he immediately opened his mouth wide and revealed a shocked expression.

## **Chapter 642: Blue-haired Gun God Lu Bai vs Red-haired Sword God Shi Yu (2)**

[Holy shit.]

Heavenly King Zou's heart trembled. This was because in the live broadcast, apart from Lendi, who had been very famous in Dong Huang recently, he knew the other two Beast Tamers standing on the battlefield.

White hair, a weak face, and a short stature. Wasn't this Lu Bai!!!

[Holy shit, my trending topic is gone again!!!]

Heavenly King Zou thought of this possibility immediately.

If it were other challengers, apart from the top ten Sequence contestants, Heavenly King Zou judged that the Shen Feng Mechanic most likely had a higher chance of winning.

However, if the challenger was this white-haired youth, then what were these two Divine Wind Mechanics doing?

In the end, these two were only the strongest experts under the age of 30 and below the Legendary level.

However, Lu Bai had even insta-killed the number one person below the legendary level, and they didn't restrict age limits on the seven islands. He had even insta-killed overlord-level ferocious beasts. These two probably couldn't escape the fate of being insta-killed.

Heavenly King Zou's expression was indignant and sympathetic...

At the same time, he quickly took a screenshot of the live broadcast and forwarded it to the small group that Director Zhong had just created.

It was attached: "It's already over. Do we... still need to challenge?"

....

On Director Zhong's side, he had already heard about Lu Bai's battle results on the seven islands from Heavenly King Zou and the others.

However, he really didn't know this person.

President Ye had another disciple?

He had never heard of it.

But if it was true, this Lu Bai was too terrifying. His strength was even stronger than Ji Feng and even exceeded Lu Qingyi. He might be able to catch up to Shi Yu.

Why didn't such a person register to participate in the Sequence battle?

Could it be that it was really as Zou Yun and the others said, that he was weak and didn't want to participate in such an activity?

It didn't look like it at all!

Director Zhong contacted President Ye to ask about the situation.

Unfortunately, he couldn't contact him.

After all, President Ye was also a busy person. He wasn't free at all times.

Everything was still unclear, but as Heavenly King Zou sent the message to the group, it immediately attracted Director Zhong's attention.

Director Zhong, Zou Yun, Ji Feng, Zheng Hai, and the others also followed this battle through this live broadcast.

....

Ancient Capital Arena.

Master Qian Tongming rushed over. In a battle of this level, he could only be the judge.

However, neither this Lendi nor this Lu Bai seemed to know him very well, nor did they care who the judge was. This made the corners of Master Qian's mouth twitch.

It didn't matter. Master Qian looked at the white-haired youth with a burning gaze. He was also very puzzled. Who exactly was this guy?

Top-notch master license... In Dong Huang, there were a good number of top-notch masters, but not many.

There was no reason for him not to know such a young top-notch master. Moreover, this Lu Bai didn't participate in the Sequence battle. It was too strange.

Not only was Master Qian puzzled, but the Beast Tamers who entered were also very confused.

However, they were happy to see someone step forward to challenge these two Shen Feng Mechanics.

"It's just a little difficult. The Beast Tamers in the top ten of the Sequence were crushed by these two people. This person can't be stronger than them, right?"

"That's hard to say. After all, he took the initiative to challenge. He must have some understanding of these two Shen Feng people before challenging..."

No matter what the audience said, Lendi and Shi Yu had already walked onto the battlefield.

The two of them stood looking at each other, and their auras involuntarily emitted, like two ferocious beasts.

Master Qian Tongming's heart skipped a beat. He understood that this battle was probably not that simple...

He raised his arm and took a deep breath. After seeing that both parties were ready, he said directly,

"Both parties..."

"Ready..."

As Master Qian Tongming was giving the battle command, Elise, who was broadcasting in the front row of the audience, smiled and said,

“Do you know why I said he was an overconfident challenger?”

“I’m free anyway. Let me analyze it for you.”

“Look at that ‘Lu Bai’. The white watch on his wrist is actually a Mechanic life form.”

“Look at the blue bird spirit on his shoulder. That’s clearly an undead.”

“This guy contracted undead and a machine. Is he collecting them?”

In the Beast Taming World, in most cases, specialization was stronger.

For example, Dragon Tamers who specialized in dragons, Mechanics who specialized in mechanical lives, Spirit Mediums who specialized in undead lives... They were much stronger than Beast Tamers without contract plans.

Their team configuration was more systematic and compatible.

In comparison, “Lu Bai” had an undead beside him and was wearing the configuration of a mechanical life. No matter how one looked at it, he was an outlier.

Moreover, Elise used her energy detection device to take a look. The energy value of these two pets...

One was 2.33 million, and the other was 2.5 million. Although it was not bad, compared to them, even if this guy had explosive skills and strengthening skills, it felt completely lacking.

Unless there were still stronger pets hidden. This was the only possibility.

[Stupid.] As Elise analyzed, Ji Feng and the others revealed mocking expressions as they watched the live broadcast.

What she said might make sense, but this guy couldn’t be treated as a normal person...

There were many capable people in Dong Huang who cultivated different types of pets into very strong pets!

For example, Shi Yu, the number one person below the legend of Dong Huang, wasn’t specialized in a certain type of pet!

“Battle... begin!!!”

### **Chapter 643: Blue-haired Gun God Lu Bai vs Red-haired Sword God Shi Yu (3)**

Some people felt that Elise’s analysis made sense, while others ignored her analysis. As the judge gave the starting order, Lendi and Lu Bai on both sides of the arena entered battle mode at the same time!

“Come out, my invincible partner!!” After the battle began, Lendi shouted excitedly.

A strong energy wave immediately spread on the arena!

At the same time, a dazzling light bloomed in front of him!

“Roar!!!...”

On Lendi’s side, he summoned a huge pet more than ten meters tall. It was a dragon!!!

The moment it appeared, the venue immediately changed. The sky suddenly darkened, and golden lightning shot out from the black clouds!!

This huge dragon’s brown strong body was wrapped in golden mechanical armor. Its long dragon horn was like a sharp sword, and sharp steel teeth spread on its frilly head.

A long dragon tail circled around its body. Its two strong feet slowly left the ground and flew up with a pair of huge wings that looked like black light wings.

During this process, as several purple summoning arrays appeared, the vibrating electric saw was armed on the mechanical dragon’s arms. Under the magnetic connection, the two huge electromagnetic cannons perfectly fused with the mecha on its shoulder.

Mechanical dragon, go!

“Gulp.”

As this mechanical dragon floated up, strong winds and pressure spread in all directions. The surrounding audience swallowed their saliva and revealed shocked expressions. The Beast Tamers watching the live broadcast were also slightly silent.

Not many people doubted Shen Feng’s mechanical modification technology.

The reason why Shen Feng was also called the Divine Eagle Nation was because they had mastered the most perfect biological modification technology. They had once modified a huge eagle with the strength of a top-notch totem into the strength of a demigod.

This purebred dragon race was a natural overlord race and was incomparably powerful. If they couldn’t strengthen its original strength, Mechanics definitely wouldn’t make an unnecessary move to modify it. This mechanical dragon... was definitely stronger than the foundation of a dragon!

“Roar!!!”

In the sky, not only was the mechanical dragon modified into a mechanical life form, but there were also several mechanical lives armed with it.

In a short moment, the energy fluctuations on the mechanical dragon’s body exceeded 30 million, approaching the lowest standard of an overlord race. Under this terrifying pressure, the ground and air began to tremble.

The mechanical dragon’s red eyes stared at their common opponent with its Mechanic.

“Lendi’s mechanical dragon has a second energy source loaded in its body. Its actual energy is twice the energy that can be detected. At the same time, its brain has also been modified. Its reaction speed is faster than spiritual pets, comparable to a computer.”

“Apart from that, every equipment it’s armed with has an independent energy source and a support skill to strengthen its main body. It can form extremely strong combination profundities. Most of the previous Sequence contestants lost to him,” Elise said with a smile.

“Let me see. The current surface energy value of the mechanical dragon... is about 34 million.”

Her words made the Beast Tamers who were watching the live broadcast fall silent. There were few people who were all Sequence 10 to 20 contestants. They had fought this Lendi before and knew this guy’s strength the best.

“Machinery modifying a dragon is ridiculous...” At this moment, even through the live broadcast screen, most people could feel the pressure of the mechanical dragon. The Beast Tamers present, including An Chang and the others, looked at the mechanical dragon wrapped in lightning and were shocked by its strength.

At this moment, Master Qian, who was the judge, instantly understood why the previous contestants of Dong Huang had lost to this guy.

In the arena, strong winds rose.

It was enveloped in the shadow of the floating mechanical dragon.

Lendi crossed his arms and looked at the white-haired youth opposite him playfully.

At this moment, “Lu Bai”’s expression was very calm.

As the mechanical dragon appeared, he also entered battle mode.

“Machinery armor, sniper form...”

In the strong wind, the white-haired and white-skinned “Lu Bai”, with his slender figure and muscular hands and feet, looked like they would be blown down by the strong wind at any time.

He was wearing very ordinary gray sweatpants and a white mesh coat. As he entered battle mode, the white mechanical watch on “Lu Bai’s” wrist immediately changed into a white sniper rifle nearly a meter long with a light.

If an ordinary person used such a huge sniper rifle, they would definitely have to find a place to support themselves. However, the strength of a Beast Tamer was different from that of an ordinary person. Just like that, “Lu Bai” held the huge sniper rifle in one hand, stretched out his arm, and aimed at Lendi opposite him. His aura was not at all inferior.

This scene also fell accurately into the vision of Lendi and Elise.

They subconsciously sneered.

Therefore, this “Lu Bai” was very amateurish.

They could tell at a glance that the type of this sniper rifle was centered around the Hundred Transformations Stone.

The change speed was not slow, but there were usually only two types of Mechanics who played with this mechanical material. One was an expert, and the other was a newbie.

Experts usually formed various complicated fighter jets, mechas, and extreme mechanical operations with huge numbers of Hundred Transformations Stones.

And this guy had turned the Hundred Transformations Stone into an ordinary sniper rifle. Wasn't this a joke? He was clearly a newbie.

#### **Chapter 644: Blue-haired Spear God Lu Bai vs Red-haired Sword God Shi Yu (4)**

They might have overestimated this "Lu Bai".

As for the audience, although they couldn't determine the type and level of the mechanical weapon in "Lu Bai's" hand, just from the appearance, one was a mechanical modified dragon, and the other was a mechanical gun that could be bought anywhere on the market. The level of technology was also immediately determined, making many people reveal serious expressions.

They were very worried about Lu Bai.

"What are you smiling about?"

Lendi still had his arms around him. He was on the battlefield and was not worried at all. From the looks of it, he had a backup plan to ensure his safety. In Shi Yu's eyes, his smile was the one who overestimated himself.

As Shi Yu spoke, Shi Yu raised his arm and aimed the muzzle at the mechanical dragon.

Because he was worried that if he aimed at the Beast Tamer himself, with the other party's defense ability and the judge's ability, it was not enough to ensure the Beast Tamer's survival.

"I'm smiling..."

Lendi was just about to say something when his expression stopped. This was because in an instant, the energy fluctuations on "Lu Bai", whose energy level didn't exceed ten million, suddenly increased. The speed of the increase made Lendi feel fear!

His expression changed drastically.

[Ling, how's this mechanical dragon?]

Shi Yu's clone asked the mechanical Ling in its hand.

[Biological modification isn't my forte, but give me some time. It's not difficult to reach this level of strength.]

[I see. As expected of you. Remember not to use wings.]

[Master, hurry up, hurry up. Don't waste time. After dealing with it, I still have business to do.]

Under Ling's urging, the clone Lu Bai slowly contributed its strength. At the same time, the blue bird spirit sleeping on its shoulder slowly fused into the clone's body!

Boom!!!

In the next moment, Ling and Chi Tong no longer hid their energy through the Time Sealing Fruit. Ling's nearly 4 million normal energy points and Chi Tong's nearly 7 million normal energy erupted!!

At the same time, Ling used the loading skill and activated the second energy source it had created in the mechanical space, arming itself and Shi Yu's clone.

As for Chi Tong, it first used the Myriad Sword Convergence to increase its energy level to more than 20 million. Then, it possessed Shi Yu's clone!

At this moment, under the double armor, "Lu Bai"'s aura increased by a terrifying amount just like what Lendi sensed!

In addition, Shi Yu's clone was already ridiculously strong because of his terrifying physical fitness. At this moment, with a flash of blue flames, the strongest form that shocked everyone present and in the live broadcast appeared!!

In an instant, blue flames flickered around "Lu Bai".

His surroundings changed almost instantly, affected by this powerful force.

Under the shine of the blue flames, "Lu Bai's" gaze seemed to contain blue ghost flames. The color of his eyes gradually changed in the direction of deep blue.

With a hum, a wave of hellish cold air that seemed to be able to freeze everything in the world turned into flames that wrapped around "Lu Bai"'s body.

Moreover, at this moment, "Lu Bai"'s short hair had also completely turned blue. As it fluttered with the wind, it made his aura look like a death god that had walked out of an extremely cold hell to harvest all creatures.

"Then let's end it as soon as possible!"

"Lu Bai" was still holding the sniper rifle. Under the light of the blue ghost fire, the white sniper rifle also had a blue color.

"Impossible!!!"

Perhaps the Beast Tamers before the live broadcast didn't feel it, but Elise, who was at the scene, felt the shocking change in "Lu Bai" almost instantly. In her opinion, this change was incomprehensible.

First, the sniper rifle and the blue bird spirit suddenly erupted with extraordinary power, and then they were armed with this Beast Tamer at the same time?

This was both mechanical and undead equipment?!

How was this possible!!!

Judging from the energy value erupted by the two pets, it was definitely impossible for a normal human's physique to withstand it!!

The mechanical dragon could withstand multiple layers of armor because its main body was a dragon!!!

At this moment, Elise doubted her eyes.

At the same time, the people watching the battle were also shocked.

[Holy shit, what's this...]

[Look, the sniper rifle and his arm are wrapped together. The blue bird spirit has also fused with its body!! Mechanical and undead dual possession?]

[No way, how can a human body withstand it? Won't there be a conflict?]

[But he endured it.]

[If the pet is weak enough, it's possible... But clearly, this person's pet is definitely not weak. Now I know why he looks so weak with white hair!]

[He's playing with his life in battle!!]

"You're a lunatic!"

"I was wondering why you looked so weak!"

Along with the audience, Lendi suspected his eyes.

It wasn't impossible for mechanical and undead to possess each other, but the consumption of the Beast Tamer himself was definitely very terrifying.

Although human Beast Tamers were the best carriers for mechanical lives and undead, and had the greatest increase in strength after being armed, the physique of humans also limited the upper limit of this combination.

And from the looks of it, Lu Bai had no intention of cherishing his body.

"I knew it. This person is an expert!!" In the audience, An Chang immediately said as Lu Bai erupted with strength, "The outcome of the battle is still uncertain."

At this moment, without allowing Lendi to think too much, after being shocked by Shi Yu's change, his body quickly flickered with light. A silver-red armor wrapped around him tightly, not daring to be arrogant anymore.

## **Chapter 645: Blue-haired Gun God Lu Bai vs Red-haired Sword God Shi Yu (5)**

At the same time, during this process, he also gave the mechanical dragon an attack command!!

Boom!!!

However, it was “Lu Bai” who attacked first, aiming at the mechanical dragon in the sky.

An invisible blue light flashed at the muzzle of the sniper rifle.

Right on the heels of that, an ordinary combination skill with the sniper rifle as the carrier and the Nether Ghost Flame and wind element as the energy source was born.

“Netherstorm Cannon...”

In the next moment, the blue light shot out and turned into a blue beam.

The moment the beam left the muzzle, a terrifying energy was released. The beam shot by the small sniper rifle suddenly displayed a change that shocked Lendi and the mechanical dragon.

Under the light, at this moment, the caliber of the sniper rifle seemed to have enlarged to an unbelievable extent. Under the light, a terrifying shock wave nearly ten meters in diameter bloomed from the muzzle.

At this moment, “Lu Bai” seemed to be holding an annihilation cannon that wanted to destroy the entire arena!!

Master Qian’s pupils constricted. Fortunately, it was shooting at the sky!

Boom!!

The moment the beam of light ten meters in diameter bloomed, the air around the arena froze. The strong winds on both sides suddenly squeezed towards the mechanical dragon, fixing it in the attack trajectory of the blue flames...

Under the lingering of the hurricane, the terrifying blue flames gradually turned into a blue hurricane shock wave that attacked, making the mechanical dragon roar with difficulty.

“Roar!!!”

At this moment, as the mechanical dragon roared, three golden lightning bolts lingered in the two cannon muzzles on its shoulders and its mouth. The electromagnetic cannon was ready!!

Boom!!

On the mechanical dragon’s side, the moment the three electromagnetic cannons were fired, they wrapped around each other and also became a terrifying golden electromagnetic cannon combination skill!

At this moment, Divine Wind’s Lendi didn’t even think about it. He directly used his spatial armor to teleport to “Lu Bai”’s side and carry out the “decapitation strategy”.

However, he completely underestimated the power of this sniper cannon.

The three-in-one electromagnetic cannon spat out by the mechanical dragon first squeezed together with the Nether Hurricane Cannon. The shocking collision sound lingered in the air, but in an instant, the incomparably powerful three-in-one electromagnetic cannon was directly swallowed by the terrifying Nether Hurricane Cannon!!

With a boom, the electromagnetic cannon sank into the flames and disappeared. Then, the Nether Hurricane Cannon continued to emit powerful fluctuations that swallowed the mechanical dragon!!

Boom!!!

The Nether Hurricane Cannon advanced quickly, making the mechanical dragon's pupils shrink. Its claws tore at the Hurricane Cannon, but submerged in the light of this sniper shot, its resistance was very weak. In an instant, its entire body was swallowed by the blue ghost fire swept by the hurricane!!

After devouring the mechanical dragon, the power of the Nether Hurricane Cannon did not decrease. It still pushed towards the sky, as if it wanted to rush out of this planet. Its power was so terrifying that it instantly dyed the sky blue!!

Moreover, it penetrated a vortex-like hole!!!

It dispersed the black clouds!!

The entire audience was stunned!

"Lu Bai" calmly put away the sniper rifle and pointed the muzzle down. He sensed the enemy's movements that were not restricted by the mechanical dragon at all.

At the same time.

Lendi, who was wearing silver-red armor, appeared in the air behind "Lu Bai". At this moment, Lu Bai was still looking straight at the beautiful blue sky.

Behind him, Lendi revealed a crazy expression. He aimed his palm at "Lu Bai" and red flames condensed. But at this moment, Lu Bai seemed to have eyes on the back of his head. His reaction speed was even more unimaginable than Lendi in mechanical armor.

"Go to hell!!"

Boom!!

A huge flame shot out of Lendi's palm, but what made Lendi's crazy expression stop again was that his opponent's figure directly disappeared in his attack range.

Boom!

The flames burned the ground.

But in the next moment, Lendi felt something pressing against his back. At a higher altitude, "Lu Bai" went behind Lendi at a speed invisible to the naked eye. He raised his sniper rifle slightly and aimed at Lendi's back.

At the same time, a transcendent-level deterrence wrapped around Lendi's entire body, making his expression stiffen and cold sweat fall.

At this moment, Lendi felt the hand of Death touching him. The cold touch made it difficult for him to move. Lendi revealed an incomprehensible expression.

"Impossible!!!" he shouted.

Impossible, how could this person be so strong!!

Although he later realized that Lu Bai was not simple, after two exchanges, Lendi seemed to have fallen into an abyss. He looked up at the unreachable sky and was unable to touch it.

“In my opinion, you’re no different from the Thousand River Hundred God and the Demon Blade Shen Di.”

As soon as “Lu Bai” finished speaking, with a boom, the cannon that controlled the power directly swallowed Lendi’s entire body, making his pupils shrink!

Boom!!

At the same time, gravel flew everywhere, and a huge pit more than ten meters in diameter appeared on the ground!

The terrifying shock wave directly embedded Lendi and the armor underground.

Boom!!!

As the huge pit appeared and as Lendi himself was suppressed, Elise’s gaze exploded. All the spectators were stunned.

Bang! Bang! Bang! Bang!!!

Right on the heels of that, countless mechanical parts fell from the sky like rain. Along with them was the shocking mechanical dragon from before.

At this moment, there was not a single intact place on its body. Its entire body was frozen and burned by the blue ghost flames, filled with the scratches of wind blades. Its gaze closed as it fell from the sky. With a boom, it also smashed a huge pit in the arena!

## **Chapter 646: Blue-haired Gun God Lu Bai vs Red-haired Sword God Shi Yu (6)**

The battle ended. The sniper rifle in “Lu Bai’s” hand turned into a white watch again and wrapped around his wrist. At the same time, the blue flames on his body slowly disappeared.

His hair returned to white, revealing an expression of pity.

He thought that the number one person under the new generation of legends in Shen Feng would be stronger, but in the end, even Susu was not used.

Even the two scapegoats who suffered the side effects of the double armed weapon... Only one was dead.

As expected, it was right not to let the main body come.

“Is it over just like that?” Lu Bai turned to look at Elise, who was broadcasting for Lendi, and asked her, “Aren’t you guys some mechanical Gemini? Who’s stronger between you and him? Do you want to give it a try?”

At this moment, Elise’s expression was filled with shock and paleness, even paler than Lu Bai’s face. She looked at the arena in disbelief, unable to believe her eyes.

She looked at the sky that had a huge hole blasted out by the cannon and the arena that had been shattered by the cannon. Her gaze exploded to the extreme. She looked at the broken body of the mechanical dragon and the dying Lundy in the pit. Her throat was stuck and she couldn’t say a word.

Master Qian, who was the judge, also opened his mouth wide. He looked at everything in front of him and looked at the number one person below the legend level of the new generation of Shen Feng, who had been defeated with two cannons. He forgot to announce the outcome!

The other Beast Tamers present, such as An Chang and his classmates, also looked at the messy scene in disbelief. They couldn’t understand this scene. This... was it over?? What happened just now!!

Apart from that, there were also tens of thousands of people watching the battle in Elise’s live-stream. They watched all of this in disbelief and suspected that the scene just now was fake.

Those Sequence 10 to 20 Beast Tamers from Dong Huang who had been defeated by Lun Di were completely stunned. They looked at Lendi, who was insta-killed with two shots, and doubted that he was the powerful Shen Feng Mechanic they had fought.

“This...” Director Zhong also watched the live broadcast the whole time. Was this the super monster that Zou Yun and the others mentioned, the one that swept through the older and younger generation of the seven islands?

The wrinkles on his face trembled. He was indeed a monster. He also knew Lendi’s strength. It was definitely ridiculously strong. In his understanding, Zou Yun would find it hard to deal with him. They could only let Ji Feng try, but this situation... What was it??

“As expected...”

Seeing this, Ji Feng, Zou Yun, Tong Yan, Ning Tianming, and the others were not surprised. They only sighed again at Lu Bai’s terrifying strength and were silent.

Obviously, they had long expected this outcome.

At this moment, all the Beast Tamers who watched this battle live broadcast were infinitely shocked.

Wait, wait, who exactly was this Beast Tamer?

When did such a person appear among the Beast Tamers of Dong Huang?

Controlling undead and machinery at the same time... Those two shots just now were simply cool.

“That... that machine...” At this moment, Zheng Hai, the only one who had suspected Lu Bai’s identity, looked at the mechanical gun heavily.

That should be a mechanical weapon created by the Hundred Transformations Stone.

Moreover, it was wind!!!

Shi Yu had naturally never used this before, but was there a wind-element Hundred Transformations Stone in the champion reward of the National League Shi Yu participated in?

At this moment, Zheng Hai suspected that this Lu Bai was Shi Yu.

However, in the next moment, Lu Bai's words made him silent again.

"Boring." In the arena, Lu Bai looked at the silent and unresponsive Elise, who was clearly stunned, and shook his head.

"I originally thought that I could warm up before challenging 'Shi Yu', but from the looks of it, I can't warm up at all."

"Boring. Let's go."

Through the live broadcast, everyone heard Lu Bai's words, the man who had just insta-killed the number one person below the legend level of the new generation of Shen Feng.

In the audience, An Chang's mouth opened slightly. Wait, what did this person just say?

This person was here to challenge Senior Shi Yu???

Who exactly was this guy?

As Lu Bai issued a challenge to Shi Yu, everyone's hearts skipped a beat. At the same time, Zheng Hai suddenly thought of something and quickly called Shi Yu.

Ancient Capital University.

In the Mechanical Research Institute.

At this moment, Shi Yu was touching the huge alloy monster in front of him in surprise. It could really evolve by devouring metal.

Not bad, not bad, excellent.

"Hahaha, the skill superalloy can synthesize the power of different metals and complete super evolution. The success rate of evolution depends on the skill proficiency, metal compatibility, and the endurance of the alloy monster itself."

"Unfortunately, due to technical difficulties, the upper limit of the super alloy level of the alloy monster we created has yet to exceed expert level. Otherwise, it's not impossible for the alloy monster to evolve into an overlord race mechanical life form!"

"At that time, it will be a stable evolution channel for overlord races." Dr Aqi flaunted the potential of the alloy monster.

In order to curry favor with this Dr. Shi Yu, they had invested a lot to let the Mechanic class of Ancient Capital University study alloy monsters. However, if Ancient Capital University didn't show some sincerity, they definitely wouldn't exchange core technology.

“It’s indeed a pretty good skill.” Principal Feng and Dean Hao nodded. If the Iron-eating Beast could master this, it would be invincible!

At this moment, just as Shi Yu was about to say something, his cell phone suddenly rang. He took a look and realized that it was Zheng Hai.

The super alloy skill had already been replicated. After gesturing to Dr Aqi and the others, Shi Yu directly picked up the phone.

## **Chapter 647: Blue-haired Gun God Lu Bai vs Red-haired Sword God Shi Yu (7)**

In the next moment, Zheng Hai’s face appeared in the video.

As Shi Yu picked up the phone, Zheng Hai’s face revealed a stunned and confused expression, as if it was very unbelievable for Shi Yu to answer the phone at this moment.

He looked at the scene of Elise broadcasting through the split screen and then at Shi Yu, who was talking to him through the video call. He was immediately stunned.

“Brother Zheng Hai, what’s the matter?” Shi Yu asked.

“This, this, this, Brother Shi Yu, where are you now?” Zheng Hai asked in the video call.

“I’m at Ancient Capital University. I’m with Principal Feng and the others now.”

Zheng Hai was confused. Through the background of the video, it was true that Shi Yu seemed to be in a laboratory.

Could it be that he was wrong?

Lu Bai... wasn’t Shi Yu?

“Hahaha... It’s alright, it’s alright. Did you see the live broadcast battle that a Divine Wind Mechanic made just now? Do you know Lu Bai??”

Shi Yu revealed a puzzled expression and said, “Lu Bai? I’ve heard of him. Isn’t that the disciple of President Ye in the third bureau?”

Zheng Hai’s expression was extremely complicated. Really?

It looked like he was overthinking?

He said, “Yes, this Brother Lu Bai is also ridiculously strong. Did you know that just now, in the Ancient Capital Arena, he fought with the number one person below legend of the new generation in the Shen Feng exchange team, ‘Lendi’? He only used two moves to defeat the other party. It’s simply abnormal.”

“Moreover, Brother Shi Yu... Brother Lu Bai seemed to have publicly challenged you just now...”

Shi Yu was surprised. “Challenge me??”

He smiled and said, "It doesn't matter. No matter whose challenge it is, I'll accept it."

Zheng Hai was silent. Could he watch the battle??

This was a f\*cking peak battle!

"Sorry, I still have something to do here. I'll hang up first. Talk to you later."

"Alright," Shi Yu said. In the video, Zheng Hai also nodded. The two of them immediately hung up with different feelings.

After hanging up, Shi Yu looked at Dr Aqi and the others.

"Dr Aqi, is that Lendo or something guy from your side? Just now, my friend said that he seemed to be fighting our Beast Tamer from Dong Huang in the Ancient Capital Arena. He was insta-killed with two shots and his injuries are very serious. Do you want to take a look..."

Mechanics had it rough when it came to repairs, right?

As Shi Yu finished speaking...

Dr Aqi and the others were stunned.

Then, he was stunned again.

What, what did he say? What happened?

....

At this moment, the Internet was boiling because another ridiculously strong new generation Beast Tamer had appeared in Dong Huang!

Lu Bai!

Two shots instantly killed the number one person below legend of the new generation of Shen Feng!!

Monster-like strength!!

Previously, Shen Feng's mechanical Gemini Stars fought everywhere in Dong Huang and announced its victory, making the group of Beast Tamers of Dong Huang unhappy for a long time.

But at this moment, with Lu Bai's two shots, all the pressure disappeared.

Although they didn't know why Lu Bai didn't participate in the Sequence Battle and didn't know his identity, the news that Lu Bai was going to challenge the number one person below the legend of Dong Huang, Dr. Shi Yu, made everyone extremely excited!!

Holy shit, a strong battle!!

They wondered if Dr. Shi Yu would fight.

One was a blue-haired gun god holding a white sniper rifle.

One was a red-haired Sword God holding a fire sword spirit.

At this moment, the Beast Tamers who wanted to watch the show were more or less all excited.

In the small group chat pulled up by Director Zhong, Zheng Hai stood at the front line and immediately shared this big news to Zou Yun, Director Zhong, and the others.

“Everyone, I just called Shi Yu. He’s also in the ancient capital now. He said that he will accept this Lu Bai’s challenge!!” Zheng Hai said excitedly.

## **Chapter 648: Tyrant Dragon and Duckbill Beast**

After replicating the super alloy skill, Shi Yu slipped away.

Principal Feng slipped away with him.

Only Dean Hao and the Shen Feng exchange team were left.

“That’s it?”

Seeing that Shi Yu had only watched the evolution of the two alloy monsters once before slipping away, Principal Feng was puzzled.

Shi Yu chuckled and said, “They definitely won’t simply tell us the core technology of superalloy.”

“I’ve already told Dean Hao what I intend to learn from them. Let him communicate with the other party in depth.”

“If I can freeload from Shen Feng, I’ll get it for free. I can’t freeload... Well, aren’t there still the seven islands? When it comes to compensation, I can also take the superalloy technology.”

“You..!” Principal Feng muttered.

Be it Shen Feng or the seven islands, they were unlucky to have encountered him.

“By the way, what’s going on at the Ancient Capital Arena?” Principal Feng had a strange expression.

“Lu Bai’, isn’t that your fake identity when you went to the seven islands?”

Because Principal Feng was a relevant person, he was one of the few people who knew that Shi Yu had gone to the seven islands to crack the Phoenix Mystic Realm with Lu Bai’s identity.

Just now, when he heard that Lu Bai insta-killed the new generation genius of the Shen Feng exchange team in the Ancient Capital Arena, he was also stunned for a moment.

It wasn’t that he was stunned that the other party’s genius was insta-killed, but that Lu Bai was supposed to be Shi Yu.

However, at that time, Shi Yu was indeed beside them, so he was as stunned as Zheng Hai.

“It’s a clone, but the pet it brought along isn’t a clone, so it’s easier to win,” Shi Yu said. “Isn’t this because the main body still has to receive Dr Aqi and the others?”

Principal Feng opened his mouth slightly.

He repeated his thoughts.

Be it Shen Feng or the seven islands, they were unlucky to have encountered him!

If the other party's genius knew that it was only a clone that tortured them, wouldn't their mentality collapse?

"By the way, Principal Feng, do you know where Senior Lu and the Void Mantis are now?"

After Shi Yu smiled, he quickly forgot about the Shen Feng exchange team. Their value was temporarily gone.

Principal Feng shook his head and sighed.

"I heard that the Void Mantis wants to take a look at the old sites of the Space Emperors in Dong Huang. Why, what's the matter?"

"Are you looking for Qingyi or the Void Mantis?"

"It's nothing. I just plan to go out and play with them in a few days..."

"You still want to go out?!" Principal Feng was furious. F\*ck, you're now covered in legendary resources, you're holding even more stuff than the national treasury of a totem country.

If anyone killed them on the way, the treasures dropped would probably be enough to create a totem!

The Phoenix Mystic Realm having treasures in there was due to luck being on his side. This guy was addicted.

"It's alright, I'll definitely call Teacher Cat. Moreover, I've already eaten the Undying Fruit and have the protection of the Dragon God. How can there be so much danger?" Shi Yu smiled and said, "Even President Lin doesn't mind me wandering around. I think you're thinking too small in this case, principal."

Principal Feng : "..."

President Lin was indeed not like an elder like Principal Feng. President Lin didn't care much about Shi Yu's thoughts of going to various places to train and even the intention to participate in the World Tournament.

"I wonder what he's thinking." Principal Feng hated it.

"I'll stay obediently during this period of time, but Principal Feng... There really aren't many places for pets to train if I stay obediently. My current ruins space can't withstand Eleven and the others anymore."

Shi Yu looked up and showed Principal Feng the ruin ring in his hand.

"Speaking of which, it's time to update this thing. Our bureau should have a higher-level ruins space, right? I want to change it."

Principal Feng was silent for a moment before looking at the ruin ring in Shi Yu's hand.

That was true.

Shi Yu's improvement speed was too fast. In a short period of time, he already had overlord-level battle power.

This ordinary ruins space was indeed about to be unable to support his pet's special training.

"I understand. I'll help you get it. I can't find a legendary one like Qingyi's, but there should still be a stock of high-level ruins with higher strength," he said. "It should be able to ensure that overlords can fight and train inside."

Good!

Shi Yu was happy. Before he found the legendary ruins space, he could only continue to rely on Bureau 11 to replenish his equipment.

...

At the same time, Lu Bai became popular, and so did Zou Yun.

As Lu Bai easily crushed the genius of Shen Feng, Zou Yun's comment that was forwarded to the live broadcast made Zou Yun become the second trending topic.

Zou Yun: "Who exactly is the overconfident one? Although the battle hasn't started, I've already expected the outcome. If nothing goes wrong, this Shen Feng Mechanic will be insta-killed by Lu Bai. PS: I'm good friends with Lu Bai. He's much stronger than me."

Everyone was extremely unfamiliar with Lu Bai, and Heavenly King Zou directly became the only big boss who knew Lu Bai.

As Zou Yun's "divine comment" that had been published before the two of them started fighting was dug out, Heavenly King Zou's popularity as Lu Bai defeated the Shen Feng genius also appeared on the trending list.

In the Dark Club in Demon Capital, Heavenly King Zou looked at the rising popularity and fell into deep thought.

He seemed to have found the secret to success.

Why not stop working hard?

Wouldn't it be easier for him to follow behind people like Shi Yu and Lu Bai?!

Of course, in the face of various questions from his fans, Zou Yun didn't reveal any other information about Lu Bai. He knew when to stop.

## **Chapter 649: Tyrant Dragon and Duckbill Beast (2)**

At this moment, what most Beast Tamers wanted to know was when Lu Bai and Shi Yu would fight. Would Lu Bai register for the Sequence battle and enter the ranking?

The Sequence Competition Committee was also facing the same problem. They wanted to drag this Lu Bai in.

Unfortunately, Director Zhong had already contacted President Ye and was gradually approaching the truth.

“Lu Bai... Ah.” When President Ye heard Director Zhong’s question, he felt awkward. Lu Bai, wasn’t that Shi Yu’s alternate identity? When he created this fake identity, it was casually made up by Principal Feng, President Ye, and the others...

Only the higher-ups related to the trip to the seven islands and the Phoenix Mystic Realm knew about this alternate identity. Director Zhong had been presiding over the Sequence battle in the country and was unrelated to this matter. It was normal not to know.

However, President Ye didn’t know if it was appropriate to reveal it now. He could only kick the ball to President Lin.

Therefore, Director Zhong contacted President Lin.

“Lu Bai?” After President Lin heard Director Zhong explain the matter, he was silent for a moment. “Lu Bai challenged Shi Yu? Are you joking?”

Director Zhong: “Ah, Elder Lin, what’s the joke? What’s wrong? I heard that this Lu Bai’s performance on the seven islands is very dazzling. His age is also suitable for participating in the Sequence battle... But President Ye said that it was your arrangement to not let him register?”

President Lin said, “Lu Bai is a disguise of Shi Yu. If you don’t find it troublesome, you can play along with him.”

Director Zhong: “?”

Director Zhong opened his mouth slightly. There were many question marks now.

Wait, wait, wait!

Didn’t Zheng Hai call Shi Yu when Lu Bai was fighting Lendi??

It was the same person?

Director Zhong’s old brain suddenly felt a little uncomfortable. Something was wrong, something was wrong. President Lin, Zheng Hai, Shi Yu, and Lu Bai, one of these “four” had to be a big liar!

....

After Lu Bai finished fighting Lundy, he calmly left the Ancient Capital Arena. No one knew when he would challenge Shi Yu.

At the same time, people also realized that Lu Bai didn't participate in the Sequence battle either. Even if he challenged Shi Yu, no one would definitely publicize the outcome, let alone the battle process. They definitely couldn't see it.

This couldn't help but make the Beast Tamers who wanted to watch the show feel an itch. They felt that they had been interrupted and didn't get to see any follow-up.

At this moment, Shi Yu himself also received messages from various contacts and friends to ask about the situation.

Shi Yu's unified reply was that Lu Bai had yet to find him.

Although Lu Bai might not exist in the future, the legend of Lu Bai would definitely be forever spread in the martial world with this wave.

As for the real Shi Yu vs Lu Bai, Shi Yu thought about it and felt that it wasn't impossible. He would talk about it during the second team meeting.

At that time, apart from individual battles, they could also have an entire team battle.

Eleven, Buggy, and Baby Ginseng versus Chi Tong, Susu, and Ling.

The three brothers and three sisters.

Before that, Shi Yu decided to find a place to work overtime for two months.

He wanted to increase the super skills of every pet to expert level.

...

That day, Principal Feng's high-level ruins space was sent over.

He handed Shi Yu a black ruin ring.

"Speaking of which, Qingyi was the one who cracked this high-level ruins space. The master was a titled female plant controller in the totem era, so this ruins space has been modified. It's very suitable for the growth of plants."

"How many ruins did Senior Lu crack?" The corners of Shi Yu's mouth twitched. If he remembered correctly, Senior Lu's legendary ruins space was also cracked by her.

Principal Feng chuckled and said, "There definitely aren't as many as you, but the ruins that Qingyi cracked are all relatively well preserved. They can all be used, while yours seem to have either shattered or imploded."

"I don't think you've handed in many ruins spaces until now, right?"

Shi Yu : "..."

Could he be blamed?

The mechanism of cracking the ruins was different!

Shi Yu coughed dryly and took a new ruin ring. "I'll... hand it back after moving the things inside."

Principal Feng said, "There's no hurry. I'll leave it with you first. Aren't you giving Fang Lan an assessment? After she becomes an official member of Bureau 11, you can just give that old one to her."

"Alright." Shi Yu nodded and smiled. "Sorry to trouble you, Principal. With this, I can train hard for a period of time."

Principal Feng snorted and said, "I hope so..."

....

"Perfect!"

After obtaining the new ruins space, Shi Yu chose to return to the "paradise" of the Ice Dragon Snow Mountain outside Ping Cheng to cultivate.

But first, he had to move.

On the icy plain, Shi Yu opened the teleportation channel that connected the ruins to reality. After opening the teleportation channel that connected the ruins to reality, Eleven and the others began to move.

"Wuu!!"

Eleven cracked the ground and directly jogged to the new space with both hands in the training room and bedroom.

Buggy, Baby Ginseng, and Chi Tong transplanted the Sun Flame Flower with difficulty.

The easier one was Susu. It had its own independent space and didn't have much junk.

Ling was still alright. Although it had a huge research institute, it had a mechanical space, so it was relatively easy to move. Moreover, its huge computing power allowed it to easily not miss anything.

The most bitter one was none other than Baby Ginseng. Most of the spiritual plants in the original ruins space had to be transplanted over. Apart from that, there was also a pile of seeds and medicine in its research institute. In order to make it more convenient and less noisy, it could only ask the tool worm to help move.

### **Chapter 650: Tyrant Dragon and Duckbill Beast (3)**

After about an hour, Shi Yu and the others finished moving.

During this period, the mechanical Tyrant Dragon and the Duckbill Beast... were still fighting in the dragon circle.

Shi Yu and the others dealt with these two guys in the end.

"Stop fighting." Shi Yu sighed and pulled out the mechanical Tyrant Dragon and the Duckbill Beast.

The two of them glared at each other, neither willing to give in.

Shi Yu smiled and said, "I got Buggy to create a training ground for you. You can't tell who's stronger now. You can fight after training and becoming stronger."

"It's very suitable for you to train your strength."

"Roar? (What?)" The mechanical Tyrant Dragon turned its head curiously. It urgently needed strength!!

Now, perfectly defeating the duck that threatened its position as the king of the earth had become the mechanical Tyrant Dragon's main motivation.

"Quack! (Where...)" The Duckbill Beast also revealed a sharp gaze. It also urgently needed strength now.

No matter what, it had to make this guy who was trying to expand land and conquer the sea realize who the real boss was.

"There." Shi Yu pointed at the teleportation array over there and said, "I got Buggy to create an illusion domain in the new space."

"There are ten guardians there. They are the ten illusions created by Buggy through Eleven's hardening substance, its worm silk, Baby Ginseng's whiskers, Chi Tong's feathers, and Susu's water drop."

"It's considered Eleven and the others' baby form."

"Next, you have to pass ten levels and defeat your seniors' baby form phantoms. Every level you pass, there are resource rewards. Believe me, after passing, your strength will undergo a tremendous change."

The mechanical Tyrant Dragon and the Duckbill Beast were stunned.

Eleven, Buggy, Baby Ginseng, Chi Tong, Susu's transcendent and commander-level illusions??

The two of them revealed calm expressions.

When the opponent didn't have the strength of a monarch, that unreachable figure might not be impossible for them to touch!

The mechanical Tyrant Dragon and the Duckbill Beast quickly entered the new space and ran to the training domain Shi Yu had prepared for them.

As soon as they stepped in, they saw the guardian of the first level.

It was a palm-sized green worm that was sleeping.

Seeing this, both the huge mechanical Tyrant Dragon and the Duckbill Beast that had eaten many bugs smiled.

"Heh." The Tyrant Dragon was like a husky.

"Quack." The Duckbill Beast also smiled and entered something like puberty.

That was it?

“Roar!!! (I’ll go first!)” The Tyrant Dragon roared and directly took a step forward, stepping on the ground. With a boom, a huge earthquake wave swept towards the Green Silkworm sleeping on the lawn!!

Seeing this, the mechanical Tyrant Dragon thought that victory was in its grasp. However, in the next moment, the Green Silkworm phantom opened its eyes tiredly and looked at the sweeping shock wave. It yawned.

Its body gradually turned ethereal.

Expert level, Concealment!

Boom!!!

The earthquake directly swept across, not hitting the Green Silkworm phantom at all. Then, the Green Silkworm turned around and changed its posture, stunning the mechanical Tyrant Dragon.

“Ji! (Trash!)”

In the next moment, the Green Silkworm Phantom’s expert level super vision locked onto the mechanical Tyrant Dragon. It accumulated strength in its mouth, and the Dao Proficiency worm silk formed a “white sharp spear” that penetrated the mechanical Tyrant Dragon!!

Swoosh!!!

The white line spat out of its mouth shot out at a high speed like a bow. Its destructive power seemed to be able to penetrate steel in one hit. Its speed was so fast that only an afterimage could be seen, stunning the mechanical Tyrant Dragon again!

Bang!!!

The Worm Silk Spear penetrated the mechanical Tyrant Dragon’s body, causing its body to directly cave in, making it widen its eyes. With a retch, it almost vomited out the soil it had eaten for lunch. It felt that all the bones in its body were about to shatter instantly. A shocking wound even appeared on its body. Then, its body was smashed out like a cannonball!!

Boom!!

It landed on the ground in the distance.

“Ji.” The Green Silkworm phantom glanced at the Duckbill Beast, yawned again, and continued sleeping.

Duck Beak Beast: ???

The Duckbill Beast looked at the extremely miserable mechanical Tyrant Dragon that flew backward and then at the Green Silkworm Phantom in front of it. It opened its beak wide and looked at Shi Yu beside it.

It was as if he was saying that this monster was transcendent?

Shi Yu said, “Transcendent, yes. Its energy value isn’t necessarily higher than your normal state and explosive power. It’s just that the accompanying moves and skill proficiency are a little unscientific.”

“Next, try to overcome the pressure brought about by their baby forms first. By fighting them, you will understand that you still have a long way to go.”

“The world is very big. Don’t just set your sights on what’s immediately in front of you. No matter how long the two of you fight, you won’t be able to improve much. Let’s broaden your horizons first.”

The mechanical Tyrant Dragon and the Duckbill Beast fell into deep thought.

As expected of an overlord race, the Tyrant Dragon was still resistant to beatings.

It actually wasn’t insta-killed after taking a hit from the worm silk.

However, he still had a crisis.

This was... the first level?

Then... What was behind it?

They suspected that Shi Yu was lying to them!!

Was this the strength of a green worm?

“This is the battle power of your Senior Buggy when it was at the transcendent level. There was even a video record at that time...”

“By the way, there’s a time limit for each level. If you can’t clear it in the specified time, the food in the future will be halved.”

Mechanical Tyrant Dragon, Duck Beak Beast:???

“However, challenging illusions doesn’t necessarily have to be 1VS1. If you really can’t defeat it, the two of you can also team up. Working together also counts.”

After Shi Yu finished speaking with a smile, the mechanical Tyrant Dragon and the Duckbill Beast looked at each other and turned around. Who the hell wanted to cooperate!!

“All the best, I’m leaving! Call me if you need anything!”

After arranging the “path to godhood” for the two members of Team Two, Shi Yu slipped away.

To be honest, it was a little difficult to defeat a member of the team with the “strength of points”.

However, the Mechanical Tyrant Dragon could rely on Ling’s research ability to constantly perfect its race and upgrade, while the Duck Beak Beast could rely on Susu and Baby Ginseng’s research to gradually recover the power of the Abyss Demon Duck. Perhaps, even without adding points, they could slowly defeat Eleven and the others of the same level.

Probably...

Shi Yu nodded. If they couldn’t defeat it, they could still cooperate. It wasn’t a big problem.

Compared to the “Baby Fighting Training Method” of the members of the second team, the members of the first team were also about to start the super skills and training that they enjoyed torturing each other.

Shi Yu took a deep breath and walked towards Buggy and the others calmly...
