

Beast 661

Chapter 661: Undying Sun Ginseng (2)

“After this Beast Tamer’s talent has been plundered by you, do you still want to turn their pet into an undead and snatch it?” The gem cat curled its lips.

Shi Yu said, “That depends on the strength of the pet. If it’s too weak, it’s not worth occupying the spatial position of the bone sword...”

“Damn it, you still look down on overlords.”

....

In the dark forest, a Beast Tamer in dark green ancient clothes hidden in complicated plants was sitting cross-legged on a tree, meditating with his eyes closed.

“Not enough, not enough, not enough!!!”

A violent, bloodthirsty, and low voice kept coming from the Beast Tamer’s heart.

“High-level Beast Tamers are rare individuals. We definitely won’t be able to encounter the next batch in the short term. Let me rest first, and then we’ll change places to hunt.”

This Beast Tamer’s face was pale and he looked very weak. From time to time, he would take out a pill from his clothes and place it in his mouth.

“Your recovery is too slow.”

Its voice was impatient, but suddenly, its tone changed.

“Eh? There’s movement? This is a supplement’s aura?”

A violent, bloodthirsty, and low voice sounded, stunning the Beast Tamer.

She opened her eyes. In the next moment, a fragrance slowly came to her. In an instant, she felt that her exhausted body had improved a lot.

This was very unbelievable, because she had contracted an overlord-level creature at level six. Her body had already been dragged down to less than five years of lifespan, and her body was constantly on the verge of collapse. In order to maintain her life, she had tried countless medicines, but the effect was very small.

But just an aura just now actually made her feel like her body had changed its vitality??

What exactly was it!

However, she still said cautiously, “Something’s wrong... This is the territory of the Green Scaled Dragon. It has always loved to eat nourishing spiritual fruits. How can a nourishing life form come here...”

“Cut the crap. It looks like its level isn’t low. Let’s catch it and split it.”

The violent voice sounded, making the Beast Tamer fall silent slightly. "If you continue to mess around with your overlord-level strength, we'll all die. This is the border of Dong Huang. The Beast Tamers you eat are all from Dong Huang. There are countless people who can get rid of us over there."

"You're too careful."

"Are you looking down on my overlord-level strength?!!" As its voice fell, the life figure that made them sense that something was wrong slowly appeared.

It was a ginseng baby about 0.3 meters tall in a white coat, a doctorate hat, and a green leaf scarf...

The appearance of this ginseng baby made the Beast Tamer and the mysterious voice who sensed its figure fall silent.

"Monarch level, ginseng baby??" The mysterious voice was shocked. It was completely new.

"Something's wrong, this isn't a wild ginseng baby!! Its clothes are from Dong Huang!!!"

However, at the same time, the female Beast Tamer's vigilant mental voice instantly sounded.

In the next moment, the ground directly collapsed and cracked. Countless wooden spikes shot into the sky and bent towards this ginseng baby!!

Boom.

Underground, a huge tree demon rose from the ground, revealing a deep red single eye as it waved its bloodstained branches.

< Name > Earth Abyss Demon Tree

[Attributes]: Wood, Earth

[Race Level]: High-level monarch

[Level of Growth]: Overlord

Energy Points: 30.6 million

The Earth Abyss Demon Tree and the female Beast Tamer stared at the ginseng baby that had been pierced by the Earth Thorn. But not long after, their expressions changed drastically, because with a boom, the Earth Thorn that surrounded the cage was immediately torn into pieces, turning into messy fragments that bounced in all directions with a wind pressure!

Inside the Earth Spike, the ginseng baby that was attacked just now was not affected at all. There wasn't even dust on its body.

At this moment, it was holding a sword-shaped leaf like a sword immortal, looking elegant!

The commotion just now was caused by it waving the sword leaf!

Boom!

A terrifying overlord-level might erupted from this ginseng baby.

The power of the Time Fruit was activated. The ginseng baby, which was originally at the monarch level in the other party's eyes, instantly increased to the overlord level. The energy wave was at least twice that of this Earth Abyss Demon Tree.

Seeing this scene, the expressions of the Earth Abyss Demon Tree and the female Beast Tamer changed drastically again.

"Overlord-level ginseng baby, how is this possible!!!"

"Retreat!!"

They instantly had the same thought because everything was too ridiculous.

However, Baby Ginseng didn't seem to want to give them this chance.

"Yi... (Anything is possible.)" Baby Ginseng's expression was calm. The sword leaves created through plant control vibrated crazily in its hand, and from time to time, sword cries that tore through the air could be heard.

In the next moment, like a sword light that broke through the darkness, Baby Ginseng's aura was like an unsheathed sharp sword. As Baby Ginseng hooked its finger, the sword leaf directly turned into a sword light with a light and slashed at the Earth Abyss Demon Tree.

Towering emperor, sword control technique!

"Why does this Baby Ginseng know how to attack!!!" The Earth Abyss Demon Tree was shocked.

Swoosh!

The fatal aura made the Earth Abyss Demon Tree's entire body turn cold. At this moment, it still didn't understand what was going on. However, with its wood-element strengthening talent, it no longer cared about anything. It directly hardened its entire body and resisted this attack!!

With a boom, the sword leaf hit the Earth Abyss Demon Tree and drew a sunken wound on its stomach. And because of the hardening existence, half of the sword leaf was directly stuck on the Earth Abyss Demon Tree's body, making it unable to take another step forward.

Chapter 662: Undying Sun Ginseng (3)

It was only a light injury.

The attack couldn't completely break through its defense.

"Huh???" Seeing this, the Earth Abyss Demon Tree heaved a sigh of relief. It suddenly felt that it was only so-so.

Yes, why should he be afraid of a mere ginseng baby?

Even if it was at the overlord level!

“Not good!!” But at this moment, the contractor of the Earth Abyss Demon Tree felt a life-and-death crisis.

The half sword leaf on the Earth Abyss Demon Tree’s body... flickered with orange-red light.

It emitted a warm aura.

That was... the light of an explosion.

On the other side, Baby Ginseng shook its head. As expected, it was still not suitable to be a sword immortal. Explosion was the eternal art...

Mutated Moon Explosion!

As the light became stronger and stronger, the Earth Abyss Demon Tree’s pupils constricted.

Boom...

A dazzling red light came out, accompanied by a world-shaking bang. The rolling heat wave tide rose into the sky like a volcano eruption.

The red smoke swept up energy fluctuations like Sun Flame Flowers that instantly bloomed in the sky.

The violent hot wind and shock wave uprooted countless huge trees and burned them. At this moment, as strong wind and strong light blew over, the female Beast Tamer on the tree instantly sensed the death message of the Earth Abyss Demon Tree. It also made her already weak life aura even weaker because of the backlash of her pet.

Right on the heels of that, her figure disappeared from the explosion like the Earth Abyss Demon Tree and died completely. Even the enemy’s Beast Tamer couldn’t be seen!

Until everything calmed down...

“It was directly killed?” Shi Yu and the others slowly walked over, and the gem cat asked.

“Wood-element strengthening talent. Boring. I looked forward to it for nothing.”

“I mean that tree. Didn’t it become an undead?”

“No...”

“Although it’s at the overlord level, it’s a monarch race at the overlord level. It’s too weak... It’s useless for it to become an undead puppet,” Shi Yu muttered.

It was all for nothing.

When the gem cat was at the overlord level, it had more than 50 million energy points. The two overlords Baby Ginseng had killed previously also had about 50 million. This 30 million was too weak, equivalent to the weakest overlord. It had no collection value at all.

Moreover, as a Beast Tamer, it was also professional ethics not to throw a pokeball at the pets of other Beast Tamers!

“Yi ~” In the hot ruins, Baby Ginseng straightened its hat and took root on the spot with a weak expression. It used the Earth Chain to recover its state. Just now, it used the Time Fruit to erupt, directly draining its state.

Although it was just a leaf, it had exhausted most of its energy. The profundity was the final explosion.

“You’ve changed,” the gem cat also muttered.

This kid wasn’t that little brat who had to have a bodyguard even when killing monarch-level undead in the Undead Battlefield.

“The pair just now should be from the Divine Tree Nation, right?” Shi Yu asked.

“Well, both pets and Beast Tamers,” the gem cat analyzed. “Moreover, that overlord should be an overlord who was given ‘special power’ by the controller of the Divine Tree Nation. Otherwise, how could that guy break through to the overlord level?”

“Ordinary Earth Abyss Demon Trees don’t have the habit of sucking blood, and this one seems to like sucking blood very much, and it likes to suck human blood very much. It’s probably the way it breaks through to overlord.”

The gem cat said, “Also, it’s quite ruthless to squeeze its contractor dry. That Beast Tamer’s life fluctuations are like candles that are about to be extinguished...”

It was completely using unorthodox methods to use Beast Tamers as a resource to break through the racial restrictions. Most high-level pets of totem countries had mastered such skills.

Shi Yu fell silent and said, “If I contracted an overlord-level pet in advance, would I become as weak as that woman?”

The gem cat grinned. “That’s not for certain. Even if you don’t contract in advance, you look pretty weak.”

“Tch.” Shi Yu shrugged.

His physique shouldn’t be something others could compare to... Probably.

Shi Yu came to Baby Ginseng’s side and handed it a level-seven energy crystal to accelerate its recovery.

At this moment, the gem cat said again, “Speaking of which, what was that move just now... No matter how weak that overlord is, under normal circumstances, it shouldn’t have been blown to pieces, right...”

“It’s the Sun Flame Flower. Baby Ginseng added the power of the Sun Flame Flower,” Shi Yu said.

“Yi!!” Baby Ginseng held the energy crystal and nodded!

On the top of Baby Ginseng’s head were ten ginseng leaves and a ginseng flower.

There were great tactics here. It stored the mutation power it had collected through its mutations.

For example, the ten ginseng leaves stored spatial power and were an important source of power to use the Anti-Buggy Energy Fruit in battle.

Among the ginseng flowers, Baby Ginseng was currently storing the legendary sun power from the Sun Flame Flower.

“Sun Flame Flower???” The gem cat was stunned and said, “Isn’t that Chi Tong’s resource?”

“Mi!!” The sword spirit pendant hanging on Shi Yu’s neck swayed. There were two, so it was fine to give one to Baby Ginseng.

As long as Baby Ginseng had more chances to revive, it would be fine as long as Baby Ginseng allowed it to eat it a bit...

Baby Ginseng: ...

Shi Yu said, “My new idea is to let Baby Ginseng evolve again through the Sun Flame Flower.”

Moon Explosion was a method to use Moonlight Radiation to make plants explode, and Moonlight came from the sun. If Baby Ginseng could also mutate through sun-type resources, its self-destruction might be even stronger.

When it exploded, the sun and moon shone together!

The explosion of the sun was stronger than the explosion of the moon, right?

Chapter 663: Undying Sun Ginseng (4)

If only Baby Ginseng could master the nuclear fusion ability of the sun...

However, the Sun Flame Flower was a legendary fire-element resource after all, and Baby Ginseng was a wood-element resource. Such a reverse-element mutation was definitely very dangerous. Therefore, at the moment, Shi Yu was letting Baby Ginseng experience and adapt through this method.

In fact, he had already adapted most of the time. He wasn’t prepared previously, but now, Baby Ginseng’s revival skill had already cooled down. When he found an opportunity, he might be able to let Baby Ginseng try using the Sun Flame Flower as a mutated resource.

If it succeeded, it would be the Undying Sun Ginseng.

Even if it failed, it could still revive.

Not only could the Time Mark be used to self-destruct, but it could also be used to bet on mutations!

“Is it reliable?” The gem cat’s eyelids twitched. The last time, the fact that you let Baby Ginseng absorb the power of death was already unreliable. This time, you still want Baby Ginseng to absorb the legendary sun power to evolve??

He really wasn’t afraid that Baby Ginseng would die.

It was as if he thought everything would be fine since it could revive...

“Yiya.” Baby Ginseng wiped its tears. If not for the sake of being first in the team, which wood-element plant would be willing to absorb the power of fire?

....

Next, Shi Yu and the others searched. In the end, the gem cat discovered the traces of the Green Scaled Dragon.

The place where they were fighting just now was actually the edge of the Green Scaled Dragon’s territory. As Shi Yu and the others infiltrated and discovered many Green Scaled Snakes, they understood that they had already entered the other party’s territory.

The Green-scaled Snakes were commander species creatures, while the Green-scaled Flood Dragons were low-level overlord species creatures. They were the overlords of this forbidden zone. They were at the top of the food chain in the form of races, commanding other weak races.

“Yi!!!” After returning home, Baby Ginseng was extremely excited. Yes, it was these guys!!!

However, although Baby Ginseng was excited, the gem cat’s expression was a little troubled. “Are you sure you want to provoke this guy?”

It stood on the same mountain as Shi Yu and looked at another mountain. It said, “Although I can only sense it from afar, I can roughly confirm that this guy is on a completely different level from that Earth Abyss Demon Tree and that Heavenly Cloud Tiger. It’s very likely a top-notch overlord.”

In the gem cat’s opinion, even if Shi Yu and the others worked together to fight a top-notch overlord, it would be very difficult. At that time, it would most likely still need its help.

“Top-notch overlord?” Shi Yu was stunned. “Are you sure?”

“In any case, the aura is very strong,” the gem cat said. “The places where overlords live all year round will have their deterrence and reflect their strength. It’s also a warning to the enemy.”

Shi Yu smiled and said, “It’s good to be a top-notch overlord. It’s meaningless to fight ordinary overlords. Why don’t we use a top-notch overlord to test Eleven and the others’ strength? In any case, there’s still you...”

Gem Cat: “! @#% #¥@¥”

“I’m not done!!!” the gem cat said. “Moreover, from the situation over there, there shouldn’t be just one overlord, but three!!”

The gem cat said, “I sensed the aura of three overlords from that side. The other two shouldn’t be stronger than the Green Scaled Dragon, but they’re definitely not weak. They won’t be weaker than that Heavenly Cloud Tiger!!”

“Three? It’s already good enough that these overlords don’t fight for territory, why are they still gathered together? Are they playing together?”

Green Scale Mountain.

In the Green Scaled Dragon's territory, apart from the Green Scaled Dragon, there were indeed two overlords. One of them was the Ice-Eyed White Tiger, and the other was the Mountain Tortoise.

The incomparably huge Green Scaled Dragon circled around the rock and stared at the two overlords below. "Have the two of you already decided?"

"I've decided."

"In any case, I don't have much lifespan left. I might as well give it a try."

The Mountain Tortoise and the Ice-Eyed White Tiger roared. During this period of time, the overlords of the forbidden zone of the Lost World often received invitations from the totem countries. The conditions promised by the totem countries to join were getting higher and higher. Apart from level-eight resources, there would also be humans as blood food and nutrients for growth.

Compared to the totem country and the human countries, the wild overlords without factions were originally the weaker side. They didn't rely on any faction because they were used to freedom, but this time, it was unusual.

This time, the World Tree allowed the totem country to participate in the World Tournament. Most of the totem countries had been invited to the World Tournament. If they joined the totem country, they would have the chance to obtain high-level resources and human blood food to participate in the World Tournament and change their fate. For some wild overlords, it was quite a temptation.

After all, the habitat of the World Tree had a large number of mythical and legendary ruins that could change one's fate. It was no longer a secret. In the mouths of humans, this was a world competition, but for the totem country, this was the battle for the ruins mystic realm!

"Haha, then the three of us brothers will fight together!!" The green-scaled dragon laughed.

The Mountain Tortoise said, "Hahaha, good, unfortunately, if only we had another bird-type brother. At that time, we can get a combination of the Green Dragon, White Tiger, Vermillion Bird, and Black Tortoise!"

Chapter 664: Shi Yu's Mecha Form (1)

Green Scale Mountain Cave.

The Green Scaled Dragon, the Ice-Eyed White Tiger, and the three brothers had already decided to seek refuge in the largest totem country nearby, the Dragonman Empire.

The humans in the Dragonman Empire were all hybrids. Being able to withstand their need for nutrients, they could provide them with more growth nutrients.

Beast Taming Contracts were two-way. When the Beast Tamer was strong enough, the Beast Tamer would occupy the dominant position and could forcefully control pets.

When a Beast Tamer wasn't strong enough, the pet would dominate and use the Beast Tamer as nutrients for growth.

Of course, in the human countries, Beast Tamers and pets were still on equal footing in most situations.

In short, they were all overlords. No matter which totem country they went to, they would be guests...

"Not good, enemy attack!!!"

The green-scaled dragon smiled, but suddenly, its smile stopped. Its expression changed drastically as it sensed a spatial wave accompanied by a fatal threat!!

Boom!!!

The smiles of the other two overlords also stopped.

Boom!!!

Endless strong light gathered inside, and the mountain cave instantly collapsed and destroyed.

At this moment, the eyes of the three overlords were still filled with an incomprehensible expression. As the shock wave arrived, they quickly used defensive skills to protect themselves!!

"Roar (Damn it!!!)!!!" The Ice-Eyed White Tiger roared in anger!!!

Because in an instant, it had a premonition that it would be the most miserable of the three overlords in this enemy attack.

....

"Let's shoot them first!"

Although the gem cat had said that there were three overlords, Shi Yu still couldn't help but attack.

So be it. No matter how strong an overlord was, unless it was someone like the Tyrannical Sea Legend's Giant Leviathan, it was definitely not the gem cat's match.

Since he had a bodyguard, why not go crazy for once?

As long as he killed all of them, Chi Tong would have three overlord-level undead.

Such a configuration could even make a legend like Hua Xiajin, who only had one overlord, cry.

Of course, it was rare for him to touch the other party's nest under the concealment of the gem cat without alarming any life form. Shi Yu didn't have much honor here.

Instead, he directly used the energy fruits stored in Baby Ginseng's laboratory for experiments to get Buggy to pack them up and teleport over to detonate them!

These Energy Fruits were Explosion Fruits of various attributes: Metal, Wood, Water, Fire, Earth, Wind, Thunder, Light, Darkness, and Space Poison. Their combined power was not small.

Of course, it was definitely not as strong as Baby Ginseng's full-strength attack after eating the Time Fruit.

In the ruins space, Baby Ginseng didn't dare to experiment with the overlord-level energy fruit yet, because if it wasn't careful, it would blow itself up.

Also, this was even less powerful than Baby Ginseng's self-destruction.

However, it was enough to greet and knock on the door to call the enemy out.

Boom!!!

Nine-colored black smoke and white light enveloped Green Scale Mountain, and the angry roars of three overlords came from inside!!

As a cold wind blew, a huge green-scaled dragon was the first to rush out of the explosive area and fly into the sky!!

The clouds rolled and howled from the clouds, as if a roaring dragon was churning in the clouds.

On its huge body that was dozens of meters long, the green-scaled dragon's huge dragon eyes instantly locked onto Shi Yu and the others on another mountain.

At this moment, the gem cat had long run off to god knows where. Shi Yu, this human, naturally became the most conspicuous enemy in its vision.

< Name > Green Scaled Dragon

[Attributes]: Dragon

[Race Level]: Low-level overlord

[Level of Growth]: Overlord

Energy Points: 70,860,000

At the same time, Shi Yu also saw it and gasped hotly on the spot, increasing the speed of global warming. This energy value was indeed a top-notch overlord!!

Although it was a little inferior to the 87 million energy points of the Dragon Palace City Whale General and the mutated Giant Leviathan that was nearly 100 million energy points, this energy value was already higher than the energy of most overlords of Dragon Palace City.

Such a "real" dragon was actually raised in a small forbidden zone.

If it was just a simple high energy value, that would be fine. It was nothing, but looking at the age of this dragon, its skill proficiency was probably ridiculously high.

Moreover, Buggy could sense that there was a dragon vein underground. It was an environment with strong dragon-element energy. Perhaps this dragon could also borrow the power of the earth vein.

After all, this was its territory. The power that an overlord creature could display in its territory was multiplied. It was equivalent to borrowing the power of nature. Just as the cat said, it was not easy to fight at all!

Moreover, Shi Yu also discovered that this guy actually had the will of an overlord!!

In addition to the other two overlords, it was even harder to fight!

“Uh!!!!” In the next moment, a figure enlarged with a bang. In the ruins, a huge turtle more than ten meters tall with a rock texture all over its body, as if it was carrying a few small mountains, appeared with a furious voice.

< Name > Mountain Tortoise

[Attributes]: Earth

[Race Level]: Low-level overlord

[Level of Growth]: Overlord

Energy Points: 61,220,000

This huge turtle was similarly not weak. Under the explosion just now, neither it nor the green-scaled dragon suffered obvious injuries. There were only light injuries, which made Shi Yu, who was on the opposite mountain, excited.

If he could transform these two overlords into undead, even if their strength would be weakened after the transformation, they would definitely have the strength of an overlord race.

Chapter 665: Shi Yu's Mecha Form (2)

This was unlike the previous lousy tree with 30 million energy points, whose strength was not strong to begin with. It relied on the evil path to break through. If it turned into an undead, it probably wouldn't have much battle power left. It might not even be able to defeat Ji Feng's pet. It would only waste the power of the bone sword for nothing.

But these two were completely worth it.

Of course, their battle power would probably be several times higher than that monarch race's Earth Abyss Demon Tree.

“Roar!!!” At the same time, a huge white tiger with ice-blue patterns all over its body and ice-blue eyes came out. It was also nearly ten meters long, and the deterrence strength was only inferior to the dragon might of the green-scaled dragon. However, the injuries on its body were... the most serious among the three overlords!

< Name > Ice-Eyed White Tiger

[Attributes]: Ice

[Race Level]: Low-level overlord

[Level of Growth]: Overlord

Energy Points: 62,740,000

At this moment, the Ice-Eyed White Tiger was extremely furious and felt extremely aggrieved.

Because in the face of the sudden attack just now, the Green Scaled Dragon was strong enough and could mobilize the power of the dragon vein here to strengthen itself. It could naturally withstand it at a lighter price.

As for the Mountain Tortoise, it was not difficult for it to instantly mobilize the power of the earth to strengthen itself between the mountains. In addition, the Mountain Tortoise was known for its defense, so only the Ice-Eyed White Tiger was injured.

Its territory was the Snow Realm. Fighting here would undoubtedly weaken its battle power a lot.

“The wild overlords abroad are indeed stronger than the wild overlords in the seven countries.”

Seeing these three overlords, Shi Yu had already confirmed using the Heavenly Cloud Tiger of the Seven Islands and the Prediction Owl of Imperial Capital University.

These three were undoubtedly much stronger than they looked. Among them, with a lower race, this white tiger even had stronger strength than the Heavenly Cloud Tiger!

Although this big cat was still lousy.

“Roar!!! (Human, courting death!!!)”

In the distant sky, the green-scaled dragon was the first to roar in anger. Green light immediately condensed in its mouth, and an ear-piercing sonic boom appeared around the green light.

With a boom, a huge dragon breath that looked like a dragon instantly opened its huge claws and attacked Shi Yu and the others.

At this moment, Shi Yu had already issued battle arrangements to every pet beside him. The telepathy transmission was completed in an instant.

[Ling, Chi Tong, Susu, the three of you, deal with that white tiger with me.]

[Eleven, Baby Ginseng, the two of you, deal with that big turtle.]

[Buggy, I'll leave this dragon to you!]

[Let's see who can defeat the opponent first.]

[Buggy: ??????]

[Buggy: Didn't we agree to let Baby Ginseng fight the overlord of its hometown???

[Baby Ginseng: Wu wu wu, I changed my mind. This guy is stronger than I imagined. As expected of my childhood trauma... Buggy, all the best. When you defeat it, I'll defeat you in the future. That's equivalent to me defeating it.]

[Buggy: ??]

[Shi Yu: Believe in yourself. You're the number one in the team. This time, you can mobilize the power of the legendary Dragon Ball to a greater extent. In a battle of the same race, the other party still has the will of an overlord. This is a very good opportunity for you to train yourself.]

[If you can't defeat it, there's no need to defeat it. As long as you stall until we finish the other two overlords, if we still have the strength, we'll help you.]

[If we don't have any spare energy, let Teacher Gem Cat help you...]

"..." Buggy sighed, but then its battle intent rose. Shi Yu, its Beast Tamer, had handed the strongest enemy to it!!

Even Eleven had to team up to fight, while he could take charge and deal with the strongest opponent!!

Legendary Dragon Ball!!

This was the key to Shi Yu letting Buggy fight the Green-scaled Flood Dragon alone. The legendary Dragon Ball was more useful to Buggy than the Time Fruit.

The current Time Fruit could at most raise Buggy to the ordinary overlord level. Moreover, the side effects were huge. After a few battles, Buggy would collapse from the overload.

However, with the legendary Dragon Ball and the Dragon of Imagination skill, Buggy could increase its energy level to 100 million at most. At the same time, with the corresponding strength of its dragon body, it wasn't difficult to unleash a totem attack.

Of course, this was a one-time use.

It wasn't that the Dragon Ball couldn't take it, but that if it exceeded this limit, Buggy couldn't take it.

The conventional usage method was the way Buggy used the legendary Dragon Ball to train daily. It only raised its energy level to about 50 million. This way, it could maintain its battle state for a long time and wouldn't affect anything.

Buggy usually relied on this state to train its Dragon of Imagination skill proficiency for the team meeting to defeat Eleven.

Of course, against this green-scaled dragon, its conventional state was definitely not enough. Even if the green-scaled dragon didn't mobilize the power of the dragon vein, it would be difficult.

Therefore, its only way out was to overload the Dragon Ball and raise its energy level and physical level to the same level as the Green Scaled Dragon. Then, through powerful accompanying moves, it could deal with it!

Although it was still very difficult for it to withstand it at its current level, it was at least qualified to fight.

"Roar!!!" When the green-scaled dragon's dragon breath condensed, Buggy on Shi Yu's shoulder also moved. It directly turned into a huge green divine dragon phantom, and its entire body was wrapped in a powerful dragon might as it soared into the sky!!

The light on its dragon claws became stronger and stronger. In the blink of an eye, its strength and speed suddenly erupted. Under the drive of Psychic power, its huge body tore straight at the incoming dragon breath!!

Chapter 666: Shi Yu's Mecha Form (3)

Space Control, Space Rending Claw!!!

Boom!!!

The Green Scaled Dragon, the Mountain Tortoise, and the Ice-Eyed White Tiger were all shocked. They only felt a white light flash in front of their eyes. Then, their pupils constricted even more. Under this huge claw that could cut through space, the dragon breath wave instantly divided into two, erupting with a violent impact!!

Under the surging energy, the green divine dragon transformed by Buggy continued to fight the green-scaled dragon!!

“Roar!!! (Purebred overlord divine dragon, transcendent dragon might, you guys... pray for yourselves!!!)”

The green-scaled dragon determined that this green divine dragon was difficult to deal with almost instantly. It actually had transcendent-level dragon might, just like it!

Moreover, its aura wasn't much inferior to its own. This made the Green Scaled Dragon feel as if it was facing a great enemy, and it directly entered a battle state. It didn't have the time to care about what the Mountain Tortoise and the Ice-Eyed White Tiger were thinking at the moment.

Almost instantly, Buggy's Space Rending Giant Claw, a super spatial attack that even Eleven couldn't withstand, tore apart the dragon breath and waved in front of the green-scaled dragon!!

As for the Green Scaled Dragon, it also waved its dragon claws!!!

“Roar!!! (Little brat, who are you looking down on!!!)”

However, it didn't directly collide with Buggy. Instead, it staggered and directly endured this attack. Moreover, it also made Buggy directly suffer its attack!!

Exchanging injuries!!!

Boom!!!

Under the collision of the two terrifying dragon might, the sky cracked!!!

With just one attack, Buggy's heart trembled. It felt that this guy was even harder than Eleven!!!

The moment the attack touched the other party's scale, the terrifying dragon scale defense actually reversed the powerful impact, almost causing the Dragon of Imagination to collapse. This was... a super reverse scale with perfect proficiency!!

Moreover, it was definitely not as simple as just perfect level!

It must be the result of cultivating for a long time at this proficiency!!

At this moment, the Green Scaled Dragon's eyes were already red as it entered a crazy reverse scale state.

After being attacked in its nest, it was the most furious. Under the enhancement of the power of the reverse scale, it allowed the dragon to erupt with power that far exceeded Buggy's ordinary overlord power that needed the help of legendary equipment. However, in a confrontation, Buggy's substantialized huge body couldn't withstand the other party's attack and was torn apart by the other party's huge claw, smashing into the distance!!

"Ji!!!" Even though the phantom had endured most of the power and its main body was hidden well, the violent vibration still made Buggy scream.

[I can't defeat it...] In an instant, Buggy realized that even if it used the legendary Dragon Ball to erupt with a totem attack, it definitely couldn't insta-kill this guy in the other party's territory.

A top-notch overlord, and a dragon-element overlord. This should be the most difficult opponent Shi Yu and the others had encountered apart from the weak Vortex Demon Beast.

After all, the Sky Penetrating Whale, which was also a top-notch overlord, could even fight a weak totem!

At the thought of this, Buggy's eyes filled with tears as it understood. Shi Yu had sent it to be beaten up. From the start, Shi Yu had been thinking that when the time came, everyone would deal with the Green Scaled Dragon together. He didn't expect it to win alone.

Buggy, who had the spatial element, was indeed the guy who could tangle with the other party the most.

"!!!!"

When Buggy started fighting, Eleven and Baby Ginseng also attacked together. Their target was the Mountain Tortoise!!

At this moment, the Mountain Tortoise no longer had the mood to care about the Green Scaled Dragon. It didn't even have the intention to help the Green Scaled Dragon. The enemy clearly came prepared, and it was also a powerful overlord. It didn't have the slightest desire to fight.

For this old turtle, this kind of useless battle was best avoided as much as possible. It chose to directly escape underground!!

However, Eleven and the others also had an Earth Escape skill. As huge vines grew out of the ground and wrapped around the Mountain Tortoise, its Earth Escape was directly interrupted and tied up by countless trees and thorns.

At that moment, Baby Ginseng, who had stimulated the power of the Time Fruit, arrived at the overlord level again and used plant control to restrict the other party's movements!!

At the same time, energy fruits of various sizes appeared on the countless trees that wrapped and bound the Mountain Tortoise!!

On the ground in the distance, Baby Ginseng pulled the green leaf scarf and threw it down. The ginseng leaves fluttered in the wind.

Its green eyes were filled with fighting spirit.

Burial of the Trees!!!

Plant Control+Energy Fruit+Moon Explosion!!!

This time, Baby Ginseng only added pure wood-element energy and didn't use the power of the Sun Flame.

Although the power of the Energy Fruit with the power of the Sun Flame was greater, all the legendary Sun Flame power stored just now had already been used to insta-kill the Earth Abyss Demon Tree. Baby Ginseng had already lost a drop.

In addition, because the opponent was pure earth-element, using pure wood-element moves to counter with attributes might not necessarily be worse than before.

Boom!!!

Fruits flickered with white and green light!!!

"Uh!!!! (I have no grudge with you...)" The Mountain Tortoise roared.

At the same time, because it was restrained by the thorns, it couldn't break free for the time being. It simply gave up struggling and directly shrank its limbs and head into its body. Its body was tightly wrapped and immediately airtight!!

Come!!

Damn it!!

Its defense was even stronger than that green snake. Come on!!

The Mountain Tortoise chose to defend and directly entered a full-strength defense posture. It also activated a super defense skill with perfect proficiency. At the same time, it mobilized the natural power of the earth to strengthen itself.

Under the dazzling light, the Mountain Tortoise was buried in the sea of trees. In the sky not far away, Eleven, who had countless Bean Bears on its body, had a dissatisfied expression. It couldn't interfere at all with Baby Ginseng fighting like this...

Chapter 667: Shi Yu's Mecha Form (4)

Did it not know how to cooperate!!!

Was it going to steal the kill?

Eleven wanted Baby Ginseng to cooperate with it, not eat the Time Fruit. As it slowly became stronger and perfected its consecutive moves, this thing became more and more difficult to use. It was better to use its specific eruption+Undying Golden Body+Impregnable to last longer and make smoother eruptions. After all, the overlord's will combined with the Impregnable eruption might not be weaker than the enhancement of the Time Fruit.

After using the Time Fruit, the burden would easily overflow, preventing the Undying Golden Body from circulating and easily breaking. In Eleven's opinion, the greatest effect of Baby Ginseng on it at this moment was if it followed Eleven's lead. Every time it erupted, it would cooperate with the Undying Golden Body to replenish its state!!

Let it erupt infinitely!!!

"Yi!!!" Eleven was mumbling, but suddenly, Baby Ginseng's shocked voice came. This was because after its attributes countered the bombardment, the Mountain Tortoise still maintained a powerful defense posture and it couldn't completely break through its defense!!

The powerful life aura was still vigorous, as vigorous as a mountain. Moreover, its aura was still rising steadily. Clearly, it was relying on the power of the ground to last!!

Baby Ginseng immediately judged that this guy's defense was probably stronger than that Earth Demon Ape!!

Although its current Moon Explosion proficiency was no longer at the entry level at that time, even at the currently stronger expert level, or even if it self-destructed, Baby Ginseng was a little hesitant about whether it could instantly kill this guy.

Unless this guy was willing to eat it, in which case it could enter the other party's shell and self-destruct!

Of course, it couldn't insta-kill it, though it could definitely heavily injure the other party and make it lose its ability to fight. However, the problem was that Baby Ginseng couldn't self-destruct at the moment.

The thing that allowed Baby Ginseng to experience this guy's terrifying physical fitness the most was when it fought the Earth Abyss Demon Tree previously, it didn't absorb much of the Earth Abyss Demon Tree's power through the "Nutrition Plunder" skill, but this guy's strength was seemingly endless...

Originally, that blow just now was enough to make Baby Ginseng consume a lot of energy, but this inhalation successfully allowed Baby Ginseng to last a little longer.

On the ground, the rooted ginseng baby was just about to carry out the next round of attacks and bombard it with the Space Fruit, but it was immediately stopped by Eleven!

"Roar!!!"

Eleven showed an excited expression and roared, indicating that it would let Baby Ginseng assist it. It would fight!!

At this moment, seeing that the Time Overlord Baby Ginseng's Energy Fruit was useless against this turtle, Eleven also hesitated if its multiple eruptions could break through its defense. However, compared to Baby Ginseng, it had an advantage!!

That was, mastering max-level deterrence could allow the attack to have mental attacks. This turtle couldn't have shocking defense in all aspects, right?

Boom!!!

"Yi!!" As Baby Ginseng cried out, a white lightning flashed, and the hundred-meter-tall giant Eleven descended in front of the Mountain Tortoise, making the Mountain Tortoise in the shell fall silent... Come on!!

When the enemy was tired, it would slip away!

However, this time, the Mountain Tortoise didn't wait for death. The mountain peak on its back gradually strengthened. Although its main body was still defending, the mountains on its back directly grew into mountain giants several meters tall!!

Super summoning skill!!!

Although their physiques were very small compared to Eleven, each of them had the strength of an overlord skill. From the aura of each summon, they were stronger than the Earth Abyss Demon Tree just now!!

The battle between the three parties was carried out at the same time.

At this moment, Shi Yu had the most people and chose the weakest opponent, or rather, an opponent with relatively average attributes in various aspects.

"Roar!!!" It had the same thought as the Mountain Tortoise. Because it wasn't their home ground, the Ice-Eyed White Tiger didn't want to fight at all. It didn't want to fight this group of people who had attacked the Green Scaled Dragon's territory at all.

It wasn't slow either. However, what shocked the Ice-Eyed White Tiger was that it discovered that this space had already been completely locked!!

At this moment, they were already in a huge spatial cage, and the strength of this spatial wall only made the Ice-Eyed White Tiger know that it was very difficult for it to break through.

Among the three of them, probably only the green-scaled dragon with the full strength of the dragon vein had any hope of shattering it.

Although the gem cat didn't join the battle, it still played a support role to prevent these overlords from escaping.

Otherwise, with just Shi Yu and the others, if these overlords wanted to escape, they might not necessarily be able to keep them.

It couldn't escape...

Realizing this, the Ice-Eyed White Tiger looked at its enemy fiercely.

Mechanic class...

It was someone from the Seven Nation Alliance...

It clearly saw that the human had become the mechanical life form in front of it.

The white-haired young man who was originally standing on the mountaintop with glasses disappeared from its vision under the white cube that filled the sky as the other pets attacked the Green Scaled Dragon and the Mountain Tortoise.

In its place was a white cube that kept splitting and increasing. Under the entanglement of the substantialized green hurricane, it gradually formed a huge humanoid mecha 20 meters tall!!

The huge mecha's entire body was white as the base. It had red and blue colors as support. Its limbs, head, and body had layers of mechanical devices.

Behind it were sixteen huge pairs of green light wings. Under the flickering of the light wings, the entire mountaintop turned into powder and disappeared in the strong wind. The huge body flew in the sky, and the gaze on its head had already completely locked onto the Ice-Eyed White Tiger.

Chapter 668: Shi Yu's Mecha Form (5)

Although its body was in the form of a human, its head had the characteristics of the sheep race. Under the contrast of the white Kirin Horn, its entire face looked like a white demon.

"Come on, kitty."

In the mecha cockpit, Shi Yu smiled. Ling had fused with it through the full-level loading skill.

At this moment, Shi Yu was like this huge mecha. He felt the powerful strength and broad vision very happily.

This feeling of being one with the wind was a new feeling compared to possessing Chi Tong!

Now, this was the prototype of the Ling Mecha form. At the moment, it wasn't perfect, because it couldn't perfectly integrate the powers of Eleven, Buggy, Baby Ginseng, and Susu.

It wasn't that it couldn't be forcefully fused, but the fusion wasn't perfect. The enhancement was too small. For an intelligent life form like Ling, a trace of imperfection wasn't considered a success.

But now, he could make do with it.

"Chi Tong, possess me!!"

"Susu, enter full power!!"

As Shi Yu gave the order, Susu, who was connected to mechanical equipment in the energy room in the mecha, opened its blue eyes.

At the same time, in the weapon room, Chi Tong took the initiative to open the door and integrate.

With a boom, the blue and red patterns on the huge white body lit up at the same time!!

The huge white sword in the white body's hand instantly lingered with cold air and water that froze time!!

The white sword in the other arm revealed its original appearance. It was a bone sword, a legendary undead resource bone sword after enlarging!!

Hot Sun Flame power instantly spread on the bone sword!!

At the same time, the mecha's red and blue eyes lit up!

At this moment, the formation of this super body undoubtedly created a huge pressure on the Ice-Eyed White Tiger.

Although it didn't participate in the totem battle 200 years ago, it had also heard from its elders how the human Mechanic class expelled those insufferably arrogant totem overlords from the areas with the richest resources.

At this moment, sensing the powerful pressure of this body, the Ice-Eyed White Tiger regretted coming to this place to discuss joining the Dragonman Empire with the Green Scaled Dragon and the Mountain Tortoise.

If they joined the Dragonman Empire, they would definitely fight the humans of the seven countries in Inatena. If the opponents of the seven countries were all such humans, the chances of them achieving their goal would probably be very slim.

"This guy." Not to mention the Ice-Eyed White Tiger that had never seen the world, even the gem cat that had seen the world was completely stunned when it saw Shi Yu, Chi Tong, Ling, and Susu transform into this form.

When...

What had Shi Yu and the others done in the past two months?

Initially, the gem cat still felt that even if Shi Yu and the others attacked together, they wouldn't be able to defeat the green-scaled dragon.

However, as Shi Yu piloted this super body to appear, the gem cat was silent for a moment. As a totem level, it could clearly sense that the potential this super body could erupt with posed a greater threat to it than Buggy, who had used the legendary Dragon Ball.

Perhaps there was no need for it to help. The current Shi Yu already had the qualifications to fight a top-notch overlord...

In fact, could this ridiculous crazy action of controlling six monarch-level pets to challenge three overlords with the strength of a top-notch master really succeed?

The gem cat was stunned. If it succeeded, this guy would be a monster in name...

At the thought that it might be able to slack off, the gem cat was especially happy.

“Roar!!!”

At the same time, realizing that it couldn't leave, the Ice-Eyed White Tiger could only choose to fight. A biting cold snowstorm blew in the sky. In a place without a snow realm, its strength was undoubtedly severely restricted. However, it was also an overlord with extraordinary strength after all. Through changing the weather, it still revealed its fangs as the king of beasts!!

....

....

Green Scale Mountain.

An unprecedented battle was taking place on the three battlefields.

There was no doubt about the scale of the overlord battle.

As challengers above their level, Shi Yu and the others were at a disadvantage. They could only challenge through fighting with more numbers or borrowing the power of legendary resources.

In the snowstorm, Shi Yu's white body had already collided with the Ice-Eyed White Tiger for the first time!!

[4: 54]

As a driver, Shi Yu could clearly see the stable duration of their bodies in this state as estimated by Ling's top-notch intelligence.

Under normal circumstances, there was only five minutes. If Susu activated the power of time and Chi Tong used the Interlocking Sword to undergo an overload eruption, this time would even accelerate and shorten. The true limit was probably only one to two minutes.

However... it was enough.

At that moment, with Shi Yu and Ling as carriers, Chi Tong and Susu, who had combined into the eruption of the dual sword style profundities, could already erupt with their fusion sword skills to the greatest extent without any worries.

Skill: Interlocking Sword.

< Introduction > It can absorb and fuse the power of the outside world. The more conflict this power has with the power of fire, the greater the increase in the power of the sword.

Under the dual sword skill of water and fire and under the transformation of Chi Tong's Myriad Sword Convergence and Susu's time power, Shi Yu and Ling shared a certain burden. The current super body's battle power was also fully deserving of being a top-notch overlord!!

“Roar!!!”

The biting red and blue sword light was enough to split mountains and crush the huge white tiger. The snowstorm in the sky also turned into an ice crystal storm that attacked the huge body from three directions.

Chapter 669: Shi Yu's Mecha Form (6)

The Ice-Eyed White Tiger used a large-scale skill. It was difficult for the mecha to dodge, so it could only take it head-on. Fortunately, the max-level snowstorm jointly created by Susu and Ling severely weakened the snowstorm controlled by the Ice-Eyed White Tiger.

Although as an overlord, it was extremely sensitive to the control of natural power, its opponent was a freak who had mastered the full-level Blizzard skill and was also extremely sensitive to natural power!

Hu!!!

Most of the power of the Ice Crystal Storm's natural enhancement was offset, but the powerful destructive power of the Perfect Level Proficiency super skill still made the ice crystals like sharp blades that swallowed the body.

Boom!

At this moment, the huge body burned with Sun Flame. Under the entanglement of the green whirlwind, the Sun Flame wrapped around the entire body. When the ice crystal swept over, it was first melted by the Sun Flame. Then, it came into contact with Ling's protective mechanism, "Turning Misfortune into Luck", which directly absorbed the frost power into its body.

Under the burden that the body could withstand, it didn't activate the skill effect to injure itself. Instead, Susu in the mecha converted this power for its own use through the control of the water element.

At the same time, the Ice-Eyed White Tiger also faced the fatal threat of the "Cross Interlocking Sword Pressure". The ice crystal storm in front was directly shattered by the cross slash. This power was not something it could resist head-on...

"Roar!!!"

The Ice-Eyed White Tiger roared. Its body tried its best to move, but it realized that it was already wrapped in layers of deterrence. It was extremely angry. It was angry that as the king of beasts, it was actually still stunned by the deterrence of the enemy. As the patterns on its body appeared, a dazzling light bloomed from its eyes!!

At this point, the Ice-Eyed White Tiger directly used its trump card skill, Absolute Zero!!

Skill: Absolute Zero

< Introduction > It's a super skill of both ice and spirit. It creates the Ice Sealing Domain and freezes energy flow and mental activity!

If it wanted to use this move to the greatest extent, it would consume its life. However, it couldn't care less now. A shocking cold light erupted in the Ice-Eyed White Tiger's eyes. At this moment, the interlocking sword light that the Ice-Eyed White Tiger had attacked previously seemed to have stopped moving and entered a huge ice-sealing domain.

At the same time, Shi Yu's super body was pulled into the frozen domain. In this domain, all objects were instantly frozen. Even layers of frost instantly appeared on Shi Yu's super body.

This skill was like a sure hit, quickly reversing the situation.

Swoosh!!!

The intertwined sword light slowly advanced, and the figure of the Ice-Eyed White Tiger had already appeared in front of Shi Yu. It successfully dodged the fatal attack and hit the mecha's head with its frost claws. The expression on its tiger head was violent.

In its opinion, this should be the fatal weakness of this life form, right?

The Ice-Eyed White Tiger's gaze was cruel, but in the next moment, its violent expression stopped.

"Are you underestimating the mental reaction speed of a top-notch intelligence?"

In that instant, be it Shi Yu, Chi Tong, or Susu, all their thoughts seemed to have slowed down. However, Ling was not affected. The computational reaction speed brought by its top-notch intelligence exceeded that of a supercomputer, allowing it to have the top battle awareness at all times.

In the Ice-sealing Domain, any movements of the Ice-Eyed White Tiger were within its calculations.

Bang!!!

The bone sword wrapped in Sun Flame swung over and directly slashed at the Ice-Eyed White Tiger. Under the sharpness of the legendary weapon, its body was directly divided into two...

"Roar!!!"

At this moment, the Ice-Eyed White Tiger's body and soul let out a heart-wrenching roar under its shocked gaze.

Seeing this, the gem cat stopped its extended cat claws and looked at the soul of the Ice-Eyed White Tiger with a burning gaze. It was absorbed by the huge bone sword. It was a spirit body identical to the Ice-Eyed White Tiger, but its entire body emitted a dark blue cold aura...

Absolute Zero!!

This was also an ice-element super ultimate move. Although it wasn't as powerful as the Heavenly Frost Cold Energy, it was not bad. Shi Yu felt that it was a pity that there weren't enough skill slots.

At the moment, he had already recorded a lot of super skills. He couldn't even bear to replicate the Tyrant Dragon's Earth Domain to teach Baby Ginseng. He only replicated the Duck's Heart Strike and taught it to every main pet.

Next, before he broke through, contracted a new pet, or could delete super skills, Shi Yu's record of super skills should be very strict and carefully selected.

The remaining slots were still reserved for the stage of the World Tournament. At the very least, they had to leave a slot for the Blessing of the World Tree. They couldn't add any more skills.

“Also, why are you aiming at the head?” Shi Yu knew that the ferocious beasts would definitely like to hit the head of the mecha and the heart of the mecha.

He chuckled.

As expected, it was right to deliberately let Ling build the cockpit at the butt to avoid the core impact.

Even if their heads were blown up, they would be fine!

....

After Shi Yu finished dealing with the Ice-Eyed White Tiger, he immediately looked at the other two battlefields.

On Baby Ginseng and Eleven’s side, Baby Ginseng finally chose to support Eleven. However, wasn’t this turtle a little too tough...

First, it erupted manually and forced itself into an extreme state. After dealing with the Mountain Giant created by the Mountain Tortoise, Eleven began to attack the old turtle’s main body with the eruption of Impregnable+Overlord Will.

“Roar!!!” But under the huge hammer that shook the ground, although the tortoise shell was already covered in cracks, it was still as firm as a rock, and the cracks were still continuing to repair.

Chapter 670: Shi Yu’s Mecha Form (7)

Eleven was extremely furious. It had already erupted four times in a row with the support of Baby Ginseng. Its condition was getting worse and worse, but why was this guy so hard!!

“Uh!!!” In the tortoise shell, the Mountain Tortoise was also extremely shocked. Why was this guy’s attack power stronger and stronger each time! Why wasn’t it exhausted yet!! Moreover, why was this guy’s deterrence so strong!! Coupled with the spatial vibration, the deterrence directly passed through the tortoise shell, making the Mountain Tortoise dizzy.

If it weren’t for the fact that its deterrence level wasn’t low and it had a mental defense skill, it would probably have collapsed.

At that moment, when he saw this scene, Shi Yu suddenly knew why Emperor Wu’s Zhong Xuan hated Iron-eating Beasts so much. Of course, perhaps Emperor Wu’s Iron-eating Beast also hated Zhong Xuan.

If Eleven and Baby Ginseng were tortured by this overlord turtle’s shocking defense, then Buggy was just purely tortured by the Green Scaled Dragon.

The Green Scaled Dragon, which was originally in the reverse scale state, could suppress Buggy of the same energy and physical level with its skill proficiency. As the Green Scaled Dragon mobilized the power of the dragon vein in its territory, its suppression of Buggy was better.

Buggy realized that the proficiency of its Anti-Demon Domain was not enough to completely restrict this guy's mobilization of the dragon vein power. A top-notch overlord was even more difficult to deal with than it imagined.

At this moment, the divine dragon phantom conjured by Buggy was already broken. The main body of the butterfly with the divine dragon physique inside was also covered in injuries of various sizes. It was constantly relying on high-speed healing and ultimate absorption to recover. In order to recover, it didn't even have the time to care about the divine dragon phantom!!

As for the Green Scaled Dragon opposite, although its body was also covered in injuries of various sizes, there were no serious fatal injuries.

"Wu!!! (Damn it, if I had two legendary equipment...)" Buggy wanted a healing-type dragon-type equipment. In that case...

Seeing this, Shi Yu directly chose to join the two battles. Firstly, he wanted to help Eleven and the others.

"Can it defend against mental attacks?"

With Shi Yu's reminder, Eleven and Baby Ginseng directly dodged. The slash filled with gray light landed on the Tortoise from the sky and directly slashed into the shell!!

As soon as Shi Yu joined, he directly reversed the situation. The undead-type legendary bone sword, together with Chi Tong's Soul Slash skill, directly penetrated all the defense of the Mountain Tortoise and directly heavily injured its soul and pulled it out of its body!!

"Uh!!!" In the huge turtle shell, the Mountain Tortoise wanted to persist a little longer. If it persisted a little longer, it would be able to run away. However, in the next moment, its round eyes directly revealed an incredulous expression in a daze.

Its vision was instantly enveloped by gray light.

Soul... attack...

Its only shortcoming...

"Uh!!!" The brown turtle spirit had a panicked and afraid expression as it was directly absorbed by the bone sword in the sky. At this moment, it still retained some consciousness and was filled with endless fear.

Who exactly was the enemy? Why did he have such an evil method? It wasn't enough to kill them, but he even had to modify their souls.

At this moment, the Mountain Tortoise could clearly feel that its soul consciousness was losing its control.

Seeing this, Eleven and Baby Ginseng beside it revealed dissatisfied expressions.

Damn it, after fighting for so long, it was still intercepted by the Beast Tamer. The four of them formed a team and even brought a legendary weapon and even the Time Fruit. They were simply cheating!!

“Let’s go help Buggy...” Shi Yu smiled and called out, but he didn’t receive a response from Eleven and Baby Ginseng. At this moment, Eleven and Baby Ginseng were panting on the spot. They didn’t have much strength left.

Eleven and Baby Ginseng looked at Buggy. Although they wanted to help, they were already helpless.

Shi Yu had indeed picked up a bargain. Before arriving, Eleven and Baby Ginseng had already beaten the Mountain Tortoise to its lowest state.

At this moment, they expressed that they should let Teacher Cat help.

“Alright.” Shi Yu glanced at the time in the mecha.

[0: 51]

According to Ling’s calculations, the mecha form was about to collapse in less than a minute. At this stage, Shi Yu and Ling felt immense fatigue.

Although he could still go to the Green Scaled Dragon to erupt with a round, after thinking about it, there didn’t seem to be a need. If his condition was too poor, it wouldn’t be easy to cause trouble in the totem country later.

Through the battle just now and the situation on Buggy’s side, Shi Yu or Ling could already roughly analyze the situation if they encountered a top-notch overlord.

If a top-notch overlord like the Green Scaled Dragon fought in the Green Scaled Dragon’s territory, then with all of them working together seven against one, the chances of winning should be above 50%.

If they weren’t fighting in the Green Scaled Dragon’s territory, but in an environment that was beneficial to them, their chances of winning against a top-notch overlord like the Green Scaled Dragon should be above 75%.

But no matter what, they would probably have to pay a considerable price and couldn’t win easily.

This was because this green-scaled dragon had mastered the overlord’s will. If it erupted on the verge of death, it might not be something Shi Yu and the others could withstand.

However, their strength was no longer weak. Even among legendary Beast Tamers, they should be medium-level.

“Buggy, do you need help?” Shi Yu looked at Buggy a thousand meters away.

Buggy: Ahhh!!! (No need, I’m the number one in the team. I can win!!)

Boom!!

Its huge body was torn apart by the green-scaled dragon again and sent flying.

Buggy: Ahhh!! (I could use some help too.)

At this moment, the Green Scaled Dragon was even more afraid than Buggy, because it had already sensed that the life auras of the other two overlords had disappeared.

“Teacher Cat, help. We don’t want to fight anymore. Help Buggy.” Shi Yu looked at the gem cat in the air for help.

In the air, the gem cat was silent for a moment and cursed.

When it saw that Shi Yu was fighting so fiercely, it thought that it didn’t need its help anymore. Why did it still want its help in the end?

“There’s still a mission. I still have to do archeology later...” Shi Yu said, “My condition can’t be too poor...”

“Just this once.” The gem cat sighed.

“Yes...”

After Shi Yu and the gem cat finished communicating, in the distance, the green-scaled dragon, who was fighting Buggy, revealed an expression of horror that it had never seen since it was born.

A huge spatial vortex suddenly appeared above the green-scaled dragon and Buggy.

In the vortex, white, blue, red, black, purple, green, gold, pink... Different lights bloomed.

A huge spiral light ball with nine-colored light that was like a galaxy descended from the sky like a meteor!!

In less than a second, it left a nine-colored light mark in mid-air, connecting the vortex to the Green Scaled Dragon!!

Boom!!!

In the next moment, the green-scaled dragon was swallowed by the light ball and continued to fall with the light mark.

Just as the light ball approached the ground, the light disappeared. With a boom, the aftermath of this skill directly brought the incomparably huge body of the Green Scaled Dragon to the ground!!

A terrifying energy wave wreaked havoc on the ground. After a loud bang, a huge pit dozens of meters in diameter and more than ten meters deep appeared on the ground.

The edge of the huge pit was filled with traces of various attributes. Frost, fire, lightning, wind marks, curses...

“I only used the aftermath. Otherwise, the nearby mountains would have been gone. Usually, apart from eating, I don’t like to kill,” the gem cat said disdainfully. “It hasn’t died. Hurry up and kill it.”

“It’s much weaker than that whale.”

In the sky, Eleven, Buggy, Baby Ginseng, Chi Tong, Susu, and Ling looked at the power of the gem cat’s move and fell into deep silence. They had agreed that the totem that used resources to break through was the weakest totem. Why was a top-notch overlord... killed in one move...

The corners of Shi Yu's mouth also twitched. This power seemed to be much stronger than the skill power of the gem cat when it first broke through to fight the Vortex Demon Beast. Was the gem cat really just lazing around and not secretly training?

“Speaking of which, Green Scaled Dragon, Ice-Eyed White Tiger, Mountain Tortoise Undead... In addition to Chi Tong, who's controlling them, this seems to be able to form a group of the Four Undead Holy Beasts.” Shi Yu suddenly realized something.

In the weakest Heavenly Fox Nation, if the Fox God didn't appear, could it run rampant...

At this moment, the gem cat was not in the mood to listen to Shi Yu's joke.

It looked at the huge amount of energy crystals consumed by the move in its own space and felt its heart bleed... This paywall battle strategy was specially developed by it to show off. The price was huge. It hoped that from today onwards, Shi Yu could show it more respect...
