

## Beast 681

### Chapter 681: Shi Yu vs Fox God (4)

At the same time, the Fox God clone had already locked onto the invader through Yue'e and the Star Moon Fox. It stared at the evil-looking gray-robed old man in the sky.

The size and length of its nine tails suddenly multiplied. Each of them turned into a huge tail dozens of meters long that reached the sky, spreading white light as it slapped at the Ice-Eyed Tiger Spirit!!

Boom!!

The sound of air being torn was strong. The power of the super skill, Nine Tail Dance, was destructive.

"Lord Fox God..."

"Wu ~" At this moment, Yue'e and the Star Moon Fox's hearts completely relaxed. They felt that they had survived.

At the same time, the power of faith towards the Fox God became stronger.

In their opinion, if the Fox God attacked, this evil Beast Tamer who had invaded the Moon Lord Holy Land would definitely be helpless!

"Jiejie..."

"Little Fox, if you want to defeat me with your clone, cultivate for another hundred years!"

As soon as he finished speaking, gray mist condensed.

Another Green Scaled Dragon Spirit with an even greater aura as well as the Mountain Tortoise Spirit appeared beside the Ice-Eyed Tiger Spirit. The three overlords roared in unison and attacked together.

The Green Scaled Dragon Spirit swung its dragon claw down, and the mountain on the back of the Mountain Tortoise Spirit materialized and exploded. The Ice-Eyed Tiger Spirit also roared and swept up snow!

Boom!!!

In the dust mist of the nine tails and three moves, Yue'e and the Star Moon Fox's pupils constricted.

Three overlords!!

Who exactly was the other party!

Such strength was top-notch in any totem country.

....

Iron-eating Beast Legendary Mystic Realm.

The Fox God, the Holy Maiden, and even the overlords of some city-states were still facing these mysterious factions that had come to the Heavenly Fox Nation.

The reason why they started a confrontation was that the other party's faction was also very strong. A totem came.

This was a dark-element totem that looked like a black goat, emitting an ominous aura.

The spokesperson of this black goat totem was a Beast Tamer in black. His expression was extremely calm as he said, "Honorable Lord Fox God, we came with great sincerity."

"This ruin is undoubtedly a sealed ruin, and there's the aura of our Fallen Race inside. We only want to help our clansmen unseal it. That's all. We're willing to exchange a level-eight resource for the right to control the ruin."

The huge fox god was silent. It was only a level-eight resource. Who did they think they were looking down on? This was a legendary ruin. Without two legendary resources, it was definitely impossible for others to explore.

"Fox, don't refuse our goodwill." After a day of negotiation, the Black Goat Totem was already extremely irritable. It said, "Don't think that you can raise the price on the spot just because you have the protection of the Heavenly Wolf Nation."

"I'll give you a chance to rely on my master. Otherwise..."

"What are you planning?" The Fox God looked at the black goat with a smile.

The Black Goat Totem also sneered and said, "Of course, we'll show you a bit of our strength."

The Fox God chuckled. A mere goat dared to threaten it? Did it really think that the Heavenly Fox Nation relied on the protection of the Heavenly Wolf Nation to survive until now?

The fox god was completely not afraid of the threat of the black goat, but suddenly, it revealed a sullen expression and said, "So, is this your show of strength to us?"

Boom!!!

The Fox God's fierce aura directly erupted, stunning the Black Goat Totem and the others.

"Moon, your city-state has been invaded," the Fox God said. Its gaze locked onto the invader in front of it fiercely. As soon as it finished speaking, the Moon God Fox behind the Fox God also rose in anger and looked at this group of people.

At the same time, the other overlord foxes and the Beast Tamers led by the Heavenly Fox Saintess gathered here also suddenly emitted killing intent.

Black Goat Totem, Legend Bai Chuan of the Ke Yuan Financial Group: ???

Scam?

When did they invade Moon City!

Boom!!!

A violent energy wave rose from this place.

In the distance, the Butterfly God, Legend Ke, Ji Feng, and the others, who were still hiding, had already tried to transmit the situation here back to Dong Huang!

With the people from the Ke Yuan Financial Group around, they had to keep them here!

However...

They looked at the fluctuations of the totem battle in the distance and fell into deep thought. Why did they start fighting...

### **Chapter 682: Talent Plundering, Target Candidate (1)**

Moon City.

A violent explosion sounded in the Holy Land.

The Fox God Statue also appeared.

At this moment, the Beast Tamers in Moon City had already determined what was going on.

The Moonlight family's master summoned his monarch fox with red eyes and rode it towards the Moon Lord Holy Land.

At the same time, the city guards in Moon City and the Beast Tamers of the many Beast Tamer families in Moon City also rushed to the Moon Lord Holy Land one by one.

In Moon City, the Fox God Statue was supreme. On top of that, the Moon Lord Holy Land was inviolable. Now, battle fluctuations that resounded through the sky came from the Moon Lord Holy Land. Clearly, a huge change had happened!!

Soon, the Moonlight family head arrived outside the Holy Land.

The nearby city guards were even faster than them, but the hundreds of city guards Beast Tamers gathered around didn't dare to approach the holy land at all.

The pets of these ordinary city guards were not foxes. There were pets of various races. At this moment, the pets also had fear on their faces, completely stunned by deterrence!

The battle of overlords was not something these commander and transcendent pets could interfere in at all.

"That's..."

After the Moonlight family's master arrived, he looked at the sky of the Holy Land in shock. A huge white nine-tailed fox was fighting three undead!!

The nine-tailed fox's divine might was peerless. Its three opponents, the flood dragon spirit, the tiger spirit, and the turtle spirit, each had an incomparably terrifying deterrence. However, after a battle, the nine tails swept over, and the three undead attacking it immediately retreated in defeat.

However, there were three opponents, and they were all overlords. The Moonlight family's master could also tell that the Fox God couldn't let out all its might. Because the Nine-Tailed Heavenly Fox wanted to protect the city-state, it was very difficult for it to fight with all its might.

The battle of overlords could destroy cities.

The battle of totems could even destroy countries.

In order to protect its citizens, the fox god was controlling the aftermath of the battle.

"Fox God Phantom!"

"Overlord undead!"

"How's Yue'e?" After the Moonlight family head arrived, he immediately cared about his daughter. His daughter had just entered the Moon Lord Holy Land. He wanted to enter with a panicked expression, but the Star Moon Fox beside him immediately stopped him.

"Calm down, the overlord battle isn't something we can interfere in."

Be it the deterrence emitted by the Fox God's projection or the deterrence emitted by the three undead overlords, they made it difficult for ordinary monarchs to move.

"But Yue'e..."

"Let's inform the Moon Lord to return to the city first," the Star Moon Fox said.

In the Holy Land.

Shi Yu quietly guarded the altar and also controlled the three overlord undead to not let the aftermath of the battle affect them.

He was a little regretful now. Why did he have to cosplay as a villain? In the end, he provoked the Fox God's projection.

If he could restart it, he wanted to be a good person and be friends with this lady in front of him. After coaxing the little girl, he would leave quietly.

It was not fun to pretend to be a villain at all. It was easy to kick the wrong target that happened to have plot armor. What kind of ordinary level-six Beast Tamer had the protection of totem clones?

At this moment, the female Beast Tamer and her Star Moon Fox, who had entered the Holy Land at the start, were directly knocked out by the deterrence in the battle of the four overlords. Buggy in Shi Yu's pocket teleported her over.

Buggy's Dream Stealing abilities still successfully entered her dream, making Shi Yu understand what was going on. It turned out that the Fox God had given every genius of the Heavenly Fox Nation a protective blessing.

With this blessing, the projection clones of the hundreds of fox statues in the Heavenly Fox Nation could become the bodyguards of these geniuses!

“The Moon God Fox actually went to the ruins mystic realm?”

“The Fox God, the Heavenly Fox Saintess, and most of the main battle power of the Heavenly Fox Nation went over there?”

“A mysterious faction is confronting the Heavenly Fox Nation outside the ruins?”

“Wait, this mysterious faction can’t be the Butterfly God and the others, right? Don’t tell me they’ve been exposed.”

“Then have I... caused trouble to them now?”

Shi Yu really obtained a lot of useful information from this young lady of Moon City.

His expression kept changing. He didn’t want to be delayed here any longer. He also wanted to hurry to the ruins with the gem cat to take a look.

He felt guilty...

Although he was using Old Demon Lin’s identity now... it was still easy for there to be a misunderstanding.

“Mi, Mi!!”

At this moment, Chi Tong reminded Shi Yu that at this rate, the three overlord undead might be blown up by this fox god projection!!

The power of this fox god projection seemed to be continuously increasing.

In the sky, the Fox God’s Nine Tails slapped down and directly smashed the Mountain Tortoise Spirit into the ground. If it weren’t for the fact that this turtle’s defense was strong, it would have already lost its ability to fight.

The absolute zero of the Ice-Eyed Tiger Spirit was originally extremely resistant to energy moves, and even more so to this kind of mental clone. However, the reaction speed of this fox god clone was actually not inferior to Ling, who had top-notch intelligence. It directly crossed the snowstorm and sent the Tiger Spirit flying.

Only the flood dragon spirit was a little stronger. Coupled with the transcendent dragon might and reverse scale, it could restrain the fox god projection.

“Mi.”

Chi Tong suggested something according to the movie plot it had seen. It would use this totem country’s Beast Tamer as a hostage to force the Fox God to yield. They could strive to walk further and further onto the path of the villain.

“That projection clearly doesn’t have high intelligence.” Shi Yu directly refuted Chi Tong’s suggestion. Although this projection’s battle power wasn’t weak, it didn’t seem to have any consciousness.

It had protected its genius for so long. How could it let its protected target be knocked out by the battle deterrence and then be picked up by the enemy?

“It’s almost done.” At this moment, the gem cat was hiding and protecting the Starry Sky Altar and the egg in the overlord battle beside it. It stared at the egg with a burning gaze and said to Shi Yu, “Hold on for another two minutes.”

## **Chapter 683: Talent Plundering, Target Candidate (2)**

“That’s good.” Shi Yu heaved a sigh of relief.

However, at this moment, something unexpected happened. As the aura strengthened again, the fox god projection that didn’t look intelligent just now gradually cleared its eyes. Its nine huge tails swept over with a boom and directly sent the flood dragon spirit flying, forcing Chi Tong to control the flood dragon spirit to retreat.

“Who are you?” The fox god projection revealed an angry expression.

Its golden pupils looked at the gray-robed old man who was holding the genius of the Heavenly Fox Nation hostage. Its anger increased. “Let go of her, or bear the consequences.”

Shi Yu was stunned. It was conscious now?

Moreover, Shi Yu looked at the other party. It actually really cared about this little genius. However, it was just right. He had to put on a full show. After this, he would never do it again. He wasn’t planning on killing her like the female Beast Tamer from the Divine Tree Nation.

From the dream memories of the Beast Tamer they searched, if they didn’t consider the position of the country, this person was really a good person. She helped the poor in various ways and punished evil and spread good. She especially hated the totem countries that used humans as food and squeezed humans dry. On the other hand, she looked forward to Dong Huang very much. She was very curious about the human countries like Dong Huang, making Shi Yu feel that it was very unsuitable to kill her.

Even if this guy might become Dong Huang’s enemy in the future, at least she wasn’t now, not yet. It was still fundamentally different from the Beast Tamer from the Divine Tree Nation who hunted Dong Huang’s Beast Tamers. In addition, Shi Yu still didn’t know the situation on the butterfly god’s side, or whether or not they were confronting the fox god’s main body. He couldn’t expand the conflict.

Good deeds would still be rewarded. The Beast Tamer in Shi Yu’s hand directly saved her own life by being good.

Shi Yu chuckled and said, “Do you want her to live?”

The three undead overlords retreated and moved in front of Shi Yu. Shi Yu held the Beast Tamer hostage and faced the Fox God’s projection. At the same time, as the battle temporarily stopped, a large number of Moon City Beast Tamers led by the Moonlight family’s master entered the Holy Land.

In a boom, an army of hundreds entered together.

Among them, the Moonlight family head looked at the gray-robed old man holding a hostage, his eyes filled with blood vessels. "Let go of her..."

"Your master has already surrendered. Do you still want to resist fearlessly?" The Fox God stared at Shi Yu.

Shi Yu was stunned.

He kept feeling that something was wrong.

Even if the Butterfly God and the Fox God fought, it shouldn't be so fast, right?

After all, it was the legendary second team of Lin Feng. If it weren't for the fact that it was born of the wrong gender, it might even have entered the first team.

Its strength was close to a top-notch totem, so it was definitely stronger than the cat. It was a hundred-year-old totem.

It couldn't be that it couldn't even defeat the fox in the weakest totem country, right?

Could it be that it wasn't the Butterfly God and the others?

[The egg has been absorbed. We can slip away now.]

Upon hearing that, Shi Yu relaxed and expressed his understanding. He gave Buggy and Chi Tong orders. At the same time, he looked at the Fox God and the others.

"Master?" The gray-robed Shi Yu chuckled and said, "Looks like you misunderstood something."

"But forget it, I've already achieved my goal."

"I'll give her to you, but you have to let me leave. Otherwise, if a big battle breaks out, it won't be good for anyone. This city might become ruins."

Shi Yu was also unwilling to have a big battle in Moon City. After all, there were still millions of ordinary people in the city who weren't even Beast Tamers. If there was really a conflict, these people would die.

From the way the Fox God protected Moon City, it probably didn't want to have a conflict here.

With that said, Shi Yu didn't wait for the other party to answer and directly threw Yue'e and the Star Moon Fox at them.

[Don't participate in the world competition. Don't go and die with this little strength,] Shi Yu thought. At that time, the other enemies wouldn't be as kind as him.

The totem countries were also enemies against each other. If it weren't for the fact that many totems were restraining each other and were also wary of each other, the Seven Nation Alliance wouldn't be so stable.

This made Shi Yu feel that when he had the strength, he could subdue a few totem countries to play with.

For example, didn't the Heavenly Fox Nation like to cozy up to powerful people? They could also cozy up to him.

Moreover, the Space Emperor actually built the altar here. Perhaps since ancient times, this place had been Dong Huang's territory...

The hostage was thrown over.

At the same time, they disappeared collectively!

They quickly took Yue'e and the Star Moon Fox. At the same moment, the Fox God's projection flew into the sky and sensed the enemy's traces.

But...

The expression of the Fox God's projection darkened. The aura and energy wave had completely disappeared?

How was this possible? A mere legend Beast Tamer...

....

Hu hu hu...

On the super high clouds in the starry sky, a gem cat opened its starry eyes and sat on the clouds, flying leisurely.

It said that its escape was first-rate.

"Do you want to come out and see the scenery?" The gem cat knocked on the ruins space. Just as Shi Yu came out, he was shocked. He grabbed the cloud cautiously as if he had lost half his life.

"Damn, why do you still know how to summon Sun Wukong's Cloud?"

"Sun Wukong? What's that?" The gem cat was stunned.

Shi Yu said, "Cough, it's nothing."

Shi Yu felt that he was currently protected in a Psychic barrier. The cloud's flying speed was very fast, but it made Shi Yu feel very good. He said, "Did you hear what the fox god projection said just now?"

"According to the memories I've investigated, the Fox God's main body seems to have conflicted with some faction."

"Don't worry, it's not the Butterfly God." The gem cat yawned and said, "The tool President Lin gave me to contact the Butterfly God is still intact. If something happens over there, I would know."

### **Chapter 684: Talent Plundering, Target Candidate (3)**

Shi Yu grinned and said, "That's good. Then let's go to the Iron-eating Beast Ruins now. I can't wait anymore."

The corners of the gem cat's mouth twitched. "You just finished one thing, and now you're going to wreck the next set? The Fox God's main body is over there."

"I think we should just snatch the Iron-eating Beast and leave. Don't think about the mystic realm anymore. The risk of this thing is too high."

"How can we do that? Didn't the prophecy say that there are iron-eating beast evolution materials inside? If it really doesn't work, then even if Dong Huang has to send a diplomatic mission to use resources to trade with the Heavenly Fox Nation, we have to get the iron-eating beast evolution materials." Shi Yu still felt that he couldn't give up the iron-eating beast evolution materials.

Even if they had to buy it, if it was a useful evolution ingredient. He had to get it from the fox.

"Then I'll contact the Butterfly God and the others," the gem cat muttered. "Let's see what they've investigated first."

....

At the foot of the mountain in the Heavenly Fox Nation, at the legendary mystic realm.

The battle that was extremely short quickly ended. The Black Goat Totem and Legend Bai Chuan were extremely afraid. The Black Goat was even covered in injuries as it looked at the Fox God in shock.

After just two exchanges, the Black Goat Totem understood that this fox was not as weak as the rumors said.

Top-notch totem!

It was definitely a top-notch totem battle power.

Did it advance recently, or was it hiding its strength from the beginning to the end?

"Wait, I don't understand what you're saying. Although you're strong, don't bully goats too much. Otherwise, your Heavenly Fox Nation will definitely be plunged into misery and suffering."

The huge black goat stood in the ruins. It looked at the white nine-tailed fox standing under the moonlight and starlight and wanted to retreat.

"Are you underestimating my cleansing power?"

Although it was stronger than the other party, the moment the collision occurred, the earth trembled and the mountains trembled. The fox god gave up attacking. It sensed an energy range that was difficult to expel on the black goat totem.

The fox god was unhappy and didn't want to be infected by such a dirty thing.

"Even if you have some cleansing power, you think you can cleanse the radiation after my death?" The black goat said the most cowardly words in the toughest tone.

The Fox God remained silent. That was true. Even if it could deal with this black goat, it would cause very bad luck. At the same time, the entire Heavenly Fox Nation would probably become a land of radiation.

“We came with sincerity. One, one legendary resource!!”

After witnessing the strength of the Fox God, Black Goat and the others also relaxed.

“Invading our city-state and wanting our ruins? You want to send us away with a legendary resource??”  
Before the Fox God could say anything, the huge Moon God Fox behind it glared at the enemy.

“I #@%¥#¥.”

The black goat only felt that this group of foxes was something else. When did they invade the city-state?

This time, they only sent two people. How could they have the time to invade a city-state? Did the city-states of their Heavenly Fox Nation have anything to invade for? Did they have any valuable resources?

“It’s not us. One legendary resource. Take it or leave it. There are no valuable resources in the ruins at all. It’s just that our general is sealed. As long as we can save it, a legendary resource will immediately be offered.”

#### **Chapter 685: Talent Plundering, Target Candidate (4)**

“Senior Butterfly God, long time no see.”

Shi Yu had just been sent over by the gem cat when he greeted the butterfly god that he had not seen for a long time.

“Yes, long time no see.”

The butterfly god looked at this old man strangely. It naturally knew the identities of the other two reinforcements. One was Dong Huang’s new guardian gem cat, and the other was the number one person below the legendary level, the minister of the Environmental Protection Department of Dragon Palace City, and the archeologist of Bureau 11, Shi Yu.

When it woke up, the butterfly god was also very shocked. The newbie it blessed had actually become the number one super genius in Dong Huang.

Shi Yu’s sudden descent shocked the other three. The gem cat’s teleportation was too secretive. Even the Butterfly God didn’t sense it, let alone Legend Ke, Ji Feng, and the others.

“This is...” Seeing this gloomy old man, Legend Ke subconsciously said.

He didn’t know him.

Was it a disguise?

It was very normal to disguise oneself. The three of them had also done so.

“It’s me.” Shi Yu recovered his original voice and smiled at the three of them. His wrinkles trembled. Although the other party had also disguised themselves, he knew the name list and could roughly determine their identities.

“Holy shit.” Upon hearing Shi Yu’s voice, Legend Ke and Legend Zhang were stunned. As for the originally silent Ji Feng, he directly spoke in disbelief.

He was extremely stunned. “Why are you here, and in this state...”

Why did they feel that it was even better than their disguise? After all, they had gotten the best disguise master in the tenth bureau to help change their appearance.

“It’s actually you!!!” Legend Ke was also stunned. Holy shit, why did President Lin let Shi Yu go too? Ah, it seemed normal. After all, it was said that this was the Iron-eating Beast Ruins...

“I want to know the exact situation now,” Shi Yu said.

He frowned and looked into the distance where the world was changing.

Legend Ke said, “Let me.”

“The situation has changed. A group of factions has also targeted this ruin. Moreover, the two people from this faction are suspected to be the totems of the legendary helmsman of the Ke Yuan Financial Group, Bai Chuan, and the remaining faction of Yun An.”

When Legend Ke finished speaking, Shi Yu’s expression changed. “Are you sure?”

What was going on...

Could it be that they looked in the direction of the ruins? Could it be that the so-called iron-eating beast evolution materials in the ruins were Yun An Fragments??

Otherwise, was there anything worth attracting Yun An’s faction?

But no matter what, this was a good thing.

Be it the Ke Yuan Financial Group or the Yun An faction, they were both enemies that Dong Huang was currently searching for.

“It’s basically confirmed. Although the Ke Yuan Financial Group’s Bai Chuan has also changed, through the pet he contracted, we can basically confirm that it’s him.”

“Madam Qu Ling has already told us the specific information over there.”

Apart from the information that the legendary ruins might be the place where their Yun An faction general was sealed, Qu Ling had already told Legend Ke and the others about the other information through her position.

“Then what should we do?” Shi Yu asked.

“We’ve already sent the news back to request support,” Legend Ke said. “If necessary, let’s subdue that Bai Chuan first.”

“But the situation has changed greatly. Just now, the Fox God had a certain conflict with the other party. The Butterfly God judged that the Fox God’s strength might not be just at the ordinary totem level, and its strength might not be inferior to it. And now that the two totems have stopped moving, no matter what, we definitely can’t carry out the mission perfectly with just us.”

“So unless it’s necessary, it’s better to wait for reinforcements slowly.”

Was the Fox God so strong?

Shi Yu was stunned.

However, the Fox God and Yun An’s faction had a conflict?

Shi Yu had a strange expression.

It shouldn’t have anything to do with him, right?

He quickly looked at the old woman among the three and understood that it was a message from her.

This old woman was also a member of the tenth bureau. Her surname was Zhang, and she was at the legend level. Her Beast Taming Talent was very special, and it was teleportation.

She could teleport her contracted pet to the place where the teleportation array was set up in advance.

The greatest teleportation distance could cross the forbidden zone of the Lost World and three totem countries.

She was an important member of the infiltration team who maintained contact with Dong Huang.

Not long ago, she had already gotten her pet to send the news here back to Dong Huang as quickly as possible.

If nothing went wrong, after Dong Huang received the news, they would immediately send strong reinforcements.

It was even possible to directly send an army to pressure the Heavenly Fox with the excuse of “the Heavenly Fox Nation luring the legends of the Seven Nation Alliance to betray the country”.

“What about the Iron-eating Beast??”

“Didn’t they say that there’s an Iron-eating Beast race around the ruins?” Shi Yu asked.

The main mission this time was to bring this Iron-eating Beast race back.

According to the information, there were at least hundreds of iron-eating beasts.

“The Iron-eating Beasts are currently being guarded by an overlord of the Heavenly Fox Nation. Because there are a large number of traces of Iron-eating Beasts at the ruins location, as well as traces of the Emperor Wu Army, this ruin has been judged to be related to the Iron-eating Beasts. They watch the Iron-eating Beasts very closely and think that this group of Iron-eating Beasts is the key to cracking the ruins,” Legend Ke said.

“Although the security is very tight, it’s not very difficult to take it away forcefully,” the Butterfly God said. “It depends on when we attack.”

“Although that fox is more difficult to deal with than I imagined, its speed shouldn’t be faster than mine. Moreover, I have rich experience dealing with fox spirits.”

The butterfly god let out an indignant and youthful voice.

Shi Yu was silent. He suspected that there was definitely a female fox in Lin Feng Legend’s team...

Next, Shi Yu, Legend Ke, and the others kept exchanging information.

### **Chapter 686: Talent Plundering, Target Candidate (5)**

Including the battle power distribution in the legendary mystic realm, the information on the black goat being dark-element, and the specific battle power information of Legend Bai Chuan, everything was shared with Shi Yu one by one so as to make the next mission smoother.

“You should know the information about the Seven Islands’ Bai Chuan, right?”

At this point, Legend Ke wanted to slack off because Shi Yu had also gone to the Seven Islands at that time. Bai Chuan was an important clue to the Ke Yuan Financial Group, the Poison Dragon Totem, and the Yun An faction. Legend Ke believed that Shi Yu, the minister of the Environmental Protection Department, should know very well, so he wanted to skip it.

However, Shi Yu said, “Cough, tell me about it.”

The corners of Legend Ke’s mouth twitched. “Ke Yuan Financial Group’s Bai Chuan, Beast Tamer level seven. His Beast Taming Talent is ‘body control’. Because of his Beast Taming Talent, he has been learning the knowledge of biological modification from a Mechanic since he was young. His ‘body control’ talent can assist his pet in controlling various organs and even a hair in an incomparably exquisite manner. Therefore, his attainments in biological modification are very strong, and his pet’s energy control is also very strong.”

“Therefore, the seven pets it contracted are all biological modification-type pets. Apart from that, it’s said that after reaching the Legendary level, his ‘body control’ talent can also allow him to control the changes in every organ and hair on his own. His control over his body has also reached a very high level. Because of this talent, his physical fitness is very strong. He can even mobilize his mind and soul power through ‘body control’ and even develop spiritual power.”

“However, due to the weak physique of humans, the Seven Islands say that his special abilities are only comparable to commander-level pets, but you have to be wary of his hidden methods. Apart from that, his pets are...”

Legend Ke quickly introduced the information about Legend Bai Chuan to Shi Yu. Shi Yu was originally listening quietly, but as Legend Ke introduced this Legend Bai Chuan’s Beast Taming Talent, Shi Yu was stunned.

He first thought that it was no wonder the Ke Yuan Financial Group could create the Poison Dragon Totem and use the power of Yun An to modify creatures. It turned out that this Bai Chuan Legend's Beast Taming Talent specialized in this aspect.

Then, after hearing that Legend Bai Chuan could even use the "body control" talent to control his body, mind, and soul energy, Shi Yu's brain rumbled.

In an instant, he felt that his thoughts were extremely smooth.

When he studied the "Telepathy" talent and wanted to develop telepathy into a strengthening ability, what was he lacking the most?

What he lacked was a way to control his various energies.

Due to the aptitude of humans, apart from the Beast Taming Talent skill, it was very difficult for humans to control their energy. Even if Chi Tong possessed Shi Yu, it would only directly consume Shi Yu's strength.

Although Shi Yu's mental strength was not necessarily inferior to a monarch-level ferocious beast, he could not materialize his mental strength to condense Psychic power.

However, Psychic power could be done by an Awakening-level spiritual pet.

If humans wanted to control energy other than the ability to control beasts, there was only one way. That was to become a hybrid and obtain the aptitude of other races.

Therefore, it was as difficult as ascending to the heavens for Shi Yu to control other energy and develop telepathy himself.

However, Legend Bai Chuan's "body control" talent stunned Shi Yu. He suddenly thought of a key problem.

If he plundered the "body control" talent with the Talent Bead and could control his body, mind, and soul energy with the support of the Talent Bead, did that mean that he could try to fuse other energies and develop the telepathy talent?

"A plundered talent is ultimately an external force attached to a tool. Just like the Awakening Mirror, it can't grow."

"However, if I can plunder this control talent and develop my telepathy talent through the body control talent, making telepathy very strong... This way, as I grow, telepathy can continue to evolve infinitely. Everything will be my own strength."

Instead of relying on other people's talent...

It was better to use other people's talent to develop his talent.

This way, its value could be maximized.

"Apart from that, the functionality of 'body control' sounds pretty good. It might help Ling study the 'tenth inscription' and 'Kirin Phantom'."

At the thought of this, Shi Yu seemed to have suddenly found the best candidate to use the Talent Bead he had obtained from An Chang.

This Legend Bai Chuan who had joined the Yun An faction... His talent... was the best choice!!

“What’s wrong with you?”

Legend Ke realized that as he spoke, Shi Yu’s eyes were green.

This disguise even had a flash effect???

“This Bai Chuan must be taken...” Shi Yu said, “This kid is too critical. We can’t let him escape.”

“Moreover, we have to keep him alive. We can’t kill him.”

If he killed it, he wouldn’t be able to plunder the talent.

“Of course I know that.” Legend Ke nodded. If he didn’t squeeze enough information from Legend Bai Chuan, how could he let him die so easily?

After everyone finished exchanging information, they waited.

Not only were they waiting for Dong Huang’s reinforcements...

They were also waiting for the update on Qu Ling at the legendary ruins.

The Butterfly God used its skill to turn everyone’s aura fluctuations into wind. By observing the situation here, it could react at the fastest speed.

### **Chapter 687: Talent Plundering, Target Candidate (6)**

“There’s news.” Before long, the old woman, Legend Zhang, held a jade stone and said, “It’s news from Qu Ling...”

Shi Yu, the Butterfly God, Legend Ke, and Ji Feng looked at the old woman.

Under everyone’s gaze, this jade stone gradually turned black. This scene immediately made the old woman’s expression change. “Oh no, oh no, Qu Ling’s identity is at risk of being exposed. Her current situation is very dangerous.”

As the old woman finished speaking, the expressions of many people changed.

“What should we do?” Ji Feng immediately said solemnly.

Although the intelligence officer of the tenth bureau had ways to destroy all their memories in a crisis and ensure that everyone’s identities weren’t leaked, they would definitely be in huge danger, even if they could continue the mission.

It was obvious that the other party was in an extremely dangerous situation.

Shi Yu’s expression also changed. “This person...”

This person was Master Qu Jie's daughter, right?

"I'll go save her."

"This is also part of the mission."

Shi Yu said, "You guys wait for the news here. Don't worry, we won't be exposed."

Shi Yu summoned the gem cat almost without hesitation and went to the legendary ruins together. These missions could be interrupted, but he couldn't let anything happen to Master Qu Jie's daughter in the Heavenly Fox Nation.

....

Outside the legendary ruins.

The Heavenly Fox Army of more than ten thousand people stood neatly together.

Among them, a woman was extremely panicked and understood that a big problem was about to happen.

Ever since she came to the Heavenly Fox Nation, she had never joined the official faction because the risk of being exposed was too high. This time, because the matter of the legendary ruins of Emperor Wu was very important, she had no choice but to take the risk and use various connections to enter the Heavenly Fox Guard to investigate more information.

Although she had already expected this moment, Qu Ling was still a little afraid.

Her heart was thumping.

Although her mental fortitude was pretty good, the totem-level fox god stood in the sky and looked down at them. After that, overlord-level foxes appeared one after another.

Under this pressure, as a top-notch master, Qu Ling really couldn't breathe.

"Hahahaha, are you looking for spies?" At the side, the Black Goat Totem that flew over looked at this group of cute humans and chuckled.

Beside him, Legend Bai Chuan was expressionless. His gaze was more focused on the illusory legendary ruin door that connected heaven and earth.

The method to crack this ruin was what he was most concerned about.

Unfortunately, after so many days, the Heavenly Fox Nation still couldn't crack this legendary seal ruin.

Unfortunately, they temporarily couldn't find a very good way to crack this sealed ruin.

"You..." Under the Fox God's gaze, through some unknown method, its gaze focused on a middle-aged Beast Tamer in the army. Under its gaze, the middle-aged man was covered in sweat, his eyes filled with fear.

"No, no, spare me, Lord Fox God, spare me!!!"

The middle-aged man let out a miserable cry and was pulled into the sky by a wave of spiritual power. Then, with a miserable cry, he fainted and was thrown to the ground by the Fox God.

“A spy from the Heavenly Wolf Nation?” The Fox God’s expression was unfriendly. It was rare for it to wake up. It didn’t expect this much trouble.

Its bootlicker actually dared to plant people in his territory?

It looked at a woman with a fox beside her. After looking over, the middle-aged woman was instantly shocked.

Just like the outcome of the middle-aged man from before, the middle-aged woman was instantly pulled out, her memories extracted, and thrown out.

In the next moment, another pale young man was pulled out and thrown out.

The corners of the mouths of the Black Goat Totem and Legend Bai Chuan twitched.

How many spies did this Heavenly Fox Nation have!!!

Under the repeated searches of the Fox God, soon, six spies were pulled out, making the Heavenly Fox Saintess and the overlord foxes reveal unfriendly expressions.

Son of a b\*tch.

Soon, the fox god’s gaze landed on a captain of the Heavenly Fox Guard, a woman in her twenties. Her expression was calm and she kept silent. She looked at the fox god and was filled with piety.

“You’re pretending very well.”

The Fox God said coldly and looked at Qu Ling. These words almost made Qu Ling cry.

The Fox God’s Psychic wave enveloped over.

As for Qu Ling, she seemed to have resigned to her fate. Her expression was filled with despair. Fortunately, Qu Ling knew that her memories had the ability to self-destruct and that her identity wouldn’t be leaked.

However, she was about to die. Qu Ling was still very desperate...

Buzz!

Psychic power enveloped over. At this moment, a spatial crack opened behind Qu Ling. A powerful Psychic power emitted and bounced back the Fox God’s Psychic power, making the Fox God’s expression change. Then, the spatial crack stretched out a hand and pulled Qu Ling into an alternate space.

At this moment, the Fox God, the Heavenly Fox Saintess, the Black Goat Totem, and even the overlords were shocked.

Especially the Fox God, who was immediately furious.

“Spatial element totem...” The black goat’s gaze was even filled with fear. It felt that this Heavenly Fox Nation was simply a place filled with dragons and tigers.

“Since you’re here, don’t even think about leaving...” At the totem level, transcendent life forms could optimize their race and create their own skills. Every totem level more or less cultivated methods against the spatial element, and the Fox God was naturally no exception.

## **Chapter 688: Talent Plundering, Target Candidate (7)**

Although it felt that its spatial attainments were inferior to the guy who saved the spy, the Fox God immediately erupted with the greatest strength to stop the rescuer.

In the alternate space, Shi Yu and the gem cat, who had pulled Qu Ling into the alternate space, had panicked expressions, but not especially worried.

“Don’t worry, cat. I have the protection of the Dragon God, I’ll protect you. We won’t die no matter what!”

In order to let the cat drive in peace, Shi Yu kept comforting it.

As for the gem cat, it was cursing. At this moment, Qu Ling was the most shocked. She looked at the white alternate space she was inexplicably pulled into, at the gray-robed old man who was pulling her, and at the transcendent gem cat. She was very confused.

Boom!!!

“What the...” The gem cat didn’t want to talk to Shi Yu now. As the space vibrated, the gem cat’s scalp went numb. “Sit tight, let’s drive!!!”

Boom.

Cracks appeared in the alternate space. The huge impact made the people and beasts in the alternate space spin. Soon, the gem cat laughed.

“Hahahahaha, little fox, you’re still too young to fight with big sister cat... How is it? My skill...”

After the gem cat instantly left the vicinity of the legendary ruins, it laughed smugly. It looked at Shi Yu and Qu Ling and decided to take credit.

However...

It looked at the shocked Qu Ling in silence and said, “Little girl, where’s that old man?”

Qu Ling was at a loss. “Yeah, where is he...”

The gem cat: ???

The cat’s gaze exploded. The entire person was gone??

“Where is he!!!”

The gem cat shouted in shock.

Then, it suddenly fell silent. Danger was impossible. Even if it was insta-killed, Shi Yu himself would be fine. Dragon God Protection wasn't just for show.

The gem cat suddenly had a bad feeling.

At this moment, the Fox God and the others also had a bad feeling.

At this moment, they were in no mood to pay attention to the spatial totem and the spy who had been rescued.

Buzz!!!!

At that moment, the violent vibration of the legendary ruins space made many people look over!!

....

In the legendary sealed ruins, a figure descended inside.

Now, the most stunned was clearly Shi Yu!!!

He originally wanted to go over and protect the gem cat. After all, although the gem cat's attack power wasn't weak, its defense was inferior to Eleven's. In order to ensure that nothing happened to the gem cat, he went over together and used himself as a shield for the gem cat to block the possible threat.

The danger didn't happen. It successfully escaped from the fox god again. Shi Yu was convinced by its reputation as a coward cat.

However, the moment he pulled Qu Ling in, Shi Yu was also depressed.

Because the moment the spatial crack opened, he heard a voice!

[What's your relationship with that turtle...]

Then, he was directly sucked here by the spatial vortex born with the spatial crack.

"Trash Dragon God Protection, you're not very smart!!! How could you not block this?!"

After Shi Yu arrived at this new space, his expression immediately changed because he instantly sensed an energy wave similar to Yun An.

However, in the next moment, what shocked Shi Yu even more was the woman who appeared in front of him.

This was a spiritual body that looked like an illusion. She was wearing the armor of the Emperor Wu Dynasty during the Emperor Wu Dynasty era and had a calm expression. What shocked Shi Yu the most was that this guy was too similar to the panda senior, Lin Xiuzhu. It could be said that they were simply carved from the same mold, apart from being a little older.

It gave Shi Yu a feeling that if Senior Panda was 30 or 40 years old, she might look like the woman in front of him!!

**Chapter 689: First Kill Totem Kill**

“You...”

When Shi Yu saw this woman, he made a preliminary judgment that she was an ally.

The first reason was that she was wearing the standard armor of the Emperor Wu Dynasty.

The second reason was that it was a mature panda senior.

The third reason was that the Dragon God Protection didn't react.

Fourth, could the turtle the other party mentioned be Zhong Xuan?

Now that he thought about it, perhaps the Dragon God Protection wasn't necessarily unintelligent, but too intelligent.

Unless it was really a life-and-death crisis, it probably wouldn't trigger the protection.

At the same time, Shi Yu was a little sad.

The next time he went to Dragon Palace City, he had to ask the Dragon God properly. Could it be that after he ate the Undying Fruit, the Dragon God protection would insist that Shi Yu be in his undead form already before protecting him when there was a life-and-death crisis?

That would be a scam.

“What's your relationship with that turtle...”

A woman who was 90% similar to Senior Panda was still saying the same thing.

Shi Yu asked, “What's your goal in pulling me here?”

Shi Yu was silent. Although he knew Zhong Xuan, he wanted to know how this woman sensed his connection with Zhong Xuan.

It would be fine if Zhong Xuan was his contracted pet, but he had only chatted with Zhong Xuan for a while.

This person could sense this?

“Old man, there's no need to be nervous.” The woman smiled and said, “I mean no harm.”

“I just wanted to clear my confusion after sensing a special spatial wave on you.”

“Spatial fluctuations?”

“Don't you know? When one ruin space comes into contact with another ruin space for a long time and overlaps, weaker spaces will be affected by stronger spaces and similar spatial fluctuations will appear.”

“You should have carried a certain spatial tool and stayed in a certain ruin for a long time, right?” The woman looked at Shi Yu and said, “Can you tell me about it?”

Shi Yu was slightly stunned and immediately understood. He had indeed brought the ruin ring and stayed in Emperor Wu Ruins for more than two months.

“I want to know if you’ve seen a turtle in that ruin,” she said. “The spatial fluctuations of the spatial equipment you carry are very special. You’ve even come into contact with a deeper layer of spatial fluctuations. I couldn’t be wrong.”

“You must have come into contact with that turtle.”

“How do you know?” Shi Yu asked in confusion. Even the gem cat would probably find it difficult to detect the similarity between these subtle spatial fluctuations.

This woman could sense it through a layer of space?

The mature panda senior said, “Of course I know, because I’ve also participated in the modification of the ruins space you’ve been to.”

“Now, you can also tell me, right?”

She had participated in the modification of Emperor Wu Ruins?

Shi Yu was immediately silent. He was even more certain of the other party’s identity.

The other party was most likely a Beast Tamer of the Iron-eating Beast Tribe under Emperor Wu.

Zhong Xuan had said that the ruin was used to nurture Iron-eating Beasts. It was watched over by it and the feeders of the Iron-eating Beast Tribe.

Since this person had participated in the modification of the ruins, he was definitely a core figure of the Emperor Wu Dynasty.

He decided to forget it and lay his cards on the table and not waste time. The gem cat and the others should be worried about him. He had to understand the cause and effect as soon as possible and get out.

“Senior Chong Xuan... I’ve indeed seen it before.” Shi Yu looked at her.

“It has nurtured me.”

The woman revealed a happy expression and said, “In that case, it’s still alive.”

“No, Senior Chong Xuan has already reincarnated,” Shi Yu said.

“Reincarnation?”

“As expected, it still can’t find a way to recover.” After being stunned, she said with a regretful expression, “Reincarnation... is also a method.”

“So, Senior, who exactly are you...?” Shi Yu asked.

“I’m the legend level cultivator of the Iron-eating Beast Corps under Emperor Wu, Ji Mengzhu.” Ji Mengzhu looked at Shi Yu. Although she didn’t know if what Shi Yu said was true, she was still relatively happy to encounter someone who had entered that ruin.

“Your surname isn’t Lin?” Shi Yu felt strange.

He was already certain that this person was most likely one of Senior Panda's ancestors. Senior Panda's ancestor was indeed related to the Iron-eating Beast Tribe!

"You said that Zhong Xuan has nurtured you. What's going on?" Ji Mengzhu looked at Shi Yu, wanting to confirm further.

Shi Yu said, "I contracted an Iron-eating Beast. After entering that ruin, I accidentally refreshed a trial record and woke up Senior Chong Xuan. I learned about what happened at the end of the Emperor Wu Dynasty from it. Then, Senior Chong Xuan told me the evolution method of my Iron-eating Beast and the cultivation method of my Iron-eating Beast."

"You contracted an Iron-eating Beast?" Ji Mengzhu's expression was pleasantly surprised. She believed Shi Yu's words even more.

"Can you summon it for me to take a look?"

Shi Yu thought for a moment and nodded. He had already confirmed that this Ji Mengzhu was an ancient from 2000 years ago. He just didn't know what method she had used to survive until now in the form of a spiritual body. From the looks of it, she seemed to be able to control this legendary ruin.

Did it become an artifact spirit?

After entering the ruins for a moment, Shi Yu could already confirm that this ruin was most likely like the Ice Dragon Ruins, sealing and suppressing some great danger.

From the energy fluctuations and historical direction, it was very likely a totem that suppressed the relevant factions of Yun An, and this Ji Mengzhu was guarding here.

Since it was an ally, there was no problem. Thinking of the prophecy of the country's guardian, there might even be iron-eating beast evolution materials here. In addition, this Ji Mengzhu was the chief feeder of the iron-eating beast army of the Emperor Wu Dynasty. She might have mastered many rare metals. Shi Yu's heart surged.

## **Chapter 690: First Totem Kill (2)**

This was a super rich woman suspected to be able to strengthen Eleven's legendary level.

"Eleven."

A purple summoning array condensed in front of Shi Yu. Under Ji Mengzhu's gaze, a chubby panda more than a meter tall came out with a pleasantly surprised expression.

What strong dark-element radiation!!!

Eleven, who had absorbed the meteorite fragment, instantly sensed that there were definitely other meteorite fragments here!!

"Wuu!!!" Eleven looked around and saw Ji Mengzhu. It immediately opened its mouth wide in shock.

Lin Xiuzhu? No, but it seemed like her.

Just like Shi Yu, Eleven was also stunned when it saw Senior Ji Mengzhu.

“Inner Power form... And it’s a royal...” Ji Mengzhu was slightly stunned when she saw the Iron-eating Beast Shi Yu summoned. Then, she revealed an incredulous expression.

In her vision, the little Iron-eating Beast wasn’t as it seemed. Her eyes seemed to be able to see the hundred-meter-tall Nine Li form behind Eleven. The terrifying black and white lightning intertwined and wrapped around the shocking body of a full-level royal deterrence. This power instantly caused an incomparable impact on Ji Mengzhu.

“Monarch level, yes, but what’s with this potential...”

As a legendary feeder of the Iron-eating Beast Corps, she had seen many Iron-eating Beasts. Her understanding of Iron-eating Beasts was much stronger than Shi Yu’s. Even during the period when Emperor Wu cultivated Iron-eating Beasts, she had given a lot of help and knew the Iron-eating Beast race very well.

However, Ji Mengzhu looked at Eleven in shock. She saw through its endless potential at a glance. Its foundation was probably even stronger than Emperor Wu’s Iron-eating Beast at the monarch level.

She looked at the gray-robed old man in front of her in shock. Just now, she didn’t care much about Shi Yu, who was only a level-six Beast Tamer at this age. However, after discovering Eleven’s specialness, Ji Mengzhu was extremely shocked. She didn’t expect that the old man’s cultivation level of the Iron-eating Beast had reached such an unbelievable level.

“How did you do it?”

Even with the help of Zhong Xuan, it was definitely impossible to reach this stage...

“What do you mean how?” Shi Yu pretended to be confused.

After a moment of silence, Ji Mengzhu said, “Can you tell me what the outside world has experienced in the past 2,000 years?”

Shi Yu nodded and said, “After Emperor Wu and Yun An perished together, Dong Huang fell into the totem war. The Emperor Wu Dynasty was destroyed and experienced an era of hundreds of years of separation. During this period, although many powerful Beast Tamers who could fight against totems appeared among the Dong Huang humans, they didn’t complete the unification of the country.”

“It was not until hundreds of years later that an empress ascended to the legendary level and completed the unification of Dong Huang again. She expelled many totems from the east and suppressed the world. However, after that, Dong Huang experienced three more totem wars. Until 180 years ago, the totem war ended again by a new human legendary.”

Ji Mengzhu was silent. Although she had already expected many things to happen in 2000 years, she didn’t expect Dong Huang to experience so many war periods.

“Therefore, this place shouldn’t be Dong Huang, right?”

“If it was an ancient country that had been unified, it shouldn’t have been invaded by the Yun clan.”

She looked out of the void and said, “I can sense that totem-level Yun clan in the outside world.”

“Indeed not. This is a totem country called the Heavenly Fox Nation outside Dong Huang.”

“Then are you a human from Dong Huang?”

“Of course. Otherwise, I wouldn’t have been able to obtain Senior Chong Xuan’s recognition. I came here because the descent of this ruin is related to the Iron-eating Beast, so Dong Huang takes it especially seriously.”

“Then, Senior Ji, can you tell me what’s going on here?”

Ji Mengzhu looked at Shi Yu and said, “Sure, you should know that after Emperor Wu and Yun An perished together, Dong Huang was in chaos. The Yun clan and the totem races invaded Dong Huang, and a new round of totem battles erupted.”

“Among them, because the Yun clan was afraid of the Iron-eating Beasts and the Iron-eating Beast Army, they issued a genocide order to the Iron-eating Beasts. Under the pressure of the situation, apart from the Iron-eating Beasts that can still fight, we brought many Iron-eating Beasts that had yet to form battle power to disperse and hide in order to make a comeback.”

“Iron-eating beasts can’t be exterminated.”

“I led one of the teams, but because my whereabouts were exposed, I was surrounded and killed by the totem general of the Yun clan. The army escorting us started a huge battle with the Yun clan general. After a battle, we were no match for him. We could only sacrifice our lives and use an ancient sealed ruin to seal the Yun clan general here.”

“As well as seal those Iron-eating Beast cubs here.”

“This is a time-type ruin passed down from ancient times. The sealing power is powerful, and the highest it can seal is a top-notch totem. Unfortunately, the target sealed won’t die with the passage of time. It can restrict its movements, but it can’t completely kill the other party.”

“After that, I turned into the array spirit of the ruins and suppressed the Yun clan’s general. During the seal, time stopped flowing. It was only in recent years that I woke up because the seal loosened and the power of the Yun clan’s general leaked.”

“You saw it too.” She looked into the ruins and said, “The interior of the ruins has already been corroded by these powers. As the spirit of the ruins, in order to ensure that those Iron-eating Beast cubs aren’t corroded by these powers, I teleported them out.”

“However, if this continues, it’s only a matter of time before this Yun clan general breaks through the seal. In the end, it only treats the symptoms but not the root cause. And this ruin no longer has any excess power to reinforce the seal.”
