

## Beast 721

### Chapter 721: Creating a Super Sect (4)

This way, it would be very difficult for other Iron-eating Beasts to replicate this path.

Ling felt that this research was not perfect enough, but an expert level top-notch intelligence could only do this much.

“It’s good enough. Let’s do this first.” Shi Yu nodded. He was already completely satisfied.

This way, the basic conditions for evolution were about the same!!!

After Eleven broke through to the overlord level, it could carry it out.

However, he had to increase the superalloy skill points first.

Shi Yu was considering whether to reach Perfect Level or the transcendent level, which was the upper limit.

If it reached the perfect level, it was hard to say if it could fuse the Demon God Metal and the Light Thunder Metal to complete the evolution at the same time. After all, it was a conflicting power.

And if it was transcendent, the investment would be too big. However, in this case, the success rate and the racial level after evolution would definitely be maxed out.

Shi Yu thought for a moment. The World Tournament was still early. At the moment, he could add points to Eleven. The cooldown of a super skill would take less than a day. He felt that there was still hope for 64 points into superalloy.

“Transcendent-level superalloy+Dark Demon God Metal+Light White Thunder Metal. Is it possible to reach the Mythical race and awaken quasi divine skills?”

Suddenly, Shi Yu recalled Senior Ji Mengzhu’s words.

Relying on the fusion of many skills and special powers, it was possible to form the prototype of a divine skill...

As for the transcendent super evolution skill superalloy, it was clearly a skill to fuse special power...

Transcendent super racial skills could already be at the totem level. As for Eleven’s superalloy, although it wasn’t a racial skill, the difficulty of mastering it was usually higher than those skills.

Using it to fuse special powers... One of them came from the half-god Yun An, and the other was the conflicting white lightning.

What if...

Shi Yu smiled and stopped daydreaming. He felt that the chances were not high. If Eleven could really become a Mythical race at the overlord level, wouldn’t he be even more impressive than Legend Lin Feng?

However, if there were conditions, it was definitely better to maximize superalloy. Even if it couldn't reach the Mythical race, it would definitely be the pinnacle race below the Mythical stage. It would completely defeat Emperor Wu's Iron-eating Beast.

"Let's continue adding points..."

That was what Shi Yu thought. However, the Bean Bear guard who was in charge of answering the call outside the ruins suddenly ran in to inform Shi Yu to answer the call.

Shi Yu was stunned. He decisively left the ruins and came to a place with a signal.

The caller was President Lin.

Shi Yu picked up the call in surprise and said, "President Lin, how is it?"

On the other side of the video, President Lin shook his head and said, "The three mystic realms of the Meteor Race only broke through the nest of the Black Goat and the nest of another ordinary totem. We didn't find the traces of that top-notch totem's mystic realm. One possibility is that it's a legendary and Mythical mystic realm that we can't crack. It hid. The other possibility is that it's a mobile mystic realm. That totem learned of the danger in advance and escaped."

"Now that we've locked onto the location of this ruins mystic realm, regardless of whether it hides or escapes, this place will continue to be monitored."

"Unfortunately, I couldn't use this opportunity to find Yun An's revival location. The two ordinary totems know nothing about Yun An's revival location."

"This..." Shi Yu was slightly stunned. "Then, are we just going to wait?"

President Lin said, "Next, Dong Huang will gradually mobilize the members of Bureau 11 to investigate this ruins mystic realm. However, this matter isn't urgent. You and Lu Qingyi will still prioritize the World Tournament first. This is more important. This place has already been locked onto by Dong Huang's forbidden weapons. They can't cause any waves. After the World Tournament ends, if there's still no progress, you might need to come here and investigate together."

"After all, you're also one of the best archeologists in Bureau 11, and you have a huge relationship with the Yun family."

Shi Yu had a headache. He thought that Dong Huang could directly capture Yun An alive. Why was it stuck at cracking the ruins mystic realm again? It wanted him to take action...

Damn, Shi Yu suddenly recalled the battle between Demon God Eleven and the mysterious dark-element totem that the owl had predicted...

Why did it feel that it was developing more and more in this direction...

No, no, no. He had already decided to let Eleven evolve. It definitely wouldn't happen. Nothing would happen.

"I understand," Shi Yu replied to President Lin.

"Yes," President Lin said. "There are two more things..."

President Lin chuckled. "There's also good news. Although there are no legendary resources in the nest of the two totems of the Fallen Race, there are a lot of other resources. Apart from that, the Seven Islands have also paid a certain amount of resources to Dragon Palace City and Dong Huang."

"It's all thanks to the information you provided. Do you still lack any resources?"

Shi Yu's eyes lit up. "Is there any more Aurora Magnetic Gold? Another piece?"

Eleven had evolved, and eleven meteorite fragments were prepared. They were all level-eight resources of legendary quality. As for the corresponding resource, Aurora Magnetic Gold, although it was a legendary level-nine resource, there was only one. Moreover, it had used most of its strength. Shi Yu felt that it was more balanced with another Yin Yang.

This way, the proficiency requirement for the White Thunder skill might be lower. He didn't have to spend much effort to increase it.

President Lin nodded and said, "Sure."

Shi Yu said, "Then President Lin, can I enter the Intelligence Bureau?"

President Lin: "?"

"Didn't you say... that the information provided this time is quite important?" Shi Yu coughed dryly.

President Lin fell into deep thought. If he remembered correctly, Shi Yu had already joined four bureaus.

## Chapter 722: Creating a Super Sect (5)

President Lin established Bureau 13 of Dong Huang to gather elite talents from various fields and promote the prosperity and development of various fields. Together, he wanted Dong Huang to become stronger. Every Beast Tamer qualified to enter one of the bureaus was considered a pillar of the country.

However, why did Shi Yu feel like he was playing the key national departments he had established as a "collection game"?

Moreover, Shi Yu wasn't the first to say that to him.

The first to feel that Shi Yu should have joined the tenth bureau's Intelligence Bureau was Legend Zhang of the tenth bureau that had accompanied him in the Heavenly Fox Nation!

Although very silent back there, Grandma Zhang was very emotional when she spoke to President Lin afterward.

"I've long heard of many of this Shi Yu's deeds. Today, it looks like he's indeed a super genius. Old Lin, speaking of which, this Shi Yu is quite suitable to join the Intelligence Bureau. He's simply played an irreplaceable key role this time. This telepathy talent is simply born for information."

"Not only can it communicate with foreign races with language barriers, but it can also listen to history. In this era, the importance of information is self-evident."

If the information was correct, everything could be set up in advance. Even demigods would have to kneel!

However, in the face of Legend Zhang's praise for Shi Yu, President Lin didn't mind much. He thought that Shi Yu would find it troublesome. After all, he had already joined so many bureaus.

But from the looks of it, not only did this guy not find it troublesome, he even seemed to be enjoying it?

"Yes." President Lin thought for a moment and nodded slightly. Some special benefits of joining the Intelligence Bureau seemed to be helpful for Shi Yu's safety when he was active abroad.

In that case, he could do as he wished.

Shi Yu was excited. Alright, five bureaus.

"By the way, President Lin, do you know the Phoenix God Society of the Seven Islands? It's the Seven Islands faction that was lucky enough to obtain the low-level resources of the Phoenix Mystic Realm."

President Lin said, "Of course. Speaking of which, their legend seems to want to come to Dong Huang to visit you and Lu Bai. However, because the relationship between the Seven Islands and Dong Huang was tense previously, they couldn't come. But after a while, Dong Huang and the Seven Islands should let them pass."

"Did you expose your alternate identity?"

Shi Yu was stunned, but he didn't mind. He said, "Probably not. He's most likely curious about the origin of the Phoenix Mystic Realm."

"President Lin, what I want to say is that didn't their legend Divine Master develop a resource called the Phoenix Fruit that can modify humans with suitable talent into phoenix hybrids?"

"I've also researched the cultivation method of this resource! With the resources in place, it can be produced in large quantities. A phoenix hybrid should be quite strong, especially since the Phoenix Race's headquarters is Dong Huang in the first place. With the empress also a hybrid of the Phoenix Race, she can definitely find a batch of young female Beast Tamers with special aptitude. I feel that we can make a phoenix army!!"

"Isn't the strongest army of the empress dynasty the Phoenix Army? Now that we have the Iron-eating Beast Army, isn't it not bad to have the Phoenix Army?"

The more Shi Yu thought about it, the more he felt that it was possible. Iron-eating Beast Army, Green Silkworm cocoon army, mechanical phantom beast army, Phoenix Army... It looked like his armies had to increase by one.

If it was going to happen in the future, why not go for it now? After hanging up, he would get Buggy to fly around and see if he could find a beautiful girl with the aptitude of a phoenix and nurture her in advance.

When President Lin heard that, he fell silent again.

Did this kid still want to join the mixed-blood bureau?

He remembered that when he established Bureau 13 of Dong Huang, he probably didn't mention the strange setting of "as long as you gather all 13 bureaus, you can become the next president of Dong Huang" ...

Chapter 723: Legend Senior Lu and the Overlord Void Mantis

President Lin was silent.

However, the Phoenix Fruit of the Phoenix God Shrine was indeed a good thing.

The humans of Dong Huang used dragons and phoenixes as totems. Among them, the empress was a hybrid Phoenix Race. The symbolism was huge. It could be said that the empress was the idol of most female Beast Tamers in Dong Huang.

Now, the dragon hybrid had been passed down, but the phoenix hybrid had been lost. It was a little regretful.

If he could use the Phoenix Fruit to dig up the Beast Tamers with hidden Phoenix hybrid aptitudes among the Dong Huang humans and help them awaken, Dong Huang might be able to add several powerful legends.

"Arrange for it to be done," President Lin said. "As long as nothing goes wrong."

The World Tournament was imminent, and he had more important things to do. He didn't have time to care about these things now, so he handed Shi Yu full authority to deal with it himself.

Upon hearing that, Shi Yu smiled brightly and said, "Alright."

When the Phoenix Army was established, the mixed-blood bureau would probably be completed!

The others that were easier to join, such as the Medical Bureau, the Business Bureau, the Education Bureau... didn't feel very difficult.

After hanging up, Shi Yu immediately got Buggy to bring him around Ping Cheng to find Beast Tamers with the aptitude of a phoenix hybrid...

Then, after searching around, Shi Yu returned to the icy plain and threw a mission to Ling's clone.

He took the time to make "Phoenix Radar" and "Phoenix Search Compass". It was the kind of detector that could automatically show the position of a Beast Tamer with the aptitude of a phoenix hybrid.

It was indeed too troublesome to find it himself.

Ling: "...#" Baby Ginseng, Chi Tong: ~

....

Time passed. In the blink of an eye, another two months had passed since Shi Yu returned from his mission in the Heavenly Fox Nation.

In two months, Dong Huang produced big news.

Zheng Hai, the quasi legend who was originally eighth in the Sequence, had his pet break through to the overlord level. He passed the legend assessment and became the new legend of Dong Huang!

This news could be said to have made Dong Huang's inner sect explode with firecrackers.

This way, there would be five legend Beast Tamers in the top ten of the Dong Huang Sequence!

However, what made people the most curious was what number the Sequence ranking would increase to after Zheng Hai officially became a legend.

Should he replace the fifth place of the Sequence, the number one person below the legendary level, Shi Yu, or directly replace one of the top four legends?

Either one was enough to be a topic of conversation!

Because at that time, Shi Yu would fall to sixth place.

However, Zheng Hai himself had no intention of challenging Shi Yu...

Others might not know how he became a legend so quickly, but he himself obviously knew.

He couldn't bite the hand that fed him.

Zheng Hai had allowed his pet to break through to overlord through the Mythical Ruins of the Seven Islands. After the matter of the Yun Race surfaced, after the relationship between Dong Huang and the Seven Islands eased, Zheng Hai still successfully entered the Mythical Ruins.

Then, he let his trump card, the Battle Leviathan, break through to overlord.

As for the right to use this ruin, it was transferred to Zheng Hai by Shi Yu. Zheng Hai naturally couldn't turn around and challenge Shi Yu...

At this moment, Zheng Hai had already learned from his teacher, Legend Sea Tyrant, that Shi Yu and Lu Bai were the same person.

When he learned about it, Zheng Hai could be said to be extremely stunned.

Because at that time, he had clearly watched the battle live broadcast of Lu Bai and the Shen Feng Mechanic and called Shi Yu!

Moreover, Shi Yu even fought Lu Bai!

The older the wiser. The Tyrannical Sea Legend saw through it with a single sentence. What if one of them was a clone?

Upon hearing that, Zheng Hai was immediately shocked and understood his immaturity.

At the same time, he felt that Shi Yu was more and more ridiculous. An alias of his could kill indiscriminately in the Seven Islands?!

He was still human?!

"Brother Shi Yu, you've been hiding quite a bit of stuff from me..." On the phone, Zheng Hai kept smiling bitterly at Shi Yu.

“But I’m still very grateful to you. I’ll prepare the resources we discussed previously as soon as possible and send them to you.”

Shi Yu chuckled and said, “No hurry, no hurry. Congratulations, Brother Zheng Hai, for passing the legend assessment. What are your plans next?”

Zheng Hai was stunned. “You mean the Sequence ranking? I plan to challenge Jiang Tianyang or Zhou Ming, who’s third or fourth, after stabilizing my strength.”

The top four of the Sequence were all legends. Among them, Jiang Tianyang was originally in fourth place, but he successfully challenged the original third place, Zhou Ming, and advanced by one.

Because these two people didn’t cultivate enough, they only contracted one overlord-level pet. Therefore, Zheng Hai decisively targeted them.

They would both have just one, so he wasn’t afraid.

He couldn’t challenge Shi Yu, who was fifth in the Sequence and wasn’t a legend yet, right? That would be too much.

Whether he won or lost, it wasn’t good.

As for the first and second ranks of the Sequence, they both had more than one overlord-level pet. It was difficult to fight, so the best choice was still third and fourth.

“Then I wish you success, Brother Zheng Hai,” Shi Yu blessed.

“Cough, cough, I keep feeling a little apologetic...” Zheng Hai felt awkward and said, “If I enter the top five, Brother Shi Yu, you’ll fall down. Only the top five have legendary resources as a reward, and I can pass the legendary assessment so quickly because of your help...”

Zheng Hai was in a dilemma.

Sigh, if he had known that Lu Bai was Shi Yu, he wouldn’t have accepted the right to use this Mythical Ruins no matter what. It wasn’t suitable to fight now, nor was it suitable not to fight.

However, it was impossible to give up. Zheng Hai planned to make up for Shi Yu more with the resources he had promised previously.

“Don’t worry about me. I have other missions in this world competition. No matter what my final ranking is, I’ll have legendary resources and participate in the competition. Just fight up without worry,” Shi Yu said with a smile.

## Chapter 724: Legend Senior Lu and the Overlord Void Mantis (2)

His legendary resources had long been taken in advance.

It didn’t matter even if his ranking fell below 100.

If Zheng Hai had the ability to fight and get another one, that would be his luck and strength.

“Really?” After Shi Yu finished speaking, Zheng Hai was stunned.

“Of course.”

Zheng Hai was overjoyed. “Thank you.”

If he could obtain the legendary resources in the top five of the Sequence, he might be able to nurture another overlord before the World Tournament began!

After confirming with Zheng Hai when the resources promised by the other party would be transferred, Shi Yu smiled. Fortunately, Zheng Hai didn’t plan to challenge him, who was fifth place. Otherwise, he would probably cry very badly.

That was because Eleven was about to break through to the overlord level. The other pets were also strengthened at the epic level!

Two months ago, he could already barely fight against the three overlords...

Not to mention now, two months later...

A newly advanced legend was definitely not his match.

Eleven was about to break through to overlord. Buggy had four body puppets, including half a totem corpse puppet. Baby Ginseng evolved again. Chi Tong had three overlord undead puppets. Apart from that, Chi Tong, Susu, and Ling’s fusion mechas were even more perfect.

In addition, he had cultivated to the maximum level of Psychic power, so his spirit and stamina were more abundant. He could withstand longer possession. He estimated that in the current Sequence ranking, the only ones who could pose a threat to him were probably the first place Ye Xing and the second place Divine Bell.

One of the two had an abnormal Beast Taming Talent related to the power of the stars, while the other was a descendant of the mechanical legendary. Shi Yu couldn’t figure out their strength.

But this wasn’t important. In any case, they would all be his bodyguards in the end. The stronger the better.

Moreover, Shi Yu estimated that the next top five of the Sequence should be very impressive. Even if he didn’t participate in the competition, Zheng Hai might not be able to get into the top five...

Because... Lu Qingyi contacted Shi Yu before Zheng Hai did.

For the past half a year, she had been cultivating in the Space Emperor Ruins with the Void Mantis.

Recently, she had also successfully broken through to the Legend level. She and that Courtyard Sprite and her broken through to level seven alone, and one sprite had reached the overlord level. They were only one assessment away from the title of Legend Beast Tamer.

As for her strength, it completely reached the standard.

Shi Yu smiled. For the sake of legendary resources, Senior Lu definitely had to fight for the top five. At that time, with so many legends fighting for the top five, there was bound to be an unlucky person.

As for Brother Zheng Hai, it felt like he was that unlucky guy...

“Wu...” Shi Yu glanced at his cooldown interface.

[Cooldown Time: 0: 11]

There were still 11 minutes left. He entered the ruins and prepared to add a new round of points to Eleven. Then, he would go to Ancient Capital University to see the legend Senior Lu.

After Lu Qingyi broke through to the legend level, she wanted to thank Shi Yu in person. Shi Yu didn't let her come to Ping Cheng and arranged to meet her at Ancient Capital University.

After all, Ping Cheng was in the middle of nowhere. There wasn't even a good place to have a meal together. It was better to go to Ancient Capital.

In the ruins, Eleven was in the gym, training with two legendary resources, Aurora Magnetic Gold.

< Name > Eleven

[Attributes]: Metal, Thunder

[Race Level]: High-level overlord (Quasi Mythical)

[Level of Growth]: Monarch level

[Race Skill]

“Super Level”: Inner Power (Expert+11), Lightning Rod (Expert+11), Space Quake (Expert+11), Bean Soldier (Expert+11), Impregnable (Expert+11)

[Teaching Skill]

“Super Level”: Undying Golden Body (Perfect), White Thunder (Perfect), Super Alloy (Perfect)

Normal Energy Points: 15,010,000

In the past two months, Shi Yu had mainly added points to Eleven, Ling, and Baby Ginseng.

Among them, Ling upgraded the top-notch intelligent divine net, while Baby Ginseng upgraded the Fire of Life and was upgraded to expert level. As for the Lightning and Energy Storage Beams, it was relatively simple to upgrade them, so it was naturally maxed out.

As for Eleven, it was only a step away from breaking through to perfect overlord. Among them, it was due to Shi Yu, resources, and even Eleven's own hard work.

In fact, Shi Yu didn't even upgrade a skill like White Thunder, but it was difficult for its proficiency to be low if it hugged two legendary resources that contained the power of the White Thunder Rule Force every day.

It was the same for superalloy. Through the superalloy food specially developed by Ling, the continuous eating for two months had at least made Shi Yu save two point-adding sessions, but it was a little expensive.

Apart from that, skills like Inner Power, Undying Golden Body, and Impregnable were also very good for Eleven, who had the will of an overlord, courting death training, and had Baby Ginseng to cover its injuries. Coupled with the most important points Shi Yu added, the entire team's gains in two months were better than Shi Yu imagined.

"Huh?" Shi Yu walked to Eleven's gym. When Eleven saw Shi Yu, its eyes lit up.

It was about to break through to overlord.

"There's no hurry. Let's order the superalloy first." Shi Yu chuckled.

Shi Yu originally wanted to let Eleven complete its breakthrough and evolution in one go.

However, under Ling's suggestion, Shi Yu decided to pull up the skills of the other pets before letting Eleven break through.

That was because Eleven's strength after breaking through and evolution would definitely be very terrifying. Although it might also feedback to Shi Yu's stronger physique, the consumption would definitely be greater than strengthening. It would be fine if Shi Yu's physique could withstand it, but if he couldn't, breaking through too early would make Shi Yu weaker. It would undoubtedly delay the subsequent increase in points.

Shi Yu thought about it and agreed. It was best to let Eleven break through and evolve on the eve of the World Tournament. In any case, it was coming soon, so he couldn't be anxious.

#### Chapter 725: Legend Senior Lu and the Overlord Void Mantis (3)

....

After adding points to Eleven again, Shi Yu headed to the ancient capital and temporarily stopped his bitter cultivation.

At this moment, the appearance of Ancient Capital University was already completely different. Ever since the last National League, after Ancient Capital University obtained sufficient education funds, it began to renovate internally and externally, and the cultivation facilities were completely upgraded.

In a private courtyard of Ancient Capital University, Lu Qingyi was leisurely sitting on a chair and reading. With a spatial ripple, Shi Yu appeared nearby.

"You're here. I just arrived too." After Shi Yu arrived, Lu Qingyi got up and smiled.

"Senior, long time no see." Shi Yu greeted his senior and retracted Buggy to let it rest. After rushing all the way, Buggy was exhausted.

Ever since they met before going to the Seven Islands, Shi Yu seemed to have not seen Lu Qingyi for almost five months.

After breaking through to the legend level, Lu Qingyi's current aura was once again filled with charm, like a natural spirit. It should be related to the feedback of the overlord-level Courtyard Sprite.

“Where’s that mantis?” Shi Yu asked curiously after arriving.

“Cough.” Lu Qingyi coughed dryly. The surrounding space flashed again. A Void Mantis holding and nibbling a drumstick had an unfriendly gaze. “Kid, show some respect.”

Previously, he was still calling it senior, but now he was calling it mantis. Was he arrogant?

“Senior Mantis, long time no see. Congratulations on breaking through.” Shi Yu’s eyes lit up.

< Name > Void Mantis

[Attributes]: Space

[Race Level]: High-level overlord (Quasi Mythical)

[Level of Growth]: Overlord

Energy Points: 62,210,000

62.21 million... It was about the same as the Mountain Tortoise and the Ice-Eyed White Tiger!

Of course, it definitely couldn’t be calculated that way. After all, the Void Mantis was a spatial type, and it had just broken through less than two months ago. Its growth potential was huge, different from those old overlords whose potential had almost been consumed.

Moreover, if Senior Mantis could borrow the power of the void at the monarch level, it would definitely be even more terrifying after the overlord level. The power of the void was much stronger than the power of the dragon vein borrowed by the Green Scaled Dragon. Its strength was probably not weaker than that Green Scaled Dragon.

“It’s alright,” the Void Mantis said calmly. It was just the overlord level. What was so strange about breaking through?

Lu Qingyi said, “It’s all thanks to Senior Void Mantis’s guidance during this period of time. If it hadn’t agreed to lend the Space Emperor Ruins, I wouldn’t have been able to break through so quickly.”

The Void Mantis said, “It’s no big deal. You’re the one with pretty good talent.”

“By the way, kid, how’s the hatching progress of that egg? How many places have you gone?”

Shi Yu said, “I’ve gone to two places. It’s pretty smooth. Only Tingxiang and Rongguang are left.”

“The progress is so slow,” the Void Mantis said. “I still want to see what hatches.”

The corners of Shi Yu’s mouth twitched. “There’s no Space Emperor Teleportation Array anymore. How can it be so easy to hatch an egg from such a far place?”

The Void Mantis: “You definitely didn’t hatch the egg properly.”

Shi Yu: “I was already very close to death! I almost fought a totem.”

The Void Mantis: “Ah... That’s a little dangerous...”

Shi Yu sighed. It had followed the Spatial Kong Emperor since he was young, so it naturally didn't know the hardships of the world.

Lu Qingyi asked, "By the way, when do you plan to go to Tingxiang?"

"I haven't decided. What's wrong?" Shi Yu asked.

Lu Qingyi smiled and said, "I feel that we can go together. I also have something to do in Tingxiang. After my sprite reached the overlord level, it has more memories from when it was alive. It wants to return to her hometown to take a look."

"I see. How about in a month?!" Shi Yu said.

For a month, he would work overtime and let Baby Ginseng condense another time mark. At that time, he would be more at ease...

"Alright, I can use this month to fight for the ranking," Lu Qingyi said with a confident smile.

"Just fight this kid!" At the side, the Void Mantis encouraged.

In its opinion, Lu Qingyi's current strength was definitely stronger than Shi Yu.

"Senior Mantis, don't encourage her randomly. If you want to come, do it yourself." Shi Yu smiled.

He didn't want to fight Lu Qingyi. At the moment, Lu Qingyi only had the Courtyard Sprite at the overlord level. During the battle, it would definitely be the sprite possessing Lu Qingyi. If he wanted to win, he could only hit the user. How could he do it to someone he knew?

Void Mantis: Hm?

Lu Qingyi was stunned. Although she knew that Shi Yu's battle results on the Seven Islands were very strong, she couldn't help but feel curious when she saw that Shi Yu was even more confident than her.

She could be said to know the strength of the Void Mantis after breaking through. Once it broke through, it was not a problem to say that the battle power of the Void Mantis was comparable to a top-notch overlord.

"I think you're arrogant!" The Void Mantis sneered. "You're itching for a beating again. Then I really want to teach you a lesson."

The Void Mantis had also been Shi Yu and the others' sparring partner in the Space Emperor Ruins for a long time. Eleven, Buggy, and Baby Ginseng were no match for the Void Mantis at that time and were tyrannized every time.

But at that moment, in Shi Yu's space, be it Buggy, Baby Ginseng, Chi Tong, or Susu, they were all extremely active. Just now, before the Void Mantis appeared, they were all shouting that they wanted to fight the Void Mantis again.

Shi Yu was helpless. He could only find an opportunity to challenge the Void Mantis that had broken through and give them a chance to "have revenge". A monarch level expert fighting an overlord level expert... Moreover, he was quite excited. Only Shi Yu's team could find such a ridiculous thing.

“Alright, let’s fight!” Shi Yu said.

“Where’s the venue?” the Void Mantis said.

At the side, Lu Qingyi was also quite helpless. Why were they going to fight as soon as they met?

Chapter 726: Legend Senior Lu and the Overlord Void Mantis (4)

“Then... let’s go to my legendary ruins.” Lu Qingyi sighed. They definitely couldn’t fight in Ancient Capital University.

At that time, the university would be in ruins.

Only her legendary ruins could withstand overlord-level battles.

“Sure.” The Void Mantis and Shi Yu nodded. Among them, the pets in Shi Yu’s space had already begun to shake the sieve to see who got to fight it first.

Because it would definitely be a 1VS1 battle, but several of them wanted to fight. They definitely had to choose who to fight through this method.

According to the order of entry... A huge sieve kept rolling on the ground. A few pets stared intently.

In the end, the outcome of a white and red pair made the pets’ expressions change.

Only Buggy revealed an excited expression and quickly went to the spatial pocket to repair the three overlord physical puppets and the Black Meteorite Yak’s physical puppet.

After being tortured by the Worm-type Void Mantis so many times, it would definitely avenge its previous humiliation this time. It was first in the team!

“Are we fighting now?” Lu Qingyi asked.

“In the afternoon,” Shi Yu said. Buggy had just rushed all the way. It was better to let it rest for a while.

“In the afternoon, then!” The Void Mantis said. “We can continue eating.”

It bit off the chicken bone and teleported away. No one knew where it went.

....

After Shi Yu and the Void Mantis made an appointment in the afternoon, Shi Yu and Lu Qingyi continued to chat about Shi Yu’s trip to the Seven Islands.

Lu Qingyi naturally knew about “Shi Yu” clearing the path to champion through the news.

Lu Bai’s experience had long been exposed by the Mechanic of Shen Feng. However, because Lu Qingyi was busy cultivating, she didn’t know much about other things.

After Shi Yu introduced the Phoenix God Shrine, Lu Qingyi had a surprised expression and said, “A Phoenix Fruit that can give humans the Phoenix bloodline and turn them into hybrids? It can also strengthen the bloodline concentration of pets of the Phoenix race? There’s such a thing?”

“Yeah.” Shi Yu smiled and took out a red fruit. “And at the moment, I’ve already mastered the cultivation method. Do you want to give your Green Phoenix a taste?”

Lu Qingyi wanted to say something but hesitated. She had a headache and said, “The memory water drop you provided has already helped me a lot. How can I still use your resources?”

“Senior, you’re too polite. The high-level ruins you cracked are still with me. It’s that high-level ruin that’s suitable for the growth of plants...”

Lu Qingyi: “?”

Didn’t she hand it in? Why did it go to this guy?

Shi Yu coughed dryly and said, “At that time, there was no suitable ruin to use, so I ran to the bureau to get it. At the moment, the Phoenix Fruit is being cultivated here.”

Initially, after having the legendary ruins, Shi Yu wanted to return the high-level ruins, but he suddenly realized that even the legendary ruins’ growth effect on plant pets and the growth enhancement effect of spiritual plants were inferior to this high-level ruin. As the saying went, there were specializations in various fields.

Therefore, after consideration, Shi Yu chose to stay behind to study and plant the Phoenix Fruit and the Reincarnation Fruit to maximize the benefits of using the ruins.

“I see.” Lu Qingyi came to a realization. “But I’m more curious. Can a fruit really transform humans into hybrids?”

“Yes,” Shi Yu said. “But it requires a suitable aptitude.”

“For example, when the Phoenix Race modified the pure-blooded humans into hybrids, not just anyone can do it. Instead, they have to choose those with compatible aptitudes. For example, General Mu Huiyin and Senior Empress should be very compatible.”

“The conditions for using the Phoenix Fruit are similar. Beast Tamers also need to have a certain amount of aptitude, or have ancestors that have mixed blood of the Phoenix Race. Those whose bloodline inheritance has been broken, or those who have compatibility themselves, might be modified into mixed blood by the Phoenix Fruit.”

Lu Qingyi asked, “Then how do we determine?”

Shi Yu said, “It was difficult to determine previously, and it was very troublesome to find, but now...”

He took out something that looked like a mechanical radar and smiled. “I got my mechanical pet to take the time to make this. The bloodline detector can detect humans with the Phoenix bloodline within a certain range.”

After the radar was created, Shi Yu had already gotten Ling to fly around Icefield City to test it. There were two humans with the aptitude of a phoenix hybrid in a second-level city in Icefield City!!

Unfortunately, one of them was already an old granny in her sixties. She wasn't even a Beast Tamer. Shi Yu and Ling felt that it was a little unsuitable to ask her if she wanted to join the Phoenix Army with the Phoenix Fruit, so they gave up on this candidate.

The other was a little girl who had just entered kindergarten. Her parents were both Beast Tamers. Although she was a good seedling, she was too young and still not suitable. After being annoyed by that fact, Shi Yu and Ling didn't continue looking for her. In any case, it was enough to prove that the radar could be used.

"After using it, if there are humans with bloodlines that match their aptitude nearby, it will automatically track them." Shi Yu activated the radar. In the next moment, a red dot appeared on the radar and a beeping sound appeared.

Shi Yu was stunned.

Lu Qingyi was stunned.

Lu Qingyi said, "This means... is there anyone nearby who meets the aptitude?"

"Wait, don't tell me it's me."

Shi Yu smiled and said, "It's not you, Senior, but if you want to become a hybrid, apart from the Phoenix Fruit, there's still a way."

"I know, but I don't have this intention for the time being..." Lu Qingyi quickly shook her head.

Before Shi Yu went to the Seven Islands, he gave her the memory water drop. With the memory water drop, Lu Qingyi's Courtyard Sprite's possession skill had also reached the level where it could change the bloodline of the target.

If she wanted to, Lu Qingyi could have the elven bloodline in a while. However, like Shi Yu, she was not interested in becoming a hybrid. She still preferred the identity of a pure-blooded human.

"Then can this be a Beast Tamer of Ancient Capital University..." she asked Shi Yu.

Shi Yu nodded and said, "The detection range of the radar isn't big. It's only about a quarter the size of Ancient Capital University. From the looks of it, it should be."

"Let's go take a look together?" Shi Yu said.

At Ancient Capital University, genius Beast Tamers gathered. The people here with the phoenix hybrid aptitude shouldn't be as useless as the first two, right?

"Will it be a teacher or a student?" Lu Qingyi was a little curious.

"As long as it's not the canteen auntie," Shi Yu said.

Shi Yu added, "I prefer it to be a student. I still seem to be the president of the battle club of Ancient Capital University... I should hurry up and get more students with some aptitude to replace me..."

Otherwise, he couldn't possibly finish the world competition at the end of the year and fight a bunch of totem countries before returning to the country in January to continue participating in the national university competition...

Chapter 727: Buggy vs the Void Mantis

Ancient Capital University, Battle Club.

To Shi Yu and Lu Qingyi's surprise, the Phoenix Radar actually led them here.

The two of them stood outside the battle club building and looked at each other.

"A Beast Tamer of the battle club?" Lu Qingyi asked.

"Isn't that good?" Shi Yu was excited.

He really got what he wanted.

Shi Yu and Lu Qingyi directly entered the battle club building. They walked to the audience seats on the second floor and looked at the training ground.

At the moment, there were only a dozen or so people here.

Shi Yu looked over and was rather surprised because they were all second-year students.

Apart from this group of students, Dean He, the instructor of the battle club, was also present.

Initially, it was the president's job to be in charge of daily training, but the problem was that the president was busy.

In other schools, teachers slacked off while student cadres worked. In the Ancient Capital, students cadres slacked off while teachers worked.

After the physical training was completed, Dean He said to everyone, "Everyone, rest first."

He looked at these dozen or so people. Yu Shu, Miao Dongdong, Zhang Qianyi, Wang Ling, Han Dong, Fang Ji, Xu Jingyin... They were all geniuses from Shi Yu's vocation assessment.

Yu Shu, who had been teased by Shi Yu's Buggy's Ice Dragon Phantom, Miao Dongdong, who had been teased by Buggy's worm silk, Zhang Qianyi, who had been shattered by Shi Yu's Eleven's Giant Thunder Palm, and Han Dong, who had been insta-killed by Eleven and Buggy's double deterrence... More or less, they had all suffered a beating.

But was this a bad thing? Not necessarily. Because they had been beaten up by Shi Yu, Shi Yu actually recognized them.

After the huge amount of education funds from Ancient Capital University this time, under Shi Yu's suggestion, this batch of second-year students became the main cultivation target of Ancient Capital University. Naturally, there were more training courses.

Physical training like today naturally couldn't be escaped. Of course, in comparison, Ancient Capital University would also provide nutritional supplements to increase physique and high-level supplements to recover physical strength.

At the moment, with the huge investment of Ancient Capital University, the best among them, such as Yu Shu, Zhang Qianyi, and Miao Dongdong, had already passed the high-level Beast Tamer assessment. Their strength was not necessarily inferior to the third and fourth-year seniors. They might all become master-level Beast Tamers before graduation.

Apart from that, a super genius like An Chang also appeared among the first-year students. With some time, Mechanic students had a chance of rising. Ancient Capital University could completely be said to have a bright future!

Dean He was excited!

"Can you confirm which one it is?" Sitting on it, Lu Qingyi asked.

Shi Yu held the radar and said, "Sure."

With that said, he activated the automatic search function of the radar. The radar instantly left Shi Yu's hand and floated up, flying towards the training ground below.

Lu Qingyi looked at this black technology-like thing and didn't know how Shi Yu created it.

Ling: "Laziness is the best productivity..."

"It's very convenient, right? It's just that the energy source is a little expensive." Shi Yu smiled. However, it was fine as long as it was convenient. This was much more convenient than the method of finding people in the Phoenix God Shrine he understood.

Below, just as the crowd dispersed, the radar flew in front of a girl and stopped.

The radar flying over directly attracted everyone's attention, making them look at this strange machine together.

At the same time, Shi Yu said in surprise, "So it's her."

The girl in front of the radar was very tall. She was wearing the gray training uniform of the battle club. She had short hair and a beautiful face that was still covered in sweat. At this moment, she was wiping her sweat with the sports towel around her neck. She was also very confused about the machinery that stopped in front of her.

Zhang Qianyi, a second-year student of the battle department of Ancient Capital University, an elementalist who was once called "Elemental God" in the vocation assessment.

At that time, every candidate was more or less given a nickname, but while some were pleasant to the ears, others were unpleasant. For example, Shi Yu's was "Iron-eating Beast Knight".

Even Lu Qingyi had some impression of her, because the other party's Beast Taming Talent was pretty good. It was the Elemental Coordination Talent. She had once fought Shi Yu in the vocation assessment, but she was completely no match for Eleven's Giant Thunder Palm that descended from the sky.

After that battle ended, Shi Yu even announced the evolution of the iron-eating beast and walked into the public's vision.

However, this didn't mean that she was weak. Even Yu Shu, who came from the Imperial Dragon Family, had been shattered by her in a few seconds. Her combination skill, Thunder Cloud Storm, was probably invincible in that assessment apart from when facing Shi Yu and Yin Zhengfan.

If Shi Yu remembered correctly, this girl came from a small city. Her parents weren't Beast Tamers. Because she was talented, she walked the path of a Beast Tamer. It was her first time coming to the Ancient Capital to participate in the vocation assessment, and because her foundation wasn't strong enough, she didn't even pass the preliminaries.

However, because of this, she was chosen by a top-notch master and taken in as a disciple. That was why she was in the second round of the vocation assessment against Shi Yu.

A person with the aptitude of a phoenix hybrid... It was actually her. It was good that he knew her.

"What's this?" Dean He saw the machinery and immediately looked around.

At the same time, a voice appeared in Dean He's head.

"Dean He, this is Shi Yu. Sorry to disturb you. Um, do you have time to get Zhang Qianyi to come over?"

Damn.

As soon as he finished speaking, Dean He suddenly looked in his direction and really saw Shi Yu standing there... Even Lu Qingyi as well. He looked at the two who arrived and was stunned.

He didn't understand why these two gods would suddenly come here.

Although Dean He was the dean of the battle department of Ancient Capital University and a top-notch master, he also knew that his strength had long been surpassed by young geniuses like Shi Yu and Lu Qingyi.

## Chapter 728: Buggy vs the Void Mantis (2)

He was extremely confused by the sudden descent of these two super geniuses who should be chatting and laughing with the legends.

Moreover, why was he looking for Zhang Qianyi?

At this moment, the batch of second-year Beast Tamers training here also looked at the two people who appeared on the second floor. They were first stunned, and then their expressions immediately became very exaggerated.

"Damn, that... is that Shi Yu..." The Gu Master Miao Dongdong had pretty good eyesight.

"There's no need to doubt it, that's him!" Dragon King Yu Shu said.

"Beside him... Isn't that Senior Lu, who has already graduated?" Someone also recognized Lu Qingyi.

As the only two super geniuses who entered the top ten of the Sequence, Shi Yu and Lu Qingyi were naturally known to everyone in Ancient Capital University.

“Why are they here?”

The crowd discussed, their eyes filled with light.

“Zhang Qianyi.” Dean He listened to the discussion and was stunned for a moment. Then, he quickly said, “Shi Yu is looking for you. Go over and see what’s going on.”

“Looking for me?” In the crowd, Zhang Qianyi revealed a confused expression.

Although she was in the same batch as Shi Yu, Shi Yu didn’t have much interaction with her. No, it could be said that Shi Yu didn’t have much interaction with any student of the same batch. According to rumors, this guy didn’t attend many classes seriously. He was very hard to get a hold of.

In fact, ignoring his student activity, there were rumors that no one had ever seen Shi Yu even in the archeology Department’s final exam.

“Yes.” Dean He nodded. He didn’t know why...

Upon hearing that, Zhang Qianyi looked over and saw Shi Yu smiling at her.

Seeing this, the other battle club students immediately panicked. Damn, what was going on?

“When did they hook up?” Yu Shu was shocked.

He didn’t remember any connection between Shi Yu and Zhang Qianyi.

Miao Dongdong: “Well... I have an ominous feeling.”

He looked at the mechanical radar.

“What?”

“I feel... I feel that once Zhang Qian returns, her strength can defeat us. I’m afraid that any resources Shi Yu leaks now are enough for Master level people to fight over for crazily...”

Yu Shu: “What strange intuition is this?!”

Miao Dongdong was silent. He had heard through certain channels that the monster in his first year, An Chang, was Shi Yu’s underling...

....

On the second floor, after Zhang Qian came over, she was a little nervous. It was alright when facing Shi Yu. Although Shi Yu was now the number one person below the legends of Dong Huang and had created so many miracles, when she recalled that Shi Yu rode an Iron-eating Beast and slashed around during the vocation assessment and even fought with her, she suddenly didn’t feel that much of a distance.

On the other hand, Lu Qingyi beside her made her a little nervous. She looked at this goddess-like school legend and admired her very much.

“Senior Lu... Shi Yu?”

“Are you looking for me?”

“Little Zhang, long time no see,” Shi Yu said with a smile.

Zhang Qianyi: “?”

Zhang Qian suspected that she had forgotten something. Was she... that familiar with Shi Yu?

“Hello, Junior.” Lu Qingyi also smiled.

At this moment, Shi Yu said, “Come, come, sit down and talk.”

“Yes.” Zhang Qianyi nodded.

Shi Yu said, “I’ll get straight to the point.”

At this moment, the mechanical radar had also returned. Shi Yu held it and said, “You were also present when I contracted General Mu Huiyin’s heroic spirit in the heroic spirit ruins, right?”

Zhang Qianyi nodded. That was the military training of the new students, so she was naturally there.

“Then you should know that General Mu Huiyin is a hybrid of a human and a Phoenix, right?”

Zhang Qianyi nodded again. It was all revealed in the preview of Shi Yu’s “Mu Huiyin Legend”.

There shouldn’t be anyone from Ancient Capital University who hadn’t seen this video.

Shi Yu smiled and said, “That’s good then. Do you want to become a hybrid Beast Tamer of the human and phoenix races like General Mu Huiyin and even the empress in history?”

“Huh? Wait...” Zhang Qianyi opened her mouth slightly and was suddenly stunned. This change made her unable to react for a moment.

Shi Yu said, “There have been mixed-blood Beast Tamers since ancient times. After the empress dynasty, they completely integrated into Dong Huang. However, after so long of development, the other mixed-blood families have been passed down, but for some historical reasons, the Phoenix Race’s mixed-blood has already been severed in Dong Huang.”

“Not long ago, I found a way to help human Beast Tamers awaken the Phoenix bloodline, but there are some requirements for the Beast Tamer’s talent. Did you see that radar just now? It found you, which means that you’re that one in a million human with the Phoenix bloodline aptitude. Of course, it’s also possible that your ancestor is a hybrid of the Phoenix Race, but the bloodline in your generation has thinned.”

“At the moment, I want to establish a Beast Tamer Corps mainly made up of mixed-blood Beast Tamers of the Phoenix Race. If you’re interested, I can help you become a mixed-blood of the Phoenix Race. After you graduate, you can come to the Phoenix Army to work. Of course, there are definitely benefits. After becoming a mixed-blood of the Phoenix Race, your meditation cultivation speed will be much faster. Apart from that, your physique will also exceed that of ordinary people, comparable to a real transcendent life form. Your lifespan will also increase greatly. The disadvantage is the same disadvantage that all mixed-blood Beast Tamers have...”

If it was easy to be countered by high-level creatures of the same race, or there might be difficulties getting pregnant. It was all the drawbacks of mixed-blood Beast Tamers.

After Shi Yu finished speaking, Zhang Qianyi was even more confused. Her mind was a little confused.

Slow down.

Shi Yu smiled and said, "Of course, you don't have to make a decision in a hurry. Although the chances of becoming a legendary Beast Tamer after becoming a hybrid will become very high, your Beast Taming Talent is already very powerful. Even if you don't become a hybrid, there's a high chance of you becoming a powerful Beast Tamer in the future. Therefore, why don't you go back and discuss with your teacher first? After careful consideration, you can make a decision?"

### Chapter 729: Buggy vs the Void Mantis (3)

As he was an acquaintance and the impact of becoming a hybrid was huge, Shi Yu was not in a hurry to let the other party decide. It was better to follow her own wishes. After all, he didn't want to become a hybrid himself, and others might not necessarily be willing.

"I... Then I'll consider it," Zhang Qianyi said.

After being stunned, she quickly reacted.

Firstly, there was no need for Shi Yu to lie to her.

Moreover, Lu Qingyi was still beside him.

If what Shi Yu said was true, she was actually willing. After all, be it Mu Huiyin or the empress, they were both female Beast Tamers of Dong Huang and figures worshiped by female Beast Tamers of Ancient Capital University. Most importantly, this was the Phoenix race, a race with rich myths and legends. It was much more attractive to women than mixed bloods of other races.

If Shi Yu said that there was a way to awaken into a "human pig" hybrid, probably not many people, male or female, would be willing... However, mythical creatures like dragons and phoenixes were different.

Apart from that, Shi Yu had just said that he had the intention to rebuild the Phoenix Army, and the Phoenix Army was the number one army during the era of the empress dynasty. Zhang Qianyi understood her talent. It was very difficult to become a legend, but if she could join such an army, the chances would definitely be much higher.

However... She looked at Shi Yu. Shi Yu was only in his second year. Did he already have the ability to decide to establish such a Beast Tamer army? Her heart was in conflict. She kept feeling that the difference between everyone was increasing.

Although that was the case, she still had to seek her teacher's suggestion. After all, it was all thanks to her teacher's digging that she could have her current achievements. Zhang Qianyi more or less had to take her suggestion as a reference.

“Alright, when you’ve decided, just contact me directly after thinking it through,” Shi Yu said.

“Yes, thank you,” Zhang Qianyi said.

The whole time, Lu Qingyi watched silently at the side. Everyone chatted for a while more. After Zhang Qianyi left, Lu Qingyi said, “You just said that you want to establish the Phoenix Army?”

Shi Yu looked at her and smiled. “How is it? Not a bad idea, right?”

“In fact, I still want to gather the six major armies in history.”

The strongest armies in each era. Wu Dynasty’s Iron-eating Beast Army, Empress Dynasty’s Phoenix Army, Dragon Emperor Dynasty’s Dragon Army, and the current strongest army, the Mechanical Army.

Apart from that, the Space Emperor’s spatial army could instantly let an army descend into the enemy’s core with the spatial teleportation array. They could also rely on the spatial array to kill and seal powerful enemies above their level.

As for Emperor Shi’s army, they all had military advisors who were proficient in the power of prophecy. They were known to be unpredictable. In addition to a series of time-element resources similar to the Time Fruit, their equipment was also very powerful.

At the moment, it seemed like it could be done?

“Forget it.” Lu Qingyi saw through it at a glance and sighed. “Are you sure it wouldn’t end up with you throwing it to others to carry it out after you came up with the ideas?? The Iron-eating Beast Army, the mechanical phantom beast army, and the Green Silkworm cocoon army in the ruins of Wu Ling City seem to be like this. White Brook told me everything.”

“Are you sure you won’t throw this Phoenix Army to others...”

Shi Yu came to a realization. So that was an option too. He said, “By the way, Senior, are you very familiar with the Phoenix Nest? I remember that your Green Spirit Wind Bird was contracted there, right? Why don’t you be in charge of this Phoenix Army?”

“I’ll give the technology and the resources, and you can give yourself to the cause.”

“Ah, right, isn’t Auntie working over there?”

Phoenix Nest, a ruins mystic realm where bird creatures lived. Some bird creatures inside had some phoenix bloodlines. Principal Feng successfully explored and cracked it when he was young. Then, Principal Feng left it to his daughter, Lu Qingyi’s mother. She was the current in-charge of this mystic realm. Because of this relationship, Lu Qingyi had also explored it many times over there.

Lu Qingyi: “?”

Upon hearing that Shi Yu had his eyes on her mother, Lu Qingyi immediately had a question mark on her face.

She patted her forehead.

Damn it, she clearly wanted to use Shi Yu as a tool in the beginning, so why was her family becoming his tool now?

She had a premonition that if Shi Yu looked for her mother, she definitely wouldn't refuse...

"Okay, slow down there..."

....

Soon.

After the Void Mantis finished eating, it shouted and asked them when the battle would begin. In the ruins space, the various supplements provided to Buggy through the ginseng baby had almost helped finish its recovery.

Lu Qingyi was tired and brought these two guys to her legendary ruins.

In the ruins, the Void Mantis stretched its body with the question of why Shi Yu was so suicidal.

When it was at the monarch level, it could already defeat Shi Yu's pet. Now that it had broken through, it felt that it could instantly kill Shi Yu!

"Why don't all of you attack together?" The Void Mantis sighed.

It would be more fair. Wasn't Shi Yu a top-notch master?

Wasn't the standard of a top-notch master someone who could fight an overlord with all their members?

It was an overlord. Such rules were more reasonable!

Shi Yu was stunned. "There's no need for that, but if Senior Mantis is free, you can take turns fighting them..."

The Void Mantis was undoubtedly a good sparring partner! A top-notch spatial overlord sparring partner was not that easy to find.

Of course, it would be better if the gem cat was willing to be a sparring partner. Unfortunately, this guy was even lazier than Shi Yu.

"Ah, I'm not late, right?" Speaking of the cat, the cat arrived. Just as Shi Yu and the Void Mantis were about to fulfill the agreement and fight, the guardian gem cat of Ancient Capital University knocked on the door and ran in to watch the commotion.

Chapter 730: Buggy vs the Void Mantis (4)

"Senior Ying." In the ruins, Lu Qingyi immediately smiled when she saw the gem cat.

The Void Mantis also glanced at this totem.

"Senior Mantis, all the best. Be careful," the gem cat encouraged. It was the gem cat who invited the Void Mantis for lunch today. As the host, it naturally had to greet the guests.

Although it was stronger than the Void Mantis, the gem cat still politely called the Void Mantis senior. After all, the other party was the secondary pet of the Space Emperor.

“All the best?” The Void Mantis was silent. What was there to cheer for in this battle without any suspense?

“Are you ready?” Lu Qingyi asked.

“It’s 1VS1, right?”

“Yes.” The Void Mantis and Shi Yu nodded.

At the same time, Shi Yu also summoned Buggy. Under the purple summoning array, the figure of the Imaginary Dream Butterfly appeared. Under the purple light, Buggy appeared in the sky with its huge body and looked at the Void Mantis.

“Wu...” The Void Mantis was stunned. It was this guy!

It looked at Shi Yu. Was it sure it wanted this kid to fight it?!!

No kidding?!

When Shi Yu was cultivating and working hard to break through to level six in the Space Emperor Ruins, all his pets had been sparring partners with the Void Mantis. Among them, Buggy was the one who was tortured the most by the Void Mantis.

The reason why Buggy could be very strong in the team was because of the speciality of the spatial element. However, when it encountered the Void Mantis with stronger spatial attainments, it felt like it was showing off in front of an expert. It was countered everywhere.

Therefore, the Void Mantis felt that this butterfly was the easiest to deal with in Shi Yu’s team. Its skills were like a child in front of it.

“Wu!!!” Buggy looked at the Void Mantis seriously, indicating that it was no longer the previous Buggy.

“What’s the difference...” The Void Mantis muttered.

Apart from the stronger energy fluctuations, it didn’t feel like there were any changes.

Although the energy fluctuations were stronger, it wasn’t too much more compared to before it broke through.

The Void Mantis shook its head and suddenly smiled. It looked at Shi Yu and spoke.

“Kid, do you want to bet?”

“What?” Shi Yu was stunned.

“If I win, let your ginseng baby prepare food for me for a month. How about that?”

It had been a long time since it had eaten a fruit made by a ginseng baby. It really missed it.

At first, it didn’t pay much attention to it and only treated it as a dessert after eating the power of the void, but after not eating for a few months, he really missed it.

Shi Yu was stunned. That wasn't a big deal.

"Sure."

"Then what if I win?"

Void Mantis: "?"

"You still want to win?"

The corners of Shi Yu's mouth twitched. Didn't this guy want to make a bet?

It still wanted to freeload?

"If I win, how about I get to come to the Space Emperor Ruins to cultivate anytime in the future?" Shi Yu asked.

"It's best if I can bring others along..."

The Void Mantis had a look of disdain. This guy wanted to use its ruins again!

Forget it, forget it!

"Fine, let's begin."

In any case, it wouldn't lose.

The Void Mantis shook its head and revealed a bloodthirsty smile. Its body directly disappeared!!

It felt that it wouldn't take more than one move to deal with this guy!!!

One move was enough!

At this moment, as the Void Mantis disappeared, Buggy's expression turned cold. It felt a huge threat appear in its mind. At that moment, it seemed to have predicted the future!!

"Wu!!! (Dragon Ball, Possession!!)"

Buggy shouted in its heart. The legendary Dragon Ball in the spatial pocket immediately fused with it because of the Dragon of Imagination skill. At this moment, with the power of the legendary Dragon Ball and the Dragon of Imagination skill (Expert+11) that was only a step away from perfect proficiency, Buggy instantly emitted a powerful dragon might, and its strength increased explosively!!

It arrived at the top overlord state when it fought the Green Scaled Dragon. At the same time, it used its Psychic power to wrap itself!!

Swoosh!

A light that seemed to have broken through the darkness swung over and directly cut Buggy. When its black saber wrapped around the super skill Space Slash and attacked the enemy with the power of space, the Void Mantis had already expected the outcome.

The Void Mantis had already held back in this slash. It only used its monarch-level strength. If it used its overlord-level strength, it would probably kill the butterfly in front of it.

Even with the power of the monarch level, coupled with the spatial power mobilized, the Void Mantis felt that it was enough to heavily injure the little butterfly in its impression! However, with that ginseng baby to save it, it wasn't a big problem.

"Huh?"

However, as the black saber landed, the expression of the Void Mantis in the air changed. The Butterfly of Imagination in front of it flapped its dreamy blue butterfly wings, and the butterfly wings wrapped in Psychic power blocked its attack!!

The spiritual power and the spatial blade intertwined and instantly froze.

"This is..." The moment it approached Buggy, it instantly sensed the terrifying dragon energy that had increased by more than ten times!!

Dragons had mixed attributes, and common mixed attributes were wind, water, thunder, and fire. However, the dragon fluctuations on Buggy's body were spiritual and spatial. It was the dragon attribute strengthened by the Green Sky Divine Dragon Ball.

"70 million!!!" At the side, Lu Qingyi also spoke in surprise. She realized the change in Buggy. In the next moment, Buggy's wings exerted strength, and with a boom, a spatial storm condensed, directly sending the Void Mantis in front of her flying!!

Fwoom!!
