Unscientific Beast Taming

Chapter 751: Unlucky Person (2)

751 Unlucky Person (2)

Because the Wind Kirin's growth level was not high, even if the fossil it left behind was preserved by Dragon Palace City, its energy had already disappeared.

However, this fossil that also came from the Mythical Era still had level-five energy fluctuations after so long. It definitely couldn't be as simple as a divine beast cub.

There was an 80% chance that it was a Mythical big boss when he was alive!

Shi Yu and Buggy still wanted to continue researching when another call came.

When Shi Yu saw the caller ID, he was immediately amused and chose to answer.

"Shi Yu, I've considered it. I want to become a hybrid of the Phoenix Race." On the other side, Zhang Qianyi's voice came from Shi Yu's batch of Beast Tamers.

"Have you considered it? Alright, then contact Lu Qingyi."

Zhang Qianyi: ...

Didn't this guy ask him to contact him?

Why did it become someone else after just a day?

Then why didn't he let her contact Senior Lu directly...

Shi Yu had already thrown the Phoenix Fruits, research data, cultivation method, and Phoenix Radar to Senior Lu and Principal Feng at the meal yesterday.

He just had to wait for the Phoenix Army to take shape.

"Oh right, Senior Lu seems to be carrying out the legend assessment today. If no one picks up, wait. Don't worry, you can also go to Principal Feng, but maybe Principal Feng also went to see the legend assessment..."

Zhang Qianyi: ...

After Shi Yu brushed off the young lady here, he continued to be busy. He was also thinking if he should go and take a look at his senior's legend assessment...

Forget it, the legend assessment wasn't difficult. It wasn't worth watching.

Senior Lu shouldn't feel any pressure to pass.

A legend Beast Tamer license required the Beast Tamer's Beast Taming level to reach level seven, and a pet's growth level to reach the overlord level. At the same time, this overlord-level pet couldn't be too weak. With the help of the Beast Tamer, it couldn't be justified for it to be weaker than ordinary overlords without the enhancement of the Beast Taming Talent.

Therefore, the legendary assessment was a 1VS1 between overlords.

They weren't expected to win, but one couldn't be too lousy either.

For example, the "Earth Abyss Demon Tree" Shi Yu had encountered previously would definitely not be able to pass Dong Huang's legend assessment.

Under normal circumstances, it wouldn't be easy for Senior Lu either.

Because her pet that broke through to overlord was the Courtyard Sprite, and the Courtyard Sprite was her latest contracted pet. It had never received the "Mythical Revival" skill inheritance.

The reason why this pet was the first to break through was because Senior Lu had obtained the legendary undead resources of Ancient Capital University and could be used by the Courtyard Sprite.

Considering the practicality of the possession skill of the Courtyard Sprite, it could make up for her shortcoming of not having battle power and not being able to cooperate with her pet. Lu Qingyi simply didn't use this resource to exchange for other legendary resources.

However, that was a normal situation. The situation was abnormal now. Shi Yu firmly believed that Senior Lu could pass because he had given Lu Qingyi a drop of memory water. It was enough to increase the proficiency of the possession skill to Dao Proficiency.

An overlord-level sprite, undead, and a legendary Beast Tamer. The two combined through max-level possession. Even if their battle power couldn't compare to a top-notch overlord, they could definitely suppress ordinary overlords.

The enhancement of max-level possession was much stronger than the enhancement of a Beast Tamer's pet with a strengthening talent.

However, Shi Yu heard that the one who gave Senior Lu the assessment was Master Qu Jie, who had obtained an overlord-level partner... This was very coincidental.

"It's all thanks to me..." Shi Yu sighed!

As noon approached, Shi Yu gave up studying fossils and stopped wasting his energy. If he wasted any more energy, he really wouldn't have time to teach Ling Mythical Revival.

Shi Yu was just about to pick up the phone to ask Senior Lu and the others about the assessment when Lu Qingyi called Shi Yu first.

"How is it?" Shi Yu asked.

"I passed. It's all thanks to your possession memory water drop. Otherwise, I'm afraid I wouldn't have been able to win this battle." Lu Qingyi was extremely happy and thanked him.

Shi Yu coughed. There was no requirement to win the legend assessment. Usually, one would pass after fighting for an hour or two without a winner. It was very rare for new legends to defeat the examiner at once, but from the looks of it, Senior Lu had done it.

Master Qu Jie's new overlord partner didn't look good.

Could it be at the level of the Prediction Owl?

“What did Master Qu Jie say?”

“He seems to be very shocked. I didn’t expect my strength to increase so much after I entered the possession state.”

“Haha, then what did you say...”

“It’s all thanks to you, which is what I told Master Qu Jie.” Lu Qingyi smiled. Shi Yu had indeed taught her well. No, the resources provided were very good!

“This...” Shi Yu said, “Then?”

“Then... Then, Master Qu Jie was expressionless and didn’t say anything. He just wanted to treat you to a meal tonight to thank you for saving Qu Ling in the Heavenly Fox Nation...”

Shi Yu scratched his head. Was it sincere?

....

The news of Lu Qingyi passing the legend assessment was announced very quickly.

The assessment she passed in the morning had already been announced to the outside world by the Dong Huang Association at noon.

This news undoubtedly caused a stir in Dong Huang’s Beast Taming Domain again.

Six!!

There were already six legend Beast Tamers in the top ten of the Sequence.

In the world competition more than 20 years ago, Dong Huang had only gathered three legends under the age of 30.

And 20 years later, the number actually doubled.

The sect master of the Binhai Training Hall, Zheng Hai, had just broken through to the legendary level when Lu Qingyi followed closely behind, making the Beast Tamers’ gazes focus on the Sequence ranking again.

Wu Ling City.

White Brook looked at the battle picture of Lu Qingyi in her sprite form on the headlines. She couldn’t wait. So beautiful! So beautiful! Damn it, she couldn’t keep up with Senior Lu’s progress anymore. What should she do?

[Unscientific Beast Taming](#)

Chapter 752: Unlucky Person (3)

752 Unlucky Person (3)

In fact, in the past few days, White Brook felt that she was about to be surpassed by Senior Senior Ji Mengzhu was too strong. Even White Brook was considering whether she should be thick-skinned enough to acknowledge Senior Ji Mengzhu as her master.

Imperial Capital.

Ji Feng watched in silence as his former defeated opponent overtook him step by step. He sighed slightly. As for him, he probably had no hope of breaking through to the legend level before the world competition. The progress was too different.

Big news always followed. After the Dong Huang Association announced the news that Lu Qingyi had advanced to the legend level, the Sequence ranking was immediately updated.

The updated ranking stunned everyone.

Sequence first place, Ye Xing, this second-generation heir's status was still unshakable.

Sequence two, Divine Bell, descendant of a mechanical legend. The ranking was still stable.

Third, Jiang Tianyang, the legendary noble son of a large financial group, fourth in the Sequence, Zheng Hai, the legendary disciple of the Tyrannical Sea!

Seeing this, everyone realized that Zheng Hai had successfully challenged the original fourth place, Zhou Ming!

Zhou Ming was considered the weakest in the previous top four of the Sequence. The reason why he was so fierce was that his Beast Taming Talent had mutated, and it was a fusion talent.

It could allow the different pets he contracted to temporarily fuse and evolve. Because of this powerful talent, he was taken in by a legendary Beast Tamer as a disciple to nurture.

However, from the looks of it, an ordinary legend's disciple was still inferior to a Titled Legend disciple. Once he broke through, Zheng Hai immediately challenged Zhou Ming successfully and obtained fourth place in the Sequence!

Of course, this was also related to the cultivation idea of the Tyrannical Sea Legend. The Tyrannical Sea Legend paid a lot of attention to Zheng Hai's foundation. When one of Zheng Hai's Giant Leviathan's super racial skills was close to perfect proficiency, the Tyrannical Sea Legend didn't let him break through. Instead, it let him train all super racial skills to this level before breaking through in one go.

This way, the overlord body he obtained would be even stronger.

Therefore, once Zheng Hai broke through, his strength was quite extraordinary.

The Beast Tamers who were watching the show felt that it was nothing. They only felt that Legend Zhou Ming was a little unlucky. He was first defeated by the noble son of a large financial group, and then by the Titled Legendary disciple. He was an unlucky person.

If that was all, it wasn't too much of a scam. The most scammy thing was that it was Sequence five...

Sequence five... Everyone was very sure that their eyes weren't wrong.

On the fifth place of the Sequence, the name was still “Top-notch Master Shi Yu”!!!

As for Zhou Ming, after losing two consecutive battles, he directly fell to sixth place and squeezed Lu Qingyi, a new legend, to seventh place. However, fifth place... The fifth place that was stuck between a bunch of legends was still Shi Yu, a top-notch master.

This change undoubtedly stunned everyone.

They instantly understood what this meant.

This meant that the Sequence Competition Committee thought that Zhou Ming, who was ranked third in the former Sequence, couldn't defeat the number one person below the legendary level?

It was fine if Lu Qingyi had just advanced without any battle results, but Zhou Ming was originally third in the Sequence... He was actually ranked behind Shi Yu.

Causing trouble!

Most Beast Tamers immediately felt that the Sequence Competition Committee was causing trouble.

In Divine Capital, a young man less than 1.7 meters tall, fair and tender, with a chubby figure and face, stared at his falling Sequence ranking, his heart bleeding.

His face was incomparably red as he muttered, “It's over, it's over. Even if I lose two rounds of my legendary resources, why am I ranked sixth? Is this reasonable?”

“I've clearly never fought this Shi Yu before, so why am I ranked below him!!”

He immediately targeted Shi Yu.

However, when he saw that there was still Lu Qingyi, who had just advanced to the legendary level, Zhou Ming had a subtle headache. He felt that if he couldn't enter the top five, he would be beaten to death by his master...

What he didn't know was that the Sequence Battle Committee had no choice. This was because the budget of the entire selection competition was five legendary resources. Shi Yu had already taken one away in advance, so they naturally had to rank him in the top five...

Moreover, Director Zhong, who had watched the battle between Zheng Hai and Zhou Ming, was indeed not very satisfied with this little fatty's performance. He felt that he was too relaxed, so he naturally couldn't let this fatty easily obtain legendary resources.

The settlement of the Sequence ranking was about to end. Whether he wanted to obtain the legendary resource depended on whether he could give it a try in the end.

Even if Shi Yu had already taken away a legendary resource in advance, if someone defeated him, the Sequence Competition Committee could only apply for one more.

And if, as a legend, they couldn't even defeat a top-notch master like Shi Yu, it would be a waste to apply for another legendary resource for them. It was better to give Ye Xing and Divine Bell to strengthen the primary battle power more.

Shi Yu... directly became a touchstone arranged by the Sequence Committee for Lu Qingyi and Zhou Ming...

“Is Director Zhong causing trouble?”

At this moment, Shi Yu from Ancient Capital University also discovered the updated ranking.

Shi Yu wouldn't be surprised if he was squeezed out of the top five. After all, he was the only one in front who wasn't a legend.

After being squeezed out, he wouldn't continue fighting. After all, he had already received the resources. It was impossible for the association to give him repeats, so he wouldn't scam others.

But the problem was, what did they mean by placing himself in fifth place...

Shi Yu had a strange expression. Soon, he silently received a challenge application from the sixth of the Sequence... This little fatty with a weak presence panicked.

[Challenge Message]: Dr. Shi Yu, Dr. Shi Yu, let's fight ~

“Challenging a top-notch master like me, you have no integrity.”

“Forget it, ignore it.” Shi Yu took a look. After all, it was his future bodyguard. It was better not to damage the child's confidence.

At the moment, the Sequence battle was coming to an end. It was a mandatory challenge stage. The challenged party couldn't refuse. If they didn't accept it within 24 hours or refused to accept the challenge, they would automatically be judged to have lost.

Shi Yu chose to ignore the challenge and wait for the system to automatically squeeze him out. As for this Zhou Ming, Shi Yu estimated that even if he entered the top five, he wouldn't stay long. He would eventually be beaten by Senior Lu. He was an unlucky guy.

[Unscientific Beast Taming](#)

Chapter 753: The First Quasi Divine Skill in the Team (1)

753 The First Quasi Divine Skill in the Team (1)

Shi Yu ignored Zhou Ming and continued recuperating.

With a nourishing meal, if it went smoothly, he could teach Ling the Mythical Revival skill tonight.

At this moment, he didn't plan to stay idle. He took out his phone and called his lucky star, An Chang.

“Senior Shi Yu!”

Ever since he gave the memory water drop to An Chang before going to the Seven Islands, Shi Yu had never paid attention to him.

An Chang had always wanted to thank Shi Yu in person, but unfortunately, he couldn't find Shi Yu.

This time, Shi Yu called. An Chang was very excited.

“Little An, how's the situation recently? Are you a high-level Beast Tamer?”

“Ah, this.” An Chang was a little stunned. How could it be so fast? He was only in his first year.

“Senior Shi Yu, I’m already an intermediate Beast Tamer, but I’m still a little short of a high-level Beast Tamer...”

“Well...” Shi Yu fell into deep thought and said, “What about the pet situation?”

An Chang immediately said, “It’s all thanks to your dragon blood, Senior. Although I’m only level three and the Sea Dragon is only at the transcendent level, after we fuse, it’s easy for us to defeat ordinary commander-level pets.”

His tone was filled with joy as he said, “And the Green Silkworm has also successfully evolved. It used the super proficient worm silk to evolve into a Green Silkworm cocoon. Its growth level has also reached the transcendent level. It shouldn’t be long before it can break out of the cocoon and become a butterfly.”

“By the way, the evolution materials are the recommended ones for the White Star Phoenix Butterfly evolution path researched by Dr. Zuo.”

“On the basis of the low-level monarch race’s White Star Butterfly, there are additional phoenix materials.”

“I haven’t contracted the third pet, but Principal Feng has already contacted me and said that he wants to give me a talented Iron-eating beast cub.”

Shi Yu said, “Not bad. Are you free recently?”

“I’m free. Senior, what’s the matter? By the way, I haven’t thanked you for that water drop...” After An Chang obtained Shi Yu’s Worm Silk Memory Water in the Heroic Ruins, he could be said to be extremely shocked.

Originally, his Green Silkworm Silk proficiency was transcendent and was already very rare. However, after using this memory water drop, the worm silk proficiency actually continued to increase. In the end, it even reached another realm.

This also made his Green Silkworm magical during the evolution process. Its life force and energy value had a qualitative leap.

If it broke out of the cocoon... He didn’t dare to think about it.

This was definitely a super treasure.

“It’s good that you’re free. Let me introduce you to a friend. Go and find it to help evolve the Green Silkworm cocoon now. Then, in a few days, come to Dragon Palace City with me. I’ll arrange some training missions for you. Try to become a high-level Beast Tamer before school starts in your second year.”

After hearing Shi Yu’s words, An Chang was slightly stunned. Senior Shi Yu wanted to personally arrange a training mission for him?

In an instant, An Chang was extremely excited. He had also seen the updated Sequence ranking just now. He still believed in the value of Shi Yu, the number one person below the legendary level and the national champion.

“Alright.” An Chang nodded heavily.

Shi Yu also nodded. The Awakening Mirror and Talent Bead An Chang took out played a crucial role in the entire development of Dong Huang. One was the mechanical phantom beast system, and the other was the superpower system. Shi Yu had already decided that even if he used resources, it would pile him to the legend level.

After the Butterfly God and the Sea Dragon King helped build the foundation for the pet, Shi Yu didn't believe that he couldn't nurture a Beast Tamer with legend potential.

Next, Shi Yu provided the location of the butterfly god's habitat to An Chang and let him find it himself. As for helping it evolve, Shi Yu had already informed the butterfly god in advance.

Although for ordinary Beast Tamers, even Shi Yu of Bureau 11 at that time, the daughter of a legend, Xia Qingwei, had to wait for a specific time for the Butterfly Meeting to help evolve. However, with Shi Yu's current situation, it was definitely easy for the Butterfly God to help. The Butterfly God would also give him face.

After all, Shi Yu... had already shattered one totem. In addition to a series of achievements, it was very difficult for the butterfly god not to treat Shi Yu as a figure of the same level.

After arranging for An Chang to leave, Shi Yu received a call from Director Zhong in the eighth bureau.

As soon as the call was picked up, Director Zhong's chuckle came from the other side. “Shi Yu, did you see Zhou Ming's challenge at the Sequence ranking?”

“I did.”

“Why don't you accept it...”

Shi Yu said, “In any case, I've already taken all my rewards. If Senior Zhou Ming is willing to snatch the top five, so be it. Why should I join in the fun?”

Director Zhong: “?”

Why was this kid like this? He didn't want to fight for the top five if there were no resources! He still had fame!

Director Zhong's old face immediately fell. He had a headache. He didn't expect Shi Yu to not follow the routine.

“Didn't Lu Qingyi also break through to the legend level? Let the two of them fight. Whoever wins will get fifth place. I won't join in the fun,” Shi Yu said with a smile.

The treatment he received for taking the legendary resources in advance had already exceeded first place. What else was there to think about? Unless the Sequence Competition Committee said that first

place could get two legendary resources and not just the priority choice, he might go and fight for first place.

“I...” Director Zhong sighed and gritted his teeth. “I understand.”

Obviously, he couldn't do anything to Shi Yu either. After all, Shi Yu didn't even care about the ranking, so he couldn't force Shi Yu to accept the challenge.

After hanging up, Shi Yu stretched. It was easy not to pursue anything. If this were Heavenly King Zou, he would definitely be obsessed again.

In the next few days, Shi Yu stayed at Ancient Capital University as usual to relax. He even gathered with Master Qu Jie. Although he was a little traumatized by Shi Yu, he was grateful that Shi Yu had saved his daughter. Master Qu Jie was also sincere. In short, he didn't suffer those beatings for nothing.

[Unscientific Beast Taming](#)

Chapter 754: The First Quasi Divine Skill in the Team (2)

754 The First Quasi Divine Skill in the Team (2)

As for the Sequence ranking, it successfully fell to seventh place under Shi Yu's lousy laziness. However, the old unlucky Zhou Ming didn't take fifth place either. Instead, it was intercepted by Lu Qingyi in the blink of an eye.

According to Senior Lu, the other party's fusion talent development was not yet in place. It could only support the fusion and evolution of two pets. As long as Zhou Ming could let the three pets fuse and evolve together, or if he could let the four pets fuse and evolve separately, the outcome of the battle was uncertain.

In the form of a sprite, Lu Qingyi fought the fusion overlord. Senior Lu was slightly at a disadvantage, but the remaining top-notch monarchs who could revive their myths fought Zhou Ming's other monarch pets. After the battle, Senior Lu quickly won the battle at the monarch level.

Then, with the support of the monarch pet, Senior Lu quickly took back her advantage and advanced to fifth place.

From then on, Dong Huang's Sequence ranking stabilized. Shi Yu, the number one person below the legendary level, was reflected in the ranking. He was really the number one person below the legendary level.

Regarding this, most Beast Tamers were also very regretful. They didn't understand why Shi Yu ignored Zhou Ming's challenge. Did he think that his strength wasn't enough to face a legend, or was there something he had to do?

There were various opinions on the Internet. Some felt that Shi Yu wasn't ready to face a legend, while others felt that Shi Yu might be able to fight a legend above his level. However, as a busy person, he might not necessarily be able to take care of the tense Sequence ranking competition system. When he was free, he would definitely fight back.

Shi Yu didn't care much about these claims. Instead, he was focused on “adding points to Mythical Revival”.

Now, Ling's Mythical Revival had already been raised to (Proficient+1) by Shi Yu. He had added a total of three points.

Every time Shi Yu taught the Mythical Revival, Ling's Kirin form would have more divine power. And after entering the Mythical Revival state, Ling's energy level could also exceed 20 million.

If Shi Yu wasn't wrong, when Ling's Mythical Revival proficiency reached the proficiency of Senior Lu's pets, its energy level would be comparable to an overlord with a monarch. It shouldn't be a problem to exceed 50 million.

Firstly, Ling's foundation was stronger than Senior Lu's pets, and secondly, Senior Lu's pets' divine power might not be as pure as the Wind Kirin's divine bloodline.

After all, Ling had completed its evolution through the Wind Kirin fossil, while Senior Lu's pet had only changed part of its bloodline and didn't successfully evolve with divine power.

Shi Yu was naturally very happy that the strength of the youngest in the team had finally caught up. However, it had yet to master the "Wind Blessing" through Mythical Revival, which gave Shi Yu a headache.

The reason why he didn't add points to Eleven's superalloy and ran over to prioritize the Mythical Revival first was because he hoped that Ling could awaken a quasi-divine skill as soon as possible. If he had the providence of a quasi-divine skill, whatever he did next might be smoother.

However, the delay in awakening finally made Shi Yu decide that if the Mythical Revival didn't cause a qualitative change after reaching expert level, he would do superalloy first.

"Senior Shi Yu, I'm ready."

At Ancient Capital University, under Shi Yu's dormitory, An Chang, who had returned from Divine Capital, held his cell phone and called for Shi Yu.

"Wait a second."

Shi Yu hung up and packed up, preparing to set off for Dragon Palace City.

He had previously promised Senior Lu to go to Tingxiang together in nearly a month. It wasn't time yet, so Shi Yu planned to bring An Chang to Dragon Palace City to take a look.

It was just waiting for Senior over there. When the time came, everyone would go by sea.

Apart from that, Shi Yu definitely had a goal.

He also planned to train Buggy. Firstly, he would let it visualize the Dragon God Statue in the Dragon God Ruins more before the World Tournament. Secondly, Dragon Palace City had many powerful overlords, much more than Dong Huang. With his position in Dragon Palace City, it shouldn't be difficult for him to find a bunch of overlords to be sparring partners. It could also be considered to be preparing in advance for the World Tournament.

In Dragon Palace City, there were top-notch overlords and even invincible overlords comparable to totems. According to what Shi Yu knew, the Crown Prince of Dragon Palace City was an invincible

overlord whose strength was not inferior to the Tyrannical Sea Legend, the Giant Leviathan. It could fight against totems.

“Let’s go.” After packing, Shi Yu came downstairs and looked at An Chang, who was already taller and stronger than him as if he had been injected with hormones. He was slightly silent.

Wasn’t this kid quite weak at the start? Why was he so strong?

Fusion Talent was really strange!

“You’ve gotten fatter,” Shi Yu said.

An Chang: ...

Fat...?

“Ah... Perhaps it’s because I ate more,” An Chang scratched his head in embarrassment.

Shi Yu smiled and said, “Relax. Next, I’m going to put you into the ruins space. When we reach Dragon Palace City, I’ll let you out. This is faster.”

“Alright.” An Chang nodded.

“I won’t let you be idle either,” Shi Yu said. “In order to test your strength, there’s my second team’s pets in the ruins space. Fight it after you enter.”

“Team Two pets?” An Chang was surprised. Senior Shi Yu had already started training Team Two?

That made sense. With the gift of telepathy and the portable ruins space, in addition to being very powerful and rich, it was normal for him to have the energy to nurture the second team.

“Yes, a Duckbill Beast.”

When Shi Yu finished speaking, An Chang was even more shocked. Wait, Duckbill Beast?

Wasn’t the Duckbill Beast a pet of a transcendent race?

An Chang fell into deep thought. When he was put into the ruins space and saw the Duckbill Beast waiting for him in front of him, he was even more certain that his judgment was right.

At the same time, he was puzzled. Why would Senior Shi Yu contract a transcendent race to be the second team?

[Unscientific Beast Taming](#)

Chapter 755: The First Quasi-Divine Skill in the Team (3)

755 The First Quasi-Divine Skill in the Team (3)

With Senior Shi Yu’s strength, it should be easy for him to find an overlord cub.

“Quack.” Now that it had relied on its overlord will and battle experience to break through the racial restrictions, the commander rank duck looked at the new sparring partner Shi Yu had sent and frowned slightly.

“Hello.” An Chang also looked at the Duckbill Beast nervously.

He confirmed that it was an ordinary Duckbill Beast.

However, he didn’t dare to underestimate it. After all, Shi Yu was a very powerful man who could even nurture pets like the Iron-eating Beast, Green Silkworm, Baby Ginseng, and Slime. It was normal for a Duckbill Beast to be very strong.

“Quack!!”

As he couldn’t understand the duck’s words, An Chang quickly took out the top-notch mechanical equipment rewarded by Ancient Capital University, a mechanical equipment that connected ears and eyes like a battle power detector.

This was a type of spiritual sensing equipment that could allow Beast Tamers who couldn’t use telepathy to understand some of the language of transcendent creatures. It was considered a very high-level mechanical equipment. Even master-level Beast Tamers would find it difficult to afford it.

However, Ancient Capital University was rich this year. It could be said to be very generous to geniuses, especially the geniuses Shi Yu had named and taken care of.

“Quack. (You’re An Chang!)” Duck looked at this “weak” human compared to Shi Yu and said.

“Senior Duckbill Beast, I’m An Chang.” An Chang nodded crazily. At the same time, the information about the Duckbill Beast appeared on the lens.

< Name > Duckbill Beast

[Attributes]: Water

[Race Level]: High Transcendent

[Level of Growth]: Commander

[Race Skill]: Water Blade, Heart Strike

Energy Points: 29,998

As expected!

As expected of Senior Shi Yu. Although this second team pet looked ordinary, its growth level had already broken through the racial level restriction. Moreover, as a transcendent race, commander rank, its energy level was already comparable to most commander rank races.

However, he felt that he could fight!

An Chang was especially grateful to Shi Yu at this moment. This was because under the butterfly god’s blessing, his green cocoon had already successfully evolved!

Low-level overlord race, White Star Phoenix Butterfly!

In addition, with the help of the Sea Dragon’s Fusion Talent, it might be able to fight above its level.

The standard of an intermediate Beast Tamer was that they could fight commanders above their level. An Chang had naturally reached it long ago.

Now, as the green cocoon evolved, there was even less pressure.

Moreover, it was mainly because Senior Duck Duck... It looked pretty harmless.

It reminded him of the Imperial Capital roast duck he had just finished eating the day before yesterday.

“Quack! (Then come on!)” Duck was about to vomit from fighting Little Ji and the Green Silkworm cocoon phantom all day.

It was good to change its taste!

Although it felt that An Chang’s strength was not much, Shi Yu had introduced him after all. He shouldn’t be too weak. Duckie thought for a moment and directly entered its second form. It was better to take it more seriously.

In the next moment, it looked at An Chang and its body suddenly increased to two meters!

Its blue skin began to be covered in black, leaving only a portion of dark blue patterns.

At its neck, the black water froze like a ribbon, becoming a scarf-like part that floated behind it.

In just a short moment, the image of the Duckbill Beast changed completely.

The terrifying aura emitted made the originally relaxed An Chang’s expression change drastically.

The Duckbill Beast’s deep red eyes opened and it looked at An Chang. At this moment, An Chang’s spirit seemed to have fallen into an abyss. In an instant, cold sweat flowed out of his entire body. He was so frightened that he took a step back and sensed an extremely terrifying evil aura.

< Name > ???

Energy Points: 74,747

“Quack! (Come, I’ll warm up with my weaker form first and see how your strength is.)”

An Chang: “?”

In the past few months, the duck had been eating the Abyss Reincarnation Bean cultivated by Baby Ginseng. Every time it ate it, it could awaken a portion of the abyss power. At first, it was indeed very difficult to control, but as Baby Ginseng reduced the amount of medicine in the Abyss Reincarnation Bean, and as Susu let the duck understand the full-level cleansing water through the memory water drop, it could gradually control the abyss power in this body.

Therefore, Duckie obtained two new forms. The first was in the current state. It was relatively easy to receive a portion of the power of the abyss. With this state, it could barely fight small opportunities of overlord races and commander ranks.

There was also a final form that received stronger abyssal power, but it was relatively difficult to control. It needed to cooperate with the overlord’s will. It would be extremely tired after the battle, so Duckie rarely used it. Most importantly, it couldn’t defeat the green cocoon phantom even if it used it.

Although it had only received a portion of the abyssal power now, it depended on whose abyssal power it was. In its previous life, as a demigod expert, Duckie's aura was still very terrifying, immediately making An Chang a little absent-minded.

It condensed a black water spear and stabbed it into the ground, indicating that the boy opposite should quickly send out his pet.

"Wait, wait, Senior Duckbill Beast, what are you doing?"

"If you're teaching newbies, isn't that initial form enough..."

An Chang panicked. Why could the Duckbill Beast still transform? As expected, the textbooks weren't trustworthy.

Duckie: "?"

....

At this moment, Shi Yu had already shouted for Ling to transform into its Kirin form and fly ten thousand meters in the sky.

Shi Yu originally wanted to enter the ruins and arrange for Duckie to fight An Chang, but as a busy person, he had never been free.

Just as he was about to set off for Dragon Palace City, he received a call from the Tyrannical Sea Legend.

"Senior Yu, what's wrong?"

Tyrannical Sea Legend: "Legend Ji Xiang of the Phoenix Court of the Seven Islands Phoenix God Shrine and Legend Jie Yi of the Phoenix Court are coming to Dong Huang in a while. They should want to see you. Are you free?"

[Unscientific Beast Taming](#)

Chapter 756: The First Quasi Divine Skill in the Team (4)

756 The First Quasi Divine Skill in the Team (4)

Shi Yu had a bitter expression. Why didn't he say so in advance?

He was about to go to Dragon Palace City.

"Wait, the Phoenix Court's Jie Yi also passed the legend assessment?" Shi Yu discovered the problem.

The Tyrannical Sea Legend said, "Probably. She became the new legend of the Seven Islands. Therefore, it wasn't easy for them to come to Dong Huang this time. The Seven Islands gave many obstructions. Perhaps because the incident of 'Red God' attacking the Phoenix Divine Master at that time also made the Phoenix God Society have some ill feelings towards the Seven Islands, so Dong Huang's intention is to see if they can persuade the two of them to bring the Phoenix God Society to join Dong Huang."

"As the designated heir of the Phoenix Mystic Realm, you might have a way."

Dong Huang had always welcomed the immigration of such high-end talents. Even the other countries were poaching each other. Of course, if it were those lazy and useless foreign trash Beast Tamers who

liked to point fingers, Dong Huang naturally wouldn't accept it. If anyone could enter, Dong Huang wouldn't be the number one country now.

Shi Yu was vexed and said, "Well... Let them be guests in the ancient capital first. Senior Lu and Principal Feng know the history mentioned by the Undying Dark Phoenix. Let them receive them first. I'm going to Dragon Palace City now. I have something to do. I'll go back after I'm done."

"Sure, they haven't come yet anyway." The Tyrannical Sea Legend nodded. This time, the two legends of the Phoenix Court shouldn't leave in the short term.

After chatting for a while, Shi Yu and the Tyrannical Sea Legend ended the call. Then, Shi Yu fell into deep thought.

The Phoenix Shrine really came.

He just didn't know if Dong Huang could be deceived.

Forget it.

Shi Yu entered the ruins, but the moment he entered, he saw the normal duck revealing a lonely expression as an expert, as well as An Chang, the Sea Dragon, and the White Star Phoenix Butterfly lying on the ground covered in injuries like a dead dog.

"Wu..." An Chang lay on the ground with his hands and feet twitching, his face filled with sorrow. Why, why was this Duckbill Beast so strong after returning to its normal state? It was different from the commander rank it had fought before with about 30,000 energy points!!

It was as if it had experienced hundreds of battles and was extremely experienced, like a master playing with a child.

"Quack... (After fusing with the pet, this guy can't fight as well as Shi Yu could by himself...)" The duck sighed.

It looked like it had overestimated this kid.

"Looks like your cultivation isn't good enough..." Shi Yu looked at An Chang and fell into deep thought. Why couldn't he even defeat pets that had never been given points? This couldn't do. When he arrived at Dragon Palace City, he had to train well.

....

Dragon Palace City.

First, they flew in the air on Ling, then dived into the sea through Susu. It didn't take Shi Yu and the others long to arrive here.

Previously, if he wanted to come to Dragon Palace City, Shi Yu either had to let the Tyrannical Sea Legend bring him or the gem cat. But now, he himself had the ability to come to Dragon Palace City.

Dragon Palace City didn't know at all that Shi Yu had come to Dragon Palace City this time. He didn't inform them in advance, so when he arrived, the Dragon Palace army in charge of guarding the mystic realm of Dragon Palace City was very shocked. They didn't expect Minister Shi Yu to come at this time.

However, Shi Yu was also considered a higher-up of Dragon Palace City. He even had his own palace in Dragon Palace City. Coming to Dragon Palace City was like coming to his home. He loved this place very much.

After entering Dragon Palace City, Shi Yu was not in a hurry to go home. Instead, he visited Mother Dragon first.

“Why are you here, kid!”

In the Ice Dragon Palace, the frost dragon looked at Shi Yu with disdain.

Nothing good would happen when Shi Yu came.

“I missed you, so I came to take a look,” Shi Yu said with a smile.

“Stop being cheeky. If you have something to say, let it go quickly. It’s delaying my cultivation,” Ice Dragon said.

“It’s not a big deal. I just want to go to Tingxiang to play for a few days later. Mother Dragon, isn’t your hometown over there? Do you want to travel for a few days? The gem cat will also go.”

The frost dragon was just about to refuse and say that it wasn’t free, but it suddenly recalled Shi Yu’s gains on the Seven Islands.

One Mythical and two Legendary!

Back then, when Shi Yu went to the Seven Islands, he had also invited it. It rejected him and regretted it later. After all, Shi Yu’s ability to find resources was top-notch.

This time... Shi Yu was going to Tingxiang to cause trouble again?

“Well, let me think. I’ll give you an answer later,” the frost dragon said, not in a hurry to refuse.

“Alright.” Shi Yu smiled and said, “I still have something to do with Senior Sea Dragon King. Then I’ll go over there first.”

“Go, go, go.”

Next, Shi Yu came to the Sea Dragon King’s Dragon Palace, but he was told by the Turtle Prime Minister that the Sea Dragon King had brought the little white dragon out to train... But he should be back in the next two days.

Shi Yu : “...”

What else could Shi Yu do? He could only wait.

This time, he returned to his palace in Dragon Palace City.

As for An Chang, he was in the ruins. It wasn’t a big problem to let the Duckbill Beast and Little Ji train for two days.

With him providing supplements and recovery items and being able to cultivate in the ruins, the effect would not be bad.

Then, when the Sea Dragon King returned, it would help the Sea Dragon purify its bloodline and evolve. It would be enough.

Shi Yu recuperated again and waited for the next Mythical Revival to add points. Only Buggy was released by Shi Yu and was sent to the Dragon God Statue in the Dragon God Ruins to cultivate.

At the moment, Shi Yu and Buggy were the only “outsiders” allowed by the Dragon God to go to the Dragon God Ruins through the Dragon God Palace. It wasn’t the first time Buggy had gone over itself, so it wasn’t a big problem.

Unscientific Beast Taming

Chapter 757: The First Quasi Divine Skill in the Team (5)

757 The First Quasi Divine Skill in the Team (5)

Even if the Dragon God discovered it, nothing would happen.

However, the situation was a little different this time.

Dragon God Palace.

At this moment, apart from the peerless Dragon God, there was actually a humanoid woman whose appearance was not inferior to the Dragon God.

She had sharp ears, long green hair that draped over her shoulders, golden eyes, a queen-shaped baby face, a delicate figure, skin, and huge natural charm. Her aura was extremely transcendent.

“Tian, a little guy seemed to have passed by your palace just now,” the green-haired woman said lazily.

“Don’t worry about it.” The Dragon God shook her head and also discovered the passing worm.

She understood that Shi Yu had come to Dragon Palace City again.

She had indeed given Shi Yu and Buggy the right to visualize and cultivate at the Dragon God Statue.

“A butterfly... And among monarchs, it’s considered very strong. It shouldn’t be a member of your Dragon Palace City, right?”

“Well, a pet of a human junior from Dong Huang.”

“Syl, continue talking about what happened just now.” The Dragon God looked at the Elven Empress from Tingxiang, an expert who was also a demigod-level life form like her.

Very few people knew that the Dragon God and the Elven Queen, Sylphra, were actually good friends.

“Alright, but I really didn’t expect your Dragon Palace City to choose not to participate in this world competition. I thought you would cooperate with Dong Huang.” Sylphra smiled.

“Since you’re not participating, help me. Let the few young people in our Tingxiang come to your Dragon Palace City to train and accumulate experience dealing with the dragons. Or you can let your overlords travel to Tingxiang. I’ll treat them well.”

The reason why the Dragon God and the Elven Empress had a good relationship was also because their relationship with the Western totem faction, the Dragon Empire, was not very good.

As for why the relationship between Tingxiang and the Dragon Empire was not good, it was because the Western legend said that the legendary Beast Tamer, the Dragon Hunter, was from Tingxiang...

The main reason why the Elven Empress descended this time was to discuss with her good friend about the Mythical Era that might approach next...

....

Two days later.

In the legendary ruins of Shi Yu's palace.

Shi Yu looked at the gradually disappearing cooldown time and heaved a sigh of relief.

Then, he looked at the Cube in front of him.

At this moment, Ling analyzed and said, "According to calculations, the first qualitative change will occur when Mythical Revival reaches expert level."

"It's very likely to make the dream memory clearer, and it's very likely to awaken the quasi-divine skill, Wind Blessing."

"Stop talking, come on!"

Shi Yu couldn't wait anymore. He directly pinched the cube in front of him and started to add points!!

Ling's analysis was right. After adding points this time, the recovery of the divine power in its body was even stronger than before!!

As he was immersed in endless pain, Ling sensed the change in the Kirin fossil...

Soon, an incomparably huge surprise appeared in Ling and Shi Yu's minds.

Quasi-divine skill, Wind Blessing, awakening!!!

As Shi Yu upgraded the Mythical Revival skill to expert level, the quasi-divine skill, the Wind Blessing that Ling couldn't awaken when it evolved previously, was finally going to awaken this time!

Both Shi Yu and Ling were extremely excited. They knew what this meant.

This meant that Ling could directly jump from a quasi Mythical race to a Mythical race and obtain potential comparable to those demigods.

When it awakened the Wind Blessing, Ling directly returned to its Wind Kirin form. Its perfect form appeared again. The entire legendary ruin was affected by it at this moment. The sky and ground were white, and a light breeze circled. At this moment, Eleven, Baby Ginseng, Chi Tong, Susu, and the others, who were also in the legendary ruin, had their expressions suddenly change as they sensed the suppression from their bloodlines.

Even at this moment, the Tyrant Dragon, the Duckbill Beast, and even An Chang and the others in the ruins widened their eyes in shock. They sensed indescribable and indescribable power fluctuations that enveloped the world, making it difficult to breathe.

Dong...

At this moment, it was as if the legendary ruins had trembled, and an incomparably deep sound of worldly laws appeared. The spatial power and natural power in the space were all suppressed, and it was no different from the abnormality of the quasi-divine skill described by Senior Ji Mengzhu.

In fact, forget about the legendary ruins, even the few islands around the island where Shi Yu lived felt an indescribable pressure as Ling awakened its quasi-divine skill and crossed the line to the Mythical race!!

The dragons looked at the sky in shock. This pressure shocked them, even more so than the Dragon Kings' pressure. Although it wasn't strong, the texture made some overlord dragons recall some memories.

Yes, this was the feeling when they saw the Dragon God!!!

"Has Lord Dragon God come out of seclusion?" Most of the dragons looked at the sky in shock.

The further away from Shi Yu, the harder it was to sense this divine pressure. However, for true experts, it was not difficult to sense this same power even from countless layers of space.

In the Dragon God Palace, the Dragon God and the Elven Empress were still chatting freely. Suddenly, their expressions changed slightly as they looked into the distance.

"Ah Tian, this is..." Sylphra looked surprised.

The Dragon God also looked confused.

How was that possible?

There were actually creatures in Dragon Palace City who could come into contact with the God Domain like them demigods? Those totem dragon kings? No, with their aptitude, it was impossible.

"There's a life form that cultivated the prototype of a divine skill in Dragon Palace City!"

The Dragon God and the Elven Empress made a judgment at the same time. However, it didn't look like a life form had broken through to the demigod level, but like a Mythical cub had descended... The two demigods quickly left the Dragon God Palace. Then, they saw a blue butterfly flying back awkwardly and anxiously... It looked at them...

Buggy: ...

[Unscientific Beast Taming](#)

Chapter 758: The Power of a Quasi Divine Skill (1)

758 The Power of a Quasi Divine Skill (1)

Following the nomological fluctuations of the quasi-divine skill, the Dragon God and the Elven Empress descended on the island where Shi Yu was.

The island Shi Yu was on was called Blue Sea Island. It was specially modified for him to live as the minister of the Environmental Protection Department, Shi Yu.

Of course, a big shot like the Dragon God had naturally never paid attention to this kind of thing from the beginning to the end. It was all planned by the Ice Dragon King's Turtle Prime Minister, so the Dragon God didn't know whose territory this island was.

This island was not big, and the environment was very beautiful. It was cleansed to the point where there was not a trace of dirt. Even the Elven Empress, a natural sprite who controlled the forest and wind, discovered that this island was different from the other islands in Dragon Palace City.

The owner of this island... definitely had mysophobia.

"The other party is in an alternate space."

Although Blue Sea Island didn't look lifeless at this moment, after reaching the demigod level, these experts had already mastered very strong spatial attainments. Be it the Dragon God or the Elven Empress, they instantly determined that the other party was in the deep space of the Dragon Palace mystic realm.

"And it's not just a simple alternate space," the Elven Empress, Sylphra, said. With her perception, even ordinary totems probably couldn't forcefully enter this space.

The spatial level was relatively high. It was a legendary spatial mystic realm.

Of course, for them, shattering a legendary space was already easy.

Standing in the sky and sensing the weak law fluctuations that contained the power of time and space, the Dragon God Tian Li and the Elven Empress Sylphra stretched out their hands together, wanting to forcefully enter the alternate space to investigate.

During this process, the Dragon God was slightly stunned and felt a strange wave.

Because it sensed traces of its own strength in this deep space... Although it was isolated by the legendary space and its perception was very vague, it shouldn't be wrong.

"Wu!!! Wu!!! Wu!!!"

Just as the Dragon God and Sylphra were preparing to enter the mystic realm, Buggy, who had just met the Dragon God and the Elven Empress but was quickly ignored by the two demigods, also rushed back crazily.

At this moment, seeing the two super experts eyeing this area covetously, Buggy swallowed its saliva crazily and said, "Seniors, seniors, wait."

Buggy called out to the two demigods through telepathy, afraid that they would suddenly barge in and affect Shi Yu's points.

"It's the little worm just now," the Elven Empress said in surprise when she saw Buggy.

"I see." Seeing that Buggy was also flying to this place, the Dragon God was slightly stunned. She suddenly understood everything.

From the looks of it, the one in the deep space should be Shi Yu.

That human who had contracted the Blue Sea Sprite Reincarnation.

Initially, the Dragon God was still wondering what was going on, but this explained it clearly.

It looked like the Blue Sea Sprite Reincarnation had begun to awaken the abilities of its previous life.

Although she didn't know much about the Blue Sea Sprite, as an outstanding figure among demigods, it wasn't strange for it to master quasi-divine skills in advance.

"I know what's going on." The Dragon God calmly dispersed her power. Beside her, Sylphra said in surprise, "What do you mean?"

"Wait a minute," the Dragon God said. "The person inside is the Beast Tamer of this butterfly, the human junior I mentioned previously."

"Perhaps his pet is awakening a quasi-divine skill."

Sylphra was even more surprised. "You mean, the pet of a human Beast Tamer has mastered a quasi-divine skill?!"

She was very surprised and couldn't help but be surprised. This was because at the moment, in the entire Blue Planet, there were very few lives who were still alive who had mastered quasi-divine skills. The ones she knew wouldn't be more than ten.

These experts stood at the top of Blue Planet. Even if a legendary Beast Tamer went all out, they might not necessarily be able to defeat them.

Even if it was a peak-level human legendary Beast Tamer, the pets they contracted were basically ordinary totems, or some top-notch totems, not totem half-gods.

For example, she, the legendary Beast Tamer in charge of Tingxiang, had contracted nine Nature Sprites.

Even legendary Beast Tamers found it very difficult to contract pets with "mythical potential" that had mastered "quasi-divine skills".

It was the same for her, and so were the Beast Tamers of the other six countries. It was the same for those legendary Beast Tamers who had left behind various legendary experiences in history.

Legendary Beast Tamers versus demigod-level life forms was enough to prove the power of quasi-divine skills.

And now, the Dragon God was actually telling her that there was a human Beast Tamer's pet that had mastered a quasi divine skill?

"Yes." The Dragon God nodded. Previously, she was still wondering why the Blue Sea Sprite Reincarnation chose a human.

But from the looks of it, Shi Yu seemed to have done very well. It had only been a short while, but he had already helped the reincarnation of the Blue Sea Sprite that had yet to recover its strength after 3,000 years.

It looked like the Blue Sea Ruins left behind by the Blue Sea Sprite still had some taste.

At this moment, through a layer of space, Buggy could also communicate with Shi Yu telepathically. This was the power of the telepathy talent. If it were other talents, they definitely wouldn't be able to. They wouldn't be able to chat with pets across servers.

In the legendary ruins, Baby Ginseng nursed Shi Yu. They looked at Ling, who was surrounded by the wind of space, and swallowed crazily.

"Wind Blessing!"

"Divine skill of luck!"

"From now on, I have become rich."

"I'm looking forward to betting on the fusion skill more and more."

"Eh, the Dragon God is here. Oh no, is the awakening wave of the quasi-divine skill so strong?" Shi Yu was immediately stunned when he heard Buggy's shout outside.

Unscientific Beast Taming

Chapter 759: The Power of a Quasi Divine Skill (2)

759 The Power of a Quasi Divine Skill (2)

At the same time, Buggy also reminded that apart from the Dragon God, there was also a beautiful sister who looked very, very strong.

It looked... like an elf.

Shi Yu had a headache and felt that it was troublesome. After all, there was such a big reaction to awakening a quasi-divine skill through a legendary ruin. No matter what, he had to find a wilderness to awaken before coming to Dragon Palace City.

However, it wasn't a big problem. The Dragon God was one of them, and even the Kirin fossil was from Dragon Palace City. This time, Ling could directly acknowledge them as family.

Shi Yu was excited!

....

In the outside world.

Spatial ripples appeared. Shi Yu directly came out of the legendary sealed ruins and looked at the Dragon God in the sky and the beautiful big sister mentioned by Buggy.

She was indeed very beautiful... She was the only existence Shi Yu had seen whose appearance was not inferior to the Dragon God.

In an instant, Shi Yu determined the other party's identity.

"Senior Dragon God..."

"Elven Empress?!"

Shi Yu was rather shocked. He didn't expect the legendary of Tingxiang to appear in Dragon Palace City.

The Elven Empress was a half-elf. Her human bloodline dominated. Not only did she master extraordinary abilities, but she could also open up the Beast Taming Space and contract pets like human Beast Tamers. She could be said to be very powerful.

"Just now, your pet awakened a quasi-divine skill, right?" The Dragon God slowly landed on the ground and said to Shi Yu.

"Can you summon it and take a look?"

Shi Yu hesitated for a moment. He didn't know the relationship between the Elven Empress and the Dragon God, but from the looks of it, the Dragon God didn't care that the Elven Empress was beside him.

It seemed that the relationship between Dong Huang and Tingxiang was not bad. In that case, Shi Yu nodded. A purple summoning array appeared. Accompanied by a green and white whirlwind, a white creature with a deer-like body and a light and slender body slowly appeared.

At that moment, when they saw this creature, its sheep head, deer body, and dragon tail, as well as its elegant and beautiful body that was like the embodiment of wind, the expressions of the Dragon God and the Elven Empress changed slightly.

The reason why the Dragon God and the Elven Empress had a good relationship was also related to the fact that they were both wind-element life forms. Others might be unfamiliar with the creature in front of them, but for transcendent life forms like them, who stood at the top of the wind-element, they instantly saw the wind laws lingering around it through Ling's Kirin form.

"Mythical race, Wind Kirin!" At this moment, the Elven Empress was the first to speak in disbelief.

She was shocked to the extreme. How was this possible? Didn't the Kirin Race... go completely extinct in the Mythical Era?

Of course, at this moment, the Dragon God was also extremely confused. Wait a minute, why wasn't it that Blue Sea Sprite?!

Where did this Wind Kirin come from!!!

This was completely different from what she had judged just now!

The Dragon God was silent for a moment. Fortunately, she didn't say too much to Sylphra just now.

"Wu..." The two demigods were shocked. The worm in the sky was also shocked with tears in its eyes. It also sensed Ling's current strength.

This didn't make sense.

As the last pet to enter the team, how could it be so strong!

< Name > Ling

[Race]: Mechanical Beast

[Race Level]: Low-level Mythical

[Level of Growth]: Monarch level

[Race Skill]:

“Super Level”: Wind Element Control (Expert+11), Divine Net (Expert+11), Turning Misfortune into Luck (Expert), Wind Spirit Bead (Initiate)

“Quasi God-level Skill”: Wind Blessing (Initiate)

[Teaching Skill]:

“Super Level”: Mythical Revival (Expert)

Energy Points: 20.02 million

“Wu...!!” What was this surprise? Buggy had tears in its eyes. It felt that the team was getting more and more uncomfortable.

“Wind Kirin?” The Dragon God also followed the Elven Empress and looked at Shi Yu.

“No, it’s not completely a Wind Kirin,” Shi Yu said. “This is a mechanical phantom beast we developed with the Wind Kirin fossil through the power of imagination, the power of time, the power of life and death, and the power of machinery.”

“Compared to the true Mythical race, the Wind Kirin, it should still be lacking in some aspects.”

Dragon God: “?”

The Elven Empress: “?”

“You’re Shi Yu.” At this moment, the Elven Empress of Tingxiang finally knew who this young man in front of her was.

During this period, there were also exchanges between Dong Huang and Tingxiang.

In Tingxiang, although the mechanical field was far inferior to countries like Shen Feng, Dong Huang, and Xue Yuan, as the current strongest department, Mechanics were also paid attention to no matter where they were.

The Elven Empress naturally knew that a genius Mechanic from Dong Huang had researched the mechanical phantom beast system.

However, she didn’t expect that the genius Mechanic was the young man in front of her who was in the Dragon Palace and had contracted a Mythical race.

The mechanical phantom beast system... could actually revive the extinct myth?!

Originally, Tingxiang valued the mechanical phantom beast system, but the Elven Empress never expected this technology to be ridiculous to this extent.

“You’ve mastered the ability to revive myths?” The Dragon God realized that she had still underestimated this human young man who had contracted the Blue Sea Sprite Reincarnation.

She had witnessed the growth of the Dragon Emperor, the Space Emperor, the mechanical legendary, the evolution legendary, and many other Dong Huang legends along the way. At this moment, the Dragon God felt that she was about to witness a new legendary star slowly rising.

Dong Huang’s luck was really powerful.

A Beast Tamer with legendary aptitude would appear in every era.

Even when Shi Yu had contracted the Blue Sea Sprite Reincarnation, he didn’t manage to give the Dragon God any greater shock than this.

Unscientific Beast Taming

Chapter 760: The Power of a Quasi Divine Skill (3)

760 The Power of a Quasi Divine Skill (3)

“Not really... It’s mainly because this Wind Kirin fossil is relatively intact. It came from the Dragon God Mystic Realm and was given to me by the Sea Dragon King. I’ve also come into contact with other Mythical fossils, but only one has the conditions to revive...” Shi Yu said.

The Elven Empress looked at the Dragon God. No wonder the Dragon God knew what was going on. So this new Mythical race was a member of Dragon Palace City?

The mechanical phantom beast system actually had the participation of Dragon Palace City.

“Congratulations.” The Elven Empress smiled and said, “Unfortunately, it’s not a dragon. Otherwise, the candidate for the next Dragon God of Dragon Palace City can be confirmed in advance.”

“Is that so?” The Dragon God shook her head. Forget it, after being shocked, the Dragon God recovered her calm. Compared to this, she was still more curious about whether Shi Yu could crack the spatial ruins left behind by the Time Sprite.

So be it if it was a kirin. It wasn’t important anymore.

But from the looks of it, if this Wind Kirin grew to the overlord level, Shi Yu, who planned to participate in the world competition, would have a high chance of winning the championship...

She looked at Shi Yu. The Elven Empress suddenly realized this and felt a headache for her contestants.

Although the Elven Empress didn’t think that her contestants had the talent to win the championship and obtain the blessings of the World Tree, hoping that they could gain more growth during the participation process, it was still a little uncomfortable to have seen this spoiler of the outcome in advance.

Mythical race!

In the previous world competitions, there had never been such a ridiculous battle pet.

If it were the previous world competition, the Mythical race's overlord-level pet would definitely have locked onto the champion's throne!

However, this time, although it was still very advantageous, the Elven Empress couldn't figure out the specific situation.

Although Dragon Palace City rejected participating in the world competition, demigod-level factions like the Dragon Empire, the Dark Night Forest, the Demon Kingdom, and the Arctic Snowfield responded.

Although these demigod factions might not be able to take out Mythical pets, they probably could let their legend Beast Tamers contract invincible overlords and their special talent legendary hybrid Beast Tamers contract totems above their level at all costs.

Therefore, the Elven Empress felt that this world competition might be the most difficult and cruel one.

"What's its skill?" However, out of curiosity, the Dragon God still asked Shi Yu about the quasi-divine skill of the Wind Kirin.

Regarding this, Shi Yu replied, "Wind Blessing. It can use the wind of nature to increase luck."

"Not a battle-type skill, but a luck-type skill?" The Dragon God was stunned.

"Isn't it a battle type?" The Elven Empress was also slightly surprised. In that case, the battle power of this Wind Kirin would be greatly reduced.

However, luck-type quasi-divine skills were also very good. At their level, they naturally knew that ethereal things like luck really existed and were very important.

Especially for a country's faction, the fate of the country was abnormally important.

In an instant, the Elven Empress was rather envious of Dong Huang. If Shi Yu was a Beast Tamer from Tingxiang, she would definitely nurture such a Beast Tamer as an heir no matter what. Coupled with quasi-divine skills like luck, he could probably make a big country prosper for thousands of years.

"But skills that increase luck shouldn't be completely useless in battle and war, right?" Sylphra smiled and looked at the Dragon God. "Can I let this little friend fight a battle to see?"

"I'm a little curious about this ability."

Dragon God Tian Li said, "You can ask him yourself."

Sylvera turned to look at Shi Yu and said, "Little guy, can I?"

Shi Yu was silent for a moment before looking at Ling. Who was he fighting?

"Alright, but we can't say for sure if we have mastered this Wind Blessing skill, because this move can originally bless other lives, but from the looks of it, it shouldn't be able to control this move yet. It seems that it can only increase its luck. Most of the time, it's a passive skill."

"Moreover... who are we fighting..." Shi Yu looked around and looked at Buggy. It seemed to be the only one.

Buggy: ??

Experimental worm.

“It’s alright. I just want to prove some guesses.”

“As for the battle target.” The Elven Empress looked into the distance and said, “You’re pretty lucky. A suitable guy happened to come.”

“Looks like the skill is effective?” The Elven Empress smiled and said, “In that case, follow the guidance of the wind.”

“Wuhu ~ ~ ~” In the distance, the Third Prince, the little white dragon, who had just come out of the ruins to train, immediately ran over to find Shi Yu after hearing from the Turtle Prime Minister that Shi Yu had come to Dragon Palace City to visit the Sea Dragon King.

Previously, it and its father weren’t around, but now that it was done, Shi Yu could go as a guest at any time.

It had come this time to invite Shi Yu.

However, just as it approached Blue Sea Island, the little white dragon’s happy expression stopped. It realized that something was wrong with the situation on Blue Sea Island.

After it flew close to the core area of Blue Sea Island, it immediately widened its eyes and looked at the situation below.

Shi Yu... and...

“Lord... Lord Dragon God!!!”

Damn, why was the Dragon God here!!!

“Third Prince?” Shi Yu also looked at the little white dragon in surprise.

< Name > White Azure Dragon

Energy Points: 6.99 million

Ah, the little white dragon’s strength progress was pretty good.

“I...” At this moment, the little white dragon, who had originally come to look for Shi Yu happily, was immediately stunned when it realized that the atmosphere here was solemn. Not only was the Dragon God here, but there was also a female human who had the same pressure as the Dragon God.
