Chapter 821: Evolution of God Eleven (4)

821 Evolution of God Eleven (4)

Time Mark+Time Fruit+Moon Explosion+Life Fire Seed. It could only say that it was so delicious that it exploded. Even if a totem came, it wouldn't win. It was better than a real divine skill.

As long as it was banned, it was the strongest.

If it wasn't banned, then Ginseng Baby would panic.

"Mi." The sword spirit, Chi Tong, danced in the air. At the moment, it was also ridiculously strong.

After the Undead Revival reached perfect level, it didn't need the bone sword to control the three overlord undead puppets at all.

Therefore, Chi Tong had been coddling up to Shi Yu recently, hoping that the next transcendent points could be given to its undead revival skill.

In that case, it could control the totem-level puppet.

Even at the monarch level, it could even control totem undead puppets. It would be invincible.

Now, it didn't matter who he added points to, because for the next two months, be it Buggy, Chi Tong, or Ling, their will levels had been trained to the level of overlord will. Although there were still some differences in the time to add points, it was no longer big.

"Ning." Susu snorted proudly, its jelly-like blue body swaying.

It hoped that Eleven would evolve stronger and not disappoint the Sea Cleansing Spirit it had worked hard to create.

At the moment, every pet had found comfort for themselves.

For example, Baby Ginseng felt that if skills weren't banned, it was the strongest, while Susu felt that if the battlefield was the ocean, it was the strongest.

In any case, they didn't believe that Eleven could change this situation after breaking through and evolving.

"Alright, alright."

Shi Yu smiled. He had long prepared the ten meteorite fragments and two Aurora Magnetic Gold from Senior Ji Mengzhu.

He looked at Eleven, who nodded heavily and immediately returned to normal!

It was three to four meters tall in the form of the Nine Li Battle Beast.

It was wearing silver and black armor, revealing blue eyes. It was very domineering.

However, this might be the last time it maintained this form.

Shi Yu and the others had no idea how it would evolve next.

He just didn't know if it could recover with the Time Fruit later.

“Wuu!!!”

“Eat, eat.”

Eleven nodded.

It had been stifled for the past few days.

In order to become a perfect overlord, it had been suppressing its breakthrough power for several days.

If it didn't break through soon, it didn't know if Shi Yu would be alright, but it itself would definitely explode.

However, this process also further honed Eleven's control over its body.

At this moment, under everyone's gaze, Eleven couldn't wait to pick up an Aurora Magnetic Gold and stuff it into its mouth.

Legendary resource, Aurora Magnetic Gold!

Shi Yu had a total of two pieces, all applied from Dong Huang.

This was a legendary strengthening resource that could strengthen the physique.

Although Eleven and the others trained with legendary resources every day, they didn't completely devour it.

Otherwise, the huge power of legendary resources would have long made them break through.

After all, legendary resources even had a chance of allowing overlords to break through to totems, let alone monarchs to overlords.

Now, Eleven's gaze was excited. It could finally taste legendary resources.

However, this resource was originally meant to be carried around. It was used to subtly train the physique.

Swallowing it directly was undoubtedly very risky.

However, Ling had already undergone strict calculations. With Eleven's current physique, it was definitely not a problem to completely devour the Aurora Magnetic Gold.

Before evolution, it would break through first.

“Eleven, charge!”

“Wu!” “Yi!” “Mi!” “Ning!” “!”

Under the cheers of the entire team, Eleven, who had swallowed the first Aurora Magnetic Gold, suddenly had a serious and frozen expression.

The suppressed power in his body finally couldn't be suppressed.

It slowly raised its head and roared at the sky.

“Roar!!!!!!”

In the next moment, a shocking energy erupted from its body!

“Boom boom boom boom boom boom boom!!!!”

As Eleven roared, the ground around it exploded.

A terrifying white lightning also shot into the sky from its body!!

The lightning power contained in the Aurora Magnetic Gold!!!

This terrifying power attacked Eleven's body crazily.

In an instant, a white lightning storm lingered with Eleven as the center.

The huge power directly forced Shi Yu and the others back.

At this moment, Eleven no longer suppressed its strength. Several perfect super racial skills led to its growth.

At the same time, under the pressure of the lightning tempering, the will of the overlord erupted.

Five perfect proficiency super racial skills, overlord will, and legendary resources.

The three breakthrough powers combined into one, making Eleven's aura climb steadily, instantly changing the sky and earth.

In the sky, white lightning surged. The boundless land had already turned into a white lightning pool.

This was not an ordinary transformation. Even after Eleven left, this lightning environment would continue for a long time.

This was the power of an overlord.

It already had the ability to change the natural environment.

For example, if Eleven went to erupt and fight, it could directly turn that place into a thunder fire snow mountain.

As it broke through, multiple powers modified Eleven's body.

Its life level directly reached another realm.

Its physique began to be reborn.

With the enhancement of many max-level thunder-element skills and the Perfect Level Lightning Rod, Eleven's physique instantly acquired extreme affinity with lightning.

At this moment, Eleven suddenly had a feeling amidst the white lightning.

Even if it didn't use the energy in his body or use any skill crystals, it could casually wave his hand and cause the lightning to fall.

Unscientific Beast Taming

Chapter 822: Evolution of God Eleven (5)

822 Evolution of God Eleven (5)

This power... was so strong...

“Roar!!!!...”

In the white lightning storm, Eleven opened its blue eyes.

Devouring legendary resources to strengthen the physique was very painful, but for Eleven, who had experienced countless painful training daily and had the will of an overlord, it was not a problem.

In a short moment, its aura began to increase from the original ten million energy points.

“What will happen?”

At this moment, in the distance, Shi Yu's face was pale. He had already sensed the instability of the Beast Taming Space. The shaky space seemed to be about to collapse at any time.

He looked at Eleven in the white lightning with a burning gaze.

20 million.

40 million.

60 million.

70 million... 75 million... 78 million... 79.99 million...

Just as he broke through, Eleven's energy level increased extremely quickly.

The violent increase made Buggy, Baby Ginseng, and the others swallow their saliva crazily.

Soon, Eleven's energy level broke through to 80 million.

It was twice the minimum energy standard of ordinary overlord-level pets.

This energy value was very terrifying.

After all, when the gem cat was at the overlord level, it only had more than 50 million energy points. The famous top-notch overlord of the East Sea, the Sky Penetrating Whale, had fought for its entire life and had less than 90 million energy points.

The number one heir of demigod factions like the Dark Night Forest and the Dragon Empire only had about 90 million energy points.

These overlords undoubtedly only had this energy value after breaking through and undergoing a long cultivation.

As for Eleven, it had just broken through when its energy level suddenly increased to 80 million.

In the end, it gradually stabilized at 80.11 million.

This energy value undoubtedly shocked Buggy and the others. After all, this was only someone who had just broken through to overlord!

It had yet to devour the meteorite fragment and the second legendary resource to evolve!

80,110,000!

[Pet Name]: Eleven

[Race]: Iron-eating Beast, Nine Li Battle Beast

[Attributes]: Metal, Thunder

[Race Level]: High-level overlord (Quasi Mythical)

[Level of Growth]: Overlord

“Super Level”: Inner Power (Perfect), Lightning Rod (Perfect), Space Quake (Perfect), Bean Soldier (Perfect), Impregnable (Perfect)

[Taught Skill]:

“Super Level”: Undying Golden Body (Perfect), White Thunder (Perfect), Super Alloy (transcendent)

Normal Energy Points: 80,110,000

Terrifying attributes.

One could imagine how solid Eleven’s foundation was.

Its energy was actually mostly thanks to the strength of its physique.

At this moment, Eleven was even a little unfamiliar with its body.

The terrifying physical strength made it have a bold idea. Perhaps it could resist Baby Ginseng’s self-destruction!

Including a set of skills, it was definitely one of the best among top-notch overlords.

Probably, apart from invincible overlords like the Mutated Leviathan, there were very few Eleven’s match at the overlord level.

And this was only the beginning!

“Wuu...”

Eleven clenched its fists happily. The surrounding space seemed to tremble as the white lightning was clenched in its hand.

“Wuu!!”

It looked at the others with an excited expression and asked if its strength after breaking through was strong!!

Buggy, Baby Ginseng, Chi Tong, Susu, and the others looked envious.

They also wanted to break through to overlord.

This was simply a qualitative change in strength.

Relying on equipment, the Time Fruit, and other external forces was indeed a little lacking.

“Is it strong? You exchanged your Beast Tamer for that.”

Eleven: QAQ

Shi Yu’s face was pale as he said weakly. At this moment, the Beast Taming Space had stabilized. He had successfully contracted an overlord above his level!!

Those Beast Tamers from the totem country could contract above their level, so could he!

However, because of the contract connection with Eleven, Shi Yu felt that his stamina was almost constantly flowing away. Its speed was very terrifying.

It was ridiculous.

Did it consume so much energy?

He felt that it was impossible for other Beast Tamers to consume so much energy to contract above their level.

Shi Yu was originally very panicked, but he didn’t panic for long.

Eleven’s breakthrough also gave Shi Yu a large portion of its strength, allowing Shi Yu’s physique to reach an unprecedented height.

It made Shi Yu’s physique, which had already reached the limit, break through the limit and obtain epic strengthening again.

This strengthening was undoubtedly timely help, allowing Shi Yu to quickly recover. However, his expression was a little weak. Everything was still within his tolerance.

He took a deep breath of the sachet hanging on his neck and instantly felt revived. He felt that contracting above his level was nothing.

“That’s it,” Shi Yu said. “Another overlord won’t be a problem.”

Eleven: Wu wu wu, Shi Yu, are you alright?

Eleven looked at the pale Shi Yu, afraid that it would break the Beast Tamer’s brain.

This didn’t look like it was alright at all.

Although it was indeed no different from normal...

Ling: “Don’t be arrogant.”

“There’s also evolution.”

“Evolution!” Shi Yu nodded and also nodded at Eleven in the distance, indicating that it could continue.

With this hint, Baby Ginseng, Buggy, Chi Tong, Susu, and the others became even more serious.

Hey, hey, hey, this was already ridiculous enough.

If it used [Transcendent-level superalloy], [Multiple Meteorite Fragments], and [Second Legendary resource, Aurora Magnetic Gold] to fuse and evolve next, would it be a little too terrifying?

Before starting the evolution project, Buggy and the others were originally very calm, but at this moment, they suddenly had a bad feeling.

“Yes, yes!!!” Eleven was extremely excited.

It directly ate the meteorite fragment. There were a total of ten meteorite fragments. In addition, Eleven had already eaten a top-notch fragment previously. Shi Yu didn’t know where Eleven’s upper limit was.

Unscientific Beast Taming

Chapter 823: Evolution of God Eleven (6)

823 Evolution of God Eleven (6)

However, he just had to eat it.

The more it could eat, the higher the initial proficiency level of the Demon God Body.

This was what Ji Mengzhu said.

At this moment, meteorite fragments entered Eleven’s body one after another. Eleven felt especially good.

One, two, three... Initially, Shi Yu and Susu were still wondering if they should use the Sea Cleansing Spirit to relieve Eleven.

But from the looks of it, for the current overlord-level Eleven and the almost invincible overlord-level Eleven, controlling them was too simple.

Soon, Eleven ate eight pieces in one go.

At this moment, it finally felt a trace of pressure. Its expression was serious and solemn as it felt a dark deer thumping in its heart.

After eating eight pieces, including the previous one, it was nine meteorite fragments. Eleven finally felt the burden and the corrosion of the dark power.

“Can it still be eaten? Do you want the Sea Cleansing Spirit to help?”

“Wuu!” Eleven nodded. Of course, it could be eaten, but there was no need to help. Its white lightning power could also suppress the power of the Yun An Demon God.

Initially, Shi Yu and Eleven even said that they wanted to leave two pieces for Senior and the beast-eared girl, but seeing that Eleven didn't seem to have any limit, Shi Yu didn't plan to keep them for the time being. He directly let Eleven eat as much as possible.

After Eleven evolved, he and Eleven would directly help the two seniors hunt Yun An's main body!

At that time, there would be enough fragments.

Boom!!!

Eleven picked up the meteorite fragment and continued eating. At this moment, its body was already intertwined with white and black lightning. It was extremely magical.

After eating, Eleven's aura reached an extremely terrifying level.

It was as if a Thunder Demon God had descended into the world.

The power of the Demon God contained in the eleven meteorite fragments happened to allow Eleven to reach the limit of its current state.

At that moment, what excited Eleven the most was the inscription that it couldn't carve after eating the meteorite fragment for the first time... This time, it could finally carve it.

It stretched out its huge claws and began to carve dark inscriptions, planning to complete the evolution of the Demon God.

Today, Eleven had used all the foundation it had accumulated in the past on itself.

"Come on." Shi Yu was also extremely excited as he looked at Eleven in front of him in anticipation.

Black lightning and white lightning flowed all over its body. As it carved the evolution inscription, a black evolution light directly enveloped its entire body.

During this process, its entire body was filled with black light. Information appeared in Shi Yu's mind.

< Name > Demon God Body

[Attributes]: Metal, Dark

< Introduction > The body can automatically produce the power of the dark-element Demon God. It can mobilize the power of the Demon God to perfectly integrate into any metal-element skill, increasing the effect of the skill in all aspects.

Powerful skills often only needed simple effects.

At this moment, Eleven was gradually transforming into the Demon God Iron-eating Beast in history.

This was Emperor Wu's trump card battle pet, a super race that made Emperor Wu willing to nurture it as the strongest trump card.

At this moment, the black evolution light spread. Eleven's figure slowly enlarged, and its energy level increased further.

Soon, a new appearance appeared in front of Shi Yu and the others.

Zhong Xuan had once said that through the evolution of other inscriptions, the form of the body would not change. Only new racial skills would be added. Only through the evolution of the meteorite fragment would the form of the Nine Li Battle Beast undergo a huge change.

At this moment, its form had indeed changed completely.

The armor and body seemed to have fused into one, no longer in the form of an Iron-eating Beast wearing armor.

At the same time, the color of the armor on its body completely changed from clearly silver and black to a mixture of white and gradually black.

This color was like dark metal absorbing light, dazzling and mysterious.

At this moment, the armor was very layered, like it was made of prismatic metal. On these metal armor, the white and black colors gradually changed, turning the normal state into a Demon God Iron-eating Beast nearly ten meters tall that emitted a terrifying Demon God aura.

Although he could still see the outline of the Iron-eating Beast's figure clearly, there was already a tight Demon God Armor on the outside.

[Pet Name]: Eleven

[Attributes]: Metal, Thunder, Dark

[Race Level]: High-level overlord (Quasi Mythical)

[Level of Growth]: Overlord

Energy Points: 88,210,000

After the evolution of the Demon God, Eleven's current attributes underwent another huge change.

However, this wasn't the end at all. This form was only a transition.

In the time it took Ling to take a photo, Eleven, who looked like a demon god, ate the second Aurora Magnetic Gold!!

Two legendary resources!

Ate them all!

In addition to a pile of legendary level-eight resources, it was impossible for Eleven not to be strong.

"Roar!!!!!"

As Eleven ate the Aurora Magnetic Gold this time, it began to activate the power of superalloy. Its entire body was covered in hardened metal, and the hardened metal that had fused with the power of the White Thunder Metal began to fuse with the Demon God's metal body!!

"Wuu!!" Eleven roared with all its might.

It was extremely excited.

In the next moment, it was directly swallowed by the huge black and white interweaving lightning!!

Its entire body was extremely blurry.

Superalloy, fusion super evolution.

At this moment, the form of the Demon God Iron-eating Beast that had just evolved directly collapsed. Under the collision of light, darkness, and lightning, the Demon God Armor on Eleven's body kept disintegrating into energy essence that fused into Eleven's body.

After the Demon God Armor disintegrated under the power of yin and yang, Eleven's new form was also revealed. It was a form that Shi Yu and the others completely didn't expect. It was an ordinary Iron-eating Beast, but its body was a little taller and larger, a full ten meters tall.

[Unscientific Beast Taming](#)

Chapter 824: Evolution of the Eleven Gods (7)

824 Evolution of the Eleven Gods (7)

It was like an Iron-eating Beast in its enlarged state.

Of course, the power formed by the light, darkness, and lightning disintegrating the armor fused into Eleven's body and assisted it in evolution again. It wasn't like there were no changes at all.

At this moment, every clearly visible hair began to blur. The black hair was as blurry as a black electric arc, and the white hair was as blurry as a white electric arc, with electricity lingering all over its body.

These electric arcs seemed to have become Eleven's hair. They kept floating like a chaotic ocean.

It was like a huge beast walking out of the chaos lightning sea, like the first Chaos Thunder God after the creation of the world.

"This power..."

In the distance, Shi Yu could clearly sense endless energy fluctuations erupting from Eleven's form.

It worked.

It was definitely a success.

Although the power of light lightning and the power of the Demon God were extremely conflicting, the level of superalloy was maxed out by him.

Helping Eleven control this power was definitely not a problem.

Transcendent super skills could allow pets to reach the totem level.

And now, it was only used for evolution!

Under Shi Yu's extremely expectant gaze...

A shocking roar. Black and white lightning that shot into the sky erupted from Eleven's body like flames!!

The sky, the ground, and the natural environment directly changed again. In the ruins, it became a chaos world where Yin and Yang separated and light and darkness were born!!

“Wu...”

In this area, the pressure of Buggy and the others reached the extreme. Their expressions were extremely solemn.

This was the power of leader after evolution...

[Pet Name]: Eleven

[Attributes]: Metal, Thunder, Light, Dark

[Level of Growth]: Overlord

Energy Points: 97,710,000

The current Eleven’s normal energy level of the two legendary resources actually approached 100 million.

It was already close to the Tyrannical Sea Legend’s pet even though it had just broken through...

This shocking power simply excited Shi Yu.

However, what excited Shi Yu the most was still this moment. Because of his contract connection with Eleven, Shi Yu’s mental talent directly changed.

The new skill that Eleven was about to awaken had a connection with him.

As Eleven’s light and darkness evolved, Shi Yu entered a meditative state. His mind and Eleven completely became one.

Shi Yu kept wandering in the sea of memories and experimented with his ideal telepathy talent again.

In the dark world, he saw a painting carved on the stone wall. It was two black and white Yin Yang fish wrapped around each other.

Countless layers superimposed. Shi Yu seemed to see the process of the universe going from infinity to Taiji to the transformation of all things. He saw the process of chaos splitting Yin and Yang, light and darkness not being born, and even splitting Yin and Yang.

At this moment, Eleven and Shi Yu’s minds were very clear. Shi Yu was extremely shocked to discover that as Eleven evolved, his telepathy talent, which had always been at a bottleneck, finally made progress.

Shi Yu slowly opened his eyes. At this moment, his eyes were like a spinning black and white Taiji Painting. They were mysterious and extremely deep. His eyes were the window to the mind, reflecting the power of the mind. At this moment, as Shi Yu changed, Eleven, who was in the evolution process, finally saw the same Yin Yang Taiji Painting as Shi Yu.

Shi Yu had always wanted to share the magicalness of the Taiji Painting discovered during archeological exploration on Earth with Eleven, but unfortunately, he had never succeeded.

However, at this moment, when Eleven used the transcendent-level superalloy and fused the power of light and darkness to complete its evolution, his compatibility with Eleven seemed to have reached a point. Finally, they saw the divineness of this pattern at the same time.

[So, if you want to share these powers with pets, you have to let them have a certain compatibility with this divine power first, just like teaching skills.]

At this moment, Shi Yu understood what to do next.

If Buggy came into contact with the power of the starry sky, perhaps it could really imagine transforming into the green dragon?

Boom!!!!

At this moment.

A huge Taiji Painting array appeared under Eleven and Shi Yu's feet. Lightning leaped on it, as if forming a lightning Yin Yang Domain that wrapped them inside. They also stood on it. Baby Ginseng and the others were extremely shocked, especially Ling...

Buzz...

At this moment, it was as if the legendary ruins had trembled, and an incomparably deep sound of worldly laws appeared. The spatial power and natural power in the space were all suppressed, and it was no different from the abnormality of the quasi-divine skill described by Senior Ji Mengzhu.

"Quasi-divine skill," Ling muttered.

Moreover, it was quite powerful.

It even felt that its strength was suppressed by Eleven's power.

At the same time, further away from the legendary ruins, in the deeper second team space, Little Ji, Duckie, and Qi raised their heads in shock and felt an indescribable pressure!!

"Roar!!!"

"Quack!!!"

Little Ji and Duckie roared softly. It wasn't the first time they felt this power, but this time, it seemed to be different from the last time. The pressure it gave them was even stronger.

At the same time, outside the ruins, on the vast Ice Dragon Snow Mountain, millions of creatures crawled down in horror, not daring to look up.

The shocking change could be said to have shocked Shi Yu.

The power of the Yun An Demon God, the power of the Aurora Magnetic Gold White Thunder, and the transcendent superalloy. In addition, with his help through telepathy, Eleven seemed to have comprehended a quasi-divine skill!!

[Unscientific Beast Taming](#)

Chapter 825: Evolution of God Eleven (8)

825 Evolution of God Eleven (8)

“Roar!!!” At this moment, the Chaotic Yin Yang Lightning Diagram formed was only the phenomenon of a skill. At this moment, the true quasi-divine skill was in Eleven’s hand.

In fact, this was just the combination skill [Yin Yang Jade] that Eleven had fused with White Thunder and Black Thunder through the superalloy previously. Condensing a metal and giving it the fusion of light, darkness, and lightning could cause huge destructive power.

Ling speculated that this combination skill had extraordinary potential, but at this moment, no one expected that as it evolved, it would really upgrade into a new skill.

It was even the prototype of a divine skill!

At this moment, Eleven seemed to have fallen into the chaos lightning and couldn’t be seen clearly. On its palm, a circular metal formed. The metal was black and white, one yin and one yang, one light and one dark. It was filled with two-colored lightning that fused, converted, and collided. It was extremely mysterious. Everything around it seemed to have turned into chaos, disintegrating and being obliterated.

At this moment, as the circular metal condensed and spun, Shi Yu’s expression immediately changed.

“Eleven, stop!!!”

“Wu!!” “Yi!!!” Buggy, Eleven, and the others also sensed the terrifying change in Eleven.

It felt extremely ridiculous.

He didn’t understand why Eleven was so strong after evolution.

At that moment, just seeing Eleven’s figure made them feel that it was difficult to resist.

After all, even when facing the Black Meteorite Yak, the Black Goat, and the Fox God, they didn’t feel this way.

Crack!!!

As Shi Yu spoke, the surrounding space had already begun to be obliterated, and cracks filled the sky. This was not an ordinary obliteration. What shocked Shi Yu was that this legendary spatial ruin that could withstand totem-level attacks actually began to collapse, unstable as Eleven condensed this skill!!!

< Name > Yin Yang Millstone

[Attributes]: Light, Dark, Metal, Thunder

[Level]: Quasi Divine Skill

< Introduction > It contains the destructive law. It can obliterate everything by breaking down the balance of Yin and Yang.

At this moment, Shi Yu’s heart was excited and complicated.

Another quasi-divine skill.

It was actually a divine skill that contained laws of destruction.

Yin Yang Millstone, obliterating everything?

It could even obliterate other laws?

In other words, Eleven really evolved into a Mythical race through this evolution???

Just like Ling, it had become a divine beast cub of a Mythical race?!!!

“Wu...” Shi Yu was extremely pleasantly surprised, but suddenly, his eyes hurt and he was forced to close them. As for Eleven, although it had become incomparably powerful, it still listened to Shi Yu’s command and canceled this skill.

However, to be precise, it was suddenly a little difficult for Eleven to control this power without the enhancement of Shi Yu’s telepathy.

Its own strength, the strength of a Beast Tamer, and the combination of the two were the power of a complete quasi-divine skill, the Yin Yang Millstone.

This was the method of cultivating a quasi-divine skill that Emperor Wu mentioned by Ji Mengzhu.

Among them, the Elven Empress of Tingxiang relied on this method. As a hybrid, she relied on the power of her pet to cultivate a quasi-divine skill, and Emperor Wu was actually still a little far from this step.

However, this result was directly completed by level-six Beast Tamer Shi Yu.

It wasn’t a legendary, not a Titled Legend, or even an ordinary Legend.

Closing his eyes tightly, Shi Yu was extremely excited. He tried his best to open them and look at Eleven.

“Sob...” Eleven, who was still impressive and domineering just now, only used half a move of the Yin Yang Millstone, but the side effects were huge. From its incomparably tall and chaotic blurry form, it gradually restrained its strength and shrank, using the Inner Power and Shrinking skill.

Soon, its form returned to its original state. The black and white hair that should have been like a chaotic electric arc turned into normal hair, and its head returned to its cub form of more than a meter.

However, compared to before, its blue eyes returned to pitch-black eyes.

The color of the eyes was clearly black and white, like the Yin Yang Domain that contained endless power.

On the other side, Shi Yu sat on the ground with a weak expression.

However, he was smiling.

< Name > Eleven

[Attributes]: Metal, Thunder, Light, Dark

[Race Level]: Low-level Mythical

[Level of Growth]: Overlord

[Race Skill]:

“Super Level”: Inner Power (Perfect), Lightning Rod (Perfect), Space Quake (Perfect), Bean Soldier (Perfect), Impregnable (Perfect), Demon God Body (Perfect)

“Quasi Divine-level Skill”: Yin Yang Millstone (Initiate)

[Taught Skill]:

“Super Level”: Undying Golden Body (Perfect), White Thunder (Perfect), Super Alloy (transcendent)

Normal Energy Points: 97,710,000

“Invincible. Really invincible now,” Shi Yu muttered.

Buggy, Baby Ginseng, Chi Tong, Susu, and Ling also felt so.

They were covered in sweat and looked at Eleven in surprise.

Their breathing was very rapid and he had yet to recover from Eleven’s shock.

Oh shit, it was over. Regardless of how the team was doing, they would mourn for its opponent in the world competition for a minute first.

With Eleven’s current attributes, it might even be able to defeat the Tyrannical Sea Legend’s mutated Leviathan alone.

It was invincible below the totem level!

At this moment, Shi Yu was originally worried that he would be a little unstable if he went to fight in the world competition, but now, he wasn’t worried anymore!!

Who else was there!

After sensing that his current Beast Taming level was still far from level seven, Shi Yu didn’t have any extravagant hopes.

He wanted to snatch the title of Titled Legend at the level of a master.

Who else could match the quasi-divine skill of the invincible overlord, Eleven!

Moreover, other pets weren’t to be trifled with.

After holding it in for two months, Shi Yu was still angry and wanted to find someone to test his saber.

Master Qu Jie? No, too weak.

President Lin? The pets he contracted normally shouldn’t have totems and were all overlords. Then Eleven was also invincible in a one-on-one battle. No... He would be suspected of plotting to usurp the throne.

Sky Penetrating Whale, Mutated Leviathan, Dragon Palace City’s Crown Prince, and even the real totem gem cat and frost dragon?

Shi Yu’s excited heart and trembling hands. It’s one of those guys, then!!!

Unscientific Beast Taming

Chapter 826: Undersea Prison

826 Undersea Prison

At this moment, almost the entire team was circling Eleven after breaking through.

All of them were looking forward to it.

It was mainly because Eleven was too strong after breaking through.

They were too envious.

They hoped that he could be like this in the future!

Normal monarchs used one method to break through to overlord.

Eleven, on the other hand, broke through with super skills, legendary resources, and the overlord's will.

In addition to its powerful racial foundation, it could be said to be strong after breaking through to overlord.

At this moment, Eleven was actually not invincible. It could only be said to be a top-notch overlord among top-notch overlords.

What really gave it invincibility was another level-nine legendary resource and ten legendary level-eight meteorite fragments.

Using these things to cooperate with transcendent-level superalloy evolution, it was invincible.

Ordinary totems didn't use as many resources as it did in their lifetime.

Eleven and Shi Yu should be able to resist the weaker totems with all their might.

At this moment, Shi Yu finally stepped into the top battle power domain of Blue Planet in the true sense of the word.

At the moment, Eleven only had two forms.

An ordinary restrained and shrunken cub form.

The other form, the Mythical form, was the giant form that looked like a chaotic lightning sea after evolution.

Among them, the quasi-divine skill Yin Yang Millstone and the super skill Inner Power could only be used in that form.

It could be imagined that if the normal state could reach nearly 100 million.... As long as enough natural lightning was stored in the body in advance, including the eruption of sharpness, it shouldn't be a problem for the energy to exceed 100 million.

In addition to quasi-divine skills, normal totems might not necessarily be able to withstand it.

However, unlike Ling, Eleven's Mythical form consumed more energy than Ling's Mythical form.

At the same time, similar to Ling, its quasi-divine skill was also very difficult to control. It needed Shi Yu's support to use it.

Or rather, Eleven couldn't master the entire Mythical form very well.

This suddenly made Shi Yu understand why only totem-level demigods could master quasi-divine skills.

Perhaps the divine beast cubs of the Mythical race might indeed master quasi-divine skills, but it was not easy to control them alone. After all, it involved the power of the natural order.

Thinking about it this way, Ling was right. They needed to enter the Mythical Kirin form through Mythical Revival. If they wanted to perfectly control the power of a god, they indeed had a long way to go.

"Practice more."

"Try to adapt to the Mythical form as soon as possible."

"Wuu!!!" Eleven nodded excitedly.

Generally speaking, for pets that had just evolved, it was indeed not easy to master new forms.

Not to mention the super form of a Mythical race. Eleven probably had a long time it needed to adapt.

Eleven felt that it had only completed half of the evolution.

Only when it really adapted to the Mythical form could it be considered a complete divine evolution.

At that time, even without Shi Yu's support, it should be able to master quasi-divine skills on its own.

At that time, it would also be the so-called " demigod-level battle power".

"What a pity." Everyone surrounded Eleven. Then, Shi Yu felt that it was a pity.

Because of this evolution, Eleven's armor was completely disintegrated by the Yin Yang Millstone.

Its two armor forms, the Nine Li Armor and the Demon God Armor, were directly gone.

This made Shi Yu a little confused. If he found the corresponding inscription metal again, could it still carve inscription skills?

However, this pity only lasted for a while before Shi Yu and the others heaved a sigh of relief.

Through the regression effect of the Time Fruit, Eleven could still return to the form of the Nine Li and the form of the Demon God Armor. In that case, the problem was not big.

However, these two forms no longer had much meaning compared to Eleven's current Mythical form. Changing back was equivalent to weakening.

With quasi-divine skills, those super skills were not especially attractive to Shi Yu. In that case, he would leave it to fate. At the moment, the most important thing for Shi Yu was to choose which opponent he wanted...

“In the era of Emperor Wu and the others, the Iron-eating Beast that evolved with the meteorite metal was called the Demon God Iron-eating Beast.”

“Then what should your racial name in the form of a Mythical race be called?” Shi Yu touched his chin.

“Wuu...” Eleven turned around casually. Beast Tamer, whatever.

It was happy today. No matter how ugly the name was, it could accept it.

“Wu...”

In the end, Shi Yu gave Eleven’s new race the name [Chaos Panda] and directly abandoned the Iron-eating Beast.

As for Eleven, it was as if it had encountered a bolt from the blue. ‘Bear Cat’? It didn’t understand why a bear like it had become a cat.

“Wuu!!” Eleven was furious.

Then after Teacher Ying evolved, should it change its name to Gem Bear?

The other pets were thinking about what this name... meant.

Could it be that Shi Yu liked cats more than bears? Moreover, ‘Wonton Bear Cat’? did Shi Yu like to eat wontons?

Buggy, who was about to evolve, suddenly felt worried. As expected, the leader shouldn’t have trusted Shi Yu. It was afraid that Shi Yu would give it the racial names of Dumpling Dragon, Bun Dragon, and Ramen Dragon...

....

Eleven sighed. Forget it, forget it. As long as Shi Yu liked it. After everyone recovered from Eleven’s evolution, Shi Yu also started to draw lots.

In the end, Shi Yu drew the [Frost Dragon] name.

Shi Yu, Eleven: Umm...

“Is it not good?” Shi Yu said.

“Sob.” Chaos Eleven nodded.

The power of the Yin Yang Millstone... was definitely not weaker than the move that Teacher Ying used to instantly kill the Green Scaled Dragon.

Shi Yu and Eleven couldn’t say for sure what the outcome would be if this quasi-divine skill, which was enough to instantly kill a top-notch overlord, hit their own people.

Chapter 827: Undersea Prison (2)

827 Undersea Prison (2)

Although Mother Dragon wasn't weak anymore and had finally relied on the totem-level advantage and legendary resources to train the Heavenly Frost Cold Energy to perfection, there was still a risk of serious injuries.

Shi Yu and Eleven silently put the lot back and drew another one. They prayed in their hearts.

[Dragon Palace City Big Son], [Dragon Palace City Big Son], [Dragon Palace City Big Son]...

Although he was very worried that Eleven would end the life of this invincible Golden Dragon Crown Prince he had never met with a quasi-divine skill, it was fine as long as he didn't use a quasi-divine skill. As long as it could guarantee victory, it didn't matter if the opponent was a totem or an invincible overlord.

Things didn't go according to plan.

Shi Yu and Eleven looked at the new lot and fell into deep thought.

[Poison Dragon Totem].

"Why don't we use it?" Shi Yu said.

"Wuu." Eleven lay on Shi Yu's shoulder and looked at the words Poison Dragon Totem on the poker card. It pondered for a moment and nodded.

That worked too.

The totem level was not an ally yet, and as the weakest totem, it was indeed very suitable to test strength.

If he remembered correctly, it should be locked in the underwater prison of Dragon Palace City.

The Poison Dragon Totem was mutated from the power of Yun An's radiation. It should be the weakest totem.

This should be a totem that relied on "resources" to break through.

However, resources were also divided into levels. For example, the legendary resources in Shi Yu's hands were relatively ordinary legendary resources.

As for the nine-element gem used by the gem cat, it should be the top existence among legendary resources.

As for the meteorite radiation used by the Poison Dragon Totem, it was hard to say if it had touched the threshold of legendary resources. It could only be said that the Poison Dragon Totem was lucky and unlucky.

It was lucky enough to become the totem level that countless transcendent life forms dreamed of, but because of this, his consciousness was corroded and he lost its mind.

The only powerful thing about it might be the "radiation poison" that was comparable to Yun An. Although it wasn't as domineering as Yun An, even the overlord doctor of Dragon Palace City couldn't cleanse it. The Immortal Dragon King had to take action.

“I wonder if Eleven’s Yin Yang Millstone can destroy the rules of Yun An’s quasi-divine skill. Since Yun An’s attack can’t be cleansed and healed, can we destroy the power of laws left on the injured through destruction?”

Shi Yu felt that it was hard to say for Yun An, but there was definitely no problem with this Poison Dragon Totem.

Shi Yu gathered the entire team for a discussion and finally decided to take a look at the underwater prison in Dragon Palace City.

“I can help the Poison Dragon Totem cleanse the poison.”

“With the strongest Sea Cleansing Spirit Susu has created so far, it should be enough.”

“If the Poison Dragon Totem is obedient and willing to be a little brother after purification, arrange for it to become the new Dragon King of Dragon Palace City and enter the Dragon God Ruins. Let it get some legendary resources for us.”

“If it’s disobedient, continue to lock it up. Before the world competition, upgrade Chi Tong’s Undead Revival to perfection. Then, kill the Poison Dragon Totem and turn it into an undead puppet.”

Shi Yu’s arrangements could strengthen the team again before the world competition no matter what. He immediately obtained the strong support of Buggy and Chi Tong!

Amazing, amazing ~ ~

The two pets were pleasantly surprised and instantly looked forward to the Poison Dragon Totem.

“But before that,”

Shi Yu’s face was pale. “Baby Ginseng, create a few more sachets. This doesn’t seem to work anymore.”

Damn, the burden Eleven brought after continuous evolution seemed to be even greater.

The strength of the burden was completely greater than the attributes of the feedback.

In this state, he didn’t know if he could continue to add points happily.

Even if it was meditation, it would probably be affected.

“Yi...” Baby Ginseng couldn’t bear to look at it. It was better not to think about a second overlord above his level. It was more reliable to cultivate to level seven as soon as possible.

It was very afraid that it wouldn’t be able to heal Shi Yu in the future, unless the second overlord was Baby Ginseng itself, of course!

“In short, prepare more sachets. Hurry...”

....

Because of Eleven’s evolution, even through a space, most of the Ice Dragon Snow Mountain was almost paralyzed.

Even the monarchs were so frightened that their legs went weak. Fortunately, Shi Yu had learned from Ling's evolution and didn't break through in the city.

Otherwise, it would probably become one of the ten great supernatural incidents of Dong Huang, making the country mistake it for a totem invasion.

During the break, Shi Yu comforted Qi and the others a little to see if anything had happened to the second team. Fortunately, it was nothing serious.

After confirming that everything was appropriate, Shi Yu set off directly. His destination was the underwater prison of Dragon Palace City.

In fact, Shi Yu had long wanted to come to this place. The weakest prisoner here was also at the overlord level. Even at the totem level like the Poison Dragon Totem, there was more than one imprisoned in the underwater prison.

It could be said that both Dragon Palace City and Dong Huang had imprisoned some troublesome and valuable totems here.

As for why they didn't kill them directly, it was because some prisoners were still useful to Dong Huang and Dragon Palace City.

For example, if they caught Yun An in the future, it would definitely be crippled and imprisoned somewhere.

The metal fragments on its body were the stable evolution resources of the Iron-eating Beast. As long as it didn't die and they let it live on panting, it would always be a sustainable resource.

The ones imprisoned in the underwater prison were basically the same. They were either ferocious beasts that wreaked havoc in the East Sea and Dong Huang, or the defeated parties in the last totem battle.

At the same time, it was also a sustainable resource.

Shi Yu had even thought about it. If Chi Tong's Undead Revival point reached transcendent in the future and it could enslave totem-level undead, he would directly come to the underwater prison to kill an almost useless totem. He would make do with it first.

[Unscientific Beast Taming](#)

Chapter 828: Undersea Prison (3)

828 Undersea Prison (3)

In the sky where Dong Huang was flying to the underwater prison, Shi Yu stood on the Wind Immortal Sword that Ling had transformed into. With his hands behind his back, he said with a thoughtful expression,

"The underwater prison is known as an iron wall. It's guarded by the Golden Dragon King of Dragon Palace City and reinforced by many generations of Dragon Gods. It's known that even demigods can't break through it. If we fight there, it shouldn't affect us much."

“On the other hand, fighting in the Dragon Palace mystic realm might cause a huge impact. Overall, it’s indeed the Poison Dragon Totem that we should fight.”

...

In the Deep Sea Prison, the guardian was the Golden Dragon King of Dragon Palace City. In Dragon Palace City, there were a total of three top-notch totems, namely the Thunder Dragon King, the Space Dragon King, and the Golden Dragon King. The Sea Dragon King happened to be ranked in a neither high nor low position, in the middle of the original seven Dragon Kings.

Among them, the eldest prince, the Nine-clawed Golden Dragon, was the son of the Golden Dragon King.

The Deep Sea Prison was even lower than Dragon Palace City. To reach here, one had to first pass through the Dragon Palace mystic realm.

Because of this, with the suppression of generations of Dragon Palace City, there was indeed no problem coming out from the Deep Sea Prison.

After Shi Yu entered the ocean, he changed his transportation. Before heading to the underwater prison, he first arrived at the Dragon Palace mystic realm and found Mother Dragon.

As the minister of the Environmental Protection Department and an honorary general of Dragon Palace City, Shi Yu naturally had the qualifications to enter the underwater prison. However, he was only qualified to enter.

If he wanted to execute a prisoner, take a prisoner away, and release a prisoner, three or more Dragon Kings or the Dragon God had to nod. Shi Yu definitely couldn’t do it alone.

Therefore, before he went to find the Poison Dragon Totem, he planned to issue the joint ruling of the Ice Dragon King and the others.

After entering the Dragon Palace mystic realm, Shi Yu naturally went very smoothly. He directly came to find Ice Dragon.

“Kid, why are you here again!!!”

In the Ice Dragon Palace, Ice Dragon gritted its teeth in anger. It didn’t like Shi Yu very much.

It had finally been convinced by Shi Yu to follow it to Tingxiang. It originally thought that Shi Yu would bring it to crack a few ruins and obtain some treasures, but in the end, there was nothing.

Shi Yu only stayed for a few days before abducting a little elf and returning to the country, leaving it, a lonely old dragon, to preside over the exchange competition.

Damn Shi Yu.

In the future, if it followed Shi Yu out again, it would stop being a dragon!

If it weren’t for the fact that Lu Qingyi had given it a gift after the incident, Ice Dragon felt that it would have gone for nothing.

“Mother Dragon, a good thing,” Shi Yu said.

“Wuu!!!” Eleven, who was on Shi Yu’s shoulder, also said, “Good thing!!!”

Huh?

The frost dragon, which had shrunk to two meters tall and could communicate normally with Shi Yu, suddenly looked at Eleven on Shi Yu’s shoulder with a serious expression and was a little concerned.

It looked at Eleven’s black eyes with a circle of white marks and its heart skipped a beat. It actually felt a sense of danger.

Generally speaking, relatively powerful overlords were a little sensitive to powerful lives, let alone Ice Dragon, who had participated in the totem battle. Although it was only a cooling mount for Mu Huiyin most of the time, Ice Dragon’s knowledge was not weak at all.

At this moment, the frost dragon actually sensed danger of the same level on this little Iron-eating Beast.

What was going on?

“Why did the color of its eyes change back?” Ice Dragon said.

Ordinary Iron-eating Beasts’ eyes were indeed black, and Shi Yu’s had long turned blue because of the evolution of lightning and becoming a royal. And now, Ice Dragon realized that it had actually turned black again.

“And its aura... has reached the overlord level??”

Ice Dragon couldn’t believe it.

“You broke through to the legend level?”

Shi Yu smiled and said, “No, no, I just let it break through to overlord in advance. Isn’t the world competition about to begin? I thought that an overlord in the team was more reliable. My physique is not bad, I can still take it.”

“Because it broke through to overlord and evolved again, its form changed a little.”

Ice Dragon was shocked and doubtful. It evolved again. Did it evolve with the meteorite fragment?

No wonder the aura was so terrifying.

Ice Dragon paused and was silent for a moment. It was really becoming more and more cowardly. Damn it, it actually cared about an overlord, and it was an overlord contracted by a level-six telepathy Beast Tamer above its level.

It cursed, “What good thing? Tell me quickly.”

Shi Yu said, “My Susu has received the inheritance of the Blue Sea Sprite and mastered the strongest cleansing skill, the Sea Cleansing Spirit. I think the current us should be able to complete the cleansing of the Poison Dragon Totem.”

“Huh?” Ice Dragon was stunned.

“After purification, the Poison Dragon Totem is a totem-level dragon-element life form. It can enter the Dragon God Ruins. At that time, it will take out two or three legendary resources and we’ll split them. Don’t you think it’s a good thing!”

“Ning!” Susu also popped its head out of Shi Yu’s pocket.

It expressed that it had already taken off.

Ice Dragon was stunned. It leaned back strategically, its eyes serious and serious.

Shi Yu naturally couldn’t take all of the Poison Dragon Totem. After all, the Poison Dragon Totem was captured by the Sea Dragon King and the Ice Dragon King together. Shi Yu didn’t want to take the majority. He just had to drink some soup. The meat was for these big shots to eat.

“You brat...” Ice Dragon’s expression immediately returned to its doting smile. It stretched out its dragon claws and pointed at Shi Yu.

Although it didn’t know why the monarch-level Susu had received the power of the sea that could only be inherited at the overlord level, it didn’t matter.

Ice Dragon was instantly excited. It felt that it could at least obtain a legendary resource this time.

It immediately found Shi Yu pleasing to the eye again.

Not bad, not bad.

“I understand. I’ll go find the Sea Dragon King and the others now.”

Ice Dragon roared. It also knew that dealing with the prison totem required the nod of the three Dragon Kings. Don’t worry, leave it to it!

At that time, everyone would go together and be Shi Yu’s bodyguard. They would ensure that Shi Yu would not be injured during the cleansing process.

Chapter 829: Chaotic Panda and Yin Yang Millstone

829 Chaotic and Yin Yang Millstone

Soon.

The frost dragon found the Sea Dragon King and the Immortal Dragon King.

Of these two, one had arrested the Poison Dragon Totem with it, and the other had cleansed the injured in the entire Dragon Palace City. They were both Dragon Kings who played a key role in the Poison Dragon incident.

At this moment, after the Sea Dragon King and the Immortal Dragon King learned that Susu had accepted the Blue Sea inheritance, they were also extremely shocked.

At the same time, there was huge confusion and more confusion.

“Shi Yu, are you sure that Lord Blue Sea Sprite has already accepted the inheritance??”

The Sea Dragon King looked at the Water Slime on Shi Yu’s shoulder and said with a doubtful expression.

Why did it feel that Lord Blue Sea Sprite’s reincarnation was still at the monarch level?

It didn’t feel that he had become stronger.

Moreover, the various Dragon Kings expected that after the Blue Sea Sprite Reincarnation accepted the inheritance, it should leave Shi Yu...

Why didn’t either situation make sense now?

“Something happened, but it definitely accepted the inheritance.” Shi Yu smiled.

The Immortal Dragon King was speechless. Was this a trick...

Moreover...

“Even Lord Blue Sea Sprite...” The Sea Sprite Dragon Immortal Dragon King also had a puzzled expression.

Monarch level.

Even the Blue Sea Sprite couldn’t be stronger than its own cleansing ability at the monarch level, right?

It couldn’t even cleanse the Poison Dragon Totem...

After all, it had mastered a cleansing skill that had been developed to perfect proficiency, and it was at the totem level!

“Ning!!!”

Seeing that these Dragon Kings suspected it, Susu snorted and curled its lips. Wait and see.

“Don’t worry.”

Shi Yu smiled, reassuring the Dragon Kings.

Not to mention that Susu was only at the monarch level now, even if it was only at the Awakening level, as long as it had the Blue Sea Contract and the Sea Cleansing Spirit, its cleansing power wouldn’t be weak.

The Blue Sea Contract had infinite energy. Even demigods didn’t have as much energy as it.

The more ocean energy the Sea Cleansing Spirit provided, the stronger the cleansing power.

In other words, the combination of these two skills had almost no upper limit to its cleansing power. Only “time” determined its cleansing power.

The proficiency of these two skills and its growth level could only allow it to condense stronger cleansing power in a shorter period of time.

At the moment, Susu had already condensed an extremely strong Sea Cleansing Spirit through the continuous creation of the Time Fruit and a month. The effect was even stronger than a transcendent cleansing skill.

This Sea Cleansing Spirit was already comparable to a totem-level attack. If nothing went wrong, it was easy to brainwash an overlord.

At the moment, in his team, probably only the evolved Eleven could resist the brainwashing of this Sea Cleansing Spirit.

However, just like self-destruction, this move was also banned by Shi Yu. After all, it was not easy to create one. It had to be used on the edge.

For example, supporting points-adding, cleansing the Poison Dragon Totem in exchange for resources, or saving it for the World Tournament.

There was still a period of time before the World Tournament, enough to support Susu to create another similar one, so this could be used to cleanse the Poison Dragon Totem in exchange for other resources.

“In short, it’s so confident. Let them give it a try.” The Ice Dragon King couldn’t wait anymore. It trusted Shi Yu the most.

“Alright then, let’s give it a try. In any case, with us around, the Poison Dragon Totem can’t cause any trouble.” When the Sea Dragon King and the Immortal Dragon King saw this, they didn’t say anything else. They nodded and decided to go together.

After all, the Poison Dragon was at the totem level and very dangerous. If Shi Yu went to approach and cleanse it, he would probably be in danger without the protection of more than two totems.

...

“Who is it!!!”

A moment later, Shi Yu and the others arrived at the deep sea prison mystic realm below the Dragon Palace mystic realm.

Shi Yu stood on the huge Water Slime and turned into a Slime Knight. He came with the three Dragon Kings.

At the entrance of the mystic realm, just as they arrived, a team of humanoid transcendent creatures appeared and stopped them.

More than ten humanoid creatures, the Sea Yaksha, were green like toad demons.

They were all at the monarch level and held fork-type weapons.

In the lead was a female Sea Yaksha. Her form was very different from the others, and her appearance was very sexy.

< Name > Yaksha King

[Attributes]: Water

[Race Level]: Low-level overlord

[Level of Growth]: Overlord

Energy Points: 72,330,000

“Eh? Minister Shi Yu?”

“There’s also the Ice Dragon King, the Sea Dragon King, and Lord Immortal Dragon King?”

This yaksha with a fiery figure and a whip had pink scales on its waist, legs, wrists, chest, and face, but its appearance was still moving. Apart from the scales, the other party’s greatest characteristics were the huge curved goat horns and sea snake-like hair.

She was immediately surprised to see the big shots coming.

The other ordinary Yakshas were abnormally shocked. This was the first time they had seen so many big shots traveling together.

“Yinlin.” Seeing the leader of this team of Sea Protecting Yakshas, the Sea Dragon King said, “We want to enter the underwater prison to see the Poison Dragon Totem. Inform the Golden Dragon King.”

Shi Yu, the Ice Dragon King, and the Immortal Dragon King smiled at her.

Yaksha King Ying Lin was the sister of the Yaksha General in Dragon Palace City. She was a top-notch overlord, one of the four guardian overlords of the underwater prison.

“Yes, Lord Sea Dragon King!” The leading female yaksha was stunned before nodding!

In the depths of the underwater prison.

The Golden Dragon King, who was in charge of guarding the underwater prison, slowly opened its golden-green eyes. Its body was strong, and golden scales covered its entire body. Its dragon claws were strong, and after it got up and flew in the sky, its insufferable dignity was revealed.

[Unscientific Beast Taming](#)

Chapter 830: Chaotic Panda and Yin Yang Millstone (2)

830 Chaotic and Yin Yang Millstone (2)

“What... are you doing!”

It leaped out and instantly circled outside the underwater prison, looking at the Dragon Kings in front of the Cherry Scaled overlord that had summoned it.

Among the original seven Dragon Kings, the Golden Dragon King, the Space Dragon King, and the Thunder Dragon King were all cultivated by the Dragon God after she destroyed the previous Dragon God and her trusted aides. As for the Sea Dragon King and the Ice Dragon King, they naturally joined later.

Therefore, even the Sea Dragon King greeted the Golden Dragon respectfully, “Big Brother Golden Dragon, we’re here this time to cleanse the Poison Dragon Totem!”

The Golden Dragon King’s gaze swept across the Sea Dragon King, the Immortal Dragon King, the Ice Dragon King, and Shi Yu. “I thought you were here to find something to eat again.”

The last time the Sea Dragon King and the others came to the underwater prison, it was to eat the Vortex Demon Beast. This time, it thought that they were going to eat the new black goat.

“However, why did you bring him here?” The Golden Dragon King looked at Shi Yu. He knew Shi Yu’s identity, but this was the first time he had seen this so-called minister of the Environmental Protection Department.

The Immortal Dragon King said, “Because this time, Shi Yu is the main force of cleansing. We’re just bodyguards.”

“Oh?” The Golden Dragon King was stunned and looked at Shi Yu, who nodded.

“Lord Golden Dragon King, I wanted to come this time.”

“I understand. Then I’ll bring you there.”

The Poison Dragon Totem wasn’t a difficult prisoner. With the three Dragon Kings leading the team, it couldn’t cause any trouble.

After the Golden Dragon King appeared, Shi Yu and the others began to advance into the mystic realm under the lead of the Golden Dragon King.

The underwater prison was a multi-level mystic realm.

The deeper the spatial layer, the higher the spatial strength.

As it was a special spatial mystic realm, in order to ensure spatial stability, all spatial skills were forbidden here.

Therefore, Shi Yu and the others could only slowly walk and fly.

“Kid.” The Golden Dragon King led the way and said, “Don’t be afraid. Although the murderous aura here is a little stronger, they can’t come out.”

“We haven’t even reached the first level and you’re already like this. When we reach the fourth level, won’t the aura of those totems scare you so much that you pee your pants?”

Shi Yu: “Senior Golden Dragon King, I’m not afraid.”

The Golden Dragon King chuckled. On its huge golden divine dragon body, its dragon eyes said disdainfully, “Your face is pale from fright. Do you think I can’t see it?”

Shi Yu and Susu: ...

“I wasn’t scared white. My body is just a little weak.” Shi Yu was speechless.

The Sea Dragon King and the others were not surprised. Although Shi Yu looked even more weak today, he usually did this.

The Ice Dragon King said, "He's only weakened because he contracted an overlord above its level in preparation for the world competition. This little battle array shouldn't be able to scare this kid."

"Oh?" The Golden Dragon King was stunned. So that was the case. It said, "A level-six Beast Tamer contracted an overlord above his level? You guys are pretty hardworking for the World Tournament."

"But from the looks of it, you can't. Although Dragon Palace City didn't participate, from the situation of the various totem countries, an overlord is at most an admission ticket!"

Overlords were only admission tickets. Top-notch overlords barely had the qualifications to fight. Only invincible overlords could really compete for the championship. Although Dragon Palace City didn't plan to participate in the world competition, the Golden Dragon King knew the situation of the world competition very well.

In its opinion, even if Shi Yu contracted an overlord above his level, he would only be crushed by an even stronger overlord.

It was better to use the relationship with Dragon Palace City to cultivate well in the various mystic realms of the Dragon Palace.

"I know, but the World Tournament has been held for so many years. It would be a pity to miss it," Shi Yu said.

"That's true, but if you were born five years earlier and came to work for me for five years, you might have a place in the World Tournament," the Golden Dragon King said.

"My good-for-nothing son only became so strong after training in the underwater prison for many years!"

"After the world competition ends, I'll definitely come over to train for a period of time," Shi Yu said.

The space of the underwater prison was divided into six levels, corresponding to ordinary overlords, top-notch overlords, invincible overlords (quasi totems), ordinary totems, top-notch totems, and totem half-gods.

Among them, the Poison Dragon Totem, the Black Goat Totem, and the Vortex Totem were basically locked on the fourth level.

It was said that even demigods couldn't break through the fourth level and above. The spatial strength was comparable to a Mythical Sealed Ruins, and it was easy to lock totems.

From the fifth level onwards, there were actually no prisoners. The ones imprisoned were basically the defeated top-notch totems in the last totem battle. At the moment, there was not a single life on the sixth level.

The reason why Shi Yu said that was because there were really many totems here. There were definitely many rare skills on him. After all, he had already reached the level of developing skills himself. He had to have some trump cards.

Working in the underwater prison, the mission was not as simple as patrolling. Interrogating totems, dissecting totem materials, and suppressing totems were all extremely dangerous things.

Under the arrangements of the Golden Dragon King, the eldest prince of Dragon Palace City had trained here for more than ten years. It was the key for it to become an invincible overlord. After all, it had a bunch of ferocious overlords as sparring partners every day. In addition, it didn't lack resources. It was difficult not to be strong. Of course, if it were the little white dragon, it definitely wouldn't dare to come to such a place.

"Your mentality is not bad. Brother Sea Dragon, when will you send your little white dragon in too?" the Golden Dragon King said.

The Sea Dragon King sighed. Stop talking.

That useless trash!

It really regretted not encouraging Shi Yu to contract the little white dragon back then.
