

Beast 861

Unscientific Beast Taming

Chapter 861: Kingdom of Glory, Rongguang (2)

"Wuu?"

Eleven looked doubtful and condensed a huge metal sword for Buggy to see.

Buggy decisively wanted to prove itself. It condensed a worm silk and cut over, but in the next second, the worm silk only left a white mark on the black sword. This stunned Buggy. Then, it shouted angrily that Eleven was a sore loser.

How was this low-level skill Hardening?

This was clearly using superalloy to harden the fusion of countless hardenings!

Using a transcendent-level super skill to bully its levelless skill, wasn't it too much!

At the moment, Eleven's skills, even the quasi-divine skill Yin Yang Millstone, were born from divine-level superalloy.

If not for this skill, it definitely wouldn't have been able to achieve quasi-divine skills and Mythical races.

Therefore, Buggy immediately looked angry.

Damn it, if its evolution skill was also transcendent, it might be able to become a Mythical race.

"(｡◕ˇ▽ˇ◕)Heh." Eleven expressed that Buggy couldn't do it.

When it was free, it should come and 1vs1 its physique!

"Yi! (As for the Green Dragon, won't it be better to use the Imagination Domain to create an environment suitable for the growth of plants?)" Baby Ginseng also asked.

Its plant control proficiency had been raised to above perfection and was moving towards transcendent. As its ability increased, Baby Ginseng had more and more ideas recently. If it could have the gardener god, Green Dragon, as its assistant, would definitely help it improve at lightning speed.

Buggy: "?"

Could they ask some normal questions? Green Dragon wasn't a gardener!!

Buggy turned around and looked at Chi Tong, Susu, and Ling. Eleven and Baby Ginseng were too unfriendly.

"Ji, Ji."

At this moment, it patted its chest and expressed that it would thank Susu and Ling well.

After all, these two had helped it a lot in evolution.

It would try to help condense Susu's Star Sea and Milky Way Domain.

On Ling's side, it would also do its best to work with stronger abilities to assist in the research of the mechanical phantom beast system.

"Ning! ~"

"Yeah."

Susu and Ling nodded in satisfaction.

"Ji." However, at this moment, Buggy realized that Chi Tong's expression was a little depressed. It was stunned for a moment and couldn't help but comfort it. "Ji. (By the way, when my power of faith increases and the proficiency of the Dragon Raising Skill increases to perfect reincarnation, can you also turn me into a green dragon undead through undead revival? At that time, the green dragon undead and the reincarnation main body will be invincible! I'm not as timid as Baby Ginseng.)"

Baby Ginseng: "?"

So they were still thinking about using the time mark to create the undead ginseng baby!

In addition, was the Faith Reincarnation Skill for it to cheat?!

Its believers would cry to death!

"Mimi." Chi Tong was worried because it calculated that it seemed to be the only one in the team who had never evolved?

In essence, the Spirit Release skill was still to unseal the power of its bloodline, like atavism, not evolution. It was thinking when it could also undergo evolution like Eleven and Buggy.

"(*+_+*) ~ Wu wu wu." As it thought about it, Chi Tong started "crying". It was so difficult, it was so bitter. Of course, it was basically impossible for the current Chi Tong to waver its heart and emotions over such a small matter. However, after seeing Eleven, Buggy, and even Baby Ginseng's invincible evolution, Chi Tong was a little envious.

At that moment, it was purely for show. It looked like a drama queen, pretending to be pitiful.

Shi Yu, who was meditating: "..."

"I understand. I'll arrange it after the world competition," Shi Yu promised.

"Mi! (Yay!)"

Shi Yu sighed. Unfortunately, he had never explored any Vermillion Bird Ruins or Phoenix Ruins with extraordinary power in his previous life. Otherwise, he would also want to help Chi Tong evolve.

Shi Yu knew that Eleven and Buggy could successfully evolve because of their mental domains. If they left this, it might be an ordinary racial optimization. There would be no huge increase.

There were no quasi-divine skills or faith skills.

However, in theory, Chi Tong's Interlocking Sword also had a chance to penetrate the power of Yin and Yang. After all, everything had two sides of Yin and Yang... In fact, compared to the Phoenix and the

Vermillion Bird, Shi Yu still preferred the image of the "sword". After all, he could also use it after possessing it.

If he didn't like it, he wouldn't have swung a wooden sword around during the vocation assessment.

Therefore, if there was a chance to help Chi Tong evolve in the future, Shi Yu planned to revolve around the concept of the sword and not the Sun God Phoenix race. With the successful cases of Eleven and Buggy, his thoughts became bold. What Vermillion Bird Sword and Xuanyuan Sword? He just had to bet.

He would directly use skill fusion to bet and fuse a quasi-divine skill, directly jumping to the Mythical race.

...

Rongguang, a country that believed in light.

Apart from the [Beast Tamer Association] under the alliance system, Rongguang also had two major battle power institutions. Together with the [Association], they were known as the three major battle power institutions of Rongguang!

These three institutions were respectively the [Beast Tamer Association], the [Glorious Knights Order], and the [Divine Church of Light]. The latter two were all related to the light element.

At the moment, Rongguang could be said to be extraordinarily lively.

As the country closest to Inatella, before the World Tournament began, the Beast Tamers from the other six countries who participated gradually arrived.

Shi Yu and the others were no exception. After completing their evolution in the starry sky, their direct destination was Rongguang.

A spaceship that descended from the starry sky quickly descended outside Rongguang.

Even with Rongguang's technological power, it didn't detect this uninvited guest from outer space approaching its country at a high speed.

[Unscientific Beast Taming](#)

Chapter 862: Glory Kingdom of Light (3)

"Yes?"

Rongguang, the legendary hall.

[Rongguang Hero King] was currently receiving the legendary Beast Tamers [Tingxiang Elven Empress], [Seven Islands Valkyrie], and [Ming Hua Death God].

With the World Tournament imminent, legends of various countries appeared one after another. At this moment, they were gathered in Rongguang.

The next seven legendaries still had to supervise the archeological Conference. The two mythicals and many legendary resources in the alliance bank could only be distributed with their approval.

Although Rongguang's technological methods didn't detect a terrifying spaceship descending from the sky, it still couldn't hide from the Rongguang Hero King's perception. This seemingly old but extremely burly man in white armor immediately looked at the sky.

"Everyone, the legendary of Dong Huang has also arrived. Do you want to meet him together?" the Rongguang Hero King suggested.

"The Divine Source has arrived? But this old man actually used a spaceship to travel?" The Elven Empress of Tingxiang was speechless.

"Dong Huang." The Seven Islands Valkyrie, who was wearing a battle-type kimono and had long black hair, spoke in an unfriendly tone.

After being extorted by Dong Huang and Dragon Palace City, she had never been very happy since she woke up. Her face, which was not inferior to the Elven Empress, was filled with hostility. As a mechanical cyborg, her appearance was the youngest among the legends.

"This way, we're still short of Xue Yuan and Shen Feng," an old man with silver curly hair wearing special purple clothes and a hunched body said lifelessly. A portion of his clothes was tied with a white bandage.

"Forget it."

Seeing that these guys had no intention of welcoming the legendary of Dong Huang, the Rongguang Hero King shook his head. In that case, he wouldn't go either. He would directly call the legendary of Dong Huang over.

...

"Oh, have you noticed me?" At this moment, in the spaceship that was still descending quickly, the mechanical legendary muttered to himself.

He had already received the Rongguang Hero King's voice transmission that crossed the void, inviting him to meet directly.

"What's wrong, Senior Divine Source?" In the spaceship, Shi Yu, who had already prepared to step into the Kingdom of Glory, was studying the parchment.

After arriving at Rongguang, the first thing he did was to run to the hatching altar left behind by the Space Emperor in Rongguang to assist Ling in studying the final starlight.

"It's nothing. I originally wanted to stop outside the border of Rongguang and enter normally, but now that I've been discovered by Rongguang's legendary, he invited me to go directly to the capital. In that case, let's directly descend there."

"Alright, then let's go over directly. Hurry up and meet President Lin and the others," Shi Yu said in anticipation. In short, the mechanical legendary still didn't care. He still had to talk to President Lin about gathering the power of faith!

The mechanical legendary nodded. Soon, Shi Yu and the others crossed the void and descended in a rarely populated suburb of Rongguang Capital.

The huge spaceship disappeared. Shi Yu got down from it. The round robot-shaped red eye of the mechanical legendary looked into the distance.

"Next, contact President Lin and the others."

"I want to see the legendary of Rongguang."

"Alright." Shi Yu nodded.

At this moment, the mechanical legendary was in a good mood. The meeting of the legends of the seven countries was like a parent-teacher meeting. At that moment, the mechanical legendary had already judged that it was very likely that his 'child' would get first place in the exam. His mood would naturally be a little strange.

He had already begun to look forward to the shocked expressions of the legends of the other six countries when they saw the appearance of a super genius like Shi Yu in Dong Huang.

Then, the mechanical legendary disappeared in the blink of an eye, leaving Shi Yu sighing on the spot.

This guy was really not worried that he would encounter danger.

"Let's go." Shi Yu hummed two nursery rhymes and took out his communication device. He was also in a very good mood as he went to meet President Lin, Principal Feng, and the others first.

Rongguang Capital.

President Lin was discussing the archeological Conference in two days with the president of the Rongguang Association and the president of the multinational associations. At this moment, although he wanted to communicate with Shi Yu as soon as possible, he really couldn't leave.

After Shi Yu learned of it, he decisively came to look for Principal Feng, Senior Lu, and the others.

The buildings in the capital of Rongguang were mainly white. The temporary address of the Dong Huang team was also arranged in a beautiful white building complex.

"You're finally here." Principal Feng still didn't know what Shi Yu had gone to do. In any case, it hadn't been a day or two since Shi Yu liked to run around. When he saw Shi Yu, Principal Feng immediately said, "How's the preparation for the archeological Conference?"

"It's about time. When the time comes, I'll just participate directly and fight for a Mythical resource!" Shi Yu smiled and said, "Principal Feng, where's Senior Lu?"

"She went to Rongguang to 'visit' everywhere."

"She must have gone to eat with Teacher Ying." Shi Yu looked doubtful.

"In that case, I won't delay any longer. Then I'll directly find the Starry Sky Hatching Altar," Shi Yu immediately said after greeting Principal Feng.

Principal Feng had a headache. Shi Yu was really a busy person, but it was also a good thing.

"Alright, it's just that Rongguang has been mixed with good and bad people recently. At this moment, there are more than a hundred legend Beast Tamers gathered in Rongguang Capital alone. Stop it, don't cause any trouble."

"How could that be? I'm such an honest person," Shi Yu said seriously.

"If you were an honest person, so many ruins wouldn't have cracked!"

....

Rongguang Legendary Hall.

Upon the invitation of the Rongguang Hero King, the mechanical legend, Divine Source, arrived immediately. After he arrived, the legends present also looked at Divine Source's temporary body in silence.

Unscientific Beast Taming

Chapter 863: Kingdom of Glory, Rongguang (4)

However, no matter what this person turned into, many legends present didn't dare to underestimate him.

"Divine Source!!!"

Along with the mechanical legendary came the legendary of Xue Yuan, Snowfield. He pushed the door open and entered, not caring about the other legends in the room. "That person in the starry sky is indeed your Dong Huang's Beast Tamer, right?"

"What starry sky?" In the room, the Elven Empress smiled and said, "You guys went to explore the starry sky again? I was wondering why Divine Source drove the spaceship over."

The Snowfield Battle God said, "Then you have to ask Divine Source. Dong Huang just caused quite a commotion in the Silver Ring Belt."

"You're pretty well-informed," Divine Source said indifferently.

"What happened in the starry sky?" the Rongguang Hero King asked.

"Our Beast Tamer carried out a mission in the Silver Ring Belt and discovered a Beast Tamer in a spacesuit controlling a green dragon in the starry sky."

"'Green Dragon', the Green Dragon you're talking about, do you mean a green dragon, or..." The Seven Islands Valkyrie glanced at him.

"The Four Spirits of Heaven, 'Green Dragon', that legendary creature. If nothing goes wrong, your Dong Huang should have cultivated a creature extremely similar to the Green Dragon, right? It can even mobilize the power of faith related to the Green Dragon."

"What!" The expression of the Seven Islands Valkyrie changed. Among the seven countries, the two countries that knew the Green Dragon the best were definitely Dong Huang and the Seven Islands that were most affected by Dong Huang's culture.

At this moment, when she heard that Dong Huang had even evolved into a conceptual divine beast like the Green Dragon, the Seven Islands Valkyrie was immediately stunned.

To be able to mobilize the power of faith of the Green Dragon, in terms of potential, the weakest version of this was at least at the demigod level.

It was no wonder that the legendary of Snowfield was so excited.

There were also many Beast Tamers on the Seven Islands and many transcendent creatures that tried to evolve the Green Dragon, but none of them succeeded.

How did Dong Huang do it? How did it mobilize the power of faith of the conceptual god?

Many legends instantly looked at the divine source.

"It's not that exaggerated. It's just closer to the Green Dragon," the mechanical legendary said calmly.

It was just a quasi Mythical race that could casually summon a few meteorites. It wasn't worth paying attention to!

After all, that guy still had two Mythical races in the team, as well as the Blue Sea Sprite that was not inferior to the Green Dragon.

Calm down, calm down.

"It's actually true?" The Elven Empress was stunned. Then, she felt stifled. How lucky was Dong Huang!

She recalled Shi Yu, who had contracted a Mythical race, the Wind Kirin.

"Who is it?" Vader asked.

Legends like the Rongguang Hero King and the Ming Hua Death God looked at the Dong Huang mechanical legendary and wanted to ask who it was, which Beast Tamer's pet it was, or if it was personally cultivated by a member of Dragon Palace City or Divine Source.

This was an achievement that had never been achieved in the legends of Dong Huang. In this generation, someone actually did it?

However, Divine Source couldn't be bothered to tell them directly. Instead, it said to the Snowfield Battle God, "Speaking of which, why did your Snowfield run to the starry sky again?"

The Snowfield Battle God sat on the sofa and said, "Stop changing the topic."

"You don't have to say to know that it's either archeology or training," Divine Source said.

"Both, right? However, archeology in the starry sky... Looks like your Xue Yuan is determined to get the Mythical resources of the Alliance," the mummy-like short old man said with a smile.

"Which one does Xue Yuan fancy? There are only three Mythical resources left in the alliance, right? When the time comes, will we choose two out of three?"

"Doesn't that mean that whoever chooses first will benefit?" the Elven Empress said.

Mythical resources.

It was impressive, but not impressive.

If the legendary resources cultivated overlords by 100% and totems by 10%...

Then the Mythical resource was 99% when it came to cultivating to totem level.

However, being the remaining Mythical resources left in the Alliance, it was definitely not a top-notch Mythical resource like the Undying Fruit.

Otherwise, it would have long been schemed away by the various countries at that time.

What was left were some Mythical resources with relatively harsh conditions.

< Name > Heart of Eternal Frost

[Attributes]: Ice

< Introduction > It's an ice heart that contains the power of the ice-element law. It can freeze the flow of life, but the user can't revive from the eternal freeze before comprehending the ice law.

This was a Mythical resource that could make one almost "eternal". It could make one fall into an eternal frozen state through the Eternal Frozen Heart. In this state, one's life wouldn't be lost, and it was equivalent to a different kind of eternal life. Moreover, one could comprehend the law of ice during this process and become an ice-element demigod.

It looked like a very top-notch Mythical resource, but the conditions to use it were extremely harsh. This was because if one couldn't comprehend the Ice Law, it was equivalent to completely dying and forever being unable to break through the seal.

This was not the only Mythical resource. It came from the snow land in the extreme north. 2000 years ago, a top-notch totem used another Eternal Frozen Heart. Unfortunately, until now, that top-notch ice-element totem had yet to break through the seal. Its race had already been extinct, and the era had already changed, but it could only sleep in the ice.

It could be said that using this resource required great patience. It was equivalent to directly sleeping for thousands of years. When the user woke up, the seas and lands would be different already.

...

< Name > Soul Pearl

[Attributes]: Undead

< Introduction > It's a wisp of soul from the Mythical Era. It's in a deep sleep. Its energy level has maintained at level ten Mythical until now.

The second resource was even more scammy than the first Mythical resource. The first resource at least let the user see hope of becoming a demigod, but this one was purely scamming.

[Unscientific Beast Taming](#)

Chapter 864: Kingdom of Glory, Rongguang (5)

Firstly, one didn't know if the remaining soul in the pearl was friend or foe. Even if one purely treated it as a resource and prepared to devour the soul with the huge soul power as a strengthening resource, one had to be wary of the remnant soul inside that might counterattack. It could be said to be extremely dangerous.

Although devouring such a huge soul power was basically not a problem to reach the totem level, there was also a risk of being possessed.

...

< Name > World Tree Fruit

[Attributes]: Wood

< Introduction > It's the fruit of the World Tree. It increases comprehension.

Among the three resources, the only one that wasn't scammy was the World Tree Fruit. This was a gift from the World Tree to the Seven Nation Alliance in the last World Tournament and had been preserved until now.

It was similar to the blessing effect of the World Tree. It could increase the pet's comprehension and allow a pet to train a super skill to transcendent proficiency in an extremely short period of time.

It could be said that eating this fruit could also let one become a totem, and it would be a totem that was purely cultivated by oneself. Its battle power would be very strong.

...

If nothing went wrong, if the seven countries could choose resources, they would definitely want the World Tree Fruit. After all, this was the most stable and had a wide range of applications.

Similarly...

The legendary resources stored in the alliance were more or less problematic. Otherwise, they wouldn't have been left until now.

However, although there was a problem, it was still a Mythical resource. As long as they didn't pay a huge price, everyone wanted it.

...

"It's in the capital. Sigh, although it's also a suburb."

At this moment, Shi Yu didn't know if he should be happy or sad.

At this moment, he had already arrived near the designated location of the hatching blueprint.

Rongguang, the Heavenly Fox, the Seven Islands, and Tingxiang. Among the four countries, Tingxiang and the Seven Islands had locations that were isolated. There were few people, so they casually went over.

As for the Heavenly Fox Nation, it was very difficult to deal with in the nest of overlord-level creatures. As for Rongguang, it was probably even harder to deal with in Rongguang Capital.

Shi Yu and the others descended in the east of the capital of Rongguang. Shi Yu passed through the center of the capital and arrived in the west.

Soon, Shi Yu arrived outside the huge family courtyard called the "White Rose Family".

The map told him that the last hatching altar to hatch the Space Beast Egg might be inside.

Tsk.

However, after investigating outside the courtyard for a moment, Shi Yu surprisingly discovered that this legendary White Rose family was really not simple. It was actually passed down from a thousand years ago.

[The White Rose family's talent is 'White Thunder'. Hundreds of years ago, the princess of the family fell in love with the Space Emperor of Dong Huang and married from afar to become the 19th concubine of the Space Emperor... In hundreds of years, the White Rose family didn't decline and was glorious. Even now, it's still a huge monster that can still produce several legends.]

It was actually a family that had a marriage alliance with the Dong Huang Emperor family in ancient times.

The Space Emperor must have established the Starry Sky Altar here at that time.

"Forget it, I'll just visit directly and get straight to the point. As long as the altar is still around, there's definitely a way to use it. If the altar isn't around, then it's not around anymore. In any case, the altar in Tingxiang isn't around either. At most, Ling's research mission would be a little heavier..."

It was...

White Thunder talent?

It was referring to the White Thunder skill.

Why did Shi Yu feel that it was so familiar? Had he encountered a Beast Tamer with similar talent somewhere?

His expression gradually became strange.

"Who are you?" Just as Shi Yu thought of a possibility, a female voice came from behind. He immediately turned around and saw a man and a woman walking over.

The woman was in her twenties. Her long golden hair was combed into a ponytail. She was wearing a white knight suit with golden patterns on it. There was a knight sword at her waist.

The man was about 20 years old and was also wearing a similar knight suit. Shi Yu was not unfamiliar with this suit. It was the battle suit of the Knights of Glory. The Knights of Glory was similar to Dong Huang's Beast Tamer Troops, but the organization was even looser...

At this moment, when he saw the man and woman, Shi Yu sighed in his heart. As expected.

"You, you, you..." At this moment, the short-haired young man in his twenties looked at Shi Yu, who was wearing a white casual suit with an iron-eating beast pattern, and widened his eyes.

"You're Fu Andi," Shi Yu said.

He was wondering why the White Thunder Talent was so familiar. Wasn't this the Beast Taming Talent of the Rongguang Beast Tamer who went to Ancient Capital University to challenge a year ago?

The other party's father was a member of the last Dong Huang World Tournament, but because his wife was from Rongguang, he settled here.

It was rare for this Fu Andi to follow his father back to Dong Huang. In the end, before he could warm up, he was beaten up by Shi Yu and Eleven.

It reminded Shi Yu of the book "A friend from afar must first suffer his willpower."

"No, my name is Fu Dian!!!" The short-haired young man said angrily.

This guy was casually wrongly remembering other people's names!

"Is it someone you know?" The tall woman in the knight suit looked at him.

"Cousin, this person is Shi Yu, the one who defeated me at Ancient Capital University. He's also... the number one person below the legend level of Dong Huang, one of the contestants of the Dong Huang World Tournament." Fu Dian's expression was complicated.

Ever since he returned to the country, he had been cultivating hard, hoping to defeat Shi Yu one day.

However, Fu Dian originally thought that he could only find the chance to go to Dong Huang after he reached the Legend level.

However, to his surprise, with the arrival of the World Tournament, the communication between the seven countries became more frequent. He once again obtained the opportunity to follow the Rongguang exchange team to Dong Huang.

But this time, he heard a lot of bad news.

Who knew the complicated feelings he, who was still at the master level at that time, had when he heard that Shi Yu had defeated the Space Emperor's secondary pet and become the number one person below the legend of Dong Huang?

[Unscientific Beast Taming](#)

Chapter 865: Glory Kingdom of Light (6)

Who knew his complicated feelings after learning that Shi Yu had developed the epoch-making Green Silkworm cocoon system and the mechanical phantom beast system?

Although he had also broken through to the master level, Fu Dian instantly felt that his sweat had been eaten by dogs after working hard for so long.

He was smart enough not to challenge Ancient Capital University again to avoid asking for trouble.

However, Shi Yu actually came looking for him.

"You're Shi Yu?" The woman in the golden ponytail said in surprise, "My name is Lucille, a contestant in the World Tournament, a legendary Beast Tamer, Fu Dian's cousin."

She had also heard her elders mention this Shi Yu. He was very talented and had extraordinary strength. In his early twenties, it was probably not impossible for him to defeat an overlord level head-on.

"Hello."

There was actually someone familiar. That was easy.

This legendary father of Fu Dian was from Dong Huang after all. It shouldn't be a problem to welcome him warmly, right?

At the thought of this, Shi Yu smiled. Just as he was about to say something, there was a boom in the distant sky. A huge black vortex condensed. This change made Lucille and Fu Dian's expressions change.

They quickly turned around.

"What's going on?" Shi Yu also frowned and looked over. He felt a huge energy wave surge from the other side.

This situation was like the descent of a ruins mystic realm, but it wasn't completely similar.

Soon, he realized.

"Demon Nation," Lucille muttered. Her words made Shi Yu even more certain.

In the next second, Lucille summoned a Holy Lightning Beast and flew over.

Seeing this, Fu Dian didn't hesitate. He summoned his Lightning Beast and followed.

Shi Yu scratched his head. The geographical location of Rongguang was very special.

They were in the same spatial position as the enemy country's Demon Kingdom. The reverse space of the Rongguang Nation was the Demon Kingdom.

It could be seen as a super totem country in the same geographical location as the Rongguang Nation, but in different spaces.

Therefore, it was very easy for Rongguang to invade the Demon Kingdom or the Demon Kingdom to invade Rongguang.

Because of this, ordinary people were often bewitched by demons and fell into darkness in Rongguang.

"Damn it," Shi Yu muttered. He had just found a guide and something happened. The Demon Nation was also an invited country to the World Tournament. They should have signed a truce agreement. It was impossible for them to come and cause trouble at this time.

After all, at this time, Rongguang had gathered many legendaries of the seven countries.

The other party shouldn't be so bold.

However, if the Demon Kingdom wanted to come to this space, they had to descend into Rongguang. Perhaps they were passing by?

"It should be fine." Shi Yu sighed and chose to follow Fu Dian and the others.

...

In the sky outside the capital of Rongguang.

Accompanied by the black cloud hole, a pale and handsome humanoid creature with gray hair and a pair of huge black wings descended into the sky.

His body was filled with an incomparable dark aura. The pressure instantly made the plants outside wither, making the sky dark and gloomy.

His eyes were filled with abyss-like magic power, as if it was the purest incarnation of darkness.

"Fallen Angel, Aldrich."

The commotion caused by this creature's descent was very big. Not only did Shi Yu and the others sense it, but the Rongguang Knights and Beast Tamers stationed nearby also rushed over immediately and looked at this evil humanoid life form in horror.

"Aldrich... What are you doing here?"

Lucille rode her overlord race pet, the overlord-level Holy Unicorn, and rushed to the scene immediately. She looked at the other party with hostility, but she was very nervous.

Although she knew that it was impossible for the Demon Kingdom to act recklessly at this time, due to the other party's powerful pressure, Lucille, a legend, still couldn't breathe.

Even someone like her was already pressured, let alone other Beast Tamers.

Fallen Angel, Aldrich, the eldest prince of the Demon Nation, an invincible overlord. He was born of the demigods and humans of the Demon Nation. 20 years ago, when he descended into the world, a phenomenon descended from the sky, and even the entire Rongguang lost the light for an entire day.

It was said that Aldrich had two souls in one body. He was both a human and a fallen angel, a hybrid life form that had mastered his Beast Taming Space, Beast Taming Talent, and top-notch extraordinary power at the same time. Because of this, no matter what, Rongguang wanted to eliminate this threat at that time. Even if it was at the risk of starting a war, it was unwilling to let this fallen angel grow up. It was only later that the Seven Nation Alliance used some unknown method to confirm that Aldrich's Beast Taming Space could only contract with itself that they gave up.

Fallen Angel Aldrich ignored the Beast Tamers of the Rongguang Nation below and looked into the distance.

He had other things to do this time. He wasn't here to find trouble with Rongguang, so he naturally couldn't be bothered with this group of people.

Moreover, in his opinion, these people were too weak and not worth paying attention to.

These humans who were merely looking at him were covered in sweat already. They were not on the same level as him.

"Weak guys..." The Fallen Angel Aldrich emitted a powerful aura, and a deep voice came from its mouth.

At this moment, more than ten Knights of Glory and dozens of civilian Beast Tamers had already arrived. Their strength was different. The weakest were only at the professional level. Apart from a legend Beast Tamer like Lucille, the strongest was also Fu Dian's father, who quickly rushed over from the White Rose family. However, even he, an old legend, was covered in sweat in the face of the mockery of the Fallen Angel Aldrich. The transcendent-level royal deterrence wrapped around the other party's body was too strong, and it was difficult to look at it directly.

Unscientific Beast Taming

Chapter 866: Kingdom of Glory, Rongguang (7)

"Aldrich...!" However, although Aldrich was very powerful, this was human territory after all. Legend Fu subconsciously prepared to fight back forcefully. Using words, he planned to expel this guy from the border of Rongguang first.

But at this moment, no one expected that the Fallen Angel Aldrich, whose gaze was filled with arrogance and whose expression was insufferably arrogant just now, suddenly had a drastic change in expression and suddenly looked in a direction.

Like a beast's intuition, the Fallen Angel Aldrich's gaze instantly landed on Shi Yu, who was leisurely walking over in a casual suit. Then, he was covered in sweat.

"Roar!!!!!"

When it met Shi Yu's gaze that contained a golden luster, the Fallen Angel Aldrich seemed to see a green divine dragon entrenched in the starry sky roaring in its spiritual world. At this moment, with a crack, what shocked the Fallen Angel Aldrich was that in an instant, its spiritual world seemed to be at risk of shattering.

A huge fear rose in his heart out of thin air.

An extremely strong mental strength told the fallen angel Aldrich that the life in front of him was extremely dangerous. It was far more ferocious than any ordinary totem in the Demon Kingdom. If he became enemies with it, there would definitely be the threat of death.

How was this possible... The Fallen Angel Aldrich looked at this ordinary human in shock. Its entire body had already stiffened. It didn't understand what was wrong, didn't understand why it was so afraid when it saw the other party...

"What are you looking at?" Shi Yu, who had arrived slowly, looked at the fallen angel looking at him in the sky. This was the first time he had seen an angel. However, it was actually not a female angel. Bad review, and the dark aura was too strong. Bad review, probably only the Glory Divine Church could contract and summon a light-element angel.

In Shi Yu's eyes, this fallen angel was undoubtedly better at acting tough than him. It actually wrapped deterrence around its body at all times. Although the other party's deterrence level was indeed high, it was very rude, alright? In order to defend against the other party's indiscriminate pressure, Shi Yu could only connect his mind with Buggy.

It was this action that directly broke Aldrich's defense.

'What are you looking at'... 'What are you looking at'...

At this moment, many Rongguang Beast Tamers looked at Shi Yu, who had spoken to the fallen angel, in shock. They didn't know where this kid came from, but what was even more unbelievable was that at this moment, Aldrich no longer had his previous arrogance. Instead, he looked at Shi Yu with a serious expression.

"Who are you?"

"Who are you? Can you retract your deterrence? It affects the environment very much," Shi Yu said.

At this moment, Aldrich was silent. He was rather afraid of Shi Yu and directly didn't say anything. He put away the deterrence wave and turned to leave.

On the spot, Shi Yu looked at this strange guy and shook his head.

< Name > Aldrich

[Race]: Fallen Angel

[Attributes]: Dark

[Race Level]: High-level overlord (Quasi Mythical)

[Level of Growth]: Overlord

Energy Points: 98,380,000

< Introduction > He's the eldest prince of the Demon Nation. He has two souls in one body and is extremely dangerous. He's suspected to be one of the participants of this world competition!

This guy was indeed capable. He was much stronger than the heirs of the Dragon Empire and the Dark Night Forest.

However, if the trump cards of the totem country were only at this level, things would indeed be stable!

He felt that a Buggy could sweep through everything.

When facing the heirs of the Dragon Empire and the Dark Night Forest, he still had to be careful, but now, he was invincible!

At this moment, if the Rongguang Beast Tamers present still didn't know that Aldrich was very afraid of the young man in front of them, they wouldn't be able to survive. Even Lucille and Fu Dian looked at Shi Yu in extreme disbelief, not understanding why Shi Yu could make Aldrich so afraid and make him feel like he was facing a great enemy.

"You're... Shi Yu?" At this moment, Legend Fu, who had also arrived at the scene, suddenly recognized Shi Yu and said in disbelief. Impossible. Even if it was a Titled Legend, he couldn't make Aldrich so afraid, right!

He instantly recognized this kid who, at the same time, beat up his son and Legend Yin's son, making him the culprit behind their worries!

Unscientific Beast Taming

Chapter 867: Time Sprite

After the fallen angel was shocked away, many gazes landed on Shi Yu and the young man who had appeared out of nowhere.

From the looks of it, there was still a huge difference between Dong Huang and Rongguang.

With the example of Legend Fu, everyone present quickly determined that Shi Yu might be an Easterner.

"Legend Fu?"

Shi Yu didn't pay attention to Aldrich for too long. Instead, he looked at his black hair and eyes. Although he wasn't young anymore, he was still considered a handsome legend. As expected, if one wanted to marry well, his strength and appearance couldn't be too poor.

"Don't you have to chase after that birdman?" Shi Yu said.

Legend Fu was silent for a moment before saying, "There's no need. We've already raised our guard just now. Now, the Titled Legends and Mechanical Guardians of the capital have already locked onto it."

"That's good." Shi Yu nodded.

As soon as he finished speaking, Lucille was still a little stunned. She looked at Shi Yu and said, "Was Aldrich very afraid of you just now?"

It wasn't impossible for an invincible overlord with two souls like Aldrich to fight against totems above his level.

Just now, he was actually sweating and extremely nervous when facing this Shi Yu in front of him?

Why!

Shi Yu smiled and said, "I'm also very curious why he looks at me like that."

Bullshit!

After Shi Yu finished speaking, everyone looked at him and felt that it was ridiculous. If he didn't know, would he dare to talk to an invincible overlord of the totem country like that just now?

Aldrich was very afraid of Shi Yu. There was only one possibility: he sensed a threat from Shi Yu, and this threat might come from Shi Yu himself, or it could come from external forces.

At this point, Legend Fu was extremely silent. In fact, he was very unwilling to believe that Shi Yu, who was still in his first year a year ago, could have the strength to threaten invincible overlords a year later, even if Shi Yu was currently the number one person below the legends of Dong Huang.

He was more willing to believe that as an important researcher of Dong Huang, Shi Yu had received very strict protection. He even had a trump card that was enough to threaten the totem. Aldrich could sense it. Only then would it make more sense.

Of course, it was difficult for him to determine what it was without evidence...

"Miss Lucille, I was halfway through my sentence just now. I actually came this time to visit the 'White Rose' family. Are you free now?" Shi Yu said immediately.

...

At the legendary meeting.

Not long after, the news of the descent of the Demon Kingdom's Prince Aldrich arrived.

"This guy."

The Rongguang Hero King had an unfriendly expression and said, "He's getting more and more arrogant. I wonder how arrogant it will be after it steps into the totem level. I should have killed it back then."

"But speaking of which, you should know Shi Yu, right, Divine Source? My subordinate said that he only looked at that fallen angel and scared it away? Did you give him any mechanical equipment?"

"You protect this genius who developed mechanical phantom beasts very well."

"Uh." The mechanical legendary was stunned. Why was Shi Yu related to Aldrich again?

As for mechanical equipment...

He had this thought at that time.

However, when he thought of how Shi Yu had two overlord-level pets with energy values exceeding 100 million, a divine beast cub with quasi-divine skills of luck, and the ruins space that could be teleported with casually on Blue Planet, Divine Source felt that unless he gave him forbidden weapons, no equipment was useful to Shi Yu.

As long as Shi Yu didn't go to the demigod's territory to wander, there would basically be no problem.

Although Aldrich was strong and was known as the creature closest to a Mythical race, he was still a little inferior to Shi Yu.

"Such a courting death young man should be protected well. I hope he won't come to the Seven Islands again."

Upon hearing the name Shi Yu, the Seven Islands Valkyrie said coldly and looked at the Divine Source Legend.

The culprit of the Seven Islands incident was this Shi Yu. The Seven Islands Valkyrie knew very well.

Although Shi Yu had changed his identity, it was not difficult for a legendary expert like her who was proficient in the power of space and time to investigate the cause and effect.

"Don't pout your face on all day." At this moment, the Elven Empress smiled at the Seven Islands Valkyrie and comforted her. However, no matter how one looked at it, her smile was very weak.

"In addition, don't think of bullying Shi Yu. He signed a contract with our Courtyard elf."

Before the Seven Islands Valkyrie could say anything and ignore the Elven Empress, the Divine Source Legendary wanted to complain about the Elven Empress. She actually took advantage of his sleep to tie Shi Yu with Tingxiang.

That brat Lin Xiao didn't know to look after Shi Yu. What was there to contract with elves? It was better to contract another mechanical phantom beast.

At this moment, the Rongguang Hero King, the Snowfield Battle God, and the Ming Hua Death God couldn't help but be interested when they saw that this number one person below the legends of Dong Huang was remembered by so many legends. They might not know who Ye Xing and the Divine Bell were, but Shi Yu, who had recently developed a mechanical phantom beast, was undoubtedly a newbie who could leave these legends with fresh memories.

...

Next, Shi Yu got his wish. Under the reception of Legend Fu, Lucille, and Fu Dian, he arrived at the White Rose family.

No one was surprised that Shi Yu had come to Rongguang. After all, the World Tournament and the archeological Conference were imminent. No matter which one Shi Yu participated in, he had to come to Rongguang first.

However, why was Shi Yu visiting their White Rose family?

In an elegant living room, Shi Yu looked at the steaming tea leaves in front of him and went straight to the point. "Senior Fu, the White Rose family should have a deep relationship with the Space Emperor hundreds of years ago, right?"

[Unscientific Beast Taming](#)

Chapter 868: Time Sprite (2)

"It's... a certain little princess of the White Rose family who was once the concubine of Senior Space Emperor," Fu Chuanqi said after being stunned.

This was recorded in the White Rose family. Why was Shi Yu asking this?

"I want to know if Senior Space Emperor left a special altar with the White Rose family at that time."

Legend Fu, Lucille, and Fu Dian looked at each other in surprise. Legend Fu said, "Dr. Shi Yu, how do you know? There's indeed a special altar passed down from ancient times in the White Rose family."

"It's just that... no one knows the specific function of this altar now. It's just that it's easier to sense the power of the starry sky near the altar."

Shi Yu revealed a happy smile and said, "There really is? That's right. This altar is actually an altar to assist in absorbing the power of a specific starry sky. It was established by Senior Space Emperor to hatch a certain starry sky pet."

"As for why I know, it's because when I explored the Space Emperor Ruins, Senior Space Emperor's pet, the Void Mantis, not only entrusted the pet egg to me to hatch, but it also told me the location."

"Therefore, my intention is to borrow the Starry Sky Altar of the White Rose Family. I wonder if it's alright?"

"This..." Legend Fu never expected that the sealed altar of the White Rose family was actually used to hatch pets.

He said almost without hesitation, "Of course. This was also left behind by Senior Space Emperor."

Shi Yu's friendship was greater than the value of the Starry Sky Altar. Soon, Legend Fu came to such a conclusion in his heart, so he made his own decision without needing to discuss with the family.

"Thank you very much." It was as smooth as Shi Yu imagined. He immediately said, "Then, Senior Fu, can you bring me to see that Starry Sky Altar now?"

"Alright." Legend Fu nodded. It looked like he was doing pretty well with the White Rose family. He had the right to speak. That made sense. After all, he was a legend level character.

To be able to be a legend contestant in the Dong Huang World Tournament 20 years ago, his talent and strength were definitely worth affirming.

Soon, under Legend Fu's lead, Shi Yu arrived at the back mountain of the White Rose family and arrived at the dusty Starry Sky Altar.

Shi Yu was especially happy to see the last Starry Sky Altar.

"I wonder how long it will take to hatch the pet egg with this altar," Fu Chuan asked.

"About one to two days. I can't be sure of the exact time," Shi Yu said.

"Then why don't you stay here for the next two days, Dr. Shi Yu? I'll get Dian to arrange a place for you to stay." Fu Chuan looked at Fu Dian and said, "You can let my good-for-nothing child learn from you."

At the side, Fu Dian's face darkened. Damn it.

Back then, when he was beaten up at Ancient Capital University, this father didn't have this face.

At that time, Fu Chuanqi told him that if he worked hard, he wouldn't lose to anyone.

Why had Shi Yu become a role model now?

"Thank you." Shi Yu nodded. Since Legend Fu was so polite, he naturally had no problem. "But just me guarding the altar is enough. I have the ruins space with me, so I can stay there."

Legend Fu said, "Alright, in that case, if you have any needs, just call Dian or Lucille."

Shi Yu nodded again.

Then, he looked at the Starry Sky Altar.

He took out the Space Beast Egg that had also been sealed for a long time and placed it on it.

In the next moment, the Starry Sky Hatching Altar was activated.

A dazzling light connected the starry sky and the altar. The white and purple-striped pet egg on it absorbed nutrition to its heart's content.

Seeing this, Fu Chuan and the others revealed shocked expressions. This altar was really an incubation altar.

Their gazes carefully locked onto the pet egg.

The pet egg left behind by the Space Emperor... This legend even spent a lot of effort to choose an incubation location overseas.

What kind of creature would hatch?

"Ling, I'll leave this to you. Please take care of the hatching process of the pet egg."

Following that, Shi Yu summoned Ling, who looked like a Rubik's Cube.

Under the purple summoning array, Ling's image gradually appeared.

Absorbing starlight this time was actually a small matter. The most important thing was to let Ling further deduce the different nutrients needed for the hatching of this pet egg.

At this moment, as Shi Yu summoned Ling, Lucille and the others were slightly stunned.

Level-six Beast Tamer...

Shi Yu was indeed not a legend.

Such strength reduced the possibility that the fallen angel had been frightened away by Shi Yu just now.

However, as a Knight of Glory, Lucille wore a detection device. At this moment, she silently looked at the energy value of the mechanical little Rubik's Cube in front of her.

Energy Points: 22,710,000

Monarch-level mechanical life form...

This energy value should be an explosive state after a skill increase. It couldn't be the normal state, right?

"Alright, Master."

After Ling received the order, it immediately looked at the pet egg.

"Dr. Shi Yu." At this moment, she looked at Ling and Shi Yu. The Knight of Rongguang, Lucille, who had just encountered the fallen angel Aldrich, said, "Dr. Shi Yu, when you have time, can you spar with me?"

Lucille, who had a long golden ponytail and was wearing a white knight suit, said. As expected, she was still quite concerned about the situation just now.

Lucille wanted to verify if Shi Yu had relied on his own strength or external forces to scare the fallen angel Aldrich back. She had always been extremely curious, and this time was no exception.

Unscientific Beast Taming

Chapter 869: Time Sprite (3)

"Cousin..." Beside her, Fu Dian was shocked. Ah, this, wasn't this a loss? Dong Huang publicized that Shi Yu was a level-six Beast Tamer, the number one person below the legend level. As a legend, regardless of whether she won or lost, wasn't it meaningless?

"No problem, but wait until the pet egg finishes absorbing the nutrition," Shi Yu said with a smile.

"Alright." Lucille nodded and said, "Then I'll wait."

Seeing this, Legend Fu didn't stop him. He also wanted to see Shi Yu's strength. Just now, did he rely on external forces... or was it Shi Yu himself?

After bringing Shi Yu here, Fu Chuan and the others didn't disturb Shi Yu anymore.

Soon, only Shi Yu and Ling were left at the Starry Sky Altar.

Research was the most boring. It was definitely impossible for Shi Yu to study here with Ling. He immediately went into a daze and looked inside the legendary ruins.

When they returned from the starry sky, because of the pressure, Little Ji, Duckie, and Qi of the second team fell asleep and rested. However, after sleeping on Baby Ginseng's special incense bed for a while, the three pets woke up.

At the moment, Little Ji and Duckie were still commander rank. Because Ling had more missions, it temporarily didn't have time to study Little Ji, so its strength didn't increase noticeably. As for Duckie, it should be able to improve pretty well after a while.

It was mainly because Baby Ginseng's plant control had been upgraded to above perfect level. If it could reach transcendent, the effect of the Reincarnation Fruit it created would definitely be better. At that time, perhaps the duck could rely on the Reincarnation Fruit to complete its evolution and return to its Abyssal Demon Duck state.

Now, because of the World Tournament, Shi Yu didn't have time to care about them for the time being. As for after the World Tournament, Shi Yu planned to stop adding points for a period of time and pay more attention to the second team to rest. He had been exhausted recently. After all, the second team didn't need to add points. If he brought them to play, he could take more time to meditate and cultivate or even slack off.

"Eh."

At this moment, Shi Yu's gaze landed on Qi.

After waking up, Qi changed into the [Thunder God Set] and ran to the [Heavenly Thunder Zone] for special training.

After Qi joined the team, in order to train Qi better, Shi Yu upgraded its Umbrella of Time. With the help of a team of six pets, he spent another billion to buy various materials. They created six sets of armor and replaced the previous weapons and equipment. At the moment, Qi was wearing the purple Thunder God Set. It was made of light metal armor and a purple saber. When this image appeared, Qi would

enter Eleven's Thunder Armor state and obtain powerful strength, speed, and lightning resistance. At the same time, the saber in its hand could allow it to summon the power of natural lightning.

In order to train Qi's control over the power of nature and will, the artifact spirit was temporarily removed by Buggy. The originally powerful battle equipment instantly became a life-threatening training device. Every time she finished training, Qi felt that her body didn't belong to him.

Apart from the [Thunder God Set], there was also the [Gravity Set], [Sun God Set], [Machinery Set], and so on.

"Sword Skill, Heavenly Thunder Slash!"

If it weren't for the fact that Baby Ginseng's nutritional supplements and medicine were powerful enough, Qi didn't even know if she could persist in such arduous training.

Rip.

Heavenly Thunder District.

In an area with rich lightning energy.

Qi, who was wearing the Thunder God Armor Set and holding the Thunder God Saber, looked at the sky with a burning gaze. As she triggered it, the black thundercloud in the sky instantly struck a thick heavenly lightning. The heavenly lightning was like a dragon as it surged over.

Under the strong wind, Qi's gaze was firm as she made a posture of drawing her saber. When the heavenly lightning descended, her pink hair instantly stood on end, and lightning lingered around her body. The tachi in her hand swung at the heavenly lightning in an indistinct manner.

Swoosh!

The lightning sword light and the heavenly lightning instantly collided. A small portion of the heavenly lightning was immediately cut open, but in the next moment, a terrifying lightning directly swallowed Qi in an instant and sent her flying dozens of meters away with a boom.

Qi: (*+_+*)

So numb...

If not for the Thunder God Armor, Qi would have lost consciousness.

"After returning from the starry sky, her willpower level has finally reached 'low'."

Shi Yu looked at Qi's situation and smiled.

This level of willpower had already caught up to Baby Ginseng and the others before the National League.

It looked like Qi was still talented.

Qi's will level had broken through, which also meant that Shi Yu was prepared to let her learn Mythical Revival.

Of course, not through direct teaching.

Otherwise, even with the Sea Cleansing Spirit, low-level willpower was still too difficult.

Instead, she learned through the memory water drop that Shi Yu, Ling, and Susu had prepared in advance that contained the entry-level Mythical Revival experience.

Coupled with the cleansing sea spirit left behind by Susu to cleanse the Poison Dragon, even if it was a low-level will, it shouldn't be difficult to master Mythical Revival.

It was just that it might take longer.

At the moment, Qi had yet to master any transcendent skills and could only rely on equipment to use them.

However, it wasn't a big problem. When she learned Mythical Revival and had a more solid foundation, after awakening some divine power, Shi Yu was prepared to give her the legendary resource, the Nature Fruit, that he had obtained from Tingxiang. At that time, with the power of nature and six sets of armor, even if the divine power didn't awaken, she could have pretty good battle power.

"Qi."

Shi Yu entered the ruins space and came to Qi, who was lying on the ground and had yet to recover from his paralysis.

"Shi... Shi..." At this moment, Qi couldn't even speak coherently. It was as if she had eaten ten pounds of pepper, and her pink hair trembled.

Shi Yu sighed and said, "Suspend training... Switch to [Life Set]."

Unscientific Beast Taming

Chapter 870: Time Sprite (4)

Upon hearing that, white light immediately flickered on Qi's body. The purple Thunder God Light Armor turned into a blue white dress with lace. She wore a white pantyhose with water droplet patterns and changed into a priest's dress.

The so-called [Life Set] was a life-saving set. The entire set of clothes was made by Buggy, Baby Ginseng, Susu, and Ling together. It contained the power of healing and life and could temporarily transform into a support healer.

Through the staff brought by the [Life Set], a moment later, under the effect of the healing and cleansing power, Qi slowly recovered, as if it had been reborn.

"If you're done resting, prepare yourself. We're going to learn new skills today."

"This is the key to activating your bloodline power."

"New skill?" The pink strand of hair that exploded from the lightning moved and revealed a happy expression.

"Yes." Shi Yu smiled and said, "It'll be very painful, but Susu will help you."

Qi: (*+_+*)

Pain didn't matter anymore. She was already used to it.

After dozens of days, who knew what she had experienced?

Outside, Ling was studying the Space Beast Egg. In the ruins, Shi Yu had already called Susu over and taken out the memory water drop he had prepared.

Shi Yu had already used the memory water drop to learn skills countless times in his team.

This was the only channel that could allow the pets in Shi Yu's team to quickly practice non-racial skills to Dao Proficiency.

It was equivalent to various pets imparting their skills to each other and teaching their teammates the skills they were good at.

And now, Qi wanted to accept the cultivation impartation from Ling.

Mythical Revival was a skill that only the two of them in the team could learn.

Even Eleven of the Mythical race couldn't. After all, Eleven was a first-generation god and didn't have an ancestor to return to. Naturally, there was no Mythical Revival.

What awaited it was endless divine evolution.

"Then I'll start..."

In the state of the [Life Set], Qi took a sip of the crystalline memory water drop and began to close its eyes. At the same time, Susu's Sea Cleansing Spirit also possessed her body, strived to prevent her from losing herself while searching for the power of a god and receiving the experience of super skills.

"How long will it take?" Shi Yu looked at Qi and touched his chin with anticipation.

"Ning, Ning." In Susu's experience, it would take at least half a month to receive the experience of the memory water drop.

At that time, the world competition would probably have already started.

"There's no hurry. This is only the beginning," Shi Yu said.

If Ling wanted to master the initial "Wind Blessing", it would have to use Perfect-level Mythical Revival. If Qi wanted to master "Space-time Transmission", it probably couldn't be done without Mythical Revival above transcendent.

It was destined to be a big project...

He still had to use it with the Reincarnation Fruit. At the moment, ordinary Reincarnation Fruits were useless to Qi. He wondered if Baby Ginseng would be useful after leveling up...

Shi Yu's thoughts drifted away.

He wondered if she would still be willing to return if she had the chance to bring the Dragon God to the era of the Dragon Emperor.

If it didn't return, the Dragon God seat in Dragon Palace City would be empty. If he let Buggy go up... he could also collect the Green Dragon faith in the ocean... Cough, cough, cough, he was dreaming.

"Huh??"

Just as Shi Yu was imagining how to use the divine skill "Space-time Travel", less than two minutes after using the memory water drop, something unexpected happened.

A powerful aura spread from Qi's body. Beside him, Shi Yu and Susu's expressions changed almost immediately. This aura...

That's right, definitely not wrong. It was the racial pressure from Mythical creatures that could only be experienced on Eleven and Ling.

What was going on?

It had just used the memory water drop with the experience of Mythical Revival, and it reacted?

Or could it be that the Time Sprite Reincarnation was different from the situation of Ling and Senior Lu's pets?

As the aura on Ling's body became stronger, the other pets in the legendary ruins began to be attracted. Eleven and the others' expressions were extremely serious.

...

After devouring the memory water drop and trying to come into contact with the power of Mythical Revival, Qi felt that it was starting to have a very long dream.

She dreamed that she seemed to have become another creature.

Time Sprite.

Born in the Mythical Era, it was born at the Mythical stage. It was the favorite of the power of laws in the world and mastered the "power of time and space transmigration".

It was the most unique and unique existence among many Mythical creatures.

Although it didn't have very strong battle power, because it had mastered the "power of time and space transmigration", even the strongest life form in the Mythical Era couldn't pose a threat to the Time Sprite.

It was precisely because of this ability that the Time Sprite developed a playful, lazy, and carefree personality. After all, its ability was invincible and could support it in anything.

In the Mythical Era, the Time Sprite was also such a special existence. Even the divine beasts that stood at the peak couldn't do anything to this Law Sprite.

The Time Sprite could travel to the past and future space with its mood. This ability was simply unsolvable.

Unless one mastered similar laws, there was no way to punish this guy.

The Time Sprite had originally been living carefreely in the Mythical Era. From time to time, it would go to various Mythical races to play pranks. Its life was very relaxed and leisurely.

But one day, Blue Planet was invaded by external enemies, and the Time Sprite was the first to bear the brunt.

As a precious law sprite, it was treated as the primary hunting target. In the Mythical War, in order to avoid danger, the Time Sprite was forced to travel through time and space and escape to the future.
