#### Chapter 921: Killing Until No One Dares to Fight (5)

This was still the result of the totems helping their audiences behind them resist the power.

The fiery red dragon roar was mainly focused on the fire arena. The main target was Shi Yu. At this moment, Shi Yu should be under the most terrifying pressure...

"Voice and deterrence... are intertwined."

"Dragon might is powerful to begin with, not to mention that the Fire Dragon King has trained deterrence to perfection. Coupled with its voice-type unique skill..."

"Even ordinary overlords will probably instantly submit to its domineering aura..."

A Beast Tamer from the totem country covered his ears and said those words. The overlord beside them couldn't deny it either. They were very serious.

"A deterrence competition?"

"Mi! (Kill it.)" Chi Tong's sword cry echoed. This deterrence was far inferior to Buggy's dragon might!

"Alright, kill it."

At this moment, Shi Yu, who was holding Chi Tong, the surrounding blue Psychic waves were instantly dyed orange-red. His body began to become blurry and hot, and red fire threads erupted and lingered around him.

His blue eyes instantly turned into red, and his gaze seemed to contain flames. Apart from that, his hair color instantly changed from black to red.

"High-level undead skill, Possession!"

"This undead even knows this move."

Suddenly, the Beast Tamers and overlords of the various countries recognized this skill and widened their eyes.

They suddenly remembered that talent skills such as fusion, possession, and loading could be used by Beast Tamers and pets together.

The enhancement of the battle power of both parties depended on the strength of the Beast Tamer and the pet.

Shi Yu's strength was already very terrifying. How strong would he become after being possessed by an undead pet?

For a moment, the various factions couldn't imagine it.

"That Sword Spirit Possession is very strong!!" In Ming Hua, Amy Rui, who had once controlled the Golden Phoenix Dragon Sparrow to lose to Shi Yu, and the Ming Hua Beast Tamer who had watched this battle said extremely seriously.

Unfortunately... The undead that possessed Shi Yu was still at the monarch level.

If an overlord-level undead possessed Shi Yu, it might really be able to fight the Fire Dragon King.

At this moment, Shi Yu was continuing to transform.

With a boom, countless fire threads approached. A fierce spiritual aura that was like the flames of the sun turned into flames that wrapped around Shi Yu's entire body. At this moment, Shi Yu's entire body was thinner but more powerful!

At this moment, Shi Yu's aura had completely changed. He no longer looked like a human. The emotions in his eyes had faded a lot, and a shocking deterrence erupted from his body.

Shi Yu's quasi totem soul, together with the full-level possession of the undead Chi Tong, instantly made their common battle power level reach the invincible overlord level.

Boom!!!

At that moment, the deterrence of the Fire Dragon King, together with the sound wave, materialized into a fire dragon and came over violently. At this moment, Shi Yu, who had instantly completed possession, was not to be outdone.

Boom!!!

Accompanied by a high cry, the aura on the red-haired Sword God Shi Yu shot into the sky. Flames erupted, and a shocking phoenix might swept up from the flames. Orange flames that shot into the sky completely filled the sky.

The dazzling flames turned into a phoenix. The phantom of a huge fiery red bird soared in the flames in midair. The crown-like feather crown on its head displayed the might of the king of birds.

Dao Proficiency, Phoenix Might!

Bang!!!

Two substantial deterrence forces instantly fought.

Crack.

This collision immediately made the expression of the Fire Dragon King change.

Just now, the Fire Dragon King could be said to disdain Shi Yu, but at this moment, as Chi Tong's full-level possession fused their soul power into one, it displayed the greatest possession effect and erupted with a higher proficiency deterrence. Moreover, it was the phoenix might that was not inferior to the dragon might. In an instant, the Fire Dragon King's expression was stunned.

"Roar!!!"

"Jiu!!!"

The dragon roar and phoenix cry still echoed in Inatella. The huge deterrence collision almost made the overlords present unable to breathe. About a few seconds later, with a crack, it was as if space had shattered. The deterrence of both parties scattered.

The Fire Dragon King flew up, and its unstoppable dragon might was resisted. Its red eyes instantly looked at Shi Yu crazily.

"He... actually blocked it?!!!"

At the same time, when they discovered that Shi Yu had easily resisted the Fire Dragon King's dragon might, many spectators widened their eyes in disbelief. After all, there was an entire level of difference between the two parties!!

At that moment, all the Beast Tamers of the seven countries suddenly looked at the red-haired and red-eyed Flame Sword God. Looking at his calm face, they suddenly felt a chill. The trump cards of the seven countries, including Ye Xing, revealed incredulous expressions.

No way, this kid didn't really have the strength to fight the Fire Dragon King, right?

"President Lin." At this moment, President Lin had already returned to the side of the contestants of Dong Huang. When Divine Bell saw him, she immediately asked, "Do you know that Shi Yu was going to fight?"

President Lin looked into the distance in silence and said, "I know. Let him give it a try."

"I see. One is a human fusion pet, and the other is a pet fusion human?" At the same time, the Boar God discovered that Shi Yu could really be evenly matched with the Fire Dragon King and couldn't help but be shocked.

At their level, this increase... was indeed extraordinary. It could even be said to be terrifying.

"Wu..." Beside him, the World Tree clone was also very shocked. It didn't expect that the hybrid sword spirit could erupt with such power after possessing Shi Yu.

Boom!!!

The battle continued. Shi Yu's figure had already flashed from the ground and arrived in the air. He floated in the air and looked at the Fire Dragon King in front of him. He directly slashed out with his sword.

#### **Chapter 922: Kill Until No One Dares to Fight (6)**

Swoosh!

Shi Yu's sword landed.

Countless people looking at the sky felt that the light in front of them was snatched away in the blink of an eye, and the world seemed to have fallen into darkness.

At this moment, the Fire Dragon King was feeling it the most until a light appeared in front of him.

A sun fireball seemed to appear in front of him. It was a sword light. A Sun Flame sword light that seemed to have broken through the darkness streaked across, turning into a terrifying fire sword aura that attacked the soul!!

"Little brat, don't underestimate people too much!!!"

Boom!!

In the sky, the battle armor on the Fire Dragon King's body emitted light. It released a terrifying killing intent, and its entire body was wrapped in the light of the Dragon Flame. With the huge sword light that enveloped half the venue, it flew towards Shi Yu!!

Endless sword light landed on the Fire Dragon King's body. What shocked many people was that Shi Yu's powerful attack actually didn't leave any traces of injuries on the Fire Dragon King's armor body. Instead, it was instantly absorbed. Even Shi Yu frowned slightly at this scene.

"As expected, it's not enough."

Seeing that Shi Yu's attack was ineffective against the armored Flame Dragon King, many people's hearts skipped a beat.

If it couldn't break through its defense... How could they fight!

"Roar!!!" After resisting Shi Yu's attack, the Fire Dragon King flew over and raised its huge dragon claw in the air. A black Dragon God phantom condensed on its claw, and together with the explosive flames, it swept up an incomparable destructive concept.

Dragon God Claw!!!

Boom.

Space kept distorting.

"This super skill is an inheritance skill of the Dragon Empire. It's infinitely powerful. When trained to the extreme, it points to the law of destruction!"

At this moment, seeing the Fire Dragon King use this move, the expressions of many factions changed.

This move was also the signature skill of the Black Dragon Ruler of the Dragon Empire, but the Black Dragon Ruler had already trained to the level of a quasi-divine skill.

With a claw, a country could be destroyed.

Although the Fire Dragon King's Dragon God Claw had yet to reach that level, from its power, it was clearly a super skill cultivated by the Fire Dragon King.

"As expected, it's still too difficult." On Dong Huang's side, Divine Source and President Lin's hearts tightened.

Lu Qingyi, Senior the beast-eared girl, and the others also felt worried for Shi Yu.

The Dragon God Claw attacked.

On the other side, Shi Yu took a deep breath. On the sword in his hand, hot orange-red sun flames and blue-purple ghost flames condensed. The terrifying Interlocking Sword turned into a sword pressure and was released to resist the Dragon God Claw with a boom!!

"Yin Yang Interlocking Sword."

At this moment, Shi Yu raised his arm. The Yin Yang Interlocking Sword condensed in his hand and quickly landed.

With a loud bang, at this moment, blue-purple Nether Ghost Flame lingered on Shi Yu's body, and orange-red sun flames flowed. Under the interweaving of the two intertwining powers, Shi Yu's aura increased further!

Boom!!!

In an instant, the Yin Yang Interlocking Sword Pressure Domain that bloomed in front of Shi Yu collided with the Dragon God Claw that the Fire Dragon King waved.

Boom!!!

The two forces squeezed together, and a world-shaking aura penetrated the sky and ground. During this process, countless fire sword shadows overlapped on Chi Tong's body. Shi Yu and the others' strength was still rising steadily.

Profundity, Myriad Sword Convergence.

Boom!!!

Initially, everyone thought that Shi Yu would definitely be instantly defeated under this attack. However, Shi Yu's resistance method exceeded everyone's imagination. A huge power erupted from the sword in Shi Yu's hand, and the terrifying Yin Yang Interlocking Sword pressure instantly formed a confrontation with the Dragon God Claw.

"Roar!!!"

The huge Fire Dragon King waved its huge claws, and the tiny Shi Yu resisted with the sword pressure. The style of the two parties distorted at this moment. The Fire Dragon King, Punkham, had an extremely serious expression. He didn't understand why a mere level-six Beast Tamer, together with a monarch-level pet, could take his Dragon God Claw head-on.

At this moment, Shi Yu was also extremely silent. His clothes and hair were blown by the strong wind, and his body, mind, and soul were already under pressure. He understood that under normal circumstances, it would probably be very difficult for him to be a match for this Fire Dragon King with Chi Tong.

The Interlocking Sword+Sun Flame+Nether Ghost Flame+Myriad Sword Convergence+Possession Beast actually couldn't even break through its defense.

The invincible overlord of a demigod faction was indeed extraordinary.

"Speaking of which, is this really a battle between overlords..." The overlords of the various factions looked at the collision of the two parties in shock. They were very certain that if this wasn't the sturdy Inatella, the surrounding venue and space would definitely have shattered.

In the alternate space, the Black Dragon Ruler of the Dragon Empire looked at the two parties who collided indifferently. The Dragon God of Dragon Palace City also watched everything calmly.

The Dragon Empire and Dong Huang's bloodline were also in a feud. It was very likely that this battle would end with one side dying. Not only did the two factions understand, but the personnel of the other countries also knew very well.

At this moment, the World Tournament had already begun.

Be it the Fire Dragon King or the Dark Elven King, these popular contestants who could win the World Tournament might die early in the Mythical Trial.

Eliminated.

"Roar!!! (Die!!!)" In midair, a violent expression flashed in the Fire Dragon King's eyes. At this moment, what shocked many people was that the battle armor wrapped around the Fire Dragon King's body directly turned into flowing light and gathered on the Fire Dragon King's sharp claws.

It formed a huge claw armor. At this moment, the power of the Fire Dragon King seemed to have increased several times. With a boom, the Yin Yang Interlocking Sword pressure controlled by Shi Yu shattered with a crack. An incomparably terrifying shock wave instantly swallowed Shi Yu opposite without a trace, turning into a shocking wave that crushed the ground!!

### **Unscientific Beast Taming**

#### **Chapter 923: Killing Until No One Dare to Fight (7)**

Boom!!!

Light flashed.

The huge Dragon God Claw wave landed on the ground. Three huge pits that were more than ten meters deep immediately appeared in the fire venue divided by the Boar God. The rift valley was filled with shocking dragon flames, and Shi Yu's figure seemed to have been thrown into the abyss.

"Shi Yu..." Seeing this, Gao Xuan, Zou Yun, Ji Feng, and the others were suddenly shocked. They looked at the energy aftermath that had yet to disappear and searched for Shi Yu.

It was over!

That abnormal Shi Yu had also failed?

"Holy shit, is that alright?" The overlords like the Prediction Owl of Imperial Capital University also said in shock.

As the cat bit the fruit, it said solemnly, "It should be fine. That kid's other pets are very strong. They won't be killed. At most, they'll be eliminated because they sent more pets to violate the rules."

The Flame Dragon King's claw directly sent Shi Yu flying, directly letting everyone understand that level differences were indeed not that easy to cross. No matter how rich Shi Yu's foundation was, it was still a pipe dream for him to defeat an invincible overlord like the Flame Dragon King above his level.

However, at the moment, everyone wanted to know more if Shi Yu, who had been sent flying by the Flame Dragon King, was alive or dead.

If he was dead, it should have become a totem, right?

If he was alive, where was it?

"He's fine. He suddenly became stronger and offset that attack." At this moment, the World Tree clone, the Boar God, looked at the shattered arena in surprise.

In the underground cave that was like a flaming abyss, Shi Yu slowly flew up with a dry cough.

At this moment, his clothes were already broken, but his state looked relatively intact. Even his expression didn't show much abnormality.

"Hu..." At this moment, Shi Yu's arms had almost turned into huge phoenix wings. The Flame of Regeneration repaired his injuries. After slowly flying up, he landed on a rock pillar and looked up at the Fire Dragon King.

His expression was unfriendly.

"Huh???" At this moment, the Flame Dragon King's expression changed, and its gaze was shocked. It didn't expect this kid to still be alive.

How was this possible?

Its attack should have heavily injured even a dragon that was also an invincible overlord.

Why didn't this human look injured at all? Even if he had a recovery skill, it couldn't be so thorough!!

"Shi Yu is fine!!"

"Look, he flew out again."

"It's better not to fight." On Imperial Capital University's side, Yin Zhengfan had a worried expression. Although Shi Yu had done many unscientific and extremely ridiculous things in his eyes, his opponent was the heir of a demigod faction. Such a faction had once caused ancient Dong Huang to fall into a state of collapse.

Unlike his previous opponents, it was basically impossible to create another miracle.

Initially, Yin Zhengfan, a little kid who had fought Shi Yu a few times, had already admitted that he was inferior to Shi Yu and hoped that Shi Yu could create more miracles. But now, he was only worried about Shi Yu's safety and hoped that Shi Yu wouldn't force things.

"There's no problem, right? This is the first time I've seen Brother Shi Yu so tired." Seeing that Shi Yu was fine, Zheng Hai and the others heaved a sigh of relief. They were first shocked by Shi Yu's shocking possession strength, but then they were shocked by the exaggerated power of the Fire Dragon King.

Zheng Hai had seen his master's strength. Although the strength of the Flame Dragon King was inferior to his master's Tyrannical Sea Legend's full strength, it had completely exceeded the standard of the legend level. Coupled with the Beast Tamer, it could already be called "Titled Legend level".

"This human can't be left alive."

"Flame Dragon King Punkham, kill him."

Voices also kept coming from the totem country.

At this moment, although they knew that Blue Planet had external enemies, after witnessing Shi Yu's shocking potential, the various totem countries instantly felt Shi Yu's threat.

This guy, in a level-six state with a monarch-level undead, had power comparable to an invincible overlord. If he used the World Tree Branch Liquid to break through to the legend level and his pet also reached the overlord level, how terrifying would that be?

Could it threaten a real totem level?

At that moment, no matter which totem faction participated in the world competition, they hoped that the Flame Dragon King, Punkham, could end Shi Yu in this battle, even if it meant turning him into a totem undead and eliminating him.

They couldn't let this kid continue participating. They couldn't let him break through to level seven. They had to kill him at level six.

"Roar!!!" At this moment, seeing that the level-six Shi Yu had successfully withstood its attack, the Flame Dragon King, Punkham, also felt a huge threat from Shi Yu. He knew that he couldn't let this kid continue participating.

Otherwise, after he broke through, he would definitely become its third fatal threat apart from the Thunder Crown Rubber Divine Tree and the Green Dragon Prince.

"It's my turn, right?" Just as the Flame Dragon King, Punkham, was thinking about how to end Shi Yu's life, Shi Yu raised his head slightly. The arms that had turned into phoenix wings recovered, and a fire sword spirit appeared in his hand again.

"Initially, I didn't want to use this state, but from the looks of it, if I don't use it, it'll be very difficult to defeat you."

"The price needed in this state will be paid with your life."

Shi Yu looked up. His red eyes had already been smeared with an evil purple color.

If he wanted to defeat Punkham, Shi Yu had three methods. Firstly, he would activate the Taiji Domain to assist Chi Tong. Secondly, he would send Baby Ginseng to fight together. Thirdly... he would still fight with Chi Tong, but he needed to erupt with all their battle power!!

### [Unscientific Beast Taming](#)

#### **Chapter 924: Kill Until No One Dares to Fight (8)**

Just now, the super skills Chi Tong used were all racial skills. Their proficiency didn't exceed perfect level, so even if many skills were combined, they weren't Punkham's match.

However, not only did they have racial skills, but they also had super taught skills that had reached perfect proficiency and were specially tailor-made for Chi Tong!!

Perfect level, Demon Blade Curse, Perfect level, Undead Revival!!

The former could store the curse of the creatures it killed in its body and liberate it when needed. It could enter a cursed state and exchange for stronger battle power with huge side effects.

The latter could transform the lives it killed into undead puppets. At the moment, Chi Tong's undead space had three overlord-level puppets.

Just now, Shi Yu and Chi Tong had already completed an eruption that was close to their limit, but that was only the limit under normal circumstances, the limit Shi Yu could withstand.

Since there was a limit to what it could withstand, there was naturally a limit that it couldn't withstand. It looked like it couldn't withstand it, but in this extreme explosive state, all the burden could be handed to the undead puppet to withstand through the combination skill of scapegoat and undead revival.

In this state, Shi Yu was invincible. Even totems needed to be shocked by an attack that used an undead puppet as a sacrifice.

However, the problem was... that it would cause the undead puppet to collapse and completely die.

Therefore, Shi Yu basically didn't want to. However, if he used this combination profundity, it wouldn't be a problem to kill new and stronger lives and refine them into the next undead puppet.

"I hope no one will repeat your mistake next." Shi Yu's words were like an echo from the cold hell, echoing in the Fire Dragon King's ears, making it want to sneer and reveal an extremely serious expression.

Then, its expression was filled with shock.

Before the Fire Dragon King could react to its sense of danger, a strong wave suddenly erupted from Shi Yu's body. The red flames on its body all turned into extremely evil purple flames!!

A monstrous purple flame instantly dyed the sky and ground, shocking everyone.

Shi Yu... Could it be that he had other trump cards?!

"This is..." The World Tree clone, the Boar God, and even the demigod legends could sense the even more terrifying and evil power that Shi Yu erupted with.

This evil power even made the hearts of the overlords of the totem country who had killed countless people tremble.

At this moment, the cyclone around Shi Yu immediately surged. The soaring purple flames wrapped around his entire body, burning his red hair and red eyes into purple hair and purple eyes.

"Mi, Mi, Mi." In Shi Yu's hand, under Chi Tong's sickly and greedy voice, the purple flames that looked like a domain seemed to have burned space. Undead overlord puppets were summoned by Chi Tong through the revival of the dead.

Under the entanglement of the purple evil flames, a Green Scaled Dragon Spirit, an Ice-Eyed Tiger Spirit, and a Mountain Tortoise Spirit appeared in the nether flames. Each of them also emitted a powerful overlord might. Accompanied by them appeared countless remnant souls. They were like malicious ghosts from hell as they floated in the purple flames and let out terrifying whispers, as if they were asking for Chi Tong and Shi Yu's lives.

The incomparably huge curse power made Shi Yu's current state look extremely evil. It was so evil that even the Fire Dragon King in the sky had a frightened expression.

How many ferocious beasts had this guy killed?

Shi Yu's expression was indifferent. He wasn't a good person. Chi Tong had relied on the soul of a ferocious beast to grow.

"This spirit body...!"

At this moment, as Shi Yu summoned the undead puppets, the contestants of the Heavenly Fox Nation, especially the Fox God leading the team, and the eldest daughter of the Moonlight Family who had contracted the Star Moon Fox, looked at the familiar undead puppet in shock. They kept feeling that... it was familiar. No, it was even the same!

There was something wrong with this Shi Yu! Dong Huang had something wrong!

"It's actually two skills that can contain the law of death when trained to the extreme." At the same time, the Boar God quickly discovered that Shi Yu's fire sword spirit was simply ridiculous. Not only did it master the Sun Fire of extreme Yang, but it also mastered moves like Undead Revival and Demon Blade Curse that could reach the extreme of death.

All gazes landed on Shi Yu. Among them, the Black Dragon Ruler's pupils constricted. It suddenly realized something. Just as it was hesitating if it should attack, it was already too late.

Boom!!!

Sun Flame that was pure Yang appeared on Shi Yu's body again. The evil power of the Demon Blade Curse and Undead Revival condensed on the sword body at the same time as the pure power of the Sun Flame.

"Roar!!!!!"

At this moment, the summoned Green Scaled Dragon Spirit, Mountain Tortoise Spirit, and Ice-Eyed Tiger Spirit behind Shi Yu were instantly burned clean in the purple flames, becoming scapegoats for this attack.

"Profundity..." As Shi Yu muttered softly, the huge death aura that shot into the sky intertwined with the Sun Flame, forming a sword pressure that was like purgatory. It swept with world-shaking might and swallowed the Fire Dragon King.

Boom!

This attack pierced through the sky.

"Mere human..."

At this moment, the Fire Dragon King was still arrogant, but in the next second, its pupils instantly constricted. It sensed a fatal crisis and its entire body trembled to the extreme.

As the sword pressure approached, it exclaimed in its heart that it was impossible. It sensed the power of this attack and its entire body continued to tremble.

It was very difficult to move. The terrifying deterrence swept by this attack had already completely locked it!!

### Unscientific Beast Taming

#### **Chapter 925: Kill Until No One Dares to Fight (9)**

It felt like an isolated and helpless only son on a surfing board, facing a tsunami-like attack!!

"Roar!!!" Under the monstrous sword pressure, the Fire Dragon King, Punkham, let out a frightened roar. After sensing the fatal crisis, its overlord will was instantly activated, activating its incomparable potential. The huge black Dragon God phantom condensed on Punkham's huge claws, instantly shattering the restraints of deterrence. At the same time, it smashed towards the sword pressure domain that had already been forced in front of it in anger!!

Boom!!!

In an instant, the profundities slashed out by Shi Yu and Chi Tong squeezed together with the Dragon God Claw again. The shocking collision sound shattered space and was transmitted to the ears of every alternate space's demigod. Then, in an instant, under the unacceptable gaze of the Fire Dragon King, its body instantly relived Shi Yu's previous situation in everyone's incredulous gazes... It was completely swallowed!

Boom!!!

Right on the heels of that, the sword pressure continued to push forward until the sky split into two!!

The red sky that appeared when the Boar God descended just now instantly shattered, directly turning into a purple phenomenon with orange-red flames.

Compared to the Nether Ghost Flame, the power brought by the Demon Blade Curse could clearly produce an even more terrifying eruption with the Sun Flame.

"Lord Fire Dragon King!!!" At this moment, it was the members of the Dragon Empire's turn to look at the sky in shock, including the overlords like the Thunder Dragon General who had participated in the preliminaries. They looked at the sky in disbelief and couldn't accept it.

With them were the overlords and Beast Tamers of many other totem countries.

At this moment, almost all the contestants and spectators on the island looked at the changing weather in shock.

The dust dissipated.

In the gray clouds, the figure of the Fire Dragon King could be seen. At this moment, no matter which faction it was, their gazes were extremely stunned. This was because the Fire Dragon King in the sky, not to mention the armor formed by the Beast Tamer, even its dragon scales and body had completely disappeared.

Under this attack, only half of the broken dragon bones were left. They were still being ravaged by the terrifying energy tide.

At this moment, the Dark Elven King of the Dark Night Forest, the fallen angel of the Demon Nation, the divine tree of the origin land, the Green Dragon Prince of the Dragonman Empire, and the other contestants looked at the sky in shock.

Flame Dragon King... That insufferably arrogant Flame Dragon King of the Dragon Empire... Died, died?

Not even a complete body was left behind?!!

"President Lin!!" Dong Huang, Ye Xing, Divine Bell, Zheng Hai, Jiang Tianyang, Zhou Ming, and the others looked at the sky in shock. They looked at the purple-haired Shi Yu and turned to look at President Lin.

What happened?

Shi Yu, Shi Yu...

Using a monarch-level solo pet to kill the heir of a demigod faction, an invincible overlord?!!

With his strength, did he still need protection??

At this moment, President Lin also looked at this scene in shock. If Shi Yu fought the Flame Dragon King with the Chaos and even the Green Dragon, he wouldn't be shocked. However, President Lin never expected that Shi Yu could display such a terrifying battle power with Mu Huiyin's heroic spirit alone.

Tyrannical Sea Legend and the gem cat were shocked. Holy shit, why was Shi Yu's strength so exaggerated!!

Wasn't his trump card that panda?!

At that moment, even the demigods and legendaries watching the battle in the alternate space revealed shocked expressions as they watched everything.

Among them, the space where the Black Dragon Ruler of the Dragon Empire was instantly shattered. The soaring anger made its pupils instantly turn red.

"Dragon Palace City's Dragon God, what are you intending to do?" Its furious roar resounded through Inatella. Its terrifying anger instantly made the entire island tremble.

At this moment, many demigods knew that the trump card contestant of the Dragon Empire had been killed. This Black Dragon Ruler was probably already furious to the extreme.

"You forgot the rules." After the Dragon God intercepted the Black Dragon Ruler who wanted to save the Fire Dragon King, she knew that there was no need for her to attack at all. In an instant, the World Tree clone and the Boar God looked at the furious Black Dragon Ruler.

Even the world competition between the seven countries allowed life and death, let alone between the seven countries and the totem countries. Although there were external enemies, the grudges of the various parties couldn't be resolved in a short period of time.

It was impossible to hold back in such a battle.

"Roar!!!"

As many demigod-level and legendary-level gazes landed on him, the Black Dragon Ruler of the Dragon Empire suppressed its anger to the extreme.

However, at this moment, no one had the time to care about the Black Dragon Ruler's mood.

On the arena, an even more shocking scene occurred. In midair, a huge dragon spirit began to materialize out of thin air. It had fire-like armor, impressive and domineering flaming wings, a thick dragon tail, and shocking dragon eyes. If it wasn't the Flame Dragon King that Shi Yu and Chi Tong had just killed with a sword, who was it?

However, its current form was very strange. It no longer looked like a normal life form, but... like an undead!

Although the power was still terrifying.

"Roar!!!" After the huge Fire Dragon King spirit was killed by Chi Tong and materialized through Undead Revival, it slowly landed on the ground and submitted to Shi Yu and Chi Tong.

Bang, bang, bang...

The purple-haired Shi Yu ascended the huge undead dragon body step by step and stood on it. He looked at the overlords of the totem countries with shocked and afraid gazes.

"I've said it before."

"I want this Living Fire."

"Swords have no eyes. I can't guarantee that the challenger can end the battle alive."

"Next, no one should want to fight with me, right?"

As soon as he finished speaking, Shi Yu returned to his black hair and eyes like a supreme demon king. The sword spirit in his hand turned into a little red sparrow and flew in the sky. He observed the new puppet in satisfaction.

Then, it landed on Shi Yu's shoulder and stared at the various overlords with it.

The deterrence brought by the man and spirit to countless totem countries was incomparably powerful.

If anyone else came, Shi Yu and Chi Tong didn't mind changing more undead puppets until no one dared to fight.

At this moment, be it the seven countries or the totem country, the contestants looked at this "level-six" Beast Tamer in confusion.

The Fire Dragon King... had actually revived!

Moreover, it had become the other party's puppet!!!

Was this really a human Beast Tamer from the seven countries?

What a terrifying unorthodox method.

Their perception of strength was almost shattered. Was this world... broken?

This was a f\*cking level-six Beast Tamer? He even threatened the entire totem countries?!

So it wasn't Ye Xing. Shi Yu, who had eaten the Undying Fruit and strengthened his soul power and used the Undead Possession to display the strongest soul power, was Dong Huang's strongest trump card?!

### Unscientific Beast Taming

#### **Chapter 926: Gaze of the Abyss**

As the battle between Shi Yu and the Fire Dragon King, Punkham, ended, the entire Inatella fell silent.

The fire-element overlords who had previously clamored to teach Shi Yu a lesson all had extremely weak legs.

Who would have thought that Shi Yu, a level-six Beast Tamer, could actually kill invincible overlords like dogs?

Which one dared to say that it was invincible? The Lava Beast, which had just wanted to compete with the Fire Dragon King, immediately had the thought of giving up the competition and took a step back in shock.

Just as Shi Yu had said, if it went up, it would die.

Although the Life Fire was good, it had to be alive to use it.

"Dong Huang actually hid such a trump card!"

At this moment, the presidents of the associations of the various countries of the Alliance and the contestants of the World Tournament looked in Dong Huang's direction with shocked gazes.

The number one person below the legend level? Who were they kidding!

Shi Yu, who had consumed the Mythical resource, the Undying Fruit, and this extremely strange possession sword spirit...

Without a doubt, it was Dong Huang's hidden trump card!!!

"So this sword spirit is his trump card." The Courtyard Sprite Annie, who had been defeated by Shi Yu's Iron-eating Beast, and the Knight of Glory Lucille, who had been defeated by Ling, had complicated expressions.

Initially, they thought that... that Iron-eating Beast and that mechanical phantom beast were... In the end... Who would have thought that Shi Yu's possession strategy was so powerful?

"This, this, this, this." At this moment, on Dong Huang's side, Zhou Ming, one of the legendary contestants, had a trembling expression. Holy shit, previously, he actually wanted to challenge Shi Yu to compete with him for the Sequence ranking. This guy rejected him. Could it be that it wasn't because he was afraid that he couldn't defeat him?

"It's alright." Lu Qingyi heaved a sigh of relief. She knew that Shi Yu was fine, but... the corners of her mouth twitched. When Shi Yu named Chi Tong, she was still beside him. Why did she...

"Hahaha..." At this moment, the Boar God kept laughing.

It looked around with a burning gaze at Shi Yu and the fire bird spirit on his shoulder.

Unbelievable! The World Tree was right. Humans were indeed very worth nurturing.

Even if it was a Mythical race at the monarch level, it was only so-so compared to Shi Yu and the others' state just now.

Although the Fire Dragon King was strong, the combination of this human and the Fire Sword Spirit was clearly stronger. If they maintained this posture and grew to the Mythical stage... The Boar God could imagine what kind of enemy those invaders would have.

Killing the enemy... Reviving the dead as puppets... Sacrificing puppets to erupt and kill the enemy... Reviving the dead... This was completely top-notch battle nurturing methods. It was simply born to kill.

"Is there anyone else who wants to challenge?" The Boar God looked around.

The fire-element overlord that had just been restless fell silent.

On the arena, the Flame Dragon King was the precedent. Shi Yu and Chi Tong's figures indeed made people unable to have any conflicting emotions.

"Lord Ice Dragon King, you..." In the direction of Dragon Palace City, the Sea Dragon King suddenly discovered that ice shards were falling from the Ice Dragon King's eyes beside it, as if it was crying, but because of its attributes, it didn't look like it.

"It's nothing. I just thought of Mu Huiyin..." The frost dragon was undoubtedly very shocked just now. It originally thought that Shi Yu would become famous because of the Chaos in the World Tournament, but it didn't expect to see Shi Yu cooperate with its master's heroic spirit and kill until no one from the totem countries dared to fight.

At that moment, it recalled the time it fought with Mu Huiyin. At that time, its strength was even inferior to this Fire Dragon King. However, at that time, when the overlord of the totem country faced them, it was the same, the same...

As time passed, its master was no longer beside it, but in another form, it still shocked countless overlords.

"Lord Boar God, do you want to continue waiting until sunset?"

At this moment, on the Fire Dragon King's body, Shi Yu and Chi Tong looked at the god from the Mythical Era.

"No one..." The Boar God originally thought that the battle for the Living Fire would last for a long time.

It never expected that a monster that the various factions didn't dare to fight would actually appear in the first battle.

This huge pig couldn't help but feel a little helpless.

"Wait a little longer. If no one challenges anymore, let's end it," the World Tree clone said.

It was also happy to see Shi Yu receive a gift from the Boar God.

If it wasn't wrong, that undead was a hybrid of a human and a phoenix.

At the moment, it was not in a complete state at all. It was transmigrated into an undead.

The Life Fire should be able to completely stimulate its bloodline power and make it stronger.

This inheritance was a very good choice for Shi Yu.

Just like that... Time passed bit by bit. No fire-element overlord dared to fight Shi Yu at all. Seeing this, the Boar God laughed under the shocked gazes of many lives and pulled out the "Spirit Ascending Blade" condensed from the "Life Fire".

"In that case, this ball of Living Fire is yours. Human, report your names!!"

In the Boar God's hand, the Life Fire gradually shrank and condensed, turning into a fist-sized flame that flew towards Shi Yu.

Shi Yu was extremely excited.

The Mythical Trial was much easier than he imagined.

Moreover, the gains were ridiculous.

In a trial, not only did he obtain Mythical resources, but he also... directly killed a world competition champion candidate.

Boom!

Shi Yu used his Psychic power to catch the Life Fire. A ball of white flames floated in his palm.

"Beast Tamer of Dong Huang, Shi Yu." At the same time, he looked at the Boar God.

#### **Chapter 927: Gaze of the Abyss (2)**

"Sword name, Chi Tong."

"It's the heroic spirit of General Mu Huiyin of the Dong Huang Dynasty!"

"Not bad, I'm looking forward to your next performance!" The Boar God laughed.

...

"Damn it." As they officially confirmed that Shi Yu had obtained the reward for the first Mythical Trial, the various totem factions were extremely envious.

However, there was nothing he could do.

At this moment, the various legendaries and demigods had different moods. Under their silent gazes, the World Tree clone flew in the sky and said, "When the sun rises tomorrow, I'll awaken a second god and open the second trial."

The second trial!

As the World Tree clone finished speaking, everyone tried their best to stop thinking about the first trial and pay attention to the second Mythical Trial mentioned by the World Tree clone.

They hoped that they could get a share of the benefits in this trial and that it would not be as rough as a single test battle power.

"This god's name is Xuan Ming."

"That guy." As soon as the World Tree clone finished speaking, the Boar God's expression turned cold. Then, it looked at the World Tree clone and said, "I suddenly feel that it's quite interesting now. I plan to stay a little longer before sleeping."

At the moment, due to sleeping for too long and the suppression of the world's will, the Boar God's strength was less than 100%. The best way to recover was to continue sleeping and wait for the Mythical Revival.

However, it was rare for it to be awakened in advance at a huge price by the World Tree. If it wanted to continue paying attention to the human Beast Tamers cultivated by the World Tree, so be it.

"Alright." The World Tree clone didn't refuse the Boar God's request.

It was normal for these gods of the Mythical Era to be very curious about the situation in the future.

Not to mention them, even the World Tree itself was very curious. Every time it slept, a long, long time passed. Every time it woke up, humans could develop a new civilization, surprising it.

The most recent thing that shocked the World Tree was still the few humans named Z and Divine Source who developed the mechanic class.

It hoped that humans could also bring it more surprises this time.

"Xuan Ming is...?"

The name of Xuan Ming immediately attracted the attention of countless people. Even Shi Yu, who had just obtained a Mythical inheritance, glanced sideways.

Unfortunately, be it the World Tree clone or the Boar God, they didn't say much. After completing the first trial, one of them turned into countless green lights again and disappeared from the sky, while the other returned to the Mythical Ruins to rest temporarily.

Only everyone was left thinking about who Xuan Ming was.

In an instant, Inatella returned to calm and berserk. Countless people suddenly looked at Shi Yu on the arena, and their gazes changed again.

However, at this moment, Shi Yu was still relatively calm. Although he had already sensed countless killing intent, he had already expected this situation before participating in the world competition.

It didn't matter... As long as he endured until the end of the world competition, he felt that his strength could definitely increase to a higher level and he wouldn't be afraid of anyone.

...

After the first Mythical Trial ended, Shi Yu was immediately protected layer by layer by Dong Huang and Dragon Palace City. Killing the Fire Dragon King could be said to have directly placed Shi Yu on the Dragon Empire's blacklist.

Regarding Shi Yu's decisiveness, Divine Source Legendary and the Dragon God were still alright. They felt that Shi Yu had done well. After all, the Western Sect had been involved in the few eastern totem battles after the Dragon Emperor. The Dragon Empire was even the main force of the invasion. He had killed well.

On the other hand, President Lin was a little helpless. After all, he was still the one governing Dong Huang next. He could already predict that after this world competition, Dong Huang would have more conflicts.

"Fortunately, I didn't disappoint." Shi Yu smiled when he saw the gem cat, President Lin, and the others quickly escort him away.

"Good kid!" President Lin was still excited. He didn't expect Shi Yu and Chi Tong's combination to be so strong. Back then, when Shi Yu said that Chi Tong had the ability to defeat a top-notch overlord alone, he originally didn't care much. Before the power of the Chaos he completely ignored it.

In the end, Shi Yu gave him a surprise. He didn't expect Chi Tong, who had been possessed by a Beast Tamer, to be so strong.

How strong was Shi Yu? Was he Dong Huang's trump card?

As Shi Yu defeated the Fire Dragon King, this topic immediately spread crazily among the various factions in Inatella.

At this moment, no one dared to underestimate this level-six Beast Tamer anymore. Those quasi totem-level and totem-level world competition champion candidates were all extremely serious, thinking that Shi Yu was a huge threat.

Without a doubt, the current Shi Yu's strength had directly entered the strongest tier of the world competition contestants.

However, Shi Yu was not arrogant. Before the Mythical Trial began tomorrow, he informed President Lin and the others before immediately burrowing back into the ruins to prepare for battle.

Firstly, he wanted to quickly recover the consumption of this battle, and secondly, he wanted to see if he could suddenly strengthen it again.

Although Shi Yu felt that in a full-strength battle, he could kill indiscriminately like a baby cup in the World Tournament, the targeting of the Mythical Trial was too strong. In fact, if he wanted to obtain resources, he might have to fight Mythical creatures. He had to constantly improve himself.

He had just obtained the legendary resource, the Heart Flame, the Spirit World Fragment, the Mythical resource, the World Tree Fruit, and the Flame of Life. Shi Yu could be said to have had a huge harvest.

Three of them were Chi Tong's. Unfortunately, Chi Tong was not suitable to use them at the moment. Apart from that, its Sun Flame Flower and bone sword had yet to be completely used.

Although it was the most luxurious pet in the team, it was helpless.

"Mi!!!" At this moment, Chi Tong could only watch eagerly. It was extremely pitiful. After all, even the legendary resources couldn't be absorbed with all its might, since it was afraid that it couldn't suppress its power and break through.

#### **Chapter 928: Gaze of the Abyss (3)**

"Wuu." "Ji ~" "Yi!" "Ning."

Eleven, Buggy, Baby Ginseng, and the others also looked at Chi Tong's resources eagerly.

Was this the troubles of rich people?

Legendary-level resources were alright, but Mythical-level resources...

This was the first time.

As expected, the later one evolved, the better the benefits??

Eleven, Baby Ginseng, and the others gradually believed the "rules" concluded by Buggy.

"Don't worry, when I break through to the legendary level, you can use them all."

"Apart from being a breakthrough resource, these might also be used as evolution resources."

"I've found a suitable evolution method," Shi Yu said to Chi Tong with a smile, immediately making Chi Tong's eyes light up.

"Ling." When Shi Yu finished speaking, Ling nodded and said, "According to the information, the fallen angel of the Demon Nation, Aldrich, has mastered a special evolution skill."

"It's because it has this evolution skill that it's known as one of the creatures closest to a Mythical race."

"Its two souls in one body are also because of this skill."

"If we have the chance to fight it, we can think of a way to get it," Shi Yu said.

< Name > Soul Incarnation

Attributes: Undead, Spirit

[Level]: Super

< Introduction > It can condense into an extremely long power incarnation. The incarnation can exist alone or fuse with the main body to complete evolution.

"Mi!?!!" Chi Tong was stunned.

Ling: "This move is very suitable for you, as someone who has mastered the profundity of the Myriad Sword Convergence. Your clone's various abilities are only one of the many abilities of the main body. Even through the infinite superposition of possession, the efficiency of energy is still not high. Moreover, the strengthening mode is single, and the burden is huge."

"But incarnations are different. When incarnations condense, they can exist forever like scapegoats. Unless they die, where they need to condense again. In addition, every incarnation has an extremely high growth rate. They can walk a different path from their main body."

"For example, if you're proficient in the undead and fire elements, your incarnations can completely be proficient in the spiritual and light elements. Although their attributes are different, they have the same potential talent as the main body. The fallen angel of the Demon Nation, Aldrich, has mastered three incarnations, and every one of them is incomparably powerful. The strongest is when the main body and the three incarnations fuse into one to complete the evolution..."

This was an evolution skill that relied on cultivating clones to complete the evolution of Origin.

After Shi Yu obtained the detailed information of the Fallen Angel Aldrich, the first thing he felt was that this skill was very suitable for Chi Tong.

"Hehe, Little Chi Tong, have you heard of the 'Immortal Slaying Sword Formation' and the 'Four Immortal Slaying Swords'?"

Shi Yu sat on the sofa and snapped his fingers.

"At that time, the main body and three incarnations whose strength is not inferior to the main body will form a sword formation through skills like the Interlocking Sword and the Four Symbols Star Formation and complete the evolution. Believe me, the strength will definitely be strong. After all, it's equivalent to several times the investment of resources."

At this moment, Chi Tong indeed had enough resources. Shi Yu felt that it didn't seem impossible to nurture an invincible clone sword for Chi Tong?

For example, the flame that contained the Law of Life could create a Life Spirit Sword Chi Tong that was completely different from the power of Chi Tong's undead body.

At that time, life and death would intertwine. Shi Yu felt that it was very promising.

"Mimi!!!" Chi Tong's eyes lit up. It was quickly persuaded by Shi Yu. With a look of anticipation, it waited to crusade against the fallen angel.

"Yiya." Baby Ginseng and the others immediately asked when they saw this.

Were there any other skills?

There were so many powerful creatures in Inatella. In theory, rare skills should be everywhere.

"Yes, I'll record everything," Shi Yu said with a smile.

Then, he chatted with Chi Tong, Eleven, and the others for a while and exchanged the rare skills on this batch of contestants.

If he broke through to the legend level, he could quickly replicate some of it. Even if he couldn't completely replicate it, it didn't matter.

Shi Yu remembered their identities. If necessary, he might still need to protect them and not let them die too early. At most, he would visit the totem country when his skill column was rich in the future.

As long as they didn't die, there were plenty of opportunities.

With endless imagination, Shi Yu finally picked up the World Tree Fruit and decided to eat it himself.

Giving it to pets was just to increase skill proficiency. Shi Yu felt that there were many ways to increase proficiency with the skill index in the future. There was no hurry.

As long as he was given a certain amount of time, the skill level could increase.

However, if he wanted to develop the Beast Taming Talent well, he really had to rely on comprehension. It wasn't something that could be developed with time.

If telepathy could be further developed, the cost-effective ratio would undoubtedly be higher. After all, Shi Yu had no other ways to increase it. This was one of the few opportunities.

Shi Yu ate the green World Tree Fruit. Soon, he sat cross-legged and entered a meditative state.

The incomparably clear feeling was like him memorizing words after consuming the memory water drop. The former's memory ability had been raised to the maximum, and now, his comprehension had been raised to the maximum.

One was suitable for liberal arts... and the other was suitable for science... Taking advantage of the Mythical resources to strengthen his comprehension ability, Shi Yu immediately tried to unearth more mysterious laws of the "Taiji Domain" and "Green Dragon Domain".

However, soon, to Shi Yu's surprise and shock, apart from the two domain diagrams that originally existed in his pitch-black mental world, a third domain diagram slowly appeared.

### **Unscientific Beast Taming**

#### **Chapter 929: Gaze of the Abyss (4)**

He saw a blue planet. Shi Yu originally thought that this planet was Blue Planet, but as he observed carefully, he felt that it was more like Earth than Blue Planet. At this moment, a green sapling slowly grew on the huge Earth with a dark background.

World Tree! These three words instantly turned into an unbelievable thought that echoed in Shi Yu's heart.

"World Tree Domain?!"

He... actually had a third mental domain phenomenon! The first was the Taiji Painting, the second was the Green Dragon Painting, and the third actually appeared as he ate the World Tree Fruit.

Shi Yu was extremely happy.

"It doesn't seem to be over." Then, Shi Yu's heart skipped a beat. Not only that, but the effect of the Mythical resource had yet to be completely displayed. At this moment, Shi Yu could clearly feel that he could see more laws and power of faith contained in the Taiji Painting and the Green Dragon Painting.

Especially the Taiji Painting. Back then, when Shi Yu mobilized the Taiji Painting, it also produced a sound of laws that was comparable to a quasi-divine skill. However, Shi Yu understood that although they were both quasi-divine skills, the distance from a real divine skill was completely different.

If it was said that the quasi-divine skill of a demigod life form still needed 50 steps to touch the laws of a real divine skill, then today, that Boar God's skill that had fallen from a divine skill to a quasi-divine skill because the laws of the world were incomplete was only 10 steps away from touching the laws.

As for Shi Yu and Eleven, the difference was clearly even greater. It was at least 100 steps away. They had yet to see much of the Yin Yang Millstone.

However, at this moment, Shi Yu could clearly feel that his use of the Taiji Painting was even clearer. This feeling was like the difference between the strengthening talent of a legend Beast Tamer and the strengthening talent of a legendary Beast Tamer.

Previously, his mind domain was equivalent to a legendary Beast Tamer with strengthening talent strengthening Eleven's Yin Yang Millstone.

And now, Shi Yu was certain that his strengthening of Eleven's quasi-divine skill could clearly be stronger, several times stronger than before.

"Don't stop." Shi Yu's heart was fanatical as he continued to develop.

This strengthening made Shi Yu feel that as long as he supported Eleven with all his might, Eleven could use a quasi-divine skill to slap ordinary totems to death. No, forget about totems, if the demigods suppressed their strength to the overlord level and used their quasi-divine skills to fight Eleven, who he supported, it was still a question if they could defeat Eleven.

....

A night of bitter cultivation.

The strengthening of comprehension brought about extreme overdraft in various aspects. Shi Yu's body was already weak, and tonight, it directly tormented him badly, making Shi Yu not know if he should be happy or worried.

He came out of the ruins early in the morning today and met President Lin and the others from Dong Huang to wait for news of the second Mythical Trial, but in the end, it was in this state...

The only thing that relieved Shi Yu was that although he looked even weaker and had consumed more energy, he had actually become stronger.

With the two Mythical resources swallowed, in addition to his mind domain, his own foundation could be said to be completely close to those legendary Beast Tamers.

At dawn the next day, countless creatures walked out of their ruins in the seven countries and the totem countries and looked at the sky of Inatella.

As the sun slowly rose, the countless green vortex worms sleeping on the island also flew into the sky again and turned into a green eagle, looking at the world competition contestants on the island.

"The second Mythical Trial is about to begin. All contestants of the World Tournament, prepare to head to the location of the 'water-element arena' during the preliminaries. I will awaken the divine-level creature 'Xuan Ming' from the Mythical Era here."

"The second Mythical Trial will be set by 'Xuan Ming'."

Water-element arena!!!

At this point, the factions with many water-element creatures in the Infinite Sea, the Ghost Sea, the Seven Islands, and even countless water-element creatures were delighted.

"Water?"

Could it be that this time... was a trial that only water-element creatures could participate in??

At this moment, the green eagle continued, "Xuan Ming is a water-element god. In the Mythical Era, it was the main force to resist the Abyss Sea, an extraterrestrial faction. At the same time, it was also the first god to take the initiative to come into contact with and master the power of the Abyss Sea without being affected in order to understand the enemy."

"What?"

As soon as the World Tree clone finished speaking, the expressions of many people changed. Abyss Sea... There was naturally no faction present who didn't understand this huge inheritance that came from the Mythical Era. The pollution of the abyss was incomparably terrifying and would completely corrode the will. In history, even the abyss that came later in the future had caused huge damage to Blue Planet.

If it weren't for the existence of the Blue Sea Sprite, who knew what the sea on Blue Planet would be like now.

This god actually ran over to cultivate the power of the abyss?

Was it that crazy? They could already imagine how cruel the trial rules would be set by this crazy god.

However, at this moment, a group of people also revealed strange expressions.

It was from Dong Huang.

The gem cat, President Lin, and the others were slightly stunned.

A god who took the initiative to come into contact with and master the power of the Abyss Sea and wasn't affected?

Why did it sound so familiar?

Wasn't this Shi Yu's second team, the underling of the Blue Sea Sprite Susu, Duckie!

### Unscientific Beast Taming

#### **Chapter 930: Some Research**

The water-element arena in the preliminaries was located in a huge lake that connected to the ocean on the island. To be precise, this sea area was the so-called water-element arena. There was no ground.

Here, transcendent life forms who couldn't fly and weren't good at water couldn't fight at all. Therefore, just hearing about the venue made the various countries understand that this was definitely another extremely restrictive trial.

At this moment, as the World Tree clone said the location of the trial, the void was torn apart. The divine boar god in charge of the first trial descended again. It maintained its huge body, and flames condensed behind it that filled the sky, forming a Void Flame Throne. It slowly sat in the sky and looked at the sea area.

Under the summoning of the World Tree clone, the god in charge of the second trial was also about to revive!

Boom!!!

The humans and transcendent lives of the various countries surrounded the land and looked at the water in front of them. Under the gazes of everyone in all directions, they heard a boom, and an indescribable pressure appeared again.

Dong!!!

A baffling voice echoed in their minds and hearts. At this moment, almost no one didn't understand what this voice was. Even spectators like Yu Shu, who weren't even master-level Beast Tamers, had gained a lot of knowledge in this world competition.

The sound of laws.

This was a spiritual spirit that could only be emitted when a transcendent life form entered the Mythical Domain and resonated with the laws of the world. This was the symbol of a god. Be it its potential to enter the God Domain or its strength to enter the God Domain, this was the only symbol.

"It's said that demigods also master the sound of laws."

"With this ability, each of them can fight against the legendary Beast Tamers who control nine pets alone."

The hearts of all creatures rippled. Divine skill, God Domain!

This was the lifelong pursuit of every life.

Although it was very difficult to achieve in this era where the laws were incomplete, there were still seven years until the Mythical stage revived. Everyone had a chance!

"This deity might even be stronger than the Boar God."

As the sound of laws rumbled, the demigods who were currently at the top of Blue Planet and were praised by the World Tree as destined to become gods after the Mythical Revival had already sensed the power of this new god.

Whoosh!!

A figure appeared above the sea area. A black island more than a hundred meters in diameter seemed to have appeared there. After it appeared, the entire blue sea area was instantly dyed with a faint layer of black. With a whoosh, the water vibrated. This huge black island raised its head and stretched its limbs, revealing the appearance of a crocodile looking face. Its fierce face stunned many creatures!

This... should be a turtle god!

"You're awake."

"Lord Xuan Ming."

After the huge turtle woke up, the Boar God sitting on the Flame Throne in the sky turned into a World Tree clone flying in the sky and spoke one after another.

"It feels so depressing."

The black alligator turtle looked around. This was the second time it had been awakened by the World Tree clone. As expected, it was still not used to this era with incomplete laws. Just like the Boar God, Xuan Ming felt that its strength was severely suppressed.

It looked at the surrounding transcendent lives and humans, its black eyes filled with judgment.

Future creatures...

All of them looked extremely weak.

The so-called humans were only so-so.

Just from the willpower revealed in their eyes, Xuan Ming knew that these guys definitely couldn't resist the corrosion of the abyss.

However, because of the agreement with the World Tree, it still had to let these people experience the cruelty of the Mythical Era and give rewards to those who performed well.

"Have you finished?" It looked at the Boar God in the sky.

At the end of the Mythical Era, there were not many gods left. The Boar God was a divine level that resisted the Space Worms. Meanwhile, it was the main force that resisted the Abyss Sea. The two were originally unrelated, but because they were both sleeping in Inatella, they knew each other.

"I'm done. Future creatures are indeed interesting," the Boar God said.

"I see..." Xuan Ming looked at the countless future humans around him and said, "You guys should know what kind of disaster the Mythical Era is facing, right? "

"At that time, the power of the Abyss Evil God that descended on Blue Planet reached the peak of the divine level, polluting more than half of Blue Planet's ocean into an abyss. Even divine-level creatures became slaves of the Abyss Race under the influence of the power of the abyss."

"However."

"The abyss isn't invincible. As long as your willpower is firm enough and you comprehend the profundity of the abyss power, this powerful power from outer space can even become a weapon in your hand."

"I completely control the power of the abyss!"

"As for my test, it's also very simple. I'll pollute this sea area through the power of the abyss and let it give birth to an 'Abyss Evil Spirit'. The 'Abyss Evil Spirit' has a powerful pollution power. Whoever can destroy it can obtain an Abyss Seed that I've finished refining."

"This Abyss Seed contains the fusion experience of the divine-level abyss power. As long as your willpower is strong enough, there's a chance to refine it for your own use. Just like me, you can control the power of the abyss."

"So which one of you will do it?"

It revealed a playful smile.

At this moment, the various factions were shocked again.

As long as they defeated the Abyss Evil Spirit created by Xuan Ming, they could obtain the opportunity to master the power of the abyss?!

The Abyss was one of the three invaders who caused the destruction of the Blue Planet's Mythical Era.

Their strength was naturally needless to say.

It definitely stood above most divine-level power. Otherwise, it was impossible for Blue Planet to be plunged into misery and suffering.
