Chapter 951: Machines Can Also Divine (4)

Apart from the Boar God being more normal, the rest... didn't follow the routine!

"Damn it!"

"This is clearly biased towards the seven countries!"

In the alternate space, the totem demigods had unfriendly expressions.

Mechanics were clearly the mainstream of the seven countries, especially the Shen Feng Nation. Almost all their contestants were expert Mechanics!!

This made the totem demigods and totem clans feel that this was clearly giving the inheritance to the Shen Feng Nation.

The Shen Feng Nation... could be said to be the human country that these totem countries hated the most.

After all, if it weren't for the fact that the Mechanical Legendary Z of the Shen Feng Nation was the first to develop a Mechanic class, the humans definitely wouldn't have won the totem battle so quickly.

The huge resources of the seven countries had always been envied by the totem country.

"I'm here, god." At this moment, Shen Feng's Mechanical Legendary Z walked out of the alternate space.

Seeing the pride of their country, the strongest Legendary, appear, the contestants of the Shen Feng Nation were also extremely excited.

The legendary of their country... was especially paid attention to by Mythical creatures!

"If it's a Mechanic, the contestants of our Shen Feng Nation have contracts. Their contracted pets are also very powerful and have extraordinary potential," Shen Feng Legendary Z said.

"Is that so? I heard that Mechanics can easily destroy demigods. Is that true?"

"You even modified a demigod-level mechanical divine eagle close to the Domain of the Gods?"

Lord Lie Shan showed an interested expression.

In the Mythical Era, apart from those unique Mythical races, it was also very difficult for other creatures to advance to Mythical Races.

They basically had to undergo countless evolutions to obtain the potential to enter the God Domain.

In its opinion, it was already very impressive that this human expert could mold a new life race into quasi-divine potential in this era with incomplete ;+laws.

No wonder the World Tree said that the potential of humans was extraordinary. Such methods usually only existed in those Mythical races in the Mythical Era.

"Yes, this is the pride of my life," Z said.

"Unfortunately, because the laws of the world are incomplete, in addition to the natural flaws of the Mechanic class, it's very difficult for them to master the power of the natural order and can't completely enter the God Domain."

"However, although Mechanics can't be divine, due to the speciality of this element, I believe that one day, they can also participate in divine-level battles."

Firepower was power.

If the skills weren't enough, he would make up for it with the amount.

Shen Feng Mechanical Legendary Z finished.

Even the demigod-level mechanical divine eagle modified by him wasn't a Mythical race. It had never mastered the power of laws. That mechanical divine eagle was similar to a forbidden Mechanic Weapon. It purely relied on the battle power of a demigod at the "energy level".

Every move was equivalent to a forbidden weapon attack. It had the highest energy value on Blue Planet and was the guardian supported by the entire Shen Feng Nation. Although it didn't master nomological skills, it still made a group of demigods tremble in fear.

"This is very normal."

Lie Shanjun said, "The laws of the world change from incomplete to Restoration at all times. This change will subtly affect the creatures in the world."

"If it changes to a certain point, perhaps the world won't be able to give birth to Elemental life at this moment. If it changes to the next point, perhaps a new life form can be born in the world. Mechanics should have been born under this change."

Lord Lie Shan's words stunned many archeologists.

Shi Yu was also below and was slightly stunned. In that case... the reason why antique swords that could nurture spirits in ancient times couldn't nurture spirits now was also because of the changes in the world laws?

"It doesn't matter if it can't reach the Divine level now. Perhaps after the Mythical Revival, the mechanical life form will undergo a new qualitative change due to the Restoration of the world's laws." Lie Shanjun seemed to be very close to the mechanical Legendary of the Shen Feng Nation.

It said, "In that case, the fourth trial will test the 'Race Potential' of the Mechanic class."

"Let me see for myself if mechanical lives have the potential to become gods."

"Little brats of the Contract Mechanic class, I'll use my divine might to envelop your contracted machinery. This divine might only suppresses the 'bloodline level'. Can you understand that it has nothing to do with strength? The higher the potential of the race's bloodline, the longer you can last under this divine might."

"In the end, it should be the mechanical life form with the highest racial level that can stand until the end."

"Thus, obtaining the reward."

"This..." As soon as Lie Shanjun finished speaking, the Mechanics of the Shen Feng Nation were almost overjoyed to the extreme.

Dong Huang, the Seven Islands, Rongguang, Ming Hua, and the Mechanics of Snowfield were also pleasantly surprised.

It had nothing to do with strength level. It only tested race potential.

This time, Gao Xuan was still as moved as in the previous trial.

With the help of the Divine Source Legendary, his Ultimate Holy Dragon Beast's race level was also comparable to a quasi Mythical race. Otherwise, it would be impossible for it to pass the preliminaries. In that case, he also had a chance to compete for the inheritance?

He had an awakening talent and had even obtained the help of the Divine Source Legendary. In terms of the potential of mechanical lives, he might not necessarily be inferior to the Mechanics of the Shen Feng Nation.

Xue Yuan and the other mechanical countries were also extremely happy. They also had mechanical lives comparable to quasi Mythical Races.

They were all above high-level overlord races. So be it. Who was afraid of who?

At this moment, just as the Mechanics of the seven countries were very excited, the alternate space opened again.

Dong Huang's Mechanical Legendary Divine Source walked out of the alternate space in silence. It looked at Lie Shanjun, who was like a small mountain on the ground, and said, "Lord Divine Spirit, is this trial really comparing the racial potential of mechanical lives?"

Unscientific Beast Taming

Chapter 952: Machines Can Also Divine (5)

"Yeah, is there a problem?" Lie Shanjun said.

It wanted to see how far the mechanical life form had gone during the evolution process.

The World Tree seemed to think that Mechanical lives were a very terrifying war machine? Was it that magical?

"No, no problem." At this moment, Divine Source Legendary wanted to laugh.

President Lin of Dong Huang also wanted to laugh like him.

"Heh, hehe."

In the Dong Huang area, Ye Xing, Divine Bell, and the others were shocked when they saw the usually unfathomable and calm President Lin suddenly unable to control the corners of their mouths.

Wait a minute, what was going on? What was wrong with President Lin?

"However..."

At this moment, Divine Source Legendary looked at Shen Feng's Mechanical Legendary Z and said to Lie Shanjun,

"However, I have a different opinion."

"Although Legendary Z is the founder of the Mechanic class and he is the absolute authority of the Mechanic class, but..."

"Times are improving, and talents appear in every generation. Him saying that Mechanics can't reach the Divine level is already in the past."

"Mechanical lives can also be divine. We, Dong Huang, already have a Mechanic who cultivated and created mechanical lives of Mythical Races!!"

"Huh??" Lord Lie Shan was stunned and looked at Divine Source Legendary.

Legendary Z's expression also changed as he suddenly looked at Divine Source.

The Legendaries of the seven countries and the demigods of the totem country suddenly looked at him.

Divine Source Legendary... What did he just say?

Dong Huang already had a Mechanic who cultivated and created mechanical lives of Mythical Races?

"What, who??" Lord Lie Shan asked subconsciously.

"Shi Yu!" Divine Source Legendary looked at Shi Yu, who had just received the third inheritance and was still standing below.

"He happens to be a member of the contestants of this world competition."

Shi Yu?

Shi Yu?

Why was this name so familiar?

As Divine Source Legendary spoke, countless people were stunned. Then, right on the heels of that, their brains rumbled.

They looked over in disbelief.

It was him again???

"Impossible." Sounds appeared in the mouths of the Shen Feng Mechanics. They widened their eyes and didn't believe Divine Source Legendary.

"What a joke." Legendary Z's gaze suddenly exploded as he suddenly recalled something.

At this moment, the other gods who were originally paying attention to Lord Lie Shan's trial and waiting to watch the show, including the World Tree clone, were stunned.

Especially Boar God and Xuan Ming.

Why... was it this Shi Yu again?

At this moment, the Dong Huang audience was also at a loss.

"Him?"

"You cultivated and created a mechanical life form of a Mythical Race?!!"

Lie Shanjun's gaze landed on Shi Yu and he was completely stunned. Wasn't this kid... a human who had just obtained three divine inheritances in a row?

On the basis of mastering the strongest fire-element pet and a pet that could receive the power of the abyss, he also studied Mechanics?

"Uh."

Shi Yu was also very surprised.

He felt that it was Ling's Wind Blessing that had the Effect.

Otherwise, his luck wouldn't be so good.

This trial was simply tailor-made for him.

"Yes," Shi Yu said. "I did nurture and create a mechanical life form of a Mythical Race."

"Summon it and let me take a look," Lie Shanjun said.

"Sure." Shi Yu nodded.

"Ling, I'll leave it to you."

In the next moment, a purple summoning array appeared.

A green whirlwind condensed.

Ling in the form of a Rubik's Cube appeared in midair.

At this moment, when they saw this mechanical life form, the Mechanics of the seven countries were all stunned. This was clearly just an ordinary Hundred Transformations Stone mechanical life form.

Especially Gao Xuan, who could tell at a glance that this was the champion reward of the National League that Shi Yu had won from him?!!

Mythical Race mechanical life form? Stop kidding!

"It's a Mythical Race??"

At that moment, Lord Lie Shan looked straight at Ling in front of him and sensed its weak strength. Just from its appearance, one really couldn't tell anything.

At this moment, in order to verify it, it couldn't help but release its divine might.

It only suppressed the mechanical life form in front of it at the bloodline level.

Boom!!!

In the next moment, the sound of laws spread from the huge mountain tiger. As the ground trembled and the mountains trembled, tiger roars came from its body.

"Roar!!!!!"

An incomparable divine might turned into a transparent wave that spread in all directions. Apart from the few gods and the World Tree clones, the expressions of the surrounding experts, contestants, and audience changed.

Sensing that the power of their bloodlines was under an extremely terrifying suppression, they felt weak all over.

This was still the result of... most of Lord Lie Shan's divine might enveloping Ling.

At this moment, in the face of Lord Lie Shan's divine might, the white-haired loli Ling in the form of the Cube also slowly raised her head.

Because it was a Mythical race, Lord Lie Shan's divine might that didn't target strength and only targeted the bloodline level indeed didn't affect it much.

However, under this deterrence, Ling felt that its divine power was actively rejecting the other party's deterrence.

As if it didn't allow the other party's divine might to envelop him.

Every god had its own pride.

Boom!!!

As the white-haired loli Ling raised its head, the divine might of Dao Proficiency erupted from its body.

"I'm a Mythical Race."

Under the deterrence, the surroundings were instantly affected by Ling.

The sky and ground instantly turned white. The expressions of the surrounding creatures changed again as they sensed the suppression from their bloodlines.

Legendary Z, who was still in disbelief just now, widened his eyes in shock. He sensed an indescribable and indescribable power wave that enveloped the world. Even the surrounding creatures of overlord races felt that it was difficult to breathe.

[Unscientific Beast Taming](#)

Chapter 953: Machines Can Also Divine (6)

In front of this monarch-level mechanical life form, he felt an indescribable pressure.

Dong...

At this moment, the world trembled, and an incomparably deep sound of laws appeared.

Unlike the weak sound of laws that could only be produced after Baby Ginseng was strengthened by its Beast Taming Talent just now, this sound of laws lingered in the wind. Its voice resounded through the world and spread in all directions. It was extremely close to the appearance of Mythical creatures. It could even trigger huge nomological fluctuations through space!

"Tian..."

"Well..."

The Elven Empress of Tingxiang and the Dragon God of Dragon Palace City were slightly stunned when they sensed the divine power released by Ling. They could clearly feel that its power was much stronger than when it was in Dragon Palace City.

If it was said that when Dragon Palace City had just awakened its quasi-divine skill where Ling was still very unfamiliar with mobilizing this power, then now, the Elven Empress of Tingxiang and the Dragon God of Dragon Palace City felt that Ling's use of the quasi-divine skill was already approaching them.

"What's this?"

"How is this possible..."

"I don't believe it!"

In Shen Feng Nation, as Mechanics sensed Ling's pressure, their expressions were filled with disbelief.

In the next moment, their eyes widened even more. Not only them, but even the expressions of Mythical creatures like the Boar God, Xuan Ming, and the Holy Divine Deer instantly changed!!

As Ling entered the Mythical Revival state, the wind of luck lingered. The form of the Rubik's Cube was directly replaced. A deer-like white body and a light and slender creature slowly appeared.

On its body, some green patterns condensed into cloud-like hair, reflecting the image of the wind. Its entire body was like the embodiment of the wind, and its head was petite, gentle, elegant, and beautiful.

After it appeared, the flowing green-blue silk-like hair on its head also fluttered with the wind. At this moment, this familiar and unfamiliar creature appeared in front of them in the form of a mechanical life form. The pupils of the Mythical creatures suddenly constricted.

"The Kirin Race, the Wind Kirin in charge of luck! Impossible, weren't they exterminated?"

"Wind Blessing... How can such a Skill still exist!"

"Wait..." The expression of the World Tree clone also changed. It knew that Shi Yu had used the mechanical phantom beast technology to revive the Wind Kirin, but it originally thought that it only had its form. It never expected that Shi Yu's mechanical technology had even revived the strongest divine skill of the Wind Kirin Race.

"This..." A shocking wind of luck enveloped the sky and earth, and the power of a god spread on Ling's body. Shen Feng's Mechanical Legendary Z was completely stunned.

The expressions of the archeologists and Legendaries who participated in the previous archeological Conference also changed, especially Legendary Z. Their gazes exploded!!

Dogsh*t! Liar! Didn't Shi Yu, this brat, say that the Wind Kirin's revival wasn't complete?!

There was a quasi-divine skill at the monarch level. Was this an incomplete revival?!!!

Didn't they say that the seven countries didn't lie to the seven countries?!!

"Kirin?"

"Wind Kirin!"

At that moment, the most shocked one was still Lord Lie Shan. It was very unbelievable... The Wind Kirin Race was the first to be exterminated in the early stages of the invasion war. It had not seen it for a long time. It completely didn't expect that it could actually see the Wind Kirin that had mastered the wind luck in the future.

"How is this possible... This is a mechanical life form??" It couldn't understand.

Shi Yu said, "This race is called mechanical phantom beasts. It can also be called mechanical illusion gods."

"It's a new mechanical life form created by me through the Mechanic method and using ancient fossils to revive."

"Because it inherited the power of a god in the fossil of a Mythical creature, it inherited the power of a god and barely stepped into the God Domain."

"From the form of life, it's indeed a mechanical life form."

Just as Shi Yu finished speaking, Lord Lie Shan's expression changed again.

Pfft...

It took a step back, its entire body trembling. A smear of blood flowed out of its eyes and the corners of its mouth, revealing a shocked expression.

At the same time, seeing that Lie Shanjun suddenly seemed to have been injured, the totem half-gods and legendary experts suddenly revealed incredulous expressions.

What happened?

Why did this god suddenly look injured?

"No way..."

"Probably not..."

The expressions of the Elven Empress and the Dragon God changed slightly. Could it be...

Only the little white dragon in Dragon Palace City was the most excited. It was familiar with this!!

Back then, it was also killed for no reason when it fought Ling!

At this moment, the little white dragon was shocked. Holy shit, so the guy it was fighting was a Mythical cub?!

"That's right, it's the Wind Blessing!!" At this moment, in the sky, Xuan Ming said with a shocked expression, "Even among divine skills, it's one of the stronger skills."

"Is this the divine skill of the Wind Kirin Race..." Lord Lie Shan's expression was ferocious as he said, "Not bad. This is the first time I've seen it. It can actually affect my state. If its strength was two levels higher, it might be able to directly heavily injure me."

"Interesting... Mechanics actually revived extinct divine beasts?!"

It should be the one with the poorest Restoration among the seven gods. At the moment, it was the weakest. However, Lord Lie Shan still didn't expect that the mechanical life form in front of him could actually rely on this inherited quasi-divine skill to directly affect its state!

Revival of Mythical power, inheritance of quasi-divine skills across races... This kind of method was rare even in the Mythical Era. Humans actually did it with Mechanics?!

At that moment, as Xuan Ming, Lie Shanjun, and the other gods spoke one after another, be it transcendent creatures or humans, they looked at Shi Yu and Ling on the arena and were completely stunned.

They suddenly recalled that the information Shi Yu was most famous for was still him being the creator of the mechanical phantom beast...

Everyone was stunned. This beast... Everyone originally thought that it was ridiculous enough for Shi Yu to barely help Baby Ginseng touch the domain with his Beast Taming Talent just now.

But now, seeing Shi Yu summon a Wind Kirin Beast that directly displayed the power of a god without any support and even forced a Mythical creature to bleed slightly, be it the humans of the seven countries or the totem clans, their mentalities completely collapsed.

The Mechanics who originally wanted to show off their might even looked like they had lost their parents, their eyes gray and white!!

What was wrong with this guy!!! Please, one of the gods, please take this guy in and stop let him participate in the world competition!! They really couldn't take it anymore!

[Unscientific Beast Taming](#)

Chapter 954: Envious Reward

One of the three Mythical races in the east, the Mythical Race, the Wind Kirin!

Shi Yu had revived and created a legend through Mechanic methods!

At this moment, even the divine beasts were moved.

They first thought of a problem.

"You... can revive gods through Mechanic methods with the divine fossil as a medium?"

"In other words, if I find all the Mythical fossils on Blue Planet, you can pull up an army of mechanical Illusion Gods who have mastered law divine skills?" the Boar God asked.

This was simply even more ridiculous than its laws of life.

As soon as he finished speaking, the hearts of many totem clans skipped a beat. The Shen Feng Mechanical Legendary's heart even twitched.

Wait a minute!

It was impossible for the Mechanic class he established to be so impressive. Why didn't he know that the Mechanic class could also create a Mythical army!

Initially, many countries already felt that the fossil recovery technology was very ridiculous, but they didn't expect that this technology could really touch the divine domain!

"In theory... that's the case," Shi Yu said.

However, in reality... Shi Yu felt a little pained.

After all, the most important thing was not the fossil recovery technology at all.

Fossil recovery technology couldn't create Mythical races.

The main reason why Ling could become a Mythical Race was because of the "Mythical Revival" Skill.

This skill was the key. This should also be a skill developed by a super big boss in the Mythical Era.

Lu Qingyi benefited, and Shi Yu benefited even more.

To put it bluntly, he still had to add points.

"Although it can revive in theory, it requires a huge price."

No one cared about the price Shi Yu mentioned. The totem clans looked at Shi Yu with bloodshot eyes.

Especially those totem clans who had a feud with Dong Huang. They felt that even Divine Source Legendary was not as threatening as Shi Yu.

If this guy grew to the legendary level, no, even if it was only the legend level, they wouldn't be at peace.

"Could it be that... there are still a large number of Mythical fossils on Blue Planet?"

Upon hearing the Boar God's question, Shi Yu was slightly concerned.

Although reviving required him to work hard again, Shi Yu didn't mind at all if there were really a large number of Mythical fossils!

After all, every Mythical fossil might have a remaining divine skill inheritance like the Wind Kirin fossil.

After screening, as long as there were a few super skills like Wind Blessing, Nine-Colored Divine Light, and Yin Yang Millstone, it wouldn't be a loss.

At this moment, as Shi Yu asked, the totem clans began to panic. They were really afraid that the World Tree and the others would take out a pile of Mythical fossils for Shi Yu to revive.

If that was the case, wouldn't Dong Huang be completely invincible?

Fortunately, what the World Tree said next made them feel at ease.

"Unfortunately."

"The corpse of a god is indeed the first preservation item."

"But the Mythical Era was too long ago compared to this age. There aren't many divine-level fossils preserved at all," the World Tree said.

The Mythical Era was too far away. After that, Blue Planet encountered many disasters.

Just the asteroids hitting Blue Planet had happened several times.

"Moreover, the number of gods in the Mythical Era isn't as many as you imagine."

In the Mythical Era, there were only a few hundred creatures that could be called divine-level above demigods.

In war, there were too few bodies that could be left behind.

After the battle, there were less than a hundred left.

There were less than a hundred gods. After reincarnations, sleeping, and dying... There would not be a large number of Mythical fossils at all.

"Unfortunately," Lord Lie Shan and the Boar God also said.

At this moment, Lord Lie Shan looked at Legendary Z again.

As for Legendary Z, his expression froze. He didn't know what to say at all.

Machines could also be divine... Machines could also be divine. He couldn't understand how such an achievement could be developed by a young kid from Dong Huang.

"Are there any Mechanics from other countries who have reached the Mythical Race?"

Lord Lie Shan's words made the Mechanics of the seven countries extremely annoyed.

Not to mention Mythical races, even if there was a high chance of growing into a totem-level quasi Mythical race, there were pitifully few.

At this moment, many factions understood that Shi Yu, this bastard, had taken the inheritance of the fourth trial again.

Unacceptable!

The Mechanics were silent.

"Then let them out for me to see too," Lie Shanjun said.

It was indeed still curious about the Mechanic class.

However, at that moment, the Mechanic contestants were no longer as excited as before.

All of them cried, feeling that they were accompanying the main event.

"As for you..." Lord Lie Shan looked at Shi Yu.

As for Shi Yu and Ling, they also looked at Lord Lie Shan.

Reward!

What was this big tiger's inheritance?

Earth-element Mythical resource?

Lie Shanjun grinned and said, "What a coincidence."

"Although there aren't many divine stones left from the Mythical Era, I happen to have one here."

"However, it's not a fossil."

"At the end of the war, I discovered a young god that had just been born and was on the verge of death."

"Its unlucky dead parents asked me to petrify and seal it, hoping that it can successfully survive the war."

"At the moment, it's in a petrified seal state. After the Mythical Revival, it should be able to walk out of the divine stone again."

"That guy is also a divine-level race and has mastered the prototype of a divine skill. Why don't I leave it to you to nurture?"

"As the inheritance of the fourth trial, the real inheritance of a god."

A divine beast cub?

"This..."

"How can that be?"

At this moment, everyone widened their eyes and revealed incredulous expressions.

[Unscientific Beast Taming](#)

Chapter 955: Envious Reward (2)

The fourth trial inheritance was a divine beast cub???

"Huh?" Shi Yu was also slightly stunned. Not a divine-level resource??

Why was it a divine beast cub...

He had enough cubs. In the clueless team, Little Ji, Duckie, Qi, and Little Purple had yet to grow up.

If another one came, Team One wouldn't do anything else all day. They would just take care of their children.

"This guy!" At this moment, the Boar God and the other gods felt that the Lie Shanjun was a thief.

How could he be so perfunctory? Just this was also called an inheritance?

However, they understood Lord Lie Shan's thoughts.

Lord Lie Shan's current state should be the one with the worst Restoration among them. He was extremely weak.

At the moment, they were basically equivalent to Mythical Races at the overlord level, while Lord Lie Shan was about at the monarch level.

If in this state, Lord Lie Shan didn't happen to have an inheritance crystal like the Holy Divine Deer and instead had to distribute additional power to inherit it, his vitality would be even more heavily injured.

Therefore, throwing out a divine stone that sealed the young of the divine race from god knows where as an inheritance was indeed in line with its current state.

The gods and Shi Yu felt that this inheritance was a little careless. After all, they were all people who had seen the world. On the other hand, the totem clans and contestants of the seven countries were stunned.

A divine beast cub!!

Shi Yu already had a cub of a Mythical Race, that Wind Kirin. If there was another one, wouldn't that be... two?

What would happen?

If he could contract two Mythical Races, even if the Beast Tamer was a pig, he could break through to the legendary level under the lead of the two Mythical cubs, right?

"Damn it..." Even the contestants from the Seven Nation Alliance, Shen Feng, Xue Yuan, and the others were extremely jealous, let alone the totem clans.

Those demigod experts were all extremely silent. If a Mythical Race was nurtured by them, their country would undoubtedly have a new general!!

Although these demigod experts weren't Beast Tamers and couldn't contract pets, they were also nurturing subordinates and enriching their factions.

For example, a thousand years ago, when the totem king, Yun An, was at the demigod level, he also had twelve generals with totem strength.

It could be said that if it weren't for the fact that Emperor Wu Dynasty had other powerful Beast Tamers and guardians, Emperor Wu definitely wouldn't be able to deal with the Yun clan alone.

King against king, general against general. Ancient and modern wars had always been like this. Therefore, even the totem country yearned for a cub with Mythical potential and was extremely envious.

Shi Yu's reward made everyone envious again.

"What?" Lord Lie Shan narrowed his eyes and said, "From the looks of it, you're not satisfied?"

"No, very satisfied," Shi Yu said. Forget it, it was better than nothing. Let's see what it is first.

"You're lucky. That divine-level cub came from a demon race of a divine-level race. Its potential is extraordinary."

"Let's go, follow me." Lord Lie Shan roared. The Mythical Ruins it slept in directly opened.

The Void crack opened, and Lord Lie Shan directly entered. At the same time, he let Shi Yu follow it.

Demon Race!

At this moment, Shi Yu looked at the spatial ripples and his expression changed slightly.

At the same time, in the outside world, when they heard Lord Lie Shan's words, the demigods of the Demon Kingdom and the Fallen Angel Prince were also in disbelief.

On the side of the Kingdom of Glory, the Hero King, the Holy Maiden of the Divine Radiant Church, and the others couldn't accept it.

Demon Race!!

The divine-level cub that Lie Shanjun had sealed and fossilized was actually from the Demon Race?

On Blue Planet, there were currently five divine-level races known to humans in the Mythical Era. The dragons, phoenixes, and kirins in the east, and the dragons, angels, and demons in the west.

Among them, the dragons were thought to come from the same source and were considered a race.

As for angels and demons, they were very famous in the West. The demons were even regarded as synonymous with Unholy, Darkness, Disease, and Disaster. They were the enemies of all races!

"So be it. Is there a problem?"

At this moment, Dong Huang was very open-minded. Divine Source Legendary laughed. When he thought of how Dong Huang could have a new creature with divine-level potential, he felt even more excited.

Shi Yu had even included the Abyss Demon Duck in the clueless team. So what if another demon came?

Although the reputation of the Demon Race was poor, as long as it was cultivated appropriately, what did it mean? Wasn't the reputation of the Mechanic class also poor in the totem country?

At that moment, as Shi Yu followed Lord Lie Shan into the Mythical Ruins, the gods led by the World Tree fell silent. Among them, the Demon King Dragon's dragon eyes circulated for a long time before it spat out a dragon breath.

"Boring. Do we still have to wait for that guy to finish searching for the divine stone and finish looking at the Mechanic class? Can my trial begin first?"

...

In Lord Lie Shan's Mythical Ruins.

This place was more like a continuous mountain. It was all a rock environment.

After Shi Yu followed Lie Shanjun in, he immediately saw the huge divine stone in front of him.

It was completely reddish-brown and looked extremely ordinary. Apart from the strong traces of time, Shi Yu couldn't see anything special about it.

Lord Lie Shan stood beside this huge reddish-brown divine stone and said, "Wait for me for a moment. I'll revive this divine stone."

"This way, even without waiting for the Mythical Revival, it can break out of the stone after adapting to this era."

"Lord Lie Shanjun, you just said that it's a demon?" At this moment, Shi Yu couldn't help but be interested.

"Fallen Angel??"

"No." Lord Lie Shan placed his huge tiger claws on the reddish-brown divine stone and said, "The Fallen Angels are only angels who have fallen to the Demon Race. They're just one of many Demon Races."

[Unscientific Beast Taming](#)

Chapter 956: Envious Reward (3)

"Just like how the Wind Kirin is a branch of the Kirin Race."

"This guy, in terms of Stats and race, should be considered a poison-element demon race." The corners of Lie Shanjun's mouth curled up. "One of them completed a new evolution with the help of the cosmic virus on the meteorite in outer space. It's considered an anomaly of the demon race."

"Poison element?" Shi Yu was slightly stunned. "It can't be related to the Abyss Evil God, right..."

If that was the case, it was even more impossible to keep it. One duck was enough to give Susu a headache.

No, even if it was unrelated, Susu probably wouldn't like poison.

"It's unrelated. The starry sky is filled with vast secrets. Not everything is related to the Abyss Race," Lie Shanjun said.

"Speaking of which, you humans seem to still be visitors from outer space. Although you've already been modified into a native race, this talent is indeed extraordinary."

"No wonder the planet took a fancy to you."

Lord Lie Shan's gaze burned. Sigh, it was a pity that it wasn't suitable to fight in the starry sky. Otherwise, it wouldn't have fallen asleep no matter what. Instead, it would have left Blue Planet with another batch of guys.

Thump.

At this moment, Shi Yu's heart skipped a beat after hearing Lord Lie Shan's words.

Just now, he almost thought that Lie Shanjun had said that he was a guest from outer space and recognized his identity as a transmigrator. He was shocked. Even the World Tree couldn't see that. However, after listening carefully, he realized that Lie Shanjun was talking about humans. The entire human race was a guest from outer space.

It had been modified into a native race of Blue Planet.

Shi Yu's expression was slightly solemn and frozen. He looked at Lord Lie Shan and said, "Just now... what did you say??"

"Humans weren't native races of Blue Planet at the start??"

"You don't know?"

Lie Shanjun was stunned. When it saw Shi Yu's shocked expression, it immediately shut up. However, the corners of its mouth twitched. "Ah, forget it. It shouldn't be anything worth hiding. I don't know much either. Go and ask the World Tree yourself, just don't say that I said it."

"If you can obtain the blessings of the World Tree, it should tell you."

At this moment, Shi Yu's heart was no longer calm. He was a little shocked. Wait a minute, if humans weren't native races of Blue Planet, where did the first batch of humans come from?

Was it from the starry sky, or was it Earth?! Or could it be that Earth also existed somewhere in the starry sky, a starry sky mystic realm similar to Blue Planet?

In fact, had the divine beasts on Blue Planet been to Earth? Or was Earth not that simple? Did a god on Earth Relocate to Blue Planet?

To be precise, Blue Planet and Earth were indeed inextricably linked. Many myths were similar. Even Shi Yu's mind domain could only be cultivated thanks to the divine power of the ruins on Earth, let alone the characters similar to the iron-eating beast inscription he had seen on Earth.

"Perhaps the World Tree really knows the connection between Earth and Blue Planet." Shi Yu's expression froze. This was what he wanted to understand the most after transmigrating.

After the World Tournament ended, he hoped to obtain more information from the World Tree. If there was a connection between the two worlds, he didn't know if he would have a chance to return to Earth to take a look. With his current ability, he should be able to explore all the ruins on Earth in a very short period of time.

Moreover... Shi Yu wanted to know if the house he bought with the loan had been auctioned off for him after he died. His heart ached. Who knew how long he had saved for the down payment?

"Alright." At this moment, with a boom, the huge reddish-brown divine stone shattered the outermost layer.

Lie Shanjun retracted his huge claw and looked at the core of the gravel. Shi Yu also looked over.

At this moment, the divine stone looked like a transparent reddish-brown amber. Inside was a creature that Shi Yu didn't expect. It was less than a meter tall.

It had a reddish-brown insect body and was covered in insect armor. Green virus patterns were all over the insect armor. On its forehead, there was a thick horn, and its handsomeness was close to Little Ji. Shi Yu was immediately stunned. This f*cking demon? Wasn't this a f*cking Horned Beetle that stood up?

"Its race is called the Horned Demon," Lord Lie Shan said. "You can make do with nurturing it. I don't have anything else for you."

Shi Yu: (F*ck) As expected, he didn't like felines like this tiger.

[Unscientific Beast Taming](#)

Chapter 957: The Strongest Dragon Trial

In the outside world.

The Demon King Dragon's gaze swept across the various dragons with interest.

It even looked at the demigod-level dragons with the potential of their race to enter the God Domain through the alternate space.

Dragon Palace City, Dragon God!

Dragon Empire, Black Dragon Ruler!

"Boring. Do we still have to wait for that guy to finish searching for the divine stone and finish looking at the Mechanic class? Can my trial begin first?"

This Demon King Dragon's aura rose to the sky. Previously, the seven of them had agreed on the order of the trial. It was the fifth!

"Your Majesty." The World Tree clone looked at the Demon King Dragon.

"What kind of trial do you plan to undergo?"

"Hahahaha." Demon King Dragon's laughter sounded.

"Needless to say, it's naturally the strongest dragon trial. Only the strongest dragon is qualified to inherit my power."

Its red dragon eyes looked at the dragons in all directions and said, "All the dragon-element creatures here will fight to determine the strongest dragon."

"Rules, one-on-one."

"The strongest person will obtain my dragon bone!!"

"This dragon bone is the skeleton I once shed. It contains the divine power to change races. It's a bloodline crystal from my previous life that can allow the transplanted dragon race to evolve into a divine domain!"

"It can be seen as a divine-level evolution resource of the dragon race."

"Little brats that want it, come, let me see your strength."

Its aura erupted, moving all the dragons.

"This guy..." The Boar God and the other gods were not too surprised by the Demon King Dragon's trial.

As expected, it was also a test of battle power, and it had specified the dragon race.

"Boring!" The huge Golden Bull God's gaze was hot.

Ah.

He wanted to fight.

Compared to letting these trial-takers compete, it wanted to go down by itself and let these trial-takers please it more!

Whichever guy could let it fight to its heart's content, it would give it some gifts.

He wondered if the creatures of the future and the brats of the new era could make it interested.

"In that case, we can indeed start first," the World Tree clone said.

"In that case..." The Demon King Dragon looked in the direction of the Dragonman Empire.

It looked at a humanoid life form several meters tall with an extremely tall and burly figure. It had legs and arms, and its entire body was covered in green dragon scales. It had a pair of dragon-shaped long horns. It was standing there domineeringly and also looked at the Demon King Dragon with a burning gaze.

An opportunity to enter the God Domain...

It had finally arrived.

Beside it was a young man more than two meters tall with a similarly burly figure and dragon horns. The two had the same aura, as if they were twins.

They were both hybrids, but for one, the dragon bloodline occupied the dominant part, and the other, the human bloodline occupied the dominant part!

It was the Green Dragon Prince who had stepped into the totem level in the Dragonman Empire, as well as its contractor, the legendary Beast Tamer with the dragon blood talent!

In the sky, the Demon King Dragon stretched out its huge dragon claw and pointed at the Green Dragon Prince. "Little brat, I can sense that your strength is very strong and your bloodline is very special..."

"It should be the dragon with the strongest bloodline apart from those guys hiding in the alternate space."

"Is it because it's a human-dragon hybrid?"

At this moment, in the World Tournament, the only two totem-level contestants, the Green Dragon Prince, was even more excited when he saw the Demon King Dragon directly asking him questions.

It laughed out loud and said, "Lord Demon King Dragon, that's right. My bloodline, the merits of the gathered dragons, the merits of the humans, and the faith of the thousands of citizens of the huge Empire..."

"It's a well-deserved perfect dragon."

"However, compared to Lord Demon King Dragon's bloodline, it seems like a drop in the bucket. I'm willing to participate in this trial. If I can obtain Lord Demon King Dragon's dragon bone, I'll feel like I've been reborn!"

Bah, bootlicker!!

"Damn it." The Fallen Angel of the Demon Nation's expression couldn't help but darken when she saw the Green Dragon Prince being so shameless.

However... the bloodline of the Green Dragon Prince was indeed terrifying.

It was simply carved from the same mold as the ruler of the Dragonman Empire, the Tyrant Dragon King.

The Tyrant Dragon King was also a perfect combination of the dragon race and the human race. At the same time, it gathered the power of faith of the huge empire and completed the evolution.

Although the Fallen Angel Aldrich was known as the most perfect race closest to a god, it was still rather afraid of this Green Dragon Crown Prince, who was one level higher than it.

"Not bad."

"Then, what are you going to do?" The Demon King Dragon seemed to like this very much and thought very highly of the Green Dragon Prince.

It believed in its eyesight. Apart from the Tyrant Dragon King, the Dragon God, the Black Dragon Ruler, and other hidden alternate spaces, and not the super dragons of the contestants of this world competition, the Green Dragon Prince's bloodline was the strongest.

At the same time, its growth level seemed to be extraordinary, far exceeding the other contestants.

In addition, with the "human" bloodline specially taken care of by the World Tree, this Green Dragon Prince directly became the first choice for the Demon King Dragon.

How ridiculous.

The first four trials were actually taken by the same person, but this wouldn't happen to it.

The Demon King Dragon didn't want its inheritance to be taken away by the inheritors of other gods. This would make it look very lousy.

"I understand." The Green Dragon Prince's blood boiled after the Demon King Dragon's words.

Although its current bloodline was extremely outstanding, it was nothing compared to the bloodline of a god.

The Green Dragon Prince was determined to get the Demon King Dragon Bone.

Boom!!!

A shocking dragon-shaped aura appeared on it and the contractor. Both parties leaped into the air and landed on the huge rock-element arena.

[Unscientific Beast Taming](#)

Chapter 958: The Strongest Dragon Trial (2)

It faced all directions.

At the same time, extremely arrogant words came out of the Green Dragon Prince's mouth.

"Ants, the inheritance of Lord Demon King Dragon is mine."

"Those who aren't convinced, come up and challenge me!!!"

"However, before challenging, please be prepared to lose your life."

"I can't guarantee that I can control it well. The huge power in my body can not guarantee that the challenger can end the battle alive."

Boom!!!

The Green Dragon Prince in the form of a dragonman laughed crazily. The totem-level power erupted from the inside!!

Buzz!!

With the Green Dragon Prince as the center, the dragon-shaped deterrence was like flames, sealing everything within a hundred meters of it.

The dragon wave that shot into the sky turned into a tornado and shattered the clouds. Amidst the shocking aura, one could vaguely see the Green Dragon Prince's red and shining Berserking Eye.

Its contractor looked around coldly in the tornado and said, "Master, you'll scare them like this."

Bang! Bang! Bang!!

Indeed. At this moment, the overlords and legends looked at the shocking aura in extreme shock.

Not to mention Normal Legends and Normal overlords, even totem-level lives like the gem cat were extremely solemn.

"Hey, hey, hey."

In Dragon Palace City, the Ice Dragon King found it difficult to accept. "Can such a guy really participate in the world competition?"

"Isn't its strength a little too exaggerated?"

"How exactly did that thin human beside it complete the contract with it? Is the dragon blood talent really that magical?"

"This dragon is equivalent to the appearance of that Fire Dragon King after it advanced to the totem level. No, it's even stronger than that."

As the only two totem-level contestants in the World Tournament, the Green Dragon Prince and the Rubber Divine Tree had always been the focus of the various large factions!

Even if Shi Yu obtained four inheritances in a row, in the eyes of some demigods of the totem clans, in the eyes of some world competition champion candidates, he was still not as threatening as totem-level contestants like the Green Dragon Prince.

The thing that was threatening about Shi Yu was his potential. If Shi Yu was given enough time to grow to the Legend level and let him digest these inheritances, it would undoubtedly be the most terrifying.

However, from the current situation, Shi Yu probably didn't have much time to digest it. At this moment, the totem-level contestants like the Green Dragon Prince, who really had the ability to crush all enemies, were the source of the fear of the contestants from the Ghost Sea, the Endless Sea Region, the Void Court, and the humans of the seven countries!

Even if the Green Dragon Crown Prince was at the overlord level, his strength probably wouldn't be much inferior to them. And this guy actually successfully stepped into the competition of the World Tournament at the totem level. At this moment, even a monstrous race like the Fallen Angel wasn't very confident in facing it.

He felt that if he wanted to defeat it, unless he also took the risk to break through to the totem level, the chances of winning were really not high.

Without a doubt, on the surface, the Green Dragon Prince and the Rubber Divine Tree were the contestants with the highest chance of winning the World Tournament.

After all... there was an entire level of difference!

"That bastard..." The Black Dragon Juggernaut looked in the direction of the Tyrant Dragon King with a burning gaze.

It was all because the news of the World Tournament came too suddenly. Otherwise, it could definitely nurture an heir not inferior to this guy.

"Is that dragonman learning from Shi Yu?"

In order to end the battle as soon as possible, Shi Yu also said ruthless words and directly killed the Fire Dragon King, making no one dare to challenge him.

And now, the totem-level Green Dragon Prince also said ruthless words.

For a moment, even some dragons who could be said to be invincible overlords among the contestants of the World Tournament became afraid.

"Divine Source, isn't your Dong Huang very powerful? Punish it again."

At that moment, sensing the threat of the Green Dragon Prince, Shen Feng Legendary Z's expression was not good.

Divine Source Legendary remained silent and looked at the Green Dragon Prince below.

Then they would wait... for Shi Yu to come out of Lord Lie Shan's place.

A mere dragonman... wanted to touch the faith of the Green Dragon?

At this moment, Inatella was silent. Countless factions looked at the Green Dragon Prince, and no one dared to fight.

If it were at the same level, most dragons would give it a try. However, with a major level difference placed here, many contestants first had to ask themselves if they had the strength to fight above their level.

"Let's wait and see first."

The seven countries were at a disadvantage in this kind of trial. When the legendary Dragon Tamers of the various countries heard the rules of the one-on-one battle to determine the strongest dragon, their expressions immediately darkened.

Whether the contracted pets could defeat this Green Dragon Prince in a group battle was another matter. One-on-one... was impossible.

As long as there were no restrictions on Stats and everyone was allowed to participate in the main competition of the World Tournament, the contestants of the seven countries probably had a trace of hope of defeating the Green Dragon Prince.

"Little nobody, you're too arrogant."

However, just as everyone was afraid of the strength of the Green Dragon Prince, to the surprise of the surrounding countries, someone stood out.

Eternal Desert!

Invincible overlord, Sand Burial Dragon!!!

"Roar!!!" A huge dragon dozens of meters tall and covered in yellow sand condensed into form with a sandstorm and suddenly roared.

Yellow sand gathered for ten thousand miles, and a huge figure condensed on the earth-element arena. In the sandstorm, under the dragon, a human Beast Tamer who looked like a desert race with a headscarf appeared with the Sand Burial Dragon.

"It's the trump card of the Eternal Desert..."

Seeing this challenger, many factions were stunned. They didn't expect the Eternal Desert to actually stand up and challenge the Green Dragon Prince.

[Unscientific Beast Taming](#)

Chapter 959: The Strongest Dragon Trial (3)

Sand Burial Dragon, elements of earth, undead, and dragon.

Its life form was extremely special. It was both an Elemental life form, an undead life form, and a dragon life form.

In terms of potential, most demigods felt that the Sand Burial Dragon might not necessarily be inferior to the Green Dragon Prince.

"A nobody?" The Green Dragon Prince looked at the Sand Burial Dragon and smiled in anger.

Indeed, the Dragonman Empire, which wasn't a demigod faction, was indeed inferior to a large faction like the Eternal Desert. In the world, its reputation wasn't obvious.

However...

Its eyes were red. The other party thought that the Dragonman Empire was weak, so it was wrong.

"You're quite interesting too." At this moment, the Demon King Dragon was watching the commotion. Seeing that the potential of the Sand Burial Dragon was not bad, it immediately said, "You guys, fight!"

Boom!!!

Under the urging of the Demon King Dragon, the Sand Burial Dragon directly started the battle!!

So what if it was at the totem level?

As long as he killed the burdensome Beast Tamer, the Green Dragon Prince, he could still win!!

"Roar!!!"

At the start of the battle, the contractor of the Sand Burial Dragon used the Beast Taming Talent "Spatial Gift" to strengthen the Sand Burial Dragon!!

This talent was evaluated by the Holy Divine Deer and the others as a seven-star talent. It could allow all the moves of the contracted target to have powerful spatial characteristics!

It was more comprehensive than the Nine Li Battle Beast's Space Quake. It was similar to the talent of the Demon God Body. It was also at this moment that this Sand Burial Dragon directly had the four major Stats characteristics!

Elemental, undead, dragon, and space!

With such Stats, it was no wonder that it dared to challenge the Green Dragon Prince, who was one level higher than it.

"Space Gift!" The contractor of the Sand Burial Dragon activated its talent. It instantly etherealized and fused with the yellow sand, looking like it had disappeared without a trace.

"Roar!!!" At the same time, the huge Sand Burial Dragon swept up its strongest profundity!!

Life Corrosion!!!

Perfect proficiency earth-element super skill Absolute Corrosion, undead-element super skill Life Deprivation, dragon-element and Spirit-element super skills Dragon Soul Resistance, in addition to the spatial nature...

A sand dragon head dozens of meters tall that contained shocking might formed, shaking space as it swallowed the Green Dragon Prince.

As soon as it came up, the Sand Burial Dragon activated its super profundity.

"This is... super profundity..."

As the Sand Burial Dragon attacked, the expressions of the audience and contestants immediately changed. As expected of the invincible overlord of a demigod faction.

However.

"You do have some ability, but..." The Green Dragon Prince didn't even have the intention to dodge. He directly stretched out his arm, raised his hand, and aimed his palm at the huge dragon head!!

Boom!!!

Everyone only heard a loud bang. A huge green tornado condensed and also swallowed the profundity of the Sand Burial Dragon. The profundity that shook the Void just now instantly made it difficult to even see the molecules that were instantly swallowed by the Gust under the change in the Sand Burial Dragon's expression.

In just one round, the Sand Burial Dragon understood the difference.

"Its goal isn't to fight head-on..." But soon, everyone suddenly discovered that at some point, the ground under the feet of the Green Dragon Prince's contractor cracked with a bang, and a spatial vortex of sand appeared, as if it wanted to devour the Green Dragon Prince's contractor.

Seeing this, the hearts of the members of the Dragonman Empire rose. But soon, their expressions relaxed. This was because in the face of the Sand Burial Dragon's sneak attack on the human contractors, the expressions of the Green Dragon Prince and its contractors were very calm from the beginning to the end.

The contractor didn't even need to etherealize.

He slowly lowered his head, right on the heels of that, raised his foot, and gently stepped on it.

Boom!!!

A huge pit dozens of meters in diameter directly formed. The ground caved in, and the ground trembled. The expressions of the Sand Burial Dragon opposite almost instantly trembled. Many others' expressions also changed. They completely didn't expect that the contractor of the Green Dragon Prince would display the attack power of an invincible overlord with just a step.

"Pfft..." As the leader of the sneak attack, it was the contractor of the Sand Burial Dragon. At this moment, with this step, he directly fell into the depths of the huge pit as if his body had shattered. He looked at the Green Dragon Crown Prince contractor floating in the sky in shock.

In the third trial, everyone knew that the dragon blood talent didn't have any battle power enhancement for transcendent lives, but at this moment, everyone was shocked to discover that the one who obtained the enhancement seemed to be the human race itself.

Because of the dragon blood talent, not only did the contractor of the Green Dragon Prince reduce the difficulty of the contract with the Green Dragon Prince, but it could also share a portion of its strength. Its own strength was even more terrifying than Shi Yu, who had displayed astonishing strength in the preliminaries.

It was not a shortcoming at all. In fact, he could defeat most contestants alone.

"Die..." After capturing the attacker, the Green Dragon Prince didn't show mercy, even if the other party was from a demigod faction.

"How dare you!!" The Sand Burial Dragon roared.

This battle was equally tragic.

In just a moment of confrontation, the contractor of the Sand Burial Dragon was directly suppressed and killed. The Sand Burial Dragon was even heavily injured because of this.

The Green Dragon Prince had no intention of stopping attacking at all. The muscles on its body increased exponentially. Under the frightened expression of the Sand Burial Dragon, it instantly arrived beside it.

A claw slapped over.

In an instant, the Sand Burial Dragon was swallowed by the endless storm.

"Why are they fighting?"

The Void opened, and Lord Lie Shan brought Shi Yu out of the Mythical Ruins. In the sky, Shi Yu narrowed his eyes slightly, afraid that the yellow sand would enter his eyes. He happened to see the battle between the two parties reach the most intense moment.

In just a moment, he figured out the cause and effect of the fifth inheritance trial.

The battle for the strongest dragon type...

Shi Yu didn't expect to face a totem-level enemy so quickly. He couldn't help but look forward to it.

[Unscientific Beast Taming](#)

Chapter 960: The Strongest Dragon Trial (4)

He had long wanted to try that move...

On the arena, although the scene looked extremely intense, it seemed that the Green Dragon Prince was the one suppressing the Sand Burial Dragon the whole time.

"I admit defeat..." However, from the looks of it, the Green Dragon Prince was still not as decisive as Shi Yu. Although he ruthlessly killed the contractor of the Sand Burial Dragon, he couldn't instantly kill the Sand Burial Dragon itself.

When the Sand Burial Undead Dragon admitted defeat, the demigod of the Eternal Desert quickly took the Sand Burial Undead Tornado away. It took its contestant away very smoothly, unlike how the Black Dragon Ruler was stopped by the Dragon God when it wanted to attack.

Seeing this, the Green Dragon Prince curled his lips.

"Where's your aura just now?" In midair, the Green Dragon Prince looked at the Sand Burial Dragon that was swept away and revealed a mocking smile.

....

"They're on completely different levels." At this moment, as the battle between the Green Dragon Prince and the Sand Burial Dragon ended, the totem half-gods and human Legendaries had serious expressions.

If the Green Dragon Prince relied on Legendary resources to break through, its strength might not be that difficult to deal with. However, from the situation just now, this guy's talent was impressive and his strength was incomparably terrifying. He definitely didn't break through with resources alone.

At this moment, the rubber divine tree, which was also at the totem level, also revealed a shocked expression.

The strength of the Green Dragon Prince was undoubtedly too difficult to resolve for many contestants who wanted to win the world competition.

"This world competition..." The Eternal Desert demigod, who had swept away the Sand Burial Dragon, felt that the waters of this world competition were really too deep. There was no fairness at all.

How could they let such a totem-level creature participate?

"Its strength is incomparably solid. It's a normal totem with extremely strong talent potential. It's impossible for it to be defeated above its level."

At this moment, the Black Dragon Ruler of the Dragon Empire couldn't help but fall silent. It understood that even if the Fire Dragon King wasn't killed by that bastard Shi Yu, it wasn't a match for this dragonman.

At the same time, the expressions of the Dragon Palace people were also solemn. They didn't expect that the Dragonman Empire would produce another genius with excellent potential. Could the Golden Dragon Crown Prince... defeat it? It would probably be difficult not to break through to the totem level.

"Hahahaha." At this moment, the Demon King Dragon saw that the Green Dragon Prince had easily won and couldn't help but look at it. "Not bad. Moreover, you haven't used your full strength, right? Your physique is very special."

"Yes." The Green Dragon Prince was very obedient when facing a god.

"My dragon physique is a mixture of wood and water. My self-healing ability is strong, and I can easily communicate with the power of nature. What happened just now could only be considered a warm-up." The Green Dragon Prince had an invincible expression.

The others were actually wrong. It indeed relied on resources to break through. However, apart from several suitable legendary resources, it also borrowed the power of faith of the huge Dragonman Empire to break through, so it forged an invincible physique.

The Green Dragon Prince was extremely touched that his father could give him the power of faith. At the same time, he was determined to win the world competition and the divine inheritance.

"Your physique is indeed not bad." The Demon King Dragon nodded.

At this moment, when they heard that the Green Dragon Prince was only warming up by dealing with the Sand Burial Dragon, the dragon overlords' expressions darkened even more.

"Are there any more challengers?" Seeing this, the Demon King Dragon continued to ask. In any case, it felt that it was about time for this Green Dragon Prince to accept its dragon bone inheritance.

The other party's physique, together with its dragon bone, might be able to evolve into an extremely strong Dragon God.

Silence.

Inatella was silent.

The contestants of the Eternal Desert had looks of hatred, but they were helpless.

The totem-level Green Dragon Prince was too strong. The key was that it wasn't a totem with an unstable foundation.

It was a genius totem.

In such a situation, the difference in level was impossible to cross.

"The reward for the fifth trial is an evolution dragon bone?" At that moment, Shi Yu, who came out, immediately learned the situation from Teacher Cat's voice transmission.

His expression couldn't help but darken.

F*ck, why were their inheritance rewards each more lousy than the other?

When he saw the Demon King Dragon, he thought that he could find a Mythical resource for Buggy, but in the end, this was it?

He had the Dragon of Imagination as an evolution skill and the Green Dragon inheritance as an advancement path. What was the use of this lousy dragon bone?

Even if it was Little Ji, it still had the fusion of the Earth Divine Dragon fossil. It had stable Mythical potential, so it might not necessarily need this dragon bone with incompatible Stats.

Shi Yu thought for a moment. Perhaps after taking it out, it could exchange it with Dragon Palace City and hand it over to Dong Huang to exchange for other resources it needed. It was its only place to go.

"Oh??" At this moment, the Green Dragon Prince also noticed that Shi Yu had come out with Lie Shanjun.

It looked at Shi Yu, this shameless human.

It was this guy who took away four inheritances in a row.

Although it had also obtained one, it still felt very unhappy with Shi Yu.

If it encountered Shi Yu in the main competition, it would definitely kill Shi Yu.

Even if Shi Yu broke through to the Legend level, it didn't matter. This was because after obtaining the dragon bone, it wanted to transplant and fuse it immediately!!

At that time, its strength would definitely be stronger!!

At this moment, not only the Green Dragon Prince, but many people also discovered Shi Yu's return.

They looked at the expressionless Shi Yu floating in the sky with Psychic power. Before they could think too much, they saw Shi Yu in the sky slowly land on the arena.

This scene stunned everyone.

It stunned the various gods and the Green Dragon Prince, making them unable to react for a moment.

"It should be the fifth trial now, right? The content of the trial is... to decide the strongest dragon?"

"Are you the strongest dragon now?"

After Shi Yu landed, he said to the Green Dragon Prince in an extremely calm but arrogant tone.

At this moment, the totem clans and the humans of the seven countries found it difficult to understand. They widened their eyes. No way, could it be that Shi Yu also wanted to interfere in this trial??

Wait a minute, this trial was fundamentally different from the four just now!!

In the totem country, there were only two totem levels, and they were powerful dragon hybrids. They had already targeted this inheritance!!

Even if they were also at the totem level, they might not necessarily be able to defeat the Green Dragon Prince with a unique bloodline. Even legend Beast Tamers and invincible overlords were helpless in front of it, let alone Shi Yu, who was only a level-six Beast Tamer!!
