Chapter 961: Green Dragon God Relocate (1)

Earth-element venue.

Dragon Trial.

Shi Yu was already standing opposite the Green Dragon Prince and its contractor.

At this moment, the Green Dragon Prince was the most confused.

"Human, don't tell me you want to participate in this trial?"

"You want to challenge me?"

The Green Dragon Prince's voice was filled with disbelief, as if he was shocked by Shi Yu's courage.

"Huh?"

Shi Yu looked puzzled and said, "Could it be that I can't participate in this trial?"

At this moment, the Green Dragon Prince was completely impressed.

He was amused by this arrogant and ridiculous human.

Not to mention it, the Boar God, Xuan Ming, and the Holy Divine Deer looked at Shi Yu in surprise.

Wait a minute, this kid, no way?

"You have a dragon-type pet?!" The Green Dragon Prince laughed very loudly.

At the scene, not many people knew that Shi Yu had a dragon-type pet.

Divine Source Legendary, President Lin, World Tree clone... They had all seen Buggy in the form of a green dragon.

The Fallen Angel's expression also changed because it had once sensed a dragon might that shocked it in Shi Yu's gaze.

As for the others, they completely didn't remember Shi Yu having a dragon-type pet.

Iron-eating Beast, Butterfly of Imagination, Baby Ginseng, Sword Spirit, Blue Sea Sprite, mechanical phantom beast...

Although the Butterfly of Imagination had sometimes created dragon-element illusions, it was still a butterfly evolved by the Green Silkworm after all. No one would think about dragons.

"You have a dragon-type contracted creature?" Apart from the Green Dragon Prince, the Demon King Dragon was also very puzzled.

He didn't expect Shi Yu, who had previously obtained the inheritance of the four gods, to want to interfere again.

To be honest, it didn't want to pass the inheritance to someone who repeated it.

Moreover, it didn't think that Shi Yu could defeat this Green Dragon Prince.

"Yes, so, do you want to admit defeat?"

"To be honest, I don't want to send it to battle."

Shi Yu looked at the Green Dragon Prince and said, "Because that might be very troublesome for the gods."

"What a joke." The Green Dragon Prince laughed and said, "Shouldn't you be the one who should get lost?"

"That Earth Dragon was lucky enough to dodge the calamity just now, but you're not that lucky."

"Challenging a King such as myself, are you already prepared to die??"

Shi Yu said in amusement, "Do you want to kill me?"

The Green Dragon Prince laughed. "If you give me your ginseng baby to eat, I might consider sparing your life."

At this moment, Inatella was like the calm before a storm.

99.99% of the people looked at the venue in disbelief, not understanding why Shi Yu was so greedy.

Could it be that Shi Yu thought that no matter which inheritance it was, it could be obtained as easily as before?

The competitors this time... were already completely different from the previous creatures.

"What exactly is going on..." Ye Xing, Divine Bell, and the others looked at Lu Qingyi in a daze.

"How would I know... Don't look at me for everything." Lu Qingyi was speechless and looked at President Lin.

He looked at the gem cat.

At this moment, the gem cat was also stunned. Did Shi Yu have a dragon-element skill? The Dragon of Imagination Skill seemed to be able to temporarily give Buggy a dragon-element skill, but did this count?

Oh, wait, that Buggy seemed to have broken through to overlord. Could it be that there was a new dragon element?

But even so, wasn't it too difficult for an overlord to challenge a totem level?

After all, this Green Dragon Prince wasn't weak. It might not even be able to defeat it.

It was very difficult for the gem cat to understand why Shi Yu, a kid it had always protected, suddenly challenged such a monster.

"Shi Yu... does have a dragon-type pet."

President Lin said.

At this moment, Legendary Z and the other human Legendaries, including the Dragon God of Dragon Palace City, also looked at Divine Source Legendary and Shi Yu from countless distances.

They didn't understand.

"Are you guys crazy?" Legendary Z said. He had just said it casually. Dong Huang really went to challenge? Moreover, it was that Shi Yu?

If Shi Yu died, who would share the mechanical phantom beast technology?!

Legendary Z was furious.

At that moment, Shi Yu became the center of attention.

After Shi Yu took a deep breath and heard that the other party indeed had thoughts about Baby Ginseng, he couldn't help but smile.

"In that case, then..."

He looked at the surrounding gods, at the World Tree clone, and at the Demon King Dragon. "Dear gods, in this battle, I want to ask everyone..."

"Protect the venue to prevent the battle fluctuations from leaking."

"Naturally."

"Of course."

"What do you want to do?"

Shi Yu's words confused the divine beasts.

With them around, as the organizers of the trial, they were naturally the judges.

Battle fluctuations leaked?

With their control, how could anything happen?

Although the gods present were in an Enfeebled state, their Skill proficiency still existed.

It was not a problem to defeat totems.

As for the World Tree, it was the strongest demigod. In addition, there were so many demigods present. Not to mention the battle of overlords and Normal totems.

Even if two demigods fought, they could guarantee that the aftermath of the power would be controlled in an area range.

At this moment, when he heard the assurance of the World Tree clone and the other big shots, Shi Yu was completely relieved.

"Then let's fight."

Shi Yu grinned and looked at the Green Dragon Prince.

"Experience this battle well. This might be the closest you get to the target."

He said something that no one could guess.

"Huh?"

At the same time, it made the Green Dragon Prince's temper flare up. He looked at the human in front of him in disdain.

Even if a demigod stopped it, it would shatter this guy's Beast Taming Space and grab that ginseng baby to eat!!

Unscientific Beast Taming

Chapter 962: Green Dragon God Relocate (2)

Coupled with the Demon King Dragon Bone, it would stand at the peak after this battle!

....

On the venue.

Shi Yu was calm and composed. The Green Dragon Prince's gaze locked onto it.

Both parties were waiting for the Demon King Dragon's battle command.

At this moment, the Demon King Dragon was also very curious. It wanted to see what other trump cards this Shi Yu had.

"Fight!!"

After a moment of silence, the Demon King Dragon roared.

After the competition began, Shi Yu and the Green Dragon Prince didn't say as much as before. In an instant, the Green Dragon Prince erupted with all its might, wanting to instantly kill Shi Yu and not give him a chance to summon his pet.

Boom!!!

Its figure and the contractor's figure attacked Shi Yu at the same time.

On the spot, there were still afterimages of the Green Dragon Prince and its contractor.

Their main bodies had already appeared in midair and headed straight for Shi Yu, turning into a beam of light.

"Huh?" Seeing this, Shi Yu raised his head and looked in the direction where the Green Dragon Prince and the others attacked.

A trace of blue and gradually golden light appeared in his gaze. A shocking Spirit deterrence was released from Shi Yu's eyes and hit the Green Dragon Prince's heart.

Almost instantly, the expressions of the Green Dragon Prince and its contractor changed drastically. They stopped in midair and felt threatened, not daring to attack rashly.

Spirit connection, Green Dragon Roar!

"Roar!!!!!"

As they saw a golden light, the Green Dragon Prince and its contractor seemed to see a green divine dragon entrenched in the starry sky roaring in their spiritual world. At this moment, with a crack, their bloodlines rolled like boiling water.

It actually... sensed that its perfect bloodline that simulated a green dragon and fused with a dragon and a human was suppressed...

An incomparably ridiculous feeling rose in their hearts.

"Impossible!!"

With a roar that confused everyone, a huge purple summoning array with a radius of a hundred meters appeared under Shi Yu's feet.

At the same time, the weather changed.

The entire sky and world seemed to have darkened.

It was still daytime just now, but at this moment, all light was stripped away.

This ability to change the weather directly made the expressions of many creatures change. They realized that this was impossible for this to be the power of a monarch-level pet.

No, it wasn't that there was no light at all.

Although it was night, the sky was dotted with incomparably dazzling stars.

These stars all flickered with shocking light. As they blinked and the purple summoning array appeared, an incomparably huge body outlined the starlight and connected to a shocking image.

Its appearance made the totem clans and the humans of the seven countries reveal incredulous expressions.

"Roar!!!!!"

As Shi Yu summoned it, with a dragon roar that resounded through the sky, no, even the starry sky, its huge body was displayed in the green-gold light.

Its body was ten thousand meters long, and it occupied the starry sky. It looked like a dragon, had two golden horns on its head, and was covered in green scales. Its eyes and tail seemed to be burning with golden flames of Spirit faith, and its image was extremely shocking.

The huge aura revealed on its body directly made the voices of the overlords dry and their gazes explode. Even the Green Dragon Prince couldn't accept it.

"This..."

"How could..."

"Totem?"

"Impossible!"

The totems, including the Tyrant Dragon King, sensed energy fluctuations that far exceeded ordinary overlords, no, those invincible overlords, on the Green Dragon Buggy.

It was as if Shi Yu had summoned a totem.

However, that was impossible.

Everyone saw Shi Yu's level clearly. It was definitely only level six.

At level six, contracting an overlord above his level was already the limit. How could he contract a totem above his level?

At this moment, everyone understood that they were wrong, very wrong.

From the beginning to the end, Shi Yu had never summoned his trump card.

Sword Spirit? Blue Sea Sprite? Wind Kirin? Baby Ginseng?

Although these pets were also very ridiculous, they were still at the monarch level.

As for Shi Yu, he had clearly contracted a pet above his level. Since they were all contracted above his level, why didn't Shi Yu choose those four to make them overlord level?

It wasn't difficult to imagine. Everyone didn't believe that Shi Yu couldn't find the resources to strengthen them. The only possibility was that Shi Yu felt that this divine dragon was more trustworthy than the strength of the pets.

Everyone indeed discovered the terrifying power of this divine dragon and its shocking power that was comparable to a totem level.

At this moment, everyone present was more willing to believe that Shi Yu had contracted an overlord above his level, but this overlord had battle power comparable to a totem!!

Plop!

Looking at this shocking divine dragon, the Tyrant Dragon King, who was also evolving towards the concept of the Green Dragon like the Green Dragon Prince, also felt its pupils tremble and felt its bloodline being suppressed.

At this moment, everyone opened their mouths wide. Yu Shu and the others' gazes exploded. Shi Yu really contracted a dragon?

Also... why did they feel that this dragon-element image had such an affinity and familiar wave?

"What's this!!!" The Green Dragon Prince shouted in shock.

Putting aside its strength, why was its bloodline power suppressed by it?

At this moment, Shi Yu's figure had long disappeared from the ground and was teleported to its head by Buggy.

Shi Yu sat cross-legged on the dragon head, crossed his arms, and looked straight at the Tiny Dragonman below.

Before he could speak, the legends of the Snowfield Nation and the Beast Tamers of the Snowfield Nation shouted in shock!!

Unscientific Beast Taming

Chapter 963: Green Dragon God Relocate (3)

"Green Dragon!!!"

"It's the Green Dragon!!"

"At that time, the Green Dragon God in the starry sky!!"

The legendary contestant of the Snowfield Nation, Irina, and her Star God Bear looked at the green dragon in shock.

When the God of War of Snowfield saw the green dragon image from the Space Bureau appear in Inatella, his expression was also filled with disbelief.

The world was in turmoil because of the birth of the green dragon, just like yesterday. Although the Snowfield Battle God knew that it was related to Dong Huang, he never expected that the one who completed all of this was not a new Legendary or a Titled Legend, but a level-six Beast Tamer who participated in the World Tournament.

A... newbie!

"This..." At this moment, even the Demon King Dragon was extremely shocked. It sensed a supreme power from this dragon. This power was not divine power or the most important power of the natural order to enter the Mythical Domain, but it was even richer than the power of the natural order.

Power of faith? Moreover, it had also seen many powers of faith, but it had never seen such a special power of faith. It was as if this power of faith was not only born on Blue Planet, but also from the myriad worlds.

"It's even more complicated than the composition of the power of faith of the Blue Sea Sprite?"

This... this was a god of faith in the starry sky!

Realizing this, the expressions of many gods changed.

At the same time.

"Don't you know it?"

On the green dragon's head, Shi Yu looked at the green dragon prince below and said, "Aren't you evolving towards the concept of the green dragon god?"

"Doesn't the entire Dragonman Empire believe in the Green Dragon God?"

"You stole our power of faith. Now that the main body has descended, you... should understand what this means, right?"

Shi Yu's words resounded in the sky.

It was like a god.

It made the gazes of the Green Dragon Prince and its contractor explode.

The creatures who knew the concept of the Green Dragon revealed incredulous expressions.

What was Shi Yu talking about?

It was impossible for anyone who could come to Inatella not to know what the Green Dragon was. It was the Eastern Guardian God, known as a supreme god on the same level as the Dragon Race's Origin Ancestral Dragon.

Countless dragons were trying to evolve towards the Green Dragon. The Dragonman Empire was the representative. As a popular contestant in the World Tournament, how could everyone not know its racial evolution path?

And now, Shi Yu actually said... that his pet was the Green Dragon's main body?

How was this possible!

Wasn't that a fictional god!

Although there were many creatures who believed in the Green Dragon and had a long history, the concept of the Green Dragon had never turned into a creature. Since ancient times, there had been no creature... that could evolve into a Green Dragon!!

"You're courting death!!!" At this moment, the Green Dragon Prince felt insulted and was furious to the extreme.

No matter how strong Shi Yu's backing was, no matter how terrifying Shi Yu was, at this moment, it had the urge to kill Shi Yu.

Because... a wisp of fear appeared in his heart for no reason.

"Green Dragon in the Sky!"

"Great Dragon Attack!"

At this moment, the Green Dragon Prince had already noticed that the guy in the sky was just deliberately mystifying. This huge body was clearly multiplied. He couldn't be frightened.

Unlike dealing with the Sand Burial Dragon, this time, the Green Dragon Prince directly used its strongest sure-kill move.

It wanted to crush this guy in front of it with absolute strength!!

Boom!!!

It raised its hand, and the totem-level power erupted. The dragon energy that shocked the world gathered in its entire body, wanting to compete with the divine dragon in the sky.

At this moment, Shi Yu sat down. The aura of the Green Dragon Buggy was instantly like a reversed river of stars that was restrained under the eruption of the Green Dragon Prince. At that moment, the Green Dragon Prince's expression was extremely crazy. Beside him, the blood of the contractor boiled endlessly.

"As expected, it's just for show."

As soon as it finished speaking, the audience seemed to have entered its perspective. However, in the next moment, as a sigh that contained ancient vicissitudes sounded in the sky and starry sky, the expressions of the demigods instantly changed.

"It's just for show, you say."

"Then I'll let you see... the true power of faith of the Green Dragon."

Everyone's vision turned to the huge divine dragon in the sky and looked at Shi Yu, as if they could see the golden light in his eyes.

It was a pair of golden eyes identical to the ten-thousand-meter-long green dragon. It was like the eye of a god circling in the ancient starry sky, staring at the small planet.

They even saw the light that flickered higher than him and even the green dragon.

An incomparably terrifying pressure descended from the universe!!!

At this moment, Dragon Palace City, Dragonman Empire, Dong Huang, the Seven Islands... In countless places with traces of the green dragon, all the green dragon items that had existed hundreds of millions of years ago flickered with light.

The mutation that caused Blue Planet to tremble previously happened again. In the Dong Huang audience, Yu Shu looked at the Green Dragon Ancient Pendant he was wearing in shock that was filled with light. He looked at the sky in disbelief and shock.

This bastard Shi Yu... was telling the truth...

The Green Dragon God their family believed in... actually became Shi Yu's pet?

At this moment, Yu Shu smiled faintly and looked like he was crying. His values were even more shattered than when he saw Shi Yu's ridiculous performance previously.

Not only it...

Any powerful creature that could sense the power of faith could see the vast power of faith wrapped in the light that fell from the starry sky.

Unbelievable...

Everyone widened their eyes.

Faith skill.

And it was... an attack-type faith skill!

Unscientific Beast Taming

Chapter 964: Green Dragon God Relocate (4)

In a situation where most faith skills were support skills and reincarnation skills, attack-type faith skills were too rare. Moreover, it was a faith skill that could mobilize such a terrifying power of faith.

"Dragon, Star, Group."

As Shi Yu's voice fell, all the spectators were stunned. This was because in an extremely short period of less than 0.1s, the light in the sky revealed its full appearance.

It was a green-gold light that looked like a meteor. It was like a divine dragon that had descended from the starry sky. It bared its fangs and brandished its claws, coming from the starry sky with an incomparably terrifying pressure!!

Looking carefully, the so-called dragon form was just flames produced by its friction with the atmosphere, and its main body was a small asteroid.

Shi Yu and Buggy had already tried their best to control the power. They had only summoned one asteroid. However, that hundred-meter-long asteroid still made the pupils of the World Tree clone and the divine beasts constrict, and their auras rose steadily.

At this moment, they finally understood why Shi Yu was so concerned about the security of the venue.

Even the World Tree clone was awakened by the fear of the meteorite hitting Blue Planet countless times.

"Impossible!!!"

In fact, from the moment light appeared in the starry sky, the huge pressure from the Dragon Star Group and the Green Dragon Roar had already locked onto the Green Dragon Prince and its contractor. Their expressions were shocked, and their gazes were incredulous. They felt that their entire bodies were trembling. The huge Skill condensed floated in their hands, but they couldn't release it because their bodies were trembling.

"Green Dragon God..."

At this moment, no matter how slow the Green Dragon Prince's reaction was, it understood that the Green Dragon Divine Dragon Shi Yu sat on seemed to really be the Green Dragon God that it had evolved towards as a target. An indescribable grayish-white color appeared in its pupils.

"No..." At that moment, the Tyrant Dragon King suddenly reacted. Its gaze was filled with disbelief. It directly shattered the Void and wanted to save the Green Dragon Prince, but the meteorite from the starry sky not only countered the Green Dragon Prince, but even the Tyrant Dragon King, who was also evolving towards the concept of the Green Dragon, also felt a fatal threat at this moment. Its gaze was shocked.

If it were other dragons, even the previous Flame Dragon King wouldn't be countered like this.

They could only blame themselves for encountering the main body as pseudo green dragons.

Boom!!!!

The meteor fell, leaving traces of tearing space, as if it had divided Blue Planet into two, making the current Inatella look like a shattered starry sky.

In the eyes of the audience, the huge meteorite directly fell towards the Green Dragon Prince in midair. The unique skill it condensed in its hand was instantly obliterated into energy light the moment it came into contact with the meteorite. As for itself, under its incomprehensible shocked gaze, its body was crushed by the huge meteorite. It could only support the huge asteroid weakly with its hands!!

What made the hearts of the contestants and spectators stop was that even if the meteorite had yet to land, the aftermath of the power it brought seemed to be a totem-level attack. It was extremely shocking. At this moment, not only the Green Dragon Prince, but all the contestants of the World Tournament suddenly felt a life-and-death crisis.

"This guy!!!"

"What the hell!!!"

"Does this kid want to destroy this island!!!"

In the incomparable commotion, everyone saw the seven gods and the World Tree clone standing in four directions, surrounding the entire venue where the meteorite fell.

A shocking divine power erupted from their bodies.

It formed a huge barrier, isolating the venue inside.

Under countless shocked gazes, there was a loud boom, and the entire Inatella produced an incomparable earthquake!!

At the same time, a monstrous tsunami almost instantly rose in the sea around Inatella Island!!

There were even dazzling light fluctuations that shot into the sky, piercing through the sky and shattering the dark starry sky, returning the world to daytime.

Only the extremely shocked Green Dragon God and the young Beast Tamer sitting cross-legged on his head pretended to be calm as they looked down.

In this attack, the Green Dragon Prince and its contractor had already disappeared.

A bottomless pit appeared on the ground in the area protected by the eight big shots.

The depth was unknown. Ten meters, a hundred meters, and a thousand meters. Many powerful creatures sensed it in a hurry in shock, but they didn't know the depth.

At this moment, the eyes of the Tyrant Dragon King, who was also stunned just now, gradually recovered their clarity. Right on the heels of that, it was incomparably furious and shocked. In contrast, the Dragon God of Dragon Palace City, the Black Dragon Ruler of the Dragon Empire, and even the totem half-gods of the other factions looked at this scene in disbelief.

That attack just now... That attack just now...

It directly crushed the Green Dragon Prince into ashes.

Not a trace of aura or hair was left.

A solid totem level was directly killed in one hit.

As if it was nothing.

At this moment, be it the totem country or the seven countries, it was difficult to accept. No matter which creature it was, their hearts were shocked.

Buggy's huge dragon eyes looked down. At this moment, like Shi Yu, it was very high!

It felt the shocked emotions from all directions.

It, the Green Silkworm, had already grown to the point where it could kill totems!

Not long ago, it was just dreaming, dreaming of becoming a green dragon soaring in the sky.

And now, its dream had become reality.

"Roar!!!"

A shocking dragon roar spread through the sky.

It was very difficult to imagine that such a terrifying creature was actually the pet of a level-six Beast Tamer.

"How can this brat be so strong?" The Seven Islands Valkyrie's gaze was shocked.

"When..." The Elven Empress of Tingxiang had no idea about Shi Yu's pet.

"It's actually him!!!" At this moment, the people from the Dragon Palace, the Sea Dragon King, and the others finally knew where the origin of the change in the faith of the world's green dragon was.

Now that this scene had already happened, no matter how difficult it was to accept the truth, everyone had to admit that what Shi Yu said just now was not a lie. He, his contracted pet, was actually really the Green Dragon God.

That fictional god actually appeared and even became a human pet??

This was simply more difficult for these dragons to accept than Shi Yu creating a mechanical phantom beast.

A level-six body, destroying totems!!!

Was he still human?

The entire Inatella was still swaying. The gem cat, the Ice Dragon King, and the other totems were even trembling in fear. They didn't understand why Shi Yu, or rather Buggy, had become so ridiculous.

This didn't make sense!

Under the shock, only Divine Source Legendary, President Lin, and the others were feeling their hearts bleed. As people who knew the conditions for the release of the Green Dragon faith skill, they wanted to know how much faith power this attack had consumed.

Although this paywall attack was satisfying, it consumed power of faith that was difficult to replenish in the short term.

Gulp.

At this moment, the contestants and audience of Dong Huang looked at the crack under their feet. The ground was still trembling, and they looked at Shi Yu on the green dragon again.

It wasn't just them. At this moment, the people who thought that Shi Yu was overestimating himself by challenging the Green Dragon Prince just now only wanted to slap themselves. Ha... Hahaha... Shi Yu, this Shi Yu indeed liked to do things that ordinary people couldn't do.

In short, he was inhumane.

Countless people's eyes were filled with shock. So, were his footsteps really unstoppable?

At that moment, all the contestants of the World Tournament, even the totem rubber tree at the origin place, felt their bodies go weak. They took a step back, completely unwilling to meet this Shi Yu in the main competition.

Moreover, this was the case for it, let alone the overlords who were still very far from the totem realm. Although the pressure the Green Dragon Prince gave them was great, Shi Yu... was already a kind of trembling that came from the depths of their hearts just by seeing him!

"Sorry..."

"That guy was too strong. I could only use this move."

At this moment, the culprit behind all of this, Shi Yu, slowly landed on the ground alone as the green dragon's figure disappeared. He apologized to the divine beasts in all directions... Really, the green dragon prince was too strong. He couldn't defeat it without faith and money.

But it looked like... Inatella was fine. Everyone was happy, everyone was happy.

F*ck!

The divine beasts looked at Shi Yu in shock and were already speechless.

It couldn't understand what was going on in the future at all. The Demon King Dragon, who had thought highly of the Green Dragon Prince just now, was already stunned by Buggy. Its perception was definitely not wrong. That wasn't the dragon of faith native to Blue Planet, but the starry sky faith god!!

It didn't belong to this world!!

"Monster, monster, pervert!!"

This was... a human? And the pet he cultivated?

It wondered if its dragon bones... Were worthy enough for him to use for evolution...

Unscientific Beast Taming

Chapter 965: Must-Kill Target

Green Dragon.

Legend had it that it was a supreme god spirit that was on par with the Ancestral Dragon, the Dragon God of Creation.

Whether it was real or fictional was no longer important.

At that time, when the Green Dragon displayed the power to crush totems, communicated, and mobilized the power of faith of countless Green Dragons, the Green Dragon completely revived from the myths and legends and descended into reality!

The world trembled because of this.

As the Green Dragon Prince was insta-killed, the importance and fear of the various factions towards Shi Yu reached the peak.

After all, that was an instant kill at the totem level!

In the entire Blue Planet, how many people had such strength?

Even if a top-notch totem came, unless it was a top-notch totem close to a demigod like the Tyrant Dragon King and the Lava Empire's Juggernaut, they wouldn't dare to say that they could instantly kill the Green Dragon Prince.

And all of this was done by Shi Yu, who had yet to reach the Legend level. Which demigod faction present had never fought a Legendary Beast Tamer?

Which Legendary Beast Tamer didn't display shocking talent and strength from a low level? However, none of them were as ridiculous as Shi Yu.

Although the Blue Sea Sprite was unbelievable, it was the strongest demigod that really existed.

Although the revival of the Mythical Race's mechanical phantom beast, the Wind Kirin, was shocking, it also relied on the Kirin fossil.

There were traces!

However, Green Dragon...

The Green Dragon had never taken the initiative to develop believers. It was all because its myths and legends were too powerful and it was the Eastern Guardian God. Therefore, many factions in the totem era used the Green Dragon as a symbol of faith, as a political correctness, and as a badge to gather the hearts of the people and rope in an alliance.

It represented a supreme symbol, just like the imperial authority.

At this moment, what exactly was going on with the Green Dragon Shi Yu sent? Countless people wanted to know. If the Green Dragon really existed, it would definitely be a top-notch Mythical Race. How could such a creature become a pet!

"Impossible, definitely impossible!!" The Tyrant Dragon King suppressed the urge to be furious and still didn't believe that Shi Yu had contracted the Green Dragon.

It had no choice but to suppress it because in an instant, since Divine Source Legendary, the Elven Empress, the Dragon Palace Dragon God, and many other Legendary demigods directly locked onto it.

Although it was known as the existence closest to a demigod and could give demigods a headache, it had no choice but to suppress its emotions in the face of multiple legendary experts.

"You really surprise me."

The peerless Dragon God walked out of the Void. It didn't expect Shi Yu to complete something that the Dragon Emperor couldn't even achieve in his life and evolve into a green dragon.

"He... he..." As the cultivator of Emperor Wu's pet, although Ji Mengzhu mainly cultivated Iron-eating Beasts, she had also seen Emperor Shi's pseudo Green Dragon. It had always been a pity that it couldn't evolve into the four holy beasts that could trigger the power of faith of Elder Gu.

Emperor Wu had once said that if four holy beasts could evolve, no matter which one it was, their strength would far exceed the Demon God Iron-eating Beast and they could easily crush Yun An. Unfortunately, they didn't succeed in the end.

"What kind of creature is this!!!" At that moment, the most confused was still the Demon King Dragon.

"Green Dragon?"

"Why haven't I heard of it!"

Not to mention it, even the Boar God and the other gods were the same.

This was also normal. The legend of the Green Dragon had started from the totem era and had never stopped for hundreds of millions of years. It was normal for a god like it, who had been sleeping since the Mythical Era, not to know.

Its huge dragon eyes looked at Shi Yu below, extremely red.

"Green Dragon, the Eastern God formed by the seven constellations in the myths and legends."

"In the long totem era and the Beast Taming Era in the future, it was known as the peak Dragon God like the ancestors of the dragon race, the Dragon God of Creation."

"What!!!"

"Impossible!!!"

Just as Shi Yu finished speaking, the Demon King Dragon refuted. How great was the Ancestral Dragon? Even if it was divided into two, its two bodies still had the divine power to create and destroy the world.

The other gods couldn't accept it either.

Wait a minute... Could it be that the Green Dragon was evolved from those dragons who left Blue Planet and went to the starry sky?

Or could it be a god of another planet's civilization?

Its concept was brought back by the creature that returned to Blue Planet?

"In the future... that's indeed how it's spread," Shi Yu said.

"But it's generally believed that the Green Dragon is a fictional god."

At this point, the Demon King Dragon's expression softened.

Fictional god?

However, it didn't completely ease up.

The Boar God, Xuan Ming, and the other gods recalled the special power of faith just now.

Shi Yu said, "Therefore, just like how many dragons want to return to their ancestors, there are also many creatures who want to transform into dragons and evolve into green dragons."

"In the totem era and the Beast Taming Era, countless Legendary and demigods have done this."

"However, they all failed."

"And I succeeded."

Shi Yu's words shocked the hearts of all the members of the seven countries and totem factions.

An unbelievable strange emotion rose in their hearts.

Indeed, no one believed that a Dragon God like the Green Dragon really existed and had become a human pet.

Being able to mobilize the power of faith was secondary. The most important thing was that the Green Dragon itself was the image of a supreme god spirit.

However, if a human Beast Tamer cultivated a pet to evolve into a green dragon and could barely mobilize the power of faith of the green dragon, then... that was completely unacceptable!!

"Why did this guy say such a terrifying thing so calmly!!" On the Seven Islands, a Dragon Tamer from the Green Dragon God Shrine had a stunned expression.

The Demon King Dragon opened its mouth slightly. So, Shi Yu had materialized and cultivated a fictional god comparable to the Ancestral Dragon into a real creature?

[Unscientific Beast Taming](#)

Chapter 966: Must-Kill Target (2)

With conceptual faith, becoming a spirit and becoming a god was not impossible. The Boar God, Xuan Ming, and the others thought of the Blue Sea Sprite. The Blue Sea Sprite believed in becoming a spirit, but...

However, there was actually still an intrinsic difference.

That was, the Blue Sea Sprite was a creature born on Blue Planet and relied on Blue Planet's existence.

However, the concept of the Green Dragon was made up of the Seven Constellations of the East. How vast was that concept? Even if Blue Planet was thrown into it, it was only a small planet.

They finally knew why the power of the green dragon was so special. It was because at this moment, it couldn't be considered a native creature of Blue Planet at all. Even if its original body was born on Blue Planet, because of the complicated power of faith, it had already become a cosmic faith god, a cosmic life form.

Such a life form had a huge characteristic, which was that it was not restricted by the power of laws on Blue Planet. It could fly freely into the starry sky, survive in the universe, find a suitable place, and enter the God Domain.

Blue Planet's race level was no longer suitable to describe its potential.

Inatella fell silent again.

"Well..."

At this moment, Shi Yu was standing at the edge of the huge pit. Seeing that there was no movement, he couldn't help but say in all directions, "Is there anyone else who wants to challenge the fifth trial?"

His words echoed in everyone's hearts.

Suddenly, everyone remembered that they were still in the trial.

However, as they looked at the bottomless pit and the destructive power caused by this attack that almost destroyed the island, the corners of countless totems and overlords' mouths twitched.

There was no doubt that the power of this attack was already comparable to the forbidden weapons of the seven countries. It could cause a fatal blow to a country.

As a competition to choose the younger generation, what was wrong with such an attack?

"Ji!!"

At this moment, everyone suddenly realized that Shi Yu had not retracted the green dragon.

On his shoulder, a little green worm that emitted a powerful aura was looking around arrogantly.

Its golden pupils contained the color of Holy.

Countless people opened their mouths wide. Wait a minute, don't say... Could it be that this little green worm was the green dragon just now!

"Holy shit."

Yu Shu and the others who were familiar with Shi Yu were even more shocked. Don't tell them that Shi Yu's Green Dragon was evolved from the Green Silkworm that helped Shi Yu dominate the Class assessment!!

Yu Shu: "I was beaten by the Green Dragon?!?"

This, this didn't make sense at all.

"No, we can't compete with it." At this moment, no matter what changes happened, the dragons' expressions were filled with horror. The Green Dragon Prince was a lesson. Who knew if Shi Yu would summon another meteorite?

Who would have thought that the Green Dragon Prince would be directly killed not long after being arrogant?

"You..."

At this moment, the Demon King Dragon was completely convinced. Did Shi Yu know what kind of power he had displayed just now?

Not to mention ordinary totems, even revived gods like them would have to spend some effort to shatter that meteorite in their current Enfeeble state.

Otherwise, the gods wouldn't have been so shocked just now.

At that moment, the Demon King Dragon was directly numb. Just now, it was still thinking that no matter what, it couldn't hand the dragon bone to the repeater. But now, looking at the situation, it didn't seem like any dragon was a match for Shi Yu and the creature named Green Dragon.

This situation was unsolvable.

"Looks like there's no one else."

Seeing this, the Demon King Dragon was extremely uneasy.

"Hey, human kid, looks like no one is competing with you anymore."

"But are you sure you want my inheritance?"

At this moment, the Demon King Dragon asked a question that it wasn't confident in.

Even if a starry sky faith god didn't cultivate any power of the natural order, it was possible to find another ability to break through to the divine level in the starry sky.

On the contrary, fusing with the evolution of the dragon bones left behind in his previous life would conflict with the current path.

Shi Yu... Was he willing?

"Of course."

Shi Yu smiled. If he wanted it, he definitely wanted it, but whether he used it or not was another matter.

For example, he couldn't use the nine-colored divine light of the Holy Divine Deer now, but he could let Teacher Cat use it.

There was also the Horned Demon Divine Stone from before. Shi Yu also planned to see if it suited his taste after waking up.

Including this Demon King Dragon Bone. If he didn't need it, he could give it to others.

Speaking of which, he seemed to have promised Mother Dragon to invest a Legendary resource. After the World Tournament ended and he had strength, he would repay it double.

Wasn't this... resources?

Mother Dragon took such good care of him, so he couldn't be stingy!

Investing with Legendary resources to return Mythical resources!

Even if Mother Dragon didn't want dark-element resources, Shi Yu could completely use the dragon bone to exchange for other dragon-element and ice-element resources.

At that time, bringing a Mythical Race, an ice dragon with the strength of a demigod, to transmigrate to ancient times to see Mu Huiyin and Emperor Shi could also make Mother Dragon look better.

"Okay."

"Then... it's yours."

The Demon King Dragon's heart twitched. It didn't expect that in the end, it still handed the inheritance to the person it didn't want to give it to the most. However, it had to admit that the other dragons present were all trash compared to Shi Yu's green dragon!!

Buzz!!!

A black light flashed. A dragon bone was taken out of the Mythical Ruins by the Demon King Dragon and floated in the sky. Shi Yu's Psychic power locked onto it and stored it in his Beast Taming Space.

At this moment, the various factions were completely speechless. There were a total of seven trials, and now, a total of five had already fallen into Shi Yu's hands!!

[Unscientific Beast Taming](#)

Chapter 967: Must-Kill Target (3)

While Divine Source Legendary, President Lin, and the others were excited, they were also worried. Aiyo, this time, Dong Huang was going to pull the hatred of the entire world...

However, only a fool wouldn't take divine-level resources.

They believed that with Shi Yu's current potential, he would definitely be nurtured by the World Tree as Blue Planet's trump card. Therefore, Dong Huang hugged the World Tree's thigh and was not afraid of any faction.

"Human."

Just as Shi Yu put away the Dragon King Bone and Inatella was left panting, the golden giant bull god in the sky revealed an excited expression.

"How many meteors can you summon just now??"

"Looks like the power is pretty good."

Its entire body flickered with light, and its huge bull body turned into the image of a humanoid bull. It rubbed its fists and said, "My hand is a little itchy. Find a suitable place later and let me warm up."

"It must be very satisfying to smash a few meteorites like that."

What!!

At this moment, as the Golden Bull God spoke, many factions looked at the battle god in the Western myths and legends in a daze.

Everyone was shocked!

What was this god trying to do...!

It wanted to warm up with the meteorite just now??

The corners of their mouths twitched. They felt that these gods were also very inhumane.

If these words were said by any non- demigod totem, they would sneer.

However, the one who said this was the Western God of Battle. They only felt that this god's strength was unfathomable.

"My trial is this. Whoever can please me with battle and let me have my fill... Will have my inheritance."

"Have you forgotten the order?" At this moment, the Golden Bull God was speaking excitedly. Beside him, the plant-type god spoke.

Upon hearing that, the Golden Bull God was stunned and revealed a bored expression.

"It should be my turn next."

The plant-type god looked at the silent World Tree clone. At this moment, the World Tree clone already felt that there was no need to continue the World Tournament.

Could it be that these factions still wanted to continue fighting after seeing Shi Yu's strength?

In any case, it no longer wanted Shi Yu to fight. If it attacked a few more times, Inatella would probably be smashed! The key was that it couldn't prohibit Shi Yu from using it. After all, this was the Green Dragon's skill.

The World Tree was already thinking about repairing the venue.

"My trial is very simple."

"It's a hunting competition limited to plant-type creatures..."

"It will test your battle determination and strength."

"Opportunities are everywhere."

"I'll create a huge hunting barrier. Inside, I'll place a few totem-level Space Worms and countless overlord-level Space Worms. They're all reserve food I hunted in the invasion war. They're already dead."

"I'll temporarily revive them for a moment. You'll become their prey. At the same time, they're also your prey. Every one of them has been modified by me into 'nutrients' that contain powerful life essence. After killing one, the life essence will increase your strength without any side effects. At the same time, by hunting the plant-type creatures with the greatest number and quality of enemies, you can finally obtain my inheritance."

"You..." At this moment, as the plant god mentioned its trial, the Boar God and the other gods looked at it.

Especially the Boar God, who was drooling.

They didn't expect this guy to have stock.

"What!"

As the plant-type god said its trial rules, the plant-type overlords were immediately excited to the extreme.

Trial of conscience!!!

This was obvious. All those who participated in this trial had soup to drink. Even if they couldn't obtain the final inheritance, they could still obtain enough power by killing the enemy. Space worms... Things that could be regarded by Mythical creatures as food reserves. How nutritious would that be?

And the previous Boar God also used the Space Worm as food.

This clearly looked like a great supplement.

The plant overlords and even the rubber totems were extremely excited.

"Oh!!!" At this moment, Shi Yu's eyes lit up when he heard the final two trials.

It sounded like he could participate??

Be it the plant trial or the golden bull god who wanted to fight him, he met the requirements of the trial!!

It was just that the upper limit of the difficulty of these two trials... seemed to be relatively high. It was probably not that easy to perfectly clear.

"Wait a minute."

At this moment, as the plant-type god mentioned the trial, Shi Yu suddenly thought of a problem.

If he wrapped up the plant trial too, would it be bad? He would offend too many plant factions...

It was fine if they offended the Dragon Empire and the Dragonman Empire, who had a feud with Dong Huang, but not every totem faction had a feud with Dong Huang.

They could completely become friends.

For example, the Infinite Sea Region and the Ghost Sea had the possibility of becoming allies of Dong Huang because of the Blue Sea Sprite.

Shi Yu thought for a moment. Why don't he let the other participants hunt the overlord-level Space Worm?

He let Baby Ginseng be in charge of dealing with the totem-level Space Worms and heavily injuring a few. This way, he could still give them a favor and let the overlords hunt them easier.

As expected of him. He was really a good person. When the time came, he could make another group of friends.

"No."

Shi Yu's expression turned serious again. Wait a minute, he was a good person, but when this group of participants saw that Baby Ginseng was also participating in the trial, they wouldn't leave the Space Worm alone and come to get Baby Ginseng, right??

After all, the temptation of the previous ginseng baby was comparable to a divine-level resource...

Forget it, if one couldn't even suppress that desire, it was not qualified to be Dong Huang's ally. It was just that he could only let plant-type creatures participate and couldn't kill them with Chi Tong. It was a loss, a huge loss. This was what troubled Shi Yu the most. It didn't match his original goal of fishing.

At that moment, all the factions were immersed in the rules of the plant hunting trial and were relatively excited. However, among them, the gazes of the Black Dragon Juggernaut and the Tyrant Dragon King ruthlessly landed on Shi Yu.

When they saw Shi Yu's happy expression, they found it unbelievable. Wait a minute, this bastard didn't want to use that ginseng baby to participate in this trial, right??

Their eyes were red as they suddenly had a thought. As long as Shi Yu dared to let Baby Ginseng participate in this trial, they would make Shi Yu pay the price.

Find an alliance and ask them to cooperate with the Space Worm to kill Shi Yu's ginseng baby in the trial and let Shi Yu suffer the pain of losing his pet.

Since Shi Yu dared to kill their people...

In that case, they also wanted Shi Yu's pet to pay the price with its life. They didn't believe that the supplement race's monarch-level ginseng baby could be very strong.

[Unscientific Beast Taming](#)

Chapter 968: Time Element

A plant-type god was called the Eternal Divine Tree.

After introducing the trial rules, it looked at Shi Yu.

It didn't have the strange temper of the Demon King Dragon.

It didn't matter who the human who finally obtained his inheritance was.

However, Shi Yu had obtained five inheritances in a row, so it was inevitable that the Eternal Divine Tree would feel a little complicated.

Therefore, it looked at Shi Yu, who was watching the show beside it, and asked, "Human, you've already obtained five trial inheritances. Don't tell me you also plan to participate in my trial?"

It remembered that Shi Yu really had a plant-type pet.

Although that pet was only at the monarch level, it had power comparable to divine-level resources. Its battle power shouldn't be bad.

At this moment, with the Eternal Divine Tree's question, Inatella Island was silent.

"Ah." The totem-level contestant, Rennes, looked at Shi Yu with a pained expression, his eyes filled with fear.

No way, again???

It was a little panicked now.

Anyone who encountered a competitor of five consecutive championships would be very panicked, alright?

Shi Yu indeed had a plant-type pet, but wasn't that a supplement race?

Its battle power must be very poor. In order to avoid becoming food for the Space Worm, it had to stay at home obediently!!

At this moment, the rubber divine tree had already made a decision.

If its strength couldn't increase greatly in this plant trial, it would definitely have to surrender when it encountered Shi Yu in the main competition.

It didn't want to be smashed to death by the Green Dragon meteorite.

Therefore, this plant-type trial was its only chance to change its fate.

Although it felt that Shi Yu didn't have the right to compete with it, after watching five trials in a row, the rubber divine tree asked itself honestly. It was also afraid of a freak like Shi Yu.

It was afraid that he would cause trouble again.

When the Eternal Divine Tree asked this, countless gazes, regardless of their status, looked at Shi Yu, who had an innocent expression.

Shi Yu smiled and said, "Although it's not good to take so many trial inheritances in a row, but..."

"But I really seem to have the ability to participate in this trial."

"My ginseng baby is also very strong... Although it's a supplement race... It's not a big problem to fight above its level."

The Crown Rubber Divine Tree: ...

Bastard, get lost.

The Eternal Divine Tree:...

"Alright then," the Eternal Divine Tree said indifferently.

As for Demon King Dragon and the other divine beasts, they looked at the many totem countries without minding the trouble.

That gaze seemed to be saying, "How can you tolerate this?"

....

As the plant-type god, the Eternal Divine Tree, finished introducing the trial rules, undercurrents surged in Inatella.

Apart from the fact that plant-type participants could participate in the trial to hunt the Space Worm and would definitely cause many factions to compete, it was also related to the divine-level inheritance replenished by the Eternal Divine Tree!

The candidate who hunted the most enemies and the highest quality would obtain the divine-level inheritance, the Eternal Flower!

The user of the Eternal Flower could increase their lifespan by ten thousand years, and their life force would be strengthened to the divine level.

The user would no longer Decrepify naturally and maintain their peak state!

Even humans could use it.

As soon as this inheritance was announced, the participants became even crazier.

Even Shi Yu was slightly moved. He felt that he could use it for Baby Ginseng to study.

"Origin."

"It's time for you to return the favor."

"That Shi Yu is too much. He doesn't take you seriously at all."

In the alternate space where the half-god Juggernaut, the Genesis Tree God, was located, the Void was torn apart. The huge Black Dragon Juggernaut and the Tyrant Dragon King descended together.

Seeing these two experts descend, the Genesis Tree God's expression changed as it looked at the Black Dragon Juggernaut.

"200 years ago, at the critical moment of your reincarnation, you owed my Dragon Empire a huge favor. We helped you clean up your competitors. Now, it's time for you to repay the favor."

"Now, your Origin Region and Shi Yu will definitely fight. Without the confidence to get first place in the trial, will he participate in the trial?"

The bark of the Genesis Tree God twitched. It was also extremely annoyed by this Shi Yu.

The Eternal Flower was a rare treasure for plant-type life forms.

It was still hoping that the rubber tree could give it a few petals after winning the championship.

In the end, Shi Yu, this bastard, wanted to interfere again?

Bullying trees was too much.

"Origin Tree God, the world has suffered for a long time. Do you think the Origin Land can compete with that green dragon in the main competition? This trial is the only chance," the Tyrant Dragon King said.

"In the trial, cripple it."

"We will all support the Origin Land to obtain the World Tree inheritance. As plant-type creatures, you are the orthodox!"

"Moreover, don't forget that during the totem war, the Origin Land also invaded Dong Huang as an invader. When Dong Huang rises, do you think the Origin Land can stay out of it?"

"I know what you mean," the Genesis Tree God said. "But these aren't enough."

"If you want our contestants to take action, you have to pay an additional resource."

They had to pay more!!

After all, Shi Yu's potential was there, and the Genesis Tree God didn't want to casually provoke him.

"Sure!!!" The Tyrant Dragon King and the Black Dragon Juggernaut agreed immediately.

...

A moment later, the Thunder Crown Rubber Divine Tree received the summoning of the Genesis Tree God.

"Lord Genesis Tree God."

The rubber divine tree had already guessed the other party's intention of summoning it.

"Reyn, you should understand your situation, right?" the Genesis Tree God said to the rubber divine tree.

"Your only advantage among the totem creatures in the Origin Land is that you have a compatible human contractor."

"If you miss the opportunity of this world competition, after returning to the Origin Land, you will quickly return to ordinary. You have no hope of becoming a demigod in your life, let alone breaking through to the Mythical Domain after the Mythical Revival."

[Unscientific Beast Taming](#)

Chapter 969: Time (2)

"This world competition is your only chance."

"You have to take down the next trial no matter what. Apart from that, if you can do it, I'll allow you to devour Shi Yu's pet."

The Thunder Crown Rubber Divine Tree, Rennes, was shocked. "But that Shi Yu..."

"If you're afraid, you can never become a big shot. That ginseng baby, together with the Space Worm as nutrients and the Eternal Flower... You can almost 100% obtain the strength of a top-notch totem."

"If you can heavily injure that Shi Yu in this trial, even if he sends out the Green Dragon in the main competition, you might not necessarily be his match."

"And after winning the World Tournament and obtaining the blessings of the World Tree, the two of you don't have to be afraid of Dong Huang at all. Moreover, our Origin Land isn't afraid of the seven countries at all."

"The difficulty this time isn't high. Even if a monarch-level plant-type creature has a certain amount of battle power, it's impossible for it to reach the strength of a totem."

"Besides, you're not alone. At that time, many totem factions will assist you. Even those Space Worms can indirectly become your help."

The eyes of the Thunder Crown Rubber Divine Tree, Rennes, and its contractor, Carney, flickered.

"Can I eat that ginseng baby..."

In the entire Inatella, there was almost no creature that didn't covet Baby Ginseng.

Even the owl and gem cat from the same camp drooled when they saw the ginseng baby. Even the divine beasts woke up because of its fragrance, let alone the enemies of the totem faction.

What suppressed their desire was basically Shi Yu's strength and Dong Huang's strength. However, the Thunder Crown Rubber Divine Tree didn't expect that the Genesis Tree God would actually let it take a gamble, eat that ginseng baby, and heavily injure Shi Yu.

For a moment, the Thunder Crown Rubber Divine Tree's thoughts stormed. In the end, the desire to become a god defeated everything.

"The bold bloat to death, and the timid starve to death."

"I'll give it my all."

...

In the Dong Huang area.

When the Eternal Divine Tree created the trial barrier, Shi Yu was facing the reminder of Divine Source Legendary and President Lin.

"You have to be prepared."

"In this trial, you're very likely to be targeted by the various large factions together, especially when your ginseng baby reveals the aptitude of a divine-level supplement."

"The Black Dragon Juggernaut has probably already found the Genesis Tree God."

The two seniors were a little nervous.

After all, they couldn't face the trial with the Green Dragon and the

Although Baby Ginseng wasn't weak either, it was still not very stable.

Self-destruction...

Shi Yu definitely wanted to self-destruct to obtain the greatest benefits of the trial.

They knew that Baby Ginseng's self-destruction had long had the battle record of killing totems.

The Black Meteorite Yak was killed by Baby Ginseng's self-destruction.

However... Shi Yu should think about how to dodge the self-destruction damage first!

"Yes, I will," Shi Yu said.

"It's also a good opportunity to see who has ideas about us."

"That's true..."

The corners of President Lin's mouth twitched. "We're afraid that your ginseng baby won't be able to control its Crowd Control well."

"You saw it too. That trial barrier isn't big."

"If the participants of the seven countries and even you are also blown up, then..."

Shi Yu: Σ(°△°)_

On Dong Huang's side, only Shi Yu and Lu Qingyi were qualified to participate. They were the only two who contracted plant-type pets.

However, Lu Qingyi's Imperial Concubine Flower was only at the monarch level. Even with Mythical Revival and Spiritual Psychic power, it could at most display the strength of an overlord. The risk of participating was too high.

Therefore, Lu Qingyi didn't plan to participate.

But in the other six countries, there might not be many Beast Tamers who contracted plant-type pets.

At that time, if Shi Yu killed them all, it would be troublesome.

"Wu..."

Shi Yu was stunned. "On my side, I'm confident of avoiding the damage of the self-destruction."

"When the time comes, when I attract monsters, I'll also control it to only attract Space Worms."

"But if contestants from other countries still court death and want to join in the fun... I indeed can't control it."

"It's fine if the contestants of the totem country want to target me together and blow me up together, but as for the seven countries..."

"If they're here to help me resist the enemy and enter the self-destruction range, I'll cry to death." Shi Yu cried.

"Therefore, I want you to tell the legends of the other six countries. When the time comes, stay away from me."

Divine Source Legendary was silent.

"I should go and talk to the legends of other countries first."

....

A moment later, Dong Huang's Mechanical Legendary Divine Source pulled up the mental network that connected the Legendaries of the seven countries.

He started the online meeting.

"Divine Source, what are you doing?"

"Don't tell me he's here to ask for help." Shen Feng's Legendary Z snorted.

In his opinion, Divine Source calling them at this time was most likely because it was afraid that Shi Yu would be targeted in the next trial.

They probably wanted to ask their contestants to help Shi Yu when the time came, so they could party up and farm monsters together.

Divine Source Legendary: "I'm just discussing the next trial with everyone."

"As expected," Legendary Z said. "Sure, but you have to share the technology of the mechanical phantom beast without holding back."

Divine Source Legendary: ???

"Let me finish first."

"I don't know how many contestants are participating in the next competition, but I want to ask them. When the time comes, stay away from Shi Yu."

Shen Feng Mechanical Legendary, Seven Islands Valkyrie, Elven Empress of Tingxiang, Ming Hua Death God, Snowfield Battle God, Rongguang Hero King: ???

"Shi Yu's ginseng baby is actually very strong."

"A few months ago, it successfully killed a Yun clan totem."

[Unscientific Beast Taming](#)

Chapter 970: Time (3)

"The skills are very powerful."

"It's probably not inferior to that meteorite."

"And just like the meteorite of the Green Dragon just now, it's not easy to control Crowd Control."

"No, to be precise, it's definitely uncontrollable."

"I'm just worried that your contestants are too close to him and will be affected and suffer an undeserved disaster, so I came to remind you."

"That's it. I'm hanging up."

Beep beep...

The Legendaries of the six countries were stunned.

Wait, wait a minute, what did this old kid just say?!!!

That monarch-level ginseng baby had killed the Yun clan totem a few months ago?!

What a f*cking joke!!

....

Boom.

Soon, the Eternal Divine Tree created a huge tree barrier.

The barrier occupied one-tenth of the island. The interior was lush with branches and leaves, and various strange plants grew.

At this moment, if many contestants and spectators wanted to see the situation inside the barrier clearly, they could only fly into the sky and watch from the sky.

"Participants, come stand in front of me."

At that moment, after creating the barrier and reviving the Space Worm, the Eternal Divine Tree spoke calmly and looked at the contestants of the various countries.

Buzz.

On the totem country's side, many contestants from the plant kingdom walked out.

One, two, three... Among them, transcendent life forms were all at the overlord level, and human Beast Tamers were basically at the legend level.

Among them, the strongest was the Thunder Crown Rubber Divine Tree from the origin place and the human Beast Tamer with the form of a tree sprite flying beside him.

In a short moment, 28 totem country contestants responded to the sixth trial.

However...

On the seven countries' side, apart from Shi Yu, who followed out, the other six countries... didn't move for a long time.

One by one, the contestants of the six countries stayed obediently in their country's area and didn't take a step forward. It was as if they didn't want to participate in the trial.

At this moment, Dong Huang's Divine Source Legendary, President Lin, and Shi Yu were stunned.

What was going on?

Why didn't they come over? It was a rare trial where all the trial challengers had a chance to eat soup!

At that moment, the contestants from the other six countries who were qualified to participate in this trial had extremely complicated feelings!

Because just now, the legends of their countries urgently transmitted their voices to tell them to give up this trial.

"Will Die"!

In any case, with the rubber totem tree around, the chances of obtaining the final inheritance were 0.

Was it worth it to take the risk for a hunting game while they didn't know the strength of the feedback?

It was better... not to participate!

Apart from Shi Yu, all the Beast Tamers of the seven countries gave up participating!

This scene directly made the Beast Tamers of the totem country feel disbelief. They didn't understand what the seven countries were up to.

The Beast Tamers of the seven countries also felt that it was unbelievable.

They didn't expect that other countries would also give up the trial on a large scale.

No, they had given up, but not completely.

There was also a participant from the seven countries.

It was the first Shi Yu to claim that he wanted to participate...

However, could Shi Yu really do it?

After all, their legends had all said that this trial was life-and-death.

Many totem-level Space Worms, in addition to the totem-level Rubber Divine Tree, indeed didn't look like a good place...

In the Seven Islands area, with the Phoenix Exort Tree, the Phoenix Court's Jie Yi, who could also participate, became nervous for Shi Yu.

They didn't understand why the legendary of Dong Huang didn't persuade Shi Yu.

"What's going on?" At this moment, when they saw this strange phenomenon, the totem countries suddenly felt a little panicked.

"Well, Lord Divine Spirit, I'm very sorry. I suddenly have a stomachache." Among the 28 totem country contestants who had just responded, an ape that looked like it was made of wood suddenly turned pale and immediately said.

It hurriedly dragged its contractor away from the trial point under the stunned expression of its country's totem. Strange, too strange. It didn't want to participate anymore.

The Eternal Divine Tree : "..."

"This..." At this moment, the sixth trial that revealed a thick strange atmosphere made the Genesis Tree God, the Tyrant Dragon King, and the Black Dragon Juggernaut a little silent. They didn't know what was going on.

It also made the determined Thunder Crown Rubber Divine Tree swallow its saliva and become a little nervous.

Even the Eternal Divine Tree had a bad feeling. What... were they doing?

....

Soon, nine of the 29 candidates who walked out withdrew from the competition one after another.

This Jiu Fang basically came with the mentality that it wouldn't be a loss to defeat an overlord-level Space Worm and leave after getting some benefits.

However, as Shi Yu was the only one participating in the competition from the seven countries, in addition to the fact that the Dragon Empire and the Dragonman Empire had previously contacted them to deal with Shi Yu together, it immediately made Jiufang feel a little afraid.

They kept feeling that something big was going to happen. They were afraid that they would be affected, so they chose to give up.

"Is anyone else leaving?" The Eternal Divine Tree was completely speechless.

Although the remaining 19 contestants were also a little nervous, because they had Quests, they didn't dare to take the initiative to withdraw.

"Not bad." At this moment, Shi Yu looked calm on the surface, but in his heart, he looked at the remaining 19 totem country contestants happily.

With max-level Psychic power and telepathy, he sensed faint killing intent on them.

To Shi Yu's surprise, after the torment of the Divine Source Legendary, the sixth trial directly became an amusement park between him and the totem factions who wanted to hunt him.

"In that case, I'll send you into the barrier," the Eternal Divine Tree said in silence after taking a few more looks at Shi Yu.

It gradually understood what was going on. It wanted to see what kind of sparks could be created between these factions in the future.
