

Beast Tamer 1001

Chapter 1001: The Grip Has Arrived!

Fang Mu wanted to quickly upgrade his Beast Master star level, and he could do so by having the Heavy Cherry Washing Carp cast the “Sakura Festival” on him at regular intervals.

As long as he ensured that the bloodline of the Heavy Cherry Washing Carp was in optimal condition before each casting of the “Sakura Festival”.

After the Heavy Cherry Washing Carp had cast the “Sakura Festival,” Fang Mu promptly provided it with Blood Aged Wine, which would allow him to continually chase after those peers who had a head start on him using the “Sakura Festival.”

He not only had the opportunity to surpass his peers but also the possibility to compete with those seasoned powerhouses who were several years, or even decades, older than him!

In a world that revered martial ability, age was often given great importance.

Before reaching the age of forty, Fang Mu could continuously benefit from the age bonus.

...

More than two decades would be enough for Fang Mu to develop swiftly in the Beastmaster world!

The bloodline of the Heavy Cherry Washing Carp was currently in its optimal state.

But due to the recent advancement in the Heavy Cherry Washing Carp's rank, Fang Mu wanted it to first consolidate its rank.

Then, have the Heavy Cherry Washing Carp cast the "Sakura Festival" on him.

With so many rare spiritual materials assisting Fang Mu,

even though he started several steps behind his peers, his current Beast Master level had already reached the pinnacle of One-point Stars.

Most of the younger generation would spend one to two years stuck at the pinnacle of One-point Star Beast Controllers before they could advance further.

Hu Tao had been stuck at this stage for nearly a year and a half without any opportunity for a breakthrough.

Logically speaking, even with all those treasures assisting him, it would be normal for Fang Mu to be stuck at this rank for a year.

If the "Sakura Festival" skill of the Heavy Cherry Washing Carp was exceptionally effective, Fang Mu had a great chance of rushing from the pinnacle of One-point Star Beast Controllers directly to Two-ray Star.

Becoming a Two-ray Star Beast Controller before Hu Tao.

Not only could he make up for the time he had previously wasted, but he would also take a step ahead of his peers.

Just the act of stabilizing the progression of his rank, while providing the Heavy Cherry Washing Carp with pure Life Energy and Water Elemental Energy,

would be mostly stable after only one day.

Fang Mu would also attempt the day after tomorrow to see if he could become a Two-ray Star Beast Controller.

Because he had contracted the Spirit Mayfly, once Fang Mu advanced to a Two-ray Star Beast Controller,

the strength of all his Guardian Beasts could be promoted to the pinnacle of the Platinum Tier.

With such combat power, he wouldn't be inferior to Fang Qin, Fang Yuan, Yan Wood, and others!

Fang Mu clearly had the capital to vie for dominance in the twenty to thirty age group, yet he was mixed up in the under-twenty category.

In the under-twenty category, Fang Mu would be at a Dominant Level.

Two days later, Fang Mu would not only be able to test the efficacy of the “Sakura Festival” skill,

but he could also see how long it would take for the Heavy Cherry Washing Carp to recover its bloodline depletion with the help of Blood Aged Wine after performing the “Sakura Festival”.

After upgrading his spiritual power, Fang Mu started a joyful duo queue with Hu Tao in a two-player division.

In recent times, Fang Mu had not been in the Dragon Rising Federation, but at the border junction of the six states surrounding the Federation.

In this place, the Dream Beast could not connect to the Battle Network.

Thus, Fang Mu had to discontinue his duo queue with Hu Tao.

Hu Tao did not find anything wrong with this.

Fang Mu had matters to attend to and naturally had to prioritize his own affairs.

A duo queue was something they could do anytime once Fang Mu was free.

Moreover, through her duo queues with Fang Mu, Hu Tao realized her own shortcomings.

With only one Main Battle Mystic Beast, Hu Tao found it difficult to be of much help to Fang Mu.

It was always Fang Mu, with his strength, who led them to victory against their opponents.

The fact she had gained so many fans on the Battle Network was largely because she was teammates with Fang Mu and basked in his glory.

If Hu Tao's Barrier Silver Phoenix had not been a Silver Stage Legendary Quality Guardian Beast with astonishing potential,

Hu Tao felt she would have probably faced a lot of skepticism.

Hu Tao was now a major broadcaster with a steady fan base of thirteen million.

Every time she started broadcasting, a large number of viewers would immediately flood into her live room.

Liu Tiantian, as the special reporter for the Peach Wood Team, even without broadcasts from Hu Tao and Fang Mu for a few days, was still exceedingly busy.

However, this busyness made Liu Tiantian extremely happy.

In the span of a few days, Liu Tiantian had gained a large number of followers.

Such attention was something the past Liu Tiantian could never have achieved no matter what.

Basking in the fame of Fang Mu and Hu Tao, Liu Tiantian was now considered a celebrity on the Battle Network.

Seeing Liu Tiantian's soaring popularity, many offline events sent her invitations.

Liu Tiantian transitioned from being a novice event host to a sought-after veteran host, much in demand for various significant tournaments.

She couldn't help but feel that when one person achieved enlightenment, even their pets ascended to the heavens.

From a personal standpoint, Liu Tiantian was a fan of Jianmu.

Professionally speaking, hitching her wagon to Jianmu was like catching a ride on a fast-moving Swift Dragon!

In Fang Mu's previous life, a broadcaster with only several hundred thousand followers, would be speculated upon by fans and the media alike if they did not broadcast for a few days at their peak.

Hu Tao had not started a broadcast for nearly a week, and the Battle Network was filled with discussions about Jianmu and Hu Tao.

[Why in the Water]: I bet Jianmu simply can't stand it and is prepared to find another teammate! No matter how you look at it, Ready to Awaken's skill level is just not on par with Jianmu's!

[Why in the Water]: The age requirement for duo queue in the ranking division states that the age difference between partners cannot exceed four years. Jianmu could totally partner with a club star player who is four years older and with that player, they might even have a shot at reaching the Diamond Tier Division!

Chapter 1002: Here Comes the Grip! _2

[Big Big Garlic]: The poster above clearly doesn't understand the duo queue. Anyone aiming for Diamond will come across monster after monster. Diamond level Beast Masters reign supreme, and with Jianmu being just sixteen or seventeen years old, and his partner, who's barely twenty, being only a

Two-Ray Star Beast Controller at most, how could they possibly qualify to compete in the Diamond ranks? They'd be lucky to get by in Platinum Tier with that kind of luck!

[Love to Send Blade]: I really don't care about how far Jianmu and "Definite Awakening" could go in the rankings, as long as they keep live streaming, all is good!

[Fiddlehead]: I feel the same way, and it's not Jianmu I'm a fan of, it's "Definite Awakening". The vibe "Definite Awakening" brings during live streams is so comfortable, I think even without Jianmu they have the potential to be a big-time broadcaster!

Most of the topics online involved the discussion of why Fang Mu and Hu Tao had not been live streaming recently.

A few discussions were specifically targeting Hu Tao, continuously raising various doubts about her.

In the past, such questions would have made Hu Tao feel extremely upset.

...

But now, after bonding with the Infinite Silver Silkworm, Hu Tao had cemented her strength among her peers.

When Hu Tao decided to become a broadcaster to help Fang Mu's team increase its popularity, she had braced herself for doubt and abuse.

Once Fang Mu found a Guardian Beast that complemented him, her own strength would rise sharply in a short time.

If she allowed herself to break down over some online comments, it might lead Fang Mu to develop a sense of guilt,

Feeling that he should not have let her become a Battle Network broadcaster.

And it would also mean she had let down the cultivation Fang Mu had invested in her.

When Hu Tao resumed streaming and secured two consecutive victories with Fang Mu on the Battle Network,

It directly dispelled many doubts online.

Through repeated battles with Hu Tao, Fang Mu could clearly feel Hu Tao's confidence rebuilding.

The currently confident Hu Tao tied in precisely with the impression Fang Mu had when he first met her.

Which greatly pleased Fang Mu.

It was during Fang Mu's anticipation for whether the Heavy Cherry Washing Carp's skill "Sakura Festival" could help his Beast Master rank level up,

That he received a message from Chang Le Pavilion's Second Master Li Xu through his Legend Butterfly.

Most of the time, Chang Le Pavilion would have a dedicated person communicate with Fang Mu.

Li Xu and Lang Huan, the two proprietors, seldom contacted Fang Mu directly through a Communication Beast.

Upon receiving Li Xu's message, Fang Mu immediately realized something must have happened at Chang Le Pavilion.

"Fang Mu, are you currently in the Dragon Rising Federation?"

"I'm not within the territorial boundaries of the Dragon Rising Federation, so I can only contact you through a Communication Beast."

"If you were in the Dragon Rising Federation, it would have been proper to impart this news to you in person."

Seeing Li Xu speak so solemnly, Fang Mu's expression also took on a serious tone.

"Li Xu, just speak plainly if there's something. If there's any trouble, it would be better for me to prepare in advance!"

"Infinite Tower maintains a cooperative relationship with Chang Le Pavilion,"

"And if Chang Le Pavilion faces trouble, Infinite Tower will not stand by idly!"

Li Xu immediately realized Fang Mu had misunderstood her intent.

Li Xu quickly continued,

"Fang Mu, you've been using Chang Le Pavilion's name as a channel to communicate with outsiders."

"Someone has already used the channel you provided to reach out to us at Chang Le Pavilion."

"My reaching out to you is specifically to discuss this matter."

Upon hearing this, Fang Mu's face revealed his understanding.

Fang Mu indeed had negotiated with external forces under the banner of Chang Le Pavilion.

But in those dealings, Fang Mu had only negotiated with two powers.

One was Truth Hall, and the other was Poisonous Gu Villa.

Besides these two, it was unlikely any other force would take the initiative to contact Chang Le Pavilion.

Seeking to use Chang Le Pavilion's channels to reach out to him.

Behind Poisonous Gu Villa was Disaster Insect Valley,

With Disaster Insect Valley as support, Poisonous Gu Villa was not particularly lacking in Creator resources.

On the contrary, the Angel species Beast from Truth Hall are like a Bottomless Pit,

Requiring massive resources to cultivate these Angel species Beasts.

Therefore, the possibility of Truth Hall's Wang Xu reaching out to him through Chang Le Pavilion is greater.

"Is it Wang Xu who wants to find me through you?"

Li Xu was not surprised that Fang Mu had mentioned Wang Xu as soon as he spoke.

Fang Mu always acted cleanly and decisively, exhibiting great specificity in his dealings.

He must have been well aware of which power he had revealed the method of contacting Chang Le Pavilion to.

"Wang Xu is currently in the Minghe Federation, and I am also in the Minghe Federation dealing with some matters."

"If you want to meet Wang Xu, I can bring him directly to you," Fang Mu said without hesitation.

"Then I'll trouble you to make the trip, and we'll discuss everything when we meet!"

Hearing what Fang Mu said, Li Xu couldn't help but give Fang Mu a mental thumbs-up.

This young man Jianmu was simply too capable.

Offering to bring Wang Xu to Jianmu wasn't to curry favor with Jianmu.

Rather, it was to owe Chang Le Pavilion a favor from Truth Hall.

If Jianmu refused the offer, then naturally, Truth Hall wouldn't owe a favor to Chang Le Pavilion.

Li Xu had heard about a female Angel leader from Truth Hall being driven out at Master Lanye's banquet.

Master Lanye had driven out that female leader of Truth Hall and torn up the invitation given to Truth Hall.

And he publicly stated that he would not invite Truth Hall to participate in any events related to himself in the future.

This was equivalent to a direct falling out with Truth Hall, making future resource transactions with them impossible.

It could even be seen as a threat to Truth Hall from Master Lanye.

Telling the powers attending his banquet to interact less with Truth Hall in the future.

Having lost a channel of Grandmaster Creators, Truth Hall inevitably wanted to open another one.

Therefore, Wang Xu from Truth Hall seeking Jianmu could only be with the intention of trading resources with him.

In previous communications with Fang Mu, Li Xu had discovered that Fang Mu was not opposed to other powers trading resources.

That was why Li Xu chose to get involved.

The Minghe Federation was not far from the Dragon Rising Federation.

With the speed of high-level powerhouses like Li Xu and Wang Xu, they could reach the Dragon Rising Federation by early the next morning.

After putting away the Legend Butterfly, Fang Mu began to calculate in his mind.

Aside from the Infinite Tower he had established, Fang Mu had not yet tried to support any power externally.

The Twelve Pavilion, Chonghuaju, and the Glorious Clan had all formed extremely equal cooperative relations with him.

In the current struggle for dominance led by the Contract Garden, Fang Mu thought it necessary to strongly support a certain power,

turning that power into his pawn, acting on behalf of himself and the Infinite Tower.

There were two prerequisites to selecting a power to support strongly.

One was that the power had to depend enough on him, allowing Fang Mu to exercise partial control over it.

The second was that the power had to be sufficiently strong.

If the power wasn't strong enough, it would be difficult for it to create value for Fang Mu as his pawn.

In terms of strength, Truth Hall was sufficient.

Fang Mu had learned about the situation of Truth Hall through Shu Liangjun.

The strength of Truth Hall was not inferior to that of the Evil Heart Sect.

However, Truth Hall was composed of twelve families, each of which would appoint an Angel leader.

This caused disunity among the twelve angel leaders of Truth Hall.

It was precisely such a disunited force that provided Fang Mu with the opportunity to gradually take control by dividing it.

Whether to choose Truth Hall as the power to support strongly was still uncertain for Fang Mu.

But communication with Wang Xu this time would certainly lead Fang Mu to a clear judgment.

When Wang Xu came to seek Grandmaster Creator resources from him, he would naturally be at a disadvantage.

As long as one-quarter of the families that formed Truth Hall, which is three families, were controlled by Fang Mu,

he could invest resources in these three families, allowing them to grow rapidly.

He could then use these three families to control Truth Hall!

Chapter 1003: Tidal Treasury!

Li Xu had informed Wang Xu of Fang Mu's response.

Chang Le Pavilion acted as a communication channel in the trade between Infinite Tower and Truth Hall.

Li Xu could have easily become a middleman and earned resources from Truth Hall.

However, Li Xu did not do so.

He merely conveyed the message and then allowed Wang Xu to make a choice.

Chang Le Pavilion had already acquired a plethora of Grandmaster Creator resources from its trade with Fang Mu, reaping significant benefits.

...

In such a situation, it seemed rather improper for Chang Le Pavilion to also act as a middleman.

Even though Fang Mu did not mind him doing so, Li Xu still paid attention to maintaining the appropriate measure.

He did not want to leave a bad impression on Fang Mu.

When Wang Xu contacted Chang Le Pavilion, he was quite anxious.

Wang Xu was very fearful that the people of Chang Le Pavilion would give him a negative response.

Truth Hall was in desperate need of Grandmaster Creator resources at the time.

His own family had always been lukewarm within Truth Hall.

Wang Xu also needed to find an opportunity to make his family rise to power within Truth Hall.

Wang Xu hoped that he could become the channel linking Truth Hall with a Grandmaster Creator.

The way Fang Mu casually handed out Grandmaster Creation Elixirs as rewards in the Ancient Battlefield made Wang Xu feel that aligning with Fang Mu would offer more opportunities to access trading resources than with other Grandmaster Creators.

“Second Proprietor, you are acquainted with Yan Luo. May I know if I need to prepare anything before meeting Yan Luo?”

Li Xu had already guessed Fang Mu’s identity.

He was not at all surprised when Wang Xu referred to Fang Mu as Yan Luo.

“Yan Luo has not asked for any specific preparations; you just need to come with me,” replied Li Xu.

“If Yan Luo truly has any requirements, I think he will present them directly when you meet.”

“Before meeting Yan Luo, I must caution you,” Li Xu added.

“It’s best to ensure absolute sincerity in your communication with Yan Luo, otherwise you are likely to offend him!”

“Since you already have the opportunity to trade with Infinite Tower, do not be like the fool who drops a watermelon to pick up a grape!”

Chang Le Pavilion held considerable prestige in the Main World and was a rather powerful force.

Li Xu's words implied a significant endorsement for Infinite Tower.

Wang Xu took Li Xu's advice to heart.

He had approached Fang Mu seeking to secure a stable Grandmaster Creator trading channel.

Attempting to be deceitful and cunning wasn't realistic at all.

On his way there, he had already determined the baseline of his negotiations with Infinite Tower.

As long as Infinite Tower did not cross this baseline, the demands peak alongside it.

For anything else, he was able to agree on his own.

"Second Proprietor, thank you for your cautionary advice."

"If Truth Hall truly forms a partnership with Infinite Tower, I will certainly prepare a generous gift in thanks!"

Li Xu would not actively seek benefits from Infinite Tower.

However, if Wang Xu, representing Truth Hall, wanted to express his gratitude after successful negotiations, Li Xu would not decline.

“Today, I find that you and I are quite compatible,” Li Xu remarked.

“If the opportunity arises, Truth Hall might also consider partnering with Chang Le Pavilion.”

After chatting leisurely with Wang Xu for a while, Li Xu personally escorted him to JA City.

This time, in seeking out Fang Mu, Li Xu intended to invite him to collaborate with Chang Le Pavilion in developing Tide Bay.

Tide Bay was a treasure site auctioned publicly by Contract Garden, which Chang Le Pavilion had acquired for a high price seven years ago.

Upon acquiring Tide Bay, Chang Le Pavilion had found that it contained more rare corals and special Fish Beasts than had been initially introduced by the Contract Garden at the auction.

Lang Huan and Li Xu understood why the creators at Contract Garden had not developed such a treasure site themselves.

The resources needed to cultivate these rare corals and Fish Beasts were incredibly vast.

Even a Grandmaster Creator, investing all their wealth, would find it difficult to manage the operation of Tide Bay alone.

However, if two or more Grandmaster Creators jointly managed Tide Bay,

it would surely bring tremendous returns.

There are three particularly precious Beast Taming Tribes in Tide Bay.

Time-tide Coral was a type of Aquatic Sovereign Beast that followed a timing rhythm, energizing the Water Element every few hours.

During the energizing process, it would naturally trigger a tide.

The energized Water Element absorbed by other aquatic creatures greatly accelerated their growth.

Time-tide Coral was a high-quality culturing Guardian Beast.

Any culturing base obtaining a Time-tide Coral would see at least a 30% increase in production capacity based on the original figure!

Time-tide Coral was also particularly suitable for simulating unique aquatic environments.

It was displayed in the Contemplation Hall for Beast Masters to comprehend mystical patterns related to tides.

Some major forces could even use Time-tide Coral to create beautifully scenic landscapes.

Besides Time-tide Coral, the Rainbow Starfish and Purple Crystal Shrimp held even higher values.

When Rainbow Starfish absorbed Elemental Energy from various elements, it would condense a Rainbow Stone at its core.

Rainbow Stone had the effect of enhancing a Guardian Beast's affinity for elements.

If a Guardian Beast had not been well-cultured in its youth resulting in poor elemental affinity,

it could use the Rainbow Stone produced by Rainbow Starfish for recovery.

Rainbow Stone was always in demand but seldom available for sale.

Although its value was not as high as a Grandmaster-level Potion, it was comparable to a Master-level Elixir.

Chapter 1004: The Tidal Treasure Vault! _2

Purple Crystal Shrimp is an extremely high-quality and expensive rare ingredient.

The shrimp meat possesses detoxifying properties, while the shrimp brain has the effect of low-frequency stimulation of spiritual power.

A common person who wants to become a Beast Master needs to use this low-frequency spiritual power stimulation to obtain their Destiny Guidebook.

It was because Fang Qin could not awaken his Destiny Guidebook as smoothly as other children that he sought out low-frequency spiritual power stimulating elixirs for Fang Mu.

Low-frequency spiritual power stimulating elixirs are quite effective, but they have usage limitations.

However, the brain of the Purple Crystal Shrimp does not.

...

As long as one can afford the high cost of the Purple Crystal Shrimp, one can eat the fresh shrimp brain every day and keep one's spiritual power in a state of low-frequency stimulation.

Essentially, major powers have monopolized the Purple Crystal Shrimp.

Fang Qin had not even heard of the existence of the Purple Crystal Shrimp before.

It was after Fang Yuan started up the Jianmu Commerce Association that he broadened the horizons of the four Fang siblings.

The Chang Le Pavilion had invested almost all their family wealth to win over Tide Bay.

If they delayed in developing it, the profits promised by the Chang Le Pavilion would be difficult to recover.

Over the years, the Chang Le Pavilion had completely cordoned off Tide Bay and even relocated their headquarters nearby.

And they have built the necessary infrastructure for the development of Tide Bay.

However, due to the lack of Creator resources, they could not start smoothly.

After spending time together recently, both Li Xu and Lang Huan felt that Fang Mu was a reliable person.

Li Xu wanted to inform Fang Mu about Tide Bay and have him notify Qixing.

To see if Qixing would be interested in co-developing Tide Bay with the Chang Le Pavilion.

Li Xu did not believe Fang Mu could be the decision-maker in this matter.

Li Xu wanted to bring this up with Fang Mu because he had learned that the Infinite Tower had at least two Grandmaster Creators.

Thus, the Infinite Tower had the capacity to co-develop Tide Bay with the Chang Le Pavilion.

After instructing the Covenant Servant Soul Ant Queen to quickly strengthen the colony for the upcoming New Ant Queen Mating Flight, Fang Mu fell into a deep sleep.

The next day, after finishing lunch, Yisi entered Fang Mu's study like a specter.

She cast a loving glance at Fang Mu's back and then spoke softly.

"Master, all the damage to the origin within my body has been completely healed."

"My strength has also stabilized at the level of the Seventh Blood Sacrifice."

"I have been out modifying some Blood Servants recently, and now these Blood Servants can barely manage the Red Moon Castle."

"When would you have me return?"

Upon hearing this, Fang Mu turned his head and looked at Yisi.

During this time, Fang Mu noticed that Yisi's looks towards him were becoming increasingly strange, and the affection in her eyes ever more obvious.

Every time Fang Mu used spiritual and soul power to stimulate the Blood Crystal in Yisi's heart, he could feel the affectionate gaze in her eyes become a bit more intense.

Fang Mu felt that he had vaguely discovered a weakness of the Blood Race.

However, Fang Mu was definitely not reassured by merely controlling Yisi through the Blood Crystal.

Fang Mu wanted to wait until he produced another drop of Covenant Blood Essence and try to use it to bond with the Blood Emblem within Yisi.

After gaining control of Yisi's Blood Emblem, it wouldn't be too late to send Yisi back!

"Continue to strengthen the Blood Race group you control for the next two weeks while remaining by my side," Fang Mu said.

"Just before you return, I can also provide you with some Blood Red Fog, which you can use to further enhance yourself after you go back!"

Yisi indeed had become somewhat impatient to return recently.

Spending too much time away could delay the monthly meetings of the Blood Race and draw the attention of other Blood Race queens.

Yisi had secretly snuck out, carefully timing her absence.

Hearing Fang Mu say she should stay another two weeks made Yisi worry.

How would she explain her prolonged absence to the other familiar Blood Race queens upon her return?

But when Fang Mu mentioned he would provide her with more Blood Red Fog, Yisi's concerns eased.

She could claim that she was in secluded cultivation to enhance her strength.

With another batch of Blood Red Fog from Fang Mu, her Bloodline would noticeably improve.

By then, Fang Mu thought, not only would the suspicions of those Blood Race queens be dispelled, but they wouldn't know how to stop envying him!

Yisi didn't linger long in Fang Mu's study.

After learning about Fang Mu's plans for her, she continued her search for new Blood Servants.

Blood Servants were mystical creatures transformed by Yisi using her own bloodline, converted into members of the Blood Race sharing the same bloodline as hers.

Fang Mu didn't allow Yisi to search for Blood Servants within the Dragon Rising Federation, so she followed the path through Hidden Dragon Canyon to a few federations bordering Dragon Rising, choosing high-quality vessels.

When the Blood Race selected Blood Servants, appearance was deemed more important than potential.

After meeting with Mister Hei and understanding his strength, Fang Yuan made a point of calling Fang Mu.

Fang Yuan's admiration for his younger brother Fang Mu was growing by the day.

To Fang Yuan, even those of the Sequential Rank were beings he had to look up to.

Previously, the peak Sequential Rank expert arranged by Fang Mu had already shocked Fang Yuan.

Fang Yuan used to work at the Ten Thousand Treasures Commerce.

The president of Ten Thousand Treasures Commerce, Tang Xiao, had only just barely entered the Sequential Rank, and his Main Battle Mystic Beast had recently advanced from Sequence Nine to Sequence Eight.

Now, the teacher and Guard that Fang Mu had arranged for him were beyond Sequential Rank, having stepped into the Order Level!

This exposure allowed Fang Yuan to glimpse an entirely new level.

Listening to Fang Yuan's sighs over the phone, Fang Mu spoke very seriously,

"Second brother, you're now at a stage of development where your strength dictates progress."

"Previously, due to a lack of resources, you couldn't contract with multiple Leopard Beasts."

"The Leopard Beasts I've provided for you not only require a tenth of the spiritual power normally needed for contracting a Guardian Beast, but their bloodlines are also among the top within their species."

"Both the Yin Yang Leopard and the Nine Heavens Thunder Leopard, as well as the guard I've assigned to you, are all qualified to step into the Sequential Rank."

"Second brother, you mustn't be like before, afraid to waste resources when Cultivating Beasts."

"Every resource you save during the cultivation process is to belittle those two Leopard Beasts' bloodlines!"

A long time ago, Fang Mu noticed a problem; the resources he provided for Fang Yuan were being used sparingly in an extreme manner.

Fang Mu felt both distressed and helpless about this.

Fang Mu was well aware that such situations arose because, for several years after graduating from College, Fang Yuan had been responsible for earning money to support the family.

Resources were mostly allocated to Fang Qin, Yan Wood, and himself.

Fang Mu had not known how difficult Fang Yuan's life had been until he met Lu Bo, who revealed that Fang Yuan even spared expenses on meals.

A Beast Master, a Golden Gloves of a commerce association, cutting corners on meal costs like an ordinary person, would be utterly unbelievable if said out loud.

Yet that was precisely the kind of unbelievable things that Fang Yuan kept doing.

The frugality Fang Yuan displayed now with the resources for Cultivating Beasts was akin to a withdrawal reaction from those hard years.

Fang Mu emphasized the bloodline of those two Leopard Beasts over the phone specifically to help Fang Yuan quickly overcome the withdrawal reaction.

Fang Yuan was stunned silent upon hearing Fang Mu's words.

Raising his hand, Fang Yuan summoned his newly contracted little leopard.

The leopard before him, with intermingled black and white fur, and another with a primary hue of silver-blue, both boasted bloodlines transcending the Sequential Rank.

If what Fang Mu said was true, these two leopard beasts were far more precious than the Order-level Guard!

At that moment, Fang Yuan's heart was filled with nothing but shock and touched emotions.

After a long silence, Fang Yuan said to Fang Mu very earnestly,

"Little Wood, rest assured, I will carefully cultivate these Guardian Beasts you've prepared for me!"

"I can feel my strength rapidly improving."

“Ever since using the Brilliant Golden Honey, I feel my Beast Master realm starting to loosen.”

“I plan to set aside some time recently, to also advance in the Battle Network rankings like you did.”

“I see Lingxi has already reached the Platinum Tier in her solo ranking.”

“After I push my personal ranking higher and polish my battle skills...”

“I’ll take Lingxi to try pair battling!”

“Pair battling with her should be much more interesting than watching battle videos or Mystic Beast movies every night!”

Chapter 1005: Fang Mu’s Dominance!

Fang Mu raised his eyebrows upon hearing the words.

Fang Mu had always known about the relationship between his elder brother, Fang Yuan, and Tang Lingxi.

Before Fang Mu became a Beast Master, Tang Lingxi had sent him and Yan Wood clothes and snacks under Fang Yuan’s name, as well as some spiritual materials beneficial for Yan Wood’s Guardian Beast.

It was not until Fang Mu and Fang Yuan talked about this matter over the phone that Fang Mu became aware of Tang Lingxi’s existence.

The spiritual materials weren't anything special; Fang Yuan usually provided the same for Yan Wood.

On matters of spiritual materials, Fang Yuan never scrimped nor settled for second-rate goods.

...

Otherwise, Fang Yuan wouldn't have stood out among his peers solely based on talent.

However, the clothes and snacks were exceedingly expensive.

They were definitely not something Fang Yuan could afford with his means.

When Fang Yuan heard Fang Mu bring up this issue, Fang Mu could distinctly feel a change in Fang Yuan's aura.

After that, they never received another package from Tang Lingxi.

At that time, Fang Yuan had just joined the Ten Thousand Treasures Commerce not long ago.

Tang Lingxi, being the daughter of the president of Ten Thousand Treasures Commerce, was fundamentally from a different world than Fang Yuan.

If she did not truly like him, she wouldn't have gone to such lengths to send that package for him and Yan Wood.

Tang Lingxi being with Fang Yuan could not have been because of Fang Yuan's circumstances.

So, even though Fang Yuan had now become the president of Jianmu Commerce Association, a position far surpassing that of Tang Lingxi's father, Tang Xiao,

Fang Mu had never dwelled on Tang Lingxi's existence.

Initially, when Fang Yuan started out on his own, he didn't know Jianmu was himself.

During that time, Tang Lingxi also gave Fang Yuan tremendous support.

This earned Fang Qin, Yan Wood, and Fang Mu's approval of Tang Lingxi's role.

Fang Mu, having recently seen Fang Qin and Mo Shang's relationship grow closer, always felt that Fang Yuan's progress was rather slow.

Yet he never expected that Fang Yuan was the cleverest among them, managing to take Tang Lingxi to watch battle recordings and major movies about Guardian Beasts leisurely!

Tang Lingxi must certainly love battling, otherwise she wouldn't have reached the Silver Ranks on the Battle Network.

Teaming up in the ranking zones and battling side by side was indeed a great way to foster a relationship.

"Second Brother, I will search for more Leopard Beasts for you to contract in the future,"

"Stop choosing those Leopard Beasts with bloodlines that can't step into Order in the future."

"Our family is not short of resources, so every contracting of a Guardian Beast in the future must be the best choice!"

Fang Yuan nodded upon hearing Fang Mu's advice.

Fang Yuan did carry some habits from being too frugal in the past,

but Fang Yuan was now clear about Fang Mu's strength.

Fang Yuan would not gamble with his own future.

After chatting casually with Fang Yuan, Fang Mu was ready to put away the Legend Butterfly.

The Legend Butterfly then received a Soul Sound Transmission from Second Tavern Master Li Xu.

Fang Mu did not set the meeting place with Li Xu and Wang Xu at the Mountain Manor.

After pondering for a moment, he decided to set the location at his residence in Lu City.

The residence in Lu City was Fang Mu's property.

It had been a while since Fang Mu had visited there.

But there were servants left there to take care of the house and clean,

So Fang Mu could move in immediately whenever he went there.

Fang Mu called on Shu Liangjun and She Wan.

Shu Liangjun would act covertly, and She Wan visibly.

This trip to Lu City was also an opportunity for She Wan to go back to her ancestral home to see her father and grandfather.

Being a Noble Lady from the She Family, She Wan inherently held immense pride.

In terms of abilities, She Wan never felt she was inferior to any peers.

However, after becoming Fang Mu's Guard, She Wan felt an unprecedented pressure.

But since Fang Mu had called her for this trip, it indicated that Fang Mu still acknowledged her status as a Guard.

She had not become marginalized in Fang Mu's company.

Noticing She Wan's anxiety, Shu Liangjun spoke to her through Soul Sound Transmission,

"Young lady, how old are you to have reached the Sequential Ranking with your Main Battle Mystic Beast?"

“You should compare yourself with your peers, not with us old folks!”

“It’s not necessary for a Beast Master to enter the competitive environment once they surpass fifty years.”

“Look at Hu Tao, Jiang Tuo, their skills are much weaker than yours.”

“Aren’t they still receiving serious training from Little Wood?”

“Your potential is good, no need for self-pity.”

“As long as you don’t make big mistakes, Little Wood won’t abandon you!”

“If you always carry such sentiments with you while accompanying Little Wood, it will only harm you!”

She Wan was a member of the Starwheel.

Just by virtue of this identity alone, Shu Liangjun was willing to mentor She Wan.

In interacting with She Wan, Shu Liangjun could sense that she was quite thorough in her work,

making her one of the more heartfelt talents around Fang Mu.

Otherwise, if it were someone else, Shu Liangjun wouldn't bother caring about their thoughts!

Taken aback, She Wan pondered Shu Liangjun's words for a long while.

Then, she nodded gratefully in the direction of Shu Liangjun.

Shu Liangjun was unsure if She Wan had truly taken the advice to heart.

However, Shu Liangjun would say such things only once.

If She Wan could not adjust her mindset in time, it would be her loss!

After transmitting the message to She Wan, Shu Liangjun started conversing with Fang Mu.

Upon learning that Fang Mu was going to meet with Second Proprietor Li Xu of Chang Le Pavilion and Wang Xu, the Angel of the Truth Hall,

Shu Liangjun instinctively thought to bring up Tide Bay, which was under the control of Chang Le Pavilion.

Chapter 1006:

Based on Shu Liangjun's understanding of Fang Mu, Fang Mu definitely had the capability to develop Tide Bay.

However, the words were on the tip of his tongue when Shu Liangjun swallowed them back down.

Tide Bay was the lifeline of Chang Le Pavilion due to its resource deficit.

Fang Mu's relationship with Chang Le Pavilion was good at the moment, as they had been cooperating continuously.

If he brought up Tide Bay, Fang Mu might think about negotiating with Chang Le Pavilion over its development.

If Chang Le Pavilion were to refuse, it would inevitably affect the current relationship between Fang Mu and Chang Le Pavilion.

...

Even if Fang Mu did not overthink it, Chang Le Pavilion's two Pavilion Masters, Li Xu and Lang Huan, would become wary.

Fearing that Fang Mu had designs on Tide Bay.

If Chang Le Pavilion truly considered Fang Mu a partner, they would likely take the initiative to discuss Tide Bay.

If the people from Chang Le Pavilion brought it up first, he could elaborate on the situation of Tide Bay to Fang Mu thereafter.

Just as Fang Mu had guessed Wang Xu from Truth Hall's purpose in seeking him out.

Shu Liangjun had also guessed the purpose of Wang Xu's visit to Fang Mu.

Recalling the rumors about Truth Hall he had heard previously, Shu Liangjun spoke to Fang Mu.

"Little Wood, Truth Hall, with such a great power, now relies on merely two Grandmaster Creators."

"Truth Hall's previously most relied upon, Master Lanye, has broken with them."

"If Truth Hall comes to seek a channel for Grandmaster Creators from you, they will certainly take a very humble attitude."

“You can ask for more from Truth Hall.”

Fang Mu just smiled noncommittally upon hearing this.

What Fang Mu wanted from Truth Hall was not just to acquire resources.

If it were merely about acquiring resources, Fang Mu could trade with any power.

Fang Mu needed to use the deal with Truth Hall to control them.

This was not something Fang Mu would discuss with Shu Liangjun, as he did not wish to expose his ambitions to anyone.

Having arrived at Lu City via the Beastmaster Alliance’s Teleportation Array, Fang Mu hardly had time to drink a cup of tea.

Li Xu arrived hurriedly with Wang Xu.

Fang Mu had informed Li Xu of his location earlier, and Li Xu led Wang Xu straight to the pavilion.

Fang Mu raised his hand and covered his face with a mask, altering his entire face with Noface Star Paper.

The moment the ghostly mask with rugged patterns was donned, the sunny aura around Fang Mu was instantly suppressed.

Fang Mu, at that moment, not only appeared ruthless but also carried a young man's defiance.

Seeing this, Shu Liangjun couldn't help but feel sentimental.

When he was 17 or 18 years old, he only knew about indulging in the delicacies made from high-grade Guardian Beast ingredients within his family.

Nothing like Fang Mu, who was capable of holding his own at such a young age!

With so many capable disciples in Qixing, no wonder they didn't need to handle many matters in person!

Upon seeing Fang Mu, Li Xu showed a surprised expression.

Li Xu had seen Fang Mu's true face before.

The disparity between Fang Mu's current demeanor and his actual appearance greatly startled Li Xu.

If he were to confirm that the youth before him was Fang Mu, Li Xu would find it hard to associate this image with Fang Mu in any other situation.

Wang Xu was not familiar with Fang Mu, who always wore a mask during their previous encounters in the Ancient Battlefield.

Wang Xu greeted Fang Mu with a bow.

"Sir Yanluo, it has been a long time. I hope you don't mind my intrusion this time!"

Previously, when trading High-purity Life Potions with Fang Mu, Wang Xu had stood very upright.

But now, Wang Xu bowed down.

It seems that breaking off the channel with Master Lanye indeed had a great impact on Truth Hall!

Otherwise, a peak Sequential powerhouse would have no reason to be so humble before him.

Fang Mu had plans to forcefully cultivate Truth Hall.

Therefore, Fang Mu's demeanor was not as gentle as before, but rather, his voice was cold as he spoke.

"It's not an intrusion, but I indeed came here because of you."

"Just state your business directly!"

"All the major powers now have to face the competition in a few months, and I expect Truth Hall is no exception."

The way Fang Mu treated Wang Xu surprised those familiar with Fang Mu, including Li Xu, She Wan, and Shu Liangjun.

Fang Mu had never adopted such a strong demeanor towards others before.

There was no animosity between Fang Mu and the Truth Hall, otherwise, he wouldn't have made the trip.

Li Xu could be sure that such an attitude from Fang Mu must have had its own purpose.

Soon, Fang Mu would unveil his intentions.

Li Xu was keenly aware that Wang Xu's disposition had altered due to Fang Mu's remarks.

This made Li Xu feel somewhat helpless.

Wang Xu truly placed too much importance on maintaining the Grandmaster Creator channel with Fang Mu.

Such a shift in disposition during negotiations put you on the back foot from the start.

Wang Xu had initially wanted to exchange pleasantries with Fang Mu to foster closer ties.

Since Fang Mu spoke thus, it was clear he hadn't prepared to give Wang Xu the chance for pleasantries.

Hence, Wang Xu had no choice but to cut to the chase.

"Sir Yanluo, our Truth Hall wishes to collaborate with you to trade Grandmaster-level Creator supplies."

“We from the Truth Hall will offer prices above the market value in dealing with you.”

Wang Xu’s words confirmed Fang Mu’s suspicions.

Yet, Fang Mu did not respond to Wang Xu’s words; instead, he assertively retorted.

“Since when could Grandmaster-level supplies be measured by market prices?”

“If Grandmaster Creator resources were readily circulating in the market, you wouldn’t be standing here negotiating with me!”

“I’ve heard that your Truth Hall just lost the trading channel with Master Lanye, which must be why you are so eager to establish a new channel for trading Grandmaster Creator resources!”

“Hoping to open up a new trading route for Grandmaster Creator resources!”

In negotiations, it’s always taboo to directly point out the opponent’s weaknesses.

Such behavior is too calculating.

If the negotiating party becomes disgruntled because of this, it could likely lead to an abrupt end to the negotiations.

Shu Liangjun and Li Xu now realized that Fang Mu intended to use this aggressive communication method to suppress Wang Xu's momentum.

Fang Mu did not object to trading with the Truth Hall, but he wanted to hold absolute initiative in the deal.

Because Li Xu and Shu Liangjun understood Fang Mu well enough, they could see through his varied handling approaches.

But Wang Xu was completely unaware!

Fang Mu's words filled Wang Xu with immense dissatisfaction, yet he could not refute Fang Mu's statements.

He also couldn't just walk away in anger, abandoning the trading channel that Fang Mu controlled.

He had boldly claimed in the council that if he returned utterly empty-handed,

he would not only lose face, causing the Wang Family's lineage in the Truth Hall not to hold its head high,

but he would also face the reproach of He Wen.

His purpose in seeking Fang Mu was to secure a Grandmaster Creator resource channel to elevate his and the Wang Family's status within the Truth Hall.

Considering this, even though Fang Mu's assertiveness made Wang Xu very uncomfortable, Wang Xu still said in a low voice,

"Sir Yanluo, I indeed misspoke just now!"

"How could such precious resources as Grandmaster elixirs appear on the market?"

"I truly wish to urgently secure a trading channel for Grandmaster Creator resources, and I hope you can give me this opportunity."

"If you are willing to grant this opportunity to me, I will certainly reciprocate."

"I come with sincerity!"

Having said this, Wang Xu took out a wooden box and handed it to Fang Mu.

She Wan quickly stepped forward to take the wooden box and opened it in front of Fang Mu.

A sacred radiance seeped from the crevices of the wooden box.

Fang Mu felt a pure light energy from it, along with a unique rhythm.

This rhythm could temporarily be considered as a unique form of energy.

Shu Liangjun recognized the object in the wooden box at first glance.

The box contained Clean Radiant Light, a special resource produced exclusively by the Sacred Truth Hall.

Clean Radiant Light exists in a solid state and is easy to preserve.

Wang Xu's offering of Clean Radiant Light as a gift fully demonstrated his sincerity!

Chapter 1007: What I Value is the Sacred Truth Hall!

The Clean Radiant Light, a Sacred Relic produced in the Sacred Truth Hall, was never initially meant to leave the Truth Hall.

Clean Radiant Light was not merely a spiritual material containing light attribute capabilities.

If it were just a spiritual material with pure light attribute capabilities, Clean Radiant Light would have many substitutes.

It wouldn't be coveted by so many forces.

Besides containing pure light element abilities, Clean Radiant Light also possessed a power that could promote the evolution of the bloodline of Angel Species Beasts.

...

This was the core reason for the preciousness of Clean Radiant Light.

Many forces had proposed to the Truth Hall, willing to pay a high price to exchange for Clean Radiant Light.

Yet the Truth Hall had always clearly refused the outflow of Clean Radiant Light.

This caused quite a few forces to harbor dissatisfaction towards the Truth Hall.

Failing to trade for Clean Radiant Light was a minor issue, but being rejected by the Truth Hall made these forces lose face.

Once a force started to lose its popularity,

unless this force was strong enough, strong enough that others could only look up to it,

its bad reputation would gradually spread.

In recent years, due to trading with fewer and fewer forces, the Truth Hall had to actively engage with other forces.

Facing some forces that could be beneficial to itself, the Truth Hall had begun to be willing to trade Clean Radiant Light!

But this did not improve the Truth Hall's popularity and only deepened the dissatisfaction of those forces that had been rejected by the Truth Hall.

Now, Clean Radiant Light, which never used to flow outside, became a gift from Wang Xu to curry favor.

Shu Liangjun personally witnessed the change in the Truth Hall.

Once, while Shu Liangjun's Golden Toad Manor was trading with the Truth Hall, the Truth Hall knew well the benefits of trading with Golden Toad Manor,

yet still turned its neck and refused the trade request.

Thinking about it now was indeed somewhat ironic.

If the Truth Hall had foreseen the current situation, it probably would not have held Clean Radiant Light so tightly!

The Starwheel Messenger possessed the bloodline of an Angel Species Beast.

Clean Radiant Light could stimulate the Messenger's angelic bloodline.

Fang Mu had contracted a Messenger, which had been raised under Qixing's nurture to the level of a Star River Messenger.

If Clean Radiant Light could be used to cultivate the Star River Messenger, it stood a significant chance of rising even further.

Ascending to the Star Scar Angel!

Fang Mu raised his hand, letting She Wan put away the wooden box containing Clean Radiant Light.

Shu Liangjun had already communicated the marvels of Clean Radiant Light to Fang Mu through Soul Sound Transmission.

Fang Mu was quite interested in Clean Radiant Light.

Fang Mu directly asked Wang Xu,

“The box you gave me, it indeed holds considerable benefits for me,”

“So I presume this is the special production of Clean Radiant Light from the Truth Hall?”

“I wonder if I could have the opportunity to continue trading Clean Radiant Light with the Truth Hall in the future?”

Fang Mu spoke of trading Clean Radiant Light, but it was akin to extending an olive branch to Wang Xu.

As long as Wang Xu agreed to Fang Mu's request, there would be opportunities to continue trading with Fang Mu.

If Wang Xu didn't agree to Fang Mu's request, then there would be no need to continue this trade discussion.

Fang Mu indeed needed Clean Radiant Light, but it was not a resource he had to obtain.

Because Fang Mu's Blood Aged Wine could also stimulate the Messenger's bloodline, and its effect might not even be inferior to Clean Radiant Light on Angel Species Beasts!

Fang Mu said this because he wanted to maintain strength and continue to suppress Wang Xu's momentum in the trade.

If Wang Xu chose to endure again, lowering his head,

Fang Mu could then discuss strong investment matters with Wang Xu!

As they say, times change, and at the initial meeting with Wang Xu, Wang Xu communicated with Fang Mu on equal terms.

But now, in front of Fang Mu, Wang Xu, to achieve his desired outcome, could only show a fawning attitude towards Fang Mu.

When Wang Xu took out Clean Radiant Light, he already had the idea of using it to tempt Fang Mu, giving him a chance.

As one of the archangels of the Truth Hall, Wang Xu received an allotment of Clean Radiant Light every month.

Wang Xu didn't plan to apply to the Truth Hall for Clean Radiant Light to befriend Fang Mu.

Wang Xu intended to give his own Clean Radiant Light to Fang Mu.

In this way, the channel between him and Fang Mu would have no relation to the Truth Hall.

Wang Xu had the thought of using this channel to, in turn, press the Truth Hall.

As an archangel of the Truth Hall, Wang Xu was well aware of how significant the demand for Grandmaster Creator resources was now in the Truth Hall.

The Grandmaster Creator resources of the Truth Hall had been in a state of extreme scarcity for years.

The break between Master Lan Ye and the Truth Hall could be said to be the last straw that broke the camel's back.

Fang Mu thought Wang Xu would need some time to think before responding.

Yet, unexpectedly, Wang Xu agreed without even a moment of hesitation.

"Sir Yan Luo, if you wish, I can provide you with four boxes of Clean Radiant Light each month, as I am doing now,"

"This is already my limit!"

Upon hearing this, Fang Mu glanced down at Wang Xu without troubling him further.

Fang Mu looked up and said to Li Xu,

"Second Proprietor, I'm grateful for your efforts in bringing the person all the way here,"

"Sister Wan, please take the Second Proprietor to rest, and prepare some Lu City delicacies."

“The Ya Le Mountain is on the outskirts of The Capital, quite far from Lu City.”

“But the food in Lu City is no less than the food in The Capital!”

Upon hearing this, Li Xu smiled and shook his head.

Chapter 1008: I Value the Sacred Truth Hall!_2

Li Xu knew that Fang Mu said that because he wanted a chance to talk with Wang Xu alone.

Being a foreigner to the Infinite Tower, he realized that staying here was indeed inconvenient.

“I’m not tired,”

“If Miss She Wan is available, why not show me around Lu City?”

“I would also love to bring some delicacies back for my sister to try!”

Fang Mu and Wang Xu had not finished their talk, and Li Xu did not bring up the matter of Tide Bay.

...

Li Xu wanted to wait until Fang Mu and the Truth Hall had settled everything, and then find an opportunity to seriously discuss the collaboration with Tide Bay.

The collaboration with Tide Bay was a significant matter, not something a Grandmaster Creator alone could handle.

After discussing this matter with Fang Mu, he would certainly need to relay the proposed deal to Qixing and the other Grandmaster Creators within the Infinite Tower.

Before becoming Fang Mu's guard, She Wan had been very fascinated by Chang Le Pavilion.

Having the opportunity to take Li Xu sightseeing, She Wan was extremely excited.

After She Wan took Li Xu away, only Fang Mu, Wang Xu, and Shu Liang Jun remained in the room.

Shu Liang Jun was Fang Mu's Dao Protector, and Fang Mu felt no need to hide his intentions regarding the Truth Hall from Shu Liang Jun.

Seeing Fang Mu send Li Xu away, Wang Xu immediately relaxed.

Fang Mu's action indicated a willingness to collaborate with the Truth Hall.

Having already offered four boxes of Clean Radiant Light every month, he had shown sufficient sincerity.

Fang Mu shouldn't be the kind of person who would make excessive demands.

But the words Fang Mu was about to say clearly exceeded Wang Xu's expectations.

"Actually, I'm not interested in Clean Radiant Light."

"What interests me more is the Sacred Truth Hall that produces the Clean Radiant Light!"

Wang Xu was taken aback by Fang Mu's words.

If it weren't for the fact that Wang Xu was hoping to secure a Grandmaster Creator channel from Fang Mu,

anyone else saying this in front of Wang Xu might have provoked him to act on impulse!

Being interested in the Sacred Truth Hall implied Fang Mu wanted control over the Truth Hall, to become its master!

Fang Mu's remark was truly inappropriate.

Shu Liang Jun narrowed his eyes upon hearing Fang Mu's words, likely guessing Fang Mu's thoughts.

Shu Liang Jun couldn't help but sigh inwardly. Fang Mu really was bold!

If the two Angel Generals of the Truth Hall were here to negotiate, reaching a consensus to betray the Truth Hall would be impossible.

But now, it was just Wang Xu. If the benefits Fang Mu offered could appeal to Wang Xu's desires, which he might have harbored unknowingly,

then this negotiation might succeed!

A full minute had passed since Fang Mu's aforementioned statement, and Wang Xu had not yet confronted Fang Mu.

A smile curved on Shu Liang Jun's face.

This Angel General of the Truth Hall really harbored many thoughts!

Wang Xu was willing to betray the Truth Hall for his own benefits.

But it depended on how substantial the benefits Fang Mu offered were.

Were they significant enough for Wang Xu to consider betraying the Truth Hall?

Fang Mu had always been well-resourced in terms of Grandmaster Creators.

If Fang Mu redirected the resources intended for Master Yi Han to Wang Xu, this deal could certainly succeed.

The value created by a force with at least twelve peak Sequential Amrstrongs was much greater to Fang Mu than a single Grandmaster Creator!

Just as Shu Liang Jun was contemplating whether to give Fang Mu a hint, he heard Fang Mu chuckle as he stepped forward to personally pour a cup of tea for Wang Xu.

"I'm not only interested in the Sacred Truth Hall, I also hope that your Zheng line can rise to power within the Truth Hall,"

"You becoming the Dominator of the Truth Hall and taking control!"

“I believe, Brother Wang, you have the capability to do so!”

“Am I mistaken in my feelings?”

With that, Fang Mu did not hand over the teacup he had poured for Wang Xu but simply stood there waiting for Wang Xu to come forward.

It was as if he was saying, “I’ve paved the way for you, whether you choose to walk it is your decision!”

Every word from Fang Mu was beyond Wang Xu’s expectations.

From the start of their conversations, Wang Xu had always been on the defensive.

But undeniable were the words of Fang Mu that took Wang Xu by surprise, striking right at the heart of Wang Xu.

Wang Xu looked at Fang Mu with a complex expression, feeling that the young man in the ghostly mask understood him well.

It was like being a lover kept by a wealthy person; you could never tell that rich person that you only loved their money and the material comfort and convenience it brought you.

When it really came down to it, you could only profess your love fully.

Wang Xu was just like that lover, except Fang Mu, the wealthy one, had made everything clear from the beginning.

This allowed Wang Xu to communicate with Fang Mu without any need for pretense, freely showcasing his own ambition.

Since Fang Mu had given him the chance to reveal his ambition, Wang Xu decisively reached out and accepted the teacup Fang Mu had passed to him.

He tilted his head back and drank the tea in one gulp.

Immediately thereafter, Wang Xu, as a Sequential Strong, knelt on one knee before Fang Mu, holding the teacup up with both hands towards him.

When Wang Xu first met Fang Mu, Fang Mu was accompanied by two Order Strong.

This left Wang Xu with no doubt about Fang Mu's capabilities.

Swearing allegiance on one knee to a young man guarded by two Order Strong was not a shameful act.

Fang Mu, seeing this, did not take the teacup that Wang Xu held back up to him.

Instead, he kicked the unbent knee of Wang Xu.

The kick from Fang Mu did not carry much force.

Even if it had landed on a baby, it would not have caused the baby to fall.

Yet Wang Xu stiffened and then knelt down completely.

Wang Xu then heard Fang Mu's voice by his ear.

"If you wish to exchange for power, status, and strength, it is better to serve wholeheartedly!"

"Serve me, and I will help you become an Order Strong,"

“Let your Angel Species Controlling Beast Bloodline evolve, giving you the chance to control the resources of the Grandmaster Creators!”

“What you must do for me is to lead the Truth Hall to become my covert ally.”

After Fang Mu had finished speaking, he finally took the teacup from Wang Xu and set it back down on the table.

This was the first time Fang Mu had shown his hand in front of a power’s Dominator.

The most taboo thing in this process was to overpromise.

The other party swears allegiance to you because of benefits, but your promises are not fulfilled.

This would directly affect their confidence in their allegiance to you.

If someone else were to say this in front of Shu Liangjun, Shu Liangjun would definitely scoff.

Really, the audacity to say anything!

But when Fang Mu said this in front of Shu Liangjun, Shu Liangjun found it utterly normal.

The existence of a Saint Creator is itself a deity that creates miracles.

Fang Mu then pulled Wang Xu up from the ground and took out a test tube.

He poured the silkworm-like creature from the test tube into the teacup and handed it back to Wang Xu.

With Wang Xu's insight, seeing the Infinite Silver Silkworm in the teacup would surely make him understand its abilities and effects.

Fang Mu remembered that Wang Xu had some skills as a crafting master.

Even if not reaching the level of an Advanced Crafting Master, he was at least an adequate Intermediate Crafting Master.

Understanding the functionality and capabilities of the Infinite Silver Silkworm, Wang Xu should know what to do without Fang Mu saying more.

Fang Mu and Wang Xu had agreed on terms, and Fang Mu had also made promises to Wang Xu.

Now, this Infinite Silver Silkworm that Fang Mu handed to Wang Xu was both an opportunity and a shackle.

Some promises are useless just being spoken.

They must be exchanged for freedom!

Fang Mu has always liked to make secured arrangements, no exceptions at any time.

Of course, Fang Mu is not without a sense of adventure.

In the action calculated against the Blood Race Queen, Fang Mu took personal risks and achieved great success.

It is exactly because Fang Mu always sought assured control in everything, yet was willing to risk facing opportunities and unknown dangers,

That he has achieved such development and success!

The sea is vast for the fish to leap; the sky is high for the birds to fly.

The Infinite Tower, from being initially fabricated by Fang Mu, was now gradually becoming substantial.

It is now time for the Infinite Tower to stand tall in this world!

Chapter 1009: Senyue Angel!

Wang Xu lowered his head to look at the teacup Fang Mu was handing to him once again.

Looking at the twisting silver silkworm in the teacup, Wang Xu was initially puzzled by Fang Mu's intentions.

But after carefully examining the condition of this little silkworm, Wang Xu's spirits were lifted.

A touched expression appeared on his face!

This silver silkworm could actually allow a Beast Master to advance in rank!

Once a Beast Master advanced in rank, they could then command a Guardian Beast that was a whole major level above their current status.

...

This treasure was extremely useful for Beast Masters below the rank of Six-Polar Star.

However, since he was already a Six-Polar Star Beast Master, contracting this Infinite Silver Silkworm would be a waste.

Wang Xu took this as a reward given to him by Fang Mu.

Wang Xu did not believe that Fang Mu would waste such a precious resource.

“I thank you for your reward. If the young ones of our Wang Family lineage could contract this Silkworm Type Royal Beast, they would surely stand out in the Truth Hall.”

“They could even represent the Truth Hall in the contests of power among the younger generation of the major forces!”

Out of the twelve families behind the twelve archangels of the Truth Hall, the Wang Family was among the upper middle.

But the younger generation was only able to rank low among these twelve families.

It wasn't because there was a problem with the Wang Family's training of the younger generation, but because previous power struggles mainly compared the established powerhouses.

The Wang Family had invested most of their resources in these established powerhouses.

Because the younger generation received relatively fewer resources, it was difficult for them to exceed those forces that were willing to invest resources in their youth.

Contracting the Infinite Silver Silkworm, the power of their Guardian Beasts would advance one level.

The youth of the Wang Family would immediately stand out among their peers!

After all, even if the upbringing of Guardian Beasts among the young people of a similar age varied, their ranks were basically the same.

Upon hearing this, Fang Mu shook his head at Wang Xu.

“This Silkworm Type Royal Beast is called the Infinite Silver Silkworm; it is a unique Royal Beast of the Infinite Tower.”

“It is not for the younger generation of your Wang Family to contract, but for you to contract!”

“If you contract the Infinite Silver Silkworm, you will be under the control of the Infinite Tower.”

“If you violate the agreement, the Infinite Silver Silkworm will completely Dissolve your spiritual power, causing your psyche to collapse and losing your qualifications as a Beast Master!”

“I have given you a promise, and you must let me be at ease too!”

“Once you contract the Infinite Silver Silkworm, as a reciprocation I will provide you with three Infinite Silver Silkworms free of charge.”

“So that you can give them to the younger members of your Wang Family to contract.”

“You are smart enough not to reveal the existence of the Infinite Silver Silkworm.”

“I’m not certain whether I will deal with other forces regarding the Infinite Silver Silkworm in the future.”

“If you expose the existence of the Infinite Silver Silkworm or let other archangels of the Truth Hall know about your intimate relationship with the Infinite Tower,”

“It will not benefit you in commanding other families within the Truth Hall and in developing yourself.”

Fang Mu did not want the existence of the Infinite Silver Silkworm to be exposed, but he was not afraid of revealing its existence to outsiders.

However, from Wang Xu's standpoint, he definitely did not want the existence of the Infinite Silver Silkworm to be revealed.

The archangels of the Truth Hall, for the overall development of the Truth Hall, might be willing to let one of the archangels take power alone.

But they would not allow this archangel to be controlled by other forces.

Wang Xu's body shuddered, as he had long anticipated that Fang Mu would use some method to bind him.

Like the Truth Hall, there was a way to restrain Beast Masters.

Fang Mu, by restraining him and providing three Infinite Silver Silkworms for the younger members of the Wang Family, showed sincerity.

Having invested so much resources in him from the start, the resources he would invest in him in the future would definitely not be less!

Wang Xu contracted the Infinite Silver Silkworm right in front of Fang Mu, then brought his hands together and gently bowed to Fang Mu.

One of the twelve archangels of the Truth Hall, a peak Sequential powerhouse, thus submitted to a young man.

Shu Liangjun looked up at Fang Mu.

Shu Liangjun knew that the Infinite Tower, a force that had not been known about before, was about to start revealing its fangs.

Fang Mu was so generously bestowing the Infinite Silver Silkworm to Wang Xu, allowing Wang Xu to contract it for the younger generation of the Wang Family.

Because Fang Mu not only wanted to control old powerhouses like Wang Xu in the Wang Family, but he intended to control the outstanding younger generation as well.

Even as time passed and Wang Xu perished, Fang Mu could still control the lineage of the Wang Family within the Truth Hall.

Fang Mu was pleased with Wang Xu's actions and lifted him up by the hand.

Immediately, Fang Mu took out a Spirit Capturing Box, presenting Wang Xu with one of the defective Sprit Capturing Boxes that was only as big as a soccer field on the inside.

This Spirit Capturing Box was designed in the form of a badge, adorned with a pair of angel wings.

Yet, these angel wings were wrapped in thorns, mixing sanctity with a sinister sense of corruption.

Jiang Weng had some artistic flair in him.

After deciding to invest strongly in controlling Wang Xu through the Truth Hall, Fang Mu had already prepared resources for Wang Xu in advance.

Wang Xu had just received the Spirit Capturing Box from Fang Mu and immediately discovered that this piece of Spatial Equipment was different from traditional spatial items.

It did not require a contract, and could be operated just by running spiritual power!

Moreover, the internal area was comparable to the storage area inside a Diamond Spatial Spirit Tool.

In that instant, Wang Xu thought of the extensive applications of this special kind of Spatial Equipment.

Seeing the resources Fang Mu had prepared for him inside the Spatial Equipment, Wang Xu did not hesitate to explore these resources right in front of Fang Mu.

Chapter 1010: Senyue Angel!_2

He had already sworn loyalty to Fang Mu, Wang Xu wanted to see what his loyalty could exchange with Fang Mu.

Just as Fang Mu needed to ensure his absolute control over him.

Wang Xu also needed to ensure that the resources provided by Fang Mu were truly as he had claimed, enabling the Wang Family to stand out within the Truth Hall.

To become the leading family of the Truth Hall.

Wang Xu turned out three embroidered chests.

Just as he opened the first chest, Wang Xu saw three test tubes placed on the left side of the chest.

...

Each of the test tubes contained an Infinite Silver Silkworm, lazily writhing inside.

Wang Xu realized that from the beginning, Fang Mu had him under his control!

However, Wang Xu was not repelled by this control.

Next to the three test tubes, there were exactly fifty vials of Life Elixir with a purity of ninety percent, which clearly showed Fang Mu's sincerity.

Previously at Master Lanye's, the Truth Hall could only trade for forty Grandmaster-level potions each year.

The resources in this one chest alone had already satisfied Wang Xu.

Wang Xu held his breath as he opened the second chest, which contained quite straightforward items.

Forty vials each of Water, Fire, Earth, and Wood element potions, each with a purity between ninety and ninety-two percent.

If the resources in the first chest exceeded what the Truth Hall could obtain from a Grandmaster Creator annually,

Then the items in these two chests exceeded all the Grandmaster Creator resources the Truth Hall obtained in a year!

These resources were not a trade between Fang Mu and the Truth Hall but a dedication of resources to him and the Wang lineage.

These resources could also be used to enhance his and his family's power!

Wang Xu's hands trembled slightly as he opened the third chest.

Wang Xu saw that this chest contained Light, Dark, and Space element potions—three types of expensive and relatively rare potions.

And ten vials of Spiritual Elixir, which only legendary Order Strong wielders would use.

Even though Wang Xu was accustomed to grandeur, at this moment, he felt somewhat dizzy when he saw the resources Fang Mu had invested in him.

"Your current priority is to advance your Beast's rank from Sequential to Order."

"If you become an Order Strong, your status in the Truth Hall will naturally surpass the other archangels!"

"Then you will rightfully have a reason to control the Truth Hall!"

"You will also have the chance to use these Spiritual Elixirs."

Wang Xu had been stuck at the peak of Sequential for a long time.

It wasn't that Wang Xu didn't want to advance, but despite spending a lot of resources, he had never gained the opportunity to improve.

Fang Mu was willing to give him a push, so he might actually succeed in stepping into Order, becoming a real peak power of the era.

To stand within the world's top echelon!

The resources Fang Mu provided to Wang Xu were carefully selected after deep consideration; Fang Mu did not provide resources above the Senior Creation Zenith Master level.

Fang Mu had shown his hand to Wang Xu today, but revealing one's hand didn't mean letting others see through oneself all at once.

Gradually making Wang Xu discover the true power of the Infinite Tower would make him more willing to work for the Infinite Tower.

"Young Master, if you enable me to step into Order, whatever you ask of me afterward, I will never hesitate!"

Wang Xu was well aware that if he became an Order Strong, his status within the Truth Hall would reach an unprecedented level.

But the bloodline of his Angel species beast must be enhanced for its rank to advance.

The bloodline of his own Angel species beast had already reached its limit, unless he obtained a chance to alter the elemental forces of heaven and earth and undergo a transformation in the life level of his Angel species beast.

Only then might he be able to step into the ranks of Order.

Before Wang Xu could bring this matter up with Fang Mu, he heard Fang Mu continue to speak.

“If you truly want to control the Truth Hall, you inevitably need helpers.”

“Without helpers, many affairs would be inconvenient for you to handle!”

“Are there any among the remaining eleven families within the Truth Hall who would submit to me as your Wang Family does?”

Wang Xu’s heart had been blooming with joy, but Fang Mu’s words quickly plunged his mood to rock bottom.

Even if Fang Mu controlled him using the Infinite Silver Silkworm, he wouldn't fully trust him.

Fang Mu wasn't asking him to find families to depend on him.

He wanted to support several families to compete with the Wang Family on an equal footing.

This showed that Fang Mu was preparing to counterbalance his future influence in the Truth Hall.

At this moment, Wang Xu understood what kind of person Fang Mu really was.

He also knew that working under Fang Mu did not necessarily require extreme caution, but absolute loyalty was a must.

Otherwise, Fang Mu, who could invest resources to nurture him, could also dispose of him at any time.

Previously, the Truth Hall had hardly interacted with the Infinite Tower.

The Infinite Tower was willing to invest so many resources to control the Truth Hall.

Wang Xu guessed that there wouldn't be many forces under the control of the Infinite Tower, would there?

Perhaps some of the forces he had dealt with were backed by the ghostly and powerful Infinite Tower, just like the Truth Hall!

Fang Mu and Wang Xu talked for a while, and Wang Xu recommended three other families to Fang Mu.

But how to persuade them to submit to the Infinite Tower was still a question.

Wang Xu had to wait until he stepped into the Order, and after negotiating with the leaders of the other three families, could he be sure.

Among them, He Wen, clearly wronged but heavily ostracized, should be the easiest target to negotiate with.

Currently, the most important thing was to promote Wang Xu's main battle Mystic Beast.

Fang Mu nodded at Wang Xu, signaling him to summon his main battle Mystic Beast.

A huge Angel Reincarnation Pool was summoned within the sacred array.

The water in the entire pool was completely still.

Above the water stood several statues, all of heroic males with six powerful wings on their backs.

What Fang Mu found miraculous was that the foreheads of these male angel statues each had a slightly curved, towering single horn, colored emerald and gold.

Between these statues, a holy light shone brightly, and a heroic angel, who bore at least eighty percent resemblance to the statues, appeared in the midst of the holy light.

After the appearance of this Angel Species Beast, it gave a bow to Fang Mu from afar.

As Wang Xu's main battle Mystic Beast, this Angel Species Beast knew that Fang Mu was about to promote its rank.

Fang Mu's Destiny Beast, Fool's Shadow had already successfully evolved to the Silver Stage, and the Eye of Omniscience could scan the data of beasts up to five stages higher than itself.

This angel was just within the range of the "Eye of Omniscience".

Immediately, Fang Mu used the “Eye of Omniscience” to scan this peak sequential heroic angel.

[Beast Name]: Forest Mountain Angel

[Beast Species]: Angel Order/Power Angel Type

[Beast Level]: Sequential First Level

[Beast Element]: Wood/Earth/Light

[Beast Potential]: Sequential First Level

[Beast Quality]: Legendary

Skills:

[Forest Sting]: Select a location to unleash the power of a forest. The forest sprouts from the ground like spikes, launching an area attack on the target.

[Forest Heal]: The summoned forest can regenerate itself when destroyed and continuously splits into new individuals that emerge from the selected location, causing continuous strikes.

[Crazy Forest Light Rain]: The summoned forest turns wild into tree warriors. A light rain falls from above the forest, stimulating the battle will of the tree warriors, and restoring their lost life energy.

[Forest Cleanse]: Uses the purifying power of the forest to dispel negative effects on the target, including toxins, curses, and controls from mental and soul levels, but its efficacy on physical-level controls is uncertain.

[Mountain Surge]: Alters the surrounding environment, using Bloodline Power to condense mountains. The presence of the mountains enhances the defense of itself, increasing its resistance to hits.

[Mountain Roof Forest Dance]: Uproots the mountains formed from its own Bloodline, throwing them at the target. By sacrificing the energy of trees grown on the mountains, the attack possesses multiple effects such as piercing, armor-breaking, and entangling.

Exclusive Traits:

[Light Sacrifice]: Sacrifices the Light Elemental Energy inside to convert Light Elemental Energy into a multiple of its other elemental energies. After activation, the conversion renders the beast unable to absorb Light Elemental Energy for a period.

[Forest Surge]: In the forest it creates, the forest will augment its power, continuously boosting its own strength. The augmentation can't be diminished by foreign forces until the forest is destroyed.

[Forest Mountain Fusion]: Fuses the Bloodline Powers of forest and mountain inside its body, merging the powers of both Bloodlines to manipulate the powers of forest and mountain together.
