

Beast Tamer 101

Chapter 101: This Person is Manageable!_I

Fang Mu initially wanted to ask Feng Lin whether the Scavenger Headquarters had any Shadow Eye Stones stored.

Since he was going to collect the hearts of four high-level Blood Tribe members, Fang Mu decided to discuss any issues with Feng Lin face-to-face.

Actually, Fang Mu had always been uncertain about the Scavenger Headquarters' attitude towards him.

Feng Lin's attitude towards him and the Scavenger Headquarters' attitude towards him were two different matters.

Fang Mu could feel that Feng Lin's actions towards him were always based on personal interests,

Not in representation of the Scavengers organization.

Now that he was in need of the Shadow Eye Stone, it could be seen as a perfect litmus test for gauging his relationship with the Scavengers!

The Scavengers took pride in cleaning up the remains of alien beasts.

Within the Dragon Rising Federation, no faction could rival the Scavengers when it comes to having access to spiritual elements from the alien beasts.

Therefore, even if the Scavengers' Jinghai branch did not have Shadow Eye Stones, the headquarters surely would.

If he expressed his need for the Shadow Eye Stone to Feng Lin, and the Scavengers were willing to provide them,

It would undoubtedly show the Scavengers' consideration of him.

Fang Mu had now joined the Scavengers, becoming an official member.

The level of importance they placed on him would determine Fang Mu's attitude towards the Scavengers!

In addition to the Scavengers, Fang Mu had also joined the Starwheel.

The fact that Shui Miao could present a Sequential-grade spiritual instrument as a greeting gift to [Stellar Start] showed the strength and status of the members in Starwheel.

Fang Mu could also try to exchange high-level Blood Tribe hearts and Shadow Eye Stones with other people in Starwheel through high-star Creator resources.

Soon, Fang Mu arrived at the Jinghai branch of Scavengers and swiftly found his way to Feng Lin's office.

As soon as he entered, Fang Mu was warmly welcomed by Nini!

In fact, Nini and Fang Mu were now quite familiar.

Nini no longer hid shyly when she saw Fang Mu, as she used to.

Knowing that it was Fang Mu who provided the high-purity Life Potion that enhanced her strength, Nini held a favorable opinion of him!

After saying hello to Nini, Fang Mu quickly stepped to Feng Lin's desk.

"Aunt Fang, you're still working late, you must be tired!" he said.

Feng Lin laughed and waved her hand dismissively.

“Our Qingdao Branch of Jinghai Province is planning to construct an Exotic Beast Incinerator, specifically to deal with the corpses of alien beasts above the Terror Level!”

“I’ve been so busy recently that my head is spinning! I’ll also have to make a trip to the capital soon.”

“If you need something by then, just give me a call!”

While speaking, Feng Lin picked up a piece of armguard that emanated two kinds of elemental auras and passed it to Fang Mu.

“I believe Yan Wood is your sister, right? I saw her participating in a challenge when I visited Jinghai Tianyu University previously.”

“This Gold medium-grade spiritual instrument, the Flame Falcon Brace, should suit her!”

“The wind boosts the fire, the fire borrows the strength of the wind!”

“Apart from providing the wearer with the ability to dodge danger and soar, this Flame Falcon Brace can also enhance the diffusion ability of fire skills!” Fang Mu was stunned by Feng Lin’s words.

After a long while, Fang Mu accepted the wind-fire dual-system Gold medium-grade spiritual instrument Flame Falcon Brace offered by Feng Lin.

He now had a clear impression of Feng Lin in his mind – she was someone who knew how to make friends!

“Aunt Fang, I thank you on behalf of my third sister!”

As the saying goes, all hustle and bustle in the world is for profit.

This truth remains the same whether in his previous life or in this world!

Everyone's motives boiled down to seeking favor from him for high star Creator resources.

The gift given by Feng Lin hit the nail on the head!

Fang Mu had contemplated asking Feng Lin to create magical instruments for his siblings,

But she didn't wait for him to make a move. She had already started doing this herself!

Hearing Fang Mu thanking her, Feng Lin was about to speak when Fang Mu continued.

"Aunt Fang, when my master provides me with Grandmaster Creator resources in the future, you'll be the first person I think of!"

Since Feng Lin had been so good to him, Fang Mu didn't mind giving her a promise,

This would make it easier for him to get more of what he needed from the Scavengers.

Hearing this, a brilliant smile appeared on Feng Lin's face, knowing that her actions had been well received by Fang Mu!

Feng Lin quickly responded,

"I am not familiar with the situations of your eldest sister and second brother, you can ask them about their needs for spiritual instruments."

"Then tell me their needs, and I will arrange it!"

After chatting with Feng Lin for a while, Fang Mu said seriously to Feng Lin. “Aunt Fang, can you help me get some Shadow Eye Stones?”

Upon hearing his words, Feng Lin didn’t answer Fang Mu immediately, but instead told him.

“Wait a moment, the Cleaner Division of Jinghai doesn’t have any stock of Shadow Eye Stones.”

“The Dracoid Research Institute has always been in need of Shadow Eye Stones, essentially, the Shadow Eye Stones collected by us Cleaners have all been sent to the Dracoid Research Institute!”

“I will ask Headquarters, if they have them, they should be able to allocate one or two for you.”

While speaking, Feng Lin had already picked up the phone and started contacting the Headquarters.

During this process, Feng Lin didn’t deliberately avoid Fang Mu.

Even the Dracoid Research Institute needs Shadow Eye Stones!

What kind of place the Dracoid Research Institute is, Fang Mu couldn’t be clearer!

Before attempting to awaken his Destiny Guidebook for the first time, Fang

Mu, a transmigrator, never thought he would fail to become a Beast Master.

It can be said that the initial dream of Fang Mu’s coming into this world was to join the Dracoid Research Institute!

Dracoid Research Institute is the academic research center of the Dragon Rising Federation.

Many of the spiritual liquid formulas of the Creators were invented in the Dracoid Research Institute!

Things supplied to the Dracoid Research Institute, the Headquarters might be able to allocate a piece or two for oneself.

This is enough to show the importance of the “Cleaners” Headquarters, or rather the three Bishop Flowers have for himself.

After making several phone calls, Feng Lin said to Fang Mu.

“There are only four Shadow Eye Stones available at Headquarters currently, as it involves the Dracoid Research Institute, and only a maximum of two could be provided for you.”

“That’s the maximum limit!”

“You should know that there is also a Grandmaster Creator in the Dracoid Research Institute, nearly half of the Creator resources within our Cleaners were provided by the Dracoid Research Institute!” “So the Headquarters is under great pressure.”

Fang Mu has always been someone who understands satisfaction.

Hearing what Feng Lin said, Fang Mu naturally would not make more demands.

Being able to give oneself two Shadow Eye Stones and share them equally with the Dracoid Research Institute.

Presumably, the Headquarters has given face to Fang Mu’s mentor, who is also a Grandmaster Creator.

If he tries to strive for more, it would seem a bit unreasonable!

It would also lower his mentor’s demeanor invisibly.

It seems that in the future, from the side of “Cleaners”, he could only trade for the hearts of high-level blood tribes!

As for the Shadow Eye Stones, he still had to find a way in Starwheel!

About the fact that there is a Grandmaster Creator in the Dracoid Research Institute, Fang Mu really didn't know about it.

But now Fang Mu knows it.

Feng Lin estimated the time and refilled Fang Mu's tea cup before continuing to speak.

“Transporting two Shadow Eye Stones from the Capital will take at least a week.”

“Although it will be quite difficult for the Cleaners Headquarters to get more Shadow Eye Stones, I can still try to help you. I will notify you if there are any updates.”

“The sight-restoration effect of the Shadow Eye Stone is too precious, and the

Dracoid Research Institute has found that the shadow-like energy in the

Shadow Eye Stone has a significant effect on some Ghost System Beasts.”

“Currently, the price of Shadow Eye Stone is about two hundred million Dragon

Rising Coins. Once the enhancement effect of Shadow Eye Stone on Ghost

System Beasts is confirmed.”

“The price of Shadow Eye Stone will increase by at least double!”

Fang Mu raised his eyebrows at these words.

Unexpectedly, the Shadow Eye Stone has an improvement effect on Ghost System Beasts!

However, just the restoring sight effect of the Shadow Eye Stone is enough to make it worth such a high price!

For a blind person, as long as he can restore his vision, he would be willing to spend any amount of resources!

Feng Lin revealing this information to himself virtually confirms that the enhancement effect of the Shadow Eye Stone on Ghost System Beasts is already a fact.

Otherwise, the Dracoid Research Institute wouldn't possibly send out such a message.

Hopefully, this news won't be made public too soon, giving him time to obtain some more Shadow Eye Stones from the Starwheel.

The Shadow Eye Stone has an upgrade effect on his Destiny Guardian Beast, the Fool's Shadow, and is part of his routine resources to strengthen his Destiny Guardian Beast.

If in the future each Shadow Eye Stone costs about four hundred million Dragon Rising Coins, that would be exceptionally draining!

Chapter 102 Exclusive Feature: Ashes Dyed Dying_I

After leaving the Cleaner Division, Fang Mu immediately returned to the old factory.

Back in the old factory, Fang Mu summoned the Fool's Shadow and the Blood of Abundance from his Destiny Guidebook once again.

Fang Mu discovered that although the Fool's Shadow had not fully digested the Shadow Eye Stone, it had reduced in size to half a little finger nail's size.

It would roughly take around twenty minutes to finish absorbing the Shadow Eye Stone.

Fang Mu could sense that the Fool's Shadow was at a critical point.

As long as it broke through this critical point, the Fool's Shadow would immediately upgrade from Standard Quality to Elite Quality!

As Fang Mu had newly obtained four High-level Blood Tribe hearts, the Blood of Abundance once again conveyed a pulsating and eager sensation.

Fang Mu grabbed a Blood Race Earl's Heart and threw it into the Blood of Abundance, his movements clean and swift.

The Blood of Abundance repeated the process just now.

Fang Mu's hair once again turned crimson red under the blood red fog.

In his pitch black pupils, two even blacker images reappeared.

Fang Mu, who was oblivious to what was happening, saw the Blood Race Earl's Heart he had just thrown in being completely absorbed.

He continued to throw in the second and third hearts!

The blood red fog was even thicker than before.

Fang Mu's crimson hair seemed to lengthen slightly in the blood red fog!

The black pattern in his eyes became more solid, and although the slowly rotating figure was still indistinct, it seemed to be two triangular objects.

Fang Mu once again felt the hunger sensation he felt when he first enhanced the Blood of Abundance.

This time, there were a lot of nutritional meals in Fang Mu's Purple Ice Crystal Ring for him to consume.

Box after box of nutritional meals were taken out by Fang Mu. Hunger made Fang Mu disregard the eternal truth of grace.

Fang Mu was wolfing down the nutritional meals to relieve the hunger in his stomach.

After eating nearly fifty boxes, Fang Mu's hunger finally subsided!

At this moment, Fang Mu only had one feeling, which was that he had donated blood too early!

If he were to inject fresh blood into the Blood of Abundance now, he could inject at least two thousand five hundred milliliters at once.

The Blood of Abundance, which had devoured three Blood Race Earl's Hearts, showed no signs of evolving towards Perfect Quality.

Fang Mu threw the last heart, a Blood Duke's Heart covered with golden patterns, into the Blood of Abundance.

The moment the Blood Duke's Heart touched the bottom of the well, the sound of the blood flow at the bottom of the well was louder than the boiling water in an iron kettle!

The piercing blood flow sound formed successive echoes in the old factory, like the whispers of ancient gods.

This time, the blood red fog did not become thicker, but the color of the blood red fog deepened compared to before.

Fang Mu's hair grew past his ears, stopping only after it had grown past his earlobes.

The crimson color of his hair gave Fang Mu's face a mysterious charm that was hard to put into words.

Fang Mu could easily break a manganese steel rod of Bronze Level.

But if he had to break three rods at once, he would not be able to snap the bars.

Now, Fang Mu grabbed three rods of manganese iron, and they felt like three noodles eroded by wind in his hand.

With a little force, they were broken!

Clearly, his strength could no longer be measured by the number of manganese iron bars!

Fang Mu took out a piece of tungsten steel.

Tungsten steel, a Silver Stage metal, is often made into standard weapons for its hard and unwearable characteristics, for Beast Masters to use on adventures.

The real Beastmaster world is fraught with dangers, with Beast Masters being easier targets than the beasts.

So Beastmasters will do everything they can to enhance their self-protection measures.

Spiritual instruments were studied by Beast Masters for their own protection.

However, not all Beast Masters could afford the spiritual instrument.

Unable to use a spiritual instrument, standard weapons become the best choice for Beast Masters on adventures.

A silver rank tungsten steel rod, no one can bend, let alone break it without a strength of over 8,000 pounds!

However, the tungsten steel rod in Fang Mu's hands had been twisted into a shape of a doughnut.

In the end, Fang Mu used his strength and even snapped the tungsten steel rod in half.

Fang Mu was shocked as he looked at his hands.

He must have at least 10,000 pounds of strength now!

He should be able to easily lift a large truck now, right?

At the same time Fang Mu was looking at his hands, the triangular pattern in his pupils finally revealed their true appearance.

There were two black goat skulls!

As the two black goat skulls were rotating, the whites of Fang Mu's eyes turned pitch black.

At this moment, Fang Mu's entire attention was captured by the exclusive characteristics his Blood of Abundance gained after it had been promoted to Perfect Quality.

Otherwise, even if Fang Mu could not notice the change in his eyes, he wouldn't have failed to notice that his hair had grown longer!

[Beast Name]: Blood of Abundance

[Beast Species]: ??? [Beast Level]: Bronze (3/10)

[Beast Element]: [Beast Potential]: ??? [Beast Quality]: Perfect

Skills:

[Blood Aged Wine]: Place one's own blood into the Abundance. After the Abundance has brewed it, one's blood will have the ability to guide life evolution. The effect of evolution depends on the amount of blood consumed.

Exclusive Characteristic:

[Ash-Dyed End]: When attacked with a blow capable of threatening life, a judgment is made. If the attacker has suffered more damage in their life than oneself, the judgment is deemed unapplied. If the attacker has suffered less damage in their life than oneself, the judgment is applicable; their attack will be neutralized, and they will undertake all the damage sustained in one's life.

Innate Divine Ability:

[Contract Blood]: Infuse the Abundance with a large amount of Blood Aged Wine and one's own Heartblood. After the Blood Aged Wine and Heartblood reach the required amount, a drop of Contract Blood will be brewed. This can replace spiritual power to make a contract with life, and promote life to leap towards a positive level.

In his previous life, Fang Mu, as a biologist, possessed boundless imaginative power.

Many theories in biology were initially established based on conjectures.

These theories would then be confirmed or broken through repeated verification.

Eventually, they become a great scientific research!

Fang Mu had made countless guesses about what exclusive characteristic his Destiny Guardian Beast, the Blood of Abundance, would obtain after it was promoted to Perfect Quality.

However, no matter how much he thought about it, Fang Mu could never have imagined an ability like [Ash-Dyed End].

[Ash-Dyed End] was an ability that Fang Mu initially struggled to evaluate. To any Beast Master other than himself, [Ash-Dyed End] meant nothing!

After all, how much damage can a normal person bear in a lifetime?

Those who can pose a threat to one's life must be stronger than oneself.

Logically, the stronger the Beast Master, the Guardian Beast or the Alien Beast, the more battles they would have fought.

The chances of being injured would, therefore, also be higher!

So the judgment of [Ash-Dyed End] would most likely be inapplicable.

But he was not a normal person!

After all, no normal person would give a blood donation of 1500 milliliters once every two days.

No, wait!

As the Blood of Abundance was upgraded to Perfect Quality, Fang Mu would at least be able to donate 3000 milliliters of blood at a time!

Besides, Fang Mu had to extract Heartblood every four days.

Now extracting 150 milliliters each time shouldn't be a problem.

Furthermore, as the level and quality of Blood of Abundance continue to improve, the amount of blood Fang Mu donates will also increase.

Over time, it's feared that even a Sequential Defensive Beast Conqueror that's been used as a meat shield might not have suffered more damage than him!

Whenever Fang Mu felt slightly thirsty, he would immediately gulp down a cup of Blood Replenishing Tea brewed from gold-grade spiritual materials. One could say that Fang Mu was constantly thinking about recovering his body.

Once an attacker's strike threatened Fang Mu's life,

The exclusive characteristic [Ash-Dyed End] of Blood of Abundance would take effect. The attacker would bear all the damage Fang Mu has sustained in his life.

Fang Mu did not understand the strength and physique of Sequential Beasts, but could they really withstand such a damage?

It should be noted that even after the Guardian Beast advanced to the diamond stage and achieved Sequential ranking, it still had a possibility of death.

Otherwise, where did the souls of those Sequential Beasts trapped in the Sequential Spiritual Instruments come from?

To Fang Mu, [Ash-Dyed End] could be defined as a life-saving ability, and also an offensive ability.

To activate the offensive effect of the exclusive characteristic [Ash-Dyed End] of Blood of Abundance, however,

It requires the enemy to first deploy an attack that threatens his life.

Previously, Fang Mu's motivation to donate blood to the Blood of Abundance was to become stronger and help his family.

Now, Fang Mu had a new reason to donate blood!

Fang Xiaomu, who will be forever full of motivation to donate blood, in the future!

Before Fang Mu could marvel at the unique characteristic [Ash-Dyed End] of the Blood of Abundance,

Fang Mu suddenly discovered that Fool's Shadow, after completely absorbing the Shadow Eye Stone, had truly broken its quality limit!

Chapter 103: Double Pupil Changes Again! _1

Fang Mu was about to turn his head to observe the Fool's Shadow beside him.

But before his gaze fell on the Fool's Shadow, Fang Mu felt a sudden pain in both eyes.

Fang Mu has never been a man to shy away from pain.

In his past life, he used to trek through the Wilderness to observe the routes of the Marching Ants and the distance between different ant territories and the Ant Nest.

Fang Mu would march almost thirty kilometers through the Wilderness each day.

The road in the Wilderness was tough to walk on, and most people could only endure it for the first few days.

They would wake up the next day feeling sore and pained all over.

But to write his research report, Fang Mu persisted for two and a half months!

Less than a week into his trek, his comfortable shoes were worn through and his feet were covered in blisters.

After two months, once Fang Mu finished writing his report, he had to be admitted straight to the ICU.

There wasn't a single piece of unscathed skin left on his feet.

The pain of his wounds being infected for months after his skin was rubbed raw.

Compared to the current pain in his eyes, it was like child's play.

The pain was a mix of burning, numbness, itching, and tingling, with stabbing throbs of sharp pain coursing through them.

It was as if he had been ambushed and had a kilo of chili powder thrown in his eyes.

Fang Mu's not so active tear ducts secreted a lot of tears, trying to relieve the Fang Mu groped his way out of the workshop and turned on the water pipe outside used for everyday needs.

He cupped the icy cold tap water and continuously poured it over his eyes, hoping to alleviate the pain.

Fang Mu knew that the pain in his eyes must be related to the Fool's Shadow absorbing the Shadow Eye Stone.

Fang Mu could feel his tear glands continually secreting tears, flooding his eyes.

The hot tears made the cool tap water on his face feel warm.

Having Fang Mu permanently donate blood was something he didn't oppose.

But having Fang Mu perpetually in tears was something he refused!

He couldn't be getting all teary-eyed in the middle of a battle every time he used the Fool's Shadow's ability.

Wouldn't that make it look like he's been scared to tears by his opponent in front of everyone!

Does Fang Xiaomu not need a bit of face saving!

Fang Mu crouched beside the water pipe, at first he was using his hands to cup water and pour it over his eyes.

Later Fang Mu just faced the water outlet directly and let the running water rinse his eyes.

Just when Fang Mu's back started to numb from crouching, he suddenly felt the pain in his eyes disappear.

Instead, a cool and moist comfortable feeling emerged!

Fang Mu left the water pipe, felt around, and closed the valve with his left hand.

Without bothering to be more elegant, he wiped his eyes with his sleeve and tentatively opened his eyes.

The moment Fang Mu opened his eyes, he was met with the sight of the full moon in the sky.

Fang Mu felt as though his vision was more attuned to the world around him.

And he noticed he no longer had any blind spots in his sight!

Fang Mu could easily see what was behind him.

The Shadow Eye Stone didn't have this effect.

If the Shadow Eye Stone had this effect, even if its enhancing abilities for some Ghost System Beasts hadn't been discovered.

Its price wouldn't just be two hundred million Dragon Rising Coins!

Many Beast Masters get harmed or killed in battle with exotic beasts because they get caught off guard in their blind spots.

In a battle against an opponent of similar strength, having no blind spots eliminates the chance of an ambush.

If the Shadow Eye Stone really has this ability, all the strong players who can afford a Shadow Eye Stone would go to great lengths to buy one to eliminate their blind spots.

Given its scarcity, the price of the Shadow Eye Stone would be rocket high!

So, the elimination of his blind spot is the credit of his Destiny Guardian Beast, the Fool's Shadow, for becoming elite quality!

With his current enhancement, Fang Mu felt that the pain his eyes just experienced was totally worth it!

Because no matter where Fang Mu looked, he had a panoramic view.

Just when Fang Mu was about to shift his gaze from the moon.

Fang Mu seemed to see two towering osmanthus trees planted on the moon.

The two majestic osmanthus trees were lush with leaves, and clusters of their strange little flowers were in full bloom!

The flowers were pale gold, and the stamens were bright silver.

Standing underneath a noticeably more sturdy osmanthus tree, there was a figure wearing a moonlight-colored robe.

In the figure's arms, a snow-white rabbit was comfortably nibbling on a carrot.

The only discordant thing was that a piece of skin had fallen off the carrot, making it seem a bit sorry-looking.

The woman's eyes were fixed on the distance, as if waiting for something.

Next to the woman's left hand, a little girl with braids shaped like goat horns was being led!

Just as Fang Mu was about to look closely, he found the radiant moon filled with clear brightness, with the so-called man in the moon being absent.

Fang Mu shook his head gently.

The things he had just seen with his own eyes were clear, and didn't resemble anything that would spawn from his imagination.

However, the reality said otherwise, and the moon in front of him was as usual.

In his heart, Fang Mu muttered, he must have been dizzy from the pain!

Blinking softly, Fang Mu prepared to head back to the factory.

Within the black pupils of Fang Mu under the moonlight, two amoebic shadows were slowly taking shape.

These two amoebic shadows enveloped the black goat skull patterns that were rotating.

The black goat skull patterns that were rotating seemed to exhibit a feeling of timidity.

As if they were a primary school student who had just been bullied by a school tyrant!

The bubble shadows gently floated, making Fang Mu's pupils seem as profound as the starry sky.

Within these deep pupils under the moonlight, it seemed as if gods were dwelling!

Besides washing his face and looking in the mirror to make sure no eye gunk was left, Fang Mu didn't have the habit of looking in the mirror ordinarily.

If Fang Mu took out a mirror to look at himself at this moment, probably only one thought would come to mind.

That is, these colored contacts look pretty good!

However, in the Beastmaster world which Fang Mu inhabited, such items as colored contacts did not exist.

Looking at the Fool's Shadow, which had absorbed the Shadow Eye Stone, Fang Mu discovered it looked even more like him than before.

If the earlier Fool's Shadow was a rough sketch hastily drawn by an artist.

The current Fool's Shadow was simply outlined by the artist with liner pens.

Apart from this, there was no change in the Fool's Shadow at all!

On the contrary, it gave off even less existence than before.

After retracting the Fool's Shadow, the Blood of Abundance, and the Pure Water Spirit back into the Destiny Guidebook,

Fang Mu's eyes returned to their original state.

Fang Mu didn't remember how long his eyes had been hurting just now.

But based on the wet cement floor outside the factory, Fang Mu was certain that he had endured the pain for at least half an hour. Intense mental stimulation could easily make people drowsy.

Fang Mu's spirit was extremely exhausted!

But thinking of the promise he had just made to his dog, Xiaoxi, Fang Mu mustered up his energy enough to accompany Xiaoxi for two hours before falling onto bed.

Before going to sleep, Fang Mu issued a command to the Covenant Servant Soul Ant Queen, allowing the Covenant Servant Soul Ant Queen to drain his soul energy to speed up egg hatching.

It could be said that every day the Servant Soul Ants were waiting for Fang Mu to go to sleep.

A perfectly good queen ant, who should be above thousands of ants, had been hard-pressed into becoming a lickspittle.

Having his soul power drained by the Covenant Servant Soul Ant Queen every day, Fang Mu could clearly feel that his soul power had become somewhat fuller.

Fang Mu couldn't help but sigh inwardly, no wonder the offsprings of wealthy clans could surpass their peers in being Beastmasters once they finished college!

This was not without reason.

According to the current daily changes in the abundance of soul power, perhaps within a year,

His soul power would double based on his original foundation.

Although those wealthy clan offsprings did not possess the Covenant Servant Soul Ant Queen, they would still enjoy the services provided by daily drain of soul power and soul tempering.

Early the next morning, Fang Mu's biological clock had him awake at five fifteen.

Fang Mu was prepared to head home to take a shower and then head to the Cleaner Division,

When he suddenly discovered that Lu Xiaoyin had sent him a contract with Feng Chenhao, via messaging app, five minutes ago.

This indicated that Lu Xiaoyin had likely not slept at all last night.

Fang Mu first glanced through the contract, and then called Lu Xiaoyin.

The phone only rang twice before Lu Xiaoyin answered. “Sir Jianmu, did my message disrupt your rest!?”

Chapter 104 Rainbow Devouring Sea Python!_I

Lu Xiaoyin was a bit nervous as he spoke.

As soon as he had finished organizing the contract, he immediately sent it to Fang Mu.

The sole intention was to demonstrate his abilities to Fang Mu.

Feng Chenhao was very meticulous in finalizing the contract, considering every detail extensively, which consumed an entire day.

Lu Xiaoyin was helpless at this but had no choice but to let Feng Chenhao do it his way!

Given Lu Xiaoyin’s former position, he was a bit surprised to learn that Feng Chenhao came from a Wolf-type beast breeding group like Langya Biology.

As far as Lu Xiaoyin was concerned, Feng Chenhao’s background wasn’t very high-ranking, paling in comparison to Lu Yuyu’s Keystone Construction background!

Moreover, Langya Biology wasn’t a force in the Capital.

However, because Feng Chenhao was Fang Mu's partner, Lu Xiaoyin was extremely respectful to Feng Chenhao throughout the process.

If he were to disturb Fang Mu's rest because of his own messages, his fault would be severe!

This would also be very unfitting for the personal steward position that Fang Mu promised him!

Fang Mu, upon hearing this, replied with a smile.

"I usually get up at five in the morning, so you didn't disturb me!"

"I've looked at the contract you organized, there are no problems, you did a good job!"

"I guess you didn't sleep all night! Go and get a good rest."

"After you've slept, contact Lu Yuyu and tell him to prepare a pot of Diamond-Level Sleepy Moss and a hundred kilos of Deep Pool Heavy Water." Listening to Fang Mu's words, Lu Xiaoyin felt both warmth and excitement.

Fang Mu's words let Lu Xiaoyin know, that he was the kind of person who takes note of all his efforts.

Working under such a person is a blessing, as every effort made would not be in vain!

Meanwhile, after praising him, Fang Mu gave him new tasks.

This indicated that Fang Mu had agreed to hire him as a personal steward.

Otherwise, the task of coordinating with Lu Yuyu wouldn't have fallen on him.

“Young Master, I had a nap yesterday afternoon, I only need to sleep for about four hours!”

“I’ll find Brother Lv at the Beastmaster Alliance at nine-thirty.”

“I’m not sure where I should find you after I finish up?”

Hearing Lu Xiaoyin change his address, Fang Mu knew Lu Xiaoyin had gotten his intention.

“There’s no need to find me after you finish your work, instead, go and take over a piece of land near Jinghai Tianyu University from Brother Lv.” “Just mention it to Brother Lv, he will understand!”

Lu Xiaoyin, while listening to Fang Mu’s words, took out a notebook.

He quickly recorded the specific contents to ensure he didn’t miss anything.

After hanging up with Lu Xiaoyin, Fang Mu touched his rumbling stomach.

With the warm Blood Replenishing Tea, he ate a total of thirty servings of nutritious meals.

Ordinary people have less for breakfast, Fang Mu estimated that he ate as much as the entire Lionheart Brigade for breakfast!

Fang Mu had two purposes to put Lu Xiaoyin to work immediately after he took office.

Firstly, he is a disciple of the Grandmaster Creator himself.

If he had to do everything himself, others wouldn’t find it strange at first.

But over time, they might overthink it.

Secondly, even though Lu Xiaoyin has become his personal steward, he didn't really know much about Fang Mu's specific situation.

This time, when he liaises with Lu Yuyu and gets to know that things he needs are the rewards for helping Luo Su, the deputy commander of Jinghai Army, upgrade his Guardian Beast.

He will get a clearer understanding of Fang Mu.

Lu Xiaoyin chose to be his personal steward without hesitation, and Fang Mu wants Lu Xiaoyin to know that his choice is correct!

With Lu Xiaoyin around, his estate can start being built soon.

As for using the skill [Parasitic offspring] of the Covenant Servant Soul Ant Queen to control Lu Xiaoyin, Fang Mu wasn't in a hurry.

The Soul Ant Queen's egg had just hatched a larvae last night.

He plans to keep this larvae for the member of Starwheel.

When the second [Parasitic Offspring] hatches, he can then give it to Lu Xiaoyin!

When Lu Xiaoyin expressed his desire to obey him, Fang Mu had already clearly stated that Lu would lose his freedom.

Even in these circumstances, Lu Xiaoyin strove hard to become his steward and was mentally prepared for it.

He wouldn't resist the upcoming [Parasitic Offspring].

On the contrary, Lu Xiaoyin might even hope to lose his freedom as soon as possible.

Because then, Lu Xiaoyin would truly become part of them and no longer worry about not being accepted.

Fang Mu spends his days in the old factory with the cleanliness system, working to produce a water elemental crystal with a purity of 100 percent.

Once he has the Deep Pool Heavy Water, there will be no need for Fang Mu to come to the old factory every night!

So before he left, Fang Mu took back the Heaven Fragrance Peony that was left on the terrace and the Restoring Appearance Palm, which was constantly secreting oil in the factory, into the Purple Ice Crystal Ring.

With the help of Suxi, he cleaned up the factory, leaving no trace of anyone living here for a while.

Then Fang Mu made a call to the temporary butler he himself had hired, and after paying the final payment, he ended his employment.

The temporary butler was overjoyed to receive the call from Fang Mu!

Damn! Finally, no more dirty work!

Lu Ren never thought that someone would hire a private butler at a high price to manage those useless garbage.

And almost all of this garbage is produced from water system beasts, it's foul-smelling and putrid!

Lu Ren's favourite food is fish.

But during the time he was helping move garbage, Lu Ren was forced to give up eating fish!

So much so that his wife thought that she had gotten a different husband several times!

If it weren't for the fact that ratings are important for a private butler.

Terminating an ongoing employment prematurely would result in a heavier penalty than a complaint.

Lu Ren would have risked being complained by Fang Mu to end this employment!

Now he's finally free!

No wonder Lu Ren felt troubled.

Fang Mu hiring a private butler was like hiring a luxury counter salesperson to help him scavenge for worn-out vests and underpants in a secondhand market!

It's just a clear case of having too much money and being willful!

When he arrived at the Cleaner Division, Fang Mu casually chose a Soldier-Level Cremation House.

Knowing the value of materials like the High -Level Blood Tribe Heart, Fang Mu no longer had a preference for the corpses of Bloodline newborns.

Instead, he prefers to pick demon, alien bugs, these kinds of common alien beast flesh to clean up.

The toxins inside a demon's body have a withering characteristic, which is very effective against plant-type beastmasters.

The thing toxins fear the most is not being able to break through the defense.

The strong acid toxins inside alien bugs are most effective in damaging shells and skin!

It's the most suitable for enhancing the Clean Water Spirit's destructive capability towards the target's surface defence, facilitating other toxins to penetrate into the body and take effect.

Just as Fang Mu was about to finish cleaning the last few Alien Beast Corpses, he received a phone call from Lu Yuyu.

Lu Yuyu's voice was incredibly excited as he spoke to Fang Mu.

"Younger brother, other than Diamond -Level Sleepy Moss and a hundred kilograms of Deep Pool Heavy Water, do you need any other materials?"

"Sister Luo Su has prepared a lot of spirit materials that are beneficial for the evolution of the Shimmering River-Swallowing Python's bloodline." Fang Mu was not surprised at all that Lu Yuyu would call him.

On the contrary, Fang Mu had been waiting for this call from Lu Yuyu!

"Brother Lv, all you need to prepare on your side is just Diamond -Level Sleepy

Moss and Deep Pool Heavy Water!"

"My master has all other spirit materials!"

"Many spirit materials are quite rare, and you may not necessarily be able to find them in a short period of time!"

Hearing Fang Mu's words, Lu Yuyu was just about to thank him.

He was considering how to make it up to Fang Mu for his investment on his side.

Then he heard Fang Mu continue to speak.

“The best evolution path for the Shimmering River-Swallowing Python is to maximize the activation of its own bloodline, evolving into the Rainbow Devouring Sea Python!”

“This evolution path won’t change sister Luo Su’s current fighting style at all!”

Hearing Fang Mu’s words, Lu Yuyu was choked with emotion.

After a long pause, he said with extreme earnestness.

“Thank you, younger brother, no matter what happens in the future, as long as you need something, don’t hesitate to let me know!”

For someone like Lu Yuyu who comes from a prominent family, keeping promises is the most basic quality!

Once a person doesn’t even stick to his promise, he can’t mingle in the circle anymore!

So even though Lu Yuyu wanted to befriend Fang Mu before, he only ever said to let him know if anything was needed, but didn’t add the word “no matter”.

Now, even if Fang Mu asked Lu Yuyu to do something which he wouldn’t consider doing under normal circumstances owing to his own interests.

Lu Yuyu would also help without hesitation!

Because Fang Mu is truly considering for him and Luo Su.

Lu Yuyu saw Fang Mu's sincerity in how he handled things.

Otherwise, if it weren't for the fact that he didn't actively emphasize and request it himself repeatedly.

Fang Mu wouldn't choose this evolution path which required the most resource investment!

Fang Mu on the other end of the phone didn't know about Lu Yuyu's thoughts.

If he knew about Lu Yuyu's thoughts, Fang Mu would definitely give Lu Yuyu a thumbs up.

Buddy, you're so good at self-imagination and self-rationalization!

Chapter 105 Sacred Relics: Sakura Tempering Carp_I

"Brother Lv, if I ever need your help in the future, I won't hesitate to ask!"

"Honestly, the hundred kilos of Deep Pool Heavy Water I just mentioned is something I need for myself."

"I don't want to rely on my master for all materials, so I'll probably need your help often, Brother Lv!"

Lu Yuyu understood Fang Mu's words perfectly.

If Lu Yuyu were to rely on his family for everything now, it would make him seem very incapable.

Fang Mu's willingness to speak his mind made Lu Yuyu feel a closeness and trust from him.

Lu Yuyu had once sensed the aura surrounding Fang Mu, and noticed that there was something obstructing the flow of spiritual power around him.

This made it impossible for Lu Yuyu to gauge Fang Mu's Beast Master level.

However, given Fang Mu's age, even if he were a genius, he could at most be a Biprong Star Tamer.

The materials needed by a Biprong Star Tamer would be easy for him to obtain.

So, Lu Yuyu generously offered.

"Little brother, you must need quite a bit of Deep Pool Heavy Water, right?"

"How about I help you gather some more and let Ah Yin bring it all back for you?"

As he spoke, Lu Yuyu suddenly thought of something.

“Little brother, within our Beastmaster Alliance Branch, a Sakura Tempering Carp is stored.”

“Even as an Executor, I don’t have the right to call upon this Sakura Tempering

Carp.”

“But I can apply to the higher-ups of the Beastmaster Alliance, pulling some strings. ”

“As long as you can pay a sufficient price, you should have the chance to get this Sakura Tempering Carp!”

As he said this, Lu Yuyu gritted his teeth.

To apply for the use of the Sakura Tempering Carp, Lu Yuyu found himself paying a great price.

Because the favor he was asking was always the hardest to repay!

The Sakura Tempering Carp had been in Lu Yuyu's division for less than three days, and it was soon to be sent to the headquarters.

Beasts, like this one, that can temper spiritual power and accelerate its increase, are commonly referred to as "Sacred Relics".

If one could say that high star Creator resources are the foundation for upgrading Guardian Beasts,

Then "sacred relics" like the Sakura Tempering Carp are the best aids for quickly boosting a Beast Master's strength!

If it weren't for Lu Yuyu knowing that Fang Mu had a Grandmaster Creator in his corner who doted on him,

Lu Yuyu would definitely not have revealed the information about the Sakura Tempering Carp to Fang Mu.

Items of such value are only fought over by truly powerful entities.

The two Grandmaster Creators of the Dracoid Research Institute and the Creator's Guild both had their eyes on the Sakura Tempering Carp.

Not to mention, if Fang Mu wanted this Sakura Tempering Carp, he would have to compete with these powerful entities, and even the other two Grandmaster Creators.

And by doing so, Lu Yuyu would put himself in the line of fire, joining the fight!

The Sakura Tempering Carp does not require a contract. As long as you are within a certain range of it, your spiritual power will automatically be tempered.

As the rank and quality of the Sakura Carp continue to rise, the area it affects will also increase.

It can definitely be classified as foundational material!

At Fang Mu's level, he certainly had not heard of the Sakura Tempering Carp.

After all, he wasn't taught by a real Grandmaster Creator.

But that doesn't stop Fang Mu from guessing the effect of the Sakura Tempering Carp through its name.

In this world, scholars are a very noble profession.

They're not squeezed out by the martially dominates environment.

In this case, every Beast's name is extremely exquisite.

Many Beasts' elements and species can be understood just by their names.

Just hearing the name Sakura Tempering Carp, one would know that it's a Beast beneficial to spiritual power.

Fang Mu became a Beast Master four years later than his peers.

Even though he now has countless Creator resources and can strengthen his Guardian Beasts at will,

There's no shortcut to the enhancement of his spiritual power.

Fang Mu has been searching for Beasts that can increase spiritual power. He subtly asked Feng Lin whether there were any Beasts in the Merit Pavilion of the Scavenger, which could have this effect.

From Feng Lin, Fang Mu first learned about the concept of a so-called "Sacred Relic".

This Sakura Tempering Carp is most likely a “Sacred Relic”! With a guess in his heart, Fang Mu used his usual trick.

“Sakura Tempering Carp, a Sacred Relic!?”

Upon hearing Fang Mu’s tone, filled with 30 percent surprise, 30 percent doubt, and 40 percent conviction.

Lu Yuyu hurriedly explained.

“That’s right, younger brother! Just as you’re thinking, this Sakura Tempering Carp is indeed a Sacred Relic!”

“Moreover, it is not just an ordinary sacred relic, it is also an auspicious one!”

“It has the effect of exorcising evil spirits and curing diseases!” Hearing Lu Yuyu’s words, Fang Mu raised an eyebrow.

It’s both a Sacred Relic and an auspicious one!

This Sakura Tempering Carp is seriously loaded with all kinds of high-end buffs!

Any Guardian Beast with a touch of auspicious effect could be sold at a sky-high price.

Many major forces like to keep Guardian Beasts with auspicious effects in their old houses.

The Sakura Tempering Carp is both a Sacred Relic and an auspicious one, Fang Mu can already imagine how precious it is!

Only top-tier powerhouses and forces have the right to compete for such a thing.

Lu Yuyu willingly told him about this, he was surely under considerable pressure.

If Fang Mu didn't know about this Sakura Tempering Carp, it would be fine.

But knowing it, Fang Mu would undeniably have to compete for it!

Fang Mu did not ask Lu Yuyu how much it would cost to get this Sakura Tempering Carp.

Because asking that would make him seem naive.

Before the ownership of this Sakura Tempering Carp is settled, no one can determine its value!

“Brother Lu, thank you for telling me about the news of the Sakura Tempering Carp, I’ll tell my master about it when I get back.”

“You try to contact as much as possible, let me know how many resources are needed when the time comes!”

“Even if my master doesn’t help me in the end, I’ll still give you a Life Elixir with a purity of 80 percent as a gift!”

Upon hearing Fang Mu’s words, Lu Yuyu felt that Fang Mu, despite his young age, was a very diplomatic person!

Lu Yuyu’s sentiment was not due to Fang Mu’s promise, but his grasp of social etiquette.

It felt as if he owed Fang Mu a favor even though he was supposed to be the one helping Fang Mu.

“Alright! Brother, since you’re interested, I’ll surely get everything ready for you!”

“But get ready! You might be competing against a Grandmaster Creator!”

“So, you have to be mentally prepared!”

After hanging up the phone, Fang Mu decided to stay at the Cleaner Division for the time being.

The best way for him to get the Sakura Tempering Carp without knowing the price,

Is to ensure that his resources as a Grandmaster Creator are as plentiful as possible.

To avoid being outcompeted when it's time to bid.

Lu Yuyu said that he might be competing with other Grandmaster Creators, he must have heard something.

Competing for resources with a real Grandmaster Creator is too thrilling!

These days, Fang Mu's meals were pre-stored nutritional meals.

When he was tired, he would sleep in the incinerator room wearing a heat-resistant suit, and when he woke up, he would continue cleaning Vanguard Beast Corpses.

It's been only a few days since Fang Mu officially joined the Scavengers, but thanks to dealing with Vanguard Beast Corpses,

He had a new little red flower on his badge.

Fang Mu's situation became the deepest secret within the Cleaner Division.

Fang Mu's rampant processing of Vanguard Beast Corpses was immediately suppressed by Feng Lin once she found out.

While cleaning up for Fang Mu, Feng Lin marveled at Fang Mu's ability to process Alien Beast Corpses in her heart.

At this point, Feng Lin could be sure of one thing, Fang Mu definitely didn't go all out when he broke the Scavenger record!

Otherwise, if he had put in his current effort before, he would have been a formal member of the Scavengers within a day!

As for Fang Mu's intense work, no one was happier than Xiaoxi!

Xiaoxi, the little foodie, could finally live a life of crazy extra meals! At this point, Xiaoxi had already reached the Bronze level nine..

Chapter 106 She Wan in Yingxian Constellation! 1

In the past few days, besides letting Shui Miao feast on various Soldier Level

Alien Beast Corpses, Fang Mu had also made some time to trade with Feng Lin.

By simply giving away some Grandmaster Creator resources, he received a large amount of spiritual instrument fragments in return.

As a Spirit-smithing Master, Feng Lin inevitably makes mistakes during the creation of spiritual instruments.

When a gold spiritual instrument fails, the materials are usually recycled and reused.

As such, it's rare to come across fragments of gold spiritual instruments in the market.

Recycling and reusing materials from failed spiritual instruments involves a complex series of steps.

If a silver spiritual instrument fails to be properly created, it doesn't hold much value for recycling.

Recycling materials requires a special substance called Restorative Mercury.

Each drop of Restorative Mercury costs around thirty thousand Dragon Rising Coins.

If one were to use Restorative Mercury to recycle the materials of a failed silver spiritual instrument, it'd be cheaper to just start anew with fresh materials instead!

Feng Lin has a large number of fragments from failed bronze and silver spiritual instruments.

Noticing Fang Mu's interest in these items, she quickly sold them all to him at a low price.

The trade between Fang Mu and Feng Lin provided a significant boost to Shui Miao's diet.

At the moment, Shui Miao was showing signs of evolving towards Perfect Quality.

Fang Mu believed that in a couple of days, Shui Miao would become a Silver-grade Perfect Quality Guardian Beast.

A few days ago, Luo Su had sent over through Lu Yuyu a Shimmering River-Swallowing Python, a Diamond -Level Sleepy Moss, and a total of five hundred kilograms of Deep Pool Heavy Water.

Fang Mu stored all of these items in his Sequential Spiritual Instrument, the Purple Ice Crystal Ring.

When he set out to upgrade Luo Su's Guardian Beast's bloodline, he knew it wouldn't be an immediate process, even after acquiring everything he needed.

Even a Grandmaster Creator needs time to upgrade a Guardian Beast's bloodline.

If he were to upgrade the beast's bloodline as soon as he got it, that would be far too shocking.

Fang Mu thought it would be best to give the upgraded Shimmering River-Swallowing Python back to Luo Su a week later.

Lu Yuyu had informed Luo Su of Fang Mu's plan to evolve the Shimmering River- Swallowing Python into a Rainbow Devouring Sea Python.

Luo Su felt an immense gratitude towards Fang Mu as a result.

Much to Fang Lin's surprise, Luo Su gifted her with a few materials capable of enhancing the Frost Language Snow Dragon's dragon bloodline, unaware that she was Fang Mu's sister.

That was because Luo Su believed that Fang Mu had feelings for Fang Lin.

However, in the afternoon of the same day, Luo Su, having learned what Fang Mu looked like from Lu Yuyu's descriptions, browsed through Fang Lin's social media.

She found a family photo in Fang Lin's posts and showed it to Lu Yuyu.

Recognition dawned on Lu Yuyu as he looked at the family photo, finally understanding why he found Fang Lin eerily familiar.

Feeling embarrassed, Luo Su finally realized that Jianmu was in fact Fang Mu and Fang Lin was his actual sister.

No wonder he gave the precious Frost Language Snow Dragon to Fang Lin without a second thought.

The reason why the two pretended not to know each other soon became apparent to both Lu Yuyu and Luo Su.

Luo Su thought that she could use Fang Lin's relationship with Fang Mu to establish a connection between Fang Mu and the Jinghai Army.

The Jinghai Army had only one Master Creator at the moment and gaining access to Grandmaster Creator resources would lead to a massive leap in their combat capabilities.

For this reason, Luo Su planned to have a serious talk with Fang Lin and ask her to pass a message to Fang Mu.

When it comes to resources, the Jinghai Army was no worse off than other forces in the Jinghai Province.

Fang Mu sifted through the high-star Creator resources he had recently acquired.

With the high-star Creator resources he currently had, he believed he was more than capable of securing the “Sacred Relic” – Sakura Tempering Carp.

When it came to Creator resources, quality mattered more than quantity.

Fang Mu specifically had Shui Miao concoct a vial of pure Life Elixir with a purity of one hundred percent.

He believed that this was enough to wipe out any competition from any Grandmaster Creator.

Of course, except for in desperate times, Fang Mu definitely wouldn’t bring out this pure Life Elixir.

Just as Fang Mu was about to go to the Creator’s Guild and let Shui Miao consume the Deep Pool Heavy Water to extract Water Element crystals with one hundred percent purity in order to elevate the bloodline of the Shimmering River-Swallowing Python, his phone rang.

“Time is something that catches us off guard, sometimes it’s sunny and windy, other times it’s rainy!”

“Unable to fight against it, I reminisce about the old days – you stole my youth, but left a version of you!”

Hearing this ringtone, Fang Mu instantly knew the caller was Fang Lin.

The corners of Fang Mu’s mouth curled upwards without him realising it.

As soon as he picked up the call, he heard Fang Lin saying in a serious tone.

“Little Wood, I am making this call on behalf of Deputy Corps Commander Luo!”

“Don’t think of me as your sister, just think of me as an ordinary captain in the Jinghai Army!”

Fang Mu raised his brows at her words.

This call came later than he had expected if it was on behalf of Luo Su.

Fang Mu had long anticipated that Luo Su would discover the fact that Fang Lin is his sister.

It took a long time for the call to come, which indicated Luo Su had to do quite a bit of mental preparation.

Facing Fang Lin, Fang Mu didn’t beat around the bush, and directly asked.

“Sister, Sister Luo Su asked you to call me, it must be about the Jinghai Army getting Creator resources from me, right?”

Fang Qin said in a low voice upon hearing this.

“Little Wood, I’ll repeat what I said before, you need to think about yourself first!”

Fang Mu felt once again Fang Qin’s boundless concern for him.

“Sis, in fact, when I called you last time, I had thought about asking you to help me negotiate a cooperation with the Jinghai Army.”

“Now you’ve mentioned it first.”

“Don’t worry, since it’s a transaction, I can get benefits from it as well!”

Hearing Fang Mu’s words, Fang Qin finally eased her mind. After chatting with Fang Qin for a while, Fang Mu said,

“Sis, you can tell Sister Luo Su just like this!”

“In the future, if the Jinghai Army needs anything, let her tell you, and then you inform me!”

“As for the reward, let her negotiate with me!”

Fang Qin, hearing this, immediately understood the intention of Fang Mu.

It hadn’t been long before Little Wood started protecting her again!

After hanging up with Fang Mu, Fang Qin immediately went and reported the situation to Luo Su.

Hearing this, Luo Su patted Fang Qin’s shoulder.

If the Jinghai Army and Fang Mu were linked by a bond, then Fang Qin would become the key connection of this bond in the future.

Luo Su planned to report this.

The future strategic significance of Fang Qin within the Jinghai Army will be vastly different from before!

Just as Fang Mu hung up on Fang Qin, he arrived at the Creator’s Guild and entered his working room.

His phone rang again.

Fang Mu thought it was Lu Xiaoyin calling him, but when he picked it up, it was a strange number.

Fang Mu answered the phone, and a chilly voice came from the other end.

“Hello! May I ask if you are Sir Jianmu, a disciple of Grandmaster Qixing?” “I am She Wan, the English Fairy seat in Starwheel’s North Sky Constellation.” “I am now in JA City, and I don’t know where to find you!”

At this point, the icy voice of the woman on the phone added something.

“Aquarius sent me to find you!”

Hearing this, Fang Mu immediately knew that his bodyguard has arrived!

Shui Miao had previously told Fang Mu about the organization Starwheel.

All members within Starwheel use constellations as their code names.

After joining Starwheel, he might have to choose one from the remaining three main constellations as his own code name.

Shui Miao specifically emphasized that there were seventy-four people sitting in the seats representing the North-South Sky Constellation.

The seventy-four people sitting on the seats of the North-South Sky Constellation all possess Sequential Type Beasts at the very least.

That is to say, She Wan, English Fairy, must be a strong person who possesses a Sequential Type Beast.

Since Shui Miao was able to find She Wan, she must have known that she had to give up her freedom as a price.

There's no need for Fang Mu to communicate with She Wan anymore.

Fang Mu would be under a lot of pressure if he had to communicate with a strong person like She Wan who possesses a Sequential Type Beast.

From She Wan's icy tone, Fang Mu could hear nervousness and tension.

Indeed, for She Wan, the future is in his hands, and it's only human to be nervous!

"You can come to the Creator's Guild Branch in half an hour."

"Call me when you get there, and I'll meet you in the lobby."

After hanging up the phone, Fang Mu immediately released the Shimmering River-swallowing Python belonging to Luo Su from the Sequential Spiritual Instrument, the Purple Ice Crystal Ring.

After the Shimmering River-Swallowing Python appeared and saw the environment around it, it obviously recognized this place as the training room of the Creator's Guild.

Fang Mu took out the Diamond -Level Sleepy Moss and placed it on his work desk, then he looked at the Shimmering River-swallowing Python with a serious gaze.

"You bite a piece of the Sleepy Moss and swallow it, and when you wake up, your bloodline will be enhanced!"

The Shimmering River-Swallowing Python bowed to Fang Mu in a very humanoid manner when it heard Fang Mu's words.

Then, while in mimicry mode, it took a big bite out of the Diamond -Level Sleepy Moss.

Less than half a minute passed before the Shimmering River-Swallowing Python closed its eyes and the mimicry ceased.

Seeing the Shimmering River-swallowing Python's original form, which nearly filled half of the training room, Fang Mu thought to himself,

It was a good thing he didn't choose to enhance the bloodline of the Shimmering River-Swallowing Python at home, otherwise it would definitely burst his house!

This Diamond-Rank, level nine, Epic Quality Shimmering River-swallowing Python was definitely more than forty-five meters long.

The python's thick body was even thicker than the buses Fang Mu had seen in his previous life!

The light shone on the Shimmering River-Swallowing Python's black body.

The rainbow-colored reflection from the python's body instantly made this training room into a rainbow-colored fairyland..

Chapter 107 Unexpected Gains!_I

It was the first time Fang Mu had seen a diamond-ranked Guardian Beast up close.

Although the Shimmering River-Swallowing Python was peacefully slumbering, the aura it emitted still made Fang Mu shudder involuntarily.

How awe-inspiring it must be when this Shimmering River-Swallowing Python, with a body over forty-five meters long and thicker than a bus, launched an attack!

And the Guardian Beast belonging to She Wan, the member of Perseus of Starwheel who would soon become his own servant, must be stronger than this Shimmering River-Swallowing Python before him!

Fang Mu stroked the scale of the Shimmering River-Swallowing Python, feeling as if he was touching a firm, sharp, and weighty metal armor. One could imagine how strong the Shimmering River-swallowing Python's defense would be!

Previously in the Silent House of Lions Park, Fang Mu merely glanced at the data of the Shimmering River-Swallowing Python through the Eye of Omniscience.

Now, Fang Mu used the Eye of Omniscience again to take a detailed look at the Shimmering River-swallowing Python's data. [Beast Name]: Shimmering River-Swallowing Python [Beast Species]: Water Python Family/Scale Pythons

[Beast Level]: Diamond (9/10) [Beast Element]: Water System [Beast Potential]: Diamond [Beast Quality]: Epic Quality

Skills:

(Disaster Water Wave): Merges itself into the water and vibrates its scales at a high frequency, causing whirlpools in the water area that have a tearing effect.

[Snake Scale Shedding]: When faced with fatal physical attacks, it can resist physical attacks by shedding the outer skin.

[Scale Illusion Vision]: Creates illusions through the color of its scales, hiding things in the surrounding area, and has a certain hallucinogenic effect after a long time of staring.

[Jumping Waves]: Whips up angry waves, the angry waves jump back and forth between designated targets, and the damage of the angry waves will decrease after each jump.

[Rivers]: Transforms itself into a surging river to hit the target, obtains physical immunity during the process of becoming a river, has partial elemental damage resistance when receiving elemental damage, and suffers increased damage from some elements.

Exclusive Traits:

[Water Healing]: Slowly heals its wounds by absorbing the water it has absorbed, and the ability to absorb water sources from itself becomes stronger the more serious the injury is.

[Snake Control]: Emanates a regal aura, controlling serpent beasts with no contract that are weaker than itself. For serpent beasts that have contracted with a contractor, it also has a certain suppressive effect.

Evolutionary Path:

O: Rainbow Devouring Sea Python, @: Scale Illusion River Python, O: Furious River Raging Water Python.

The skills and special features of the Shimmering River-Swallowing Python let Fang Mu know that Luo Su must have poured many resources into Shimmering River- Swallowing Python!

Scholars discovered long ago that the strength of the skills gained by a Guardian Beast when it advances is highly related to the resources it has been given when it gains rank.

It was precisely for this reason that resources became increasingly scarce among high-star Creators.

Because if they want their Guardian Beasts to become stronger, high-star Creators not only need resources when their Guardian Beasts increase in strength and break through their bloodlines.

Even in daily training of the Guardian Beasts, if you want them to become stronger, you similarly can't do without them!

Disaster Water Wave is an area damage skill, with the size of the Shimmering River-Swallowing Python, it can easily churn a thousand-meter range water area, shredding all creatures weaker than it within that range.

Snake Scale Shedding is a life-saving skill against physical attacks, providing a last resort to the Shimmering River-Swallowing Python when facing strong enemies.

Scale Illusion Vision creates optical illusions through its scales, which holds strategic importance in the military realm.

However, in Fang Mu's opinion, these three skills can only be considered as decent

From the platinum-ranked skill Jumping Waves, the skills of the Shimmering River-swallowing Python become extraordinary!

Jumping Waves summons sea waves to bounce back and forth between targets to cause damage, and can attack the same target multiple times in a short time.

This type of delay-attack skill can counter many short-duration defensive skills.

As for the diamond-ranked skill Rivers, it entirely opened up the scope of abilities for the Shimmering River-Swallowing Python.

While attacking enemy targets, it can become immune to physical damage and suppresses fire, wind, and earth elements.

However, it's countered by thunder, poison, and ice element skills. But thunder, poison, and ice elements all belong to the minority, far fewer than fire, wind, and earth element beasts.

First exclusive trait, Water Healing allows the Shimmering River- Swallowing Python to heal its wounds in battle.

Also, under the condition of injury, it can enhance its own power.

It is often said that when the bloodline of a Guardian Beast is enhanced, its skills and exclusive characteristics are also likely to change.

Fang Mu was curious about what kind of improvement there would be in terms of skills and exclusive traits after the Shimmering River-swallowing Python evolved into the Rainbow Devouring Sea Python.

Fang Mu brought out the two thousand milliliters of Blood Aged Wine he had prepared in advance, then approached the fast-asleep Shimmering River- Swallowing Python.

The Shimmering River-Swallowing Python was in a state of deep sleep and the muscles in its head weren't able to swallow.

Fang Mu couldn't enhance the Shimmering River-swallowing Python's bloodline by feeding it.

The only way was to get the Blood Aged Wine into the python's circulatory system.

Fang Mu took out a specialty syringe he had purchased from the Creator's Guild.

The needles used in this syringe are made of Diamond Level metal Radium Uranium Steel.

Radium Uranium Steel is extremely sturdy, and similarly very sharp when ground into a point.

Diamond Level Radium Uranium Steel is enough to penetrate the weak spots of any beast below the Sequential rank.

Originally, Fang Mu planned to inject the Blood Aged Wine into the Shimmering River-Swallowing Python's cloaca.

For a male python, the cloaca is even more fragile than its tongue and oral cavity.

Usually hidden inside the body, Fang Mu was going to use some special techniques to puncture the Shimmering River-swallowing Python's cloaca with the needle.

He had used these techniques in his previous life when observing and studying the mating of Net-striped Pythons.

But now, Fang Mu found that under the amplification of his Blood of Abundance, his own strength had been enhanced.

Under these circumstances, he could easily penetrate the Shimmering River-swallowing Python's tongue with a needle of Radium Uranium Steel.

So there was no need to touch the python's cloaca anymore!

Fang Mu drew a syringe of Blood Aged Wine, then directly inserted the needle into the Shimmering River-Swallowing Python's tongue

He forcefully injected the Blood Aged Wine into the Shimmering River-Swallowing Python's body!

Fang Mu had assumed that even if the Shimmering River-Swallowing Python had reached the rainbow level, he would need a lot of Blood Aged Wine to enhance its bloodline.

If not for Luo Su having been helpful to Fang Qin, Fang Mu would not have used his Blood Aged Wine on someone else's Guardian Beast before his third drop of Covenant Blood Essence had condensed.

Because even now, Fang Mu himself had not dared to use the Blood Aged Wine to upgrade the bloodline of the Aromatherapy Rabbit.

But the reality was different from Fang Mu's expectation.

Only four hundred milliliters of Blood Aged Wine had been injected into it in four syringes.

The Shimmering River-Swallowing Python's body suddenly erupted with a terrifying aura.

This aura made Fang Mu feel as if he were facing a giant creature from ancient times!

Just as Fang Mu was about to inject the fifth syringe of Blood Aged Wine into the Shimmering River-Swallowing Python's body, there was a crackling sound from within the python's body.

The dark, rainbow-glistening scales, which had been gleaming under the light, gradually lost their luster before shattering and falling off.

Just like before, new python skin emerged underneath, and the cycle repeated.

The dry, discarded scale debris covered the entire body of the Shimmering River-Swallowing Python, reaching as high as two people.

It almost half-buried the Shimmering River-swallowing Python!

The already enormous Shimmering River-Swallowing Python continued to grow larger with each skin shedding.

Fang Mu didn't measure it, but by eye, the Shimmering River-Swallowing Python had increased by at least one and a half times its original size.

It had turned into a gigantic being over one hundred and twenty meters long!

After the last layer of skin had shed, Fang Mu discovered that the scales on the Shimmering River-Swallowing Python were no longer dark in color.

Instead, they had turned into a rainbow color, extremely magnificent!

They glowed blue under the light.

If the previous Shimmering River-swallowing Python was as thick as the public bus in Fang Mu's previous life.

Then now, the thickness of the Shimmering River-Swallowing Python had reached the level of a subway train!

The Shimmering River-Swallowing Python was still in deep sleep.

When Fang Mu used the Eye of Omniscience to probe the now enlarged

Shimmering River-Swallowing Python, he found out that the Shimmering River-Swallowing Python had already evolved into a Rainbow Devouring Sea Python!

And, surprisingly, its quality had also been upgraded from Epic to Legendary

Quality..

Chapter 108: Ah! Just make do with it!_I

This revelation left Fang Mu scratching the back of his head in bewilderment.

He had only helped Luo Su to upgrade the bloodline of the Shimmering River-Swallowing Python, evolving it into a Rainbow Devouring Sea Python.

He had made no mention of improving its quality.

Upgrading a Diamond Level Beast from Epic Quality to Legendary Quality came at a completely different price!

Only a handful of Master Creators and Grandmaster Creators were capable of such a task!

It required nurturing it with numerous types of Spiritual Liquids over a prolonged period.

This left Fang Mu clueless as to how he should explain this to Luo Su.

The situation was akin to promising to give your friend a Harley motorcycle for their birthday, only to actually gift them a Lamborghini when the day comes.

It seemed for a long time to come, Luo Su would be feeling overwhelmingly grateful and would be thinking of ways to repay him!

After the Shimmering River-Swallowing Python's bloodline was upgraded to that of a Rainbow Devouring Sea Python, its original skills and exclusive characteristics were all enhanced!

As it evolved from Epic Quality to Legendary Quality, it gained another exclusive characteristic.

This exclusive characteristic was called Emperor Python Shadow.

[Emperor Python Shadow]: By multiplying the consumption of the absorbed water sources and energy, numerous shadows can be created. The number of shadows is dependant on the consumed water sources and energy. Each shadow created has 70% of the original's strength. During attack and defense, you can switch between the original and the shadows.

This newly gained exclusive characteristic, Emperor Python Shadow, diversified the combat method of the Rainbow Devouring Sea Python.

It has the ability to take over the battlefield!

Nurturing this one beast was parallel to simultaneously nurturing numerous beasts.

Fang Mu could imagine how surprised Luo Su would be after seeing this new exclusive characteristic!

The Shimmering River-swallowing Python couldn't possibly wake up within a day after swallowing Sleep Moss.

Fang Mu absorbed the transformed Rainbow Devouring Sea Python into his Purple Ice Crystal Ring, sighing inwardly.

He thanked his luck for having asked Lu Xiaoyin to help him switch rooms a few days ago, upgrading the basic one to a more advanced one.

The working area expanded from a mere two hundred square feet to twelve hundred square feet.

Otherwise, the sudden increase in size of the Rainbow Devouring Sea Python after its transformation would've damaged the facilities in the room.

And that would've cost Fang Mu quite a bit of money!

After upgrading the bloodline of the Shimmering River-Swallowing Python to that of Rainbow Devouring Sea Python, Fang Mu had effectively completed his first assignment regarding the enhancement of a Guardian Beast's bloodline.

Relieved, Fang Mu summoned Sucking and Sipping, and fed it a whopping hundred kilograms of Deep Pool Heavy Water.

He allowed Sucking and Sipping to slowly purify the massive Water Elemental Energy within the Deep Pool Heavy Water.

Fang Mu planned to upgrade both the Clean Water Spirit and Sucking and Sipping to Silver Stage at once.

Fang Mu kept an eye on the time on his phone as Sucking and Sipping sipped up the Deep Pool Heavy Water.

Although Fang Mu had been flaunting his identity as a Grandmaster Creator disciple these days, and everything had been going smoothly without a hitch,

he had an inexplicable urge to anxiously pace back and forth during this process.

After all, apart from the grandeur he had portrayed, Fang Mu had no other real backing.

If he ever ran into a “sweetie” who was bent on testing his mettle,

Fang Mu couldn’t get away just by acting the part.

If anyone were to doubt his identity as a Grandmaster Creator disciple, Fang Mu would be in deep trouble.

Thus, Fang Mu had been eagerly awaiting the arrival of Shui Miao’s arranged Starwheel member as his guard.

Once he had a Hexagram Beastmaster equipped with Sequential Guardian Beasts, who was entirely under his control through Covenant Servant Soul Ant Queen’s soul inheritor skill,

Fang Mu would have genuine confidence and support in his future endeavors.

A powerhouse entirely under his control would mean Fang Mu could unabashedly invest his resources in increasing her strength.

This method of operation was essentially increasing Fang Mu’s own top-tier battle power!

Fang Mu and She Wan had agreed to meet in half an hour.

Just as half an hour passed, Fang Mu's phone rang.

Seeing this, Fang Mu instantly knew that She Wan must've been holding onto her phone, timing her call to the very second.

Such behavior reflected She Wan's respect for Fang Mu.

As he picked up the phone, an urgent ice-cold voice on the other end said,

"Sir Jianmu, I have arrived at the Creator's Guild hall, as we agreed!"

"I hope my call hasn't disturbed you?"

During this time, Fang Mu had discovered something interesting.

Those with more powerful Guardian Beasts were usually more reverent towards Grandmaster Creators.

The enthusiasm of She Wan and Shui Miao towards a Grandmaster Creator disciple, like him, was significantly warmer compared to the members of the Lionheart Brigade.

This situation made Fang Mu once again deeply appreciate the prestige of a Grandmaster Creator.

Fang Mu gathered his focus. Even when facing a Hexagram Beastmaster possessing a Sequential Guardian Beast, he maintained his poise.

"I've just finished with my business, you didn't interrupt me!"

"I'm punctual myself, so I appreciate others who also are!"

As he conversed with She Wan, Fang Mu had already left his workspace, heading towards the hall on the first floor.

Not too long ago, Fang Mu had joined the Starwheel, increasing his knowledge.

At the time, he was a recipient who was constantly receiving gifts from Shui Miao.

This time, facing She Wan, Fang Mu decided to treat Her Wan the same way Shui Miao had treated him.

She Wan wished to give up her freedom and become his guard just to gain resources of a Grandmaster Creator.

Fang Mu intended to show off his abilities to She Wan and let her know that choosing to be his guard was a right decision.

Upon hearing Fang Mu's words, She Wan felt relieved to have been punctual.

She Wan herself is not a Creator, but she managed to become a Hexagram Beastmaster and owns a Sequential Guardian Beast.

She Wan has sought after Creator resources countless times before and has seen various kinds of Creators

She knew very well that without exception, all Creators were capricious people.

Although at first glance, Fang Mu seemed to be just an assistant to a Grandmaster Creator.

However, to some extent, an assistant to a Grandmaster Creator could even be more powerful than a Master Creator!

At best, a Master Creator can only exert the level of resources from a Master Creator.

But an assistant to a Grandmaster Creator could possibly offer resources from a Grandmaster Creator.

“Rest assured, Sir Jianmu! From now on, I will strictly adhere to the time in any tasks you give me!”

As soon as She Wan finished speaking, she saw a young man dressed in ordinary clothes appear on the staircase leading from the second floor to the

IODDY.

The young man clearly also saw her.

Upon seeing her, the young man smiled and ended his call with complete ease.

She Wan immediately understood that this young man was the disciple of the Qixing Grandmaster, Jianmu!

When She Wan carefully surveyed Fang Mu, her first reaction was that this young man’s modesty was simply terrifying!

The clothes he was wearing were not made by a textile creator but were of a style that could easily be bought in any clothing shop.

Such attire was highly deceptive!

If it wasn’t for the Sequential Spiritual Instrument worn on the pointer finger of the young man’s left hand,

She Wan would have thought she had recognized the wrong person subconsciously.

In She Wan's opinion, such a person is either an old schemer or "fishing".

How can a young person understand the idea of subtlety – a quality even many older people don't comprehend?

For She Wan who was under this impression, her interaction with Fang Mu became increasingly cautious, which could even be described as wary.

If Fang Mu knew what She Wan was thinking, he would certainly hold his hand to his forehead.

Hey, be realistic when you're making assumptions, but don't go overboard!

You're the one who likes to "fish"! And you're the old schemer!

The reason I'm not dressed subtly is because my family was poor!

Fang Qin, Yan Wood, Fang Yuan didn't even have the money to upgrade their Guardian Beasts, let alone splurge on new clothes!

I'm the only one who has a few pieces of clothing.

Recently, Fang Mu had been busy, and felt that since he had already worn a

Sequential Spiritual Instrument,

There was no need to package himself by wearing custom-made clothes made by a textile creator.

The clothes his siblings bought for him were very comfortable to wear.

While She Wan was observing Fang Mu, he was doing the same to her as well.

Fang Mu's first impression of She Wan was that she had a tall figure, bright appearance, and was a thorough representation of a strikingly beautiful woman!

Her style was completely different from that of his older sister, Fang Qin. They were two extremes.

Among the people Fang Mu had met, She Wan's appearance was definitely the most striking!

This is while She Wan had only simply applied red lipstick.

Ever since his Destiny Guardian Beast Fool's Shadow evolved to the elite quality, Fang Mu's observation skills had greatly improved.

Fang Mu could confirm that there was no trace of any makeup on She Wan's face.

Having such a striking beauty as his guard was against Fang Mu's modest style.

Sigh! I'll just make do!

Chapter 109: She Wan's Power!_I

Fang Mu assumed an air of dignity in front of She Wan, but being dignified did not mean he was impolite.

Fang Mu took the initiative and approached She Wan, extending his hand and smiling at her.

“Hello, Elder A Shui must have sent you here!”

She Wan was quite surprised at Fang Mu’s way of addressing Shui Miao.

Considering how Shui Miao treats Sir Jianmu when suggesting her, She Wan’s confidence dwindled even more.

No matter how high Shui Miao’s regard for Jianmu was, whether it was because of his master Qixing or not.’

The young man in front of her had caught the attention of two VIPs sitting on the Main Constellation Chairs, which was an undeniable fact.

It was said that Jianmu would replace Grandmaster Creator Qixing to attend the Starwheel meeting.

That, to some extent, makes Jianmu almost equivalent to a high-ranking individual sitting on the Main Constellation Chair.

When She Wan replied, she deliberately bent over and lowered her head to show a submissive attitude.

“Yes, Sir Jianmu! Aquarius sent me!”

“Initially, Aquarius had several members from the South-North Sky Constellation. After a tough fight, I finally beat those rivals!”

Fang Mu glanced unexpectedly at the stunning beauty in front of him.

The beauty before him was not only powerful but also incredibly smart, or rather, she had very high emotional intelligence.

She Wan seemed to casually mention her popularity within the Starwheel and reaffirmed her determination to be his guard.

Fang Mu liked having such emotionally intelligent people around him.

Because such people know what they should ask and what they shouldn't ask.

When Fang Mil assigns tasks, he doesn't have to explain things too clearly because She Wan can understand his intentions.

“My master knew that a member of the South-North Sky Constellation of

Starwheel was coming to guard me, and reminded me quite a bit.”

“My ears are almost calloused from all the reminders!”

“The Covenant Servant Soul Ant Queen was given to me by Elder A Shui, and now I want you to make a choice again.”

“No matter what choice you make, I will respect your decision.”

“Even if you regret now, I can explain for you concerning Elder A Shui.”

Upon hearing Fang Mu’s words, She Wan was shocked and her heart was filled with joy.

Since she was willing to come, she had already made her choice.

So there is no need to make a choice again.

But Fang Mu’s attitude towards her sincere and respectful, making She Wan feel his sincerity and respect.

He was not arrogant, just humble and polite.

It was such a stroke of luck to meet such a person!

This is quite different from many of the assistants and disciples of creators that She Wan had in mind.

But that's not what thrilled She Wan the most.

What surprised She Wan was that the Grandmaster Qixing had given such detailed instructions to Jianmu, even to the point where Jianmu thought he was nagging.

A disciple of the Grandmaster Creator cannot disrespect his master.

There's only one reason Jianmu would react this way, and that's because Qixing Grandmaster was exceedingly kind to him!

So kind that Jianmu took it for granted, as if dealing with an nagging parent.

This implies that Jianmu could easily obtain resources from Qixing Grandmaster.

Fang Mu doesn't have a master, everything about a master was fictional.

The reason Fang Mu made that claim was to bolster She Wan's confidence in him.

Because while the relationship between him and She Wan was one of unilateral control.

However, before executing the control contract, both parties were still making mutual selections.

She Wan looked seriously at Fang Mu and said solemnly,

"When I came here, I had made my decision!"

"From now on, I will guard you with flesh, spirit, soul, life, and faith!"

After making her stance, She Wan didn't rush to ask Fang Mu for her requests and resources.

The fact was, there was no need for it.

The control of the Servant Soul Ant Queen was unbearably domineering; once the Soul Parasite Ant nests in her soul,

Her life and death would be completely in the hand of Jianmu.

When one can't even control her own life and death, other people's promises were the most trivial things.

Therefore, when it comes to high-star Creator resources, I can only wait for Sir Jianmu to offer them graciously.

I cannot be the one to come forward first and ask!

Upon hearing She Wan's words, Fang Mu didn't say anything more and simply took out a brocade box, passing it to She Wan.

"This is my gift to you for our first meeting."

"Let's go, the first Soul Parasite Ant larva of the Covenant Servant Soul Ant Queen is already hatched. If there's anything you want to discuss, we can talk about it in the working room."

Although She Wan knew that she was about to lose her freedom and had prepared herself for that,

Still, when Jianmu brought it up, she couldn't help but feel her heart tremble.

From now on, her life, death, honour, and future would all be in the hands of the young man before her.

She looked at the brocade box that the youth had just handed to her.

The box was quite heavy!

Therefore, She Wan didn't think that what was inside the brocade box was a concoction made by a Grandmaster Creator.

But when She Wan opened the brocade box, she found that inside were neatly arranged test tubes.

Seeing the one on top filled with a jade colored liquid, She Wan was stunned, her gaze turning towards Fang Mu who was walking in front of her.

The unexpected bliss made She Wan dizzy.

It was pure life elixir with a purity of ninety-two percent!

Aside from the life elixir with a purity of ninety-two percent, there were also four bottles with a purity of ninety percent, and some with eighty percent purity.

If the items in this brocade box were sold, they could be worth at least two billion Dragon Soaring Coins.

Even if you have access to a Grandmaster Creator's connections and can get life elixir of ninety percent purity, it doesn't mean you can get one with a purity of ninety-two percent!

Because once the purity of life elixir exceeds ninety percent, even a Grandmaster Creator has to pay a significant price to make it.

Originally, She Wan thought she was risking her career and freedom to gamble on an uncertain future.

Now, She Wan felt more like a maid maintained by a wealthy man.

If Jianmu is so generous with her now, as long as she diligently performs her duties as a guard and considers Jianmu's needs, her treatment in the future will only get better.

The first meeting gift Fang Mu prepared for She Wan was carefully calculated and weighed.

To be honest, even with the ability of a Grandmaster Creator, Fang Mu's vision doesn't even compare to an ordinary Junior Creator.

After all, a couple of days ago, Fang Mu hadn't even heard of a high-level Blood Tribe Heart and Shadow Eye Stone.

Therefore, Fang Mu could not base the value of the high-star Creator resources he was holding on his own judgement.

Up until now, the highest purity life elixir that Fang Mu had given out was the one given to Shui Miao.

Based on Shui Miao's reaction at the time, Fang Mu was able to conclude the following.

The life elixir with a purity of ninety-two percent was far more precious than the one with ninety percent.

In the end, Fang Mu also decided to give She Wan life elixir with a purity of ninety-two percent.

Clearly, Fang Mu's goal was achieved.

Upon entering the working room, Fang Mu immediately sat down on the chair next to the desk.

Because Fang Mu was the only one using this room, there was only one chair pulled out.

Fang Mu stretched out his hand to bring out a chair for She Wan.

However, She Wan chose not to sit, but stood straight in front of Fang Mu.

Fang Mu did not force She Wan. Her action was a clear signal of her dedication as a guard.

Looking at She Wan's upright chest, Fang Mu suddenly had a thought:

She probably couldn't see her own toes from her current position.

She Wan did not wait for Fang Mu to ask about her skills, but started introducing herself nervously.

She was always very confident in her own abilities.

Although many in the North-South Sky Constellation chairs in the Starwheel were stronger than her, she was still young and had higher potential.

It was just her Guardian Beast was recently leveled up to level seven, Fang Mu wouldn't look down on it, would he?

"Master, my Destiny Guardian Beast has just advanced into the sequential stage."

"Although I only recently became a Hexagram Beast Master, my main battle Mystic Beast has already been raised to level seven!"

"I also own a Ghost System Beast. This Ghost System Beast is currently the strongest force I am capable of utilising."

"Just, every time I use it, I have to pay a significant price!"

Chapter 110 Is this a thought for a carbon-based organism? 1

As she spoke, She Wan was terrified she might see Fang Mu frown, showing a look of disdain.

Her strength was truly nothing in front of a Grandmaster Creator!

Considering Qixing's attitude towards Jianmu, she was willing to let Jianmu pull out so many resources to cultivate her personal guard.

She could guess that Jianmu's time with Qixing must have been quite long.

So Jianmu's perspective should have equally reached the standard of a Qixing Grandmaster.

What if Jianmu found her too weak?

She can't just blurt out "Although I'm not particularly strong, I'm young and have potential!" right?

She Wan, who achieved such accomplishments before she was fifty, was truly worth being proud of.

But in front of a Grandmaster Creator's disciple, potential was the least valuable thing.

Because in the world of Beast Masters, the resources of high-level creators have always been prioritized above potential.

People with potential will do everything they can to serve the Creator.

But the Creator may not distribute their produced resources to those with potential.

The more powerful She Wan became, the more she realized that it seemed the entire world was revolving around the Creator.

A smaller vortex would form around a lower tier Creator.

A hurricane eye would form around a higher tier Creator.

The resources that these creators casually put out would be madly snatched by Beast Masters.

Then the Beast Masters would use these obtained Creator resources to cultivate and produce material from Mystic Beasts.

That's how the function of a business association came into being.

It's not so much that the business association relies on its strong cash flow and buyer's market.

Rather, it's these business associations competing for who can get the most abundant Creator resources.

Because once they can't compete with other business associations in Creator resources, their clientele would quickly diminish.

She Wan was very nervous in her heart, fearing that Jianmu would blurt out, "You're too weak, get lost!"

Not only would she have to return the brocade box just given to her by Jianmu, but she would also regret missing this opportunity in the future.

Especially since She Wan noted that Jianmu's expression wasn't as natural as before.

If Fang Mu was aware of She Wan's thoughts at this moment, his feelings would probably be even more complicated than when he found out he was a "man-mother"!

Is that the kind of thought a carbon-based life should have?

Fang Mu, far from thinking She Wan was weak after introducing herself, was shocked by her power.

At first, Fang Mu thought She Wan only had one Sequential Guardian Beast, but to his surprise, she actually had three – damn it!

And there was a Ghost System Beast among them!

Seeing that Fang Mu hadn't opened his mouth to respond for a long time, She Wan, with a hardening heart, continued.

"Apart from what I just mentioned, I have two Guardian Beasts at the Diamond level."

“The strength of these two beasts hasn’t been developed yet and they hardly get any opportunity to appear on the battlefield.”

“However, the potential of these two beasts is slightly higher than my current Main Battle Beast.”

“Of course, my choice to contract these two beasts is not impulsive, but because I have mastered two Xuanchapters.”

“Besides these two Xuanchapters, there are also two Xuanrunes.”

Under normal circumstances, self-introduction only required disclosing the strength of one’s Main Battle Beast; there was no need to also disclose beasts that hadn’t been developed yet.

Right now, not only did She Wan disclose her two potential heavy-hitters at the Diamond level, but she also shared her mastery of Xuanrunes and Xuanchapters.

The goal was to boost her standing in Fang Mu’s heart.

But as soon as she said this, She Wan realized that she seemed petty.

This probably wouldn’t earn points in Fang Mu’s eyes and might even make her lose quite a few.

Fang Mu, originally shocked by She Wan’s powerful strength and deliberately keeping his expression normal,

However, after hearing the latter part of She Wan’s speech, he suddenly captured her current psychology from her words.

Could it be that, after reporting her strength, She Wan had added so much because she was afraid of being rejected by him?

Otherwise, there would have been no reason to mention the two Diamond level beasts and the mastery of Xuanchapters and Xuanrunes after such a long pause.

Although Fang Mu didn't know about the levels of the Six-Polar Star

Beastmaster,

But Fang Mu knew that even if she was a Six-Polar Beastmaster, mastering Xuanchapter wasn't an easy task.

Luo Su, the Deputy Commander of the Jinghai Army, was very proud of having understood a Xuanchapter.

And She Wan, a member of the South-North Sky Constellation Chair in the Starwheel, not only has three Sequential Beasts but has also understood two Xuanchapters.

This showed how high the quality of the members of the Starwheel organization was!

Now he must be the weakest member of Starwheel, right? Because Fang Mu guessed She Wan's thoughts,

Immediately, Fang Mu adjusted his attitude and said seriously.

"You have considerable potential, being with me, you will get more chances to improve in the future,"

"And there is no need to call me 'master', just use my name!" Fang Mu really couldn't accept being called 'master'.

If someone called him that in public in his previous life,

people would probably think that he had joined some club that couldn't be described or had developed some strange fetishes!

It really did tarnish one's innocence!

Speaking of which, Fang Mu was considered "another's child" when he was in school in his previous life.

Even before he graduated, he started doing academic research.

No need to even mention a girlfriend, he hadn't even held hands with a girl.

Fang Mu didn't see anything wrong with this.

Because women would only affect the speed of his academic research.

Seeing that Fang Mu who had been silent for a long time finally confirmed this aloud, it was as if a huge rock was lifted from She Wan's heart.

She belonged to this young man in front of her now!

Fang Mu's words were not only acknowledging his status.

She also heard it as a promise to herself.

As long as she stays with Fang Mu, she will have more opportunities for improvement, this is fantastic!

As for Jianmu not allowing her to call him master, She Wan wouldn't call

Jianmu by his name being a guard.

Therefore, She Wan simply used the method that a clan's guard used to call direct descendants, to refer to Jianmu.

"Young Master, please give the Soul Parasite Ant to me,"

With this, She Wan mobilized her spiritual power, using it to stir up her soul.

She laid her soul bare in front of Fang Mu.

Fang Mu immediately obtained a solid understanding of a Hexagram Beastmaster's spiritual power.

If compared to his own soul power which is like a droplet of water, She Wan's soul power could definitely fill up a toilet tank!

Also, She Wan's soul power was permeated with grey-green mist, in which enigmatic wisps of ghost fire were burning.

Fang Mu felt like he was being watched by a terrible and gloomy entity.

But this scrutiny didn't convey fear and threat, instead, it felt more like an attempt to please and probe.

Fang Mu knew that hidden in the grey-green mist that saturated She Wan's soul was her Ghost System Beast.

After She Wan introduced herself, Fang Mu didn't ask her to summon her Guardian Beast.

One reason was that the strength of his own Destiny Guardian Beast, Fool's Shadow was still at the bronze level, using the Eye of Omniscience to probe the Sequential Beast would only result in a bunch of question marks.

Fang Mu had already experimented this when facing Sleepy Night Cloud.

Even though She Wan has now become his guard, if Fang Mu were to maintain the identity of a Grandmaster Creator Disciple, he couldn't do things contrary to the identity of a Grandmaster Creator Disciple.

A Disciple of a Grandmaster Creator couldn't ask his guard about the abilities of her beast.

Inquiring about others' Guardian Beasts casually is considered impolite under any circumstances.

Since She Wan was so keen to be controlled by him, Fang Mu had no reason to refuse.

Fang Mu then contacted his Servant Soul Ant Queen residing in his soul.

Ever since the Servant Soul Ant Queen had hatched the Soul Parasite Ant, it had been communicating with Fang Mu, hoping that Fang Mu could help find a host for the parasite.

Once the Soul Parasite Ant parasitizes another life, it could bring great benefits to the Servant Soul Ant Queen.

The Servant Soul Ant Queen living in Fang Mu's soul had been so eager to kick out the newly hatched Soul Parasite Ant.

The ant eggs laid by the Servant Soul Ant Queen came in many varieties. Through these several days of understanding, Fang Mu found that the worker ants, hatched through the Skills of the Soul Parasite Ant couldn't, do the work of worker ants.

They couldn't assume the responsibility of nurturing the Servant Soul Ant Queen. Instead, they would only occupy the limited space of the soul nest.

Therefore, ever since the Soul Parasite Ant was born, the Servant Soul Ant Queen despised it from the bottom of her heart.

A tiny off-white baby ant, smaller than a grain of rice, burrowed into She Wan's soul.

As the Soul Parasite Ant was completely obedient to the orders of the Servant Soul Ant Queen, it wasn't frightened by the fact that there was a Sequential Ghost System Beast residing in She Wan's soul.

The Soul Parasite Ant quickly found a nice site in She Wan's soul and started to build its nest.

Now both Fang Mu and She Wan were completely at ease!

Fang Mu wouldn't encounter any danger inside JA city, and only a few individuals knew of Fang Mu's identity there.

So Fang Mu didn't need She Wan guarding him.

Now there was an important task that needed She Wan's attention..
