

Beast Tamer 1041

Chapter 1041: Worshipper of Light!

[Beast Name]: Worshipper of Light

[Beast Species]: Main Corpse Sect/Corpse Sect

[Beast Level]: Silver (7/10)

[Beast Element]: Undying

[Beast Potential]: Gold

[Beast Quality]: Epic

...

Skill:

[Prayers of Light]: Absorbs the light from the surrounding environment, converting it into its own strength and, when the body can withstand it, enhances itself with light as much as possible.

[Amulet Light Shock]: Upon striking a target's body, it releases the power amplified by the light element in an instant, dealing an excessive strike (the ability boosted by the light element decreases, but won't enter a weakened state).

Exclusive Traits:

[Cruel Nature]: Upon contact with the blood of the living, its ferocity is greatly stimulated, entering a hunting state, deepening the damage to the wounded and absorbing the life force from the specified victim to convert into Dead Qi that it can utilize.

[Super Sensitive Body]: The joints of the body are exceptionally sensitive, using unexpected postures to effectively strike the target during combat.

Evolution Directions:

①: Light Worshipper Devouring Darkness, ②: Darkness Devourer, ③: Light Worshipper Burner.

After Fang Mu used the "Eye of Omniscience" to examine this dead creature,

Fang Mu had also gained a clear understanding of this dead creature that could battle across three major levels.

The Worshipper of Light, the creatures named with “-er” among the undead, generally belong to the Main Corpse Sect.

The Main Corpse Sect is the most precious and rarest among dead creatures.

Up to now, Fang Mu had never encountered a dead creature from the Main Corpse Sect.

Previously, while exploring that large ancient battlefield, Fang Mu had never discovered a creature from the Main Corpse Sect.

This Worshipper of Light truly deserved to be unearthed by the Ji Feng Travel Group from the Sanctuary.

At this moment, the Worshipper of Light was staring fiercely at Fang Mu, growling angrily.

Fang Mu teasingly raised his hand and beckoned to the Worshipper of Light.

For some reason, in that instant, Fang Mu felt as though he had been challenged by an inferior being.

As a transmigrator, Fang Mu was educated to be humble and gentle in his previous life.

Even if he had many tricks up his sleeve, he wouldn't show them openly.

The anger arising from the Worshipper of Light's challenge made Fang Mu briefly feel like his defenses were broken.

Fang Mu briefly thought and guessed that this must be related to his own bloodline.

Yet, he didn't know the origin of this sensation, which particular Destiny Guardian Beast it was because of.

The roar of the Worshipper of Light made Zhang Renbin instantly tense up.

Zhang Renbin, without thinking too much, took out an Angelic Soul Crystal rich in light element power, illuminating the room.

Zhang Renbin pulled out this Angelic Soul Crystal to restore light to the room and prevent any suspicion from Fang Mu.

It was also to provide ample light for the Worshipper of Light to absorb, allowing it to enhance its strength to the maximum, and prove what he had just said.

Unlike the vast majority of dead creatures that fear intense light, the Worshipper of Light did not.

Instead, it roared and like a mirror, its black body frantically absorbed the light.

Du Yong stood aside without saying a word, clearly just a foil for Zhang Renbin.

Although Du Yong was silent, he was always observing the situation.

Seeing Zhang Renbin take out the Angelic Soul Crystal, Du Yong felt a pang of heartache.

The energy within the Angelic Soul Crystal was released as light, and this light being absorbed by the dead creature in front would impact the crystal.

The value of the Angelic Soul Crystal was extremely high, and it would be terrible if this dead creature, having absorbed the energy from the crystal, caused any trouble!

If something indeed went wrong, his side would have to take responsibility!

She Wan had the same worry.

She Wan could see that Fang Mu highly valued this dead creature.

She Wan was very afraid that something would happen to this dead creature, preventing Fang Mu from successfully acquiring it.

Fang Mu had no such worries.

Fang Mu currently had a better understanding of the Worshipper of Light than Zhang Renbin.

Worshipper of Light, using its skill [Prayers of Light], absorbs the light from the environment and converts it into strength.

Once its own strength reaches its limit, it will slow down the absorption of light.

The rate at which the Worshipper of Light was absorbing light was already visibly slowing down.

Fang Mu noted that the Worshipper of Light's level was at Silver Level Seven, not Silver Peak.

Being able to snap the Chains of Purified Mysterious Iron at Silver Level Seven, meant something entirely different from doing so at Silver Peak.

If the Worshipper of Light spent a long time in Zhang Renbin's hands, it would somewhat increase its level.

From a combat point of view, the Worshipper of Light was currently the strongest among all of Fang Mu's dead creatures!

Fang Mu knew that once this Worshipper of Light was in his hands, he could enhance it to Golden Stage Level Ten!

Compared to the skill [Prayers of Light], Fang Mu valued the Silver Grade Skill [Amulet Light Shock] of the Worshipper of Light more.

The force it exerted in snapping the Chains of Purified Mysterious Iron was clearly not the Worshipper of Light's strongest strength.

When the Worshipper of Light triggered [Amulet Light Shock], the destructive force created by releasing the absorbed light in an instant would be about 2.3 times the previous enhancement.

It was equivalent to a concentrated strike from a Diamond Rank six to seven level attack-type Guardian Beast.

The exclusive trait [Cruel Nature] highlighted the Worshipper of Light's capability as an undead creature to counter the living.

When it attacked the living and caused bleeding, its ferocity would erupt.

Chapter 1042: Worshipper of Light!_2

The ferocity that erupted would put the Worshipper of Light into a hunting state, deepening the injury of the wounded continuously.

It could also absorb the life energy of a specified injured person during combat and convert this life energy into Dead Qi.

To restore its own energy.

The Worshipper of Light needed to consume Dead Qi when using the skill “Prayers of Light” to absorb light from the surroundings.

Restoring Dead Qi helped the Worshipper of Light to enhance its strength by absorbing light elements from the environment through “Prayers of Light” again after using the skill “Amulet Light Shock.”

The exclusive trait “Super Sensitive Body” enhanced the Worshipper of Light’s close combat capabilities.

...

The Worshipper of Light’s means of attacking the enemy were all in close-range hand-to-hand combat.

“Super Sensitive Body” enabled the Worshipper of Light, in close combat, to use deviously odd postures to severely injure the opponent in a way that surpassed the opponent’s belief.

It also improved the Worshipper of Light’s ability to dodge.

As Fang Mu analyzed the Worshipper of Light’s skills and unique traits, the Worshipper of Light’s body no longer absorbed light from the surrounding environment.

After Zhang Renbin took back the Angelic Soul Crystal, the room did not darken again.

The Worshipper of Light’s hands tore at the Hundred-Refined Mysterious Iron manacles.

The manacles made of Hundred-Refined Mysterious Iron were much thicker than the iron used to make the cage.

Zhang Renbin nudged Du Yong with his shoulder, signaling him to step forward and unlock the manacles around the Worshipper of Light’s waist, arms, and thighs.

Zhang Renbin cursed inwardly at Du Yong’s lack of perceptiveness.

How else could he prove to Fang Mu what he had just said without removing these manacles?

Before Du Yong could react, a grating sound rang out.

The Worshipper of Light, acting as if in madness, had actually smashed open one of the manacles with a sharp tool.

After the left hand's manacle was removed, the other manacle on the right hand and two on the thighs were quickly dismantled by the Worshipper of Light.

Disassembling these manacles, the Worshipper of Light expended a great deal of strength.

Incapable of smashing the manacle tied around its waist.

During the process of breaking the manacles, the Worshipper of Light made many embarrassing poses.

She Wan pursed her lips tightly as she watched.

Zhang Renbin and Du Yong, on the other hand, had their eyes opened wide, with thoughtful expressions in their eyes.

It seemed they were considering the practical application of these poses.

When Fang Mu saw the Worshipper of Light continuously delivering straight punches at the lock around its own waist, he softly spoke to She Wan.

“Sister Wan, subdue him!”

Fang Mu feared that the Worshipper of Light would deliver a “Amulet Light Shock” to the lock on its waist.

This strike, even if it broke the lock, would also seriously injure the Worshipper of Light.

It could very likely damage the Worshipper of Light’s core source.

Yan Yubanruo was exceptionally satisfied, urging Fang Mu to take control of the Worshipper of Light.

Fang Mu didn’t want to spend too much effort healing the Worshipper of Light.

Upon hearing Fang Mu’s command, She Wan immediately released the silk of the Silver Void Purple Spider, binding the Worshipper of Light.

Even if the Worshipper of Light was strong, it couldn't break free from the constraints of the Silver Void Purple Spider's silk.

She Wan brought the Worshipper of Light in front of Fang Mu.

What Fang Mu did next almost made Zhang Renbin and Du Yong jump in fright.

Fang Mu actually walked over to the Worshipper of Light and reached out with a friendly hand.

Making a gesture to shake hands with the Worshipper of Light.

The Worshipper of Light's wrist, not stuck to the web, moved, and it reached out to grasp Fang Mu's hand.

Not giving Zhang Renbin and Du Yong any time to intervene.

She Wan knew Fang Mu had an incredibly strong force within him.

Fang Mu always acted with measure and wouldn't put himself in danger.

And her role as a guard did not entitle her to interfere with Fang Mu's actions.

Could she push Fang Mu away while he was walking towards the Worshipper of Light?

Zhang Renbin and Du Yong just watched as the Worshipper of Light's hand and Fang Mu's hand tightly grasped each other.

No look of panic appeared on Fang Mu's face.

A grating sound came from where Fang Mu and the Worshipper of Light's palms were joined.

The sound made Zhang Renbin, Du Yong, and She Wan's scalps tingle.

Eventually, there was no effect on Fang Mu's side, instead, the Worshipper of Light withdrew its hand in pain.

This handshake allowed Fang Mu to accurately assess the strength of the Worshipper of Light.

Fang Mu grew more and more pleased with the Worshipper of Light the more he watched.

In the face of Fang Mu, however, the Worshipper of Light put away the ferocious expression on his face, showing a considerable fear of Fang Mu.

After Fang Mu had returned the Worshipper of Light to the Purple Ice Crystal Ring, he sat down in his chair with a smile and said.

“Brother Zhang and this gentleman have been here for quite a while, and I’ve been introducing the Guardian Beasts until my mouth is dry.”

“Sister Wan, please pour a cup of tea for the two of them!”

“After we finish the tea, we’ll go check out the remaining supplies!”

“Last time Brother Zhang visited, he brought me a gift, and this is my return gift.”

Having said that, Fang Mu took out two brocade boxes and passed them to She Wan, who was pouring tea beside him.

Zhang Renbin’s hanging heart finally settled.

Fang Mu’s words not only implied that he treated one as a regular visitor but also showed an intention to befriend him.

Otherwise, Fang Mu would have just needed to offer him a cup of tea; there was no need to prepare a return gift for him.

Moreover, he generously prepared two, gifting one of them to Du Yong.

She Wan took the brocade boxes from Fang Mu, and after placing two teacups in front of Zhang Renbin and Du Yong,

She personally handed a brocade box to each of them.

Zhang Renbin was embarrassed to open the brocade box in front of Fang Mu, so he glanced sideways at Du Yong and gave him a look.

Opening a gift in front of the host would seem somewhat impolite.

Du Yong also wanted to leave a good impression on Fang Mu, but clearly, Zhang Renbin wasn't planning to give him that opportunity.

Thus, Du Yong had no choice but to open the brocade box according to Zhang Renbin's intention.

The moment he saw the item inside the brocade box, Du Yong couldn't help but inhale sharply.

What the brocade box contained was a vial of Life Elixir, with a purity of ninety-six percent!

Although it was just a single vial, this elixir represented the Grandmaster Creator backing Fang Mu, that had to be at least a Top Creation Master!

And Fang Mu had the right to allocate such Grandmaster-level Elixirs at will.

The Ji Feng Travel Group certainly didn't have the status to be actively befriended by a Grandmaster Creator.

Only a disciple of a Grandmaster Creator like Fang Mu would be interested in befriending the Ji Feng Travel Group.

Fang Mu casually took out two brocade boxes, without specifying which one was for himself and which one for Du Yong.

This suggested that the items inside the two boxes were most likely completely identical.

Zhang Renbin and Du Yong quickly stood up to thank Fang Mu.

Fang Mu watched the two with a smile and waved his hand at them.

Then he gently lifted his teacup, signaling for the two to simply enjoy their tea.

Upon seeing the elixirs in the brocade boxes, She Wan immediately guessed that Fang Mu must have some plans for the Ji Feng Travel Group.

Otherwise, there was no need for Fang Mu to present such high-level resources.

Having followed Fang Mu for quite some time, She Wan had a deep understanding of him.

Even when trading with other powers and individuals, Fang Mu wouldn't play the fool, regardless of how many resources he held.

For example, when dealing with the Brilliant Clan, he didn't compromise his own interests just to curry favor.

Fang Mu was only this generous with his subordinates and the powers he sought to support.

Behind every act of generosity was a price tag.

Fang Mu's "price" was the absolute loyalty of his subordinates and the supported powers!

Of course, this was merely She Wan's speculation; she harbored Fang Mu's intentions so she could serve him better by his side.

But She Wan didn't think that her ideas necessarily reflected Fang Mu's own thoughts.

Should Fang Mu truly support the Ji Feng Travel Group and bring them under his command,

it would be an absolute fortune for the Ji Feng Travel Group.

One only hoped that the supplies the Ji Feng Travel Group would present next could still satisfy Fang Mu to such an extent.

Zhang Renbin, seeing that Fang Mu did not intend to keep him thanking continuously, obediently finished the tea in his cup.

After finishing the tea, Zhang Renbin took two long tables from his Spatial Equipment and set them up inside the meeting room.

He then laid black silk over the tables.

Following that, twelve items appeared on top of the black silk.

Fang Mu was instantly attracted to two items on the black silk.

It wasn't that these two items were anything special; on the contrary, they looked quite ordinary.

But Fang Mu's Destiny Beast, Fool's Shadow, had a strong reaction to these two items!

The reaction of Fool's Shadow to these two items was much greater than to the Shadow Eye Stone!

Chapter 1043: The Sea of Domains!?

Ever since Fang Mu awakened the Destiny Guidebook, acquiring his Destiny Guardian Beast, Fool's Shadow, and the Blood of Abundance,

the Blood of Abundance had responded to Fang Mu much more than Fool's Shadow did.

Fool's Shadow aside from reacting when it encountered the Shadow Eye Stone,

barely made its presence felt on normal days.

Now, that the two dark brown items on the long table had provoked such an intense reaction from Fool's Shadow,

Fang Mu felt as though he had found a way to rapidly advance the rank and quality of Fool's Shadow.

...

Although he was clearly drawn to the two items wrapped in black silk, Fang Mu did not show it.

Fang Mu, unsure of what exactly the two items were, did not want outsiders to discern his need for them.

Not just outsiders but also people close to Fang Mu, like She Wan and Lu Xiaoyin,

he would not let them understand his needs either.

The best way to keep a secret was to hold it tightly in one's grasp, unknown to anyone else.

Fang Mu's gaze shifted away from the two items.

He waited for Zhang Renbin to introduce the twelve items on the table.

Zhang Renbin had Du Yong follow close by his side, facilitating the display of the items on the table.

Zhang Renbin realized that Fang Mu had no interest in Du Yong,

and had no intention of supporting him.

This relieved Zhang Renbin of his wariness toward Du Yong.

The items Zhang Renbin brought were all top-quality Spiritual Materials. Among the first four items he introduced, two were ones Fang Mu could quickly make use of.

One was Elemental Water Moss.

Elemental Water Moss grew extremely slowly.

During its growth, the moss was nourished by pure Elemental Energy.

The Elemental Water Moss would naturally contain such Elemental Energy.

Elemental Water Moss is known to be the most suitable medium for cultivating those plants that bear Flower Spirits.

If it were just ordinary Elemental Water Moss, Zhang Renbin would not need to present it to Fang Mu.

This Elemental Water Moss was a bit special.

Ordinary Elemental Water Moss is green, showing a distinctive luster of the Elemental Energy it absorbs.

However, the Water Moss that Zhang Renbin brought to exchange for Grandmaster-level Elixirs was purple.

This was a rare variation of Elemental Water Moss, Purple Ze Elemental Water Moss.

This Purple Ze Elemental Water Moss grew dozens of times faster than regular Elemental Water Moss.

To cultivate a pot of normal Elemental Water Moss would take more than ten years,

but the Purple Ze variety required only a few months.

Su Qing would arrive in Lu City by tomorrow, and Fang Mu would take over both a Two Winged Flower Spirit and a Four Winged Flower Spirit from her.

In the future, Fang Mu would continue to trade Flower Spirits with Chonghuaju.

With the Purple Ze Elemental Water Moss, Fang Mu could provide the best living environment for the Elemental Flower Spirits.

Furthermore, with the aid of pure Life Elixirs and Element Potions, there's a great possibility of fostering these Flower Spirits to further stages in the future.

Another item was the Grinding Dragon Stone.

The Grinding Dragon Stone was not a type of ore, but rather a fossil formed from the eyes of a special Dragon race Guardian Beast known as Subduing Dragon after its death.

Subduing Dragons existed before The Seventh Era.

At present, the bloodline of the Subduing Dragons has been completely lost.

Grinding Dragon Stone, when used by Dragon Guardian Beasts, is known for strengthening their claws, Scale Armor, and backplates.

Fang Mu had no contracted Dragon Beasts, but the dragon tail of the Subduing Dragon Nightmare Tiger could be honed with the Grinding Dragon Stone.

The Ji Feng Travel Group provided a small box of Grinding Dragon Stone.

Aside from being enough to hone the several dragon tails of the Subduing Dragon Nightmare Tiger, it could also be used for Fang Qin's Guardian Beasts.

The combat capabilities of Fang Qin's Dragon Beasts would be greatly enhanced from the sharpening with the Grinding Dragon Stone.

The other two items were good, but since Fang Mu had no use for them, they could serve as a resource reserve for the Mu Commerce Association.

After waiting a long time, Zhang Renbin finally introduced the items Fang Mu was keen to learn about.

"Sir Jianmu, both this item and the other one there are top-notch goods!"

“You must have already recognized what these things are, haven’t you?”

Upon hearing this, Fang Mu glanced at Zhang Renbin, who was pretending to be mysterious.

Fang Mu’s understanding was continuously improving, yet since his time as a Beast Master was still short, he lacked knowledge about many subjects.

Zhang Renbin thought that if he could recognize these two items, then they must not be too rare.

To Fang Mu, this was good news.

If these two items were too rare, it would indeed be difficult for Fang Mu to strengthen Fool’s Shadow with such substances in the future.

She Wan looked closely at the two dark brown items that Zhang Renbin was referring to.

During the display of the previous items, Du Yong had not worn any gloves.

But when presenting these two items, Du Yong put on a pair of Mithril Gloves.

Mithril has a powerful effect in isolating scents.

The vessels that Advanced Creators use to mix Spiritual Liquid are commonly made of Mithril.

Du Yong had to wear Mithril Gloves before daring to pick up and display the items on the table.

As the items were handled, grey-black shadows began to flicker in the air.

Realizing something, She Wan shouted sternly.

“How dare you bring such tainted items before the young master!?”

“Are you not afraid that if the young master truly used these foreign substances, they would cause harm to his body?”

She Wan had recognized what these two items were.

As she spoke, her face was filled with fury.

In her eyes, Zhang Renbin was far too audacious.

Even those from the Eternal Alchemy Association wouldn't dare to use such foreign items to enhance their bodies lightly.

Fang Mu listened to She Wan's words without changing his expression and made no sign.

Chapter 1044: Sea of Domains!_2

Fang Mu had not recognized what these two things were until now.

Under the exploration of the "Eye of Omniscience," what was displayed were the embryos of two life forms.

Could it be that the embryos of these two life forms were related to the Outer Realm!?

Fang Mu had once heard Shu Liangjun mention the term "Outer Realm."

It generally refers to the world on this side of the Sea of Domains.

Crossing over the Sea of Domains would be considered entering the Outer Realm.

...

Human civilization had expanded to the Sea of Domains, but to Fang Mu's knowledge, the world on the other side of the Sea of Domains seemed unexplored.

However, according to Fang Mu's understanding of the Beastmaster world, the curiosity of its human inhabitants was no less than that of the humans from Fang Mu's previous life.

There must have been strong beings who had explored the other end of the Sea of Domains.

But eventually, they encountered insurmountable factors that prevented the exploration from continuing.

Zhang Renbin and Du Yong jumped at the sharp rebuke from Hu Tao.

Especially Zhang Renbin, who hurriedly spoke with a stutter.

“Sir Jianmu, I brought these items from the Outer Realm because I had heard that they could be used to blend Spiritual Liquid.”

“The power behind you possesses a Grandmaster Creator, who could apply these kinds of things.”

“Otherwise, I wouldn’t dare to bring such things before you!”

Hearing this, Fang Mu laughed and said,

“Sister Wan, I wouldn’t use items from the Outer Realm to randomly strengthen my body.”

“I just happened to hear my master express a great interest in these Outer Realm items.”

“The two items you’ve brought should be the embryos of some Outer Domain spirits, right?”

“Could it be that you’ve visited the Sea of Domains over the years?”

“Crossed the Sea of Domains and captured Outer Domain spirits!?”

Fang Mu’s words told Hu Tao there was no need for further discussion, and then he gave Zhang Renbin a calming pill.

He assured Zhang Renbin that there would be no problems in trading such supplies with him.

Then he made it clear to Zhang Renbin that his master was interested in these supplies, so that Zhang Renbin would try to trade more of such resources with him.

Even if Zhang Renbin didn't have any at the moment, he was asked to find a way to acquire such resources.

Travel groups like these, that roamed far and wide, generally had some channels to procure resources.

Aside from those who had sworn enemies amongst each other, most travel groups were very willing to trade and help each other out.

As the saying goes, having many friends paves many roads, and forces wandering outside highly value this aspect.

By clarifying the origin of these two items, Fang Mu was signaling to Zhang Renbin that he was aware of these things.

Fang Mu brought up the Sea of Domains because he wanted to use his questioning to steer the conversation towards it,

so that he could gain some understanding of the Outer Realm.

Later, Fang Mu would also be able to ask his Dao Protector, Shu Liangjun, for more information about the Outer Realm.

When Zhang Renbin heard Fang Mu say this, he was relieved.

At the same time, he felt overjoyed.

Fang Mu's master showed interest in these two items, so did that not mean he had done a good deed!?

However, obtaining such things again would not be so simple.

Nevertheless, most forces that acquired such things would process them on the spot.

It was rare, like in Zhang Renbin's case, to store them as supplies.

"Sir Jianmu, our Ji Feng Travel Group doesn't have the strength to cross the Sea of Domains!"

"Near the Sea of Domains, there are three great Sacred Sea Clans."

"These Sacred Sea Clans block Outer Domain spirits from crossing the Sea of Domains, and they also prevent humans from going to the other side of the Sea of Domains."

"Even those with the strength at the Peak of Order would likely find it difficult to cross the Sea of Domains."

"Six hundred years ago, Outer Domain creatures tried to cross the Sea of Domains, and a ferocious battle ensued between them and the three Sacred Sea Clans."

"The battle caused a breach in the Sea-breaking Dam, a Sacred Relic of the Sacred Sea Clans."

"For some unknown reason, the Sacred Sea Clans did not repair the Sea-breaking Dam."

"As a result, every now and then, some Outer Domain spirits slip through the breach in the Sea-breaking Dam and drift across the Sea of Domains."

“These Outer Domain spirits, with their odd appearances, would all transform into such embryos after death.”

“It was discovered that these embryos of Outer Domain spirits could be used to enhance intelligence and eyesight.”

“However, absorbing the energy of these embryos also carries a probability of causing mutations, growing features characteristic of Outer Realm spirits.”

Fang Mu, upon hearing this, roughly understood how Zhang Renbin obtained the embryos of these Outer Realm spirits.

Since these Outer Realm creatures could drift across the Sea of Domains to reach the side of the Human World,

it shouldn't be too difficult if he himself wished to collect such Outer Realm spirit embryos.

Fang Mu planned to try it out after he finished trading supplies with the Ji Feng Travel Group.

He wanted to see just how beneficial these Outer Realm spirit embryos were for strengthening the Fool's Shadow.

For some reason, Fang Mu suddenly had a feeling.

Both of his Destiny Guardian Beasts benefited greatly the Blood Race,

leading to a mistaken belief that he was associated with the Saint Heir of the Blood Race.

One was inseparably connected to the Outer Realm spirits.

It was as if he had unwittingly acquired the standard equipment of a villain.

Fang Mu did not linger on the topic of the Sea of Domains, instead, he said indifferently to Zhang Renbin,

“If you obtain embryos of Outer Realm spirits in the future, you can directly bring them to me for trade.”

Among the remaining goods, Fang Mu was quite fond of the seeds of the Lingyao Colorful Lotus and the Evil Soul Coffin, both of which the Ji Feng Travel Group had acquired from the Ancient Battlefield.

Zhang Renbin did not know the effects of the Lingyao Colorful Lotus, only that its seeds required the absorption of a vast amount of Spiritual Energy to sprout.

Spiritual Energy was extremely precious, and Zhang Renbin simply couldn't afford it!

Even if he could afford it by selling everything he had, Zhang Renbin wouldn't spend it on something whose powers he couldn't precisely know.

If these lotus seeds sprouted and the resulting Guardian Beasts weren't powerful,

wouldn't he have both lost his wife and his troops!?

He didn't know the use of these items, but everything from the Ancient Battlefield was very valuable in the eyes of a Grandmaster Creator.

Through the Eye of Omniscience, Fang Mu learned that the flowers of the Lingyao Colorful Lotus had the effect of strengthening the bloodline of Fairy Type Beast Controls.

Items that strengthen the Fairy Bloodline are extremely rare.

Such items, once appearing in the world, would provoke competition among many powers.

The Lingyao Colorful Lotus was considered extremely valuable by Fang Mu because,

it withered and blossomed year after year within the Abdominal Space of the Abdominal Territory Worm, allowing Fang Mu to continually collect its petals.

He could use these petals to cultivate the fairies he had on hand.

After reaching a cooperation with Chonghuaju, Fang Mu would definitely become a major cultivator of fairies!

Apart from the fairies soon to be owned by Fang Mu, the Retrace Sparrow Demon contracted by Hu Tao could also be nurtured with petals of the Lingyao Colorful Lotus.

While Fang Mu examined the Lingyao Colorful Lotus seeds, Zhang Renbin had already finished introducing them.

Due to his lack of knowledge, Zhang Renbin spoke briefly and turned to introduce the Evil Soul Coffin.

“Sir Jianmu, this item is not a spiritual instrument, as it contains no spiritual circuits within,” he said.

“I acquired it in an Ancient Battlefield.”

“I cannot determine whether this object formed naturally, or if it was specially crafted by a Spirit-smithing Master of a previous Epoch.”

Upon hearing this, Fang Mu said nothing further and gestured for Zhang Renbin to continue his introduction.

Fang Mu had nearly made up his mind about the Evil Soul Coffin.

This Evil Soul Coffin indeed was not a spiritual instrument, and it wasn't like equipment such as the Spirit Capturing Box.

The Evil Soul Coffin had the ability to collect souls within its range, absorbing them and refining them into Souls of Death.

Such an ability was very useful for Fang Mu.

Fang Mu was in urgent need of Souls of Death.

After acquiring the Evil Soul Coffin, Fang Mu handed it over to his powerful subordinates to wield.

He sent them to places where Souls of Life congregated, using the Evil Soul Coffin to refine Souls of Death.

Periodically, this would yield a significant return for Fang Mu.

Besides being able to refine Souls of Life into Souls of Death, the Evil Soul Coffin could also gather the Souls of Death present in the surrounding environment.

Therefore, taking the Evil Soul Coffin to the Ancient Battlefield could yield a huge amount of Souls of Death without doing anything else.

However, doing so would easily attract attention from other powers.

Fang Mu, having visited the Ancient Battlefield, was acutely aware of how common it was to kill and plunder there.

Apart from these twelve items, the subsequent trade in supplies was relatively ordinary.

Fang Mu was very satisfied with the gains he obtained from trading with the Ji Feng Travel Group.

Chapter 1045: Fool's Shadow's New Unique Trait!

Zhang Renbin and Du Yongguang spent nearly two and a half hours showing Fang Mu the supplies of the Ji Feng Travel Group.

The four Guardian Beasts initially caged in the refined Xuan iron cage and the following twelve items only took about thirty to forty minutes to introduce.

The rest of the resources took up more time due to their immense quantity.

She Wan had not expected the leader of the Ji Feng Travel Group, Zhang Renbin, to bring out so many supplies to trade with Fang Mu.

This was tantamount to emptying the inventory of the Ji Feng Travel Group.

However, once these Grandmaster-level elixirs were in the hands of the Ji Feng Travel Group, their strength would definitely rise to a new level based on the original foundation!

...

As for how to distribute these elixirs among the members of the Ji Feng Travel Group, that was a problem for Zhang Renbin, the leader of the Ji Feng Travel Group, to consider.

With Zhang Renbin's momentum and control within the Ji Feng Travel Group, this was not a difficult task.

The deputy leader from yesterday named Zhang Yi was completely deferential to Zhang Renbin.

The situation with today's Du Yong was similar.

She Wan couldn't help but sigh in admiration; Zhang Renbin's tactics were indeed good!

After Zhang Renbin and Du Yong finished introducing all of the supplies, Fang Mu smiled at She Wan, saying,

"Sister Wan, please pour another cup of tea for Brother Zhang and the others, they must be thirsty from all the talking!"

"Sister Wan, you must have noted down these supplies while they were being introduced by Brother Zhang's team."

"Could you check and see how many bottles of elixirs with a purity of ninety to ninety-two percent these supplies can be exchanged for?"

“Brother Zhang is so sincere for our first deal that, as for the Element Potions, Brother Zhang can make his own choice!”

“I’m not like others who, when trading Grandmaster-level resources, need to see what’s available.”

“When I trade Grandmaster-level resources, I always consider what the other party needs.”

Zhang Renbin was quite worried that Fang Mu would push the prices very low when assessing these supplies.

Zhang Renbin indeed wanted to secure a stable trading channel for Grandmaster Creator supplies for the Ji Feng Travel Group.

But he didn’t want to be taken for a ride either.

If Fang Mu really tried to fleece the Ji Feng Travel Group, Zhang Renbin would immediately halt the transaction.

Otherwise, not only would there be no benefit for himself, but upon returning, Zhang Renbin also wouldn’t know how to explain it to the other members of the Ji Feng Travel Group.

After all, these supplies were not his personal property but were hard-earned by all the members of the Ji Feng Travel Group.

But the return gifts that Fang Mu just gave to him and Du Yong were so generous that it seemed unlikely for Fang Mu to behave in such a manner.

Fang Mu's words were incredibly generous.

This way of speaking didn't match Fang Mu's character.

She Wan felt that Fang Mu spoke this way because he intended to flex his muscles in front of Zhang Renbin.

In a moment, Fang Mu would surely make his next move.

Fang Mu's words were exactly what Zhang Renbin wanted to hear.

Zhang Renbin was very clear about which Guardian Beast each member of the Ji Feng Travel Group had contracted.

He had a rough idea of who had enough points to exchange for Grandmaster-level potions.

Therefore, Zhang Renbin had specific demands regarding the types of Element Potions.

Not many in the Ji Feng Travel Group had contracted Dark-element Beasts or Earth System Guardian Beasts.

This resulted in almost no demand for Dark Earth element potions within the Ji Feng Travel Group.

The members of the Ji Feng Travel Group mainly contracted Guardian Beasts of Water and Fire attributes.

The combination of Water and Fire could produce a vaporization reaction, which ensures a source of water in the wild and also possesses considerable combat capability.

When recruiting members, most travel groups tend to give preference to those who have contracted Guardian Beasts of these two attributes.

“Sir Jianmu, may I know how many bottles of Element Potions you are prepared to trade with our Ji Feng Travel Group?”

“I’d like to distribute them proportionally, with eighty percent of the trade being Water Fire attribute Element Potions!”

“The remaining twenty percent can be assorted as you see fit!”

While Fang Mu spoke with Zhang Renbin, She Wan was busily assessing the value of the resources Zhang Renbin had brought.

Fang Mu was intent on fostering cooperation with the Ji Feng Travel Group.

She Wan did not deliberately deflate the prices, nor did she inflate the value of the resources.

As Fang Mu's guard, She Wan couldn't possibly let Fang Mu suffer a loss, nor could she allow Zhang Renbin to think of Fang Mu as an easy target.

As the She Family's Noble Girl, She Wan had a sufficiently high level of discernment.

She was very suitable for the task of resource valuation.

Before long, She Wan handed Fang Mu a spreadsheet.

After glancing at the contents of the spreadsheet, Fang Mu extended his hand to pass the spreadsheet to Zhang Renbin.

"Brother Zhang, would you take a look and see if you are satisfied with this exchange?"

Fang Mu appeared casual as he glanced over the contents of the spreadsheet, but in reality, he had already made a thorough assessment of the resources Zhang Renbin had brought.

She Wan's assessment was slightly lower than Fang Mu's but still very close.

Zhang Renbin scrutinized the spreadsheet earnestly and then looked at She Wan with appreciation.

Zhang Renbin's grateful gaze caused She Wan's eyebrows to furrow slightly.

Inwardly, She Wan cursed Zhang Renbin a couple of times.

She had informed Fang Mu about the Ji Feng Travel Group's presence in Lu City.

After reviewing the spreadsheet, Zhang Renbin gave her such a look, as if there was some understanding between herself and Zhang Renbin.

She Wan had no intention of fostering relations between the She Family and the Ji Feng Travel Group.

In She Wan's eyes, she had already latched onto the strongest support and felt there was no need to waste effort elsewhere.

Even if Fang Mu trusted her, upon seeing Zhang Renbin's gaze, he would mostly think that she had overestimated the prices.

Chapter 1046: Fool's Shadow's New Unique Trait!_2

Zhang Renbin didn't care about She Wan's feelings at all.

His mind was filled with thoughts about how much the Ji Feng Travel Group's strength would increase from this transaction and how many elixirs he should secretly keep for himself later on.

"Sir Jianmu, I have no objections at all!"

"If you also find the estimates on the spreadsheet agreeable, we might as well proceed with the trade according to its content."

Fang Mu smiled and nodded, then said to Zhang Renbin,

"Sister Wan will look after you two first."

...

"You'll have lunch with us here!"

"Someone will deliver the elixirs to you later."

"After receiving the elixirs, you can leave."

Having said this, Fang Mu directly left the reception room and headed to his own nurturing room.

From Fang Mu's words, Zhang Renbin understood that Fang Mu would not dine with them.

At the same time, Zhang Renbin was also extremely surprised.

He had brought so many resources to trade with Fang Mu, something he had not informed Fang Mu about beforehand.

Zhang Renbin thought he would have to wait a while before he could get the elixirs from Fang Mu.

He never expected that Fang Mu would have the elixirs mentioned in the trade ready for him just in time for a meal!

When Fang Mu left the meeting room, he saw Shu Liangjun standing at the doorway of the meeting room.

Shu Liangjun had been constantly monitoring the situation inside the meeting room with her spiritual power.

Since Shu Liangjun's strength completely surpassed that of Zhang Renbin and Du Yong, they were unable to detect her perception.

Even though Shu Liangjun knew Fang Mu had means of self-protection,

as Fang Mu's Dao Protector, Shu Liangjun had never been careless about protecting him.

"Little Wood, the Ji Feng Travel Group really has taken out all their hidden treasures!"

"Moreover, after learning that you are trading only Grandmaster Creator resources with them, the items they've offered are indeed impressive!"

"They have no intention of taking advantage of you."

“Having long-term dealings with a power like the Ji Feng Travel Group is a good thing.”

“But the Ji Feng Travel Group won’t always be able to bring out so many rare supplies.”

“These are supplies that the Ji Feng Travel Group must have spent a long time accumulating.”

“Instead of treating the Ji Feng Travel Group as a regular customer, you might as well control Zhang Renbin like you did with Wang Xu.”

Fang Mu heard this and chuckled lightly, then casually replied,

“A melon forced off its vine is not sweet.”

“Rather than actively recruiting Zhang Renbin and controlling him,”

“it’s better to make him come to me on his own initiative!”

“Most of those used to risk and undaunted by death don’t like to be controlled by others.”

“Elder Shu, after they finish their lunch, would you mind handing this brocade box to Zhang Renbin for me?”

“Then, use Soul Sound Transmission to specifically deliver a message to him.”

Having said that, Fang Mu handed a brocade box to Shu Liangjun and then disappeared at the end of the second floor.

Shu Liangjun weighed the brocade box in her hand.

The Grandmaster-level potions inside the brocade box were enough to tempt an Order Strong like herself, let alone Zhang Renbin.

The message Fang Mu asked her to convey to Zhang Renbin was very interesting.

After hearing it, Shu Liangjun was certain that Zhang Renbin would definitely try to throw in his lot with Fang Mu.

Shu Liangjun couldn't help but admire how well Fang Mu grasped human hearts and nature!

Such a young man, even if he hadn't been able to become a disciple of the Saint Creator, was destined to rise through his own abilities and machinations!

Fang Mu returned to his nurturing room and didn't rush to respond to Yan Yubanruo's prompting.

He released the newly acquired Worshipper of Light and let Yan Yubanruo take control of it through [Golem Paper Control].

Right now, Fang Mu's entire focus was on his Destiny Beast, Fool's Shadow.

Fang Mu wanted to see what use the embryos of these Outer Domain spirits had for Fool's Shadow!

Instead of taking out the two Outer Domain embryos immediately, Fang Mu first summoned his Destiny Beast, Fool's Shadow.

Fang Mu was apprehensive that summoning the Fool's Shadow might trigger some unforeseen changes in the two embryos of the Outer Domain Spirits.

During this period, Fang Mu had been using the Shadow Eye Stone to nurture the Fool's Shadow.

The Shadow Eye Stone in Fang Mu's hand was almost completely depleted.

The Fool's Shadow had achieved a rank increase on top of its original level.

Fang Mu used his Innate Divine Ability [Eye of Omniscience] to examine the Fool's Shadow.

[Beast Name]: Fool's Shadow

[Beast Species]: ???

[Beast Level]: Bronze (10/10)

[Beast Element]: ???

[Beast Potential]: ???

[Beast Quality]: Epic

Skill:

[Breath Convergence]: Passively, it can autonomously shield its own spiritual power fluctuations; once actively initiated, it fully conceals its presence, making itself undetectable.

Exclusive Trait;

[Twilight of the Gods]: Designate a target as a god and weaken the chosen god. The user's attacks become more lethal to gods, and it can perceive the target's weaknesses by monitoring changes in the target's body, nerves, blood flow, and breath, predicting the target's next move. Once used, the target designated as a god must be killed, or the effects of Twilight of the Gods cannot be lifted, and the trait cannot be used on another target.

[Order Realm Peeking]: Tear open a gap to a higher Dimensional World, enticing and searching for the young of higher-dimensional beings and bringing them into the current world.

① If one's consciousness suffers catastrophic damage in a higher-dimensional world, it will cut off the journey and return the consciousness to the original body, but it will be unable to bring back the young from the higher Dimensional World.

② If one's consciousness is injured, forcibly bringing back a fledgling being from a higher-dimensional world will cause the individual to suffer trauma to the soul and consciousness.

Innate Divine Ability:

[Eye of Omniscience]: If the target's life level does not exceed one's own and its rank is no more than five stages above, one can digitize and investigate the target's state.

Fang Mu was now a peak One-point Star Beast Master, on the verge of a breakthrough in spiritual power.

Once Fang Mu's spiritual power broke through, even without a contract with the Spirit Mayfly, he would be able to raise the strength of a Guardian Beast to the Golden Stage.

The reason Fang Mu always restricted the level of the Fool's Shadow was to increase its quality to Legendary while still at the Bronze level as much as possible.

Through communication with Shu Liangjun, Fang Mu learned that it was beneficial to enhance the quality of the Destiny Guardian Beast early on.

The Destiny Guardian Beast's exclusive traits would direct the Destiny Guardian Beast's skills.

This would prevent the skills and exclusive traits from becoming disconnected.

Fang Mu was extremely surprised by the Fool's Shadow's newly acquired exclusive trait [Order Realm Peeking].

Scholars in the Beastmaster world had been debating a topic for some time:

Whether there are stronger worlds beyond the current one.

The scholars did not consider the world on the other side of the Sea of Domains as new but rather as a part of the existing world.

The discussions about this topic have never reached a conclusion.

Now, Fang Mu could confirm that there indeed exist mightier worlds beyond the Beastmaster world!

Otherwise, the Fool's Shadow would not have developed an exclusive trait like [Order Realm Peeking]!

[Order Realm Peeking] could temporarily open a gateway for Fang Mu to a higher life level world, allowing his consciousness to briefly infiltrate a high Dimensional World to explore it.

It could also abduct the young from that Dimensional World.

Bringing them into the current world where Fang Mu resided.

If he simply allowed his consciousness to enter a high Dimensional World, it would undoubtedly bring grave risks to his safety.

A high Dimensional World with its mighty beings would undoubtedly have a variety of powerful abilities.

Fortunately, the exclusive trait [Order Realm Peeking] had safety mechanisms in place.

Ensuring that Fang Mu wouldn't be harmed in consciousness during the exploration of a mightier world.

Fang Mu could choose to give up the gains from the high Dimensional World to have his will safely return to the original body.

Or he could choose to keep what was obtained from that high Dimensional World.

But his original body would have to endure the injuries suffered there.

At this moment, Fang Mu couldn't suppress the urge to immediately use the exclusive trait [Order Realm Peeking] for exploration.

Chapter 1047: Four Winged Flower Spirit!

But soon rationality suppressed Fang Mu's idea of exploring higher dimensional worlds using the exclusive trait [Order Realm Peeking].

Firstly, if Fang Mu wanted to explore higher dimensional worlds, he had to be prepared.

Fang Mu needed to ensure that his consciousness and soul were in the most filled state.

Secondly, Fang Mu was not sure whether the Destiny Beast, Fool's Shadow, using the exclusive trait [Order Realm Peeking] would cause any major disturbances.

If any major disturbance occurred in the other courtyard, not only would Shu Liangjun detect it immediately,

She Wan, along with the leader of the Ji Feng Travel Group, Zhang Renbin, and the deputy leader, Du Yong, would also sense it.

...

This kind of ability, which subverted the common knowledge of the Beastmaster world, if rashly revealed, could potentially bring disaster to Fang Mu.

In order to use the exclusive trait [Order Realm Peeking], Fang Mu had to find a suitable opportunity.

To outward appearances, the Fool's Shadow remained merely his own shadow.

The only difference was that layers of phantoms now emerged around this shadow,

These phantoms intertwined and evolved into all creations of the floating world, eventually dissipating around the shadow.

This gave Fang Mu a sense of illusory confusion.

Fang Mu had little communication with his Destiny Beast, the Fool's Shadow.

Unlike other Beast Masters whose Destiny Guardian Beasts could interact closely with them,

Fang Mu's two Destiny Guardian Beasts functioned more like extensions of his own body, essentially part of his physical self.

Fang Mu took out the two extraterrestrial embryos.

Feeling the presence of these embryos, the shadows around the Fool's Shadow violently fluctuated.

Fang Mu felt the Fool's Shadow's craving for the two extraterrestrial embryos, then took out a Shadow Eye Stone.

However, the Fool's Shadow completely ignored the existence of the Shadow Eye Stone,

focusing all its attention on the two extraterrestrial embryos.

Fang Mu held his breath and issued a command to the Fool's Shadow, allowing it to absorb the two extraterrestrial embryos.

The shadows extended from beneath the Fool's Shadow's feet.

No sooner were the two extraterrestrial embryos bound by the shadows than they melted into them.

As the Fool's Shadow absorbed the energy of the two extraterrestrial embryos, Fang Mu once again felt a familiar pain in his eyes.

Fang Mu gritted his teeth and supported himself on the console to keep from falling.

Soon, this pain extended from his eyes all the way to his brain.

Fang Mu could feel the Fool's Shadow using a kind of energy to nourish his brain, making his thoughts sharper.

This energy was developing his brain domain.

However, the pain associated with the development of the brain domain was more than five times that of the pain in his eyes.

Even with Fang Mu's strong will, he couldn't help but collapse to the ground, clutching his head and groaning quietly as the pain overwhelmed him,

making him roll on the ground in an undignified manner.

A thin layer of dark brown grease emerged on Fang Mu's body, emitting a strong and foul smell.

However, due to the pain, Fang Mu didn't notice this at all.

By the time Fang Mu recovered from the pain, it was already five hours later.

During those five hours, Fang Mu felt as if he had experienced countless deaths.

Any person who had experienced even a tenth of the pain Fang Mu had just endured would no longer fear death.

When Fang Mu regained consciousness, the clarity in his vision and the agility of his mind gave him an unusually refreshing feeling.

But soon, Fang Mu frowned

because he smelled an unbearable stench emanating from his body.

Creators' nurturing rooms were all equipped with bathrooms.

When creators mixed Spiritual Liquids, failures could result in many situations,

such as explosions of potion bottles, causing elixirs to splatter.

If such a situation occurred, the creator needed to immediately clean their body.

Fang Mu changed his clothes and let the warm water rush over his body.

Fang Mu had guessed what this filth on his body was.

It must be impurities from within his body.

Fang Mu had previously undergone a cleansing to remove bodily impurities and thought he had thoroughly cleansed himself,

but he hadn't realized there were still so many impurities remaining inside his body.

During the cleansing process, Fang Mu could keenly feel the changes in his body.

Previously, Fang Mu's skin was of a quality that even Qin Shao would envy,

His skin was not excessively pale and delicate, but filled with the superior texture of young male skin.

At the time, Fang Mu's skin condition was already top-notch.

Yet, unexpectedly, after expelling the impurities from his body, his skin condition managed to break through again.

While bathing, Fang Mu contemplated the promotion of the Fool's Shadow.

Not long after the Fool's Shadow had devoured the two extraterrestrial embryos, it sent a request to advance to Fang Mu.

Fang Mu had been restraining the advancement of both the Fool's Shadow and the Blood of Abundance,

Otherwise, they would have already reached the Silver Stage!

Fang Mu denied the request from the Fool's Shadow to advance, instructing it to continue accumulating energy,

to see if its quality could be improved while still at the Copper Level.

The energy contained within the two extraterrestrial embryos was too little to prompt an improvement in the quality of the Fool's Shadow,

but it still allowed Fang Mu to clearly feel that the quality of the Fool's Shadow had significantly improved compared to before.

The benefits that these two extraterrestrial embryos brought to the Fool's Shadow were incomparable to those of a Shadow Eye Stone.

Chapter 1048: Four-Winged Flower Spirit!_2

Fang Mu prepared to use his own energy to collect more of these Outer Realm embryos, which were beneficial to the Fool's Shadow.

Perhaps the pace at which the Fool's Shadow advanced in quality would be even faster than the Blood of Abundance!

After taking a bath, Fang Mu summoned Xi Xi and had it clean up the breeding room.

To ensure that no special scents were left behind in the breeding room.

Having done all this, Fang Mu quickly took out a box of nutritional meals from the Purple Ice Crystal Ring and started to eat.

Fang Mu had overexerted himself during the Fool's Shadow's recent evolution, depleting too much of his energy.

...

He needed to replenish the lost energy through eating.

After restoring his energy, Fang Mu stored the small mountain of meal boxes in a silver Space Spirit Tool.

Then, changing into a set of suitable everyday clothes, he stepped out of the breeding room.

Just as Fang Mu left the breeding room, Shu Liangjun found him.

"Ah Mu, I have already conveyed your message to Zhang Renbin using the Soul Sound Transmission," she said.

"Judging by the expression on his face, he will surely visit you again tonight."

Fang Mu raised his eyebrows indifferently upon hearing this.

“It would naturally be best if he comes, but there’s nothing to regret if he doesn’t,” he responded.

“After all, we’ve pretty much emptied out the Ji Feng Travel Group’s supplies.”

Fang Mu had incorporated the Ji Feng Travel Group under his command, partly to make contact with other travel groups capable of inter-Federation trade through them.

Then, by doing so, gain control over more travel groups.

The resources produced by a single travel group were limited in a short period of time.

But if the number of travel groups increased, naturally the produced resources would increase as well.

On the other hand, Fang Mu wanted to use more travel groups to help himself find these Outer Realm embryos from beings on the other side of the Sea of Domains.

To enhance the Fool’s Shadow with these Outer Realm embryos.

Guardian Beast Masters considered Outer Realm embryos to be anathema, so Fang Mu could not propose such a trade at the Stardisk Meeting.

Zhang Renbin was lost in thought after hearing Shu Liangjun's Soul Sound Transmission.

He even seemed disinterested when it came to sharing the spoils with Du Yong.

Because the words conveyed by Shu Liangjun to Zhang Renbin were too tempting.

The recent trade made Zhang Renbin aware of Fang Mu's energy.

Fang Mu had extended an olive branch to him, inviting him for a private visit tonight.

Fang Mu's intention was clear.

More than securing a steady Grandmaster Creator resources trade channel for the Ji Feng Travel Group, Zhang Renbin wished to turn himself into a "confidant" of the Grandmaster Creator.

If he established a connection with a Grandmaster Creator, his future resources would never fall short.

With a Grandmaster Creator backing them, the Ji Feng Travel Group would have full confidence against any travel group outside.

During outdoor adventures, the Ji Feng Travel Group often encountered other travel groups while exploring sanctuaries.

Some travel groups had major powers supporting them from behind.

Zhang Renbin couldn't afford to provoke such groups and could only avoid their sharpness.

But with a Grandmaster Creator backing him,

Zhang Renbin could lead the Ji Feng Travel Group to compete fairly with those powerful-backed travel groups.

And not be utterly lacking the spirit to compete!

Du Yong keenly sensed the change in Zhang Renbin's demeanor.

When that old man came to deliver the elixirs, he must have said something to Zhang Renbin.

Normally, Du Yong would be very concerned about whatever news Zhang Renbin had received.

But now, Du Yong was more preoccupied with the allocation of the elixirs.

There must be no small number of elixirs that Zhang Renbin had kept for himself.

Even if he didn't get as many as Zhang Renbin, it would be quite embarrassing for Zhang Renbin to give him too few.

At first, that was indeed what Zhang Renbin had thought.

However, the invitation that Shu Liangjun relayed on behalf of Fang Mu had changed Zhang Renbin's mind.

Fang Mu was clearly interested not just in him, but in the entire Ji Feng Travel Group behind him!

In this situation, if he wanted to gain Fang Mu's favor, he needed to make the utmost effort to develop the Ji Feng Travel Group.

If he could really have a Grandmaster Creator to rely on and establish a relationship with this creator,

he would have the opportunity to receive elixirs at any time.

By wooing Du Yong, he was giving Du Yong a handle to hold against him.

Zhang Renbin felt it was necessary to find an opportunity to get rid of Du Yong.

He worried that at certain key moments, Du Yong would become a hindrance to him.

Zhang Renbin casually grabbed two vials of Life Elixir with a purity of ninety percent from the brocade box and placed them into his Spatial Equipment.

He then handed the entire brocade box over to Du Yong.

Seeing this, Du Yong's expression stiffened, not understanding what Zhang Renbin meant by his actions.

Could it be that Zhang Renbin, taking only two vials of Life Elixir for himself, was generously giving the rest to him to dispose of as he wished!?

How could he possibly take more for himself when Zhang Renbin had only taken two vials?

In the current situation, the most he could justify taking for himself was one vial of Life Elixir.

Zhang Renbin would certainly check the stock of these resources later.

Du Yong pondered secretly, considering whether this was a test of his loyalty by Zhang Renbin.

After a moment of contemplation, Du Yong couldn't help but speak up.

"Renbin, this transaction was solely facilitated by you."

"You have secured so much profit for our Ji Feng Travel Group, you might as well take a few more vials of the elixir."

"I remember your Over-sea Crown Fin Whale is at the brink of evolution."

"Why don't you take all these ninety-two percent pure elixirs with you!"

Had it not been for Fang Mu's invitation, Zhang Renbin would have been extremely satisfied with Du Yong's performance,

and would have seen him as a vice-captain who could be completely under his control.

But now, Zhang Renbin's mind was fully occupied with Fang Mu's invitation, and he had decided to let Du Yong go.

No matter how compliant Du Yong was at this moment, it only made Zhang Renbin find him troublesome.

"Du Yong, I did indeed tell you before that we were going to get some benefits,"

"but you didn't think we would gain too much, did you!?"

"Doesn't the Ji Feng Travel Group need to develop in your eyes?"

"I have never been short on resources for the group, you must understand that!"

"Taking these two vials of the elixir is nothing more than some extra reward for my hard work towards the group's development,"

"and if it were known to the group members, I'm sure they would all understand."

After speaking, Zhang Renbin didn't say much more to Du Yong.

All Zhang Renbin could think about was the secret meeting with Fang Mu that night and what might happen there.

If there really was an exceptional opportunity, Zhang Renbin would grasp it no matter what.

After Zhang Renbin left, Du Yong stood holding the brocade box in place, stunned for a moment.

In the end, he took only one vial of ninety percent pure Life Elixir from the box.

Du Yong found the whole situation absurd.

If Zhang Renbin took so little, given that he had obtained these resources for the Ji Feng Travel Group,

even if he had not completely chosen to side with Zhang Renbin, he would not say much.

Zhang Renbin had absolutely no need to win him over.

Du Yong didn't understand why Zhang Renbin was acting this way.

But if that's what Zhang Renbin truly thought, then it would be a good thing for the Ji Feng Travel Group.

As Du Yong struggled to comprehend Zhang Renbin's logic and stood there in a daze,

Fang Mu's private residence welcomed another guest.

This guest was none other than Su Qing, who came to deliver a Flower Spirit to Fang Mu.

Shu Liangjun and Su Qing, both Star Wheel Members, had known each other longer than they had known Fang Mu.

It came as no surprise to Shu Liangjun that Su Qing would put so much effort into befriending Fang Mu.

Su Qing's actions clearly showed that she was a wise person who recognized Fang Mu's potential for growth,

and could discern the true might of the Infinite Tower behind Fang Mu based on their regular transactions.

Fang Mu received Su Qing with much more enthusiasm than he had shown to Zhang Renbin.

Su Qing knew the purpose of her visit well.

Upon seeing Fang Mu, she immediately presented the Four Winged Flower Spirit she had brought for him.

When selecting this particular Flower Spirit, Su Qing did not choose those she deemed useless,

but rather one whose abilities overlapped somewhat with the other Four Winged Flower Spirits.

As a gift for Qixing, Su Qing felt it wouldn't be right to use those overly niche Flower Spirits in a gesture of goodwill,

as it might instead provoke displeasure in Qixing, making him feel that Chonghuaju was not sincere in forging a relationship!

Chapter 1049: Blood!

Atop a great flowerpot carved from Blue Water Stone, grew a plant nearly two meters tall.

Green stems supported round, fan-like leaves that resembled the size of lotus leaves.

Above the leaves, there bloomed four basin-sized blue flowers.

Such a tall plant was quite rare, but this flower known as Green Worm Hibiscus was not suited to be used as an auspicious ornament.

For Fang Mu noticed that beneath each plump, large leaf, there was a bulge the size of a palm.

Within these bulges lived a green caterpillar.

...

The Green Worm Hibiscus and these caterpillars shared a symbiotic relationship that was quite wonderful.

A small Flower Spirit, with two pairs of cyan blue insect wings, palm-sized with long hair and a chubby face, and exceptionally gentle eyes and brows, was timidly looking at Fang Mu.

Upon noticing Fang Mu's gaze, the little creature quickly diverted its eyes.

Then it anxiously sought out leaves to hide its body behind.

Su Qing earnestly introduced to Fang Mu,

“This Green Worm Hibiscus Flower Spirit, cultured by Chonghuaju in the past few years, is one of the higher quality Four Winged Flower Spirits.”

“It does not possess any combat capabilities.”

“However, the powder made from grinding the Green Worms and then brewed in water, has an excellent healing effect on the consciousness and soul when ingested.”

“After growing up, Green Worms will lay their eggs in the leaf pouches underneath the leaves.”

“Once the eggs are laid, Green Worms will leave the leaf pouch.”

“On a day-to-day basis, one just needs to catch those Green Worms that have left the leaf pouches.”

“The only downside is that Green Worm Hibiscus requires a diet that includes consuming Wood Element Energy, as well as the regular burial of insect corpses in chrysalis soil.”

“If Green Worm Hibiscus doesn’t absorb quality insect protein, it will affect the nurturing of the Green Worms.”

As Su Qing was introducing, Fang Mu had already thoroughly assessed the capabilities of the Green Worm Hibiscus Flower Spirit.

Fang Mu suddenly felt like he found a pillow when he was drowsy.

These Green Worms may seem rather insignificant to others, since normal Beast Masters rarely face damage to their consciousness and soul.

Just a day ago, Fang Mu also thought the same and believed he would hardly encounter any issues with his consciousness or soul.

However, with the quality improvement of Fool's Shadow, he acquired an exclusive trait known as [Order Realm Peeking].

When Fang Mu used [Order Realm Peeking] to explore higher dimensions, if he wanted to bring back juveniles from high Dimensional Worlds,

his consciousness and soul would inevitably be harmed.

With these Green Worms nurtured by Green Worm Hibiscus, Fang Mu could attempt more through [Order Realm Peeking].

He wouldn't be overly cautious due to the fear of damaging his consciousness and soul, thus giving up on gains he was supposed to receive.

Compared to the Four-winged Flower Spirit Green Bug Lotus, Fang Mu was more concerned about the Flower Spirit of Nirvana.

Fang Mu was in urgent need of the Curse of the Exhausted Blood Flower Spirit to accelerate his own blood production and condense more Contracting Blood.

Although under the Curse of the Flower Spirit of Nirvana, a large amount of pure Life Elixirs would be needed to ensure his origin was not damaged.

Luckily, Fang Mu had plenty of Life Elixirs.

Fang Mu could take Life Elixirs with a purity of one hundred percent to ensure his safety.

"A Qing, your sincerity will definitely be felt by your master," Fang Mu said.

"Master is extremely interested in the Flower Spirit of Nirvana you mentioned last time."

"Why don't you show me the Exhausted Blood Flower Spirit now while you're at it?"

Fang Mu's words were filled with urgency.

It gave Su Qing the impression that Fang Mu was eager to make use of the Flower Spirit of Nirvana to show his worth to Qixing.

This behavior made Su Qing feel that Fang Mu had become more genuine.

Since Su Qing's original intention was to befriend Fang Mu, he didn't keep any secrets or hold anything back in front of him.

He directly took out a rather miniaturized plant from his Spatial Equipment.

This plant, only twenty to thirty centimeters tall, showed a stark contrast with the tall Green Worm Hibiscus.

On a short, maroon-colored clay pot, several elegant small red flowers bloomed.

These red flowers were startlingly vivid, not resembling the festive atmosphere brought by autumn maple leaves.

This shade of red was very enchanting and ghostly.

The dark red soil in the pot emitted a strong scent of blood, indicating that the Exhausted Beyond Blood normally required a large amount of fresh Beast Blood for cultivation.

A Flower Spirit in a red dress, with red hair cascading down to her neck and a captivating yet cold expression, was staring straight at Fang Mu with her dazzling red wings fluttering behind her.

Despite its Elemental Energy being inferior to that of the Green Worm Hibiscus Flower Spirit, the Exhausted Blood Flower Spirit showed not a hint of timidity when facing Fang Mu.

Even the Spiritual Intelligence of a Two Winged Flower Spirit would not be lower than that of an adult human.

The Exhausted Blood Flower Spirit was well aware that the young man before it would become its master.

As a functional type Flower Spirit, the Flower Spirit of Nirvana had no combat capabilities.

Getting along amiably with its master was the only option for the Exhausted Blood Flower Spirit.

In Chonghuaju, the Flower Spirit of Nirvana did not receive any preferential treatment.

Among the crowd of Two Winged Flower Spirits, it was the one that was overlooked.

Therefore, in the presence of Fang Mu, the Flower Spirit of Nirvana hoped that Fang Mu would pay attention to it.

In the moment their eyes met, both Fang Mu and the Flower Spirit of Nirvana's expressions changed.

In the eyes of the Flower Spirit of Nirvana, Fang Mu saw determination and a yearning to be recognized.

In Fang Mu's eyes, the Flower Spirit of Nirvana saw acknowledgement and pity.

Indeed, for Fang Mu at that moment, the Green Worm Hibiscus Flower Spirit was also very useful.

Chapter 1050: Red Blood!_2

However, it was the Exhausted Blood Flower Spirit that could more rapidly enhance Fang Mu's abilities, allowing him to contract more Guardian Beasts, Vicious Beasts, and contaminants.

Of course, Fang Mu thought this way now because he hadn't yet used the exclusive trait [Order Realm Peeking] of the Fool's Shadow to explore.

Fang Mu had not explored higher-dimensional worlds and did not know what it meant to be in a higher-dimensional world.

Perhaps after Fang Mu had explored the higher-dimensional worlds and had obtained actual benefits from them,

his perspective might change for all we know!

After handing over the two Flower Spirits to Fang Mu, Su Qing spoke to him softly.

...

“Ah Mu, I’d like to order a batch of Spiritual Elixirs from you soon, the amount is up to you!”

“Our Chonghuaju should be able to handle it!”

In addition to the intent of forming a connection with Fang Mu, Su Qing personally delivering the two Flower Spirits also aimed to promote this trade between them.

Previously, she had helped Fang Mu, and he had promised her three chances to trade Spiritual Elixirs.

Having been in the Order for a while, Su Qing wanted to see if she could get more Spiritual Elixirs to enhance her own power.

Su Qing was more keen on enhancing her own power than improving the overall strength of Chonghuaju.

Upon hearing this, Fang Mu raised his eyebrows.

Having known Su Qing for so long, Fang Mu knew she was not an arrogant person.

Even if Su Qing were arrogant, there would be no reason for arrogance in their trading relationship.

Su Qing obviously thought that Fang Mu wouldn't trade too many Spiritual Elixirs with her at once.

She hoped to get as many Spiritual Elixirs as possible in one transaction.

If Fang Mu were to trade all the Spiritual Elixirs he had on hand with Su Qing, he could probably purchase half of Chonghuaju!

One reason is that even a Grandmaster Creator couldn't produce Spiritual Elixirs quickly in the outside world.

Secondly, preparing Spiritual Elixirs was extremely easy on Fang Mu's part, only requiring them to be canned in the Abdominal Territory Worm's Abdominal Space.

Fang Mu thought for a moment and then said,

“A Qing, since you’ve asked, I can take it upon myself to trade twenty bottles of Spiritual Elixirs with a purity of over sixty percent to you.”

“After I communicate with my master, these elixirs will reach your hands tonight.”

“But I’d like to discuss the details of the trade with you quite thoroughly.”

Su Qing’s face showed surprise when she heard Fang Mu’s words.

Fang Mu had asked her for a favor, and in addition to the promise of three trades, he had only given her three Life Elixirs as compensation.

Trading twenty bottles of Spiritual Elixirs with a purity of over sixty percent was indeed generous.

Fang Mu had already stated that he could get the elixirs to her tonight. The content of the trade they needed to discuss later naturally involved what Chonghuaju would pay Fang Mu.

If she could secure twenty bottles of Life Elixir, Su Qing could completely use these Life Elixirs for a period of seclusion.

As long as Fang Mu did not trade the Six Winged Flower Spirits that were fundamental to Chonghuaju, Su Qing was willing to trade with him.

She was even willing to trade the Four Winged Flower Spirits if necessary!

“Ah Mu, just let me know whatever demands you have!”

“Here at Chonghuaju, we will prepare them for you right away!”

“If you want to trade Four Winged Flower Spirits, I will immediately go back to Chonghuaju to apply.”

With Fang Mu being so generous, Su Qing also showed great generosity.

She brought up the Four Winged Flower Spirits right from the start.

Chonghuaju is the strongest force in the world in producing botanical auspicious items.

The Four Winged Flower Spirits from Chonghuaju are indeed precious, but for Fang Mu, raising a Flower Spirit to four wings is just a matter of time.

Fang Mu had an abundance of resource costs, thus these could essentially be ignored.

With the capability to create on his side, trading for those botanical auspicious items was much cheaper than directly trading for Four Winged Flower Spirits.

Fang Mu intended to search for more botanical auspicious items to decorate the Abdominal Space and the Mountain Manor where he lived.

Fang Mu always enjoyed the pleasure of raising Guardian Beasts.

“A Qing, the Four Winged Flower Spirits already involve the foundation of your Chonghuaju.”

“Since it was originally to thank you, providing you with three opportunities to trade Spiritual Elixirs.”

“I naturally won’t go after the foundation of Chonghuaju for this.”

“I won’t trade the Four Winged Flower Spirits with you directly!”

“I would like to secure two favors from Chonghuaju.”

“If I need manpower on my side later, I will inform you.”

“Having strong individuals from Chonghuaju handle tasks for me, and I’ll provide the corresponding rewards after the tasks are completed,” Fang Mu stated.

“Besides these two opportunities to help, I would like to trade for a batch of flowers with the potential to become Metamorphosis Flower Spirits from Chonghuaju.”

Hearing Fang Mu’s request, Su Qing’s eyes widened in disbelief.

Flowers with the potential to become Metamorphosis Flower Spirits are indeed rare.

Chonghuaju would need to screen numerous auspicious flowers to select a small batch.

However, the inherent value of these auspicious flowers themselves could not be equated with that of Spiritual Elixirs.

Fang Mu was essentially exchanging higher-level resources for those of a lower tier.

Fang Mu unconditionally had Chonghuaju dispatch personnel to help him, although it was risky.

But Fang Mu was going to provide a reward.

Other strong individuals from Chonghuaju were very willing to establish relations with Fang Mu, the disciple of a Grandmaster Creator.

Even if Fang Mu didn't provide a reward, the strong individuals from Chonghuaju would still compete to go and assist after learning about it.

The trade proposed by Fang Mu was extremely beneficial to his side; it was truly hard for Su Qing to refuse.

With interests at hand, Su Qing couldn't express the notion of abandoning those interests and returning them to Fang Mu.

However, Su Qing still expressed it.

"Ah Mu, those flowers with the potential to become Metamorphosis Flower Spirits are much lower in level compared to Spiritual Elixirs," said Su Qing.

"I will provide you with an additional fifty percent of these auspicious flowers as per the actual situation," Su Qing proposed.

“You will receive them within one month,” she added.

“These auspicious flowers require meticulous screening to determine if they have the potential to transform into Flower Spirits,” she explained.

“So, it will take some time.”

“As for those Spiritual Elixirs, you can hand them over to me after I’ve delivered these auspicious flowers to you.”

Fang Mu smiled and shook his head upon hearing her words.

“A Qing, this isn’t our first transaction,” he said.

“If I were not trusting you and Chonghuaju, I wouldn’t have decided to take out twenty bottles of Spiritual Elixirs,” Fang Mu pointed out.

“You should know that even in the eyes of my master, taking out twenty bottles involves risks!”

“Let’s proceed as we discussed before. You can take these Spiritual Elixirs away tonight,” Fang Mu decided.

“In one month, have someone bring those auspicious flowers to me!”

These words from Fang Mu truly touched Su Qing.

Su Qing could imagine the risks and pressures Fang Mu, the disciple of a Grandmaster Creator, had to endure to decide to hand over twenty bottles of Life Elixirs first.

Su Qing was very grateful for Fang Mu’s trust.

Su Qing, who was anxious to go into seclusion, indeed needed these Spiritual Elixirs as soon as possible.

Su Qing told Fang Mu very seriously.

“Ah Mu, if you need Chonghujia’s cooperation in the future, I will be involved,” she said.

“To ensure the smooth conduct of the actions!”

After chatting casually with Su Qing for a while, Fang Mu returned to his room.

After a while, Fang Mu handed over all twenty bottles of Spiritual Elixirs to Su Qing.

Then he released the Exhausted Blood Flower Spirit from the Purple Ice Crystal Ring.

After gritting his teeth, he said to the Exhausted Blood Flower Spirit.

“I know Flower Spirits possess high Spiritual Intelligence, so you must have your own name, right?”

The Exhausted Blood Flower Spirit pursed her crimson lips upon hearing this.

With a tone both defiant and tinged with loss, she said,

“I have always been underestimated, not named like my sisters.”

“Going forward, I will follow you, and if you don’t mind, you can give me a name!”

The tone of the Exhausted Blood Flower Spirit was very flat, yet Fang Mu could sense the hope hidden within its calmness.

The Exhausted Blood Flower Spirit truly needed recognition.

“Let’s call you Crimson,” Fang Mu decided.

“I’ve given you a name and become your master.”

“Though I may not necessarily contract with you, I will help you enhance your bloodline as much as I can!”

“You can tell me directly what resources you need, there’s no need to be formal with me!”
