

## **Beast Tamer 111**

### Chapter 111 Lu Dushe Clan! \_1

Fang Mu's next goal is to wait for his Guardian Beast to upgrade to the Silver grade of Perfect Quality.

Then, using his Guardian Beast to recycle and purify Deep Pool Heavy Water, he plans to upgrade the strength of the Clean Water Spirit to the Silver Stage as well.

Fang Mu feels that with five hundred pounds of Deep Pool Heavy Water as a foundation, as long as the Clean Water Spirit's natural ability is not too dull.

It should be possible to upgrade to Legendary Quality.

Aside from upgrading his own beasts, Fang Mu also needs to continue to work tirelessly at the Cleaner Guild to accumulate Creator resources.

Fang Mu is not the kind of person who only cares for himself.

Not to mention that Fang Mu has two sisters and one brother, Lu Xiaoyin and She Wan have also become his own people.

Fang Mu intends to provide high-star Creator resources for these people as much as possible.

In the world of Beast Masters, being a lone wolf has never been a good choice.

People's social nature and societal bonds also play a part in individual strength.

Fang Mu understood this principle in his previous life.

However, compared to his previous life, the scarcity of Creator resources in this life makes this principle even more evident!

Fang Mu has no intention of stopping; thus, many tasks are inevitably assigned to his subordinates.

“She Wan, you should be free later, right? I have a few tasks for you.”

She Wan was pleasantly surprised that Fang Mu assigned her tasks so soon after she became his bodyguard.

What She Wan feared most was not being valued after becoming Fang Mu’s bodyguard.

If Fang Mu did not value her, no matter how well she did her job, it would be difficult to earn his approval.

“From now on, all my time belongs to you, young master!”

“Please feel free to instruct me, I will definitely do every task to perfection!” She Wan is not just the Hexagram Beastmaster of the Starwheel Aries.

The heritage of Keystone Construction and Origin Construction, families with hundreds of years of craftsmanship represented by Lu Yuyu and Luo Su, is much more powerful than the Wolf Tooth Biology from which Feng Chenhao hails.

If the gap between Luo Su, Lu Yuyu, and Feng Chenhao’s families is likened to the Mariana Trench,

The gap between She Wan’s background and Luo Su and Lu Yuyu is undoubtedly far wider than the Mariana Trench.

Lu City and The Capital are known as the two capitals of Dragon Rising Federation.

Although the Dragon Soaring Royal Court is located in The Capital, Lu City never loses out.

Both are equally influential, each with its own strengths.

The She Family in Lu City, which She Wan hails from, is a reputable family that has been around for over a thousand years.

Otherwise, they wouldn't be able to cultivate someone like She Wan.

If She Wan wasn't born into the She Family of Lu City and hadn't received resources for becoming a Creator at an early age,

Even with all her talent, without visiting the Contemplation Hall, she wouldn't have been able to comprehend so many mysteries.

Let alone synthesizing two mysteries into chapters!

Although She Wan is already in her forties, the lifespan in the world of Beast Masters would significantly increase with the rise of one's strength.

She Wan, in her forties, only has a few young nephews and nieces.

Until these nephews and nieces reach adulthood, She Wan is still considered a direct-line noble lady of the She Family.

She Wan's status entails many responsibilities to carry out each day.

But She Wan has given up her original lifestyle when she decided to come here.

In recent years, all he has done was to make efforts to increase her strength.

Staying by Fang Mu's side as a good guard will allow her to access Grandmaster Creator resources.

There's no reason for She Wan to continue undertaking other tasks.

Before coming here, She Wan specifically informed her father and grandfather about this matter.

Her father and grandfather not only supported it, they even felt that they were heavily indebted to Shui Miao!

She Wan's background means she has a strong ability to get things done.

This ability is not something that Lu Xiaoyin can match.

She Wan has always been proud of her status, but she never mentioned it to Fang Mu.

The She Family of Lu City can be regarded as a powerful group in the eyes of Master Creators.

But in the eyes of a Grandmaster Creator, they seem impoverished!

She Wan has never thought that her status could give her bonus points in front of Fang Mu.

Hearing She Wan's remarks, Fang Mu asks her.

"You should have a sequential spiritual instrument with the spatial ability to hold living things, right?"

Speaking, Fang Mu released the sleeping Rainbow Devouring Sea Python.

Fang Mu's question immediately put She Wan in a spot.

She Wan looked at the Purple Ice Crystal Ring on Fang Mu's hand and sighed to herself.

A sequential spiritual instrument requires a beast spirit from a sequential beast. Each sequential spiritual instrument needs a Forging Spirit Grandmaster to forge over several months, as well as the death of a sequential beast.

The beast spirit needed for a spatial sequential spiritual instrument must originate from a space-based Beast.

Where are space-based sequential beasts so easy to come by? Not to mention killing one!

Fang Mu's words made She Wan feel like a poor and rustic simpleton.

"I'm sorry, young master, but I don't have a sequential storage spiritual artifact of the spatial series."

"But my Diamond storage spiritual instrument can hold this serpent beast!"

She Wan is not a Master Creator and can't discern the specific skills and exclusive characteristics of the Rainbow Devouring Sea Python.

However, through the python's aura, she could feel that the quality of the Rainbow Devouring Sea Python had been upgraded to legendary quality.

This was obviously the work of a Grandmaster Creator!

"This is a beast that a friend asked me to improve by asking my master." "You tell her, to take good care of my elder sister!"

"The enhancement of the Rainbow Devouring Sea Python's quality can be considered my payment!"

While speaking, Fang Mu took out another brocade box.

This brocade box was at least twice as large as the one Fang Mu had previously given to She Wan.

“You help me send the two Wind Elemental Potions in this box to the Lionheart

Brigade.”

“Have Deputy Head Liu Jihui of the Lionheart Brigade arrange 20 members to go to The Capital to assist Lu Yuyu.”

“Besides those two bottles of Wind Elemental Potion for Liu Jihui, you should deliver the Rainbow Devouring Sea Python along with JA City Beastmaster Alliance’s executor, Lu Yuyu.”

“Have him give all this spiritual liquid to my elder sister!”

Fang Qin, unlike Fang Mu, doesn’t possess a Clean Water Spirit that requires high-purity Elemental Energy before the Diamond Rank.

The Frost Language Snow Dragon, other than needing a bit of high-purity Water Elemental Potion as an assistant before inducing bloodline evolution, generally uses Water Elemental Potion and Life Elixir of 70% purity, which is already a luxury!

Once Fang Qin’s Frost Language Snow Dragon’s bloodline reaches the critical point via aids for Dragon Bloodline evolution, Fang Mu plans to use the Blood Aged Wine again and strive to let the Frost Language Snow Dragon transform into a Frost Tone Snow Dragonling when it advances to Silver Stage.

This will greatly enhance the potential of the Frost Language Snow Dragon’s bloodline evolution.

Therefore, although there are many potions in this brocade box, they are not as precious as the 90% pure Wind Elemental Potion.

From Fang Mu's words, She Wan learned that Fang Mu also has an elder sister.

And he places great importance on this sister!

Fang Mu's attitude towards Fang Qin helped She Wan immediately make a decision.

That is, if she ever gets the chance to meet Fang Mu's elder sister in the future, she must show more humility and respect than when facing Fang Mu.

She Wan took the brocade box handed over by Fang Mu and opened her mouth to speak.

"Young master, where can I find you after I have finished these tasks?"

"You've given me so many Creator resources, and I want to find you later to use those Creator resources to improve my beasts."

Hearing that, Fang Mu immediately took out his phone and gave Lu Xiaoyin's number to She Wan.

After she finishes the tasks he assigned her, she can directly find Lu Xiaoyin.

Then have Lu Xiaoyin, who is familiar with the local conditions, arrange a

place for She Wan to improve her beasts.

Fang Mu is not planning to go to the factory again in the next few days.

Feng Lin prepared a special lounge for Fang Mu among the Cleaners.

Fang Mu can live entirely in the lounge in the Cleaner's Guild, there's no need to waste time commuting back and forth.

Fang Mu can't have She Wan, a Hexagram Beastmaster with a sequential beast, stay with him in the Cleaner's Guild.

Not to mention that such a fact was too conspicuous.

Having a powerful outsider stay in the Cleaner's Guild for a long time is against the rules anyway.

When She Wan was leaving the working room, while looking at the saved phone number of Lu Xiaoyin, she realized that Fang Mu doesn't really need her.

She Wan was a little disappointed by this discovery, but she had anticipated this psychologically beforehand.

Soon She Wan sorted out her feelings, prepared to work hard in the future.

She will surpass Lu Xiaoyin, Fang Mu's private housekeeper!

She Wan and Lu Xiaoyin haven't even met, and yet they've already started an one-sided competition!

Chapter 112: Grandmaster Creator: Shuo Yang 1

The JA branch of the Beastmaster Alliance could easily be said to be the busiest place in the city, both day and night!

A large number of Beast Masters are here to take on tasks, or join temporary Adventure groups to make a living.

In such a place with a massive number of Beast Masters, it's inevitable that some people gain opportunities during their wilderness expeditions.

These events have become stories spreading among the Beast Masters, inspiring more ordinary Beast Masters.

In contrast to the hustle and bustle of the first floor's hall, as well as the second floor's offices.

The Beastmaster Alliance Branch, starting from the third floor, is entirely made up of individual reception rooms.

The Beastmaster Alliance officials will cooperate with some factions in need of manpower, providing manpower and guaranteeing the quality.

At the same time, they also guarantee the interests of these manpower.

Any Beast Master with a smidge of strength prefers to participate in tasks backed by the Beastmaster Alliance.

The laws of the Dragon Rising Federation are strict, with identity cards being an essential part of life, making the risk of crime incredibly high!

Thus, even a relentless bloodthirsty madman must suppress their desires within the city.

But outside the city, where the laws aren't as stringent, jungle laws become dominant.

Killing and robbing are common.

However, those tasks with the Beastmaster Alliance's backing, effectively preempt this.

Because if an accident happens to a Beast Master who joins such a task, the Beastmaster Alliance will send out a dedicated team to investigate.

After the investigation, a dedicated law enforcement division will hold a hearing and hold accountable those responsible.

No villain or power wants to be targeted by an official force like the Beastmaster Alliance.

Just by looking at the packed reception rooms, it symbolizes the prosperity of the Beastmaster Alliance.

This prosperity has a lot to do with the personal channels that Lu Yuyu brought from the Imperial City.

On normal days, Lu Yuyu enjoys spending time on the first, second, and third floors, appreciating the fruits of his labor.

At this moment, however, Lu Yuyu sat in his fourth-floor office with a heavy face.

Looking at the tall, thin man with long hair sitting in front of him, he remained silent for a long while.

Seeing Lu Yuyu's appearance, Lin Ziyuan sighed softly.

"Ah Yu, I know you have always been level-headed."

"In terms of stability, I have been inferior to you since we were children."

"Why now all of a sudden, you want to apply for the Sakura Tempering Carp from the Alliance!?"

"Don't you know that many important characters have set their eyes on this Sakura Tempering Carp!?"

As he spoke, Lin Ziyuan wore an expression of great concern.

Lin Ziyuan, Lu Yuyu, and Luo Su had grown up together since they were children.

Regarding family ties, the Lin Family was closer to the Luo Family.

If Lin Ziyuan hadn't been afraid of snakes as a child, Luo Su, who gets along well with python-type Guardian Beasts, would've likely been betrothed to Lin Ziyuan!

Perhaps because of his childhood fear of snakes, Lin Ziyuan's relationship with Luo Su had always been strained.

But Lin Ziyuan's relationship with Lu Yuyu was closer than that of real brothers!

Lin Ziyuan's choice to join the Beastmaster Alliance and pass up an invitation from the Dracoid Research Institute was influenced by Lu Yuyu.

Lu Yuyu became an external executor, while Lin Ziyuan became a director in charge of internal affairs.

Knowing that his good brother has set his heart on the "Sacred Relic" Sakura Tempering Carp, Lin Ziyuan rushed over without hesitation!

Fearing that Lu Yuyu would make a mistake!

As a director, he deals with more information and news every day than his peers who are external executors.

Lin Ziyuan thought that if he told Lu Yuyu that Dragon Mother's grandson, MO

Shang, has set his heart on the "Sacred Relic" Sakura Tempering Carp,

Lu Yuyu would immediately give up the plan to apply for the "Sacred Relic" Sakura Tempering Carp.

But to his surprise, his words only put pressure on Lu Yuyu, without making him think about giving up at all.

In Lin Ziyuan's eyes, Lu Yuyu is a very clever person!

How can a smart person make such elementary mistakes?

Who could make Lu Yuyu work so hard, even to the point of offending those important characters?

Worried about his best friend making a fool of himself, Lin Ziyuan decided to resort to harsher methods.

"Ah Yu, you should know, though I chose not to work at the Dracoid Research Institute, both of my cousins are there,"

"The head writer of the Dracoid Research Institute, Zhang Qing, has already started mobilizing resources and is planning for the Sakura Tempering Carp!" In Lin Ziyuan's view, there could be no harsher news than this.

Besides being the head writer of the Dracoid Research Institute, Zhang Qing is also the assistant to Grandmaster Shuo Yang.

Even if Lu Yuyu does apply for the "Sacred Relic" Sakura Tempering Carp, it may not necessarily upset influential figures like MO Shang or Zhang Qing.

But even if there's only a one in ten thousand chance, he shouldn't take such a risk.

Lu Yuyu had already considered the pressure he might face before bringing up the matter with Fang Mu.

But because of the lack of information compared to Lin Ziyuan, Lu Yuyu didn't expect the pressure would be so massive!

The silence from Lu Yuyu wasn't due to worry about his situation, nor was it regret over his choice.

The grandson of the Dragon Mother was a few years older than Fang Mu, and truly an exceptional talent amongst his generation.

He had once represented the Dragon Rising Federation in the World Beastmaster College Students League, securing the only second place finish that the federation had achieved in nearly a decade.

In the following years, the best performance that the Dragon Rising Federation could show was a place in the top four.

Sophisticated individuals like him would not bear any resentment because they were outperformed in the contest for the "Sacred Relics".

Lu Yuyu had very little information about Zhang Qing, though his impression of Zhang Qing was not particularly favourable.

Zhang Qing was known for his arrogance and disdainful attitude, always considering himself superior to others.

However, concerning the research on Guardian Beasts and the analysis of the properties of magical materials, he showed an earnestness that was hair-raising.

He also made countless outstanding contributions in academic research fields.

Otherwise, Master Shuoyang would not have appointed Zhang Qing as his assistant.

As for Zhang Qing's personality, Shuoyang once ridiculed it publicly.

"He's a promising academic prospect, but he has a dog's brain when it comes to his conduct!"

Lu Yuyu was not sure whether someone like Zhang Qing would try to trouble him afterwards.

If they were to compare Zhang Qing and Fang Mu although they were both assistants to a Grandmaster Creator, their positions seemed to be on par with each other.

However, Fang Mu was not just an assistant to the Grandmaster Creator, he was also his apprentice.

There was a significant difference between being an apprentice and being an assistant.

Master Shuoyang was known to have no restraint when it came to hiring assistants, with over ten currently serving him.

The person acknowledged publicly as Apprentice by Shuoyang was not Zhang Qing but someone else.

Therefore, disregarding his personal relationship with Fang Mu, if he were only to consider his interests in this equation, he would still have no reason to back down!

Lu Yuyu was deeply moved by the fact that Lin Ziyuan had travelled such a long way just to advise him on this matter.

He did not choose to hide anything about Fang Mu's identity from Lin Ziyuan.

This was because Lu Yuyu was planning to use Lin Ziyuan's connections to ensure he had a chance to increase the bid for the "Sacred Relic", the Sakura Tempering Carp.

Looking at the worried expression on Lin Ziyuan's face, Lu Yuyu let go of his grim mood.

First, he prepared a cup of tea for Lin Ziyuan and then solemnly said: "Ziyuan, you know that I always like to be cautious when doing anything." "However, one should always show gratitude. They cannot be too selfish." "Even if I help others and to bridge this gap, I will still owe them a favor!" Upon hearing Lu Yuyu's words, Lin Ziyuan almost lost his temper.

How can favours not be returned? Why take such a risk?!

Moreover, your way of returning the favour might impact those whom you are trying to help!

Just as Lin Ziyuan was about to give Lu Yuyu a piece of his mind, he heard Lu Yuyu continue.

“The person I’m helping is called Jianmu, and just like Zhang Qing, he has the support of a Grandmaster Creator behind him!”

“The only difference is that Zhang Qing is an assistant, while Jianmu is the disciple!”

Lu Yuyu’s words seemed to have a magical effect, as if freezing time itself.

Lin Ziyuan’s look of anger and anxiousness seemed to be completely stuck on his face.

After a moment of silent astonishment, Lin Ziyuan enthusiastically patted Lu Yuyu’s shoulder and burst into laughter.

“Damn it! Ah Yu, why didn’t you say this earlier!”

“I have been worried about it for such a long time!”

“No wonder Luo Su has been mumbling in the group chat about improving the bloodline of the Shimmering River-swallowing Python. So this is the reason!”

“Remember, your application is still on hold. I will try my best to help you once

I go back.”

“Since I’ve decided to help you, I’ll make sure to do my best!”

Seeing Lin Ziyuan's mood transition from worry and anger to joy in an instant.

Sensing the sincere concern from his closest friend, Lu Yuyu relaxed, showing his youthful cheerfulness through a bright, naive smile.

At that moment, they heard a knock on Lu Yuyu's office door.

Lu Yuyu's assistant gently pushed it open and poked her head in.

Lu Yuyu knew that his assistant was very discreet in her actions and well-versed in understanding his temper after working with him for many years.

If she sought him out at this time, it must be an important matter.

Lu Yuyu had specifically instructed his assistant that if there were any developments related to Jianmu, she would have to inform him immediately, regardless of what he was doing.

Lu Yuyu quickly stood up, thinking that Lu Xiaoyin had arrived and he should go out to welcome her.

Now, Lu Xiaoyin's status had completely changed from before.

Just as Lu Yuyu stood up, he heard his assistant report.

"Brother Lu, someone who claims to be Sir Jianmu's guard is looking for you!"

"He's waiting outside the door, I'm not sure...."

Chapter 113: Change of She Wan!\_1

The female assistant's words were abruptly cut off by Lu Yuyu.

"Why are you announcing when Sir Jianmu's guard is looking for me instead of bringing him directly to me!" Lu Yuyu exclaimed as he promptly strode towards the door.

Seeing Lu Yuyu's reaction, Lin Ziyuan also stood up, deep in thought.

Sir Jianmu must be the disciple of the Grandmaster Creator that Lu Yuyu was referring to!

Considering the visitor was a disciple of the Grandmaster Creator, Lu Yuyu's response wasn't too extreme.

If it were him, Lin Ziyuan thought, his reaction might be even stronger!

As Lu Yuyu walked towards the door, his mind began to race.

Previously, the only person Lu Yuyu had interacted with from Fang Mu's side was Lu Xiaoyin.

But Lu Xiaoyin clearly didn't know Fang Mu at first, and basically started interacting with Fang Mu around the same time as him.

Later, he didn't know what Lu Xiaoyin did to be fortunate enough to become Fang Mu's private steward.

The person claiming to be Fang Mu's guard was obviously someone he had never encountered before.

This made Lu Yuyu a little nervous, but also curious.

What was the reason for Fang Mu's guard seeking him out?

The female assistant felt a little aggrieved at Lu Yuyu's words.

If it wasn't for the fact that Lu Yuyu had previously instructed her to inform him immediately of anything related to Jianmu, regardless of what she was doing, she wouldn't have attempted to relay the message while he was in conversation with Lin Ziyuan.

There had never been an instance in the past where someone was allowed to interrupt when Lu Yuyu and Lin Ziyuan were together.

The assistant opened the door completely, then stepped aside and gestured towards the office.

She Wan, with a cold and majestic demeanor, strode into Lu Yuyu's office.

When Lu Xiaoyin first visited Lu Yuyu's office, she was somewhat restrained.

After all, interacting with Lu Yuyu within the Beastmaster Alliance was a completely different experience from outside.

But for She Wan, Lu Yuyu's status both inside and outside didn't make any difference.

She had seen many characters like Lu Yuyu, growing up!

Originally, for her first meeting with Fang Mu, She Wan had chosen a custom tailored outfit designed and produced by a master-level weaver.

She Wan wore such clothing in order not to appear ostentatious during her first encounter with Fang Mu.

Otherwise, She Wan usually likes to purchase clothes tailored by grandmaster weavers.

For a family like the Lu Dushe clan, which has a thousand-year-old heritage, clothing represents dignity.

It's a way to showcase their status!

That's the kind of education She Wan has been receiving from an early age.

Having known that Fang Mu dresses plainly and humbly, She Wan put away all the tailored clothes she had gotten from the weaver.

And replaced them with ordinary styles that could be bought in the marketplace.

Wearing a deep blue dress that cost only three Dragon Rising Coins, She Wan should have appeared rather mature.

However, She Wan's features were already radiant, with her bright red lip gloss providing further enhancement.

This simple, dark dress concealed She Wan's physical advantages.

Yet, it accentuated the exquisiteness of her features and her natural demeanor.

At first glance, both Lu Yuyu and Lin Ziyuan were somewhat taken aback by She Wan.

Lu Yuyu quickly pulled out a chair and cordially said to She Wan, "Please have a seat! What kind of tea do you prefer?"

"In my office, I only have Golden Bud Sidelong Leaf and Purple Snow Green.

Those are my special teas."

"If you don't like either, I can have someone make you some juice!"

While speaking, Lu Yuyu kept observing She Wan, completely oblivious to the surprised look on Lin Ziyuan's face.

Through his observation of She Wan, even though her attire was simple, Lu Yuyu could instantly ascertain that she exuded an aura typical of a rich family's child.

An aura that both he and Lin Ziyuan possessed.

Having joined the Jing Hai army, Luo Su had slowly honed this aura into one of iron-blood and tenacity.

Compared to him and Lin Ziyuan, the woman in front of him exuded a more noble and superior aura.

It suggested that if she truly was born to a wealthy family, her family's influence would be more formidable than either his or Lin Ziyuan's. She Wan chose not to sit in the chair that Lu Yuyu had pulled out for her.

She was here to deliver a message.

After delivering the message, She Wan planned to immediately go meet the private steward named Lu Xiaoyin.

It would also be beneficial to learn about my competitor as early as possible.

Knowing oneself and the enemy ensures victory in every battle!

She Wan saw herself as Fang Mu's guard, before understanding the relationship between Lu Yuyu and Fang Mu.

When engaging with Lu Yuyu, She Wan found it challenging to gauge the appropriate attitude to adopt.

Consequently, She Wan directly retrieved the Rainbow Devouring Sea Python from her diamond Space Spirit Tool.

A python approximately one hundred and thirty or forty meters long, thicker than her own six-meter-diameter wine cabinet, appeared in her office.

It startled Lu Yuyu and Lin Ziyuan!

The scales of the Shimmering River-Swallowing Python were black, shimmering with a rainbow glow under the light.

The scales of the Rainbow Devouring Sea Python were directly colored rainbow, reflecting a hazy green light; the difference is staggering.

However, Lu Yuyu and Lin Ziyuan quickly recognized the python Guardian Beast summoned by Sir Jianmu's beautiful guard, She Wan.

It was actually Luo Su's Guardian Beast Python!

Both of them sensed the legendary quality of the Rainbow Devouring Sea Python from its aura.

This was clearly different from what Luo Su and Fang Mu had agreed upon. Before Lu Yuyu had time to react, She Wan spoke in a cold tone,

"Young master has said he asked the master to extra enhance the quality of this

Guardian Beast Python to Legendary Quality,"

"Partly because he wanted to help you."

“And partly because the young master hoped you could support Fang Qin!” She Wan clearly understood how to promote Lu Yuyu’s favor.

She believed that Lu Yuyu’s ability to form a connection with Fang Mu was pure luck.

It was fortunate that Fang Mu was willing to forge a friendship with a small fry like Lu Yuyu!

Upon hearing this, Lu Yuyu did not know what to say for a moment.

Lu Yuyu had already owed a favor to Fang Mu. Helping Fang Mu to compete for the sacred Sakura Tempering Carp was his attempt to repay this favor.

Yet for this, Fang Mu had promised him a vial of Life Elixir with a purity of eighty percent.

The favors he had called in were plentiful, but they amounted to no more than twenty million Dragon Rising Coins.

Given that he already owed a favor to Fang Mu, Fang Mu was willing to give Luo Su such an opportunity.

Lu Yuyu felt that perhaps his greatest achievement since reaching adulthood was becoming acquainted with Fang Mu.

” I will relay these words to Luo Su! Luo Su will thank Sir Jianmu in person when the time comes!”

She Wan didn’t say much upon hearing this, but she generally deduced that Lu Yuyu and Luo Su must have very good relations with Fang Mu,

Otherwise, he wouldn’t have mentioned “thanking in person”!

The face of a Grandmaster’s disciple is not something anyone can casually see!

She Wan took out the brocade box that Fang Mu had given her and handed it to

Lu Yuyu.

She accurately conveyed Fang Mu's words with careful embellishment.

Then, without giving Lu Yuyu the chance to invite her to dinner, She Wan immediately left the Beastmaster Alliance.

she went to find her competitor, Lu Xiaoyin!

Lu Yuyu could already anticipate how elated Luo Su would be when seeing this Rainbow Devouring Sea Python!

Since he had introduced Luo Su to Fang Mu and the Shimmering

River-Swallowing Python evolved this far because of him, he was responsible for this connection.

Perhaps if he proposed to Luo Su while she was excited about the Rainbow Devouring Sea Python, his chances of success could be very high!

Perhaps his belated fate with Luo Su will be facilitated by Fang Mu!

Lu Yuyu believed that Luo Su would clearly know what to do when it comes to looking after Fang Qin even if he didn't mention it.

But since Fang Mu's guard had emphasized this matter, implying that Luo Su should repay the favor of enhancing the quality of the Rainbow Devouring Sea

Python to Fang Qin,

Lu Yuyu decided to have a serious talk with Luo Su.

He would let Luo Su find more resources for Fang Qin when Luo Su came back to his family.

Lu Yuyu opened the brocade box and looked at the elixirs inside.

He then planned to visit the Lionheart Brigade in person and bring up Fang Mu's request to Liu Jihui.

Afterwards, he intended to personally select twenty capable hands from Liu Jihui.

Since Lin Ziyuan had come to find him and the channels for competing for the sacred Sakura Tempering Carp were all in the capital,

He might as well return to the capital with Lin Ziyuan for some maneuvering!

Once he got to the capital, he could let his family send people to assist Fang Mu's partners to build up the infrastructure of the Mu Commerce Association!

Lu Yuyu was curious about what kind of partners could earn Fang Mu's trust.

Supplying a hundred bottles of Life Elixir with sixty percent purity daily, and directly appointing them as Red Sleeve of his commerce association.

A person of such trust from Fang Mu, Lu Yuyu felt it was necessary to meet!

Chapter 114 Advance! Suck it up!\_I

Lu Yuyu's space spirit tool was only a gold-level superior grade item.

This was partly due to the fact that Lv Yuyu had little need for storage space on a daily basis.

On the other hand, it was also because gold-tier or higher-grade storage spiritual instruments were too rare.

Although Lv Yuyu could afford it, it was unnecessary to spend too much resources on it!

It would be better to provide these resources to the Guardian Beasts, or visit the Contemplation Hall a few more times.

However, a gold-level superior grade storage spiritual instrument was indeed too small to contain the over 140-meter-long Rainbow Devouring Sea Python.

Lv Yuyu immediately used his position as an executor and reserved a platinum mid-grade storage spiritual instrument within the Beastmaster Alliance.

Only then did he manage to barely store the Rainbow Devouring Sea Python.

It was not until then that Lv Yuyu noticed that Lin Ziyuan was standing there with a shocked look on his face.

Lv Yuyu walked over and waved in front of Lin Ziyuan's eyes, only to find that Lin Ziyuan's eyes had lost focus.

Lv Yuyu's eyebrows furrowed.

Only Jianmu's guard and that beautiful woman had entered his office to witness what had just happened.

Could it be that Lin Ziyuan had been bewitched by the stunning woman?

Thinking of this, Lv Yuyu immediately shook his head.

In Lv Yuyu's impression, Lin Ziyuan was not that kind of person!

If Lin Ziyuan was really a lustful person, there was no way he could have a better status in the Beastmaster Alliance than himself!

LvYuyu patted Lin Ziyuan's shoulder.

"Ziyuan, come back to your senses! Could it be that you know Jianmu's guard?"

"Although I am familiar with Jianmu, this was the first time I have seen his guard!"

With the shout and the pat from Lv Yuyu, Lin Ziyuan finally came back to his senses.

Having regained his senses, Lin Ziyuan called out in a somewhat astonished tone.

"Ah Yu, do you remember last month I was planning to come find you and Luo Su, but got delayed by a banquet?"

"That banquet was hosted by the Lu Du She family, and my father spent almost 4-5 million Dragon Soaring Coins on connections just so he could take me there!"

"You must know about the Lu Du She Family, right!?"

Upon hearing this, Lv Yuyu nodded.

The fame of the She Family, one of the Lu Du Five Families, was well-known.

In recent years, Uncle Lin's developments have been getting better and better. The scale of his mountain-opening construction almost matches the combined scale of my family's keystone construction and the origin construction where Luo Su is based.

As the mountain-opening construction continues to improve, he also comes into contact with higher and higher levels of power.

Even if my family spend 8 million Dragon Soaring Coins on connections, we might not be able to attend the banquet hosted by the Lu Du She Family.

In the end, Lin Ziyuan mentioned the Lu Du She Family, was it because the beautiful woman who just entered, the guard, is from the Lu Du She Family !?

Seeing the expression on Lv Yuyu's face, Lin Ziyuan knew that Lv Yuyu understood his intention.

Lin Ziyuan took a deep breath, his gaze full of longing and admiration as he looked at Lv Yuyu.

He said very seriously.

"Honestly, even if I knew you never lie, I didn't quite believe what you just said!"

"But now I do!"

"Jianmu must be the disciple of a Grandmaster Creator, otherwise, the noble lady of the current generation of the She Family of Lu Du wouldn't condescend to just being a guard!"

"Otherwise, even if she wanted to, the She Family of Lu Du would absolutely not allow such a disgraceful thing to happen!"

Speaking of this, Lin Ziyuan couldn't help but remember the woman at the banquet a month ago, dressed in a set of clothes worth nearly ten million Dragon Soaring Coins, holding a wine glass, as beautiful as a rose, as proud as the clouds at the mountaintop.

How she toasted with those people he could only look up to with a look of disdain!

Hearing Lin Ziyuan's words, Lv Yuyu didn't know how to react for a moment.

A feeling of both predictability and inconceivability surged in Lv Yuyu's heart.

At this moment, Lv Yuyu heard Lin Ziyuan continue.

"Only those families which have been passed down for thousands of years will establish one noble son and one noble lady among their direct descendants."

"Being established as a noble son or a noble lady means that they are the most distinguished figures of their generation in the family."

"If I remember correctly, my father once said She Wan isn't just a Hexagram Beastmaster with one sequential guardian beast!"

Upon hearing this, Lu Yuyu immediately felt the vast gap between people.

He also understood why She Wan, who seemed to be of the same age as him, could become a guard of Jianmu.

With such strength, she is more than capable of fulfilling the duties of a guard.

Lu Yuyu took a deep breath and said to Lin Ziyuan. "Come, first accompany me to the Lionheart Brigade!"

"Then prepare with me to meet Luo Su."

“Let’s try to win Luo Su over this time, so you can join in celebrating my big day!”

Upon hearing Lu Yuyu’s words, Lin Ziyuan raised his eyebrows, touching his long hair that reached his shoulders.

A large grin spread across his face.

“I’ve been looking forward to your celebration for a long time! I’m planning on getting a haircut soon, don’t forget to make me your best man!”

Fang Mu spent the entire afternoon and night in the Cleaner Division.

However, during his time in the Cleaner Division, Fang Mu didn’t deal with the Vanguard Beast Corpses.

He was busy decomposing Deep Pool Heavy Water.

Before he completes this task, he doesn’t have the energy to handle the Vanguard Beast Corpse!

Using this rare idle time, Fang Mu had been tasked with receiving new recruits for the Cleaner Division.

This was the first time Fang Mu carried out such a task.

In his two lives, it was the first time Fang Mu was directly confronted with the hardships and woes of the world.

This sort of face-to-face feeling, was completely different from what he had gleaned through books and recordings.

Fang Mu watched as those who lacked the capability to handle Vanguard Beast Corpses entered into the crematorium, insisting on working.

The information and warnings he gave these people about the grim reality of their situation, had no effect.

Why would anyone gamble with their life if not pushed to the extreme?

In a short two hours, Fang Mu felt that he had experienced growth like never before.

Fang Mu's duty was originally over and he could have gone to collect his merit points.

But like He Qing waited previously, Fang Mu decided to stay at the entrance of the Soldier-Level Crematorium.

After the three men came out, Fang Mu immediately sent them to the newly-established medical facility set up by Feng Lin for treatment, reducing the risk to a minimum according to their conditions.

A sudden thought occurred to Fang Mu.

What if he could use his abilities, along with Blood Aged Wine and his pet beast, to create a beast that could fundamentally deal with polluted land and Alien Beast corpse?

This way, not so many people would have to shoulder this heavy burden.

If large tracts of polluted land could be recovered and reused, more people could make a living.

Fang Mu planned on conducting experiments with the use of Blood Aged Wine once he had condensed a few more drops of Contracting Blood.

It wouldn't be too difficult for Fang Mu to make progress.

Existing research materials from the past would save him a lot of time.

Fang Mu could stand on the shoulders of giants, finding the beasts that have a role in dealing with Alien Beast corpse and polluted land.

Then he can specifically utilize Blood Aged Wine to assist these guardian beasts in their evolution.

Just as Fang Mu was contemplating this, he heard his pet beast's voice in his mind.

"Fang Mu, Fang Mu! All the squishy, slippery and a little bitter garbage was digested by me!"

At that, Fang Mu raised an eyebrow in surprise.

He hadn't expected the Deep Pool Heavy Water to have such a taste.

But what surprised Fang Mu more was the fact that this tasting Deep Pool Heavy Water seemed delicious when swallowed!

Curiously, Fang Mu wondered what the Alien Beast corpses tasted like to his pet beast!

Before Fang Mu could even return to his resting room and summon his pet.

He heard it excitedly say.

"Fang Mu, Fang Mu! Now that I've digested all these garbage, I am going to upgrade!"

Chapter 115 The absorption surpassing a Grandmaster Creator! 1

Fang Mu's heart was extraordinarily excited when he heard Zhu Zhu's words.

You could say that Fang Mu had been hoping for a long time for Zhu Zhu to evolve!

This period of feeding with a large number of spiritual instrument fragments and various types of trash from alien beast corpses should allow Zhu Zhu to directly upgrade to silver-tier perfect quality level when it evolves.

At the same time as gaining a silver-tier skill, it would also develop an exclusive characteristic.

Despite his excitement, Fang Mu didn't show it in front of others.

While greeting several scavengers members coming towards him, Fang Mu was communicating with Zhu Zhu through his spiritual power.

Since becoming a full member of the Scavengers, Fang Mu had never chosen to take off his mask.

Therefore, these scavenger members didn't know who Fang Mu was.

However, seeing Fang Mu's badge with two flowers and a leaf, they subconsciously thought that Fang Mu must be a veteran of the scavengers!

The moment Fang Mu returned to his room, he immediately shut the door and summoned Zhu Zhu.

After being summoned by Fang Mu, Zhu Zhu held out its handle.

As soon as Fang Mu grabbed the handle extended by Zhu Zhu, a violent sound of gears rolling came from Zhu Zhu's body.

This sound of the gears was slightly louder than when Zhu Zhu had advanced to the bronze-level Guardian Beast.

However, it didn't reach the point of being annoying.

Fang Mu gently stroked Zhu Zhu's handle, just as if he was petting a cat in his previous life.

Fang Mu knew that Zhu Zhu had always been very attached to him.

At such times, Fang Mu was willing to spend time accompanying Zhu Zhu, witnessing this important transformation in life.

In the roar of the gears, one after another, the mechanical gears detached from Zhu Zhu's body.

These gears fused and split upon collision, gradually transforming into more delicate gears.

The number of gears also increased from the previous one or two thousand to four or five thousand!

The mechanical gears revolved around Zhu Zhu's Mechanical Heart.

Zhu Zhu's Mechanical Heart rhythmically contracted and relaxed.

Electronic pulses flickered inside the Mechanical Heart, causing Zhu Zhu's Mechanical Heart to gradually expand.

At this moment, Fang Mu keenly discovered a butterfly pattern emerging on Zhu Zhu's Mechanical Heart.

Above it, a clearer electronic butterfly was gently flapping its wings, as if it would fly out of the Mechanical Heart at any time!

Zhu Zhu asked Fang Mu "Can a mechanical heart dream of an electronic butterfly?"

Fang Mu thought that Zhu Zhu being able to evolve into a Guardian Beast amounted to it dreaming of an electronic butterfly.

He didn't expect Zhu Zhu to persist in chasing the electronic butterfly.

Fang Mu guessed silently in his heart, not knowing whether the ready-to-fly electronic butterfly on Zhu Zhu's Mechanical Heart was related to Zhu Zhu's silver-tier skill, or its specific characteristics!

Fang Mu had not deliberately studied Mechanical Beasts.

On the one hand, because there are not many Mechanical Beasts.

Given Fang Mu's previous ability, he couldn't obtain Mechanical Beasts for research.

On the other hand, it was also because of the influence of Cui Ruochen.

Cui Ruochen not only showed no interest in Mechanical Beasts, but even had some bad words to say about them.

He believed that Mechanical Beasts were the hardest among all Beast Species to control their direction of evolution.

Even the advanced Grandmaster Creators were at a loss about this!

The reason for this situation is that the evolutionary path of Mechanical Beasts depends entirely on the imaginations of their Masters.

The Master's imagination drove the Mechanical Beast to evolve in the direction of the imagination.

This has resulted in Mechanical Beasts often evolving into strange forms, causing the craze for mecha that swept across the Dragon Rising Federation forty years ago to completely subside!

Now was the perfect time for Zhu Zhu to exhibit its imagination.

However, Fang Mu wasn't scared that Zhu Zhu would gain some eccentric skills or specific characteristics.

After all, with the bronze grade Skill Garbage Collection, Zhu Zhu had already become an existence that other Mechanical Beasts simply could not compare

As Fang Mu pondered, the mechanical gears that hovered around the

Mechanical Heart flew into it one after another, reassembling within it.

With evolution, the body of Suck Suck disassembled bit by bit before reassembling.

When Suck Suck's body completely turned into gears, more than ten pieces of azure blue crystals fell on the floor, ringing out with a crisp sound.

Fang Mu did not rush to collect these hundred percent pure Water Element Crystals.

Instead, he continued to wait for Suck Suck's strength to rise.

Every Mechanical Beast's Mechanical Heart is like a mechanical dream factory.

In the blink of an eye, Suck Suck's body was reassembled.

At this time, Suck Suck still maintained its steampunk style.

The change in the body wasn't much; what really change utterly was the suction pads that were used for feeding.

The suction pad evolved from the size of a cantaloupe to fully mature watermelon size, at the very least, tripled its size from before.

The metal hairs became more robust and longer, with each metal hair reaching the thickness of Fang Mu's middle finger.

With this thickness, the metal hair, with a length of forty centimeters, can snap a piece of hard bone just with one hair.

Now, Fang Mu can assert that Suck Suck's speed in dealing with alien beast corpses is much faster than before, even without an experiment.

Although Fang Mu was a biologist in his previous life, he didn't dislike theology.

The phrase "the end of science is theology", Fang Mu has joked about it when encountering issues that science couldn't resolve.

The scene of Suck Suck's forty or fifty hairs crawling and entwining, metal structures colliding was full of a deep mechanical aesthetic to Fang Mu.

And on top of those metal hairs of Suck Suck, there extended a translucent material about twenty to thirty centimeters long. It looked like floating translucent light bands.

Fang Mu squatted down and reached out to touch it, only to find out that these newly formed parts had no physical substance, just like light and shadow.

This time, Fang Mu did not guess what those new translucent materials above the metallic hairs were.

Instead, he directly used the Fool's Shadow's natural divine powers, the Eye of Omniscience, to investigate Suck Suck.

[Beast Name]: Suck Suck (a creature created by the Contractor. The Contractor can name it.)

[Beast Species]: Weapon Holder / Broom Holder Species

[Beast Level]: Silver (1/10) [Beast Element]: Mechanical [Beast Potential]: Gold [Beast Quality]: Perfect

Skills:

[Garbage Recycling]: Refines and extracts the garbage absorbed into the body, digests the useless parts, purifies the useful parts, and stores them in the space outside the Mechanical Heart.

[Sealing Scenery]: Absorbs the scenery ideas around by its free hairs, condenses into Scenery Fantasy Pearl, which can be absorbed by living entities. The degree of absorption is related to the mental strength and Comprehension Power.

Exclusive characteristics:

[Electronic Butterfly]: Mechanized heart can condense an electronic butterfly every once in a while. The electronic butterfly infiltrates and activates the strength of the deceased deemed as garbage (the time of infiltration is related to the strength of the lifeform before death).

Evolutionary Path: ???

Fang Mu's breath hitched as he saw Suck Suck's new silver grade skill, Sealing Scenery.

Only after a long stupor did Fang Mu gawk at Suck Suck, thinking to himself.

What kind of "treasure" is this Suck Suck really!

If Fang Mu thought that Suck Suck had been comparable to a Grandmaster Creator before, now even a Grandmaster Creator wasn't able to compare to Suck Suck!

Because in Fang Mu's understanding, a Grandmaster Creator didn't have the ability to assist Beast Masters in Comprehending Mysterious Pattern.

Suck Suck's silver-ranked skill, Sealing Scenery, could absorb the scenery ideas around it through the unknown translucent material and seal it inside its own body.

In the end, it condensed into a substance called Scenery Fantasy Pearl.

If he took Suck Suck to the Contemplation Hall, and Suck Suck were to compress and purify a single idea in the hall,

There was a high chance to let the Beast Master comprehend the mysterious pattern by absorbing the Scenery Fantasy Pearl..

Chapter 116 First-class Mysterious Chapter and Rainy Doll!\_I

Four identical attribute markings can condense into a Mysterious Chapter.

However, Mysterious Chapters also have their own structures.

A Mysterious Chapter condensed from four different markings of the same attribute is called a Fourth Rank Mysterious Chapter.

A Mysterious Chapter condensed from three identical markings and one of the same attribute is referred to as a Third Rank Mysterious Chapter.

And so it goes on.

A First-class Mysterious Chapter is condensed from four identical markings of the same attribute.

In terms of amplification effects, a Fourth Rank Mysterious Chapter can only reach a quarter of a First-class Mysterious Chapter.

A Third Rank Mysterious Chapter can only reach a third of a First-class Mysterious Chapter.

The same applies to the Second Rank Mysterious Chapter.

You can say that condensing a First-class Mysterious Chapter is roughly equivalent to condensing two Second Rank Mysterious Chapters, three Third Rank Mysterious Chapters, or four Fourth Rank Mysterious Chapters.

The Scenery Fantasy Pearl absorbed by Suxi can be long-term used and may lead to comprehension of completely identical markings and condensation of a First-class Mysterious Chapter as long as the absorbed scene images are the same.

The degree to which the Beast Master absorbs the Scenery Fantasy Pearl is related to his or her own spiritual power and comprehension ability.

Everyone has a fixed spiritual power, the more Guardian Beasts they contract, the less spiritual power they have for comprehension!

Fang Mu can't increase a person's spiritual power used for comprehension, but Fang Mu can use Fragrance Beads condensed from Heavenly Fragrance Peony Pistil to enhance a person's comprehension ability.

As Fang Mu was amazed, Suxi had already woken up.

Suxi skillfully used gears to simulate a human voice, speaking to Fang Mu. "Fang Mu, from now on, Suxi can also take pictures for you like Yan Wood!" Hearing Suxi's words, the corners of Fang Mu's mouth curled slightly.

Even though Suxi is a Mechanical Beast, Fang Mu still squatted down and embraced Suxi.

It turned out that the appearance of Silver-ranked Skill Scenic Ideas Sealing, which surpasses the limit of the Grandmaster Creator, was only due to a little wish of Suxi!

Suxi, who was held by Fang Mu, had his internal gears running noticeably faster.

Just like a person's increased heartbeat.

Suxi nested in Fang Mu's arms and said with satisfaction.

"Fang Mu, from now on, Suxi will no longer envy Yan Wood's big bird and Fang Yuan's big cat!"

Hearing Suxi's words, Fang Mu immediately remembered when Yan Wood and Fang Yuan came back last year, he was holding Yan Wood's Vermilion Sun Crane and Fang Yuan's Sabretooth Snow Leopard.

Suxi was cleaning the room at the time, but suddenly stopped and stared at him with begging eyes.

Fang Mu didn't understand Suxi's meaning at the time, but at this moment, Fang Mu realized that Suxi is a "little jealousy pot"!

Since the thing growing on Suxi's metallic barbs is related to Silver-ranked Skill Scenic Ideas Sealing.

The electronic butterflies fluttering over the Mechanical Heart should be related to the unique characteristics!

The exclusive special feature obtained by Suxi's ascension to Perfect Quality is the Electronic Butterfly, a straightforward name.

But after Fang Mu carefully read the skill description of the Electronic Butterfly.

Fang Mu suddenly realized that this exclusive special characteristic, Electronic Butterfly, is not inferior to Skill Garbage Collection or Scenic Ideas Sealing.

Scenic Ideas Sealing and Garbage Collection can train Beast Masters and Guardian Beasts respectively.

The exclusive feature, Electronic Butterfly, also has the same effect.

However, Garbage Collection and Scenic Ideas Sealing cultivate living beings, while the exclusive feature, Electronic Butterfly, cultivates corpses!

Fang Mu didn't quite understand the description of the exclusive feature, Electronic Butterfly.

That is, the Electronic Butterfly infects things that are judged as garbage and have lost life.

What kind of things can Suxi judge as garbage!? "Suxi, what's your definition of garbage?"

Without thinking, Suxi responded promptly.

"Apart from Fang Mu and Fang Mu's family, everything else in Suxi's eyes is garbage! Everything can be eaten!"

After saying that, Suxi subconsciously wriggled its metallic barbs, making cracking noises.

Fang Mu finally understood what a sentence that's both warm and terrifying meant.

If that's the case, does that mean that any corpse can be infected by Electronic Butterfly and then be restructured?

Each Electronic Butterfly only marks the beginning after infecting a corpse.

Afterwards, this Electronic Butterfly can continue to infect other things based on this corpse as a blueprint, allowing other things to perfectly blend into the blueprint!

For example, if Suxi intends to infect a powerful Guardian Beast, then after the Electronic Butterfly infects this Guardian Beast.

It can then go on to infect the fragments of the spiritual instrument, allowing them to merge with the Beast corpses.

If there are enough resources, a few more broken Sequential Spiritual Instruments can also be infected.

Even parts of other Guardian Beasts and exotic beasts can be integrated into this pre-defined blueprint.

In this way, an inanimate object can possess unimaginable power.

If Fang Mu chooses to have every electronic butterfly produced by him infect the corpses of the high-level Blood Tribe.

He could even build an army of humanoid weapons based on the high-level Blood Tribe!

Brazenly cobbling together one humanoid weapon after another from inanimate objects!

This infamous practice has always been attempted by the Eternal Alchemy Association.

Many members of the Eternal Alchemy Association have transformed themselves into creatures that are neither human nor ghost in order to obtain powerful strength.

But everything these Eternal Alchemy Association members have done, has surely not been as perfect as the electronic butterflies!

Because electronic butterflies can infinitely infect new materials and expand blueprints.

Yet even if the strong men of the Eternal Alchemy Association create one evil, bloody ceremony after another, there are always reports of death during their own transformation.

Ever since Fang Mu revealed his identity as a Grandmaster Creator's disciple, he has never been to the Contemplation Hall.

Fang Mu plans to visit the Contemplation Hall whenever he has time.

First, to understand the business model of the Contemplation Hall.

Secondly, Fang Mu also wanted to try if he could obtain a First-class Mysterious Chapter as soon as possible through the Scenery Fantasy Pearls condensed by his own beast.

Fang Mu released his grip on his beast, collecting the dozen or so water element crystals from the ground.

Fang Mu was planning to strengthen the Clean Water Spirit next.

It's a foregone conclusion that the Clean Water Spirit will be upgraded to the Silver Stage with Epic Quality.

Fang Mu wanted to see if by using so many 100% pure Water Elemental Potions, he could bring the Clean Water Spirit all the way up to Legendary Quality!

With the Rainbow Devouring Sea Python, Fang Mu has seen the gulf between Guardian Beasts at Epic Quality and Legendary Quality.

Fang Mu looked at the Clean Water Spirit he had summoned in front of him and shook his head.

Once the Clean Water Spirit is promoted to the Silver Stage and evolves into a Rainy Doll, embarking on the path of a half-elf, its intelligence will significantly improve.

A Rainy Doll that steps onto the path of a half-elf, its intelligence should be no different from a ten-year-old child.

At this thought, Fang Mu suddenly realized something, the corner of his mouth twitching involuntarily.

His own body seemed to be just a ten-year-old child!

Fang Mu took out the 100% pure Water Elemental Potions he had previously hoarded, and threw them with the dozen or so Water Element Crystals towards the Clean Water Spirit.

The body of the Clean Water Spirit immediately wrapped around nearly thirty bottles of Water Elemental Potions and a dozen Water Element Crystals.

At this moment, the body of the Clean Water Spirit suddenly radiated a brilliant blue light.

The walls of the lounge where Fang Mu was located were sparkling, looking like an underwater world!

Fang Mu fixed his gaze on the Clean Water Spirit and found that with every bit of the Water Elemental Potion and Water Element Crystal it absorbed, the water orb forming its body would grow a bit larger under the brilliant blue light.

After all, the Water Elemental Potions and Water Element Crystals were completely absorbed.

The sphere representing the water element of the Clean Water Spirit has swelled to nearly sixty cubic meters in size!

It looks like it has become a swimming pool suspended in mid-air.

Against the backdrop of this giant blue water orb, the other ink-colored water orb looked like a tiny sesame seed dropped in a bathtub.

This sixty cubic meter water orb is continuously compressing, with each compression the color of the water orb becoming bluer and more clear!

Gradually, the sixty cubic meter water orb was compressed to less than one cubic meter in size.

This less than one cubic meter water orb looked like a transparent sea blue gemstone.

However, the shrinking did not stop, ultimately the water orb turned into a little girl of brilliant blue color.

The little girl's hair was gently pulled back behind her head, much like the

"Rococo" style hairstyle Fang Mu had seen in medieval murals in his past life.

She had two elaborate braids in front of her forehead, the ends of which were tied with two raindrop-shaped pendants.

She wore a turquoise crown on her head that looked like a cloud.

It wasn't just the turquoise water orb that was compressing and changing shape, the ink-colored water orb was also constantly changing shape.

In the end, it turned into a cloud nearly one and a half meters in diameter.

The blue water orb transformed into a little girl comfortably sat on the ink-colored cloud, looking just like she was sitting in a baby bed.

Just by looking at the current evolved state of the Clean Water Spirit, Fang Mu knew that the Clean Water Spirit had evolved into a Rainy Doll.

The little girl yawned, her eyes becoming watery.

A mist of water enveloped the surroundings of the cloud, covering the silhouette of the little girl.

Fang Mu, with his sharp senses, noticed that after this mist of water appeared, the other elements in the air immediately became sparse apart from the water element.

Fang Mu immediately used the Eye of Omniscience to investigate the evolved Clean Water Spirit..

Chapter 117 Lake Flame Gemini! 1

[Beast Name]: Rainy Doll [Beast Species]: Elemental Department/Aqua Spirit Type

[Beast Level]: Silver (4/10) [Beast Element]: Water System [Beast Potential]: Gold

[Beast Quality]: Legendary Quality

Skills:

[Water Spirit Conversion]: Uses its own water elemental energy to accommodate another type of elemental energy, uses this elemental energy as its own accessory, and can mimic a creature of the absorbed element type.

[Silent Rain Cry]: When its water mass permeates the surrounding environment, it reduces the content of other elements in the environment. When the water body comes into contact with the target, it will hinder the target's resonance with the elemental energy.

Exclusive Traits:

[Poison Mark Fragments]: Every time the target suffers from the poison damage caused by itself, a poison mark will condense. Each poison mark will explode when it reaches three layers, and the damage caused by the explosion is related to the intensity of the poison.

[Curtain Water Decay and Prosperity]: The damage suffered by the target attacked by the water body will be transformed into a healing effect, temporarily transferred to the contractor through rain silk. The contractor can distribute the healing effect through a medium (the healing effect will dissipate after a period of time).

[Element Twins]: Choose an element that is opposite to oneself to form twins.

The elements in the twin state have the effect of the element contained in the Water Spirit Conversion and share other skills and exclusive traits. Under certain circumstances, the twin elements can be mutually transformed.

Evolutionary path:

1: Lake Flame Gemini, 2: Wave Melt Water Servant, 3: Burnt Stream Water Witch.

After a glance, Fang Mu found out that after he put in a large amount of water element potions and water element crystals with 100% purity,

The Clean Water Spirit has indeed directly upgraded from the original standard quality all the way to legendary quality.

Fang Mu is not sure whether the Clean Water Spirit is promoted to legendary quality at the copper stage, or upgraded to legendary after becoming Rainy Doll at the silver stage.

But this is not important, as long as it can be upgraded to legendary quality, that's all!

After reading the introduction of the new silver skill, Silent Rain Cry, Fang Mu understood why the water mist around the Rainy Doll could make other elemental energy rare.

It turned out that the Silent Rain Cry can use its water body to permeate the surroundings, expelling the presence of other elements.

And it can also decrease the resonance between the target that comes into contact with the water body and elemental energy.

All elemental abilities require a beast's own resonance with the elemental energy in the environment to be released.

Reducing resonance is equivalent to reducing the release speed and attack damage of other beasts casting elemental abilities.

For Rainy Doll, raining is an inherent instinct, which provides convenience for deploying Silent Rain Cry.

Looking only at the skill itself, it is a control skill.

It can bring great restrictions to the battle of all other element beasts except those of water attribute.

In combination with Rainy Doll's copper-level skills, Silent Rain Cry also has both control and damage capabilities.

Rainy Doll has upgraded all the way to legendary quality, and has received three exclusive traits in the process.

Fang Mu first observed the description of the exclusive trait of Perfect Quality, Poison Mark Fragments.

After reading the introduction about Poison Mark Fragments, Fang Mu couldn't help but slap his thighs.

The main damage effect of Rainy Doll was on poison.

If you want the poison to invade the beast's body, the basic condition is to break the defense.

The way Rainy Doll relied on breaking the defense before was to continuously strengthen the poison.

Through Acid Poison, Mold Poison, and Erosion Poison to damage the beast's fur and shell.

Face with any defensive beast or beasts with extremely strong waterproofing abilities, Clean Water Spirit would be restrained.

But the exclusive trait Poison Mark Fragments will explode each time three poison marks accumulate on the target.

The rain can quickly accumulate three poison marks on the target.

The explosion of the poison mark creates close-range physical damage, which can effectively destroy the target's defense, allowing the poison to penetrate more easily.

Because the strength of the explosion is related to the intensity of the poison, considering the current poison in the body of the Clean Water Spirit, every trigger of Poison Mark Fragments will cause considerable damage.

The exclusive trait Poison Mark Fragments adds a qualitative leap to Rainy Doll's attack system.

It solves a longstanding problem quite effectively, breaking the defense!

After observing Poison Mark Fragments, Fang Mu continued to explore another exclusive trait called "Curtain Water Decay and Prosperity".

Upon seeing the exclusive feature, Curtain Water Decay and Prosperity, Fang Mu reflexively wanted to spank his thigh again.

But the thigh that had just been spanked hadn't yet recovered, so Fang Mu practically gave up on punishing himself aggressively.

Fang Mu struggled to suppress the excitement in his heart.

If it could be said that from the moment he obtained the Ling Poison Dark Lotus, Eden Greenfield could interact with the Rainy Doll.

Allowing Eden Greenfield to undertake the toxins spread by the Rainy Doll through the Ling Poison Dark Lotus, then converting these toxins into means of attack and defense.

Then based on the exclusive Curtain Water Decay and Prosperity capability that the Rainy Doll has acquired upon its elevation to an Epic Quality, this interaction becomes more sophisticated and advanced.

Now, when the veil of rain inflicts damage on a target, it will convert the damage taken into healing, which will accrue within Fang Mu's body, the Contractor.

Fang Mu has effectively become a human-shaped healing vat.

Fang Mu can then inject these healing energies into Eden Greenfield.

Afterwards, Eden Greenfield can employ its Green Shade ability to heal any selected target stepping into the Eden Greenfield.

This mode of interaction has two advantages.

The first is that it greatly enhances the healing effects of Eden Greenfield, allowing Fang Mu to exist in battle in the capacity of a healing beast tamer.

The second is that the healing energies gather within Fang Mu's body, affording maximum protection to this fragile centerpiece of the interactive system.

If Fang Mu gets injured, the healing energies amassed within him will promptly mitigate his injury.

As Fang Mu was feeling pumped, he suddenly remembered something and awkwardly scratched his head.

Fang Mu's dreadful toxins meant that he couldn't cooperate with his teammates for a considerable period.

Unless Rainy Doll elevates to a sequential beast, it simply can't exercise precise control over its toxins during rainfall.

It can hurt the beasts of Fang Mu's teammates, even Fang Mu's teammates themselves, as part of friendly fire!

It seems that until Fang Mu becomes a Five-pointed star Beast Master, and until the Rainy Doll elevates to a sequential series, Fang Mu cannot resort to the Rainy Doll for a teamfight.

It's the very least when his teammates are still present!

Otherwise, even if Fang Mu defeated the enemy, he would lose all his teammates!

This made Fang Mu slightly regretful.

When it comes to employing the Rainy Doll, he can only be a lone hero!

However, this regret evaporated entirely once Fang Mu saw Rainy Doll elevate to a Legendary Quality and obtain the exclusive Element Twins attribute.

If the Rainy Doll can be strong enough, there's nothing wrong with being a lone hero!

The Element Twins attribute allows the Rainy Doll to select an element conflicting with itself, and reach a symbiosis.

The symbiotic capability of the Element Twins and the Rainy Doll using the Water Absorption Spirit to accommodate the Toxic system energy inside the Water Element completely differs from the manner of treating the Poison System Energy as its own vassal.

Once Rainy Doll forms a symbiosis with an element conflicting with itself, this symbiotic element can also benefit from the Water Absorption Spirit.

In the face of certain specific situations, Rainy Doll can switch back and forth between the twin elements.

This has given Rainy Doll multidimensional enhancements that are hard to fathom!

To a Layman, the evolutionary path of Rainy Doll under the Eye of Omniscience has the Lake Flame Gemini, the Wave Melt Water Servant, and the Burnt Stream Water Witch.

It let Fang Mu know that Fire Element was the best choice for a symbiosis with the Rainy Doll.

Otherwise, none of the many evolutionary paths indicated under the Eye of Omniscience would reflect the presence of the Fire Element.

Once the Rainy Doll forms a symbiosis with the Fire Element through the Element Twins, all rain strands coming down from the Rainy Doll will bear the distinct scorching effect of the Fire Element.

Becoming searing hot like flames.

More importantly, the reaction between fire and water can produce an evaporation-like elemental reaction.

Such an elemental reaction can dry out and crack the outer skin of targets, making it easier for the Poison Mark Fragments to penetrate the target's defenses.

It also makes it easier for toxins to invade the target's body.

Moreover, once the scalding rain strands permeate the body of a target, they can wreak havoc on the cells inside, and cook the target's flesh and blood.

Rainwater is always more viscous than flames, and more difficult to get rid of.

The incessant scorching rain on the body is also a way to impair immunity..

Chapter 118 The Absent Qjxing! 1

Fang Mu gradually concealed the joy on his face.

Looking at the Rainy Doll, who was still closing its eyes to absorb the remaining water elemental energy, Fang Mu felt quite emotional.

In just less than three months, he had not only caught up with the four-year power gap between his peers, but he had also surpassed them.

Especially with the Silver Level Four Legendary Quality Rainy Doll, this elemental beast stepping onto the path of a half-elf.

It was even more powerful than many of his peers' main battle mystic beasts!

Now, the difference between Fang Mu and his peers only lies in spiritual power!

By catching up with his peers for four years in a short time, Fang Mu once again felt the magic and greatness of the Creator profession.

Even though Fang Mu is now regarded as the disciple of the Grandmaster Creator, he still plans to take the Creator's examination for the first time in senior three.

Maybe when Fang Mu truly becomes the Grandmaster Creator, with enough self-protection strength and a strong personal power.

Fang Mu would be willing to tell all the creators in the world, using the spiritual liquid blended with Scenery Fantasy Pearl, when he is in a good mood.

Grandmaster Creator is not the peak of the creators!

By the time Fang Mu was lost in thought, the Rainy Doll had already opened its eyes.

The moment it saw Fang Mu, it propelled off its dark cloud and directly leaped onto Fang Mu.

It pressed its cool little face against Fang Mu's face.

"Daddy, even Sucky has a name, you should also give me a name!"

Fang Mu didn't find anything strange about the Clean Water Spirit's intimate address to him.

Fang Mu used Contracting Blood to form a bond with the Clean Water Spirit, linking it to his own bloodline, so it calling him 'Daddy' didn't feel inappropriate at all.

After all, having stepped onto the path of half-elf, the Rainy Doll was no longer the Clean Water Spirit from before, which would hug him with a water orb full of deadly poison!

The current Rainy Doll already knows the harm of the deadly poison water orb!

As for the name, Fang Mu particularly liked the phrase "Moisten things silently like the night wind".

However, the name "Moisten" clearly didn't suit the Rainy Doll.

A suitable verse for Rainy Doll should be “Throughout the rainy streets in the

Qingming season, pedestrians with broken souls.”

Pedestrians drenched by the Rainy Doll’s rainwater have their flesh rotten, they didn’t even need to find a professional team for burial. Fang Mu coughed lightly and said to the Rainy Doll in his arms.

“Why don’t you be called Qingming!”

Rainy Doll pondered on the name given by Fang Mu. Clear and pure! That’s exactly what she’s like! “Daddy, I really like the name Qingming!”

“From now on, I’ll be called Fang Qingming!”

Sucky, at the moment when Rainy Doll pounced into Fang Mu’s arms, its jealousy spilled over.

Sucky has been shaking its tentacles, venting its frustration.

Now hearing Rainy Doll’s words, Sucky couldn’t hold back any longer. “Fang Mu, Sucky will also be called Fang Sucky from now on!”

Fang Mu noticed Sucky’s moodiness and suddenly felt quite flattered!

After playing with the Rainy Doll and Sucky for a while, Sucky’s jealousy subsided.

Rainy Doll knew that all the resources it obtained to enhance its power and quality were created by Sucky, so it was quite fond of Sucky.

A half-elf’s intelligence was already quite clear about what to do to bring benefit to oneself!

As Fang Mu's pets increase, if Sucky prioritizes other pets over her in resource production.

Won't she be left behind!

After playing with Sucky and Rainy Doll for a while, Fang Mu said to Rainy Doll.

"Qingming, I suggest you evolve towards the Lake Flame Gemini in your evolution direction."

Because the current Rainy Doll is a life with high intelligence.

Fang Mu can no longer casually make decisions for Rainy Doll like when it was the Clean Water Spirit and in its chaos!

Fang Mu highly respects his mystic beasts when it comes to bloodline evolution choices.

Upon hearing Fang Mu's words, the Rainy Doll nodded vigorously.

From Qingming's perspective, becoming a Lake Flame Gemini is also the optimal evolutionary path.

Especially after she selected fire elements as her elemental twin through her exclusive trait.

The Gemini Lake Flame allows it to split into a twin form, which increases its potential for evolution.

Seeing that the Rainy Doll agreed with his choice, Fang Mu didn't bring up the Wave Melt Water Servant and the Burnt Stream Water Witch evolutionary paths again.

Half-Elves have a clear distinction in their bloodline.

Before the Clean Water Spirit evolved into the Rainy Doll, it could have chosen to evolve into the Sword-Holding Water Servant.

The Sword Holding Water Servant and Rainy Doll are at the same bloodline level.

The bloodline level of the Wave Melt Water Servant is also equal to that of the Rainy Doll.

Despite this evolutionary path improving its battle abilities, it's essentially moving in circles.

On the evolutionary path of half-elves, twins and water witches are at the same level.

However, it's clear that the twins are more in line with the Rainy Doll's unique legendary-quality characteristic of Elemental Twins.

The water witch evolutionary path would decrease the half-elf's attractiveness, making the half-elf look like an old hag.

In situations where one side is equally tiered and more beautiful.

Even if Fang Mu were insane, he wouldn't choose the ugly option!

If it was a month ago, Fang Mu could've obtained the Fire Elemental Potion to help the Rainy Doll form twins by scavenging the Beast Taming Base that nurtures fire attribute Guardian Beasts.

But now, Fang Mu only needs to mention to any one of Lu Yuyu, Luo Su, Feng Lin, or Liu Jihui that he needs the Alien Fire produced from within the Abyss dimensional crack, and his problem would be solved.

Indeed, one's experiences and level determine how they handle things!

After boosting both XX and the Rainy Doll, Fang Mu immediately headed to the Soldier-Level Crematorium.

He planned to see how much improvement there was in XX's eating speed after it evolved to Perfect Quality on the Silver Stage.

As a result, what originally took five hours to clean up – a hundred Vanguard Beast Corpses – now only takes XX an hour to finish.

The time was reduced by nearly five times!

In other words, Fang Mu's current rate of gathering resources through XX has seemingly increased fivefold!

The Soldier-Level Horned Demon's thick leg bone that was over a meter long, originally took XX a long time to gnaw on.

Now, XX only needs to spit out three metallic hairs and grind it three times.

He could crush the tough Horned Demon's leg bone like a dried noodle.

In fact, after XX's strength was raised to Silver Grade Perfect Quality, Fang Mu can already take it to deal with Heavy Artillery-Level Beast corpses!

Right now, XX's strength can still improve by devouring Soldier-Level alien beast corpses.

Fang Mu decided not to draw too much attention to himself.

Now, Fang Mu already has the ability to fight utilizing the Rainy Doll.

Fang Mu plans to fight more on the Battle Network besides his regular routes between the Cleaner Division and the Creator's Guild Branch.

Since becoming a Beast Master, Fang Mu has yet to participate in a single battle.

A Beast Master's decision-making and mental quality in battle need to be built up through real combat!

Like the Beastmaster Web, the Battle Network was also established by the Beastmaster Alliance.

The only difference is that the Battle Network is not managed completely by the Beastmaster Alliance like the Beastmaster Web.

The Purple Que School Palace is responsible for managing the Battle Network!

The Beastmaster Alliance simply undertakes the daily maintenance of it.

If Hu Tao wants to battle on the network, he needs to go to a special internet café run by the Beastmaster Alliance.

However, Fang Mu can speak to Lv and ask him to arrange a Dream Beast for him.

This way, Fang Mu can enter the Battle Network through the Dream Beast cultivated by the Beastmaster Alliance, regardless of his location.

As Fang Mu was dealing with the Vanguard Beast Corpses, the Starry Nebula at the Land of Brilliant Stars was constantly flicking.

A grand gathering was unfolding here.

The nine individuals sitting on the golden chairs kept glancing at the three empty chairs.

But after waiting for a while, there was still no movement at the three vacant golden chairs.

The elder with the Golden Bull constellation above his head was stroking the colored-glaze incense burner in his arms.

He let the mist inside the incense burner form a series of purple birds that soared into the sky, while expressing his surprise.

“Qixing hasn’t arrived!”

“Aquarius, are you sure you notified him!?”

Chapter 119 The Juvenile of the Alien Bug Empress!\_I

A man in a dark blue robe, with hair just reaching his ears, adjusted the blue-gold mask on his face upon hearing the words. He spoke with a gentle tone, also sounding quite surprised.

“I didn’t specify a time.”

“Once a contract with the Descendant Star Messenger is made, the contractor can sense when a conference is called.’

“If someone hasn’t arrived, they either haven’t contracted the Descendant Star Messenger and didn’t receive an invitation.”

“Or they have something going on that makes it inconvenient to attend the meeting!”

Shui Miao was the one who contacted Qixing offline and saw his disciple, Jianmu, with his own eyes.

When facing Jianmu, Shui Miao also revealed his real self.

The identities of each member in the Starwheel are independent from each other.

Even though they all have some knowledge of each other, most still wear masks during meetings.

So, Shui Miao didn't bring up Qixing or Jianmu's situation.

Even if he wanted to tell others, it would be most appropriate for Jianmu to reveal it himself!

A woman with half of her golden hair loosely hanging over shoulders, and the other half braided neatly before her neck, swept back the loose hair and moved to the other side of her neck.

Her gentle actions seemed wilder than removing the liver from a large beast! "It seems like Qixing must have been held up by something. I hope he can make it to the next conference!"

"Otherwise, Aquarius, I suggest you reach out to Qixing again!"

As soon as the woman finished speaking, the old man who had just been holding the censer chuckled.

He stroked the goatee on his chin with his palm, which was covered in age spots, and said,

"Sagittarius, you're too eager!"

"We've also been unable to attend gatherings because of minor hassles."

As he said this, the old man paused, looked at Shui Miao, and lightly tapped his finger on the censer.

The Purple Xuan Bird erupting from the censer turned into auspicious clouds in an instant.

"Aquarius, what kind of person is Qixing?"

“I am somewhat envious of you being in the Dragon Rising Federation and having the opportunity to meet Qixing first!”

At these words, Shui Miao, underneath his blue-gold mask, smiled.

He spoke in a calm and steady tone:

“What kind of person is Qixing? That’s a good question!”

“To meet Qixing, I spent a true fortune of three hundred million Dragon Rising

Coins on a chance!”

“I learned a phrase from Qixing, ‘Equivalent Exchange!!”

“Qixing likes equivalent exchanges, and so do I!

The old man was slightly taken aback by this, but soon a smile broke out from behind his mask.

Equivalent exchange? That’s great!

What he feared wasn’t Qixing demanding a high price, but that Qixing would not be willing to trade the resources of a Grandmaster Creator with his colleagues in Starwheel!

It seems like Qixing is a very agreeable person!

Before the old man could respond to Shui Miao’s words, a man as solid as an iron tower, wearing a dark half-armour vest, had already opened his mouth and said in a deep voice.

"I am willing to trade the Beast Spirits of three random Diamond Ranked Beasts for information on Qixing."

"They're just for gathering information, so I think three random Beast Spirits should be enough!"

The woman who was dressed in a gorgeous lady's long skirt, her hands full of rings, her neck and ears adorned with magnificent earrings that didn't seem tacky but rather elegant and delicate, let out a soft laugh.

The glimpse of her smile awakened a fragrant aroma that filled the entire space!

"Cancer, the information I received was that Aquarius overpaid by a hundred million and had spent three hundred million Dragon Rising Coins on that bottle of Life Elixir.

"The price for three Diamond Ranked Beast Spirits, regardless of attribute, quality, or species, is approximately eight million each." "Your price is so high, how can we compete with you!?"

The iron tower-like man didn't flinch at her words.

However, a petite figure beside him, behind a huge mask so that their gender was unidentified, held up a doll assembled from many ragged limbs.

The puppet doll whined and squawked in a cogwheel tone.

"Virgo, you don't care about this price at all!"

"I will follow! But I have one request, that is, Aquarius, you must not have favoritism, everyone should have the same information!"

Upon hearing this, Shui Miao's eyes twitched involuntarily.

He had given those speech earlier to convey thoughts of Qixing.

Why on earth would he become the one who sells information!?

Capricorn might appear quiet on ordinary days, but he never falls behind during crucial moments.

"I have no intention of selling Qixing's information, selling someone's information after all does not feel right!"

"Qixing has already agreed to join the Starwheel, sooner or later you'll all meet him."

"If you have any questions, why not ask Qixing directly then?"

Upon hearing Shui Miao's words, Virgo, Capricorn and Cancer lost their enthusiasm.

The man as big as an iron tower turned his head and looked at the young girl across from him. She was wearing a cat face mask, a gorgeous long dress, and carried herself with grace and poise. He spoke in a deep voice, "Gemini, I've caught a young Alien Bug Empress you've been looking for."

"This Alien Bug Empress has already started laying eggs! "

"If a contract is made by a special method, it has great potential!"

The young girl in the cat-faced mask replied crisply upon hearing this,

"Cancer, we'll continue this topic later!"

"I am grateful that you have taken the trouble to find the Alien Bug Empress for me! But I want to get back to the original topic."

While speaking, Gemini turned her gaze towards Shui Miao, who was swirling his folding fan causing it to emit the sound of jade playfully colliding.

“Aquarius, since you refuse to divulge Qixing’s information, I will trade you the souls of three Diamond Level Beast Masters for information related to you! ”

“I’m curious about what you got from Qixing after you met him!”

During the last gathering, Aquarius wasn’t sure of Qixing’s identity and only expressed a desire to try and confirm it.

Aquarius must have confirmed Qixing’s identity as a Grandmaster Creator in their private meeting.

Under these circumstances, Aquarius would naturally want to make some transactions with Qixing while extending the invitation.

She would definitely do the same.

The content of the transaction can not only confirm Qixing’s level, but also reveal whether Qixing is easy to deal with!

If he’s not, it’s impossible for him to offer precious high star creator resources the first time.

Hearing this, Shui Miao paused. He never thought about negotiating with Qixing after confirming his Grandmaster Creator identity.

The only thing he did was order a few bottles of high-purity Life Elixirs during his probing of Qixing’s identity.

He didn’t plan any similar moves since he only met Qixing’s disciple instead of Qixing himself.

His only intention was to build a good relationship with Qixing while also giving some greetings gifts to Qixing's disciple!

However, he did get an unexpected gain: a bottle of Life Elixir with a purity of ninety-two percent.

Since Gemini asked about it, there's no harm in telling her!

"You don't need the Beast Spirits. It isn't exactly confidential information!"

Aside from what he couldn't say, he didn't want to leave everyone on tenterhooks over what he could say.

While he would gain a bit from leaving everyone in suspense, he'd have to pay a price for requiring information in the future.

Everyone had their own unique sources of information, so none of them liked being indebted to each other for information.

Therefore, finding a piece of information that would put everyone in his debt was a good thing for Shui Miao!

Seeing everyone's gaze on him, Shui Miao flicked his folding fan. The sound of jade-like collision rang out as the fan bones aligned.

"I didn't trade with Qixing. However, after I presented Qixing's disciple with a small gift, the disciple then gave me a bottle of Life Elixir with a purity of ninety-two percent!"

With these words, Shui Miao neither revealed that Jianmu would attend the Starwheel gathering on behalf of Qixing, nor did he reveal any specific information about Jianmu.

However, he subtly conveyed Qixing's attitude towards his disciple, Jianmu.

By the time Jianmu attends the Starwheel gathering, the others will naturally know how to deal with him!

That could be considered a reciprocation for the Life Elixir that Jianmu gave him!

Chapter 120 Home Is Where the Heart Is at Peace! 1

The land where stars shine was currently hosting a grand conference in full swing.

Meanwhile, after having handled the Alien Beast Corpse, Fang Mu returned to his own rest-room.

If Fang Mu knew that the Starwheel Conference had already begun and his absence had become the center of discussion.

He would undoubtedly feel incredibly awkward.

For, until he condensed the Covenant Blood Essence, he had no way to make a contract with the Descendant Star Messenger.

Even up until now, the Descendant Star Messenger and Eden Greenfield were still kept by Fang Mu in the space of the Purple Ice Crystal Ring.

Fang Mu also really wanted to make a contract with the Descendant Star Messenger.

There was no record of the angel species Beast in any book.

Fang Mu was very curious about whether the angels would be humanoid creatures with huge wings on their backs, as depicted in the literary works of his previous life.

With the Blood of Abundance's rank now raised to Perfect Quality, Fang Mu could donate three thousand milliliters of blood every few days.

In this situation, it would take only three to five days for the next drop of Covenant Blood Essence to coagulate!

Just as Fang Mu was preparing to go to bed, he received a call from Fang Qin.

Fang Qin had been feeling as though he was living in a dream recently.

Luo Su practically gave him some spirit materials that could enhance the bloodline of the Dragon Beast every day.

The selling price of spirit materials that could enhance the bloodline of the Dragon Beast was extremely high, even the cheapest ones were above 800,000 Dragon Rising Coins.

This is an amount of money that Fang Qin couldn't achieve even after years of hard work!

Moreover, it was clear that the spirit materials Luo Su gave him were quite effective.

Fang Qin didn't use these spirit materials immediately, but saved them.

There's no such thing as a free lunch. If he used these spirit materials directly, Fang Qin always felt a little uneasy.

Today, Luo Su not only gave him a large amount of spirit materials that could enhance the bloodline of the Dragon Beast, but also gave him a brocade box.

Nearly thirty Life Elixirs, with a purity between 60 and 70 percent, were inside the brocade box, which was silently shocking to Fang Qin.

Although he had already talked to Fang Mu on the phone and Fang Mu had explained the matter, Fang Qin still felt that Fang Mu, as a disciple of a Grandmaster Creator, wouldn't be able to freely give away resources worth tens of millions of Dragon Rising Coins to others.

Giving away is one thing, and using these resources of the Grandmaster Creator to trade goods with other people is another!

If it was a small amount, that would be fine, but this time the amount of resources was just too much!

Moreover, without speaking to Fang Mu and getting the details, Fang Qin dared not mess around with the resources Luo Su gave him.

Because Fang Qin knew that even if Luo Su appreciated him, these resources were priced to some extent from a certain point of view.

Once he used it, Fang Mu would have to pay this price.

After picking up the phone, Fang Mu listened to Fang Qin talking in a worried and cautioning tone for nearly twenty minutes.

A knowing smile appeared on Fang Mu's face!

Throughout Fang Qin's speech, there was an incessant smile on Fang Mu's face.

After Fang Qin had finished talking about the situation, and saw that Fang Mu still hadn't responded,

Fang Qin softly called Fang Mu's name.

"Little Wood, did you hear what I said?"

Upon hearing this, Fang Mu knew that he should address Fang Qin's concerns at once!

Otherwise, next time he gave Fang Qin resources, Fang Qin would still fall into this state.

Fang Mu spoke up in a grave tone.

“Sis, I know you traded the Frost Dragon Fish for a potion that can stimulate spiritual power at low frequency for my sake.”

“I’ve grown up; you can make sacrifices for me, and I can do the same for our family!”

Fang Mu’s words were very firm and resolute, carrying an undeniable force.

This force struck Fang Qin’s heart through his ears.

Fang Qin remembered that when Fang Yuan chose to join the Ten Thousand Treasures Commerce, he also said the same words to her.

The two boys in the Fang Family have now become real men!

Just as Fang Qin’s lips were pursed, ready to speak,

Fang Mu’s tone slowed down, returning to his usual speaking tone.

“Big sis, think about it, if it weren’t for my master’s approval, how could I hand you a Frost Language Snow Dragon, and then hand over these Life Elixirs to you?”

“I have a sense of propriety in my actions, and I will not cross my master’s bottom line!

“And in the process of trading with Brother Lv and Sister Luo and helping them make connections,

“I can also earn quite a lot of resources. In the future, whatever Luo Su gives you, just use it!”

“These resources are meant to be used, they lose their purpose if hoarded!

Having said this, Fang Mu paused before he continued speaking.

“Big sister, these spiritual materials that can enhance the bloodline of the Dragon race would be quite wasteful if fed directly to Frost Language Snow Ch’i.

“I’ll send someone to see you tomorrow and you can hand these spiritual materials to him.

“I’ll help you to refine these spiritual materials into Spiritual Liquid, which will be much more effective to use!”

“You don’t need to rush the Frost Language Snow Ch’i to ascend. Instead, wait until its bloodline reaches a tipping point after you have fed it with this Spiritual Liquid, then hand it over to me.”

“I’ll ask my teacher to help improve the purity of Frost Language Snow Ch’i’s bloodline. Maybe we will find a pleasant surprise!”

When Fang Mu observed Frost Language Snow Ch’i’s data before, he saw three different possible evolutions.

Frost Language Snow Ch’i must evolve into Frost Tone Snow Dragonling to ensure that its bloodline is steadily improved without going astray!

Only then can it have the potential of transforming into a dragon!

If it evolves into Blizzard Ice Ch’i, while its power and attack will significantly improve, it will still be just a Ch’i!

Once it encounters a Beast Master with a Jiaolong bloodline, it will be greatly suppressed in momentum.

The Dragon Beasts are few of the species whose bloodline pressure is stronger than that of their ranks.

As for evolving into Frost Sword Fish Ch'i, it's essentially forcing itself to switch from the evolutionary path of the Jiaolong Species to that of the Dinosaur species.

Ultimately, it will evolve into a certain kind of fish dragon that manipulates ice and snow.

Although the power of the Dinosaur Beasts isn't necessarily inferior to that of the Jiaolong Beasts and their bloodlines aren't too suppressed,

The Dinosaur Beasts specialize more in melee combat, unlike the Jiao Dragon Species, which are naturally gifted in manipulating elemental energy.

Fang Mu doesn't want Fang Qin to charge forward in the team as before.

As a younger brother who had seen his sister break three fingers, he could never tolerate the possibility of her losing an arm in the future!

After expending a great deal of effort persuading and eliminating Fang Qin's worries, Fang Mu finally stopped.

Fang Mu believed he could act naturally in front of others,

But in front of Fang Qin, even if he had to tell a white lie for an inevitable reason,

Fang Mu still felt a great deal of pressure!

A mere five minutes of explanation left Fang Mu feeling like he'd just hosted three seminars in his previous life.

After chatting casually with Fang Qin for a while, Fang Mu hung up the phone.

Lying on the bed and looking at the ceiling lamp, Fang Mu felt extremely peaceful.

Where the heart is at ease, that's home!

As long as Fang Qin, Fang Yuan, and Yan Wood are there, his home will exist!

In a daze, Fang Mu drifted into dreamland.

When he woke up early the next morning, Fang Mu suddenly realized that he could not hear the high-quality ASMR of garbage munching, and his sleep felt somewhat disturbed!

After getting up and taking a bath, Fang Mu rapidly finished thirty plus portions of nutritious meals.

He then immediately continued his journey to the Soldier-level Crematorium.

Luo Su stayed up all night.

One reason was that Luo Su had not expected his Shimmering

River-Swallowing Python to upgrade to legendary quality after evolving into a Rainbow Devouring Sea Python!

Due to his background, plus the fact that his direct superior, the commander of the Jing Hai Army, owned a Sequential Beast,

Therefore, Luo Su knew a lot about Sequential Beasts.

Although a Diamond Level Beast Master doesn't need to be upgraded to a legendary quality in order to advance to the Sequential level,

In the Sequential scale, a Beast at an epic quality can only reach up to Sequential Seven and can't progress any further.

Only a beast that has achieved the legendary quality before progressing to Sequential can go further on this path!

Luo Su knew many strong Beast Masters who changed their main beast after knowing this.

Changing the main battle beast is equivalent to changing a Beast Master's original combat method.

It has quite an impact on Beast Masters, but it's a choice they have to make.

All Beast Masters hope to upgrade their beast to legendary quality at the Diamond Level.

But not everyone can rely on their familial resources to find a Grandmaster Creator of this level.

Only by owning a beast that has reached Sequential Seven, can one have a firm standing among Hexagram Beast Masters.

Only then will they have the opportunity to access the resources that will allow their beast to upgrade to legendary quality at Diamond Level. If it was said that before Luo Su was only grateful for Fang Mu's help,

After all, Luo Su had to pay Fang Mu for helping!

But now, even if Luo Su pays, he still feels that Fang Mu has done him a great favor!

This kind of sentiment and favor can't be repaid by simply making a phone call and expressing thanks!

Doing so would make him seem insincere.

Luo Su immediately contacted his family.

He was preparing to provide Fang Qin with a set of resources sufficient for Frost Language Snow Ch'i to evolve into a Jiaolong and then evolve into a dragon!
