

## Beast Tamer 121

### Chapter 121 Diamond Time Dream and Resignation!\_I

On the other hand, Luo Su agreed to Lv Yuyu's proposal partly because of the surprise brought by her Legendary Quality Rainbow Devouring Sea Python.

Once a proposal is accepted, there's no turning back.

Wearing casual clothes, Luo Su sat with Lv Yuyu at a roadside barbecue stall and chatted all night.

The next day, Lv Yuyu began addressing Luo Su as 'wife'.

Luo Su casually nodded, not avoiding it.

Luo Su had been feeling that Lv Yuyu was becoming less and less assertive in the Beastmaster Alliance.

But Lv Yuyu, whom she somewhat looked down upon, proved his success by forming a relationship with Jianmu.

Perhaps this is the so-called "diversity of paths to success!"

When Luo Su started thinking from Lv Yuyu's perspective, she figured that assertiveness doesn't only lie in battling alien beasts.

Lv Yuyu, who was willing to face the pressure to help Fang Mu establish a channel for the "Sacred Relics" Sakura Tempering Carp, was also showing assertiveness.

Lv Yuyu was known for his ability to hold his liquor, but that night he got drunk.

Before falling drunk, the only idea muddled in Lv Yuyu's mind was that his long-term relationship with Luo Su was coming to an end.

The two were finally about to step into matrimony.

The news spread throughout Luo Family and Lu Family the next day after Lv

Yuyu woke up.

Keystone Construction and Origin Construction became fully-related businesses.

Lv Yuyu's parents and Luo Su's parents each made calls to them.

After clarifying the situation, Luo Su's parents immediately decided to send several Grandmaster Craftsmen and nearly ten Master Craftsmen from their family.

They would collectively help Jianmu construct the estate and guild facilities under Lv Yuyu's leadership, who was to be Luo Family's son-in-law.

Although they didn't get a chance to interact directly with Jianmu, they could express their gratitude in this way.

Fang Mu continued handling the alien beast corpses till the afternoon.

In the afternoon, Fang Mu sent a message to Lv Yuyu asking him to arrange a Dream Beast for himself.

Lv Yuyu immediately used his points to exchange a Diamond Rank Dream Beast from the Beastmaster Alliance.

A Silver Stage Dream Beast can already start connecting to the Battle Network.

However, a Silver Stage Dream Beast must be kept near a specific machine.

Once it steps away from the specific machine, the Silver Stage Dream Beast will lose its usefulness.

And besides, the experience provided by a Silver Stage Dream Beast connected to Battle Network isn't great, as it cannot provide a hundred percent simulation!

This level of Dream Beast is generally given to students who have just become beast masters.

To achieve a hundred percent authentic simulation, where pain and tactile sense are similar to reality!

College students prefer going to internet cafes, using Gold Stage Dream Beasts to log into Battle Network.

The difference between Platinum Stage Dream Beasts and Gold Stage Dream Beasts is that Platinum Stage Dream Beasts can connect with other Dream Beasts through a machine and open livestreaming channels in the Battle Network.

If you want to livestream on the Battle Network, you must choose a Platinum Stage Dream Beast.

That is also why the competition among Battle Network hosts is so intense!

Every Battle Network host is striving hard to amuse their audience.

Because renting a Platinum Stage Dream Beast isn't cheap, it costs fifty Dragon Rising Coins per hour.

If you want to log into the Battle Network for a day, you would need to spend twelve hundred Dragon Rising Coins.

If a Battle Network host can't earn more than twelve hundred Dragon Rising Coins in a day's time.

Then they are basically working for free, not even covering their internet costs!

A Diamond Stage Dream Beast stands out from a Platinum Stage Dream Beast with its unique ability.

It doesn't need to stay within a hundred meters from a machine like a Platinum Stage Dream Beast!

A Diamond Stage Dream Beast can truly connect to the Battle Network from up to ten kilometers away from a machine.

The standard set by the Beastmaster Alliance for Battle Network cafes is to cover at least one cafe per ten kilometers.

So, as long as you have a Diamond Stage Dream Beast and live in the city, you can log into the Battle Network anytime, anywhere.

The Dream Beast looked like a hairless Black Back Mountain Pig, only much smaller in size and with a longer snout!

As a utility type Guardian Beast, the Dream Beast is non-aggressive and can be kept as a pet at home.

It's just that because of its looks, very few people keep a Dream Beast, which is even smaller than a house cat, as a pet.

Lv Yuyu has already handed the Diamond Rank Dream Beast to Lu Xiaoyin.

Fang Mu and Lu Xiaoyin agreed to meet at the Creator's Guild at eight o'clock in the evening.

It was only four in the afternoon. Fang Mu had planned to head back to his own rest room for a bit before cleaning up the Vanguard Beast corpses for another three and a half hours.

However, as soon as Fang Mu exited the crematorium, he saw He Qing waiting at the door, with Manli by her side.

Upon seeing Fang Mu, He Qing was just about to wave when she saw that his badge level was almost on par with hers!

She was nearly split in two at the spot — it had not been very long at all!

Lately, there were rumors in the department that someone spent all day in the Vanguard Beast crematorium; however, no one could confirm who it was due to the person wearing a mask. It must be Jianmu, He Qing concluded.

He Qing was here to look for Jianmu.

Feng Lin had kept Fang Mu's identity hidden, so He Qing had no idea who he was.

The reason He Qing was looking for Fang Mu was simply that she had not seen him for a long time, and she wanted to invite him out for a meal.

After He Qing stated her purpose, Fang Mu immediately agreed to the invitation.

He had been busy gathering resources to increase his strength recently, and it was about time to take a break!

There was nothing Fang Mu wouldn't try when it came to food.

Having gotten used to eating meals prepared by Yan Wood, Fang Mu felt invincible when it came to food!

He Qing and Manli looked like two Sister dolls made of plastic.

He Qing might be a bit sharp-tongued, but she was always there for Manli!

Rumor had it that Manli's cheating husband had been sent to the hospital by He Qing three times and had lost over 30,000 Dragon Rising Coins.

He Qing declared that she would beat the scumbag until he cried and apologized!

He Qing and Manli dined together every weekend and had a collection of favorite shops.

They immediately decided on a restaurant serving delicious freshwater seafood.

The taste of the sea is unique, as is that of rivers.

If freshwater seafood is well-made, it can tie with seafood in terms of flavor!

Upon entering the restaurant, He Qing handed the boss five hundred Dragon Rising Coins without saying a word.

She didn't even give Fang Mu a chance to pay after the meal.

"Boss, please prepare two pounds of spicy chargrilled salivating frogs, two pounds of garlic chargrilled salivating frogs, and two pounds of salted chargrilled salivating frogs!"

"Also, give us a five-pound sauerkraut fish, three portions of clam oil milk, three portions of watermelon juice — one without ice — and three bowls of rice, large ones!"

While ordering, He Qing casually handed the menu to Fang Mu.

"See if there's anything else you want to add!"

“Their spicy salivating frogs are really spicy; one serving of watermelon juice definitely won’t be enough!”

“Check if there are other fruit juices you want, or soda is fine too!”

Fang Mu was quite comfortable with He Qing’s straightforwardness – she treated him like an insider.

Just by how He Qing ordered, Fang Mu could tell that she was very considerate of others.

People usually only have one favorite flavor.

But He Qing ordered spicy, garlic, and salty flavors for the salivating frogs, catering to everyone’s tastes.

For half the time, Manli was holding her stomach, probably because she was on her period.

That’s why He Qing ordered a serving of watermelon juice without ice.

Otherwise, in this hot weather, iced watermelon juice would definitely be more refreshing!

Since He Qing was treating him and had already paid the boss upfront, Fang Mu didn’t feel right about arguing with her.

He simply decided to order three cups of passion fruit juice.

“Boss, three cups of passion fruit juice, two with ice and one without!”

He then handed the menu back to the boss, signaling that he could start preparing the food.

This restaurant was extremely popular; if He Qing hadn't specifically booked a table, they would have to eat at an additional table outside!

Fang Mu noticed that Manli seemed to be holding something back.

She clearly had something to say to He Qing, but she hadn't started talking yet.

Manli treated Fang Mu as a colleague, not an outsider.

Once they were all seated and had taken a sip of the ice-free watermelon juice that the boss had just brought over, Manli asked He Qing,

"Are you planning to quit your Scavenger job today?"

"Even if you are going to be a private driver for someone else, you don't necessarily have to quit your Scavenger job!"

"As long as you complete the Scavenger tasks on time every month and process the required amount of alien beast corpses within a specified time, you can still earn a fixed salary!"

Chapter 122 Personal Chauffeur Online! 1

Upon hearing this, a trace of helplessness flashed across He Qing's face, followed by a carefree wave of her hand.

"I wish I could, but my employer won't agree!"

"Otherwise, even if I were foolish, I would never quit my job as a scavenger!"

Fang Mu raised an eyebrow at her words, indicating that He Qing seemed to be having some troubles.

Fang Mu did not immediately respond, instead deciding to listen to the issues He Qing was facing.

Upon hearing this, Manli gritted her teeth and said,

“I’ve saved up more than six hundred thousand Dragon Soaring coins, why don’t you use them first!”

He Qing smacked her lips upon hearing this.

“I didn’t expect this! Manli, you managed to save six hundred thousand Dragon Soaring coins!”

“I thought you’d either have spent all your money on cosmetics or been cheated out of it by scumbags!”

Accustomed to He Qing’s way of speaking, Manli didn’t take her words to heart.

From the way He Qing spoke, Manli knew she was politely refusing her offer.

“Don’t be so formal with me, Qing. Six hundred thousand can solve a lot of problems!”

“Even if you’re short by a few tens of thousands of Dragon Soaring coins, I can help you make up for it!”

He Qing covered Manli’s forehead with her hand upon hearing this.

“Silly girl, you sure you’re not feverish? No wonder you were cheated by scum!” “Do you even want your Guardian Beast to break through!?”

“How long are you planning to be stuck at your current stage before you can handle Heavy Artillery Level Beast corpses?”

“Even if we could raise the money now and I could hire a high-star Creator to prepare the antidote, I’d have to repay the money!”

“I can handle this huge amount of debt, and you can wait, but can those people who are lending us the money wait!?”

“My Destiny Guardian Beast is a Crystal-stepping Reindeer, and I’ve bonded with two Sea Wind Winged Snakes and one Inch Bone Soft Snake, which are perfect for a high-end carriage driver!”

“If I sign a five-year contract, I can get a million Dragon Soaring coins all at once. You don’t need to worry about me!”

“And you must not blab about this to my mom or we won’t be sisters anymore!”

On hearing this, Manli bowed her head, her eyes reddening, and she lost all appetite for the delicious meal about to be served.

Manli knew that He Qing had a unique circumstance—she was raised by her single mother since childhood.

He Qing was born in Jingnan Province, her hometown being located near Snake Island.

The three snake guardians that He Qing owns were said to have been found by her mother on Snake Island!

Her recent poisoning was due to a bite from a Curse Night Mamba Snake from Snake Island, a dual poison snake capable of creating illusions and curses.

The illusion effect can be easily treated by finding a few therapists.

However, the curse of the Curse Night Mamba Snake accelerates the decay of flesh.

To counter this, one must get a Creator to prepare a remedy using the gallbladder of the Curse Night Mamba Snake.

A single gallbladder from a Curse Night Mamba Snake costs over eight hundred thousand Dragon Soaring coins.

In the black market, it even has the possibility of reaching one million two hundred thousand coins.

Furthermore, there is a need to hire a high-star Creator to prepare the antidote, as well as purchase some supplementary materials.

All of He Qing's savings over the years were far from sufficient!

Moreover, earlier this year, He Qing had just enhanced one of her Sea Wind Winged Snakes to the platinum level, which must be causing her to feel regretful now!

Hearing the conversation between Manli and He Qing, Fang Mu had a general idea of what was actually happening.

It's indeed true that many powers and wealthy individuals prefer drivers who only serve them, so it's not surprising that they asked He Qing to quit her job as a scavenger.

Without seeing the actual Crystal-stepping Reindeer, Fang Mu couldn't make any assumptions about He Qing's Destiny Guardian beast just from its name.

But one thing was certain, the deer must be quite magnificent. Otherwise, no one would be willing to pay a high price to hire He Qing as a private carriage driver.

Fang Mu had read about the Sea Wind Winged Snake in the library. It's a flying snake that grows wings and can control the gusty wind to accelerate its travel. Its small size allows it to coil around the reindeer's antlers.

As for the Inch Bone Soft Snake, its body can stretch like rubber, and with its striking red color, it can be used as a rein.

He Qing's setup was definitely worth the price.

However, Fang Mu was curious about the nature of the poison that required so much money for an antidote.

He Qing seemed to come from not-so-wealthy circumstances.

If there were any savings, she wouldn't need to go so far.

Poor conditions often equate to weak power.

If a weak Beast Master was poisoned and the poison was potent, they would already be dead.

They would have no chance to gather funds for treatment.

If the poison wasn't strong, spending one million Dragon Soaring Coins, along with He Qing's savings seemed excessive!

Since Fang Mu was considering hiring a private carriage driver, He Qing appeared to be the perfect candidate!

Thinking of how He Qing helped and reminded him when he first joined the Scavenger Division, Fang Mu didn't mind doing He Qing a favor.

He Qing was the kind of person with a strong sense of self-respect, even refusing to accept help from Manli.

However, Fang Mu didn't intend to help He Qing for free. Instead, he planned to employ He Qing.

So, He Qing had no reason to refuse!

The only difference between Fang Mu and He Qing's current employer is that He Qing can continue to be a Scavenger.

He only needs to drive for Fang Mu when Fang Mu needs a ride.

Before all this, Fang Mu planned to ask He Qing if the price of the antidote was really reasonable.

He couldn't be getting fooled, right?

"I have some understanding of antidotes, I'm curious about what kind of poison makes you have to spend so much money for treatment?" Since Manli brought up the topic, Fang Mu asked curiously.

He Qing quickly explained the situation.

At the end, He Qing added a comment.

"This time I'm treating you to a meal, so you don't need to rush to pay the bill because I'm in trouble!"

"As soon as I resign from the Scavenger's job and sign the contract, the problem is solved!"

Fang Mu suddenly realized a problem upon hearing this.

That is, when standing at different heights, the price spent to obtain the same thing also varies.

If Fang Mu sought the gall bladder of the Curse Night Mamba Snake through his own channels, he would probably only need to spend three to four hundred thousand.

Then find a high-star Creator to concoct the elixir, six hundred thousand is enough to resolve this problem!

He Qing had to pay more than double to solve the same problem!

Fang Mu had not considered using the Soul Parasite Ant offspring produced by the Covenant Servant Soul Ant Queen when looking for a private driver.

And just talking about the driver, He Qing wouldn't know too much about Fang Mu's situation.

He would most likely think that Fang Mu is just a rich disciple.

Fang Mu cleared his throat, looked straight at He Qing, and said very seriously. "I didn't plan to steal the opportunity to pay for the meal."

"But if you can become a Scavenger, it means you have the ability to contribute to environmental protection!"

"It would be a shame to drop that ability to become a driver!"

"How about becoming my personal driver instead!"

"I will also give you a salary of one million Dragon Rising Coins for five years, and do not require you to resign from the Scavenger's job."

"Additionally, the elixir to lift the curse of the Curse Night Mamba Snake only requires six to seven hundred thousand Dragon Rising Coins."

"The price of the elixir will be deducted from your income when signing the contract."

"If you can trust me, you can sign a contract with me at any time."

“Once the contract is signed and notarized by the Beastmaster Alliance, I can give you the elixir to break the curse of the Curse Night Mamba Snake!” Fang Mu’s words were not rushed, his tone did not change much, just like he was talking about an ordinary small matter.

But it sounded like thunder in the ears of He Qing and Manli.

Manli asked incredulously.

“Fang Mu, are you serious!?”

Manli didn’t disbelieve Fang Mu. It’s just that the matter involved over a million Dragon Rising Coins, almost double her own savings.

Could a young man really afford to spend so much money all at once!?

And if he spent so much money all at once, would it affect Fang Mu?

Fang Mu’s words sounded like the voice of redemption to He Qing, the chanting of Buddha.

He Qing seemed indifferent on the surface, but deep down, he was really reluctant to leave the Scavenger Division.

Actually, He Qing came to see Fang Mu in good faith, just wanting to say goodbye to Fang Mu through a meal.

These past few days, He Qing had already invited many of his Scavenger colleagues for a meal one after another.

As Manli was busy dealing with the scum man before, she was only available today.

So He Qing invited Manli to come along.

But he didn't expect Manli to bring up this matter in front of Fang Mu.

He Qing was never a melodramatic person and understood his own value very well.

It's good that Manli mentioned it!

He Qing has always had great trust in Fang Mu.

Although Feng Lin suppressed Fang Mu's situation within the entire Scavenger division, Fang Mu was discovered by He Qing in the end.

If it wasn't for He Qing mentioning it, Fang Mu wouldn't have thought about changing the history of the Scavenger Division.

A person who was capable of changing the history of the Scavenger Division through Beast Mastery at such a young age would never speak without basis!

"I trust you!"

"If you trust me too, we can sign now!"

Chapter 123 Refusing to be a gold digger! Starting with Fang Xiaomu!\_I

Fang Mu laughed and shook his head at the comment.

"No need to rush! I'm going to send a message right now for the antitoxin elixir to be prepared!"

"We'll sign the contract after dinner!"

“Once the antitoxin elixir is ready, it will be handed over to you immediately.

The treatment won’t be delayed because of the contract signing.”

“If your mother is in JA City, you can take it to her as soon as you receive it.”

“If she’s not, it’ll be delivered within a day using express delivery from the Beastmaster Alliance!”

Fang Mu’s words completely transformed the atmosphere at this small dinner table.

The tension transformed into surprise.

Manli kept glancing at Fang Mu, her eyes filled with curiosity, probing, and surprise, but she didn’t think too much about it.

After all, there’re many people in JA city who can afford to hire a private driver for a million Dragon Rising Coins!

However, He Qing thought a lot more deeply than Manli.

She intuitively grasped the subtle point in Fang Mu’s words.

That was, Fang Mu could get the antidote to break the curse of the Curse Night Mamba Snake at a very low price.

This demonstrated Fang Mu’s exceptional ability in obtaining resources more than anything else could.

He Qing dispelled the gloom in her heart, her smile was no longer forced.

“Jianmu, cheers!”

Upon hearing He Qing, Manli quickly waved her hand and said.

“You’re returning kindness with enmity, He Qing!”

“This glass of watermelon juice has at least a liter, and it’s filled with ice cubes.”

“If you chug it down, how can you still eat the saliva frog later!”

“I’m on a diet recently, so I can only eat up to one and a half kilograms.” He Qing rolled her eyes at Manli’s comment.

“Every time you say you’re on a diet, but every time we eat the saliva frog together, you never eat less than three kilograms.”

“If it weren’t for me holding you back last time, you’d have eaten a third bowl of rice! ”

“Stop pretending, you rascal!”

Despite what He Qing said, she realized that her words were inappropriate.

Jianmu was now her boss, and she needed to maintain the attitude of an employee!

“Mr. Jian, I’ll drink first, feel free to join me!”

Holding her cup, He Qing finished her drink in one go!

She even had more gusto than the muscular men chugging beer at the next table!

Fang Mu picked up his glass of watermelon juice and lightly tapped the table.

“I’ll join too! Hope Auntie recovers soon!”

Saying that, Fang Mu also drank a large glass of watermelon juice, hoping that it would help to curb the hunger in his belly.

Fang Mu had been craving the watermelon juice and was eagerly looking for an opportunity to drink it. How could he not join He Qing in the toast!

Fang Mu was so hungry that he felt like chewing on the table within five minutes!

However, in public places, Fang Mu had to control his appetite and could not be too conspicuous!

Seeing both He Qing and Fang Mu finish their watermelon juice, Manli followed suit and drained her glass as well.

At this moment, the voice of a little boy from a neighboring table clearly reached the ears of Fang Mu, Manli, and He Qing.

“Mommy look! There are three big buffaloes over there!”

With the innocence of a child, the trio, who had not changed their clothes before they came out and were still wearing the Scavenger’s badges, didn’t take offense.

Soon, the restaurant served all the dishes that the trio had ordered.

Along with the table where the little boy was sitting, a large plate of garlic-flavored saliva frog was also served.

Just then, the little boy mumbled, looking puzzled.

“Mommy, mommy! When these little green frogs are cooked, they can’t go home. Won’t their mommies worry?”

Hearing this, He Qing winked at Manli.

Manli understood immediately. She mimicked the little boy’s tone and asked He Qing the same question.

Manli deliberately raised her voice and immediately attracted the little boy’s attention.

He Qing shook her head, pointing to the three portions of saliva frog in the dish and said,

“No, their whole family is here!”

Seeing the look of disbelief on the little boy’s face, He Qing finally felt relieved!

Fang Mu, He Qing, and Manli quickly finished all the dishes and rice on the table.

Seeing Manli completely devour the minced garlic from the saliva frog, Fang Mu really wanted to ask Manli.

Sis, are you really planning to lose weight, not gain it!?

Fang Mu, suppressing his hunger, only ate a third of his portion.

After finishing, Fang Mu felt the hunger in his stomach was even more intense than before.

The food he just ate seemed to have made him even hungrier.

It's like a starving man who only bites an apple and ends up even hungrier than before.

Fang Mu made up an excuse to use the little shop's restroom.

Luckily, the restroom was pretty clean.

Once he confirmed that there were no cameras in the restroom, Fang Mu took out the nutritional meal stored in the Purple Ice Crystal Ring.

He quickly finished twenty-eight servings before he left the restroom satisfied.

When he left, he didn't forget to put the packaging of the twenty-eight meals back into the Purple Ice Crystal Ring.

While doing so, Fang Mu couldn't help but sigh secretly.

Except for himself, probably no one else in the world would use a Sequential Spiritual Instrument to hold trash!

I hope the Dragon Soul of the pterodactyl in the Purple Ice Crystal Ring won't hold this against me!

Fang Mu did He Qing a favor, but he wasn't going out of his way to give resources to He Qing for free.

He Qing wouldn't accept it, and besides, Fang Mu was not a spendthrift.

Fang Mu has always thought that a good transaction is based on equal benefit.

If he helped He Qing without reason, he would seem frivolous and increase the risk of exposing his identity.

While his siblings were careful not to use his resources, for fear of affecting him directly.

There was no reason for him to give away his resources to outsiders.

Fang Mu had no position to be extravagant, this was his principle.

He understood that in a world where force was respected and the resources of a Creator were invaluable.

Only by following this principle could he minimize trouble and protect his interests to the utmost.

Upon leaving the small shop, Fang Mu did not choose to hang out with He Qing and Manli.

Right now, He Qing and Manli's minds were on the elixir that could lift the Curse of the Night Mamba Snake.

Only by resolving the matter early could He Qing and Manli feel at ease!

Without further ado, Fang Mu brought the two directly to his working room in the Creator's Guild.

Lu Xiaoyin had now become Fang Mu's personal steward.

Soon after Lu Xiaoyin resigned as the Team Leader of the Attendants, a newcomer immediately replaced her.

The new leader was Lu Xiaoyin's former co-worker and well aware of how many invitations from powerful forces Lu Xiaoyin had rejected.

Being able to persuade Lu Xiaoyin to resign from her position as Team Leader of the Attendants, showed how profound Fang Mu's background was.

The fact that she got her position only because Lu Xiaoyin resigned, made the new leader grateful to Fang Mu!

She had an exceptionally friendly and respectful attitude when receiving Fang Mu, even better than how Lu Xiaoyin treated Fang Mu.

It happened that Manli knew this Attendant Team Leader of the Creator's

Guild.

This Team Leader was considered a big shot in Manli's eyes.

Even the humblest person working in the Creator's Guild had the chance to meet the Creators and obtain their resources.

Let alone the Attendant Team Leader who could meet high-starred creators!

He Qing had already prepared herself mentally.

But seeing the grandeur of Fang Mu, she couldn't help feeling amazed and impressed.

Seeing Manli's eyes bulging out in surprise, He Qing coughed lightly.

"Manli, stop acting so naive! It's embarrassing and makes us look unsophisticated!"

"We're formal members of the Scavengers and have stable income!"

Manli turned to look at He Qing's twitching lips and slightly trembling hands, and rolled her eyes towards the ceiling of the Creator's Guild hall.

"As if you're any better!"

Although she was rolling her eyes, Manli was very happy for He Qing and for herself.

Being able to work with He Qing in the future, how wonderful!

Less than five minutes after Fang Mu brought He Qing and Manli to his working room, Lu Xiaoyin arrived.

She was almost immediately after Fang Mu.

He Qing and Manli, knowing who the current team leader of the Creator's Guild is, naturally also knew Lu Xiaoyin.

Lu Xiaoyin had been the team leader for four full years and had secured countless Creator resources!

And now, such a big shot was actually calling Jianmu, "Young Master Mu" the moment she saw him!

According to rumors, Lu Xiaoyin had recently resigned from the Creator's Guild to accept a private hiring, and that person turned out to be Jianmu!

Chapter 124 - Four-Eyed Terror Wolf and Trade! 1

Lu Xiaoyin saw He Qing and Manli wearing the same scavenger uniform as Fang Mu and quickly bowed to them.

She was extremely thorough in displaying her etiquette!

He Qing and Manli hurriedly returned the bow respectfully.

Fang Mu then turned to Lu Xiaoyin and inquired.

“Did you find the gall bladder of the Curse Night Mamba Snake I asked you to look for?”

In fact, Lu Xiaoyin had been ready to report to Fang Mu as soon as she saw him.

She had just refrained from speaking right away because there were others present, and she was worried that it would be inconvenient.

Seeing that Fang Mu had asked about it himself, it became clear that he did not mind the two of them knowing about this matter.

Perhaps, the gall bladder of the Curse Night Mamba Snake was meant to be found for one of the two people!

“Master, I have accumulated some resources over the years, and I was able to locate around twenty gall bladders of the Curse Night Mamba Snake!” “Three of these gall bladders are in the hands of He Deen.”

“He Deen is the Senior Creator who has been assisting you with potion blending recently! ”

“If you use the same kind of resources as before, roughly three to four hundred thousand Dragon Rising Coins would be enough for an exchange!”

“If he were also to blend the potion, I could negotiate a price under five hundred and fifty thousand Dragon Rising Coins!”

Upon hearing this, Fang Mu nodded with a smile.

Throughout the time that Lu Xiaoyin had been serving as his personal housekeeper, Fang Mu had found her increasingly dependable.

Apart from being observant and being able to guess his intentions based on his requests, she also had access to many resources of low-star creators!

During the years she had worked at the JA City Creator's Guild, she hadn't been idle.

The reason why Lu Xiaoyin wasn't able to use these channels before was that she lacked the initial capital and the supplies to attract these creators.

Now that Fang Mu is able to provide these resources and funds, Lu Xiaoyin's accumulated resources can be put into motion right away, solving many of Fang Mu's issues.

Given Fang Mu's elevation to a distinguished identity, he was only suited to mingle with some prominent figures and to obtain top-notch resources.

However, these lower and middle-level resources do become indispensable at times.

While Fang Mu wasn't in a position to befriend these people, Lu Xiaoyin's network could make up for it.

The second Soul Parasite Ant from the Soul Ant Queen was about to hatch soon.

After the Soul Parasite Ant lodged itself into Lu Xiaoyin's soul, Fang Mu should also consider enhancing her Flame-Winged Lion Scorpion!

On hearing Lu Xiaoyin's words, He Qing and Manli looked at each other in astonishment.

They already knew from Fang Mu's words that it wasn't expensive to acquire a Curse Night Mamba Snake's gall bladder through Fang Mu's channels.

However, they didn't expect that despite being cheap, there were so many available.

Before this, He Qing had spent a great deal of effort just to discover that the gall bladder of a Curse Night Mamba Snake would be auctioned off in the black market.

Moreover, Fang Mu was even capable of maintaining a long-term cooperation with the Senior Creator, He Deen.

The opportunity to collaborate for a long period with a Senior Creator was truly enviable!

Fang Mu spoke to Lu Xiaoyin,

"You let He Deen speed up the mixing of the potion to remove the curse of the

Curse Night Mamba Snake, and then draft a contract with He Qing."

"From now on, He Qing will be my chauffeur!"

"Lately, you have been running back and forth between the Creator's Guild and Jinghai Tianyu University."

"Once the contract with He Qing has been attested by the Beastmaster Alliance, let him join you!"

Having finished speaking to Lu Xiaoyin, Fang Mu turned his head to He Qing and said,

"He Qing, the potion will cost 550,000 Dragon Rising Coins."

"The remaining 450,000 Dragon Rising Coins will be transferred to your card after the contract is signed."

“I have to rush off as I have something to deal with.”

“Take down Lu Xiaoyin’s number, so you can contact each other if anything comes up!”

As he spoke, Fang Mu accepted a lower-grade silver Storage Spiritual Instrument from Lu Xiaoyin.

The design of this silver Storage Spiritual Instrument resembled an amber-coloured cufflink, which easily hung around the wrist.

It wasn’t bulky and was rather convenient to use.

For such an expense of two or three million Dragon Rising Coins, Fang Mu was totally unconcerned !

After all, considering he was capable of producing high-star creator resources worth billions of Dragon Rising Coins daily, a few million Dragon Rising Coins was nothing more than a mosquito’s leg.

The diamond-ranked Dream Beast was stored inside this amber cufflink-shaped Storage Spiritual Instrument.

Fang Mu had done the favor he owed, so it was time to go home and get a few sets of clothes to change into.

Then, he would log into the Battle Network in his rest room of the Scavenger’s Division and have his first match!

Despite Fang Mu not having a contract with Eden Greenfield yet.

just a Rainy Doll is enough for Fang Mu to have a good fight with other One-Point Star Beast Masters!

In fact, Fang Mu was eager to have a Diamond Rank Dream Beast for other reasons too.

That is, each Dream Beast is like a processor, Fang Mu needs the Dream Beast to collect his information.

Even though each Dream Beast is connected to a network constructed of dreams through a machine as a medium.

The information stored in each Dream Beast is not shared.

As long as Fang Mu keeps a firm grasp of this Diamond Rank Dream Beast, he will not let outsiders understand his situation.

A couple of days ago, Fang Mu specifically read books about the Battle Network.

He learned that everything except the name could be hidden on the Battle Network!

However, during a match, if you happen to encounter a Battle Network broadcaster, even if you hide the Mystic Beast information.

The audience could still figure out the approximate abilities of the Beast Master from the abilities used.

There is a forum on the Battle Network called "Skin Peeling House".

This forum is one of the few that Creators visit.

Many Battle Network broadcasters who wanted to hide their Beast Mastery abilities as a gimmick were completely exposed by the talented individuals in the "Skin Peeling House"!

It's the existence of the "Skin Peeling House" that makes many Battle Network broadcasters no longer hide their Beast Mastery abilities.

Because it's pointless to hide them!

"Showing your face when you reach a subscription of 100,000", this kind of "play" is no longer popular!

When Fang Mu left the Creator's Guild, he was well aware that Lu Xiaoyin must have many things to report to him that she didn't mention.

Because Lu Xiaoyin didn't mention anything about She Wan just now.

It is expected that after settling down He Qing and Manli, Lu Xiaoyin would call him.

Before Fang Mu could stop a six hooped yak car to go home, he received a phone call from the deputy leader of the Lionheart Brigade, Liu Jihui.

This afternoon, Lu Yuyu came to the Lionheart Brigade in person and picked out one third of the members.

All of these one third of the members are the backbone of the Lionheart Brigade.

Liu Jihui had been wanting to find an excuse to call Fang Mu, and now the opportunity had finally arrived!

"Sir Jianmu, our members of the Lionheart Brigade have gone to the capital with Brother Lu."

"If these twenty people are not enough, you must tell me! So I can arrange more!"

Listening to these two sentences from Liu Jihui, Fang Mu immediately understood what he was hinting at.

As for Liu Jihui finding an excuse to communicate with him and curry favor, Fang Mu didn't mind.

In fact, Fang Mu quite liked Liu Jihui doing this!

It's not because Fang Mu enjoyed being flattered by others, but because the members of the Lionheart Brigade are generally strong.

Even without a Sequential Beast, most members have one or two Diamond Level Beast Masters by their side.

They are a powerful fighting unit!

They can solve many problems Fang Yuan faces in the early stages of setting up the Mu Commerce Association.

"If I need more manpower, I'll come straight to you, I won't be polite."

"By the way, you received those two elixirs, right!?"

Listening to this, Liu Jihui felt excited and a bit disappointed.

He had indeed received the two Wind Elemental elixirs, and after using them, the abilities of his Main Battle Mystic Beast, the Three-Eyed Terror Wolf, had increased.

However, the Three-Eyed Terror Wolf only had its bloodline upgraded, opening its fourth eye to evolve into the Four-Eyed Terror Wolf.

It hadn't made the successful step into the Sequential rank as he had expected.

The internal affairs of the Lionheart Brigade is not a calm pond.

His use of the elixirs he had exchanged from Jianmu for collective interests led to some complaints among the members.

If his Three-Eyed Terror Wolf successfully broke through to the Sequential rank, other members' complaints naturally would have to be digested by themselves.

But now, since he had failed to get the Three-Eyed Terror Wolf to break through to Sequential, things have changed.

Once morale falters, it will be harder for him to lead the Brigade as the deputy leader!

So, the most urgent matter right now is that Liu Jihui hopes to exchange another bottle of high-purity Wind Elemental Elixir from Fang Mu.

This time, Liu Jihui had 95% confidence of success.

Liu Jihui had already felt the tipping point of the Four-Eyed Terror Wolf, but he just didn't know how to ask for this favor from Fang Mu!

Chapter 125 Secret Promise! \_1

Facing Fang Mu's question, Liu Jihui strained every nerve in his body.

However, in the end, he didn't dare to forcefully shift the topic to obtaining more resources from the Grandmaster Creator.

If he displeased Jianmu, he would be throwing away a watermelon to pick up sesame seeds!

Suddenly, Liu Jihui had a thought, Fang Mu seemed to be very interested in the materials produced from exotic beasts.

So Liu Jihui enthusiastically said.

“Sir Jianmu, I have access to high-level Blood Tribe hearts, I wonder if you still need such materials from exotic beasts?”

Fang Mu raised his eyebrows at his words, this Liu Jihui was very responsive!

He knew what he needed!

Liu Jihui, after obtaining those two bottles of the Wind Elemental Potion, did not happily mention the advancement of his Guardian Beast.

It seems his Three-Eyed Terror Wolf probably failed to break into the next level!

Now Liu Jihui must be racking his brains, hoping to get another high purity Wind Elemental Potion from him, so that the Three-Eyed Terror Wolf could take another shot at the next level!

Fang Yuan would need to cooperate with the Lionheart Brigade for a long time in the future, so Fang Mu didn't choose to corner Liu Jihui.

Fang Mu cleared his throat, and then spoke directly to Liu Jihui.

“I'll take as many high-level Blood Tribe hearts as you can get, and we'll still trade at the previous price.”

“The same goes for the Shadow Eye Stone!”

“In addition, you can help me collect some materials to enhance the Bloodline of the Dragon Race Guardian Beasts, as well as substances with strong toxins.” “These materials can come from the Guardian Beasts like the venom sac from the Black Nightmare Snake or from the exotic beasts!”

“I believe that with the capabilities of the Lionheart Brigade, you should be able to find some supplies that I’m interested in!”

“The Mu Commerce Association is an industry organized by my master to pour resources into me, I hope that the Lionheart Brigade can do their best when cooperating with the Mu Commerce Association.”

“If my partners are unhappy, I’ll be angry! ”

Fang Mu’s tone suddenly became cold as he said the last part.

Even a person who’s seen the world like Liu Jihui couldn’t help but shudder.

Liu Jihui hurriedly assured him.

“Rest assured! I will definitely restrain my men and have them do their best for your association!”

“Whatever your partners task us to do, there won’t be a single imperfection!”

Good lord! Liu Jihui never thought that Lu Yuyu’s visit to the Lionheart Brigade to select people would involve such important matters!

The Mu Commerce Association is not merely a name attached to Jianmu, it’s an industry founded by the Grandmaster Creator for his disciple!

What a great honor it is for the Lionheart Brigade to cooperate with a commerce association backed by a Grandmaster Creator!

Once he has arranged everything, obtaining supplies from Jianmu would undoubtedly become much easier!

The first time Fang Mu played this card, he was a bit unfamiliar and under psychological pressure.

Now when Fang Mu plays this card again, he finds it has become second nature.

Why bother trying other methods when leveraging his status can solve the problem!?

After making his assurance, Liu Jihui thought about the channels that the Lionheart Brigade currently had access to, then turned to Fang Mu and said. "I can get two or three hearts of the Blood Count in a few days."

"As for the Shadow Eye Stone, the Lionheart Brigade doesn't have that much capability! "

"It was already very rare to get one before!"

"However, I can find quite a few substances with strong toxins and materials that enhance the Bloodline of Dragon Race Guardian Beasts."

"If you don't have any specific requirements, it may take about a week."

"In this week, I can bring you all the poisonous substances that the Lionheart Brigade currently has! "

With that said, Liu Jihui asked in a hushed tone.

"The total value of the resources I find will surely exceed 200 million!"

"I wonder if I could get another Wind Elemental Potion of 90% purity from you in exchange?"

"If my Four-Eyed Terror Wolf successfully ascends to the next level with your help, I could privately make a promise to you!"

“That is, no matter what task you give the Lionheart Brigade in the future, I’ll do my best to help you complete it!”

Fang Mu didn’t immediately respond to his words.

Liu Jihui’s situation turned out just as Fang Mu had guessed!

Previously, through the words of Lu Yuyu and the actions of Liu Jihui, Fang Mu had discerned that Liu Jihui was a consummate egotist.

Fang Mu once again confirmed this today.

As the vice-chairman of the Lionheart Brigade, Liu Jihui has been using shared resources of the Lionheart Brigade for personal gain.

The nature of the Lionheart Brigade is similar to a shared-equity club or guild, not a family-run business.

So, Liu Jihui’s behavior is somewhat unseemly!

Especially the promise Liu Jihui gave him, which essentially implied that Liu would fulfill Fang Mu’s requests even at the detriment of the Lionheart Brigade’s interests.

If such a person were around during Fang Mu’s student days in his previous life, Fang Mu would undoubtedly be disgusted.

Fang Mu wouldn’t want someone like that in his own team either!

However, cooperating with such a person from an unequal position can be quite enjoyable.

Fang Mu was still silent even after two full minutes.

Only when Fang Mu felt that Liu Jihui's breath on the phone had become unsteady did Fang Mu reluctantly say,

"I've taken quite a few high-star Creator resources from my master recently."

"But since you've made this clear, I've decided to ask my master for a bottle of high-purity Wind Elemental Potion for you."

"Do not forget the commitment you made to me today! "

Upon hearing Fang Mu's words, Liu Jihui's tense body on the other end of the phone suddenly relaxed.

It would be nice to get another bottle of Wind Elemental Potion with a purity of ninety percent!

As long as his Guardian Beast stepped into the sequence, the Lionheart Brigade would forever be his own domain!

Even if that fallen person rises again, it would be the same!

Liu Jihui had made it very clear.

Now that there was a chance to hold onto a Grandmaster Disciple's coattails, it was worth doing anything!

Since its inception, the Lionheart Brigade has had only this one opportunity at this level.

Just as Fang Mu was about to hang up the phone, Liu Jihui once again asked,

“Sir Jianmu, are you interested in private trade meetings held by other forces?” “The president’s wife of the Near Shore Commerce Association, Yu Zirou, recently reached out to me, hoping that I could deliver an invitation on their behalf to you!”

Fang Mu currently does not need any more magic materials or Guardian

Beasts, and there is no need to attend this kind of private trade meeting.

Once Fang Yuan gets the Jianmu Commerce Association up and running, it will be the best source of supplies for them balance\_four siblings!

Just like Lu Yuyu trying to help the Lionheart Brigade invite him, Liu Jihui also wanted to owe Near Shore Commerce Association a favor.

Near Shore Commerce Association is considered a new and rising power in Jinghai Province.

In just two or three decades, it has established countless branches across Jinghai Province.

“I’m currently at the entrance of the Creator’s Guild, I may not attend that trade meeting.”

“But you can bring the invitation to me!”

As long as Fang Mu accepts the invitation, Near Shore Commerce Association would owe Liu Jihui a favor.

Liu Jihui delivered the invitation to Fang Mu as fast as he could.

Fang Mu glanced at the four gilded characters “Sir Jianmu” on the invitation, and curled his lip.

Near Shore Commerce Association wanted to use him as a gimmick, they were bound for disappointment!

When Fang Mu returned home, he tossed the invitation from Near Shore Commerce Association onto the coffee table in the living room.

Then he packed all his clothes at home into the Purple Ice Crystal Ring.

After all, the Purple Ice Crystal Ring had enough space.

Packing now would save the trouble of organizing again when moving house later!

This way, Fang Mu wouldn't have to rush back home just to change clothes!

No sooner had Fang Mu left his home and double-locked the door, than received a call from Lu Xiaoyin.

It seemed that Lu Xiaoyin had finished what she needed to do and was ready to talk business with him!

Chapter 126: Faster than the Sequential Guardian Beast!? 1

Fang Mu answered the call, only to hear Lu Xiaoyin begin to speak.

"Young Master, I have taken care of He Qing's matter!"

"Before ten o'clock tonight, He Deen will be able to deliver the elixir to He Qing! "

After reporting He Qing's situation to Fang Mu, Lu Xiaoyin did not continue to focus on He Qing.

Lu Xiaoyin was initially confused, but she came to understand after communicating with He Qing and Manli.

It turned out that Fang Mu's sudden decision to make He Qing his driver was due to the assistance He Qing had offered as a colleague.

Otherwise, based on He Qing's qualifications, Lu Xiaoyin did not believe that

He Qing was qualified to be the driver of a disciple of a Grandmaster Creator.

If Fang Mu wanted a driver, having three Diamond Level Beast Masters was the minimum requirement.

Finding one who possessed a Sequential Guardian Beast was not impossible either, She Wan was a case in point!

Lu Xiaoyin took out her notebook, which she always kept at hand ever since she became Fang Mu's personal butler.

Looking at the records in the book, she reported to Fang Mu.

"Young Master, the piece of land you traded from Brother Lv is situated behind Jinghai Tianyu University. The environment is beautiful, the air is fresh, and it is quite serene."

"It leads directly to the side entrance of Jinghai Tianyu University."

"Given the speed of He Qing's Destiny Guardian Beast, the Crystal-stepping

Reindeer, it would only take seven to eight minutes to reach the main street."

"I was surprised when I first saw such a peaceful place amidst the hubbub!"

Fang Mu has not been dwelling on the plot of land that he got from Lu Yuyu recently.

However, Fang Mu knew that Lu Yuyu chose to offer this land to win his favor, not only due to its large size but also because of its excellent location!

Being able to find tranquility amidst the hustle and bustle while nestled deep within the mountains is very rare!

Fang Mu did not say anything but continued to listen to Lu Xiaoyin's subsequent report.

"Young Master, although this land only measures fifteen thousand square meters, the other plots in that hill have not been developed."

"I inquired Brother Lv, and he said the other plots are all under the control of Mountain – opening Construction."

"Lu family's Keystone Construction and Mountain-opening Construction are old friends and had jointly invested in JA City."

"However, because Keystone Construction's funds are not as ample as Mountain-opening Construction's, the land they secured is slightly smaller."

"The plot held by Mountain-opening Construction totals nearly eighty thousand square meters, which includes a natural miniature lake covering an area of over ten thousand square meters."

"If you think fifteen thousand square meters is not enough, Brother Lv said he can try to buy the other eighty thousand square meters from Mountain – opening Construction!"

Fang Mu suddenly felt that despite having pretended to be a disciple of a Grandmaster Creator for such a long time, he was not nearly upper-class enough!

Fifteen thousand square meters plus eighty thousand square meters amounts to ninety-five thousand square meters!

Ninety-five thousand square metres of land, was he looking to build a manor or a city within a city!?

But, he could not deny that he was indeed tempted!

Having seen the massive body of the Rainbow Devouring Sea Python, Fang Mu knew if he wanted to cultivate more large Guardian Beasts in the future, a manor of fifteen thousand square meters could potentially become crowded.

Besides, Fang Mu was very interested in that natural miniature lake which covers an area of ten thousand square meters!

When Fang Mu is living at home, this would provide a good habitat for Fang Mu's Dragon-race Guardian Beast.

Fang Mu did not rush to make a decision on this matter.

If this land was indeed to be sold, Lu Yuyu would surely choose to ask for his opinion in advance.

He wouldn't let Mountain-opening Construction sell the land before discussing it with Fang Mu!

Fang Mu could definitely wait until his fifteen thousand square meter manor was built, then consider the other eighty thousand square meters of land.

Fang Mu had recently invested quite a bit in high-star-level Creator resources.

Therefore, he could afford to take his time with matters that weren't urgent.

Seeing that Fang Mu didn't respond, Lu Xiaoyin continued.

"Young Master, actually, you can move in now!"

“The major structures of the manor have been built, and two bedrooms have been specially constructed inside.”

“There are so many pieces of furniture made by the Grandmaster Craftsman inside!”

While speaking, Lu Xiaoyin couldn’t help but marvel at the grandeur of the layout in the two bedrooms.

Keystone Construction had brought out all their best items for Fang Mu!

In Lu Xiaoyin’s view, this was partly to repay Fang Mu’s favors, and partly to further please him.

Deepen the relationship between the entire keystone construction and Fang Mu!

Surprise showed on Fang Mu’s face upon hearing this.

What! The primitive construction of the estate has been completed, even two bedrooms have been exquisitely fitted out! How could it be so fast!

Though there was a Grandmaster Craftsman leading the team, accompanied by quite a number of Master Craftsmen.

But the abilities of Grandmaster Craftsman and Master Craftsman primarily lie in the control of the quality of the construction, rather than accelerating the speed of construction.

“Did the Keystone Construction dispatch a lot of high-level Guardian Beasts?” When asking this question, Fang Mu secretly muttered in his heart.

Even if earth system sequential Guardian Beasts were dispatched, the speed should not be so fast!

Lu Xiaoyin guessed that Fang Mu would probably ask this.

Lu Xiaoyin had specifically recorded all the supplies that Keystone Construction had used to construct the estate for Fang Mu.

On the one hand, it was to be able to explain when Fang Mu asked about it.

On the other hand, as a private housekeeper, Lu Xiaoyin had to keep a clear account of the obligations for Fang Mu.

Only by remembering those things that Fang Mu himself did not remember, could she say that she was a responsible private housekeeper!

Lu Xiaoyin was very clear that she had no advantages in terms of strength.

So she could only rely on these efforts to try her best to ensure that Fang Mu would not abandon her.

She Wan was very competitive. Before meeting Lu Xiaoyin, she had already started to take the initiative to roll up her sleeves and get to work!

Having understood She Wan's strength, Lu Xiaoyin felt an unprecedented pressure!

To resist this pressure, the only thing Lu Xiaoyin could do was to do her best in matters she could handle.

"Young Master, the Keystone Construction indeed dispatched many high-level Guardian Beasts! "

"Ten Diamond-rank Ground-shaking Elephants were in charge of leveling the earth, and five Diamond-rank Anvil Hedgehogs were in charge of burying spikes from their back into the ground under the base construction."

“In addition to these Diamond-rank Guardian Beasts, the Keystone Construction also sent out nearly ten different kinds of Platinum-rank

Guardian Beasts for support.”

Upon hearing Lu Xiaoyin’s words, Fang Mu couldn’t help but widen his eyes in surprise.

My goodness! Just for building an estate on 15,000 square meters of land, Keystone Construction actually used such a large number of high-level Guardian Beast resources!

Ten Diamond-rank Ground-shaking Elephants were working together to level the land. Large stones that would hinder the foundations would be vibrated into fragments in no time.

Even if the ground was uneven, it would become exceptionally smooth in a short time.

Anvil Hedgehogs feed on iron, and the anvils produced on their back are a kind of very scarce compound metal spiritual material!

It is more corrosion-resistant and robust than regular iron.

Using the spikes produced by Diamond-rank Anvil Hedgehogs to build the foundation would be strong enough to support a hundred-meter-high building.

Building only three floors for his own mansion seemed a bit luxurious and wasteful!

But even using Diamond-rank Ground-shaking Elephants and Anvil Hedgehogs, it only saved the time of constructing the foundation.

It should not be so fast to complete the overall construction of the entire estate, not to mention two bedrooms have also been fully fitted out!

Even if the items used in these two bedrooms are all ready-made, renovating the walls and laying the floor would take at least a day.

Fang Mu, surprised as he was, did not ask Lu Xiaoyin why the speed of Keystone Construction was so fast.

Because Fang Mu knew that Lu Xiaoyin would definitely give him an answer later.

Hearing a “hmm” from Fang Mu on the other end of the phone, Lu Xiaoyin continued to speak.

“In addition to these Guardian Beasts, Keystone Construction has also utilized gnomes from the Subterranean Dimensional Rift!”

“The strength of these gnomes has all reached the Terror-level!”

“The leading gnome even possesses a rare Mineral Gnome bloodline!”

Fang Mu understood that Keystone Construction had spared no effort to build his estate.

They even used gnomes, which are considered a foundational resource!

The actions of Keystone Construction were clearly not just about pleasing him and repaying favors anymore!

Since Keystone Construction has already built two bedrooms, it would be somewhat offensive if he didn't move in!

Fang Mu himself was quite looking forward to living in this new private, secluded environment.

“Xiao Yin, then you bring He Qing and come to Cleaners' Division to pick me up at eight o'clock tonight, we're moving!”

## Chapter 127: Breeze Beryl! \_1

Lu Xiaoyin had already guessed that Fang Mu would choose to move house tonight.

Although Fang Mu had not enquired about the construction of the mansion lately, if he genuinely was not in a hurry to use it, he wouldn't have asked She Wan to help him!

Therefore, Lu Xiaoyin had anticipated this and prepared everything in advance.

After hanging up the phone, Lu Xiaoyin glanced at She Wan, who was not far from him, wearing plain clothes, yet her poise was undeniable.

Knowing She Wan's abilities, Lu Xiaoyin held her in high respect.

Although he felt threatened, he did not consider She Wan as his competitor.

From Lu Xiaoyin's perspective, he did not have the resources to compete with She Wan.

Considering his own abilities, regardless of how one looked at it, he was less beneficial to Fang Mu compared to She Wan!

Yet, what Lu Xiaoyin did not know was that not only did She Wan consider him her competition, but also considered He Qing, the new personal driver whom Fang Mu had hired, as her competitor!

Compared to Lu Xiaoyin and He Qing, She Wan had a clearer understanding about what being a disciple of a Grandmaster Creator truly entailed.

In front of the disciple of a Grandmaster Creator, everything else was insufficient as a bargaining chip.

The only consideration was whether they could win the Grandmaster Creator's disciple's attention.

There was no material difference between the jobs of a guard, a house steward, and a driver.

All were committed to serving Jianmu, who was nobler than the other!?

However, She Wan felt that she had utterly lost on the front of being valued by Fang Mu!

Fang Mu would always communicate with Lu Xiaoyin in practically any matter.

Recently, she was merely helping Lu Xiaoyin around the mansion, where was she doing her real job!?

She was supposed to be a guard!

Jianmu, would you let me protect you!?

As a Hexagram Beastmaster, She Wan's hearing was far superior to other lower-ranked Beastmasters!

From such a close distance, she could hear clearly what Fang Mu and Lu Xiaoyin had been discussing.

Moving was by no means a small matter for Fang Mu.

But when it came to this, Fang Mu thought of Lu Xiaoyin and the newly arrived He Qing, but he did not think of her!

It was distressing for She Wan.

She Wan felt like she had lost without even getting a chance to compete.

As a noble lady from the Lu Dushe clan's direct descendants, she had always outshone everyone since childhood.

After becoming a noble lady from the Lu Dushe clan, all the other nobles were overshadowed by her.

This had always made She Wan rather arrogant.

But now, She Wan's arrogance was shattered!

Opportunities must be earned; hence, She Wan suggested to Lu Xiaoyin. "I'll join you to help the young master move tonight!"

"There's really no need to hire so many people. Most of the ones you hire will not be needed!"

"The young master's sequential spiritual instrument can directly package the things that need to be moved!"

Hearing this, Lu Xiaoyin smiled and shook his head at She Wan.

"Among the three of us, someone has to stay at the mansion to keep an eye on things."

"If the young master didn't ask you to go, you should stay here." As for why so many people were hired, Lu Xiaoyin did not explain.

The saying goes, 'preparation averts peril'!

When it came to matters concerning Fang Mu, Lu Xiaoyin would rather be over-prepared than be unable to meet Fang Mu's needs when the time came!

Hearing Lu Xiaoyin's words, She Wan's gorgeous face portrayed a trace of solemnity and worry.

Previously, as the team leader of the attendants at the Creator's Guild, Lu Xiaoyin had seen all sorts of people.

Lu Xiaoyin wouldn't dare to claim that he could completely understand She Wan, but getting about seventy or eighty percent was no problem!

Recently, She Wan held some hostility towards him and constantly compared herself with him.

Clearly, She Wan hoped to gain more of Fang Mu's attention.

At this point, she should be upset that Fang Mu did not ask her to help with the move.

After a short pondering, Lu Xiaoyin said to She Wan.

"Both He Qing and I are weak, and we don't have the ability to guard the house."

"Guarding the mansion when the young master doesn't need you is a good choice!"

Lu Xiaoyin's words made She Wan pause.

I was indeed too eager to show off in front of Fang Mu!

Rather than constantly striving to impress, I should be steadfast, dutifully doing what I should be doing.

She Wan gracefully bowed to Lu Xiaoyin, then prepared to wander around the mansion to clean out those snakes, bugs, rats, and ants.

The mansion has only two finished rooms, the rest are only outlined structures.

Fang Mu moving in could likely be disturbed by the small critters.

When She Wan stopped to clean up those small critters in the mansion, Lu Xiaoyin rang He Qing.

He asked He Qing to pick up Fang Mu from the Scavenger's Jinghai Division at seven-thirty.

On Lu Xiaoyin's end, he had already been on-site waiting an hour in advance!

Senior Creator He Deen had originally scheduled potion delivery for ten in the evening.

But upon hearing that this was Fang Mu's request from Lu Xiaoyin, he immediately dropped his other work.

He had prepared the potion at seven sharp and called Lu Xiaoyin.

Lu Xiaoyin asked He Qing to fetch the potion from He Deen himself.

Lu Xiaoyin knew that even if a contract had been signed, only once He Qing truly had the potion in hand, could his mind be absolutely at ease!

He Qing sent the detoxifying elixir he obtained to his mother via the Beastmaster Alliance.

He then summoned his Destiny Guardian Beast, the Crystal-stepping Reindeer, and two Sea Wind Winged Snakes.

The two Sea Wind Winged Snakes coiled on the antlers of the Crystal-stepping Reindeer, invoking a strong wind to speed it up.

With the Inch Bone Soft Snake made into reins, the Crystal-stepping Reindeer was harnessed to a luxurious Beast Car.

This Beast Car was provided by Keystone Construction.

It was said that this Beast Car was built by one Grandmaster Craftsman along with three Master Craftsmen using many rare spiritual materials!

Even the steps where you climb into the car are embedded full of pale green gemstones the size of thumbs.

Breeze Beryl is a high-end wind elemental material, which can be used to prepare wind elemental potions with more than seventy percent purity.

The wind element has cutting attributes and is highly adaptable!

Therefore, Breeze Beryl, which is rich in wind elements, generally exist in tiny particles like sandy grains, it's hard to find intact pieces the size of a fingernail!

Let alone ones as big as thumbs!

Rich families really like to embed Breeze Beryls on the steps for getting in and out of their Beast Cars.

On one hand, it can show off their status, on the other hand, the light breeze that hangs on the surface of Breeze Beryls can sweep away the dust on their It prevents the cabin from getting dirty when getting in and out of the Beast Car!

He Qing, riding this luxurious Beast Car, arrived promptly at the entrance of the Cleaner Division.

Upon seeing Lu Xiaoyin, He Qing immediately expressed his apologies. "Brother Lu, I was planning to arrive ten minutes early."

"I was a bit late because my appointment with the Beast Master Alliance was pushed back a bit!"

“The young master hasn’t come out yet, right!?”

At this point, even someone as nonchalant as He Qing had begun referring to Fang Mu more respectfully.

Despite his casual demeanor, He Qing was more grateful to Fang Mu than words could express.

If you could say that his life took a turn for the worse in the past.

Then Fang Mu’s arrival and help made that downturn an upward shift.

Upon hearing this, Lu Xiaoyin shook his head.

“I pushed it back half an hour for you, the young master said he won’t be out until eight!”

“We’ll wait here then!”

Not only did He Qing have no complaints about Lu Xiaoyin’s words, he even felt relieved knowing that someone as considerate as Lu Xiaoyin was there to remind him of everything so he wouldn’t make mistakes while doing things!

Having interacted with Fang Mu a few times, He Qing knew that Fang Mu was always punctual.

Sure enough, as soon as it hit eight, Fang Mu had already walked out of the entrance of the Cleaner Division.

Seeing the Beast Car parked behind Lu Xiaoyin and He Qing, Fang Mu’s expression froze in surprise.

Beforehand when Lu Xiaoyin told Fang Mu that Keystone Construction had gifted him a Beast Car, Fang Mu didn't expect the gifted Beast Car would be this extravagant!

Apart from the Breeze Beryls, there were even four cricket cages hanging on both sides of the car's corners, each containing a Peace Cricket.>

The Peace Cricket is considered an auspicious creature, its call sounds like a child chanting for peace.

There wouldn't be a cheap beast among those considered auspicious.

Four almost identical colored Peace Crickets wouldn't go for less than twenty million Dragon Rising Coins at a private auction!

Chapter 128: She Wan, Interrupted Again!\_I

Upon seeing Fang Mu, Lu Xiaoyin and He Qing immediately came forward to greet him.

He Qing waited until Lu Xiaoyin finished greeting Fang Mu before he stood in front of him and bowed deeply.

"Young Master, thank you!"

"The antidote has been sent to my mother through the Beastmaster Alliance!"

"Thank you!"

He Qing has been headstrong since he was born.

He is usually helping others in any situation, and rarely receives help from others like he does now.

People with He Qing's character often feel even more gratitude when they receive a favor!

Fang Mu immediately smiled warmly when he heard He Qing's words.

Fang Mu can imagine how fragile He Qing might feel beneath his tough exterior.

Fang Mu can empathise, imagining what it would feel like if something like this happened to any of his three siblings, Fang Qin, Fang Yuan, or Fang Yan!

"Good that it's been sent!"

"Remember to tell your mother that she needs to fast for a day before taking the antidote for the Curse Night Mamba Snake!"

"Otherwise, delaying it for a day can waste nearly three months of her life!"

Suddenly, seeing the pure and genuine smile on Fang Mu's face, He Qing felt a sudden swell of emotion.

At this time, Fang Mu turned his attention to He Qing's Destiny Guardian Beast, the Crystal-stepping Reindeer.

It turns out that the key to He Qing becoming a scavenger is the Crystal-stepping Reindeer!

The Crystal-stepping Reindeer is a unique Earth System Guardian Beast.

When it steps towards a target, its hooves can automatically crystallize.

When He Qing's Crystal-stepping Reindeer trod on Alien Beast Corpse, it immediately wrapped them in the crystalline material it formed.

Then He Qing can command the two Sea Wind Winged Snakes to create a gale, and throw these crystallized Alien Beast Corpses into the Incinerator!

The way the Crystal-stepping Reindeer handles Alien Beast Corpses is incredibly efficient.

If He Qing continues down this path, it's not difficult for him to become a Level-4 scavenger.

By helping He Qing, Fang Mu is also contributing to the environmental protection efforts in Jinghai Province!

Once he got onto the Beast Car, Fang Mu immediately discovered that the inner cabin was much more luxurious than the exterior!

On a table made of Phoenix Perch Wood, at least a thousand different phoenixes had been delicately carved.

Only a Grandmaster Craftsman could do something like this.

While Grandmaster Craftsmen aren't as rare as Spirit Forging Masters, they hold a status equivalent to that of Senior Creators.

This makes furniture made by Grandmaster Craftsmen extremely expensive.

By purchasing furniture made by these craftsmen, wealthy families can, in a sense, enhance their reputation.

Therefore, Grandmaster Craftsmen are almost always busy at Keystone Construction.

However, compared to Phoenix Perch Wood itself, the craftsmanship of the Grandmaster Craftsman seems less valuable!

It is said that if Phoenix Perch Wood is ignited in a forest where Phoenix-type creatures live, it is highly probable that Phoenix-type creatures can be attracted.

Many adventurer groups like the Lionheart Brigade attempt to capture Phoenix-type beasts in the wild by burning Phoenix Perch Wood.

The Phoenix-type creatures that are caught rank high and are not suitable for Beastmasters to contract with.

If a Beastmaster wants to contract with a higher-ranking creature, it will consume much of their mental power.

However, if you can gather a pair of the captured Phoenix-type Creatures, they could be bred.

Even if all else fails, after the Phoenix-type Beast dies, besides the Phoenix Soul, a spiritual material unique to the Phoenix-type Beast called Unquenched Fire, can be collected!

Unquenched Fire is of great help to Fire Series bird-type controlled creatures.

It may even give them some Phoenix bloodline!

In addition to being able to attract Phoenix-type beasts when burned, Phoenix Perch Wood can also enhance the bloodline of Phoenix-type beasts.

In terms of tier, it's comparable to a Life Elixir with a purity of seventy to seventy-five percent.

Just the decorations inside and outside this carriage, coupled with the four Peace Crickets that can be called auspicious, would cost at least 75 million Dragon Rising Coins!

Of course, compared to Keystone Construction which uses Gnomes, this expenditure is just scratching the surface!

Gnomes, these strange creatures are cowardly, greedy, cunning, lustful, and nine out of ten sentences they say are false!

You could say that all the bad qualities in the world are embodied in Gnomes!

However, as an intelligent humanoid Alien Beast, Gnomes can be tamed!

It's just that taming requires a lot of manpower and resources.

The more gnomes a construction group owns, the more capable the group is in creating massive projects in an extremely short period of time!

Twenty years ago, the offshore shallow sea area of Zhutaoshi City in Bohan Province experienced the opening of a Catastrophe Class Water World Dimensional Rift.

Countless aquatic alien beasts along with gigantic waves, three to four meters high, rolled towards Zhutaoshi City.

It was the legendary craftsman family of the Yu family who utilized five hundred gnomes to burn their bloodlines.

Within a mere few minutes, they built forty dams standing eighty meters tall to bear the brunt of the tsunami and the invasion of the aquatic alien beasts.

They saved the entirety of Zhutaoshi City!

The five hundred gnomes became unknown heroes since then, sacrificed at the moment of the dam construction.

This is because gnomes can only unrestrictedly reshape minerals and metals that come from underground when they sacrifice their bloodline.

Once the bloodline is exhausted, the gnomes lose their ability to rapidly construct the infrastructure in a short period of time.

It takes at least two years to recover before they could sacrifice their bloodline again!

The reason the five hundred gnomes from the legendary craftsman family died was because they burned through their bloodlines too quickly.

When Keystone Construction dispatches gnomes to quickly build up the framework of their infrastructure for them, they definitely will not let these gnomes die due to exhausting their bloodlines!

However, these summoned gnomes will not be able to perform their work for a long time.

Moreover, in order to make the construction of the infrastructure more refined, Keystone Construction even specifically used a Mineral Gnome!

Fang Mu remembered that Lu Yuyu's main battle Mystic Beast, seemed to have reached the Epic Quality of Diamond Level Ten.

If Fang Mu helped Lu Yuyu upgrade that Domain-Type Control Beast of Diamond Level Ten Epic Quality to Legendary Quality, helping him step into a sequence...

Then, whether it's having Lu Yuyu secure the eighty thousand square meters of land controlled by Mountain Opening Construction, helping Fang Yuan build the headquarters of Mu Commerce Association, or having Keystone Construction help build his manor...

Fang Mu wouldn't have to think about giving additional supplies to Lu Yuyu!

He Qing quickly steered the Beast Car and smoothly stopped in front of the main gate of Fang Mu's manor.

He Qing had already visited the manor once today.

But on his second visit, he still couldn't help but feel awed from the bottom of his heart.

Fang Mu stepped down from the Beast Car with full anticipation, treading on the foot pedals inlaid with Breeze Beryls.

He was ready to see what his manor had been shaped into!

She Wan informed the people of Keystone Construction that Fang Mu planned to move into the manor tonight.

That was because Keystone Construction usually worked at night as well.

Now that Fang Mu was moving in tonight, it would be inappropriate for Keystone Construction to continue working!

She Wan predicted that the people of Keystone Construction would come to the gate to welcome Fang Mu after understanding the situation.

So, naturally, She Wan accompanied the people from Keystone Construction to meet him.

Strictly speaking, She Wan hadn't seen Fang Mu for two or three days!

Just as Fang Mu was about to examine his manor's gates, he saw an elderly man walk out from within the manor.

Behind the elderly man, She Wan was following, dressed in a dark green long dress.

As She Wan was about to courteously greet Fang Mu, she was immediately intercepted by the Grandmaster Craftsman of Keystone Construction.

“Greetings, Sir Jianmu! I am the vice-chair of the Grandmaster-level craftsmen of Keystone Construction! ”

“If you are not in a hurry to rest, I wonder if you would like to tour the manor. I am at your disposal to introduce you to the manor’s design and layout!”

After the Grandmaster Craftsman intercepted her, She Wan could not help but roll her eyes internally in subconscious frustration.

Good heavens! Have some sensitivity!

I, as a close bodyguard, haven’t even spoken! What’s the rush!

She Wan adjusted her tone, ready to seize the opportunity to greet Fang Mu. However, she heard the Grandmaster Craftsman who had just spoken continue. “It should have been my uncle who built your manor!”

“But I am better than my uncle when it comes to constructing living quarters!”

“So, my uncle, as the chief Grandmaster Craftsman of Keystone Construction, is in charge of the construction of the foundation of your commerce association in the capital!”

“We also deployed twenty gnomes for your commerce association’s construction. In two to three days, the overall framework of the infrastructure should be completed.”

“I forgot to introduce myself, my name is Lü Jihong!”

She Wan had her greeting at the tip of her tongue, but it was pushed back by Lü Jihong once again.

If it wasn’t for the excellent physical control of Hexagram Beastmasters, She Wan would have definitely coughed embarrassingly by now!

Not giving She Wan a third chance to greet him, Fang Mu has already started talking with Lü Jihong..

Chapter 129: Fang Mu's Seniority! \_1

She Wan had no choice but to quickly walk behind Fang Mu and stand behind him.

Lu Xiaoyin understood She Wan's reaction.

She Wan's demeanor indicated that she came from a privileged family; only a person from such a family could develop such a demeanor.

Women from such backgrounds probably have no idea how to act as a guard.

They likewise have no idea about the survival rules appropriate for a guard!

If She Wan could understand this, then she would not regard herself and He

Qing as potential competitors, nor would she be so restrained in front of Fang

Lu Xiaoyin leaned her head towards She Wan and spoke softly.

"You must have had guards when you were a child, right? Think about how they behaved! "

Lu Xiaoyin's words caused She Wan's eyes to narrow, and she immediately understood where her problems lay.

Grateful, She Wan looked at Lu Xiaoyin, fully aware of what she should do in the future!

However, Fang Mu didn't pay attention to She Wan, and was unaware of her recent psychological changes.

He didn't seek out She Wan during this period simply because he had been staying in the Cleaner Division, which made having She Wan around inconvenient.

At this moment, Fang Mu's attention was on Lv Jihong's smiling face. He had high respect for a grandmaster dedicated to craftsmanship!

"Judging by your age, you should be Brother Lv's uncle, right? How about I just call you Uncle Lv?"

Lv Jihong's earlier words seemed to be simply affability at their first meeting.

But in reality, they were a declaration of his devotion to Keystone

Construction.

He was also concerned that Fang Mu might harbor some resentment upon learning that Lv Jihong was not the chief Grandmaster Craftsman of Keystone Construction!

Upon hearing Fang Mu's words, Lv Jihong was taken aback.

Lv Jihong had specifically made several phone calls to Lu Yuyu trying to understand Fang Mu's personality.

Lv Jihong knew that Fang Mu was very polite, but it now seemed that Fang Mu's attitude was beyond simple politeness!

It seemed that, as Lu Yuyu had said, they had indeed established a good friendship.

Lv Jihong laughed heartily.

“I’ve already exceeded 140 years old, I’m of the same generation as Little Fish’s grandfather!”

“My youthful appearance is all thanks to daily maintenance.” “But I do like the title Uncle Lv, it makes me feel young!”

Upon hearing this, Fang Mu was somewhat embarrassed.

Lv Jihong looked like he was only in his forties, showing no signs of aging!

If it were his previous life, a 140-year-old would be applying for a Guinness World Record!

But in this life, ordinary people lived to be between ninety and a hundred and ten years old.

Once one became a Beastmaster, one’s lifespan would continue to increase with one’s strength.

It is said that a Hexagram Beastmaster’s lifespan can reach three hundred years.

As a result, there are many old creatures in this world.

These old creatures have already retreated from the world’s stage, focusing on finding a way to extend their lifespans.

On their way here, Lu Xiaoyin had mentioned to Fang Mu that the Grandmaster Craftsman leading the Keystone Construction team was only a Five-pointed Star Beastmaster.

Fang Mu understood this.

The mental energy of Grandmaster Craftsmen is typically used to enhance their skills.

If they also poured as much effort into their strength, it would be difficult to achieve such high accomplishments in both fields.

Unlike She Wan, a Five-pointed Star Beastmaster couldn't maintain their youth.

To maintain the appearance of a person in their forties or fifties at such an age, Lv Jihong was indeed a delicate man.

But if he were to call Lv Jihong "Uncle Lv", would that not elevate his status to the level of Lu Yuyu's grandfather!?

After all they had been through, Fang Mu and Lu Yuyu had become friends, so naturally, Fang Mu didn't want to take advantage of Lu Yuyu.

Hence, Fang Mu decided to say directly.

"Then I'll call you Grandmaster Lv!"

"May I trouble you, Grandmaster Lv, to introduce the layout and construction of the manor to me!"

When he was out, Lv Jihong was often referred to as Grandmaster Lv.

The title of Grandmaster represents the highest achievement in a profession, and being called a Grandmaster is the highest acknowledgment of his profession.

Lv Jihong liked it when people addressed him that way.

However, the worth of a Grandmaster differs from one another.

Being addressed as such by the disciple of a Grandmaster Creator made Lv Jihong feel the pressure maximized, turning him into a bundle of stress!

Lv Jihong came to welcome Fang Mu, firstly, to express the importance he attached to Fang Mu.

Secondly, to introduce the construction and layout of the manor to Fang Mu.

Every detail revealed the attentiveness of Keystone Construction.

Furthermore, this manor was built for Fang Mu, and Lv Jihong wanted to ask if Fang Mu had any requirements.

After understanding Fang Mu's needs, this Grandmaster Craftsman could know which direction to focus on!

Lv Jihong led the way, pointing at the amethyst gold gate as he spoke.

"This is made from a whole piece of Amethyst Gold, carved by five Jade-cutting Mantises. It took nearly three months to forge these double doors made from strands of Amethyst Gold."

"Amethyst Gold has great benefits for nurturing Floral Beasts."

"If Floral Beasts grow in an environment with Amethyst gold for a long period, they can even coat themselves in a layer of metallic sheen." "In time, all sorts of roses and camellias can climb over the gate."

"Among them, many roses and camellias have a strong effect on pest repellent."

Midway through his explanation, Lv Jihong realized he was being overly verbose.

What does the disciple of a Grandmaster Creator not know!? He didn't need to make such superfluous introductions as he would with a regular customer.

Although Fang Mu had not heard about Amethyst Gold, it didn't impede his use of the Eye of Omniscience to investigate the effect of Amethyst Gold.

Instead of coating Floral Beasts with a metallic sheen, it was more accurate to say that Amethyst Gold enticed Floral Beasts to transform from the Wood System into the Metal System.

This kind of metal spiritual material was undoubtedly expensive.

Keystone Construction was indeed a professional construction team; presenting such high-level decorative supplies, could only guess their value.

Instead of planting roses and camellias with pest repellent abilities, it would be better to plant some auspicious climbing vine plants.

Fang Mu had many thoughts on the construction of his manor.

Moreover, Fang Mu planned on purchasing another 80 ,000 square meters of land from Mountain-opening Construction.

Thus, naturally, Fang Mu has even more ideas!

Fang Mu has a good foundation in fine arts and could draw a rough design for his manor.

The craftsmen of Keystone Construction could construct on the basis of the design drawing that Fang Mu provides.

Fang Mu's focus in this life's architectural style was always based on durability.

After all, facing a suddenly opening Dimensional Rift, the more durable houses reduce loss after a battle.

However, Fang Mu is protected by powerful individuals like She Wan, so the defense force in the manor will only become stronger.

Hence, Fang Mu can consider more about the aesthetics of the design in construction.

Fang Mu likes the summer architecture of the past.

Fang Mu had visited the Summer Palace many times and had seen many ancient gardens.

If a summer garden of 95,000 square meters were built on the mountain, it would be extremely comfortable to live in!

The 10,000 square meters artificial lake could also be linked with hundreds of arched bridges, making it a great place to enjoy the scenery and take a boat ride!

Fortunately, the interior of the manor has not been decorated much, and the construction frame built by the Gnome is easily adjustable.

Looking at the complex base that the gnomes had constructed, Fang Mu turned his head and thanked Lv Jihong.

Upon hearing this, Lv Jihong hurriedly said.

“If there is any need to thank, it would be us at Keystone Construction who should be thanking you for providing us with the high star creator resources and helping foster the relationship between Fish and Xiao Su!”

Fang Mu was surprised upon hearing this.

When did he help foster the relationship between Lu Yuyu and Luo Su?

Didn't Luo Su and Lu Yuyu have an arranged marriage since childhood?

Could it be because of the Rainbow Devouring Sea Python that he had enhanced?

That's a possibility!

The upgrading of the bloodline and quality of the Rainbow Devouring Sea Python indeed involved Lu Yuyu.

Fang Mu plans to log into the Battle Network to enter his personal information after moving in.

Then, try his first battle after becoming a Beast Master!

After that battle, working hard for a whole night should suffice to sketch out the general design blueprint of the manor!

Chapter 130: The clingy little rabbit! ” 1

Whether in the past or present, a house under construction gives people a sense of being dirty and messy.

However, it was clear that the scattered materials on the ground had been tidied up in advance.

Lü Jihong led Fang Mu to the door of a room and said,

“Sir Jianmu, this is the room we have prepared for you by working overtime.” “The room next to it is for your guards or servants to live temporarily!”

“Since I don’t know what type of furniture you’re interested in, I took the liberty of choosing a set for you.”

“All this furniture was personally designed and crafted by me.”

“If you’re not interested in this set of furniture, I can help you change it immediately!”

Upon hearing this, Fang Mu pushed open the room door.

Fang Mu initially thought that his room would be at most about two hundred square meters in size.

But he didn’t expect Keystone Construction to create his room to be nearly five hundred square meters!

This is just a bedroom!

The ceiling of the bedroom is a large bas-relief mural.

The mural is precisely the scene of a giant whale carrying a castle, soaring in the sky, which he had seen on the fifth floor of Rui Shi Yuan!

The craftsmanship of Grandmaster Craftsmen far surpasses that of Master

Craftsmen. At first glance, Fang Mu felt the whale was spinning about his head!

A feeling of grandeur, magnificence, and solemnity spontaneously arose in Fang Mu’s heart!

It was as if this giant whale bore the secrets of the previous epoch!

The lighting fixtures cleverly embedded in this mural.

When the lights are turned on, the glow of stars is illuminated in the clouds where the whale resides, lighting up the whole room!

The illuminated cloud also completely hides the giant whale in the sea of clouds, and the magnificent city on its back vanished as well!

Fang Mu couldn't help but exclaim,

"Such a lighting design is really good!"

Hearing Fang Mu's sigh, Lü Jihong said with self-satisfaction,

"I once had the opportunity to observe the original painting up close in the Purple Que School Palace!"

"In the original painting, you can see stars twinkling around the giant whale."

"Many scholars interpret this scene to represent the giant whale flying at night."

"But I think these brilliant stars have an inseparable relationship with the whale itself!"

"So, I used small lights to portray the brilliance of the stars in the original painting. "

"But this simulated replica can only reproduce about a tenth or two of the original."

"The stars hidden in the clouds of the original painting are more like constellations composed of nebulae."

Hearing Lü Jihong's words, Fang Mu unknowingly thought of the organization Starwheel he had joined not long ago.

It seemed not far from the day he had contracted with a Descendant Star Messenger!

Besides the mural on the ceiling, all the furniture was made of solid wood.

Each piece of furniture had exquisite carvings on it, and the carvings on these pieces of furniture formed a whole, having the same theme and style.

They were able to meet Fang Mu's obsessive-compulsive requirements perfectly.

This furniture style was in line with Fang Mu's design of the manor.

Fang Mu believed that after seeing his drawings, Lü Jihong, who was able to create these pieces of furniture, would quickly understand his ideas.

"I like the furniture in this room, no need to change!"

"Grandmaster Lü, I want to design the outline of the manor myself and then have you add details!"

If Fang Mu could appreciate the furniture he had created, it would be the best acknowledgment of his abilities.

Lü Jihong was worrying about how to build Fang Mu's manor and had intended to ask for Fang Mu's ideas.

But before he opened his mouth, Fang Mu took the initiative to speak, which was perfect!

What Lü Jihong feared most is working with people who didn't express any specific requirements but were very picky after the job is done.

If it were someone else, Lü Jihong could simply shrug off and refuse to offer service!

But dealing with Fang Mu, obviously Lü Jihong couldn't do so!

If Fang Mu became very picky, he would just have to make gradual changes according to Fang Mu's requirements.

"No problem! Once I have seen your design, I'll come up with detailed implementation plans and discuss them with you!"

"The only downside of this solid wood furniture is that it's too hard. You try it for a few days and see if you can get used to it."

"If you can't, I can get you a few sets of leather furniture from the chief!"

Having a final look around the room he had carefully arranged, Lü Jihong continued,

"This room still lacks some matching plants and flowers."

"Once adorned with plants and flowers, the whole room will feel completely different! "

Lü Jihong could have finished the plants and flowers along with the decoration, but he intentionally left them out.

He didn't want to show off his skills in front of a disciple of a Grandmaster Creator like Sir Jianmu!

Fang Mu did not avoid Lü Jihong and directly summoned the Coagulated Jade Camellia from the Purple Ice Crystal Ring.

He placed the Coagulated Jade Camellia with over fifty blossoms on a table in the room.

A faint fragrance immediately enveloped the entire room.

The moment they saw the Coagulated Jade Camellia, Lü Jihong, Lu Xiaoyin, She Wan, and He Qing all widened their eyes.

He Qing was surprised at the Coagulated Jade Camellia itself.

Lu Xiaoyin, She Wan, and Lü Jihong were surprised by the state of the Coagulated Jade Camellia Fang Mu brought out.

It's a rarity for a Coagulated Jade Camellia to bloom more than thirty buds!

Because it produces Condensed Jade Dew, the flowers of the Coagulated Jade Camellia, due to lack of nutrients, are usually in a semi-enclosed state.

But the Coagulated Jade Camellia that Fang Mu brought out, each flower was in a state of utmost splendor!

Even with more than fifty blossoms blooming on the tree, there were still seven or eight buds that had not had time to bloom!

Fang Mu must water the Coagulated Jade Camellia with life energy of what percentage of purity every day.

Only then could the Coagulated Jade Camellia, which is most likely to lack life energy, still be so brilliantly blooming even when it's about to condense the Condensed Jade Dew at night!

Truly worthy of a disciple of a Grandmaster Creator, daring to use Life Elixir to such an extent!

From Fang Mu's attitude towards using Life Elixir, one can see just how abundant Fang Mu's Creator resources are!

Even Lu Xiaoyin, who has had the most contact with Fang Mu, had not seen Fang Mu's tools much before.

This is the first time Lu Xiaoyin has seen this Coagulated Jade Camellia.

After placing the Coagulated Jade Camellia, Fang Mu took the Aromatherapy Rabbit out of the Purple Ice Crystal Ring.

Fang Mu had been away from home for a while and had left the Aromatherapy Rabbit and the Coagulated Jade Camellia at home.

Since Fang Mu was easily able to obtain life elixir, he did not restrict the

Aromatherapy Rabbit from eating the petals of the Coagulated Jade Camellia.

Even with improved food, Fang Mu was still a heartbreaker in the eyes of the Aromatherapy Rabbit!

As soon as Fang Mu took it out, the Aromatherapy Rabbit immediately pounced into Fang Mu's arms.

Its little head peered out of Fang Mu's collar, its small paws clinging to Fang Mu's neckline, refusing to leave Fang Mu's arms!

If it weren't for the high-quality sweatshirt that Yan Wood bought for Fang Mu, Fang Mu's collarbone would probably be exposed!

Looking at the little creature in Fang Mu's arms, since they were not Creators, they couldn't see what was special about it.

However, She Wan received feedback from her Guardian Beast.

She Wan looked at the little rabbit with light pink fur in Fang Mu's collar with a different look in her eyes.

This little rabbit, which looked like it had no combat capability, actually had a Fairy Bloodline!

In the past, when Fang Mu had just become a Beast Master, he dared not bring things like the Coagulated Jade Camellia and Aromatherapy Rabbit out in public!

But now Fang Mu's identity is different!

Fang Mu, who can now even strive for the "Sacred Relic" Sakura Tempering Carp, can be said to not surprise people no matter what rare thing he brings out!

Walking to his bed, Fang Mu directly summoned the Heaven Fragrance Peony, which was taller than himself.

After the Heaven Fragrance Peony was summoned by Fang Mu, the light and shadow fell on the ground through the flower-spots on the leaves.

It made the wooden floor seem to be covered with a brilliant sunset!

The unique fragrance of the Heaven Fragrance Peony overtook the scent of the Coagulated Jade Camellia.

This scent intoxicated everyone in the room, including Fang Mu.

Even Fang Mu, who was accustomed to the smell of the Heaven Fragrance Peony, was not exempt, let alone the others!

The nine buds of the Heaven Fragrance Peony blossomed together, with hundreds of petals as thin as cicada wings overlapping each other, holding up the pistils, just ineffably beautiful!

The Aromatherapy Rabbit was the first to react.

Upon seeing the Heaven Fragrance Peony, the Aromatherapy Rabbit raised its head in Fang Mu's arms.

It rubbed its ears against Fang Mu's cheek, its forehead against Fang Mu's chin, looking at Fang Mu with pitiful eyes.

Fang Mu knew the Aromatherapy Rabbit was craving the petals of the Heaven Fragrance Peony!

The biggest use of the Heaven Fragrance Peony for Fang Mu was not to collect pollen, but to wait for the Heaven Fragrance Peony to condense the Fragrance

Bead.

Once the Fragrance Bead was removed from the Heaven Fragrance Peony, the flower would wither within a day.

Fang Mu can completely take off the flowers of the Heaven Fragrance Peony and feed them to the Aromatherapy Rabbit before it withers!

"Rouge, you won't be left out!"

"But you can't eat the Heaven Fragrance Peony all the time, I will add an extra meal for you every now and then!"

Hearing Fang Mu's words, Rouge crawled out from Fang Mu's collar.

It stood shakily on Fang Mu's shoulder with its hind legs, and pecked at Fang Mu's face with its small mouth.

Fang Mu stroked Rouge's long ears with his hand.

Such a sticky little rabbit!
