

Beast Tamer 141

Chapter 141 Rainy Night Bat Shadow! 1

Under the night sky, JA City was under siege by a torrential rain. The raindrops struck against the windows, producing a “bang, bang, bang” noise.

It felt very much like a hailstorm in the northern regions!

The raindrops, as large as peas, drenched anyone who ventured out at night, quickly turning them into a drenched mess.

The rain brought a touch of coolness to the deep midsummer night.

Quite a few people who hadn’t slept yet watched the heavy rain outside the window and sighed in the darkness.

“Going out tomorrow won’t be as hot as it has been these past few days!”

Many fabric makers added some ice attribute materials to the summer clothes they made.

Wearing this type of customized clothing, even on the hottest days, one would not be bothered by the heat.

But ordinary people, even if they had extra money, would save it to buy Guardian Beasts for their offspring, or save up for a few years to send their descendants to the Contemplation Hall.

They simply were not willing to spend too much on clothing!

While some were happy and some were worried, the Beast Taming Base in the suburbs, which cultivates special production plants, was hiring people within the last month.

They were planning to harvest a series of fruits such as sweet iceberries, dragon scale fruits, and cool heart oranges.

However, due to the heavy rain, as long as it lasted for more than three hours.

Such rainfall would inevitably cause these production-type Guardian Beasts to absorb too much water, causing the fruits to fall prematurely or decrease in sweetness.

From the original first-class product to a third-class product, or even to a substandard product that can only be used as canned fruit!

The Dragon Rising Federation is very strict about the grading of food.

The price difference between a first-class and a third-class product can be more than double.

Many Beast Masters who manage the production-type Beast Taming Base are working overnight with their workers, preparing to rush to the base for early harvesting, hoping to reduce losses.

On the edge of an old factory in JA City under the rainy night, a sky full of blood-colored bat shadows appeared out of nowhere.

These blood-colored bat shadows congealed together, transforming into a handsome young man dressed in a dark red suit, tied with a golden bow, and holding a blood red rose.

The handsome young man had a head full of soft, golden short hair.

In the middle of his dark red eyes were a pair of dark gold pupils, and his fair skin was as clean as jade.

The heavy rain was repelled by a strong field and dared not intrude near the handsome young man's body.

The handsome young man's eyes were narrowed, and he took a subtle sniff.

He murmured in a deep magnetic voice.

“There are traces of five high-level Blood Tribe members here!”

“From the purity of the scent, there should be four small earls and one small duke.”

“Ha! Someone has used five high Blood Tribe hearts in this unassuming factory! ”

As he spoke, the handsome young man raised the bright red rose in his hand, and the petals of the rose suddenly began to flutter.

Each petal turned into a drop of blood, and each drop of blood divided into hundreds of blood-colored bats.

These blood-colored bats scoured the factory back and forth.

After searching for a while, a playful expression appeared on the handsome young man’s face.

Too clean!

Wherever one goes, traces will invariably be left behind, but here – not a trace at all!

As if something occurred to him, this handsome young man stuck his fair hands through the storm and into the rainy night.

At this moment, rain fell on the handsome young man for the first time.

“I hope the Evil Heart Sect can prepare a bit faster, no more than one month at most.”

Just then, a bolt of lightning suddenly split the sky. A muddy yellow lightning bolt snaked across the sky like a dragon.

When the rain began to fall in the factory’s yard once again, the handsome young man was gone.

Only a faint smell of blood mixed with a strange sweet smell lingered around the factory, but it soon disappeared without a trace, washed away by the rain.

The Battle Network, which was not yet calmed by the appearance of the Sequential Spiritual Instrument, was stirred into a big storm because of the rainstorm.

Xin Guang didn’t have many fans on the Battle Network, but that didn’t prevent many night owls who couldn’t sleep at night from specifically looking for battle videos to watch on the Battle Network!

Some people were bound to find the videos that Xin Guang had just uploaded.

To attract attention to his video, Xin Guang deliberately added labels such as “Silver-tier Half-Elf” and “Mysterious Pattern”.

People who just came across Xin Guang’s uploaded video were immediately interested when they saw the words “Mysterious Pattern”.

But when they saw the words ‘Silver-tier Half-Elf’, they rolled their eyes and lost any desire to check out the video!

Silver-tier Half-Elf! Do you think you’re fighting against the son of a Grandmaster Creator?

It’s unbelievable that you could even dare to make such claim!

Since when has even forums like the Skin Peeling House become as chaotic as age restricted zones?

While many were scared away by the title, there were some driven by curiosity who clicked in.

At the very moment they entered, they were able to determine from the size and style of the site that this battle was a ranked match.

A Half-Elf appeared during a ranked match?

The post was made by Xin Guang, the bald youth.

Is this big meathead out of his mind for fame?

Well, doesn't he know that posting such misleading titles leads to the potential of being penalized by keyboard warriors and even being reported to be banned from the forum?

The Skin Peeling House forum has both the forum masters and vice forum masters!

These forum masters and vice forum masters will review the true content of the posts a while after they are made.

If false content is found and the circumstances are too severe, a ban may be issued!

But their doubts didn't last long, as the attention of those who came in out of curiosity was immediately caught by the Guardian Beast that the bald youth opposite the teenage boy had summoned!

A girl doll, donning a fiery red cloud crown and magnificent garb, sat on a dark cloud. She stared seriously across at the monkey, which was brandishing its arms and surrounded by a swirling sheen of fire.

Can an Elemental Beast really evolve into a Half-Elf at the Silver-tier? Surely, this must be a joke!

Even if they had seen it with their own eyes, the viewers still found it hard to believe this fact.

Not only were the people who clicked in shocked once, they were shocked twice!

The audience that had just experienced the shock of the Sequential Spiritual Instrument suddenly found that they were yet again amazed by the same person!

But this time, not because of the Sequential Spiritual Instrument, but due to an Elemental Beast at the Silver-tier that had evolved into a Half-Elf.

It was not until the end of the battle that the viewers felt like they were in a dream!

This Elemental Beast, which had evolved into a Half-Elf, was also of Silver-tier, the same as the Iron Arm Fire Monkey.

The level of the Iron Arm Fire Monkey was Silver-tier six. Even if the power of the Half-Elf had reached the Silver Peak, it shouldn't have been able to suppress it to such an extent under the effects of the bald head's Mysterious Pattern!

A few Creation Master's Apprentices and Assistants who are very active on the Skin Peeling House forum liked to critique the video recordings of battles.

Many online hosts try to hide their Guardian Beasts' abilities. But once these abilities are excavated by the Apprentices and Assistants, they eventually give up and let the cat out of the bag.

Even though some Creation Masters occasionally visit the Skin Peeling House forum when they are in a good mood.

But the audience, the ones who only watch, clearly do not dare to tag these Creation Masters.

But they dare to tag these active Apprentices and Assistants!

These Apprentices and Assistants are showing a trend of becoming internet celebrities.

Tagging them is like helping them find material for their posts!

Material involving a Silver-tier Half-Elf would surely be of great interest to these Apprentices and Assistants of the Creation Masters!

As expected by the audience, those who were tagged and hadn't gone to bed yet were instantly drawn in by the combat video!

The shock they felt after clicking into the video was equal to how ridiculously unbelievable they found the title initially.

But soon, these people who had some capability to discern guardian beasts shifted their astonishment from the bloodline to the quality of the Rainy Doll and its poison.

Most of these Apprentices and Assistants follow Low-Level Creators, and very few follow Intermediate Crafting Masters.

Those who have the ability to follow Senior Creators usually don't have the energy to spend time on the Battle Network!

Soon, these tagged people realized their own folly and lack of knowledge. Eventually they posed two soul-stirring questions:

1: What is the quality of this half-elf that it could overpower a Iron Arm Fire Monkey that has been amplified by a Mysterious Pattern!

2: Just how many kinds of poison did the Iron Arm Fire Monkey ingest to be reduced to a pool of black concentrated liquid in less than a minute!

Chapter 142 It is Legend! 1

Liu Tiantian enjoyed enriching herself in the night.

However, Liu Tiantian did not enrich herself by surfing the Battle Network or Beastmaster Web.

Instead, she read books related to Beast Mastery!

Liu Tiantian understood that as a special correspondent for the Beastmaster Alliance, her capabilities were sufficient.

However, when it came to commentating on professional matches, she fell far short!

Veteran commentators could easily identify Guardian Beasts' quality, rank, and abilities.

They had basically taken the subject of Beast Observation to professional levels! At her current amateur level, if she did not strive to enrich her knowledge, she would fail!

It would be impossible to even maintain her current status, let alone advance! The Beastmaster Alliance had given her so many opportunities because they wanted to cultivate her.

If she did not seize them, numerous capable replaceable beings were at the wait!

After reading until 2 a.m., Liu Tiantian, who could not help but yawn, prepared to apply a facial mask before going to bed.

While applying the mask, Liu Tiantian recalled the scene where Jianmu leisurely steps forward to confront the Beast spirit of the Furious Thunder Leopard!

At this time, the phone rang.

Picking up her phone, Liu Tiantian reluctantly took the call, puzzled as to why Dai Meng was calling so late!

God, please don't let her well up for drinks!

Since becoming a commentator, Liu Tiantian started to have some anxiety about her appearance.

In a few days, she would be heading to Huaihe province to be a guest commentator for a competition!

If she went drinking and had a hangover, no amount of skincare would help recover her condition quickly!

“Hello, Meng Meng! You’re calling so late, aren’t you with your boyfriend?”

Liu Tiantian had barely finished speaking before she heard a coquettish reprimand on the other end of the phone.

“Hey Tiantian! Could you speak less provocatively?”

“If your voice was any grosser I wouldn’t be able to explain it to my boyfriend!” “Don’t you know I always like to speak on speakerphone?!”

Liu Tiantian chuckled at her words, realizing her previous statement might have had some innuendo.

Liu Tiantian acted aloof in public, but with her good friends, she was much more laid-back.

“Oh? So if I sound like a woman, you wouldn’t have to explain to your boyfriend!?”

“Mengjiang, the lilies in our hometown are blooming again, shall we wear lace and enjoy the sight together!?”

No sooner had Liu Tiantian finished speaking than a muffled laugh came from the man on the other end of the phone.

Dai Meng responded both exasperated and thrilled.

“Tiantian, would you act your age! If your fans knew what you were really like, their fantasies would be shattered and illusions broken!”

“I called you because of the news article you wrote about Jianmu!”

“There is more news about Jianmu now, do you want to continue following it?”

“The news about Jianmu this time is a bit tricky, in order to figure out what exactly is happening, you’ll need to consult with someone about Jianmu’s Silver-ranked Half-Elf!”

Upon hearing Dai Meng mention Jianmu, Liu Tiantian immediately perked up, brimming with enthusiasm!

But when she heard about the Silver-ranked Half-Elf, she couldn’t help but gasp in surprise.

Ever since she perceived that Jianmu perfectly lived up to the persona of a noble son, she had been guessing what Guardian Beast Jianmu had.

Liu Tiantian knew that Jianmu's Guardian Beast would not be ordinary, but she never imagined it would be a Half-Elf, a being of such a high level!

"Meng Meng, we'll talk later! I'm going to check the Battle Network! "

"Mr. Tan Chen, who's been supervising the Sixth Era Guardian Beast project, hasn't gone to rest yet."

"I will ask Mr. Tan Chen!"

Having said that, Liu Tiantian quickly hung up the phone.

On the other end of the line, the busy signal sounded in Dai Meng's ears, and she muttered,

"Putting her work before her friends! "

Indeed, Jianmu's performance in the battle video was utterly charming. But he was so young, just sixteen years old!

To get such a delightful piece of cake like him, Liu Tiantian would have to wait at least five or six years!

And Jianmu definitely possessed a status that was unimaginable!

These types of people were not easy to get!

Even if she did manage to woo Jianmu, it would be impossible to get past his family!

At the same time, Dai Meng was a little surprised. Liu Tiantian had used Mr. Tan Chen's channel for a news piece!

Mr. Tan Chen was supervising the cultivation of the Clear Moon Silver Fox, hoping to make it evolve into a Sun-swallowing Fox.

Mr. Tan Chen could only train the Clear Moon Silver Fox at night, so for the past three years, he had slept during the day and worked at night.

However, this project has been ongoing for three years and there have been no results.

Dai Meng speculated that this project would most likely end in failure.

But running a failed project would not damage Mr. Tan Chen's status.

Mr. Tan Chen was the closest Senior Creator to becoming a Master Creator within the Beastmaster Alliance of Longyang City in Hengyang Province. Perhaps the time will soon come when they could no longer call him Mr. Tan Chen but Master Tan Chen!

Liu Tiantian thought of using Mr. Tan Chen's connections partly because she was deeply curious about the Silver Stage Half-Elf of Jianmu.

On the other hand, Liu Tiantian knew very well that Mr. Tan Chen would undoubtedly be intrigued by a Silver-Stage Half-Elf.

Mr. Tan Chen would not be repelled by his curiosity, but would instead think more highly of her!

Before going to see Mr. Tan Chen, Liu Tiantian specifically looked at the video on the Battle Network.

After watching the video, Liu Tiantian's heart was tossed about in horror.

Using her skills in beast observation, Liu Tiantian, through the four subtle marks on the neck of the Rainy Doll, confirmed that it was a Silver Level Four Guardian Beast.

After confirming the Rainy Doll's rank, Liu Tiantian estimated that its quality must reach at least the Epic Quality, otherwise, it wouldn't possess such oppressiveness!

Elemental amplification runes were exceptional in battles!

It was a Water attribute Half-Elf, yet it could use such potent toxins.

The Iron Arm Fire Monkey wasn't a defending type of Guardian Beast.

However, among the attacking type beasts, the Iron Arm Fire Monkey's defensive capability was considered excellent, its fur hardly penetrated by the same stage beasts.

The dual-iron arms had a high muscle content, and its bones were hard.

To dissolve a Guardian Beast like this into thick sludge within such a short period, even a Platinum-Stage Beast would find it unbearable to endure such a toxin!

Liu Tiantian was filled with astonishment and doubt.

After organizing the materials, Liu Tiantian immediately headed towards the Beastmaster Alliance to see Tan Chen.

When Liu Tiantian saw Tan Chen, he was holding the Clear Moon Silver Fox and sighing deeply.

The assistant beside him also shook their heads in disappointment.

This attempt was the closest they had ever come to success in all the experiments, but they had still failed!

After this failure, this project was unlikely to continue!

Seeing this, Liu Tiantian inwardly thought that she had come at a wrong time.

Besides, she had sent a message to Mr. Tan Chen before she came. Now, she wouldn't be able to leave even if she wanted to!

When Tan Chen saw Liu Tiantian, he placed the Clear Moon Silver Fox on the ground and motioned for her to come over. "Bring the video over for me to see!"

"I have never heard of a Silver-Stage Half-Elf!"

Upon hearing this, Liu Tiantian quickly stepped forward and played the prepared video in front of Tan Chen.

Tan Chen, after just one look, confirmed with certainty.

“This Half-Elf has three elements co-existing in it, with two as the main elements and one as an auxiliary.”

“There’s only one possibility for this phenomenon to occur, that is, this Half-Elf has reached the Legendary Quality!”

“Only the Legendary Quality can explain why the Iron Arm Fire Monkey, an aggressively attacking Guardian Beast, lost so miserably even though it was two levels higher and had the help of mystical runes!”

“As for the toxins, I dare to presume that there are at least more than five mixed poisons.”

“The rain dropped by the Half-Elf damaged the Iron Arm Fire Monkey’s fur, which must have involved Acid Poison and Erosion Poison.”

“The Iron Arm Fire Monkey started vomiting blood before its fur was fully damaged, and the vomited blood clots contained yellow- green hyphae.”

“This is the effect of Mold Poison, which is also the reason for the rapid decay of the Iron Arm Fire Monkey’s body!”

“The fact that it vomited blood clots instead of fresh blood proves that Blood Poison was also at play.”

“Towards the end, the Iron Arm Fire Monkey was clearly mentally disordered, so the rain must have contained some mental toxins!”

“Although I mentioned five kinds of toxins, I just said that there were at least more than five mixed poisons.”

“That’s because everything happened too fast! Without the aid of other special toxins, slow-acting toxins like Mold and Blood Poison couldn’t possibly take effect so quickly!”

After saying this, Tan Chen paused and a look of reverence appeared on his face.

“Just by this legendary Silver-Stage Half-Elf of Jianmu, I can confirm there must be a Grandmaster Creator behind the power where Jianmu stands!”

“Tiantian, I know why you came to see me!”

“I advise you not to publish this press release!”

“The strength and information of such a person cannot be widely spread on the Battle Network.”

“By noon today, most of the news regarding Jianmu’s Guardian Beast and spiritual instrument will probably disappear from the Battle Network!” “Similar things have occurred before.”

“If you publish this press release, it may have some adverse effects on you in the future!”

Chapter 143 Dragon Mother, your news is slow! 1

Upon hearing Tan Chen’s words, Liu Tiantian felt a chill in her heart and thought to herself.

What a lucky break to have Dai Meng tip her off about Jianmu’s news tonight!

If she had only seen this video tomorrow morning, when Mr. Tan Chen was likely already in bed, she would have probably rushed to publish the press release.

In fact, she didn’t even have to wait until tomorrow noon. The Beastmaster Alliance headquarters received a phone call from Bishop Flowers, the Ninth Sacrifice, under circumstances even Feng Lin was unaware of.

By the time Liu Tiantian returned home and checked the Battle Network again, all the battle recordings of Jianmu had disappeared!

Only discussions remained in the Battle Network, like legends.

Liu Tiantian could glean the implications from the current situation.

It's not that Jianmu's backing force didn't want his reputation to spread.

They simply didn't want details about Jianmu's Guardian Beast and the Sequential Spiritual Instrument related to him to be dug out and become common knowledge.

This treatment was exactly the same as that given to MO Shang, the grandson of "Dragon Mother", who represented the Dragon Rising Federation in the world university competition!

In the not too distant future, she might see Jianmu in official competitions.

In the northern suburbs of the Royal City, a tall building made of white stone was covered in various kinds of vines.

These vines wrapped around the building's exterior, forming a green curtain.

On the curtain-like facade, three plants blooming with pale purple flowers were planted.

Each light purple flower was subtly colored and covered in intricate patterns on its petals.

A flower made from five petals was only the size of a pinky fingernail.

Over a hundred thousand flowers on each plant opened to the night sky, swallowing up the darkness and emitting a faint light.

The pale purple flower wall gently hung down from the top of the white stone building.

This made the building look refreshing and healing at first glance.

However, this building was the heart of absolute authority and solemnity in the Royal City, the headquarters of the Sanitation Workers.

The vine plants on the wall serving as a green curtain were plain and ordinary, providing great air purification and toxin degradation, known as the Refreshing Vines.

The vines themselves were ordinary, but each of the plants blooming with over a hundred thousand light purple flowers at the top were Sequential Guardian Beasts.

And they were all among the top rankings in the sequence.

There were rumors that a catastrophe-level dimensional rift had appeared in the sky above the Sanitation Workers headquarters.

The moment the catastrophe-level dimensional rift just opened, those Sequential flowers planted on the wall of the Sanitation Workers headquarters released a flurry of petals covering tens of kilometers.

Some of the petals protected an area of several kilometers, preventing the polluted air from the dimensional rift from contaminating the land.

Other petals rushed towards the catastrophe-level dimensional rift, pouring into the rift itself.

No dimensional creature could escape from the catastrophe-level dimensional rift.

Of course, this was just a rumor.

Many young people didn't believe that the three lightly fragrant flower Guardian Beasts that could be seen right at the entrance of the Sanitation Workers headquarters had such amazing power.

But the elderly living in the northern suburbs of the Royal City would always speak of this event with great admiration and gratitude.

If their naughty kids dared to question this story when the elderly were telling it, they were sure to experience paternal love!

A grandfather's punch, once swung, hurts more than a father's slap!

At this moment, in the top-floor room of the Sanitation Workers headquarters, a skinny man with smiling eyes was looking at the nighttime scene through the window.

He was holding a phone in his hand, seemingly waiting for a call.

The moment the skinny man's smiling eyes dropped, a mournful aura naturally sprang up.

The man adjusted the long spike belted at his waist, half of which was carved with dark red sacrificial words using some creature's Blood.

The sacrificial words moved on the blade, and the blade faintly emitted three elemental auras.

Occasionally, it mischievously sliced the air, emitting a sound like cutting through steel.

A beast head consisting of three skulls bloomed at the cut.

The three beast mouths on the beast head looked like they could spew out breath at any moment.

At this moment, the phone the man was tightly holding rang.

As soon as the man picked up the phone, a kind and amiable female voice came from the other end.

“Ninth Sacrifice, I heard that you personally called the Beastmaster Alliance,”

Upon hearing this, the man’s smiling eyes squinted and he responded in a surprisingly casual tone.

“Dragon Mother, your news is really slow!”

“QingGe called me ten minutes ago!”

Dragon Mother chuckled lightly and didn’t continue with Ninth Sacrifice’s words.

“Ninth Sacrifice, it doesn’t matter if I found out late. The important thing is that I still have time to make this call to you!”

“The three of us have already discussed this. While we’ve rated Jianmu as a dual

SS-rank talent for the Scavengers, we will not interfere with Jianmu’s growth!” “Aren’t you afraid the Grandmaster Creator behind Jianmu would object to

The man raised his smiling eyes slightly, and his lips pulled into a mature male charm!

“After my investigation, the Grandmaster Creator behind Jianmu is the Qixing who was selling Life Elixir with ninety percent purity on the Beastmaster Web previously!”

“I don’t know what kind of person Qixing is, and I have never had the opportunity to get in touch with him.”

“But what I’m doing is literally wiping Jianmu’s ass!”

“We both know very well the serious consequences if the specific information about the Guardian Beast is revealed.”

“Especially you, being targeted by the witch from the Pyro Gu Federation, should understand the stakes!”

“If this act of mine leaves Qixing unhappy then consider it like I tried to flatter him but ended up kicking him instead!”

Dragon Mother’s original congenial voice suddenly cooled down when Ninth Sacrifice mentioned the witch from the Pyro Gu Federation.

The chill made Ninth Sacrifice instinctively shudder.

“So what if my Guardian Beast was discovered by the witch from the Pyro Gu Federation!?”

“My Crimson Armor just lost a toenail, but she has become a dwarf not even one meter tall!”

Seemingly aware that her reaction was a bit over the top, Dragon Mother’s voice gradually calmed down.

Ninth Sacrifice pursed his lips in response.

Indeed, the witch from the Pyro Gu Federation became a dwarf less than a meter tall.

Originally, she was 1.7 meters tall and had a great figure. But she ended up under hundreds of blows using Dragon Mother’s Dragon Tail Hammer to her legs.

The part below her waist vanished, not even fragments were found.

The fact that she survived and maintained a height of 70-80 cm was already a great fortune!

A long time ago, Ninth Sacrifice and QingGe understood one thing, and that was not to provoke Dragon Mother if possible.

If you offended Dragon Mother and get on her hit list, you were out of luck! “Ninth Sacrifice, hopefully Qixing can understand your intention!” “You’ve seen that Silver Level Four Legendary Quality Half-Elf, right!?”

“I think Qixing is not as simple as an ordinary Grandmaster Creator!”

Upon hearing Dragon Mother’s words, Ninth Sacrifice nodded in agreement but did not continue the conversation on this topic.

When it comes to the level of Grandmaster Creators, those who have not reached this level often avoid discussing it.

Because it’s impolite to discuss such things in detail!

Powerhouses will instinctively show respect to non-opposing Grandmaster Creators.

“I feel the poison of this half-elf is very similar to the poison of the Dimensional Creature. There’s a good chance Qixing has studied the poison on the Dimensional Creature.”

“And has already implemented it into his Guardian Beast raising methods!”

Ninth Sacrifice had a chat with Dragon Mother, but in the end, they realized that all the chatting was in vain.

Becasue besides Qixing, no one else could decide Jianmu's development direction.

"Dragon Mother, I suggest promoting Jianmu's rating to SS+!"

"Excluding the element of Qixing, Jianmu deserves this with just this Half-Elf alone! "

"And, will the other Guardian Beasts not shown by Jianmu be weak?"

"Jianmu is not only a disciple of Qixing but also a formal member of our Scavengers."

Dragon Mother pondered for a moment and then spoke.

"I agree with this. Since you proposed this, you should inform QingGe!"

"The people from Keystone and Mountain-opening Construction have been making efforts recently, trying to get the chance to obtain the Sakura Tempering Carp."

“Keystone Construction is close to Jianmu, mostly trying to help Jianmu.”

“Having an Executor and a Director in the Beastmaster Alliance might make it difficult for them to achieve this.

“Why don’t we give them a push and provide a little help for our Scavengers’ SS+ rank talent!”

Ninth Sacrifice chuckled at this.

“Dragon Mother, I remember your grandson MO Shang is also interested in the

Sakura Tempering Carp!”

“He even asked you for a lot of resources not long ago..”

Chapter 144: Blood Duke and Prince!_I

The Dragon Mother on the other end of the electric ringlet heard what the Ninth Sacrifice said and laugh carelessly.

“Let the young people handle their own business!”

“In the pursuit of treasures, the ones with more economic power should prevail. ”

“If they lose, it simply means they are not skilled enough!”

“Shang’er wants the Sakura Tempering Carp for the development of her own small team, but she’s unlikely to compete against Zhang Qing, the assistant of Grandmaster Shuo Yang! ”

“Zhang Qing is perfectly compatible with water-attribute fish beasts.”

“Zhang Qing obtaining the Sakura Tempering Carp is most likely not for rank promotion, but for contract.”

“To explore the possibility of evolution with the Sakura Tempering Carp!” Having stated that, the Dragon Mother diverted the conversation.

“Ninth Sacrifice, you say I’ve been unable to find a suitable disciple. Why not lower some standards and let the leaders of the local military corps select talents who are compatible with dragon beasts for me?”

The Ninth Sacrifice knew that the Dragon Mother had wanted to take a disciple for many years.

Having the leaders from different places present talents for her selection seemed to be a great idea!

It would also enhance the connection between the Scavengers and the

Longyuan Command.

Among the eight formal organizations, the Longyuan Command, in name, was on par with the Scavengers.

But in fact, it was half a step higher than the Scavengers!

In addressing the matter of removing alien beasts, the Scavengers and Longyuan Command had been cooperating for years.

“Your idea is great, and it happens that I am going to meet Kong Changlin this afternoon. I can pass this idea to him.”

“I just hope you’re not too strict this time, otherwise, you probably still won’t find a disciple!”

The next morning, Fang Mu directly took She Wan to the Scavenger Division.

After smoothly receiving two Shadow Eye Stones and a Blood Noble from Feng Lin, Fang Mu entered a soldier-level crematorium.

Fang Mu didn't rush to use the Shadow Eye Stones.

Recalling the painful experience of using the Shadow Eye Stone last time, Fang Mu was still terrified!

Two Shadow Eye Stones were definitely not enough to upgrade the Fool's Shadow to Perfect Quality.

So, Fang Mu decided to wait until he had collected a few more Shadow Eye Stones before enduring the suffering all at once!

To see what exclusive characteristics the Fool's Shadow would obtain after upgrading to Perfect Quality!

The Blood Noble with its limbs locked was kept in an iron cage.

As Fang Mu had done with the Water Absorption Spirit and the Bloodline newborn, Fang Mu transformed the Water Absorption Spirit into a Blood Noble.

When Fang Mu saw the Blood Noble, he noticed one thing, the higher the rank of the Blood Tribe, the more handsome and younger they looked!

If the previous Bloodline newborn looked like he was in his late twenties.

This Blood Noble looked like he was about twenty-three or four years old, similar to Fang Yuan's age!

It is said that the Blood Race Prince looks like a sixteen or seventeen-year-old boy, exceptionally handsome!

But different Blood Race Princes can be vastly different in strength. When the Blood Tribe reaches the level of Duke, their strength enters a new stage.

The gap between the Prince and the Duke is in the bloodline, an older Duke might be much stronger than a newborn Prince!

However, the highest level a Blood Duke can reach is Level Six.

Although the strength of a newborn Blood Race Prince is only at Level Nine, they have infinite potential!

There is a great oppression of the Blood Dukes by the Blood Race Prince.

The strict hierarchy of the Blood Tribe bloodline is no weaker than the Dragons and Fairies.

All this information was gleaned from the books Fang Mu specifically sought out after learning that the Blood Tribe's heart has a positive effect on enhancing the quality of the Blood of Abundance.

Soon, the Blood Noble was completely melted into the inky clouds underneath the Rainy Doll.

Fang Mu allowed the Rainy Doll to transform into the shape of the Blood Noble using Water Absorption Spirit.

Through his senses, Fang Mu knew that the Rainy Doll, transformed into a Blood Noble at this moment, had a strength comparable to a peak gold-rank Guardian Beast!

From the moment the Rainy Doll transformed, Fang Mu had been silently keeping track of time.

Fang Mu found that the silver-level, four-legendary Rainy Doll could maintain the transformation state for a full twenty-four seconds!

Such a period is long enough for a battle.

Yesterday's absorbed deep pool heavy water had condensed several pure water element crystals after processing overnight.

Fang Mu fed these water element crystals to the Rainy Doll.

After absorbing, the power of the Rainy Doll leveled up to Silver Level Seven, rising by a full three sub-levels!

At this rate, it wouldn't be more than two days before Rainy Doll's power reaches Silver Level Ten.

Of course, the rapid advancement of Rainy Doll's strength owes itself to it being an Elemental Beast, rather than a Guardian Beast composed of flesh and blood.

Attempting to upgrade an animal or plant-type beastmaster, even with ample resources, requires a cycle of time.

After the Rainy Doll's power advanced to Silver Stage Seven, Fang Mu had it use Water Absorption Spirit to transform into Blood Noble.

By Fang Mu's calculations, the time it takes for Rainy Doll to transform increased from twenty-four seconds to forty-two seconds.

Going by this rate of improvement, once Rainy Doll reaches Silver Level Ten, its transformation into Blood Noble could take up to a minute.

Fang Mu suddenly felt that if he spent his days in the Battle Network, battling in the ranking arena, it should not be difficult for him to rise to the Golden

Rank.

However, Fang Mu chose not to participate in the Battle Network Rank.

As long as you advance to the Silver Ranks, you are essentially qualified to participate in the National High School Beast Master League.

Fang Mu is currently at Bronze Rank 10, with 100 points. As long as he wins the promotion match, he would have an opportunity to participate in the National High School Beast Master League a year from now!

In five positioning matches, for the four opponents he encountered, none of them were particularly powerful beast masters.

Rather than wasting time there, it's better to accumulate more resources to make his core assets more robust.

Fang Mu calculated the time. It would take roughly three days for the Blood of Abundance to be able to condense another drop of Covenant Blood Essence.

Fang Mu plans to wait until this drop of Covenant Blood Essence is condensed, then contract with the Descendant Star Messenger first.

He hopes to exchange for the heart of a high-level Blood Tribe and Shadow Eye Stone from the Starwheel as soon as possible!

The price of the Shadow Eye Stone is rising.

The more he can collect before the rise in price, the more he will save!

As soon as Lu Yuyu arrived in the Imperial City, he contacted Fang Yuan first.

They agreed to meet at Ten Thousand Treasures Commerce headquarters on

Falling Moon Street in the Yuanhe District of the Imperial City two days later.

In fact, Lu Yuyu did not take Fang Mu's partner in establishing the Jianmu Commerce Association seriously.

He has already become friends with Fang Mu and was able to directly use Fang Mu's resources.

He just had to be polite to Fang Mu's partner, there was no need to deliberately please Fang Mu's partner.

All of Lu Yuyu's recent thoughts were about the opportunity to compete for Sakura Tempering Carp access.

Even with the help of Lin Ziyuan, he still faced great resistance.

Although Lu Yuyu had anticipated that many forces would fight for the Sacred Relic Sakura Tempering Carp, he did not expect that there would be so many, and these powerful forces were constantly exerting influence!

This made Lu Yuyu both anxious and worried.

Lu Yuyu was afraid that he would make promises to Fang Mu and then mess up the matter.

Since Fang Yuan received Lu Yuyu's call, he finally had some rare free time!

Fang Yuan has been communicating with Qixing on the Beastmaster Web through his account.

After a balance of pros and cons, he was about to finalize the location for the headquarters. As a result, Jianmu brought a bunch of lands that were not for sale on the market, and asked for his opinion on the selection.

Fang Yuan knew from this point just how powerful Jianmu was!

The land he chose had been found through Tang Xiao's connections!

As a result, the worst of the thirty plots of land offered by Jianmu for his selection was even better than the best one found by Tang Xiao!

This incident made Fang Yuan realize that instead of working hard privately, it was better to communicate more with Jianmu.

In the matter of creating a commerce association, Fang Yuan could feel that Jianmu was not in a hurry.

This attitude from Jianmu left Fang Yuan feeling insecure.

Fang Yuan finally understood why.

What seemed difficult to him was no matter to Jianmu, who could deal with it easily, leading to Jianmu's lack of urgency.

Fang Yuan was curious about what kind of person Jianmu was.

Fang Yuan even had plans to take the opportunity to meet Jianmu in person.

Once the plot was chosen and the infrastructure was finished, the Jianmu Commerce Association would officially be established!

During this long time, Jianmu had mailed himself thousands of bottles of Life Elixir with a purity of sixty percent.

Even if Jianmu has abundant resources for the Creator, and does not take the Creator resources seriously.

He wouldn't trust him so much without being a relative or a dear friend, would he!

Therefore, whether for his own good or Jianmu's, it was necessary to meet in person and sit down for a chat in reality!

Chapter 145: Jianmu's Reputation & Fang Yuan 's Curiosity!_I

The VIP building of the Ten Thousand Treasures Commerce has been lit for almost half a month without a moment's pause.

Fang Yuan's team has been with him for a long time.

Ever since they discovered that they were establishing a new commerce association, and that each day they could receive a hundred bottles of Life Elixir with a purity of sixty percent from Fang Yuan,

The entire Golden Glove Squad was as excited as if they had been injected with chicken blood.

People will always consider their own interests first.

The entire Golden Glove Squad knew very well that they were helping Fang Yuan build a new commerce association from scratch.

With Fang Yuan's character and integrity, even if they had never made contact with Jianmu, Fang Yuan would never ill-treat them!

After sighing with relief, Fang Yuan had a good sleep.

When he closed his eyes, it was five o'clock in the evening, and when he woke up, it was six o'clock in the evening.

Fang Yuan initially thought that he had just dozed off for an hour due to fatigue from staying up too late.

But upon checking the time on his phone, he realized a whole day had passed.

He had four missed calls on his phone that he did not notice.

Two of them were from Fang Mu.

Fang Yuan thought to himself, it was the time when he usually called Little Wood yesterday, but he fell asleep because he was relieved.

He didn't even wake up to the sound of his phone ringing!

When he opened the messaging app, he found a message from Fang Mu.

Fang Yuan has set personalized backgrounds for each family member's chat windows.

Fang Mu's chat background was a photo of him at seven when he lost a tooth.

When Fang Mu was losing his milk teeth, one tooth was very loose, and would bleed during meals.

Fang Yuan helped Fang Mu pull out the tooth, and for this, Fang Qin admonished Fang Yuan many times.

But Fang Yuan believed, based on his own childhood experiences, that during the tooth-changing period, pulling out a loose tooth can make eating much easier.

The only downside is that it leaks when drinking water.

Looking at the photo of Fang Mu with a gap-toothed smile on the chat background, a warm smile unconsciously spread across Fang Yuan's face.

[Fang Mu]: Brother, I called you but you didn't answer. If you're too tired recently, take a good rest! I'm doing well so don't worry about me!

Despite Fang Yuan's high intelligence, he didn't question how Fang Mu knew he was busy recently when facing his care and greeting.

Other than Fang Qin, he didn't inform anyone, including Yan Wood, about the fact that he had left his position as a Golden Glove in the Ten Thousand Treasures Commerce to help manage Jianmu's commerce affairs.

Usually, Fang Yuan would definitely return Fang Mu's call, but he didn't this time.

Because he planned to go home soon.

Jianmu has actually sought out Keystone Construction, Origin Construction, and Mountain Opening Construction to jointly build the infrastructure of Jianmu Commerce Association.

The fact that these three forces, each housing a Grandmaster Craftsman, accepted this job means that they must have a deep relationship with Jianmu.

Otherwise, these established construction groups, even if they have good relationships with each other, would not easily collaborate.

If this is the case for two groups, let alone three.

Fang Yuan, who does not have to find a craftsman for drawing design drawings or supervising, knows that he can at least get a week off.

The clothes he bought for Fang Mu before were all mass-produced outfits.

Fang Yuan thought, why not making use of this trip home to have a senior weaver design a set of customized clothes for Fang Mu.

Hatching this idea, Fang Yuan didn't realize at all that he himself had never worn custom-made clothes designed by a weaver.

After taking a bath and changing his clothes, Fang Yuan sat on the sofa in his bedroom for an hour.

Only then did he feel totally refreshed!

Having sorted out the results of this period of time, Fang Yuan was preparing to make a comprehensive report to Jianmu.

Just as Fang Yuan stepped out of his room and returned to his working area, he saw Lu Bo ran up to him, asking with disbelief on his face.

“Boss, is it true or false?! Our Jianmu Commerce Association’s infrastructure is being jointly undertaken by Mountain Opening, Keystone, and Origin Constructions?! ”

“Damn! That’s just too high-profile!”

“Once this news gets out, even if our Jianmu Commerce Association hasn’t

started operating yet, it can definitely be well-known throughout the

commerce circle in the Capital!”

Both Keystone and Origin Constructions are old construction groups in the Capital.

The Mountain Opening Construction holds a high profile among the construction groups in Lu City.

The Mountain Opening Construction rushed all the way from Lu City to the

Capital, with several Grandmaster Craftsmen and more than a dozen Master Craftsmen working together to build the infrastructure of the Commerce Association.

Not to mention anything else, just the idea of working in such a building is an enjoyment in itself!

Fang Yuan knew that Lu Bo was not trying to confirm this with him, but to vent his excitement and thrill.

All this while, it has always been Fang Yuan who has been receiving resources from Jianmu alone, and for many matters, Fang Yuan chose not to disclose everything to his team members.

Fang Yuan was deeply worried that someone in his team might let the secret slip and divulge the matter.

Fang Yuan could feel that Jianmu was a very low-profile person, who remained incognito even though his own Commerce Association was already in operation!

Therefore, Jianmu surely didn't like high-profile employees.

Now that Jianmu had decided to be high-profile for once, it was a major shot in the arm, dramatically boosting the morale of the entire team!

As Lu Bo was sighing at him, Fang Yuan noticed that everyone else's gazes were fixed on him as well.

Fang Yuan smiled and nodded, saying.

"Yes, during this period of infrastructure construction, I will give everyone a week off! "

"Those who choose to stay will receive three times their usual salary."

Upon hearing Fang Yuan's words, everyone in the Mu Commerce Association's team smiled happily.

However, in the end, including Lu Bo, whose family lived in the Capital, did not choose to go home, instead opting to continue working!

Just like Fang Yuan cherishing this rare opportunity.

The others chosen for this team also cherished this opportunity just as much.

Lu Bo leaned over to whisper to Fang Yuan.

“Are you planning to go home and see your little brother?” Fang Yuan, upon hearing this, nodded straightforwardly.

“Yes, Lu Bo, you always order custom clothes from weavers. Can you recommend a good weaver to me?”

Lu Bo, taken aback, looked at Fang Yuan in surprise and thought to himself.

Has Fang Yuan finally seen the light? Is he finally going to find a weaver to make custom clothes for himself!

“There are indeed several weavers I know of who do a great job with formal social attire, and they also offer good value for money!”

Before Lu Bo could finish his sentence, he was interrupted by Fang Yuan.

“I’m buying for Little Wood, just recommend a weaver who’s good at making teenager’s clothes!”

Upon hearing this, Lu Bo couldn't help but facepalm.

It's over! This brother-obsessed guy is beyond salvation!

After hearing Lu Bo's words, Fang Yuan realized that what he said was quite true.

Now, he wasn't like before, just a simple Golden Glove from the Ten Thousand Treasures Commerce. He didn't need to care about his attire.

Now he was a Red Sleeve of the Mu Commerce Association, its number two, and even the number one in public!

His attire was related to the reputation of Mu Commerce Association.

If he was to find a weaver to make custom clothes, he must find at least a master weaver!

Thinking of this, Fang Yuan's face fell.

Just then, the girl in charge of purchasing spiritual instruments in Fang Yuan's small team let out a gasp after she logged out of the Battle Network.

“Right now, a lot of posts on Battle Network are talking about a teenager named Jianmu who owns Sequential Spiritual Instrument and Legendary Quality Half-Elf!”

“I’ve looked long and hard and I couldn’t find a single video!”

“Nine out of ten times, these rumors are started by someone, I bet these posts will be taken down within a day! ”

“Otherwise, it wouldn’t make sense to not find even a single video!” Speaking of this, the girl with the round face turned to ask Fang Yuan.

“Boss, do you think the Jianmu they’re talking about on Battle Network, if it’s not rumor, is related to our Jianmu!?”

“The name Jianmu is pretty rare!”

The Battle Network had spiritual instrument and beastmaster resources for sale, which also fell within the scope of the Golden Gloves’ daily duties.

Upon hearing this, Fang Yuan, using the only Diamond Rank Dream Beast currently in the Mu Commerce Association, logged into the Battle Network.

As Du Xin had described, Fang Yuan didn't find anything related to Jianmu on the videos and related information.

However, based on the descriptions in text posts, Fang Yuan was almost certain that the Jianmu mentioned on the Battle Network is most likely the person he connected with on the Beastmaster Web!

After finding out that Jianmu possesses a Sequential Spiritual Instrument and a Half-Elf of Legendary Quality.

Fang Yuan suddenly understood why Jianmu never cared much about the resources of Senior Creators, and yet could afford to hire three construction conglomerates led by Grandmaster Craftsman.

So, it turns out that there really is a Grandmaster Creator supporting Jianmu!

This is a fact, not an assumption made from seeing a Life Elixir bottle with a purity of ninety percent.

Upon having his assumption confirmed, Fang Yuan's heart almost leapt out of his chest.

At this moment, Fang Yuan was sure that as long as he managed the Commerce Association well for Jianmu, he would undoubtedly be able to provide a good life for Fang Qin, Yan Wood, and Fang Mu!

Chapter 146: Two People Carved from the Same Mold! 1

At the entrance of the Imperial Beastmaster Alliance Headquarters, two young men walked out.

One of the young men had a buzz cut that gave him a sharp look.

His striking features, combined with this energetic demeanor, lend him a distinctly masculine charm!

The other, sporting short silver hair, had a pair of leopard eyes beneath his thick eyebrows that were filled with anger.

The buzz-cut young man was the first to speak in a cold voice.

“Disgusting! Qian Yan’s name truly fits his character!”

“How many benefits has Qian Yan taken from others to obstruct us in this matter!”

Hearing the buzz-cut youth’s words, the silver-haired man replied in a deep voice.

“This isn’t a place to talk, Zi Yuan. Let’s go to my place!”

“Since your family moved to Lu City, it has been almost two years since the old man saw you!”

“The old man specifically asked me to bring you home for dinner tonight.” These two were none other than Lin Ziyuan and Lv Yuyu.

Lv Yuyu originally thought that with Lin Ziyuan’s help, things would not be too difficult.

But he didn’t expect that so many people would find the Beastmaster Alliance!

The Beastmaster Alliance itself only had six slots, so Lv Yuyu understood if resources were stretched thin.

Everyone should rely on their skills and connections to fight for these six

spots.

However, Qian Yan insisted on using the rank order of Executives and Directors as the criterion for obtaining qualifications.

Although LvYuyu and Lin Ziyuan were both Executives and Directors, their ranking wasn’t high due to their youth.

Lv Yuyu knew that Qian Yan's intention was not just to obstruct him and Lin Ziyuan.

Many Executives and Directors were hindered by Qian Yan, indicating that he must have received some benefits from others!

However, it seemed that he wanted to avoid internal competition within the Beastmaster Alliance through this method.

Lv Yuyu sighed.

Now, relying solely on their abilities, he and Lin Ziyuan had screwed up everything!

Lv Yuyu considered seeking help from his family, but it was too late to ask for their help now!

The quotas to compete for the Sakura Tempering Carp have already been allocated.

If he had mentioned this matter to his family half a month earlier, his family might have been able to exert some influence.

Hearing this, Lin Ziyuan gritted his teeth and said.

“Let’s go to a small bar to sit for a while, I’m going to make some calls.”

“Let’s see if Uncle Gao can help!”

Lin Ziyuan knew very well that if this matter failed, it would greatly affect Lv Yuyu.

The development of Mountain-opening Construction in recent years has been much better than that of Keystone Construction. Therefore, Lin Ziyuan had more connections than Lv Yuyu!

Lv Yuyu was moved when he heard Lin Ziyuan’s words.

Lv Yuyu knew that the Uncle Gao Lin Ziyuan spoke of was from the Gao Family among the Lu Du Five Families.

The Lin Family moved their entire family to Lu City along with the Mountain-opening Construction because of their relationship with the Lu Du Gao Family.

For such a strong ally, it was better to ask for less help.

If Lin Ziyuan sought help from the Gao Family of Lu Du without authorization, he would most likely be reprimanded by the elders of the family.

Lv Yuyu didn't know what to say about the steps his close friend was willing to take for him.

Just as Lv Yuyu was about to refuse Lin Ziyuan and let his family try to find a solution, Lv Yuyu's phone rang.

Seeing that it was a call from Qian Yan, Lv Yuyu instinctively furrowed his brow in disgust, but then an idea flashed through his mind.

Although Qian Yan was the Vice President of the Beastmaster Alliance, he and Qian Yan didn't really have much to do with each other.

If something was happening, it should be the other Vice President of the Beastmaster Alliance, Qin Xing, who would call him.

Could it be that there was a turn of events in the competition for the Sacred Relics, Sakura Tempering Carp!?

Lv Yuyu's expression kept changing as he answered the phone, which made Lin Ziyuan surprised and stared wide-eyed.

In Lin Ziyuan's memory, Lv Yuyu was not the type of person who wore his emotions on his sleeve.

What on earth did Qian Yan say to make Lv Yuyu's expression change so much?

Putting the phone back in his pocket, Lv Yuyu swung his fist forward in excitement and said with joy.

"This matter is done!"

"Zi Yuan, let's not go to the bar anymore. Let's just go to my place for dinner!"

"Stay at my place tonight, we'll go together to meet the Red Sleeve of the Jianmu Business Association in the morning!"

"Although this cooperation with the Jianmu Business Association started with Keystone Construction, in actuality, Mountain-opening Construction has contributed the most!"

Upon hearing this, Lin Ziyuan looked extremely surprised.

As a director working at the Beastmaster Alliance Headquarters, instead of being an Executor on assignment like Lu Yuyu.

Lin Ziyuan's communication with Qian Yan was much more frequent than that of Lu Yuyu and Qian Yan!

Therefore, Lin Ziyuan has a clearer understanding of Qian Yan's character than

Lu Yuyu.

Qian Yan has always managed to resolve matters satisfactorily without compromising his own interests.

This is Qian Yan's ability!

People with abilities tend to be arrogant, and Qian Yan is a perfect example of this.

Often, Qian Yan's behavior can't be just described as merely arrogant.

Qian Yan likes to take a superior attitude, and once he has made a decision, there is no room for change!

But now, Qian Yan, who had just rejected the two of them, surprisingly called them and agreed to Lu Yuyu's request.

This situation seemed rather fantastical to Lin Ziyuan.

Could it be that Qian Yan has been controlled by a certain Ghost System Beast!?

“Ah Yu, I think that the Jianmu probably knew that the struggle for the Sakura

Tempering Carp was intense, so he went out of his way to find another way.”

“Qian Yan has always favored Spirit-smithing Masters and Creators, so he would definitely give Jianmu face!”

After hearing this, Lu Yuyu nodded without expressing agreement or disagreement.

Who wouldn’t give face to the disciple of Grandmaster Creator?

Even a fool knows to curry favor with the disciple of the Grandmaster Creator!

In his recent communication with Qian Yan, Qian Yan didn’t mention Jianmu but instead referred to Bishop Flowers of the Sweepers and the name of Ninth Sacrifice several times!

Between the lines, he seemed to be probing his relationship with Ninth Sacrifice!

Lu Yuyu knows that Fang Mu has joined the Sweepers, and is a member of them.

It seems that the Sweepers must have been in contact with Fang Mu's master, and even collaborated on some things.

Otherwise, as a Bishop of Flowers, there would be no need for Ninth Sacrifice to make an appearance!

In the past, Lu Yuyu thought he was doing well in his network and knowledge.

However, in less than a month of getting to know Fang Mu, his network and knowledge have significantly improved!

Previously, Liu Jihui the deputy head of the Lionheart Brigade would call him by his name when he saw him.

But now, Liu Jihui knows to call him Brother Lv when he sees him!

Having successfully resolved the matter and relieved of all concerns, Lu Yuyu called Fang Mu to inform him about the situation.

Then, he prepared to rest for a couple of days and complete another task assigned by Fang Mu.

He had messed up the matter of seeking for the sacred relic, the Sakura Tempering Carp, and it was only through Fang Mu's connection that the deal was settled.

He must make up for this on the other task.

Otherwise, how can he face Fang Mu in the future!

At the appointed time, Lu Yuyu, accompanied by Lin Ziyuan, arrived at the headquarters of the Wanbao business group on Luoyu Street in Yuanhe District.

With mixed feelings, Lu Yuyu and Lin Ziyuan made their way to this location, as if on a pilgrimage.

To both of them, anyone who could earn such trust from Jianmu must surely be extraordinary!

Even if there was no need to curry favor, they must certainly treat them with respect!

But as soon as they got to the entrance of the Wanbao Commerce, Lu Yuyu and Lin Ziyuan found a large crowd of people waiting there.

It was clear that they were here to welcome the two of them!

At the front of the group, on the left was Tang Xiao, the president of Wanbao

Commerce, and on the right, a handsome young man.

The moment Lin Ziyuan saw the young man, he instinctively raised his eyebrows.

There were not many handsome young men like him in the entire Capital!

His body was not muscular, but he was absolutely the lean type who looked thinner in clothes and muscular without.

The strength of his physique made the young man look like a young leopard.

The moment Lu Yuyu saw the young man next to Tang Xiao, he immediately realized something.

This young man and Fang Mu appeared to have a 70% resemblance to each other; the eyebrows and eyes were as if they had been carved out of the same mold.

Only that this young man's eyes were colder than Fang Mu's.

Clearly, this young man had gone through quite a lot at a young age!

Chapter 147 The 3rd Drop of Covenant Blood Essence! (Two in one)_I

Blood-bonded brothers go to the battlefield, son and father become soldiers together.

So the Red Sleeve of Jianmu Commerce Association is actually Fang Mu's elder brother!

Jianmu Commerce Association is a family business, no wonder Fang Mu trusts his business partner so much!

After learning that Fang Qin is Fang Mu's sister, Lu Yuyu did some research and found out that Fang Mu has one elder brother and two elder sisters.

Lu Yuyu initially intended to take the initiative to warmly greet Fang Yuan, but he quickly realized something.

And that is, Fang Mu has been disguising his identity.

Even when he was face-to-face with his elder sister Fang Qin, Fang Mu did not immediately acknowledge her, which clearly indicated that it was required by the Grandmaster Creator behind him.

If it was due to a poor relationship between the siblings, Fang Mu would not have bid for the Frost Language Snow Dragon for his elder sister.

Later, he provided so many Creator resources to Fang Qin through Lu Yuyu! Thinking about these, Lu Yuyu decided not to reveal Jianmu's real identity.

Lu Yuyu signalled to Lin Ziyuan and briskly walked to Fang Yuan's side.

He first bowed slightly, then enthusiastically extended his hand and said, "Hello, I'm the representative of Keystone Construction."

"I suppose you are the one in charge of Jianmu Commerce Association! May I know how to address you?"

While greeting him, Lu Yuyu couldn't help but mentally praise his own cleverness.

He had not met Fang Yuan before, and using 'Mr. Fang' right off the bat might have aroused suspicion.

Lin Ziyuan noticed the signal from Lu Yuyu and greeted Fang Yuan in the same way as Lu Yuyu did just now.

Neither of them paid immediate attention to Tang Xiao, the president of Ten Thousand Treasures Commerce, and the executives behind him.

At this, many of the executives behind Tang Xiao looked at Fang Yuan with surprise.

Fang Yuan was previously just a Golden Glove of the Ten Thousand Treasures Commerce. It was unknown why he suddenly wanted to establish his own commerce association within a month.

Tang Xiao was highly supportive of this, even lending the entire VIP building to Fang Yuan and his team.

In terms of the power hierarchy, Keystone Construction is on par with Ten Thousand Treasures Commerce.

However, the difference is that the commercial function of Ten Thousand Treasures Commerce can easily be replaced, while Keystone Construction can enjoy long-term prosperity.

Because Keystone Construction has a Grandmaster Craftsman holding the fort.

The Grandmaster Craftsman can produce resources, ensuring that Keystone Construction will never run out of cash flow!

On the other hand, Mountain-opening Construction ranks a notch higher than Ten Thousand Treasures Commerce.

In general, only powers of the same level will cooperate.

Unless they can establish good relations, the powers at the top would never consider helping those below.

If Lu Yuyu's courtesy towards Fang Yuan can be explained by courtesy to Tang Xiao, then who was Lin Ziyuan giving face to?

It definitely can't be Tang Xiao!

Ten Thousand Treasures Commerce does not yet have the qualifications to establish a connection with Mountain-opening Construction.

Now, the executives of Ten Thousand Treasures Commerce finally understood one thing: that is, powerful figures are backing Fang Yuan!

Tang Xiao wasn't simply supporting Fang Yuan; he was currying favor with him.

As for why Lu Yuyu and Lin Ziyuan ignored him and chose to approach Fang Yuan directly, Tang Xiao didn't harbor any resentment.

To the contrary, he felt that things should be this way!

Moreover, Lin Ziyuan's courteous greetings to Fang Yuan assured Tang Xiao that he'd bet on the right horse!

Finding firm evidence that the Jianmu supporting him was a disciple of the Grandmaster Creator, Fang Yuan was not surprised by the attitudes of the heads of Keystone Construction and Mountain-opening Construction.

They were giving face to Jianmu, and he was just acting by proxy.

In fact, Fang Yuan hadn't intended to meet Lu Yuyu and Lin Ziyuan at the door in the first place.

As the Red Sleeve of Jianmu Commerce Association, doing the welcoming and escorting work wasn't in accord with the dignity of Jianmu Commerce Association.

Having experienced a hard life, Fang Yuan didn't care about upholding appearances; as long as he could provide for his family, that was enough!

However, he couldn't let his actions affect Jianmu.

Therefore, Fang Yuan had to consider many factors in everything he did.

Facing the hands extended by Lu Yuyu and Lin Ziyuan, Fang Yuan gently shook hands with each and said,

“My name is Fang Yuan. This is President Tang Xiao of Ten Thousand Treasures Commerce!”

Fang Yuan came to meet Lu Yuyu and Lin Ziyuan because he was invited by Tang Xiao.

Without the Golden Gloves provided by Tang Xiao, it would be impossible for Fang Yuan to finish his work so quickly!

So, Fang Yuan gave face to Tang Xiao.

Tang Xiao’s purpose in inviting him was nothing more than to get acquainted with the heads of Keystone Construction and Mountain-opening Construction, and to see if they could cooperate in the future.

Fang Yuan discussed with Jianmu about the positioning of Jianmu Commerce Association before.

The response he got from Jianmu was that he wanted to make Jianmu Commerce Association a high-end business association to sell high-level supplies or precious resources.

This means that Jianmu Commerce Association will not be involved in businesses supplying raw materials to construction groups.

The current Jianmu Commerce Association and Ten Thousand Treasures Commerce are allies. Fang Yuan didn't mind doing a favor for Tang Xiao if it's a job his side couldn't accept.

As to whether Tang Xiao could seize the opportunity, that was none of Fang Yuan's business!

Neither Lu Yuyu nor Lin Ziyuan planned to greet Tang Xiao, as Keystone Construction and Mountain-opening Construction had not cooperated with Ten Thousand Treasures Commerce in the past.

However, given the close relationship between Fang Yuan and Tang Xiao and the fact that Fang Yuan even introduced him, both Lu Yuyu and Lin Ziyuan decided to shake hands with Tang Xiao.

Standing tall and robust, Tang Xiao had an unusually bright smile on his face..

Chapter 148 The 3rd Drop of Covenant Blood

Essence! (Two in one)_2

On one hand, it was because he had the opportunity to get acquainted with such influential powers as Mountain-opening Construction and Keystone Construction.

On the other hand, it was also because of Fang Yuan's reciprocity towards him.

When a person is in a low position, what can be seen is just the superficial character of that person.

However, once this person reaches a high position, some hidden things may be released!

Fang Yuan is now in a high position, but he is clearly no different from before.

This kind of man is the best choice for a son-in-law!

Of course, Tang Xiao wouldn't be demanding about it, just as he didn't prevent his daughter Tang Lingxi from interacting with Fang Yuan when Fang Yuan was in a low position.

After Fang Yuan reached a high position, Tang Xiao would not let his daughter Tang Lingxi cling to Fang Yuan all day.

Children and grandchildren have their own blessings.

Tang Xiao plans to work hard for another twenty years and then retire, leaving the management of Ten Thousand Treasures Commerce to his daughter Tang Lingxi.

Tang Xiao was very discerning, knowing that Lu Yuyu and Lin Ziyuan were having a serious discussion with Fang Yuan.

Not only did he not let the other members of Ten Thousand Treasures

Commerce go to the VIP building, but Tang Xiao himself did not go either.

The current relationship between Ten Thousand Treasures Commerce and the Jianmu Commerce Association is one of collaboration, but boundaries should still be well defined.

Upon arriving at the VIP building, Fang Yuan immediately received Lu Yuyu and Lin Ziyuan in the conference room and invited Lu Bo as a witness.

Lu Bo was Fang Yuan's partner during his time as Golden Gloves, and the two were very close.

Lu Bo's capabilities are the strongest among the people currently under Fang Yuan's leadership.

Fang Yuan intended to groom Lu Bo to be his right-hand man.

"Did the person in charge of Origin Construction not come?" Hearing Fang Yuan's question, Lu Yuyu quickly replied.

“I am the person in charge of Keystone Construction and also the representative of Origin Construction!”

“The cooperation between Origin Construction and Jianmu Commerce Association is supervised and managed by me.”

“Let me introduce to you the resources we can provide for the construction of Jianmu Commerce Association.”

“Keystone Construction and Origin Construction can provide a total of three Grandmaster Craftsmen and eleven Master Craftsmen.

“We will provide all the materials!”

“In addition, we have twenty Diamond Rank Ground-shaking Elephants and fifteen Diamond Rank Anvil Hedgehogs.”

“Plus, we have more than fifty Platinum Rank Guardian Beasts of various types.”

Although Fang Yuan knew that Jianmu was a disciple of the Grandmaster Creator, his own vision had not increased enough.

Improving one's vision requires breaking down and reshaping one's perceptions repeatedly; it's not an overnight process.

At this moment, Fang Yuan was completely stunned by the resources mentioned by Lu Yuyu!

Turns out that Lu Yuyu hadn't finished speaking. He paused for a moment and then added another sentence.

"Plus fifty Gnomes, three of which are Mineral Gnomes."

Even Gnomes have been dispatched!

In that case, the construction of the Jianmu Commerce Association would be completed in one or two weeks!?

It could even happen faster.

After Lu Yuyu reported the resources that Keystone Construction and Origin Construction could provide, Lin Ziyuan also spoke.

"The resources we Mountain-opening Construction can provide are the same as reported by Ah Yu."

“In addition, we will also provide an extra one hundred and fifty pieces of Master-level furniture.

“If Mr. Fang is available, you can personally come to the headquarters of Mountain-opening Construction in Lu City to make a selection!” “If you don’t have time to make the trip, I can take pictures for you.”

“The pictures cannot clearly show the size, but you can rest assured of the exquisite quality!”

One hundred and fifty pieces of Grandmaster-level furniture and not specifying single pieces!?

This means that they can select a complete set of Grandmaster-level furniture.

Using a whole set of Grandmaster-level furniture to decorate the Jianmu Commerce Association would certainly enhance its prestige!

Fang Yuan originally thought that building this commerce association would be a huge challenge and he would face many difficulties.

However, the reality is just the opposite, Fang Yuan has not encountered any difficulties.

All the difficulties were solved by Jianmu before they even reached him!

Lu Yuyu looked at Lin Ziyuan with a complex expression of both admiration and complexity.

Lu Yuyu knew in advance what resources Mountain-opening Construction could provide.

This did not include the one hundred and fifty pieces of Grandmaster-level furniture.

The promise of one hundred and fifty pieces of Grandmaster-level furniture was Lin Ziyuan's own idea.

Lu Yuyu quickly understood Lin Ziyuan's purpose.

On one hand, Lin Ziyuan did this to befriend Jianmu.

Mountain-opening Construction connected with this project through its own channels and had no intersection with Jianmu.

Lin Ziyuan hoped that through this opportunity, his actions could win Jianmu's favor.

If faced with a greedy person, Lin Ziyuan's approach might not work.

Therefore, making such a decision requires a certain amount of courage!

But Jianmu is clearly not a greedy person and would not take Lin Ziyuan's benefits for granted.

On the other hand, Lin Ziyuan's move was also to connect with Fang Yuan.

Fang Yuan would not thank Lin Ziyuan for the one hundred and fifty pieces of Grandmaster-level furniture, he would only think that this was the agreement previously negotiated by Jianmu.

However, Lin Ziyuan's real finesse did not lie in the one hundred and fifty pieces of Grandmaster-level furniture itself.

It was actually his hospitality towards Fang Yuan when Fang Yuan arrived in Lu City.

This is the way for Lin Ziyuan, or rather Mountain-opening Construction, to connect with Fang Yuan.

Fang Yuan is the driving force behind the Jianmu Commerce Association.

One hundred and fifty pieces of Grandmaster-level furniture are not cheap!

Even with eight Grandmaster Craftsmen in Mountain-opening Construction, it would take two to three years to accumulate such furniture..

Chapter 149 The 3rd Drop of Covenant Blood Essence! (Two in one)_3

Facing such level of resources, Fang Yuan was certain to go to Lu City for the mountain – opening construction.

Lin Ziyuan hadn't met Jianmu, and neither he nor Luo Su told Lin Ziyuan that Fang Yuan was Jianmu's biological brother.

Lin Ziyuan's coincidental desire to befriend Fang Yuan was effectively a better way to curry favor with Jianmu.

At this moment, Lu Yuyu realized the gap between him and Lin Ziyuan, and understood why Mountain-opening Construction, which was originally on par with Keystone Construction, advanced so rapidly!

Fang Yuan forced himself to remain calm and said seriously to Lin Ziyuan.

"Once the infrastructure of Jianmu Commerce Association is completed, I will go to your Mountain-opening Construction headquarters in Lu City to select furniture!"

Hearing Fang Yuan's words, a brilliant smile appeared on Lin Ziyuan's face.

“Then I’ll have the family start preparing right now, especially the matching furniture sets, I’m sure you’ll love them.”

Lin Ziyuan’s smile was brilliantly bright.

Seeing Lin Ziyuan’s smile, Fang Yuan shouted “Damn it!” in his heart.

The nature of this conversation in the meeting room of the Ten Thousand Treasures Commerce VIP building was not a competition, but pure resource gifting.

Therefore, things progressed very smoothly.

Soon, Fang Yuan concluded all matters with Lu Yuyu and Lin Ziyuan.

Fang Yuan invited Lu Yuyu and Lin Ziyuan to a meal, and Lu Bo accompanied them throughout.

It was not until the meal was over that Lu Bo, who had been dazedly eating three bowls of rice, finally came to his senses from his shock!

“Boss... Boss, this Jianmu’s background is truly astounding!”

“Why do I feel like the heads of Keystone Construction and Mountain-opening

Construction are acting like lapdogs?”

“Even without Jianmu here, everything is arranged perfectly.”

“I’ve decided not to take a break! I’ve never seen six grandmaster craftsmen in my life.”

“When forty diamond-ranked Ground-shaking Elephants and thirty Anvil Hedgehogs build the infrastructure together, the scene will definitely be grand!”

“If I miss this opportunity, I’m afraid I’ll never see it again!”

Fang Yuan also had the idea of staying behind to watch this grand scene.

However, Fang Yuan quickly dismissed this idea.

No scene could beat going home and seeing Fang Mu and Fang Yan.

Now, Fang Yuan has finally made a name for himself thanks to an opportunity.

What Fang Yuan most wanted was to go home and share this joy with his family!

In Fang Yuan's eyes, the smiles of Fang Mu and Fang Yan were the greatest consolation for all the hard work he had put in during this time.

"Then you can stay here, and go take care of the place on Lingyang Street."

"If there are any problems, call me immediately, so I can hurry back to solve them!"

Upon hearing this, Lu Bo took out a handful of business cards from his pocket and handed them to Fang Yuan, saying.

"Boss, weren't you going to have custom clothes made for your beloved younger brother? These are business cards of weavers."

"When looking for a weaver to make custom clothes, you mainly need to look at the style of the weaver."

"The pricing for custom clothes is based on professional industry standards, and the price is generally not set too high."

“Otherwise, it would be damaging their own reputation!”

“One of the advanced weavers is having some promotions recently, and her design style is quite good!”

“With 150,000 Dragon Rising Coins, you can get a nice one!”

“But because they are all custom-made clothes, it takes some time. You definitely won’t make it this time when you go home.”

“Actually, if you want to use clothes as a gift, you can buy ready-made clothes that cost a lot less.”

“But the main feature of custom-made clothing is tailor-made.”

“If you really want to make a good one for your brother, it’s best to take him to a weaver so she can take proper measurements!”

“Teenagers grow fast. You haven’t seen your brother for several months, so he may have grown taller or gained or lost weight!”

Fang Yuan took the stack of business cards from Lu Bo and gently patted Lu Bo’s shoulder.

“Bozi, thank you!”

Although Lu Bo had always been the Golden Gloves of the Ten Thousand

Treasures Commerce, he had never used money from home for consumption.

But as for many commonly known issues related to Lu Bo’s level of consumption, Fang Yuan didn’t know.

The custom clothes that cost 150 ,000 Dragon Rising Coins each, the price is extremely high.

This sum of money would be enough for Fang Mu to attend many public classes taught by junior creators!

Fang Yuan was planning to take Fang Mu to see a local advanced weaver for measurements when he got home.

This way, even if he left later, Fang Mu would be able to pick up the clothes himself when the weaver finished making them.

With no need to prepare a gift for Fang Mu, Fang Yuan decided to work hard for a few more days.

After arranging everything, he would set off to go home.

At this time, Fang Mu, who had just finished more than thirty nutrition meals, was marveling at his appetite.

Suddenly, he sneezed several times in a row. “Ah-choo, ah-choo, ah-choo!”

Think once, Curse twice, thirdly mumble.

He didn’t know who was mumbling about him!

Just as this thought occurred to Fang Mu, his nose tingled, and he sneezed again.

It seemed that someone was both thinking about and mumbling about him!

In a good mood, Fang Mu hummed softly.

“Still remember, you said home is the only castle, along with the scent of rice flowing down the river, small smile, I know my childhood dreams!”

Fang Mu hummed a song and summoned his Destiny Guardian Beast, the Blood of Abundance, in his room.

The third drop of Contracting Blood had finally formed!

Fang Mu carefully collected the golden-red Contracting Blood from the grooves in the well wall of the Blood of Abundance into a crystal tube.

Then, Fang Mu summoned out the Descendant Star Messenger, which had been kept in his Purple Ice Crystal Ring.

The Descendant Star Messenger in its visible form was simply a silver jewel with starlight in it.

Fang Mu had heard from Shui Miao that the Descendant Star Messenger, this Spatial Star Spirit Dual System Beast, had the chance to evolve into a Star Scar Angel, an Angel Species Beast.

But evolving into a Star Scar Angel is not easy, and who knows how many people in the Starwheel have achieved this so far!

Fang Mu was very curious about the Angel species Beast and the Angel Reincarnation Pool that would emerge simultaneously when an Angel species Beast was born.

Apart from hearing Shui Miao mention the Descendant Star Messenger, Fang

Mu had also heard She Wan, a Starwheel member who sat on the North-South

Sky Constellation's Yingxian Chair, mention it.

Unlike those who sat in the main constellation chairs, those who sat in the North-South Sky Constellation chairs did not have the right to contract the Descendant Star Messenger.

Unless they earned enough merit to exchange for it from the treasury.

She Wan, who wished to attend the Starwheel gathering, could only do so by collecting enough Space Series Materials.

Then she could energize the Messenger Feather, a material that came from the Messenger, to receive guidance.

From She Wan's yearning for the Descendant Star Messenger, as a Hexagram Beastmaster with a Ghost System Beast, Fang Mu could affirm that the Descendant Star Messenger must be extremely strong!

Fang Mu carefully dripped the Contracting Blood in the crystal tube onto the jewel-like Descendant Star Messenger..

Chapter 150 Xuan Wen (Mysterious Pattern) [Star Spirit System • Star Sequel]! (Two in One)_I

Fang Mu had been hesitating about something for some time, and that was whether to directly make a contract with the Descendant Star Messenger through his spiritual power.

Shui Miao once said that the spiritual power consumed to contract with the Descendant Star Messenger is only a tenth of that used to contract with an ordinary Guardian Beast.

With such a tiny bit of spiritual power consumed, especially after Fang Mu obtained the Fragrance Bead evolved from the Heaven Fragrance Peony and absorbed the Silver-ranked Skill Scenic Ideas Sealing.

It was hardly a big deal!

Fang Mu had reserved all his spiritual power in order to comprehend Mysterious Patterns more conveniently.

The Scenery Fantasy Pearl and the Fragrance Bead of the Heaven Fragrance Peony made up for this shortfall.

Even if Fang Mu was left with only a shred of spiritual power, he could still comprehend Mysterious Patterns by consuming large quantities of Scenery Fantasy Pearls and Fragrance Beads of the Heaven Fragrance Peony.

However, in the end, Fang Mu still held back.

On one hand, preserving one hundred percent of his spiritual power, even if not for understanding Mysterious Patterns.

Perhaps one day it could have other uses.

The Beastmaster world was too mysterious, even a Grandmaster Creator couldn't comprehend everything!

If others knew that Fang Mu dared to question the power of a Grandmaster Creator, they would certainly believe that Fang Mu had gone insane!

But no matter when, Fang Mu always used a dialectical perspective to observe the world.

Fang Mu was both a materialist and an idealist.

Without flexible and discerning thoughts and attitudes, he would not be able to study the unpredictable biology.

Of course, the reason why Fang Mu could question this was because he had reached the same height as a Grandmaster Creator.

If the Grandmaster Creator were truly omnipotent, he would not be unclear about what happened between the Fifth Epoch and the Sixth Epoch.

The Guardian Beasts that went extinct between the Fifth and Sixth Epoch would have already been recreated.

On the other hand, the Covenant Blood Essence can, simultaneously with the contract, cause the Guardian Beast's life level to jump forward.

Fang Mu felt that the Descendant Star Messenger could almost directly evolve into a Star Cloud Messenger through his contract with the Covenant Blood Essence.

This kind of bloodline promotion performed at the time of the bronze-level contract is something that Blood Aged Wine could never achieve.

As soon as the Covenant Blood Essence fell on the shining gemstone, the Descendant Star Messenger began to suck in the golden-red Contracting

Blood.

When the golden-red Contracting Blood thoroughly entered the interior of this gemstone.

The gemstone in Fang Mu's hand disappeared, replaced by a galaxy comprised of tiny stars.

This galaxy expanded rapidly, spiralling in Fang Mu's room.

It outlined one star chart after another around Fang Mu.

The old star chart faded, with a new star chart forming.

As if symbolizing the downfall of one epoch after another, and the beginning of a new epoch after each downfall.

This scene made Fang Mu feel as though he was in the midst of the starry sky, with the ability to pluck stars at a stretch of his hand.

Such a feeling caused a tremor in Fang Mu's spirit.

Then a Mysterious Pattern adorned with starlight appeared in Fang Mu's spiritual power.

Raised by Fang Mu's hand, this Mysterious Pattern immediately circled around Fang Mu's fingertips.

[Star Spirit System.Star Continuation]: Deepens the connection with the starry sky, allowing oneself to recover through the power of the stars at the cost of life span.

Fang Mu didn't expect to understand another Mysterious Rune so quickly, and this rune was even from the Star Spirit System!

The basic Mysterious Patterns are usually elemental, while patterns fitting the Soul System, Ghost System, Mechanical etc. were extremely difficult to comprehend.

It was only when Fang Mu obtained the Descendant Star Messenger that he first heard of the existence of the Star Spirit System amongst Guardian Beasts.

As a result, he also comprehended the Mysterious Pattern related to the Star Spirit system when contracting with the Descendant Star Messenger.

This was simply too lucky!

The Mysterious Pattern [Star Spirit SystemStar Continuation] is of the Amplification Category and has some recovery effects.

However, to obtain the power from the stars, one has to bear a certain cost.

That is the consumption of life span!

This is a price that the overwhelming majority of Guardian Beasts, even the Descendant Star Messenger, could not bear.

But once the Descendant Star Messenger evolved into the Angel species beast Star Scar Angel, and [Star Spirit System.Star Continuation] amplifies the Star Scar Angel.

The power of Star Spirit System Guardian Beasts originally comes from the stars, and the strengthening of the contact with the stars can significantly boost the strength of the Star Scar Angel!

As for life span, the Star Scar Angel would replenish its life span every time it is reborn.

So, in battle, it can freely spend its lifespan.

It can recover injuries by sacrificing life under the baptism of starlight, and continue fighting until the next rebirth.

Since even watching the scene of contracting with the Descendant Star Messenger could inspire him, Fang Mu quickly summoned Suxi.

He had Suxi use the Silver-rank Skill Scenic Ideas Sealing to solidify the Scenery Fantasy Pearl!

In an ordinary Contemplation Hall, there was no existence of Star Spirit System Guardian Beasts.

So, wanting to comprehend Star Spirit System Mysterious Patterns through the Contemplation Hall is almost impossible!

In the future, if Fang Mu wants to continue understanding Star Spirit System Mysterious Patterns, he will most likely have to find large-scale meteor showers in nature.

And comprehend them through these natural spectacles.

The impressions obtained from observing different scenes would also differ.

If he went to observe a massive meteor shower, it would be very difficult for

Fang Mu to comprehend the Mysterious Pattern [Star Spirit System-Star

Continuation] again!

Fang Mu, who did not waste any spiritual power on contracting with Guardian

Beasts, was cooperating with Fragrance Beads condensed by Heaven Fragrance Peony and the Scenery Fantasy Pearl solidified by Suxi through the Silver-rank skill Scenic Ideas Sealing.

Fang Mu was determined to try to merge into First-class Mysterious Chapter!

During the short period of contracting with the Descendant Star Messenger, Suxi could only condense one Scenery Fantasy Pearl at most..
