

## Beast Tamer 1461

### Chapter 1461: The Suitable Burial Ground!

Ling Kang and Qi Qi were somewhat worried about whether Fang Mu could fully report the situation when briefing Master Qixing.

Personally examining Ling Kang's physical condition and hearing someone else's description could lead to vastly different conclusions.

If the conclusions were wrong, then Master Qixing's judgment would inevitably be flawed as well.

Unexpectedly, Fang Mu managed to clearly explain the predicament Ling Kang was facing in one go!

However, Fang Mu's proposed solution made both Qi Qi and Ling Kang reveal wry smiles.

Allowing the pollutant to regain control of the failed pollution source—is that truly so easy to achieve?

This requires vast amounts of ultra-high-purity pollution energy!

Ancient Genesis has been developing for so long, just like Beast Masters have tirelessly studied how to cultivate their Guardian Beasts, the Contractors of Ancient Genesis have persistently researched ways to strengthen pollutants.

Many powerhouses within Ancient Genesis have studied how to refine pure pollution energy, but without exception, all efforts have failed!

As Qi Qi and Ling Kang absorbed Fang Mu's words, Fang Mu spoke again.

“Recently, I’ve been assisting my master with transactions involving pollutants and pollution sources. I believe Qi Qi senior is aware of this matter.”

“Through these trades, Master has managed to prepare some refined pollution energy. Whether it can assist Ling Kang senior will require testing to determine!”

After speaking, Fang Mu took out a potion bottle containing pollution medicine with a purity level of 95%.

It was, in fact, the lowest-purity bottle among all the pollution medicines Fang Mu currently possessed.

If he truly wanted to help the Demon King, Fang Mu realized he’d need to specially prepare a batch of pollution medicine upon returning, as taking out 100%-purity pollution medicine might cause a genuine stir!

Fang Mu’s pollution medicines were housed in specially crafted bottles, made from Water Cloud Crystals, capable of perfectly isolating pollution energy.

Qi Qi carefully accepted the pollution medicine offered by Fang Mu. Since this bottle was formulated by Saint Creator Qixing, its chances of aiding the Demon King were exceptionally high.

Raising his hand to open the potion bottle, Qi Qi felt the surge of pure pollution energy inside, and an irrepressible cheerfulness appeared on his face.

However, hidden beneath his large hood, this cheerfulness was unseen by Fang Mu.

Still, Fang Mu could sense Qi Qi’s obvious emotional shift, and a faint smile curved on Fang Mu’s lips.

It seemed that pollution medicine with a purity of 95% was enough to assist the Demon King!

The Demon King also felt the purity of the pollutant energy in the bottle and immediately expressed gratitude to Fang Mu.

Although the Demon King, who had contracted a special-grade pollutant, was without emotions, he understood human interactions and courtesy.

Emotions and emotional intelligence are two entirely different things.

Qi Qi brought the pollution medicine bottle before the Demon King. The tiny potion bottle appeared as insignificant as a sesame seed before the Demon King's massive maw.

However, after the Demon King drank the potion, the pollutant energy radiating from his body diminished significantly.

The refining effect of high-purity pollutant energy on pollutants was instantaneous, though for a pollutant that had already devoured five pollution sources, the single bottle of pollution medicine proved insufficient.

Initially, Fang Mu acquired a substantial amount of pollutants and pollution sources by trading with the Green Magician.

But as the trades continued, it seemed as if Fang Mu had hollowed out the Green Magician's resources, making it increasingly difficult to gain much from him.

Fang Mu seized this opportunity in hopes of obtaining additional pollutants and pollution sources from Ancient Genesis.

"Ling Kang senior, you're the one most familiar with the effect of this pollution medicine. Considering its specifications, how many bottles would be necessary to restore your health, aid your pollutant in devouring the sixth pollution source, regain your emotions, and help you become a God Territory Powerhouse?"

Faced with Fang Mu's inquiry, Ling Kang contemplated his condition for a moment before responding conservatively.

“This potion’s effectiveness is excellent, but its quantity is far too limited.”

“Based on this potion’s specifications, I’d require at least 200 bottles to return to my prime!”

Although Ling Kang understated his needs, he couldn’t help but feel he was asking for an outrageous favor.

To demand 200 bottles of high-purity pollution medicine from a Saint Creator seemed utterly unrealistic.

Still, in his current situation, Master Qixing was his sole lifeline. Emotionless individuals were often willing to pay steep costs for strength and survival!

“Fang Mu, please convey a message to Master Qixing for me: If he is willing to save me and help me successfully absorb the sixth pollution source—”

“I will unconditionally perform five tasks for Master Qixing in the future!”

Qi Qi didn’t voice any objection to Ling Kang’s promise, even though it likely meant substantial sacrifices for Ling Kang.

When Qi Qi was devoid of emotions, he had also made similar promises, so he understood Ling Kang’s act of desperation. He had no reason to interrupt Ling Kang now.

Even with this promise, it was uncertain whether Master Qixing would agree.

After all, 200 bottles of pollution medicine at this purity was indeed an immense amount!

Fang Mu didn’t immediately respond to Ling Kang but instead spoke seriously.

“Since I’ve come to investigate Ling Kang senior’s situation, I’ve examined it thoroughly. I’ll convey the reality to Master and provide feedback by tonight.”

“Before leaving, I hope to obtain additional pollutants and pollution sources from Ancient Genesis to assist in preparing future pollutant energy!”

Chapter 1462: The Suitable Burial Ground!\_2

“Even though Master is unable to help right away since Senior Ling Kang requires far too many pollution medicines.”

“I will still deliver these pollutants and pollution sources as equivalent Creator resources to the Ancient Genesis!”

“Rest assured, I will do my best to persuade Master to assist in this matter!”

Hearing Fang Mu’s words, Ling Kang immediately tossed a bracelet-shaped spatial equipment from his person to Qi Qi before Qi Qi could respond.

“Qi Qi, hand over all these collected pollutants and pollution sources of mine directly to Fang Mu!”

“Regardless of whether they ultimately prove helpful, these pollutants and pollution sources are meant as my token of gratitude to Master Qixing.”

“Also, there is an Order-level spiritual instrument in this spatial equipment. Consider it my present for meeting Fang Mu!”

Following Ling Kang’s instructions, Qi Qi retrieved resources from Ling Kang’s spatial spirit tool and handed them all over to Fang Mu.

“Fang Mu, you are doing us a favor, there’s no need to be so formal!”

“Besides these pollutants and pollution sources from Evil King, I’ll ensure more pollutants and pollution sources are delivered to you in the future!”

“I wonder, would you be interested in seeing the Ancient Genesis’ top-level pollution sources treasured over the past millennia?”

Fang Mu shook his head and replied.

“Let’s wait until Senior Ling Kang recovers his health and the pollutants successfully form a contract with the sixth pollution source before exploring them.”

“I should return as soon as possible and get back to you the earlier, the better!”

With that, Fang Mu took out two Legend Butterflies and handed them to Qi Qi.

Qi Qi understood that one of these Legend Butterflies was meant for Ling Kang, so Qi Qi temporarily accepted it on his behalf.

If this Legend Butterfly were released to approach Ling Kang now, it would be devoured by the polluted energy and transform into a monster instantly!

Ling Kang showed no emotional reaction to Fang Mu’s words, but Qi Qi felt deeply moved in his heart.

Fang Mu had given up the chance to examine Ancient Genesis’s thousand-year collection of special-grade pollution sources in order to help Ling Kang.

Qi Qi raised his eyes towards Ling Kang. The current Ling Kang had no emotions due to the effects of pollutants. If someday Ling Kang regains his emotions and recalls Fang Mu’s words today, how deeply he might feel gratitude towards Fang Mu!

Qi Qi’s willingness to help Ling Kang went beyond a mere allegiance to Ancient Genesis.

To be truthful, Qi Qi had been sold into Ancient Genesis years ago and bore little attachment to the organization.

Over the centuries, as Ancient Genesis thrived and expanded, they started purchasing ordinary people from harsh environments across various Federations at dirt-cheap prices — individuals incapable of becoming Beast Masters.

Qi Qi was brought into the fold in this manner.

Qi Qi had witnessed Ling Kang's demeanor before he contracted pollutants — back then, Ling Kang had been gentle, tenacious, and exceedingly considerate.

It was precisely because of this that Qi Qi wished for Ling Kang to reclaim his emotions.

The care and regard offered during Qi Qi's lowest moments perhaps had unconsciously transformed into tender feelings long ago.

Initially, Fang Mu intended to examine Ancient Genesis's top-tier pollution sources to locate an optimal match for his Sacred Radiance Bone Fragment.

Currently, the Sacred Radiance Bone Fragment was ready to absorb a third pollution source.

Among the pollution sources Ling Kang had provided, there happened to be one perfectly compatible with the Sacred Radiance Bone Fragment — the pollution source known as Burial Ground.

[Burial Ground]: On a battlefield, several exalted angels were slaughtered by vile creatures and left exposed amidst the corpses. Due to specific means, these angels were barred from reincarnation within the Angel Reincarnation Pool. Their souls, devoid of sanctity, had long decayed into depravity within the battlefield.

The Sacred Radiance Bone Fragment, a pollutant derived from the Angel Species Beast, connected with the prior pollution sources Sacred Glory Evil Thought and Absence of Sacred Rhyme, both of which were tied to Angel Species Beasts. Similarly, Burial Ground originated from the deaths of Angel Species Beasts, transformed post-mortem.

It could be said that Burial Ground was a flawless match for Sacred Radiance Bone Fragment!

Soon, Qi Qi organized and delivered a substantial amount of pollutants and pollution sources into Fang Mu's possession.

Before Fang Mu departed the castle, Qi Qi had already stationed his attendants along with Shu Liangjun outside the castle.

Although Qi Qi enjoyed fruitful exchanges with Fang Mu, without Master Qixing's confirmation, everything remained mere talk.

Fortunately, Qi Qi would receive Fang Mu's correspondence before tonight, uncovering the fate of Ling Kang.

Shu Liangjun escorted Fang Mu back to Guiyuan Manor, where Fang Mu immediately returned to his room and summoned the special-grade pollution source Burial Ground alongside his special-grade pollutant Sacred Radiance Bone Fragment.

The moment the Sacred Radiance Bone Fragment emerged, it was captivated by the special-grade pollution source Burial Ground.

It expressed its desire to absorb Burial Ground.

Fang Mu produced numerous pollution medicines of 100% purity. He felt no concern about the Sacred Radiance Bone Fragment assimilating Burial Ground.

With the assistance of these pollution medicines, the absorption process would be as effortless as drinking water, free from any mishaps.

Even so, Fang Mu never advocated for those around him to contract special-grade pollutants, despite it being an expedited path to power.

The lengthy process of enabling a special-grade pollutant to absorb six pollution sources would render the contracted individuals devoid of emotions for the duration.

Fang Mu granted the Sacred Radiance Bone Fragment permission to commence absorbing Burial Ground. The fragment enveloped the pollution source, initiating its integration.

This time, the absorption process for the special-grade pollution source caused minimal disruption.

A radiant white light, suffused with sanctity, enveloped the Sacred Radiance Bone Fragment. Its form became stunningly blurred.

Within the mysterious radiance, Fang Mu could no longer discern the precise details of the Sacred Radiance Bone Fragment.

Nevertheless, the aura of the Sacred Radiance Bone Fragment underwent clear transformation.

Fang Mu employed Fool's Shadow's innate divine skill [Eye of Omniscience] to probe the Sacred Radiance Bone Fragment currently shrouded by the eerie white glow.

[Contaminated Subject]: Sacred Radiance Bone Fragment

[Contaminant Category]: Weapon Type

[Contaminant Rank]: Sequential Four

[Contamination Subject Element]: Metal

[Contaminant Potential]: Order Level

[Beast Quality]: Special Grade

Pollution Sources:

[Sacred Glory Evil Thought]: The dying remnant will of an Angel Species Beast, absorbed by other angels. This corrupt thought fully perverted the sanctity of another angel, leading to the transformation of the angel's physical vessel into an energy source.

[Absence of Sacred Rhyme]: In an angelic council, a Saintess of Sacred Blood stripped the prestige of a war-decorated Pureblood Angel. The polluted angel's Angel Reincarnation Pool and the blood, flesh, and marrow of the two entities merged, tainting the sacred rhyme and forming an anomalous counterpart.

[Burial Ground]: On a battlefield, several exalted angels were slaughtered by vile creatures and left exposed amidst the corpses. Due to specific means, these angels were barred from reincarnation within the Angel Reincarnation Pool. Their souls, devoid of sanctity, had long decayed into depravity within the battlefield.

#### Pollution Abilities:

[Evil Radiance Temptation]: The bone fragment uses polluted energy to replicate itself, forming bone chains. When attacking a target, the bone chains evoke the target's inner depravity, compelling them to unleash their wicked impulses.

[Bidirectional Plunder]: The Wingless Saintess and Maimed War Envoy can each deploy an energy-plundering ability.

① Wingless Saintess: When summoned, the Wingless Saintess chants a victorious hymn. By sacrificing herself, she can strip powers tied to the rules of will from the target. (The Wingless Saintess possesses combat capability even without activating her ability.)

② Maimed War Envoy: When summoned, the Maimed War Envoy emits a furious battle cry of defeat. Through self-sacrifice, he strips the protective abilities of the target. (The Maimed War Envoy also retains combat capacity without utilizing his ability.)

[Bone Burying Command]: When killing a lifeform, it imprisons their body and soul within the Sacred Territory beneath its feet. It transforms the energy from those imprisoned into nourishing energy, amplifies its pollution abilities, and simultaneously restores its own attrition.

## Chapter 1463: Bone Burying Command!

After some investigation, Fang Mu discovered that the Sacred Radiance Bone Fragment absorbed a new high-level pollution source, the Burial Ground, and obtained a pollution ability called the [Burial Decree].

This ability, [Burial Decree], allows Fang Mu to imprison the remains and souls of enemy targets when attacking with the Sacred Radiance Bone Fragment, converting them into enhancements and sustenance for his other pollution abilities.

Fang Mu has previously used the Sacred Radiance Bone Fragment many times in battle, and each time he wielded the Sacred Radiance Bone Fragment, it took a huge toll on his energy.

Furthermore, Fang Mu's Guardian Beast could not establish an effective synergy with the Sacred Radiance Bone Fragment.

Now that the Sacred Radiance Bone Fragment has acquired the ability to sustain, it is a great advantage for Fang Mu.

This will allow Fang Mu to wield the Sacred Radiance Bone Fragment for longer periods during battles, and since the Sacred Radiance Bone Fragment is inherently proficient at targeting multiple enemies simultaneously, it is very convenient for unleashing its pollution function, [Burial Decree].

Moreover, [Burial Decree], in addition to sustaining, can also amplify the pollution functions of [Evil's Blessing] and [Bidirectional Plunder], fundamentally enhancing the abilities of the Sacred Radiance Bone Fragment!

Fang Mu was very satisfied with the new function [Burial Decree] that the Sacred Radiance Bone Fragment acquired from absorbing the Burial Ground.

As the hazy and eerie glow enveloping the Sacred Radiance Bone Fragment dissipated, Fang Mu saw the current form of the high-level pollutant, the Sacred Radiance Bone Fragment.

Each time it absorbs a high-level pollution source, the Sacred Radiance Bone Fragment undergoes a reconstruction.

At this moment, the blade of the chain sword composed of the Sacred Radiance Bone Fragment had widened by nearly a finger's breadth.

Although the chain sword could still move at Fang Mu's will, appearing light and airy, the texture of the chain sword had become better.

The blade became sharper, and the pollution energy contained within it successfully doubled based on its original capacity.

From an overall combat strength perspective, although its rank has not changed, its power has increased by at least 0.5 times!

In the future, as Fang Mu improves the rank of the Sacred Radiance Bone Fragment, the advantages from absorbing the Burial Ground will manifest more dramatically!

Fang Mu had received a large amount of pollutants and pollution sources from Qi Qi and Ling Kang, and the particularly high-quality pollutants and pollution sources would be collected.

The vast amount of medium-level and advanced pollutants would all be handed over to Xi Xi for digestion and purification into pollution energy.

After enhancing the Sacred Radiance Bone Fragment, it was already late into the night, and Fang Mu knew that both Qi Qi and Ling Kang were waiting for his message.

Despite Ling Kang's current emotional restriction due to the high-level pollutant, which made him consider only personal interest,

Fang Mu could see that Qi Qi genuinely cared about Ling Kang's safety.

Since Fang Mu had promised both of them that there would be news today, he wouldn't intentionally delay them.

Fang Mu used the Legend Butterfly to contact Qi Qi.

At that moment, Qi Qi was with Ling Kang, accompanying him while waiting for Fang Mu's reply.

Although Qi Qi and Fang Mu were both Starwheel members for several months, they didn't spend much time together.

However, based on his understanding of Fang Mu over this period, Qi Qi knew that, regardless of success, Fang Mu would reply.

Ling Kang was extremely concerned about his own condition but wasn't as persistent as Qi Qi.

"Ah Qi, how could a Saint Creator reply to us so quickly?"

"You also mentioned that Qixing has been busy handling those Outer Realm embryos and hasn't entertained guests. Even Han Ming and the Eternal Mother Yongle probably haven't seen Qixing!"

"Can a disciple really have that much to say before Qixing!?"

Qi Qi also thought Qixing might not be willing to prepare so many high-purity pollution elixirs for Ling Kang.

But as for whether Fang Mu could have his say before Qixing, Qi Qi believed Fang Mu could indeed speak for himself.

Other Creators wouldn't give their disciples so much privilege.

Qi Qi noticed how highly Qixing valued Fang Mu and treated him well.

The Messenger contracted by Fang Mu was raised to the Angel species level by Qixing, even amidst his busy affairs.

This was undoubtedly a great favor to Fang Mu.

It was this discovery that led Qi Qi to decide to ask Fang Mu for help!

Otherwise, Qi Qi wouldn't disclose internal information about the Ancient Genesis to an outsider.

"Whether Qixing can help you or not, I don't dare say, but since Fang Mu promised to reply tonight, there will definitely be news!"

"If Qixing can help, everything will be splendid. If not, I'll channel the original energy of my pollutants into your body."

"Even if it can't help you absorb the sixth pollution source, I will strive to restore your health—that's my promise!"

These words from Qi Qi were spoken seriously. Previously, Qi Qi was also someone who only considered profit.

But now, Qi Qi's actions had nothing to do with benefit, but were for the emotions suppressed for thousands of years.

Qi Qi knew that Ling Kang, as he was now, wouldn't understand the words and actions being taken for his sake.

Spending a cost, no matter how great, to keep Ling Kang alive was better than letting him die!

At that moment, the Legend Butterfly given to Qi Qi by Fang Mu transmitted a communication signal.

Even someone as strong as Qi Qi in the Gods' Domain hesitated to connect, fearing she'd receive helpless news.

Ling Kang had already urged Qi Qi, who took a deep breath and connected with Fang Mu's communication.

Before Qi Qi could speak, Fang Mu spoke directly.

"Senior Qi Qi, I told my mentor the situation in detail. My mentor sympathizes with the challenges Senior Evil King faced contracting a high-level pollutant and is willing to help!"

Chapter 1464: Bone Burying Command!\_2

"Within a week, I will have Elder Shu deliver twenty vials of pollution medicine with the same purity as the one before to aid Senior Evil King in his recovery."

"The subsequent medicines will be delivered in a month!"

"Fortunately, my master has some stock of pollution medicine; otherwise, I really wouldn't have been able to assist Senior Evil King so quickly!"

After saying this, Fang Mu didn't wait to hear Qi Qi's thanks but immediately shifted the conversation and said,

"Senior Qi, I still have many things to attend to. If there's any anomaly regarding Senior Evil King, please notify me directly."

With that, Fang Mu ended the transmission without discussing any matter related to compensation with Qi Qi.

Bringing up the matter of compensation at a time like this would really be too transactional. If Fang Mu encountered a situation in the future, Qi Qi would undoubtedly help him without hesitation.

When Fang Mu first faced Lian Dai, a God Territory Powerhouse, he relied on bluffing and posturing. At that time, Fang Mu didn't have the strength to contend with such a being and had to depend on the fictitious identity of the Saint Creator he created, as well as the Contract Garden that stood behind him.

But during this interaction with Qi Qi, Fang Mu again used his other identity, Qixing, but he displayed calm composure throughout.

God Territory Powerhouses no longer imposed significant pressure on Fang Mu.

After spending just one day at the Half Mountain Manor, Gu Ting, the president of the Beast Collection Merchants' Association, arrived at the Dragon Rising Federation with the supplies Fang Mu required.

Knowing how urgent these supplies were, Gu Ting's first stop in the Dragon Rising Federation was Fang Mu's Mountain Manor in JA City.

He even declined official invitations from the Dragon Rising Federation.

Although collaborating with the Dragon Rising Federation indeed opened up a larger market for the Beast Collection Merchants' Association, the association had always dominated the market, given its vast reserves of rare Guardian Beast resources.

If truth be told, if not for Fang Mu, Gu Ting wouldn't have initiated a collaboration with the Dragon Rising Federation at all.

The cooperation was merely to please Fang Mu.

When seeing Gu Ting again, Fang Mu felt that the man had transformed completely. Gu Ting now seemed worlds apart from the person Fang Mu had originally met.

Previously, Gu Ting had been burdened with worries, fearing failure to satisfy Fang Mu's demands might lead to the collapse of the Beast Collection Merchants' Association.

Now, the association shared a cooperative relationship with Fang Mu, basking in the radiance of the Saint Creator, Qixing.

What had seemed like a calamity turned into fortune, as numerous prominent factions were now lining up to collaborate with the Beast Collection Merchants' Association.

Many of these large factions were backed by Grandmaster Creators.

The association's expanded resources had elevated Gu Ting's standing in various circles.

A joyous occasion often uplifts the spirit, and Gu Ting's demeanor was now fundamentally different from before.

"Sir Jianmu, you requested 200,000 Radar Akio plants and 500 Magic Mirror Banana Trees, but I was worried you might require more."

"This time, I brought 205,000 Radar Akio plants and a full 2,000 Magic Mirror Banana Trees. If you need any additional resources in the future, just let me know!"

"I will do everything in my power to ensure you have what you need!"

Fang Mu cast a commendable glance at Gu Ting. Just the fact that Gu Ting had prepared additional supplies over what was requested proved that Gu Ting was worth fostering.

When Fang Mu initially requested 200,000 Radar Akio plants and 500 Magic Mirror Banana Trees, it had been an estimate based on current needs.

As it turns out, the additional 5,000 Radar Akio plants and 1,500 Magic Mirror Banana Trees would ensure ample resources without worry about shortages during execution.

“President Gu Ting, thank you for making this trip. For the cost of these Radar Akio plants and Magic Mirror Banana Trees, you can bill the Jianmu Commerce Association. Payment can be made in World Coin or with high-tier Creator resources.”

“Just discuss the matter with the representative from the Jianmu Commerce Association.”

Gu Ting had clearly brought these resources as an offering to win favor with Fang Mu.

Compared to currying favor with Fang Mu, the monetary value of the Radar Akio plants and Magic Mirror Banana Trees was insignificant.

Yet, when Fang Mu mentioned the option of exchanging them for high-tier Creator resources, Gu Ting hesitated momentarily.

Ultimately, Gu Ting hardened his resolve, setting aside immediate profit, and said to Fang Mu,

“Sir Jianmu, your collaboration with the Beast Collection Merchants’ Association has opened new trade channels with countless factions for us. Consider these Radar Akio plants and Magic Mirror Banana Trees a token of my personal gratitude to you!”

Not giving Gu Ting the chance to feel conflicted, Fang Mu waved his hand decisively and replied,

“Business is business. How could I possibly take so many resources from you without payment?”

“If you insist on this, I wouldn’t know how to engage in future transactions for spiritual materials with you!”

“Stick to the usual procedure and settle with the Jianmu Commerce Association. Be sure to prepare even more Radar Akio plants and Magic Mirror Banana Trees for me.”

“I’ll likely need more of these Guardian Beast resources in the future!”

Realizing Fang Mu's sincerity, Gu Ting stopped insisting while mentally reassessing Fang Mu's perspective as a Saint Creator's disciple.

Fang Mu evidently didn't think twice about the resources Gu Ting had provided.

Nevertheless, Gu Ting committed Fang Mu's requests to memory.

Fang Mu had clearly signaled Gu Ting to stockpile Radar Akio plants and Magic Mirror Banana Trees, resources of strategic importance due to their unique properties.

Given the Beast Collection Merchants' Association's vast supply channels, both resources were obtainable.

Once back, Gu Ting decided to gather every last available Radar Akio plant and Magic Mirror Banana Tree.

If Fang Mu couldn't be lured by money or gifts, then ensuring ample resources next time Fang Mu needed them might deepen his regard for the association!

After noting Fang Mu's requirements, Gu Ting left the Half Mountain Manor and proceeded to The Capital of the Dragon Rising Federation to discuss further collaborations with their officials.

As he observed the bustling prosperity of JA City and The Capital, Gu Ting mused that it was necessary to allocate more resources toward establishing infrastructure and increasing the happiness index of the Beast Language Federation upon his return.

Still, no matter how much effort was made in developing the Beast Language Federation, it could never compare to the Dragon Rising Federation.

One reason was the lack of a robust foundation in the Beast Language Federation. The second was its absence of someone like Qixing to anchor the nation.

Were Qixing to visit the Beast Language Federation, even if he never lifted a finger to assist, the mere presence of his reputation would allow the nation to flourish within a decade!

While Gu Ting was negotiating partnerships with the Dragon Rising Federation, Fang Mu had already transported the batch of Radar Akio plants, Magic Mirror Banana Trees, and special resources acquired from the Jianmu Commerce Association to the Han Yang Empire.

The plan for Longze, the Great Commander of the Han Yang Empire, to lead its four legions into the Dimensional World had originated from Fang Mu.

Lian Dai chose to follow Fang Mu's proposal partly because the pollution from the Dimensional World posed an enormous threat to the Han Yang Empire's lands.

Lian Dai aimed to contain the threat within the Dimensional World.

Although this strategy was fraught with danger, it offered the best means to protect the citizens of the Han Yang Empire.

The other reason was Lian Dai's trust in Fang Mu.

Without sufficient trust, Lian Dai would never have agreed to let the Han Yang Empire undertake such a risky venture upon first venturing into the Dimensional World!

Having received so much from Lian Dai, Fang Mu naturally felt the need to reciprocate.

The resources Fang Mu allocated from the Jianmu Commerce Association were worth at least 30 billion World Coins when tallied.

These supplies embodied Fang Mu's goodwill.

Fang Mu was confident that not only would Lian Dai recognize his sincerity, but Longze and the members of the four legions would as well.

Fang Mu believed this would deepen future collaborations in their Dimensional World explorations between himself, the Han Yang Empire, and even the entire Sea Clan. Without their support, it would be nearly impossible for Fang Mu to leverage the exclusive characteristic of Fool's Shadow, [Dimension Monarch], to take control of this Dimensional World!

Within the Dimensional World, Fang Mu had completely lost contact with the Swallow Gorge Waggle.

Nevertheless, Fang Mu surmised that this time venturing into the Dimensional World would yield significant intelligence from the Swallow Gorge Waggle!

Chapter 1465: Big Trouble Stirred Up by Swallow Gorge Waggle!

Ever since Fang Mu left the Han Yang Empire, Lian Dai had been waiting for his return.

As the ruler of the Han Yang Empire, Lian Dai was never one to make decisions recklessly.

Each of Lian Dai's decisions was made after careful deliberation.

However, even though she believed she had made the right decision, thinking about the four military corps of the Han Yang Empire being sent into the Dimensional World, a dangerous place teeming with dimensional creatures, filled her with fear!

She feared that the four corps might face unknown dangers and be annihilated in the Dimensional World.

The royal-level dimensional creature, Swallow Gorge Waggle, whose power was comparable to that of a God Territory Powerhouse, gave Lian Dai great confidence, but who could guarantee that Swallow Gorge Waggle could definitely defeat all formidable foes!?

Upon hearing the news that Fang Mu was coming to the Han Yang Empire, a great weight was lifted off Lian Dai's heart.

This time, she could join Fang Mu in the Dimensional World to see the situation of the four corps of the Han Yang Empire firsthand.

Fortunately, the precious communication shell that could transmit messages from within the Dimensional World had not relayed any bad news.

This indicated that the four corps had not encountered any danger in the Dimensional World yet.

Just as Lian Dai began to relax and prepare to receive Fang Mu, the communication shell brought news that changed her expression dramatically.

Longze reported that members of the investigative group had discovered a massive gathering of dimensional creatures heading towards the area where the four corps had established themselves.

These dimensional creatures seemed to be deliberately deployed, not in a rush to attack but instead continuously amassing their forces.

Since Longze couldn't command Swallow Gorge Waggle, and as a dimensional creature, Swallow Gorge Waggle was unable to communicate with Longze.

This made it impossible for Longze to send Swallow Gorge Waggle to investigate the situation!

Just after Lian Dai received the news, Shu Liangjun arrived with Fang Mu at the entrance of the fortress outside the Dimensional Channel.

The fortress was almost completed at this time, and from the outside, the structure appeared magnificent.

When Lian Dai was directing the construction of this fortress, she emphasized its defensive capabilities; otherwise, there would be no need to build such a large fortress just to oversee the Dimensional Channel.

Before Fang Mu's arrival, Shi Ji was already waiting at the entrance of the fortress.

Upon seeing Fang Mu, Lian Dai urgently addressed him.

"Little Wood, I just received word from Longze that a massive, dangerous gathering of dimensional creatures is underway in the Dimensional World."

"Can you take me to the Dimensional World and allow me to command that royal-level dimensional creature?"

"I need to clear away those gathered dimensional creatures and discover why they are amassing in large numbers!"

"Otherwise, such a large number of dimensional creatures could lead to the destruction of the four corps!"

Fang Mu, realizing the gravity of the situation, responded immediately.

"Aunt Dai, let us enter at once. I will personally command Swallow Gorge Waggle to assist your operations!"

Lian Dai raised her hand to hold Fang Mu's sleeve.

"Little Wood, I trust you understand how dangerous the Dimensional World is now, and during such perilous times, I cannot let you stay in the Dimensional World."

"Once combat with those dimensional creatures begins, I cannot ensure your safety!"

"After I resolve everything, I will convey the message to you, and it won't be too late for you to enter the Dimensional World then!"

Lian Dai had to consider many factors regarding Fang Mu, and so far, she had not made contact with Qixing.

Although she was Fang Mu's protector and had established connections with Qixing,

If Fang Mu's safety were compromised in the Dimensional World, Qixing might hold her accountable.

The issue could not be resolved by herself, and with Fang Mu's strength, he wouldn't be able to help either.

Emotionally, Lian Dai regarded Fang Mu as a junior and did not want his safety compromised.

"Aunt Dai, let me accompany you to the Dimensional World; aside from that royal-level dimensional creature, I have some other cards that can come in handy at critical times!"

"We shouldn't delay any longer. Enter the Spirit Capturing Box first, and I will take you into the Dimensional World right now!"

Seeing Fang Mu's determined gaze, Lian Dai did not argue further.

She noticed a hint of admiration in Fang Mu's expression.

Fang Mu, as a young man of high status in the Human World, was an individual revered by thousands as a Saint Creator wherever he went.

This remained true even when he faced other Saint Creators!

His willingness to venture into danger even under such circumstances was enough to prove Fang Mu's excellence.

Few among the Sea Clan's young prodigies could match him.

Fang Mu had expressed himself so decisively, so Lian Dai did not push back any further and entered the Spirit Capturing Box directly.

As Fang Mu passed through the Dimensional Channel into the Dimensional World, he pondered what could have caused those dimensional creatures to gather.

Fang Mu was certain it wasn't due to the Sinister Dusk Empress Flower.

Firstly, the Sinister Dusk Empress Flower couldn't exert influence from such a distance, and secondly, if the dimensional creatures were attracted by it, they wouldn't linger on the outskirts.

These dimensional creatures were acting in an organized manner, surely guided by a powerful dimensional creature from the background.

Fang Mu did not doubt this at all.

Most likely, this dimensional creature could perceive Swallow Gorge Waggle's aura, and despite this awareness, it continued its actions, indicating that it, too, was probably of royal-level strength.

If Lian Dai and Swallow Gorge Waggle could not defeat this troublesome royal-level dimensional creature, Fang Mu would have to resort to using the purple-black Small Tower!

Chapter 1466: Big Trouble Stirred Up by Swallow Gorge Waggle!\_2

Fang Mu had previously only used this Purple-black Mini Tower to target Order Strong individuals, never attempting it on a God-Realm Expert.

Fang Mu wasn't sure if the Purple-black Mini Tower obtained from the Sanctuary would work against God Territory Powerhouses, but at this moment, there was no way he'd let Lian Dai face it alone.

Besides, without him, Lian Dai wouldn't be able to command the Swallow Gorge Waggle.

Upon entering the Dimensional World, Fang Mu noticed that Swallow Gorge Waggle had stationed the two subordinates he recently acquired next to the Sinister Dusk Empress Flower, yet the creature itself wasn't present.

But the moment Fang Mu stepped into the area, Swallow Gorge Waggle was able to sense his presence.

Fang Mu understood that Swallow Gorge Waggle would come to see him soon, unless it was currently occupied with something it couldn't break away from.

Fang Mu examined the Blue Curse Orchid planted beneath the Dimensional Channel, most of its body concealed beneath the soil with only a small portion exposed.

The Blue Curse Orchid was absorbing polluted energy from within the Dimensional World in large quantities; though it couldn't yet contend with S-rank dimensional creatures, it could easily handle A-class ones!

Given some time to grow, the Blue Curse Orchid might be able to challenge King-level dimensional creatures.

By then, the Blue Curse Orchid could genuinely serve as a lock securing the Dimensional Channel for Fang Mu's efforts.

Fang Mu released Lian Dai from the unique Spirit Capturing Box.

During his last departure from the Dimensional Channel, Fang Mu had arranged for the Blue Curse Orchid and several powerful dimensional creatures to oversee it.

The King-level dimensional creatures under Swallow Gorge Waggle's command had mastered concealing their energy, preventing any of it from leaking out.

However, Longze, in a show of respect for Fang Mu, refrained from stationing Sea Clan Warriors by the entrance after learning Fang Mu had set his sights on those three strange flowers.

Instead, they were placed a kilometer away in the outer perimeter.

Lian Dai was visibly uneasy and immediately released her spiritual power to probe the surrounding environment upon appearing.

After detecting that the Sea Clan Warriors guarding the perimeter were still stationed without any sign of panic, Lian Dai understood that the dimensional creatures had not yet launched an attack on the land she and Fang Mu had already surveyed.

This allowed Lian Dai to calm her nerves as she spoke to Fang Mu.

“Little Wood, let’s head over there now. This time, deploying the Four Sea Clans Legion into the Dimensional World, even Longze and those four legions have little confidence in success.”

“If this battle is lost, Longze will struggle to lead the four Sea Clan legions back into the Dimensional World again!”

“I find it hard to allocate more troops and resources into the Dimensional World as well.”

“Although I am the King of the Han Yang Empire, key figures in the Han Yang Council have already expressed dissatisfaction with this operation, thinking everything happened too abruptly and that it jeopardizes the lives of the elite forces of the Four Sea Tribes.”

“So, if we wish to continue exploring the Dimensional World, we must overcome this crisis!”

Fang Mu was well aware of how supportive Lian Dai was of him and also the pressures she might face in doing so.

“Aunt Dai, I understand your point. Not only do we need to win, but we must also minimize losses to the Sea Clan legions!”

“Swallow Gorge Waggle sensed my presence and will be here soon.”

“Swallow Gorge Waggle certainly has a better grasp of the situation than the investigative corps could ever hope to.”

As Fang Mu spoke, a thunderous sound erupted, heralding the arrival of Swallow Gorge Waggle, flapping its wide carapaced wings as it flew toward him.

High-ranking dimensional creatures inherit the strengths of others through mutual devouring.

With the assistance of the Blood Aged Wine, King-level dimensional creatures like Swallow Gorge Waggle could refine their power by consuming other Outer Realm King-level beings.

Swallow Gorge Waggle approached Fang Mu, crouching down like a large dog before him.

Such a pose with its colossal frame evidently made Swallow Gorge Waggle feel awkward.

Lowering its head before Fang Mu, it seemed as though Swallow Gorge Waggle was playfully begging for a pat.

But given Swallow Gorge Waggle’s immense size, Fang Mu appeared as insignificant as a sesame seed before an elephant.

At this moment, Fang Mu had no time to interact with Swallow Gorge Waggle and immediately questioned it.

“Why has so much dimensional life gathered at the fringe, preparing for an all-out assault? What’s going on!?”

Upon hearing Fang Mu’s query, Swallow Gorge Waggle nervously wagged its worm-like, massive tail.

Swallow Gorge Waggle’s deep, resonant voice sounded in Fang Mu’s mind.

“Master, didn’t I promise you before leaving that I’d help Tianyuan Qiongyan find a suitable target to devour to advance to King level?”

“Tianyuan Qiongyan’s rank is somewhat low, and it’s hard for it to complete both bloodline and rank advancements with just one instance of devouring.”

“Unfortunately, maximum benefits can only be reaped from the first devouring in every rank.”

“So, I ventured far to find a King-level dimensional creature and provoked it to lure it here.”

“But, I discovered that with my subordinates, I might not be able to defeat it.”

Fang Mu’s lips twitched involuntarily upon hearing this.

It turned out this massive commotion had been caused by Swallow Gorge Waggle’s reckless actions! Swallow Gorge Waggle’s methods were far too impulsive!

If not for Lian Dai’s cross-dimensional capabilities to communicate with Longze, Swallow Gorge Waggle’s recklessness might have led to disaster!

It was clear Fang Mu couldn’t just candidly explain this blunder to Lian Dai.

Instead, he pressed Swallow Gorge Waggle further.

“Swallow Gorge Waggle, how does the strength of that King-level dimensional creature compare to yours? By how much is it stronger?”

Swallow Gorge Waggle turned aside, revealing several cracks on its carapace.

“These were caused by the disintegrating energy blasts it hits me with.”

“In close combat, it’s no match for me, but its ranged attacks are too powerful, so I can’t get near it.”

Swallow Gorge Waggle then looked at Lian Dai beside Fang Mu and continued in its deep tone.

“Their strengths should be roughly equal. If she can help me fend off that King-level dimensional creature’s attacks, I’ll definitely be able to defeat it and kill it!”

Hearing Swallow Gorge Waggle’s words, Fang Mu felt slightly relieved.

There was no point in dwelling on what had already happened.

Before leaving the Dimensional World this time, Fang Mu resolved to properly educate Swallow Gorge Waggle, ensuring it behaves responsibly and avoids stirring any more trouble.

Currently, the Four Sea Clans’ legions were only beginning to establish themselves in the Dimensional World, and the foundational infrastructure was just being set up.

This wasn’t just for the Sea Clans’ legions but also for the Han Yang Empire’s confidence.

If Swallow Gorge Waggle stirred up further trouble, where would that confidence even come from?

Fang Mu organized his thoughts before addressing Lian Dai.

“Aunt Dai, the reason there are so many dimensional creatures gathered is that a King-level dimensional creature has targeted us. Although it’s stronger than Swallow Gorge Waggle, the difference isn’t significant.”

“I hope you can team up with Swallow Gorge Waggle to defeat this King-level Outer Realm being.”

“If this King-level Outer Realm creature can be devoured and absorbed by my other dimensional creature to reach King level,”

“Then, there will be two King-level dimensional creatures guarding the Dimensional World in the future!”

“With this, we’ll be better able to handle similar incidents should they arise.”

Although Fang Mu hadn’t been linked to Swallow Gorge Waggle through Covenant Blood Essence for long and wasn’t fully acquainted with its temperament,

Fang Mu deeply understood Tianyuan Qiongyan’s character and handling of situations.

Tianyuan Qiongyan was rare in its steadiness and profound sense of the bigger picture.

If Tianyuan Qiongyan could successfully advance to King rank this time, Fang Mu planned to leave both Tianyuan Qiongyan and Swallow Gorge Waggle in the Dimensional World permanently.

With Tianyuan Qiongyan as the leader and Swallow Gorge Waggle as its support, this would fundamentally prevent similar incidents in the future!

Chapter 1467: Only the Rules of the World!

Lian Dai was unaware that everything happening now was caused by the Swallow Gorge Waggle.

Even if Lian Dai knew the situation, she wouldn’t say much, because the outcome of this disturbance caused by the Swallow Gorge Waggle was favorable.

This disturbance gave Fang Mu the possibility to acquire an additional King-level Dimensional Creature.

One more King-level Dimensional Creature protecting infrastructure in the Dimensional World greatly enhances the safety of the members of the Four Major Sea Clans Troops.

In the entire Han Yang Empire, strictly speaking, Lian Dai is the only powerhouse whose strength has reached the Divine Domain Level.

With an additional King-level Dimensional Creature, it's unlikely situations as nerve-racking as the current one will arise in the future.

Lian Dai wasn't afraid to face a King-level Dimensional Creature; what she feared was not knowing who the enemy was.

Compared to facing strong enemies, Lian Dai dreaded the fear brought by the unknown even more.

The Swallow Gorge Waggle clearly explained the enemy's situation, which allowed Lian Dai to focus solely on how to deal with this King-level Dimensional Creature.

"Little Wood, do you know anything about the abilities of this King-level Dimensional Creature?"

"If we can understand its abilities, it'll be much easier to respond accordingly!"

Fang Mu relayed information to Lian Dai based on the Swallow Gorge Waggle's description.

"Aunt Dai, the Dimensional Creature we're about to face excels at energy supply, and its energy supply has the ability to disintegrate enemies!"

"At that time, I'll arrange for the Swallow Gorge Waggle to engage it in close combat. Aunt Dai, you only need to provide firepower cover for the Swallow Gorge Waggle, ensuring it can get close to the King-level Dimensional Creature!"

Upon hearing this, Lian Dai instantly felt relieved. She had already witnessed the abnormal physical capabilities of Dimensional Creatures through the Swallow Gorge Waggle.

If it wasn't absolutely necessary, Lian Dai wouldn't want to face a King-level Dimensional Creature head-on.

Lian Dai could resist the toxins carried by lower-tier Dimensional Creatures, but the toxins carried by Dimensional Creatures of the same Divine Domain Level can indeed affect Lian Dai!

If she were to be poisoned by a Dimensional Creature, her source would be damaged, and advancing her strength further would become nearly impossible!

Moreover, as a Mermaid, Lian Dai wasn't particularly skilled at close combat.

If she only needed to provide long-range firepower support for the Swallow Gorge Waggle, Lian Dai would feel much more confident and able to fully demonstrate her capabilities.

"Little Wood, if I'm just providing long-range firepower support, the pressure I face will be significantly reduced."

"I'll do everything to restrain that King-level Dimensional Creature and create opportunities for the Swallow Gorge Waggle."

"If you need me to face the enemy directly, just say so; I have no problem with that!"

Lian Dai's words were spoken with great sincerity. Though she wasn't eager to get injured while battling a King-level Dimensional Creature, Lian Dai was a person with a strong sense of responsibility. She understood that Fang Mu was sending the Swallow Gorge Waggle to face the King-level Dimensional Creature to protect the members of the Four Major Sea Tribes Corps.

In such moments, Lian Dai wouldn't shirk her responsibilities.

If Fang Mu needed Lian Dai, even if it meant injury, Lian Dai would unhesitatingly step in to combat the King-level Dimensional Creature alongside Fang Mu.

Fang Mu was deeply moved by Lian Dai's words.

As the Contractor of the King-level Dimensional Creature Swallow Gorge Waggle, Fang Mu knew how harmful the pollution energy of a King-level Dimensional Creature could be to living beings from the Beastmaster world.

Lian Dai's willingness to assist in such a situation spoke volumes.

"Aunt Dai, if the Swallow Gorge Waggle becomes injured, it can recover after a period of cultivation."

"But if you get injured, it will impact your future potential!"

"Let the Swallow Gorge Waggle handle the direct confrontation with that Dimensional Creature. During combat, the lower-tier Dimensional Creatures can easily be deterred by the Swallow Gorge Waggle."

"However, those King-level Dimensional Creatures under the control of the King-level entity won't be affected by this suppression."

"While providing firepower support, Aunt Dai, you must stay vigilant against those King-level Dimensional Creatures!"

"Of course, the King-level Dimensional Creatures under the Swallow Gorge Waggle will join the battle against the enemy as well."

"As for the Four Major Sea Tribes Corps you stationed here, they won't be of much help in this fight, so don't send them forward recklessly. It's best to avoid unnecessary losses."

"They only need to handle cleanup work at the rear!"

Lian Dai thought of Fang Mu's wellbeing, and Fang Mu also considered Lian Dai's safety.

Lian Dai could sense Fang Mu's thoughtfulness, and her expression no longer appeared as stern as before.

For some reason, while following Fang Mu, Lian Dai transitioned from someone who issued commands to a subordinate who didn't have to worry about anything—Fang Mu would make all the decisions!

And every decision was perfectly planned.

This allowed Lian Dai to feel a sense of reassurance from Fang Mu, a sensation unusual and wonderfully strange for her!

Very soon, Lian Dai, along with Fang Mu, reached the front line and met up with Longze.

Seeing Lian Dai finally arrive, Longze visibly relaxed.

As the Great Commander of the Sea Clan, Longze possessed exceptional leadership abilities. Not only could he lead the Four Major Sea Tribes Corps, but he could also oversee all sixteen corps of the entire Han Yang Empire.

However, in the Dimensional World, Longze found himself completely lacking support.

Without external assistance, he was like a rootless floating plant in this vast Dimensional World.

Not to mention the base hadn't been built yet; even if it were completed, it wouldn't withstand the repeated onslaughts of Dimensional Creatures.

Besides those few powerful King-level Dimensional Creatures, even the aura emitted by the other Dimensional Creatures was terrifying.

Chapter 1468: The Rules of the World Alone! \_2

Guang Longze detected over five hundred A-class dimensional creatures, and Longze believed the number wouldn't be less!

There are also more than eighty S-rank dimensional creatures!

Even a single powerful King-level dimensional creature would be enough to spar back and forth with Longze.

"My King, Sir Jianmu, you have finally arrived!"

"Let me immediately share everything I've uncovered with you."

Fang Mu did not interrupt Longze. Although Swallow Gorge Waggle had already informed Fang Mu of the origin of the incident and the enemy's information, getting a perspective from Longze again would only be beneficial.

After all, those gathered dimensional creatures hadn't launched an assault on their side yet.

Seeing Fang Mu's posture ready to listen, Lian Dai refrained from interrupting Longze and signaled for Longze to continue speaking.

"The dimensional creature tide gathered with incredible speed; it coalesced in less than an hour's time."

"I prioritized attention to this tide immediately and found that the dimensional creatures it drew together were of exceptionally high quality."

"After witnessing over ten S-rank dimensional creatures among them, I sought help."

"I also attempted to contact the King-level dimensional creature stationed in the Dimensional World dispatched by Sir Jianmu, but I found myself unable to communicate with that King-level creature effectively."

“The tide of dimensional creatures now gathered could easily destroy the Han Yang Empire if transported into the Beastmaster world!”

Longze’s tone was exceedingly grave when he spoke this, with absolutely no hint of exaggeration.

Precisely because he understood the sheer scale of this dimensional creature tide, even with Lian Dai’s presence right before him, Longze remained highly anxious.

Fang Mu did not directly command Longze but instead spoke to Lian Dai.

“My King, deliver the instructions as we discussed earlier!”

“We don’t need to wait for those dimensional creatures to attack; we can go on the offensive first.”

Whenever outsiders were present, Fang Mu would address Lian Dai either as “My King” or “Lady Lian Dai,” refraining from being overly familiar.

Lian Dai understood that Fang Mu’s words were meant to direct Longze to lead the Sea Clan troops to retreat, as the Sea Clan troops wouldn’t be of much help in this matter.

Lian Dai and Fang Mu saw no reason to feign politeness over such matters.

“Longze, leave this dimensional creature tide to us. You take the investigation corps here and the other three major corps responsible for constructing defensive fortifications back for reassignment.”

“Leave everything here to me and Jianmu.”

“You must take charge of managing the four major corps and calming their morale!”

“After this incident, it’s highly likely that a new King-level dimensional creature will be stationed here to ensure your safety.”

As the ruler of a nation, Lian Dai shouldn't speak of uncertain matters casually.

Yet Lian Dai spoke these words now to reassure Longze and the people of the four major corps.

Throughout the journey leading here, Lian Dai could sense the intense panic gripping the four major corps.

Not instilling confidence in these individuals, even if every threat was eradicated, would only result in continued fear and unease while stationed in the Dimensional World.

After hearing Lian Dai's words, Longze felt significantly reassured.

The addition of a new King-level dimensional creature is equivalent to gaining another God Territory Powerhouse.

Having two God Territory Powerhouses guarding the Dimensional World is vastly different from having just one.

However, these King-level dimensional creatures remain difficult to communicate with. Before leaving, Longze tentatively asked Fang Mu.

"Sir Jianmu, I notice you can communicate with this King-level dimensional creature. Could you also provide me a method to communicate with them?"

"So that when facing such situations again, I won't be as passive as I am now!"

Matters concerning the welfare of the four major corps in the Dimensional World were of significant importance. Despite knowing that his request might be seen as a breach of protocol, Longze couldn't hold back and expressed his thoughts to Fang Mu.

Swallow Gorge Waggle, this King-level dimensional creature, is no less intelligent than Longze. Even if it couldn't understand Longze's words, it could discern Longze's intentions through his demeanor.

Fang Mu had indeed overlooked reminding Swallow Gorge Waggle upon leaving the Dimensional World previously. Otherwise, Swallow Gorge Waggle wouldn't have shown such disregard towards the Sea Clan members!

If Fang Mu had anticipated this and given advance instructions to Swallow Gorge Waggle, Swallow Gorge Waggle would, without doubt, cooperate properly, even if it didn't hold respect for the weaker Longze and Sea Clan corps members!

This operation's main goal was to enable Tianyuan Qiongyan to undergo a complete transformation of its abilities.

Once Tianyuan Qiongyan completes its evolution, it will serve as Fang Mu's representative in the Dimensional World!

By thoroughly briefing Tianyuan Qiongyan at that time, it will surely foster communication with Longze and work collaboratively to develop the expansive Dimensional World.

"No problem. What happened earlier was my oversight. I will ensure that the next two stationed King-level dimensional creatures make more attempts to communicate with you!"

"In the future, should you encounter any issues, just approach them directly!"

Hearing Fang Mu's assurances, Longze's heart felt at ease. Even if faced with greater threats in the future, the support of these two King-level dimensional creatures would hold the line until reinforcements arrived.

Lian Dai and Longze could envision the morale boost when this news spread among the four major corps—a surge in confidence that could calm their fears instantly!

After Longze departed, Fang Mu instructed Swallow Gorge Waggle to extend its aura. Swallow Gorge Waggle's aura directly reached out to the gathered dimensional creatures, instantly throwing the creature tide into chaos.

Soon after, Swallow Gorge Waggle led its group of King-level dimensional creatures to mercilessly reap the lives of these dimensional creatures within the tide.

Before submitting to Swallow Gorge Waggle's command, those King-level dimensional creatures rarely preyed on lower-tier dimensional creatures.

They would only act against lower-tier creatures in cases of grave provocation.

Each feeding on such creatures had been mere sampling; yet, under Swallow Gorge Waggle's tutelage, it directed its minions to feast extensively on these dimensional creatures to enhance their strength.

This resulted in rapid strength elevation among the King-level dimensional creatures following Swallow Gorge Waggle.

The current dimensional creature tide functioned as an ideal feeding ground for Swallow Gorge Waggle and its subordinates!

Lian Dai watched as Swallow Gorge Waggle and its entourage of dimensional creatures deftly maneuvered through the tide, claiming the lives of tens of thousands of dimensional creatures. A surreal feeling rose within her heart.

At the same time, her initial doubts deepened further.

Lian Dai kept a close eye on the positions of the A-class and S-rank dimensional creatures, occasionally assisting in eliminating the S-rank ones to aid Swallow Gorge Waggle's feast.

Until higher-level King and Royal-class dimensional creatures emerged, Swallow Gorge Waggle faced no opposition.

“Little Wood, this world has issues.”

Saying this, Lian Dai felt she was phrasing it incorrectly and amended her statement.

“I mean, this Dimensional World adheres to a particular order. Although lower-tier dimensional creatures serve as perfect sustenance for higher-tier ones, higher-tier dimensional creatures refuse to prey on lower-tier ones, maintaining a delicate balance.”

“But your controlled dimensional creatures break the rules of this world. Otherwise, no explanation could justify why those King-level dimensional creatures exhibited no inclination to consume others before submitting to Swallow Gorge Waggle!”

“Yet after falling under Swallow Gorge Waggle’s command, they began consuming other dimensional creatures without hesitation.”

Fang Mu naturally noticed what Lian Dai had observed, though he remained uncertain about the reasons behind it.

However, given time, Fang Mu was confident he could unravel it all.

Finding the fleshy mass capable of birthing large numbers of dimensional creatures—encountered by the Emperor Beast Court in the Dimensional World—might not provide definitive answers but could yield key insights!

At that moment, a piercing screech erupted from the rear of the dimensional creature tide.

Chapter 1469: Unraveling the Mottle Squid!

The aura of the emperor-level dimensional creature suddenly spread out in all directions.

Fang Mu sensed the intense anger contained within this aura.

This emperor-level dimensional creature had been peacefully residing in its territory, yet it was repeatedly provoked by the weaker Swallow Gorge Waggle and even ambushed.

When it sought to regain its authority, its followers were brutally slaughtered by the Swallow Gorge Waggle.

Even the most composed being could not possibly tolerate this!

Following this aura came two silver-gray beams of light, shooting straight at the hulking Swallow Gorge Waggle. However, Swallow Gorge Waggle evaded them by fiercely flapping its back plates.

Upon seeing these two silver-gray beams, Fang Mu could sense a tinge of apprehension in Swallow Gorge Waggle's heart.

Clearly, the prior damage caused by these beams to its back plates was still fresh in its memory.

The two silver-gray beams missed Swallow Gorge Waggle and instead struck a group of dimensional creatures.

Tens of thousands of dimensional creatures dissolved into nothingness upon contact with the light, as though they had been disintegrated.

Evidently, this must be the formidable destructive ability mentioned by Swallow Gorge Waggle.

This ability indeed suits Tianyuan Qiongyan!

After launching the two attacks, the form of the emperor-level dimensional creature became visible.

It was a floating tentacle-like creature, its body covered in grayish-brown blotches, each adorned with a dense array of protrusions.

Even those without tryphobia would feel a wave of goosebumps erupting all over upon seeing those protrusions clustered on the blotches!

Fang Mu turned to Lian Dai and said,

“The emperor-level dimensional creature has revealed itself. I’ll command Swallow Gorge Waggle to launch an attack now.”

“Please assist with fire support for Swallow Gorge Waggle, and make sure those beams don’t hit it!”

“If Swallow Gorge Waggle sustains injuries, it will take some time to recover, which could hinder its ability to protect the Sea Clan army later on.”

Lian Dai raised her left hand high, and a pink-golden orb appeared in her palm.

Behind Lian Dai, the shimmering shadows of the sea emerged. Torrential waterspouts surged towards the emperor-level dimensional creature known as the Tentacle Monster!

These waterspouts were agile, able to alter their trajectories and shapes, effectively shielding Swallow Gorge Waggle from incoming attacks.

However, as Lian Dai assessed the strength of this emperor-level dimensional creature, her tone grew heavy as she addressed Fang Mu.

“Little Wood, this emperor-level dimensional creature might be quite difficult to deal with. Its aura is far denser than yours or that of your Swallow Gorge Waggle.”

“If it unleashes the energy within its body for a frenzied assault, I won’t be able to block everything!”

“And can you be certain it has no other offensive techniques?”

Lian Dai's tone carried utmost seriousness when asking this, as her role as Fang Mu's guardian and the King of the Han Yang Empire obligated her to weigh the situation carefully.

Lian Dai's words were meant to prompt Fang Mu to thoroughly consider the circumstances—if defeating this emperor-level dimensional creature was truly unfeasible, it would be unwise to force the issue.

She suggested that she could try to hold off the emperor-level dimensional creature, allowing Fang Mu to retreat with the dimensional creatures under his control and the Four Sea Clans Legion.

There was no need to incur unnecessary losses.

What Lian Dai didn't know, however, was that Fang Mu had already gleaned information about this dimensional creature through Swallow Gorge Waggle.

"Aunt Dai, you don't need to worry. Swallow Gorge Waggle has a chance to defeat it!"

"Moreover, I've made some special preparations for Swallow Gorge Waggle!"

Seeing Fang Mu's unwavering resolve, Lian Dai chose not to persuade him further but instead threw herself fully into providing fire support for Swallow Gorge Waggle.

Swallow Gorge Waggle, with its target clear, immediately surged towards the emperor-level dimensional creature as soon as it appeared, its back plates flapping with full force.

It gave the Tentacle Monster almost no time to prepare!

Realizing that Swallow Gorge Waggle intended to engage in close combat, the Tentacle Monster tried to distance itself, but Swallow Gorge Waggle was already upon it.

Sound blasts erupted from its back plates, exploding on the Tentacle Monster's body and inflicting severe injuries.

Lian Dai's fire support couldn't extend to the close-quarters clash between Swallow Gorge Waggle and the Tentacle Monster.

In fury and shock, the Tentacle Monster unleashed two disintegration beams that tore two massive holes into Swallow Gorge Waggle's body.

The devastating injuries prompted a mournful cry from Swallow Gorge Waggle.

At that moment, the Purple-black Mini Tower hidden in Swallow Gorge Waggle's mouth was spat out, landing on the Tentacle Monster.

No sooner had the Purple-black Mini Tower touched the Tentacle Monster than the tower's body began to glow.

Purple light enveloped the Tentacle Monster's body, causing it to freeze in place, completely immobilized.

This Purple-black Mini Tower was both Fang Mu's hidden weapon and a bold experiment.

From testing it now on the Tentacle Monster, Fang Mu drew a critical conclusion: the Purple-black Mini Tower was effective even against God-REALM Experts!

This was tremendous news for Fang Mu!

The Tentacle Monster had now become a prisoner that Fang Mu could freely manipulate!

Although the Tentacle Monster was controlled and not dead, the dimensional creatures under its command, while their aura diminished, still mounted fierce resistance.

Chapter 1470: Encountering the Speckled Squid!\_2

Fang Mu commanded the Swallow Gorge Waggle to launch a ferocious attack on the controlled Disintegrating Spotted Squid. Only when the squid was reduced to its last breath did Fang Mu let the Swallow Gorge Waggle consume the dimensional creature to heal its own injured essence.

Fang Mu addressed the Tianyuan Qiongyan behind him and said,

“Tianyuan Qiongyan, this Disintegrating Spotted Squid is yours. Devouring it will most likely allow you to ascend to the royal tier. You might even acquire its disintegration ability as part of your own power!”

Tianyuan Qiongyan could sense how perfectly the Disintegrating Spotted Squid matched with itself.

Excited, Tianyuan Qiongyan approached the squid, and under its umbrella-like cover, tentacles extended to coil around one of the squid’s arms, beginning the process of digestion and absorption.

Lian Dai, standing next to Fang Mu, noticed the Swallow Gorge Waggle’s body had been pierced with two openings. She hadn’t expected such a sudden reversal to occur.

The purple-black Mini Tower sprayed from the mouth of the Swallow Gorge Waggle had completely subdued the royal-tier dimensional creature in an instant!

The Mini Tower was truly extraordinary—clearly, it must be the means Qixing had given Fang Mu for self-preservation!

A single spiritual instrument capable of controlling a God-Realm Expert made Lian Dai speculate whether Qixing had already transcended the Divine Domain Level!

About his trump card, Fang Mu didn’t share much with Lian Dai. He merely smiled and said to her,

“Aunt Dai, everything seems to have gone extremely smoothly!”

“This disturbance has been thoroughly resolved. Once Tianyuan Qiongyan finishes devouring the royal-tier dimensional creature, we’ll know shortly if there’ll be two royal-tier dimensional creatures guarding this Dimensional World in the future!”

Lian Dai, watching the devouring process of the Disintegrating Spotted Squid by Tianyuan Qiongyan, raised her own question to Fang Mu.

“Little Wood, if we kill this royal-tier dimensional creature, we can obtain one royal-tier Extraterrestrial Embryo. With Master Qixing’s ability to control the Swallow Gorge Waggle, wouldn’t they also be able to control this royal-tier dimensional creature?”

“Having Master Qixing control and hatch this royal-tier dimensional creature would ensure we acquire one more royal-tier dimensional creature, wouldn’t it?”

Hearing this, Fang Mu quickly laughed and replied to Lian Dai,

“Aunt Dai, not to mention that controlling a royal-tier dimensional creature is far from simple, hatching a royal-tier dimensional creature also requires an immense consumption of energy!”

“Even my master wouldn’t be willing to expend the effort to contract and hatch the embryo of a royal-tier dimensional creature!”

“This devouring behavior, as it stands now, is much more cost-effective!”

Jokingly, contracting the Disintegrating Spotted Squid would require Fang Mu to expend one drop of Covenant Blood Essence along with a significant amount of Blood Aged Wine. While Fang Mu wasn’t short of Blood Aged Wine, each drop of Covenant Blood Essence took considerable time to brew.

Every drop of Covenant Blood Essence that Fang Mu possessed had its specific purpose; he was unwilling to recklessly use it to contract dimensional creatures within this Dimensional World.

Though this approach could allow Fang Mu to amass a large amount of power in a short time, it would result in a homogenized contract roster for him.

This would not bode well for Fang Mu's development in the long run!

Upon hearing Fang Mu's explanation, Lian Dai realized her idea had been overly simplistic.

In her heart, Lian Dai prayed that after devouring this royal-tier dimensional creature, Tianyuan Qiongyan would definitely evolve into one itself!

Only this way could the security of the Four Major Sea Tribes Corps in the Dimensional World be maximized!

While Swallow Gorge Waggle led its subordinates in devouring the dimensional creature horde, Tianyuan Qiongyan, amidst its consumption of the Disintegrating Spotted Squid, used Soul Sound Transmission to pose a question to Fang Mu.

"Master, do you think it's necessary to have Swallow Gorge Waggle leave a portion of the dimensional creatures intact?"

"We could allow them to roam the periphery of the area where the Four Major Sea Tribes Corps are stationed."

"This way, if any sudden activity arises, these dimensional creatures could act as sentinels!"

Fang Mu pondered for a moment before replying,

"There's no need for Swallow Gorge Waggle to leave any dimensional creatures behind. Even if you and Swallow Gorge Waggle control them, more powerful dimensional creatures could still exert influence over them."

"At that point, not only would those creatures fail to act as sentinels, but they could end up deceiving you both!"

“Those stronger dimensional creatures would likely use them to decipher information concerning you.”

“When dealing with weaker dimensional creatures, it’s far easier for you to notice and resolve any emerging situations.”

“Swallow Gorge Waggle’s essence is severely damaged; it’s the perfect opportunity to fully recover!”

“After you ascend to the royal tier, I will appoint you as the decision-maker in the Dimensional World, with Swallow Gorge Waggle assisting in executing your strategic directions!”

“You’re aware of my goals and expectations, aren’t you?”

Swallow Gorge Waggle mulled over Fang Mu’s words briefly before promptly responding,

“Master, I am indeed aware of your goals and objectives. The Four Major Sea Tribes Corps have only recently established themselves in the Dimensional World—stability is crucial, and everything should prioritize steadiness!”

“Rest assured, in the development stage, I will act with utmost cautiousness!”

Fang Mu nodded in satisfaction at this response.

Entering the Dimensional World for the first time, focusing on stability was unquestionably the wisest approach.

Once a solid foundation was established, it would then be time to actively explore the Dimensional World.

During this developmental period, even if no one deliberately caused trouble, it would be inevitable for dimensional creatures to venture into this region.

Through one encounter after another, both Swallow Gorge Waggle and Tianyuan Qiongyan would steadily grow stronger.

As for exploring and conquering this Dimensional World, Fang Mu felt no rush in his heart.

After all, Fang Mu understood that impatience would achieve nothing.

Excessive haste toward achieving certain goals and ambitions often leads to counterproductive results!

Lian Dai had finally entered the Dimensional World, and Longze had many matters that required consulting with her.

Because Lian Dai had been staying close to Fang Mu, Longze had no choice but to repeatedly come to Fang Mu's side.

Noting this, Fang Mu turned to Lian Dai and said,

"Aunt Dai, I can manage matters here on my own. While Tianyuan Qiongyan's evolution will take some time, why don't you head over and address the Sea Clan-related issues with Lord Longze?"

"Once Tianyuan Qiongyan completes its evolution, I'll come find you!"

Lian Dai also felt this was a more convenient arrangement, especially since Longze had numerous matters requiring her decisions.

Thus, Lian Dai said to Fang Mu,

"Then I'll head over now. If anything unexpected arises here, call for me directly, and I'll come at once!"

In the presence of others—even trustworthy individuals like Longze—Lian Dai deliberately masked her true relationship with Fang Mu.

Longze could sense a harmonious and intimate bond between Lian Dai and Fang Mu, yet he would never suspect that Lian Dai was actually Fang Mu's protector rather than simply being there out of favor to Qixing.

After Lian Dai left, Fang Mu resumed observing Tianyuan Qiongyan's process of devouring the Disintegrating Spotted Squid.

Since the squid's level was higher than Tianyuan Qiongyan's, the speed of the devouring process was exceptionally slow.

Nearly a week passed, and Tianyuan Qiongyan had only managed to digest half of the squid's body.

During this time, the dimensional creature horde had already been entirely consumed by Swallow Gorge Waggle.

Having devoured such a vast number of dimensional creatures, Swallow Gorge Waggle's current aura now slightly surpassed that of the Disintegrating Spotted Squid.

The stronger a creature's power, the slower its rate of increase. However, through ingesting lower-tier dimensional creatures, Swallow Gorge Waggle experienced a rapid and visible growth in strength.

Fang Mu, growing somewhat bored from staying in one place, decided to roam with Swallow Gorge Waggle and its subordinate creatures.

Firstly, this would allow Fang Mu to expand the map and territory under his control within the Dimensional World. Secondly, it would provide Swallow Gorge Waggle more food resources to enhance its strength.

Knowing now that his purple-black Mini Tower could subdue even royal-tier creatures, Fang Mu had grown bolder than before.

Although Fang Mu appeared to be in possession of one royal-tier dimensional creature and on the verge of acquiring a second, his understanding of the Dimensional World still remained at an exploratory level.
