

Beast Tamer 221

Chapter 221: Are You a Beast Master!?

“You’ve understood two Mysterious Runes, we should really celebrate!”

Upon hearing this, Hu Tao stared at Fang Mu as if she was really meeting him for the first time.

You could say that what Fang Mu did now exceeded Hu Tao’s original understanding of him.

The driver who was driving earlier was still marvelling at Fang Mu’s financial power, but now his attention was drawn completely to Hu Tao.

Having understood two Mysterious Runes!?

This was simply too formidable!

It had to take quite a talent to grasp two Mysterious Runes at once!

If it weren’t for the knowledge that the young man and young woman sitting in the back seat of his car had no reason to lie to him, the driver would not have believed it was true.

Capable of contracting a Six-Hoof Dish Sheep, the driver too was a Beast Master.

He could make a living for his family just by driving every day.

However, as Beast Masters, he was on a completely different level compared to the young man and young woman sitting in the back seat.

Being older and in JA City, the driver couldn't help but asked unconsciously.

"You guys are students from Jinghai High School for Beast Masters, aren't you?"

"Will we have a chance to see you in the National Beastmaster League of High School Graduates?"

Hu Tao, who was sitting next to Fang Mu, was very sensitive to some words.

For example, what this driver said right now could potentially hurt Fang Mu.

Just when Hu Tao was about to change the topic, she heard Fang Mu speaking with a smile.

“That’s right, if there’s a chance, uncle, you will probably see us in the National Beastmaster League of High School Graduates!”

The driver laughed upon hearing this.

“You guys are the pride of Jinghai Province!”

Hu Tao was already numb to these kinds of praises.

Ever since she awakened her Destiny Guardian Beast and grasped her first Mysterious Rune, Hu Tao had always been hearing words like these.

Hu Tao’s thoughts were all on Fang Mu’s answer.

Fang Mu’s reply put Hu Tao’s thoughts in a whirl.

Fang Mu was never the type of person who would just take things lightly.

In class, whenever anyone asked Fang Mu about his studies, Fang Mu would usually explain it seriously.

Even when facing those students who were relatively dull, asking simple questions repeatedly, Fang Mu would never show impatience.

So facing the driver's question, Fang Mu should not be dealing with it perfunctorily.

Could it be...

All of a sudden, a guess emerged in Hu Tao's mind.

Could Fang Mu be a Beast Master too!?

Considering Fang Mu's family, not just his elder brother and sister are Beast Masters, they've all awakened their Destiny Guardian Beasts.

Even if Fang Mu hasn't awakened his Destiny Guardian Beast, he should be a Beast Master.

According to the investigation of scholars, children born to parents who are both Beast Masters are stronger in spiritual power compared to those born to ordinary people.

It's easier for them to receive Low-frequency Mental Stimulation to obtain a Destiny Guidebook.

But if that is really the case, why would Fang Mu always hide his status as a Beast Master?

Moreover, every year Fang Mu would diligently go to watch those primary school students' awakening ceremonies.

Faced with something she didn't understand, Hu Tao decided not to think about it anymore.

She'll ask Fang Mu when they eat later.

Hu Tao felt that if she asked Fang Mu, he would definitely tell her the reason.

Just like when she asked Fang Mu about the test questions during their break.

Once they arrived at the Sea Banquet Palace, Hu Tao originally planned to confirm her guess with Fang Mu.

However, the moment she entered the door, she was shocked by the splendid decoration inside the Sea Banquet Palace.

The Sea Banquet Palace always catered to distinguished guests.

In order to provide returning customers with the best service, unless there was a special request, they often arranged the first attendant who served them before.

So that the client does not need to adapt to new attendants the second time they come.

Before Fang Mu arrived, the attendant who had served him and Feng Chenhao last time was already waiting at the entrance.

Upon seeing Fang Mu, the attendant immediately greeted him.

“Sir, welcome back to the Sea Banquet Palace!”

“Would you like me to recommend dishes for you again this time?”

Fang Mu replied without hesitation.

“Order one of each of the four dishes that were cooked by the chef last time, and you can recommend the rest!”

“All the dishes should be small portions.”

“Once all the dishes are served, if my friend wants to add anything, she’ll let you know.”

The attendant led the way, bringing Fang Mu and Hu Tao to the room Fang Mu had booked.

For someone like Fang Mu who had a Dragon Cavalry Black Gold Card, and wasn’t using a secondary card,

The attendant waiting on him was very careful.

This time the young man brought a lady to dine together, so the attendant thought she should prepare a few more lady dishes when she set up the meal. Two young people dining at this time, nine out of ten times, were a couple.

Soon, the attendant brought up the dishes.

Although each dish only had a few mouthfuls, there were a total of eleven dishes on the table.

Hu Tao had never eaten any of these dishes before, naturally she wouldn’t choose to add any more dishes!

This high-end restaurant didn’t have a menu, so she wouldn’t know the exact price of the dishes.

The price of any dish would definitely be very expensive.

Hu Tao didn't want Fang Mu to spend so much money on her meal.

Fang Mu had specially prepared twenty-five nutrient meals before coming here.

Otherwise, eating at the Sea Banquet Palace with an empty stomach would only make him one tenth full, which was a torture.

After having something to eat, what's a regular meal for others was treated as a post-meal snack by Fang Mu!

Fang Mu picked up his glass of melon juice and handed it to Hu Tao, saying. "Here, let's toast to celebrate your understanding of two Mysterious Runes!" Hu Tao's crystal glass clashed with Fang Mu's, producing a pleasant sound.

However, Hu Tao didn't rush to drink the melon juice in her glass.

Instead, she looked at Fang Mu very seriously, and asked tentatively.

"Fang Mu, are you also a Beast Master!?"

Fang Mu was initially considering how to tell Hu Tao about this.

If he told Hu Tao straight away, there were many things Fang Mu wouldn't be able to explain.

He had already passed the age of awakening the Destiny Guidebook, he definitely couldn't tell Hu Tao he just became a Beast Master.

But if he said he had been a Beast Master for a long time, it was as if he had been playing with Hu Tao for the two years they were classmates.

That's why when the driver asked, Fang Mu deliberately took the initiative to respond.

To let Hu Tao, who seemed carefree on the surface but was actually very delicate in her heart, raise some doubts. Now Hu Tao finally asked him proactively.

Fang Mu nodded at Hu Tao.

"My situation is a bit special, but I'm indeed a Beast Master."

Upon hearing Fang Mu's words, Hu Tao's round eyes burst into a smile, like a crescent moon.

Fang Mu always liked to view the world in an adult's way.

He didn't know that for a young girl who had subtly given her heart away, she just wanted the other person to be better.

She wouldn't consider too much about other things!

At this moment, Hu Tao was even happier upon hearing the news of Fang Mu becoming a Beast Master than when she understood the two Mysterious Runes herself..

Chapter 222: Hooked Fish and Deep UncleNephew Love!

Hu Tao finished the melon juice in her cup and then asked Fang Mu with great anticipation.

"Can we take the Practical Combat Class together next semester!?"

Fang Mu shook his head instantly when he heard Hu Tao's words, decisively giving her a negative answer.

Fang Mu is a very calculated person, having decided another how to live his school life not long after becoming a Beast Master.

Participating in the practical combat class was not part of Fang Mu's plan.

Firstly, taking the practical combat class would waste Fang Mu's own time.

Fang Mu already had the ability to fight against a gold-ranked Guardian Beast, a fact that had been proven on the Battle Network.

The Guardian Beasts of senior three students in Jinghai High School for Beast Masters are usually are usually at the silver stage, Fang Mu's joining would be akin to bullying.

Secondly, before participating in a practical combat class, one must let the teacher understand the abilities of their Guardian Beast.

This is to ensure the best protection for both sides during the trial.

Fang Mu felt that the teacher of the practical combat class, after seeing his own Guardian Beast, Rainy Doll, unless their head was filled with air,

Would not let him fight against others.

Hu Tao really wanted to take part in the practical combat class with Fang Mu.

Since becoming a Beast Master, Hu Tao found the process of Beast Masters commanding their Guardian Beasts in battle exhilarating.

But upon further thought, if Fang Mu has been a Beast Master for a while and still spends time delving into books in the library,

It indicates that Fang Mu's focus was always on mastering and researching theoretical knowledge.

In Hu Tao's view, Fang Mu, as a Beast Master, had no weakness and could definitely become a Creator's Assistant.

Even if Fang Mu has talent in being a Creator, it's not impossible for him to become a Creator himself.

So Hu Tao did not press too much on this matter.

After dinner, Fang Mu immediately called a Six-hoofed Yak Car to take Hu Tao home to Maple District.

Hu Tao had just returned from a trip, so her parents must be at home. Hu Tao's parents allowing her to go out for a night meal with him was a show of trust.

But if he dared to let Hu Tao stay out overnight, the breakfast brought by Hu Tao when school starts might be tainted with some Bado poison by Hu Tao's mother.

Seeing that the Beast Car was about to reach Maple District, Fang Mu asked Hu Tao very seriously.

"Hu Tao, I will get into Jinghai Tianyu University, planning to participate in the

National University League."

"I wonder if you're interested in this?"

"If you are, we can try to become teammates."

In Fang Mu's view, choosing a teammate is a very important matter to a Beast Master.

In some cases, choosing a teammate also means taking on some responsibilities.

Fang Qin and Fang Yuan's teammates in college each went their separate ways after graduation because they couldn't join the same club and couldn't form an adventure group as everyone had their own things to do.

But every half a year, these six teammates would gather together.

The camaraderie between college teammates is a fusion of friendship and comradeship, very sincere.

If it's really for some competitions, the second Guardian Beast to be chosen for the pact may have to consider the actual situation of the team and teammates.

So Fang Mu's words were spoken very seriously.

But Hu Tao didn't wait for Fang Mu to finish his sentence, and directly slapped Fang Mu's shoulder.

"Fang Mu, what do you mean by 'perhaps' and 'try'?"

"Of course, I am interested!"

"If I can also get into Jinghai Tianyu University, let's strive together!"

Having said this, the expression on Hu Tao's face collapsed, as she had no confidence in cultural studies.

Although she is able to meet the standard in some current exams, no one knows whether the College Entrance Examination questions will just happen to be those she is good at.

Fang Mu was prepared to tell Hu Tao about his own Beast status when he invited Hu Tao to be his teammate.

In a few days, before the start of school, the fourth drop of Covenant Blood Essence can be condensed.

At that time, having formed a pact with Eden Greenfield, Fang Mu would have two Guardian Beasts to fight with.

By then, Fang Mu would be much stronger than he is now.

With Fang Mu's Guardian Beast lineup and desire to form a team, there are few young people in the world that Fang Mu wouldn't match up with.

Hu Tao has just understood two mysterious patterns and she, with three mysterious patterns circling her Destiny Guidebook, has unlimited possibilities.

If Hu Tao wants, she can wait until after enrolling in Jinghai Tianyu University to join the strongest team in the school.

Or she can join a large club during her university years and cultivate herself with the resources of the club.

Hu Tao has a great future.

But in response to his invitation, she agreed without fully understanding his situation.

As a student of Jinghai High School for Beast Masters, Hu Tao has been taught the importance of a good teammate and a good team from the first day of school.

Hu Tao loves to fight, and she understands the benefits of a good teammate and a good team to herself.

However, Hu Tao did not think that much and agreed immediately when faced with his invitation.

This made Fang Mu, who had lived two lives, feel a special kind of pressure for the first time.

This pressure felt very strange to Fang Mu.

Fang Mu looked at Hu Tao's serious eyes, and reached out to hold the hand that Hu Tao extended to him.

“Let’s strive together!”

“Hu Tao, how long do you think it will take for you to become a Biprong Star Tamer?”

Hu Tao was slightly startled when she heard the question, not understanding why Fang Mu would ask this..

Chapter 223: Hooked Fish and Deep UncleNephew Love!

Hu Tao is extremely gifted when it comes to spiritual power.

Through meditation, she can feel the growth of her spiritual power almost every day.

“If nothing goes wrong, in three more months, I’ll be able to promote to a Biprong Star Tamer, and then my parents will be in trouble again!”

As she spoke, Hu Tao stuck out her tongue playfully.

Once she becomes a Biprong Star Tamer, her Guardian Beast would be able to advance to the Golden rank.

Once a Guardian Beast reaches the Golden rank, it often starts to pursue a higher standard of quality.

It's fair to say that becoming a Biprong Star Tamer is the real starting point for spending a lot of money.

The pressure on Hu Tao is quite substantial, considering how she keeps exhausting her family's savings.

Hearing this, Fang Mu sighed inwardly.

"These past few years, I've really fallen far behind top students like Hu Tao!" Fang Mu is uncertain about the full strength of the Sakura Tempering Carp's effect.

With the current progression speed of his spiritual power, he might not be able to become a Biprong Star Tamer even when he first enters college.

Other Beast Masters are worried about how to improve their beasts. The Beast Masters' level is just a matter of course.

But for Fang Mu, the cultivation of his Guardian Beasts isn't something he needs to worry about. He doesn't even feel the slightest pressure in that regard.

However, raising his level as a Beast Master has become his biggest challenge.

Just then, when they arrived at her house, Hu Tao noticed two familiar figures standing at the window on the second floor.

The gaze of these two figures was fixed on her and Fang Mu.

For some reason, Hu Tao felt a strong sense of shyness.

Hu Tao waved to Fang Mu and scampered back home.

Fang Mu, on the other hand, graciously waved to the two figures at the window on the second floor.

Only after the two figures upstairs nodded at him did Fang Mu leave Maple District.

It had not taken long for Fang Mu and Hu Tao to have the meal. The people from the Beastmaster Alliance who were supposed to deliver the Sakura

Tempering Carp and the two All-Kinds Carps probably hadn't arrived yet.

Fang Mu called He Qing to have him meet him at the gate of Maple District.

He then hurried to the Creator's Guild.

At this point, Lu Yuyu, who was in the Creator's Guild, had just hung up the phone a few minutes ago.

Qian Yan had always held a condescending attitude towards Lu Yuyu, which Lu Yuyu very much disliked but felt powerless to change.

As the vice president of the Beastmaster Alliance, Qian Yan was in a position to manage Lu Yuyu, an executor.

However, this time when Qian Yan called, he was very friendly throughout, which nearly made Lu Yuyu think that Qian Yan was possessed by some pollutant!

Qian Yan was hinting about Fang Mu's situation in his speech.

When Lu Yuyu mentioned Fang Mu, he was very measured and did not reveal too much of Fang Mu's personal information.

However, he provided Qian Yan with a general understanding of Fang Mu.

At the same time, Lu Yuyu also let Qian Yan know that he had an excellent relationship with Jianmu.

Lu Yuyu thought that after this, Qian Yan should no longer look down on him like before.

The secret of the Beastmaster Alliance's quick delivery of goods lies in frequent long-distance teleportation.

Every time Lu Yuyu teleports a long distance, he feels very uncomfortable, even feeling nauseous.

Qian Yan is truly ruthless. He is able actually to call Lu Yuyu during the process of long-distance teleportation!

No wonder Qian Yan could become the vice president!

Other than Qian Yan's call, many people who knew Lu Yuyu's number also called him.

Among them were many people whose contact information he had exchanged at parties after much hard work.

However, before he could reach out to these people, they had already approached him in an extremely humble way.

Lu Yuyu deeply felt what it was like to have borrowed authority.

This feeling was so exhilarating!

All requests from these people to get in touch with Fang Mu through him were outright rejected by Lu Yuyu.

If these people only wanted to connect with Fang Mu, Lu Yuyu might have helped them establish a relationship.

But their motive was actually Fang Mu's master in the background.

Instead of saying they wanted Lu Yuyu's help to connect with Fang Mu, it was more appropriate to say they wanted to use Lu Yuyu as a channel to connect with Qixing.

Lu Yuyu always knew how to exercise restraint in his actions and would never overstep the boundaries when dealing with friends.

Even if doing so would be of great help to him, he wouldn't do it.

Just then, Lu Yuyu's phone rang again.

Picking up the phone and seeing that it was an unfamiliar number, Lu Yuyu was about to hang up.

But thinking that someone he didn't know could get his contact information so quickly at this time, this person was likely no ordinary person.

So Lu Yuyu answered the call.

After picking up the phone and hearing the person on the other end, Lu Yuyu almost dropped his phone, which he had just bought not long ago, breaking it once again.

"You should be the executor who follows Jianmu, right?"

"I am Yi Han, you must have heard of me." "I want to talk to Jianmu right now, please pass on the message!"

The name Yi Han exploded in Lu Yuyu's ears.

The Dragon Soaring Federation had recently promoted a new Grandmaster Creator. This news had spread across the federation in the past two days.

In addition, because the Yi Family was planning to fight for the Sakura

Tempering Carp, Lu Yuyu had specifically researched the Yi Family's situation.

Lu Yuyu knew he couldn't afford to offend Yi Han, this newly promoted Grandmaster Creator!

Fang Mu had just had a conflict with the Yi Family, and now Yi Han was making a phone call to him..

Chapter 224: Hooked Fish and Deep Uncle-Nephew Love!

Lu Yuyu wasn't quite sure why Yi Han was seeking Fang Mu, but he knew he would have to pass the message on to him.

Only thing was, at the moment, Fang Mu wasn't around, and Lu Yuyu had no choice but to comply and address Yi Han directly.

"Master Yi Han, Jianmu is not with me right now."

"If there's anything you need, would it be alright for me to relay the message to him?"

At Lu Yuyu's response, Yi Han scoffed.

What purpose could he possibly have in making this call?

Did he not already know that Jianmu's master was a Senior Creation Zenith Master, the last person he should look to challenging?

Yi Han made this call in hopes of defusing the competitive tension that had arisen between Jianmu, and if possible, to connect with Jianmu's master, Qixing.

Yi Han had been frequenting the Creation Master Guild Headquarters because of the benefits he could gain from Sect Master Xiao Xiang.

He knew the value of having someone guide him, and how it could save him from taking many detours.

Yi Han was hoping to establish a relationship with Qixing and take a step further in his journey as a Creation Zenith Master.

Even if Qixing didn't wish to mentor him, being able to exchange high purity elixirs with Qixing would suffice!

Though he had now ascended to the status of a Creation Master, a figure others could barely hope to reach,

As a Junior Creation Master, he still couldn't prepare Life Elixirs and Element Potions with a purity exceeding ninety-two percent.

Saying this to Jianmu in person would already be embarrassing for Yi Han, let alone doing it through Lu Yuyu.

Hearing Yi Han's scoff, Lu Yuyu immediately realized his mistake and hurriedly corrected himself with a shiver.

"Master Yi Han, I can wait and relay your call to Sir Jianmu when I see him next,"

"May I ask for your opinion on this matter?"

Lu Yuyu's proposal left Yi Han in a bit of a dilemma.

He hadn't declared his intention when making this call, so if Lu Yuyu shared this information with Jianmu,

What if Jianmu perceived it as a challenge or act of revenge and didn't call him back,

But instead directly mentioned it to his master Qixing? What then!?

Young people can be impulsive, and Yi Han could hardly expect Jianmu to remain as composed as an adult.

The silence on Yi Han's side left Lu Yuyu on the other side of the line trembling with fear.

He was terrified that any wrong word could incur Yi Han's resentment.

If a person of Yi Han's stature chose to target him, not just he, but even the entire Keystone Construction wouldn't survive the attack!

Just as Lu Yuyu was clutching his chest in anticipation of Yi Han's response, the door to the Working Room opened.

As soon as he saw Fang Mu, Lu Yuyu quickly shot him a look.

Then he pointed at his mobile phone and mouthed the name "Yi Han".

Fang Mu raised an eyebrow at this.

Fang Mu did have plans to "lure" the entire Yi Family.

However, Fang Mu's plan to "lure" the Yi Family wasn't limited to just this one instance. There were many more actions to be taken.

How could it be that before he'd dropped the bait, Yi Han had sought him out, just from a simple intimidation?

If it was for revenge, Yi Han wouldn't directly contact Lu Yuyu to get in touch with him.

If it wasn't for revenge, then there could only be one reason why Yi Han was looking for him.

He wanted to make friends with him!

Fang Mu nodded at Lu Yuyu.

The door locks of the Creation Master Guild Working Room were all standardized, so Yi Han who was on the phone, obviously picked up the sound of the door being opened.

Seeing Fang Mu's nod, Lu Yuyu quickly told Yi Han. "Master Yi Han, Jianmu Sir has just returned from outside,"

"If you need something, you may speak to him directly!"

After wrapping up, Lu Yuyu casually handed the phone over to Fang Mu.

If it was a social event, Lu Yuyu would have gladly chatted with Yi Han and tried to get closer to him.

But now, it was clear that Yi Han was making this phone call with a certain motive; everything he said to Yi Han had nothing to do with making friends with him.

If he said the wrong thing, he would face rebuke from Yi Han. This was typical of a thankless task!

Upon receiving the phone, Fang Mu greeted Yi Han with a tone that was neither humble nor arrogant, yet extremely polite. “Master Yi Han, may I know what business brings you to this humble one?” Yi Han sighed with relief at how polite Jianmu was.

The fact that he had lost to Jianmu in the contest for the Sacred Relic, the

Sakura Tempering Carp, had become the laughing stock of many major forces.

It would be a lie if Yi Han said he didn’t blame Jianmu at heart.

Yet his resentment towards Jianmu didn’t stop Yi Han from making the call.

Yi Han was afraid that if Jianmu was too aggressive and impolite, it would explode his patience.

And there would be no chance of getting close to Qixing!

Yi Han had just become a Creation Master and was just beginning to get a taste of the benefits.

So, in terms of experience, Yi Han was still at the level of a Master Creator.

Yi Han had always been ingratiating himself with Sect Master Xiao Xiang.

Now, unconsciously, he brought the same attitude into his efforts to get close to Qixing.

As for Jianmu, Yi Han's disciple, he was seen as a bridge to connect with Qixing.

"No need for formalities, the title of 'Master' sounds too distant!"

"Why don't you just call me Uncle Yi, and I'll call you Little Wood. What do you think?"

Upon hearing Yi Han's proposition, Fang Mu's eyes widened with surprise.

This Yi Han was quite interesting!

They were just competing just a moment ago, and now Yi Han was talking about familial bonds.

Yi Han was probably one of those shrewd men who were good at taking advantage of situations, and such people were rarely worth befriending. But Fang Mu had no intention of being close friends with the Yi family or Yi Han.

Once they got too intimate, Yi Han could easily perceive some clues. In Fang Mu's opinion, the Yi Family was a channel that could bring him benefits and conveniences.

Since Yi Han was playing the "Uncle-Nephew Affection" card first,

As they say, don't slap a smiling face. Fang Mu decided to play along with Yi Han's game..

Chapter 225:

Fang Mu cleared his throat and projected an extremely polite and respectful attitude traditionally presented to elders. He smiled and said, "Uncle Yi, I have long respected your renowned reputation!"

"I am honored to have the opportunity to listen to Uncle Yi's teachings!"

In his past life, when dealing with distinguished biologists and leading scholars, this was the kind of attitude Fang Mu used.

Now, facing Yi Han, Fang Mu also adopted this very same attitude.

Lu Yuyu couldn't hear what Yi Han had said on the other side of the phone.

But Fang Mu's addressing as 'Uncle Yi' made Lu Yuyu's eyes widen.

Fang Mu was clearly competing with Yi Han just a moment ago, so why was he calling Yi Han 'Uncle Yi' now?

Could it be that Fang Mu knew Yi Han from before?

Lu Yuyu started to make assumptions.

If Fang Mu really knew Yi Han yet acted nonchalantly while competing with him,

It means that Fang Mu didn't take Yi Han seriously at all.

Fang Mu's actions indirectly reflect the attitude of the Qixing Grandmaster.

It seems that the Qixing Grandmaster doesn't regard Yi Han, who just became a Grandmaster Creator, that highly.

In that case, Yi Han made this call to apologize to Fang Mu!

Upon having this thought, Lu Yuyu, who originally held a deep admiration and respect for Yi Han, suddenly felt that Yi Han did not seem all that unapproachable.

Yi Han figured Jianmu would respond positively to his advances.

He had not known Qixing before, so Qixing would have no reason to hold a grudge against him.

Besides, he was the first to name a price in the recent transaction, and after that, Jianmu didn't compete anymore.

Under these circumstances, Jianmu shouldn't harbor any hostility towards him!

However, Yi Han did not expect Jianmu to directly address him as 'Uncle Yi' and ask him so humbly if he had any teachings to share.

If someone else had asked him this, Yi Han would have readily nod his approval.

Because in Yi Han's view, there were few young people in the world whom he was not qualified to advise.

But facing Jianmu, Yi Han dared not agree no matter what.

If he showed any intention of teaching Jianmu, wouldn't that be equivalent to slapping Qixing in the face, and trying to steal his disciple!?

Thinking about this, Yi Han couldn't decide whether the young man on the phone was genuinely humble and polite or whether he was setting a trap for him to fall into.

"My nephew is jesting, I'm not qualified to teach you anything!"

"May I ask in which city are you currently residing?"

"If you happen to be in The Capital, you are most welcome to visit us at the Yi Family! "

Hearing Yi Han's invitation, Fang Mu became certain that he didn't need to bait any further.

"Uncle Yi, I am currently in Jing Hai Province, not in The Capital."

“I appreciate your invitation.”

“I have a commerce association opening up in The Capital, if I get the chance, I hope Uncle Yi could help take care of it!”

Fang Mu knew that after being nice to him, Yi Han would most likely have something to say.

However, without a lead-in, Yi Han would find it hard to bring it up.

Now that he had taken the initiative to ask Yi Han for a favor, it should make it easier for Yi Han to say whatever he needed to.

The Jianmu Commerce Association was managed by Fang Yuan.

To carve out a share of the cake as a new commerce organization, or even to strive for the leading position, some troubles were sure to occur.

Someone had to shoulder these troubles.

Fang Mu couldn't possibly rely on Qixing's reputation to resolve all problems all the time.

When it came down to infringing on the territories of others, there would always be some reckless individuals willing to risk everything.

If the newly promoted Grandmaster Creator, Yi Han, could provide some support and help Jianmu Commerce Association face issues,

The journey of Jianmu Commerce Association would be a lot smoother!

Hearing Fang Mu's words, Yi Han eagerly agreed.

"My nephew is opening a commerce association on my turf, of course, I have to take good care of it."

"Rest assured, your association won't encounter any trouble in The Capital!"

"May I ask the name of your commerce association?"

Hearing Yi Han's assurance, Fang Mu was taken aback.

What startled Fang Mu was not Yi Han's grandstanding, but that Yi Han implicitly referring to The Capital as his own turf in the conversation.

Such audacity!

The Dragon Rising Federation currently has two Grandmaster Creators residing in The Capital.

Besides these two Grandmaster Creators, the high-level members of the eight major official organizations were all top-tier experts.

It seems that even after much consideration as a newly-promoted Grandmaster Creator, Yi Han still cannot curb his arrogance. His behavior of trying to get close to Qixing by befriending Jianmu implies this. But subconsciously, Yi Han still thinks too highly of himself!

Fang Mu stated directly,

“My commerce association has not started official operations yet, it’s called

Jianmu Commerce Association.”

“It will probably open for business next month.”

Hearing this, Yi Han seemed to have thought of something and laughed.

“The opening next month is a good time!”

“When it’s time for the grand opening, I will personally attend.”

“Your commerce association is surely participating in the Commerce Association Festival next month, right?”

“I just happened to be a guest at the Commerce Association Festival, I will gladly assist you!”

Yi Han, seeking to entice Jianmu and get close to Qixing, indeed spared no difficulties nor insincerities.

Otherwise, a Grandmaster Creator wouldn’t attend a commerce association’s grand opening as a special guest.

However, Yi Han was not aware that his generous commitment would cause him significant trouble in the future.

Right now, Yi Han felt that he had done Jianmu a favor and that if he put forward some requests, Jianmu shouldn’t refuse..

Chapter 226: Fang Mu’s Summoning of the Ghost System Guardian Beast! _2

“Nephew, do you know if your master has any free time recently?”

“I hope to have the opportunity to have a good chat with your master about academic issues related to Creators!”

Fang Mu had already guessed that Yi Han wanted to meet with the fictional master he had fabricated.

However, for such an impossible task, Fang Mu would surely not agree.

But he needed to find a reason that would convince Yi Han, or rather, shock him.

He had already thought about this reason when he received Yi Han’s call.

“Uncle Yi, I will pass on your request to my master.”

“However, my master is currently busy trying to break through and can’t possibly focus on anything else.”

“My master usually asks me to stay by his side, but recently, he only keeps me around when he gives me lessons.”

“Aside from asking for Creator resources, I usually don’t disturb my master.”

Fang Mu had made himself very clear.

He figured if Yi Han couldn't understand this, then he was incredibly unperceptive!

Not only was Yi Han stunned by Fang Mu's words, but so was Lu Yuyu, who was beside Fang Mu.

Judging by the Creator resources that Fang Mu was now presenting, Qixing had demonstrated the level of a senior Creation Zenith Master.

Should he make another breakthrough under these circumstances, wouldn't he become a top-level Creation Grandmaster?

Legend has it that a top-level Creation Grandmaster can make a Life Elixir and Elemental Energy Potion with a purity of ninety-six percent.

The Shuoyang Grandmaster still had a long way to go in this regard, something he had admitted personally.

But now, Qixing had surpassed Shuoyang!

Thinking about this, Yi Han was very pleased with his decision to please Jianmu, as he had proactively called Lu Yuyu.

Since he couldn't meet Qixing, Yi Han had to take the next best step.

"Nephew, I wonder if I could get a few high purity elixirs from your master by making an equivalent exchange?"

When he said these words, Yi Han was somewhat shy.

It was disgraceful for him, a Grandmaster Creator, to order elixirs from someone else. If this got out, he'd lose face!

Just like Sect Master Xiao Xiang used to order elixirs from the Shuoyang Grandmaster, although this was never made public.

For a Grandmaster Creator to obtain higher-end elixirs, the only way was to obtain them from a higher-ranking Grandmaster Creator.

Yi Han placed great importance on benefits, and even if he couldn't meet Qixing, if he couldn't even get an elixir...

Then there was no reason for him to humble himself and actively connect with Jianmu, another Grandmaster Disciple.

Fang Mu was worried that his high-purity elixirs had no way of being exchanged, so Yi Han's request was like having a pillow thrown his way when he was dozing off.

Even a Grandmaster's disciple would prioritize his own interest at certain times. Such was human nature.

Fang Mu pretended to ponder for a moment, then ventured to open his mouth.

"My master has a certain stock of high purity elixirs."

"If you want to exchange for these high-purity elixirs, I can be of great help!"

Fang Mu's words sounded very normal, but Yi Han understood Fang Mu's meaning immediately.

This kid wanted to act as a middleman between Qixing and himself, and make a profit by arbitrage. What audacity!

If his own disciple dared to do such a thing, Yi Han wouldn't spare him!

In his conversation with Fang Mu, there was a feeling that his master was very fond of him all throughout Fang Mu's words.

This must be the so-called pride that comes from being spoiled!

However, having such a middleman like Jianmu did increase his chance of acquiring resources from Qixing, the high-ranked Creation Grandmaster.

Knowing that Jianmu, the middleman, would capitalize on his disadvantage, Yi Han still had to protect him.

"Then I'll have to trouble you, nephew!"

"However, I wonder how many bottles of Life Elixir with a purity of ninety percent I would have to give in exchange for a bottle of Life Elixir with a purity of ninety-four percent?"

The unwritten rule of exchanging resources between Grandmaster Creators, is to exchange resources of the Grandmaster level.

Exchange low-end for high-end at a premium.

And the premium that high-ranked Grandmaster Creator resources have over low-ranked Grandmaster Creator resources is always more than 1.3 times.

With Jianmu as the middleman “ripping him off”, Yi Han feared that he would bleed heavily.

However, due to the scarcity of high-ranked Grandmaster Creator resources.

Even if he lost a lot, he was still determined to make the exchange.

When Fang Mu heard Yi Han’s words, he couldn’t help but frown.

You’re exchanging a Life Elixir with a purity of ninety percent with me, isn’t that the same as giving me garbage?

Using random Alien Beast Corpse in the incineration room can easily make a dozen or so bottles.

“Uncle Yi, I know you just became a Grandmaster Creator, and your whole Yi family is scarce of Life Elixirs with a purity of ninety percent.”

“Uncle Yi is willing to help me in other matters, so I am willing to help Uncle Yi in this matter.”

“So, I won’t need the elixirs produced by the Grandmaster. Uncle Yi just needs to help me collect some spiritual materials that I need.”

“What do you think, Uncle Yi?”

Upon hearing these words, Yi Han’s fondness for Jianmu increased significantly.

If this was the case, it would be fantastic!

Being a Grandmaster, he could easily acquire spiritual materials if he wanted to.

If he made an announcement about wanting to buy certain spiritual materials, people would rush to hand them over to him.

Yi Han had confidence in this.

But those Life Elixirs had to be made little by little by himself.

Even if Yi Han did nothing all day, the quantity he could make was limited..

Chapter 227: Fang Mu’s Summoning of the Ghost System Guardian Beast! _3

Trading for these Life Elixirs would inhibit the development of the Yi Family.

Although Yi Han is proud, he is absolutely serious about developing the Yi Family.

Besides the newfound affection for Fang Mu, Yi Han also felt a sense of gratitude towards him.

Of course, this gratitude was based on Yi Han's perception of Fang Mu's position as equal to or even higher than his own.

Otherwise, he would certainly not express gratitude to anyone he considered of lower status than himself.

"My dear nephew, I wish to exchange for two bottles of Life Elixirs with a purity of ninety-four percent, along with two bottles of Wood Element Potions of equivalent purity."

"What supplies do you require in return?"

"I will offer you 1.4 times the original price for any supplies you need as a show of my appreciation."

"If there's anything you cannot disclose to your master, feel free to confide in me!"

Fang Mu had been waiting for these words from Yi Han. It seemed that Yi Han was very cooperative!

Having the Starwheel to help him search for advanced Blood Race hearts and Shadow Eye Stones was sufficient.

Considering the Dracoid Research Institute's need for Shadow Eye Stones, Yi Han would not be able to assist him in wrestling for them from the hands of the Institute.

After all, a Senior Creation Zenith Master backed the Dracoid Research Institute.

But for other supplies, Fang Mu could freely request them from Yi Han.

Yi Han, thus, became a channel for him to acquire resources.

He felt that as long as he did not directly compete with other Creators for resources, Yi Han would generously help him procure them.

Fang Mu possessed two souls and theoretically could form contracts with two Guardian Beasts from the Ghost System.

However, thus far, Fang Mu had not even managed to obtain one.

Fang Mu didn't need the Contracting Blood in order to contract with a Ghost System Beast.

On the contrary, if he could provide them with the Contracting Blood later on, he could potentially cause the Ghost System Beast to evolve.

When he first joined the Scavengers, he simply did not have the ability or the qualifications to own a Ghost System Beast.

At that time, such resources seemed too far out of reach for him, but the situation had since changed.

Given Yi Han's capability, he certainly had the qualifications to obtain a Ghost System Beast.

Previously, Fang Mu did not have any specific requirements for the Ghost System Beast.

Now that he had the means to obtain one, he hoped to get one that could control undead creatures.

This would also ensure that he did not waste the function of his Sequential Spiritual Instrument, the Forest Resentment Bell.

"Uncle Yi, I need a Ghost System Beast!"

“Before, whenever I needed something, I could directly ask the master, but recently the master has been quite busy and I don’t want to disturb him.”

“As for my requirements for the Ghost System Beast, I need one that can

control undead creatures!”

“Uncle Yi, do you have access to resources like these?”

Upon hearing Fang Mu’s words, Yi Han was taken aback.

This was the first time he had heard of someone choosing a summoning-type Ghost System Beast when selecting one.

The summoning-type Ghost System Beast’s own abilities are not strong, its main advantage lies in enhancing the combat power of undead creatures.

Thus, each controlled undead creature needs to be nurtured.

The returns from investing resources into undead creatures yield far less than investing them into living Guardian Beasts.

Fang Mu daring to contract such a beast showed just how generous Qixing was in providing resources to Fang Mu.

However, Yi Han was unsure whether Qixing would be willing to let his disciple Fang Mu contract a summoning-type Ghost System Beast.

If he disapproved and after he had located one for Fang Mu to contract with it, would he be blamed!?

With some apprehension, Yi Han carefully asked Fang Mu.

“Are you sure you want a summoning-type Ghost System Beast?”

“If you’re looking for other types of Ghost System Beasts, I may need to expend some effort to locate them for you.”

“There are few who contract with the summoning-type Ghost System Beast, so, I should be able to find one for you quickly.”

“However, once a Ghost System Beast is contracted, it would harm the soul to change it; damage to the soul is not as easy to recover as damage to spiritual power! ”

While speaking, Yi Han intentionally emphasized that few people contract with the summoning-type Ghost System Beast as a caution to Fang Mu. On the other hand, after hearing Yi Han's words, Fang Mu learned that the Beast he wanted, which could control dead creatures, was referred to as a summoning-type Ghost System Beast.

Fortunately, he had not said too much before, otherwise he might have aroused Yi Han's suspicion.

"Yes, Uncle Yi, I want a summoning-type Ghost System Beast!"

Upon seeing Fang Mu's certainty, Yi Han ceased his caution and did not continue to remind him.

Suddenly, a thought occurred to him, and biting his teeth, he said to Fang Mu. "Nephew, you should know that Ghost System Beasts also have different tiers."

"The Ghost System Beasts that spawn from Destruction Level, Terror Level, and Disaster Level Dimensional Rifts do have certain differences.' "These differences will not disappear with later cultivation."

Fang Mu did not respond to Yi Han nor did he ask about the differences between the Ghost System Beasts spawned from Destruction, Terror, and Disaster Level Dimensional Rifts, which would be lifelong.

He could learn about all these things indirectly from She Wan later, even if he didn't hear them from Yi Han.

She Wan, having contracted with a Ghost System Beast, would surely know about it..

Chapter 228: Fang Mu's Summoning of the Ghost System Guardian Beast! _4

At this moment, all Fang Mu heard was Yi Han continuing to speak.

"It's rare that a Catastrophe-Level Dimensional Rift has a chance to open once, and even I have a hard time getting my hands on those popular species." "After all, I wasn't a Grandmaster Creator before, just a Master Creator."

"However, I do know for a fact that a summoning type Ghost System Beast is produced from the Catastrophe-Level Dimensional Rift, and it's always been managed by the Chang Le Pavilion."

"If you want it, I can use my reputation and some resources."

"And it's possible to exchange it for the summoning type Ghost System Beast from Chang Le Pavilion that was born from a Catastrophe-Level Dimensional Rift!"

"Don't underestimate this just because it's a summoning class Ghost System Beast."

"But because it's produced from a Catastrophe-Level Dimensional Rift, Chang

Le Pavilion's price tag will not be low."

“However, it’s certainly not as much as the four bottles of elixirs I ordered from your master.”

“Nephew, I will keep a record of our transactions for you to check anytime, and there won’t be the slightest error.”

Fang Mu blinked at these words.

“Chang Le Pavilion” was an influence that Fang Mu had never heard of before.

From Yi Han’s words, Fang Mu felt that he had gained a lot of insight, and also understood one thing.

Even as a Grandmaster Creator, because the output of high-star Creator resources is limited and the demand is extremely high,

It’s not possible to recklessly consume the high-star-level Creator resources at

hand.

So even if one is born into the Yi Family with an elder like Yi Han, the direct descendant members of the Yi Family can cultivate their Guardian Beasts with the best resources.

They wouldn't contract beasts like Eden Greenfield or summon type Ghost System Beasts.

Because the operation of a family must always consider maximizing benefits, and the same is true for resource allocation.

"Uncle Yi, I have no worries. I believe you won't cheat me in trading!"

"It's just that I want to keep an eye on it in case my master asks occasionally."

Yi Han intended to make a long-term trade with Fang Mu from the beginning and would not trick him.

Now, hearing that Fang Mu needed to explain to his master, Yi Han thought privately,

Maybe he should send a detailed account list to Jianmu after each trade.

It would save Jianmu the trouble of explaining, and Qixing wouldn't think that he had tricked Jianmu!

Fang Mu, who hung up the phone, gave it back to Lu Yuyu.

Fang Mu took a deep breath. This call from Yi Han brought him great gains.

Even the Ghost System Beast was settled.

It's thanks to his idea to get the Ghost System Beast through Yi Han.

Otherwise, if he obtained it from somewhere else, the other party would very likely not explain the gap between the levels of Ghost System Beasts to him. Fang Mu wasn't afraid of the gap that could be made up later, but he was afraid of the innate talent that could not be remedied no matter how hard he tried.

Fang Mu once heard She Wan sigh, there is a gap between Ghost System Beasts.

She Wan seemed a bit regretful when she said this.

Looking at it now, what She Wan was regretting was probably the level, not the power.

At first, Lu Yuyu only guessed that Fang Mu and Yi Han might know each other.

Now hearing Fang Mu directly ask Yi Han for a Ghost System Beast, Lu Yuyu thought that these two who call each other "uncle and nephew" must have been very familiar with each other.

Otherwise, even two drunk people wouldn't develop a relationship this quickly in a bar!

Fang Mu and Lu Yuyu had just sat down when Qian Yan arrived.

Fang Mu only exchanged a few words with Qian Yan, then he excused himself with the reason that "his master was waiting for him to return".

He took the silver spiritual instrument Clear Pond Bracelet, containing the Sacred Relics Sakura Tempering Carp and two All-Kinds Carps, and left the Creator's Guild.

When he left, Fang Mu specially called out to Brother Lv and suggested meeting again when they had time.

Fang Mu heard about Qian Yan from Lu Yuyu, and he didn't really want to get close to Qian Yan.

People who are too keen on networking, in their dealings with others, usually are not sincere.

As long as you are useful to them, they will maintain the relationship with you even if you don't want to get acquainted with them.

This time Qian Yan came mainly to deliver things. Fang Mu just greeted him to make Qian Yan familiar with him, that's enough.

Qian Yan saw the interaction between Fang Mu and Lu Yuyu and immediately changed his opinion of Lu Yuyu.

His conversation with Lu Yuyu was noticeably warmer than before.

Seeing the change in Qian Yan's attitude, Lu Yuyu sneered but didn't say much.

But he knew that he would not encounter resistance from Qian Yan in similar situations in the future.

He Qing drove the Crystal-stepping Reindeer, a Beast Car, frantically toward the manor on the rear mountain of Jinghai Tianyu University.

At this time, Fang Mu's mind was completely focused on the upcoming cultivation of the Sacred Relics Sakura Tempering Carp and development of the two All-Kinds Carps..

Chapter 229: Extreme Evolution: 10 Longevity Carp! _1

Fang Mu slid open the window of his Beast Car, letting the cool summer night air pour in.

He felt extremely content, basking in the breeze.

That night, Fang Mu had enjoyed immense personal gains, beyond what he could have previously imagined.

In addition to the Sacred Relic, the Sakura Tempering Carp that he had originally planned to compete for, he also acquired two All-Kinds Carps.

Fang Mu had never heard of a mythical beast like the All-Kinds Carp before.

Only after hearing that the Sakura Tempering Carp evolved from the All-Kinds Carp, did his curiosity peak.

Under the table, Fang Mu had purposefully asked She Wan about the All-Kinds Carp to understand these creatures better.

The All-Kinds Carp served as a template-like Guardian Beast.

When induced with different resources, it can evolve into various carps or koi-type Guardian Beasts.

Generally, the purer and more precious the resources used to induce the All-Kinds Carp, the greater the chance it will evolve into a high-quality Guardian Beast.

The evolution of the All-Kinds Carp, as the name suggests, could be multitudinous and unpredictable.

Fang Mu had a keen interest in this kind of Guardian Beast.

In his hands, he had a high-purity elixir that even a Top Creation Master could not produce.

Through Yi Han, Fang Mu learned that the life elixir composed by a Top Creation Master had a concentration of only 96 percent.

In the world of Beast Masters, there was no such thing as a life or element elixir with 100 percent purity.

Fang Mu was glad he had been cautious, choosing to not disclose such high-purity life or element elixirs.

Otherwise, even though he was posing as a disciple of the Grandmaster Creator, it might not be easy to protect himself with only that status.

Fang Mu thought to himself.

If he were to use life elixirs with 100 percent purity to induce the All-Kinds Carp, what kind of Guardian Beast would it evolve into!?

Besides the Sakura Tempering Carp and two All-Kinds Carps, Yi Han, the Grandmaster Creator, was one of Fang Mu's biggest gains.

He was a real and tangible support Fang could rely upon in times of need.

With the evening breeze blowing, Fang Mu casually played with his silver-element Clear Pond Bracelet, finding it immensely comforting.

The Clear Pond Bracelet was a two-series spirit instrument associated with the elements of water and space.

This dual-element storage tool, with its water properties, has a space inside filled with water.

This kind of space spirit tool was particularly suitable for holding water-attribute fish-like Guardian Beasts that had not yet been contracted by a Beast Master.

It could create excellent living conditions for these water-based creatures.

Qian Yan, who helped Fang Mu transport the goods, didn't need to use this dual-attribute spirit tool just for cargo.

However, he specifically chose a silver dual-element spirit tool that Fang Mu surely could use.

This was a sign of goodwill towards Fang Mu.

Fang Mu planned to form a contract with the Sakura Tempering Carp but obviously not just yet.

Before he had enough Contracting Blood, the Sacred Relic Sakura Tempering Carp could stay in the Clear Pond Bracelet.

Faintly smelling the scent of azaleas in the evening breeze, Fang Mu was in high spirits.

Because Fang Qin loved the exceptionally vibrant and long-blooming azaleas.

Furthermore, the scent emitted by the high stamen of the azaleas, similar to a dragon tongue, had a strong insect-repelling function.

In areas where azaleas bloomed, generally there wouldn't be any pesky insects or flies, let alone insect Guardian Beasts below the azaleas' rank.

The azaleas' stamen, akin to a dragon's tongue, was a great treat for Dragon Beasts.

While the stamen of the azaleas might not enhance a dragon's bloodline, it could activate and invigorate it.

This enhanced the digestion efficiency of a dragon Guardian Beast in absorbing materials that improved their bloodline.

The scent of the azaleas was sweet with a hint of spiciness, tasting like sweet liquor and exotic tropical fruits.

On smelling the scent of the azaleas, Fang Mu knew he was near home.

However, unlike Fang Mu's comfort, the top circles of the Dragon Rising Federation were perturbed due to the competition between him and Yi Han for the Sakura Tempering Carp.

Almost all the forces were waiting to see Yi Han's reaction.

After all, the Yi Family's high-profile ambition for the Sacred Relic Sakura Tempering Carp, made it hard for them to save face in the face of their fruitless efforts.

These forces had no idea that the seemingly precarious situation inside the Yi Family was free from any resentment due to their failed attempts.

On the contrary, many high-rank members, including Yi Han, were relieved that they could utilize resources outside of the Creation Master from Qixing to obtain high-star Creation Master resources.

Now, the Yi Family's future development will be far faster than attaining external objects like the Sacred Relic Sakura Tempering Carp!

Just as he returned to the main house of the estate, Fang Mu saw She Wan waiting there.

Because Fang Mu was having dinner with Hu Tao in the evening, he hadn't asked She Wan to accompany him like usual.

After learning of Fang Mu's dispute with the Yi Family from her father, She Ruan, She Wan became even more worried.

She Wan knew crystal clear why her father had called her. It was for her to discern if the animosity between Jianmu and the Yi Family was irreconcilable. Currently, the She Family was relying on Jianmu and had built ties with Qixing.

However, if they offended the Yi Family in doing so, it would be an unprofitable deal!

Qixing kept a low profile and might not come forward to protect the She Family in terms of trouble.

However, over the years, the Yi Family had crushed to dust any families that offended them.

They could be harshly described as ruthless and thorough!

However, She Wan's worries markedly differed from those of She Ruan.

She Wan now considered things from Fang Mu's perspective rather than just from the She Family's point of view..

Chapter 230: Ultimate Evolution: 10 Life Prolonging Hong carp! _2

She Wan was afraid that the Yi Family might act recklessly against Fang Mu without considering the consequences.

As soon as she saw Fang Mu, She Wan quickly proposed.

"Young Master, why not have me stay by your side to ensure your safety from now on!"

"The reputation of the Yi Family isn't good, I am worried..

Fang Mu was initially somewhat surprised, wondering why She Wan was waiting at the door for him.

Now, hearing She Wan's words, Fang Mu felt somewhat touched in his heart.

Fang Mu directly nodded at She Wan.

“From tomorrow onwards, if I don’t have anything special to handle, you can always stay by my side! ”

“However, you don’t need to worry about the Yi family posing any harm to me.”

“I had a small squabble with Uncle Yi, but when he found out that I wanted the Sakura Tempering Carp, he immediately offered it to me.”

“In a while, I’ll need you to go to the Yi Family on my behalf and deliver some elixirs that Master Yi Han ordered from my master.”

If it were only to reassure She Wan, Fang Mu didn’t have to say so much.

The reason Fang Mu said so much was to let She Wan pass these words on to the Lu Dushe clan.

To make it clear to She Wan and the Lu Dushe clan the benefits of backing him up.

Simply put, Fang Mu was showing off his capabilities.

She Wan had been somewhat worried at first, but upon hearing Fang Mu's words, her concerns immediately subsided.

Meanwhile, she was secretly amazed at how close Fang Mu and Yi Han seemed to be, addressing each other as "uncle and nephew", indicating a very close relationship.

The fact that there were dealings of elixirs between the two grandmasters indicated that the relationship between them was very intimate.

She Wan instantly felt that she had been worrying over nothing, the two were on good terms!

It was too much for the major powers who were still guessing how the Yi Family would react.

She Wan planned to call her father, She Ruan, when she returned to her room, telling him not to worry unnecessarily.

Quietly following behind the big ship of Jianmu, this was the right choice for the She Family to further progress.

Fang Mu and She Wan both returned to the main house, taking the stairs to their rooms.

Now that most of the manor construction was complete, both Lu Xiaoyin and She Wan had their own rooms.

As She Wan was Fang Mu's personal guard, her room was eventually arranged next to Fang Mu's.

With Lu Xiaoyin moving to the second floor, it would be more convenient to arrange the work of the servants.

This would not disturb Fang Mu and Fang Yuan who lived on the third floor, or Fang Qin and Yan Wood who lived on the fourth floor.

Just before entering his room, Fang Mu casually asked She Wan.

"Sister Wan, I've been enhancing my soul power and before long I should be able to form a bond with a Ghost System Beast!"

"I know that ghost system beasts formed from different levels of dimensional rifts possess different levels."

"What exactly is the gap between the different levels of ghost system beasts?"

Fang Mu's words were like an informed person asking for the experience of others in order to better make his own judgment.

She Wan discovered that Fang Mu always had a strong curiosity, which would eventually evolve into a thirst for knowledge.

With such a quality, no wonder Fang Mu, who was so young, was taken as a disciple by the Grandmaster Creator.

Facing Fang Mu's high-level questions, She Wan was really afraid that one day she might not be able to answer.

"Young Master, even though there is a gap between the ghost system beasts formed when Horror-Level and Destruction-Level dimensional rifts disappear, it isn't too significant."

"The most intuitive difference is that the ghost system beasts produced from horror-level dimensional rifts are enveloped in grey-black ghost Qi."

"The ghost system beasts produced from Destruction-Level dimensional rifts are enveloped in dark green ghost Qi."

Upon hearing this, Fang Mu thought of the time when the Soul Parasite Ant entered She Wan's soul, and he saw the dark green flame in her soul.

This indicated that the ghost system beast She Wan had bonded with was produced when a Destruction-Level Dimensional Rift disappeared.

Fang Mu did not elaborate on She Wan's words, but gently nodded his head, waiting for She Wan to continue speaking.

"Young Master, a ghost system beast from a Catastrophe-Class Dimensional Rift can be surrounded by ghost Qi of any color."

"More importantly, ghost system beasts of the Catastrophe-Class have an obvious suppressing power against Horror-Class and Destruction-Class ghost system beasts."

"The most important thing is that Catastrophe-Class ghost system beasts can devour another ghost system beast of the same level with a weaker bloodline than theirs to evolve."

"This ability is not possessed by ghost system beasts from the Horror or Destruction Class."

Upon hearing She Wan's words, Fang Mu now had a clear understanding of the disparities among the ghost system beasts.

As for the affairs of the Chang Le Pavilion, Fang Mu did not inquire from She Wan tonight.

Fang Mu estimated that Yi Han would most likely act as a mediator, introducing him to the people of Ai Le Square.

Chang Le Pavilion definitely wanted to get to know a senior creation zenith master.

If Yi Han could act as a channel in this, Chang Le Pavilion would owe him a favor.

Back in his room, Fang Mu took out a large ceramic vat that had been prepared in advance.

The vat was eight meters in diameter and looked like a small pond.

In order to get this giant vat that weighed several tons, Fang Mu specifically summoned his Destiny Guardian Beast, the Blood of Abundance.

He then used the blood-red fog to strengthen himself.

Otherwise, Fang Mu in his normal state would not be able to move this custom-made large ceramic vat.

Fang Mu took out the two All-kinds Carp and the sacred relic Sakura Tempering Carp from the Clear Pond Bracelet..
