

Crazy! Are You Really A Beast Tamer?

#Chapter 3 - 3: 3 Twinkling Bell Orchid_1 - Read Crazy! Are You Really A Beast Tamer? Chapter 3 - 3: 3 Twinkling Bell Orchid_1

Chapter 3 - 3: 3 Twinkling Bell Orchid_1

Fang Mu, who had lived two lives, knew very well how important power was in such a Beastmaster world.

Only by having enough strength could he earn Dragon Soaring Coins more easily.

More importantly, Fang Mu's previous goal was to become a Maker's Assistant.

Assisting creators to complete their work.

But now, Fang Mu has become a Beast Master.

He can truly strive for the path of a Creator.

Fang Mu, who awakened his Destiny Guidebook four years later than others, seemed four years late.

However, in fact, during these four years, Fang Mu has been continually enriching his knowledge in areas such as beast observation and Spirit Material Analysis.

This did not put Fang Mu at a disadvantage at the starting line.

Because of his missing areas, Fang Mu actually calmed down even more, and accumulated the most solid fundamental knowledge.

Beast Masters who have just awakened their Destiny Guidebook are collectively referred to as One-point Star Beast Masters.

As spiritual power increases, the star rating of the Beast Masters will also increase.

Beast Masters use their spirit as a weapon to connect with the Guardian Beast and feel nature.

Refining spiritual power is the foundation of a Beast Master's power enhancement.

Fang Mu must find a way to improve his spiritual power in a short period to catch up with his peers.

While Fang Mu was in a daze, Wei Xinyu once again commanded the Twinkling Bell Orchid to release a skill towards Fang Mu.

The layers of crisp bell tones and warm twinkling light washed over Fang Mu's ears.

It immediately brought Fang Mu's thoughts back to reality.

Fang Mu hurriedly stood up from the bed.

Just when Fang Mu was about to tell Wei Xinyu and Hu Tao that he was fine now.

The door of the School Infirmary was opened from the outside.

The first to walk in was a middle-aged man wearing gold-edged black glasses, looking handsome, yet very serious in his eyes and brows.

When the middle-aged man entered the room, his gaze first fell on Fang Mu, then he turned to look at Wei Xinyu.

After Wei Xinyu shook her head, the middle-aged man let his gaze fall on Fang Mu again.

Behind this middle-aged man, a boy and a girl followed.

The two, who looked quite alike, were clearly a pair of twins.

Just like the middle-aged man in front, both of their eyes fell on Fang Mu, their expressions were quite concerned.

Cui Ruochen walked to Fang Mu's side.

He patted Fang Mu's shoulder and said.

"This lesson is about the function and differences of poisonous spiritual materials."

"It is a very useful course in outdoor actual combat."

"This is the PPT I used for the class, it contains information related to the course."

"Take it back and have a look."

"Hu Tao missed a lesson because of you, so you can take the opportunity to make up for it."

While Cui Ruochen was speaking, he handed a USB drive in his hand to Fang Mu.

Not only Bai Ya and Bai Hao, the twins, felt Cui Ruochen's preference favor towards Fang Mu.

We Xinyu, who was quite familiar with Cui Ruochen, also felt it.

As for Hu Tao, she was just happy at the moment.

"Great! Teacher Cui didn't punish me with writing because of my truancy!"

Just as Hu Tao thought this, she heard Cui Ruochen changed the subject and said.

"Hu Tao, your score on Spiritual Material Analysis is the lowest in your six-item written test."

"The six-item written test score is a total of one thousand points."

"Spiritual Material Analysis is worth two hundred points. It's the main subject,"

"Go print out the paper on bird spiritual material in my USB drive."

"Complete it by tomorrow and hand it over to me!"

Upon hearing this, Hu Tao immediately pouted.

Hu Tao's Destiny Gaurdian Beast is related to birds, and Teacher Cui arranged this obviously for her own good.

But the paper set by Teacher Cui is definitely not ordinary difficulty.

Fang Mu quietly prodded Hu Tao with his elbow and whispered.

"When we make up for the class later, I will write it with you."

Hearing Fang Mu's words, Hu Tao finally settled down.

After Fang Mu finished speaking quietly to Hu Tao, he looked up at Cui Ruochen and said.

"Teacher Cui, I've finished the research on the feasibility of elemental beasts."

"I would like to write the thesis."

Hearing this, Cui Ruochen spoke to Fang Mu with a mixture of appreciation and gentleness.

“There is no problem with your research on elemental beasts.”

“Once the thesis is written, I will review it and then help you publish it.”

“Since you’ve turned sixteen, you can now be the first author of the thesis and have your name listed first.”

“With these research papers as your stepping stone, you shouldn’t have any problem getting into Jinghai Tianyu University.”

If Fang Mu had heard Cui Ruochen say this before, he would have been extremely excited.

This is the only way Fang Mu previously considered to get into Jinghai Tianyu University.

But now, Fang Mu doesn’t need this anymore.

Fang Mu, with his test scores and a year of improvement in Beast Mastery, can enter Jinghai Tianyu University through the regular admission process.

Cui Ruochen is not just a special teacher at Jinghai High School for Beast Masters, he is also an assistant to the Creator.

Cui Ruochen plans to pass the Creator’s assessment in two years and become a Junior Creator.

Therefore, Cui Ruochen has hardly any free time.

Apart from teaching, all his energy is devoted to the Junior Creator’s evaluation.

Coming to see Fang Mu is entirely due to his affection and admiration for this student.

Cui Ruochen even had plans to summon Fang Mu as an assistant after he becomes a Junior Creator.

Assuring that Fang Mu was out of danger, Cui Ruochen left the infirmary directly.

After Cui Ruochen left, Bai Hao came briskly to Fang Mu’s side, extended his fist, and lightly pounded Fang Mu’s shoulder twice.

“Brother Fang, you’re awesome!”

“Only you could make Teacher Cui so amiable!”

Bai Ya, seeing her forever reckless brother, rolled her eyes helplessly.

Then she lifted the takeaway bag in her hand,

gave two portions to Fang Mu and Hu Tao, and one portion to Wei Xinyu.

Because Fang Mu suddenly fainted, both he and Hu Tao not only missed the Spirit Material Analysis class,

but also missed lunch time.

Wei Xinyu, who had been treating Fang Mu, obviously had no chance to go to the cafeteria to eat.

Unlike Bai Hao’s lively and impulsive character,

Bai Ya is extremely steady and considerate in handling matters.

Bai Hao and Bai Ya are both good friends of Fang Mu.

Fang Mu didn’t try to be polite with Bai Hao or Bai Ya, but he didn’t plan to have his meal in the infirmary.

A Twinkling Bell Orchid is a rarely seen plant-type beastmaster that can heal the spirit.

The ability of the Twinkling Bell Orchid consumes a lot when used.

Teacher Wei, who applied the Twinkling Bell Orchid skill [Jingling Intoxication] on him twice in a row, urgently needed to rest and recuperate for a while.

Fang Mu was about to thank Wei Xinyu and then leave.

Suddenly, Fang Mu noticed that the Twinkling Bell Orchid in front of him looked different from before.

[Beast Name]: Twinkling Bell Orchid

[Beast Species]: Lily family/ Lily of the Valley genus

[Beast Level]: Silver (7/10)

[Beast Element]: Grass/Light

[Beast Potential]: Gold

[Beast Quality]: Perfect Quality

Skills:

[Bell Shake]: Shake the flower to generate spiritual waves, which can interfere with the target's spiritual power.

[Jingling Intoxication]: Use light energy to shake between petals, producing a pleasant bell sound. The bell sound has a mentally refreshing effect and can slowly heal damaged spiritual power.

Exclusive Feature:

[Magnificent Blossom]: Boost the weight-bearing capacity of the stem to ensure as many flowers are produced as possible.

Evolution Path:

①Twilight Lily of the Valley, ②Aurora Calla Lily, ③Dawn Orchid.

Chapter 4 - 4: 4 The Title Page of Fate_1

Clean and orderly data appeared in front of Fang Mu.

This was not Fang Mu's first time seeing Wei Xinyu's Twinkling Bell Orchid.

However, it was the first time he had seen such concrete data.

Fang Mu had heard from Cui Ruochen before.

A Creator could, based on his own knowledge, see through the skills and exclusive traits of others' Guardian Beasts.

He could even explore the evolutionary path of the Guardian Beasts and assist them in evolving in a specific direction.

But this ability is based on a conjecture and analysis built on enough knowledge.

It's like someone knowledgeable at a glance can see how to do this problem.

It's an imagined thing.

But now Fang Mu was able to express this imaginary thing in a concrete way.

This ability allowed Fang Mu to determine that it should be related to his awakened Destiny Guidebook.

If a Creator wants to assist the Guardian Beast's bloodline to undergo transformation,

He needs to go through repeated trial and error, consuming a large amount of spirit material.

And now, in front of Fang Mu, three clear evolutionary schemes appeared.

These three evolutionary schemes had detailed recipes under the condition that Fang Mu consumed spiritual power to probe them.

Once Fang Mu became a real Creator in the future,

He could use the least resources to precisely cultivate Guardian Beasts.

And he could also customize the Guardian Beasts according to the requirements of the Beast Masters.

This kind of ability, let alone Senior Creators, even Master Creators and Grandmaster Creators could not do it.

The rank of Guardian Beast starts at the copper level.

The quality goes from common to elite to perfect, constantly moving upwards.

Every time a Guardian Beast increases a rank, it will gain corresponding skills.

When the quality reaches perfect, it will undergo the first transformation.

And gain an exclusive trait that belongs to this spirit object itself.

Normally, if a Silver-Level Twinkling Bell Orchid can produce thirteen or fourteen flowers, it can be considered very well-cultivated.

Wei Xinyu's Twinkling Bell Orchid, due to its exclusive trait [Magnificent Blossom].

Had produced more than fifty small white flowers, like bells.

This is the change that the exclusive trait brings to the Guardian Beast itself.

Of course, this also has to do with Wei Xinyu's willingness to provide resources for her Twinkling Bell Orchid.

Otherwise, no matter how capable the plant itself is of blooming, without enough nutrients, it won't work.

In addition to awakening the mind and healing psychological wounds, the Twinkling Bell Orchid

Is also a special kind of financial management Guardian Beast.

Its Bronze-Level skill [Bell Shake] emits low-frequency spiritual fluctuations, which can help awaken the Destiny Guidebook.

The low-frequency spiritual fluctuations emitted by [Bell Shake] are very gentle.

Many wealthy families like to hire Beast Masters who have contracted with Twinkling Bell Orchids

To help younger generations awaken.

The charge for each time is often around ten thousand federal coins.

So, while Wei Xinyu was serving as the school doctor at Jinghai High School for Beast Masters, she would occasionally take on employment.

Although this income is not enough to make Wei Xinyu a rich woman, it is enough to keep her from being too destitute on the path of cultivating Guardian Beasts.

Now Wei Xinyu's Twinkling Bell Orchid has already reached Silver Level Seven.

The potential of the Twinkling Bell Orchid is in the Gold Level.

So, after the rank of Twinkling Bell Orchid is promoted to Gold Level, it can't advance further.

She must find a Creator to help the Twinkling Bell Orchid increase its potential through means such as adjusting the spiritual liquid.

To possibly allow the Twinkling Bell Orchid to continue to increase its rank.

As for the improvement of quality, it is the limit for creators below Senior level to raise the quality of the Guardian Beast to perfect level.

If you want to raise the quality even higher, that's in the realm of Master Creators and Grandmaster Creators.

Such important people are not ones you can hire simply by spending money.

As Fang Mu was saying goodbye to Wei Xinyu, he rubbed his temple with his hand.

The twists and opportunities that occurred on this day were just too numerous.

Jinghai High School for Beast Masters scheduled theory classes in the mornings and practical ones in the afternoons.

That's why Fang Mu could take the afternoon off every day.

Usually, Fang Mu would spend his afternoons in the library.

But now, Fang Mu planned to go home to carefully study his Destiny Guidebook.

As well as why he could see the Guardian Beast's data after awakening his Destiny Guidebook.

Leaving the School Infirmary, Fang Mu first arranged with Hu Tao for a six o'clock meeting in the evening.

Then he addressed Bai Hao and Bai Ya.

"If you two want to reduce your expenses on feeding the Guardian Beasts."

"I've made the most cost-effective adjustment for you, without compromising the growth potential of the beasts."

"After Hu Tao and I finish our supplemental lessons in the evening."

"I will send the plan to your mailbox."

Bai Hao and Bai Ya's family owned a Spirit Material Retail Shop.

To have the means to open a Spirit Material Retail Shop among ordinary people indicated a prosperous household.

However, Bai Hao and Bai Ya had to economize on feeding their Guardian Beasts.

This made Fang Mu, who hadn't formally contracted a beast yet, feel a sort of financial pressure.

Before taking the college entrance examination next year and entering Jinghai Tianyu University, Fang Mu would definitely have to reveal his identity as a Beast Master.

Therefore, Fang Mu must tell his older sister, second brother, and third sister.

As long as his family confirmed that he had awakened his Destiny Guidebook several years ago, he wouldn't be doubted.

Knowing the love his older sister, second brother, and third sister have for him

Even if he wasn't considering carefully, the three of them could help him handle the aftermath properly.

However, Fang Mu didn't plan to immediately tell his family that he had become a Beast Master.

His older sister had joined the Jinghai Army and had become an executor in a Special Department of the Jinghai Army.

She would soon be undertaking rigorous advanced studies.

After graduating from college, his second brother went to the Imperial City alone to make a living, working for Ten Thousand Treasures Commerce.

He became a member of the Golden Gloves in Ten Thousand Treasures Commerce.

The Golden Gloves were involved with procuring supplies and had the chance to interact with Creators.

Of the seventy thousand Dragon Rising Coins Fang Mu had saved up, more than half were mailed to him by his older brother.

His third sister was originally a third-year student at Jinghai Tianyu University, but she was chosen to be an exchange student and went to Demon Capital Dragon Garden University two months ago.

If his older sister, second brother, and third sister learned that he had suddenly awakened his Destiny Guidebook,

They would definitely rush home immediately to check on his condition.

This would undoubtedly have a great impact on the three of them, who are in a period of rapid development.

Before, it had always been his sister and brother helping him.

Fang Mu planned to wait until he became a Creator.

Then he could also help his older sister, second brother, and third sister in return.

After bidding farewell to Hu Tao, Bai Ya, and Bai Hao,

Fang Mu immediately returned home.

Fang Mu locked his room tightly, sat on the sofa, and activated his spiritual power.

An Illustrated Handbook, conjured from spiritual power, appeared in front of Fang Mu.

Thanks to Teacher Wei using the skill [Bell Shake] twice on him with her Twinkling Bell Orchid,

Otherwise, it would take a few days for Fang Mu, who had just awakened his Destiny Guidebook, to solidify it to the point where he could flip through it.

Fang Mu reached out his hand, touching the Destiny Guidebook he had been dreaming of.

Then, taking a deep breath, he opened the title page of the Destiny Guidebook.
