

Beast Tamer 341

Chapter 341: 208: Weave the Web, Silver Void Purple Spider!_1

She Wan, hearing Mr. Gray of the Evil Heart Sect boast in mid-air, was burning with rage.

Her fury was about to shatter her heart and burst through the top of her head.

Previously, She Wan hadn't known that a dimensional rift had opened above Jinghai High School for Beast Masters.

Because a dimensional rift had also opened in the sky above Jinghai Tianyu University.

The dimensional rift above Jinghai Tianyu University blocked the signal, preventing She Wan from calling Fang Mu immediately to check his status.

Thinking that Fang Mu would later attend Jinghai Tianyu University, and his estate was next to Jinghai Tianyu University, they were neighbors.

She Wan wanted to go and assist Jinghai Tianyu University on behalf of Fang Mu.

However, when She Wan summoned her main Battle Beast Silver Void Purple Spider, and used the Silver Void Purple Spider's spatial folding ability to traverse to the sky above Jinghai Tianyu University.

She Wan suddenly realized that not only above Jinghai Tianyu University but also many dimensional rifts had opened above the entire JA City.

Seeing this, She Wan's heart tightened abruptly, and she inwardly exclaimed, misgivings filling her heart.

Dimensional Rifts in their active phase would never open so densely; there was only one possibility for this to occur now.

That was that JA city was targeted by some evil organization.

Recently, there have been more and more cases of evil organizations colluding with strange beasts, not just the Evil Heart Sect doing so.

She Wan did not have the time to research which evil organization was making a move on JA city.

What She Wan was full of right now was concern for Fang Mu's safety.

She Wan had always felt insecure while acting as a guard for Fang Mu, the disciple of a Grandmaster Creator.

It wasn't until Fang Mu said, "I'm leaving my safety to you," that She Wan's unsettled heart calmed down.

Fang Mu having said this meant he hadn't arranged any new guards to protect himself.

This was Fang Mu's trust in her.

Gaining Fang's trust, She Wan was extremely excited and pleased.

However, this also meant that in case of danger, if she was not by Fang Mu's side, Fang Mu would have no ability to resist.

Because of Guardian Beasts such as the Covenant Servant Soul Ant Queen that was produced in the Insect Valley and whose soul was controlled by Fang Mu.

If Fang Mu dies, the Covenant Servant Soul Ant Queen will also die.

Once the Covenant Servant Soul Ant Queen dies, the soul parasites that have successfully nested inside her soul will madly gnaw at her own soul.

Apart from fearing for her own life in case Fang Mu died, She Wan was more worried about betraying Fang Mu's trust.

Just as she reached Jinghai High School for Beast Masters, she heard someone saying such things to Fang Mu.

Normally, sequential powerhouses disdain ambushing, as broadcasting such actions would harm their reputation.

Especially for a noble lady like She Wan who comes from the Lu Dushe clan.

But at this time, the intolerable She Wan directly commanded Silver Void Purple Spider to launch an attack on this figure.

Even if separated by great distances, the Covenant Servant Soul Ant Queen could sense the distance and position through its breath.

Hence, before Fang Mu picked up the Forest Resentment Bell, he knew that She Wan was rushing over.

Otherwise, Fang Mu wouldn't have let the Purple Ice Crystal Ring and the Forest Resentment Bell trigger the automatic body protection together; using them separately would undoubtedly offer greater assistance in buying time.

The tide-like silver spider shadows rushed out of the void, pouncing on Mr. Gray.

The stingers on these spider shadows' long legs were etched with purple patterns and were like many sharp bayonets.

Right at this moment, layers of frost formed on Mr. Gray's body and in the blink of an eye encapsulated Mr. Gray in the solid blue-gray ice.

Immediately afterward, a giant octopus appeared out of thin air, protecting the solid ice encasing Mr. Gray with its eight tentacles.

A large patch of gray-blue light brightened up on this octopus' body and its eight tentacles struck at the spider shadows in the sky.

At this time, She Wan had already reached Fang Mu's side, taking in Fang's appearance from head to toe.

Only after confirming that there was nothing wrong with Fang Mu did she look up at the Blood Race Prince that was entangled in a fight with the Loose Treasure Gold Toad and this eight-tentacle octopus that was protecting Mr. Gray.

If She Wan wasn't mistaken, this octopus should be called "Withering Cold Tyrant Octopus."

The Withering Cold Tyrant Octopus might not match several of the Titan Chapter's beasts in size, but it possessed a type of poison that the Titan Chapter lacked.

The toxins from the Withering Cold Tyrant Octopus, which could cause vegetation to wither, were far stronger than the poison contained in the devil's blood.

In the waters where the Withering Cold Tyrant Octopus lived, there wouldn't be any islands within a radius of hundreds of kilometers.

Though the Withering Cold Tyrant Octopus was powerful, She Wan didn't take it seriously.

The Withering Cold Tyrant Octopus might not match the size of the Titan Chapter's octopus-type beasts in size, but when its strength reached the seventh sequential level, its tentacles were at least eighty meters long.

The tentacles of the Withering Cold Tyrant Octopus currently in front of her were only seventy-two or three meters long, it was clear that its cultivation was not perfected.

Even at the sequential level, due to different cultivation methods and resources invested.

There were still significant gaps in strength.

As for the Blood Race Prince, whose strength was comparable to that of a peak sequential nine Beast, he was nothing more than a target she could kill casually in She Wan's eyes.

Just now in the urgency of the situation, She Wan used the term 'young master' to refer to Fang Mu.

But thinking about how Fang Mu called himself 'Jianmu', She Wan realized that Fang Mu didn't want others to know he was a Grandmaster Creator's disciple at school.

Otherwise, She Wan would certainly have knelt on one knee and apologized to Fang Mu.

If she had not misjudged the situation at the beginning, thinking about helping Jinghai Tianyu University.

She Wan could have reached Fang Mu's side at least one minute earlier.

Chapter 342 - Weave the Web, Silver Void Purple Spider!_2

The current situation is fraught with danger, with students dying every second under the onslaught of the alien beast wave.

Fortunately, Fang Mu has bonded with two Sequential Spiritual Instruments, otherwise, there's a high chance that Fang Mu would now be in danger.

At the critical moment, everyone is resisting the alien beast wave, and the three teachers scattered among the crowd are doing the same.

Only Fang Mu, Hu Tao, Cui Ruochen, and several students around them have seen She Wan's figure protected by Cui Ruochen's electric light shield armor.

As much as they are perplexed, Cui Ruochen and Hu Tao also realize many things.

Both are at a loss regarding Fang Mu's identity and strength, which vary greatly from their initial understanding.

Hu Tao and Cui Ruochen have been by Fang Mu's side almost every day during their two years in high school and they claim to have a deep understanding of him.

But now, not only has Fang Mu transformed into a Beast Master and contracted a Domain-Type Control Beast, he also has Sequential powerhouses guarding him from the side.

Hu Tao's attention falls on She Wan, but Cui Ruochen's focus is mostly on the two Sequential Spiritual Instruments Fang Mu possesses.

Cui Ruochen has been fortunate to see Sequential Spiritual Instruments, but he never thought that the ring Fang Mu wore had this purpose.

The Sequential Dragon Soul and the Sequential Undead Creatures Spirit that haven't dispersed in front of Fang Mu allow Cui Ruochen to confirm that Fang Mu has two Sequential Spiritual Instruments.

One of these Sequential Spiritual Instruments emits dual-element fluctuations, and the other emanates three-element fluctuations.

They are truly top-tier among Sequential Spiritual Instruments.

Hu Tao has always been by Fang Mu's side, and it was Fang Mu who asked Hu Tao to come find him.

He only shared the news about He Deen in his own dorm with Fang Mu and didn't tell Hu Tao.

So, the message that Hu Tao brought to He Deen must have been entrusted by Fang Mu.

Cui Ruochen did not know He Deen before, but he had only heard of He Deen's fame.

However, He Deen suddenly took the initiative to contact him at a gathering, and they became close friends.

Many questions that he had always been puzzled about were generously answered by He Deen after he asked.

It should be understood that a person preparing to take the Creator's exam seeks tutoring from Senior Creators.

The price per hour exceeds 800,000 Dragon Rising Coins.

If he asks too many questions, he will have to pay extra.

Cui Ruochen likes to think when he encounters problems, so he has many questions.

If money were involved, Cui Ruochen would at least have to give He Deen a sum exceeding five million Dragon Rising Coins.

Cui Ruochen didn't want to take advantage of He Deen, especially since he didn't know He Deen for long.

Moreover, Cui Ruochen wanted to maintain a deep relationship with He Deen and didn't want him to feel that he was taking advantage.

So, Cui Ruochen intentionally used his saving to buy He Deen a gift worth more than one million Dragon Rising Coins.

Cui Ruochen was not sure what He Deen would prefer, so he chose a gift that was easy to sell.

In case He Deen didn't like it, he could easily sell it somewhere else.

Unexpectedly, He Deen didn't accept Cui Ruochen's gift.

However, he still patiently imparted knowledge to him about being a Creator.

Cui Ruochen now finally understood what was going on.

It turns out that the reason He Deen took the initiative to contact and help him was because of Fang Mu.

Therefore, Lu Xiaoyin was probably the same as the woman in front of him, a guard or a servant for Fang Mu.

The main body of the Silver Void Purple Spider hid within the void, with a large number of shadow spiders flooding towards the Withering Cold Tyrant Octopus like a tide.

They sliced a series of small wounds on the tentacles of Withering Cold Tyrant Octopus.

The bluish-gray blood of the Withering Cold Tyrant Octopus dropped into the Demon Tide, even those demons at the Terror-Level were corroded to bones in an instant by its blood.

The poison in the blood of the Withering Cold Tyrant Octopus could not only cause plants to wither but also had a strong corrosive effect on flesh.

Because the Silver Void Purple Spider engaged the Withering Cold Tyrant Octopus too easily, it managed to send a portion of shadow spiders towards the Blood Race Prince, who was tactically retreating from the Loose Treasure Gold Toad.

The strength of the Silver Void Purple Spider exceeded that of the Blood Race Prince Carlos by two major levels, and the shadow spiders mercilessly sliced the bat-shaped body of the Blood Race Prince.

The fist-sized, ruby-like bat covered with cracks began recovering to a human form, forcing Carlos, the Prince of Blood Race, to recover his human form.

The Loose Treasure Gold Toad was using its tongue to block the wound on its stomach, at the same time its vocal cords mimicked a human voice and yelled in She Wan's direction.

"I am Lu Kai, the Chief Instructor of Jinghai High School for Beast Master's Martial Arts Arena. I implore you to work together to protect Jinghai High School and save more students."

"On behalf of the students' parents and the school, I would like to thank you in advance."

"Currently, all Sequential Powerhouses in the school are at a stalemate with the Sequential Powerhouses of the Evil Heart Sect and Advanced Alien Beasts."

"Your assistance could help break the deadlock."

Interestingly, Lu Kai was clearly communicating with She Wan through his Guardian Beast.

Lu Kai is very serious in his dealings, even Hu Tao is fearful of this Chief Instructor in the Martial Arts Arena, who always has a stern face.

No student on the scene actually knew that Lu Kai was a Sequential Powerhouse.

Usually, when Lu Kai gives training classes, he only complains using a Platinum grade Guardian Beast.

Senior three students always challenge Lu Kai with their Guardian Beasts in hopes of making him fail.

But over the years, nobody has been successful.

It turns out, Lu Kai's true identity is a Sequential Powerhouse!

Despite the fact that Lu Kai is full with courteous words while communicating with She Wan through his Guardian Beast, it's mainly because Jinghai High School is requesting She Wan's help and greatly needs her assistance.

Chapter 343 Weave the Web, Silver Void Purple Spider!_3

On the other hand, it was because, faced with a powerful figure possessing a Sequential Seven Guardian Beast, Lu Kai must maintain enough respect.

She Wan didn't immediately respond to the words of the Loose Treasure Gold Toad, but instead, her gaze landed on Fang Mu.

She was clearly seeking Fang Mu's opinion.

She Wan was Fang Mu's guard, and it was her duty and obligation to stand by Fang Mu's side in such a critical time.

Moreover, Jinghai High School for Beast Masters was where Fang Mu studied, and She Wan could tell that Fang Mu held strong emotions for his school.

Therefore, She Wan was prepared to follow Fang Mu's decision.

Only after Fang Mu nodded at her did She Wan finally speak.

"Of course!"

"After I resolve the issues here, I will go to the martial arts arena to help you."

“The Evil Heart Sect is becoming more and more audacious, daring to launch a surprise attack on the cities of the Dragon Rising Federation and cause trouble in the Federation!”

“It seems like the lesson from twenty years ago wasn’t severe enough!”

Just as She Wan’s words ended, Mr. Gray, who had somehow appeared atop the Withering Cold Tyrant Octopus, adjusted his crown of thorns.

Respectfully, he touched the broken heart symbol in the center of his crown.

From the symbol, he pulled out a coffin wrapped in grey cloth strips.

The coffin was about six meters in height and three meters wide, enough to fit dozens of people inside.

After the coffin was taken out, a “gung-gung” sound was immediately heard from within.

The grey strips were being tugged, making a “zip-zag” sound, as if they could break at any time.

“You knew about the incident from twenty years ago; it seems you have a solid understanding of our Evil Heart Sect!”

“Since you know so much about the Evil Heart Sect, you should also know that every one of us in the Grey Fog Squad is matched with a Stitched Corpse Puppets of equivalent power to ourselves, after being given the code name, grey.”

“The greatest advantage of Stitched Corpse Puppets is their ability to incorporate different Guardian Beast bodies, thus gaining their respective advantages.”

“Instead of thinking about helping others, you better think about how to survive under the attacks of my two Guardian Beasts and Stitched Corpse Puppet!”

“I would assume you don’t have three Sequential Guardian Beasts, do you?”

Upon hearing this, despite having a solemn expression in her heart, She Wan showed a look of disdain on her face.

Significant forces like the Lu City She Family [Lu Dushe clan] place great emphasis on their Noble Lady’s education.

She Wan, being widely read from a young age, had a profound understanding of the world’s situation and evil forces.

If it weren’t for She Wan’s exceptional skills, she wouldn’t have had a chance to join the Starwheel.

It was only natural for She Wan to know that the Evil Heart Sect, in order to increase their rate of success and spread terror, would accompany every mission with a Stitch Corpse Puppet, be it Mr. Grey or Mr. Red. This being made from the bodies of Guardian Beasts and the souls of powerful humans.

Stitched Corpse Puppets were much more difficult to make, and their combat capabilities were much stronger than Skin Puppets.

She Wan was not afraid of a Sequential Seven Stitch Corpse Puppet, because the power of She Wan’s Ghost System Beast was also at Sequential Seven.

What She Wan worried about was that both Mr. Gray and the Stitch Corpse Puppet would target Fang Mu.

While She Wan was confident that she could emerge victorious from the battle, she could not guarantee that Fang Mu would not get injured if violently targeted at the same time.

While contemplating, She Wan thought of a solution – to behave more arrogantly.

The more arrogant she appeared, the more hatred she would draw, and consequently, the safer Fang Mu would be.

She Wan said loudly.

“Most of those who join the Evil Heart Sect do so to enhance their power, and they’re not averse to accepting filthy things that don’t belong to them using human bodies.”

“It must be painful to have your body altered by pollution, no!?”

“But after all you’ve been through, your octopus beast just isn’t up to par.”

“My Silver Void Purple Spider stands on par with you at the seventh sequence, yet your octopus beast can only be toyed with by me.”

“You claim you lack resources to cultivate your beasts, so doesn’t it feel like a loss to join the Evil Heart Sect?”

“I may not have three sequence beasts, but my two are enough to kill you!”

As she spoke, a seal-like emblem emerged from She Wan’s spiritual power.

Searing energy pulsed from the seal.

[Mystic Seal: Sever] is a rare metal attribute seal.

There were two scratches on She Wan’s seal, which indicated it was a second grade mysterious chapter.

A second grade mysterious chapter requires three identical metal attributes combined with a different kind of metal attribute.

Although not equal to a first grade mysterious chapter, it was rare enough to be seen as a treasure.

The jade-like mysterious seal passed through the void and imprinted onto the Silver Void Purple Spider's back.

The overwhelming shadowy spider replicas spewed by the Silver Void Purple Spider were immediately infused with the same aura as [Mystic Seal: Sever].

Originally, thousands of spider phantoms slashing at the tentacles of the Withering Cold Tyrant Octopus merely injured it.

Yet, when thousands of spider phantoms descended on the Tyrant Octopus's tentacles at the same time, its tentacles were cut off directly.

With a soft thud, it fell among the swarm of demons.

Demons of the heavy artillery level or above possessed a certain level of spiritual intelligence.

The foot soldier-level demons, swept along by the Alien Beast Wave, had long become extremely brutal due to such a tense atmosphere.

Seeing fresh meat delivered right in front of them, these foot soldier-level demons started to bite.

They were quickly poisoned by the tentacle of the Withering Cold Tyrant Octopus and ended up as snacks for other, unaware demons.

Once the poison of the Tyrant Octopus enters a demon's body, it immediately blends with the flesh and couldn't be excreted even upon death.

Consequently, a large number of demons quickly fell victim.

The Blood Race Prince named Carlos who just appeared was awe-inspiring at fist.

Yet even cloaked in the blood armour of [Night Mind], the strongest ability of the blood series, he could not escape the fate of being sliced into pieces by innumerable shadowy spider replicas.

She Wan decided to focus on battling Mr. Gray, and hence she gave orders to the Silver Void Purple Spider hidden in the void.

“Spin your web, Silver Void Purple Spider!”

“Use the Forbidden Web to strangle and kill this Blood Race Prince!”

She Wan’s disdain to himself and mockery of his own beast incensed him.

Moreover, under her assault, the Tyrant Octopus lost three of its tentacles, the constructs of foundational essence.

Despite the strong regenerative ability of octopus beasts, without several years of time, it would be very difficult to regenerate the tentacles.

Restoring a sequence seven beast’s damaged essence requires great expense which is quite overwhelming.

Even for a beast master at sequence level, the demand for resources is not reduced but rather more urgent than when at lower levels.

Mr. Gray couldn’t bother about Carlos’ fate.

The Evil Heart Sect and the Blood Race had close cooperation, so the death of Carlos wouldn’t affect the relationship between the Evil Heart Sect and the Blood Race.

Mr. Gray's mental power exploded like a tsunami, a new beast and a mysterious seal appeared before him.

Chapter 344: She Wan's Ghost System Beast! _1

She Wan could tell from the Withering Cold Tyrant Octopus summoned by Mr. Gray, how much resources Mr. Gray controlled, so she wasn't worried that Mr. Gray would summon another Seventh Sequential Beastmaster.

But it would be a trouble if Mr. Gray summoned a Sixth Sequential Beastmaster.

She Wan noticed that Mr. Gray's gaze was always focused on Fang Mu, it wasn't hard for her to figure out what his intention was.

This meant that Mr. Gray had confirmed their relationships based on her reaction and prepared to use Fang Mu to restrain her.

However, now that she had seen the Beastmaster that Mr Gray summoned, the suspended heart of She Wan finally relaxed.

Mr. Gray did not hide his unpredictable hidden move.

A Sequential Eighth Tile Bone Stinger, apparently, he was more willing to devote his resources to it than to the Withering Cold Tyrant Octopus.

However, the beak spikes growing out of its arms were light brown, rather than the deep brown close to black.

This indicated that the Tile Bone Stinger had not a long time to eat higher-quality bones to increase the rigidity of its beak spikes.

In a power like the Evil Heart Sect, both the flesh and soul of humans and Beastmasters are quite common.

However, such common things could only be used by Mr. Red and other higher-ups.

As Mr. Gray had probably, put most of his high-quality bones into his ghost hacker.

Including Cui Ruochen, the four teachers were still resisting the Demon Tide through their Beastmasters.

However, due to the fact that the Silver Void Purple Spider was constantly separating spider shadows from its body and wiping them out within the Demon Tide.

Although the defense on all sides was still under great pressure, no students fell victim to the Demon Tide anymore.

The spider shadows that had swept into the Demon Tide were completely controlled by the Silver Void Purple Spider, which precisely prioritized the Terror-grade Demon.

It cleared out the strongest part of the Alien Beast Wave.

Otherwise, the defense on all sides would have been completely broken by the demons.

Everyone saw that the Silver Void Purple Spider had defeated the Withering Cold Tyrant Octopus and the Blood Race Prince by virtue of its powerful strength. Everyone thought that victory was near.

They had not expected that the opponent would summon another Sequential Beastmaster.

The Tile Bone Stinger, which looked to have a touch of its past bloodline, seemed even more ferocious and terrifying than the Withering Cold Tyrant Octopus.

The Tile Bone Stinger wore the name of a squid, but it didn't look long and thin like a squid.

To describe the Tile Bone Stinger, it was a mass of brown-black rotten flesh that could change shape at will and was covered with beak spikes.

Dozens of tentacles were nearly 300 meters long, spreading out like a sun-blocking net of spikes.

The two main tentacles were nearly 600 meters long. The smallest beak spike on the main tentacles could reach the length of an adult, which was definitely a deadly weapon!

In addition, the opponent had also summoned a Mysterious Chapter.

For most of the students, the difference between Mysterious Chapters couldn't be effectively distinguished in their minds.

Because this part of the knowledge is not in the high school textbooks.

When the knowledge acquired in school has not been completely mastered, hardly anyone will take the initiative to learn extra knowledge like Fang Mu.

Fang Mu could clearly feel the atmosphere including Cui Ruochen and everyone else's being let down for a moment.

Lu Kai, the contractor of the Loose Treasure Gold Toad, was in the Martial Arts Arena, fighting his enemies with his other Sequential Beastmaster.

There were fourteen resident instructors in the Martial Arts Arena besides Lu Kai, the headmaster.

These resident instructors were much stronger in combat than the school's teachers.

As a result, the Martial Arts Arena was not under much pressure.

However, Lu Kai's brows were tightly furrowed.

There is a huge difference between Mysterious Chapters. This Mr. Gray's is a Fourth Grade Mysterious Chapter, which has almost twice the enhancement for Beast Masters as a Second Grade Mysterious Chapter.

But Mr. Gray also has a ghost-level hacker with a strength similar to that of the Seventh Sequential.

She Wan has a Seventh Sequential Beastmaster. Silver Void Purple Spider showed its ability to hide in the void for two thirds of the time from its shape-changing.

This was enough to show that the Silver Void Purple Spider had always been using very high-quality Creator resources.

She Wan came here specifically to protect the young man next to her.

Such a powerful figure from a major power may not be willing to risk her life for Jinghai High School for Beast Masters.

If She Wan wanted to take the young man away, Mr. Gray was unlikely to stop her.

The fact that Mr. Gray revealed all his strength was not without the intention of intimidating this female Sequential powerhouse and letting her leave.

Otherwise, he would not have summoned the Tile Bone Stinger and then failed to amplify it with this Water attribute Mysterious Chapter.

He preserved the Blood Race Prince who was being attacked by the Silver Void Purple Spider.

The body of the Silver Void Purple Spider disappeared from the void, with its purple-patterned abdomen raised high.

In an instant, a silver-purple liquid sprayed out of the abdomen of the Silver Void Purple Spider.

This liquid, using space as a fulcrum, formed a large net.

Carlos, who was forced to retreat, barely holding back the Silver Void Purple Spider, got stuck in this big net.

Carlos struggled violently, finding that his body, which he had always been proud of, had no power to break free from the spider silk.

In his current body the spider silk was not much. Carlos tried to burn his essence blood with blood magic and cast [Night Mind][Bat Swarm Visit].

Dark red blood bats flew out of Carlos' body.

The flying blood bats collided with the spider silk that bound his body, each bat shadow carrying strong force.

This was Carlos's attempt to redeem himself at this blow.

However, it was this blow that caused the soft spider silk to stretch out when it was hit and stick together with the other spider silk.

Chapter 345: She Wan's Ghost System Beast! _2

These silk threads managed to wrap Carlos tightly.

Standing on the web, the Silver Void Purple Spider cleared off the powerful demons in the Demon Tide using its spider shadows while transforming these shadows into physical entities.

It then began to pull up a fine net on the large frame of the spider web.

Soon, the struggling Carlos was enwrapped into a cocoon.

The silk threads continuously hardened in the air, Carlos's violent struggles inside made the net unable to change shape anymore.

And each struggle would make the net tighter, all of these completed in a flash.

The Silver Void Purple Spider casting the skill [Net Binding Kill] leaned on the cocoon that wrapped around Blood Clan Prince Carlos and extended a stinger that was hidden in its oral apparatus directly towards Carlos's brain.

She Wan knew that Fang Mu had always been collecting the hearts of the high-level Blood Tribe, so she intentionally left Carlos's entire body during the battle.

Otherwise, in face of Carlos, who is two levels weaker than her, there was no need for the Silver Void Purple Spider to intentionally use skills to kill Carlos.

Mr. Gray watched all this.

The stronger the Beast Master, the better they are at profiting themselves.

Mr. Gray thought he gave face to this female powerhouse from the sequence type, this female powerhouse would mostly likely take the person he wanted to save and leave here.

But he didn't expect that this female powerhouse would insult him again after dealing with Carlos.

"The Evil Heart Sect is really regressing, even bestowing the title of Mr. Gray to a person who only comprehends the Fourth Grade Mysterious Chapter."

"You should be a rank six in the Grey Fog Squad, right!?"

“If I were you, having comprehended four different water attribute mysterious patterns, I would prefer to use them separately, rather than synthesize them into a piece of garbage.”

Mr. Gray, who was insulted by She Wan again, felt as if he had been fooled.

That Mr. Gray made the assumption that She Wan was about to leave was largely because She Wan’s actions were filled with implications.

Otherwise, when he summoned the Tile Bone Stinger, She Wan should have pursued the Withering Cold Tyrant Octopus instead of turning her head to deal with Carlos.

The anger of being humiliated and fooled made Mr. Gray throw the huge coffin towards She Wan.

The grey-yellow cloth on the coffin that was flying rapidly was continuously tearing apart, the sound coming from the coffin was getting louder and louder.

She Wan looked delighted when she saw this.

“I was waiting for you to release the Stitched Corpse Shock!”

While she was talking, an immense grey-green Ghost Flame ascended from She Wan’s body, the ghost flame even reflected the sky near the tiny chapel to a ghastly grey-green color.

A burly man holding a giant axe appeared before She Wan.

This man’s body was about fifteen meters tall, his musculature more solid than the fitness champions Fang Mu saw in his previous life.

There was a shiny silver ring on the two noses of the burly man, the nose ring was connected to a rein.

He wore the prisoner chains and handcuffs that only prisoners would wear on his limbs.

A character for “slave” was carved on the third eye on the man’s forehead with ghost patterns.

After contracting with Yan Yubanruo, Fang Mu had a deep understanding of the ghost patterns.

The “slave” ghost pattern had some special lines, this type of ghost pattern indicated that this fifteen-meter-tall man was actually a mount, similar to the Ghost Fish Princess’s ghost servant.

This man’s hair was like a chicken coop, such a hairstyle did not match the man.

But it was the most comfortable to sit on such a hairstyle.

A boy who was holding a bizarre doll was solemnly looking at the Stitched Corpse Shock climbing out of the coffin.

Then, under She Wan’s command, the boy turned the doll in his hand into his own appearance and put it on the man’s head.

Then he clasped his hands together, hugging his head and shouted.

“Soul Exchange!”

Immediately after, the boy’s physical body turned into a shadow, entering the Stitched Corpse Shock’s body.

The Stitched Corpse Shock, whose body was patched up from various Beast corpses, started to dance wildly.

Moments later, a shadow drilled out from the Stitched Corpse Shock’s body and was directly sealed in the doll on the man’s head, which had been turned into the appearance of the boy.

The originally boy-looking doll instantly changed after the soul entered its body, turning into an old man with a rich appearance.

At that moment, the burly man sensed the change in the aura above his head, as if a father who lost his child, crazily swung his giant axe.

Launching an attack on the already heavily injured Withering Cold Tyrant Octopus.

Ghost System Beasts were very rare, and the people who could contract Ghost System Beasts were even fewer.

The Ghost Flame that's currently being ignited let everyone know, the Beast that She Wan just summoned is an authentic Ghost System Beast.

Only, everyone was having a hard time understanding what exactly happened right now.

Why did that perfectly fine Stitched Corpse Shock go crazy?

Fang Mu subconsciously probed She Wan's Ghost System Beast using the Eye of Omniscience.

Although with the current rank of the Eye of Omniscience, he couldn't probe the skills and true attributes of the Sequential Beast, Fang Mu could see what She Wan's Ghost System Beast was actually called.

Soulswap Mantong!

Judging by the name and the situation just now, Fang Mu guessed that Soulswap Mantong can swap bodies with living beings whose Soul Power is weaker than its own.

Then use a special method to imprison the other's soul in a doll that has no abilities.

The mount underneath her, that is the fifteen-meter-tall man, would enter a state of frenzy once it lost its senses of Soulswap Mantong.

And attack according to the instructions given by Soulswap Mantong.

Mr. Gray stood stiffly in midair with an ugly expression.

There was a rule in the Evil Heart Sect, that is all the members of the Grey Fog Squad must prioritize the power of Stitched Corpse Shock.

Chapter 346: She Wan's Ghost System Beast! _3

Fang Mu can only begin to strengthen his other Guardian Beasts once Mr. Gray, his soul-possessed refugee, was nurtured alongside his most powerful Guardian Beast to be on par with each other.

Mr. Gray was the first to be contracted by the Withering Cold Tyrant Octopus when he was weak, there was no high-quality resources to cultivate the Withering Cold Tyrant Octopus at that time.

Later, he finally made a pact with a Guardian Beast possessing ancient blood, but due to the restrictions of The Evil Heart Sect, he had to slow down the promotion of Tile Bone Stinger and start to promote the soul-possessed refugee given to him.

Now, the soul-possessed refugee he diligently cultivated has become a weapon for his enemies to use against him.

The enemy currently has the power of three Sequential Sevens and also possesses a 2nd Grade Mysterious Chapter.

Fang Mu only has an injured Sequential Seven Beast, a Sequential Eight Beast, along with a Fourth-Class Medal. There's absolutely no chance of challenging them in combat.

However, in the battlefield, there's no time to give Mr. Gray many considerations. The huge axe has already brutally swung towards the head of the Withering Cold Tyrant Octopus.

Mr. Gray was amplifying Tile Bone Stinger with [Mysterious Chapter: Whirl] while letting the Withering Cold Tyrant Octopus use its perfect tentacles for defense.

As an octopus Guardian Beast, its biggest advantage is its extremely strong recovery ability.

Regeneration after limb disconnection is something the Withering Cold Tyrant Octopus could achieve.

It used a basic operation of sacrificing a tentacle to defend against an attack.

However, just then, an unexpected event happened again.

The doll shaped like a chubby old man floating above the muscular man's head had been struggling and shouting all along.

It seemed to want to break free from its binding and return to its original body.

But the strength of this doll's soul-binding could not be broken free by a soul that had been violated and refined countless times.

Like Fang Mu's soul-possessed refugee, a war weapon made by humans, its weakness lies in the strength of its soul.

She Wan's Ghost System Beast, Soulswap Mantong, just perfectly counteracts these war weapons made out of flesh and blood.

Under the command of Soulswap Mantong, a force appeared inside the doll.

The struggling remnants of the old man's soul were forcefully pushed towards the Withering Cold Tyrant Octopus.

The residual soul of the old man, subconsciously, took the body of the Withering Cold Tyrant Octopus as its own vessel and burrowed in.

It began a fierce struggle over possession with the Withering Cold Tyrant Octopus's soul.

The soul, which had been imprisoned in the doll, had been damaged by the ghost flame.

Although the resources used by the Creator for the Withering Cold Tyrant Octopus were not excellent, it did not prevent it from possessing a complete soul.

The residual soul of the old man was not enough to suppress the soul of the Withering Cold Tyrant Octopus.

However, in the ever-changing battle, any small mistakes or lapses in concentration can lead you to a point of no return.

It was at that moment when the Withering Cold Tyrant Octopus was invaded by the old man's soul and was stunned.

The huge axe in the man's hand followed closely, dozens of slashes fell unobstructed on the head of the Withering Cold Tyrant Octopus.

Every strand of muscle on the man was like a taut bowstring on the verge of breaking.

The interaction of the muscles allowed the muscular man's power to reach its peak with each stroke of his axe.

The huge axe in the muscular man's hand looked ordinary, but it was actually made from various metals and minerals forged in ghost flames.

Each notch has extremely sharp planes, these planes let the axe blade successfully cut the inner membranes of the target's body after penetrating it, creating a bone-shattering effect with each strike.

The axe in the muscular man's hand was half the size of his body, the close to ten-meter blade hacking down on the head of the Withering Cold Tyrant Octopus was like a mountain top dagger pressing down.

Without any suspense, the head of the Withering Cold Tyrant Octopus was smashed into a pulp.

Under the incessant burning of the Ghost Flame, the well-developed nerves of the Withering Cold Tyrant Octopus were eradicated.

The Withering Cold Tyrant Octopus lost all signs of life.

At the same time, the page in Mr. Gray's Destiny Guidebook, which was bound to the Withering Cold Tyrant Octopus, shattered.

With the death of his Guardian Beast, the mental blow caused Mr. Gray to lose his ability to float as a Hexagram Beastmaster.

He fell onto the Tile Bone Stinger, clutching his head in his hands.

At this time, She Wan was not idly standing by. She had the Silver Void Purple Spider, which had just taken care of Blood Clan Prince Carlos, quickly weave its web.

It wrapped up the massive body of the Withering Cold Tyrant Octopus in the giant web, turning it into a huge cocoon.

She Wan did this partly to prevent Mr. Gray from using any means to control the corpse.

Over the years, the relationship between the Evil Heart Sect and the Eternal Alchemy Association has grown increasingly close. Their ability to use corpses, influenced by the Eternal Alchemy Association, has grown stronger.

She Wan disliked dealing with uncertainties, so she chose to preemptively counter Mr. Gray's potential moves.

On the other hand, the carcass of a seventh-ranked Guardian Beast was an extremely precious resource. She Wan was sure to help Fang Mu save such resources and give them to him after the battle was over.

As a personal bodyguard, any spoils of war obtained while accompanying her master belong to the master.

If she didn't preserve these carcasses, they would likely end up in the hands of those who would clean up after the battlefield.

After all, those who cleaned up the battlefield wouldn't know who was responsible for killing these sequential Guardian Beasts.

Fang Mu never worried about the situation on the battlefield.

The only person Fang Mu could rely on for now was She Wan.

If She Wan couldn't defeat the enemy, Fang Mu would have to use the exclusive feature of his Destiny Guardian Beast's "Blood of Abundance", [Ash-Dyed End], to make a judgement.

The soul in Fang Mu's two Sequential Spiritual Instruments had depleted their energy and couldn't activate their protective functions in a short time.

In the absence of any other options, Fang Mu chose to do everything in his power to deal with his business.

Since being activated, Eden Dreamland had never stopped.

The Ling Poison Dark Lotus and the Poison Dart Frog were absorbing the toxins, preventing the students within the Eden Dreamland from being affected by the toxins of the exotic beasts.

Although Fang Mu and the energy of Eden Dreamland were drained, he was still using the skill [Fantasy Shadow] to heal the injured Guardian Beasts.

Fang Mu crouched down and gently placed He Deen, who had suffered a mental blow and was in a daze with weepy eyes, on the ground from under the Electric Light Shield Armor.

Fang Mu fed He Deen several elixirs specifically saved for healing mental power from his own hand.

Fang Mu felt very guilty for He Deen.

If He Deen had not been invited by him to stay here to protect the small chapel together, the three Guardian Beasts he contracted might not have died.

She Wan had noticed He Deen a long time ago.

However, seeing He Deen, who had lost all three of his guardian beasts and whose life work was destroyed in an instant, she did not feel any sympathy.

On the contrary, She Wan was somewhat envious of He Deen.

Having survived this disaster and received Fang Mu's guilt and regret, the old fellow He Deen's path had indeed broadened greatly!

Chapter 347: Born to be a Dragon! _1

All of He Deen's three Guardian Beasts had been completely drained of their blood by Blood Clan Prince Carlos.

They felt like jerky next to Fang Mu.

She Wan can judge what He Deen's Guardian Beasts were by the three bodies that looked like jerky.

To nurture two Guardian Beasts of Phoenix Breed Bloodline to Legendary Quality at Diamond Level Ten requires a lot of effort from a Senior Creator.

But for a Grandmaster Creator, it's nothing at all.

If He Deen would ask to stay by Fang Mu's side after he regains consciousness, Fang Mu certainly wouldn't refuse him.

A typical Beast Master would need at least several decades to recover from the death of his three Guardian Beasts, but Creators have ways to rapidly heal damaged spiritual power with the help of elixirs.

If He Deen were to concoct his own elixirs, he would be able to recover in around eight to nine years without worrying about the consumption of spirit materials.

If Fang Mu were to plead with the Grandmaster Creator backing him, to concoct the currently most effective "Condensing Mirror Elixir" for healing damaged spiritual power.

After consuming three bottles of the elixir and nurturing for a month, He Deen would be able to form contracts with Guardian Beasts again.

Fang Mu, who has been generous in investing resources in himself and Yin Nanzhen, would certainly be even more generous towards He Deen who has sacrificed himself for Fang Mu.

Of course, losing a Guardian Beast is something that no Beast Master can easily accept.

Guardian Beasts are profoundly bonded partners and intimate family members for Beast Masters.

Many powerful Beast Masters have not switched their first Guardian Beast with another one through special methods because they are tied down by emotions.

Although Beast Masters cannot deliberately harm their Guardian Beasts, it's easy to give wrong commands that would lead to the sacrifice of the Guardian Beasts in a battle in the wild.

Cui Ruochen watched Fang Mu continuously feeding valuable Spirit-type Spirit Materials and elixirs into He Deen's mouth, her mind in turmoil.

When those three blood bats flew towards Fang Mu, she unconsciously wanted to order her Electric Light Shield Armor, which had just been pierced by the Horned Demon, to block them for Fang Mu.

But her Electric Light Shield Armor wasn't as quick as He Deen's three Guardian Beasts.

Even without He Deen's intervention, her Electric Light Shield Armor would not have been able to catch up with the speed of the three blood bats.

The illusions of the three blood bats would have hit Fang Mu first.

Over the past years, Cui Ruochen had put her heart into Fang Mu.

Having no privileged background, Cui Ruochen made it to where she is today completely by her own hard work.

As a teacher, Cui Ruochen has devotedly completed her teaching tasks.

In such a crisis, Cui Ruochen would step forward to protect students, not hesitating to swallow her pride and lose face in asking He Deen for help.

But all this was just Cui Ruochen carrying out a teacher's responsibility.

In fact, Cui Ruochen didn't have much emotional attachment to the students she had taught before.

Because she always felt that those students were not dedicated enough and wasted a few precious years of their lives.

Actually, when Cui Ruochen was a high school student, she didn't quite realize the importance of hard work. It was in college where she started to strive forward industriously.

Fang Mu's arrival made Cui Ruochen see her ideal self and Fang Mu's hard work and talent in academic research moved Cui Ruochen.

That's why Cui Ruochen would exceed a teacher's duty and do academic research with Fang Mu for the second semester of his first year.

Her willingness to take risks and bear costs to protect Fang Mu was due to feelings.

But why would a self-centered person like He Deen make the same choice?

From the moment He Deen agreed to help guard the chapel, Cui Ruochen was certain that Fang Mu's identity was not simple.

She Wan's subsequent appearance confirmed this.

As She Wan gained an upper hand in the battle, all the demons near the chapel were cleared away by the multitude of spider shadows separated from the body of the Silver Void Purple Spider.

Cui Ruochen put away her Electric Light Shield Armor and Flint Ladybug, both of which were already heavily damaged, and squatted down to speak to Fang Mu.

“You don’t need to feed him any more elixirs and spirit materials. You’ve already given him enough.”

“If I’m not mistaken, the elixir you just fed him should be a master-level Essence Source Elixir.”

“In about ten minutes, Mr. He should wake up.”

Upon hearing this, Fang Mu nodded and looked into the distance.

He saw that out of the more than one thousand students who were hiding in the spacious chapel, only five or six hundred were still standing.

Many students kneeled or lay on the ground, severely injured, and some had even been devoured by the demons.

Since coming to the Beastmaster world, Fang Mu was experiencing the harsh reality of the Beastmaster world for the first time.

Two thoughts occurred to Fang Mu.

The first was that after this crisis, he would apply to the school to go out for experience as soon as possible.

He could also read and learn knowledge during overseas experiences.

With Fang Mu’s status in the Scavengers, even the Solid Poison Soft Gold could be obtained, let alone exchanging electronic books with Feng Lin.

The second thought was that Fang Mu must strengthen his means of self-defense.

There are internal and external means of self-defense.

The external one is to find a Six-Polar Star powerhouse with a Sequential Guardian Beast like She Wan, to act as his guard.

The internal one is to acquire Sequential Spiritual Instruments like the Forest Resentment Bell and Purple Ice Crystal Ring.

Once Fang Mu formed a Marrow Pact with a high tier Sequential Spiritual Instrument, it would be equivalent to having a Sequential powerhouse protecting him at all times.

Undoubtedly, internal means of self-defense are more reliable than external ones.

Fang Mu figured he could try asking the other official members of Starwheel in the next Starwheel meeting whether they had high Sequential Spiritual Instruments to exchange with him for his Creator resources.

Chapter 348: Born to be a Dragon! _2

The internal space of the Purple Ice Crystal Ring was large enough, and Fang Mu liked to hoard various daily necessities in it.

He had stored many hemostatic potions and spiritual materials, all of which were neatly packed into boxes.

Fang Mu summoned these boxes from the Purple Ice Crystal Ring and spoke to Cui Ruochen.

“Teacher Cui, please help distribute these items for treating wounds and stopping bleeding!”

“These things should be able to save more lives.”

“When Mr. He wakes up later, have him wait for me here. I have something to discuss with him.”

After speaking to Cui Ruochen, Fang Mu turned to Hu Tao.

“Hu Tao, help Teacher Cui.”

“I’m going to deal with the other areas contaminated by the Devil’s Blood, to prevent students and Guardian Beasts from being poisoned.”

Fang Mu took out several Energy Refill Huanglian Fruits.

The Energy Refill Huanglian Fruit is the best spiritual material for a Beast Master to recover energy.

However, the Energy Refill Huanglian Fruit is incredibly bitter, like swallowing needles.

Since the small auditorium was destroyed, Fang Mu had been consuming Energy Refill Huanglian Fruit, doing everything possible without stopping.

These people in the small auditorium who can still be alive, all owe their survival to Fang Mu.

Fang Mu once withstood Prince Carlos’s attack with two Sequential Spiritual Instruments, to create a delay and draw out Mr. Gray from his hideout.

Now, with the guard of Fang Mu, the situation was controlled.

Without Fang Mu in the small auditorium, there wouldn’t be a Sequential expert coming for its rescue.

Fang Mu drew out Mr. Gray, although it increased the difficulty for this female Sequential powerhouse to rescue the small auditorium.

Fortunately, Fang Mu induced the Beast Spirits in the two Sequential Spiritual Instruments to protect the owner, which lured out Mr. Gray.

If this female Sequential powerhouse had appeared first, Mr. Gray hidden in the dark would definitely choose to flee.

With a Seventh Sequential Withering Cold Tyrant Octopus, an Eighth Sequential Tile Bone Stinger, and a Fourth Grade Mysterious Chapter, or a beast comparable to the Seventh Sequential Beast, these librarians, grand auditorium, or bishops are no match for Mr. Gray.

Every province in Dragon Rising Federation has its own key high school.

Purple Que School Palace has already reached its limit by arranging three to five Sequential powerhouses in a key high school.

The Evil Heart Sect must be aware of this and thus dispatched a member of the Grey Fog Squad to pressure the opposition.

In a large view, Fang Mu saved the entire Jinghai Beastmaster High School.

At this time, this little hero of Jinghai Beastmaster High School was eating the unbearably bitter Energy Refill Huanglian Fruit, struggling as hard as possible to rely on his Wood System Beast to clean up the toxins in the soil around him.

Despite totally exhausted and being pale, he was still gritting his teeth and persisting.

Many students who had always disagreed with Fang Mu could see the light emanating from his dust-covered body at this moment.

The Dragon Soaring Federation has always been lauding the spirit of being born a dragon, and many students didn't understand what it meant to be born a dragon.

The dragon is a tangible and visible precious Guardian Beast, and something too concrete is difficult to be emblemized.

But now, many students seem to understand the real meaning of being born a dragon while looking at Fang Mu.

Being born a dragon does not refer to your birth, knowledge, or demeanor, but to an intangible spirit.

The only goal of She Wan is to protect Fang Mu.

In these few seconds when Mr. Gray was vulnerable due to spiritual damage and blurred consciousness.

She Wan commanded the Silver Void Purple Spider, which was enhanced by Mysterious Chapter, the burly man ridden by the Soulswap Mantong, and the Host Chewing Guest controlled by the Soulswap Mantong.

They launched a fierce attack on the Eighth Sequential Tile Bone Stinger.

Tile Bone Stinger possesses the Bloodline of ancient times, making it an exceptional existence among Eighth Sequential Beasts.

Its extremely proficient physical attack tentacles would release a specialty toxin that could corrode bones once embedded into the body of a target.

This toxin made Tile Bone Stinger infamous.

However, being outnumbered and oppressed by rank made it difficult for Tile Bone Stinger to effectively defend against the broad axe's hack.

The Host Chewing Guest's entire body was full of proficient attack weapons.

The Host Chewing Guest was not afraid of physical attacks at all. The bones in its body were built with high-level Metal Spiritual Material.

Under normal circumstances, beasts with tentacles, such as octopuses or squids, prefer to use the “Embrace Kill” strategy.

The Host Chewing Guest was good at welcoming with open arms, hugging the Tile Bone Stinger tightly.

The sounds of a large amount of flesh being torn off could be heard from where they were touching.

The Host Chewing Guest offered no resistance, instead, it eagerly embraced the Tile Bone Stinger with those weird arms from unknown beasts on its body.

These arms tore open the skin of the Tile Bone Stinger and burrowed directly into its body.

Seeing this, She Wan ordered the Host Chewing Guest controlled by the Soulswap Mantong to stop.

The carcass of a Sequential Beast definitely increases in value the more intact it is, what value would it have if it was torn into bits?

“Soulswap Mantong, use the Spirit Rule Charm to abandon the body of the Host Chewing Guest.”

“Silver Void Purple Spider, perform another Forbidden Web Slaying!”

Upon hearing She Wan’s instruction, the Soulswap Mantong reluctantly abandoned the Host Chewing Guest, its large toy.

However, the Soulswap Mantong didn’t leave the body of the Host Chewing Guest with the Tile Bone Stinger, but it activated the hidden kill-move of this Host Chewing Guest.

Chapter 349: Born to be a Dragon! _3

A gigantic worm suddenly burst forth from the belly of the Sewn Body Nightmare, forcefully catapulting the Tile Bone Stinger towards the sky.

If She Wan had not given orders to keep the body of Tile Bone Stinger intact, the worm would not have merely knocked it into the sky, but rather drilled into its body to feast upon it.

Next, the Soulswap Mantong directed its host, the Sewn Body Nightmare, to leap onto the spider web woven by the Silver Void Purple Spider. This was done to ensure that after its departure from its host body, the Sewn Body Nightmare would become She Wan's spoils of war.

And it could not be manipulated by Mr. Gray using any means.

The Soulswap Mantong, returning as a shadow, hovered above the grown man's head. It grasped the puppet in its hand and began chanting at it.

The chant felt as if it contained certain ironclad laws that were very hard to resist.

Under the chant of the Soulswap Mantong, the puppet transformed into a malicious mask that then flew towards the Tile Bone Stinger.

The malicious mask fastened itself onto the damaged body of Tile Bone Stinger.

The Tile Bone Stinger, which was in the midst of expending its life energy to mend its bodily injuries, found a similar shadowy mask forming on its soul.

The phantom mask on its soul began reiterating the chant of the Soulswap Mantong.

One chain after another locked itself around the soul of Tile Bone Stinger.

Mr. Gray, having forcibly recovered from his mental shock, discovered he was incapable of issuing any command to Tile Bone Stinger.

Tile Bone Stinger could now only engage in battle according to its own instincts.

Since its soul had been sealed, the Fourth Grade Mysterious Chapter that Mr. Gray had fathomed detached itself from the body of Tile Bone Stinger.

This mysterious spectacle greatly perturbed Lu Kai, who was monitoring the situation through the Loose Treasure Gold Toad.

Although he found the Soulswap Mantong's abilities to be eerie, Lu Kai didn't consider it very formidable previously.

If the target of control had been a Guardian Beast of the seventh sequential level rather than the Sewn Body Nightmare, the Soulswap Mantong might find it difficult to gain genuine control.

Fortunately, the Soulswap Mantong had a mount with formidable close-combat abilities.

Otherwise, against a foe with a strong soul, the Soulswap Mantong might become a burden for She Wan.

Now, Lu Kai had completely changed his initial opinion.

This Ghost System Beast had seemingly disabled the Beast Master from amplifying their Guardian Beast via Mysterious Chapters.

In the world of Beast Masters, Beast Masters and their Guardian Beasts complemented each other.

To become an apex power, one needed to fathom Runes and Mysterious Chapters and have a Contract Beast with great natural talent and invest a lot into nurturing their Guardian Beast.

Sealing the amplification a Beast Master could bestow upon their Guardian Beast via Mysterious Chapters was equivalent to stripping the Guardian Beast of its armor.

It rendered the Beast Master useless.

Truthfully speaking, if one Guardian Beast was sealed, the Mysterious Chapter could be bestowed upon another Guardian Beast.

However, for most Beast Masters, a single Mysterious Chapter typically corresponds to a specific Guardian Beast.

This not only allowed the Guardian Beast to perfectly harmonize with the abilities of the Mysterious Chapter, but it also saved quite a bit of resources.

If She Wan knew of Lu Kai's astonishment, she would undoubtedly scoff at his surprise over such a common matter.

The exclusive characteristic of her Soulswap Mantong, 'Cursed Spirit Decree', could not only strip the Beast Master's spells and runes' amplification over the Guardian Beast. More importantly, it could sever the communication between the Beast Master and their Guardian Beast.

Not only the Beast Master would be panicked without communication with their Guardian Beast, but the Guardian Beast itself would also be bewildered.

It's quite likely the Guardian Beast's spontaneous attacks and defenses would disrupt the Beast Master's strategic layout for the current battle.

She Wan has always been a perfectionist in everything she does, exhibiting serious signs of Obsessive-Compulsive Disorder.

She Wan had always been unhappy about her Contract Beast being a Destruction Level Ghost System Beast instead of a Catastrophe Class Ghost System Beast.

Fortunately, the powerful functionality of the Soulswap Mantong appeased this concern for She Wan.

The Silver Void Purple Spider once again shot out the stinging needle hidden in its mouthparts at the Tile Bone Stinger caught in its web, ending the life of a soft-bodied Guardian Beast.

Now only one Mr. Grey remained, becoming a complete figurehead.

She Wan sneered at Mr. Grey.

“When you said you liked killing young elite humans, did you ever think that today it would be you who dies!?”

“You wanted to refine humans into containers for skin crawlers? Just as well, your skin crawler loses its soul, let’s enclose your soul in the skin crawler!”

After saying this, She Wan mercilessly moved to kill Mr. Grey, showing no intention of leaving any survivors.

The Evil Heart Sect’s conspiracy targeted the entire JA city, with Dimensional Rifts opening above almost all important facilities.

Jinghai’s Beastmaster High School had a Mr. Grey leading the way, the people holding the line at Jinghai Tianyu University and Cleaner Division could only be stronger, not weaker.

Even the appearance of a Mr. Red is not impossible.

Leaving behind this little follower was utterly pointless.

After dealing with all of this, She Wan spoke to the Loose Treasure Gold Toad that could only help by the side.

“I will have the Silver Void Purple Spider relieve your predicament, you can go to other places to kill the powerful of the Evil Heart Sect.”

Hearing She Wan's words, Lu Kai looked at She Wan's Ghost System Beast and did not press for more.

Although the Evil Heart Sect's Sequential strongmen and High-level Blood Tribe had been cleared out in the small chapel.

That does not mean that other Sequential strongmen and high-ranking exotic beasts would not come rushing over upon discovering abnormalities here.

She Wan was clearly Fang Mu's guard and would prioritize his safety.

At this point, it would be ungrateful to press further, and could potentially even risk causing She Wan's distaste.

"Thank you for your generous help! Regardless of whether it's our Jinghai Beastmaster High School or Purple Que School Palace, we will thank you!"

She Wan casually waved off the words with a shrug of her hand.

She simply was not interested in the gratitude of Jinghai's Beastmaster High School.

Purple Que School Palace, as one of the eight official organizations, will surely be generous with their thanks to her.

But no matter how generous the thanks of the Purple Que School Palace is, it could not compare to the casual reward of a Grandmaster Disciple.

At this moment, She Wan didn't want to expose her relationship with Fang Mu, she simply started cleaning up the battlefield and helping Fang Mu count his gains.

Fang Mu has finally cleansed the land beneath him of poisons with the use of Eden Dreamland.

Fang Mu, whose energy had been overdrawn, took the water jug Hu Tao handed to him and drank a few sips, then heavily sat next to He Deen.

By this point, He Deen had already woken up.

In addition to the bitterness in his mouth like needles, Fang Mu was also experiencing an unbearable, constant hunger due to his energy depletion.

Fang Mu couldn't care less, he began to eat the two pies that Hu Tao had handed him in the morning.

The pregnant female teacher weakly made her way to Fang Mu's side with the help of a student and spoke to him.

"I have an Ingenious Round Tent, my Ingenious Round Tent happens to have a Recover Energy effect."

"You have the most depletion, let me start by recovering you!"

Chapter 350: The Useful Electronic Butterfly! _1

Fang Mu is not one to be overly emotional. If it were merely a depletion of energy, Fang Mu would not need the help of a Mechanical Beast like Ingenious Round Tent to recover.

However, Fang Mu is currently extremely hungry, being that eating several dozens of nutrient meals too conspicuous in front of everyone.

His possession of two Sequential Spiritual Instruments can be explained.

But consuming dozens of nutrient meals is, on any level, highly unusual.

Fang Mu won't expose this peculiar side of himself unreservedly in front of everyone.

This female teacher has never taught Fang Mu, but he has seen her several times in the library and knows her name.

"Teacher Wu, would you please summon the Ingenious Round Tent?"

"I just need to stay in it for half an hour before giving it up for someone else."

Upon hearing Fang Mu's words, Wu Xiuxia modestly replied.

"I have only made a contract with my Ingenious Round Tent less than a month ago, and haven't had much time to train it."

"It's currently at the eighth level of the bronze grade."

"Otherwise, I would have summoned it during the previous battle."

"You'll need at least half an hour in the Ingenious Round Tent to recover your energy."

While they were conversing, a round tent covering three square meters appeared in front of Fang Mu.

The tent exhibited a distinctive Mechanical Beast design, with numerous gears tastefully arranged on it.

These gears were rapidly rotating.

The Mechanical Heart of the Ingenious Round Tent was clearly located at the top of the tent, and the gears always converged there after a period of rotation.

This is the characteristic “Gathering Heart” behavior of Mechanical Beasts.

To explain it simply, the Mechanical Heart would often recharge the rotating gears, maintaining the power source of the Ingenious Round Tent – a Mechanical Beast.

Wu Xiuxia felt extremely embarrassed about all this.

Mechanical Beasts don’t select Contractors; any Beast Master capable of harmonizing with any Guardian Beast species can make a contract with a Mechanical Beast.

The Ingenious Round Tent was a gift given to Wu Xiuxia by her mother-in-law during her childbirth.

Wu Xiuxia, being a support-type Beast Master herself, found the Ingenious Round Tent especially beneficial, as it could help Beast Masters and Guardian Beasts within it to recover energy.

Among all support-type Guardian Beasts, Ingenious Round Tent is undoubtedly first-class.

Wu Xiuxia somewhat regretted contracting with the Ingenious Round Tent because nurturing it requires the consumption of a great amount of Metal Spiritual Material.

Moreover, to ensure the promotion of the Ingenious Round Tent, it is best to feed it fragments of spiritual instruments.

Wu Xiuxia found it hard to afford this highly valued spiritual material, and she still had two other Guardian Beasts to cultivate other than this Ingenious Round Tent.

Thus, Wu Xiuxia could not spare the resources to upgrade the Ingenious Round Tent.

Fang Mu shook his head after hearing Wu Xiuxia’s words.

“Half an hour will be enough.”

Fang Mu's aim in getting into the Ingenious Round Tent was not to recover energy but to eat.

Given Fang Mu's current level of hunger and his long-developed speed of eating, half an hour would be enough for him to finish more than thirty nutrient meals.

After finishing the nutrient meals, Fang Mu wanted to have a serious conversation with He Deen.

Since he ruined He Deen's future because of his own actions, it was necessary for him to compensate He Deen.

If He Deen was willing, Fang Mu wanted to recruit him.

He Deen had already shown his goodwill towards Fang Mu several times through Lu Xiaoyin.

Bearing Fang Mu's understanding of He Deen in mind, He Deen always wanted to affiliate himself with Fang Mu before his three Guardian Beasts died.

The reason He Deen wanted to join Fang Mu was that he had a Grandmaster Creator supporting him.

However, Qixing is a character Fang Mu fabricated; the Grandmaster Creator behind him could never help He Deen personally.

Yet, Fang Mu could provide the top-notch Creator resources for He Deen to become a strong player.

As for whether He Deen could become a Master Creator or not, that would depend on his own talent and comprehension.

Fang Mu had heard from Yi Han that when the latter managed to go from the peak of Master Creator to become a Grandmaster Creator, it was not due to Sect Master Xiao Xiang's imparting him with knowledge.

Instead, it was Yi Han's self-realization of the Grandmaster Creator's mystery through studying the elixir concocted by Xiao Xiang.

The Yi Family used to have a great relationship with the Creator's Guild; however, currently, their relationship with the Creator's Guild is becoming increasingly distant.

The reason for this change is not that Yi Han is forgetful but because Xiao Xiang kept publicizing that he had helped Yi Han.

It gave an impression that he was trying to build a reputation of being Yi Han's teacher.

This annoyed Yi Han greatly.

Xiao Xiang didn't actually provide much guidance on the path of becoming a Creator.

If Xiao Xiang had fulfilled his duty as a teacher and taught a lot, Yi Han would not hesitate to admit to these even after becoming a Grandmaster Creator.

But now Xiao Xiang wants to leverage Yi Han to elevate his own status, not only suppressing Yi Han's reputation but also making the entire Yi Family seem like an attachment of the Creator's Guild.

This matter had been causing a stir within Dragon Rising Federation; Fang Mu heard about it from Fang Yuan before going to Chang Le Pavilion with Yi Han.

As for the dispute between the Yi Family and the Creator's Guild, Fang Mu didn't have any plan to get involved.

After following Fang Mu, He Deen would have more opportunities than Yi Han to be exposed to Grandmaster Creation Elixirs.

As long as He Deen's talent wasn't too inferior, it wouldn't be a difficult matter for him to become a Master Creator after some time studying.
