

## **Beast Tamer 351**

### Chapter 351: The Useful Electronic Butterfly! \_2

As soon as He Deen becomes a Master Creator, he can bring great value to Fang Mu from various aspects.

Fang Mu quickly ate thirty-seven whole nutritional meals in his tent.

After eating the nutritional meals, Fang Mu felt as if he had finally come alive.

Now that he wasn't hungry, Fang Mu snapped his mouth in response to the needle-like bitterness in his mouth.

The Energy Refill Huanglian Fruit is not for humans to eat! If it wasn't necessary, Fang Mu would never want to taste the Energy Refill Huanglian Fruit again.

She Wan cleaned the battlefield while observing He Deen with peripheral vision.

She Wan found that the awakened He Deen was full of sadness, but not a bit of regret.

She Wan immediately labeled He Deen as a smart man in her heart.

He Deen was sad that the Guardian Beasts that had always been with him were already dead, but he did not regret allowing the three Guardian Beasts to help Fang Mu block the attacks.

Seeing that He Deen had discovered her observation and turned his gaze towards her.

She Wan nodded to He Deen.

In She Wan's view, He Deen is likely to become her colleague in the future.

Except for She Wan, there was no one else by He Deen's side at this time.

She Wan used the Silver Void Purple Spider to thoroughly clean the nearby area of the small hall.

Cui Ruochen and Hu Tao were distributing the relief supplies given by Fang Mu.

Things like relief supplies are often prepared by adventurers who often go on wilderness adventures and are kept in spatial equipment for contingency.

However, the four teachers like Cui Ruochen spend most of their time teaching in the school and seldom have the opportunity to practice in the field.

Therefore, preparations for emergency supplies such as hemostatic supplies were not made.

Fortunately, Fang Mu provided enough medical supplies, and nearly four hundred students were rescued from death's door with continuous rescue efforts.

She Wan spoke softly to He Deen.

"The young master has seriously overdrafted his energy and is now recovering his energy in this Ingenious Round Tent."

"You will be able to see the young master after a short wait."

"Come, wipe your face first."

As she spoke, She Wan handed a towel to He Deen.

He Deen had already fainted from the shock when She Wan arrived.

As a Senior Creator, He Deen often goes to the headquarters of the Wangdu Creators' Guild.

He once studied in Lu City, which is as prestigious as The Capital, when he was young.

During his time studying in Lu City, He Deen had attended many high-end gatherings. When he woke up and saw She Wan for the first time, he determined her identity in his heart.

It's so prestigious that the noble lady of the Lu Dushe clan is serving as Sir Jianmu's guard!

Even the Lu Dushe clan is clinging to Jianmu's thigh in such a way, He Deen is praying in his heart that Jianmu is not a callous person.

If Jianmu ignores his efforts, then his three Guardian Beasts would have died in vain.

Since He Deen woke up, he has been feeling sticky on his face.

He Deen knew that his mental trauma was causing his snotty nose and tears to stick to his face.

Meeting Jianmu in such a state is not appropriate.

As a noble lady of the Lu Dushe clan, She Wan doesn't need to show any respect to He Deen because of his status as a Senior Creator.

She Wan would treat him in this way. He Deen thought it was probably because She Wan knew that Fang Mu would treat him well.

Fang Mu has given so much to the school, there's no reason not to treat him well.

When Hu Tao was distributing medical supplies with Cui Ruochen, she never forgot what Fang Mu had told her.

Seeing that He Deen had awakened, Hu Tao hurriedly trotted over to He Deen and said,

“Mr. He, my classmate Fang Mu asked you to wait here for him. He has something to tell you.”

After conveying the message, Hu Tao hurriedly continued to distribute medical supplies with Cui Ruochen.

At this point, He Deen finally completely reassured.

He waveringly stood up, seriously tidying up his appearance.

Hu Tao has a complicated heart.

Previously, knowing that Fang Mu couldn't become a Beast Master, Hu Tao felt very sorry for Fang Mu.

She was very sad for the self-improving young man, Fang Mu.

Not long ago, Fang Mu invited her to dinner at the Sea Banquet Palace. At that time, Hu Tao realized that there was a big wealth gap between Fang Mu and her.

This created some pressure in Hu Tao's young heart.

This pressure made Hu Tao unable to enjoy her food.

Hu Tao had never competed against Fang Mu, and therefore she didn't know Fang Mu's combat capabilities.

Today, Fang Mu single-handedly cleared all the toxins in the field. Even based solely on this function, Hu Tao couldn't help but face the gap between her and Fang Mu.

In such a shattered environment, even someone as careful as Cui Ruochen couldn't notice the change in Hu Tao's mood.

When Fang Mu came out of the Ingenious Round Tent and saw that He Deen had awakened, he came directly to He Deen.

He said solemnly to He Deen,

"Mr. He, I am very sorry that you lost three Guardian Beasts in order to help block the attacks for me."

"If you are willing to join my ranks, I will provide you with three bottles of Condensing Mirror Elixir as soon as possible and help you re-cultivate the Guardian Beasts."

"If you are not willing to join my ranks, I will still provide you with three bottles of Condensing Mirror Elixir to restore your wounded spiritual power."

"And also give you another ten billion Dragon Rising Coins as compensation."

Upon hearing Fang Mu's words, He Deen's spirit was revived.

Three Bottles of Condensing Mirror Elixir!

It is known that the Condensing Mirror Elixir is an exclusive elixir that only a Grandmaster Creator can concoct.

Chapter 352: The Useful Electronic Butterfly! \_3

Fang Mu could casually promise such level of supplies, which was something He Deen never expected.

He Deen had heard that Fang Mu was a disciple of the Grandmaster Creator.

But there was a fundamental difference between a Grandmaster Creator willing to give his disciple the Condensing Mirror Elixir and willing to give one of his disciple's senior creators the Condensing Mirror Elixir.

Without thinking, He Deen chose to join Fang Mu's side.

"Sir Jianmu, all my three Guardian Beasts are dead, and I have become a useless person. I'm grateful that you are willing to take me in!"

After waking up, He Deen asked She Wan about the changes on the battlefield after he fainted.

He Deen thought that he had done a good job by saving Fang Mu.

But after he fainted, Fang Mu directly took out two sequential spiritual instruments to block the attack from Blood Clan Prince Carlos.

This made his sacrifice meaningless.

Even without his three beasts blocking the knife, with the beast spirits from the sequential spiritual instruments automatically protecting the owner, Fang Mu would not be harmed at all.

Only after making enough contributions, would He Deen dare to make a request.

Now that Fang Mu was willing to take him in, He Deen was very grateful.

"Young master, I have cleaned up the battlefield here."

“I’ll first put the spoils from the battlefield into my spatial equipment, and when we get back to the manor, I’ll give you my spatial equipment.”

“You can check the supplies.”

“Silver Void Purple Spider has already helped Lu Kai control the situation in the Martial Arts Arena, I will collect as many spoils as possible.”

“We have captured a Patchwork Hacker produced by the Evil Heart Sect, if we feed more Beast corpses to the Patchwork Hacker, it can enhance its strength.”

Fang Mu, hearing this, didn’t say anything more. He directly took out a brocade box and handed it to She Wan.

Seeing this, She Wan felt joyful and knew that the brocade box was a reward from Fang Mu.

The brocade box was heavy, She Wan suppressed her urge to open it immediately and put it into her spatial equipment first.

“Sister Wan, thank you this time.”

He Deen blocking the attack for him didn’t count as saving him.

But if it weren’t for She Wan, after the energy in the soul of the pterodactyl beast spirit and the Grave-herding Tyrant beast spirit was exhausted, he would have been jointly killed by that Blood Clan Prince and Mr. Gray.

Mr. Gray’s desire to turn him into a Skin Hacker was not a joke.

She Wan saved his life, so Fang Mu was very generous with his rewards to her.

Giving more creator resources to She Wan to help She Wan enhance the strength of the Guardian Beasts was of great benefit to Fang Mu himself.

She Wan, hearing Fang Mu's thanks, hurriedly shook her head in fear.

"Young master, this is what I should do, you're going to kill me with city!"

Fang Mu looked at the gigantic cocoons being put into the spatial equipment by She Wan, and thought of the Exclusive Feature [Electronic Butterfly] from SuckSuck.

The ability of the Exclusive Feature [Electronic Butterfly] is that the Mechanical Heart can condense an electronic butterfly every once in a while. The electronic butterfly contaminates objects that are deemed garbage and have lost their life, activating the strength of the living body before it died.

Ever since SuckSuck had been upgraded to Perfect Quality, it had condensed two electronic butterflies.

With the electronic butterfly, Fang Mu had the ability to bring these corpses back to life.

Since the electronic butterfly has the function of continuous contamination, it can continuously contaminate other multiple objects after it has completely contaminated one.

This was similar to the philosophy of the Evil Heart Sect in creating Patchwork Hackers.

It's just that the Evil Heart Sect uses the soul of the Beast Master as the fire seed to drive the Patchwork Hackers.

SuckSuck placing the condensed electronic butterfly in the Patchwork Hacker is equivalent to turning the Patchwork Hacker into a semi-mechanical monster.

When the electronic butterfly has completely contaminated the Patchwork Hacker, the soul exchange effect of the Soulswap Mantong will become ineffective for the Patchwork Hacker.

Fang Mu planned to let one of the two electronic butterflies condensed by SuckSuck invade Blood Clan Prince Carlos's corpse, and one to invade the Patchwork Hacker.

One electronic butterfly controls a humanoid organism, and the other electronic butterfly controls a monster made from a corpse.

When they encounter high-level Blood Tribe corpses in the future, they can let the electronic butterfly that invaded Blood Clan Prince Carlos contaminate it again, constantly strengthening the bloodline of the Blood Tribe.

Feed all the parts of those sequential Guardian Beast corpses except the precious ones to the Patchwork Hacker controlled by the electronic butterfly for growth.

SuckSuck is not good at fighting, but the exclusive feature Electronic Butterfly makes SuckSuck one of the beasts in history that could fight across levels.

"Young master, the opening ceremony today definitely cannot continue."

"I don't know when this disaster in the entire JA City will end."

"Do you want me to take you to the Cleaner Division first or go back to the manor?"

"The Cleaner Division has the same priority as Jinghai Tianyu University, I suggest you go back to the manor!"

At present, Fang Mu staying in the small hall of the school has no meaning.

Instead of waiting stupidly here, it's better to go back to the manor.

She Wan is very afraid that if she is not careful outside, something might happen to Fang Mu.

After returning to the manor and making sure Fang Mu was safe, She Wan could then wholeheartedly command the Silver Void Purple Spider to fight against those powerful Sequential Practitioners of the Evil Heart Sect.

She Wan guessed that Fang Mu should be very eager to call Fang Qin now to make sure Fang Qin is safe.

At times like these, Fang Qin, as a member of the JingHai army, always has to charge in front.

Luo Su knows the relationship between Fang Qin and Fang Mu, he will let Fang Qin play a role on the battlefield, but he will never let Fang Qin take any risks.

The Cleaner Division is still the main battlefield, because the temperature of the environment hasn't dropped.

The forces that the Evil Heart Sect has sent to the Cleaner Division will definitely be much stronger than what they sent to the Beastmaster High School of JingHai.

Hearing She Wan's words, Fang Mu said directly.

"Let's go back to the manor, bring Hu Tao and Teacher Cui with you."

"The Cleaner Division has been prepared early on, and the Evil Heart Sect will suffer a heavy loss for taking action at this critical moment."

"According to the original plan, Dragon Mother will secretly come to JA City at noon today."

"Once Dragon Mother arrives, the plot of the Evil Heart Sect against JA city will completely disappear."

Under normal circumstances, the whereabouts of Dragon Mother as the Bishop Flowers of the Cleaners are absolutely confidential, and even Feng Lin should not tell Fang Mu about Dragon Mother's whereabouts.

But because Dragon Mother came to JA city specifically for Fang Mu's sister, Fang Qin.

Dragon Mother wanted to invite Fang Mu and Fang Qin to dinner together through Feng Lin, so Fang Mu knew this news.

Chapter 353: The Overturned Jar of Vinegar!\_1

According to the "Dragon Mother's" speed, there is still a considerable distance from JA City.

The Evil Heart Sect has taken control of JA City's communication through the Dimensional Rift. It's not easy to open so many Dimensional Rifts at once.

It requires the consumption of thousands of tons of Rift Stones.

The Evil Heart Sect would have a substantial plot to organize this event with such resources. They wouldn't want their plan to go bankrupt easily.

Once a plan fails, not only are thousands of tons of Rift Stones wasted, but the strong ones sent here will probably lose a chance to return.

So, JA City must be in a state of isolation, unable to ask for help from the outside world, or even to send messages to the outside world.

The "Dragon Mother" coming to JA City was predestined and would not change the decision due to other matters.

The arrival of the "Dragon Mother" took the Evil Heart Sect completely by surprise.

The meticulous layout of the Evil Heart Sect is evident in their arrangements within Jinghai High School for Beast Masters.

The Evil Heart Sect had completely suppressed the powerhouses in Jinghai High School for Beast Masters, with a Mr. Gray also providing reinforcement.

If not for the unexpected involvement of She Wan, Jinghai High School for Beast Masters would have been swallowed whole by the Evil Heart Sect after a short resistance.

The more intricate the plan, the more it fears the sudden intervention of a game changer.

The “Dragon Mother”, as a Bishop Flowers, happens to be the most powerful of these game changers.

Fang Mu’s voice was very soft, so soft that He Deen, who was rubbing his head next to him, did not hear clearly.

Only She Wan heard it.

The “Dragon Mother” coming to JA City is not just a secret of the Cleaner Division but is also related to the safety of all of JA City.

If heard by the Evil Heart Sect, the consequences are unthinkable.

Fang Mu dared to speak to She Wan because he could be one hundred percent certain of She Wan’s loyalty.

Upon hearing Fang Mu’s words, the tense heart of She Wan suddenly relaxed.

She Wan has never been happy about killing a Blood Race Prince and Mr. Gray from the Evil Heart Sect.

That is because She Wan is well aware that her enemies are not only these two.

In this conflict, all the strong from the Evil Heart Sect targeting JA City are her enemies.

Once the Evil Heart Sect begins to target a city, their primary purpose is definitely not just plundering the resources of the whole city.

Once they leave with the resources plundered from the city.

After dealing with the powerful figures in the city, the Evil Heart Sect will launch its evil ceremony.

Sacrificing the lives of everyone in a massive city.

They would then pack the corpses to make Skin Ghouls and Stitches.

Even if she killed all the strong members of the Evil Heart Sect in Jinghai High School for Beast Masters, thereby regaining safety within, if other areas in JA City are breached by the Evil Heart Sect, they would transit with reinforcements by themselves.

She Wan would not poorly estimate herself and think that she could win against Mr. Red of the Evil Heart Sect, who at the very least has six Beastmaster contracts.

It should be known that a Beast Master of the sixth order and one of the seventh order are completely on different levels.

The gap is as large as the one between an ordinary Beast Master and a Diamond Level Beast Master.

If the “Dragon Mother” can arrive in JA City by this afternoon, then the chances for the aftermath of this afternoon’s disturbance in JA City would be considerably mended.

I will no longer need to worry about protecting Fang Mu’s safety.

“Young Master, I will inform your teachers and Hu Tao now.”

The Silver Void Purple Spider can traverse through space. The more intense the spatial fluctuation, the stronger the spider's ability to traverse space is.

Unless it's encountering a Guardian Beast of a higher level, the Silver Void Purple Spider can make use of the chaotic space to hide its location perfectly during its movement in the space.

Otherwise, She Wan wouldn't be taking the risk of planning to bring Fang Mu back to the mansion or to the Cleaner Division.

Upon hearing She Wan, Cui Ruochen immediately took a stance, indicating his willingness to stay at school to take care of his injured classmates and to tidy up the bodies of the deceased.

Many students have already died in this catastrophe targeting the entire JA City.

If capable, Cui Ruochen would like the parents of these students, when they come to the school after the catastrophe, to have at least something they can remember their children by.

There is also the sad possibility that while some students are alive, their parents died in this catastrophe.

The saddest circumstance is that both the parents and the students didn't make it through this catastrophe.

Cui Ruochen's parents died in a disaster initiated by an evil organization.

Cui Ruochen knows best the bitterness brought about by the loss of loved ones.

Seeing Cui Ruochen's insistence, Fang Mu did not force him, nor did he decide to stay at school for Cui Ruochen.

He let the Silver Void Purple Spider take him and Hu Tao back to the mansion, leaving the Soulswap Mantong behind to help clear the Alien Beast Wave and the strong figures of the Evil Heart Sect at Jinghai High School for Beast Masters.

In fact, as soon as She Wan released Lu Kai, allowing Lu Kai to manipulate his two Sequential Beasts to aid other Beast Masters, the scale of victory began to tilt in favor of Jinghai High School for Beast Masters.

Hu Tao knew well that she had no significant role left to play here, and moreover, she was more than willing to stay with Fang Mu.

The wings of Hu Tao's Iron-winged Sparrow had shattered, urgently needing treatment.

But there are a lot more Guardian Beasts in the school with injuries worse than her Iron-winged Sparrow.

And in cases where both the Guardian Beast and the Beast Master are injured, the priority is always the Beast Master.

Only by getting to Fang Mu can she get treatment for her Iron-winged Sparrow.

Even though shattered wings don't threaten the creature's life, the bones and tendons could mix, causing the tendons to necrotize.

Chapter 354: The Overturned Vinegar Jar! \_2

Even after rehabilitation therapy, the strength and reaction time in its wings would still be significantly reduced from its previous peak.

This created a sort of disability that was hard for others to perceive.

Riding on the back of the Silver Void Purple Spider, the beast immediately manipulated the spatial energy to form a protective shield on its back.

Then, its front limbs plunged into the void.

Fang Mu felt himself entering a beautiful environment interwoven with silver and gray, which seemed to last only a moment or forever.

When Fang Mu extricated himself from this stunning environment, he was already at the main entrance of the mansion.

Lu Xiaoyin and Yin Nanzhen were anxiously waiting at the door, concerned about Fang Mu's situation.

Seeing Fang Mu, the two went up to welcome him instantly.

Only after they confirmed that Fang Mu was unharmed did they breathe a sigh of relief.

Fang Mu introduced Lu Xiaoyin and Yin Nanzhen to his classmate.

"This is my classmate Hu Tao, let's go in first!"

"Sister Wan, after your Ghost System Beast has rescued the sequential masters in Jinghai High School for Beast Masters and made sure that the power here can suppress the Evil Heart Sect, call back your Ghost System Beast!"

"We are neighbors with Jinghai Tianyu University. You can help Jinghai Tianyu University."

Upon hearing this, She Wan nodded her head.

To build a good relationship with this neighbor, Jinghai Tianyu University, was something necessary in her eyes.

Especially since Fang Mu would be going there to study in the future.

“Young master, after I retrieve the Soulswap Mantong, I will send the Silver Void Purple Spider there as the first priority.”

“The most important thing for me now is to ensure your safety!”

“When I returned just now, I ordered some of Silver Void Purple Spider’s sub-bodies to go.”

“Jinghai Tianyu University just started their term, and Purple Que School Palace sent two high-ranking personnel to inspect Jinghai Tianyu University.”

“Because it was a secret inspection, the Evil Heart Sect did not hear about it in advance.”

“As a result, the Evil Heart Sect has been at a disadvantage in Jinghai Tianyu University.”

“If it weren’t for the presence of Mr. Red, Jinghai Tianyu University would have probably begun to clean up the Dimensional Rift!”

Upon hearing this, Fang Mu nodded his head and walked into the mansion door with Hu Tao.

Before Fang Mu decided to help others, he first needed to ensure his own safety.

Fang Mu was well aware that his safety not only implicated him, but also the dreams of his older brothers and sisters and the future of the Fang Family.

Therefore, Fang Mu never foolhardy with his safety.

Otherwise, he could have just let all of Sister Wan’s beasts leave the estate, rather than staying and protecting him.

Hu Tao’s family situation was not bad among the students at Jinghai High School for Beast Masters, otherwise she would not have been taken to Sea Banquet Palace by her father for a meal.

Now Hu Tao was still taken aback by the environment in which Fang Mu lived.

Sea Banquet Palace, in Hu Tao's view, represented the pinnacle of living conditions, but Fang Mu's mansion was definitely much more luxurious than the Sea Banquet Palace.

The few peony plants in the hall, gushing with brilliant colors, were enough to tell the whole story.

Most importantly, through the recent exchange between Fang Mu and Sister Wan, Hu Tao found out that Fang Mu's mansion is located right next to Jinghai Tianyu University.

Buying land near Jinghai Tianyu University was expensive, and being able to build such a large mansion there was hard for Hu Tao to imagine.

Although Hu Tao was quite familiar with Fang Mu, she suddenly became cautious.

Even though she had followed Fang Mu to the couch, she still dared not sit down on it.

Fortunately, Fang Mu didn't give Hu Tao much time to be reserved and picked up a peach from the fruit plate to hand to Hu Tao.

"I remember you love peaches. Eat this one to calm yourself!"

"I just happened to rest for half an hour in the Ingenious Round Tent, and after such a long time, my energy has mostly recovered."

"Summon your Iron-winged Sparrow, and let me heal it."

"I remember your Iron-winged Sparrow's wings were hit by several Demons, and the main bone of the wing was smashed."

Feeling warmth in her heart, Hu Tao promptly summoned the Iron-winged Sparrow.

Hu Tao didn't recall the act of protecting Fang Mu subconsciously, but she remembered how Fang Mu pulled her behind him to shield her from a few demons.

The reason Fang Mu could withstand that was because he had a silver spiritual instrument to protect him, but if she were hit by those demons, she would surely turn into paste.

Being naturally unaffected, the care that Fang Mu showed made Hu Tao less reserved.

Taking the peach, Hu Tao took a big bite and while savoring the sweet juice, she comforted the Iron-winged Sparrow.

In addition to the Diamond Rank Sleep Moss, Fang Mu had also prepared many lower-ranked Sleep Moss.

Fang Mu took out a Copper Rank Sleep Moss and said to Hu Tao,

"Let the Iron-winged Sparrow peck the Sleep Moss!"

"The Sparrow wouldn't bear it if I set its wing bone without being in a sleeping state."

"The Sleep Moss, unlike those materials that forcefully put guardian beasts to sleep, will not have serious sequelae, and the Iron-winged Sparrow will not have any adverse effects after waking up."

Hearing Fang Mu's words, Hu Tao stroked the Iron-winged Sparrow's feathery forehead and said,

"Iron Wall, you see how caring Fang Mu is to you. Go and have a bite of the Sleep Moss!"

"But don't forget to say thank you to Fang Mu."

“When you wake up, the injury to your wings will be healed!”

Since Fang Mu often helped Bai Hao and Bai Ya prepare the food for their guardian beasts, the Iron-winged Sparrow was very familiar with him.

He normally helped prepare food for Hu Tao’s Iron-winged Sparrow too.

Chapter 355: The Overturned Vinegar Jar! \_3

Because Fang Mu and Hu Tao were close, whenever Fang Mu got curious about the Iron-winged Sparrow, Hu Tao would summon it and let Fang Mu fiddle with it however he liked.

This enabled Fang Mu and the Iron-winged Sparrow to form a deep friendship.

The delicious and affordable meals the sparrow ate every day, each different for a week, were all carefully prepared by Fang Mu.

Just for this alone, aside from Hu Tao, Fang Mu had become the sparrow’s most favorite human.

The Iron-winged Sparrow stood almost two meters tall on its hind legs.

In front of Hu Tao, it would naturally bend its knees to interact with her, allowing Hu Tao to touch the crown feathers on its head.

The Iron-winged Sparrow came over to Fang Mu, bending to nuzzle its soft-feathered neck against his and cooed.

From the Iron-winged Sparrow's cooing, Fang Mu could sense its weakness.

The Sparrow had performed these actions towards Fang Mu several times before, so Fang Mu had gotten used to it.

However, it had unexpectedly upset Xiao, who was in the Destiny Guidebook.

Usually, when Fang Mu played with the guardian beasts of Fang Qin, Fang Yuan, and Yan Wood, Xiao would exhibit a strong possessiveness.

More so when Fang Mu was having such an intimate interaction with Hu Tao's guardian beast.

Sensing Xiao's jealousy, Fang Mu couldn't help but smile to himself.

A beast's possessiveness toward its beast master reflected the beast master's status in the beast's heart.

Fang Mu never doubted his place in Xiao's heart.

Fang Mu remembered clearly what Xiao once said.

"In Xiao's eyes, everyone apart from Fang Mu is garbage."

While using his spiritual power to soothe Xiao, Fang Mu fondly stroked the crown feathers of the Iron-winged Sparrow in response.

This behavior resembled that of a playboy.

As a doctoral student in biology, Fang Mu could draw a precise sketch of a bird's skeletal structure on a piece of paper within five minutes.

Hence, through Eden Dreamland and Fantasy Shadow, Fang Mu was able to treat the Iron-winged Sparrow and realign its bone structure.

Fang Mu's Eden Dreamland rank was only Silver Stage, so the healing effect wasn't great.

However, Fang Mu had not previously hired a private medical assistant in his manor.

She Wan, Lu Xiaoyin, and Yin Nanzhen didn't possess beasts with healing abilities.

Given the situation, it was impossible to find a doctor at this stage, so Fang Mu had to treat the Iron-winged Sparrow himself.

After eating the Sleep Moss, the Iron-winged Sparrow fell asleep instantly.

Fang Mu had long noticed that the Iron-winged Sparrow was very cunning.

Perhaps out of fear of pain, the Sparrow not only ate two bites of Sleep Moss, but they were large bites.

Fang Mu anticipated that the Iron-winged Sparrow would sleep soundly for at least two days.

Fang Mu squatted down and carefully examined the Sparrow's wings.

Fang Mu found that the Sparrow's wing injuries were more severe than anticipated.

Luckily, apart from the wing bone, the other bones were only fractured, not shattered.

Most of the tendons were only scraped.

The few tendons that were cut would grow back once the wing bone healed and wouldn't affect the Sparrow's mobility or reaction speed.

Hu Tao watched wide-eyed as Fang Mu constantly manipulated the Sparrow's wings.

The sleeping Sparrow, lying on the luminous grass beneath their feet, looked pitiful like a fish on a cutting board.

Hu Tao not only closed her eyes, unable to bear watching the Sparrow suffer.

If it were anyone else who wasn't a qualified therapist doing this to the Sparrow, Hu Tao would never agree.

After an hour, sweat began to bead on Fang Mu's forehead.

As a Defensive Beast Conqueror, the Iron-winged Sparrow relied mainly on its wings for defense and its bone and tendons were tough.

Much force was needed to manipulate them back into place.

Hu Tao, seeing Fang Mu sweating, hurriedly took a tissue from her pocket, walked over to him, and wiped the sweat from his brow.

Yin Nanzhen, Lu Xiaoyin, and She Wan all stood guard in the main hall of the manor.

In case of danger, the three could protect Fang Mu immediately.

Watching Hu Tao interact with Fang Mu, Yin Nanzhen asked Lu Xiaoyin in a low voice.

“Brother Lu, do you think she could be Madam Young?”

“If she is, we would need to start building a good relationship with her!”

Since getting acquainted with Lu Xiaoyin, Yin Nanzhen finally found someone he could chat with.

Lu Xiaoyin was less powerful than him and was Fang Mu’s butler.

Winning over someone less powerful but of higher status was often less stressful than winning over someone more powerful.

Yin Nanzhen was used to Lu Xiaoyin's kind side, but he didn't expect Lu Xiaoyin to give him a stern warning as soon as he finished speaking.

"Nan Zhen, be careful not to be smart for the sake of it and end up shooting yourself in the foot. Remember that you are Young Master's carriage driver, and fulfilling your duties well is enough."

"Don't think about those messy things. Those aren't things you should be concerned about!"

"Unless the Young Master personally tells you that Miss Hu Tao is the lady of the manor."

"You should just think of Miss Hu Tao as the Young Master's classmate."

"Otherwise, don't blame me for not warning you in advance if anything goes wrong!"

Having said his piece, Lu Xiaoyin turned to help Fang Mu make a cup of Blood Replenishing Tea.

He also added some spirit material to the tea to help recover energy.

Once Fang Mu finished treating the Iron-winged Sparrow, this cup of tea would come in handy.

Yin Nanzhen thought that by asking Lu Xiaoyin first instead of doing things behind his back, he was showing good intentions.

But he didn't expect to be warned by Lu Xiaoyin instead.

Yin Nanzhen was a little confused by what Lu Xiaoyin meant.

Seeing the puzzled look on Yin Nanzhen's face, She Wan, in exasperation, came over and scolded him.

"The advice I gave you before, you didn't take it to heart at all!"

"The Young Master doesn't treat you as a servant, but you must be clear about your identity as a servant."

"It's presumptuous for a servant to try to please the master's friends and scrutinize the master's interpersonal relationships."

"Also, considering the Young Master's nature, how could he be bothered with love affairs?"

Chapter 356: The 2nd Starwheel gathering!\_1

She Wan was aware that Yin Nanzhen was continuously learning the etiquette of being a servant.

This etiquette was not something that could be mastered in a day or two.

She conservatively estimated that it would take a year or two to reach the level Lu Xiaoyin had achieved from knowing absolutely nothing.

Lu Xiaoyin's etiquette was meticulously cultivated and nurtured by the Creator's Guild.

With Lu Xiaoyin as a role model, Yin Nanzhen could make rapid progress.

She Wan had always been helping Yin Nanzhen in this regard and she did not hesitate to instruct Yin Nanzhen on what to do.

"Remember, the best interpretation of your loyalty is to do your job well without any accidents due to personal reasons while driving," She Wan pointed out.

Yin Nanzhen thought silently for a moment upon hearing She Wan's words before bowing to her.

"Sister Wan, thank you and Brother Lu for your guidance. If there's anything inappropriate about what I'm doing, I hope you'll offer more advice!"

She Wan didn't say much in response.

She hadn't yet looked inside the brocade box that Fang Mu had rewarded her with.

However, she was not particularly pleased with the reward from Fang Mu.

This sudden incident had placed Fang Mu in danger several times, so he would probably need to expand his team of guards in the future.

Then, she would face many more competitors.

The competition among the guards was all about strength.

If Fang Mu's newly recruited guards had a Sequential six or five Guardian Beast, she wouldn't be able to compete with them at all, let alone vie for a position.

It's not just the guards, seeing the beads of sweat that Fang Mu shed while treating the Silver Stage Iron-winged Sparrow, Fang Mu would probably add a therapist to his estate.

Even Lu Xiaoyin, the personal housekeeper, felt the pressure.

If Yin Nanzhen could not grow rapidly, unaware of what a servant should avoid,

There wouldn't be a place for Yin Nanzhen by Fang Mu's side before long.

If Fang Mu were to reassign Yin Nanzhen to Jianmu Commerce Association and not keep Yin Nanzhen by his side.

Then Yin Nanzhen wouldn't have much of a future at all.

After treating the Iron-winged Sparrow, Fang Mu collapsed onto the ground.

He wiped the sweat from the back of his neck with a tissue handed to him by Hu Tao, who didn't know how many she had already handed him.

"It should take about two days for the Iron-winged Sparrow to regain consciousness."

"Once it wakes up, as long as we replenish its nutrition, it won't be in much danger."

Hu Tao, upon hearing this, squatted next to Fang Mu and murmured a thank you.

Hu Tao remembered that when she had just returned to JA City and had dinner with Fang Mu, he had asked her a question.

He asked her if she would like to be a teammate in his university team and participate in the collegiate professional league.

At the time, without a second thought, Hu Tao had agreed.

But now, she saw the significant gap between herself and Fang Mu, and this gap would only widen in the future.

If she really became Fang Mu's teammate in university, won't she just be dragging him down?

The widely praised Hu Tao, who had been an excellent combatant since the Contract Beast phase, rarely felt insecure.

Fang Mu stood up and spoke to Hu Tao, who was supporting him.

"Hu Tao, you've met my third sister, Fang Yan, right? She has established a Club Guild."

“Right now, this Club Guild is just in its infancy, but it will most likely be able to participate in the professional league next year.”

“Are you interested in joining the Club Guild?”

There are scarce high school students whose Beast Master’s strength reached the Gold Stage. Silver Stage Guardian Beasts in the professional league would only be cannon fodder.

Typically, all members of the Club Guild’s reserve team are prodigies with Guardian Beasts that have reached the Gold Stage.

Therefore, even those small-sized Club Guilds would not invite students from high schools to join.

Facing Fang Mu’s invitation, Hu Tao agreed without any hesitation just as she had done before.

However, after she agreed, Hu Tao asked with some hesitation.

“Fang Mu, you know my strength. Do you think I have a chance to play in the field with you after I join your sister’s Club Guild?”

Fang Mu understood Hu Tao’s thoughts immediately.

Previously, Fang Mu had no plans to invest resources and help Hu Tao improve her strength during Senior Three.

However, Hu Tao's actions in the face of the disaster had moved Fang Mu.

When confronted by the Demon attack, Hu Tao had unhesitatingly shielded herself in front of him.

Other than his own brothers and sisters, perhaps only Hu Tao would protect him selflessly and without any ulterior motives.

Seeing Hu Tao's lack of confidence, Fang Mu decided to help her regain her confidence.

"Hu Tao, you saw the premier Mister Gray today, didn't you?"

"If you comprehend another Earth Attribute pattern at random, you'll be able to compose a Third Rank Mysterious Chapter, which is even higher than Mister Gray's!"

"Among the second-year students, it's uncertain if the entire Dragon Soaring Federation could find a genius who has comprehended three mysterious patterns."

“Once you sign a contract with the Club, the Club will provide resources to strengthen your Guardian Beast.”

“After that, we just need to find a way to win the match and bring profit to the Club.”

“With such great talent, I wouldn’t want you to team up with anyone else!”

Seeing the doubts in Hu Tao’s eyes begin to fade due to his words,

Fang Mu was about to take Hu Tao out to eat something when She Wan brought He Deen over.

“Young Master, my Soulswap Mantong has returned.”

“The Soulswap Mantong moved smoothly, conveniently bringing Mister He back as well.”

Chapter 357: The 2nd Starwheel Gathering! \_2

“Also, the Child Spiders sent out by the Silver Void Purple Spider have already made contact with your sister and Hu Tao’s parents.”

“Your sister is currently at the headquarters of the Jinghai Army, staying by the side of Vice Brigadier Luo Su to allocate manpower.”

“Hu Tao’s parents have both been transferred to the nearest refuge.”

Hearing She Wan's words, Fang Mu and Hu Tao felt a simultaneous relief.

Hu Tao had always been worried about her parents, but she was powerless to check on them.

She found it inappropriate to bother Fang Mu with this, after all, her home was quite far from the manor where Fang Mu resided.

In the face of the overall disaster in JA City, traversing such a distance could very likely endanger oneself.

Fang Mu had not mentioned going to check on Hu Tao's parents before, it turned out that he had already arranged for someone to take care of it.

Even a person like Hu Tao, who had been strong since childhood and had hardly ever cried, couldn't help but have misty eyes at this moment.

Fang Mu took the Blood Replenishing Tea handed over by Lu Xiaoyin and instructed her.

"First take Mr. He to rest, we can talk about everything else after he's rested!"

Originally, the Silver Void Purple Spider could have brought He Deen back to the manor the first time it came back.

But He Deen's body was weak, his nearly broken spiritual power had barely been pieced back together by master-level elixirs and a large amount of spirit-type spirit materials.

Even though the Silver Void Purple Spider can form an energy shield to protect the person on its back.

The spiritual fluctuations that even normal people could endure after being protected had a greatly detrimental effect on He Deen.

He Deen did not force himself to communicate with Fang Mu.

Having already joined Fang Mu, no matter what he wanted to do in the future, the most important thing was to recover from his injuries first.

As a senior creator, He Deen was knowledgeable and well-traveled.

Seeing how Fang Mu had set up the manor, He Deen knew what kind of status Fang Mu held in the hearts of the Grandmaster Creators supporting him.

The place where a Grandmaster Creator lives should be of this level, it's unlikely it could be more luxurious than this.

Lu Xiaoyin arranged a room for He Deen; Fang Mu had She Wan take Hu Tao to eat.

Fang Mu went back to his room, took a good bath first.

He changed out of his many times damaged school uniform and put on a casual home outfit he usually wore in the manor.

This turmoil would be halted after the arrival of "Dragon Mother", but the school district was almost completely destroyed and the land was heavily polluted.

Whether it was the rebuilding of the school or the Scavenger's remediation of the polluted land, it would take some time.

At least two months of suspension is required for Jinghai High School for Beast Masters; after that, they would surely take up winter break to make up for the two months of missed classes.

But all this had nothing to do with Fang Mu.

Fang Mu planned to contact the school through Scavenger while the school is being rebuilt in the next few days to help him process the paperwork for going out for real-world experience.

If Fang Mu were to handle it himself, he would most likely only be able to apply for a leave of absence.

The school would suspect his identity because of She Wan, so having Scavenger handle it would save Fang Mu a lot of trouble.

There were only three hours left for the appointment to meet with the Dragon Mother, the Evil Heart Sect could only be rampant for three more hours at most.

Fang Mu prepared to sort out the gains won by She Wan for him during the disaster.

Fang Mu first summoned Sucky Sucky, and then all at once released the Sequential Seven Withering Cold Tyrant Octopus, Sequential Eight Tile Bone Stinger, the body of the Blood Race Prince and the Patch-body Hacker in his 500 square meters room.

Because the Exclusive Feature [Electronic Butterfly] of Sucky Sucky no longer required the soul of a strong person as propulsion, Fang Mu gave Mr. Gray's soul to the Ghost Servant Spectral Fish Princess of Yan Yubanruo.

The Ghost Fish Princess was allowed to use the soul of Mr. Gray to refine high-level Souls of Death, helping to improve the quality of Yan Yubanruo.

The stronger the soul was, the higher the level of the Soul of Death it could produce.

This kind of Soul of Death refined from the souls of sequential strong people could not be purchased in the outside world at all.

Fang Mu originally thought that when faced with a Blood Race Prince's body, the Blood of Abundance would show an irrepressible desire.

But the reality was completely different from Fang Mu's imagination.

Since trading for the Epoch Relic from the old man of the Mad Wolf Mercenary Group, the Blood of Abundance's craving had been focused entirely on that Epoch Relic.

This made Fang Mu more curious about what was inside the wooden box.

However, it was not easy to open an Epoch relic; even if Fang Mu soaked it in a hundred percent pure Life Elixir, it would still take at least two months.

The current state of the Blood of Abundance was like a person faced with raw cut meat and just-out-of-the-pan pot-sticker meat.

When there was better food in front, the previously beloved food would suddenly be outweighed.

Since the Blood of Abundance wasn't clamoring to eat the heart of the Blood Race Prince, Fang Mu decided to keep the heart of the Blood Race Prince.

The heart of the Blood Race was the energy core of the Blood Race's body. When the heart was removed, even if the Electronic Butterfly controlled the body of the Blood Race Prince, the strength of the Blood Race Prince would be greatly reduced.

Fang Mu said to Sucky Sucky.

"Sucky Sucky, you already have two Electronic Butterflies. Use your Electronic Butterflies to infect the carcass of this Blood Race Prince and this Patch-body Hacker!"

Upon hearing this, Sucky Sucky's Mechanical Heart suddenly lit up.

Chapter 358: The 2nd Starwheel Gathering!\_3

Hundreds of gears burst out from the Mechanical Heart, forming two fluttering mechanical butterflies.

These two mechanical butterflies were imbued with a strong steampunk vibe.

All of a sudden, blue-violet arcs of light lit up on the gear-composed wings of the two mechanical butterflies.

The two mechanical butterflies shot straight into the bodies of the Blood Race Prince and the Bodiless Ghoul, disappearing inside them in the blink of an eye.

Considering that Xiao Yin was currently only at the Silver Stage, it's hard to imagine how long it would take for her Exclusive Feature [Electronic Butterfly] to infiltrate and control two sequential-level corpses.

Just as Fang Mu was preparing to store these remaining corpses in the Purple Ice Crystal Ring and silently wait, Xiao Yin spoke up.

"Fang Mu, I can catalyze the Electronic Butterfly by absorbing corresponding energy, aiding it in controlling the infected and manipulated objects, hence shortening the time."

Upon hearing this, Fang Mu was overjoyed. He did not expect Xiao Yin to have such an ability!

What Fang Mu needed the most right now was time.

If he could gain control of a Ninth Sequence power in a short time, Fang Mu would be much more at ease when facing danger and unexpected situations than he is now.

"So, Xiao Yin, what do you mean by 'corresponding energy'?"

To answer Fang Mu's question, Xiao Yin drew close to the bodies of the Tile Bone Stinger and Withering Cold Tyrant Octopus.

“Fang Mu, my Electronic Butterfly can control not just flesh-and-bone, but also machines and some different kind of objects.”

“The bodies of the Blood Race new king and Bodiless Ghoul that the Electronic Butterfly is infiltrating and controlling right now both fall within the category of flesh-and-bone.”

“If you let me absorb these two big fellows’ bodies, I should be able to completely take control of the two infiltrated corpses through the Electronic Butterfly in just a few days.”

“However, most of these two bodies will likely be consumed by me, so not much will be left even if more than half is left.”

Fang Mu hesitated slightly upon hearing this, then agreed to let Xiao Yin absorb the bodies of the Tile Bone Stinger and the Withering Cold Tyrant Octopus.

The Tile Bone Stinger and Withering Cold Tyrant Octopus are the highest tier spoils of war Fang Mu has obtained so far, but they are not more valuable than time.

Considering that She Wan was the one who killed Withering Cold Tyrant Octopus and Tile Bone Stinger, if Fang Mu wanted more such supplies, he could ask She Wan to find them for him again.

This was, moreover, a case where Xiao Yin was consuming the bodies of the Tile Bone Stinger and Withering Cold Tyrant Octopus, and could condense a large amount of attribute crystals and Poison Crystals.

Fang Mu was very keen on the Tile Bone Stinger’s special toxin that targeted bones.

After Rainy Doll absorbs it, her combat power could be greatly increased.

“Xiao Yin, you can go ahead and absorb the bodies of the Tile Bone Stinger and the Withering Cold Tyrant Octopus!”

“Just make sure to leave behind these main tentacles from the Tile Bone Stinger and the largest suckers next to the Withering Cold Tyrant Octopus’s mouth. Everything else is up for grabs.”

“Even if there isn’t enough energy, don’t touch the Tile Bone Stinger’s main tentacles or the main suckers of the Withering Cold Tyrant Octopus.”

“I will find other corpses for you to consume.”

Hearing Fang Mu’s words, Xiao Yin nodded as if half-understanding.

In Xiao Yin’s eyes, these bodies were all garbage; it made no difference to her where she ate from.

Since Fang Mu sincerely cautioned her, Xiao Yin would definitely take his words to heart.

As for consuming the corpses of the Withering Cold Tyrant Octopus and the Tile Bone Stinger, Xiao Yin was quite interested.

Not all garbage was the same; the bodies of the Tile Bone Stinger and the Withering Cold Tyrant Octopus contained a lot of energy, making them among the best things Xiao Yin has eaten since evolving into a Guardian Beast.

Fang Mu’s room would usually be devoid of intruders.

Without Fang Mu’s permission, She Wan and Lu Xiaoyin wouldn’t do anything more than wait at his door.

Xiao Yin consuming the bodies of the Withering Cold Tyrant Octopus and the Tile Bone Stinger in his room would not be discovered by outsiders.

Even if Lu Xiaoyin, She Wan, and Yin Nanzhen were to truly see it, it would not matter.

The three of them were Fang Mu's servants, controlled by the offspring of the Servant Soul Ant Queen, the Soul Parasite Ants, and would not do anything detrimental to Fang Mu.

At this moment, the deep voice of the Star Cloud Messenger sounded within Fang Mu's mind.

"Master, I received guidance that the Starwheel gathering has begun!"

"Are you interested in attending?"

The mention of this stirred Fang Mu's heart, as the timing of the Starwheel gathering was earlier than he had expected.

There were still nearly two hours before the "Dragon Mother" was due to arrive; the Starwheel gathering would be over in at most one hour.

Joining the Starwheel gathering wouldn't have any impact on Fang Mu, so he summoned the Star Cloud Messenger directly and ordered the Star Cloud Messenger.

"Take me to the Starwheel locale to join the gathering!"

The previous Starwheel assembly had been quite fruitful for Fang Mu.

If it wasn't for the Sequential Spiritual Instrument, Forest Resentment Bell that he acquired at the last Starwheel assembly, Fang Mu definitely would not have been able to pressure the Blood Clan Prince Carlos with just the Purple Ice Crystal Ring.

Which forced the Blood Clan Prince Carlos to summon Mr. Gray.

Fang Mu remembered that Shui Miao mentioned he was a Forging Spirit Grandmaster, someone capable of forging high-level Sequential Spiritual Instruments.

If Fang Mu couldn't exchange what he needed in the Starwheel assembly, he could always contact Shui Miao.

Maybe he could customize an instrument with Shui Miao.

In the previous Starwheel assembly, Fang Mu believed he made a good impression.

Not only did he make other members of the Starwheel believe that he has a Grandmaster Creator as a master, but also that he has two Master Creators as senior brothers.

This only further elevated his status in the hearts of the Starwheel members.

The formal members of the Starwheel sitting on golden chairs were so warm to him firstly because he represented the Grandmaster Creator's sufficient strength and foundation,

On the other hand, also because he promoted the principle of equal exchange, ensuring that others would not suffer losses when trading with him.

If he played hard to get when people looked for him for trades, and he inflated his prices,

Then these qualified formal members sitting on golden chairs would not need to pay attention to him at all.

These members are all capable and equipped to connect with other Grandmaster Creator channels.

Looking at the twinkling star cluster in front of him, Fang Mu knew he had arrived at the Starwheel's location.

Chapter 359: The Hooked Golden Bull!\_1

Last time, Fang Mu was led to the center of the twelve Golden Chairs after arriving at the Starwheel realm.

This time, the Star Cloud Messenger directly led Fang Mu to the golden throne shrouded in the constellation of Libra.

The speed of reaching the Starwheel realm is related to the Messenger's rank.

As Fang Mu's Star Cloud Messenger is only at the Silver Stage, Fang Mu was the last official member to arrive at the Starwheel gathering.

Apart from Fang Mu, people were already seated in the other nine Starwheel chairs.

The individuals were the same as before, but their attire had changed.

This time, Shui Miao was dressed in a white robe, leisurely waving a blue folding fan in his hand, greeting Fang Mu with a nod.

Fang Mu was wearing a mask, unable to respond to Shui Miao with facial expressions.

Therefore, Fang Mu also nodded his head towards Shui Miao.

The purpose of holding regular Starwheel meetings is not only to exchange resources, but more importantly, it's to share information and intelligence.

The woman sitting under the Virgo seat fixed the tassels tied to her gauzy skirt, which took the shape of light pink flowers.

Almost breathing, blooming from buds, then wilting before returning to buds, they mimic the life cycle of plants, reflecting the cycle of flourishing and decay.

Before Fang Mu got involved with the Ghost Device, he might have considered the aura of the tassels a Sequential Spiritual Instrument.

But since Fang Mu personally witnessed She Wan's Ghost Device Heart-Seizing Charm Claw, and experienced its aura,

Fang Mu was certain that the lady's light pink tassels were a Ghost Device.

Fang Mu had always thought that jewelry-type spiritual instruments and Ghost Devices could only be used to create earrings, necklaces, rings and other wearable items.

He did not expect it to be made into such an exotic style.

While Fang Mu explored his surroundings, a provocative voice came from a short distance away.

"Golden Bull, every time you arrive, you like to show off your Purple Qi Nine Crane Furnace. How come this time you didn't even bring it with you?"

"Could it be that you knew the end was near, and passed it down?"

To this provocation, no one in the field felt surprised.

Every time Sagittarius and Golden Bull meet, they always argued.

Previously, most of the supplies conflicts between Sagittarius and Golden Bull ended with Golden Bull coming out on top, which led to a feud between Sagittarius and Golden Bull.

Since they all wore masks which hid their expressions, it was impossible to directly perceive everyone's emotions.

But the feel from Golden Bull was clearly not right.

It was no secret that Golden Bull's life span was near its end.

Golden Bull had always been dedicated to collecting resources that could extend the life span, and whenever such resources appeared, Golden Bull would do whatever it took to obtain them.

Golden Bull, who has always seemed full of vitality, why does he give off a mellow taste today? Even Sagittarius did not reply immediately to his provocation.

A girl wearing a cat face mask, who moved with elegance and restraint, asked in a low voice.

"Golden Bull, didn't you really run into a problem?"

"If you really run into an issue, you can say it. We might not be able to help, but we can think of a way for you."

Upon hearing this, Fang Mu slightly raised his eyebrows behind his mask.

The person who spoke was Gemini, and from her words, it can be seen that Gemini is a warmhearted person.

And she has a certain emotional bond with the members of the Celestial Assembly.

However, it was clear not everyone was as concerned about Golden Bull as Gemini.

The woman sitting next to him in the Virgo chair, the man sitting in the Cancer chair who looked like an iron tower, and the woman with a head full of braids who was fiddling with her hair and sitting in the Sagittarius chair were all staring with suspicion.

The petite figure of unidentified gender in the Capricorn seat was continuously playing with the strange doll in hand, not giving a single glance to anyone present.

This allowed Fang Mu to understand that there weren't any deep relationships among the members of the Starwheel organization. They were mainly driven by interest.

Fang Mu's heart became alert. It seemed that there should be no slackening in the Starwheel.

He would have to do his best to maintain his created persona using acting skills.

He couldn't lower his guard just because the official members of the Starwheel were so welcoming.

Like Shui Miao, who had already met him in the real world.

It wasn't strange for the Starwheel members to meet offline, last time at the Starwheel gathering, Gemini mentioned about meeting with Capricorn to exchange an empress alien bug larva.

Fang Mu definitely didn't want to slip up and attract unwanted attention.

Hearing Gemini's question, the old man raised his hand and adjusted the purple-gold mask on his face, sighing helplessly.

"Ha, I've never experienced adversity in my life. Only in my twilight years do I feel the pressure of my life span."

Speaking of this, the old man paused, his hoarse voice interrupted. Then he looked up and laughed loudly.

"I've always thought that strength was the most valuable thing, but only now do I understand that life span is the most precious thing in this world,"

“Even if you have great strength, power and energy, you still have to bear the merciless passing of your life span.”

“I have sealed the Purple Qi Nine Crane Furnace, and I’m ready to resign from being an official member of the Starwheel.”

“Anyone who wishes to, may take the Golden Bull’s seat. In this last year I have left, I don’t want to get involved in any more troubles.”

The words of the old man startled the original eight members of the Starwheel and Shui Miao.

Fang Mu’s thoughts were also stirred up by the old man’s words.

This old man only had one year left of his life span, and his greatest pursuit and desire in life was to extend his life span.

Chapter 360: The Hooked Golden Bull!\_2

The Sovereign Beast Ten-Life Longevity Carp that Fang Mu has already entered into a contract with has the ability to increase life-span.

Fang Mu can entirely use the exclusive feature of the Ten-Life Longevity Carp, [Life Calculation], to elevate Golden Bull’s lifespan and restore Golden Bull’s remaining one-year lifespan to ten years.

In some sense, Golden Bull could now be considered Fang Mu’s prey.

Fang Mu did not immediately respond, preparing to understand more about Golden Bull’s situation before deciding.

It was obvious that the other members of the Starwheel had questions for Golden Bull.

Shui Miao clearly knew what kind of person Golden Bull was.

Golden Bull joined the Starwheel earlier than Shui Miao himself and has always used Starwheel as a high-quality conduit, rarely missing meetings over these years.

The fact that Golden Bull willingly gave up his seat in the Starwheel suggested that Golden Bull was truly at his wits' end.

The Golden Bull of the past always targeted the Starwheel's treasury, hoping there'd be a method to lengthen his lifespan within its contents.

Now, Golden Bull has even abandoned this hope!

"Golden Bull, I remembered you having at least a decade of life left. How come you only have one year left all of a sudden?"

In Shui Miao's heart, Golden Bull was a type of person who valued his life-span above all else. How could such a person suddenly diminish his own lifespan by so much?

Could it be that Golden Bull had performed some forbidden technique to increase his lifespan, only to have it backfire at the last moment?

Only this reason could explain why Golden Bull's lifespan had been reduced to just one year.

When Golden Bull heard Shui Miao's question, his gaze directly met Shui Miao's.

"Inquiring casually into someone else's health isn't a good habit."

"However, given your concern for me, I'm willing to give you a piece of advice."

"Never place your hopes on epoch relics sealed within containers!"

“That’s enough, I’m leaving now. You can forget about the Sequential Spiritual Instrument, the Purple Qi Nine Crane Furnace, made from the Beast Spirit of the second Crane Beast in the sequence.”

“Unless you can help me extend my lifespan, but I don’t think you are capable.”

“Otherwise, the Purple Qi Nine Crane Furnace would already not be in my possession.”

After finishing his speech, the elderly man raised his hand, preparing to imprint it on the back of his throne, the Golden Bull Seat, thereby severing his connection with it.

At that moment, the elderly man heard a somewhat unfamiliar voice sound from not too far away.

“Elevating your remaining one year of life to ten years is not a difficult task. If you are willing to trade the Purple Qi Nine Crane Furnace for this, I can ask my Master to help you.”

The words from Fang Mu caused the elderly man’s hand, which was about to imprint on the back of the Golden Bull Seat, to pause abruptly, disbelief evident in his eyes.

As one of the elders of Starwheel, the elderly man was very familiar with every member, with the sole exception being Fang Mu, who had just joined.

However, the elderly man did not doubt Fang Mu’s words.

Because the elderly man knew that behind Fang Mu stood a Grandmaster Creator, and this Grandmaster Creator was not just an ordinary one.

This Grandmaster Creator, capable of trading a Life Elixir with a purity of 92% with his disciple Jianmu, was at the very least of an intermediate level.

Fang Mu’s words became the elderly man’s lifeline.

If Fang Mu had made such a statement at the previous Starwheel gathering, the elderly man would not have been so agitated.

At that time, the elderly man still had over a decade of life left and could seek methods to extend his lifespan.

But now with only one year of life left, the elderly man had even lost the willpower to explore.

The elderly man had already accepted his inevitable destiny, becoming nothing more than a pile of bones. It was Fang Mu who gave him a new glimmer of hope.

Otherwise, with just an increase of ten years of life-span, the elderly man might not necessarily be willing to part with his treasured Purple Qi Nine Crane Furnace.

Not only did Fang Mu's words draw the elderly man's attention, but the gazes of the other formal members of the Starwheel also began to focus on Fang Mu.

Fang Mu's words confirmed a fact – his Master, Grandmaster Creator Qixing, had the ability to increase one's lifespan.

Having never heard of such an ability before, all present realized that bringing Grandmaster Creator Qixing into the ranks of the Starwheel was a worthy gain!

Now, Fang Mu was willing to help Golden Bull within the Starwheel. In the future, if someone needed to extend their lifespan and sought out Fang Mu, as long as they could afford the price, Fang Mu would most likely assist.

Who doesn't grow old?

The abilities of Grandmaster Creator Qixing were like a calming pill for everyone present.

“Are you able to increase my remaining one year of life to ten years?” Golden Bull anxiously confirmed with Fang Mu.

“I haven’t brought the Purple Qi Nine Crane Furnace with me. It can only be given to you at the next Starwheel gathering.”

“Do you know if your master increases life-span using elixirs or items similar to epoch relics?”

“If possible, I would like to meet your master, Grandmaster Creator Qixing, in person offline and directly hand the Purple Qi Nine Crane Furnace to him.”

A smile crept onto Fang Mu’s face upon hearing this.

What Fang Mu sought was not just the Sequential Spiritual Instrument, the Purple Qi Nine Crane Furnace, but also Golden Bull himself.

Fang Mu intended to use the Sovereign Beast Ten-life Longevity Carp’s exclusive skill – Life Calculation, to extend Golden Bull’s life-span. This would definitely require Golden Bull to be by his side.

Fang Mu was pondering how to guide Golden Bull to request a meeting when Golden Bull took the initiative to make that request.

“Golden Bull, I’m not completely clear about how exactly my master accomplishes it, but I can confirm that my master does indeed possess this ability.”

“I will arrange a location with you. We could meet there.”

“My master is currently in seclusion. I can only ask my master for you then endeavor to extend your life-span.”
