

Beast Tamer 411

Chapter 411: The Golden Bull Arrives! _2

Even though he was a middle-aged man now, She Ruan still couldn't erase his fear of She Junjie.

She Ruan knew that the thing She Junjie hated the most was being kept in suspense, so he dared not blatantly do what She Junjie detested.

So, She Ruan asked She Junjie directly.

"Dad, are you free today?"

She Junjie was afraid that his speculation would fail, so he dared not expect too much in his heart.

So, She Junjie asked seriously.

"What, Mr. Jianmu, to whom Xiao Wan swears loyalty, has time to grace us with his presence at the banquet hosted by our She family?"

"If that's the case, then our She family must properly entertain their distinguished guests!"

This caused She Ruan's heart to miss a beat.

Could it be that compared to treating the Guardian Beast, which had its origin damaged, the old man was more eager for Jianmu to attend the family banquet?

Xiao Wan clearly stated on the phone that Jianmu was unwilling to attend the banquet, he only agreed to try and help treat the Giant Toothed Whale by contacting his master.

"Dad, Xiao Wan has pleaded with Mr. Jianmu for a long time, Mr. Jianmu finally agreed to attempt to contact his master to help clear the curse and restore the origin of your Giant Toothed Whale."

“If you’re free today, I’ll call Xiao Wan back to arrange an appointment with Mr. Jianmu as soon as possible!”

“Xiao Wan also mentioned that Mr. Jianmu gave her a Brocade Box containing many Grandmaster-level elixirs.”

“The elixirs inside that Brocade Box could greatly help heal your Guardian Beast!”

“However, without Mr. Jianmu’s permission, Xiao Wan is not at liberty to give you all the elixirs.”

While speaking, She Ruan was constantly watching the expressions on She Junjie’s face.

First, She Ruan mentioned that Xiao Wan had pleaded with Jianmu for a long time, to get Jianmu to treat She Junjie’s Guardian Beast.

They were showing their own efforts, and also Xiao Wan’s importance.

Indeed, Xiao Wan could really beg Jianmu!

This counteracted the message that had been circulating within the family.

She Rui’s people had always been advocating that even if Xiao Wan had established a relationship with a disciple of the Founding Sect, she was just a vassal.

She not only failed to gain respect, but also didn’t bring any practical value to the family!

Ever since She Ruan invested all the resources he gained from the Founding Sect disciple Jianmu towards Xiao Wan, without allowing family members to gain any actual benefits.

The number of people who agreed with this view was increasing.

Today, She Ruan could firmly refute this claim!

The things that Xiao Wan told him were like a shot of adrenaline to his heart, now She Ruan was injecting this into She Junjie.

It was meant to reinforce She Junjie's belief that Jianmu could help cure his Guardian Beast of its damaged origin.

After all, the resources Jianmu had given Xiao Wan were already capable of accomplishing this.

Even if Jianmu did not ask his master to step in, he definitely could still handle it!

She Junjie felt the effects of this adrenaline shot.

She Junjie's body couldn't help but tremble with excitement at this moment.

His old buddy finally had hope for a cure!

She Junjie didn't care about keeping his dignity in front of She Ruan.

"What serious tasks could this old fellow of mine possibly have!?"

"You contact Mr. Jianmu right now, tell him this old man has time whenever!"

"Whenever he is available, I'll go visit him personally!"

"Remember to be respectful enough to Mr. Jianmu, don't make him angry!"

She Ruan rarely had the chance to see the old man lose his composure in this way.

Hearing the old man's words, he couldn't help but roll his eyes.

He is dying to kiss up to Mr. Jianmu, how could he possibly make Mr. Jianmu angry?

"Dad, I'll contact Xiao Wan now so she can arrange a time, I won't disturb you coaching Jia Zhen anymore!"

Upon hearing this, She Junjie waved his hand and said.

"What's there to disturb?"

"As an uncle, even if you really become the family head of the She family in the future, you can't forget to guide your nephew."

"When the time comes for you to step down from the position of family head, Jia Zhen will have grown up."

"At that time, you must give Jia Zhen a good assist!"

Everyone in the She Family knows that She Junjie treats Jia Zhen like the apple of his eye!

She Rui had even tried to win points in front of the old man by tutoring Jia Zhen.

Just because Jia Zhen didn't like She Rui, the tutoring ended with She Junjie personally tutoring Jia Zhen.

If it weren't for the old man's age, and that Jia Zhen was still too young.

Without a couple of decades, it was utterly impossible to accomplish.

She Junjie would definitely dedicate his last stand to the position of family head, handing it over to Jia Zhen.

She Ruan was not only not repulsed by what the old man just said but was incredibly invigorated.

This meant the old man had the idea to make him the next master of the She family in his heart.

She Ruan patted Jia Zhen's wet hair on his head due to sweating, and smilingly made a statement.

"Jia Zhen, you must learn well from grandpa; the future of the She family depends on you!"

"If your second uncle becomes the family head, he will guard the She family for you, so don't make your second uncle work too hard!"

"When your second uncle gets old, he doesn't want to be a workaholic!"

These words from She Ruan were both for Jia Zhen and a declaration to She Junjie.

She Ruan stayed for a while until She Junjie finished coaching Jia Zhen, then She Ruan, Jia Zhen, and She Junjie left the Martial Arts Arena together.

She Junjie affectionately patted She Ruan's shoulder.

"This old man will go back and wait for your message, you can drop Jia Zhen home on the way!"

Chapter 412: The Golden Bull Arrives! _3

Because She Ruan made quite a commotion at an early hour, many members of the She family shifted their attention to the Martial Arts Arena.

Aside from those who had early decided to support She Ruan and She Rui, a portion of the She family remained neutral.

This group was waiting for She Junjie to make a decision before they declared their stance.

The shift in family power was both a chance and a risk.

By aligning oneself with the right person, one's position in the family could surely move up.

But if one chose the wrong ally, they could easily lose their place within the family!

She Junjie's affectionate treatment of She Ruan revitalized many people's thought process.

What exactly did She Ruan say to She Junjie when she paid him an enthusiastic visit that made him so cheerful!?

She Ruan had achieved her purpose for the trip.

According to She Junjie's instructions, she boarded the Beast Car driven by the Silver-Scaled Dragon Horse, accompanied by She Jiazhen.

Young She Jiazhen, who was doted on by She Junjie, already had his own procession.

Therefore, he did not find She Ruan's procession particularly special.

She Jiazhen initially thought that She Ruan would take him to the small residence in the south, but to his surprise, the carriage headed directly towards the remote mansion in the north.

A look of joy immediately appeared on She Jiazhen's face.

She Ruan noted the change in She Jiazhen's expression and held his hand.

"Jiazhen, your father mentioned that your mother has been doing much better recently and wanted you to come home for lunch," she said.

"I will take you there right now."

"Now your sister has made a connection with a Grandmaster Disciple, who might be able to cure your mother's illness!"

"When the time comes, your second uncle will do everything possible to make this happen!"

Whether She Ruan could become the Head of the She family had nothing to do with She Jiazhen.

While speaking with a child, She Ruan didn't need to be utilitarian, there was also no need to purposely please She Jiazhen.

These words were completely She Ruan's genuine thoughts.

It was almost certain that She Jiazhen would become the Master of the She family in future.

She would ultimately hand over the position of the She family's Master to She Jiazhen.

Only by letting She Jiazhen have healthy parents and an unblemished emotional and childhood experience, could he grow in the most positive way.

Upon hearing this, She Jiazhen felt as if he were a man who had fallen into a well and suddenly saw a rope being thrown down from the well opening.

"Second Uncle, will Mr. Jianmu be willing to save my mother?"

“Over the years, I have accumulated quite a lot of resources. Upon my return, I will organize all the resources I have and hope that you could help my sister to give them to Mr. Jianmu!”

Hearing She Jiazhen’s words, She Ruan gently shook her head.

She Jiazhen had been shielded too well by the She family; he did not understand what it meant to be a disciple of a Grandmaster Creator.

Previously, the Dragon Rising Federation had only two recognized Grandmaster Creators, but not long ago, the number increased to three.

Many forces were waiting to obtain resources from these three Grandmaster Creators.

Moreover, these Grandmaster Creators preferred to keep resources in their own hands or allocate them to forces attached to them, rather than distribute them.

This resulted in even fewer resources of Grandmaster Creators circulating on the market!

She Jiazhen indeed had many good things given to him by She Junjie. Every time it was She Jiazhen’s birthday or it was New Year, She Ruan, She Rui and other elders would give red packets to She Jiazhen.

But these easily obtainable things were mere common possessions in the eyes of a disciple of a Grandmaster Creator.

To appeal to a disciple of a Grandmaster Creator, using these goods might result in contempt from the disciple.

However, at this moment, She Ruan did not say much, just squeezed She Jiazhen’s palm.

“You keep your things, as for what needs to be done, your sister, your father, and I will think of a solution.”

After dropping She Jiazhen off, She Ruan initially wanted to call She Wan.

Recalling that She Wan had been busy until dawn and should be resting at this time, She Ruan decided to send her a text message. When She Wan wakes up, she can make an appointment with Mr. Jianmu!

When she saw Fang Mu last time, She Ruan personally felt the pride and estrangement under Fang Mu's polite demeanor.

Although Fang Mu looked younger than She Jiazhen, mentally, he couldn't be seen as a teenager at all.

When Fang Mu woke up, it was almost noon.

Not that Fang Mu could sleep in, but because he stayed up late the night before and had his soul energy drained by the Covenant Servant Soul Ant Queen.

Soul Energy needed five to six hours to fully recover.

After waking up and taking a shower, Fang Mu used the Needle Mosquito to extract his Heartblood as usual, and poured the Heartblood into the Destiny Guardian Beast Blood of Abundance.

Anticipating the condensation of the next drop of Contracting Blood.

After finishing his business, Fang Mu left his room and saw She Wan waiting at the door.

Fang Mu knew that most likely She Wan had communicated with her family and was waiting to arrange a meeting time with him.

And indeed, things were as Fang Mu had imagined.

She Wan spoke nervously to Fang Mu.

“Master, I am not sure which day you are available? My father has already spoken to my grandfather.”

“Whenever you are available, I will arrange for them to meet you!”

She Ruan had also mentioned the matter of treating Xu Yun to She Wan.

In fact, She Wan was not opposed to her family seeking Fang Mu’s help because Fang Mu exhibited an attitude that was not averse to the She family.

At that time, her father can directly ask Fang Mu for help in the form of a trade, to seek Fang Mu’s help.

There was no need for her to engage her personal feelings in this matter.

Fang Mu yawned lazily upon hearing this.

“I have nothing planned for this afternoon, so let’s schedule the conversation for this afternoon!”

“In a few days, it will be the Fisherman’s Festival, and not long after the festival, I will be heading to the Outer Realm.”

Shui Miao hadn’t contacted Fang Mu yet, but Golden Bull had called Fang Mu as soon as he woke up, asking for his precise location.

He also said that he would arrive in Lu City within two days.

Fang Mu was soon going to meet Golden Bull face-to-face after Shui Miao, the official member of Starwheel.

In fact, what Fang Mu looked forward to more than Golden Bull himself was the Sequential Spiritual Instrument, Purple Qi Nine Crane Furnace that he was about to receive!

Chapter 413: The Fortunate Opportunity of the Rainy Doll!_1

The beast spirit within the Purple Qi Nine Crane Furnace belonged to a Sequential Two Guardian Beast.

In perilous moments, the automatic protection provided by the beast spirit was equivalent to having a Sequential Two powerhouse by Fang Mu's side.

Although the Golden Bull would be accompanying him for a considerable amount of time, protecting oneself with a spiritual instrument completely under one's control is a different matter than being safeguarded by others.

She Wan was extremely excited to hear that Fang Mu would be making time for her that very afternoon.

Fang Mu setting the time immediately upon hearing her request was a display to her family of his unusual regard for her.

This would have a very positive influence on her father's and Uncle She Rui's struggle for the position of family head.

After expressing her gratitude to Fang Mu, She Wan immediately contacted her father, who was still waiting for news, to let him and her grandfather prepare themselves.

She Wan was somewhat worried. She was unsure whether her father and grandfather had prepared the reward for Fang Mu overnight.

By asking Fang Mu to plead with the Grandmaster Creator behind him, she owed Fang Mu a huge favor.

If the reward which her father and grandfather prepared was not sufficient, then she would be in quite a predicament!

Even if Fang Mu did not mind, could his master be as magnanimous when he emerged from seclusion?

She Wan did not want Fang Mu's master to feel that her association with Fang Mu was for her own benefit.

When she called, She Wan painstakingly reminded She Ruan to not overlook anything in his excitement.

She Wan finally felt relieved after She Ruan's assurances.

Aside from indulging in the local delicacies of Lu City all night, Fang Mu also packed away a considerable amount.

For a long time to come, Fang Mu would not have to eat the nutritionally balanced meals prepared by the Beastmaster Alliance!

The few chefs brought by She Wan to the mansion usually only prepared three exquisite meals a day as their work.

But ever since they arrived at Fang Mu's mansion, these chefs felt like manual laborers, having to prepare meals in an assembly line fashion daily.

Fang Mu's generous compensation was the only thing keeping the chefs from quitting out of fear and respect for She Wan and Fang Mu's status.

Fang Mu's current actions were akin to having a painter use oil paints to paint a wall.

After lunch, when Fang Mu saw that She Wan, who had been waiting at his door, had finished communicating with her family, he waved at her and spoke.

"Sister Wan, I remember you once mentioned that your Silver Void Purple Spider can directly absorb spatial energy with a purity of 80 percent or higher."

"This spatial energy can accelerate its own evolution and upgrade its rank."

Upon hearing this, She Wan replied in a somewhat peculiar manner.

“That’s correct.”

“If the Silver Void Purple Spider didn’t have such a high requirement for the purity of the spatial energy, then it wouldn’t still be just a Sequential Seven!”

The preparation of space potion is much more difficult than that of Elemental Energy Potion, and the price of one space potion is usually over four times higher than the price of a normal element potion.

It’s even more than twice the price of a Life Elixir of the same purity.

This steep price is justified, as many creators have been left frustrated by the preparation of the space potion.

This is why most creators are not fond of preparing the space potion.

It’s hard to find low-purity space potions on the market, and those who want them usually have to provide their own Space System Materials and pay creators a hefty sum for customization.

The She Family has a well-acquainted Master Creator for long-term cooperation, but like most creators, this Master Creator is very adverse to preparing the space potion.

Other members of the She Family also needed to utilize the resources provided by the Master Creator, and believed that using space potion to upgrade the Silver Void Purple Spider was wasteful.

If the Silver Void Purple Spider could lower its requirement for spatial energy to 70 percent purity for accelerated growth, She Wan could easily raise its rank with the resources of a Senior Creator.

Fang Mu had not allowed his creature, Suxi, to try making space crystals. Firstly, because he had no Space System Materials for Suxi to work with.

Secondly, he did not need any space crystals.

However, after the attack on JA City, Fang Mu wanted to raise his own strength while also enhancing She Wan's.

"Sister Wan, besides having a master, I also have two senior brothers."

"If you can get hold of Space System Materials, you might as well give them to me. I'll ask my two senior brothers to prepare the space potions for you."

"This will help you to elevate the Silver Void Purple Spider's power faster!"

She Wan, who was a member of the North-South Sky Constellation Chair as the Starwheel, had heard rumors about Fang Mu.

Other members had talked about the new official member, Libra.

But She Wan could not validate these rumors with Fang Mu.

Now that Fang Mu had confirmed this, the rumors were proved to be true.

After Fang Mu heard that her Silver Void Purple Spider needed spatial potions with purity of 80 percent to absorb faster, he made a special offer, involving his two senior brothers to mix the spiritual liquid for her.

This implied that, at the very least, his senior brothers were both Master Creators.

This was a reward from Fang Mu, but also an opportunity for her.

She Wan would certainly not act in moderation with Fang Mu on such matters.

She said thanks to Fang Mu.

“Young Master, I will definitely keep up with my responsibility as a guard once the Silver Void Purple Spider’s power is enhanced. I will devote myself to protect your safety!”

After conducting long-term experiments, Fang Mu found that Suxi was fastest at preparing a potion with a purity of 80 percent.

To promote the Silver Void Purple Spider to absorb spatial energy and raise its rank, there were no high requirements for the purity of spatial energy, as long as it was 80 percent.

Chapter 414: The Fortunate Opportunity of the Rainy Doll!_2

Fang Mu simply let Xixi prepare a large batch of space elixirs with an eighty percent purity.

This would correspond with what he had mentioned at the Starwheel gathering, that he also had two elder brothers who were Master Creators.

Shui Miao and Golden Bull were both formal members of Starwheel, and they would definitely try to learn about him from She Wan indirectly.

She Wan would not voluntarily reveal her secrets, but Shui Miao and Golden Bull were both clever.

She Wan was his guard for so long and yet had never met his master or two elder brothers.

However, if she had never heard of his two elder brothers, it was really hard to explain!

Over these years, She Wan has mainly been enhancing the strength of the Silver Void Purple Spider.

As the first Mystic Beast that She Wan contracted and coupled with her birth from the noble Lu Dushe clan.

The Silver Void Purple Spider was given the highest quality training right from the start.

She Wan did not need to consider changing her Main Battle Mystic Beast after becoming a Hexagram Beastmaster, like other Beastmasters did.

This was also why She Wan, despite having just newly contracted two Mystic Beasts, was not in a hurry to cultivate them.

She Wan had been collecting space spiritual materials as much as possible, and she had many space spiritual materials collected by herself.

She told her family about this, letting them know that Fang Mu was prepared to train her.

The family would surely take out all the space spiritual materials stored internally and give them to her, enabling her to enhance her strength as much as possible.

Fang Mu had just helped the She Family and was now willing to fully cultivate her, which made She Wan feel very fortunate.

After She Wan told She Ruan about it, She Ruan promptly informed She Junjie.

Fang Mu showed so much respect to the She family, neither She Ruan nor She Junjie dared to show off.

After preparing the gifts for Fang Mu and the resources needed for Fang Mu's help, they went to Fang Mu's dwellings as per the address given by She Wan.

Just as they were about to call She Wan at the gate, they saw Yin Nanzhen, who was on guard at the entrance.

She Wan had helped him a lot and taught him many things he needed to know to stay beside Fang Mu.

Yin Nanzhen was very grateful to She Wan in his heart, so he was very enthusiastic when facing the family members of She Wan.

Otherwise, as a driver who is a Grandmaster's disciple, he would only need to show politeness to She Junjie and She Ruan, there would be no need for such enthusiasm.

Yin Nanzhen was close to Fang Mu just like She Wan, drivers often gained the trust of their masters more easily than guards.

So, both She Junjie and She Ruan wanted to get acquainted with Yin Nanzhen.

She Junjie took out a silver spiritual instrument shaped like a brooch.

The silver brooch was very plain, only decorated with a purple-black lion head, with no other decorations.

Yin Nanzhen knew that this silver spiritual instrument contained a gift from the She family for him, and the gift inside was certainly much higher than the salary he had agreed with Fang Mu.

However, Yin Nanzhen did not take the brooch offered by She Junjie, but just smiled and nodded at She Junjie.

This was seen as accepting She Junjie's goodwill.

"Sister Wan takes good care of me usually, you do not need to be so courteous to me!"

"Let me take you in. The young master and Sister Wan are inside."

She Junjie and She Ruan saw Yin Nanzhen being nervous and Yin Nanzhen also saw She Junjie and She Ruan were equally nervous.

Yin Nanzhen had been Fang Mu's driver for less than half a month, and before meeting Fang Mu, Yin Nanzhen was a small figure who had difficulty maintaining even his livelihood.

If it weren't for the previous encounters with the Green Screen Knight Feng Lin, the Scavenger, and the Dragon Mother, Bishop Flowers,

Yin Nanzhen would have been at a loss in front of She Junjie, the current head of the Lu Dushe Family.

She Ruan had seen Fang Mu before, but She Junjie had not.

She Junjie had heard about Fang Mu and was curious about what kind of a young man it would take for a Grandmaster to value him and take him as a disciple.

Fang Mu was very young, and his character could not have been entirely polished at such a young age.

Even those low-level and intermediate creators, when choosing disciples, often did not choose those under the age of twenty.

After becoming a Beast Master, the lifespan would increase with the increase in star level. Forty years old was generally the preferred age for creators to choose disciples.

Fang Mu was able to attract the attention of a Grandmaster at such a young age, there must be something unique about him!

She Junjie was eager to see what sort of genius Fang Mu was!

Upon entering the house, She Junjie's eye was immediately caught by a young man, reading a book carefully, in the distance.

The young man was not muscular, exuding a profound bookish air.

His eyes concentrated on the book, occasionally furrowing his brows as if contemplating something.

The young man had good bone structure, indicating that he had no bad habits in his daily manners.

This focus on the book was reminiscent of academic scholarship, which is characteristic of creators.

Upon hearing the voices, Fang Mu gently closed the book, his gaze falling on She Junjie and She Ruan behind Yin Nanzhen.

He stood up leisurely and nodded politely at the two of them as a greeting.

Then he picked up the two teacups from the tea tray, filled them with the hot tea from the pot.

“Young Master Jianmu, do sit down please. Try my special Heavenly Fragrant Tea!”

Heavenly Fragrant Tea was made from dried petals of Heaven Fragrance Peony. The flower of Heaven Fragrance Peony had a refreshing and fragrant smell, and the taste of its petals was extraordinary and had a calming effect.

Chapter 415: The Fortunate Opportunity of the Rainy Doll!_3

If it weren't for the slower collection rate of Heavenly Fragrant Peony leaves compared to the Heavenly Fragrant Peony Flower Powder, Heavenly Fragrant Tea could definitely become another long-term specialty product of the Jianmu Commerce Association.

Fang Mu remained as cordially distant as before.

Just like Fang Mu initially chose not to get too close to the Yi Family, he also didn't want to get too close to the She Family.

He was unwilling to stamp his label on the She Family.

For the current Fang Mu, being intimately associated with a large force had no benefits.

She Junjie felt a sudden change in Fang Mu's temperament as soon as he closed the book.

A massive aura radiated from Fang Mu as its epicenter.

At this point, She Junjie couldn't help but marvel at Fang Mu's aura and demeanor.

Before meeting Fang Mu, She Junjie wanted to make a comparison between She Jiazhen and Fang Mu.

Now, just based on their aura and temperament, She Jiazhen, who is older than Fang Mu, has already lost.

She Junjie did not elevate his posture because of Fang Mu's politeness, instead, he respectfully bowed to Fang Mu.

"I am She Junjie, the Family Head of the She Family, greetings Mr. Jianmu!"

"This is the gift I have prepared for our first meeting!"

"I hope you, Mr. Jianmu, will kindly accept it!"

Fang Mu did not reject She Junjie's goodwill.

According to Fang Mu's understanding, it is a courtesy for a person of lower status to bring a gift when meeting someone of higher status.

Not accepting it would be like disrespecting them.

He accepted She Junjie's gift and immediately stored it into his Sequential Spiritual Instrument – the Purple Ice Crystal Ring.

The She Family has been keeping a close eye on Jianmu's news.

Although only a few days have passed, the She Family heard about Fang Mu's heroic act of blocking the attack of a Blood Race Prince with two Sequential Spiritual Instruments.

Fang Mu, at his young age, already possesses two Sequential Spiritual Instruments, which is one more than She Jiazhen.

Qixing must be treating Fang Mu like a son!

Fang Mu didn't beat around the bush with She Junjie, he got straight to the point.

He asked She Junjie to summon the Giant Toothed Whale whose origin was damaged.

When She Junjie heard this, a troubled expression appeared on his face.

After glancing around Fang Mu's room, he awkwardly spoke.

"Mr. Jianmu, my Giant Toothed Whale is nearly two thousand meters long. Although your courtyard is large, the whale's wingspan on either side is like a large wing, each reaching fourteen hundred meters."

"That's two-thirds of its body length."

"The large wings of the Giant Toothed Whale could make a mess of your courtyard."

"Moreover, there are two large holes in the belly of the Giant Toothed Whale, which oozes purple-black pus."

“This purple-black pus has a corrosive potency far greater than the beast’s blood.”

“The soil in your courtyard will certainly be corroded by the pus!”

“How about we find a place in the wild, or if you don’t mind, you can come directly to the martial arts arena of my She Family!”

As the saying goes, abruptness is the worst kind of invitation.

As the Head of the She Family, She Junjie must consider the She Family more in everything he does.

The other four major clans in Lu City won’t let it go if they can’t see Fang Mu, and certainly won’t give up on the She Family.

Gao Hong Yingren seems to be quite simpleminded, but in reality, he has ill intentions.

There are no outstanding women in the direct lineage of the Gao Family and they have not established a noble lady.

But recently, the Gao Family suddenly wants to pick a candidate for the noble lady, Gao Hong Yingren’s motive is very clear.

She Junjie has seen Gao Wen yuan, and indeed she looks good.

She is not only as beautiful as She Wan, but even surpasses her.

However, if Gao Hongying wants to befriend Fang Mu through Gao Wen yuan, I’m afraid he is daydreaming.

She Junjie once asked She Wan what exactly she was doing by Fang Mu's side.

She Wan's answer was straightforward.

She is acting as a guard by Fang Mu's side, not as a doll to be toyed with at will.

So, She Wan was chosen by Fang Mu for her strength, not her looks.

If the She Family can successfully invite Fang Mu to visit their home, it would not only be a demonstration to the other four major clans in Lu City,

but also show those families who have chosen to affiliate with the Five Clans of Lu City which family is truly worth relying on!

Fang Mu glanced at She Junjie upon hearing this, and immediately understood his intentions.

However, Fang Mu was willing to give face to She Junjie.

During this trip to Lu City, Fang Mu intends not to get too close to the She Family, but also wants to take a good look at them and get to know more about the other four major clans in Lu City.

Everyone knows that Fang Mu is a disciple of a Grandmaster Creator and thinks that with a powerful backer, Fang Mu can look down on the world.

In reality, Fang Mu's backer is actually Schrödinger's backer.

Making connections with as many forces as possible and maintaining good relations with them, has advantages and no disadvantages for Fang Mu.

"Elder She, let's go to your She Family's Martial Arts Arena!"

“I want to see what kind of toxin could make the Giant Toothed Whale continuously ooze pus and prevent its wounds from healing.”

Earlier, when She Junjie mentioned the corrosive potency of the Giant Toothed Whale’s pus, Fang Mu couldn’t help but think of extracting some toxins from the Giant Toothed Whale’s body for Rainy Doll to absorb.

If Rainy Doll could master a toxin that threatens Sequential Guardian Beasts, then Rainy Doll would be threatening to Sequential Guardian Beasts at the Silver Stage.

But this is only referring to the strength of Rainy Doll’s toxins, whether they can break through the defense of Sequential Guardian Beasts is another matter.

She Junjie and She Ruan came to see Fang Mu and did not deliberately hide their tracks.

The eyes of the other clans in Lu City have been fixed on the She Family recently.

The news of She Junjie’s departure with She Ruan was immediately known by the other four families.

Who She Junjie and She Ruan could visit was self-evident.

Fang Mu’s appearance is already widely known among the four major clans and is not a secret.

Now that they all saw Fang Mu, She Junjie, and She Ruan get into the same Beast Car together, heading towards the She Family.

The four major clans suddenly felt a sense of crisis.

The Family Heads of the four clans realized that the originally balanced situation was disrupted.

Now, the only way to keep their own family from being thrown away by the She Family is to make as much effort as possible to forge a relationship with Fang Mu.

To become an interest community with Fang Mu!

Chapter 416: Inviting the Moon to Support Mulberry!_1

Gao Hongying listened to the housekeeper's report, his expression becoming serious.

She Junjie is proud and has always been She Ruan who communicates with Jianmu.

She Ruan should be the one to invite Jianmu to the She family as a guest, She Junjie didn't need to accompany him.

She Junjie's personal trip indicates that he and Jianmu have formed a mutual interest.

Could it be that She Junjie invited Jianmu to help treat the Giant Toothed Whale!?

If that's the case, the relationship between the She family and Jianmu is clearly beyond his original expectations.

If She Ruan invited Jianmu to help She Junjie cure the Giant Toothed Whale, what does She Rui have to do with the position of She Family's Master?

Gao Hongying always thought that She Wan became Jianmu's guard, but he didn't necessarily have a real friendship with Jianmu.

Now that the relationship between She Wan, She Ruan, and Jianmu is clear, it seems oblivious to threaten She Ruan with the support of Gao Family.

It seems necessary to change the original plan.

After She Wan became Jianmu's servant, she could bring so many Grandmaster Creator resources for the She family, then Gao Wenyan could do the same once he becomes Jianmu's servant.

This reaffirmed Gao Hongying's intention to connect Gao Wenyan with Fang Mu.

Youths often tend to be emotional. Once attracted by beauty, they often spare no expense to win the heart of the person they're attracted to.

Using emotions to indirectly control a young person is easier and more efficient to obtain resources than trying to please an individual of noble status.

In Gao Hongying's eyes, Gao Wenyan had already been trained to be a perfect lover.

He couldn't force She Ruan to invite Jianmu to attend the Gao Family's banquet, but he could bring Gao Wenyan to the banquet held by the She Family.

Anyway, he'd already announced that Gao Wenyan was a noble lady of the Gao family, so Gao Wenyan's attending the She family gathering wouldn't be abrupt.

Even if the She family couldn't invite Jianmu, they could still find a chance to meet him at the Fish and Sea Festival.

This year's Fish and Sea Festival is the grandest one in recent years, and Jianmu can't refuse to attend it.

Since Gao Wenyan was designated as a noble lady of the Gao family by Gao Hongying, her status has been elevated and she's received a large amount of resources from the Gao family.

Now, no one dares to gossip about Gao Wenyan anymore!

It would've not be appropriate for Gao Wenyan to take action against those who once gossiped about her, so Gao Wenyan supported some to deal with those gossips.

Her trustworthy contacts dealing with those gossipers, it's none of her business anymore!

Gao Wenyuan was clear that Jianmu being personally invited by She Junjie and She Ruan would disrupt Gao Hongying's plans.

The purpose of her rise under Gao Hongying was to hitch up with Jianmu.

If she lost that function, Gao Hongying could easily kick her out of her position as a noble lady in the Gao Family.

The Gao family has been doing well for many years without a designated noble lady.

Seeing Gao Wenyuan's anxious expression, Gao Hongying's brows suddenly wrinkled.

Gao Hongying didn't care about Gao Wenyuan's manipulations, rather, in his eyes, her deep thoughts and strategies can be seen as an advantage.

But Gao Hongying could't dismiss Gao Wenyuan if she lost her composure.

Once she loses her composure, she would lose the face of a noble lady from a top-notch power.

As far as Gao Hongying knows, Jianmu is an ordinary individual who suddenly rose to prominence after being chosen by a Grandmaster Creator.

Treating an older woman like She Wan with such importance that he would ask for resources from his master for her, this was probably because of She Wan's status as a noble lady from the She family.

Gao Hongying pegged Fang Mu as naive and in love in his heart.

Similar scenes were unfolding in the old houses of the Zhao, Wu, and He families.

Outside of these prominent Lu City clans, both those powers that can and can't rise to the stage also felt their hearts racing.

The trip of a Grandmaster Disciple to Lu City pulls many heartstrings.

Upon arriving at the She family's old house, Fang Mu could tell from the quality of the buildings the depth of the She family's roots.

Four mulberry trees named Inviting the Moon to Support Mulberry were planted behind the main entrance of the house.

All plant-type beastmasters from the mulberry classification are auspicious.

The Inviting the Moon to Support Mulberry is the best of the mulberry beastmasters, which can condense the essence of the moon into Moon Dew on a full moon night.

Moon Dew as a unique, light-attribute dew, has numerous effects, and a single drop could be sold at a high price of tens of thousands of Dragon Rising Coins.

Which is much higher than Red Jade Mountain Tea.

The Falling Jade Camellia only has the qualification to level with it when it has evolved from the Red Jade Mountain Tea.

Yin Nanzhen was fixated on these Inviting the Moon to Support Mulberry.

If he could have an Inviting the Moon to Support Mulberry, use the Moon Dew condensed on a full moon night by the Inviting the Moon to Support Mulberry to wash away the dark atmosphere that had been infected with, he wouldn't have to worry about the light-attribute potions anymore.

The Moon Dew condensed by the Diamond Rank Inviting the Moon to Support Mulberry contains around 75% of Light Elemental Energy.

10 drops are equivalent to a Light Element Potion carefully prepared by an experienced Senior Creator.

In addition to the four mulberries named Inviting the Moon to Support Mulberry, there was also a Glazed Well.

The well is entirely made of Warm Wind Glaze.

There are Morning Glory flowers that bloom all year round planted around the Warm Wind Glaze well.

The subtle fragrance of Morning Glory is spread throughout the entire She household by the gentle breeze blown out by the Glazed Well made of Warm Wind Glaze.

It's like a central air conditioning system in the Beastmaster world.

Warm Wind Glaze has the effect of insect repellant, moisture retention, and gradually refining the impurities in the body.

Chapter 417: Inviting the Moon to Support Mulberry!_2

In terms of purity removal from the body, the Warm Wind Glaze can be considered as an item on the same level as the sacred relic, Sakura Tempering Carp.

It's also a vital asset to the She Family.

The She Family dared to place the Warm Wind Glaze well here as a means of showing off their family's foundation.

The She Family had the power to ensure the safety of the Warm Wind Glaze well.

She Ruan had initially wanted to introduce Fang Mu herself, but She Junjie didn't give her the opportunity.

As the Family Head of the She Family, She Junjie took the initiative to introduce the She Family's arrangements to Fang Mu, presenting a gracious guest-hosting appearance.

She Rui had heard early in the morning that She Ruan was going to meet She Junjie with a full ceremonial procession.

She Rui had always been very confident in his struggle for the position of family head.

Before She Wan became Fang Mu's guard, She Rui couldn't think of any reason why he would lose to She Ruan.

It was only after She Ruan formed a connection with Fang Mu that She Rui became nervous.

Otherwise, under absolute advantages, She Rui would not seek outside help against She Ruan.

This inevitably would upset She Junjie.

But in comparison with his father's view of him, She Rui cared more about the support he received from the rest of the She Family.

In his father's eyes, there was only She Jiazhen, and She Jiazhen was She Long's child.

They were in different teams from birth.

Seeing She Junjie treating Fang Mu in this way, She Rui's heart chilled.

However, She Rui still quickly stepped forward to greet Fang Mu and followed behind She Junjie, walking beside She Ruan.

She Ruan frowned at this, cursing in her mind.

She Rui was too cunning! Trying to make people in the family think he also has an uncommon relationship with Mr. Jianmu, able to stand in such a team.

She Ruan wanted to tell She Rui to go away.

But doing this in front of her father would seem very rude.

And it might spoil Fang Mu's interest in visiting the She Family.

So She Ruan had to endure She Rui walking beside her.

She watched as She Rui kept making provocative gestures at her, apparently full of fighting spirit.

But She Ruan knew that She Rui must be quite uneasy.

En route to the She Family's Martial Arts Arena under She Junjie's guidance, more and more direct descendants of the She Family gathered behind Fang Mu.

Fang Mu looked back at She Rui who was walking with She Ruan and directly said to She Junjie.

"When I examine the injury of the Giant Toothed Whale, I don't like to be disturbed. Elder She and Sister Wan, just the four of us should go in together!"

"Tell everyone else to disperse!"

Fang Mu's voice was loud and full of energy.

Most of the direct descendants following behind heard his words.

She Ruan's face lit up with joy, while She Rui's face instantly darkened.

Fang Mu's words completely shattered the equal standing image She Rui had been deliberately creating with She Ruan.

At the same time, he found out that She Ruan had invited Fang Mu through She Wan to come and help heal the Giant Toothed Whale.

It's over! Everything is over!

If Fang Mu were not a disciple of the Grandmaster Creator, She Rui would definitely try to drive a wedge between Fang Mu and She Ruan.

Now, not just him, but the whole She Family doesn't qualify to play mind games with a disciple of a Grandmaster Creator!

She Rui could feel the change in the gaze of many people around him.

This feeling made She Rui feel extremely humiliated but he could do nothing about it.

Fang Mu ignored the emotional changes of She Rui.

Because of She Wan, Fang Mu would certainly support She Ruan more than She Rui.

However, Fang Mu shouldn't appear too close to She Ruan, otherwise, She Junjie might suspect Fang Mu of plotting against the She Family.

The She Family wanted to benefit from him but didn't want to turn the whole family into his servants.

All he needed was to give She Ruan a helping hand on her journey to becoming the family head of the She Family.

His words just now would surely make She Ruan indebted to him.

Later, when She Ruan became the head of the She Family, she would repay him when he needed to utilize the She Family.

Compared to the power struggle within the She Family, Fang Mu was more concerned about the poison inside the Giant Toothed Whale.

Because this involves the enhancement of his own strength.

When they arrived at the Martial Arts Arena, She Junjie immediately summoned the Giant Toothed Whale and then looked expectantly at Fang Mu.

Eager to know whether his Destiny Guardian Beast, the Giant Toothed Whale, had a chance of being cured.

Fang Mu's ears were bombarded with a long whale sound. The momentum contained in the sound almost knocked Fang Mu to the ground.

Ever since he came to the Beastmaster world, Fang Mu had never come into such close contact with such a huge and powerful Guardian Beast.

The Dragon Mother's Dragon Beast may be stronger than the current Giant Whale, but there was considerable difference in size.

Moreover, Fang Mu had only seen the Dragon Mother's Controlling Beast, Red Armor, from afar, without the opportunity of a close inspection.

The aura of this whale was far stronger than the Tile Bone Stinger and Withering Cold Tyrant Octopus Fang Mu had encountered before.

Fang Mu speculated that the strength of this Giant Toothed Whale was at least equivalent to a rank five or even stronger.

She Junjie was not exaggerating at all.

The Giant Toothed Whale had a body length of at least two thousand meters, with its giant wings covering nearly half of the Martial Arts Arena.

Chapter 418: Inviting the Moon to Support Mulberry! _3

Whale-typed Divine Beasts are known for their massive size, but a creature over two thousand meters long with wings spreading to more than three thousand meters should be considered quite large even amongst these beasts, right?

Just as this thought crossed Fang Mu's mind, he quickly shook his head.

Because Fang Mu remembered the paintings of a giant whale that could support a city-state on its back. That was a true patriarch among whale-typed divine beasts.

The Giant Toothed Whale was named for its huge teeth, as Fang Mu observed, each tooth exposed was nearly fifty meters long.

If the Giant Toothed Whale's teeth were sawed off, each one could be erected in a square as a landmark tower building.

The skin of the Giant Toothed Whale is like rock ridge on the mountains.

From the moment the Giant Toothed Whale was summoned, it had been continuously wailing, like a grieving mammoth beast.

It didn't take long for Fang Mu to be hit by a horrible stench, very different from the usual odor of decay.

This stench was fresh, akin to the smell of a wound rotting and festering after surgery, even though the person was still alive.

Fang Mu didn't immediately respond to She Junjie, She Ruan, and She Wan's gaze. Instead, he walked toward the Giant Toothed Whale.

Fang Mu wanted to examine the details of the Giant Toothed Whale's wound.

For a Diamond Level Beast Master like him, he could investigate with the Eye of Omniscience, his Destiny Guardian Beast's natural divine powers.

However, facing this Sequential Spiritual Instrument, the Giant Toothed Whale, Fang Mu could only analyze its condition relying on his own abilities.

As a high-level Sequential Spiritual Instrument, the Giant Toothed Whale had an intelligence even higher than that of humans.

Its body was constantly ravaged and tortured by the never-healing wound, rendering the Giant Toothed Whale barely able to execute battle commands.

All of this was eroding the Giant Toothed Whale's willpower.

Now, having finally met someone who might be able to save it, the Giant Toothed Whale tried its best to control its own aura, gradually lowering its body.

The gigantic whale eyes, with diameters of more than ten meters, fixed on Fang Mu, filled with gratitude.

Fang Mu reached out to touch the Giant Toothed Whale's body, then walked stoically toward the location of the wound.

Fang Mu found no maggots in the pus from the Giant Toothed Whale's wound.

Maggots simply couldn't withstand the poison infecting the Giant Toothed Whale's wound.

The Giant Toothed Whale was probably using its internal energy to fight against the poison in the wound, preventing the poison from spreading.

As Fang Mu was assessing the condition of the Giant Toothed Whale, he was also communicating with Xixi.

Xixi would be the primary physician treating the Giant Toothed Whale.

Xixi was communicating with Fang Mu in his mind.

"So much garbage, Fang Mu! Just allow me to enter this big garbage's body, suck out those toxic substances that are harming the big garbage, cleanse the big garbage's body, and it will be fully recovered!"

With Xixi's reassurance, Fang Mu gathered his confidence.

After confirming that he could treat the Giant Toothed Whale, Fang Mu didn't leave right away. Instead, he carefully observed the pus at the wound.

The temperature at the wound was at least thirty degrees higher than the surrounding area.

Fang Mu, standing next to the Giant Toothed Whale's wound, experienced a feeling like being in a sauna.

This indicated just how corrosive the poison inside the Giant Toothed Whale was.

A poison with such strong corrosive power, when sprayed on the skin of a diamond-level beast master, would corrode the surface of the skin and shell, even of a divine beast known for its defense.

Fang Mu had always thought that as his own strength continued to grow, Yan Yubanruo would take over the flag of his Main Battle Mystic Beast.

Now it seemed that Rainy Doll was still his Main Battle Mystic Beast!

Fang Mu strolled leisurely over to She Junjie, and spoke directly to him.

“I initially thought that treating the wound of the Giant Toothed Whale would require a personal visit from my master once he finishes his seclusion, but the healing of the Giant Toothed Whale turns out to be far less troublesome.”

“My master gave me a special detoxifying elixir to prevent me from being poisoned during my travels.”

“One bottle of this elixir is to be administered to the Giant Toothed Whale, and another one to be mixed with a Life Elixir with a purity above ninety percent and applied to the Giant Toothed Whale’s body!”

“Of course, before this I need a special way to remove the rotten flesh on the Giant Toothed Whale’s wound.”

“The She Family should have some high-grade Sleep Moss, right? Give dozens of them to the Giant Toothed Whale to consume.”

“By the time the Giant Toothed Whale wakes up, the poison should be cleared!”

What She Junjie feared the most was Fang Mu shaking his head at him after checking the Giant Toothed Whale’s wound.

Most people She Junjie had sought to treat the Giant Toothed Whale had reacted this way.

She Junjie didn't want to see that response again.

Each time this happened, it was like shattering She Junjie's hopes.

Now, She Junjie held little hope for the recovery of the Giant Toothed Whale.

If Fang Mu shook his head, it meant a Grandmaster Creator was rejecting the possibility of treating the Giant Toothed Whale. That would mean She Junjie would lose all hope for the Giant Toothed Whale's recovery in this lifetime.

Compared to running around seeking help, it was hopelessness that was truly terrifying!

Looking at the Giant Toothed Whale, whose giant whale eyes were filled with tears of excitement, She Junjie's eyes began to well up with tears as well.

She Junjie knelt on one knee and made a fist salute to Fang Mu, saying,

"I will always remember your great kindness! If you need anything in the future, don't hesitate to find me."

"I will give it my all!"

"Once I step down from the position of the Family Head of the She Family, I will become a free man."

"I would like to live a life full of passion in my old age."

Fang Mu understood what She Junjie meant by his words.

She Junjie intended to join him, like She Wan, after stepping down as the head of the She Family.

If it had been just after the threat from the Evil Heart Sect and before he had acquired the Sequential Spiritual Instrument, Purple Qi Nine Crane Furnace, Fang Mu would have been very happy and would consider it.

But now, for the protection of his own safety, the Golden Bull was undoubtedly a better choice.

This made She Junjie's presence at his side somewhat superfluous.

Moreover, accepting She Junjie would essentially tie the She Family's interests to himself.

Fang Mu did not want this, so he directly rejected She Junjie's suggestive offer to follow him.

Chapter 419: What is Silver Chrysosplenium Stamen Cassia!?!_1

"Elder She, if you want to experience some of the passions of the martial world, why not gather a few old friends and create an adventure group?"

"To explore ancient battlefields or fight for human welfare, to clear out Dimensional Rifts."

"As a young person, it's not yet time for me to experience those passions."

Upon hearing Fang Mu's words, She Wan heaved a sigh of relief.

If her grandfather were to serve as Fang Mu's servant, what would her position be?

She Wan didn't think there was anything improper with serving as Fang Mu's guard.

But if her grandfather also served as Fang Mu's guard, She Wan would definitely feel uncomfortable.

This was why major powers arranged for members from side branches to serve them generation by generation, and rarely did they engage two generations of servants at once.

After hearing Fang Mu's words, She Ruan immediately sent someone to prepare Sleep Moss.

Sleep Moss, a plant-type beastmaster used for anesthesia, is extremely easy to cultivate.

A single split of a Diamond Rank Sleep Moss can yield several Platinum Rank ones.

Once Sleep Moss was obtained, She Junjie personally pacified the Giant Toothed Whale.

The Giant Toothed Whale obediently opened its mouth, waiting for She Junjie to feed it the Sleep Moss.

After consuming the Sleep Moss, it'll fall into an unconscious state, completely unaware of its surroundings until it awakes.

The whale looked forward to the moment of its recovery, anticipating a return to good health.

She Junjie was well-aware of the resources needed to heal the Giant Toothed Whale.

He'd personally visited the Grandmaster Creator Guild Headquarters in the Capital many times to meet with Sect Master Xiao Xiang.

After examining the Giant Toothed Whale, Sect Master Xiao Xiang informed She Junjie that a minimum of ten vials of Life Elixir – with a purity above ninety-two percent – and a special detoxification method were required.

Due to the longevity of the original injury, to prevent a decrease in the bloodline quality of the whale, it would be best to ensure its bloodline with two vials of the Water Elemental Potion with a purity of ninety-four percent during the healing process.

Sect Master Xiao Xiang didn't choose to treat the whale for She Junjie after stating the price, leaving the latter deeply disappointed.

Considering his relationships with Grandmaster Creators, She Junjie believed his ties to Xiao Xiang were the closest.

Seeing Sect Master Xiao Xiang refuse to help, She Junjie was sure that others would act no differently.

Being one of the five clans of Lu City, She Junjie was indeed capable of paying the Dragon Rising Coins corresponding to Sect Master Xiao Xiang's quote.

However, Grandmaster Creator resources could never be measured in Dragon Rising Coins.

Now, Fang Mu was willing to help, and he even had sufficient Elixirs on him.

This situation exceeded She Junjie's original expectations.

Even after raising Jianmu like he was his biological son, would Qixing really let him have this many Master-Level Maker resources?

Could it be that Qixing's Grandmaster Creator level had surpassed everyone's expectations?

Otherwise, even if he pampered his disciple, he most likely wouldn't have so many Elixirs to give him for usage.

She Junjie had been pondering whether She Wan had only established a relationship with the Grand Master's disciple instead of the Grand Master himself.

How much resources She Wan could obtain from a Grandmaster's disciple was worth pondering over.

At this time, She Junjie realized that his worries were unnecessary.

The relationship She Wan built with Jianmu, a disciple of a Grandmaster Creator, might yield her more benefits than connecting directly with a Grandmaster Creator.

One who is not a Grandmaster Creator and has never personally crafted a Grandmaster-level Potion wouldn't understand the rarity and costliness of the materials used in it.

The high price of the Grandmaster-level Potion was directly connected to the rarity and expensiveness of its materials.

Just like a child will never truly understand the importance of saving money, like an adult does.

Being a Grandmaster that mixes his own concoctions, Qixing would certainly be more cautious when using Master-level Maker resources by comparison to Jianmu.

If he had known this was the case, why did he bother organising a competition between She Rui and She Ruan?

He should've just directly appointed She Ruan as the next She Family's Master!

He could help establish She Ruan's authority, should anything happen, he could step in.

Him establishing the authority for She Ruan would be enough for Ruan to hold the position until it was time to pass it on to She Jiazhen.

Not long after the Giant Toothed Whale swallowed the Sleep Moss, it began to snore loudly.

Listening to the thunderous snoring near his ear, Fang Mu felt his eardrums tingling.

The snoring of a large creature in slumber couldn't be halted, Fang Mu thought to himself.

When he goes to treat the Giant Toothed Whale's wound with the healing doll, he better stuff some cotton balls in his ears.

Otherwise, the whale's snoring would definitely harm his hearing.

Fang Mu looked at She Junjie, She Ruan, and She Wan, and then requested them to leave.

"Please leave the Martial Arts Arena and give me some space."

"Make sure nobody disturbs me."

"Otherwise, if the Giant Toothed Whale's injury can't be healed or its original wound worsens, you'll have to bear the consequences."

As the Martial Arts Arena of the She Family was fully enclosed, using it to heal the Giant Toothed Whale with the ready-made Elixirs seemed to be a good idea.

There was no need to move the already unconscious whale any further.

The process of transportation would lead to a loss of pus and blood from the wound. Fang Mu didn't want to waste such good stuff that could enhance the Rainy Doll's toxicity.

Upon hearing Fang Mu's words, a grin crept onto She Junjie's face that he could no longer hide.

With a face full of delight but also seriousness, She Junjie made a promise to Fang Mu.

"Mr. Jianmu, rest assured, I won't let anyone enter the Martial Arts Arena and disturb you!"

"Could you please tell me how much time you might need to complete the Giant Toothed Whale's treatment?"

Chapter 420: What is Silver Chrysosplenium Stamen Cassia!? _2

"The Wan Yu Festival is in two days. I'm afraid you might not make it in time if you want to be part of the first batch!"

The Wan Yu Festival is an official festival held by Lu City, but it has always been led by the Five Clans of Lu City.

She Junjie has no power to delay the timing of the Wan Yu Festival.

If he tells the officials of Lu City about the situation, they might make adjustments in terms of timing because of Mr. Jianmu's status.

But if he does this, it wouldn't be his own reputation being wasted, but that of Grandmaster Qixing.

Should the Wan Yu Festival be postponed due to this reason, there would inevitably be public opinion spreading around.

The Wan Yu Festival is a festival for the whole Lu City and even the entire Dragon Rising Federation. Apart from the local forces in Lu City, many foreign forces also send representatives to choose Guardian Beasts at the Wan Yu Festival.

If my actions thrust Mr. Jianmu into the limelight, I'm afraid that Grandmaster Qixing will confront me first when he comes out of seclusion.

She Junjie does not believe that he or the She Family can withstand the wrath of a Grandmaster Creator.

He doesn't want his manipulations to cause She Wan to lose the chance to continue working with Mr. Jianmu.

Fang Mu, after carefully inspecting the injury of the Giant Toothed Whale, estimated that cleaning it with the suction would only take two to three hours.

After cleaning the wound, Fang Mu only needed to apply a portion of the Life Elixir to the wound of the Giant Toothed Whale, and feed the beast the rest.

“The detoxifying elixir my master prepared is very effective and won’t take much time,”

“The Giant Toothed Whale’s core energy will recover by tonight.”

“I will use some high-purity Water Elemental Potion during the treatment to ensure that the Giant Toothed Whale’s bloodline won’t degrade.”

“I am doing all these for Sister Wan’s sake.”

Seeing She Junjie about to thank him, Fang Mu waved him off, indicating She Junjie to leave.

He shouldn’t disturb Fang Mu while he is healing the Giant Toothed Whale.

Leaving the Martial Arts Arena, She Junjie looks at She Wan admiringly, patting her shoulder.

“Xiao Wan, Grandpa needs to thank you earnestly!”

“Without you, there would be no chance of healing the Giant Toothed Whale!”

Upon hearing this, She Wan quickly waved her hands and said,

“Grandpa, you’re thanking the wrong person. I haven’t said many good things on behalf of the family while I’m with the young master.”

“As you know, it’s improper to always ask the young master for favors for the family.”

“It could not only fail to bring the family benefits but might also be harmful.”

“It’s the young master who favors the She Family. We must never be ungrateful and betray him!”

“The young master has again given us high-purity Water Elemental Potion. By rights, these should be counted in the reward.”

It is said that young women tend to favor outsiders, which is usually not appreciated by major forces.

Yet at this moment, She Junjie was thinking that being partial to outsiders is good!

Only someone like She Wan, with her character, being around Mr. Jianmu, is likely to be highly valued by him!

“Don’t worry, the reward is in that silver spiritual instrument. It will certainly be more generous than Mr. Jianmu’s contributions.”

“You don’t need to tell me this. I understand!”

When She Junjie thought about the reward he prepared for Mr. Jianmu, he was quite confident.

She Junjie was sure that after Fang Mu finished treating the Giant Toothed Whale, he would definitely have a higher regard for the She Family.

Actually, She Junjie had put the reward for Mr. Jianmu in the same silver spiritual instrument that contained the meeting gift, and there was a bit of his own strategy in it.

She Junjie was thinking that even if Mr. Jianmu found the injury of the Giant Toothed Whale too severe and didn’t want to restore its core energy, he might change his mind after seeing the reward he prepared.

As the Family Head, She Junjie had always been racking his brains for the development of the She Family his entire life; spending more of the She Family’s resources to heal the Giant Toothed Whale seemed justifiable to him.

Once the Giant Toothed Whale was healed, it would essentially mean an enhancement of the She Family's combat power.

At this moment, Fang Mu had already used cotton balls to plug his ears, and underneath the booming snores of the Giant Toothed Whale, inserted the suction device into its purple-black wound.

Upon investigation, Fang Mu found that as a Mechanical Beast, the suction could freely change its body structure.

The Mechanical Heart of the suction spun rapidly, sending numerous gears shooting out,

These gears directly extended the handle Fang Mu was gripping, so that he didn't need to let go of the handle when the suction went inside the Giant Toothed Whale.

To the suction, trash was no different from anything else; it scrubbed the rotting flesh with its metallic hairs inside the Giant Toothed Whale and slurped up the corrosive, stinky, purple-black pus.

About ten minutes later, the suction had cleaned the surface wound of the Giant Toothed Whale, revealing the fresh red whale flesh underneath.

The bright red whale flesh kept pulsating. Given the Giant Toothed Whale's healing ability, Fang Mu could clearly see the regenerating flesh, striving to close the wound.

But, soon, the inner toxin mixed with pus and blood began to flow out, polluting the wound again.

Under normal circumstances, Fang Mu should have let the suction go deep into the wound of the Giant Toothed Whale and clean it from inside out,

But he let the suction clean from outside in because he had his own reasons.

By doing this, Fang Mu could allow the suction to absorb more special toxin crystals,

Although this might deplete some of the Giant Toothed Whale's Life Energy, Fang Mu could use the Life Elixir to make up for the loss.

It wouldn't truly harm the Giant Toothed Whale.
