

## **Beast Tamer 501**

Chapter 501: Unbreakable Good Cards! \_2

Furthermore, Fang Mu had also informed his master about the situation with the whale-type Guardian Beast.

Even Qixing Grandmaster showed interest in this whale-type Guardian Beast!

Could this be the financial power of a Grandmaster Creator!?

A Master and Disciple duo could nonchalantly spend 5.5 billion Dragon Rising Coins to purchase a Guardian Beast!

Simultaneously, there was a sense of loss in Gao Hongying's heart.

Gao Hongying had thought that Fang Mu would offer a Grandmaster-level or Master-level elixir as a barter due to a shortage of liquid cash when he quoted a price of 5.5 billion Dragon Rising Coins.

Trading for money instead of Creator resources did not match Gao Hongying's ultimate goal.

Fang Mu did not have the time to ponder over Gao Hongying's thoughts. In Fang Mu's mind, Gao Hongying was a wrongdoer meant to be harvested.

Sins must be paid for, and leeks must be harvested as expected!

After Fang Mu made the call to Shui Miao, the invasion of Lu City by the Sea Clan had finally come to a stop through Shui Miao's negotiation.

No more seawater was flooding Lu City, allowing all major forces to assist the distressed citizens of Lu City without worries.

In just half an hour, more than 1.5 million Lu City citizens were rescued.

The Kui Shui Nong Chan Squadron finally had a chance to breathe.

The Sea Defense Corps deployed a considerable amount of their supply reserves to feed the Bursting Water Toads, replenishing the energy that they had exhausted.

They worried that the Sea Clan would continue their attack on Lu City later on.

By that time, the Kui Shui Nong Chan might lose its ability to fight back due to lack of proper restoration.

As the deputy leader of the Sea Defense Corps, Li Yuanchao was utterly confused by the sudden halt in the Sea Clan's attack.

Li Yuanchao had no idea why the Sea Clan had suddenly launched an attack on Lu City as if on a suicide mission.

He was initially preparing to mobilize all the power of the Sea Defense Corps and reclaim 5000 square kilometers of land under the assault of the Sea Clan.

This would ensure that more victims could be rescued.

There were many official Lu City supply warehouses within the range of 5000 square kilometers defended by the Sea Defense Corps.

Those supply warehouses must not fall into the hands of the Sea Clan by any means.

But even before Li Yuanchao could convene an internal meeting of the Sea Defense Corps and pass down the decision,

The Sea Clan's attack on Lu City had suddenly ceased.

This left Li Yuanchao feeling like he was dreaming.

However, as the deputy corps leader, his professionalism and duties compelled him to promptly issue the correct orders.

Just as Li Yuanchao was set to make contact with the Sea Clan again officially, to see if the Sea Clan was willing to negotiate with Lu City's official authorities,

Shu Liangjun found Li Yuanchao.

Given the situation, Li Yuanchao should've seen no one, and should've been entirely focused on the deployment of the Sea Defense Corps.

But Li Yuanchao knew that this elder who came to him was a person following Fang Mu, and that there likely was crucial news from Fang Mu's side that he wanted to communicate.

Without hesitation, Li Yuanchao welcomed Shu Liangjun.

Shu Liangjun usually detested negotiations with officials from various federations.

However, because the Dragon Rising Federation was Fang Mu's hometown, and possibly Qixing's hometown as well,

Otherwise, Shu Liangjun felt that Qixing wouldn't have agreed to pour out so many resources for the Dragon Rising Federation if he had no emotional attachment to it.

Therefore, Shu Liangjun patiently spoke to Li Yuanchao.

"The Sea Clan's current attack isn't just a temporary halt; the Sea Clan's assault on Lu City is likely over."

"Lu City should promptly assess its losses!"

Upon hearing Shu Liangjun's words, a weight lifted from Li Yuanchao's heart, but he seriously asked,

"Is this news something that Mr. Jianmu wanted you to tell me?"

Having heard the question, Shu Liangjun observed Li Yuanchao for a while before nodding.

Shu Liangjun felt that Li Yuanchao asking this question was more of him wanting Fang Mu to take on the risk rather than wanting to confirm the accuracy of the news.

In case the Sea Clan continues with the attack, Li Yuanchao, due to the misinformation from his side, would then have something to complain about.

But Shu Liangjun didn't want to give Li Yuanchao that chance.

"This information indeed comes from Mr. Jianmu's directive, but no one can guarantee absolute accuracy."

"After all, anyone can change their mind after making a decision."

"My suggestion is just what I feel should be done currently."

"You are the deputy corps leader of the Sea Defense Corps; whether the Corps continues preparation for war, joins the rescue operation, or assesses the losses really depends on your decision."

Li Yuanchao was taken aback by Shu Liangjun's words, and he felt as if the elder in front of him had misunderstood something.

Li Yuanchao didn't choose to defend himself, as all his thoughts were on something else entirely at the moment.

“Indeed no one can guarantee the absolute accuracy of information, but you should know the reason behind the Sea Clan’s halting of the attack.”

“As the deputy leader of the Sea Defense Corps, I need to understand the reasoning behind the Sea Clan’s cease of attack. I hope you can let me know!”

“Someone must take responsibility for this disaster against Lu City!”

Li Yuanchao’s words were firm, he was determined to get some answers out of Shu Liangjun.

Thinking about Fang Mu’s instructions, Shu Liangjun said,

“This matter involves a powerful figure in the Sea Clan from the Han Yang Empire; we were able to mediate and adjust the situation.”

“A few hours will be needed to finalize the situation.”

“But don’t worry, someone will definitely be held responsible for this disaster against Lu City!”

“You just be patient and wait a bit.”

Chapter 502: Unbreakable Good Cards! \_3

Upon hearing this, Li Yuanchao’s eyes flickered continuously, and eventually, he asked solemnly.

“I need two guarantees from you.”

“First, the Sea Clan will not attack Lu City again.”

“Second, there must be someone or a force to take responsibility for this conflict!”

On hearing Li Yuanchao’s words, Shu Liangjun’s brows furrowed suddenly.

“I don’t have to promise you anything, and neither does Jianmu!”

“If we hadn’t been coordinating with the local strongmen of Lu City for defense, even if Lu City could hold on, it wouldn’t be as intact as it is now!”

“Jianmu, in order to lift spirits, has generously doled out a large amount of creators’ resources.”

“These Advanced Creator’s resources, worth over ten billion Dragon Rising Coins scattered throughout Lu City, are the best explanation!”

“If you are unwilling to wait, you may proceed with negotiations with the Sea Clan.”

After saying these words, Shu Liangjun vanished in a flash, not giving Li Yuanchao a chance to respond.

Li Yuanchao pondered over Shu Liangjun’s words for quite a while, then gritted his teeth, preparing to report the situation.

He also planned to follow Shu Liangjun’s suggestion and offer aid while also assessing the specific damages incurred by Lu City.

Shu Liangjun did not wait with Shui Miao for the Soul Whale Princess, but instead returned to Fang Mu’s side.

He was prepared to closely guard Fang Mu’s safety.

Shu Liangjun already knew that one of the offspring of the Soul Whale Princess had been kidnapped by the Gao Family, causing its essence to be damaged, almost turning it into a cripple.

To Shu Liangjun, the actions of the Sea Clan seemed understandable.

Had it not been for Fang Mu's assurance that he could heal the injured offspring, Shu Liangjun would have feared that the Soul Whale Princess would have lost control after seeing the condition of the Wave Soul Horned Whale.

Fang Mu must have already communicated his confidence to Master Qixing.

Suddenly, an idea occurred to Shu Liangjun, and he said to Fang Mu who was beside him:

"Ah Mu, if you can guarantee to heal the essence of the Soul Whale Princess's offspring, why not simply form a creature contract with it?"

"This way, you and the Soul Whale Princess's offspring are bonded in life and death, and she can't do anything to you!"

"This is a Guardian Beast that someone can only dream of!"

"I remember you have a Half-Elf of the Water System. With your affinity, you would likely be able to contract with this small whale."

Advanced Guardian Beasts are reluctant to form contracts with humans due to the limited lifespan of humans.

In Shu Liangjun's view, Fang Mu's master, Master Qixing, had already solved the problem of lifespan, so Fang Mu need not worry about lifespan.

A disciple of a grandmaster creator who can easily offer resources of a grandmaster creator level must certainly be able to cultivate guardian beasts with a substantial amount of resources.

Once Fang Mu contracts with the Wave Soul Horned Whale, the resources that he can use to cultivate it far exceed those that the Soul Whale Princess could provide.

Except for guardian beasts like the Elf species, Fairy species, Angel species, Demon species, which inherently take human form upon maturity,

Other guardian beasts do not possess the qualification to take human form.

Only Guardian Beasts from the fifth or sixth Epoch have appeared as creators.

Even the most powerful Guardian Beasts of the present time cannot become creators due to a lack of spiritual energy.

As a result, powerful guardian beasts can only feed their offspring with spiritual materials for their upbringing.

But from a nurturing perspective, the Wave Soul Horned Whale would be more blessed being brought up with Fang Mu than with the Soul Whale Princess.

However, Fang Mu's views were quite different from Shu Liangjun's.

Fang Mu could speculate about Shu Liangjun's thoughts that made him propose such a statement.

Shu Liangjun indeed meant well, but his kind intentions came from the perspective of an omniscient god.

The Soul Whale Princess didn't possess the godly perspective of Shu Liangjun and did not understand her abilities.

Fang Mu felt that if he directly contracted with the Wave Soul Horned Whale, once the Soul Whale Princess arrived and saw that the Wave Soul Horned Whale had been contracted, she would not listen to any explanations and might explode with anger.

Since Fang Mu and the Wave Soul Horned Whale are bonded in life and death, the Soul Whale Princess won't harm him,

But then, the entire Lu City might become the target of the Soul Whale Princess's wrath.

Fang Mu could not risk Lu City!

Moreover, in Fang Mu's view, contracting with the Wave Soul Horned Whale when he knew the Soul Whale Princess didn't want anyone to contract with it, would be disrespectful to powerful sea clan entities like the Soul Whale Princess.

This meant that even if the Soul Whale Princess passively accepted this point, it would be difficult for Fang Mu to communicate and cooperate effectively with her in the future.

Not only could Fang Mu heal the damaged essence of the Wave Soul Horned Whale, but he could also help it enhance its quality and even evolve its bloodline.

With such strong leverage, Fang Mu could become a benefactor of the Soul Whale Princess.

Fang Mu was not going to spoil such a hand, especially after having it already in his grasp.

"Elder Shu, don't joke around, I don't plan to contract with the Wave Soul Horned Whale."

"In this world, there might be other guardian beasts even rarer and more mystical than the Wave Soul Horned Whale for me to contract with."

"Looking at the time, the Soul Whale Princess should be arriving soon."

Fang Mu glanced at the time and then walked into the room where the Wave Soul Horned Whale was kept.

Even though Fang Mu could confirm that the Wave Soul Horned Whale trusted him a lot, he still gave it a solitary environment.

Because Fang Mu knew, in the current situation, only solitude could heal the inner wounds that the Wave Soul Horned Whale had suffered during this time.

Seeing Fang Mu enter with a stranger, a stranger emanating an aura that posed a threat to it, the Wave Soul Horned Whale immediately activated its special property [Bless Star Wish] and retreated into the state of Soul Body.

And when Fang Mu came near it, the Wave Soul Horned Whale instinctively hid behind Fang Mu.

This surprised Shu Liangjun.

Shu Liangjun was very curious as to what Fang Mu did that made the offspring of the Soul Whale Princess, whose essence was clearly damaged, trust him so much within just one to two hours.

Although Shu Liangjun didn't know how Fang Mu had managed it, seeing this caused him to believe that it was, indeed, a skill.

Chapter 503: Triple Manipulation!\_1

Fang Mu had just walked into the room and hadn't had a chance to interact with the Wave Soul Horned Whale hiding behind him.

She Wan quickly stepped in, speaking in a low voice to Fang Mu.

"Young Master Shui Senior has returned, he's in the courtyard."

"He made me come up and give you a heads up."

As she spoke, She Wan glanced several times at the Wave Soul Horned Whale, obviously trying to give Fang Mu a hint.

Fang Mu believed he had a winning hand and could only win, but She Wan didn't agree.

She Wan always felt that seeing the Wave Soul Horned Whale would inevitably cause a confrontation with the Soul Whale Princess.

Unless Shui Miao and Shu Liangjun could immediately control the Soul Whale Princess, the sight of her injured offspring would surely enrage her.

She Wan had no idea that Fang Mu was holding a Life Elixir with a purity of ninety-six percent.

Not only did She Wan not know, but Shu Liangjun was also unaware of this.

Otherwise, Shu Liangjun wouldn't have repeatedly confirmed with Fang Mu whether he could ensure the treatment of the damaged elemental core of the Wave Soul Horned Whale.

Shui Miao didn't need to have She Wan inform him to seek out Fang Mu.

It was clear that Shui Miao allowed She Wan to do so in order for Fang Mu to prepare himself before meeting the Soul Whale Princess.

Fang Mu, seemingly unaffected by She Wan's hint, said to her.

"Sister Wan, you should've just brought Ah Shui up."

Completing his judgment, Fang Mu turned his head to the Wave Soul Horned Whale and said.

"Your mother will be here soon, kiddo. When I say she's coming, I mean it. I wouldn't lie to you."

At Fang Mu's words, the Wave Soul Horned Whale, in its soul state, instinctively draped its flippers on Fang Mu's shoulder.

The slender tail lightly encircled Fang Mu's waist.

This was the way Horned Whale Sovereign Beasts express their gratitude and joy to companions.

The movements of the Wave Soul Horned Whale were clearly observed by Shui Miao and the silver-blue horned whale mimicking by his side when they reached the room.

In the mimicking state, this silver-blue horned whale looked slightly smaller than the Wave Soul Horned Whale.

The silver skin was covered with blue wave patterns, symbolising an immense amount of Elemental Energy.

It was obvious that the mimicked horned whale accompanying Shui Miao was the Soul Whale Princess herself.

The Soul Whale Princess could easily create an ocean area by releasing any wave pattern on her.

This was a Guardian Beast wrapped in majestic power.

Through the water elemental energy in her wave patterns, Fang Mu knew that the Soul Whale Princess, in her original state, must be a massive creature!

Upon seeing the Wave Soul Horned Whale behind Fang Mu, Shui Miao was stunned.

Firstly, because he didn't understand why the Wave Soul Horned Whale was so intimate with Fang Mu.

In Shui Miao's impression, the offspring of the Soul Whale Princess was a female whale.

A female whale wrapping her tail around a male entity was somewhat inappropriate.

Secondly, the Wave Soul Horned Whale was in a weakened state. How dare Fang Mu let the Soul Whale Princess see the Wave Soul Horned Whale in this condition!

Shui Miao thought that when encountering such issues, Fang Mu should have discussed it with him in advance.

Shu Liangjun was beside Fang Mu. She should have warned Fang Mu, instead of letting him proceed!

Even if Shu Liangjun had not previously interacted with the Soul Whale Princess, she should have heard about the power and temperament of the Soul Whale Princess from other Sea Clan!

Shui Miao immediately activated his spiritual power at this moment.

If the Soul Whale Princess were to react excessively, he must stop her in due time.

Just as the Soul Whale Princess arrived at the room, she couldn't hold back upon seeing the damaged state of the Wave Soul Horned Whale.

It was the Wave Soul Horned Whale's intimate act with Fang Mu that made the Soul Whale Princess suppress her anger.

The Wave Soul Horned Whale wouldn't behave like this towards someone who harmed her.

Most likely, the human boy before her had saved Xiao Ruo and gained her trust.

But the irresistible anger still made the Soul Whale Princess simulate a human's voice through her soul power, angrily questioning Shui Miao.

"Is this the promise you made to me?"

"Xiao Ruo's spinal cord is broken, her elemental core is damaged. With this state, forget about reaching my level."

"There's almost no chance of even entering the sequence!"

"Even if your Starwheel tries to obstruct me, I must get an explanation from Lu City!"

Shui Miao was speechless at the Soul Whale Princess' question, not knowing what kind of response should be given.

In Shui Miao's view, this was indeed Lu City's fault, making it difficult for him to justify on behalf of the Starwheel's official members.

Just then, Fang Mu spoke up.

"Don't rush to demand an explanation from Lu City yet, I can heal the damaged elemental core!"

"I take it that you must be the Longhun Whale Princess Senior, right?"

"My name is Fang Mu, nice to meet you!"

Shu Liangjun, who had been silent beside him, looked at Fang Mu who suddenly spoke.

Despite Fang Mu's young age, he appeared to be incredibly cunning!

Although Fang Mu's words seemed like an introduction, he actually conveyed three pieces of information.

Firstly, he was asking the Soul Whale Princess not to target Lu City.

Secondly, by addressing the Soul Whale Princess as 'Senior', he showed his respect and intention to befriend her.

If Fang Mu had just expressed these two points, he might have immediately ignited the rage of the Soul Whale Princess.

Chapter 504: Triple Manipulation!\_2

Just as Fang Mu ingeniously advised the Soul Whale Princess not to target Lu City, he had expressed his capability to heal the wounded origin of the Wave Soul Horned Whale.

Upon seeing the injured origin of the Wave Soul Horned Whale, the Soul Whale Princess would definitely investigate the severity of its injury.

She would evaluate her own capability to treat the Wave Soul Horned Whale.

The words just spoken by the Soul Whale Princess to Shui Miao clearly illustrate her helplessness regarding the whale's injuries.

So, in any case, the Soul Whale Princess had to reciprocate and form a connection with Fang Mu.

"You claim to be able to heal Xiao Ruo's wounded origin. How can you reassure me of this?"

"Based on your human classification of resources, to fully heal Xiao Ruo you'd at least need a Life Elixir of 95% purity to activate the whale's spine and possibly restore it."

"As far as I know, there's no Top-level Creation Grandmaster in the Dragon Rising Federation!"

While the Soul Whale Princess was full of distrust towards Fang Mu's words, she still gave a timely response.

Shui Miao quickly introduced Fang Mu to her.

“The young man talking to you and I are both official members of the Starwheel!”

“Our standpoint in this dialogue with you is not on behalf of the Dragon Rising Federation but the Starwheel.”

In the course of Shui Miao’s interactions with Fang Mu, he had come to understand that Fang Mu was not one to make empty boasts.

Therefore, when Fang Mu claimed he could treat the Wave Soul Horned Whale, he could certainly produce a Life Elixir of at least 95% purity.

If Qixing could occasionally concoct a higher grade Life Elixir while at the level of Senior Creation Zenith Master, it indicates that for Qixing, it is not as difficult to advance to a Top Creation Master compared to others at his current level.

Qixing was already on the threshold of becoming a Top Creation Master!

Upon hearing Shui Miao’s introduction of Fang Mu, a more serious look crossed her face.

In order to become an official member of Starwheel, one must first be approved by other members.

Certainly, for such a young teenager to become an official member of the Starwheel, he must have a profound background and a vast amount of support behind him.

This made the Soul Whale Princess subconsciously trust Fang Mu, believing that he could truly heal the wounded origin of the Wave Soul Horned Whale.

The Soul Whale Princess had originally been full of anger towards Lu City.

However, after seeing the wounded origin of the Wave Soul Horned Whale, her heart was filled with only one desire.

That desire was to restore the health of the Wave Soul Horned Whale!

She had put a great deal of energy and all her hopes into raising her offspring.

Compared to the health of the Wave Soul Horned Whale, nothing else seemed so important!

After calming her heart, the Soul Whale Princess seriously confirmed with Fang Mu.

“Since you are an official member of the Starwheel, I choose to trust you!”

“Are you certain you can take responsibility for your words?”

Upon hearing this, Fang Mu gave a smile.

“I can naturally take responsibility for my words, you can rest assured!”

“Let me heal the intruded origin of the Wave Soul Horned Whale right now.”

“Let’s discuss the issue of Lu City’s compensation to the Sea Clan, after healing the wounded origin of the Wave Soul Horned Whale!”

Upon hearing Fang Mu’s words, both Shu Liangjun and Shui Miao thought that Fang Mu was being rather bold!

He actually dared to talk about compensation to the Soul Whale Princess under such unprepared circumstances!

However, with Fang Mu promising to heal the Wave Soul Horned Whale, the Soul Whale Princess had no choice but to subject herself to his mercy.

She had no other options.

But, without further assurances after leveraging the love of a mother for her child, he would certainly upset the Soul Whale Princess.

However, it is undeniable that Fang Mu had effectively safeguarded the interests of the whole of Lu City with his actions!

At this moment, both Shui Miao and Shu Liangjun couldn't quite understand why Fang Mu was so dedicated to Lu City.

Instead of discussing compensation for Lu City at this time, Fang Mu could have asked the Soul Whale Princess for some precious oceanic resources.

Some of these spirit materials and Guardian Beasts only exist in the deep sea, a place that is off-limits to humans.

Humans have simply no opportunity to acquire these resources.

Obtaining these resources from the hand of the Soul Whale Princess undeniably would be more beneficial to Fang Mu.

Indeed, just as Shui Miao and Shu Liangjun had thought, the Soul Whale Princess was furious upon hearing Fang Mu's words.

What do you mean by discussing the issue of the Sea Clan's compensation to Lu City!?

Does the Sea Clan really have to compensate Lu City!?

If it weren't for the humans harassing and abducting her daughter, why would the Sea Clan have any conflict with Lu City?

There is almost nothing on land that is useful to the Sea Clan, so coveting the land conflicts with the practical interests of the Sea Clan.

Therefore, no matter how you look at it, Lu City should be held fully responsible for this conflict!

Fang Mu indeed had the ability to restore the wounded origin of Xiao Ruo.

But if it wasn't for someone from the human clan kidnapping Xiao Ruo, Xiao Ruo's origin wouldn't have been injured.

Xiao Ruo suffered so much but had yet to vent her anger on Lu City. However, due to this conflict, she is now forced to bear the full responsibility.

Not to mention the fact that the Soul Whale Princess did not have a good temper in the first place.

Even if the Soul Whale Princess was good-tempered, she would find it hard to swallow her anger in the short term.

However, for her daughter's sake, the Soul Whale Princess still said.

"If you can heal Xiao Ruo's injury, I will personally negotiate the issue of compensation with the officials of Lu City."

Chapter 505: Triple Pinching!\_3

"We will provide Lu City with a satisfactory conclusion!"

The fact that Soul Whale Princess could say these words was enough to demonstrate her sincerity.

Lu City had suffered such serious losses, and they had no idea what caused all this.

To make Lu City satisfied, Soul Whale Princess knew she had to make hefty compensation!

When Soul Whale Princess said these words, her impression of Fang Mu had become exceedingly distasteful.

Because Soul Whale Princess felt threatened.

But for her daughter, she could only swallow this threat.

Shu Liangjun and Shui Miao both noticed the change in Soul Whale Princess's attitude towards Fang Mu.

They wanted to remind Fang Mu—after this transaction, he would have greatly offended the Soul Whale Princess.

Even a Grandmaster Creator needs to weigh the consequences of offending such an influential figure in the Sea Clan.

Fang Mu is only a disciple of Qixing. Fang Mu's actions can be interpreted as making decisions on behalf of Qixing.

Qixing might become dissatisfied with Fang Mu once he knows about this incident.

Before either of them could warn Fang Mu, he had already taken out a bottle of Life Elixir with a purity of 96 percent.

And once again, he spoke words that targeted Soul Whale Princess.

"My master is a Grandmaster Creator. I have already discussed this matter with my master."

"My master is fully aware of the whole sequence of events and knows that the Sea Clan is not to blame."

"But neither is the officialdom of Lu City."

"The ordinary citizens of Lu City should not be the ones to bear the blame!"

"So, the best solution would be for the Sea Clan to take on the responsibility."

“To be honest, if any power in Lu City knows about your daughter’s arrival, it’s because an informant exists among you.”

“If we trace the root cause, it’s actually within your own Sea Clan.”

“This is something your clan cannot deny!”

“If you don’t believe it, you can investigate it afterward and find out if what I am saying is true or not!”

“As compensation, my master is willing to help improve your daughter’s quality.”

“Helping her to reach the Legendary Quality while still in the Bronze tier!”

After saying this, Fang Mu took out three bottles of Water Elemental Potion, each with a purity of 96 percent.

Seeing these three bottles of Water Elemental Potion, Shui Miao couldn’t take his eyes off them.

If he could obtain Elemental Potions of this quality, Shui Miao could ensure the bloodline of his Guardian Beast, the Early Lotus Tri-life Carp, could instantly advance to the next level!

Before Qixing became a Top Creation Master, it would take at least hundreds of attempts just to prepare three bottles of Water Elemental Potion with a purity of 96 percent.

Helping the Wave Soul Horned Whale to improve her quality to Legendary while still in the Bronze tier was indeed a very sincere gesture.

Soul Whale Princess will surely feel Fang Mu's sincerity.

Trading the future of the Wave Soul Horned Whale for the resources compensation from Soul Whale Princess is something she would definitely agree to.

Before making the promise, Fang Mu had clearly informed the Dragon Soul Whale Princess that there was a mole inside the Sea Clan, contributing to the incident.

This meant that the Dragon Soul Whale Princess was no longer the party with the upper hand.

At first, Soul Whale Princess was full of anger while listening to Fang Mu.

She saw no association between her and a possible informant within the Sea Clan.

Even if there was an informant, those who could have contact with the power in Lu City must be under the Sea Lord's command, which had nothing to do with her, right?

There were many groups, big and small, inside the Sea Clan, and Dragon Soul Whale Princess felt no need to carry the responsibility for other groups.

But after Fang Mu got out those three bottles of Water Elemental Potion, Dragon Soul Whale Princess changed her view on Fang Mu.

This young man was doing his utmost to safeguard this federation where he came from.

In this situation, he was still able to be thorough about everything, showing significant poise of a young man.

Being able to promote Xiao Ruo to Legendary Quality at the Bronze tier, Soul Whale Princess was willing to be blamed willingly.

At this point, Soul Whale Princess no longer despised Fang Mu.

She stepped forward and thanked Fang Mu sincerely.

By getting Fang Mu to cure Xiao Ruo which injured her origin, she was forced to agree to take the blame.

It was like Fang Mu had handed out the three bottles of Water Elemental Potion with 96 percent purity for nothing.

When Dragon Soul Whale Princess thanked him, Fang Mu felt it was worthwhile to exchange these three potions to earn her favor.

For Xiao Ruo, it would take less than half a day to configure these three bottles of potion.

Such pure elixirs could only be considered of moderate quality in Fang Mu's inventory.

Fang Mu used 100 percent pure Water Elemental Potions to nurture Rainy Doll.

When he got out these three bottles, he noticed the longing in Shui Miao's eyes.

Both Shu Liangjun and Shui Miao have been very helpful in this matter, so Fang Mu planned to thank them after this chaos was over.

Fang Mu cleared his throat, preparing to reveal the blockbuster news he had been brewing.

"Don't thank me yet. I think there is no misunderstanding between me and Soul Whale Princess Senior, so we can communicate normally now!"

"I want to talk with Soul Whale Princess Senior about a deal. It was hard for me to negotiate this deal from my master."

"I believe, senior, you will be interested!"

Soul Whale Princess didn't expect that Fang Mu would talk about a deal at this time.

Now, all her thoughts were on her offspring's recovery and strengthening of its bloodline.

She didn't have the desire or the energy to worry about anything else.

Fang Mu said she would definitely be interested in this matter, which aroused her curiosity.

Chapter 506: Monument of the Vast Ocean!\_1

What is hard won from a Grandmaster Creator must certainly be related to the resources of a Grandmaster Creator.

Speaking of Grandmaster Creator resources, they are indeed extremely valuable among the Sea Clans!

Because marine beasts in the sea have no possibility of becoming a Grandmaster Creator, they can hardly maximize the effect of spiritual materials simply by eating and absorbing them.

To maximize the effect of spiritual materials, continuous catalysis and absorption among various spiritual materials is needed.

Although the strong ones of the sea clan have a chance to achieve this by swallowing various spiritual materials after understanding their properties, the effect is far from as good as the elixirs prepared by Creators.

This makes the strong ones of the sea clan strive as much as possible to make friends with high-ranking creators among humans and respect the Master Creator and the Grandmaster Creator more than the human forces do.

Now, the Dragon Soul Whale Princess not only has no misunderstandings about Fang Mu, but also has a lot of good feelings towards Fang Mu in her heart.

Therefore, the Soul Whale Princess is very willing to have a trade with Fang Mu.

Fang Mu suddenly proposed a trade at this time, and the beneficiary of this trade is either Xiao Ruo or herself.

“What misunderstanding could there be between us?”

“You helped Xiao Ruo to upgrade to legendary quality, and I owe you a favor.”

“Just tell me what you want, as long as I can do it, I won’t shirk it!”

When it came to the word “able”, the Soul Whale Princess deliberately increased her volume.

Clearly, she wanted to tell Fang Mu that the trade with her should not violate the interests of the Sea Clan.

Even the Soul Whale Princess found it difficult to shoulder the blame of the Sea Clan targeting Lu City.

The Soul Whale Princess is ready to shift the blame to the Sea Lord after figuring out the situation.

After all, the lord of this sea area was personally conferred by the Sea Lord, and the appearance of a mole in the territory was due to the Sea Lord's failure in disciplining his subordinates.

Fang Mu heard the meaning in the words of the Dragon Soul Whale Princess and laughed.

"I hope to make you a bridge for me to exchange resources with the Sea Clan, and have more trades with you in regard to Sea Clan resources in the future!"

"More than half of the divine beasts from the Dragon Race hail from the Ocean. You should have a fair amount of Dragon Balls in your possession."

"I wonder, if I use the evolution of your offspring's bloodline into a Torrent Soul Horned Whale as bargaining chips, how many Dragon Balls could I get from you?"

Fang Mu's words startled everyone present, except for She Wan.

Shu Liangjun and Shui Miao understood very clearly what the evolution of a Wave Soul Horned Whale's bloodline into a Torrent Soul Horned Whale meant.

This ability to promote the Bloodline Transformation of Divine Beasts is unique to Creators.

In the eyes of Shui Miao and Shu Liangjun, the Wave Soul Horned Whale must be at least of Diamond Rank to evolve into a Torrent Soul Horned Whale.

Evolution into a Torrent Soul Horned Whale at the Diamond Rank is a stroke of luck.

During this period, the Soul Whale Princess needs to continuously inject resources into the Wave Soul Horned Whale.

Once the Wave Soul Horned Whale evolves into a Torrent Soul Horned Whale, its bloodline is on the same level as the Soul Whale Princess.

Now that the bloodline of the Soul Whale Princess has not yet successfully undergone the Bloodline Transformation, otherwise, her title among the Sea Clan would certainly change with the Bloodline Transformation.

The Soul Whale Princess had been pouring her heart and expectations into her offspring and saw the Wave Soul Horned Whale as the future.

And Fang Mu's promise was equivalent to giving the Soul Whale Princess's expectations a bright future!

Shui Miao and Shu Liangjun looked at each other. Fang Mu could trade with the Soul Whale Princess after communicating with his mentor.

Either Qixing has profound skills in the evolution of the bloodlines of whale-type divine beasts, or Qixing's Grandmaster Creator Level is far from simple as a Senior Creator Zenith Master.

Shui Miao and Shu Liangjun knew that they could not delve deeper into a grandmaster creator who did not want to show his face.

Anyway, the two of them have already established a bond with Qixing through Fang Mu and can exchange resources from the Grandmaster Creator that Qixing produces.

This is undoubtedly their own good luck.

The praise of the Soul Whale Princess trembled involuntarily on hearing Fang Mu.

"Is that really true!?"

"Can you really evolve the bloodline of Xiao Ruo into a Torrent Soul Horned Whale at Copper Rank!?"

Fang Mu nodded seriously when he heard this.

“If I couldn’t guarantee it, I wouldn’t have taken the initiative to propose this trade to you!”

Having received Fang Mu’s affirmative answer, the Soul Whale Princess wagged her whale tail and said generously.

“If you can transform the bloodline of Xiao Ruo at Copper Rank, I can give you six Dragon Balls!”

“And I guarantee that all these six Dragon Balls have the Bloodline of the Twelve Primary Dragons!”

“In addition, I am willing to become your bridge for trading with the Sea Clan.”

The Wave Soul Horned Whale, also known as Xiao Ruo in the mouth of the Soul Whale Princess, was completely stunned at the side.

As the person involved, the Wave Soul Horned Whale was the calmest about his own primal damage.

This was not because the Wave Soul Horned Whale was heartless.

The Wave Soul Horned Whale was very anxious, worried, and afraid when his primal was just damaged, fearing that his damaged primal would upset his mother.

However, all these negative emotions were left in the Core Treasury of the Gao Family.

More than a day’s time was enough for the Wave Soul Horned Whale to come to terms with reality.

Now not only can his injured primal recover, but his quality and bloodline can also be upgraded.

At this moment, the eyes of the Wave Soul Horned Whale looking at Fang Mu changed, there was something special in their eyes.

Fang Mu pondered in his heart.

After completing the contract with the Dark Nightmare Tiger, he could directly evolve the Dark Nightmare Tiger into the Subduing Dragon Nightmare Tiger with the seven Dragon Balls in his hand.

The Soul Whale Princess agreed to the trade he proposed, which allowed Fang Mu to effectively exchange resources with the Sea Clan in the future.

Chapter 507: Maritime Monument!\_2

This had given him another way to obtain resources and also established a relationship with a top-notch powerhouse of the Sea Clan.

The Wave Soul Horned Whale even has the ability to condense souls, allowing souls to gain rebirth by attaching themselves to items anew.

The abilities of the Soul Whale Princess would surely be stronger than that of the Wave Soul Horned Whale.

Fang Mu felt that if one day he really needed to ask the Soul Whale Princess for something, she would most likely not refuse him.

“In that case, I’ll go and enhance Xiao Ruo’s power now. You should also go and resolve the issue between Lu City and the Sea Clan!”

“I hope that during the negotiations with Lu City, you won’t involve our Starwheel.”

The Soul Whale Princess greatly admired Fang Mu’s straightforward and decisive character.

Since Fang Mu had said so, he definitely had his own objectives and plans in dealing with this wave of issues.

Without Fang Mu, the Soul Whale Princess would not only refuse to take the blame, but she would also make Lu City pay for the damage to their daughter's origin.

It can be said that the Soul Whale Princess would solve this mess entirely due to Fang Mu's sake.

Since that was the case, it would be better to do a good deed thoroughly and handle this issue in accordance with Fang Mu's ideas and intentions.

So, the Soul Whale Princess and Fang Mu had a very detailed negotiation, understanding Fang Mu's thoughts completely.

She also realized that the forces that colluded with the Sea Clan to kidnap her daughter were from the "Gao Family" and Zhao family of Lu City.

Just as Fang Mu was about to feed the Wave Soul Horned Whale with Sleep Moss, the Soul Whale Princess had already flashed back to the sea.

As if she had never been to Lu City before.

After returning to the sea, the Soul Whale Princess began to issue orders.

Before negotiating with Fang Mu, the Soul Whale Princess was worried and extremely anxious about the situation of her offspring.

But now, the Soul Whale Princess was in high spirits, treating Zhu Lan and Pearl Purple much more leniently than before.

If it hadn't been for the smooth communication with Fang Mu and the timely resolution of the dispute, Zhu Lan and Pearl Purple would most likely have already died.

The moment Zhu Lan and Pearl Purple saw the Soul Whale Princess, they both felt as though their downfall had arrived.

Regarding the Soul Whale Princess's order for the two of them to meditate in the Cold Pond Forbidden Sea for five hundred years, Zhu Lan and Pearl Purple didn't have too many complaints.

Their growth until now was wholly dependent upon the training of the Soul Whale Princess.

The purpose of raising the two of them was to protect the Young Mistress. They were the Young Mistress's personal servants.

It was their lack of vigilance that allowed the Young Mistress to fall into human hands, so they deserved to be punished.

Both had already accepted their imminent death.

Yet unexpectedly, the usually strict Soul Whale Princess who couldn't tolerate any setbacks, suddenly spoke in an unusual manner.

"Zhu Lan and Pearl Purple, you two will get in touch with the official authorities in Lu City and demand an explanation from them."

"If you handle this matter well, the meditation in the Cold Pond Forbidden Sea will be reduced from five hundred years to fifty!"

The words of the Soul Whale Princess made Zhu Lan and Pearl Purple show a hint of joy.

Meditating in the Cold Pond Forbidden Sea for five hundred years would have meant certain death for them. However, if it was for fifty years, they would certainly be able to survive.

The Soul Whale Princess had basically pardoned them from the death sentence!

Having received such a favor, Zhu Lan and Pearl Purple certainly couldn't afford to be careless when carrying out the Soul Whale Princess's orders!

“My lady, we will contact the authorities of Lu City immediately.”

“The authorities of Lu City have repeatedly suggested wanting to negotiate with us, the Sea Clan. We can agree to the invitation of the authorities of Lu City now.”

...

The Wave Soul Horned Whale reluctantly ate the Sleep Moss.

Just after being imprisoned, the Wave Soul Horned Whale had an instinctual repulsion towards materials like the Sleep Moss that could cause it to lose consciousness and its ability to move.

However, having dealt with the human Creator alongside the Soul Whale Princess before, the Wave Soul Horned Whale understood that this was actually a necessary step for the human Creator to help the Guardian Beast enhance its power.

Fang Mu, seeing the sleeping Wave Soul Horned Whale, subconsciously touched the star marks and long horns on its body.

The Wave Soul Horned Whale was clearly sound asleep and its internal energy was not circulating anymore, but there was still a layer of golden light covering its body, which seemed quite mystical.

Fang Mu decided to first heal the wound in the Wave Soul Horned Whale’s origin.

Half of a vial of Life Elixir with a purity of ninety-six percent was poured onto the broken whale dorsal and its mouth was filled with the other half.

The whale’s bones soon showed a slow trend of healing.

The rich life energy caused the spinal cord within the whale dorsal to start regenerating.

Outside, Fang Mu took out three vials of Water Elemental Potion with a purity of ninety-six percent.

But once inside the room, Fang Mu replaced the three vials of Water Elemental Potion, each with a purity of ninety-six percent, with three vials that had a purity of one hundred percent.

Fang Mu did this not only to ensure that the Wave Soul Horned Whale could successfully enhance its quality, but also to facilitate his subsequent use of the Blood Aged Wine to help the Whale Soul Horned Whale transform its bloodline.

Fang Mu poured all three vials of Water Elemental Potion into the mouth of the Wave Soul Horned Whale, carefully sensing the changes in the energy fluctuations in its body.

Suddenly, the sound of tidal waves echoed in Fang Mu's ears.

It was clear that this sound came from inside the body of the Wave Soul Horned Whale.

Fang Mu watched as the Wave Soul Horned Whale's body began to swell, stretching from its original length of two meters to nearly three meters.

The enhancement of its quality resulted in a 1.5 times increase in its original size, a huge change indeed!

Chapter 508: Monument in the Ocean!\_3

As the water elemental energy that Fang Mu was using was too pure, this portion of energy was subtly transforming the body of the Wave Soul Horned Whale.

It eliminated some of the impurities inside the Wave Soul Horned Whale's body.

Clearing away such deep impurities was something even a hundred-percent pure elemental elixir couldn't do.

Any spirit material capable of purging deep impurities can be equated to holy relics like the Sakura Tempering Carp.

However, even those expensive and rare spirit materials referred to as holy relics could only clear away a small amount of such deep impurities.

The superficial impurities cleansed from the Wave Soul Horned Whale gave off an extremely fishy smell, which was detected by Fang Mu.

Fang Mu quickly took out a pile of cotton cloth from his Purple Ice Crystal Ring and summoned the Rainy Doll.

He had the Rainy Doll cause a downpour, which was devoid of any toxins.

In the rain, Fang Mu diligently cleaned off the black oily substance and yellow-brown secretions continuously emerging from the Wave Soul Horned Whale's body.

As for SuckSuck, it took on the cleaning job and 'slurp-slurp' drank the rubbish-infused rainwater and impurities from the Wave Soul Horned Whale's body.

SuckSuck seemed quite delighted to be able to consume the novel tasting 'trash'.

Fang Mu investigated the Wave Soul Horned Whale through the Eye of Omniscience. The Wave Soul Horned Whale, which had grown in size, had indeed successfully progressed to Legendary Quality.

Fang Mu took a deep breath and brought out a whole thousand milliliters of Blood Aged Wine.

In order for the Blood Aged Wine to execute its best effect, Fang Mu didn't opt to pour it directly into the Wave Soul Horned Whale's mouth.

Instead, he decided to directly inject the Blood Aged Wine into the body of the Wave Soul Horned Whale, allowing it to circulate within the creature's body.

As a large quantity of Blood Aged Wine was injected into the body of the Wave Soul Horned Whale, the tidal sound within the creature's body grew louder and louder, even suggesting a tendency towards a tsunami.

Fang Mu was quite aware that not only him, but everyone in his manor could hear the intense sound.

However, Fang Mu was certain that everyone in his manor had good self-restraint and wouldn't rashly barge into his room.

Shu Liangjun and Shui Miao would use their own aura to envelope the manor and prevent the sound within from leaking out.

Fang Mu waited for a whole half hour before the tidal sound within the Wave Soul Horned Whale started to diminish.

Similar wave patterns to the ones on the Soul Whale Princess during mimicry appeared on the Wave Soul Horned Whale's body.

However, when Fang Mu activated the Eye of Omniscience to investigate, he found that the Wave Soul Horned Whale had not successfully evolved into the Torrent Soul Horned Whale.

Fang Mu, therefore, had no choice but to take out another thousand milliliters of Blood Aged Wine and inject it into the body of the Wave Soul Horned Whale.

Before Fang Mu could finish injecting all the Blood Aged Wine, a tremendous bloodline fluctuation suddenly erupted from within the body of the Wave Soul Horned Whale.

Even more wave patterns continuously emerged on the Wave Soul Horned Whale's body.

The size of the Wave Soul Horned Whale swiftly began to expand.

The extent of the Wave Soul Horned Whale's body expansion now was much larger compared to when its quality increased.

In the blink of an eye, the Wave Soul Horned Whale had become a massive creature seven meters long.

Onto the silver body where thousands of blue waves patterns congregate.

These wave patterns mainly focused on the side and abdomen of the Wave Soul Horned Whale, the blue patterns looked as if they supported the star pattern on the Whale's back.

Fang Mu once again used the Eye of Omniscience to probe the Wave Soul Horned Whale.

As Fang Mu had anticipated, the Wave Soul Horned Whale had successfully evolved into the Torrent Soul Horned Whale.

[Beast Name]: Torrent Soul Horned Whale

[Beast Species]: Soul Whale Species/Soul Whale Genus

[Beast Level]: Bronze (9/10)

[Beast Element]: Water Element/Soul Element

[Beast Potential]: Silver

[Beast Quality]: Legendary

Skill:

[Water Soul Draw]: Resonating with the environmental water elemental energy, it filters and converges scattered souls within its radius. Selected souls are condensed into the long horn to reinforce fragmented souls.

Exclusive characteristic:

[Bless Star Wish]: Plead with the stars, use the power of the stars to freely switch between physical and soul body forms. Entering the Soul Body form consumes own soul power to nurture the soul in the long horn, promoting the integration of reinforced soul fragments.

[Soul-Infusing Song]: Sing the whale song to infuse fully nurtured soul from the long horn into the object the living once adored, allowing the soul to find another dwelling place.

[Ocean Monument]: Superimpose marine spirits and dissolve their obsessions, each superimposed marine spirit can enhance a portion of its own energy and overlay a monument text. Through consuming monument texts, it can double the effect of the skill.

①: Torrent Space Whale, ②: True Horn Torrent Whale, ③: Torrent Soul Whale Demon.

The investment of two thousand milliliters of Blood Aged Wine had not been wasted!

Upon promotion to Legendary Quality, Torrent Soul Horned Whale freshly obtains an exclusive characteristic called [Ocean Monument].

Fang Mu didn't know how to describe this exclusive characteristic [Ocean Monument].

In the ocean, there were many spirits and vengeful spirits.

Every intelligent guardian beast that becomes another guardian beast's food, will no doubt hold a grudge.

Torrent Soul Horned Whale uses [Ocean Monument], the exclusive characteristic, to superimpose marine beings. Each superimposed vengeful spirit increases its own energy.

To Fang Mu, this seemed as if Torrent Soul Horned Whale had turned on the accelerator for its own promotion.

In the future, the Torrent Soul Horned Whale can quickly enhance its ranks and levels through the mode of superimposing spirits.

Beyond that, [Ocean Monument] also enhances the Torrent Soul Horned Whale's abilities.

As long as Torrent Soul Horned Whale treads upon superimposing vengeful spirits, the monument texts on its body will never be used up.

Compared with the exclusive characteristic of gaining Legendary Quality, what attracted Fang Mu's attention more was Torrent Soul Horned Whale's three evolutionary paths.

The direction of evolution into a fairy bloodline, the Torrent Soul Whale Demon, only ranked third among all the paths of evolution!

This signified that the first evolutionary direction, the Torrent Space Whale, and the second evolutionary direction, True Horn Torrent Whale, were stronger in terms of potential than the path that leads to fairy evolution!

Chapter 509: The Only Chance!\_1

Most notably, the Torrent Space Whale, which had the character "space" in its name implying its enormous implication.

What it could express undoubtedly distinguished it from others, most likely enhancing the star pattern ability of the Torrent Soul Horned Whale.

Because the only ability of the Torrent Soul Horned Whale that had anything to do with "space" was represented by the star pattern.

As for the True Horn Torrent Whale, the name probably suggests the enhancement of horns on its head, deeply stimulating the bloodline of the horned whale.

However, Fang Mu thought that the deep stimulation of the horned whale bloodline, following the evolutionary path of the horned whale, was far inferior to the more mysterious Torrent Space Whale.

However, all these did not need Fang Mu to worry about, it should be the Soul Whale Princess's concern.

After all, the Torrent Soul Horned Whale named Xiao Ruo is not Fang Mu's own Guardian Beast.

Fang Mu had already completed his transaction with the Soul Whale Princess at this time.

As long as Xiao Ruo woke up, Fang Mu could report back to the Soul Whale Princess.

Taking advantage of this moment alone, Fang Mu planned to provide his Heartblood for the destiny Guardian Beast, Blood of Abundance.

At first, he was quite nervous when the Needle Mosquito was extracting his Heartblood.

But now, extracting Heartblood was just a trifle to Fang Mu, who had long been accustomed to it.

When the proboscis of the Needle Mosquito punctured Fang Mu's heart wall, Fang Mu had already managed to do as calmly as eating and drinking.

Fang Mu was calm at this moment, but the hearts of the high-ranking officials of Lu City were boiling with anger.

Because the high-level officials of Lu City learned why the Sea Clan was attacking Lu City, because the Gao Family and the Zhao Family had apprehended the offsprings of the National Master of Han Yang Empire, the Soul Whale Princess, under the guise of fishing.

No wonder the Sea Clan used force against Lu City without even negotiating.

The actions of the Gao Family and the Zhao Family almost led to a war between the Dragon Rising Federation and the Han Yang Empire!

This news has already reached the capital, and the powerful men sent by the capital will soon rush to Lu City.

If the cause of this incident is due to the Sea Clan, Lu City is the victim.

Lu City could justify it to the entire Dragon Rising Federation.

But now that the incident was caused by the two major clans in Lu City, there was no way that Lu City could justify it to the entire Dragon Rising Federation.

The Lu City government could only bear the losses of Lu City itself.

Li Yuanchao suddenly remembered that Jianmu had once asked him for the fishing records of Lu City in the past three months.

Li Yuanchao hadn't felt that way before.

But now, Li Yuanchao always felt that there must be a connection between the sudden cessation of the Sea Clan's attacks and negotiations with Lu City and Jianmu.

Han Wuhe, the Commander of the Sea Defense Corps, said to Pearl Purple.

"If you could confirm that the offspring of the Soul Whale Princess were captured by the Gao Family and the Zhao Family, why not stop it in time?"

“If you cannot confirm it, or if you want to take back the young Commandery Princess who was mistakenly captured by the Gao Family and the Zhao Family, you should communicate with us, the official of Lu city, as soon as possible!”

“We, the officials of Lu City, can help you, the Sea Clan, to get it back.”

Zhu Lan and Pearl Purple bit their shells tightly when they heard Han Wuhe’s words.

In the eyes of Zhu Lan and Pearl Purple, what Han Wuhe said was absolute nonsense, without any substance at all.

If the Sea Clan were to negotiate with the Lu City authorities over such a big matter, it would indeed be impossible for the Lu City authorities to neglect it.

But would the Gao and Zhao families admit their mistakes and hand over the offspring of the Soul Whale Princess?

What if the Gao and Zhao families chose to destroy the evidence and deny everything, then the offspring of the Soul Whale Princess would be gone!

Could Lu City compensate the Soul Whale Princess with a living daughter and the Han Yang Empire with a Commandery Princess!?

Han Wuhe’s words were clearly in defense of Lu City’s interests.

However, it was understandable that Han Wuhe would do so, after all, they stood on different grounds.

But to negotiate in this way, it was just too disrespectful to the Sea Clan!

If it wasn’t for knowing the purpose of the Soul Whale Princess, for Zhu Lan and Pearl Purple, it was as if the negotiation had already broken down.

“We’re just here to explain the situation, the Soul Whale Princess has arrived in Lu City.”

“The Soul Whale Princess has specially invited you to meet at the Pavilion of Cang Lu, thirty kilometers west of the sea, in half an hour.”

“At that time, whatever you want to say, you can talk to the Soul Whale Princess directly.”

Zhu Lan and Zhu Zi left right af

The atmosphere in the conference room became even colder than before.

The Soul Whale Princess actually came in person!

Logically speaking, in the face of such incidents, the Soul Whale Princess should have taken action against Lu City according to her temperament.

Why would she choose to meet with the officials of Lu City, breaking her usual practice?

Could it be that the Sea Clan is brewing some plot?

Just then, an elderly man at the forefront spoke in a deep voice.

“Han Wuhe, Li Yuanchao, as the Commander and Deputy Commander of the Sea Defense Corps, you cannot get away at this moment and should stay in Lu City.”

“Chen Jing, you go on behalf of Lu City to meet with the Soul Whale Princess!”

The Pavilion of Cang Lu was a symbol of the friendship between Lu City and the Sea Clan when they signed the friendly contract.

Choosing this place for the meeting also represented the sincerity of the Soul Whale Princess.

Hearing the old man's words, a short-haired woman with wrinkles all over her face said before Han Wuhe and Li Yuanchao could respond.

"Alright, I know what to do."

"The Sea Clan has shown their sincerity, and we must reciprocate."

"We should at least contact the Gao Family and the Zhao Family first to release the offspring of the Soul Whale Princess!"

"Without the safety of Soul Whale Princess's offspring, we will never have the right to speak in front of the Soul Whale Princess!"

Chapter 510: The Only Chance!\_2

"In case the Gao Family and the Zhao Family have their heads messed up and allow someone from their families to form a contract with the offspring of the Soul Whale Princess, we might as well prepare in advance!"

"Least when it's time to face the retaliation from the Soul Whale Princess, we'll have the ability to respond!"

Li Yuanchao offered, upon hearing Chen Jing's words.

"Let me contact the Gao Family and the Zhao Family!"

"Quite a few powerful figures from the Zhao Family and Gao Family are involved in the rescue work, I can directly get in touch with the family head of Gao Family, Gao Hongying, and the family head of Zhao Family, Zhao Junwei."

The old man did not object but spoke instead.

“Yuanchao, in your negotiations with the Gao Family and Zhao Family, you must make clear the pros and cons and protect the safety of the spawn of the Soul Whale Princess.”

“Tell Gao Hongying and Zhao Junwei, as long as the spawn of the Soul Whale Princess is still alive, and Lu City managed to safely pass through this storm, Zhao Family and Gao Family can still exist in Lu City.”

“Otherwise, I will destroy the Zhao Family and Gao Family with my own hands!”

“Three major clans are enough for Lu City.”

Upon hearing these words, Li Yuanchao nodded heavily, realizing the importance of his mission.

Gao Hongying and Zhao Junwei were originally in good spirits.

Zhao Junwei had always wanted to sever ties with the Gao Family. Now, having cut off the last entanglement with the Gao Family and earning 1.5 billion Dragon Rising Coins, he was able to cover the loss occurred during the period when the Zhao Family was not able to hunt properly.

With the break away from the Gao Family, the Zhao Family can try to get closer to the She Family and He Family.

The businesses that the She Family and He Family operate are extremely beneficial to the development of the Zhao Family, and they also suit the style of cooperative partners better.

There were more reasons for Gao Hongying’s joy.

Firstly, the noble lady from Gao Family, Gao Wenyan, established a connection with Jianmu, becoming someone close to Jianmu.

And Gao Wenyan still followed his orders, willing to work hard for the benefit of Gao Family in front of Jianmu.

Secondly, he traded the divine beast he caught from the sea to Fang Mu, earning a massive fifty-five billion Dragon Rising Coins.

This significantly exceeded Gao Hongying's original expectation.

The only disappointment for Gao Hongying was that he didn't expect Fang Mu to have so much available cash.

Even with the fifty-five billion-dollar transaction, all the payments were made in Dragon Rising Coins without a single Grandmaster Creator resource taken out!

If the Gao Family wants to trade for Grandmaster Creator resources from Jianmu in the future, they can only rely on Gao Wenyan!

However, before Gao Hongying and Zhao Junwei had time to rejoice for long, a sudden thunderbolt struck them square in the face.

Nor Gao Hongying or Zhao Junwei had ever thought that the divine beast they caught via the information from the Sea Clan was actually the spawn of the Soul Whale Princess — the National Guru of Han Yang Empire!

If they had known that the whale-typed divine beast was the spawn of the Soul Whale Princess, even if they had more guts they would not dare to hunt it.

In Lu City, the Gao Family and Zhao Family had already established an everlasting foundation. As long as they develop normally and steadily, even if one of the family heads of Gao Family and Zhao Family were foolish and incompetent.

As long as one talented individual appears among three generations of family heads, the foundation of the Gao Family and Zhao Family can be sustained.

After all, the number of side branches has increased, and the military strength of Gao Family and Zhao Family will only become stronger.

However, this kind of prosperity is not unshakeable.

The only possibility to break this prosperity is to encounter a situation as they had at hand.

Zhao Junwei, having cut off the connection with Gao Family, chose without hesitation to betray the Gao Family at this time.

He presented the agreement just signed with the Gao family directly to Li Yuanchao for review.

Zhao Junwei stated that the matter of marine hunting was completely manipulated by the Gao Family.

If it wasn't so, the Zhao Family wouldn't even be eligible to keep the spawn of the Soul Whale Princess.

However, the matter has already caused extremely serious consequences. Even if Zhao Family can peel off the blame cleanly, they will not be able to stay out of it.

But after Zhao Junwei told all these to Li Yuanchao, whatever happens, at least the Gao Family will be the first to bear it.

This will leave a breathing chance for the Zhao Family.

The Lu City officials will not let the Zhao Family disappear from Lu City because of their past mistakes.

This storm may cause the Zhao family to lay low for a hundred years.

However, as long as it could keep the position of one of the Lu Du Five Clans, everything would be worth it.

The happier Gao Hongying was earlier, the more regretful he became now.

Gao Hongying deeply regretted why he listened to the news from that member of the Sea Clan.

If he had not chosen to believe the Sea Clan and decided to hunt for more than twenty days at the time, the Gao family would not have fallen into the current dilemma.

What made Gao Hongying even more regretful was why he had traded the whale-typed divine beast they caught to Jianmu just two hours ago.

Can he really get back the things that have already been traded to Jianmu?

But even if he can't get it back, he must. Otherwise, the Gao Family is done for!

In Gao Family's hunting, that whale-typed divine beast was originally injured.

If it was still in the hands of Gao Family, they would have to own up to this.

But now that the divine beast has passed through the hands of Jianmu, everything becomes unclear.

The Gao Family can completely attribute the injury to Jianmu.

The Zhao Family also participated in this hunting, so they can't shirk their responsibilities.

Zhao Junwei would definitely testify falsely for the Gao Family because framing Gao Family would also free Zhao Family from their responsibility.

Offending a Grandmaster Creator is better than the complete destruction of a family.

Hopefully, Jianmu has already formed a contract with the spawn of the Soul Whale Princess and would naturally share the rage of the Soul Whale Princess.

Gao Hongying asked Li Yuanchao to give him half an hour. With this half an hour, Gao Hongying immediately contacted Gao Wenyan.
