

## **Beast Tamer 511**

### Chapter 511: The Only Chance!\_3

He insisted that Gao Wenyan should, by any means necessary, trade back the whale-type Divine Beast that had just been acquired from Jianmu.

He also expressed that the Gao Family was willing to refund the 5.5 billion Dragon Rising Coins it had earned from the previous transaction.

Gao Wenyan, knowing all the facts and aware that Fang Mu was waiting for Gao Hongying's call, saw an opportunity

He wanted to seize this occasion to obtain more benefits for himself from Gao Hongying.

This was the first time Gao Wenyan showed his anger to Gao Hongying.

"Uncle, what on earth are you doing?"

"The Gao Family is going back on its word. How could I explain this to Mr. Jianmu?"

"Mr. Jianmu is very interested in this whale-typed Divine Beast. He has just healed its source of injury."

"How could I ask for the beast to be returned on behalf of the Gao Family?"

"Uncle, you're putting me in a difficult situation!"

"At this rate, I might as well just stick with Mr. Jianmu and not work for the Gao family anymore!"

"Otherwise, if I confront Mr. Jianmu on behalf of the Gao family and he then takes a dislike to me, wouldn't I just be thrown aside by him?"

To express his anger, Gao Wen yuan even stopped addressing him as ‘dad’.

He changed Gao Hongying’s title directly to ‘uncle’.

Gao Wen yuan knew that at this time Gao Hongying must have been desperate, otherwise, he wouldn’t have gone back on his word with a disciple of a Grandmaster Creator.

Now, if he doesn’t hold Gao Hongying to account to gain more benefits for himself, he might never get the opportunity again!

The fault in this matter lies with Gao Hongying. No matter how Gao Wen yuan handles him, Gao Hongying has no way out.

In the future, Gao Hongying would still need to repair his relationship with Jianmu through him. Even if he is really unhappy with him, he won’t be able to show it.

Gao Hongying had already expected that Gao Wen yuan would adopt this attitude.

“Wen yuan, your father has wronged you in this matter. However, the Gao family is in crisis, and as a noble lady of the Gao family, you should share the burden too, shouldn’t you?”

“After this matter, your father shall grant you equal status to Hengyun within the Gao family. Every year, an additional fund of 500 million Dragon Rising Coins shall be allocated to aid your growth.”

“Can you see if that’s acceptable?”

At these words, Gao Wen yuan’s face brightened immensely.

She never thought that her effort would garner her so many resources!

Now was a critical moment, and Gao Hongying had shown his sincerity.

If she continued to demand more, she would be seen as incredibly greedy!

“Father, I will immediately go to Mr. Jianmu and try my best to negotiate!”

“But I do hope that in the future, when I am devotedly working for our family, these issues will not arise to harm me again!”

After finishing her words, Gao Wenyuan took the initiative to hang up the phone.

Just after Gao Wenyuan hung up, Gao Hongying violently threw down his phone.

He began to curse Gao Wenyuan in his heart.

“Hmph, let’s see how long you can keep Mr. Jianmu from getting tired of you! As soon as Mr. Jianmu is fed up with you, I will be the first to deal with you!”

“You think you can enjoy an extra 500 million Dragon Rising Coins every year!?”

After calming his feelings, Gao Hongying felt both joy and annoyance in his heart.

If Fang Mu had contracted the offspring of the soul whale princess, Gao Wenyuan should have told him straight away.

Gao Wenyuan didn’t say anything, which means that Jianmu hasn’t contracted with the progeny of the soul whale princess yet.

Not only has he not, but Jianmu has also healed the source of the progeny’s injury.

This means that he can't push the blame onto Jianmu, but at the same time, Jianmu curing the progeny was a chance for salvation!

However, the Gao family would offend Jianmu due to this matter.

The Gao family used the price of 5.5 billion Dragon Rising Coins to trade with Jianmu. When they go to get it back, Jianmu will certainly be infuriated and demand a high price.

While Gao Wenyan was on the phone with Gao Hongying, Fang Mu had been by her side, listening to the conversation between her and Gao Hongying.

"Young Master, you heard everything that was just said in my conversation with Gao Hongying. What are your plans?"

"I think the Gao family not only overcharged in the trade, but they have also dishonored their commitment. They're simply abhorrent!"

"You should teach the Gao family a lesson!"

She Wan, standing behind Fang Mu, glanced at Gao Wenyan.

Gao Wenyan's words essentially separated herself from the Gao family, siding entirely with Fang Mu.

She Wan could not do this.

While She Wan worked for Fang Mu, she only did so without harming the interests of her own family, the She Family.

Yet Gao Wenyan could simply sacrifice her own family's interests, even using them to please Fang Mu.

The malicious seed planted by Gao Hongying's malicious intentions was now backfiring on the Gao Family.

However, being too clever often lead to self-inflicted harm.

She Wan had always observed how Fang Mu treated his own brothers and sisters.

Fang Mu could be described as sparing no effort and exhausting all resources to care for his siblings.

Fang Mu also has deep affection for his native Dragon Rising Federation.

Otherwise, in the crisis at JA City, Fang Mu wouldn't have just protected himself. After returning to the manor, he wouldn't have arranged for his Beast Master, Soul Mantong, to go around and distribute medical supplies.

There was also no need to generously distribute so many resources of Grandmaster Creator in Lu City simply to help the local powers unite and overcome the crisis.

Before Fang Mu, who values relationships deeply, Gao Wenyan's actions, even if she was entirely considering Fang Mu's needs, would still cross Fang Mu's moral boundaries.

In the future, Fang Mu will for sure not put Gao Wenyan in an important position, and would most likely not keep her by his side.

Just as She Wan was considering this, Fang Mu spoke with an amused tone.

"The Gao family is indeed dreadful. Tell Gao Hongying, if he wants to redeem the Divine Beast I've just traded, he will need to pay three times the price."

"Also, I spent a great deal of effort to heal its damaged source."

“The She Family’s Master paid 20 billion Dragon Rising Coins for my Master to heal their Giant Toothed Whale’s damage.”

“This whale-type Divine Beast was also healed thanks to my Master’s resources.”

“I won’t argue about how much resources the Gao family should compensate me. Tell all of this to Gao Hongying, and let him come to me with the right price.”

“Remember, this time, I’m also only giving the Gao family one chance!”

Chapter 512: The Nobles of Lu City!\_1

Gao Wenyan had completely attached herself to Fang Mu, and Fang Mu didn’t need to explain any of his decisions to Gao Wenyan.

Neither did Fang Mu have any need to explain himself to Gao Wenyan.

Fang Mu told Gao Wenyan so much, in order that she would relay the words to Gao Hongying.

Fang Mu asking the Gao Family for tripling the price of the transaction seemed like a he was asking for an exorbitant sum.

However, Fang Mu’s approach was perfectly in line with the rules of the Dragon Rising Federation.

The Dragon Rising Federation clearly states that if the seller regrets a transaction within one day,

and the seller is willing to compensate with three times the amount, the buyer must measure the seller accordingly.

These rules are often used in the transactions between powerful forces.

On one hand, they restrict the powerful side, ensuring the rights and interests of the weaker party.

Without such rules, the buyer would be pressured to return the traded good at the original price because of the seller's strong position.

On the other hand, clear rules and regulations can effectively prevent friction between different factions.

Fang Mu did not violate any of Dragon Rising Federation's rules and cannot be faulted in any way.

The reason why Fang Mu's demand seemed outrageous was because the three times amount of 5.5 billion Dragon Rising Coins would tally up to 11 billion Dragon Rising Coins.

But this difference was determined by the value of the goods themselves.

As for Fang Mu equating the curing of the Wave Soul Horned Whale with the treatment of the Giant Toothed Whale-

Although a bit inappropriate, it's the fact that he had devoted Grandmaster Creator's resources.

Just like the She Family couldn't cure the Giant Toothed Whale, likewise, the Gao family couldn't heal the Wave Soul Horned Whale.

Fang Mu's statement that the She Family had paid 20 billion Dragon Rising Coins to cure the Giant Toothed Whale was a fact; the Gao family could confirm this with the She family.

As one of the five clans of Lu Du, the Gao Family could afford 20 billion Dragon Rising Coins, just like the She Family.

Indeed, 20 billion Dragon Rising Coins would have an impact on the She Family, but the damages were not to the extent of being fatal.

Fang Mu had confirmed this with She Wan.

Currently, Fang Mu was forcing the Gao family to expend over 30 billion Dragon Rising Coins in order to reclaim the child of the Soul Whale Princess.

Gao Hongying was helpless, even if he was unwilling!

At this point, the only way out for Gao Hongying to protect the Gao family was to retrieve the child of the Soul Whale Princess.

Gao Wenyan turned cold when she heard Fang Mu's words.

Knowing Gao Hongying, he would not be willing to spend so much money to reclaim a traded item he had just parted with!

Her response would definitely aggravate Gao Hongying.

Still, Gao Wenyan had to convey Fang Mu's words to Gao Hongying exactly as they were spoken.

Gao Wenyan needed to consider matters entirely from Fang Mu's perspective, to protect Fang Mu's interests.

Gao Wenyan was very aware of exactly where her loyalties lay.

Gao Hongying was waiting for Gao Wenyan's news at the old Gao family residence.

Gao Hongying had considered that it was probably not going to be easy to get the Whale-typed Divine Beast back from Fang Mu.

However, he did not expect it to be so difficult!

Almost all the porcelain in the study had been shattered by Gao Hongying's raging fury.

"Unreasonable! Mr. Jianmu is indeed unreasonable!"

"Does he really think that just because he's a disciple of the Grandmaster Creator, he can do whatever he wants?"

Under furious agitation, Gao Hongying seemed a bit maniacal.

On hearing Gao Hongying's words, Gao Wenyuan frowned and reminded,

"Father, it is customary in the Dragon Rising Federation to return goods at three times the price. It is within your rights to take the 16.5 billion Dragon Rising Coins."

"As for whether the She Family gave Mr. Jianmu 20 billion Dragon Rising Coins as a reward for treating Giant Toothed Whale, you can ask the She Family."

“I believe that the She Family’s Master will be willing to tell you the situation!”

Hearing Gao Wen yuan’s words, Gao Hongying instinctively wanted to scold her.

He almost slapped Gao Wen yuan’s face.

At this time, his daughter dares to speak up for a stranger!

But considering that after resolving the matter, the Gao Family might still be one of the five clans of Lu Du but definitely weakened,

In such a situation, the Gao Family must stick to Fang Mu and rely on him,

To continuously receive resources from him, so that their top warriors can make breakthroughs.

Only then, after one hundred years, can they recover their Yuanqi.

To do this, the Gao Family must rely heavily on Gao Wen yuan in the future!

Upon calming down and regaining his senses, Gao Hongying realized he couldn't refute Gao Wenyuan's words and remained speechless.

Just because Fang Mu abide by the rules of the Dragon Rising Federation, the Gao Family was forced to give him the compensation he demanded!

As for the 20 billion Dragon Rising Coins that the She Family paid Fang Mu, Gao Hongying didn't need to ask She Junjie.

The Gao Family and the She Family have never been on good terms, only maintaining the facades of peace.

She Junjie would not tell him about it for nothing.

He had to pay an enormous sum to get information from She Junjie!

Moreover, the She family was always close with Jianmu. Even if She Junjie didn't give Jianmu that much money, he would definitely falsify evidence for him.

Gao Hongying fell silent for a full five minutes, and eventually sighed deeply.

"Wenyuan, tell Mr. Jianmu, the Gao Family can't come up with 36 billion Dragon Rising Coins in such a short time."

## Chapter 513: The Nobles of Lu City!\_2

“It will take at least three days to raise the funds.”

“We hope that Mr. Jianmu can grant the Gao Family a three-day grace period and return the Whale-typed Divine Beast first!”

“We the Gao Family would never dare to deceive in such matters!”

On hearing this, She Wan rolled her eyes secretly.

Indeed, the Gao Family needed time to secure 360 billion Dragon Rising Coins.

Since the Gao Family has invested all their money in marine trading, it won't be easy to withdraw it right away.

Could it be that Gao Hongying was hoping to borrow on the name of the Gao Family's reputation and swindle Mr. Jianmu without giving anything in return?

To swindle without giving anything, the least he could have done was to offer collateral. However, Gao Hongying had not brought up the matter of collateral at all.

While the Gao Family might not have the cash handy, they do possess materials worth 360 billion Dragon Rising Coins.

Even at this time, Gao Hongying was still overextending his goodwill with Fang Mu, which only added to Gao Wenyuan's hatred for him.

Since Gao Hongying was willing to deplete his own value, she had to seize this opportunity to gain more advantages.

“Father, I’m in a difficult position and I don’t know how to relay your request to Mr. Jianmu!”

As an experienced veteran, Gao Hongying instantly understood Gao Wenyan’s intentions upon hearing her words.

At this point, Gao Hongying didn’t have the patience to beat around the bush with Gao Wenyan, he asked directly:

“What do you want in return for striving for this opportunity for the family?”

Gao Hongying didn’t feel like playing games, and Gao Wenyan felt the same.

Fang Mu obviously wanted to profit from the Gao Family, and he would certainly not agree to their request for a three-day extension.

If she didn’t make her demands now and secure Gao Hongying’s agreement, once Fang Mu refused the request, it would be difficult for her to bring it up again!

“Father, I wish to improve my strength as soon as possible. I hope to receive an additional amount of resources worth two billion Dragon Rising Coins from the family each future year.”

“And, I want an additional chance to use the Sacred Relics every month!”

Previously, Gao Hongying promised Gao Wenyan that she would enjoy the same treatment as Gao Hengyun.

Now, Gao Wenyan’s demand was essentially to elevate her status above Gao Hengyun’s.

Gao Hengyun is Gao Hongying’s biological son and Gao Wenyan’s demands clearly intended to coerce Gao Hongying into agreeing.

Gao Hongying's eyes flickered, but in the end, he agreed to Gao Wenyan's conditions.

In Gao Hongying's eyes, even if Gao Wenyan was highly talented, it would be tough for her to stay beside Mr. Jianmu for two years, considering how he was exploiting her.

Therefore, agreeing to these demands was not a big deal.

"Wenyan, it is only right that you make these demands since you've contributed so much to the family! Father will fulfill your wishes!"

"I hope you can continue to support the family in the future."

"Why don't you make the call to Mr. Jianmu here?!"

"It's also a good chance for me to find out Mr. Jianmu's intentions!"

Hearing this, Gao Wenyan agreed immediately, clearly showing that she had no hidden agenda towards the family.

Gao Wenyan was not only unopposed to Gao Hongying's demand, but she also hoped that Gao Hongying could listen to her conversation with Fang Mu.

She wanted Gao Hongying to hear Fang Mu's ruthless rejection, to save her the trouble of explaining Fang Mu's response later.

That way, even if Gao Hongying is dissatisfied, he wouldn't vent his anger on her.

"Father, if I have achieved anything, it's all thanks to your cultivation. I am deeply grateful!"

"It's my responsibility and also the biggest pursuit of my life to contribute to the family."

"Rest assured, as long as I am with Mr. Jianmu, I'll always consider the family's interests every passing day."

"However, before making this call, I have something to say."

"Based on my understanding of Mr. Jianmu, I get the feeling that he's unlikely to accept your request!"

Listening to Gao Wen yuan's words, Gao Hongying suddenly wondered if he had been too hard on her by using her so much.

Gao Wen yuan had truly been trying her best for the family's benefit, while he had been making constant demands of her.

Perhaps he should treat Gao Wen yuan better in the future.

Of course, only if Gao Wen yuan has value to the family!

"Wen yuan, you can't predict how Jianmu will respond on the other end of the call, and this has nothing to do with you."

"Call him with ease of mind. Even if one day you can no longer stay with Mr. Jianmu, our family will always be your solid backing!"

Gao Wen yuan made a relieved expression upon hearing that and dialed Fang Mu's number.

However, in actuality, she was secretly feeling a wave of nausea.

Both Gao Hengyun's oppression and Gao Hongying's ultimatum were constantly echoing in Gao Wen yuan's ears.

It was precisely this pressure that made her want to cling to Fang Mu.

Even though she had the Gao Family's blood, the Gao Family was not her final destination.

If one day, she could no longer stay beside Fang Mu and had to return to the Gao Family, even if Gao Hongying wanted to let her go, Gao Hengyun would not!

Given Gao Hongying's doting on Gao Hengyun, Gao Hongying would eventually agree to Gao Hengyun's requests to give her to Gao Hengyun after persistent requests.

At that time, she would have to bear Gao Hengyun's insults and tortures every day.

Fortunately, Fang Mu had foreseen that Gao Hongying would ask her to make this call.

She could just go ahead and call Fang Mu and she didn't need to worry about exposing anything, even if Gao Hongying was right there beside her.

Gao Hongying initially thought that Fang Mu would demand an initial deposit from the Gao Family during the call, in order to test their limits.

Chapter 514: The Nobles of Lu City!\_3

Yet Fang Mu would not give the Gao Family a chance to buffer.

He directly addressed that if the Gao Family could not industrialize the funds, they should pay off the debt with equivalent supplies.

And detailed the categories of supplies he was keen to accept.

Gao Wenyuan listened to Fang Mu's demands on the phone while turning to Gao Hongying.

He signaled Gao Hongying to make a choice and then reply to him.

The situation was stronger than people, Li Yuanchao was still waiting for his response.

Gao Hongying gritted his teeth and nodded to Gao Wen yuan, indicating that Gao Wen yuan could agree to the terms put by Jian mu.

Let Jian mu hasten to send the Whale-typed Divine Beast back!

Following this, Gao Hongying arranged for the core members of the Gao Family to prepare the supplies that offset the debt according to Jian mu's requirements.

Jian mu's intentions had been made abundantly clear.

Blatantly, Jian mu was waiting for the Gao Family to deliver the supplies, before he would return the Whale-typed Divine Beast.

The resources of the Gao Family were readily available in the Core Treasury, packed in multiple pieces of Spatial Equipment.

Therefore, the Gao Family quickly prepared most of the debt-offsetting supplies.

Gao Hongying specifically arranged Gao Wen yuan to estimate the value of the debt-offsetting supplies. Assisting Gao Wen yuan with the estimation were two members of the Gao Family Elders' Council.

Gao Hongying then responded to Li Yuanchao, worrying that the extended time it took for them would affect the final decision of the Lu City's higher-ups towards the Gao Family.

At this time, Chen Jing had already reached the Pavilion of Cang Lu, which symbolized the friendly relations of the Sea Clan and Lu City, where he encountered the legendary Soul Whale Princess.

Rumors about the Soul Whale Princess's bad temper were rife throughout major federations of Humans and Sea Clans.

Such rumors were not baseless, but rather a fact verified by the lives of many Sea Clan creatures.

Regarding the Soul Whale Princess, Chen Jing felt significant pressure.

The Soul Whale Princess had just contacted Fang Mu to learn that the Gao Family had delivered the supplies into Fang Mu's hands.

The Soul Whale Princess did not engage in much small talk with Chen Jing.

Since she had already agreed to bear the accountability of the Sea Clan's invasion into Lu City and compensate for the losses Lu City suffered.

Engaging in small talk and dragging things on would be not only unnecessary but would also make Fang Mu question her attitude if he were to hear it.

But the Soul Whale Princess wanted to direct part of the responsibility from the Sea Clan onto the Sea Lord, which made her speak directly to Chen Jing.

"My offspring was kidnapped by the forces of Lu city. However, this cannot entirely be blamed on Lu City."

"It was one under the jurisdiction of the Leader this sea region who informed the forces of Lu City."

"Therefore, we, the Sea Clan, also have to bear some responsibility."

"I'm willing to take on all of Lu City's losses on behalf of the Sea Clan; you of Lu City should relay the concrete losses to me within a week."

Chen Jing had been thinking about how to communicate with the Soul Whale Princess.

The Soul Whale Princess was not an easy person to communicate with.

It was hard for Chen Jing to figure out what to say, but when he finally did, the words were useless in front of the Soul Whale Princess.

That's because the Soul Whale Princess did not even give him a chance to speak before offering a resolution exceeding the Dragon Rising Federation's expectations.

At this time, Chen Jing chose not to bargain further for Lu City.

It would not be worth it to irritate the Soul Whale Princess causing her to withdraw her proposal, considering they had already gained an advantage.

When Chen Jing was prepared to reply to the Soul Whale Princess, she continued speaking.

"I'm willing to make this huge concessions, still considering the losses of the Dragon Rising Federation after losing my child."

"Because there's a significant person in Lu City."

"Otherwise..."

The Soul Whale Princess stopped without stating what would happen otherwise. However, according to rumors, Chen Jing could guess what she implied.

Now within Lu City, the person who could be regarded as a significant person, recognized by the Soul Whale Princess, must be the Disciple of Grandmaster Creator, Jianmu.

Considering the safety of Lu City, Jianmu released many resources of the Grandmaster Creator; thus, it's likely he already communicated with his master, Qixing.

Qixing probably knew the Soul Whale Princess a long time ago and had communicated with her.

Otherwise, there's no reason for the Soul Whale Princess to behave as she did.

The losses of Lu City had not yet been computed, but everyone knows the losses must be incalculable.

Since there was nothing to talk about, Chen Jing directly invited the Soul Whale Princess to visit Lu City.

This way, the Soul Whale Princess could actually feel the severity of the losses of Lu city.

However, the Soul Whale Princess did not accept Chen Jing's invitation, instead, she spoke.

"I can sense where exactly my child is in Lu City."

"I will go and pick her up now, I will communicate with you after that."

"After all, communicating with you now is of no use since you have not yet calculated the losses of Lu City."

Having said that, the Soul Whale Princess, still in a mimicry form, flapped her giant whale wings, making a wave covering the heaven, and disappeared from Chen Jing's sight.

Chen Jing did not stop the Soul Whale Princess; even if he wanted to, he couldn't.

Chen Jing suddenly remembered that, previously, from the two powerful figures following Jianmu, one had frankly asked Lu City to compute the losses.

It seemed that Jianmu must have known that this storm was over and would eventually settle down like this long ago.

It further confirmed to Chen Jing that Jianmu was the considerable person the Soul Whale Princess was talking about.

Before, Jianmu released unimaginable Creator resources to defend Lu City, and after, Jianmu eased up the storm for Lu City using his master's relationships.

If anyone's contributions to guarding Lu City during this catastrophe had to be weighed, then it unequivocally had to be Fang Mu.

Gao Hongtao had arranged for Gao Wenyuan to take the supplies that the Gao Family had painstakingly gathered to Fang Mu.

They were waiting for Gao Wenyuan to bring the Whale-typed Divine Beast back from Jianmu.

As a result, word came from Jianmu's side that the Soul Whale Princess personally arrived to pick up her offspring.

This rendered the Gao Family unable to see the Whale-typed Divine Beast they had once captured.

Gao Hongying always felt this was too coincidental but couldn't express his suspicions and was unable to verify them.

Because he couldn't possibly suspect that Jianmu, the Lu City officials, and the Soul Whale Princess had conspired to deceive the Gao Family of resources worth thirty-six billion Dragon Rising Coins right!

Chapter 515: Disaster of the Undead!\_1

The storm was formally concluded under the condition that the Sea Clan was willing to take responsibility for it.

The official party of Lu City carefully calculated the losses, some of which were unable to be measured in monetary terms.

Even if Soul Whale Princess was willing to compensate, those who had died as a result of this storm could not be revived.

There was much remedial work for the officials of Lu City to proceed with.

The Gao Family and Zhao Family, who hunted for the progeny of Soul Whale Princess, were the primary culprits, regardless of where they heard the news from.

Qixing used his relationships as a Senior Creation Zenith Master to make Soul Whale Princess yield, and Lu City had no reason to be dissatisfied.

After the responsibility for the storm was established, Soul Whale Princess directly entered Fang Mu's residence without hesitation.

Soul Whale Princess did not choose to go straight upstairs, but ritually asked Yin Nanzhen, who was guarding the door, to pass on the message.

Soul Whale Princess's attitude towards Fang Mu was completely different from when she first met him.

Soul Whale Princess had previously stated that Fang Mu was an important figure in Lu City, and to Soul Whale Princess, Fang Mu was also important to her.

He enabled her progeny to gain potentials.

The promise Fang Mu made and the resources from the Grandmaster Creator he mobilized made Soul Whale Princess want to establish a good rapport with him.

Many human families now have two or three children, and though advanced Guardian Beasts want offspring, it is very difficult.

But it is not impossible to have more than one offspring in their long lives.

Soul Whale Princess might need Fang Mu's assistance if she has new offspring in the future!

By the time Soul Whale Princess returned, Fang Mu had already completed the upgrade of Wave Soul Horned Whale.

He elevated the Wave Soul Horned Whale from an epic quality to a legendary quality level.

And raised the bloodline of the Wave Soul Horned Whale to the level of the Torrent Soul Horned Whale!

Even though Xiao Ruo was still in deep sleep after taking the Sleep Moss, Fang Mu had done enough to satisfy Soul Whale Princess.

Soul Whale Princess immediately cast a hopeful look at Fang Mu when she saw him.

Seeing this, Fang Mu simply nodded to Soul Whale Princess and pointed in the direction of the cultivation chamber.

He gestured for Soul Whale Princess to join him in the cultivation chamber.

This residence in Lu City was recommended by She Wan who thought of Fang Mu as a traditional craftsman since she knew he was a disciple of Grandmaster Creator.

That's why she deliberately chose a house with a cultivation chamber among the other houses.

As soon as she arrived at the cultivation chamber, Soul Whale Princess's face suddenly changed even before Fang Mu could open the door.

Because Soul Whale Princess discovered that her daughter, Xiao Ruo, had truly transformed her  
bloodline!

She had only been gone for two hours.

Fang Mu accomplished this in just two short hours.

Firstly, it could show that Fang Mu was very dedicated to this task.

Secondly, it could demonstrate that Qixing, the Grandmaster Creator, was extremely capable!

Otherwise, it wouldn't be possible to achieve this in such a short time!

Soul Whale Princess looked at Fang Mu with even more gratitude.

Fang Mu noticed the changes in Soul Whale Princess's eyes.

It's always been said that the emotions of Guardian Beasts are much more sincere and pure than  
humans, and it appears to be true!

Once Soul Whale Princess entered the room and confirmed Xiao Ruo's condition, she sincerely shook  
her whale horn at Fang Mu in thanks.

She took out the prepared Dragon Balls and gave them to Fang Mu.

According to their agreement, Soul Whale Princess only needed to give Fang Mu six Dragon Balls, which  
was the price agreed upon by Soul Whale Princess and Fang Mu before.

But now Soul Whale Princess took out eight full Dragon Balls.

After handing them to Fang Mu, she pointed to a red and a blue Dragon Ball and said,

“These two extra Dragon Balls. One from the Milky Way Waterfall Dragon, and one from the Flame Heart Scorching Dragon.”

“Both of these dragon Guardian Beasts follow the orthodox Elemental Dragon bloodline. Dragon Balls from Elemental Dragons are even more valuable within the Sea Clan than those from other dragon races.”

“Presumably, they are even more so in the outside world, right?”

“Consider these two Dragon Balls as an extra thank you gift from me, in gratitude for your help with Xiao Ruo.”

“Otherwise, to be honest, I don’t have the means to heal Xiao Ruo’s damaged origin.”

“I might even have to ask Xiao Ruo’s father for help in the end!”

Fang Mu carefully watched Soul Whale Princess’s expression.

Fang Mu keenly noticed that when she mentioned Xiao Ruo’s father, Soul Whale Princess’s face showed a trace of melancholy.

It was very clear that there were many secrets between Soul Whale Princess and Xiao Ruo’s father, and most likely the two weren’t living together.

Otherwise, Xiao Ruo’s father should have reacted when their offspring was captured by humans as a hunting target!

With the two extra Dragon Balls from Soul Whale Princess, Fang Mu didn’t refuse.

He graciously accepted all eight Dragon Balls.

He would inevitably have dealings with Soul Whale Princess in the future, and there was no need to be so distant.

Moreover, he had used resources to transform the bloodline and quality of Soul Whale Princess's offspring in a very short time.

Even if Soul Whale Princess knew top-notch Grandmaster Creators and used these connections,

Those Grandmaster Creators might not be able to improve Xiao Ruo's quality and bloodline in such a short time.

The cultivation he had given to Xiao Ruo indeed far exceeded Soul Whale Princess's expectations.

"I would not be polite then!"

"Feel free to ask me for help with anything in the future."

Chapter 516: Undead Catastrophe! \_2

"If I can be of any assistance, I would certainly not refuse!"

This was the statement the Soul Whale Princess had expected from Fang Mu.

Upon hearing Fang Mu's words, the Soul Whale Princess laughed heartily and then said,

"Your words are indeed a great blessing for me and Xiao Ruo."

"Here, take this tip of the whale horn."

“If anything happens in the future, you can directly infuse your soul power into this whale horn to communicate with me.”

“If it’s just for communication, this half of the whale horn won’t require charging for hundreds of years.”

“In addition to communication, you can also use this half of the whale horn for self-defense.”

“The tip of this half of the whale horn may not be comparable to the spiritual instruments of you humans, lacking the automatic protection function.”

“However, even if a rank two Soul-System Beast attacks you, it is not necessarily able to hurt you!”

Fang Mu’s eyes brightened at these words.

For Fang Mu now, with Shui Miao and Shu Liangjun being his guardians, there’s no need to worry about safety.

Even if those two were not by his side, Fang Mu could quickly protect himself by utilizing the special characteristic of his electronic butterfly, controlled by the Sequential-level abilities.

However, these protections did not extend to the soul level.

And at this Sequential level stage, many Guardian Beasts have attack techniques targeting the soul.

This half of the whale horn could actually block the attack of a Sequential-two Soul-System Beast!

With this, Fang Mu could understand how powerful the Soul Whale Princess really was.

This tip of the whale horn emanated an aura similar to that of the Soul Whale Princess, clearly it must’ve been shed by her.

Otherwise, it would not be possible to communicate directly with the Soul Whale Princess through this horn tip on a soul level.

The Soul Whale Princess gave him two more Dragon Balls and this very useful treasure.

Fang Mu decided to express his gratitude to the Soul Whale Princess.

After finishing cultivating the Wave Soul Horned Whale, Fang Mu discussed the Soul Whale Princess' situation with Shui Miao.

From their conversation, Fang Mu learned that as early as a hundred years ago, the Soul Whale Princess had visited many human Creators.

She hoped to trade with human Creators.

The Creators the Soul Whale Princess visited were almost all at an advanced level.

Even the top-level Creator from the Ten-thousand Nations Federation had been visited by the Soul Whale Princess.

But for some reason, the Soul Whale Princess did not successfully complete the trade with these Creators.

According to Shui Miao's speculation, the Soul Whale Princess had reached a certain threshold and wanted to make further progress.

Shui Miao did not mention what this threshold was, he just emphasized to Fang Mu,

"To cross that threshold, you need to refine your physical body with pure elemental energy, and also find sacred relics that can purge impurities from your body."

“Only in this way can you cross that threshold and improve your strength.”

From the explicit and implicit meanings of Shui Miao’s words, Fang Mu could perceive that purging bodily impurities was more important than getting pure elemental energy and life energy to cross that threshold.

While Fang Mu didn’t possess any materials for purging bodily impurities, he could actually produce a Water Elemental Potion with 96% purity.

This Water Elemental Potion with 96% purity had already reached the top-level of Creators.

This was considered the pinnacle height for modern Creators.

According to Shui Miao, no breakthrough news had been announced by the top-level Creator from the Ten-thousand Nations Federation.

For someone who aims to become a Creator as his life goal, he would undoubtedly announce his success to the world and earn their admiration.

Given a bottle of Water Elemental Potion with 96% purity to express gratitude to the Soul Whale Princess was enough.

However, Fang Mu did not plan to give this bottle of Water Elemental Potion to the Soul Whale Princess now.

Even though the Soul Whale Princess is not human, Fang Mu could not let her think that he could easily access high-level resources.

“I wonder how long you plan to stay in Lu City?”

The Soul Whale Princess swayed her body and flapped her fins before speaking.

“I thought it would take you some time to help Xiao Ruo enhance its quality and break through its power, so I’ve given the Lu City officials seven days to tally up their losses.”

“Otherwise, I’d only stay in Lu City for three days at most before heading back to the Han Yang Empire.”

“I have many matters to handle in the Han Yang Empire.”

Fang Mu sneered at the words.

Thanks to the Soul Whale Princess granting seven days to the Lu City to calculate their losses.

If she had only granted three days, no matter how capable the individuals sent to calculate the damage were, there’d be no way to accurately calculate the losses in just seventy-two hours.

For Lu City, even seven days was barely enough to complete the estimation!

Fang Mu also planned to stay in Lu City for a few more days.

During this time, Fang Mu intended to enhance the Abdominal Territory Worm and the Ingenious Round Tent.

Fang Mu had already obtained a large number of spiritual instrument fragments from Shui Miao, enough for his butterfly and the Ingenious Round Tent to use!

In addition, that Epoch relic which had always been soaked by Fang Mu in 100% pure Life Elixir, was almost ready to be opened!

As the Dead Qi and filth power of years of accumulation on its surface became more and more diluted, Fang Mu could vaguely feel that more likely than not, something alive was in the box.

Because Fang Mu could faintly feel a faint pulse of life energy emanating from it.

Chapter 517: Undead Scourge! \_3

This made Fang Mu very curious, what kind of thing could survive such a long time, spanning one to two epochs!

If it had been in the past, Fang Mu would never have guessed this.

But the Bright Moon Golden Osmanthus was a Guardian Beast grown from a branch that She Junjie had come across among the relics of the Epoch.

This real case demonstrates the feasibility of extracting living Guardian Beasts from Epoch relics.

Fang Mu planned to leave Lu City before the Soul Whale Princess. He intended to give the Water Elemental Potion to the Soul Whale Princess as a return gift before leaving Lu City.

“You can take her away while Xiao Ruo’s still in hibernation,” he said.

“If you plan to stay in Lu City for a while, you can stay in my villa during this period.”

“I will have someone arrange rooms for you and Xiao Ruo!”

Upon hearing this, the Soul Whale Princess immediately shook her head.

She couldn’t adapt to the human environment, and she only felt comfortable in the vast sea.

What’s more, there were still many things waiting for her to resolve in the Sea Clan.

Trying to involve the Sea Lord in this matter was not easy, and it required the Soul Whale Princess’s intervention.

Moreover, the Soul Whale Princess had to personally punish the Sea Clan member who had dared to use her daughter as bait!

If the person causing trouble had been the lord of this sea territory, that would be a different story. However, that person happened to be a leader under the Sea Lord.

It was outrageous for such a minor leader to even dare to do such a thing!

“I will take Xiao Ruo and leave now. We will communicate through the whale horn if anything happens.”

“The whale horn will alert you if I need you.”

The Soul Whale Princess came to see Fang Mu in the afternoon, while in the evening, Li Yuanchao, who had been representing Lu City in communication with Fang Mu, came to Fang Mu’s villa.

He thanked Fang Mu in all seriousness, over and over again.

And he invited Fang Mu to a dinner party before the reconstruction of Lu City.

Fang Mu politely declined Li Yuanchao’s invitation and said to him.

“I will be leaving in three or four days and won’t be around for the dinner party to celebrate the rebuilding of Lu City!”

“Also, the fact that Lu City was able to overcome this crisis is not due to me alone, but the collective effort of everyone!”

Actually, Fang Mu would prefer not to deal with the Lu City officials in a personal capacity, because his interactions with them would most likely involve his master, Qixing.

Having provided so many resources of the Grandmaster Creator, if the Lu City officials insisted on meeting his master Qixing, Fang Mu would find it hard to refuse.

Suddenly, a solution that could get multiple jobs done at once emerged in Fang Mu's mind.

At this moment, Li Yuanchao just happened to say.

"Mr. Jianmu, you made such a substantial contribution to Lu City. We should express our gratitude."

"You see..."

Before Li Yuanchao could finish his sentence, Fang Mu interjected.

"I am a formal member of the Scavenger. You can negotiate this matter with the Scavenger officials."

"I belong to the Cleaner Division of Scavenger in JA City, Jinghai Province. You can directly communicate with Miss Fang Lin, who is in charge of the Cleaner Division in JA City."

Fang Mu directly handed this matter over to Feng Lin in a matter of 'give and take'.

The Scavengers had helped Fang Mu a lot, both in public and in private.

From the fight for the sacred relic, the Sakura Tempering Carp, to the suppression of news about him and verification of his identity, all had spared Fang Mu considerable hassle.

Even if Fang Mu didn't owe the Scavengers anything, he felt compelled to show them his gratitude.

Secondly, ever since JA City was hit by the disaster, Feng Lin's ranking among the Green Screen Knights had dropped significantly.

As a Green Screen Knight, Feng Lin was responsible for maintaining safety in JA City.

But Feng Lin failed to do this.

Even though the attack on JA City by the Evil Heart Sect would have had the same consequences no matter which Green Screen Knight was stationed there, Feng Lin's reputation was still affected.

If the Lu City officials could contact Feng Lin about this matter, it would help restore Feng Lin's reputation.

And improve Feng Lin's ranking among the Green Screen Knights.

Feng Lin had been helping his brother and sister craft spiritual instruments apart from handling Scavenger matters.

Fang Mu felt obliged to accept this favor from Feng Lin.

Upon hearing Fang Mu's words, Li Yuanchao showed a surprised expression on his face.

He had never heard of the connection between Fang Mu and JA City before!

It must have been the Scavenger withholding information.

In fact, there was a lot of pressure for the Lu City officials to communicate with Fang Mu.

What Fang Mu had contributed to Lu City was something that the Lu City officials had to consider.

Due to this, Lu City was always a step behind Fang Mu in their communications.

But communicating with Feng Lin, the Green Screen Knight who oversaw JA City for the Scavengers, would put Lu City on an equal footing.

“Mr. Jianmu, I won’t bother you any longer. We will directly negotiate this matter with Miss Fang Lin.”

“We will have Miss Fang Lin notify you when the time comes!”

Fang Mu could assure that in the communication and negotiation with Lu City, Feng Lin would do everything possible to protect his interests and prevent any harm to them.

Fang Mu and Feng Lin had gone through a lot together, and they had developed a deep understanding of each other.

After Li Yuanchao left, Fang Mu was preparing to tidy up and absorb the Space Crystals that he had obtained by devouring materials with spatial attributes and turn these crystals into Elixirs.

Just then, Shui Miao knocked on Fang Mu’s door.

When Fang Mu was about to take out the Water Elemental Potion with Ninety-six percent purity, he noticed a change in Shui Miao’s expression.

He knew that Shui Miao had a burning desire for a Water Elemental Potion of this purity.

Shui Miao coming to him was likely to trade for the potion.

However, when Shui Miao entered the room, he didn’t ask about the potion. Instead, he directly told Fang Mu a significant piece of news.

“Ah Mu, an enormous ancient battlefield has been found on the outskirts of the Panfeng Federation!”

“The entire Panfeng Federation has fallen into a catastrophe of undead due to the unearthing of this enormous ancient battlefield.”

Chapter 518: Evolve! Dark Nightmare Tiger!\_1

Fang Mu’s face changed upon hearing Shui Miao’s words.

Fang Mu was already no stranger to ancient battlefields.

He had acquired many books from the Scavengers detailing these ancient battlefields.

If an excavation of an ancient battlefield can trigger an undead disaster, then that battlefield must have been the final resting place for billions of souls.

Otherwise, the dead Qi wouldn’t be sufficient to create a scenario like an undead disaster!

Shui Miao, noticing Fang Mu’s interest in the immense ancient battlefield newly uncovered by the Panfeng Federation, continued speaking.

“Billions of undead creatures have emerged from this ancient battlefield. In my opinion, it’s more likely to yield valuable items than the battlefield Golden Bull mentioned earlier.”

“In an ancient battlefield of this scale, there must be relics!”

“The Panfeng Federation, unable to overcome this undead disaster with their own abilities, has issued a call for aid.”

“They hope to receive help from other federations and large powers, and as compensation, they promise to share the resources found in this colossal ancient battlefield.”

Fang Mu could tell that Shui Miao was utterly excited as he shared all of this information.

This indicated that Shui Miao was eager to explore this colossal ancient battlefield.

Fang Mu initially decided to venture into foreign lands for training and naturally wouldn't skip such an opportunity.

However, upon hearing Shui Miao say billions of undead creatures emerged from the ancient battlefield, Fang Mu immediately realized he had underestimated its scale.

The number of souls buried in this ancient battlefield was likely counted not in the billions, but rather in the tens of billions.

This ancient battlefield could very likely be the remains of a large-scale Human Federation from the fifth or sixth Epoch.

With the Panfeng Federation unable to deal with the undead disaster, they didn't have any say.

They naturally lacked the qualifications to allocate the resources within the ancient battlefield.

Under normal circumstances, any power with capability wouldn't share the ancient battlefields covered within their territory.

This meant that ancient battlefields like Star Moon Canyon, guarded by the powerful Beast Taming Tribes and inaccessible to outsiders, were an exception.

Only those ancient battlefields in public areas were free for any large power to excavate.

Due to disputes over ownership and development of the ancient battlefields, Humans have gone through numerous wars.

The Ten-thousand Nations Federation held numerous meetings on the development and ownership issues of ancient battlefields.

Eventually, the Ten-thousand Nations Federation decided to protect the legal rights of federations over ancient battlefields once the ownership was determined.

Under the strong intervention of the Ten-thousand Nations Federation, all powers can only develop in public ancient battlefields.

Due to the large number of explorers, there isn't much left in public ancient battlefields. Finding relics from old Epochs in them is extremely difficult.

The best way to truly acquire the resources within an ancient battlefield is to break new ground.

"Ah Shui, what's the current situation within the Panfeng Federation?"

"With such a rampant undead disaster, we won't be able to reach the battlefield's interior, will we?"

Shui Miao nodded in response.

"Indeed, we would have to clear the undead plague for the Panfeng Federation before we can enter the battlefield."

"Regardless, this ancient battlefield falls within the Panfeng Federation's territory, and they have the right to allocate its development."

"This right of the Panfeng Federation is protected by the Ten-thousand Nations Federation."

"The Panfeng Federation stipulates that each power must exterminate at least one hundred thousand undead creatures before they allow a single individual to enter the battlefield."

"Considering the scale of the undead disaster, the Panfeng Federation is planning to allow only a few thousand people into the battlefield."

Fang Mu instantly understood the Panfeng Federation's scheme when he heard Shui Miao's words.

The Panfeng Federation had promised to use the resources of the massive ancient battlefield as a reward for any powers that assisted them.

However, the Panfeng Federation itself also aimed to claim the resources within the ancient battlefield.

As such, the Panfeng Federation would undoubtedly be the force that exterminates the most undead creatures.

Being the host, it shouldn't be a problem for the Panfeng Federation to mobilize all its forces to eliminate thirty million undead creatures.

Pushing a bit harder to clear forty million undead creatures isn't impossible either.

This ensures that about a third of all explorers entering the ancient battlefield would be the strong ones from the Panfeng Federation.

The interior of the ancient battlefield is riddled with dangers, and an untold number of powerful individuals have perished while exploring ancient battlefields.

Inside an ancient battlefield, humans are actually much more terrifying than the undead.

If the Panfeng Federation had any ulterior motives, many forces could suffer as a result!

"Ah Shui, the exploration of this colossal ancient battlefield involves relics. It's likely to be tumultuous."

Upon hearing this, Shui Miao chuckled and said.

"In any exploration, whether it's of a super-large ancient battlefield or a small one, people from the same team might betray each other for personal gains."

“This exploration will definitely not be peaceful!”

“However, with Golden Bull and me, we can ensure your safety.”

Fang Mu nodded and replied.

“In that case, let’s set off in four days!”

“Killing hundreds of thousands of undead creatures won’t be hard for us.”

Fang Mu’s trust in Shui Miao and Shu Liangjun to ensure his safety came from several factors: he had gotten to know them and had grown familiar with their characters, they were all official members of Starwheel, and behind himself was a Senior Creation Zenith Master who could already blend elixirs with a purity of 96%, almost equivalent to a Top-level Creation Grandmaster!

Chapter 519: Evolve! Dark Nightmare Tiger!\_2

In this vast ancient battlefield, there is nothing more precious than the resources of a top Creation Master.

Besides, Shu Liangjun’s longevity depends on herself, in a sense, I am her life.

Under these circumstances, Fang Mu really doesn’t have much to worry about.

“Good, the Golden Bull needs to remove the toxins from its body, and I need to prepare some supplies.”

“We’ll embark again in four days!”

“Calculating roughly, the Starwheel gathering will be held in two days. Besides Golden Bull and me, it seems that the others all want to exchange resources with you.”

After talking to Shui Miao for a while, Fang Mu entered the cultivation room and directly summoned the Abdominal Territory Worm and the Mechanism Fortress.

Fang Mu could feel how excited his Ghost Type Beast Yama Pragma was after he learned about this huge ancient battlefield from Shui Miao.

Yama Pragma has consumed all the Souls of Death Fang Mu currently possessed.

The Ghost Fish Princess produces Souls of Death too slowly and can't keep up with Yama Pragma's consumption.

Yama Pragma, accustomed to eating Souls of Death, found swallowing Souls of Life somewhat difficult.

Yama Pragma knew that on this huge ancient battlefield, by killing those soul ghosts, Fang Mu could collect a large number of Souls of Death.

Fang Mu was as excited as Yama Pragma, but instead of collecting Souls of Death, he hoped to discover more special undead species Guardian Beasts in his exploration of the ancient battlefield.

He allowed Yama Pragma to control these undead Guardian Beasts through the skill [Golem Paper Control], thereby further enhancing Yama Pragma's strength.

As a mechanical beast, Suction doesn't need to rest at all, and using the skill [Waste Recycling] to work is an important way for Suction to gain energy.

In these days, Suction has slowed down the pace of devouring the flesh of Tile Bone Stinger, focusing more on the consumption of Space System Materials.

After his mixtures, Fang Mu obtained a total of 32 bottles of Space Potion with a purity of 100%, ten bottles of Space Potion with a purity of 96%, and 21 bottles of Space Potion with a purity of 94%.

In addition, he has 75 bottles of Space Potion with a purity of 90%.

He also has a large number of Space Potions with a purity ranging from 85% to 89%.

These Space Potions with a purity of 85% to 89% were prepared by Fang Mu for She Wan.

Occasionally, Fang Mu can use some Space Potions with a purity of 90% as a reward.

The rest of it is prepared for the Abdominal Territory Worm, who will be given 100% purity.

After the Abdominal Territory Worm obtained the golden skill [Secret Realm Energy], it has been seen by Fang Mu as a Guardian Beast with strategic significance.

Even if Fang Mu didn't contract with the Abdominal Territory Worm, he still planned to provide it with the best resources.

Let the Abdominal Territory Worm elevate its rank.

Fang Mu fed his Space Potions to the Abdominal Territory Worm, along with an abundance of Life Energy.

In four days, it should be enough for the Abdominal Territory Worm to evolve to the legendary quality of the Diamond Rank.

At the Diamond Rank of legendary quality, the Abdominal Territory Worm could play a certain role in the exploration of the ancient battlefield.

The Mechanism Fortress has not yet been upgraded by Fang Mu.

Previously, because Fang Mu had a limited amount of spiritual instrument fragments, he gave as many of them as possible to Suction.

He just couldn't take into account the upgrade of the Mechanism Fortress.

Now that he has acquired so many spiritual instrument fragments from Shui Miao, it's no problem for Fang Mu to cultivate five or six mechanical beasts at the same time!

Naturally, Fang Mu doesn't need to be stingy about investing resources in the Mechanism Fortress.

The Ingenious Round Tent is just half a square meter in size when it's at the copper level.

Anyone wanting to enter must ensure they are thin enough and relatively short-sized.

However, the Mechanism Fortress, even when at the standard quality of the copper level, is like a mechanical tower that rises from the ground, with four slots on its whole structure.

These four slots would occasionally release a large number of mechanical gears.

These mechanical gears continuously change the shape of the Mechanism Fortress, but they do not change the internal space.

For this kind of large recovery-type beast, if it wasn't for Fang Mu's SS+-rank talent as a Scavenger and the great contributions he made to JA City,

It would have been difficult for Fang Mu to obtain the Mechanism Fortress from the Merit Pavilion.

As Fang Mu entered the inside of the Mechanism Fortress, he immediately felt wrapped in a special kind of energy.

Even though Fang Mu's internal energy was at its full state right now, fatigue was being rapidly eliminated.

A large number of spiritual instrument fragments were poured by Fang Mu into the Mechanism Fortress, with the mechanical gears in the four slots on the Fortress's body quickly flying inward.

Every two gears collided, clamping the spiritual instrument fragments, which were then brought back into the slots.

A teeth-gritting sound came out of the Mechanism Fortress.

Gradually, Fang Mu found that as the spiritual instrument fragments were consumed, more gears gradually flew out of the four slots on the body of the Mechanism Fortress.

For a recovery-type beast like the Mechanism Fortress that needs to be placed, Fang Mu still didn't need to contract with it.

It could rapidly elevate its rank through continuous resource injection.

Only in this way can the value of the Mechanism Fortress be maximised.

Otherwise, if the Mechanism Fortress follows Fang Mu's Beast Master Star Level, it will be trapped at the Silver Peak.

Chapter 520: Evolve! Dark Nightmare Tiger!\_3

Fang Mu can only increase his level to golden rank by becoming a Biprong Star Beast Master.

In the Beast World, the only thing that is fair is that no matter if you are the disciple of a Grandmaster Creator from a prestigious family, you still have to gradually increase your rank as a Beast Master, you can't achieve it at once.

Sacred Relics do indeed have the effect of improving the spiritual power of a Beast Master, but this effect can only be seen through months and years of accumulation.

And it only plays an auxiliary role.

Evolving a Mechanical Beast, whether in terms of level or quality, is very simple.

All Fang Mu needs to do is digest the spiritual instrument fragments inside the Mechanism Fortress and then add a new batch of fragments!

The Abdominal Territory Worm is also something he doesn't need to worry about.

As a Space-based Beast, as long as it has sufficient and pure spatial energy and life elixirs, plus being catalyzed over time, its rank and quality will naturally rise.

A new drop of Covenant Blood Essence has been condensed. Fang Mu plans to use this drop of blood to contract with the Dark Nightmare Tiger first.

On the Battle Network, Fang Mu has two identities: Jianmu, the disciple of the Grandmaster Creator, and Yama, the fighter who uses Undead Creatures.

With his Yama identity and more and more Undead Species familiars controlled by Yan Yubanruo through the skill [Golem Paper Control], Fang Mu's combat system under this identity will become increasingly robust.

Meanwhile, under the identity of "Jianmu", Fang Mu has always relied on only a Rainy Doll for fighting on the Battle Network.

Even if the Rainy Doll can transform into a Blood Noble through the Skill Water Spirit Conversion, Fang Mu is still very likely to lose control.

It's time to add a Guardian Beast that can fight upfront for his "Jianmu" identity.

The Dark Nightmare Tiger, as a Dark Attribute familiar, seems to be more suitable for Fang Mu's Yama identity, but Fang Mu planned an Evolutionary Path for it to become the Subduing Dragon Nightmare Tiger, which needs to determine its own attributes by devouring Dragon Balls.

Not the Nightmare Cursed Tiger or Giant Claw Nightmare Tiger.

Most of the Dragon Balls on hand are of the Water attribute, so after the Dark Nightmare Tiger devours the Dragon Balls and evolves into the Subduing Dragon Nightmare Tiger.

Even if it possesses other attributes, it is primarily a Water System Beast.

It matches very well with Rainy Doll.

Soul Whale Princess has given Fang Mu two additional Dragon Balls on top of the original six.

These two Dragon Balls both come from Elemental Dragons with a righteous lineage, namely the Milky Way Waterfall Dragon and the Flame Heart Scorching Dragon.

We are sure that we will feed the Flame Heart Scorching Dragon's Dragon Ball of Fire attribute to the Dark Nightmare Tiger.

Fang Mu has chosen the evolutionary route for the Rainy Doll to become Lake Flame Gemini, which is a Water Fire double series Elemental Beast.

It matches perfectly with the Subduing Dragon Nightmare Tiger, it's absolutely perfect.

Fang Mu let out the Dark Nightmare Tiger, who had been fed three meals on time by Fang Mu every day during this time.

The Dark Nightmare Tiger was already very familiar with Fang Mu.

Moreover, Fang Mu has removed the iron cage for the Dark Nightmare Tiger since he bought it, which allows the Dark Nightmare Tiger to move freely within the Purple Ice Crystal Ring.

This makes the Dark Nightmare Tiger have no hostility towards Fang Mu.

The Dark Nightmare Tiger at the Copper stage was quite alarmed and not used to the sudden change of environment when it was summoned.

But seeing Fang Mu, it calmed down, and then turned its head to look at the Abdominal Territory Worm, which had already reached the Gold Stage.

It seemed to be judging the danger of the Abdominal Territory Worm.

As for the plump and juicy worm, the Dark Nightmare Tiger did not have any appetite for it.

Fang Mu went up to the Dark Nightmare Tiger and stroked its head.

Despite being under Fang Mu's watchful eye, the Dark Nightmare Tiger was not startled by Fang Mu's touch, something it had done several times before.

Fang Mu has always been on guard against the Dark Nightmare Tiger, and when he saw that the Dark Nightmare Tiger wanted to attack him.

Fang Mu immediately had the Rainy Doll, which was at the peak of the Silver Stage with Legendary Quality, manipulate the water flow to teach the Dark Nightmare Tiger a lesson.

In the world of Tiger Type Familiars, the strong ones are considered kings.

The Dark Nightmare Tiger would only attempt to make friendly contact with Fang Mu if it was aware of his strength.

Under Fang Mu's petting, the Dark Nightmare Tiger began purring like a giant cat.

This sound, powerful like a jet engine, was quite intimidating.

The vibration of the Dark Nightmare Tiger's chest and throat caused Fang Mu's hand to tingle.

He said, "I've told you before that I would make a contract with you to make you stronger."

"It's time to make a contract."

The name Meet Dragon was given to the Dark Nightmare Tiger by Fang Mu, but it was not the first name Fang Mu gave it.

Fang Mu has given the Dark Nightmare Tiger several names, but it clearly prefers Meet Dragon and doesn't respond much to the other names.

Fang Mu was happy to let a sentient creature choose its own name, rather than forcibly giving it a name it liked.

The Dark Nightmare Tiger nodded its head.

Seeing the Dark Nightmare Tiger's reaction, Fang Mu fed the Contracting Blood directly into its mouth.

The nine Dragon Balls in Fang Mu's hands come from the Rain-horned Dragon, Heavy Rock Tyrant Dragon, Choking Wood Crown Dragon of Sequence Nine.

Underworld River Hidden Dragon, Milky Way Waterfall Dragon, Flame Heart Scorching Dragon, Long Wind Coiling Dragon of Sequence Eight.

Cloud Extreme Response Dragon and Sky Frost Soaring Dragon of Sequence Seven.

Among them, the Dragon Ball of the Sequence Seven Cloud Extreme Response Dragon is best suited to stimulate Fang Qin's Cangluan Ying Jiao's bloodline.

The Dragon Ball of the Sky Frost Soaring Dragon is suitable to induce the bloodline of Frost Tone Snow Dragonling, transforming from the bloodline of Hidden Dragon to the bloodline of Soaring Dragon.

Therefore, Fang Mu would not use these two Dragon Balls at will.

The Heavy Rock Tyrant Dragon and the Choking Wood Crown Dragon belong to the two major branches of the Main Dragon Species that evolved from the Dinosaur species, Tyrant Dragon and Crown Dragon, which are not compatible with the Subduing Dragon Nightmare Tiger.

It's only appropriate to let the bronze-stage Subduing Dragon Nightmare Tiger devour the Sequence Nine Dragon Ball.

So, Fang Mu also fed the Rain-horned Dragon Ball to the Dark Nightmare Tiger.
