

Beast Tamer 541

Chapter 541: The Ultimate Kill in The Flowers!_3

Once the defense was broken, the toxins in the rain would take effect immediately.

Rainy Doll's exclusive feature [Poison Mark Fragments], completely disrupted Zhang Kai's arrangements.

The [Poison Mark Fragments] displayed by Rainy Doll awakened some memories of the audience in the field.

"Ah! I remembered the skill of this half-elf! When Jianmu did the Battle Network duel before, it was through this skill that five blood holes were blown up on Huan Wang's Thunder Horn Rhinoceros! I just completely forgot about this, I was worrying about Jianmu all the time!"

"Now that you mentioned it, I recall it! That's exactly what happened! I watched the live broadcast before, but later I couldn't even find the video replay on the whole Battle Network."

For the audience who knew the previous situation, their memories were now rekindled.

For those who were unaware, all that was left was astonishment.

"Damn! This Silver Stage half-elf of Jianmu's is too strong! He took down so many Blade Cockroaches by himself! Is it really reasonable for this Silver Stage half-elf to be this strong!?"

"I didn't believe before when the people at Skin Peeling House said this Silver Stage half-elf of Jianmu possesses a legendary quality, but now I believe!"

The audience in the field ignited once again at the continuous sound of explosions under the rain curtain, but Zhang Kai's heart was chilled by the successive explosions.

Due to the urgency of time, Zhang Kai was invited by the Battle Network for an exhibition match against Jianmu.

All of Jianmu's combat videos on the Battle Network had disappeared, and two hours was not enough for the Sky Club to collect information on Jianmu.

The Sky Club's guild started to pay attention to Jianmu after his confrontation with Huan Wang.

In these two hours, Zhang Kai was mostly stressed by Sky Club's leadership about the importance of this fight, giving Zhang Kai psychological construction.

Although nearly two hundred Blade Cockroaches are not dead yet, these two hundred Blade Cockroaches have lost their combat power.

The same goes for those four Blade Cockroaches specially enhanced by the Blade Mother Cockroach.

It was only after personally experiencing it that Zhang Kai could finally understand the horror of the toxins of Jianmu's Silver Stage half-elf.

In the prior attacks, Zhang Kai had Jianmu's Lotus Guardian Beast, which had not grown larger, wave its lotus leaves for a bit of defense.

But now, he doesn't even let the enlarged Lotus Guardian Beast have the chance to swing its lotus leaves.

This is really too humiliating!

Zhang Kai didn't care much about the cheering from the audience seats.

Zhang Kai felt at this moment, that these cheers were most likely mocking him.

Such a good opportunity in front of him turned into this mess, Zhang Kai found it very difficult to explain to the Sky Club.

Zhang Kai forcibly calmed his mind and could only pin all his hopes on the Saber-Toothed Giant Centipede.

Zhang Kai directly used spiritual power to have the Saber-Toothed Giant Centipede use [Segment Hug Kill] on Jianmu.

If the skill [Segment Hug Kill] could succeed, whether it's the skill [Stingtail] or the exclusive feature [Yellow Springs Blood Drinking], they could kill the Saber-Toothed Giant Centipede in an instant!

Even if the Saber-Toothed Giant Centipede could not use [Segment Hug Kill] on Jianmu, as long as it could get close to Jianmu.

It could also erupt the toxins within its body in a moment with the exclusive feature [Blood Poison Eruption], taking Jianmu down with it.

Originally, Zhang Kai could have let the Saber-Toothed Giant Centipede harvest the Blade Cockroaches that hadn't fully died yet, increasing its own toxin production through poisoning other organisms with [Blood Poison Eruption].

But doing so would cause the Saber-Toothed Giant Centipede to stay in the rain curtain for too long, not conducive to the trembling of the Blood Noble who the half-elf transformed into when facing Fang Mu later.

On the other hand, letting the Saber-Toothed Giant Centipede use the exclusive feature [Blood Poison Eruption] to harvest the Blade Cockroaches by releasing its poison.

This would very likely alert Fang Mu.

Zhang Kai had no idea how deep or shallow his two Guardian Beasts were, and when he had summoned them, Fang Mu had already clearly grasped their abilities.

Seeing the Saber-Toothed Giant Centipede charging at him using the strong body effect gained from the skill [Strong Body], Fang Mu did not choose to have Rainy Doll transform into a Blood Noble.

In this battle, as a Silver Stage Level Ten Guardian Beast of legendary quality, Rainy Doll's energy had basically been exhausted.

Jianmu had anticipated that Zhang Kai would place the outcome of this battle on the exclusive feature of Saber-Toothed Giant Centipede, [Blood Poison Eruption].

In this situation, Zhang Kai let Saber-Toothed Giant Centipede enter an undefended state.

Ling Poison King Lotus has been compressing its deadly poison into lotus hearts through his exclusive feature [Leaf Lotus Dance] since it was summoned.

Ling Poison King Lotus used its exclusive feature [Bound Earth Lotus Body] to root itself in the ground, using the nutrients deep in the strata to amplify itself.

This not only made the Lotus Body larger, but also increased its carrying capacity.

The lotus heart that was condensed now, was far from reaching the limit of Ling Poison King Lotus.

But these two lotus hearts are enough to blast the body of the Saber-Toothed Giant Centipede.

The strength of the lotus heart condensed through the exclusive feature [Leaf Lotus Dance] depends on the burst of toxicity.

Considering the toxicity of Rainy Doll, the attack power of these two lotus hearts is difficult to resist even for platinum stage Guardian Beasts.

The director of the Battle Network Silver Division arranged for himself as the first opponent to have two peak gold stage Guardian Beasts.

The Guardian Beasts of the second opponent will inevitably reach the platinum stage.

Through the first matchup, the second opponent would not possibly give Ling Poison King Lotus the opportunity to condense lotus hearts.

The audience were all waiting to see Jianmu's Silver Stage half-elf transformed into the rumored Blood Noble.

They saw Jianmu's hand gesturing lightly, and the giant lotus flower behind his intertwined suddenly bloomed with a pale purple ghostly light.

Between the light dance of the lotus petals, two bright purple objects were shot towards the Saber-Toothed Giant Centipede from the heart of the lotus flower.

At this moment, Zhang Kai, after confirming that Jianmu has reached the spray poison area of Saber-Toothed Giant Centipede, saw the raised lotus leaves of Jianmu's huge lotus-type Guardian Beast, which was in a defensive stance.

Obviously, in order for the Saber-Toothed Giant Centipede to get close, it needed to break through the obstruction of these two giant lotus leaves.

But blocking the bright purple attack from the lotus flower would inevitably lose the opportunity to spray poison.

Zhang Kai, as Fang Mu predicted, did not choose to have Saber-Toothed Giant Centipede dodge, but let the Saber-Toothed Giant Centipede use its exclusive feature [Blood Poison Eruption] without reservation.

The dark red poisonous fog sprayed out from the mouth of the Saber-Toothed Giant Centipede, and Fang Mu's figure was engulfed in an instant.

Chapter 542: Tiger and Dragon!_1

At this point, both Zhang Kai and Jianmu had let loose their ultimate attacks.

In this exhibition match, if Jianmu can use his attack to obliterate Zhang Kai's Saber-Toothed Giant Centipede...

Zhang Kai, having collapsed due to energy depletion from the Blade Mother Cockroach, would be deemed the loser due to the death of his Guardian Beast.

Alternatively, if Zhang Kai's Saber-Toothed Giant Centipede could manage to kill Jianmu by releasing its cloud of poison, Zhang Kai would be declared the victor upon the death of his Beast Master adversary.

It could be said that the outcome of the first exhibition match hinged purely on this impact.

Fang Qin, Fang Yuan, and Yan Wood all clenched their fists in unison due to the intense tension.

In their view, a Peak Gold-Ranked Guardian Beast, amplified by mystic marks and spewing out all its venom, was something no Beast Master could possibly withstand.

It should be known that battles in the ranking divisions did not allow the use of spiritual instruments like the age divisions. Not only were Fang Qin, Fang Yuan, and Yan Wood apprehensive, many in the audience were also feeling the heat for Fang Mu.

"I was wondering why Zhang Kai would seem to recklessly send his giant centipede into the shower, turns out, it was to take down Jianmu directly!"

"I've seen that centipede of Zhang Kai's in previous battles, when it was at high-level gold rank, it had used the same trick to poison a peak gold rank Guardian Beast. Considering Jianmu's vulnerable flesh and blood, he's probably dissolved into pus within the poisonous fog."

"Does that mean Zhang Kai has won?"

The majority of the audience thought this was the case, but experienced Beast Observers and the Creator's assistants, as well as the actual Creators themselves knew otherwise.

The moment Zhang Kai decided to eliminate Jianmu using its exclusive Blood Poison Eruption feature, was the moment he was set up for defeat.

This was because the Aurous Lotus that Jianmu had summoned had its strongest ability rooted in absorbing toxins.

Upon seeing Fang Qin's clenched fists, Mo Shang handed him the popcorn he bought before coming to watch the exhibition match.

The Battle Network, in order to generate revenue, had incorporated a Food System more than a decade ago. There were many Beast Masters who would satisfy their midnight cravings in the Battle Network. Overindulgence in real life could harm their physical health and affect their figures.

However, logging into the Battle Network to satisfy these cravings did not bring about physical issues, allowing them to indulge happily!

"The Lotus that Little Wood has summoned is probably evolved from the Ling Poison Dark Lotus, becoming the Ling Poison King Lotus, it seems to have reached the Legendary Quality as early as its Silver Stage."

"The greatest attribute of the Ling Poison King Lotus is its absorption of toxins. Now, we'll have to see if the two attacks fired by Little Wood from the Lotus can break the Saber-Toothed Giant Centipede's defense!

"If the Saber-Toothed Giant Centipede's defense is broken and the toxins are introduced into its body through the rain, Little Wood will win this..."

Mo Shang's words were cutoff, before he could finish speaking, the two dark-purple lotus cores had struck the Saber-Toothed Giant Centipede.

The two seeds struck like flying knives, directly and easily piercing through the insect armour of the Saber-Toothed Giant Centipede.

Mo Shang was stunned, completely taken by surprise. He clearly didn't anticipate that Fang Mu would be able to deal such damage with the Ling Poison King Lotus at its Silver Peak stage.

With the two Lotus cores hitting with such formidable force, they should have passed cleanly through the giant centipede body, exiting from its abdomen.

However, as the basic entity of these two lotus cores were formed from concentrated toxins...

The moment the cores made contact with the flesh, they exploded within.

The Saber-Toothed Giant Centipede, amplified by [Mystic Mark: Blood Fury], had been blown to smithereens.

The audience sitting in the tournament grounds watched in shock.

Without even time to be astounded by the strength of the huge Lotus under Jianmu's feet...

The thick poisonous fog started thinning, revealing Jianmu's figure gradually becoming clearer within.

Jianmu was not melting, as per people's expectations.

Jianmu was still standing upright on the central of the Lotus leaf, staring calmly in the direction of Zhang Kai.

As if he wasn't the person engulfed by the poisonous fog earlier.

The calm and composed Fang Mu was in stark contrast to the disheveled Zhang Kai.

With victory and defeat settled, the figures of both Fang Mu and Zhang Kai simultaneously vanished from the Silver Battle Hall arena.

Even after ten seconds, when there were clearly no contestants left in the arena, the applauding thundered on, lingering heavily in the air.

The cheers were clearly for the composed young man who had just performed.

After the applause ended, the grandstand broke out in vigorous discussions.

“I believe I’ve witnessed a miracle! A one-point Star Creator actually defeated a Biprong Star Tamer, who had two peak gold rank Guardian Beasts!”

“Jianmu is awesome! I actually thought Jianmu would lose when I saw the swarm of hundreds of insects. But now, I believe Jianmu has a good chance of winning the next exhibition match!”

“Hehe, I also hold a favourable view of Jianmu, but by convention, the opponent Jianmu encounters in the second exhibition match would definitely be stronger than the first one – either possessing three peak gold rank Guardian Beasts or a platinum rank Guardian Beast. Even an Immortal wouldn’t be able to win when faced with a two-ranking disparity!”

All the discussions in the spectator stands revolved around Jianmu. As the loser, Zhang Kai was only mentioned in passing during discussions about Jianmu.

The recently concluded duel was so intense, that the spectators only remembered to tuck into the popcorn, cured beef, and fish that they had bought prior to entry.

Not a single person left the venue, all eagerly awaiting the second match that would commence in ten minutes.

Fang Mu returned to the Battle Network’s waiting area, looking down at his own hands.

Chapter 543: Tiger and Dragon! _2

Although Fang Mu remained calm on the outside, his blood was boiling with excitement inwardly.

Fang Mu discovered that he truly relished battles and was able to fully enjoy the exhilaration they offered.

It was not until he encountered Zhang Kai that he experienced the thrill of a closely matched battle for the first time.

In his battle against Zhang Kai, Fang Mu only used Rainy Doll and Eden Dreamland, he did not fight to his full potential.

By not using his full strength, Fang Mu was not implying that he had not summoned the Subduing Dragon Nightmare Tiger.

Rather, he did not utilize all of the powers of Rainy Doll and Eden Dreamland but still managed to defeat Zhang Kai.

Fang Mu did not become arrogant because he won the battle.

It took Fang Mu five minutes to carefully analyze his fight with Zhang Kai.

Fang Mu believed that a significant reason he defeated Zhang Kai with ease was because his Destiny Guardian Beast, Fool's Shadow, possessed the Innate Divine Ability of the Eye of Omniscience.

This made Zhang Kai fully transparent to Fang Mu.

Even Zhang Kai's upcoming instructions to his Contract Beast were predictable by Fang Mu.

In contrast, Zhang Kai was completely unfamiliar to him.

Every step in the battle required Zhang Kai to make decisions and reactions based on experience.

Once Fang Mu finished reviewing his battle with Zhang Kai, he calmed down and prepared for the next battle.

Fang Mu felt that he would probably not be able to hide the Subduing Dragon Nightmare Tiger in the next battle.

Fortunately, Fang Mu had no plans to hide it in the first place.

Fang Mu intended to join the exhibition match so he could encounter formidable opponents and test the strength of the Subduing Dragon Nightmare Tiger.

After losing the battle, Zhang Kai thought that Chen Peng would berate him intensively when he returned to the club.

Chen Peng was very strict with the players, and Zhang Kai felt terrible about his defeat caused by a mistake, blaming himself extensively.

However, when Zhang Kai carefully analyzed his loss against Fang Mu, he conceded that he was simply outperformed!

Zhang Kai had nothing to regret about it.

After he left the Battle Network and returned to his room, he found Coach Chen Peng waiting for him, as he had expected.

Zhang Kai promptly lowered his head and said to Chen Peng:

“Coach, I’m sorry, I lost the battle.”

At the news, Chen Peng raised an eyebrow and asked Zhang Kai:

“Tell me, what do you think you should apologize for?”

Chen Peng’s question left Zhang Kai speechless, leading him to lower his head even more.

As the head coach of a large-sized club, after realizing the gap between Zhang Kai and Fang Mu, Chen Peng wouldn't berate a player from his own club.

Therefore, Chen Peng went straight to the point, saying:

"Your loss to Fang Mu is justified, his strength is indeed superior to yours!"

On hearing this, Zhang Kai suddenly lifted his head. He knew well how important the battle was to Chen Peng before the showdown with Fang Mu.

Chen Peng would not have come to him personally otherwise.

Zhang Kai was surprised that Chen Peng was able to empathize and understand him after his loss.

Seeing Zhang Kai looking at him, Chen Peng gave him an encouraging smile, then his expression turned serious.

"However, you indeed have something to apologize for. You should have summoned both of your Guardian Beasts from the beginning."

"By going all out from the start, you might have had a chance to turn the tables!"

Zhang Kai blushed upon hearing those words, and once again, he lowered his head.

Although Zhang Kai is still a member of the Xiangtian Club Guild Reserve Team C, he has participated in two previous tournaments.

He now understood that putting his all in from the start, indeed offered a chance to achieve a breakthrough when pitted against formidable opponents by surprising them.

However, knowing that Fang Mu was only a One-point Stars Beast Master and his strongest Guardian Beast was only of the Silver Stage,

Zhang Kai somewhat underestimated Fang Mu and did not treat him as a worthy opponent.

Zhang Kai was more focused on how he could gain more fame from his battle with Fang Mu.

Given that mistakes were indeed made on his part and that Coach Chen Peng pointed those out,

Zhang Kai chose not to defend himself but admitted his errors instead.

Chen Peng was pleased with Zhang Kai's attitude. He patted Zhang Kai's shoulder and said:

“I hope you learn your lesson when facing such an opportunity in the future.”

“Although you lost your exhibition match against Fang Mu, the spectacle of your insect swarm still grabbed a lot of attention.”

“Your popularity has caught up with the last player from reserve Team A, your promotion to Team A is basically locked in.”

“Starting next month, you should start training with Team A!”

“Remember that you were promoted by me personally, make sure you work hard and don’t let me down!”

This big surprise virtually stunned Zhang Kai.

Initially, Zhang Kai thought he would be criticized after losing to Fang Mu. Already satisfied with escaping reprimand, Zhang Kai did not expect this turn of events.

Despite such an unsightly loss, he still managed to achieve such high popularity.

Given that he has achieved so much despite being a loser, he wonders how much popularity and fame the victor, Fang Mu, would have gained!

“Don’t worry, Coach Chen, I will always remember that you promoted me.”

“I will double my efforts when I become a part of Team A in the future!”

“Coach Chen, as a participant of the exhibition match, I have the right to watch the match.”

Chapter 544: Tiger and Dragon! _3

“May I have an opportunity to attend the second performance match of Jianmu?”

Upon hearing this, Chen Peng chuckled.

“Feeling a little dissatisfied, are you?”

“Go ahead, I was going to let you watch the second performance match of Jianmu anyway.”

Zhang Kai didn’t explain to Chen Peng, he already accepted Jianmu’s superiority wholeheartedly.

Zhang Kai wanted to watch Jianmu’s second match in hopes of a victory for Jianmu.

Both he and Jianmu’s opponent in the next match are losers, which would split the heat of the two performance matches evenly.

If Jianmu lost, the heat of the first performance match and the entire second match would all converge on Jianmu’s next opponent.

This would undoubtedly cause a significant drop in his hard-earned popularity!

This is not what Zhang Kai wanted to see.

The popularity he has now is only temporary. Without a continued boost in popularity, he might even be kicked back to the C team of the reserve group!

Each group in the reserve group is a small team, and he is now doing well and has a firm footing in the C team.

But once he leaves the C team and returns, he will inevitably be ridiculed and taunted by his original teammates.

In a fiercely competitive environment, teammates who are jealous of him could sabotage him in a battle.

This could lead to the end of his career at best and may even result in the death of his guardian beast in the worst case.

Although Zhang Kai still feels pressured, the main pressure has now shifted to Cai Boshen.

Cai Boshen never felt any pressure, but after watching Jianmu's first match with Zhang Kai, he turned into a bundle of nerves.

This fucking guy is a One-point Stars Beast Master!?

When did One-point Stars Beast Masters become so powerful!?

Cai Boshen had a hard time not suspecting Jianmu.

Jianmu's enormous lotus beast, after storing energy, could easily kill Zhang Kai's Saber-Toothed Giant Centipede, and definitely poses a threat to his own beast.

Cai Boshen figured out that Jianmu's lotus beast needs to store energy to launch an attack.

He planned to instantly summon all his beasts and confront Jianmu unyieldingly, relying on his higher rank to defeat Jianmu.

He didn't care whether this was a good strategy or not; all that mattered was winning!

Even if he won unsightly, winning was still better than losing.

Although he was nervous, Cai Boshen still had the confidence to win.

His strength was much stronger than Zhang Kai's.

The quality of his two beasts all reached Epic Quality.

Zhang Kai was not from a major force, and he cultivated his beasts using the resources provided by the guild.

The guild would enhance Zhang Kai's power, but would not spend a lot of resources polishing Zhang Kai's beasts.

He was from a big force, and he joined the Soul Rain Club just for fun.

With ample resource supply, he could freely enhance his two Dragon Beasts.

When Cai Boshen consulted with the coaches of the Soul Rain Club Guild on how to deal with Jianmu, he didn't know that Fang Mu also planned to confront him unexpectedly in the second match.

Immediately after watching the first performance match, Liu Tiantian knew that even if Jianmu didn't play in the second performance match, she would have plenty of news copy to release for the next six months.

Liu Tiantian logged on to Skin Peeling House, and found that many people in the Skin Peeling House had started analyzing Jianmu's beast situation.

Liu Tiantian didn't choose to delve into the posts analyzing Jianmu's background on Skin Peeling House.

Because the second performance match was about to start in less than 15 seconds!

Fang Mu stepped on the stage again amidst the anticipation and attention of the crowd.

In the previous match, when Fang Mu first entered the stage, he heard a huge and noisy murmuring from the audience.

At that time, Fang Mu couldn't make out what the audience was saying.

Now, reentering the Silver Battle Hall arena after ten minutes, Fang Mu could clearly hear the audience in the stands, almost everyone was shouting his Battle Network name, Jianmu.

These cheers made Fang Mu's blood boil.

So this is what it feels like to be a superstar in an arena!

Fang Mu didn't get distracted by the audience's cheers, nor did he respond to their shouts.

He focused on his opponent instead.

The continuous cheers didn't affect Fang Mu, but they greatly affected Cai Boshen, who was already very nervous.

Even Cai Boshen, a privileged child from a big force who's seen a lot, couldn't help but tremble a bit.

He actually forgot to summon his beasts immediately.

The performance matches in the battle network's sectional halls start the moment both parties step into the arena.

While Cai Boshen was distracted by the cheers from the stands, Fang Mu had already summoned his beasts.

The audience thought Jianmu would summon his Rainy Doll again, covering the ground with greenery, standing on a huge lotus leaf.

But they were instantly awestruck by the sudden roar of a tiger and the long dragon calls!

Everyone saw a massive Colorful Mighty Tiger appear in front of Jianmu.

The azure fur was coiled with black stripes, and the king symbol on the forehead exuded an unspeakable aura of dominance.

The tiger stripes on either side of the king symbol looked like winding Jiaolong, its dark red tiger's eyes full of ferocity.

The tiger paws were sturdy and powerful, each strike on the ground left a deep scratch mark.

Keep in mind that Zhang Kai's Blade Cockroach, specialized by his Blade Mother Cockroach, could only leave scratches on the ground.

This indicated that the striking power of this tiger's paws could easily inflict the damage of a gold-rank Beast.

This is a testament to how many remarkable resources were used to cultivate this tiger.

However, the most attractive part of this Colorful Dragon Tiger is not the tiger itself but the two dragon tails that are longer than the tiger's body and raised high behind it.

The Dragon Wei released by the two dragon tails made many of the audience feel a suffocating sense of oppression.

They had no choice but to open the clean mode of the Battle Network to block the oppressive force released by the two dragon tails.

Chapter 545: The Twin Sub-Dragons of Crumbled Rock and Misty Wind!_1

Both the audience who are personally watching the duel in the Silver Palace and those who are watching the duel in the broadcast rooms with broadcasting rights.

Began discussing the Subduing Dragon Nightmare Tiger that Jianmu summoned.

[My God! What kind of Tiger Type Familiar is this!? This aura makes my legs go weak! If it weren't for the differences between the Battle Network and reality, I would have accidentally wet myself without needing to use the bathroom!]

[This tiger is so cool! But I'm curious why it has two dragon tails? And the two dragon tails look different!]

[Why do you think this is a Tiger Type Familiar? The two dragon tails are even longer than the tiger's body. It might be some sort of special Dragon Beast!]

[If you're not knowledgeable, just learn a bit. By studying Beast observation, you can differentiate whether it's a Tiger Type Familiar or a Dragon Beast!]

More viewers are focusing on the number of Contract Beasts that Fang Mu has entered into agreements with and discussing it, rather than observing the Subduing Dragon Nightmare Tiger itself.

[Including this tiger, Jianmu has dispatched four Familiars, right!? Contracting four Familiars when he is still a One-point Stars Beast Master, is he a genius or an idiot? Doesn't he understand the importance of the mystic runes!?]

[When you're still a One-point Star Beast Master, you can contract at most two Familiars, right? Many of our college's students from big powers only have two Familiars even after graduating and becoming a Three Point Stars Beast Master.]

[In the case of individuals like Zhang Kai trained by clubs, in order to protect his potential, his club only allowed him to contract two Familiars instead of getting a third one just to increase his short-term power. Why could Jianmu directly get four?]

[It's not four, including this tiger Familiar makes three! The lotus underfoot and the green field are part of the Wood System Domain-Type Beast and is counted as one. It's rumored that Jianmu's master is a Grandmaster Creator, right? How would he let his Disciple make such basic mistakes?]

Some in the audience who have been following Fang Mu's duels have attended Fang Mu's personal auction.

And even those who haven't been to the auction have heard some rumors from it.

The Flower Beads that Jianmu used as garment decorations could enhance the ability to control mystic runes, and these beads are qualified to compensate for the spiritual power consumption caused by contracting Familiars.

Moreover, Jianmu was able to bring out special Familiars that could be contracted with just ten percent of regular Familiars' spiritual energy.

It's possible that among the Beasts that Jianmu has contracted, there are such special Beasts!

The audience who holds this kind of information definitely wouldn't leak it out easily.

Therefore, despite the intense public interest, no pertinent information has been revealed on the Battle Network.

People from big powers all understand that certain comments made on the Battle Network can bring legal liabilities.

With his status as the disciple of a Grandmaster Creator, if Jianmu truly wanted to trace this back, he could totally investigate via the Beastmaster Alliance to find out who first leaked the information.

A portion of the audience hearing the other viewers questioning Jianmu had a feeling of being the only sober one among a crowd of drunks.

Mo Shang, Fang Qin, Fang Yuan, and Yan Wood were all surprised by why Fang Mu had contracted three Familiars.

However, the three didn't dwell over this matter too much, especially Fang Qin, Fang Yuan and Yan Wood.

Knowing how much the Qixing Grandmaster dotes on his younger brother.

Fang Mu becoming a Beast Master is likely to have a lot to do with the Qixing Grandmaster.

The Qixing Grandmaster allowing Fang Mu to contract three Familiars must have its own reasons.

What they were more interested in was the Dragon Wei that Fang Mu's Tiger Type Familiar released, especially Fang Qin.

Fang Qin could feel both his Dragon Beasts- Frost Tone Snow Dragonling and Cangluan Ying Jiao, inexplicably terrified of the aura from Fang Mu's Tiger Type Familiar.

Fang Qin has felt such fear before.

Only when Frost Tone Snow Dragonling and Cangluan Ying Jiao encountered Dragon Beasts that could suppress their own with Bloodline Power would such feelings surface on Fang Qin.

The Beastmaster Rank of Fang Mu's Tiger Type Familiar is only at Silver Stage, could it be that the Dragon Bloodline Power within the two dragon tails of this Tiger Type Familiar is stronger than his own Frost Tone Snow Dragonling and Cangluan Ying Jiao!?

Fang Qin turned his eyes to Mo Shang.

As soon as Fang Mu summoned the Subduing Dragon Nightmare Tiger, Mo Shang had noticed the Dragon Bloodline Power in the two dragon tails of the Subduing Dragon Nightmare Tiger.

"One of the dragon tails is very similar to the Rain-horned Dragon, I have seen it myself before, couldn't possibly be wrong."

"The other dragon tail is somewhere between an elemental body and a real body, very close to the Elemental Dragon, the Waterfall Dragon's species."

"The Dragon Bloodline essence within these two dragon tails have reached the Sequential level due to their Main Dragon Species."

"I am very curious about how little Mu trained this Tiger Type Familiar!"

"To achieve this effect, a complete Main Dragon Dragon Ball must have been used."

"There should be no suspense in this duel."

Mo Shang wasn't blindly confident about Fang Mu, Fang Mu didn't even need to summon Rainy Doll and Eden Greenfield.

Just with such Tiger Type Familiar bred from a Master Dragon's Dragon Ball, it could contend against the majority of Platinum Grade Familiars.

All Dragon Race Beasts have an innate attack method, this method of attack is the Dragon Breath of Dragon Beasts.

The strength of the Dragon Breath is related to the power of the Dragon Beast's Bloodline.

Chapter 546: The Twin Sub-Dragons of Crumbled Rock and Misty Wind!_2

The dragon breaths spewed from these two dragon tails firmly blasted on the platinum rank Guardian Beast, few platinum rank Guardian Beasts could bear.

Of course, the prerequisite is that they can hit the target.

Whether they can hit or not depends on Fang Mu's combat skills and control of the battle rhythm!

As expected, facing his opponent, Jianmu summoned his Guardian Beast first.

Intending to knock down Cai Boshen with his strongest force from the beginning, he should summon his two Guardian Beasts immediately afterward.

Cai Boshen has always been proud of his two Dragon race Guardian Beasts.

Although his two dragon race Guardian Beasts are both from the dinosaur species and not as popular or appealing as the Jiaolong Beasts.

Yet, one of his dinosaur species Guardian Beasts has the bloodline of the Tyrant Dragon, and the other has the bloodline of the Pterodactyl.

Together, they can launch an attack on both the land and the sky.

A pair of dinosaur species Guardian Beasts had allowed Cai Boshen to forcefully pierce into the club's rookie list.

But now his two ferocious dinosaur species Guardian Beasts, due to the aura released by Jianmu's dragon species Guardian Beast, were pleading not to be summoned.

This situation made it hard for Cai Boshen to bear for a moment.

Why didn't Jianmu summon such a powerful beast when he was fighting Zhang Kai?

Due to the cause of the bloodline, his two Beastmasters were scared and directly shrinking from battle.

When the Guardian Beast shows fear of battle, the best way for the Beast Master to fight is to soothe the Guardian Beast and stop fighting.

Then gradually exercise the Guardian Beasts, to prevent them from fearing battle again in the future.

This is the best solution.

Otherwise, forcing the Guardian Beast to be summoned may leave psychological scars on the Guardian Beast.

It could make the Guardian Beast become timid and cowardly.

At the moment, Cai Boshen was facing a performance watched by all, and retreating without fighting at this moment would definitely be scolded to death by the audience.

These spectators, except for those who grabbed tickets at the beginning, later those spectators all paid a lot of money for the opportunity to enter.

Cai Boshen had no way to explain it to the Battle Network.

If he admits defeat without even summoning his Guardian Beast, he will certainly be booed whenever he appears on the battlefield in the future.

He would become the least supported club player.

In addition, Cai Boshen himself also wanted to save face, so he gave orders to his two obviously fearful Guardian Beasts.

Then, using spiritual power, he released the two Guardian Beasts from his own Destiny Guidebook.

Two gigantic beasts no smaller than the Subduing Dragon Nightmare Tiger appeared in the arena.

One of the Guardian Beasts was over nine meters tall and over twelve meters long, much like the dinosaurs Fang Mu had seen in his previous life.

But compared with the restored images of the dinosaurs Fang Mu had seen in his previous life, this dinosaur looked even more crude and brutal.

The body was covered in bone-like spines, a pair of spiral horns grew on the massive skull.

The cold glow of the fierce teeth left no doubt that this dragon beast could easily rip through steel.

Its strong, long tail could smash other fierce beasts' spines with a single sweep.

The chill from the beast's claws made the surroundings seem a bit cold.

The other Guardian Beast was even bigger, and its wings stretched fifteen meters long with flaps of bone membrane.

There were sparse dragon hairs covering the grey-blue scaly skin.

Every inch of this dragon beast's muscles was like steel when it exploded with power.

A gust of wind was released with a flap of its wings, making the air continuously produce a tearing sound.

The two-meter long bill, from top to bottom, was like an open and closed guillotine.

Normally when Dragon Beasts are summoned, whether it's Jiaolong species or dinosaur species, they should emit several dragon roars.

Yet these two dragon beasts with dinosaur species bloodlines, were strangely quiet after being summoned, and unconsciously stepped back.

Fang Mu noticed this situation.

Fang Mu knew that the reason for this was because Cai Boshen's two dinosaur species Guardian Beasts felt the pressure of the main dragon race on the two dragon tails of the Subduing Dragon Nightmare Tiger.

What a coincidence!?

Fang Mu immediately used the Eye of Omniscience to investigate the two dragon beasts of Cai Boshen.

[Beast Name]: Broken Rock Tyrant Dragon

[Beast Species]: Tyrant Dragon Super Subspecies/ Sub Tyrant Dragon Species

[Beast Level]: Platinum (1/10)

[Beast Element]: Earth

[Beast Potential]: Diamond

[Beast Quality]: Legendary

Skills:

[Shatter Smash]: Jump to smash the target with his dragon claw, which can shatter the target directly due to the dragon's powerful force.

[Vertebrae Sever]: Use specialized hard scales on dragon's tail to lash the target, special scales can increase bone shattering effect.

[Tyrant Rock Armor]: Stimulate the Earth Element, attach the Earth Element to one's own body, enhance the defensive power and increase the attack power of claws, teeth, and other parts.

[Ground Shaking Wave]: Use two feet to shake the ground, causing indiscriminate shockwaves to the target, which can shatter the target's internal organs.

Exclusive Traits:

[Fatal Tear]: When the target is bitten and torn, the tips of the teeth squirt out energy, causing deep damage to the target.

[Tyrant Fury]: Speed up blood flow, stimulate body cells to enter a raging state to enhance speed, strength, and make oneself join the Tyrant Body state, making it difficult to fall due to external forces.

[Absorb Earth]: Absorb the Earth Element Energy from the surrounding environment to sustain oneself, enhance continuous combat power.

Chapter 547: The Twin Sub-Dragons of Crumbled Rock and Misty Wind!_3

...

[Beast Name]: Mist Wind Arthurdactylus

[Beast Species]: Pterodactylidae/Arthurdactylus

[Beast Level]: Platinum (1/10)

[Beast Element]: Wind Category

[Beast Potential]: Diamond

[Beast Quality]: Legendary

Skills:

[Wind Slash]: Swings its wings to create wind blades, which have a strong cutting effect when hitting the target.

[Wind Roar Stab]: Channels a roaring gust of wind into a spike, which attacks the target. The high-frequency needle formed by the wind has a certain level of invisibility.

[Tornado Positioning]: Identifies a target and performs consecutive tornado attacks, which have the ability to interrupt the target's techniques and significantly reduce their speed.

[Fall-Wing Sickle]: Dives from high altitude, unleashing all its energy and swooping at the target with sickle-shaped wings.

Exclusive Traits:

[Wind Gather]: Gathers wind elemental energy as storage and uses it as a shield from elemental attacks.

[Hardened Scales]: Strengthens body scales that vibrate when hit by close-range physical attacks, reflecting back a portion of the damage.

[Gentle Breeze Lift]: Can easily ascend to high altitudes, reducing energy consumption by harnessing the power of gentle breezes during flight.

After inspecting Cai Boshen's two beasts, Fang Mu thought to himself,

The strength of Cai Boshen's beasts indeed lies at the Diamond rank!

What Fang Mu did not expect was that both of Cai Boshen's beasts had achieved Legendary quality!

Fang Mu didn't know Cai Boshen, but he was sure Cai Boshen's background was extraordinary.

Otherwise, there was no way Cai Boshen could elevate the strength of his two beasts to Legendary quality at the Platinum stage.

The power behind Cai Boshen must be making every effort to nurture him.

However, however well-trained Cai Boshen's two beasts are, they are still no match for the Subduing Dragon Nightmare Tiger.

If Cai Boshen was not bound by dinosaur species beasts, instead with other types.

Legend level strength at stage one of the Platinum rank would have had a fighting chance against the Subduing Dragon Nightmare Tiger.

Now, due to bloodline suppression, Cai Boshen's Broken Rock Tyrant Dragon and Mist Wind Arthurdactylus are likely afraid to show any willingness to fight against the Subduing Dragon Nightmare Tiger.

Without the will to fight, how can they battle?

Dragon-type familiars don't suppress their bloodlines as drastically as Fairy Type Beasts do, but the Master Dragon can still force both sub-dragons to lose their combat abilities.

However, not all spectators possess such common knowledge.

The majority of the spectators, due to their non-elite status, didn't understand the Silver-ranked Subduing Dragon Nightmare Tiger of Fang Mu.

However, they could understand Cai Boshen's Broken Rock Tyrant Dragon and Mist Wind Arthurdactylus.

"These two dragons look so cool! One clearly has Tyrant Dragon blood, and the other clearly has Pterodactyl blood. It's rare even to see such beasts, yet this opponent has two of them!"

"Looking at their size, these two dragons must be at the Platinum rank. I bet they have a high quality as well. This fight will be intense. I estimate that Fang Mu will lose!"

"I know Cai Boshen. He's a member of Team A of the Spirit Rain Club Reserve Team! He'll join the main team sooner or later, and I heard he hasn't lost once since he started competing professionally!"

"Why do I feel that the two dragons of Cai Boshen are retracting their bodies? They seem very scared. It seems like his two dragons don't want to come out and fight."

Listening to the spectators' comments, some of the spectators who truly understand the bloodline level of the Subduing Dragon Nightmare Tiger could not help but laugh.

Comparing two beasts with sub-dragon bloodlines with a beast with the Master Dragon bloodline is truly insulting to Fang Mu's tiger beast.

Moreover, the Master Dragon bloodline in Fang Mu's tiger beast has two types, it seems one is Horned Dragon, the other is Elemental Dragon.

Both are on the list of the Twelve Major Master Dragon bloodlines.

Spectators who understand the bloodline level of Fang Mu's beast are certain that Fang Mu will win this battle.

Unless Cai Boshen goes up and fist fights with Fang Mu, letting his tiger beast watch from the side.

Being beaten to death fist by fist by Cai Boshen, otherwise, Fang Mu has no chance of losing.

Cai Boshen's two sub-dragons clearly exhibited signs of fear. Still, Cai Boshen dared to summon his two sub-dragons.

In the future, he might need to spend several years reestablishing the relationship with his two beasts.

Regaining the trust of his two beasts.

This process will certainly affect Cai Boshen's performance in the professional arena.

However, in a situation like this, Cai Boshen had no other choice. If Fang Mu had been in Cai Boshen's position, he would also have to forcefully summon his beast.

Now, it depends on how Fang Mu plans to kill Cai Boshen's two sub-dragons.

After all, even if they're timid, the two sub-dragons wouldn't give up their lives because they're scared.

Just by looking at Cai Boshen's two sub-dragons, Fang Mu knew that his goal of leading the Subduing Dragon Nightmare Tiger to a hearty battle had fallen through.

However, this fight is not completely meaningless, Fang Mu plans to try the exclusive ability [Unban of the severed tail] of the Subduing Dragon Nightmare Tiger with this battle.

Because of the exclusive trait [Subdual], the two tail dragons heightened the Subduing Dragon Nightmare Tiger's various abilities to varying extents.

Fang Mu walked up to the Subduing Dragon Nightmare Tiger, gently patting its front leg.

He said softly to the Subduing Dragon Nightmare Tiger.

"Meet Dragon, don't you want to find out how strong you really are?"

"Now's your chance, unleash your dragon tail and kill those two sub-dragons!"

"There will be plenty of fighting opportunities for you in the future."

The Subduing Dragon Nightmare Tiger roared in response to Fang Mu's words. Its two rear dragon tails let out deep dragon hums.

Cai Boshen had been trying to calm the state of the Broken Rock Tyrant Dragon and Mist Wind Arthurdactylus after summoning them.

Cai Boshen tried hard for a while but didn't make any progress.

Now, hearing these two dragon hums, the Broken Rock Tyrant Dragon and Mist Wind Arthurdactylus completely lost their dignity and lay flat on the stage!

Chapter 548: Larvae Replacement!_1

As a fan of Jianmu, Duan Qingxin has been keeping an eye on Jianmu's news on the Battle Network.

Although Duan Qingxin appears to be a fairy on the surface, she is actually a seasoned warrior of the Skin Peeling House forum, full of curious inquiries.

She has reached grade eleven on the Skin Peeling House forum!

Whenever an account with grade eleven posts on the Skin Peeling House forum, there are always people who comment below.

"The boss is bored and posting again!"

Because of this understanding, Duan Qingxin was able to provide a professional introduction to Jianmu's first match with Zhang Kai.

The parents of Duan Qingxin, who had been keeping an eye on her performance in the live broadcast, gave her thumbs up more than once.

Duan Qingxin's follower count skyrocketed, breaking through the 1.5 million mark from the original tens of thousands, surpassing the category of a newbie presenter.

Moreover, the increase in followers of Duan Qingxin's Battle Network did not stop, showing a trend of continuous growth!

However, Duan Qingxin got stuck during the second performance match, not knowing what to talk about.

One of the reasons was that Jianmu's summoned Guardian Beast was very unfamiliar to her.

Duan Qingxin, with her experience and ability, could perceive the special nature of the Subduing Dragon Nightmare Tiger, but didn't know what made it so special.

As a Battle Network host, Duan Qingxin was well aware that she faced an audience of tens of millions and while she didn't have to talk, she definitely couldn't say anything wrong.

If something was said wrong and someone caught hold of it, it would definitely affect future live broadcasts.

So Duan Qingxin was just like being silenced, and only after Cai Boshen summoned the Broken Rock Tyrant Dragon and Mist Wind Arthurdactylus did she use her professional knowledge to give an introduction to Cai Boshen's dragons.

Viewers on the live broadcast can't feel the powerful aura of the beasts as directly as the onsite viewers.

Duan Qingxin didn't feel the pressure released by the Subduing Dragon Nightmare Tiger summoned by Fang Mu.

But she keenly sensed the fear of the two powerful Sub-Dragons, the Broken Rock Tyrant Dragon and Mist Wind Arthurdactylus.

Cai Boshen's two Sub-Dragons, one with the bloodline of a Tyrant Dragon and the other with the bloodline of a Pterodactyl.

Based on their body shape and external characteristics, Duan Qingxin could confirm that these two Sub-Dragons had very strong bloodlines.

The fact that a Bi-prong Star Tamer had two platinum-grade Guardian Beasts should have caused quite a stir and attracted the attention of the other spectators.

However, Jianmu didn't pay any attention to it, and after his Tiger Type Familiar roared and the two dragon tails sung out, the enormous Broken Rock Tyrant Dragon and Mist Wind Arthurdactylus actually prostrated themselves on the ground, like lambs waiting to be slaughtered.

This turn of events left even professional pundits who had also purchased the broadcasting rights astonished and speechless.

Let alone Duan Qingxin, a student who just entered college.

Both the on-site spectators at the Silver Battle Hall and the on live-stream were left puzzled.

But Jianmu didn't give these people the chance to stay confused, as the dragon tail of his Tiger Type Familiar started to wildly absorb the energy of the surrounding water elements.

The dragon tail stirs up green waves and rapidly expanded.

During its expansion, two phantom images appeared behind the ten-meter-long tail

This sight triggered the memories of Huan Wang and many viewers who had seen Jianmu and Huan Wang's confrontation in the youth division.

When Huan Wang attacked Jianmu with the Diamond Rank Spiritual Instrument Lightning Bracelet, the same dragon soul phantom appeared behind Jianmu.

The only difference was that the dragon soul phantom appeared that time because of the automatic protection function of Jianmu's sequential spiritual instrument.

But now, these two towering dragon soul phantoms are due to one of Jianmu's Tiger Type Familiars.

In fact, the Subduing Dragon Nightmare Tiger's exclusive ability, "Unban of the severed tail", has no substantial difference from the sequential spiritual instrument's automatic protection through beast spirit.

The sequential spiritual instrument activates the energy in the beast spirit through tens of thousands of precise energy circuits.

After each automatic guarding, the beast spirit would remain dormant for a while, with these energy circuits absorbing energy from nature to replenish the beast spirit.

This demonstrates the wisdom of a Forging Grandmaster!

The Subduing Dragon Nightmare Tiger's "Unban of the severed tail", lets the Subduing Dragon Nightmare Tiger completely release the bloodline of the Guardian Beasts in its two dragon tails, turning the tails into dragons.

This one-time release utilizes the power of dragon soul contained in the Dragon Ball.

So, the dragon souls enveloping the two tails of the Subduing Dragon Nightmare Tiger when it used the special ability "Unban of the severed tail", are clearer compared to the automatic protection by the sequential spiritual instrument through beast spirit.

At this moment, it seemed that standing next to Fang Mu wasn't the Subduing Dragon Nightmare Tiger, but two main dragon species Guardian Beasts, Rain-horned Dragon and Milky Way Waterfall Dragon.

The semi-physical Rain-horned Dragon and Milky Way Waterfall Dragon, one on the left and one on the right, rushed towards the Broken Rock Tyrant Dragon and Mist Wind Arthurdactylus on the ground.

At this time many watchers perceptively noticed that the dragon tails behind the Subduing Dragon Nightmare Tiger vanished.

The aura of the Subduing Dragon Nightmare Tiger seemed to be somewhat weakened, but its tiger claws could still easily crush the ground.

Proving that the Subduing Dragon Nightmare Tiger still had a strong combat capability.

When Cai Boshen saw two huge dragon soul phantoms appear behind the Subduing Dragon Nightmare Tiger, he was scared silly.

But thinking about the humiliation of his two Guardian Beasts and lasting ridicule he would face on the Battle Network if he lost the match, Cai Boshen issued frantic orders to his Broken Rock Tyrant Dragon

and Mist Wind Arthurdactylus, forcing them to get up with the power of his spiritual command and avoid the attack.

In battle, one always needs to make some choices in the face of some desperate situations.

Chapter 549: Larvae Replacement!_2

Cai Boshen could have commanded his larger Mist Wind Arthurdactylus to spread its wings wide, shielding the Broken Rock Tyrant Dragon in front.

Risking its own life to create a chance for the Broken Rock Tyrant Dragon to survive.

However, despite Cai Boshen's commands, the two sub-dragons simply lay on the ground wailing, disregarding their contractor's orders entirely.

They seemed to have been welded to the ground.

The powerful pressure brought upon by the two approaching dragon shadows made Cai Boshen's knees buckle.

Cai Boshen had to lean on his Broken Rock Tyrant Dragon's body to prevent himself from falling.

The two dragon shadows moved so rapidly that many in the audience couldn't understand what was happening. All they knew was that the dragon shadows had hurtled towards the Broken Rock Tyrant Dragon and the Mist Wind Arthurdactylus.

Jianmu's figure disappeared from the arena.

And Cai Boshen, along with his two sub-dragons, had been reduced to ashes.

The audience was stunned, with half of them unconsciously standing up.

[I'm stunned! The duel ended just like that, with sheer domination?]

[I feel like I'm dreaming. Jianmu's first duel was already astonishing, and this second duel, I can barely believe that Jianmu is just a One-point Star Beast Master!]

[I know Cai Boshen, his strength is definitely formidable! There's no way Jianmu's opponent is weak!]

[Isn't that obvious? These were two platinum rank, first-class, sub-dragons with superior bloodlines! It would cost at least eight figures of Dragon Rising Coins to raise one!]

[Haha, Cai Boshen said in his speech at the college league that the quality of his two dragon beasts had increased to Legendary Quality! I'm waiting for the topic of Jianmu's Tiger Type Familiar to be the top trend on Battle Network!]

Zhang Kai's expressions had been dynamic since the beginning of the duel.

Initially, Zhang Kai felt conflicted as Jianmu had summoned another familiar, indicating that he didn't go all out in their duel.

This would definitely lead the audience to think that Jianmu was looking down on him, but not on Cai Boshen.

Even if Cai Boshen lost like him, he was destined to get more attention than him.

Zhang Kai didn't want that.

But Zhang Kai had already changed his initial sentiments.

He was grateful that Fang Mu didn't summon this Tiger Type Familiar during their duel. Fang Mu had preserved his dignity.

Otherwise, his fate would be worse than Cai Boshen's, as he didn't have two sub-dragons like Cai Boshen.

Moreover, with the Tiger Familiar's attack method, his Blade Mother Cockroach wouldn't have had a chance.

Cai Boshen was stronger than him, but Cai Boshen had been instantly eliminated.

Therefore, Cai Boshen's popularity was destined not to compare with his.

At this moment, Zhang Kai was somewhat grateful to Jianmu.

Liu Tiantian clenched her fists, realizing that the mesmerizing Jianmu had actually only shown a small part of his power.

Jianmu was like a book of exquisite illustrations, where flipping each page revealed something that would make others always crave more.

But in reality, no one knew how many pages Jianmu had concealed, not revealing them.

Previously, she didn't have much to do on the journalist side and could only focus on giving commentary.

After these two duels, even if he doesn't participate in any other duels on the Battle Network for a year, she would have plenty of news articles to write.

Mo Shang retracted his amazed gaze from the arena, along with a faint hint of envy.

As the grandson of the "Dragon Mother", Mo Shang had never been short of resources. The Dragon Mother nurtured him with everything she had.

However, Mo Shang knew he could never raise a Tiger Type Familiar like Jianmu's.

This kind of resource involved the foundation of a Grandmaster Creator. Even if his grandmother could get the resources of a Grandmaster Creator, she could not match a real Grandmaster Creator.

Besides, Jianmu's master wasn't just an ordinary Grandmaster Creator.

After recalling Jianmu's Tiger Type familiar, Mo Shang said to Fang Qin,

"Ah Qin, let's go back since the duel is over!"

"With your younger brother's strength, as long as he becomes a Two Mang Star Beast Master when he gets to college, he'll probably be able to participate in the College Professional League in his freshman year!"

When Fang Qin heard Mo Shang's compliment, her face couldn't help but light up with a brilliant smile.

Fang Qin did not choose to be modest on behalf of Fang Mu, because with Fang Mu's strength, unnecessary modesty would seem hypocritical.

This exhibition match had finally made her realize her younger brother's strength.

Perhaps after watching this exhibition match, Fang Yuan and Yan Wood would feel amazed and joyful, but they might also feel under pressure.

Their status as older siblings would make them not want their younger brother to catch up with their strength.

Observing the data from the exhibition match, Yang Mingyu found that not only were all the tickets sold out, but the dropout rate was even less than one percent.

Such a low dropout rate was even lower than some of the matches starring the main players of large clubs!

The broadcasting rights of Jianmu's exhibition match had been sold more than seventy times, making the Silver Division on the Battle Network a fortune.

Yang Mingyu was glad he had invited Jianmu to the exhibition match, likewise, that Jianmu accepted the invitation.

Yang Mingyu immediately sent a message to Jianmu from his official Battle Network account.

Chapter 550: Larvae Replacement! _3

[V Battle Network]: Thank you for the exciting duel, your ranking has been advanced, and you can now participate in the Golden Rank promotion match!

[V Battle Network]: Based on the network's overall scoring for the two exhibition matches, the points will be added to your account after three hours.

[V Battle Network]: If you wish to participate in a showcase match in the Gold Rank promotion, I can help arrange this with the Gold Division supervisor.

While sending this message to Fang Mu, Yang Mingyu had his own cunning plan in mind.

Jianmu's popularity is at its peak right now after the Silver Ranks showcase match.

Helping Jianmu arrange a Gold Division showcase match will not only earn Jianmu's favor but also a substantial favor from the Gold Division supervisor.

Favors count for a lot in the Beastmaster Alliance, and earning them puts you in a favorable position.

They lend face to you when you need help in future development.

Zeng Pang, the supervisor of the War Network's Gold Division, has a cousin who runs a club.

Since it's a new club, the top players lack popular support.

But these players were handpicked by Zeng Pang based on his connections.

If Yang Mingyu could secure Jianmu a show in the Gold Division promotion match, Zeng Pang would surely thank him.

The top players under Zeng Pang's cousin are still in the Gold Rank.

One of them just reached Gold Five because he doesn't like playing much on the Battle Network.

Having these players compete against Jianmu, they could gain substantial popularity even if they lose.

If they win, they directly steal Jianmu's limelight and heat.

Yang Mingyu thought it was a foolproof plan, assuming Jianmu enjoyed the attention from the previous showcase and would be eager for another round.

But Yang Mingyu seemed to misjudge the situation.

The message he sent to Jianmu was ignored, like a stone sinking into the sea.

One reason was that Fang Mu thought the message from the Battle Network was automated and didn't require response.

The second reason was that Fang Mu had no plans for another showcase match.

Fang Mu was concerned about meeting rivals with Diamond Level Beasts in the Gold Division after encountering Platinum Level opponents in the Silver Division.

Facing such overpowering rivals, Fang Mu thought the duel pointless.

That's why Fang Mu had Subduing Dragon Nightmare Tiger unleash its Skill [Unban of the Severed Tail] instead of trying a physical clash against Cai Boshen.

The Silver Stage Subduing Dragon Nightmare Tiger is no match for the two platinum level Legendary Quality sub-dragons in close combat.

Only using a direct big move could secure victory.

Moreover, Fang Mu scored an easy victory because Cai Boshen's two beasts happened to be of sub-dragon species.

If Fang Mu were against other types of platinum stage Legendary Quality beasts that are not suppressed by the dragon bloodline,

[Unban of the Severed Tail] attack might not take down the opponent on a dodge, even if it was thrown directly at the opponent.

The combat style of using one Beast as a shield is not unusual on the Battle Network.

Fang Mu has heard Hu Tao say that battle teachers also mentioned that this method can be used for survival in field combat.

Fang Mu does not plan to duel on the Battle Network using his identity as Jianmu in the short term.

After a few days when going to that giant ancient battlefield and letting Ghost System Beast Yama Pragma control more undead beasts using skill [Golem Paper Control],

Fang Mu can choose to duel on the Battle Network again under the name Yan Luo.

Currently, because of Fang Mu's showcase, the Battle Network is in a carnival mood.

Meanwhile, Fang Mu was observing the changes in Abdominal Territory Worm, after swallowing the pure spatial energy.

The Abdominal Territory Worm had been promoted to the Platinum Rank and acquired new skills.

Fang Mu used Eye of Omniscience to inspect the Abdominal Territory Worm.

[Beast Name]: Abdominal Territory Worm

[Beast Species]: Soft-bodied class/ Pouch worm species

[Beast Level]: Platinum (1/10)

[Beast Element]: Space Series

[Beast Potential]: Diamond

[Beast Quality]: Epic

Skill:

[Wormhole Travel]: The body wriggles towards a specific direction and moves short distances continuously.

[Wormhole Marking]: Marks a specific location using its abdominal secretions. After marking, it can return to the marked location at the cost of spatial energy (the required spatial energy will decrease as its purity increases).

[Secret Realm Energy]: Specifies an energy as the special energy of the sanctuary, enabling the Abdominal Territory Worm to produce energy for the sanctuary at the cost of its life energy.

[Larva Replacement]: Consumes spatial energy to produce larvae in the abdomen. The larvae burrow underground and extend the coverage of the owner's ability. Other organisms can establish a temporary contract with the larvae and switch places with them. When the larva changes position, it explodes and pollutes the spatial environment, making it difficult to teleport.

Exclusive Traits:

[Staunch Shell]: The stability of the inner space is unaffected as long as the outer shell remains intact and life is not terminated.

[Double Mystic Land]: In addition to the abdominal sanctuary, a temporary sanctuary can be set up in the void to hide, concealed and immune to regular detection until it is breached.

Evolutionary Path:

(Do not recommend random evolution before choosing an energy type with the skill Secret Realm Energy.)

The purity of the spatial energy is sure to benefit. Fang Mu is sure that Abdominal Territory Worm is a step away from promoting to Legendary Quality.

With these pure spatial energies and the worm's current Rank promotion speed, it is certain to upgrade to Diamond Rank before departure.

Compared with Abdominal Territory Worm, the upgrade speed of the Mechanical Beast, Mechanism Fortress, is much slower.

However, the Mechanism Fortress is only used as a dwelling to supplement energy, reaching the Gold Rank in short term should be sufficient.
