

Beast Tamer 57

Chapter 57: Fang Mu's Private Soul Forging Master! 1

Fang Mu secretly hoped that Feng Lin would propose more trade requests!

As a disciple of a Grandmaster Creator, Fang Mu definitely couldn't actively seek out people for trade with the resources of the Grandmaster Creator.

If Feng Lin doesn't take the initiative to start the conversation, there's no way for Fang Mu to exchange the Grandmaster Creator's resources produced by himself for the supplies he needs.

Feng Lin looked into Fang Mu's eyes, knowing that her plan had been seen through by him.

Feng Lin wasn't surprised by this at all.

Fang Mu, having a Grandmaster Creator as a teacher, must have encountered similar situations a lot.

He must be accustomed to this kind of scene!

Thinking that way, Feng Lin felt more relaxed.

It wasn't as if she was getting the Creator's resources through Fang Mu's connection for nothing.

When Feng Lin reports Fang Mu's situation to the headquarters, she will inform them that Fang Mu's teacher is a Grandmaster Creator.

At that time, the headquarters would undoubtedly hope to cooperate with Fang Mu's teacher.

Building this bridge now by herself would definitely be good for the "Cleaner Division"!

It could also help the Jing Hai Cleaner Division gain more benefits and bargaining power within the headquarters.

There is competition among the Green Screen Knights too.

Feng Lin, who had always been down at the headquarters, finally got the chance to lift her head up.

Then she wondered how many Green Screen Knights would actively seek her assistance.

Hoping to rely on her to connect with Fang Mu's channel.

"Fang Mu, can you help me order some elixirs from your teacher?" she asked.

Upon hearing this, Fang Mu did not immediately agree.

Instead, he contemplated for a moment before responding.

"My teacher is very kind to me and I've always been the one managing the

Steward's Network Account."

"If I ask my teacher, I'm sure he won't refuse me!"

"However, I can't guarantee anything. We need to try it to find out!"

"Miss Fang Lin, is there anything you need help with?"

Life is like a play, it's all about acting.

Fang Mu knew very well that only by saying this could he stick more to the norm.

Otherwise, even if the Grandmaster Creator dotes on his disciple, he won't easily release a large amount of Creator resources.

Hearing what Fang Mu said, Feng Lin couldn't help showing joy on her face.

"Fang Mu, you should call me Aunt Fang from now on! 'Miss' seems too distant!"

"You should know what the duty of a Cleaner is."

"I've raised so many vine plants as beastmasters because my research found that vine plant-type beastmasters have the strongest resistance to polluted soil!"

"And after increasing resistance to the level of soil pollution, it gradually increases resistance."

"As long as Nini reaches the tenth level of platinum and obtains an Elemental Energy and Life Elixir with a purity of more than 90%, she can try evolving from a Hundred Lilies Flower Child into a Hundred Lilies Lady."

"I hope you can help me out with this!"

"As for compensation, I can customize the spiritual instrument you need at any time."

"I have some materials that you can use directly."

"As for the materials I don't have, you'll have to find them yourself!"

With these words, Feng Lin was essentially turning herself into Fang Mu's longtime employee.

It was as if she were styling herself as a sort of private soul forging master.

Furthermore, Feng Lin did not limit the level of Fang Mu's custom-made spiritual instrument.

For every spirit forging master, collecting the right materials isn't an easy thing.

All materials held by a spirit forging master, are the cream of the crop in their respective categories.

Feng Lin was willing to give Fang Mu the materials she collected for free.

This would solve many of Fang Mu's future troubles in customizing spiritual instruments.

The reward given by Feng Lin was worth far more than two bottles of spiritual liquid blended by a grandmaster creator.

Feng Lin did this because she had a special little thought in mind.

As long as Fang Mu agreed, she would be effectively tying herself to him.

It would make it much easier to utilize Fang Mu's channel in the future.

Fang Mu's teacher was willing to give his Creator's resources to Fang Mu and even let Fang Mu manage the Steward's Network Account.

He truly doted on Fang Mu a lot.

The nicer I am to Fang Mu, the easier it is to gain his favor.

Fang Mu thought that Feng Lin would use Dragon Soaring Coins, or clearly priced spiritual materials as bargaining chips for trading.

Unexpectedly, I ended up gaining a private soul forging master.

With Feng Lin as the master of soul forging, even if Fang Mu doesn't become a master, he could turn his designs into a spiritual instrument.

"Aunt Fang, I can get you the two bottles of spiritual liquid you need within this week."

"We, the cleaners, have our ways of obtaining alien beasts, I now need a living bloodline newborn."

"Can I apply to the organization?"

If she had known that Fang Mu's teacher is a grandmaster creator, Feng Lin would surely have asked why he needs a living bloodline newborn.

But now, Feng Lin felt there was no need to inquire further.

"Don't assume that the only function of the Cleaner Division is to handle alien beast corpses."

"In the underground space of the Cleaner Division, we raise beasts produced in different dimensional rifts.'

"There are dedicated scholars studying these alien beasts."

"I can arrange for a living bloodline newborn for you in a while."

"However, according to the Cleaner's rules, any living alien beast cannot be taken out of the base.

"And I am no exception!"

Fang Mu said hastily.

“Good, I was planning to clean a soldier-level crematorium.”

“Just take the living bloodline newborn to the crematorium I’m in!” “I will handle the corpse of the bloodline newborn after I use it.” Feng Lin sighed inwardly after hearing Fang Mu’s words.

Indeed, he is the disciple of a grandmaster creator!

He has just broken the “Cleaner’s” record, and now he is about to handle alien beast corpses again!

“Alright, I’ll go arrange it for you now!”

The moment Fang Mu stepped out of Feng Lin’s office, he breathed a sigh of relief.

Now, Fang Mu had an official identity.

At the same time, within the “Cleaners”, he had established quite a reputation.

Fang Mu told Feng Lin that his teacher had asked him to manage the Steward’s Network account, not just casually mentioning it.

It was to give Feng Lin a heads up.

To let Feng Lin know that [Stellar Start] is his own master.

The true ability of a grandmaster creator lies in inducing spiritual beast evolution and elevating bloodlines.

However, it is the Life Elixir and Element Potion with a purity of ninety percent that can best prove the identity of a grandmaster creator. Feng Lin's choice of these two potions is also a test for him.

Fang Mu isn't worried about this at all.

In fact, Fang Mu doesn't have to wait till a week later, in a while, he can have Nini condense several bottles of Life Elixir with a ninety percent purity.

After dealing with a room full of alien beast corpses through the Clean Water

Spirit using the bloodline newborn to complete [Water Spirit Conversion], Fang Mu is ready to deliver the goods to his dear brother Fang Yuan at the Creator's Guild!

After sending the goods, Fang Mu will receive more than thirty million Dragon Soaring Coins.

With that, He can buy plant-type beastmaster suitable for planting on Eden Greenfield with [Above the Green Field] special trait.

At the same time, his small family will also receive a considerable income.

This relieves the immediate concern of Fang Qin, Fang Yuan, and Yan Wood.

With the hundred bottles of Life Elixir with a sixty percent purity that he provides for Fang Yuan every day, Fang Mu's entire little family will achieve actual financial freedom.

No need to worry about money.

Fang Qin, Fang Yuan, Yan Wood will all have ample material conditions to cultivate beastmaster and comprehend mysterious patterns.

To pursue their dreams!

Fang Mu, as an “old father”, can finally enjoy the joy of taking care of his brothers and sisters.

Oh, no!

Enjoy the pleasure of taking care of his brothers and sisters!
