

Beast Tamer 571

Chapter 571: Water? I have plenty of water here! _3

The environment was filled with Souls of Life, and traces of Souls of Death could be occasionally found.

Fang Mu had arranged for the Ghost Fish Princess to be outside the Mechanism Fortress to collect Souls of Life and Souls of Death.

As the number of Undead Creatures controlled by Yan Yubanruo via [Golem Paper Control] continued to increase, the demand for Souls of Life and Souls of Death would undoubtedly rise.

Fang Mu storing up some Souls of Life and Souls of Death could only be beneficial and not harmful.

Fang Mu would not reveal his two Destiny Guardian Beasts to Shui Miao and Shu Liangjun.

However, given the relationship between Fang Mu, Shui Miao, and Shu Liangjun, Fang Mu could completely reveal his other Guardian Beasts to Shu Liangjun and Shui Miao.

Shui Miao would later customize Sequential Spiritual Instruments and Ghost Devices for himself. Understanding his Guardian Beast combinations would allow him to make the best choice for the customized spiritual instruments and Ghost Devices.

Shui Miao and Shu Liangjun were surprised when they discovered that the Ghost Fish Princess had the Mermaid Bloodline.

Mermaids, a race that had left a mark in The Fifth and Sixth Epochs, were recorded in many ancient books and murals.

But most of the grand sea clan no longer had mermaids, and they didn't know how Qixing managed to create one!

The identity of Qixing, which Fang Mu had created subtly, was becoming more and more mysterious and strong in the hearts of Shui Miao and Shu Liangjun.

After the Abdominal Territory Worm upgraded to the Diamond Rank, it could communicate with Fang Mu through spatial vibration, even if it didn't have a contract with him.

Of course, the Abdominal Territory Worm couldn't express the detailed content clearly.

The intelligence of insect beasts was far less than that of animal beasts. The Abdominal Territory Worm probably needed to step into the Sequential level to express his detailed thoughts to Fang Mu through spatial vibration.

According to the vague expression of the Abdominal Territory Worm, Fang Mu went down to the first floor and left the Mechanism Fortress.

The outside view would be obscured by the Spatial Haze, but when looking out from inside, the view wouldn't be affected in any way.

Fang Mu saw four Beast Cars rushing towards him from the front, and behind these four Beast Cars was a mighty tide of the undead.

Judging from the momentum of the tide of the undead, there were at least several hundred thousand undead creatures.

In this level of tide of the undead, there must be powerful undead creatures.

After rounding up this tide of the undead, they would have the admission ticket to the ancient battlefield!

Through the conversations with Shui Miao and Shu Liangjun over these days, Fang Mu learned that in order to prove he had killed enough undead, he needed to pay the fire of the undead to the Panfeng Federation.

The fire of the undead was the soul fire after the undead died.

The Panfeng Federation, although the victims in this undead catastrophe, had managed to make money from this large ancient battlefield.

When it was time to start exploring the large ancient battlefield, it was hard to imagine how many Souls of Death the Panfeng Federation could collect.

Fang Mu thought that at that time he could choose to have a transaction with the Panfeng Federation to trade for the Souls of Death.

As a disciple of the Grandmaster Creator, the Panfeng Federation should have no reason to refuse his transaction for the Souls of Death.

Unless the reason for the extensive collection of Souls of Death by the Panfeng Federation was for a special purpose.

Shu Liangjun and Shui Miao felt the breath of the Souls of Death, and they also left the Mechanism Fortress.

When Shui Miao saw the brown rock crystal flower totem of the Clan Zhenyan on the four beast cars running towards the Abdominal Territory Worm, his brow furrowed involuntarily.

As one of the three major clans of the Panfeng Federation, the Clan Zhenyan should be safely in the Rock Peak City now. How could they appear here and be chased by a group of undead!?

If it was said that the undead that surged from this large ancient battlefield had already broken through the Rock Peak City, there would be some credibility.

But everything in Rock Peak City was fine, and the strong Beast Controlling Force had settled in Rock Peak City. Such a situation indicated that there must be a big problem in the Panfeng Federation.

Moreover, this problem was most likely not caused by this large ancient battlefield.

“Ah Mu, these four Beast Cars come from the Clan Zhenyan.”

“The Clan Zhenyan is one of the three major clans of the Panfeng Federation, and they are obviously running towards us for help.”

“I suggest that we can help the people of the Clan Zhenyan, and it’s an excellent chance to learn about the core news of the Panfeng Federation from them.”

Fang Mu nodded slightly when he heard these words.

Fang Mu wanted to trade with the Panfeng Federation, so he indeed needed to understand the situation inside the Panfeng Federation.

“Old Shui and Shu, to save the four beast cars of the Clan Zhenyan from such a large-scale tide of undead, we need your help!”

“After rescuing the people of the Clan Zhenyan, we can bring them into the Mechanism Fortress to have a good chat.”

As he spoke, Fang Mu took out a Noface Star Paper and put it on his face, immediately changing it to look like Shui Miao when he first met.

This honest-looking face was not noticeable in the crowd.

But like Shui Miao, Fang Mu also had a special temperament.

This temperament made Fang Mu’s appearance and figure, no matter how ordinary they became, carry an unspeakable noble quality.

Shu Liangjun hopped toward the four Beast Cars of the Clan Zhenyan.

Seeing this, Shui Miao didn't choose to summon his Guardian Beast, but casually opened his water-blue folding fan.

Then he threw the water-blue folding fan diagonally forward, and the fan exploded with sky-full of fan shadows while rotating.

These fan shadows swept towards the tide of the undead like a flood.

Two delicate fish appeared at the head and tail of the beautiful blue fan shadow during rotation.

Two fish swimming on the fan face made each fan shadow emit a Yin-Yang atmosphere.

Each fan shadow was like a waterfall falling from a thousand feet high, easily killing all the undead in its path.

Shui Miao managed to deal with the tide of hundreds of thousands of undead creatures with one folding fan.

Fang Mu keenly discovered that the moment Shui Miao threw the folding fan, a green-blue ghost flame burst out from Shui Miao's right hand and the fan body.

Fang Mu had seen this kind of ghost flame when She Wan used the Ghost Device Heart-Seizing Charm Claw.

Yet, the ghost flame that burst out from Shu Liangjun's hand and the fan body was much more vigorous than that of She Wan at that time.

Chapter 572: Redemption and Light!_1

Shui Miao demonstrated to Fang Mu with his actions, just how strong a Ghost Device could be.

This made Fang Mu even more eager for the forging of his own Ghost Device.

Shui Miao used his Ghost Device to kill all the undead in this place in one hit.

The blue folding fan, which had originally been in front of Shui Miao, automatically returned to his hand after the Swallow Returns to Nest attack.

This scene inadvertently added a thought in Fang Mu's heart, 'so cool!'

As a transmigrator, Fang Mu, who has been influenced by traditional culture since childhood, has a deep affection for folding fans.

The folding fan could be considered as a special cultural symbol in Fang Mu's previous life.

However, it is clear that folding fan was not compatible with the defensive type Ghost Device, so Fang Mu and the folding fan simply were not meant to be.

"Ah Mu, some of these undead can be contracted as Undead Species Guardian Beasts. During my attack, I screened the Undead Species Guardian Beasts and found nothing special," Shui Miao said.

"You said before, you want to find an excellent Undead Species Guardian Beast. Probably, you will have to wait until we enter the ancient battlefield to find one."

Fang Mu nodded lightly in response.

The talent of the Undead Species Guardian Beasts is basically equivalent to their IQ.

In the same level, the higher the IQ of the Undead Species Guardian Beast, the more vigorous its Soul Flame, and the higher its potential for future growth.

Therefore, even these high IQ Undead Species Guardian Beasts escaped from the ancient battlefield, after sensing the danger in the outside world, they mostly would retreat back into the ancient battlefield to hide.

As the Pavilion Master of the Twelfth Pavilion, Shui Miao heard that Yi Han once took Fang Mu to the Chang Le Pavilion for trading.

The target was a Heavenly Disaster Level Ghost Series Summoning Beast.

The Twelfth Pavilion had a rule that only genuine news would be recorded, then picked by the twelve Pavilion Masters according to their interest and reported to them.

So there could be no mistake in his information.

For the past few days, Shui Miao and Shu Liangjun had visited Fang Mu's room and seen him raising four Undead Species Guardian Beasts with the sequential spiritual instrument, the Forest Resentment Bell.

The Undead Species Guardian Beasts were extremely violent and had no resistance to the flesh and blood of the living.

Fang Mu obviously did not make a contract with these four Undead Species Guardian Beasts, but they were unusually well-behaved in front of him.

Obviously, these four Undead Species Guardian Beasts were mostly controlled by the Heavenly Disaster Level Ghost Series Summoning Beast of Fang Mu.

Despite his distinguished birth, Shui Miao who has been a Beast Master since childhood, could not compare to the resources Fang Mu has acquired as a Creator.

When Shui Miao was young, he also had thought about acquiring a Heavenly Disaster Level Ghost Series Summoning Beast, but his family did not agree to his request after consideration.

They preferred that Shui Miao instead distributed the resources evenly among his other Guardian Beasts, rather than investing them like a Bottomless Pit in a Heavenly Disaster Level Ghost Series Summoning Beast.

Watching Fang Mu's growth during this time, Shui Miao felt as if he had returned to his youthful years.

Shui Miao suddenly frowned when he saw Shu Liangjun anxiously beckoning at him from afar.

The expression on Shu Liangjun's face was not very good, it was evident that there were problems with the people from the Town Rock Family in these four Beast Cars.

"Ah Mu, let's go down and take a look together!" he suggested.

"The souls of the dead do not dissipate immediately after death, they can just leave your ghost of the Mermaid Bloodline here to collect those souls."

"I don't know if your master has ever seen this ghost of the Mermaid Bloodline."

"If it is cultivated and the true Mermaid Bloodline is activated, maybe you can gain the friendship of the Sea Lord."

Fang Mu kept Shui Miao's words in his heart upon hearing them.

Fang Mu was curious, why would activating the true Mermaid Bloodline of the Ghost Fish Princess gain the friendship of the Sea Lord?

But Fang Mu did not ask further. After all, no one knew how long it would take for the true Mermaid Bloodline of the Ghost Fish Princess to be activated.

It wouldn't be too late to ask Shui Miao when he actually succeeds!

“Ah Shui, let’s go. You said the Town Rock Family is one of the three major clans of the Panfeng Federation. If the Town Rock Family has fallen to such a state then there must have been a major problem within the Panfeng Federation.”

Fang Mu hoped that no matter what problems have arisen within the Panfeng Federation, it would not delay the trade of souls with him.

The coachmen riding the four Beast Cars were currently trying their best to control the panthers in front of each Beast Car. Each Beast Car was led by five panthers arranged in a “品” formation.

Each panther was jet-black. Under the intense sunlight, one could see a multicolored sheen on these panthers’ bodies.

After seeing Luo Su’s Lucky Snake last time, this time Fang Mu saw the Lucky Panther.

With the appearance of stone protrusions constantly bulging at the feet of these Leopard Beasts.

This was not a special offensive or defensive move, but a manifestation of the Leopard Beasts’ control over Earth Element.

The five panthers in the front, pulling the first Beast Car, each had a tail ring curled up at the tip of their tails.

All five tail rings were, without exception, Sequential Spiritual Instruments.

The fact that five Sequential Spiritual Instruments were used on the Guardian Beasts pulling the Beast Car was extremely luxurious.

It was enough to be a testament to the wealth of the Town Rock Family as one of the three major families in the Panfeng Federation.

However, the five tail rings curled up by the black panthers were all dim, showing clearly that all of the energy in these five Sequential Spiritual Instruments had been completely drained.

Each of those twenty black panthers had some injuries, the most severe ones even had their limbs missing.

Chapter 573: Redemption and Light!_2

Fang Mu glanced at the five coachmen, who did not seem to have any severe injuries.

Their lips, however, were turning purple; beads of sweat trickled down their foreheads incessantly.

Clearly, they had been severely poisoned!

After the five coachmen managed to control the black panther pulling the Beast Car, they quickly jumped off and opened the door of the carriage.

Fang Mu was perfectly positioned to look through the door at the interior of the first Beast Car.

In the carriage cabin, among the five, an old man, a middle-aged man, and a stunning lady, had all lost consciousness.

The only ones still alert were two brown-haired men, clad in silver armor.

One looked to be in his early twenties while the other looked hardly more than fifteen or sixteen.

Both had slightly pale lips, but overall they still had the color of blood.

They obviously weren't poisoned yet.

Their striking resemblance suggested that they were probably cousins, if not brothers.

The younger boy, seeing the faces of Fang Mu and Shui Miao, unconsciously revealed a look of panic.

However, the older youth simply jumped off the Beast Car, gritted his teeth, and kneel before Fang Mu and Shui Miao, desperate and earnest.

“You must be adventurers interested in exploring the large ancient battlefield, right?”

“My name is Gu Che, from Clan Zhenyan of the Panfeng Federation. I implore you to save our clan,” he entreated urgently.

“Once this crisis is over, we, the Zhenyan Clan, will treat you as benefactors and do everything in our power to repay the favor!”

“The wealth that we carry in these Beast Cars is worth less than a third of the total wealth of Clan Zhenyan!”

Hearing this, a faint smile curled up on the corners of Fang Mu’s mouth.

Looking at the desperate yet composed young man kneeling before him, Fang Mu understood that this was a brave and unusually intelligent youth.

Generally, people in distress would avoid disclosing their identities when seeking help.

One reason is the fear that revealing their identities might elicit malicious intent.

The other reason is to maintain a sense of security.

However, this youth named Gu Che felt no need for such pretense. He openly revealed his identity, expressing goodwill, and even promised to repay his benefactors generously.

Besides making the promise, Gu Che cleverly clarified that a small portion of Zhenyan Clan's wealth was on these Beast Cars, afraid that bad intentions might arise.

For Fang Mu, detoxifying was not a difficult task.

Firstly, Fang Mu possesses the Ling Poison King Lotus, which could gather all the poison within the body to one spot.

Once the skin at that location is cut, all the poison can be drained out.

This method of detoxification is applicable to almost any kind of poison.

The pitiful state of Clan Zhenyan revealed how intense the internal conflicts within the Panfeng Federation were.

Wanting to know the specifics concerning the Panfeng Federation, this member of Clan Zhenyan was Fang Mu's best source of information.

After offering assistance, Gu Che lowered his gaze, wary of directly meeting the eyes of Fang Mu and Shui Miao for fear of displeasing them or giving off any impression of ulterior motives.

Shu Liangjun walked up to Fang Mu, shaking her head gently to inform him that every single person in the three Beast Cars at the back had lost consciousness too.

The young boy, Gu Kun, who was initially in a state of panic inside the first Beast Car, followed Gu Che's example by kneeling on the ground and pleading,

"My name is Gu Kun, a member of Clan Zhenyan, too."

"As long as you can save my grandfather, father, mother, aunt, and uncle, I'll be willing to do whatever you ask!"

Fang Mu hardly reacted.

What could he possibly command this shivering, pitiful kid to do?

Was he even capable of dealing with a slightly stronger undead monster?

Gu Kun's words, furthermore, confirmed the identities of the people in this group.

Seemingly, the direct descendants and core members of Clan Zhenyan were in these four Beast Cars.

Seeing both Gu Che and Gu Kun desperately seeking help on their knees, the four coachmen had no choice but follow suit, all kneeling behind them.

Seeing that Fang Mu and the rest didn't immediately respond after their plead for rescue, Gu Che couldn't help but feel a pang of anxiety. He fearing the worst.

If they held ill intentions, judging by the potential demonstrated when they vanquished hundreds of thousands of undead with just a Folding Fan, Clan Zhenyan's heritage was in grave danger of being snuffed out in these wildlands!

Fang Mu walked over to Gu Che and Gu Kun and helped them up.

Next, the Eden of Dreamland parted under Fang Mu's feet and the Ling Poison King Lotus bloomed brightly on it.

Fang Mu directed the Ling Poison King Lotus to apply its ability to gather poison on the old man in the Beast Car.

He then took out a life elixir with a purity of 90 percent and handed it to Gu Che.

“Assist me in getting your grandfather up along with your younger brother first.”

“One of you feeds him a third of this elixir while the other tourniquets his right wrist when poison gathers there.”

“This will prevent an excessive flow of venom back into the body while I am treating the others, facilitating my subsequent cleanup work!”

Although the Panfeng Federation doesn’t have a Grandmaster Creator, they certainly have a Master Creator.

Clan Zhenyan, as one of the three major clans of the Panfeng Federation, should have access to many valuable detoxification resources.

Yet because only the Life Elixir with a purity of 90 percent can fully activate body cells, if Clan Zhenyan had this purity of Life Elixir, they definitely had many ways to remove the toxins in their bodies.

Chapter 574: Redemption and Light! _3

As the legitimate eldest son of Clan Zhenyan, Gu Che has been burdened with great expectations since childhood.

Therefore, the moment he accepted the elixir from Fang Mu, he immediately recognized the purity of the life elixir based on the green vitality emanating from the bottle.

This reassured Gu Che that his family was finally saved!

What Gu Che feared most wasn’t aid being declined, but that those he sought help from might lack a cure.

In his excitement, Gu Che didn’t forget to bow deeply to Fang Mu, then grabbed Gu Kun by the shoulders and said.

“Xiao Kun, you go administer this elixir, remember each person only gets one third, be careful not to spill any!”

“I will bandage it up!”

Compared to administering the life elixir, bandaging was notably more challenging.

Although Gu Che didn’t come out and confirm that his grandfather, parents, and other relatives were definitely saved, Gu Kun found the answer he wanted in Gu Che’s jubilant expression.

Holding the elixir, Gu Kun directly jumped onto the Beast Car and helped an elder into a seat, allowing the old man’s head to rest on his shoulder.

Without going forward to understand the exact poison that the people of Clan Zhenyan had been afflicted with, Shui Miao wasn’t sure exactly which treatment he could offer to neutralize the toxins.

However, Shui Miao did indeed have many ways to detoxify.

Given that Fang Mu had taken out a grandmaster-level life potion to help the people of Clan Zhenyan detoxify, Shui Miao didn’t recommend his own methods to Fang Mu.

Employing grandmaster-level resources to treat the people of Clan Zhenyan would undoubtedly result in the Clan owing many more favors.

Shu Liangjun had similar thoughts.

Shu Liangjun had been observing any changes in Fang Mu’s expression since he met Gu Che.

Shu Liangjun noticed that, faced with Clan Zhenyan’s dire situation, there was not a hint of greed displayed on Fang Mu’s face.

It was clear that Fang Mu had no desire for the assets of Clan Zhenyan.

For a moment, Shu Liangjun wasn't sure whether to praise Fang Mu for his upright character, or consider that as a disciple of the Grandmaster Creator, Fang Mu didn't set his sights on the assets of Clan Zhenyan.

With Fang Mu continuing to control the poison using the Ling Poison King Lotus, he handed six bottles of life elixir in quick succession to Gu Che.

Fang Mu could see that Gu Che struggled with hesitation as he accepted the sixth bottle of life elixir, detoxifying the people in the last Beast Car.

Obviously, Gu Che was weighing the value of the people in the last Beast Car to Clan Zhenyan against the value of the grandmaster-level life elixir.

This scene made Fang Mu profoundly realize the indifference of emotions within a large clan.

It also showed Fang Mu that Gu Che, although clever, was not fully invested in their wellbeing, while Gu Kun was earnestly administering the life elixir to everyone, showing a hopeful look on his face.

Fang Mu raised his hand, pointed towards the Black Obsidian Leopards, and said.

"Have these Black Obsidian Leopards carry these people on their backs and follow me."

"Remember not to let these Beast Car's Black Obsidian Leopards leave the area with green land beneath them!"

"Otherwise, if the poison spreads and causes secondary harm to the body, even if they recover later, they will suffer from severe side effects!"

Upon hearing Fang Mu's words, Gu Che and Gu Kun hurriedly commanded the four charioteers.

The poison in the four charioteers was evidently much lighter than in the people in the carriage.

They had been restraining the toxin in their bodies while fleeing in the Beast Car previously, but now the toxin was on the verge of exploding.

Gu Kun, with his keen observation, noticed the condition of these four charioteers, and quietly said to Gu Che after pulling on his reddish sleeve inside his silver armor.

“Brother, Ke Wu and the others have not been detoxified yet, we might as well detoxify them!”

Upon hearing Gu Kun’s words, Gu Che’s brow furrowed.

Gu Che was well aware that Ke Wu and others were also poisoned, but he had no intention to detoxify them.

Ke Wu and the others were merely charioteers with mediocre skills and didn’t hold significance for Clan Zhenyan.

Once their grandfather and father were cured and recovered, Clan Zhenyan’s strength would be fully restored.

It would be quite easy to recruit charioteers like Ke Wu then.

However, now that Gu Kun had spoken these words, he couldn’t just ignore the fact that Ke Wu and others were poisoned!

Upon hearing Gu Kun’s suggestion, Ke Wu and the other three drivers lit up.

But after seeing Gu Che’s expression, their hearts sank, and the light in their eyes gradually faded.

The large clans of the Panfeng Federation liked to cultivate servants from infancy.

Raised within the clan, these individuals would consider the clan to be their true home.

This made them more loyal compared to servants recruited from the outside.

Ke Wu and the other three drivers were house servants groomed by Clan Zhenyan since childhood, dutifully keeping their responsibilities in mind since they were old enough to understand.

It was evident to Ke Wu that he and the three others had been given up by Gu Che, the eldest son of Clan Zhenyan, leaving them feeling homeless.

“Xiao Kun, go with this young man first, and once we’ve settled down our grandfather and father, we will deal with their poison!”

Upon hearing this, Fang Mu twitched the corner of his mouth, raised his hand, and threw two bottles of life elixir towards Ke Wu and the others.

“While you still have the will, drink one third of the life elixir each, and then use bandages to tie up your right hand wrist tight after the poison has converged on the right hand.”

Having said this, Fang Mu went on ahead without looking back.

Ke Wu and the others bowed in the direction Fang Mu had walked off.

While their lives were saved, Ke Wu and the others didn’t regain the light in their eyes with the shift of the poison.

Fang Mu’s actions caused Gu Che’s face to turn red, and he felt uneasy for a moment.

Could it be that he had upset the young man ahead by deciding to give up on Ke Wu and the others just now?

That couldn't be right!

Wasn't it common for big clans to abandon a few servants?

Certainly, the young man was clearly from a large clan himself, able to casually bring out grandmaster-level resources to save people.

Chapter 575: The Youth's Heart is as Vast as the Sea!_1

How could someone from a powerful faction care about the lives and deaths of a few servants?

Ke Wu and the other three coachmen grew up in the Town Rock Family, with little exposure to the outside world.

Therefore, it was impossible for people like Ke Wu to have known such a prominent figure in the past.

Subconsciously, Gu Che assumed that if Ke Wu and the others had the opportunity to connect with such a powerful person, they would not have chosen to remain as insignificant coachmen in the Town Rock Family.

Without a doubt, Ke Wu and the others were loyal servants.

Otherwise, Ke Wu wouldn't have insisted on fleeing with these four Beast Cars when core members of the Town Rock Family were dropping unconscious one by one.

But, no matter how faithful servants were, they couldn't make the family owe two bottles of Grandmaster-level Life Elixir.

Gu Che had no regrets about his actions, but he feared that Fang Mu might be the sort of person who was too generous and kind-hearted.

If this were the case, Fang Mu most likely already considered him cruel and ruthless.

However, this was the education Gu Che had received since he was a child.

Gu Che didn't realize that not only had Fang Mu formed an opinion of him, but the impression of the entire Town Rock Family in Fang Mu's eyes had also deteriorated.

Fang Mu had a general idea of the temperament of the Town Rock Family from Gu Che's treatment of his faithful servants.

Such a power, displaying no regard for the lives of their loyal servants, was a typical representation of self-interest at its finest.

While harmony might abound within the family, they seemed incapable of sincerity towards the outside world.

Fang Mu was not an excessively kind person. If he saved the people of the Town Rock Family, he must have his reasons.

Originally, Fang Mu did not plan to casually waste the Soul Parasite Ants produced by the Covenant Servant Soul Ant Queen.

The Covenant Servant Soul Ant Queen had been absorbing Fang Mu's Soul Energy all along, finally showing signs of advancing to the Silver Stage.

During the process of advancing to the Silver Stage, the Covenant Servant Soul Ant Queen was also attempting to improve its quality to Perfect Quality.

Now, apart from sleeping, the Covenant Servant Soul Ant Queen would only awaken to absorb Soul Energy when Fang Mu called.

Before the rank and quality of the Covenant Servant Soul Ant Queen were enhanced, it would not produce any more Soul Parasite Ants.

In dealing with the Town Rock Family, obviously, Fang Mu couldn't do it without the Soul Parasite Ants.

Fang Mu prepared to thoroughly study who would be the most suitable candidate for using the Soul Parasite Ants.

Soul Parasite Ants could only assure loyalty from the controlled person; they could not guarantee the person would do their utmost for Fang Mu.

Therefore, using Soul Parasite Ants to control those at the core of the Town Rock Family's power wasn't a good choice for Fang Mu.

Compared to these people, Fang Mu should give the opportunity to those who were desperate to enter the core of power but were hindered and couldn't get there.

Only by helping such people reach the core of power could they fully commit to his service and create the greatest value!

Though he was kind-hearted, Fang Mu saw no conflict between using the Soul Parasite Ants and his compassion.

Gu Che followed behind Fang Mu, feeling somewhat awkward when he saw that Fang Mu did not say anything further.

Seeing that Ke Wu and the others had tightly wound up their right wrists to control the poison, Gu Che loudly said to them,

“You four were saved by this Young Master, should you not thank him quickly?!”

Ke Wu and the others were already very grateful to Fang Mu. They didn't dare to approach and thank him promptly because they felt they weren't qualified to speak to Fang Mu.

Also, as servants, when their masters Gu Che and Gu Kun were present, they had no right to speak without permission.

Now that they'd been given Gu Che's permission, they were about to express their gratitude when the young man in front of them turned around and said kindly,

“There's no need for thanks. Someone will help you expel the poison in your body later.”

“After you've expelled the poison accumulated in your right wrist, remember to come up to the second floor.”

Having said that, Fang Mu continued to lead the way.

Fang Mu had three goals for doing so: firstly, he planned to comprehend the situation in the Panfeng Federation through Ke Wu and others.

Additionally, he wanted to understand why the Town Rock Family, one of the three great clans of the Panfeng Federation, ended up in such a state.

Secondly, understanding the situation from Ke Wu and others first would facilitate Fang Mu to ascertain whether the core members of the Town Rock Family were lying later on.

Thirdly, the members of the Town Rock Family knowing Fang Mu had asked Ke Wu and others first would make them hesitant about covering up some facts.

They would fear their account contradicted what Fang Mu learned from Ke Wu and others.

Once Fang Mu called Ke Wu and others to the second floor and questioned them about the situation of the Town Rock Family, and took control of the situation, Fang Mu would not let them go downstairs.

Hence, the members of the Town Rock Family won't have any chance to collude on their testimonies.

Gu Kun was still young, and from his attitude towards the family members and coachmen, it could be seen that the Town Rock Family was not cultivating him as the successor.

As for Fang Mu calling Ke Wu and others upstairs, Gu Kun didn't have any particular thoughts about it.

Gu Kun eagerly anticipated the family members reviving after the detoxification.

However, Gu Che's eyebrows furrowed tightly when he heard Fang Mu's words.

But, it was not the time for him to communicate with Ke Wu and others and instruct them on how to answer Fang Mu's questions.

Gu Che was full of mixed feelings, his back and forehead were covered with fine beads of sweat.

He was even more anxious than when he was facing Fang Mu earlier.

Chapter 576: Young Heart is as Deep as the Sea !_2

Ke Wu and the others knew that great secret.

If it weren't for this secret, the Town Rock Family would not have ended up in such dire straits.

Had he just advocated for saving Ke Wu and asking Fang Mu for the Grandmaster level life potion, Ke Wu and others, who grew up as house servants in the Town Rock Family, would surely have kept this secret out of gratitude.

But under the perception that he abandoned Ke Wu and the others, Gu Che harbors doubts in his heart about their ability to keep this secret.

Even though he is anxious, there's no solution at the moment.

If possible, Gu Che wishes that Ke Wu and the others could drop dead from the poison immediately.

All the while Gu Che has to pretend to clear his throat unceasingly as a reminder to Ke Wu and his group.

Fang Mu, seeing this, doesn't utter a word, but feels that no matter how cunning Gu Che is, he's still just a young man.

Threatening Ke Wu and his group, who already harbor resentment towards him.

This could easily provoke adverse reactions.

Being discarded so casually has caused the four men to question their own worth.

The worldviews of Ke Wu and his group have been shattered and they are in the process of rebuilding them.

Gu Che's actions are actually helping Fang Mu. It would make it easier for Fang Mu to pry open the mouths of Ke Wu and his group and ask the questions he wanted to know.

The previous four coachmen ran in the direction of the Abdominal Territory Worm because they sensed the spatial energy contained here, hoping for a miracle.

After being gravely injured and running for five nights, these twenty black obsidian leopards could hardly keep going.

Now that they've entered this fog, Gu Che, Gu Kun and Ke Wu and others never expected that what hid behind the Spatial Haze was a giant caterpillar!

The caterpillar's back was equipped with a mini fortress that was only about three meters high – just enough to accommodate one person.

The mechanical gears occasionally flying out of the fortress confirmed it as a Mechanical Beast.

The Dragon Rising Federation and Panfeng Federation are far apart and their environments are substantially different.

The types of Guardian Beasts in the federation's territory don't overlap much.

Gu Che hasn't seen these two Guardian Beasts before.

Gu Che, holding Gu Kun's hand, carefully follows Fang Mu, Shu Liangjun, and Shui Miao's steps into the mini fortress.

Although the mini fortress seems only three meters high, Gu Che finds a surprising amount of space inside.

The interior is large and extremely luxurious!

The furniture in the room is easily recognizable as the work of a Grandmaster Craftsman.

The sumptuous and fragrant Peony Class Royal Beasts displayed there could be easily called auspicious.

In the Panfeng Federation, these Royal Beasts could net a hefty sum of tens of millions of Panfeng Currency with ease.

The Town Rock Family has a preference for collecting Auspicious Beasts, but few of the collected Auspicious Beasts can compare with this peony.

Gu Che didn't find this surprising at all.

Fang Mu can readily bring out Grandmaster-level creator resources.

With Grandmaster-level creator resources, isn't it easy to cultivate some top-tier Auspicious Beasts!

Lu Xiaoyin came to Fang Mu with her four servants, watching as Ke Wu and the other three were brought in by the four coachmen of Town Rock. She was the first to speak.

"Young Master, are you going to cure these people of their poisoning?"

"We should both be able to help!"

Fang Mu nodded at Lu Xiaoyin.

"You only need to bleed them from their right wrists and collect the blood. I have a use for it!"

Lu Xiaoyin noted Fang Mu's words and instructed the four servants behind her, who took out several crystal bottles to collect the poisoned blood Fang Mu needed.

She Wan took out a silver needle and pricked Ke Wu's fingertip.

Fang Mu gave She Wan a look, signaling her to detoxify Ke Wu and the other three coachmen first.

Once everything was set up, Fang Mu went up to the second floor with Shui Miao and Shu Liangjun.

Gu Che noticed She Wan's action, but he couldn't stop her.

Previously, Gu Che's act of clearing his throat to alert Ke Wu and his group had been nerve-wracking.

Everyone here works for Fang Mu. If he dared to warn Ke Wu and his group outright, Fang Mu's people would definitely report everything to Fang Mu.

Gu Che could only wait for his father and grandfather to wake up, then tell them about the situation.

He would let his grandfather and father take the lead.

The Town Rock Family acquired that object with great difficulty, despite the huge risk.

Gu Che didn't want to lose it and have it end up in someone else's hands.

If the Town Rock Family had decided to let it go earlier, they would not have met with such a disaster!

Shui Miao and Shu Liangjun looked at each other as they went upstairs. They had not meddled at all in the affairs of the Town Rock Family. Every decision was made by Fang Mu.

So far, Fang Mu's decisions could be said to be optimal. This proves the capabilities and wisdom of this young man.

Shui Miao and Shu Liangjun admitted they couldn't operate as wisely in worldly affairs when they were teenagers as Fang Mu.

Fang Mu is always making the best choices.

"Ah Mu, there must be a significant reason behind the downfall of the eminent Town Rock Family. It likely involves significant benefits," one of them said.

Chapter 577: The Young Heart is Like the Sea!_3

“The members of the Clan Zhenyan will most likely not tell us the truth when they wake up.”

“So, the best way to understand the situation is to pry the truth from the four drivers.”

“But there is a precondition to do so, and that is to completely alienate these four drivers from Clan Zhenyan.”

“The servants of the major forces within the Panfeng Federation are usually trained from childhood, and these trained servants often prioritize the interests of their respective forces.”

Fang Mu responded with a light laugh.

“Even if the house servants were nurtured from a young age, they are not fools.”

“They can clearly sense whether their families have been good to them.”

“If they had experienced being abandoned by their families, doubt would certainly arise in their hearts!”

“At this time, a little push is all it would take.”

As soon as Fang Mu finished speaking, before Shui Miao and Shu Liangjun could respond, Ke Wu and the other three drivers had already climbed the steps to the second floor.

She Wan knew that Fang Mu had business with Ke Wu and the others, so she quickly made her move.

Ke Wu and the others were still lucid, and after being detoxified and undergoing some recuperation, they could fully recover.

The others from the Clan Zhenyan were poisoned in their souls. Even if the poison was completely expelled, they would need to be unconscious for at least a day.

Even if they used the Soul Awakening Elixir concocted by Senior Creators, they would still need to be unconscious for more than half a day.

Upon seeing Fang Mu, Ke Wu and the other three drivers immediately bowed and expressed their gratitude for being saved.

Seeing this, Fang Mu directly helped the four of them up from the ground.

"I only know that one of you is called Ke Wu, what are the other three called?"

Upon hearing Fang Mu's question, the four men introduced themselves from left to right.

"Ke Wu, Ke Dong, Ke Wen, Ke Yi."

"We four are all house servants of the Clan Zhenyan, and all house servants of the Clan Zhenyan have the surname Ke."

At this, Fang Mu nodded and gestured to the Ritual Cemetery Three Treasures and Giant Brutal Butcher in the corner of the second floor.

The four undead controlled by Yan Yubanruo through the skill [Golem Paper Control] directly moved four chairs in front of Ke Wu, Ke Dong, Ke Wen, and Ke Yi.

"Please sit! I have some questions for you."

"Rest assured, I know you are all house servants of the Clan Zhenyan."

"Out of respect for you, the questions I ask won't impose on the Clan Zhenyan's interests."

“However, you should also be aware of one thing.”

“I am a benefactor to the Clan Zhenyan. The bloodline of the Clan Zhenyan might already be lost, infected by the Dead Qi in the tide of undead, and have become new undead!”

“Just now, it was clear that Gu Che was reminding you of something, clearly, he didn’t want you to say something.”

“I speculate that what Gu Che didn’t want you to reveal has a lot to do with Clan Zhenyan’s current predicament!”

“The most loyal thing to do for the family isn’t to be loyal to the ruler, rather its to ensure the family’s continuation.”

“That’s my viewpoint, what do you think?”

Fang Mu’s words allowed Shu Liangjun and Shui Miao to see a side of him they didn’t know.

Fang Mu’s words, seen from the position of Ke Wu and the others, were extremely persuasive and replaced their concept of loyalty to the Clan Zhenyan.

So, is this what Fang Mu calls “adding fuel to the fire”?

But this kind of spark may not be enough to pry their mouths open.

Their devotion to the clan is unquestionable, otherwise they wouldn’t have fled with the clan members all this time.

Even if any one of them harbored any ill will, they could have killed Gu Che and Gu Kun and shared the wealth within the four Beast Cars.

Fang Mu observed the changing expressions on the faces of Ke Wu, Ke Dong, Ke Wen, and Ke Yi, before clearing his throat.

“The four of you are loyal to Clan Zhenyan, but it is clear that Clan Zhenyan treats you lightly.”

“If I hadn’t given you the two Grandmaster-level Life Elixirs, you would have all died from the poison by now!”

“You always said you are house servants, but now the house servants also have a chance to decide the future of the clan.”

“Now I have given this opportunity to you. Whether you can grasp it or not is up to you!”

“I can save the Clan Zhenyan and let them live, but I can also easily cause their demise!”

After finishing, Fang Mu looked at the four with a smile.

He paused for about five seconds, then suddenly increased his volume.

“Now I want to know why Clan Zhenyan ended up in such a situation within the Panfeng Federation!”

Fang Mu knew that when Gu Che refused to treat them, they would have been in turmoil.

Now all he needed to do was to disturb them further.

Faced with him, they were already under great pressure. Plus, he subtly changed the concept of loyalty.

Gratitude, responsibility, oppression, threats, resentment—various emotions would make them extremely impulsive.

Under such impulses, someone would speak out eventually.

Once someone revealed a hint of information, it would open the floodgates!

Among the four drivers, Ke Wu was the leader.

Ke Wu had always been a deep thinker since he was young, but he had no chance to show it when he was small.

As he grew older, Ke Wu understood the role of a house servant, and that being a deep thinker wasn't a good quality for a house servant in service to the clan.

So Ke Wu completely concealed his thoughts from then on.

Ke Wu was very clear that facing this young man, Ke Wen, Ke Dong, and Ke Yi wouldn't be able to do anything in the end.

So, it's better for him to tell the reasons himself.

On the one hand, it would give him a chance, and on the other hand, it could be a repayment for the youthful savior's kindness.

If this young man didn't get the information he wanted, he would certainly not let it go.

It's very possible that he would put Clan Zhenyan in danger again!

That's right, as the young man said, honesty is the only way to save Clan Zhenyan at this stage.

Clan Zhenyan managed to obtain this item, yet they did not have the ability to protect it.

Even if Clan Zhenyan survives this crisis, they would still face risks in the future because of this item.

Chapter 578: Fang Mu's Punch!_1

Ke Wu, who had made up his mind, did not hesitate to promptly raise his hand and speak with extreme seriousness.

"Sir, I can explain to you the specific situation. Our clan..."

Before Ke Wu could finish his words, he was interrupted by Fang Mu.

"Well done! I appreciate your honesty!"

"Ah Shui, Elder Shu, help me block the perceptions of the other three."

Shu Liangjun and Shui Miao, upon hearing this, released their auras, enveloping Ke Wen, Ke Dong, and Ke Yi.

As a result, the three of them could only perceive things within ten centimeters of their bodies; no matter what Ke Wu said, they could not hear it.

It was clear why Fang Mu was doing this.

Fang Mu would ask each person about the situation after questioning Ke Wu. This was tantamount to adding pressure to Ke Wu again, forcing him to explain the situation in the greatest possible detail.

Because even if Ke Wu wanted to hide information, he most likely wouldn't be able to when the other three began speaking.

At the same time, Fang Mu was also exerting pressure on Ke Wen, Ke Dong, and Ke Yi.

Under circumstances where Ke Wu had already spoken, and possibly confessed Clan Zhenyan's core secrets, it would certainly not end well for the three men if they did not speak up as well.

Even the most loyal house servants, after being abandoned by their clan, would inevitably start thinking about their future.

"Okay, you may continue now!"

"I have all the time in the world. Please start from the beginning and tell me everything!"

Ke Wu, after internally organizing what he knew, began to speak.

"I am but a carriage driver for the Zhenyan Clan. Even though I have been driving for the clan head since four years ago, I was not privy to the internal matters of the clan."

"What I do know is that the Zhenyan Clan was in danger due to a joint conspiracy by the royal family of the Panfeng Federation and two other clans."

"The Luanyue Clan, who was originally on good terms with the Zhenyan Clan, organized a banquet and poisoned the drinks."

"Since we four did not have the privilege of attending the banquet, we only became mildly poisoned because someone from the banquet delivered us four drinks."

"Out of respect for the Luanyue Clan, we held the wine in our mouths but spat it out after the person had left."

"The Zhenyan Clan has always forbidden carriage drivers to drink alcohol, otherwise, we would have been deeply poisoned and would not have been able to drive to escape!"

Fang Mu nodded slightly upon hearing this.

From Ke Wu's words, Fang Mu was sure of one thing, the Zhenyan Clan had certainly obtained something precious or discovered a shocking secret.

Otherwise, the royal family of the Panfeng Federation would not have joined with two other clans to attack the Zhenyan Clan.

Eliminating the Zhenyan Clan would greatly reduce the power of the Panfeng Federation. This would benefit neither the royal family of the Panfeng Federation nor the two other families.

It could cause the Panfeng Federation to drop tens or even hundreds of places in the federation ranking of the Ten-thousand Nations Federation!

Logically speaking, powerful forces usually act very cautiously. Why would the Zhenyan Clan trust the Luanyue Clan so much?

Before Fang Mu could ask more questions, Ke Wu continued.

"A few decades ago, the main bloodline of the Luanyue and Zhenyan Clans was connected through marriage. Over the years, even if the core family members did not intermarry, the side branches secured dozens of marriages together."

"A month ago, the Luanyue Clan proposed marriage to the Zhenyan Clan, hoping to marry the eldest daughter of the Zhenyan Clan, who is also the cousin of young master Gu Che."

"The core direct line members of the Zhenyan Clan were poisoned at this wedding banquet set up by the Luanyue Clan!"

Fang Mu had previously guessed that the disaster of the Zhenyan Clan was related to the large ancient battlefield discovered in the Panfeng Federation.

Now, from Ke Wu's words, Fang Mu knew that his guess was roughly correct. This was because the discovery of the large ancient battlefield in the Panfeng Federation happened just a month ago.

"From what the previous Clan Head and the current Clan Head revealed to young master Gu Che before they fell into a coma, I learned that the cause of this predicament is a scripture from an ancient battlefield, which was obtained by the Zhenyan Clan."

"This scripture contains clues to a special kind of energy from the era before the Seventh Epoch."

"I don't dare to speculate what this specific energy is because the old clan head didn't mention it, but it's highly possible that it's Spiritual Energy!"

Upon hearing Ke Wu's words, Shu Liangjun and Shui Miao's breathing became rapid.

The special energy that existed before the Seventh Era was not only Spiritual Energy but also Source Power and Faith Power.

Some ancient texts provide specific records about Source Power and Faith Power.

However, the only kind of special energy that could result in the downfall of the Zhenyan Clan could only be Spiritual Energy!

Otherwise, the royal family of the Panfeng Federation would not have chosen to cut off their own arms.

Many Guardian Beasts with bloodlines from the ancient eras have become weaker because they no longer have access to Spiritual Energy.

The fact that Shu Liangjun's Guardian Beast was able to awaken the bloodline of the unburning sparrow was due to a jar of Spiritual Energy extracted from the relics of an ancient epoch battlefield.

The scripture that the Zhenyan Clan found on the battlefield might reveal the location of the ancient relics containing Spiritual Energy.

This opportunity was incredibly enticing to Shui Miao and Shu Liangjun.

Upon hearing Ke Wu's words, Fang Mu subconsciously thought of the golden tier skill of the Abdominal Territory Worm, [Secret Realm Energy].

[Secret Realm Energy] allows the Abdominal Territory Worm to designate a specific energy as the unique energy source of the sanctuary. It does this by converting the worm's own life energy into a special energy to power the sanctuary.

In other words, if Fang Mu obtained even a little Spiritual Energy, it could be used as the source energy of the Abdominal Territory Worm to power the sanctuary.

Chapter 579: Fang Mu's Punch!_2

Fang Mu could produce a large amount of spiritual energy through the Abdominal Territory Worm, realizing the freedom of spiritual energy!

After all, the life energy of the Abdominal Territory Worm itself can be replenished by using high-purity Life Elixir.

Just as Fang Mu was preparing to let Shui Miao and Shu Liangjun withdraw their control over Ke Wen, Ke Dong, and Ke Yi, Ke Wu spoke softly.

"Young Master, it was I alone who drove the first Beast Car, so there's no way those three could know about the information I just told you!"

Upon hearing these words, Fang Mu secretly praised Ke Wu in his heart.

After explaining the situation to him, Ke Wu could've just waited for him to question the other three.

If he could obtain information from these three that he couldn't from himself, it would undoubtedly be of great benefit to Ke Wu.

Yet, Ke Wu did not choose to do so; he did not use the safety of his companions to pave the way for himself.

After listening to Ke Wu's words, Fang Mu, as usual, proceeded to question the other three.

The content of what the three of them said was largely consistent, but none of them mentioned the ancient book related to spiritual energy.

"Alright, the four of you rest and cultivate here!"

"Afterwards, I will have the four of you return to the Town Rock Family, but you will not be working as carriage drivers anymore."

Fang Mu's words left Ke Wen, Ke Dong, and Ke Yi confused, but Ke Wu understood.

The young man in front of him was mostly planning to seize control of the Town Rock Family and put the four of them in management positions within the family.

In return, the four of them would serve as secret informants for Fang Mu, providing him with internal information about the Town Rock Family.

Ke Wu hurriedly spoke up.

“Thank you, Young Master for your high regard! We four will definitely not let you down in the future! Thank you again for your lifesaving grace!”

Fang Mu enjoyed communicating with intelligent people, and Ke Wu was obviously a very smart person.

Ke Wu would later explain to the other three and slowly become the leader of the three.

In fact, Fang Mu could already see that the other three always considered Ke Wu as a priority when doing anything.

The Abdominal Territory Worm temporarily stopped over this wasteland, with the Ghost Fish Princess trying her best to absorb the Soul of Death under Yan Yubanruo’s urging.

As a fish that was born out of Yan Yu Panna's Blood, the Ghost Fish Princess spent every day thinking about how to provide better service for Yan Yu Banro.

Yan Yu Banro always complained that the Ghost Fish Princess produced the Soul of Death too slowly. The more souls of death she collected now, the longer Yan Yubanruo could consume them, and the less scolding she would receive.

The Ghost princess did not know that the souls of death she had worked so hard to collect would soon be taken away by Fang Mu and used as a ticket to enter the large ancient battlefield.

Gu Anxing, the current head of the Panfeng Clan, was the first to wake up from unconsciousness.

The awakened Gu Anxing instinctively sat up and showed a defensive posture.

If it weren't for seeing Gu Kun not far from him, Gu Anxing would probably have summoned his Guardian Beast already.

Gu Anxing's thoughts were still mainly on the wedding banquet with the Luan Yue Clan.

The poison administered by the Luanyue Clan had a heavy effect on both mind and soul, causing the newly awakened Gu Anxing to be a little dazed.

But Gu Anxing reacted quickly.

After the wedding banquet, the Town Rock Family fled and he told Gu Che and Gu Kun about the secret scriptures.

Seeing Gu Anxing sit up, Gu Kun hurried to his bedside with excitement.

“Father, you’re awake! I’ll go fetch Young Master Fang!”

Gu Anxing lifted his hand to grab Gu Kun’s arm and asked in a deep voice.

“Who is Young Master Fang? Where are your elder brother and grandfather?”

Gu Kun, who had been terrified of Gu Anxing his whole life, quickly explained to him.

“Father, we have been fleeing west and it was Young Master Fang who saved us!”

“Eldest brother is in another room guarding grandfather. Others should be waking up soon in another big room!”

Gu Anxing’s frown did not loosen after hearing Gu Kun’s words, and he asked Gu Kun anxiously.

“Kun’er, you and your elder brother did not reveal to Young Master Fang what I and your grandfather said before we passed out, did you!?”

Upon hearing this, Gu Kun promptly shook his head.

“Father, I only saw Young Master Fang twice today. After inspecting your condition, Young Master Fang left without asking me anything else!”

Upon hearing Gu Kun’s words, Gu Anxing’s frowned eyebrows finally relaxed a bit.

If that Fang youngster really wanted to know something, he would definitely choose to ask Gu Kun instead of Gu Che, provided he’s not stupid.

Given Gu Anxing’s understanding of his eldest son Gu Che, Gu Che would not divulge the news about the ancient book.

However, Gu Kun’s next sentence made Gu Anxing’s eyebrows knit tightly again.

“Father, after saving us, Young Master Fang summoned Ke Wu and the others to the second floor, and they haven’t come down since!”

“Ke Wu also knows the information you and grandfather told me and elder brother, do you think Ke Wu would give that information away?”

Although Gu Kun was kind, he was also a true gentleman of the great world.

Therefore, Gu Kun was not stupid, he understood why Fang Mu called Ke Wu and the others upstairs.

Gu Kun wasn't as worried as Gu Che, because Gu Kun's thoughts were all focused on the safety of his family.

Unlike Gu Che whose considerations were always about the benefit and interest of the family.

Gu Anxing's fists clenched tightly.

Gu Anxing knew Ke Wu very well. Ke Wu was able to stay by his side and work as a driver because Gu Anxing recognized that Ke Wu was an extremely smart person.

Distrust was always Gu Anxing's policy towards house servants. He didn't trust these children who were raised by the family from an early age.

Chapter 580: Fang Mu's Punch!_3

This prompted Gu Anxing's instinctive feeling that Ke Wu would leak the news.

After waking up, Gu Anxing didn't hurry to leave his room, instead, he took a deep breath and braced himself for the worst.

Then he forcibly calmed himself down and asked Gu Kun,

"Kun, based on your understanding, what kind of person do you think Young Master Fang is? What is his background?"

If the person who saved the Town Rock Family was a weakling, Gu Anxing wouldn't mind returning kindness with ingratitude.

Anyway, preserving the secret is paramount!

However, from the current situation, it seemed unlikely that the person who helped the Town Rock Family was weak.

Since the other party managed to neutralize the toxin that the Town Rock Family couldn't, Gu Anxing hoped to learn more about Fang Mu before making contact with him.

It could help him guess Fang Mu's motive and bottom line for aiding Town Rock Family.

Gu Kun had no clue about Fang Mu's background or what kind of person he actually was.

However, Gu Kun knew that he couldn't stay silent in such a situation!

"Father, neither my elder brother nor I had the chance to interact with Young Master Fang. We only know that one of the people with him is very powerful!"

“With just a folding fan, he summoned countless shadows that killed hundreds of thousands of undead!”

“The reason why we were able to wake up was because Young Master Fang brought out seven Grandmaster level life potions.”

Gu Kun stopped here, running his fingers through his short chestnut hair.

As for the other details, he simply could not make them up.

Hearing this, Gu Anxing took a sharp intake of breath.

Capable of casually offering seven Grandmaster level life potions to save a bunch of strangers, such extravagance and boldness were beyond Gu Anxing’s comprehension!

There were no Grandmaster Creators in the entire Panfeng Federation. Prior to this, the Town Rock Family had no opportunity to come into contact with resources of the Grandmaster Creator level.

This indicated that behind Young Master Fang was a Grandmaster Creator, or that his organization had easy access to Grandmaster-level resources.

The several hundred thousand undead chasing the Town Rock Family’s Beast Car didn’t disperse, indicating that at least one of the undead reaching the sequential level was leading them.

Summoning a spiritual instrument was hardly likely to produce the effect mentioned by Gu Kun. Could it be possible that someone in Young Master Fang’s entourage owned a high-level Ghost Device!?

“Kun, there are two important questions that your father needs to ask you. You need to think clearly and answer truthfully!”

“Did the folding fan that summoned countless shadow fans also produce Ghost Flame? Under what circumstances did Young Master Fang take out his Grandmaster-level potion?”

After recalling the scene, Gu Kun confirmed.

“Father, I couldn’t see any Ghost Flame on the fan because of the distance!”

“But there was definitely a layer of pale blue flame on those shadow fans!”

“I think the flame on these shadow fans is very similar to the Ghost Flame!”

After explaining the situation with the folding fan to Gu Anxing, Gu Kun truthfully recounted their encounter with Fang Mu and his companions.

Upon hearing this, Gu Anxing gave a wry smile.

It seemed the Town Rock Family had just escaped the wolf’s den and ended up in a dragon’s lair!

While in the wolf’s den, despite falling for a trick, the Town Rock Family still had a chance to escape.

But trapped in a dragon’s lair, the Town Rock Family could only passively let the true dragon manipulate them!

Even the shadow fans were filled with flame similar to Ghost Flame, which indicated that this Ghost Device must have reached the Ghost Emperor Level!

Just a Ghost Device was able to suppress the Catastrophe-Level Dimensional Rift.

Now, the Town Rock Family had only two options.

One was to keep the news about this ancient book a secret, betting that Ke Wu hadn’t told Young Master Fang about it.

The other was that the Town Rock Family would voluntarily present this ancient book to Young Master Fang and seek his protection.

Then they would follow Young Master Fang back to the capital of Panfeng Federation to settle scores!

For a while, Gu Anxing really didn't know what to do.

Gu Anxing had no idea that while he was hesitating, Fang Mu had already arrived in the next room.

His own father, Gu Tianfan, had also awakened.

"Young Master Fang, thank you for your help to our Town Rock Family! We will always remember your assistance!"

"If you are heading to Rock Peak City, we will have to say farewell after everyone in our Town Rock Family has awoken!"

Hearing this, Fang Mu sneered.

"Old man, your words make me feel like your family is taking me for granted."

"Before saving your family, you promised to be at my disposal. Is this how you keep your promises?!"

"Gu Che, it seems you didn't update your grandfather after he woke up!"

Standing next to Fang Mu, Shu Liangjun bent his index finger and three grayish-brown shadows instantly entered Gu Tianfan's body.

Gu Tianfan wailed in pain, his entire body curling up like a shrimp.

Gu Che reflexively summoned his Guardian Beast, getting into a defensive stance.

Fang Mu came over because he received a message from She Wan saying that Gu Tianfan had woken up.

Fang Mu came to negotiate with Gu Tianfan, the old patriarch of the Town Rock Family. But what he didn't expect was how shameless Gu Tianfan was.

A mere thank you and he intended to part ways.

Fang Mu wasn't sure what method Shu Liangjun used, but he didn't stop him.

As Fang Mu continued to tap into the power of the Blood of Abundance, his Destiny Guardian Beast, he had learned how to effectively use its blood-red fog.

As long as he didn't let the blood-red fog fill his body, Fang Mu wouldn't transform.

Fang Mu walked straight towards the Earth Dragon summoned by Gu Che. This large-bodied Earth Dragon was under Gu Che's control and dared not retaliate.

After unconsciously summoning his Guardian Beast, Gu Che immediately regretted it.

Fang Mu's straight punch landed on the head of this Platinum-level Earth Dragon, instantly collapsing its waist.

Luckily, the Mechanism Fortress had devoured a lot of spiritual instrument fragments and its internal hardness could be temporarily reinforced with mechanical gears.

Otherwise, Fang Mu's punch might have pierced through the Mechanism Fortress!
