

Beast Tamer 601

Chapter 601: Desperate for the Soul of Death!_3

The Qingdian Clan can target the Town Rock Clan, so why can't I target the Qingdian Clan!?

In recent days, in the entire Rock Peak City, conflicts and disputes have been happening around the clock.

A strong force is bound to have many allies, but also many enemies.

Rock Peak City, like a whirlpool, attracts guests from all directions, many of whom are antagonistic forces.

These opposing forces, under normal circumstances, avoid each other in their own territories to maintain peace.

But in Rock Peak City, when these opposing forces meet, sparks are bound to fly.

Rock Peak City has become a chaotic mess, and the Qingdian Clan simply does not have the manpower to handle it.

Fortunately, all the major forces still fear the Ten-thousand Nations Federation, and so, even in the face of their enemies, they have much restrained their actions.

Therefore, no severe bloodshed incidents have occurred.

In a grand old house in Rock Peak City, a robust elder with white hair and beard is anxiously looking into the distance.

Just then, an old woman walked in.

The old woman looked very depleted, as if she had been under immense torment day and night.

Hearing the footsteps behind him, the robust elder turned to see the old woman and sighed sympathetically.

He quickly fetched a large poncho and draped it over the old woman.

“Your health has always been poor. The wind in Rock Peak City has been strong recently. I don’t know why the people who take care of you did not add more clothes for you!”

Ignoring the elder’s concerns, the old woman brushed off the black poncho, which immediately fell to the ground.

“Sun Hao, do not pretend to care for me. Ever since you decided to poison the Town Rock Clan, our friendship has been over!”

“I wish you would die soon to relieve the hatred in my heart!”

Hearing this, the robust elder’s face turned ash-white, but he didn’t try to justify himself.

After a moment, he finally spoke.

“Your hatred will eventually fade.”

“Seeing as you came all this way to find me but have nothing to say, I will leave this beautiful scenery to you!”

With that, he left the room.

As the evening approached, the elder asked a striking middle-aged man who bore a slight resemblance to him in a secret chamber.

“Cheng, you went to the royal court today. What was their response?”

This middle-aged man looked quite stately but due to his constant frowning, he seemed rather gloomy.

On hearing the elder, the man’s frown deepened.

“Father, I went to the royal court today and not a single direct descendant of the Qingdian Clan showed their face!”

“I was received by two members of side branches the whole time.”

“Just before I left, another side branch member relayed a message to tell us to just wait at home for orders!”

“All the promising, as well as the unremarkable, youngsters of our Luanyue Clan have been summoned to the royal court to be held as hostages by the Qingdian Clan.”

“After all these years, our Luanyue Clan is just a toy to be played with in the eyes of the Qingdian Clan.”

“Now that a large part of the Panfeng Federation’s foundation has been destroyed by the tide of the undead flowing from this ancient battlefield.”

“Why don’t we put all our efforts into rescuing our young ones from the royal court and then move the entire clan out of the Panfeng Federation?”

Upon hearing this, the elder slammed his hand down on the table.

“Nonsense! The royal court is not a place our Luanyue Clan can break into easily!”

“You’re well aware of the number of Beast Controlling Forces hidden in the royal court.”

“These Beast Controlling Forces have teamed up with the Qingdian Clan and, until we completely explore this ancient battlefield, they will undoubtedly stand by the Qingdian Clan!”

Finishing his sentence, the elder silently added in his heart.

Even without those Beast Controlling Forces, the Luanyue Clan is no match for the Qingdian Clan. This is a hard gap in power.

If the Luanyue Clan was more powerful than the Qingdian Clan, then the force holding the royal court of the Panfeng Federation wouldn’t be the Qingdian Clan, it would be the Luanyue Clan!

The elder had foreseen this outcome as soon as he learned that the Qingdian Clan wanted the Luanyue Clan to poison the Town Rock Clan.

If they did not follow the orders of the Qingdian Clan back then, the Luanyue Clan would have shared the same fate as the Town Rock Clan.

The elder had agreed to the demands of the Qingdian Clan in hopes of finding an opportunity to save themselves.

But he has yet to find any such opportunity, and this has left him feeling rather hopeless.

It feels like a cancer patient watching their life slip away, unable to receive any treatment.

The elder had thought about leaving the Luanyue Clan members held hostage in the Royal Court to fend for themselves and taking the core members of the Luanyue Clan to escape.

But the Qingdian Clan would not give the Luanyue Clan such a chance.

Their old residence was surrounded by countless spies from the Qingdian Clan, all constantly monitoring the situation.

“Cheng, go to the royal court again tomorrow. Whether they see you or not, we must make our stance clear!”

“You may go now. Let me be alone for a while!”

Upon hearing these words, Sun Cheng’s gloomy expression deepened.

But in the end, Sun Cheng didn’t defy Sun Hao’s orders because, right now, he had no better solutions.

After Sun Cheng left, Sun Hao slammed his fist onto the old sandalwood table in front of him.

The old sandalwood table, which Sun Hao usually cherished, was shattered by his punch.

Even though the spies of the Qingdian Clan were monitoring their old residence, they could not see into the secret chambers of the Luanyue Clan.

Sun Hao could vent his anger in the secret room without any worries.

At this moment, Sun Hao sensed a faint disturbance in the space a meter away from him, and a youthful voice sounded in his ears.

“Mysterious Butterfly Purple Sandalwood is a rare and valuable wood in a place like the Panfeng Federation.”

“Smashing this table would mean you do not have it once the Luanyue Clan weathers this storm.”

The scene in front of him was beyond Sun Hao’s understanding.

Sun Hao only heard the voice but saw no one, leaving him uncertain whether the mysterious speaker was a friend or an enemy.

However, after pondering over what Fang Mu had said, Sun Hao immediately trembled with excitement.

Chapter 602: Luminous Snake and Brilliance!_1

The other party mentioned that the Luanyue Clan could overcome their crisis, indicating firstly, that they were friends, not foes.

Secondly, they are aware of the current status of the Luanyue Clan and understand the difficulties they are facing.

This prompted Sun Hao, who had no one to rely on, to subconsciously regard the voice in front of him as his support.

Sun Hao hurriedly responded.

“Do you mean our Luanyue Clan can still overcome this crisis!?”

“If you could lend a hand to the Luanyue Clan, we would be eternally grateful!”

At this point, Sun Hao suddenly realized that he no longer had any bargaining chips at his disposal.

If the Luanyue Clan wanted the other party’s support, simply offering resources in return would seem insincere.

With this in mind, Sun Hao immediately amended his statement.

“As long as you can help the Luanyue Clan survive the current crisis and continue our lineage.”

“Our Luanyue Clan can be at your service!”

Upon hearing this, Fang Mu nodded secretly in agreement.

Fang Mu’s understanding of the situation in the Panfeng Federation primarily relied on the current information he had.

The fact that Fang Mu’s voice could appear in the secret room was due to Shu Liangjun using a long-treasured spiritual instrument.

Fang Mu had not had any contact with the Luanyue Clan prior to this, his words were primarily intended for probing.

The response of the Luanyue Clan let Fang Mu know that his guess was indeed correct!

“Helping the Luanyue Clan overcome their crisis and extend their lineage is not difficult.”

“If you can prove the value of the Luanyue Clan, why wouldn’t I lend a hand!?”

Fang Mu’s current words seem to be demanding loyalty from the Luanyue Clan, but in reality, it’s just another subtle probe from him.

Upon hearing these words, Sun Hao fell into a dilemma.

The other party knew about the situation of the Luanyue Clan because they were in the public eye.

But the other party was operating in the shadows, and he knew nothing about them.

Under such circumstances, how could he know what the other party expected the Luanyue Clan to do!?

However, the fact that this youthful and cheerful voice could appear in his secret room undetected by the powerful figures outside, who had been sent by the Qingdian Clan to keep an eye on him, was proof enough of the formidable capabilities of this unknown entity.

Suddenly, Sun Hao thought of the biggest secret currently possessed by the Luanyue Clan, which was related to the large ancient battlefield that had opened up within the territory of the Panfeng Federation.

In the past hundreds of years, no such mysterious power figure had appeared in Rock Peak City.

This person must have come to Rock Peak City at this crucial juncture for that large ancient battlefield.

If that were the case, then the information he was revealing would definitely be of interest to them!

“My lord, do you know there’s an ancient book within this large ancient battlefield, which records the distribution of resources?”

“It was because of this ancient book that our Luanyue Clan fell into the current predicament!”

“If you can help our Luanyue Clan overcome this crisis, we will do our best to help you track down this ancient book!”

Upon hearing Sun Hao’s words, Fang Mu couldn’t help but smirk, feeling that Gu Anxing would be a more suitable person to say these words.

The Clan Zhenyan was the real victim of this ancient book, whereas the Luanyue Clan was just an indirect victim.

Of course, it’s not Sun Hao’s fault for doing this, but his promise is quite outlandish and evidently, he’s not putting his heart into it.

The Clan Zhenyan was able to escape by sacrificing two Sequential Space Guardian Beasts, which triggered the Sequential Spiritual Instrument.

That Sequential-level Space Spiritual Instrument carried the Clan Zhenyan away to a random far-off distance, giving them a chance to escape.

Without it, no matter how sharp the four coachmen of Clan Zhenyan were, there was no way they could have carried all the direct descendants of Clan Zhenyan so far away!

If it had taken three or five days longer for them to meet Fang Mu, the poison would have spread, and everyone from Clan Zhenyan would have perished long ago!

As the royal family of the Panfeng Federation, the Qingdian Clan must have been searching for the whereabouts of Clan Zhenyan all along.

Even if he genuinely helped the Luanyue Clan out of their current predicament, what could the Luanyue Clan offer to compete with the Qingdian Clan?

If Shu Liangjun's Sequential Spiritual Instrument hadn't been unable to sustain for a long period, Fang Mu would have definitely taken his time to toy with Sun Hao a bit.

"The ancient book you mentioned, is it the one obtained by Clan Zhenyan?"

"That ancient book is in my possession and I don't need the Luanyue Clan to find it for me!"

At this moment, Fang Mu's words struck Sun Hao like a second lightning bolt, leaving him dazed.

What! The ancient book from Clan Zhenyan is actually in the hands of this young man speaking!?

This young man found the four carriages of Clan Zhenyan, he is indeed too lucky!

But in that case, Sun Hao couldn't immediately think of what the Luanyue Clan could offer as a bargaining chip in return.

The stranger wouldn't want to use the Luanyue Clan as cannon fodder while exploring the ancient battlefield, would he!?

Despite the shock, Sun Hao managed to keep his composure.

After contemplating for a moment, Sun Hao gritted his teeth and said,

"My lord, would you mind telling us what we need to do for you to help our Luanyue Clan through this crisis?"

"Whatever is within our capabilities, we are willing to do it, and if it's beyond our capabilities, we will also strive to make it possible!"

Regardless of the demands made by this mysterious voice, Sun Hao was ready to fulfill them without compromise.

For the clan, perpetuating their lineage was the most important thing.

At that moment, several miles away in a hotel from the old Luanyue Clan house, Fang Mu, Shu Liangjun, and Shui Miao were in the same room.

Shu Liangjun held a Silver Phantasmal Ancient Mirror in his hand, through which Fang Mu could clearly see Sun Hao.

Chapter 603: Luminous Snake and Brilliance! _2

But Sun Hao had lost all sense of his existence.

At that moment, a fine layer of sweat covered Shu Liangjun's forehead.

"Ah Mu, this form of communication drains a large amount of energy from my body. I can only maintain it for two more minutes at most!" Shu Liangjun said worriedly.

Upon hearing this, Fang Mu immediately addressed Sun Hao.

"I won't put the Luanyue Clan to too much trouble, but I do have one request."

"Despite the Luanyue Clan's current predicament, you're sure to be invited to the banquet the Panfeng Federation will hold at the Royal Court."

"I will arrange for a group of masked people to join the ranks of the Luanyue Clan. You must not concern yourselves with their identities."

"All you need to do is bring them to the Royal Court and let them attend the banquet!"

"After that, stick with them."

“I cannot guarantee everyone’s safety, but I can assure you that the Luanyue Clan’s lineage will not be discontinued because of this.”

Upon hearing Fang Mu’s words, Sun Hao’s face turned grim.

No matter what, the Luanyue Clan was still one of the two most powerful clans in the Panfeng Federation, the other being the Qingdian Clan.

Bringing their own kind to the banquet shouldn’t be an issue!

The Qingdian Clan wouldn’t wage war against the Luanyue Clan over such a matter.

Fang Mu’s request was not difficult to fulfill and could ensure the continuation of the Luanyue Clan.

This was a deal that looked profitable from all angles!

“My lord, I can certainly fulfill this task!”

“However, with the area around the Luanyue Clan being tightly guarded by outsiders, it may be challenging to deliver your troops to the Luanyue old mansion.”

Any outsider entering Luanyue Clan's territory would immediately attract the attention of the Qingdian's spies.

Moreover, they were not bringing over just one or two people, but a group of people!

Until Fang Mu took measures to redeem the Luanyue Clan, Sun Hao dared not antagonize the Qingdian Clan.

Upon hearing this, Fang Mu glanced at Shu Liangjun, who nodded to indicate his confidence in the task.

So, Fang Mu, with a grave tone, addressed Sun Hao who was filled with apprehension and gravitas.

"You needn't worry about that."

"If I need to deliver people, I naturally have a way to do it!"

"I will ask the people to carry an invisible bug and attach it to you."

"Remember to let the bug enter your soul; only this way will you have the opportunity to continue communication with me!"

After Fang Mu finished speaking, Shu Liangjun rubbed the surface of the Silver Mirror in his hand, and the image of Sun Hao disappeared immediately.

Shu Liangjun first put on a Noface Star Paper mask, then buckled a pure black mask over it, and whispered to Fang Mu.

“I’ll take them there now, and rejoin before entering the battlefield!”

“Ah Mu, you don’t need to worry if Sun Hao will follow your instructions to let a Soul Parasite Ant into his soul.”

“If Sun Hao refuses, I’ll finish him off after teleporting over and then teleport back.”

“Hiding the members of Clan Zhenyan among the Luanyue Clan can effectively avoid detection.”

“At this time, most of the Qingdian Clan’s attention must be placed on foreign power.”

Gu Anxing, Gu Tianfan, and the core members of the Gu family wore black masks similar to that on Shu Liangjun’s.

Initially, Clan Zhenyan harbored great resentment towards the Luanyue Clan, accusing them to be the root of all evils.

However, after seeing Sun Hao's condition through the mirror, Gu Anxing, and Gu Tianfan finally realized that the perpetrator had always been the Qingdian Clan.

The Luanyue Clan was a victim as well.

Holding onto the hatred for the Luanyue Clan at this point was meaningless, especially since Fang Mu intended to incorporate the Luanyue Clan into his group.

Otherwise, Fang Mu wouldn't have wasted a Soul Parasite Ant manipulatively!

Fang Mu nodded at Shu Liangjun.

"Elder Shu, be careful. I'll let Lu Xiaoyin put on your Noface Star Paper and replace you in your room."

Upon hearing this, Shu Liangjun drew a line on his index finger with his thumb, and three drops of bright red blood dropped on the Silver Mirror.

The scene in the Luanyue Clan's secret room emerged in the mirror again.

Sun Hao was still in the secret room, continually examining his surroundings and intermittently shouting.

It was as though he was trying to ascertain the whereabouts of the person behind the voice that he had just heard!

The silver light in the mirror gradually turned into a gateway.

Shu Liangjun led the way through the portal, and Gu Anxing and Gu Tianfan, after composing themselves, followed with the rest of the Gu family.

As the last member of Clan Zhenyan crossed the mirror, the portal gradually contracted.

Unwillingly, it didn't let any of its spatial force seep into the environment beyond one meter radius.

Shui Miao gave Fang Mu a pat on the shoulder.

"Ah Mu, don't worry about the Golden Bull. It will know how to defend itself."

"Besides, with Golden Bull's strength, few can harm it!"

"We should also start preparing. I've contacted a Beast Controlling Force through the network of the Twelve Pavilion."

“They’re meeting us 50 kilometers southwest of Rock Peak City tomorrow night.”

“Their demands are not easy to fulfill. I always feel like we’re at a loss dealing with them!”

Fang Mu smiled and shook his head at Shui Miao.

“Ah Shui, if we want a big payoff, we need to invest some resources upfront.”

Chapter 604: Luminous Snake and Brilliance!_3

“I hope that this Beast Controlling Force would do well in fulfilling what they assured us after they have seized the resources!”

Upon hearing Fang Mu’s words, Shui Miao thought that Fang Mu was extremely forceful in his actions, which was rarely seen in young people.

The more Shui Miao interacted with Fang Mu, the more he was able to discover Fang Mu’s outstanding qualities.

“This Beast Master who proposed the requirement, and we’ve met them, it’s impossible for them to not meet our demands!”

“This Beast Controlling Force doesn’t have the courage to deceive the Twelve Pavilion!”

While Fang Mu and Shui Miao were talking, Fang Mu suddenly felt a stirring in the Communication Butterfly inside the Purple Ice Crystal Ring.

The flutter of the Communication Butterfly signaled to Fang Mu that Gemini had probably arrived at the Panfeng Federation.

They just so happened to be able to meet with Gemini this evening to discuss the matter of enhancing the lifespan of Gemini's relatives.

Since Gemini had come to see him, it means that Gemini had brought the Radiant Golden Honey, and Fang Mu would be able to accelerate the enhancement of his spiritual power this evening!

Fang Mu took out the Communication Butterfly. A girlish voice with an urgent undertone came from the creature.

"Sky.....Jianmu, I've reached the area of the Panfeng Federation, and we'll get to Rock Peak City in three hours."

"By then, my family and I will sneak into the city. Where can we locate you?"

When Fang Mu heard Gemini's reference to him, he could immediately affirm that Gemini's relatives were probably around her.

Gemini didn't want to reveal to her family that she had joined Starwheel, so she didn't address him as Libra like before, but used his name instead.

Currently, there was no place left in the residence where Fang Mu was staying. If Gemini came over, she couldn't accommodate them.

It was quite likely that this could potentially cause some commotion.

With this in mind, Fang Mu directly replied.

“Let’s meet ten kilometers to the east outside Rock Peak City!”

“There’s hardly any place left for you to stay in Rock Peak City. If you don’t mind, you can stay inside a Mechanical Beast called Mechanism Fortress.”

Upon hearing this, Jin Ya glanced at the old woman beside her, who nonchalantly nodded at Jin Ya.

Only then did Jin Ya respond to Fang Mu.

“Jianmu, we certainly have no objections, sorry for the trouble you are taking to leave the city!”

“We’ll discuss the rest when we meet.”

After finishing her message, Jin Ya hastily put away the Communication Butterfly, somewhat embarrassed under the old woman’s scrutinizing gaze.

“I initially assumed that the person our Xiao Ya knew would be an old fellow. From the sound of his voice, he would seemingly be similar in age to you!”

Jin Ya, upon hearing those words, didn’t know how to respond. Her great-grandmother might have misunderstood something.

Indeed, unless the two parties have a deep relationship, one wouldn’t likely help the other one to extend their lifespan.

But she genuinely wasn’t that acquainted with Jianmu, they were just in the same force, and Jianmu was just not stingy about helping her, that’s all!

“Great-grandmother, Jianmu might indeed be of a young age, but the relationship between Jianmu and I isn’t as you imagined it to be.”

Upon hearing those words, the old woman smiled at Jin Ya, and asked a question.

“You say your relationship with Jianmu isn’t as I imagined it to be. Xiao Ya, what do you think I was imagining it to be?”

Upon hearing Jin Ya’s counter question, seeing Jin Ya’s expression, the old woman knew that Jin Ya wasn’t lying.

Jin Ya’s relationship with this youth named Jianmu indeed wasn’t that close.

In this moment, the old woman almost suspected that Jin Ya was taking a desperate action because of the illness, being deceived by someone!

If the other party was truly a scammer, she would definitely teach them a lesson!

Even though her old bones were on the verge of giving out, she was not dead yet.

She could use this opportunity to educate Jin Ya a little bit.

If the other party truly had the capacity to prolonging her lifespan, she would certainly want to establish a good relationship with them on behalf of the Radiant Clan.

She would try make them allies of the Radiant Clan, and reach a strategic partnership at the highest level!

This way, not only she, but other powerful representatives in the Radiant Clan could also gain an additional hundred years of life.

To reach an optimal strategic partnership, the best approach would be a marriage alliance.

Jin Ya was attractive in appearance and overall temperament.

Moreover, her age matched up pretty well with the other party. If she could play matchmaker, it would certainly be a beautiful story!

But of course, whether to try matchmaking or not still depended on Jin Ya's interaction with the other party.

Imagine if the other party wasn't interested, and Jin Ya wasn't attracted to this youth named Jianmu.

Then, her random attempt to play matchmaker would be quite awkward!

After Fang Mu put away the Communication Butterfly, Shui Miao said to him.

"I'll go back to my room to prepare for a bit, and come to find you after five minutes."

"Since we are meeting Gemini tonight and the Luminous Snake Clan tomorrow night."

"Why don't we just check out of the room for the time being? We can use the next few days to hunt some Souls of Death outside the city!"

"Ah Mu, since you have contracted a summoning Ghost System Beast, you need a large quantity of Souls of Death, it will not be this easy to find Souls of Death once we return to Dragon Soaring Federation!"

Fang Mu laughed upon hearing these words.

"Shui Miao, thank you for your willingness to help me collect the Souls of Death, but I think we still need to keep the rooms!"

"Otherwise, if there's an emergency with Elder Shu and we need to return to the city to assist, the absence of a place to live can potentially cause lots of problems!"

“Besides, the rent for these three rooms isn’t much for us.”

Upon hearing this, Shui Miao immediately agreed that he had not thought this through.

He took Fang Mu to outside for training, only to receive a lesson from Fang Mu instead!

Suddenly, Shui Miao remembered something, and said to Fang Mu.

“When I invited the Luminous Snake Clan, I mentioned that we needed premium Undead Species Beasts.”

“The Luminous Snake Clan said they have two Undead Species Beasts that can be considered premium, and one that can be considered top-notch.”

“At that time, let’s see if these three Undead Species Beasts from the Luminous Snake Clan can aid you!”

“And if they’re of no use, you can give them to Capricorn.”

Upon hearing this, Fang Mu’s face lit up with joy.

Fang Mu had heard that Beast Clans have extremely high standards when rating Beasts. The ones who could be rated as premium were absolutely extraordinary.

Let alone the ones rated as top-notch!

Chapter 605: The Green Magician of the Eight Evil Seeds!_1

Fang Mu traveled from the border of the Panfeng Federation towards Rock Peak City, encountering numerous undead creatures along the way.

But not even a single undead beast worthy of Yan Yubanruo's attention was seen.

With the Giant Brutal Butcher and Ritual Cemetery Three Treasures already under contract, Fang Mu's high standards had influenced Yan Yubanruo's expectations.

Yan Yubanruo had no desire to use the White Paper Men produced by [Golem Paper Control] to control undead creatures inferior to the Giant Brutal Butcher and Ritual Cemetery Three Treasures.

Thus, Fang Mu's journey resulted in little gain, causing a slight sense of annoyance.

After making a pact with the Heavenly Disaster Level Ghost Series Summoning Beast Yan Yubanruo, the production of White Paper man became a lot easier for Fang Mu.

Likewise, Fang Mu's demand for undead beasts was extremely high.

Unlike other Beast Masters concerned about the resource investment by the Creator, Fang Mu could immediately cultivate any undead beasts he obtained.

But, due to the absence of anything desirable, Yan Yubanruo had made multiple requests to Fang Mu within his soul.

Hoping that a pact could be made or more undead beasts could be controlled.

Besides, as Shui Miao mentioned before, even if he wasn't interested in the undead beasts that the Luminous Snake Clan offered in trade, he could still exchange with Capricorn.

Capricorn had approached him out of courtesy, choosing to give up the journey to the Panfeng Federation just to avoid competition with him.

There was no need for Fang Mu to provide assistance to Capricorn when he didn't need it himself.

However, if Fang Mu didn't need it and still chose to not help Capricorn, it would be somewhat hard to justify.

This would mean, Capricorn was trying to show goodwill, yet he did not respond in any way.

Such incidents did not have to happen twice, for a single such event would be enough to break the relationship between the two.

Thinking of the Luminous Snake Clan, the Beast Controlling Force mentioned by Shui Miao, Fang Mu pondered secretly in his heart.

While Luminous Snakes held a noble status among serpent beasts, their population was rather small.

The Luminous Snake Clan had difficulty breeding successors, because their successful birth required prolonged nourishment of Life Energy.

And during the incubation process, they infused Light Attribute Energy into the eggs repeatedly.

The purer the Light Attribute Energy, the higher the probability of the snake eggs hatching.

For powerful beings of the Luminous Snake Clan, sustaining themselves with Life Energy wasn't a challenge, as hunting and devouring other formidable beasts could guarantee the nourishment from Life Energy.

However, aiding the hatching of snake eggs with highly pure Light Attribute Energy after laying them was extremely challenging!

Only in some truly Light Attribute endowed treasures, could the purity of the Light Attribute reach more than ninety percent.

However, the Light Attribute endowed treasures were extremely rare. It was far from easy for the beasts to obtain pure elemental energy, as compared to humans.

Therefore, powerful Creators held a higher status among the Beast Taming Tribes than in human societies.

The Luminous Snake Clan's willingness to initiate contact with human forces like the Twelve Pavilion, was mainly due to their desire to obtain some Light Attribute Elixirs.

However, Light Attribute Element Elixirs were expensive, their price being second only to Spatial Energy Elixirs among all types of Elixirs.

The price was at least 0.5 times higher than the Elixirs of other elements!

That's because Beast Masters who had made a pact with Dark-element Beasts, would need Light Attribute Elixirs to eliminate the erosion of Dark Attribute Energy on themselves.

To acquire high purity Light Attribute Element Elixirs from humans, the Luminous Snake Clan would inevitably have to pay more resources.

Fang Mu had learned a lot about the Beast Controlling Forces through his communication with Shui Miao and Shu Liangjun during this period.

Fang Mu already had the experience of trading with the Soul Whale Princess.

Beasts were much more straightforward than humans in distinguishing friends from foes, with fewer underhanded tactics when dealing with friends.

However, this was just relative, there were also crafty beasts among the Beast Taming Tribes, especially the Fox Tribe!

The Fox Tribe didn't dare to deceive the Grandmaster Creator, but many Master Creators have been tricked by the Fox Tribe in their trades.

They were cheated out of their money and even their bodies.

This led many Master Creators to choose against trading with the Fox Tribe out of anger, but they did not cause trouble for the Fox Tribe afterwards.

On one hand, the Fox Tribe was a major tribe among the Beast Taming Tribes, possessing great strength.

On the other hand, the Fox Tribe was very cunning. During the times when the Master Creators were seduced, the members of the Fox Tribe essentially recorded everything.

If this Creator sought revenge against the Fox Tribe afterward, then the recorded material would circulate.

Creators valued their reputation and didn't dare to take the risk of revenge against the Fox Tribe!

When Shui Miao and Shu Liangjun talked about this, Fang Mu was drinking tea and nearly choked on it.

This was the first time Fang Mu had lost his composure in front of Shui Miao and Shu Liangjun.

In his previous life, there were many people similar to the Fox Tribe, commonly referred to as scammers.

Unfortunately, the Beastmaster world did not have any anti-scam apps to alert the Creators when they were being hooked by the Fox Tribe.

After Shui Miao returned to his room to pack, he and Fang Mu left their rooms and headed towards the hotel's main entrance.

Since Fang Mu had already paid the room fees in advance, in exchange for enough Soul of Death, nobody paid attention to Fang Mu and Shui Miao's departure.

The people assigned by the Panfeng Federation to patrol this hotel were now almost exclusively engaged in collecting room charges from various rooms.

Chapter 606: The Green Magician of the Eight Evil Seeds!_2

This reaffirmed Fang Mu's beliefs that the Qingdian Clan's need for Souls of Death was extremely urgent.

Furthermore, the demand for Souls of Death was exceptionally large!

The daily room charges in all the hotels in Rock Peak City amounted to nearly millions of Souls of Death. Even such large revenue of Souls of Death seemed unable to fill in the Qingdian Clan's deficit of Souls of Death.

No matter how you looked at it, it was extremely abnormal!

Even if they were to cultivate more than thirty of the Undead Sequential Contract Beasts, this couldn't cause such a large consumption of Souls of Death.

Before this, the Qingdian Clan did not need any Souls of Death.

The sudden increase in the demand for Souls of Death must be closely related to the gains made by the Qingdian Clan on the ancient battlefield.

What exactly could be akin to a Bottomless Pit, absorbing the Souls of Death!?

Upon reaching the city gate, Fang Mu, with his sharp senses, eventually managed to condense another drop of the Covenant Blood Essence after many days.

This drop of the Covenant Blood Essence, according to Fang Mu's original plan, was meant to contract with a unique pollution creature.

However, recently, he evidently did not have enough time.

During the process of contracting a unique pollution creature, some unexpected incidents could occur. Fang Mu wasn't sure that, by using the Covenant Blood Essence to contract with a unique pollution creature, the process would be as smooth as contracting a Guardian Beast!

So, Fang Mu decided to keep this drop of the Covenant Blood Essence for now, until the end of his trip to the Panfeng Federation.

Then he would use the saved Covenant Blood Essence to contract the pollution creatures or Guardian Beasts he was interested in!

Suddenly, there was a disturbance at the city gate.

The wind was blowing from outside the city towards the inside, and Fang Mu could smell a strong scent of blood.

Clearly, the ones who had killed were not Undead Creatures.

Had Undead Creatures launched an attack, the guards at the city gate would have already informed everyone!

It seemed that a bloody conflict had taken place at the city gate, just like when Fang Mu entered the city!

Fang Mu only smelled the blood, but Shui Miao detected a special odor in the air.

The one who just killed was apparently not a person from the Ancient Genesis, but they certainly had contracted with pollution creatures.

“You can smell this scent of blood, which is similar to rotting but without the unpleasant stench. Instead, it has a slightly sweet, cloying odor.”

“This is the scent emitted by a life form that’s been polluted by pollution creatures!”

As Shui Miao was speaking, he saw the four city guards at the gate, moving aside like avoiding the plague, quickly making way for several figures wearing gray robes.

These figures in gray robes all had strange totems of different shapes and colors embroidered on their backs.

The gaze of one of the city guards landed on one of the gray-robed figures for a few seconds.

Then, that figure shook his robe and three yellow-green cards shot out from his robe, directly pegging the guard.

Afterward, the guard started to melt as if he were a candle!

During the guard’s melting process, the three cards also began to melt.

Eventually, the guard and the three cards together turned into a green viscous soup.

Seeing their colleague being killed, the other three guards did not dare to make any move.

At the city gate, several people had yellow-green cards sticking out of their bodies in just a few moments.

Just as Fang Mu was about to instinctively probe the yellow-green cards using the Eye of Omniscience, Shui Miao sent him a private message using his spiritual power.

“Never thought one of the ‘Green Magicians’ from the Ancient Seedlings of the Eight Evil Species would come!”

“It looks like the Ancient Genesis desperately wants something inside this large-scale ancient battlefield!”

“Ah Mu, the Green Magician, has a peculiar trait of disliking others looking at him.”

“If we want to carry out our original plan without causing unnecessary trouble, we should avoid looking at the Green Magician and his pollution creatures as much as possible.”

“Once your gaze lingers more than three seconds, the Green Magician is likely to attack!”

“Hehe, the Ancient Genesis has entered Rock Peak City directly. The Qingdian Clan must allocate a third of their manpower to monitor the Ancient Genesis.”

“Stop them from causing trouble as much as possible before they do something outrageous!”

Hearing this, Fang Mu quickly withdrew his gaze, no longer looking at the group of people from the Ancient Genesis.

He and Shui Miao stood in a corner of the street.

People of the Ancient Genesis, once contracted with unique pollution creatures, lose all their emotions.

All their actions are guided solely by subconscious instincts; other factors don’t come into play.

Peculiarly enough, these emotionless madmen are remarkably strong.

If the Qingdian Clan dare to think about driving the people of the Ancient Genesis out of the city at this juncture, the Ancient Genesis will fight to the death without any hesitation.

The Qingdian Clan wouldn't allow their fighting power to be reduced before they enter the large-scale ancient battlefield.

Therefore, the Qingdian Clan could only assign people to monitor the people from the Ancient Genesis.

As long as the people of the Ancient Genesis don't go too far, the Qingdian Clan wouldn't take any action against them.

In plain words, the Panfeng Federation, a Federation without a Grandmaster Creator, isn't capable of confronting the Ancient Genesis.

Suddenly, Fang Mu felt that the Ancient Genesis, which was unemotional yet extremely rational, would be more easily driven by interests.

Without emotions, interests have become the ultimate pursuit for the Ancient Genesis.

Being emotionless can be an advantage in combat, but in many ways, it can also be a weakness.

Fang Mu didn't know how the Qingdian Clan managed to contact the Beast Controlling Forces, or what kind of cooperation they had established to have those forces hiding in the royal court of the Qingdian Clan.

Chapter 607: The Green Magician of the Eight Evil Seeds!_3

These Beast Controlling Forces kept a very low profile. Over ninety-five percent of the forces in Rock Peak City were unaware of how many Beast Controlling Forces had arrived in the city.

Fang Mu feared that all these Beast Controlling Forces would stand on the same side as the Qingdian Clan, forming a powerful force.

This would not only interfere with Fang Mu's plans, but also pose a threat to his safety.

Fang Mu planned to study whether he could leverage one of the Ancient Seedlings Eight Evil Species, the “Green Magician”, to perform a magic trick.

To expose the Beast Controlling Forces hidden in the Royal Court!

Smelling the stench of blood passing by his nose, Shui Miao knew how many people the ancient genesis “Green Magician” had killed.

In addition to the disgusting scene left behind after the “Green Magician” killed enemies through pollution, Shui Miao was worried that the young Fang Mu wouldn’t be able to handle it.

Shui Miao had no idea that Fang Mu had fearlessly schemed against the “Green Magician” from the Ancient Seedlings.

After the “Green Magician” and his Ancient Seedlings group left, Fang Mu prepared to step out of the corner where he and Shui Miao had been hiding.

Suddenly, he heard a chorus of screams from the outside.

“Ah! Ah! Those...those melted bodies are...they’re alive!”

Fang Mu glanced over and found that people who had been killed in the “Green Magician’s” card attack had turned into a slime-like substance of a green color, all of them resembling humanoid slimes.

He could vaguely see a yellowish-green card within these humanoid slimes.

This yellowish-green card was shaking like a heart, causing the green liquid to circulate inside the body.

It seemed to be the power core of these humanoid slimes.

Seeing this, Shui Miao's expression became slightly serious.

"The Green Magician must have ingested more than one type of pollution source. In my knowledge, he didn't have this ability!"

Fang Mu saw Shui Miao's serious gaze and asked him solemnly.

"Ah Shui, if this Green Magician from the Ancient Seedlings joins the competition, can you still ensure my safety?"

Fang Mu asked this partly to grasp the situation to ensure his own safety.

On the other hand, he did not want Shui Miao to be under too much pressure.

If Shui Miao was unable to guarantee his safety, Fang Mu would change his plan for safety's sake and would no longer insist on playing the banker trying to win everywhere!

Because if safety cannot be ensured, he would lose the basic capital required for playing the role of the banker.

After considering the matter, Shui Miao looked at Fang Mu very seriously and said,

"If more than three evil species from the Ancient Seedlings come, I'm certainly not going to make any empty promises."

"If only the Green Magician is there, both Golden Bull and I can guarantee your safety!"

"Moreover, when Gemini arrives, it's like adding another layer of insurance."

"Ah Mu, you needn't worry about this!"

When Fang Mu heard what Shui Miao had said, he just smiled and nodded, getting a better impression of Shui Miao's strength for the first time.

Since he still had the ability to play the banker currently, then he could use his methods to make the Green Magician, one of the Ancient Seedlings Eight Evil Species, perform this magic trick with him!

Of course, he should meet with Gemini first.

Fang Mu and Shui Miao arrived at the meeting place with the Gemini half an hour earlier, only to find a girl and an old woman already waiting for them.

Fang Mu subconsciously confirmed that the girl was the Gemini and the old woman was the elder that Gemini mentioned.

Otherwise, this uninhabited area was unsafe, and there shouldn't be anyone waiting here by coincidence.

But to be safe, Fang Mu took out the Communication Butterfly.

Because it was a meeting with a member of the Starwheel, in order to show respect, both Fang Mu and Shui Miao removed their Noface Star Papers to reveal their true faces.

When Fang Mu and Shui Miao looked at the girl and the old woman, the two of them also looked at Fang Mu and Shui Miao in return.

The old woman first glanced at Fang Mu's face, then her gaze fell on Shui Miao, coincidentally meeting his eyes.

Both of them revealed surprised looks.

The old woman was the first to laugh heartily and, taking Jin Ya's hand, she walked towards Shui Miao and Fang Mu.

"I didn't expect to see the Chief of the Twelve Pavilions here. I'm truly honored!"

After greeting Shui Miao, the old woman's gaze fell on Fang Mu.

"I presume this is the one who just communicated with Xiao Ya via Communication Butterfly, and also my lifesaver."

"I thank you in advance!"

After saying this, the old woman bowed deeply towards Fang Mu.

Seeing this, Fang Mu quickly stepped forward and helped the old woman up, saying,

"I am an old friend of the twins...Ah Ya. You don't need to be so polite!"

"I just helped you replenish your lifespan. It can't be said that I saved your life."

What Fang Mu said caused the old woman's body to shudder.

The old woman had been testing Fang Mu just now, addressing the matter of him being able to save her life directly.

And Fang Mu had bluntly confirmed it.

This means that her life really could be saved, and the young man could really help her extend her lifespan!

In fact, when she first saw Shui Miao and recognized him as the Chief of the Twelve Pavilions,

The old woman confirmed that her great-granddaughter Jin Ya had not been deceived!

At this moment, a huge weight in the old woman's heart was finally lifted.

At the moment when she thought she was about to die after one year, she suddenly gained extra years of lifespan for no reason whatsoever.

The old woman's mood was far beyond what the word "joy" could describe.

The old woman, like Shu Liangjun, had been rescued by Fang Mu when she was struggling to draw her last breath.

Combined with the fact that the old woman wished to survive, it wasn't just for the sake of simply wanting to live longer like Shu Liangjun.

The old woman had family responsibilities and burdens.

This made the old woman feel even more grateful to Fang Mu when she knew that Fang Mu could extend her lifespan!

Chapter 608: Immortality: Body Refinement Doctor!_1

Jin Ya stared at Fang Mu, finally having a solid perception of him.

When Fang Mu first joined the Starwheel, he introduced himself to everyone as a disciple of the Grandmaster Creator.

It was because Fang Mu was the disciple of the Grandmaster Creator and thus basked in the glory of his master that he was invited to join the Starwheel by Aquarius.

Young people, besides looking at a person's status, identity, and ability, also place great importance on a person's appearance.

Fang Mu's appearance is completely in line with his current status.

When she had just communicated with Fang Mu through the Communication Butterfly, she referred to him as Jianmu.

She did not call Fang Mu "Libra" as she did at the Starwheel gathering.

This was because Jin Ya didn't want her great-grandmother to know too much about Starwheel, and Fang Mu obviously noticed this.

Because her great-grandmother calls her Xiao Ya, Fang Mu simply referred to her as Aya.

Jin Ya quite liked being addressed as Aya.

Due to her background, Jin Ya grew up surrounded by servants, and she didn't have any peers to be friends with.

Fang Mu said he was an old friend, and these three words instantly eliminated Jin Ya's sense of unfamiliarity with him.

Jin Ya hurriedly brought out a large jar filled with a liquid that looked like amber, reflecting golden radiance under the light, and handed it to Fang Mu.

"Ah Mu, this bottle is filled with Splendid Gold honey just harvested this year, take it to drink!"

"The newly harvested Splendid Gold honey tastes much better than the aged one!"

Jin Ya's words not only shocked Fang Mu but also surprised Shui Miao.

With so much Splendid Gold honey produced in just a year, how many Brilliant Roses must be blooming in Jin Ya's power, and how many Splendid Gold Bees must they be nurturing!?

This jar of Splendid Gold honey may not seem large, but when Fang Mu held it, he could feel its significant weight; it was at least five or six jin.

It was three times more than what Jin Ya initially decided to give Fang Mu.

This jar of Splendid Gold honey alone was enough to express Jin Ya's attitude towards Fang Mu.

Therefore, Fang Mu directly uttered the words that Jin Ya and the old woman most wanted to hear.

"I've tried my best to persuade my master, and he is willing to help extend your lifespan."

"If you want to extend your lifespan, we can do it tonight!"

Jin Ya was overjoyed to hear this, but didn't immediately ask Fang Mu to extend her great-grandmother's lifespan tonight. Instead, she asked Fang Mu.

"I wonder what else you need besides those things?"

"Other people have given you those things. I think it would be insincere to ask for your help with those things again!"

The old woman was a little surprised to hear Jin Ya's words, knowing that Jin Ya was speaking in riddles to her.

Otherwise, she wouldn't have referred to the specific items as "those things."

Upon hearing this, Fang Mu smiled and said.

“She must be able to tell how much lifespan she has left.”

“If there is more than three months left, I suggest we all explore this large ancient battlefield together!”

“When it’s over, I’ll help increase her lifespan!”

“This way, she can live a little longer!”

Actually, Fang Mu saying this to Jin Ya is equivalent to inviting the old woman beside her, hoping that the old woman can protect him with her strength and help him achieve his goal of exploring the ancient battlefield.

Jin Ya didn’t quite understand this, but the old woman next to her did.

The old woman was pondering in her heart.

Recently, two of the Four Major Branches of Apocalypse have set their sights on the Brilliant Clan, clearly knowing that her end was near.

The reason they haven’t made a move yet is that they know that her time is almost up, yet she is still alive. They fear that she might want to take others down with her.

The two branches of the Apocalypse can ascertain her death by estimating her lifespan.

They would still wait for another year or so before making a move.

Even if the forces that are eyeing the Brilliant Clan know that she has left the Brilliant Clan, they would not dare to treat the Brilliant Clan lightly before confirming her death.

So, she doesn't have to go back to the Brilliant Castle immediately after increasing her lifespan!

Fang Mu extended an invitation, and her acceptance could be seen as both a reward to Fang Mu and a way to deepen her relationship with him.

Living together is undoubtedly the best way to deepen a relationship.

At this moment, Jin Ya had a strange feeling.

The older woman beside her was her great-grandmother, but Fang Mu called her "grandma".

This suddenly made Fang Mu a generation older than her!

If her great-grandmother accepted this term, according to family rules, wouldn't she have to call Fang Mu "uncle" from now on!?

Jin Ya turned to look at the old woman beside her. Such a decision was something Jin Ya, as a junior, could not make.

The old woman certainly had to make the decision.

Just as Jin Ya turned to look at the old woman, the old woman stepped forward with a laugh and grabbed Fang Mu's hand, saying.

"I still have a year and a half left of my lifespan, of course, there's no problem with me coming with you to explore this large ancient battlefield!"

"I can take Xiao Ya to see the world too."

“If we can find some relics in the ancient battlefield, it will be easy to comprehend mysterious patterns within them.”

“Since we’re accompanying you, we don’t want anything from the ancient battlefield.”

“As long as Xiao Ya can gain some insights in the relics, that’s all we ask for!”

Chapter 609: Immortality: Body Refinement Doctor!_2

Fang Mu showed a smile at their words.

This is the best!

He has the ancient books obtained from exploring this large ancient battlefield, the books mark the locations of the treasures throughout the battlefield.

If the old woman and Jin Ya join his exploration team and consider sharing treasures, then Fang Mu really has no need to let the old woman join the team.

The old woman’s words let Fang Mu know that she is a smart person, very worldly-wise.

“Granny, of course, there is no problem!”

“We all can comprehend from the residues once we find them!”

“Elder A Shui and you yourself also need to comprehend the mysterious lines!”

Xi Xi has the skill [Sealed Landscape], once in the ruin, Fang Mu only needs Xi Xi to record the current scenery, condense a few more Scenery Fantasy Pearls will do!

There's no need to stubbornly keep a volitional relic, without sharing any bit with others.

If Fang Mu were to do so, even if Shui Miao and Shu Liangjun didn't say anything, they would probably feel somewhat unhappy inside.

Fang Mu can assure that this newly met old woman has no malice by helping her extend her lifespan.

No matter if Jin Ya has revealed it or not, Fang Mu will subtly indicate to the old woman in these two days that it is possible to increase her lifespan by a thousand years.

For the sake of that one thousand years of lifespan, even an incredibly wicked person would be sure to suppress his evil thoughts.

Upon hearing Fang Mu's words, smiles appeared on the faces of both Shui Miao and the old woman.

Fang Mu, seeing a group of spirits rushing towards them from a distance, said.

"Your accompanying me in exploring the ancient battlefield can be considered as my reward to you for extending your lifespan!"

"After exploring the ancient battlefield, before you leave, I will add another ten years to your lifespan first."

As soon as Fang Mu's words finished, Jin Ya immediately shook her head and said.

"This is not okay, you helped my great-grandmother extend her lifespan, such a big favor cannot just be easily offset!"

The old woman also hastily spoke up.

“I originally came to bring Xiao Ya for some training, if you say that, I might not dare to follow any longer!”

Seeing the determined expressions of the old woman and Jin Ya, Fang Mu could only helplessly smile and say.

“In that case, you guys can just give me some contaminants at that time!”

Both the old woman and Jin Ya were curious about what Fang Mu wanted contaminants for?

But it was clear from their previous interactions with Fang Mu, he did not have any contract with any contaminants.

They had just met Fang Mu, and it would be rather rude to question him, about what he wanted with the contaminants.

The distinguished clan has a lot of contaminants accumulated over the years, at that time they will just have to select good contaminants to give to Fang Mu!

Once it was settled, the old woman suddenly remembered she had not introduced herself.

“My name is Qin Shao. I can’t remember how many years it’s been since I’ve mentioned this name!”

As she was speaking, she turned over her hand, and a small snake, with red and black stripes, crawled out from the wide sleeves of the old woman’s gown.

In a flash, the little snake sprung from the old woman’s fingertips, shot into the mid-air and fiercely inhaled at the nearby spirits.

The Soul of Death was actually sucked out from the body of the ghost by the little snake!

And then, it opened its mouth wide, swallowing these Souls of Death into its body.

Instantly, ghost shadows, alternately red and black, emerged on the little snake.

This little snake is obviously not a Ghost System Beast, in the world, apart from Ghost System Beasts, only dark element and Soul-System Beasts feed on the Souls of Death!

The intense dark energy radiating from this little snake revealed that it's not a part of the Soul-System Beast.

To be able to contract a dark element snake beast and bring it up to such a level, Qin Shao would have undoubtedly been using pure light element elixirs with purity over ninety percent daily.

This shows that Qin Shao is not lacking in resources of a Grandmaster Creator!

If he had not accidentally bred the Ten Longevity Carp, Fang Mu would find it difficult to make acquaintance with such powerhouses who are not lack of Grandmaster Creator resources.

Because even without obtaining Grandmaster Creator resources from him, these powerhouses could get them from others.

Facing such powerhouses, only lifespan could be used to have control over them!

Since Qin Shao's beast feeds on Souls of Death, Fang Mu didn't mention to Qin Shao about his need for the Souls of Death.

After dealing with these spirits, Qin Shao asked Fang Mu.

"Are we going into the city now?"

“When I was on my way here, I saw a group of people from the Eternal Alchemy Association, the leader was a Body Refinement Doctor from the Eternal Alchemy Association.”

“There must be many forces in the city that do not have enough power and want to find a share of the spoils in this ancient battlefield. They will all become collections of this Body Refinement Doctor!”

Qin Shao did not take a Body Refinement Doctor from the Eternal Alchemy Association seriously, she just wanted to remind Fang Mu that the city would become more and more chaotic with the arrival of different factions.

These forces, out of respect for the face of the Ten-thousand Nations Federation, would not take action against the Royal Family of Panfeng Federation, the Qingdian Clan.

But they wouldn't give Qingdian Clan any respect either.

In front of many forces, the Qingdian Clan has no face to say, therefore, it's much less comfortable to be in the city than in the outskirts!

Fang Mu understood the meaning of Qin Shao's words.

Because Fang Mu is to meet with a powerhouse of the Luminous Snake Clan outside the city tomorrow night, he was not planning to go back into the city tonight.

Otherwise, during such a time, going back and forth between the city and the outskirts will definitely attract the Qingdian Clan's attention.

The more low-key Fang Mu appears now, the better. As long as he is not noticed by any forces, he could make a fortune in the ancient battlefield!

Fang Mu directly released his Abdominal Territory Worm and sent an invitation to Qin Shao and Jin Ya.

Chapter 610: Immortality: Body Refinement Doctor!_3

They were motioned to rest inside the Mechanism Fortress.

Most of the members of the Zhenyan family had already been sent out by Fang Mu. The only family members remaining inside the Mechanism Fortress were Gu Che and Gu Kun.

Both Qin Shao and Jin Ya had separate rooms to live in.

Qin Shao looked somewhat surprised the moment he saw the Abdominal Territory Worm. He had never seen such a Guardian Beast before.

The Abdominal Territory Worm was originally a Dust-eating Worm, but it had evolved into a Spirit by Fang Mu, who had tempted it with pure Space Element Energy. There was probably only one of its kind in the world.

However, Qin Shao could sense the purity of the Spatial Haze that the Abdominal Territory Worm exhaled.

The purity of this Spatial Haze was enough for Qin Shao to comprehend what kind of resources Fang Mu used to cultivate the Abdominal Territory Worm on a daily basis!

In contrast to the Abdominal Territory Worm, the Mechanism Fortress seemed much more mundane.

After dinner, Fang Mu communicated his plans to Qin Shao.

Upon hearing Fang Mu's plans, Qin Shao was even more surprised than when he saw the Abdominal Territory Worm.

Qin Shao had always regarded the large ancient battlefield opened within the Panfeng Federation as a demonic lair, destined to devour a large number of explorers' lives.

Rock Peak City was now a pot of messy porridge, and the arrival of major forces was bound to stir countless frictions.

But Fang Mu had already found a map of the demonic lair and could easily clear it.

Even more, he was a “Porridge Person”!

Despite being just a teenager, he had included all the forces in his plans.

Even Qin Shao couldn’t help but praise Fang Mu’s courage.

It’s clear that someone with Fang Mu’s personality is capable of big things!

...

At this moment, Shu Liangjun was calmly sipping the fine tea provided by the Luanyue Family in their old mansion.

Having resolved his life extension problem, Shu Liangjun reverted to a carefree state of mind.

If he had only gained an extra ten years of life, he wouldn’t have been so unflustered.

The key was that even more life extensions, a hundred years or even a thousand, were waiting for him.

The longer he interacted with Fang Mu, the more Shu Liangjun realized how conservative Fang Mu actually was.

Someone as conservative as Fang Mu was unlikely to brag.

If Fang Mu said he could extend his lifespan by a thousand years, there was a good chance that he had already devised a method to do so!

If Fang Mu could extend someone else's lifespan, he could certainly extend his own.

Many Creators take on disciples to continue their legacy, but Fang Mu obviously didn't need to worry about that.

If his sole objective was to pass on his legacy, it would've been enough to take a disciple when he had a hundred years left to live!

The fact that he chose to take Fang Mu as his disciple at his peak shows how pleased he was with Fang Mu.

Once the Zhenyan family confirmed that the Luanyue Clan was forced into their actions by the Qingdian Clan, they no longer regarded the Luanyue Clan as mortal enemies.

If originally it was the Luanyue Clan who had found the ancient books, and the Qingdian Clan had asked the Zhenyan Clan to create marital ties and poison the Luanyue Clan, both Gu Anxing and Gu Qianfan would've considered doing it for the sake of the Zhenyan Family!

Another very important factor that made Gu Anxing, Gu Qianfan, and other core members of the Zhenyan family decide to let go of their hatred for the Luanyue Clan was Fang Mu's promise to help the Zhenyan Clan return to the Panfeng Federation when the time was right.

With ample support from Fang Mu's grandmaster-level resources, the Zhenyan family would sooner or later surpass the Qingdian Clan in terms of power.

By then, the Zhenyan family could not only seek revenge but also replace the Qingdian Clan!

The Zhenyan family will then have to purge the followers of the Qingdian Clan.

The existence of the Luanyue Clan could also help the Zhenyan family manage the situation.

Because of the marital connection, there is overlap in the bloodline between the Luanyue Clan and the Zhenyan family!

Of course, a more important point is that Fang Mu chose the Luanyue Clan. As a chosen clan of Fang Mu, the Zhenyan family simply doesn't have the right to be picky.

They must do everything they can to cooperate with Fang Mu's actions.

Given that the current family heads of both the Luanyue and Zhenyan clans were being controlled by Fang Mu through the Soul Parasite Ant, Fang Mu could trust them.

Without needing further explanation from Shu Liangjun, Gu Anxing had already made the situation clear to Sun Hao.

Sun Hao felt apologetic towards the Zhenyan Clan and behaved humbly when facing Gu Anxing and Gu Qianfan.

This made Gu Anxing and Gu Qianfan feel a bit better.

When Sun Hao saw the direct-line members of the Zhenyan Clan standing in front of him, he felt inexplicably horrified.

It was as if he was seeing the dead come back to life.

Under the orders of the Qingdian Clan, Sun Hao had used a secret poison on the Zhenyan family.

This poison had a slow effect but was extremely difficult to remove.

This poison would seep into the body.

Even if it is extracted by special means, grandmaster-level Life Elixirs are required to reinvigorate the body, in order to prevent a state of madness, paralysis, and dementia.

The state of the Zhenyan family made it clear to Sun Hao that the force behind them must have a Grandmaster Creator.

If there was only grandmaster-level resources but no Grandmaster Creator, it would be impossible to save all the core members of the Zhenyan family!

This discovery completely put Sun Hao's mind at ease and willingly let the Soul Parasite Ant crawl into his soul.

He became the sixth follower controlled by Fang Mu through the Soul Parasite Ant.

With the fate of his family now rewritten, Sun Hao felt as if he had suddenly become ten years younger.

The heavy mental burden he had been carrying was finally lifted.

However, for fear that the spies of the Qingdian Clan could sense something wrong, Sun Hao ordered his son to go to the Royal Court every day as usual.

He maintained a worried expression every day.

All the people from the Zhenyan family had been arranged to stay in the loft behind the secret compartment, this information was kept from even his own son.

Because Sun Hao was fully aware that aside from the apparent spies, there were some who had infiltrated the Luanyue Clan internally.
