

Beast Tamer 621

Chapter 621: Finest Quality: Stealth Stinger Spirit!_2

Then, through the fierce energy burst of [Evil Spirit Mark], it gathers the spiritual bodies scattered in the air.

This allows the Stealthy Killer Spirit to appear behind other beings and attack them suddenly according to its own will.

And it can quickly flee after a successful attack, preventing it from becoming an easy target after revealing itself for assassination.

Note that power can be constantly stored during the process of teleportation.

This enables the Stealthy Killer Spirit to deliver a stronger attack after each teleportation!

The exclusive feature named [Barrier Breaking Sense] is obtained by Stealthy Killer Spirit upon its promotion to epic quality.

[Barrier Breaking Sense] allows Stealthy Killer Spirit to find the target's weak points and attack them.

One skill and two exclusive traits have already made the Copper Tier Stealthy Killer Spirit form an assassination system.

No matter what skills and exclusive traits the Stealthy Killer Spirit will acquire in the future, they will only make its assassination system more perfect.

On the evolutionary path, the Stealthy Killer Spirit has also demonstrated amazing potential.

Dual Cone Killer Spirit improves the offensive capability of Stealthy Killer Spirit through evolution.

Stealthy Evil Spirit adds curse effects to the attacks of Stealthy Killer Spirit through evolution.

Compared to the Dual Cone Killer Spirit and Stealthy Evil Spirit, Fang Mu values the evolutionary path of Stealthy Hidden One more.

Without a doubt, Stealthy Hidden One enhances the concealment ability of the Stealthy Killer Spirit through evolution.

Concealment ability is a prerequisite for an assassin to assassinate a target.

Fang Mu plans to let Stealthy Killer Spirit evolve in the direction of the Stealthy Hidden One.

Undead Species' Guardian Beasts in human form can wield weapons.

In order to compensate for the attack power of Stealthy Killer Spirit, Fang Mu can equip it with a spiritual instrument.

As for spirit forging, Fang Mu doesn't have much understanding, he plans to ask Shui Miao about it later.

He wonders if he can create a Sequential Spiritual Instrument like a dagger, skilled at concealing and becoming transparent, using some special spiritual materials.

While Fang Mu was observing the Stealthy Killer Spirit, both Shui Miao and Qin Shao nodded to themselves in secret, praising the Stealthy Killer Spirit in their minds.

Shui Miao knows that the reason Fang Mu is looking for an Undead Species Guardian Beast is because he has a contract with a Heavenly Disaster Level Ghost Series Summoning Beast, but Qin Shao does not know.

Qin Shao really didn't think in that direction.

The more the person is at the top of a large clan, the more resources are scarce for a Grandmaster Creator on the road to improvement.

If a large clan wants to develop and grow, Grandmaster Creator resources must be spent on the cutting edge.

Cultivating a Rank Nine Guardian Beast only requires a few bottles of ninety percent pure Grandmaster-level potions.

Even in situations where the Guardian Beast has extraordinary talents, it can step into Rank Nine without the aid of potions!

However, to elevate a Guardian Beast from Rank Nine to Rank Eight, it requires exponentially more resources than that of advancing to Rank Nine.

Qin Shao's Guardian Beast wanted to advance from Rank Four to Rank Three but fell short, despite using over a hundred bottles of life elixirs and element potions with a purity of ninety-two percent.

Compared to contracting a Heavenly Disaster Level Ghost Series Summoning Beast, it is about raising many undead creatures for this Heavenly Disaster Level Ghost Series Summoning Beast.

Undoubtedly, using these resources to train other Guardian Beasts would be much more worthwhile!

In Qin Shao's cognition, the Grandmaster Creators are all very resourceful and will not waste resources on meaningless investments.

Qin Shao thought that Fang Mu was preparing to contract an Undead Species Guardian Beast. This Stealthy Killer Spirit provided by the Luminous Snake Clan met the standards in Qin Shao's mind.

Jin Ya was really not interested in the Undead Species Guardian Beasts, especially when she saw the frightening appearance of the Heart Rotten Worm Squad.

Compared to the three Undead Species Guardian Beasts brought out by the Luminous Snake Clan, Jin Ya was more looking forward to the other goodies the Luminous Snake Clan mentioned.

After he finished examining the Stealthy Killer Spirit, and while listening to the constant praise from the Elder of the Lustrous Snake, Fang Mu once again lamented the urgent need of the Luminous Snake Clan for life elixirs and light element potions.

Instead of rushing to make an offer, Fang Mu, intrigued, asked the Elder of the Lustrous Snake.

“What do you think these three Undead Species Guardian Beasts are worth?”

The Elder of the Lustrous Snake paused when he heard Fang Mu’s question.

The Elder of the Lustrous Snake had grown accustomed to the other party making the first offer during the negotiation process and he usually agreed as long as he didn’t feel he was losing too much.

The Elder of the Lustrous Snake had never before had the opportunity to make an offer himself!

The Elder of the Lustrous Snake was not quite sure of Fang Mu’s attitude towards these three Undead Species Guardian Beasts.

Because Fang Mu didn’t reveal any additional expressions on his face while viewing these three Undead Species Guardian Beasts.

The Elder of the Lustrous Snake was afraid that if he quoted too high a price, it would affect the ensuing negotiations.

The Elder of the Lustrous Snake swallowed his saliva and held his tongue, deciding to knock off a portion of the price before giving a quote.

Just before he spoke, he suddenly felt that he had not cut enough, so he gritted his teeth and quoted the bottom line in his heart.

“I’ll give you these three Undead Species Guardian Beasts, and in return, you just need to give me one-third of a bottle of Light Element Potion you have!”

Fang Mu raised his eyebrows at this.

According to the market price of the Dragon Rising Federation, the price of a bottle of life elixir with a purity of ninety percent is around two hundred million Dragon Rising Coins.

At that time, Shui Miao, in order to persuade Fang Mu to join Starwheel, deliberately raised the price to three hundred million.

The price of element potions is usually only half that of life elixirs, and the demand for light element potions is slightly higher than for other element potions.

The price is inflated, a bottle is around one hundred and fifty million Dragon Rising Coins.

A third of a bottle is therefore around fifty million Dragon Rising Coins.

Fifty million Dragon Rising Coins, not enough to buy even a Yin Lock Dead Soul that Fang Mu is not interested in.

Chapter 622: Finest Quality: Stealth Stinger Spirit!_3

Fang Mu had participated in many trade conferences and had a general idea of the prices of various Guardian Beasts.

For a federation like the Dragon Rising Federation where people rarely contract with Undead Species Guardian Beasts, the Heart Rotten Worm Squad could sell for at least 80 million Dragon Rising Coins.

The price of Stealth Stinger Spirit was hard to estimate, but if Fang Mu encountered one at a trade conference.

Even if the price was bid up to a billion Dragon Rising Coins, Fang Mu would still buy it.

The humble attitude of the Elder of the Lustrous Snake during the negotiation changed Fang Mu's original intention to suppress the Lustrous Snake Clan's strength.

The Lustrous Snake Clan had no spirit to speak of.

Since it was so, he might as well be generous and use this opportunity to make the Lustrous Snake Clan have a good impression of him.

Indeed, Beast Controlling Forces liked to stick together to jointly resist human power.

However, what the Lustrous Snake Clan urgently needed to solve was the problem of family reproduction and propagation.

As long as he could guarantee the prosperity and growth of the Lustrous Snake Clan, the Lustrous Snake Clan had no reason to resolutely protect the interests of the Beast Taming Tribes.

"One-third bottle of the Light Element Potion with 90% purity is really too little."

"The transactions that I enter into with your Lustrous Snake Clan are not only for these three Undead Species Guardian Beasts."

"I also have a thought to help the Lustrous Snake Clan with their reproduction and propagation issues."

"I've always considered the Lustrous Snake Clan as my friends, so I'll just give you this bottle of Light Element Potion."

Having said that, Fang Mu threw the bottle of Light Element Potion directly to the Elder of the Lustrous Snake.

The Elder of the Lustrous Snake hurriedly caught it with his snake tail.

The Elder of the Lustrous Snake and the four Lustrous Snake behind him were stunned by Fang Mu's words.

The two Lustrous Snake who often trade with humans were excited, and their look at Fang Mu instantly changed.

They no longer showed vigilance and slight hostility, but a sense of familiarity!

Previously, when they were trading with human forces, those human forces only cared about their own interests and kept lowering prices.

They had lowered the prices to the point where they couldn't explain to the people in the tribe when they returned.

But the man in front of them, not only did not bargain when the elder said he only needed one-third of the potion.

He even provided them with more potions.

This man was truly worthy of being called a friend of the Lustrous Snake Clan.

Only friends of the Lustrous Snake Clan would care about their reproduction and extension issues.

The other two young Lustrous Snake who hadn't traded with humans much were happy, but felt that humans didn't seem to be as good at calculating as the elders and others in the tribe said.

Humans were quite friendly!

Compared to these four Lustrous Snake, after a brief moment of happiness, the Elder of the Lustrous Snake looked at Fang Mu with a hint of caution in his eyes.

Was there such a thing as a friend for no reason in this world?

This man in front of him had never had any contact with the Lustrous Snake Clan before.

The reputation of the Lustrous Snake Clan among humans was not good at all, so it was logical and normal for him to lower the price.

Not only did he not lower the price, but he also handed three times the potions he quoted himself into his own hands.

This made the Elder of the Lustrous Snake's scales rise involuntarily.

The free things in this world turned out to be the most expensive!

Although he was full of vigilance in his heart, the Elder of the Lustrous Snake still quickly expressed his thanks to Fang Mu.

Fang Mu watched the changing emotions of the Elder of the Lustrous Snake through his eyes and the stiffening of his spine.

He saw the caution of the Elder of the Lustrous Snake towards himself after a brief moment of happiness.

Fang Mu said with a smile.

"Let's continue trading. Let me see what special things your Lustrous Snake Clan has prepared!"

Upon hearing these words, the Elder of the Lustrous Snake opened his mouth wide.

Just as Fang Mu thought that the Elder of the Lustrous Snake would spit out the things for trading, he saw a ring-shaped object on the sharp front teeth of the Elder of the Lustrous Snake.

This ring-shaped object emitted the fluctuations of a spiritual instrument.

A pile of spiritual materials as big as a small mountain appeared in front of Fang Mu.

The Elder of the Lustrous Snake, after bringing out these spiritual materials, hurriedly said to Fang Mu.

“These are all the supplies that our Lustrous Snake Clan can use to trade with you. Just pick out what you like, then you name the price.”

“As long as the price is almost right, we, the Lustrous Snake Clan, will trade with you!”

“We, the Lustrous Snake Clan, have always been generous to our friends!”

Although The Elder of the Lustrous Snake didn’t really accept Fang Mu’s claim of being a friend, he was very clear that by calling Fang Mu a friend, he could express his kindness to the fullest extent.

Since this man had some intentions for the Lustrous Snake Clan, they would probably exchange more Life Elixirs and Light Element Potion in this trade with him.

Fang Mu looked at the pile of spiritual materials in front of him that was like a small mountain, and couldn’t help but feel a bit overwhelmed.

Normally, Creators have a huge demand for spiritual materials.

Almost all creators would try their best to accumulate all the materials they could find.

Even a Low-Level Creator had his own materials collection.

To please creators with materials was easier to accept than if you were offering Dragon Rising Coins.

But this would only apply to normal creators, and not to Fang Mu.

All the achievements that Fang Mu has made as a creator so far required nothing more than garbage and his own blood.

So these spiritual materials on the ground, no matter how precious they were, had no use for Fang Mu.

However, Fang Mu didn't dislike the Elder of the Lustrous Snake trading these spiritual materials with him.

These materials might be useless to him, but he could bring them to the Mu Commerce Association and let Master Creator Lu Zhong use them to mix Spiritual Liquid.

Lu Zhong was under Fang Mu, controlled by the Soul Parasite Ant.

He would spend most of his time every day mixing Spiritual Liquid for Fang Mu.

In this case, Fang Mu had to somehow solve Lu Zhong's consumption of spiritual materials.

Luckily, the Mu Commerce Association gradually getting on the right track, and Fang Yuan had accumulated many resources channels.

Lu Zhong's joining also brought many channels to the Mu Commerce Association, and these channels were able to gather spiritual materials for Lu Zhong's daily consumption.

The spiritual materials that the Lustrous Snake Clan can trade with him would certainly be of good quality.

Except for being used by Lu Zhong, these materials could also serve as a signboard for the Mu Commerce Association!

Chapter 623: You Can Call Me Yan Luo!_1

The Elder of the Lustrous Snake was afraid that Fang Mu would ask him to quote a price again.

When it came to quoting prices, the Elder of the Lustrous Snake was genuinely inexperienced.

Previously, when trading with human forces, he had never had the opportunity to name his price.

Whether his quoted price was too high or too low, it would always be unfitting.

So, before Fang Mu asked him to name a price, the Elder of the Lustrous Snake decided to return the ball in Fang Mu's court.

He wished Fang Mu to name the price himself.

Unexpectedly, Fang Mu kicked the ball back into his court once again.

"Since you mentioned that the Luminous Snake Clan always treats its friends well, I want to know what price the Luminous Snake Clan will offer for me, a friend."

"If the price given by the Luminous Snake Clan is suitable, I will take all these spiritual materials!"

The Elder of Luminous Snake showed a confused and embarrassed expression upon hearing this, astonishment filled his heart.

The man in front of him was asking him to quote a price without even investigating these spiritual materials.

Could he really know clearly whether he quoted a high or low price!?

The Elder of the Lustrous Snake thought, only those who are incredibly rich could afford such a style.

Although the other party was trading with the Luminous Snake Clan under the identity of the Twelve Pavilion, the Elder of the Luminous Snake did not believe that the other party was necessarily from the Twelve Pavilion.

The Elder of Luminous Snake knew very well the current situation in the Panfeng Federation. Many forces were operating under the guise of other forces' names.

If the Elder of the Luminous Snake really cared about the identities of Fang Mu and his companions, he would've asked them to prove their origin from the Twelve Pavilion as soon as he saw them.

The badges they presented were something that the official members of the Twelve Pavilion also have. As long as they kill an official member of the Twelve Pavilion, they could seize the badge from them.

The constant mention of the Twelve Pavilion by the Elder was also a way to intimidate the other four Luminous Snakes with the name of the Twelve Pavilion.

He hoped that the other four Luminous Snakes wouldn't cause trouble during the trade.

Fang Mu's demeanor now made the Elder of the Luminous Snake believe, that this was indeed their true origin from the Twelve Pavilion.

Asking him to quote again, this was truly a tough task for the Elder.

Just when the Elder was wracking his brains, thinking about how much to quote.

Fang Mu had already begun investigating these stack of spiritual materials, piled up like a small mountain, using the [Eye of Omniscience].

Fang Mu had long discovered that the [Eye of Omniscience] is not limited to investigating objects he can see with his eyes.

Even if he cannot see the object but it is within his field of vision, he can still investigate its data!

When Fang Mu learned about this feature of the [Eye of Omniscience], he was extraordinarily shocked and excited.

The ability of the [Eye of Omniscience] provided Fang Mu with exceptional searching and anti-assassination capabilities.

This was when Fang Mu tried to use the [Eye of Omniscience] to investigate Epoch relics to see if he could penetrate their external packaging and understand the information within.

Fang Mu discovered that his [Eye of Omniscience] ability was ineffective.

After some research, Fang Mu found out that to investigate a target with a cursed aura, Fang Mu had to stare at the target.

A target not stared at by Fang Mu cannot be investigated.

The Luminous Snake Clan had dispatched an Elder to the Panfeng Federation, intending to have him trade with other forces to obtain as many Life Elixirs and Light Element Potions as possible.

Presumably, when the Elder found out that he could provide Grandmaster-level potions, he took the initiative to bring out all the spiritual materials intended for trades with other forces.

These spiritual materials did contain quite a few good items.

Upon careful investigation, Fang Mu discovered that there were even carcasses of Ghost System Beasts!

And there were more than just a few of these beast carcasses.

Once, a beast wanted to form a contract with a Ghost System Beast like humans do, but after the attempt, the beast's spiritual power and soul power had minor disturbances.

Minor disturbances of spiritual and soul power are still acceptable for beasts.

However, many beasts that contracted with a Ghost System Beast experienced major complications due to the influence of Ghost Flame during subsequent bloodline upgrades.

The bloodline of such a beast would regress directly.

After too many such incidents occurred, beasts gave up on forming contracts with Ghost System Beasts after cleaning up Dimensional Rifts.

The reason the Luminous Snake Clan had so many Ghost System Beasts to trade with him was because they must have killed many Beast Masters who had a contract with Ghost System Beasts.

This indirectly confirmed the words of Shui Miao and Qin Shao.

Some of these Ghost System Beasts' bodies were particularly strong in defense.

After the trade is over and the carcasses of these Ghost System Beasts are handed over to Shui Miao, let's see if they can be matched with the complete corpse of Zhi Ge Luo Cha.

After investigating these spiritual materials with the [Eye of Omniscience], Fang Mu had an accurate estimation of their value in his heart.

After moving his gaze away from these spiritual materials, Fang Mu's eyes fell upon the Elder of the Lustrous Snake.

The Elder felt a sudden pressure under Fang Mu's gaze.

After weighing it for a while, the Elder decided he would still adhere to his previous pricing principle and kept the cost as low as possible.

The Elder was prepared to show his willingness to make friends with the other party, curious to see how Fang Mu would respond this time.

"If the quality of the next trade can reach the previous level, I will charge you twenty Light Element Potions and ten Life Elixirs for these spiritual materials!"

The Elder of the Lustrous Snake was very unrestrained when he gave his quote.

Chapter 624: You Can Call Me Yan Luo!_2

If even offering such a price did not persuade them to trade, it showed that they did not really want to trade at all.

The Elder of the Luminous Snake had expected Fang Mu to examine the pile of spiritual materials after he quoted the price.

Unexpectedly, Fang Mu simply said,

"I appreciate the goodwill of the Lustrous Snake Clan toward friends."

"As I've always said, I treat my friends very well."

"I can double the price I give you, to show how I treat my friends!"

The elder of the Lustrous Snake and the other four Lustrous Snakes' eyes lit up at Fang Mu's words, and they utterly lost their composure in excitement.

The elder of the Lustrous Snake and the four other Lustrous Snakes let out several triumphant hisses.

My God! This negotiation is too smooth!

Since the dawn of the Lustrous Snake Clan, there has never been a transaction that doubled the price and gained so many resources from Grandmaster Creators!

When the four of them return to their clan, they will definitely receive a massive reward, and there's a high chance they could each get a few bottles of Grandmaster-level Elixir!

While the elder of the Lustrous Snake and the four snakes were certainly considering their clan, they were equally concerned about their own propagation.

Upon returning to the clan, all snakes that received Grandmaster-level Elixirs would owe them a huge favor.

Right then, Fang Mu's voice rang again,

"You should know that I don't have so many elixirs on me, I need some time to prepare them for you."

Hearing this, the elder of Lustrous Snake quickly nodded, agreeing wholeheartedly with what Fang Mu said.

Indeed, who would carry so many elixirs on them, especially when trading with the Lustrous Snake Clan.

How infamous the Lustrous Snake Clan was, the elder knew it very well!

“No problem, let’s set another meeting time for the transaction.”

Saying this, the Lustrous Snake Elder looked at the mound of spiritual materials on the ground, and gritting his teeth, said,

“To show our sincerity in trading, you can select ten items from these spiritual materials as a deposit for our transaction.”

Fang Mu made no pretense, and along with Jin Ya, started to scrutinize these spiritual materials.

They were a bit surprised by what they saw.

It had long been heard that Beast Controlling Forces hoarded a lot of precious spiritual materials, firstly due to their long existence.

Secondly, because there were no Creators in the Beast Controlling Forces, they couldn’t efficiently use these spiritual materials.

After tasting the sweetness of trading with human forces, these Beast Controlling Forces were unwilling to consume these precious spiritual materials directly.

Instead, they hoarded them for use as bargaining chips in deals with humans.

Thirdly, the territories the humans occupied on land were far less than those controlled by the Beasts.

Any powerful Beast Taming Tribe could occupy several hazardous territories.

The spheres of influence of these hazardous territories extended to several hundred thousand or even millions of kilometers around, all owned by this powerful Beast Taming Tribe.

After Fang Mu came to the Beastmaster world, he had compared the situation with his previous life.

The planet Fang Mu was on in his previous life only covered an area of 510 million square kilometers.

The total area of the planet Fang Mu lived on in his previous life was barely a third the size of the land in the Beastmaster world!

Moreover, the data Fang Mu compared was only the area of land in the Beastmaster world that humans had explored.

There was a large part of the territorial map of the Beastmaster world that humans had not yet explored.

Seeing the resource reserves brought out by the Lustrous Snake Clan, Fang Mu felt that trading with Beast Forces could bring more benefits than trading with human forces.

Fang Mu unceremoniously selected ten relatively complete Ghost System Beastmaster corpses.

Seeing what Fang Mu had picked, the elder of the Lustrous Snake couldn't help but feel a bit pained.

Ghost System Beastmaster corpses weren't of much use to the Beast Forces, yet the elder of the Lustrous Snake knew how valuable these Ghost System Beastmaster corpses were to human forces.

The elder feared that the other party was just trying to swindle him with two bottles of Grandmaster Elixir.

But since they were in a weak position, the Lustrous Snake Clan's elders couldn't ask the other party to provide some sort of security.

If they annoyed the other party and they were no longer willing to trade in double the original agreement,

Then they would definitely be considered sinners by the Lustrous Snake Clan!

As soon as Shui Miao saw the Ghost System Beastmaster corpses Fang Mu had chosen, he knew that Fang Mu was indeed planning to create a Ghost Device of the defense system.

Several of these Ghost System Beastmaster corpses could be used in combination with Zhi Ge Luo Cha.

Shui Miao knew that Fang Mu planned to draw out information from the Lustrous Snake Clan, to understand why these Beast Forces would gather in Rock Peak City for this large ancient battlefield.

Shui Miao was very curious about how Fang Mu would pry open the mouth of the Lustrous Snake Elder.

Throughout Fang Mu's selection of the Ghost System Beastmaster corpses, he kept an eye on the expressions on the elder of the Lustrous Snake's face.

He could clearly see that for every Ghost System Beastmaster corpse he took, the elder of the Lustrous Snake looked more pained.

Now, the elder of the Lustrous Snake must undoubtedly also want some security from him.

Fang Mu softly cleared his throat, attracting the attention of the elder of the Lustrous Snake and the four snakes behind him.

Then, with a flip of his hand, Fang Mu took out a bottle of Light Elemental Potion with a purity of ninety-six percent from his Purple Ice Crystal Ring.

Shui Miao knew that Fang Mu had Life Elixirs and Water Elemental Potions with a purity of ninety-six percent.

Fang Mu took out this bottle of Light Elemental Potion as a guarantee for the elder of the Lustrous Snake.

At the same time, it was also a show of his strength to Qin Shao and the elder of the Lustrous Snake, to verify his identity.

Chapter 625: You Can Call Me Yan Luo!_3

Fang Mu had already learned from his previous conversation with Jin Ya that she came from the Glorious Tribe.

This ancient heritage of tens of thousands of years is extremely arrogant. It was only because Fang Mu happened to be able to help Qin Shao with his life-spanning method that Qin Shao was so polite to him.

This Light Element Potion, with a purity of ninety-six percent, proves that there's a Top Creation Master behind him.

Only the status of a Top Creation Master could earn the respect of a lineage like the Glorious Tribe.

Fang Mu was also demonstrating to the Luminous Snake Clan that he had a Top Creation Master behind him.

He wanted the Luminous Snake Clan to cling to him as much as possible.

The resources produced by the Top Creation Master are virtually unavailable on the market, even the Starwheel members find it extremely difficult to procure them.

The Luminous Snake Clan hadn't possibly owned it before!

Just like before, Fang Mu casually tossed the Potion Bottle with a purity of ninety-six percent towards the Elder of the Lustrous Snake.

The Elder of the Lustrous Snake received the bottle of light element potion with extreme care, fearing that the bottle might break and the potion would spill out.

“Since you let me take away ten items, I’m giving you a bottle of Light Element Potion as collateral.”

Seeing that the Elder of the Lustrous Snake and the four who stood behind him had fallen into a state of shock, Fang Mu didn’t care how these snakes reacted.

He then took out another Light Element Potion with ninety-two percent purity and spoke to the Elder of the Lustrous Snake and the other serpents standing behind him.

“I’d like to negotiate a trade with you and inquire about some matters.”

“If you’re willing to inform me about these matters, I can offer each of you a bottle of Light Element Potion with a purity of ninety-two percent as a reward!”

“Then I’ll give you the privilege to trade potions with me at any time!”

The words of Fang Mu caused a stir among the Elder of the Lustrous Snake and the other four snakes. However, the Elder of the Lustrous Snake quickly became serious.

The Elder of the Lustrous Snake had a vague guess about what Fang Mu wanted to ask.

The power in Rock Peak City that stands before me could only learn about that one thing from my mouth.

The Elder of the Lustrous Snake knew very well that once he trades with the man in front of him, it would be equivalent to betraying the interests of the Beast Taming Tribes in Rock Peak City.

Reason told the Elder of the Lustrous Snake not to agree to the request.

But the Light Element Potions before his eyes were potent enough to overcome the Elder’s rationality. The Elder of the Lustrous Snake opened his mouth and hissed, but he couldn’t say no.

Fang Mu saw that the Elder of the Lustrous Snake didn't immediately refuse, and knew that he had taken the bait.

He was hesitating now because he couldn't overcome the bottom line in his mind.

Fang Mu decides to give the Elder of the Lustrous Snake a little push.

"If you are unwilling, that's fine. I'll trade with other Beastmasters later."

"There are plenty of Beastmasters who are willing to trade!"

Having said this, Fang Mu was ready to put away the Light Element Potions in his hand.

Seeing this, the Elder of the Lustrous Snake hurriedly interjected.

"Wait! Who said we don't want to trade with you!"

"It's just..."

Before the Elder could finish, Fang Mu continued to entice him.

"By entering the ancient battlefield, your Luminous Snake Clan might not only fail to gain anything but also further lose members."

"Do you really think what you can gain from the journey to the ancient battlefield can compare to securing a permanent supply chain from a Grandmaster Creator?"

"We promise to keep this a secret for you and not let other Beast Controlling Forces know."

“This permanent supply chain from a Grandmaster Creator could make you heroes in your Luminous Snake Clan!”

Before the Elder could respond, the other four Luminous Snakes couldn’t stand it any longer and began urging him.

“Elder, considering the dozens of Life Elixirs and Light Element Potions with purities above ninety percent that we have with us, it is no longer safe for us to venture into the ancient battlefield.”

“Moreover, our purpose of coming here in the first place was to trade with other Beastmaster Forces and human forces. The clan leader has made it clear that we should not risk our safety.”

“That’s right! Elder, your branch within the entire Pale Serpent Clans is the one most in need of potions! Your three daughters are waiting for the elixir to give birth safely! Don’t forget this!”

“Elder, please just say yes!”

Jiao Feng hadn’t really said no, he was just weighing his options.

As a senior member of the Luminous Snake Clan, Jiao Feng knew very well what impact it would have on his clan if news of the Luminous Snake Clan leaking information to humans spread.

Jiao Feng feared that even if this human did make a promise, the news might eventually leak out.

Before meeting this group, the Luminous Snake Clan exchanged resources with other Beastmaster Forces.

Once it was known to them, no Beastmaster Force would trade the resources obtained from human forces with the Luminous Snake Clan again.

Just as he was weighing his options, the whippersnappers behind him almost exposed all my secrets.

They even talked about his three daughters anxiously reproducing in front of these humans!

But after weighing the pros and cons, trading with the people in front of him was indeed the most beneficial to the Luminous Snake Clan.

If the man was willing to use the Light Element Potion with a purity of ninety-six percent as collateral here, he had no reason not to trust him!?

If he reports the current situation to the clan leader truthfully, even if there are problems in the end, the clan leader is unlikely to blame him!

As the saying goes, fortune favours the bold. A secure supply channel from a Grandmaster Creator was enough to rapidly develop the Luminous Snake Clan.

With that in mind, Jiao Feng gritted his teeth and said.

“Nice to meet you properly, my name is Jiao Feng. May I know your name?”

“The five of us are willing to trade with you, but we don’t know what you want to know?”

Seeing that Jiao Feng had been building up his courage for such a long time, Fang Mu already knew what he wanted to ask.

Fang Mu didn’t play games with Jiao Feng and said with a smile.

“You can call me Yan Luo.”

“You probably already know what we want to ask about.”

“Your Luminous Snake Clan came to Rock Peak City and has been staying in the Royal Court. It can’t just be for trading potions, right!?”

Chapter 626: The Legend of the Sage!_1

Hearing Fang Mu's words, Jiao Feng's gaze tightened on Fang Mu, trying to decipher something from his eyes.

The news of the Beast Controlling Force heading to Rock Peak City was hardly a top-secret matter.

Because, during their journey to Rock Peak City, many Beast Controlling Forces would inevitably encounter some human forces.

Now, many human forces should already know that Beast Controlling Forces are going to explore this large ancient battlefield within the Panfeng Federation's territory.

However, knowing that the Beast Controlling Force has arrived in Rock Peak City and knowing that these Beast Controlling Forces are staying within the Royal Court are entirely two different matters.

Jiao Feng was unsure of how much the person named Yan Luo, standing in front of him, actually knew.

Fang Mu had an inscrutable expression, he did not even show a hint of curiosity while questioning.

Jiao Feng had no plans to deceive Fang Mu from the start and now, he dared not lie even more so!

The other party had been so kind to the Luminous Snake Clan, even pressuring an Element Potion of 96% purity into his hands.

He had become the savior of the Luminous Snake Clan, not because he was particularly familiar with them.

Rather, he wanted to gather information through the Luminous Snake Clan.

If he didn't provide the information Fang Mu wanted, he would definitely be angry, likely causing him to abandon the deal with the Luminous Snake Clan.

Taking a deep breath, Jiao Feng sincerely spoke to Fang Mu.

"You just said you would help us keep our secret from other Beast Controlling Forces, I hope you can maintain that!"

"Our Beast Controlling Forces are heading toward the Panfeng Federation because of a record spreading amongst some of the top Beast Taming Tribes."

"The location of this large ancient battlefield within the Panfeng Federation was once the site of a nexus where three Federations intersected during The Sixth Era."

"There's a high probability that Spiritual Energy can be discovered within the interior of these multi-Federation nexus sites."

"Moreover, it is rumored that a special Beast Bloodline was passed down through those three Federations, a bloodline which can be absorbed by any beast."

"Once absorbed, the beast could potentially become a beast possessing the Sacred Tree Bloodline!"

At this point, Jiao Feng paused, continuing to observe Fang Mu's expression.

He wanted to deduce whether Fang Mu was already aware of this news or not by observing Fang Mu's reactions.

However, Jiao Feng had failed.

Not only did he not glean anything from Fang Mu's expression, but the faces of Shui Miao and Qin Shao also remained unchanged.

This revelation left Jiao Feng quite bitter at heart.

At this moment, Jiao Feng only heard Fang Mu quietly say.

“I don’t like friends who squeeze out information bit by bit like toothpaste. If you want to be my friend, it’s best to spill all the beans when I ask a question.”

“Or do you want me to ask one question after another!?”

As Fang Mu spoke, a vein of anger subtly appeared on his face, as if he was digging for lots of information but Jiao Feng hadn’t disclosed everything yet!

This left Jiao Feng feeling extremely awkward, thinking subconsciously that Fang Mu knew a great deal more.

He hurriedly continued speaking.

“Yan Luo, don’t be angry, I promised I would tell you all the news I have!”

While speaking, Jiao Feng released his own aura to verify the surroundings.

After ensuring there were no other living beings present except for Fang Mu and his group, Jiao Feng began to whisper.

“I am not sure if you have heard of the Sage.”

“This ruin likely has something to do with the Sage!”

“That’s why a few of the top Beast Controlling Forces decided to reveal the information, inviting all of the Beast Controlling Forces to rush together to Rock Peak City!”

Previously, Fang Mu hadn't heard of any such news and had only put on that air to scare Jiao Feng.

To ensure that Jiao Feng would not hide anything.

Fang Mu had never heard of the term 'Sage', and he didn't understand what it constituted.

According to Jiao Feng, those top Beast Controlling Forces had chosen to disclose the information in desperate hope for more allies when they set out to explore the large ancient battlefield in Rock Peak City.

The Sage must be of great importance— it may even be a core secret of the Fifth and Sixth Epochs.

If there's a chance, Fang Mu planned to inquire more about the Sage.

Shui Miao and Qin Shao, both worldly men, couldn't help but change their expressions upon hearing the word 'Sage'.

Many ancient texts from the Fifth and Sixth Epochs had references to the Sage.

The Sage appeared towards the end of the Fifth Epoch and became the Dominator of the world in the Sixth Epoch.

It is said that the Giant Whale soaring through the sky with a castle on its back used to belong to the Sage!

Many forces had tried collecting traces of the Sage due to those ancient texts but ended up with nothing.

This led many scholars, even the Creators, to speculate that the concept of the Sage was likely fabricated by people during the Sixth Epoch, much like a Mythology.

Surprisingly, even the Beast Controlling Forces had legends about the Sage!

It seemed that the accounts of the Sage within the Beast Controlling forces were more comprehensive.

High-level beasts held a near-blind adulation for their own bloodlines.

Even if the Sacred Tree Bloodline Jiao Feng mentioned was stronger, those high-level beasts with already superior bloodlines would likely not change theirs.

Therefore, it wouldn't be possible to attract so many Beast Controlling Forces based on a Sacred Tree Bloodline whose effects were unknown.

However, if there were clues about the Sage within this large ancient battlefield, then everything would make sense!

Chapter 627: The Legend of the Sage!_2

Fang Mu silently chanted the title of 'sage' in his mind a few times, then looked at Jiao Feng and asked seriously.

"Can you guarantee the authenticity of the information you just mentioned?!"

Upon hearing this, Jiao Feng quickly shook his massive snake head.

"Our Luminous Snake Clan was not the first among the Beast Controlling Forces to receive this information."

"We, the Luminous Snake Clan, only came to understand the situation after receiving an invitation from the Xi Long Clan."

“The Xi Long Clan would not go as far as to deceive our Luminous Snake Clan, but they may not necessarily tell us the complete truth either.”

“And they definitely did not disclose everything they knew to us!”

“So, I can only tell you everything I know, but I can’t guarantee its authenticity!”

Fang Mu nodded at this.

Jiao Feng’s words indicated his honesty, he did not make any attempts to flatter Fang Mu with assurances.

Currently, Fang Mu was clueless about the sage, but he could indeed ask Shui Miao and Qin Shao for more information in the future.

However, whenever he would ask Shui Miao and Qin Shao, they would inevitably suspect his motives.

They would gauge how much Fang Mu knew about the sage to exchange information about the sage from him.

There was a Grandmaster Creator backing Fang Mu, so he certainly couldn’t appear clueless about this information.

If Fang Mu seemed completely ignorant, it would only raise suspicions.

Relying on his ability to provide resources for the Luminous Snake Clan, Fang Mu boldly took out four chairs from the Purple Ice Crystal Ring and handed them to Shui Miao, Qin Shao, and Jin Ya.

Then, he seated himself confidently and turned to Jiao Feng.

“I’ve heard that you Beast Controlling Forces possess more information than human forces.”

“Since I have some understanding of the sage’s situation, you might as well reveal all that the Luminous Snake Clan knows about the sage.”

“As a reward, I can offer you a 90% pure Light Element Potion and four 80% pure Life Elixirs as my thank you gift.”

After finishing his statement, Fang Mu held up these five elixirs and waved it towards Jiao Feng.

Jiao Feng quickly approached Fang Mu and took the five elixirs.

Since these potions were traded to him directly by Fang Mu, Jiao Feng could keep them for himself without having to hand them over to his clan leader for distribution.

Considering the Luminous Snake Clan’s interests were taken care of, Jiao Feng was completely willing to look after his own personal interests!

After all, he had already revealed the motives behind the major Beast Controlling Forces’ visit to Rock Peak City. What harm could there be in sharing some information about the sage!?

Jiao Feng composed his thoughts and seriously said,

“The sage is the savior of the Sixth Era. It is rumored that deep in the Desolate Wilderness, there is a mysterious Spirit Cat Clan, which still worships the totem of the sage!”

Jiao Feng narrated many tales about the sage, but what struck Fang Mu the most was that the sage was the savior of the Sixth Era.

The title of ‘Era Savior’ given to a man, or more accurately, a creature, was enough to highlight his prestige during that era.

What Jiao Feng knew were just some trivial tales about the sage.

If Fang Mu really wanted to unravel the secret of the sage, he probably needed to find that Spirit Cat Clan deep inside the Desolate Wilderness who still worshipped the sage's totem.

At present, Fang Mu was fully aware that he was not strong enough. He was not in a rush to explore the mysteries of the Beastmaster World.

The mysteries of the Beastmaster world would have to wait, at least until Fang Mu possessed formidable strength and influence before he would consider exploring them.

Fang Mu and Jiao Feng had agreed to meet at the same spot once they had finished exploring this ancient battlefield.

Jiao Feng would deliver the remaining spirit materials to him, and Fang Mu would hand the potions to Jiao Feng.

As soon as he arrived at Rock Peak City, Fang Mu purchased a phone to ensure he could keep in touch with She Wan and Lu Xiaoyin while he was out of the city.

As soon as Jiao Feng left, Fang Mu's phone rang.

He answered the call and found it was Lu Xiaoyin.

"Master, there was a bloody conflict in the hotel where we were staying this afternoon, and two of the guests died in the conflict!"

"I booked both rooms."

While leaving the city, Fang Mu had instructed Lu Xiaoyin to book as many rooms as possible in the hotel he was staying.

There were no other hotels around the one Fang Mu was currently residing in.

Fang Mu didn't want to live too far away from Qin Shao and Jin Ya, as it would inconvenience them to act in sync.

The violent incident in the hotel actually worked out in their favor!

After hanging up the call, Fang Mu extended an invitation to Qin Shao and Jin Ya.

The four of them entered the city under the cover of night, and made sure they appeared battered by the journey.

They even added some spirit materials from the Undead Species Beast on their bodies.

Given the area was infested with undead creatures, opportunities to easily gather Souls of Death were infrequent.

Many forces heading to Rock Peak City would clear out Souls of Death and hoard resources through the night.

Some even gave up exploring the ancient battlefield upon seeing the arrival of wicked forces like the Evil Heart Sect, the Eternal Alchemy Association, the Ancient Genesis, and the Witch School.

They planned to hunt down a few more undead creatures and gather some Undead Species Beasts, which could be sold at a good price.

This would help recoup the expenses of this trip.

This time around when Fang Mu and Shui Miao brought Qin Shao, and Jin Ya into the city, they didn't encounter anyone who tried to provoke them.

Fang Mu, Shui Miao, Qin Shao, and Jin Ya all entered the city discreetly.

Chapter 628: The Legend of the Sage!_3

Fang Mu didn't recognize these two city guards, but one of them recognized Fang Mu.

He trembled incessantly while charging Qin Shao and Jin Ya for entering the city to collect the Soul of Death.

This city guard was coincidentally the same one who had previously welcomed Fang Mu and Shui Miao into the city and had witnessed firsthand how Fang Mu had decisively killed the provocateur!

As for the former partner of this city guard, he died not long after receiving Fang Mu, in a conflict at the city gate.

The entire Rock Peak City had turned into a battlefield, and the Qingdian Clan of the Panfeng Federation Royal Family did not have the capability to protect the citizens and city guards of the Panfeng Federation.

They were allowing this chaos to spread.

The chaos inside the city was even worse than at the city gate, with many corpses on the ground that had not been cleaned up in time.

Seeing this scene, the four of them frowned together, unable to understand the Qingdian Clan's intentions.

If things keep going like this, once the other forces leave Rock Peak City, the Qingdian Clan will lose the support of all the residents and city guards.

Jin Ya couldn't help but express her doubts.

“Could it be that the strong individuals in the Qingdian Clan are being held hostage by the Beast Controlling Forces!?”

Qin Shao shook his head upon hearing this.

“Beast Controlling Forces need to be discreet inside the human Federation.”

“They need creators and certainly don’t want to give humans a bad impression, so they won’t provoke the Ten-thousand Nations Federation.”

“This is not in line with the interests of the Beast Taming Tribes!”

“However, the Beast Controlling Forces’ arrogance towards the Qingdian Clan is indisputable.”

“The chaos could only have been a choice made by the Qingdian Clan.”

Fang Mu had a low opinion of the Qingdian Clan.

He still didn’t understand what kind of gains the Qingdian Clan had obtained on the ancient battlefield that prompted them to eradicate the Town Rock Family.

Moreover, the eradication was carried out by exploiting another core force.

In doing so, the Qingdian Clan didn’t consider the impact of their actions on their reputation.

Fang Mu thought for a long time but couldn’t come up with a reason. Thus, he simply said,

“Let’s go home and get a good night’s sleep. We might be able to figure something out during the gathering at the Panfeng Royal Court tomorrow night!”

The Beast Controlling Forces were indeed here for the Sage, but they must also be very interested in the ancient book that was going to appear in the Royal Court meeting!

Since the objectives of the major Beast Controlling Forces didn't exceed his expectations, Fang Mu didn't make any other preparations and decided to stick to his original plan.

It was when Fang Mu and his party had walked half the distance, a few kilometers away from the hotel, that a dozen people in black clothes surrounded them.

Qin Shao and Shui Miao didn't take these individuals seriously.

Both of them were seasoned fighters, and they decided to watch the situation unfold and see what these people were up to!

Moreover, whether it was Qin Shao or Shui Miao, both of them were here to train Fang Mu.

It was up to Fang Mu to make the decisions and both of them would act accordingly.

Fang Mu frowned and coldly retorted.

"Instead of getting a good night's sleep or hunting the undead, you surround us. Are you here to rob us!?"

Before these people surrounded Fang Mu, he had been contemplating a question.

He had gone through the entire ancient book and remembered that several heart-shaped markers had no annotations.

Could these heart-shaped markers possibly be connected to the legendary Sage in some way!?

What Fang Mu hated the most while thinking was being interrupted.

These people ignited Fang Mu's intent to kill.

Upon hearing Fang Mu's cold reply, the leader of the group responded playfully with a smile.

"What makes you think we can't be robbers?"

These people had been observing Fang Mu and his group for a long time.

In the chaos of Rock Peak City, powerful forces would summon their Guardian Beasts without any hesitation to navigate the city.

At first, only the strong forces did this, but after seeing that the Panfeng Federation didn't manage it, other forces started to use their Guardian Beasts for transportation within the city as well.

Rock Peak City is vast, and if one relies solely on walking, it would consume a lot of time.

The fact that Fang Mu and his group had been walking without summoning any Guardian Beasts was seen as a sign of lack of strength by others.

Fang Mu chose not to summon a Guardian Beast partly because the hotel where they were staying was not far from the city gate.

Another reason was that he didn't want to cause any disturbances.

Whether it was his Guardian Beast or those of Shui Miao and Qin Shao, summoning them would undoubtedly attract others' attention.

Being low-profile under the cover of night had surprisingly attracted trouble to their doorstep.

Fang Mu looked at the leader, who was clearly taking things light-heartedly, yet managed to keep an innocent look on his face. He asked directly,

“How much resource do you want to let us go?”

With his plan set to go into motion the next day, Fang Mu didn't want to attract any unwanted attention.

However, the leader of the other party interpreted this as a sign of weakness.

Still wearing an innocent expression, he answered with a sinister tone,

“If I kill you, all your resources, including your corpses, will be mine!”

Frustrated by their leader's comment, Fang Mu retorted,

“I will tell you the same thing, although I'm not interested in your corpses.”

Just as Shui Miao was about to attack upon hearing Fang Mu's words, Qin Shao removed her mask.

A faint pink glow emerged from Qin Shao's face, and the faces of the people who saw Qin Shao's light turned blank and infatuated, as they stared dumbly at her face.

Qin Shao snapped, “Scram!”

The group of black-clad individuals immediately scattered in all directions.

Just as Qin Shao was about to put her mask back on, she suddenly noticed that Shui Miao was also staring at her in awe.

Qin Shao hadn't used her Destiny Guardian Beast's power on Shui Miao. There was no way her Destiny Guardian Beast could affect Shui Miao.

Qin Shao clearly remembered that Shui Miao had seen her true face before, and at that time, Shui Miao hadn't shown such a reaction!

Chapter 629: Evolve: Heart Rotten Worm Squad! _1

A Destiny Guardian Beast is the most private thing for any Beast Master.

It is common knowledge among newly awakened Beast Masters in junior high that they should do everything possible to protect information about their Destiny Guardian Beast and prevent it from being known to outsiders.

Only when there is a need to fight for honor and profit may one unleash the power of their Destiny Guardian Beast.

This is why many Beast Masters with Destiny Guardian Beasts prefer to lose in Battle Network fights rather than use their Destiny Guardian Beasts.

Many high-tier club professional players would only choose to use Destiny Guardian Beasts when they advance to the final 32 in a professional league.

This is to prevent outsiders from knowing too much about the abilities of their Destiny Guardian Beasts.

The mystery of Destiny Guardian Beast can increase the topicality and popularity of these professional players.

Even teenagers and young people know not to use their Destiny Guardian Beast casually. Qin Shao, the helmsman of a wealthy and powerful family, is well aware of this.

The current choice to use a Destiny Guardian Beast is due to a desire to avoid stirring up trouble after understanding Fang Mu's objective.

The opposing group is rather strong, each of them being a Hexagram Beastmaster.

If he and Shui Miao take action and slay these ten-plus Hexagram Beastmasters, it would undoubtedly stir up a huge storm!

The second reason for Qin Shao to use his Destiny Guardian Beast is to express his intention of befriending Fang Mu.

By using his Destiny Guardian Beast to help solve Fang Mu's problem, he truly demonstrated his sincerity.

Seeing Shui Miao was still watching him even after he retracted his Destiny Guardian Beast's abilities, Qin Shao couldn't help but cough lightly.

This gaze, as Qin Shao saw it, was not a polite behavior.

At this moment, Shui Miao complimented him.

"Madam Qin's rejuvenation technique is truly astonishing!"

Shui Miao's compliment was completely genuine and sincere.

It led to Qin Shao wondering internally.

Although they had only met twice, Shui Miao couldn't possibly forget what he looked like, could he!?

Just what was Shui Miao trying to suggest? Surely, he wouldn't have suddenly started to flirt with him—an old woman!?

Despite his excellent maintenance, he was old enough to be Shui Miao's grandmother.

He was several hundred years older than Shui Miao!

However, from Qin Shao's understanding of Shui Miao, Shui Miao wasn't that type of person.

Suddenly, Qin Shao remembered something: Fang Mu had given him a jar of face cream before he went out.

He said it could restore youth to his appearance a few hours after use, making him look several years younger.

When Qin Shao heard this from Fang Mu back then, he couldn't help but doubt Fang Mu's integrity.

In Qin Shao's understanding, there was no such thing in the world.

Now hearing what Shui Miao said, could it be that the face cream from Fang Mu had already taken effect!?

Qin Shao hastily pulled out a mirror from the Space Spirit Tool and looked at his face under the moonlight.

The moment he saw his face, he almost lost his breath.

With hurried breaths, Qin Shao stretched his hand to touch his face, his mouth trembling with excitement.

Anyone who knew Qin Shao from his younger days would know how much he cherished his appearance.

His face looked much younger than just five years after using the face cream once!?

Not only that, but all those fine lines on his face had been smoothed out!

It was truly a night of rejuvenation!

Qin Shao had no more doubts about Fang Mu's words. It was fairly conservative how Fang Mu introduced this bottle of face cream.

The effect of the face cream shown on his face was much stronger than what Fang Mu had initially told him.

Just as Qin Shao composed himself and prepared to express his gratitude toward Fang Mu.

He unexpectedly heard Fang Mu thank him first.

"Senior, thank you for using your Destiny Guardian Beast to help me resolve the current problem!"

Fang Mu could deduce that Qin Shao was using a Destiny Guardian Beast because Qin Shao's face didn't have any Ghost Flames, so he couldn't possibly be using a Ghost Device or a Ghost System Beast.

Another reason was that only the abilities of Destiny Guardian Beast would allow a Beastmaster to use it so seamlessly.

Since Qin Shao used his Destiny Guardian Beast to achieve his objective, it was only appropriate for Fang Mu to express his gratitude to Qin Shao.

Upon hearing this, Qin Shao patted Fang Mu on the shoulder.

"Ah Mu, the face cream you gave me is divine! I'd like to trade some more face cream from you."

“From now on, I’ll provide all the Brilliant Golden Honey that you or your family members will need!”

When Fang Mu had a conversation with Jin Ya and Shui Miao, he had asked Shui Miao to create some spiritual instruments for his family members.

Jin Ya had overheard the conversation about his family.

It was probably Jin Ya who informed Qin Shao.

If Qin Shao’s offer was only limited to offering Brilliant Golden Honey to him, Fang Mu wouldn’t be so grateful to her.

Brilliant Golden Honey was indeed a very precious thing that could be used with Sacred Relics to increase a Beastmaster’s spiritual power.

However, Restoring Appearance Palm Oil was only available through him.

When Fang Mu collaborated with Feng Chenhao, he had always provided the materials to Feng Chenhao but never directly handed over Restoring Appearance Palm Oil.

This was because he was afraid that the Restoring Appearance Palm Oil would be lost from Feng Chenhao’s possession.

Once Restoring Appearance Palm Oil was no longer solely owned by him, its price would surely drop sharply.

Bear in mind, a Restoring Appearance Palm tree could yield a lot of oil once it grew to the Diamond Rank!

The fact that Qin Shao was looking out for his family made him genuinely moved by Qin Shao.

Fang Mu replied with a smile.

Chapter 630: Evolve: Heart Rotten Worm Squad! _2

“Senior, you’ve provided my family and me with Radiant Golden Honey, I can offer you twenty barrels of this face cream every year!”

“Each barrel contains more than five hundred milliliters, enough for seven or eight people to use for a whole year!”

Ever since Qin Shao discovered that she had become younger, a smile hasn’t left her face.

The more Qin Shao looked at Fang Mu, the closer she felt to him. It was not appropriate for Fang Mu and Jin Ya to call her grandmother or granny just like they used to.

Qin Shao simply decided to treat Fang Mu as an equal.

“Fang Mu, stop calling me senior, just call me Ah Shao!”

Qin Shao’s words surprised Jin Ya, Fang Mu, and Shui Miao.

Ah Shao? No matter how they heard it, this title felt strange.

In Jin Ya’s impression, only old folks who were near the end of their life would be addressed as granny in such a manner.

Her granny was treating Fang Mu as an equal!

Previously, when Fang Mu addressed Qin Shao as granny, Jin Ya felt that Fang Mu was taking advantage of her.

He was of the same age as Jin Ya, but his generation level was unfairly elevated by one.

Now that her granny was treating Fang Mu as an equal, wouldn't Fang Mu become a senior of her grandfather's generation!?

"Ah Shao," Fang Mu really couldn't call out, but Qin Shao showed her intention to treat him as an equal. This was Qin Shao's sincerity.

Fang Mu also liked equal exchanges when dealing with people.

Out of respect for Qin Shao though, Fang Mu said with a smile.

"Then I'll call you Aunt Shao from now on!"

Hearing this, Qin Shao straightened the collar of Fang Mu's clothes.

"Let's go, go rest!"

"According to your plan, there will be excitement to watch tomorrow!"

Jin Ya was stumbling along behind Fang Mu, her mind in a whirl.

Fang Mu hadn't become a member of the same generation as her great-grandfather, but he did become a member of her grandfather's generation, and it seemed there wasn't a significant difference between the two!

This put Jin Ya in a chaotic state, unsure whether she should change the way she addressed Fang Mu when they interacted.

After returning to the hotel, instead of resting immediately, Fang Mu summoned the Abdominal Territory Worm in his room and entered the Mechanism Fortress.

As soon as he returned to the Mechanism Fortress, Fang Mu saw Gu Che and Gu Kun standing anxiously on the steps of the second floor.

Usually, only he would go upstairs, so clearly, Gu Che and Gu Kun were waiting for him.

The reason why Gu Che and Gu Kun were waiting for him was not hard for Fang Mu to guess.

Obviously, it had to do with his arrangement for the Town Rock Family tomorrow.

These two youngsters waiting here out of concern for their clan showed their filial piety.

As soon as Fang Mu walked over, Gu Che and Gu Kun came forward to meet him.

Gu Che knelt directly on both knees in front of Fang Mu, and Gu Kun also followed suit.

Gu Che looked up at Fang Mu and said in an anxious voice.

“I am willing to go and deliver the scriptures instead of my father and grandfather, I don’t know if...”

He hadn’t finished his sentence when Fang Mu frowned.

“The opportunity you have today was fought for by your father and grandfather, otherwise, you would be heading to the Royal Court with them today, would you still be here!?”

“If your father and grandfather knew what you are doing today, they would be angry!”

“If you two really do care about your father and grandfather, willing to give up the opportunity they fought for, I’ll have you sent to them right away.”

“It will also give you a chance to show your filial piety!”

Fang Mu’s words sent a chill down Gu Che and Gu Kun’s spines.

If Fang Mu really sent them to their father and grandfather, Gu Che could imagine how disappointed they would be.

He certainly hadn’t thought his actions through today.

When it came down to it, he wasn’t in a position to negotiate with the young man in front of him!

Seeing Fang Mu caused Gu Che and Gu Kun a primal fear. After all, Fang Mu had once broken the spine of his Main Battle Mystic Beast with a single punch.

Just as Gu Che and Gu Kun thought, they heard Fang Mu continue.

“If you really don’t know what to do, you two clean up the inside of this Mechanism Fortress.”

“It hasn’t been cleaned for days and there’s dust on the ground!”

Upon hearing this, Gu Che quickly grabbed Gu Kun, ready to follow Fang Mu’s instructions and thoroughly clean the Mechanism Fortress.

Just as Gu Che and Gu Kun were about to turn around and leave, Fang Mu continued.

“Since I’ve accepted the Town Rock Family as my chosen clan, I won’t let anyone from the Town Rock Family lose their lives without reason.”

“Tomorrow, someone will protect the safety of the Town Rock Family in the Royal Court!”

Having said that, Fang Mu turned and walked up the stairs.

Gu Che and Gu Kun looked at Fang Mu with delight, but all they could see was his back.

Even though Fang Mu had saved the Town Rock Family and then threatened them, Gu Che and Gu Kun felt only gratitude and joy towards Fang Mu at this moment.

Gu Che and Gu Kun hadn't been able to sleep for two days worrying about the safety of their family members.

At this moment, after confirming that their relatives were not in danger, Gu Che and Gu Kun finally felt relieved.

Gu Che understood very well that with Fang Mu's control over the Town Rock Family, there was no need for him to lie to them.

Even if Fang Mu told him now that he had never intended for the Town Rock Family to survive this operation, he wouldn't be able to do anything, he would have to endure it.

As soon as he went upstairs, Fang Mu immediately summoned Yan Yubanruo.

Yan Yubanruo had been nagging in Fang Mu's soul about the Heart Rotten Worm Squad and the Stealth Stinger Spirit, the two Undead Mystic Beasts.
