### Chapter 651: Fang Mu's Contract!\_3

Only after Qin Shao finished explaining the situation to Fang Mu did Shui Miao finally speak to Fang Mu.

"The consciousness of this Evil Spirit is resisting too strongly. I advise against refining it into a Spirit of Hero when it has a strong sense of rebellion!"

"The Evil Spirit needs a process of domestication, and I have over ten kilograms of Soul Trapping Black Crystal here."

"These Soul Trapping Black Crystals were originally intended to assist you in making Ghost Devices."

"Ah Mu, if you truly want to refine this Evil Spirit into a Spirit of Hero, I can take out these Soul Trapping Black Crystals to control this Evil Spirit."

While Shui Miao was speaking, Fang Mu had already used his Innate Divine Skill [Eye of Omniscience] to investigate this Evil Spirit.

Fang Mu usually wouldn't use the [Eye of Omniscience] to investigate powerful targets for fear they would notice him.

But this Evil Spirit was already under his control.

Even if it noticed him, it didn't matter.

With a probe, Fang Mu discovered that by using Covenant Blood Essence to contract with the Evil Spirit and assisting it with some Light Elemental Energy,

He could directly transform the Evil Spirit into the Spirit of Hero for a contract!

This was far from as difficult as Shui Miao and Qin Shao made it sound.

When Shui Miao and Fang Mu discussed making Ghost Devices, they mentioned the Soul Trapping Black Crystal.

The priority of Ghost Devices is higher than that of Spirit of Hero, Fang Mu shouldn't lose the forest for the trees!

Fang Mu released the Abdominal Territory Worm from the Purple Ice Crystal Ring, then said to Shui Miao and Qin Shao.

"Ah Shui, Aunt Shao, I also have a way to control the Evil Spirit!"

"I want to run an experiment and I hope you can give me two hours."

"If my method doesn't work, we can use the Soul Trapping Black Crystal later!"

Shui Miao nodded when she heard this.

Shui Miao knew that Fang Mu was always careful in his actions, so she didn't say anything more.

But Qin Shao couldn't help but remind Fang Mu.

"Controlling an Evil Spirit is no small matter."

"If there is a problem in the controlling process, there is a risk of being retaliated by the Evil Spirit!"

"The retaliation from the Evil Spirit can cause lifelong consequences and can shrink your existing spiritual power."

Hearing Qin Shao's reminder, Fang Mu seriously said.

"Aunt Shao, I certainly won't be careless about this kind of thing!"

Fang Mu then casually lifted the Crystal Coffin containing the Evil Spirit, which weighed thousands of pounds, and entered the secret region space of the Abdominal Territory Worm.

As long as the Abdominal Territory Worm is alive, the outside world cannot see what's happening inside its secret region space.

Fang Mu was going to use Covenant Blood Essence and Light Elemental Energy to contract with this Evil Spirit. He chose not to do it in the Mechanism Fortress,

It's because Fang Mu had secrets that he didn't want Shui Miao, Shu Liangjun, Qin Shao, and others to see.

Currently, Fang Mu's actions clearly indicated his intentions, which gave Qin Shao, Shui Miao, and Shu Liangjun a sense of Fang Mu's honesty.

This honesty is precious!

Who in this world doesn't have privacy and secrets!?

Fang Mu, as a disciple of the Founding Sect Grandmaster, must have many things that Qixing wouldn't allow him to show to others.

This honesty also represents Fang Mu's trust in them.

Whether it's Qin Shao, Shu Liangjun, or Shui Miao, all of them appreciated that Fang Mu had secrets, and the more secrets Fang Mu had, the better!

At present, the three of them have formed a beneficial partnership with Fang Mu.

Under these circumstances, the more secrets Fang Mu has, and the stronger the hidden means Qixing has,

The more benefits they can get from cooperating with Fang Mu!

Fang Mu didn't deliberately hide his strength.

Both Shui Miao and Shu Liangjun had seen the punch Fang Mu had thrown at Gu Che's earth dragon.

Fang Mu didn't flatter the Glorious Clan during the cooperation process.

Rather, it was Qin Shao representing the Glorious Clan that was seeking him.

An increase in lifespan might not even be worth ten thousand Dragon Rising Coins for an ordinary person.

But for strong individuals like Shu Liangjun, they can even exchange it for a sequence two spiritual instrument.

The stronger the position and strength of the person, the stronger their longing for life.

The Glorious Nectar, as a supplement for growth, certainly cannot be equated with an increase in lifespan in the eyes of the Glorious Clan.

So, Fang Mu didn't mind revealing some of his secrets and specialties to the Glorious Clan.

The more peculiar Fang Mu appeared, the more attention the Glorious Clan would pay to him.

Speaking of the Light Element Potion needed to refine Evil Spirits, Fang Mu really had a lot.

He had always kept those full-purity Light Element Potions high on the shelf with few opportunities to use them.

After all, Fang Mu would never use those full-purity Light Element Potions for trading with others.

To prevent the Evil Spirit from breaking free from the influence of the Evil Suppressing Lapis Silver and threatening him, Fang Mu directly punched hard at the mouth of the Evil Spirit, which was wrapped in a black material.

After three punches, the black material in the mouth of the Evil Spirit was completely peeled away.

As the Evil Spirit is a creature between physical and illusory, it can be immune to physical attacks.

Fang Mu's three punches didn't hurt the Evil Spirit, but they dazed it.

This human teenager helped him to shatter the large-scale binding of Evil Suppressing Lapis Silver. Could it be that he had come to help him break free!?

Before the Evil Spirit had a chance to react, Fang Mu had already prised open its mouth.

He dripped the Covenant Blood Essence into the mouth of the Evil Spirit.

In fact, as soon as Fang Mu pried open the mouth of the Evil Spirit, it began to resist.

But now a blood-red fog was rolling around Fang Mu. His black hair turned into long, blood-colored hair that hung over his shoulders.

The aura on Fang Mu's body caused the Evil Spirit to feel an instinctive fear.

The strength of Fang Mu's hand was something that the Evil Spirit could not break free from, no matter how hard it tried.

Once the Covenant Blood Essence entered its mouth, the Evil Spirit no longer found Fang Mu's aura terrifying. Instead, it found his aura very kind.

Just like its own mother!

Oh no, the figure in front of it should be the mother being praised by all creatures!

Chapter 652: What is the hopeless love for poppy!?!\_1

This feeling of intimacy continued to intensify, causing the Evil Spirit to stop struggling and completely focus on perceiving Fang Mu's aura.

The Evil Spirit suddenly felt that it was evolving at an indescribable speed, breaking through its own boundaries.

This rate of change is more aptly called a leap than an evolution!

Fang Mu did not know that the Evil Spirit before him would contain such dramatic intentions, but before he fed the Covenant Blood Essence to the Evil Spirit.

Fang Mu thought about the words of Shui Miao and Qin Shao.

To strengthen the spirit of the covenant, Spirit Witches from the Witch School would enhance the power of the Evil Spirit as much as possible before it transforms into a Spirit of Hero.

It was for this reason, Fang Mu opted to use Covenant Blood Essence on the Evil Spirit.

Rather than refining the Evil Spirit into a Spirit of Hero, and then use Covenant Blood Essence to form a contract with the Spirit of Hero!

Before Fang Mu entered the Abdominal Territory Worm's Secret Region Space, Huang Yuan was still rolling on the ground in agony.

The pain of losing three Guardian Beasts would not have contained itself without human intervention.

Over the course of half a day, it was impossible for Huang Yuan to recover to his normal state.

Huang Yuan was carrying all the Souls of Death collected by the Panfeng Federation. A part of these Souls of Death had already been fed to this Evil Spirit.

Fang Mu gritted his teeth and decided to give all the remaining Souls of Death to the Evil Spirit for absorption.

Including all the Souls of Death currently on Fang Mu.

Yan Yubanruo and the Undead Species Beast controlled by it, indeed needed Souls of Death for cultivation.

However, the amount of Souls of Death that Yan Yubanruo and the Undead Species Beasts can consume daily is limited.

In the exploration of the major ancient battlefield, Fang Mu could still harvest a large amount of Souls of Death.

It was enough to cover the daily consumption of Yan Yubanruo and those Undead Species Beasts.

Although Yan Yubanruo is a hoarder who keeps a close eye on Souls of Death on usual days.

Yan Yubanruo was also very sensible, knowing that Fang Mu was doing the important job of cultivating the Evil Spirit with the Souls of Death.

So Yan Yubanruo did not intervene in Fang Mu's decision or show any reluctance.

On the contrary, Yan Yubanruo returned all the Souls of Death from its small treasury to Fang Mu.

Seeing Yan Yubanruo being so understanding made Fang Mu feel very at ease.

In addition to providing the Evil Spirit with Souls of Death, Fang Mu also brought out the Blood Aged Wine.

He then poured all the Blood Aged Wine into the mouth of the Evil Spirit.

After the Blood Aged Wine entered the mouth of the Evil Spirit, a bright red glow arose from it.

The bright red glow completely wiped out the mark left by the Evil Suppressing Lapis Silver on its body in an instant.

The hard shell of the Soul Trapping Black Crystal and Soul Trapping Black Iron attached to its body was also rapidly peeled off under the erosion of the red glow.

Fang Mu saw a semi-transparent phantom of a woman appear in the Crystal Coffin in front of him.

The woman's body had tendrils coiling around her from her wrists and ankles. These tendrils were soft and weak, not entwining around each other like vines.

These tendrils converged at the woman's body, forming a fascinating red bud.

This fascinating red bud was slowly opening, yielding a captivating red glow.

There was a breathtaking scent in the red glow.

If it were not for the fact that Fang Mu has made this Evil Spirit his contract creature with the Covenant Blood Essence, Fang Mu would probably also be affected by the red glow in the bud.

The bud needed time to bloom, but this bud bloomed into a state of full bloom in a flash.

Before Fang Mu could appreciate it, a fruit sprouted from the top of the bud.

Fang Mu recognized the identity of the flowers. They had the typical structure of Opium Poppy.

Totem-like patterns were carved all over this semi-transparent woman's body.

Even as an Evil Spirit with undefined facial features, it made people think that the temperament of the Evil Spirit is like the poppy blooming on her body.

After learning about the existence of Evil Spirits, Fang Mu intentionally learned about the specifics of Evil Spirits from Shui Miao and Qin Shao.

The rating standards for Evil Spirits are the same as Void Beasts, unlike the normal rating of Guardian Beasts.

Because the expressions of power and abilities of Evil Spirits vary, it is possible that a low-grade Evil Spirit may exhibit the ability of a Sequential Guardian Beast due to its function.

Therefore, Beastmaster Alliance has decided to divide Evil Spirits into four levels, namely Low-level Evil Spirit, Intermediate Evil Spirit, Advanced Evil Spirit, and Extraordinary Evil Spirit.

These four levels from lowest to extraordinary are the divisions of Evil Spirits' abilities.

They are further divided into Soldier Evil Spirit, Commander Evil Spirit, Earth Evil Spirit, and Heavenly Evil Spirit in terms of strength.

Earth Evil Spirit and Heavenly Evil Spirit correspond to Earth Beast and Heavenly Beast respectively.

The strength of the Earth Evil Spirit corresponds to that of a Sequential Guardian Beast between the first and third.

As for the Heavenly Evil Spirit, it corresponds to the strength of the Sequential Guardian Beasts and above.

All the information Fang Mu has accessed so far does not contain records of a Sequential level or above.

But as Fang Mu's understanding of the world deepened, he was sure that there is a power above the Sequential level.

Shui Miao and Shu Liangjun dared to take charge and bring him to the Panfeng Federation for training, to explore the large ancient battlefield.

They even facilitate him to conspire a plan to clear all the opportunities inside this ancient battlefield, targeting all the other factions.

This shows that Shui Miao and Shu Liangjun likely possess power above the Sequential level.

Of course, this was just a guess from Fang Mu.

Like this Evil Spirit in front of him, it was able to control a Federation Lord like Huang Yuan with its own abilities. And, it managed to remain undiscovered by those in power, even with so many factions present.

This alone demonstrated that the ability of this Evil Spirit was at the Extraordinary Evil Spirit level.

Chapter 653: What is the hopeless love for poppy!?!\_2

Controlling a Federation with a leading ranked Guardian Beast is immensely difficult, yet this evil spirit managed to do it and did it exceptionally well.

In terms of power, Shui Miao initially ranked this evil spirit as a Handsome Rank Evil Spirit.

With the power of a Handsome Rank Evil Spirit, Fang Mu was unable to probe its data using the Eye of Omniscience.

Hence, Fang Mu couldn't accurately gauge, despite his best nurturing efforts, to what extent this Handsome Rank Evil Spirit had been enhanced.

Just then, Fang Mu suddenly felt something from within this evil spirit about to burst forth.

Upon experiencing this state, the evil spirit's craving for the Soul of Death greatly intensified.

Also, the speed at which this spirit was consuming the Soul of Death outpaced its previous rate.

A pink, mist-like substance similar to a thin veil seeped out from the evil spirit, enveloping the semi-solid form of the evil spirit.

This pink mist was very vibrant, standing out even when placed alongside a bright red, creating a sense of overshadowing intensity.

It was as if this shade of pink was now the primary color, and the bright red was secondary.

Gradually, the layers of pink mist, like flower petals, unfolded and transformed into an elaborate, light skirt.

It veiled the body of the evil spirit, covered with poppy totems.

Fang Mu was greatly ecstatic.

The “Evil Spirit Dress” typically occurs when a Handsome Rank Evil Spirit advances to become a Ground Evil Spirit.

The successful promotion to a Ground Evil Spirit was marked by the “One Crown Six Ornaments” appearing on the evil spirit’s head.

“One Crown Six Ornaments” refers to one crown and six other accessories.

The crown is worn on the head while the six ornaments don’t have specific places to be worn.

After forming the skirt, the pink mist didn’t dissipate but instead converged towards the top of the evil spirit’s head.

Currently, there were still enough Souls of Death.

After being controlled by the evil spirit, Huang Yuan had obtained hundreds of millions of Souls of Death from various major forces, with a third still unabsorbed.

Once Fang Mu acquired a Ground Evil Spirit, even without transitioning it into a Ground British Spirit, he would still command a military force equivalent to a leading ranked Guardian Beast.

To facilitate the transformation of the evil spirit before him, Fang Mu was willing to invest whatever it took.

Once Fang Mu owned a Ground Evil Spirit, even without Shui Liangjun and Shu Miao by his side, he would still have military support.

Even if his identity as a Grandmaster Disciple of the Founding Sect was exposed, with such a force, Fang Mu had nothing to fear.

Fang Mu gritted his teeth and took out a full ten thousand milliliters of Blood Aged Wine.

He chugged the entire ten thousand milliliters of Blood Aged Wine into the mouth of the evil spirit by his side.

Once the Blood Aged Wine was ingested, it accelerated the release of the pink mist from within the evil spirit.

The pink mist around the evil spirit's head condensed into a haze, with a gorgeous floral crown finally appearing on its head.

The floral crown was dazzling with hundreds, if not thousands, of poppy flowers blooming on it.

In the middle of each poppy, a pink Flower Crystal formed, emanating a pink radiance.

Next, two flower-shaped earrings appeared on the evil spirit's forehead, of the same material as the Flower Crystal, complementing the evil spirit's willow-leaf-shaped eyebrows.

Next, a pair of floral earrings appeared on its ears, with a cluster of poppy seeds hanging beneath the flowers.

Now, this evil spirit had deployed "One Crown Four Ornaments".

An hour had passed, with the Souls of Death almost completely consumed.

Fang Mu still had a good amount of Blood Aged Wine in hand.

However, without the Souls of Death for consumption, no matter how much Blood Aged Wine Fang Mu fed to the evil spirit, it was of no use.

The more Blood Aged Wine a life form consumes, the less evident its effects become.

Fang Mu didn't feel burdened.

Even if the evolution of this evil spirit were to stop here, an evil spirit with "One Crown Four Ornaments" could at least match the power of a fourth-ranked Guardian Beast.

However, this evil spirit did not disappoint Fang Mu, as a floral necklace and a Flower Crystal Cloud Shoulder appeared on its body.

The moment the Flower Crystal Cloud Shoulder was fully formed, the aura around the evil spirit abruptly changed.

If the evil spirit hadn't been devoid of malintent towards the Abdominal Territory Worm, its aura would have ripped the worm apart from the inside out.

Of the "One Crown Six Ornaments", the last "Two Ornaments" are usually bigger and more difficult to form.

Yet, this evil spirit had succeeded.

Prior to today, Fang Mu had never imagined becoming the Contractor of a Ground Evil Spirit.

Regarding the agreement with the Ground Evil Spirit, the Covenant Blood Essence Fang Mu used to contract with the evil spirit was significantly more dominating than contracting a Spirit of Hero with spiritual power.

Spiritual power couldn't be directly used to contract with an evil spirit.

After promoting to a Ground Evil Spirit, the features of this spirit became clearer.

The face of the evil spirit was no less enchanting than the charm exuded by the totems on its body.

Perhaps this face was the most captivating feature of the evil spirit.

Just as Fang Mu was admiring the evil spirit, it opened its eyes.

It floated out of the Crystal Coffin and glided in front of Fang Mu.

Like a lady from ancient times, it elegantly curtsied before Fang Mu.

“Master, my name is Liu Xi.”

“If you do not like my name, you can give me a new one!”

Fang Mu knew that this evil spirit was likely a person from the fifth or sixth epoch, and that it wouldn’t have a deep impression of its past life.

Time had erased over ninety percent of the evil spirit’s memories, yet it was able to remember its own name.

Chapter 654: What is the hopeless love for poppy!?!\_3

Fang Mu had made contracts with many Guardian Beasts, only bestowing names upon those without the capability to name themselves.

For any Guardian Beast intelligent enough to name itself, Fang Mu always respected their choice.

Given that this Evil Spirit had maintained its name over time, Fang Mu saw no need to erase traces of its previous life after forming a contract.

“Since you have a name, there’s no need for a change.”

“The name Liu Xi is quite pleasant.”

At Fang Mu’s praise, a smile appeared on Liu Xi’s face.

Earth Evil Spirits visually seemed almost corporeal, their appearance hardly differing from that of Hero Spirits.

Evil Spirits emanated a chaotic, impure soul power while Hero Spirits emanated a pure, sanctified light elemental energy.

If both Evil Spirits and Hero Spirits were to conceal their auras, it would be challenging for a common man to discern between them.

Liu Xi had eroded Huang Yuan’s soul while controlling him.

He had obtained Huang Yuan’s knowledge from his soul.

As the Federation Lord, Huang Yuan knew several profound secrets, hence, Liu Xi had some understanding of Hero Spirits.

Upon learning that Beast Masters gradually transform Evil Spirits into Hero Spirits, Liu Xi earnestly told Fang Mu,

“Master, if feasible, I would like to maintain the form of an Evil Spirit.”

“Please, don’t use light elemental energy to transform me into a Hero Spirit.”

Hearing this, Fang Mu raised his eyebrows.

In the words of Shui Miao and Qin Shao, turning an Evil Spirit into a Hero Spirit was an excellent decision.

The Witch School had done so for years.

However, from Liu Xi, Fang Mu could clearly sense a strong reluctance towards becoming a Hero Spirit.

This strong rejection even affected the contract between Liu Xi and Fang Mu.

In Fang Mu's understanding, every being should strive for the path that is most beneficial to themselves.

The more potent the life form, the more apparent this was.

Given Liu Xi's resistance against transformation into a Hero Spirit, there must be a reason behind it.

Fang Mu looked at Liu Xi, signaling him to explain the reason.

Seeing that Fang Mu didn't forcibly transform him into a Hero Spirit, as described in Huang Yuan's knowledge, Liu Xi quickly started to explain.

"Master, an Evil Spirit forms when a powerful entity dies and their soul absorbs impurities from the ground, gradually evolving."

"This implies that the core of an Evil Spirit is chaotic and dirty."

"Dark attribute beasts generally cannot be transformed into light attribute beasts."

"Forcefully transforming a dark attribute Beast into a light attribute Beast can lead to its death."

"People generally blame it on the collision of opposing elements, but in actuality, this isn't the case."

“It’s because a Beast’s body cannot handle the sudden energy shift.”

“However, since an Evil Spirit’s soul has been tried and tested, it can withstand the collision of elements.”

“People, in order to create contracts with Evil Spirits, subconsciously decide to transform them into Hero Spirits.”

“After an Evil Spirit transforms into a Hero Spirit, the energy within their body is replaced, but their original dirty, chaotic core remains unchanged.”

“The same chaotic and dirty power continues to exist within a Hero Spirit.”

“Those who have contracted with a Hero Spirit believe that they have the upper hand and use a light element potion to remove the dirty and chaotic power.”

“It may appear to maintain the strength of the Hero Spirit.”

“But if I remain an Evil Spirit, I could continually increase my power.”

“Yet, once I’m transformed into a Hero Spirit, my chance to ascend further ceases.”

Liu Xi realized his tone had adopted an edge of resentment and quickly adjusted his emotion.

Then, he smiled apologetically at Fang Mu.

He had made his point clear to Fang Mu; regardless of the decision, he had no choice but to obey.

Fang Mu’s doubts were alleviated upon hearing Liu Xi’s words.

Previously, Fang Mu held two unresolved questions in mind.

The first one was why Qin Shao stated that Hero Spirits couldn't increase their strength.

In Fang Mu's understanding, any life form capable of bearing power can continuously evolve and progress, if the right method is discovered. This had been proven through observation.

The second one was why, considering they could contract with Hero Spirits, the Witch School would spend resources in collecting powerful Evil Spirits from ancient battlefields instead of trading these resources directly with ancient heritage clans and powerful forces for Hero Spirits.

Liu Xi's heartfelt complaint provided the best answers for Fang Mu.

Fang Mu was initially not particularly interested in Hero Spirits.

Since remaining an Evil Spirit was the best option for Liu Xi, Fang Mu had no reason to obstruct Liu Xi's future.

Doing so would be a significant loss to Fang Mu as well.

"Liu Xi, you shared a lot of information that I was previously unaware of; in that case, I won't transform you into a Hero Spirit."

As he spoke, Fang Mu massaged his temples.

According to his initial plan, he would need to occasionally use light elemental energy to cleanse Liu Xi after her transformation into a Hero Spirit, merely to maintain her strength.

But now, Liu Xi, in her state as an Earth Evil Spirit, was a heavy consumer of the Soul of Death, much like Yan Yubanruo.

If Fang Mu wanted Liu Xi to progress further, he would need to gather a considerable number of Souls of Death.

The thought of collecting billions of Souls of Death to cultivate Liu Xi overwhelmed Fang Mu.

Despite how daunting, Fang Mu, having spent his previous life engaged in academic research, was not afraid of any challenges.

Sensing Fang Mu's promise, Liu Xi's face lit up with joy.

However, unlike Yan Yubanruo's unrestrained enthusiasm, which had her throwing herself into Fang Mu's arms, Liu Xi remained quietly cheerful by his side.

"When you go out later, continue to control Huang Yuan. As the Federation Lord, he can help me control the situation."

"Liu Xi, how much do you remember from when you were alive?"

At his question, Liu Xi thought carefully for a moment before replying,

"Master, my memory is fragmented. Some scenes might trigger some dormant memories."

"I only know that in my previous life, I was a seed of the Resolute Poppy."

Hearing this, Fang Mu's eyebrows furrowed.

The seed of the Resolute Poppy, that was indeed a novel title!

Could the Resolute Poppy be a Guardian Beast that emerged during the 5-6th Epochs?

But why would a seed, being a product of a Guardian Beast, transform into an Evil Spirit?

Chapter 655 Fang Mu at the Pinnacle of the Sequential Rank!\_1

Evil spirits and undeads are different and the former is extremely special.

Usually, only powerful Beast Masters can possibly transform into evil spirits after death.

Beast Masters can only transform into undeads after their death, which clearly differentiates evil spirits from undeads.

This is why evil spirits never take on beast form.

Fang Mu originally wanted to ask about Liu Xi's situation before death, but he could genuinely feel that Liu Xi had little understanding of his previous life.

Moreover, when bringing up some things about his previous life, Liu Xi would unconsciously reveal feelings of reluctance and sadness.

This indicates that Liu Xi went through a lot in his previous life.

Just as Shu Liangjun had said, Liu Xi couldn't have been an unnamed nobody when he was alive.

If he really had been a nobody, Liu Xi couldn't have become a Handsome Rank Evil Spirit!

Fang Mu no longer pondered the meaning of the poppy fruit of the bitter infatuation, but instead asked Liu Xi aloud.

"Liu Xi, you have control over Huang Yuan. Through the soul of Huang Yuan, you must have a deep understanding of this world."

“Especially the power structure of this world.”

“What level of strength can you achieve now!?”

Hearing Fang Mu ask about his strength, Liu Xi confidently but modestly answered.

“Master, my capabilities primarily revolve around charm manipulation and control, and I’m not proficient in close-quarter physical and elemental combat.”

“In close-quarters combat, I can only barely keep up against Sequential Four assault-type Guardian Beasts.”

“When fighting a Sequential Three assault-type Guardian Beast, I’m at a disadvantage.”

“Without using my charm abilities, I might even be killed by the opponent!”

“But if I’m facing sequential Guardian Beasts, I can freely use my charm ability.”

“As long as it’s not a Sequential One Soul-System Beast, I can mostly control it!”

“When facing a Sequential One Soul-System Beast, it depends on whether my charm ability or its soul strength is stronger!”

Hearing Liu Xi’s description of his own power, Fang Mu couldn’t help but widen his eyes.

Although Ground Evil Spirits correspond to Sequential One to Sequential Three Guardian Beasts, Fang Mu hadn’t expected Liu Xi, who had just become a Ground Evil Spirit, to have the qualifications to fight a Sequential One Guardian Beast.

If it was an evil spirit or Spirit of Hero that relied on physical body and elemental energy for combat, it couldn’t reach the level Liu Xi spoke of.

But Liu Xi can control the soul of the opponent with his charm ability.

No matter what level a Guardian Beast's power reaches, its soul is always its weak point.

Liu Xi wouldn't kill his opponents in combat, but control them.

In a battle, this was akin to Fang Mu directly having two combatants of Sequential One to Sequential Three.

This made it difficult for Fang Mu to meet an opponent at this level of power.

This increase in power had surpassed Fang Mu's understanding.

If put in a martial arts novel from his previous life, Fang Mu contracting Liu Xi using the Covenant Blood Essence and Blood Aged Wine and promoting Liu Xi to a Ground Evil Spirit.

Could be likened to a martial arts nobody falling off a cliff and acquiring an opportunity at the bottom, becoming a martial arts master after coming out.

This sense of control over top-notch power made Fang Mu's heart more settled.

Many times before, Fang Mu's calmness was forced.

But afterwards, Fang Mu no longer needed to pretend to be calm.

With Liu Xi around, Fang Mu could naturally face any power that did not exceed the Sequential level.

Shu Liangjun, Shui Miao, Qin Shao and Jin Ya were all waiting outside and Fang Mu didn't keep talking to Liu Xi inside the space of the Abdominal Territory Worm's Sanctuary.

After giving Liu Xi some instructions, Fang Mu took Liu Xi and left the Sanctuary.

Liu Xi, concealing his aura as per Fang Mu's instructions, immediately retreated into Huang Yuan's body after leaving the Sanctuary.

Huang Yuan, who was originally rolling on the ground in agony, instantly got up as if nothing happened.

After giving Fang Mu a light bow, he quickly returned to the Panfeng Royal Court.

At this time, many things were waiting for Huang Yuan to handle.

Huang Yuan had been away from Panfeng Royal Court for too long and it could cause chaos within the Qingdian Clan.

As for letting Liu Xi possess Huang Yuan, Fang Mu wasn't worried that it would be detected by the Qingdian Clan or the other Beast Controlling Forces.

Liu Xi had previously taken control of Huang Yuan.

If anyone belonging to the Qingdian Clan and Beast Controlling Force had noticed that Huang Yuan was controlled by an evil spirit, they would have revealed it long ago!

Seeing this scene, Shui Miao, Shu Liangjun, and Qin Shao realized,

That Fang Mu had somehow taken control of this evil spirit, or had entered some deep cooperation with it.

If it's the former, the three could rest assured, but if it's the latter, it would be somewhat troublesome.

Evil spirits are not a group that keeps their word!

Qin Shao quickly came forward to remind Fang Mu.

While Qin Shao was advising him, Fang Mu didn't interrupt but listened attentively to Qin Shao's description of evil spirits.

Through Qin Shao's words, Fang Mu gained a deeper understanding of evil spirits.

He also learned that he should not trust any non-contracted evil spirit unless it's absolutely necessary.

Fang Mu contracted Liu Xi using the Covenant Blood Essence, Liu Xi's body contained Fang Mu's bloodline and viewed him as its master.

Fang Mu had become the most important bond in Liu Xi's heart.

Trusting Liu Xi was equivalent to trusting himself.

Fang Mu solemnly said to Qin Shao.

Chapter 656 Fang Mu at the Pinnacle of the Sequential Rank!\_2

"Aunt Shao, I thank you for your guidance and teachings!"

"However, I can assure you there won't be any problem on Huang Yuan's end!"

"Let's go, we want to gather as many Souls of Death as we can these days."

"I have a great need for Souls of Death: my master needs them for some experiments."

Fang Mu did not reveal Liu Xi's situation to Qin Shao, Shui Miao, and Shu Liangjun.

It's not that Fang Mu was wary of the three of them.

It's just that he has just met Qin Shao, and doesn't trust him enough yet.

But he does trust Shui Miao and Shu Liangjun!

Fang Mu is not one to put his cards on the table.

Your cards can only be called hidden cards when they are indeed hidden.

Once they're exposed, they become open cards!

Previously, there was a large gap in power between Fang Mu and people like Shui Miao and Shu Liangjun.

But now, Fang Mu is finally able to face them as equals on the field of power.

While leaving Yanfeng Mountain with Fang Mu, both Shui Miao and Shu Liangjun sensed a change in Fang Mu's demeanor.

Neither Shui Miao nor Shu Liangjun could put their finger on exactly what had changed about Fang Mu's demeanor.

However, upon closer examination, they could sense that he had gained a lot more confidence than before.

Could it be that Fang Mu had just contacted Master Qixing, and Qixing gave him a hidden ace!?

It seems that only this possibility could explain the changes in Fang Mu.

As expected, Qixing immediately became concerned for his precious disciple after learning about the dangerous level of this large ancient battlefield.

Everyone expected Fang Mu to require Souls of Death, whether it was Shui Miao, Shu Liangjun, or Qin Shao.

Fang Mu needs many high-end undead Guardian Beasts, so he must have a great demand for Souls of Death.

This is the best opportunity to get Souls of Death.

Obtaining Souls of Death in Rock Peak City now is much easier than elsewhere.

A large ancient battlefield that hasn't been excavated yet will produce the most souls in the first wave.

Even with other forces harvesting the spirits, there are still a large number of spirits wandering in the wilderness, ambushing any living being they may encounter.

Shu Liangjun and Shui Miao removed their Noface Star Paper masks and said to Qin Shao.

"Why don't you guard Ah Mu and Jin Ya!"

"Over the next few days, we'll try to collect as many Souls of Death as possible."

Upon hearing this, Qin Shao furrowed his brows slightly.

Fang Mu needs Souls of Death, and he also wants to go out to hunt undead beings.

Since Fang Mu has asked them for help.

Based on what Qin Shao has learned about Fang Mu recently, he knows that Fang Mu will certainly reciprocate in the end.

However, Shu Liangjun and Shui Miao spoke first, so Qin Shao was not in a position to refuse.

After all, he is still responsible for guarding Jin Ya, so Qin Shao bluntly said.

"If you two are going, then go!"

"Let's gather at the entrance of the large ancient battlefield in two days."

"While guiding Ah Mu and Xiao Ya, I'll also send out the Guardian Beasts to see if any of these spirits is excellent enough to be chosen by Ah Mu!"

Initially, Qin Shao treated Fang Mu as an equal, showing respect for him.

However, in Qin Shao's heart, Fang Mu was still a junior, a young child.

However, as he spent time with Fang Mu, Qin Shao no longer viewed him as a youngster in his heart.

When dealing with Fang Mu, Qin Shao feels that there isn't much of a difference when compared to dealing with Shui Miao and Shu Liangjun.

Even because he needs something from Fang Mu, he is actually more nervous when treating him!

Fang Mu has been calm these past few days, but Rock Peak City is in turmoil.

Because of her contract with Fang Mu, Liu Xi can communicate with him through the soul.

Through Liu Xi, Fang Mu has a clear understanding of the major Beast Taming Tribes at the scene.

The Beast Controlling Forces dwell in the deep mountains and rivers, dominating treacherous lands and resources as kings and sovereigns.

There are few occasions when they gather in the Human World.

However, at the current Panfeng Royal Court, there are more than thirty Beast Taming Tribes!

This also includes some Beast Taming Tribes who were forced to leave due to the oppression of rival clans.

Some of them, like the Luminous Snake Clan, came to Rock Peak City not solely to explore the large ancient battlefield and seek the glory of the Sage.

They came to seek opportunities to trade Supplies with humans.

These Beast Taming Tribes were able to cooperate with the Panfeng Federation because the Panfeng Federation promised to lead their people into the ancient battlefield.

And they would keep this a secret from other human forces.

In other words, they were helping these Beast Taming Tribes keep this a secret from the Ten-thousand Nations Federation.

This was exactly what these Beast Taming Tribes wanted.

Otherwise, once this was known by the Ten-thousand Nations Federation, the Federation would intervene in the Beast Taming Tribes to some extent.

The Ten-thousand Nations Federation has always been resentful towards the most renowned Grandmaster Creator's treatment of Beast Taming Tribes.

It's unclear why this is so.

Under normal circumstances, high-level creators should be friendly with Beast Taming Tribes.

The major Beast Taming Tribes have also considered maintaining a good relationship with that person in the Ten-thousand Nations Federation.

But after so many years, they haven't achieved anything.

So gradually, all Beast Taming Tribes have kept their distance from that personage, and no Beast Taming Tribe has tried to curry favor with him anymore!

Chapter 657: Fang Mu at the Pinnacle of the Sequential Rank!\_3

Under normal circumstances, as a dominator of the human federation, even if Huang Yuan went insane, he would never agree to the demands of the beast controlling forces.

The root cause of this incident was Liu Xi before being contracted by Fang Mu.

As an evil spirit, Liu Xi was manipulating Huang Yuan, and all the objectives were set to acquire the soul of death.

Under the drive of this purpose, the request Huang Yuan made with the various beast controlling forces was.

No matter how many people the beast controlling forces brought, if they wanted to deceive the Ten-thousand Nations Federation and enter the large ancient battlefield, they needed to provide four million soul of deaths.

The beast controlling forces agreed to this request without much hesitation.

Basically, every territory of the beast controlling force had large and small ancient battlefields.

Non-dark-element beasts rarely need the soul of death.

The undead beasts, which are categorized as dark-element beasts by humans, are not recognized among the beast taming tribes.

Beast controlling forces would trade with humans, but they would not trade with the dead.

So the soul of death is a mediocre resource among beast taming tribes.

Exchanging a mediocre resource for such an opportunity is an exceptionally profitable deal no matter how you calculate it!

Knowing what Liu Xi had done, Fang Mu was unsure about what to make of it for a moment.

However, the agreement Liu Xi made with the beast controlling forces could obtain around 140 million soul of deaths after taking these beast controlling forces into the ancient battlefield.

Liu Xi was simply too good at procuring provision for herself!

The series of disturbances within the Panfeng Federation were caused by Liu Xi.

But Liu Xi was merely the spark that ignited the event.

At that time, Liu Xi was completely wrapped in the soul trapping black crystal, otherwise according to the information Gu Tianfan and Gu Anxing provided to Fang Mu.

The one being controlled by Liu Xi would not be Huang Yuan, but the Grand Elder of the Qingdian Clan!

Huang Yuan wanted to feed himself to the evil spirit in order to gain power.

He softened the soul trapping black crystal with blood, which gave Liu Xi the opportunity to see the light of day again.

Even without Liu Xi, Huang Yuan's intention would eventually bring disaster to the Panfeng Federation.

Having a leader like Huang Yuan in the Panfeng Federation was truly unfortunate.

After this exploration of the large ancient battlefield, Fang Mu would arrange for the Luanyue Clan to take over the Panfeng Federation as the royal family.

Clan Zhenyan's forces were hiding in the dark, possessing the same management rights to the Panfeng Federation as the Luanyue Clan.

The situation of Clan Zhenyan fooling all the major forces will eventually be known to all the major forces.

Clan Zhenyan could not appear in the Dust World again in a short time.

The Luanyue Clan's forces, being together with Clan Zhenyan's forces, would likely bear the wrath of other forces.

But with the intervention of the Ten-thousand Nations Federation, the Luanyue Clan would undoubtedly be preserved.

As for the Liangfeng Clan, they would likely take advantage of the chaos and move deliberately away from the Panfeng Federation.

According to Huang yuan's original thoughts, he would not allow the Liangfeng Clan to leave the Panfeng Federation.

But Fang Mu had no intention of letting Liu Xi waste time on the Liangfeng Clan.

With Clan Zhenyan revealing the existence of this ancient book, all the beast controlling forces will certainly want to know the specific content of the book.

Fang Mu can perfectly allow Liu Xi to negotiate terms with all the major forces again, in order to obtain more souls of death from the hands of all the major forces.

At such a time when they can shear the wool, they must shear as much as possible!

All the beast controlling forces would have to present a large amount of soul of death in order to not lose information and fall behind the human forces.

If the Liangfeng Clan abandons their federation during this period, Fang Mu would not have to intervene in the affairs of the Liangfeng Clan after everything ends.

If the Liangfeng Clan is willing to stay in the Panfeng Federation after the event ends, or if they advise the Qingdian Clan at this critical juncture, demonstrating the responsibility of a top force in the federation,

Fang Mu would be willing to use a soul parasite ant for the Liangfeng Clan again.

In the end, the future Panfeng Federation is more or less Fang Mu's personal force.

Fang Mu, a teenager who has not yet entered college, has become the actual controller of a federation!

After advancing to Earth Evil Spirit Liu Xi, she became smarter and handled affairs more agilely.

She could think of a lot more things than before.

Under Liu Xi's calculation, all the beast controlling forces threw out 320 thousand soul of deaths unwillingly to understand the pricing of the ancient book.

In the end, the forces of Clan Zhenyan will disappear, and the content of the first six pages of the ancient book will not be spread. This has become a fact.

Therefore, Liu Xi specifically added additional terms when signing the agreement with the beast controlling forces.

Another hundred million soul of deaths were credited to the account.

Just the soul of deaths obtained from the various beast controlling forces would be enough for Liu Xi for a long time.

It completely relieved the pressure on Fang Mu.

Gu Anxing had just shown the content of the last few pages of the ancient book to the heads of the various forces.

Gu Anxing's heart was heavy while also filled with anticipation.

Gu Anxing knew that Clan Zhenyan would soon become the big villain that all the major forces would scramble to fight against.

But after doing this, Clan Zhenyan could also receive great benefits from Fang Mu.

Allowing Clan Zhenyan to fundamentally leap and become a truly powerful force in the world!

With a wave of her hand by Witch Mengsha, a tentacle blocked Gu Anxing.

Seeing this, a look of panic appeared on Gu Anxing's face.

The witch school always acted without rules, and Meng Sha could truly launch a sudden attack on him!

Gu Anxing only heard Meng Sha giggling and saying,

"Tomorrow is the time to go to the ancient battlefield."

"Why not hand over the content of the first six pages today, so we can see it clearly!"

"It won't be in vain that I protected you from the Qingdian Clan!"

Gu Anxing was very afraid that Meng Sha would detain him.

These few days, the people from the witch school had been pressuring him a lot.

If it weren't for having Fang Mu as his support, Gu Anxing would be confident.

Meng Sha might have pressured him to the point of collapse!

Thinking of this, Gu Anxing decided to trap the void Beast Witch in front of him before he disappeared!

Chapter 658: I Want You!\_1

Gu Anxing lowered his head and checked the time, seeing that there were only ten hours left until the time Shu Liangjun had agreed to disappear.

A gleam appeared in Gu Anxing's eyes.

Then, Gu Anxing put on a very fearful expression towards the Void Beast Witch, and asked in a trembling voice.

"If I hand over the content of the first six pages ahead of time, can your Witch School ensure the safety of my Zhenyan Family?"

"If your Witch School can guarantee the safety of my Zhenyan Family, we will hand them over ahead of time!"

Gu Anxing's words ignited the nerves of all the powers present.

Everyone dropped what they were doing and reserved all their elite forces around the old residence of Luanyue Family. This was not done for amusement.

The various powers were restraining each other, afraid that one power might secretly attack the Zhenyan Family.

For the vast majority of powers present, the Zhenyan Family and Luanyue Family had no room left to resist.

It was good that the Zhenyan Family was willing to hand over the contents of the first six pages ahead of time, but these six pages absolutely could not only be handed to the Witch School.

Meng Sha heard Gu Anxing's words and didn't have time to be happy before she felt the pressure from the surrounding gazes.

Although the Witch School had never been afraid of any power, Meng Sha did not want to become the target of everyone.

Meng Sha hurriedly said.

"After the Zhenyan Family provides the contents of the first six pages, our school will distribute the contents of the first six pages of ancient books."

"Everyone, please rest assured about this point!"

The Witch School had no credibility in the eyes of the powers, naturally no one was willing to believe a witch's guarantee.

Gu Anxing didn't care about that.

The greater the pressure this witch faced, the happier Gu Anxing was.

And his real revenge against this witch was still to come!

“I know that my Zhenyan family does not have the strength to escape from the Qingdian Clan’s persecution.”

“So I ask everyone to help my Zhenyan family!”

“My Zhenyan family will definitely repay this afterwards!”

Hearing Gu Anxing’s words, the leaders of the powers did not say much.

But their eyes were full of disdain towards Gu Anxing.

Seek our help!?

Your Zhenyan Family has really asked the wrong people!

Even the Poisonous Gu Villa, which holds a supervisory seat in the Ten-thousand Nations Federation, did not report this matter to the Federation.

Mentioning the Federation was just to restrain Huang Yuan.

Suing the Federation is not easy to sue!

No power is willing to stay in the Panfeng Federation afterwards to assist the Federation in the investigation.

As long as the Qingdian Clan wants to kill the Zhenyan Family, death is the only destiny for the Zhenyan Family.

None of the powers really cared about the Zhenyan Family.

If there were no other forces restraining on the side, they would have acted to seize it!

Gu Anxing took all the expressions of the leaders of the various powers into his eyes.

After the rise of the Zhenyan Family, Gu Anxing swore to let these powers know how powerful they are.

“At three in the morning tonight, that is eight hours from now, I welcome the people from the Witch School to enter the old house.”

“I will hand over the content of the first six pages to the Witch School two hours in advance.”

“At that time, I hope that the Witch School can ensure the safety of our Zhenyan Family!”

After speaking, Gu Anxing quickly walked into the old house.

By the time the people from the Witch School really entered the old house as promised, both the Zhenyan Family and the Luanyue Family had already left.

This hot potato will be thrown on the head of the Witch School.

The Witch School was speechless against the other forces.

With the strength of the Witch School, they are capable of making the people of the Zhenyan and Luanyue families disappear.

If the Witch School wants to monopolize the content of the first six pages of the ancient books, they must also make the people of the Zhenyan Family and the Luanyue Family disappear.

This Void Witch named Meng Sha has a sharp mouth, I don't know if she can clear the Witch School's name in the face of all the other powers pointing fingers!

It's said that a cornered rabbit will bite people.

Gu Anxing, as the head of the Zhenyan Family, is definitely no rabbit.

Meng Sha felt a surge of pressure but she chose not to reject Gu Anxing.

Because she knows that getting the content of the first six pages of the ancient book will give the Witch School the right to speak.

Even if the Witch School can not keep the contents of the first six pages of ancient books from the other powers, the Witch School can benefit from it.

Qin Shao was accompanied by Fang Mu and Jin Ya who were deadweight, as he hunted the undead.

This time, Qin Shao didn't let his Guardian Beast devour the Soul of Death. Instead, he collected the Souls of Death after putting them together and handed them directly to Fang Mu.

While hunting the undead, Qin Shao was also emphasizing to Fang Mu the cunning and danger of evil spirits.

Fang Mu knew that Qin Shao said so because he was afraid that he would be deceived by the evil spirit.

He was also afraid that he would attempt to contract with the evil spirit through spiritual power.

In the past, many Beast Masters were backbitten by evil spirits because they contracted with them.

They became neither human nor ghost monsters!

Fang Mu listened to Qin Shao's words seriously and did not argue with him.

Fang Mu knew Qin Shao really regarded him as a junior, otherwise there was no need to admonish him so earnestly.

Under Qin Shao's guidance, Fang Mu understood more about evil spirits.

It also made Fang Mu understand the importance of a good teacher.

Given the chance, Fang Mu really wanted to find a true teacher to guide him.

But Fang Mu's situation does not allow him to do so.

How could a disciple of a Grandmaster Creator have another Master!?

Chapter 659: What I want is you! \_2

Suddenly, Fang Mu received another message from Liu Xi in his mind.

"Master, didn't you previously ask me to pay attention to that old man accompanying a young boy!?"

"That old man is currently in the Royal Court, intending to do business with Huang Yuan."

"He wants to obtain the guest list from Huang Yuan."

"I suspect they are doing this, mostly to find you."

"What do you think..."

Knowing Fang Mu's purpose, Liu Xi would proactively inform Fang Mu when the old man was looking for Fang Mu.

If it was someone Fang Mu was not interested in who wanted to probe Fang Mu's situation, Liu Xi would take direct control or eliminate him.

To save that person from causing trouble for Fang Mu.

Upon hearing this, Fang Mu raised his eyebrows slightly. This old man was really anxious to treat his grandchild's illness!

He did not remember the words that Shui Miao had conveyed on behalf of himself.

Previously, Fang Mu, in order not to cause a commotion, even if he missed the old man who was a Grandmaster Creator and the young boy with an exceptionally unique Destiny Guardian Beast.

Fang Mu would not meet the two before exploring this large ancient battlefield.

But now, having made a pact with Liu Xi, Fang Mu was more confident.

Low profile is necessary, but Fang Mu didn't need to be careful about everything.

"Liu Xi, let us first return to the hotel in the city, then you direct Huang Yuan to arrange for more contact with the powers within the city."

"Use this as an opportunity to bring us into the Royal Court, and then arrange for me to meet the old man."

Liu Xi noted down Fang Mu's request and then set to work quickly.

Fang Mu also conveyed his desire to return to the Royal Court to Qin Shao.

Qin Shao was somewhat disappointed about not being able to continue collecting Souls of Death outside the city, but he raised no objections.

After all, his collection of Souls of Death was for Fang Mu, and Fang Mu would surely understand his intentions.

Fang Mu told Liu Xi to command Huang Yuan to get in touch with more powers, many forces were invited by Huang Yuan's people into the Royal Court.

In the territories of the Panfeng Federation, people had to give some face to the Qingdian Clan.

Even the people of the Poisonous Gu Villa had accepted Huang Yuan's invitation.

The invited forces were of varying strengths, and Fang Mu, Qin Shao, Jin Ya mingled amongst them without drawing any attention.

Upon entering the Royal Court, Fang Mu's group was led by the Qingdian clan to a room.

This room was situated in the northern part of the Royal Court, while others from different powers had been led to the eastern side of the Royal Court.

The north of the Royal Court was the quietest part of it.

Huang Yuan, as the Lord of the Royal Court, had his sleeping chamber not far from this room.

These three seemed ordinary and didn't appear to be from any major powers.

Members of major powers tended to be ostentatious outside, unlike these three who hadn't stirred any waves.

This member of the Qingdian clan was deep in thought, but did not attempt to converse with Fang Mu and his group.

He hastily went to carry out Huang Yuan's following arrangements.

Being a member of the side branches, he wasn't clear about the exact situation within the clan yesterday.

But he heard that there was unrest in the Royal Court yesterday, apparently Second Master Huang Bin had rallied some Direct Line Members against some of Huang Yuan's decisions.

The matter was blown out of proportion, with Huang Bin making no attempt at hiding it.

Although it hadn't been leaked to the outside world, even the members of Qingdian Clan's side branches were all aware of it.

It made all of Qingdian Clan's members feel like a change was impending.

However, the matter was eventually concluded in a nearly miraculous way.

Huang Bin, who plotted the affair, along with the Direct Line Members of the Qingdian Clan, did not face any consequences or punishments.

Huang Yuan, the Lord of the Royal Court, was in the same high position and showed no anger.

It was as if the incident never happened.

After the incident, those Direct Line Members of the Qingdian Clan became even more loyal to Huang Yuan.

Unable to fathom what happened, this member of the Qingdian Clan's side branches did not dwell on the matter much.

After all, he was born a member of the Qingdian Clan and would die as one.

The more stable the clan was, the better it was for him.

If something really went wrong within the clan, he would be the real loser!

Fang Mu, Qin Shao, and Jin Ya had just comfortably settled into the room for less than five minutes when Liu Xi, possessed of Huang Yuan, arrived with the old man.

Through communicating with Liu Xi, Fang Mu learned that something was wrong with the young boy's body.

He was placed in the neighboring room by the old man for cultivation.

There were two possible conjectures for such a situation.

The first conjecture was that the old man was being protective of his grandson, not wishing to see the boy suffer.

The integration of the Beast Master and the Destiny Guardian Beast could be painful, causing great suffering every time the Destiny Guardian Beast becomes restless.

The second conjecture was that the old man did not want anything about his grandson's condition to be known by others, to avoid being manipulated by Fang Mu.

No matter what the old man's intentions were, Fang Mu would not mind.

Because Fang Mu already knows the young boy's condition, and intends to manipulate the old man.

He attempts to win over the old man.

Otherwise, Fang Mu would not take the risk to meet the old man when there are major plans at risk!

Jiang Weng was a bit dumbfounded.

He came to find Huang Yuan, the Dominator of the Panfeng Federation, out of necessity.

For the sake of his grandson, Jiang Tuo, being able to fuse with his Destiny Guardian Beast, Jiang Weng, despite knowing about the irregularities within the Panfeng Federation, resolutely sought out the Federation.

He did so to obtain the guest list for the Panfeng Federation from Huang Yuan.

Chapter 660: What I want is you!\_3

Jiang Weng prepared three Sequential Spiritual Instruments.

Jiang Weng thought that if he only wanted to secure a guest list from Huang Yuan, the three Sequential Spiritual Instruments would definitely be enough.

However, after learning his intention, Huang Yuan first stalled him and then directly said he could introduce him to the person he wanted to meet.

Jiang Weng couldn't remember informing Huang Yuan about his intention, could it be that Huang Yuan had been observing him all along?

And had understood his requirements from other powers!?

At present, only such a possibility could explain everything.

Jiang Weng evaluated Fang Mu, Qin Shao, and Jin Ya, wondering if Huang Yuan would deceive him.

Jiang Weng was ready to probe more deeply.

The voice that suddenly appeared in his mind was a Soul Sound Transmission.

The Beast Master who was able to send a Soul Sound Transmission to him without letting other forces present know, must be incredibly powerful!

Most of the powers that came to the Panfeng Federation were mentioned by Jiang Weng, even if he had never contacted them.

But he had no impression of the three people in front of him.

Just as Jiang Weng was about to probe further, a pleasing voice sounded in his ear.

"I previously said I'd help you after I've finished exploring this ancient battlefield, I didn't expect you to be so anxious!"

"Are you in such a hurry to find me because you want me to help the little boy by your side first?"

Fang Mu was pressed for time, so he didn't want to interact with Jiang Weng in riddles.

He directly mentioned what Jiang Weng wanted to know most, making Jiang Weng realize that he had found the correct person.

Jiang Weng's old face was first astonished, then it revealed an uncontrollable joy.

According to Fang Mu's words, Jiang Weng knew that he hadn't found the wrong person.

Next, Jiang Weng needed to confirm whether this group of people could actually help his grandson!

It's one thing for them to spot that his grandson has a problem, it's something else entirely to be able to solve it.

Jiang Weng quickly nodded and said.

“I’m bringing my grandson with me. As a grandfather, how could I not worry when my grandson is in trouble!?”

“When you said you could help Xiao Tuo solve his problem, I believe there must be an Intermediate Crafting Master or higher in your team, right!?”

While speaking, there was a hopeful expression on Jiang Weng’s face.

The problems of his grandson could only be solved by an Intermediate Crafting Master or better and require a large number of resources from above Intermediate Crafting Masters.

Jiang Weng would only be willing to continue talking with Fang Mu after confirming there was an Intermediate Crafting Master or above behind him.

If Fang Mu indicated that there was no Intermediate Crafting Masters in his team but that he had some other solution.

Jiang Weng would directly treat Fang Mu as a cheater.

Over the years of travelling with Jiang Tuo looking for solutions, Jiang Weng has been swindled more than once or twice.

Jiang Weng hated the feeling of being given a glimmer of hope, only for it to end in despair.

Looking at the hopeful expression on Jiang Weng’s face, Fang Mu couldn’t help but think of his older sister Fang Qin.

In the past, his elder sister Fang Qin was willing to give up the Frost Dragon Fish for the medicine that could stimulate his spiritual power at a low frequency.

She probably felt the same way!

Fang Mu wanted the old man to join him, but that didn't prevent him from feeling compassion towards him.

A Forging Spirit Grandmaster could adopt a superior attitude when negotiating with any power.

But this old man had lowered himself to seek help everywhere for his grandson.

Fang Mu valued family relationships, and therefore liked those who valued family and considered it important.

In response to the old man's question, Fang Mu immediately replied.

"Intermediate Crafting Masters?"

"We also have a Senior Creation Zenith Master!"

"Otherwise, how could I promise to help solve your grandson's problem!?"

While speaking, Fang Mu took out a vial of Ice Elemental Potion with a purity of 94%, and weighted it in his hand.

This was evidence for Jiang Weng of his claims.

On hearing Fang Mu's words and seeing the Ice Elemental Potion in Fang Mu's hand.

Jiang Weng's body trembled uncontrollably at that moment.

Jiang Weng quickly reached out to lean onto a table nearby.

The hope right in front of him made Jiang Weng's eyes somewhat red.

His grandson Xiao Tuo was finally rescued! Bingxiao would not disappear!

He had a few decades of life left, during which he could cultivate Xiao Tuo adequately.

He was going to ensure Xiao Tuo had a place in the world.

The other party had already proven they could help Xiao Tuo merge with his Destiny Guardian Beast, and he had to show his sincerity too.

Jiang Weng took a deep breath, and in his heart, decided no matter what request the other party made, he was going to agree.

"What should I do to enable you guys to assist Xiao Tuo merge with his Destiny Guardian Beast?"

"Currently, I don't have many Sequential Spiritual Instruments at hand."

"Considering you could figure out Xiao Tuo's situation, you should know that I kept the Destiny Guardian Beast from dissipating all this while. In this process, I've been continuously providing Xiao Tuo with Ice Elemental Potion which purity is ninety percent."

As he said this, the expression on Jiang Weng's face became more bitter.

Jiang Weng knew a Grandmaster Creator.

Jiang Weng had an old friend who was a Grandmaster Creator, and at the time when his friend was rising in rank, Jiang Weng had provided him a lot of assistance.

After this friend of Jiang Weng's became a Grandmaster Creator, he was very kind to Jiang Weng, willing to specially prepare Ice Elemental Potion for Jiang Tuo, and he only charged a very low price.

Had it not been for the fact that Jiang Weng's old friend was still a long way from becoming a Senior Creation Zenith Master, and didn't even know if he could become an Intermediate Crafting Master within his lifetime.

Jiang Tuo's problem would have been solved long ago!

Jiang Weng said these things not because he was afraid Fang Mu would make huge demands, but was afraid that he couldn't meet the demands and made Fang Mu unhappy.

And that it would lead Fang Mu to abandon helping Xiao Tuo.

Fang Mu laughed, and spoke to Jiang Weng very seriously.

"I'm not interested in your Sequential Spiritual Instruments."

"Rather than your Sequential Spiritual Instruments, I value you and your grandson's future more!"

Upon hearing these words, Jiang Weng was taken aback.

Jiang Weng speculated that Fang Mu might ask for his loyalty, but he didn't understand how to interpret Fang Mu prioritizing his grandson's future!?
