Chapter 661: Seven Catastrophe Class!_1

Any major power would not mind gaining the undivided loyalty of another Forging Spirit Grandmaster.

Currently, Jiang Weng was being courted by the people in front of him, and their requests seemed reasonable to him.

After all, he had just admitted that he didn't have many Sequential Spiritual Instruments on hand.

In this situation, he was the most valuable asset!

But what did this have to do with his grandson, Jiang Tuo?

Jiang Tuo was the individual Jiang Weng cared about the most. Fang Mu's sudden mention of Jiang Tuo had somewhat flustered him.

He looked at Fang Mu with a guarded expression.

Seeing this, Fang Mu realized that Jiang Weng might have misunderstood him, so he explained further.

“The current situation of your grandson’s Destiny Guardian Beast, Bingxiao, is due to its incomplete development.”

“As an outsider, I am aware of Bingxiao’s abilities, so you must surely know even better!”

“It’s such a waste to not use a Destiny Guardian Beast like Bingxiao to bind and contract more Ghost System Beasts.”

“Even though you are a Forging Spirit Grandmaster, you can’t afford to meet Jiang Tuo’s daily needs.”

“A human’s body, head, arms, legs, and torso can be divided into six parts.”

“Counting the eyes, the Ghost Body can contract with up to seven Ghost System Beasts!”

Having said this, Fang Mu paused briefly then added.

“The Ghost System Beasts I’m referring to are not Terror Level and Destruction Level ones, but Heaven Calamity Level ones!”

Fang Mu felt that if Jiang Tuo’s Ghost System Beasts were not optimized, it would be a waste of Bingxiao’s talent!

Upon hearing Fang Mu's words, Huang Yuan, who was controlled by Liu Xi, showed no changes in his expression.

As his contractor, Liu Xi had managed to level him up to the Earth Evil Spirit Level by leveraging two types of blood.

Given Fang Mu's abilities, Liu Xi was not surprised no matter what Fang Mu said.

In Liu Xi's heart, Fang Mu was the being with whom he'd formed the deepest bond following his awakening.

Liu Xi had unconsciously placed his hopes and bonds from his previous life upon Fang Mu.

However, Fang Mu's words clearly stunned Qin Shao, Jin Ya, and Jiang Weng.

Despite their illustrious backgrounds, Qin Shao and Jin Ya were gobsmacked by Fang Mu's plan to have Jiang Tuo contract with seven Heaven Calamity Level, ice-themed Ghost System Beasts.

Heaven-Calamity-level Ghost System Beasts were hard to find, let alone those with ice attributes!

Moreover, the resources needed to nurture seven Heaven Calamity Level ice-themed beasts were immeasurable!

Qin Shao felt that after Fang Mu laid out this plan, Jiang Weng would definitely agree, unless he was a fool.

As a Forging Spirit Grandmaster, without much savings, there was no way he could provide such excellent conditions for his grandson!

When Fang Mu said he couldn't afford Jiang Tuo's daily expenses, Jiang Weng felt somewhat displeased.

The old saying goes, 'a thin camel is bigger than a horse,' and after all, he was a Forging Spirit Grandmaster.

It wouldn't be a problem for him to have Jiang Tuo contract five or six Terror Level ice-themed Ghost System Beasts and one or two Destruction Level ones through Bingxiao, his Destiny Guardian Beast.

As for cultivation, he could create enough Sequential Spiritual Instruments in the next fifty or sixty years to raise all seven Ghost System Beasts to the Sequential Level.

He only had so many years left, so Jiang Tuo would have to fend for himself in fifty or sixty years.

'Every generation has its blessings.' Even if he tried harder, he could only do something while he was alive.

If he worried about what would happen after his death, it would be nothing more than troubling himself!

But Fang Mu suggested that Jiang Tuo contract with seven Heaven Calamity Level ice-themed Ghost System Beasts.

He wasn't even sure he would manage to gather such Ghost System Beasts in fifty or sixty years, not to mention raising them!

Nurturing Heaven Calamity Level Ghost System Beasts required resources only a Grandmaster Creator could provide!

Fang Mu valued Jiang Tuo's Destiny Guardian Beast so much that he would definitely want Jiang Tuo's loyalty.

Nobody would give away so much for someone who couldn't be completely controlled.

Faced with such a tempting offer, Jiang Weng didn't rush to accept.

Instead, he asked Fang Mu very seriously.

“We have been talking for a while, but I still don’t know which power you are from!”

Fang Mu was sure that no one could refuse the conditions he offered.

Jiang Weng was asking this because he wanted to know the nature of Fang Mu’s organization.

He definitely didn’t want to join an evil and chaotic power with his grandson Jiang Tuo.

Joining such a power would mean frequent exposure to risk.

Fang Mu didn’t directly answer Jiang Weng’s question.

Even his master, Qixing, was fake, and he had always been a lone wolf with no organization of his own.

An organization like the Jianmu Commerce Association, which was rooted in the Federation, could not be considered a power.

There was no need to fabricate an organization out of thin air to respond to Jiang Weng’s question.

“Where I come from doesn’t matter!”

“No matter which power I come from, I am the only one who can save your grandson right now!”

“I need to use a significant amount of Grandmaster Creator resources to treat your grandson, so I came with sincerity.”

“Think about it carefully!”

“If you refuse my invitation this time, I may not wish to invite you again, even if you ask me!”

Having finished speaking, Fang Mu then sat down on a chair and took a sip from his hot tea.

Chapter 662: Seven Catastrophe-Class Creatures!_2

He had an air of giving only few minutes for consideration, not to keep him waiting!

Qin Shao said nothing from aside, feeling quite amazed in her heart.

Fang Mu’s trip to the Panfeng Royal Court turned out to be directed towards recruiting a Forging Spirit Grandmaster under him!

Jiang Weng did not leave when Fang Mu made his request, but conversed with him for quite a while.

It can be taken for granted that he would agree to Fang Mu's request.

Some years ago, the Glory Clan had also contemplated recruiting a Forging Spirit Grandmaster.

The Glory Clan did succeed in recruiting a Forging Spirit Grandmaster to serve the family.

However, the Glory Clan's recruitment was far less effortless compared to what Fang Mu is now experiencing.

The resources offered by a Grandmaster Creator are indeed more compelling when setting conditions!

Upon hearing Fang Mu, Jiang Weng understood that Fang Mu was willing to let him ask more questions.

Jiang Weng made the first commitment to Fang Mu.

"I am willing to swear allegiance to you, to join your power and work for you, forging spiritual instruments based on the spiritual materials you offer!"

"Xiao Tuo is almost eighteen now, he is an adult."

"When the time comes, I will bring him to give you a response in person!"

"I want to know how you can guarantee our allegiance!?"

Allegiance is not something settled by just talking, the other party must have a way to ensure control over him.

Jiang Weng wanted to know what Fang Mu's method of controlling him and Xiao Tuo would be.

Some forces have methods of controlling subordinates that can harm them.

If Fang Mu's method would harm Xiao Tuo and affect Xiao Tuo's talents.

Then Jiang Weng would have to scrutinize the truthfulness of what Fang Mu just mentioned!

Fang Mu, intending to perfectly prepare a Heaven Calamity Ghost System Beast with ice attribute for Xiao Tuo, can't possibly harm Xiao Tuo's talents.

Upon hearing the words, Fang Mu put down the teacup and stood up, saying with a smile.

"A person nearly eighteen should indeed make a decision for his own life!"

"Be assured, I guarantee that the method of your allegiance will not do any harm."

"As long as you can assure your loyalty to me, on the contrary, you can protect your souls, and enhance the defensiveness of your souls."

"And it will not affect the parasite's use of the soul!"

Hearing Fang Mu's words, Jiang Weng felt reassured.

After Jiang Weng left, Qin Shao asked Fang Mu with a very serious tone.

"Ah Mu, are you really planning to help that young man cultivate seven Heaven Calamity Ghost System Beasts with ice attributes?"

"This is a huge investment!"

Fang Mu nodded seriously at Qin Shao's words.

During this visit to the Panfeng Federation, Fang Mu looked at one force after another, and suddenly had the idea of establishing his own power.

The secret organization Starwheel Fang Mu joined did not object to its core members joining other forces.

Fang Mu did not like those forces with large numbers of people.

In the Beastmaster world, the number of people does not necessarily yield benefits.

Fang Mu wanted to form a force of only elites.

Either you are a strong person who joins this force, or you are a person with extremely strong talent.

After Fang Mu forms his force, the members of this force will be distributed all over the world.

Each person can have a significant impact on the Main World.

And Jiang Tuo just meets Fang Mu's expectation.

Fang Mu looked at Qin Shao and nodded, saying very affirmatively.

"Aunt Shao, I indeed have such a plan!"

"Aunt Shao, if there is any news related to the Heaven Calamity Ghost System Beast with ice attributes in the future, don't forget to tell me!"

When Qin Shao saw Fang Mu's certain expression, she knew he was not joking, and spoke.

“We, the Glory Clan, currently have two Heaven Calamity Ghost System Beasts with ice attributes in hand.”

“If you need them, I can have them delivered here immediately.”

“After you have finished exploring this large ancient battlefield, you would be able to get hold of them.”

“Though these two Heaven Calamity Ghost System Beasts with ice attributes can’t be considered excellent, their abilities are quite outstanding!”

“Otherwise, we Glory Clan wouldn’t have collected these two Heaven Calamity Ghost System Beasts with ice attributes into our treasury.”

Upon hearing this, Fang Mu was overjoyed. To find Heaven Calamity Ghost System Beasts with specific attributes is not an easy task.

Fang Mu wanted to find a large number of Heaven Calamity Ghost System Beasts with ice attributes, he would definitely need to use the connections he has accumulated during this period of time.

Before Fang Mu could consider from whom he should try to obtain it, two Heaven Calamity Ghost System Beasts with ice attributes were already delivered to him.

At the level of Heaven Calamity, every Ghost System Beast is extraordinary.

However, some Ghost System Beasts have comprehensive abilities, while others have more specialized abilities.

Since a Beast Master can usually only contract one Ghost System Beast, the quality of a Ghost System Beast often depends on whether its abilities are comprehensive enough.

Jiang Tuo could contract seven Ghost System Beasts.

Seven Ghost System Beasts with the same attributes can complement each other in their abilities.

Moreover, it's already good enough to find seven Heaven Calamity Ghost System Beasts with ice attributes, where would he have room to be picky!?

"Aunt Shao, could you trouble you to send them here!"

"Personal matters aside, business is business. I wonder what you need on your end? Let me prepare for it!"

Upon hearing the words, Qin Shao didn't stand on ceremony with Fang Mu, and directly said.

"Ah Mu, I want to use these two Heaven Calamity Ghost System Beasts with ice attributes to exchange for another chance to extend life from you!"

"Do you consider this acceptable!?"

"If you think the resources provided by us are not enough, no matter how much you ask for, we Glory Clan can make it up!"

Chapter 664: The Runaway Witch! _1

One's origins define their perspective.

Perspective allows one to always make the right choices in the face of a situation.

For example, as Jiang Tuo confirmed that he would be Fang Mu's subordinate, he immediately kowtowed to Fang Mu upon meeting him.

With a serious expression, he addressed Fang Mu.

“Sir, I am deeply grateful for your assistance!”

“Thank you for giving my Destiny Guardian Beast, Bingxiao, a chance to live!”

“From now on, I pledge my loyalty to you in the form of a servant’s vow, striving to integrate into your force and become a part of it!”

Jiang Tuo’s words surprised both Jiang Weng, who had raised him since childhood, and Qin Shao.

Having grown up with Jiang Weng, this was the first time the elder noticed such a side to Jiang Tuo!

Qin Shao took another look at Jiang Tuo, Jiang Weng must have told him everything.

Without reconfirming Fang Mu’s promise upon seeing him, Jiang Tuo simply pledged his loyalty.

At such a young age, he was so clever in choosing profit. Smart people are more likely to succeed than stupid ones.

Qin Shao valued wisdom more than talent in his subordinates.

Wisdom can multiply strength at critical moments!

Fang Mu raised an eyebrow at Jiang Tuo’s words.

Fang Mu also liked smart people, dealing with them often wouldn’t be too exhausting.

Fang Mu stepped forward, assisted Jiang Tuo from the ground, and looked into his eyes with a smile.

“Now, I give you two options. First, I will give you some Ice Elemental Elixirs, you stay in the Panfeng Royal Court to absorb these elixirs, thereby accelerating Bingxiao’s full development.”

“The second option is to join me in entering the ancient battlefield. Afterwards, you would absorb the Ice Elemental Elixirs.”

“I also wish you success in merging with Bingxiao!”

Fang Mu’s choices for Jiang Tuo were meaningful.

Fang Mu didn’t care which option Jiang Tuo chose.

Even if Fang Mu gave Jiang Tuo the Ice Elemental Elixirs, he wouldn’t give many.

These Ice Elemental Elixirs wouldn’t be enough to solve Bingxiao’s problem, so Fang Mu wasn’t afraid Jiang Tuo would run away once he got the elixirs.

Currently, the Covenant Servant Soul Ant Queen was still in hibernation and could not produce new parasitic soul ants.

Fang Mu would have to wait until after the ancient battlefield exploration was over, to manipulate Jiang Tuo and Jiang Weng through parasitic soul ants.

Having lived two lives, Fang Mu understood the complexity of people’s hearts.

Except for his own relatives, under the circumstances of harboring secrets, Fang Mu wouldn’t easily trust others.

So, the control of the parasitic soul ants over the soul was the best guarantee of subordinates’ loyalty.

Faced with these subordinates whose souls were parasitized, Fang Mu would rather provide the resources he mastered.

If Jiang Tuo chose the first option, it would indicate that Jiang Tuo was only a bit clever.

With pretty words, he's still anxious to solve the Destiny Guardian Beast's situation.

If Jiang Tuo made the second option, it showed that Jiang Tuo was genuinely smart and also knew how to be a good subordinate.

Upon hearing Fang Mu's words, Jiang Tuo instinctively wanted to stay in Panfeng Royal Court to take high-purity Ice Elemental Elixirs to solve his own problems.

But then he thought of himself now being subordinate to Fang Mu.

Fang Mu was going to explore the ancient battlefield, where did his servant's duty to comply come from!?

Although he didn't have much combat power, his grandfather was indeed a strong man.

He had explored the large ancient battlefield with the man in front of him and also experienced a significant event.

This kind of event could deepen the bond between them.

Thinking of this, Jiang Tuo quickly said.

"Sir, I would rather go to the ancient battlefield with my grandfather!"

"Even if I can't help when a situation arises, I can still protect you with my body!"

Fang Mu, upon hearing this, commended Jiang Tuo with a glance, taking out two bottles of ninety-four percent pure, Ice Elemental Elixirs and placing them in Jiang Tuo's hand.

He seriously said to Jiang Tuo.

"We're about to venture into the large ancient battlefield, absorb these two Ice Elemental Elixirs first."

"In case your body reacts to the Destiny Guardian Beast after entering the ancient battlefield."

"You two stay in the Royal Court for now, and join us after arriving at the ancient battlefield."

Fang Mu took out two bottles of ninety-four percent pure Ice Elemental Elixirs and passed them to Jiang Tuo, showing Jiang Weng his attitude.

This also confirmed the authenticity of Fang Mu's words.

If there was any deception in Fang Mu's words before, he wouldn't have been able to give Jiang Tuo the Ice Elemental Elixirs now.

A stone in Jiang Weng's heart finally fell.

Fang Mu, Qin Shao, and Jin Ya left the city again, keeping a very low profile.

Currently, all major forces gathered at the gate of the Luanyue Clan's old house.

Beast Witch Mengsha, along with two Spirit Witches and a Pursuit Witch, walked into the old Luanyue Clan house with their heads held high under the watchful eyes of the various forces.

The Witch School was soon to obtain the content of the first six pages of the ancient book.

With the first six pages of the ancient book, the Witch School would be able to take the initiative and manipulate other forces.

The Witch School may not be willing to hand over the first six pages of the book, but other forces were willing to pay to get the ancient book in advance.

At this moment, the Pursuit Witch at the rear narrowed her slightly greenish eyes.

Although the Pursuit Witch had no control over Void Beasts and Spirits of Heroes, she held a high status in the Witch School.

In any action squad, the figure of a Pursuit Witch was indispensable.

Chapter 665: The Runaway Witch!_2

Luna is a member of the “Divination December” Pursuit Witches, code-named “July Cave Listening”.

Upon entering the old house of the Luanyue Clan, Luna discovered that all lifeforms within the house had gathered in the same area.

And the heartbeat of these lifeforms were unusually normal, as if nothing of concern was about to happen.

Whether it was the Zhenyan Family or the Luanyue Clan, they were all fish on the chopping board now.

No matter how open-minded the members of these two clans are, their heartbeats shouldn't be in a normal state!

Upon this thought, Luna snapped her fingers, and a white snowy owl with long ears appeared before her.

Upon hearing Luna summoning her Guardian Beast, Meng Sha and the two Spirit Witches all turned their heads and frowned at Luna.

It was clear that the three of them were expecting an explanation from Luna.

They need to know that summoning their Guardian Beast from their end could be detected by the members of the major forces standing at the door.

And they would undoubtedly be interrogated by other forces and have to provide an explanation.

The less trouble, the better. Even the Witch School should avoid becoming the target of public criticism at this time.

While directing the white Snowy Owl with its ears pricked up, listening to something, Luna explained the situation she had just investigated before speaking her mind.

“According to the situation I just investigated, I think it’s necessary to have the Listening Snowy Owl confirm the situation again.”

“I think the people of the Zhenyan Family and Luanyue Clan are acting suspiciously, we need to prepare in advance!”

Pursuit Witches, due to the nature of their profession, must always remain vigilant.

Only in a state of high vigilance could a Pursuit Witch act as the vanguard of the team to take detailed control and analysis of the situation.

Both Meng Sha and the other two Spirit Witches were well aware of Luna's abilities.

Inspecting heartbeats wasn't just the Listening Snowy Owl's ability. Luna's Destiny Guardian Beast also existed for the purpose of investigation.

If Luna's words were true, the people of the Zhenyan Family and Luanyue Clan were indeed acting strangely.

Before Meng Sha could make a decision, Luna continued with a furrowed brow.

"Not only is the heartbeat not speeding up due to anxiety, but it is slower than normal."

"This is a heartbeat that can only be produced in a state of extreme calm."

Upon hearing Luna's narration, eight tentacles abruptly extended from underneath Meng Sha's robe.

She thrust these eight tentacles down against the ground, propelling herself like a cannonball toward the attic where people were gathered.

No matter what, it is crucial to find the people first!

With the capabilities of the Luanyue Clan and the Zhenyan Family, they couldn't possibly have performed any hard-to-solve tricks.

Upon nearing the attic, Meng Sha could already feel the aura radiating from inside of it.

Just as Meng Sha was about to crash into the attic, her face, along with Luna's, instantly fell.

For they discovered that all the signs of life inside the attic had instantly disappeared!

Her tentacles immediately penetrated the wall of the attic, tearing open a large hole in the radium uranium steel wall.

Meng Sha saw no one inside the attic, and there was a half-drunk glass of tea still steaming on the table.

After a brief surprise and anger, Meng Sha suddenly felt the hair on the back of her neck stand up.

If the people from the Zhenyan Family and Luanyue Clan have abruptly disappeared, the Witch School really wouldn't be able to explain it to the other forces outside!

All the forces would assume that the Witch School has solved the people from the Zhenyan Family and Luanyue Clan, and secretly seized the first four pages of the ancient book.

This is a blame that the Witch School cannot bear!

But unless the front four pages of the ancient book are handed over, this blame cannot be removed.

But where is the Witch School going to find the content of the first six pages of the ancient book!?

As Meng Sha was contemplating the situation with a gloomy expression, Luna and the other two Spirit Witches also hurried over.

The two Spirit Witches already had a bad feeling when Luna said that the life aura inside the attic had completely disappeared.

Looking at the empty attic, the two Spirit Witches immediately set about investigating the old house of the Luanyue Clan.

The two Spirit Witches knew that time was pressing and did not investigate the things inside the old house of the Luanyue Clan.

They just wanted to check if there were any people left in the old house of the Luanyue Clan.

Even if they could find a single servant of the Luanyue Clan, it would prove the Witch School's innocence!

If the Witch School intended to seize the content of the first six pages of the ancient book, they definitely wouldn't leave any survivors.

After some investigation, the two Spirit Witches felt troubled.

Even the servants in the old house of the Luanyue Clan had been transferred!

The two Spirit Witches, who had not obtained any results, returned to the attic and relayed their findings to Meng Sha.

Meng Sha glanced at the time, at this moment the Witch School should have obtained the first four pages of the ancient book and left the old house of the Luanyue Clan.

In a few minutes, the outside forces would come looking in seeing as nobody from the Witch School had left.

Instead of waiting here for the Witch School to be settled by other forces, it would be better to hide during the chaos.

Hiding would mean admitting to the outside that the content of the first six pages was stolen by the Witch School.

But not hiding would have the same result.

The situation is tougher than people, now that things have come to this, the Witch School can only take the better option.

Rather than waiting here like a fool!

Meng Sha took a deep breath and made her decision.

Pursuit Witch Luna couldn't help speaking up.

"I don't think we need to hide and run. I can attempt to recreate the scene from within the last twenty minutes after people arrive."

Chapter 666: The Escaped Witch!_3

"Though it drains me considerably, it would vindicate our Witch School!"

Upon hearing Luna's words, Meng Sha decisively shook her head.

“Luna, I am not doubting your abilities. We have all witnessed your power and know that you are capable of retracing events.”

“But let alone whether other forces would grant you the chance to retrace the scene, we still do not know how the culprit managed to escape.”

“The perpetrators behind this operation must possess formidable power; your ability to retrace scenes might be distorted if there is someone with stronger power present in the scene.”

“Let’s go. If we don’t hide now and take the opportunity to slip away from the Luanyue Clan’s mansion, we from the Witch School will have no chance left!”

Hearing this, Luna didn’t persist. She vanished with Meng Sha and the two Spirit Witches, hiding away.

Within less than ten minutes, representatives from all major forces entered the Luanyue Clan’s mansion.

The leaders of all these forces wore extremely solemn expressions.

Not only did the members of the Witch School fail to return after entering, but after investigations it was found that members from the Zhenyan Family, the Luanyue Family, and the Witch School had all mysteriously disappeared!

The leaders of the major forces immediately reacted, ordering their members to encircle the Luanyue Family mansion.

Though initially, none of these forces chose to wait outside the Witch School, each fearing that coming late would mean missing out on spoils.

If all this was orchestrated by the Witch School, their members would have already fled amid the chaos.

All the leaders in attendance were renowned figures.

Like the Body Refinement Doctor from the Eternal Alchemy Association, the Green magician – one of the “Eight Evil Seeds” of Ancient Genesis, Mr. Zi from the Evil Heart Sect – all were figures comparable to the Void Beast Witch!

Now, they were all played by Meng Sha!

The Green magician was surrounded by a flurry of playing cards.

“I refuse to believe that amongst so many forces present, not a single one detected the presence of the Witch School!”

“Even if the Witch School intended to break through amid the chaos, they would have left traces!”

“I propose we should immediately identify these traces to determine the current whereabouts of the people from the Witch School!”

The middle-aged female leader of the Poisonous Gu Villa struck a stone pillar next to her with a punch.

Myriads of insects covered the pillar the moment her fist made contact, instantly reducing the pillar to ashes.

“Each force should dispatch a member to form a joint squad and investigate what’s left in the old mansion of the Luanyue family.”

“Maybe the Zhenyan family made a backup of the content of the first six pages of that ancient book!”

The statement of the middle-aged female leader from Poisonous Gu Villa stirred an undercurrent amongst the leaders of other forces.

Now, they could only resort to such desperate measures!

Within a brief period of less than twenty minutes, even if the Pursuit Witch were present, it would be impossible for the Witch School to rummage through the Luanyue Family's old mansion from top to bottom.

The leaders of all forces knew that letting a member from each one join a joint squad to explore the old mansion was a waste of time.

However, it was the only choice amongst a lack of alternatives.

As each force didn't trust the others, the current situation further plummeted their trust level to its lowest.

If any single force did not participate, it would not be put at ease.

At this point, Shu Liangjun had taken all the members of the Zhenyan family and the Luanyue family to Mechanism Fortress.

After consuming a large number of spiritual instrument fragments and metal spiritual materials during this period, the power of the Mechanism Fortress had been further enhanced.

Its internal area had increased significantly, with both the first and second floors each spanning an area of five hundred square meters.

By now, Fang Mu had called out the Abdominal Territory Worm at a sand dune outside the city that could shield from wind, and stepped into the Mechanism Fortress.

Fang Mu knew that by this time, Shu Liangjun would have already moved the people.

But he hadn't expected that Gu Anxing would play such a dirty trick on the Witch School right before their relocation.

While Gu Anxing's actions didn't affect Fang Mu's own plans, his plot shifted all focus onto the Witch School, leaving them to bear the pressure alone.

Without the contents of the first six pages of the ancient book, and considering the many genuine maps in Shui Miao's copied ancient book,

although these maps had been moved from the front part of the book to the back,

it was highly possible that Gu Anxing's actions would prevent the Zhenyan family from immediately becoming public enemies.

As long as the members of the Zhenyan family and the Luanyue family remained hidden, the witch school would remain suspect.

Fang Mu predicted that chaos must have ensued within Rock Peak City by now.

Fang Mu reported this situation to Liu Xi via contract, advising him to prepare in advance.

Liu Xi also dispatched core members of the Qingdian Clan to guard the outskirts of the Luanyue Family's old mansion.

To emphasize the Qingdian Clan's importance towards this issue, Liu Xi directly deployed three elders.

So that after the members of the Zhenyan family and the Luanyue family disappeared, Liu Xi could provide an explanation to the Beast Controlling Forces.

To redirect the wrath of the Beast Controlling Forces upon the people of Witch School.

Liu Xi had just received Fang Mu's message when members of the Beast Controlling Forces came looking for him.

The Beast Controlling Forces also have informants within Rock Peak City.

The group of Beast Controlling Forces was incensed.

If it hadn't been inconvenient to reveal their identities in Rock Peak City, they would have probably mobilized all forces to capture those four witches from the Witch School!

At this moment, Elder Bright Edge of the Luminous Snake Clan was also present in the Royal Court.

Upon hearing the news, for some reason, Fang Mu's face immediately flashed across his mind.

Bright Edge had a premonition that this incident might be associated with Yan Luo, the youngster he had traded with.

Though he suspected this, Bright Edge wouldn't disclose it.

First, because he had led the Luminous Snake Clan to betray the Beast Controlling Forces, and had leaked information.

Second, because Yan Luo held the key to the Luminous Snake Clan's continuation.

He had gained many benefits from trading with Yan Luo and was still looking forward to future transactions with him!

If it turned out that Yan Luo was indeed behind this affair, Elder Bright Edge would even try his best to cover up for him.

To prevent him from being targeted by other Beast Controlling Forces!

Chapter 667: Celestial Tadpole!_1

Indeed, over the years, other Beast Controlling Forces have been supplying the Luminous Snake Clan with Light Element Elixirs.

However, every Beast Controlling Force that deals with the Luminous Snake Clan is sucking the lifeblood out of the clan.

When trading with Fang Mu, a human, not only could he provide a large amount of high-purity Light Element Elixirs to the Luminous Snake Clan, but the price he offered was much cheaper than that of other Beast Controlling Forces.

Under such circumstances, even if the clan chief were here, he would surely side with Fang Mu.

Jiao Feng planned to sit by and watch the situation unfold with the Luminous Snake Clan.

However, as the ancient battlefield is about to open, not only the Beast Controlling Forces, but also the human forces cannot possibly wait until they have found the Witch School members to clarify the situation before starting their exploration of the large ancient battlefield.

So, no matter how angry they are, all forces will rush to enter the large ancient battlefield.

Having ancient records is best, but not having them doesn't hinder the exploration of the large ancient battlefield.

Anyhow, all forces are on an equal footing, being ignorant of the content of the first six pages of the ancient records.

Even if the Witch School members have stolen the content of the first six pages of the ancient records, they are unlikely to dare to enter the large ancient battlefield.

The moment other forces spot the Witch School members in the large ancient battlefield, they will become targets of a collective attack.

Jiao Feng had no plans to lead the Luminous Snake Clan further into the large ancient battlefield for exploration.

Instead, he planned to lead the rest of the Luminous Snake Clan back to their clan and explain the situation to the clan chief when other Beast Controlling Forces enter the large ancient battlefield.

Then, they would try to take as many high-quality resources as possible from the clan for trading with Fang Mu.

In the process of searching for the sage's traces, the big Beast Controlling Forces are actually competing against each other, and none of them will hold back!

Liu Xi is controlling the overall situation with Huang Yuan.

As an Earth Evil Spirit Liu Xi, he is very good at manipulating people. He controls Huang Yuan to rant and rave in the Royal Court.

He even executed three elders who went for inspection on the grounds of negligence.

Due to Liu Xi's intentions, Huang Yuan's actions soon reached the ears of all major Beast Controlling Forces and human forces.

This absolves Huang Yuan, the Federation Lord of Panfeng Federation, from suspicion.

After all, how could he be acting by using the lives of three elders in his clan as playthings!?

In the old mansion of the Luanyue Clan, a woman dressed in plain gauze and adorned with many exquisite silver ornaments walked out of the crowd.

With her movements, the silver ornaments on her body collided to produce a pleasing bell-like sound.

“Our Celestial College has developed a special type of beast called the Celestial Tadpole.”

“The Celestial Tadpole has an unparalleled ability to find objects.”

“Witch Mengsha from the Witch School has killed a lot in the city, and the tentacles of the Void Beast she controls secrete a kind of mucus.”

“If we can find the mucus from the Void Beast now, the Celestial Tadpole will be able to locate the Void Beast by following the scent!”

“Once we locate the Void Beast, we naturally locate Witch Mengsha!”

All the members of the major forces were extremely angry at this time.

The Witch School tricked them successfully, taking them as fools!

This is a disgraceful act that, if leaked, will affect the leaders of the various forces.

Even if someone really has a solution, they would fear stepping forward and becoming a target right now.

If the solution fails, they will certainly become the target of other forces' wrath.

The Celestial College people are low-profile, but the Celestial College is one of the Three Grand Academies under the Ten-thousand Nations Federation.

The Ten-thousand Nations Federation sends a Grandmaster Creator to take turns teaching in the Celestial College every year.

The Celestial Tadpole of the Celestial College is a special category beast cultivated from spiritual instruments.

In the rankings of exploration category beasts, the Celestial Tadpole is well known.

It is hard to guess the status of this woman in the Celestial College just by looking at the badge on her collar that represents her identity.

The Celestial College is a force of order and kindness, different from the chaotic and evil forces like the Evil Heart Sect, Ancient Genesis, Eternal Alchemy Association, and the Witch School.

The Celestial College recruits students for free every year to educate the world, and it is always at odds with the forces of evil.

This results in many forces present having an antagonistic relationship with the Celestial College.

However, even the leaders of the eight malicious forces such as the Green Magician and the Body Refinement Doctor have not opposed this woman's proposal at this time.

A man in a purple robe responded.

"We had a clash with the Witch School, and two of our companions were killed by the Void Beast."

"We can extract the mucus of the Void Beast from these two companions."

"Give us fifteen minutes. We have senior creators who can extract the mucus of the Void Beast!"

Listening to this, the woman decked out in silver ornaments nodded and said.

"Then we will trouble you!"

"I have long heard that the Purple Fence Group treats its people kindly, and it is indeed not a false reputation that in such circumstances, you take care of the remains of your deceased companions!"

Mr. Zi, the leader of the Evil Heart Sect, sneered upon hearing this.

"So, taking care of a companion's remains can represent a force's kindness to its people?"

"Then this kindness seems too cheap!"

The woman and the man in purple frowned upon hearing this.

The Purple Fence Group, being targeted by the Evil Heart Sect, swallowed their anger to prevent causing a scene.

But this woman didn't seem to have any intention of suppressing her anger.

Chapter 668: Celestial Tadpole!_2

"Oh? Can't this reflect an organization's affection towards its subordinates?"

"Do you mean to say that your Evil Heart Sect's complete annihilation in the fight against the Dragon Rising Federation demonstrates affection towards your subordinates!?"

"Don't forget that the orthodox authority in the world is the Ten-thousand Nations Federation. Your Evil Heart Sect is merely a reptile bred in darkness."

"You are nothing more than a Mr. Zi from the Ziyang Squad of the Evil Heart Sect."

"Even if any of those four Mr. Heis were here, they would not dare to be as audacious as you!"

“If it weren’t for my grandfather’s mercy back then, there would only be three, not four Mr. Heis in your Evil Heart Sect!”

Mr. Zi, a member of the Evil Heart Sect, was raging at the woman’s mention of the Sect’s defeat against the Dragon Rising Federation.

Not only did this operation result in a huge loss for the Evil Heart Sect, but it also disrupted their collaboration with the high-level Blood Tribe.

This incident dealt a significant blow to the Evil Heart Sect.

Having it brought up bluntly at this time was like poking at the Sect’s fresh wound, leaving no dignity for the Evil Heart Sect.

Just as Mr. Zi was about to lose his temper, the woman’s revelation of her identity caused his pupils to abruptly contract.

Could it be that the girl in front of him was the granddaughter of one of the six Grandmaster Creators on the core council of the Ten-thousand Nations Federation?!

That particular Grandmaster Creator most likely has advanced beyond the standard of Intermediate-level Grandmaster Creator and reached that of a Senior Creation Zenith Master.

The initial introduction of the girl into the Celestial College is very consistent with the style of the Ten-thousand Nations Federation.

The Ten-thousand Nations Federation has been developing its three Grand Academies for almost twenty years.

With her identity revealed, Mr. Zi’s arrogance instantly diminished.

The Evil Heart Sect had four Mr. Heis and six Mr. Zis.

The Mr. Heis presided over core affairs and were stationed at the headquarters of the Evil Heart Sect.

As for the Mr. Zis, they were tasked with leading implementation teams on the field.

It's somewhat similar to the relationship between a director and an executor in the Beastmaster Alliance of the Dragon Rising Federation.

Even if Mr. Hei and Mr. Zi were at the same level, the former was slightly more powerful.

The Ten-thousand Nations Federation was powerful, forming a tie with all major human federations, indeed could be considered as the established authority.

Over the past few centuries, the Ten-thousand Nations Federation had conducted several holy wars, each leading to the destruction of extremely powerful forces.

This had made all major forces recognise one thing: do not oppose the Ten-thousand Nations Federation.

Mr. Zi backed down and the confrontational woman stopped pushing.

Instead, she presented a silver bowl, half-filled with water and intricately carved with designs.

Within this palm-sized bowl, 99,999 waves were carved.

Each wave was clearly defined and you could see each one's shape from afar.

Eight swimming dragons were also engraved within the waves, converging towards the rim of the bowl, forming a circle of eight dragon-shaped pearls.

Spirit-smithing Masters are good at portraying intricate energy circuits, which are usually engraved within spiritual instruments.

The silver bowl before them contained an ancient aura, forming an air barrier that sealed the opening of the bowl.

This stopped the aura within the bowl from leaking out.

Anyone with discerning eyes knew that this bowl was most likely an Epoch relic discovered on some ancient battlefield.

The woman placed the bowl beside her foot, and it was only then the crowd noticed three goldfish, their tails each resembling a butterfly, swimming in the small bowl.

Their bodies, including their tails, were only about two inches long, and they released a very unique energy while swimming.

The words “Spirit Absorbing Goldfish” immediately emerged in the minds of the representatives from various forces.

The Spirit Absorbing Goldfish are a species of Guardian Beast, which were clearly documented during the fifth and sixth epochs.

Legend has it that the Spirit Absorbing Goldfish could emit Spiritual Energy, an energy that existed in the previous epoch.

Having a Spirit Absorbing Goldfish is akin to controlling the source of Spiritual Energy.

In an instant, emotions ranging from greed to envy surfaced in the eyes of the members from various forces.

Seeing the looks in everyone's eyes, Yin Qingzhi couldn't help but shake her head in helplessness.

What a harmful legend!

Indeed, the Spirit Absorbing Goldfish can release Spiritual Energy, this is no doubt.

However, the power of these three Spirit Absorbing Goldfish does not even reach the level of a Bronze-level Guardian Beast.

There's very likely a classification below the Bronze-level Guardian Beast in the fifth and sixth epochs.

The Spiritual Energy released by these three Spirit Absorbing Goldfish was barely sufficient to sustain the vitality of the nine Celestial Tadpoles, let alone enhance their power.

They were goods that seemed useful, but are not.

Because of the records about the Spirit Absorbing Goldfish in ancient books, the Ten-thousand Nations Federation paid a heavy price.

Within an ancient battlefield located in the outskirts of the Minxing Federation, 15 Epoch relics were harvested, therein a total of 37 Spirit Absorbing Goldfish were found.

Each spirit absorbing goldfish was unique in its own way and while they were on the brink of death, they were soon revived by a Master Creator within the Minxing Federation.

This Master Creator of Minxing Federation was only one step away from becoming a Grandmaster Creator, a step that had stalled him for more than 80 years.

In hope of making a breakthrough, he presented all 37 Spirit Absorbing Goldfish to the Ten-thousand Nations Federation.

He requested that the Ten-thousand Nations Federation send a Grandmaster Creator to provide him with guidance.

He also made a batch of Grandmaster Level Creator's Potion available to the strong individuals within the Minxing Federation, for auction.

The Ten-thousand Nations Federation agreed to the request of the Master Creator from the Minxing Federation and dispatched a Grandmaster Creator to the Minxing Federation.

Chapter 669: Celestial Tadpole!_3

Having thought that controlling the secret of spiritual energy with these thirty-seven Spirit Absorbing Goldfish was possible, it turned out that these goldfish were nothing but gluttons.

A large amount of the Ten-thousand Nations Federation's stockpiled spiritual energy was consumed with not a single goldfish reaching the copper level standard, releasing a negligible amount of energy.

If the Ten-thousand Nations Federation wants to reclaim their investment, these thirty-seven Spirit Absorbing Goldfish would likely need three to four hundred years.

But the goldfish's rankings are not up to the copper level, and their lifespan is only about a hundred years or so.

The Master and Grandmaster Creators of the Ten-thousand Nations Federation had agreed that the Spirit Absorbing Goldfish were nothing but spiritual energy traps and utter waste!

Otherwise, such precious resources wouldn't have ended up in Yin Qingzhi's hands.

Even if Yin Qingzhi is the granddaughter of advanced Master Creator Yin Hanrong!

All the major powers were distracted by the Spirit Absorbing Goldfish and failed to notice the nine semi-transparent Celestial Tadpoles at the bottom of the bowl.

The one thing about the Celestial Tadpoles, first, was their light color, and second, their tiny bodies, which were no bigger than a single green bean.

Yet, when they sensed a certain scent, they could track it to the extreme.

Otherwise, it would be impossible for three Spirit Absorbing Goldfish, which are beautiful but useless, to be arranged to support these Celestial Tadpoles.

The united search team had turned the old house of the Luanyue Clan upside down, no secret rooms or hidden rooms were overlooked, yet, they hadn't seen a single living person.

However, it was not entirely fruitless.

The search team found an ancient book missing its first six pages in a study room.

The leaders of the search team quickly took the ancient book.

Seeing the ancient book, everyone present, including Yin Qingzhi,

became even more certain that the disappearance of the Zhenyan Family and Luanyue Family was silenced by the Witch School.

The Witch School undoubtedly obtained the content of the first six pages.

If the Witch School had not achieved anything, they would not have let go of this ancient book.

The leaders of the major forces circulated the ancient book and confirmed that it was really the one previously shown by Gu Anxing, the Family Head of the Zhenyan Family.

The members of all the major powers had already memorized the contents of the ancient book, and there was no longer any use for this physical copy.

After Yin Qingzhi got the ancient book, she said to the bald elder behind her,

“Old Tang, why don’t you take a look to see if there’s any problem with this ancient book!”

“I always feel that the disappearance of the Zhenyan Family and Luanyue Family is too suspicious.”

“If the Witch School killed hundreds of people here, the movements of the Celestial Tadpoles in my bowl wouldn’t be this small.”

“Celestial Tadpoles hate the smell of blood, even if the bodies were well taken care of, the Celestial Tadpoles should have sunk to the bottom of the bowl!”

Upon hearing the talk, the bald elder stepped forward to take the ancient book.

The bald elder was a Forging Spirit Grandmaster. Though only at low level, he had a hundred years of experience.

His examination would be enough to find out if there was any problem with the book!

The bald elder had been with Yin Qingzhi for a while and knew she was very smart and strategic.

But she was also extremely suspicious.

When the Zhenyan Family had showcased this ancient book, he had copied it himself, but he hadn’t seen anything unusual back then.

However, the lack of a reaction from the Celestial Tadpoles was indeed strange.

It wasn't possible that the Witch School kidnapped and took away the people of Zhenyan Family and Luanyue Family, was it?

With that thought in mind, the bald elder's inspection became even more serious.

Upon examination, the bald elder found that everything about the book – the paper, the feel, the ink of the map – was fine.

The special paper would not rot no matter how many years were to pass, it could only be damaged by foreign forces.

There were no problems, but this book gave the bald elder a feeling as if he was looking at a Beast Master in disguise.

The bald elder suddenly didn't know whether it was his mind playing tricks on him, he felt uncertain.

Just then, several members of the forces who were assigned to guard outside the old house of the Luanyue Clan quickly ran over and reported,

"Huang Yuan, Lord of the Panfeng Royal Court is here. He said he wants to personally understand the situation here!"

Upon hearing the news, even Yin Qingzhi's eyebrows furrowed.

No one present had a good impression of Huang Yuan.

Everyone could see the decline of the Panfeng Federation had much to do with Huang Yuan's policies.

But this place was the Panfeng Federation's capital, Rock Peak City, it was Huang Yuan's own territory.

No one had the qualifications to stop Huang Yuan.

Even Yin Qingzhi couldn't control Huang Yuan before the Panfeng Federation was on the verge of collapse.

The Body Refinement Doctor from the Eternal Alchemy Association grinned, and two beetle-like insect beasts crawled out of his mouth.

Those who saw it immediately felt chills run down their spines.

All members of the Eternal Alchemy Association were perverts who modified their own bodies.

These modifications were even more terrifying and shocking than those made to the body invaders.

It was unknown just how many strange creatures were hiding beneath the skin of this Body Refinement Doctor!

A raspy voice, like it was coming from a pipe, emanated from the Body Refinement Doctor's mouth.

"If Huang Yuan wants to come, let him come. Who could stop him!?"

"Since someone is unsure about the ancient book, let Huang Yuan bring in some more Spirit-smithing Masters to examine this book!"

"This ancient book has been touched by us all. If there is indeed a problem, wouldn't we have noticed!?"

The people present could tell from the Body Refinement Doctor's words that his advocacy for the investigation of the book was not because he thought there was an issue with the book.

He was mocking Yin Qingzhi's superfluous actions!

Yin Qingzhi didn't bother to interact with the Body Refinement Doctor.

After all, Mr. Zi from the Evil Heart Sect was still a person.

But the Body Refinement Doctor from the Eternal Alchemy Association wasn't even a person. He was a monster who had no respect for his own body!

Yin Qingzhi didn't feel like talking to such a person.

When Yin Qingzhi's gaze shifted to Huang Yuan, for an unknown reason, she suddenly felt her Destiny Guardian Beast becoming restless.

Chapter 670: Fang Xiaomu Wielding the Sickle! _1

Just as Yin Qingzhi was about to further investigate this unease, she suddenly found that the restlessness in her Destiny Guardian Beast had disappeared.

It was as if this unease had never occurred before!

But Yin Qingzhi knew, her Destiny Guardian Beast would not have problems for no reason.

There must be a reason for the problems!

Yin Qingzhi raised her eyes and met Huang Yuan's gaze.

She originally thought that Huang Yuan, who was making eye contact with her, would look away, but Huang Yuan did not do so.

Instead, he seemed interested in sizing her up, as well as the silver bowl in front of her.

This is not right!

She represents the Celestial College this time but her origin is from the Ten-thousand Nations Federation, making her a direct line member of the federation.

With her status, she should be able to pressure Huang Yuan.

What Huang Yuan has done to the Panfeng Federation is unacceptable, even if the Ten-thousand Nations Federation would eventually not interfere with Huang Yuan's management of the Panfeng Federation.

They would still hold Huang Yuan, the lord of the Panfeng Federation, accountable.

In Huang Yuan's gaze towards her, there was not a trace of fear, only curiosity and scrutiny.

This confirmed Yin Qingzhi's suspicion that there was something wrong with Huang Yuan!

She planned to keep a close watch on Huang Yuan after entering the ancient battlefield, to determine whether Huang Yuan really had a problem.

If Huang Yuan really had a problem, Yin Qingzhi was prepared to take action directly against him.

Yin Qingzhi believed that Huang Yuan, who had messed up the Panfeng Federation, was not fit to be the dominator of the Panfeng Federation!

The presence of a large-scale ancient battlefield within the Panfeng Federation was a catastrophe but also a great opportunity for the federation.

As the saying goes, nothing can be accomplished without norms or standards. If the Panfeng Federation could seize this opportunity and make proper use of it,

The Federation's ranking in the Ten-thousand Nations Federation would rise at least 50 places in three years.

Advancing from a fourth-tier federation to the ranks of a third-tier one!

However, not only did Huang Yuan not seize this opportunity, he persecuted two families that could be called pillars in the Panfeng Federation.

How can another family work comfortably under Huang Yuan when he is slaughtering these two families?!

Huang Yuan is really committing sins!

Those people who ran out of the Panfeng Federation and fled to the surrounding federations would also bring instability to those federations.

It is very likely to cause more looting groups to spring up in other federations.

Huang Yuan stared at Yin Qingzhi for a long time, until Yin Qingzhi felt offended and was about to rebuke him.

Only then did Huang Yuan look away and chuckled.

"Since someone thinks there's a problem with this ancient volume, I'll call some Spirit-smithing Masters over to closely examine this tome."

"In the past, the Town Rock Family presented an ancient volume to all the powers present, and they all exerted pressure on our Qingdian Clan."

"If this volume is fake, you must give our Qingdian Clan an explanation, and our Panfeng Federation an explanation!"

All the members of the major powers present exclaimed upon hearing Huang Yuan's words!

At this time, Huang Yuan was actually escalating the situation!

The people of the Zhenyan Family and Luanyue Family may have been killed by the Witch School.

The first six pages of the ancient volume are in the hands of the Witch School.

You, Huang Yuan, are also a victim, and you still have the mood to stir up these matters at this time?!

No one among the members of the major powers doubted Huang Yuan.

Firstly, before this happened, Huang Yuan had not come to the scene to avoid suspicion because he was targeted by various major powers.

Deploying three elders from his family to follow up, is proof that Huang Yuan attaches importance to this matter.

When something went wrong, Huang Yuan directly dealt with the three elders, signifying Huang Yuan's anger.

Isn't Huang Yuan trying to recoup his losses from other powers?!

However, all the major powers present are not fools.

If Huang Yuan said this ancient volume is fake, no power present would believe it.

Besides, if Huang Yuan could really bring in a Spirit Forging Grandmaster, the Grandmaster, out of concern for his reputation, wouldn't lie with his eyes wide open!

The woman leading Poisonous Gu Villa was annoyed by Huang Yuan.

“You are still the king of the Panfeng Federation now. If you want the Spirit-smithing Master to appraise the ancient volume, just go ahead, no need to spout unpleasant words here!”

“If this ancient volume turns out to be fake, we will have to settle accounts with you!”

“Who knows if it’s a trap laid by you, Huang Yuan, and the powers under your command!?”

Gu Lian’s words were purely to mock Huang Yuan, and no one took what she said seriously.

Neither did Gu Lian take her words seriously.

If Huang Yuan wanted to set a trap, he definitely didn’t have the ability to do so!

If all this was deliberately designed by someone, then this person must be trying to clean out all the resources in the ancient battlefield.

To do this, you must have enough strength.

With so many competitors, no power in attendance dared to claim they could achieve this.

Huang Yuan couldn’t do it even more!

Seeing that Huang Yuan was angered by her, Gu Lian grinned, donning a very mocking expression.

But Huang Yuan insisted on summoning several Spirit-smithing Masters, including Jiang Weng.

Jiang Tuo also followed Jiang Weng.

Almost no one present didn't know Jiang Weng, as he had visited all the powers that had any strength.

But no powers could establish cooperation with Jiang Weng.

Looking at Jiang Tuo beside Jiang Weng, many heads of powers showed expressions of pity.
