

Beast Tamer 711

Chapter 711: Ghost Device: Soul-tuning Scorpion Key! _1

Yin Qingzhi was never one to tolerate wrongs without retaliating, yet at this moment, she had no choice but to avoid clashing with Chunhui.

Chunhui was well-acquainted with her grandfather, Yin Hanrong. Moreover, the latter had a fellow-disciple from the Founding sect who was well-known to Chunhui as well.

Given this relationship, Chunhui could be regarded as an elder to herself.

Even if Yin Qingzhi was unwilling to admit it, this was a point beyond dispute!

She could not strike Chunhui down.

However, if she was to engage in a conflict with Chunhui, the latter would likely not hold back against her.

The Beast-binding Hall notoriously associated with that rumored race, was far from as simple as it appeared in the Dust World!

Yin Qingzhi did not want to attract trouble for herself nor her grandfather.

Though in her heart, she had already ripped off Chunhui's head and slapped her face.

Yet Yin Qingzhi had to maintain an outward appearance of calmness.

Yin Qingzhi replied calmly.

"Elder Chun, I am not interested in the assessment on the stone platform, I just happen to have the same thoughts as you."

"Thinking that Elder Chun was going to participate in the assessment on the stone platform, I wanted to cheer for you here and admire your heroism!"

"I did not expect Elder Chun to claim that the assessment on the stone platform is not fated for you!"

No one could find fault with Yin Qingzhi's response. However, Chunhui's mouth curled up into a smile upon hearing her words.

Her eyes were full of playful intent as she looked at Yin Qingzhi.

Those familiar with Chunhui knew that this expression meant she was starting to get angry.

Chunhui's pet peeve was people bringing up her age.

Even though the term "Elder" may sound polite, to Chunhui's ears, it was no different from being called an old lady or auntie.

Even being called stinky woman would not stir as much anger in Chunhui as it did now!

There was a tense standoff between Chunhui and Yin Qingzhi, with undercurrents running deep.

Although Chunhui had made her judgment on the stone platform's assessment, some of the group leaders still attempted to explore the platform despite her words.

Yin Qingzhi found that no matter which direction she went, the Celestial Tadpole always pointed her towards the stone platform.

Yin Qingzhi considered a possibility and stared at the stone platform with a serious expression, putting away the Celestial Tadpole.

According to humanity's exploration of large ancient battlefields, the relics in these battlefields required specific conditions to be triggered.

Could it be that the appearance of the relics had something to do with the assessment on the stone platform in this large ancient battlefield!?

The Celestial Tadpole had clearly reacted to three different directions, she had rushed here because this location was closest.

According to the response of the Celestial Tadpole just now, it seems like the attractions towards the other two locations had suddenly vanished.

Yin Qingzhi turned back to ask a stooped, silver-haired old woman standing behind her.

“Elder Sun, what do you think are the chances of you breaking this chess game!?”

The silver-haired old woman, known as Elder Sun, responded by raising her hand and summoning a golden spoon.

The old woman held the spoon upside-down, its tail, shaped like a scorpion’s stinger, suddenly exposed.

“If I use the Ghost instrument Soul Scorpion Key to summon a few healthy souls and swallow them, I could have a chance to make eight moves!”

“Whether I can make the ninth move depends on fate!”

“I think the probability of surviving the ninth step does not exceed thirty percent!”

“If you ask me to try, I will do my best!”

Upon hearing this, Yin Qingzhi pondered for a moment before raising her hand and summoning a bright silver Elixir.

“This is a Soul Activation Potion that maximizes soul vitality.”

“It contains three drops of Soul Quenching Flower Juice.”

“If we use this Soul Activation Potion, Elder Sun, how much do you think it will increase our success rate!?”

Sun Kumei pondered for a moment, and replied with uncertainty.

“It could increase it to at most fifty percent!”

“Before we actually try to break the game, my estimation doesn’t matter!”

“Everyone who has tried the test has died, I can only guess.”

This left Yin Qingzhi slightly hesitant.

If Sun Kumei made such an estimate, the chance must be less than fifty percent.

Gambling with a less than fifty percent chance of success with one of her own experts was a bit risky.

Sun Kumei was an escort arranged by her grandfather, and had accompanied her growth along the way.

Yin Qingzhi had deep feelings for Sun Kumei.

Chunhui, watching from the side, figured out what was going on.

From Yin Qingzhi’s performance just now, it could be inferred that this assessment probably had a significant connection to the relic.

Despite several days of exploration inside the ancient battlefield, the prerequisite condition to trigger the appearance of the relic hadn’t been met.

It was for this reason that Chunhui followed Yin Qingzhi.

Only the Celestial Tadpole possessed by Yin Qingzhi had the ability to find relics, as far as Chunhui knew.

The other forces had not dispersed and continued to follow her for the same reason.

If this stone platform assessment truly had something to do with the relic, the reward must be exceptional!

But Chunhui did not have anyone capable of breaking the game.

If she wanted to attempt to break the game herself, she would have to pay a price and there was still no guarantee of success.

Yin Qingzhi made her decision.

“Elder Sun, a few factions had been clashing earlier, and the Souls of Life have not yet been converted into Dead Qi.”

“Why don’t you utilize the Soul Scorpion Key to collect a few healthy souls first, then you can take the Soul Activation Potion and gauge the effects!”

Chapter 712: Ghost Device: Soul-tuning Scorpion Key! _2

“If you feel that your success rate is over 60% under your assessment, then you should try to break through.”

Upon hearing these words, Sun Kumei’s soup spoon trembled in his hand, and a grey-gold Ghost Flame instantly ignited on the golden spoon.

Within the grey-gold Ghost Flame, several Scorpion Tail Shadows floated around the surrounding space.

Those who were able to enter the ancient battlefield and make it to this point, even if they didn’t possess a Ghost Device, still possessed a deep understanding of them.

The aura emitted by Sun Kumei’s Ghost Device was extremely sinister.

In the world of Beast Masters, whether it be Guardian Beasts which are aimed at the soul, spiritual instruments, or Ghost Devices, all are extremely frightful existences.

Physical and mental injuries can be recovered from, but soul injuries are extremely difficult to heal.

Many powerful Beast Masters have become incapacitated due to soul damage or curses.

Scorpion Tail Shadows were constantly shaking, as if they were hooking something from the universe into Sun Kumei’s soup spoon.

Soon, the sound of wailing came from Sun Kumei’s soup spoon.

The expressions of the people from several forces present immediately darkened.

Several leaders stepped forward and said in unison.

“Madam Yin, isn’t what you’re doing a bit inappropriate!?”

“These souls are from the strong ones within our forces, you....”

Before the leaders of these forces could finish speaking, Sun Kumei had already begun to speak.

“Our miss is easy to talk to, but I am no pushover!”

“The people from your forces are already dead. You didn’t collect their souls and now you’re complaining.”

“I can return the souls I’ve collected to you, but if you want my soul, you need to give me an equal number of live souls to make up for it!”

“There aren’t enough souls of life, I don’t mind getting more to increase the success rate!”

Sun Kumei’s voice was gloomy, and her eyes were filled with a savage light.

Scorpion Tail Shadows were blooming wildly behind Sun Kumei, and the gold-grey Ghost Flame burned more intensely than before.

Upon seeing this, the leaders of these forces immediately fell silent.

Firstly, these leaders knew that they absolutely could not offend Yin Qingzhi.

Even though Yin Qingzhi represented Celestial College, she was a direct relative of Master Yin Hanrong of the Founding Sect and belonged to the most core young generation of the Ten-thousand Nations Federation!

Secondly, the aura emitted by Sun Kumei's Ghost Device was extremely strong.

The power of the Ghost Device was established from the start, but the aura transmitted from the Ghost Device was equal to the strength of the Beast Master.

The stronger the Beast Master, the stronger the aura that can be emitted from the Ghost Device when being utilized!

Ghost Devices grow along with the strength of the Beast Master.

The leaders of these forces had no doubt that Sun Kumei would launch an attack if they continued to talk.

With two reasons preventing them from conflicting with Yin Qingzhi, these leaders were not willing to cause trouble over a few dead people.

Sun Kumei drank all the grey liquid in the spoon, and instantly, the aura of the soul inside Sun Kumei's body skyrocketed.

Sun Kumei accepted the Soul Activation Potion handed over by Yin Qingzhi.

The recipe of the Soul Activation Potion was researched and developed by Master Yin Hanrong, and only Master Yin Hanrong could concoct this potion!

Sun Kumei drank all the Soul Activation Potion.

Sun Kumei sensed the strength of her soul for a moment, and then resolutely walked toward the stone platform.

At this moment, a deep and hoarse but unusually weird sound rang out.

“You all have been waiting here for such a long time, it’s our turn now!”

“Where is the logic in you all continuously being assessed by the side of the stone platform!?”

The one who said this was the Body Refinement Doctor leading the Eternal Alchemy Association.

Mr. Zi from the Evil Heart Sect was by his side.

Meng Sha, clothed in a green robe that covered his entire body, was standing among the members of the Evil Heart Sect and the Eternal Alchemy Association.

The sudden speech by the Body Refinement Doctor and Mr. Zi was purely instigated by Liu Xi.

Otherwise, just like the other forces, the two of them would not be willing to get involved in a conflict with the Ten-thousand Nations Federation’s subordinate forces!

It would still take Fang Mu a few minutes to get here.

Liu Xi was unsure whether Sun Kumei would complete this trial.

If Sun Kumei really completes the test and wins the String Music Pendant, Fang Mu’s acquisition of two Crescent moon pendants would be exposed.

Fang Mu also wouldn’t be able to combine the String Music Pendant into a Full moon pendant.

If the String Music Pendants cannot merge into one, its ultimate benefit won’t be revealed.

The Body Refinement Doctor and Mr. Zi are both greedy men.

It didn't take much effort for Liu Xi to provoke the Body Refinement Doctor and Mr. Zi with a few words.

"Having invested so much time and resources in using Celestial Tadpole, Yin Qingzhi wouldn't mind sacrificing her subordinates to complete the test," Liu Xi said.

"Given the resources of the Ten-thousand Nations Federation, Yin Qingzhi must have discovered something significant."

"Do you think it's possible that the object relevant to this test is in fact connected to the heritage present in the subsequent ruins!?"

Liu Xi's words immediately hit a sensitive nerve with the Body Refinement Doctor and Mr. Zi.

While other forces might fear the Ten-thousand Nations Federation, neither the Evil Heart Sect nor the Eternal Alchemy Association did!

Upon seeing representatives from the Evil Heart Sect and the Eternal Alchemy Association, Chunhui promptly left Yin Qingzhi's side.

By openly separating herself from Yin Qingzhi, she seemed to be enjoying the unfolding power struggle from a safe distance.

Chunhui then exclaimed,

"Green magician, there's no point in your people trying to hide. I could smell your contaminating aura from a mile away!"

"All of you are trying to take over the stone platform and its test. No matter who takes the lead, I'm sure none of you would be pleased!"

As soon as Chunhui finished speaking, 54 green playing cards flew in from afar.

Except for those currently being tested on the stone platform, everyone within a 20-meter radius of it became targets of these luminescent green cards.

Everyone did their best to avoid the attacking playing cards, with some who were hit transforming into green slimes.

Some were instantly killed, their bodies turning into green slime balls resembling slimes.

Others managed to escape the raining playing cards.

Upon completing their attack, the playing cards neatly arranged themselves around the stone platform.

The individuals undertaking the test on the stone platform were already uneasy—this scared them even more, distracting them and making them move the wrong chess pieces.

And very soon, they fell clumsily from the stone platform.

“Since everyone wants to complete the test on the stone platform, let’s see who is the most capable,” the Green magician declared.

His appearance made Yin Qingzhi apprehensive.

Not that Ancient Genesis was more formidable than others forces, causing even the mighty Ten-thousand Nations Federation to cower.

But rather, because those from Ancient Genesis had been affected by top-grade contaminants, turning them into emotionless madmen.

And madmen are known to be reckless and fearless.

Liu Xi relayed the situation to Fang Mu.

Fang Mu heaved a sigh on the road.

Liu Xi stirring up representatives from Evil Heart Sect and the Eternal Alchemy Association to take action was according to Fang Mu's instructions.

Fang Mu could either cause multiple factions to fight, making it harder for anyone to complete the test, or risk having his Crescent moon Pendant potentially stolen by others—he chose the former.

The appearance of Ancient Genesis had turned this whole situation into a free-for-all, something that Fang Mu found deeply troublesome.

In order for Fang Mu to have a chance at taking the test, inevitably, he would have to clash with the other factions.

He had always been prepared for this eventuality.

He just hadn't expected to have to confront so many forces at once, including lunatics like Ancient Genesis.

Fang Mu had heard rumors about the Celestial Tadpole from Shui Miao.

Considering Yin Qingzhi's reaction upon seeing the Silver Bowl, there was a high likelihood that the test had a significant correlation with the ruins.

Once Fang Mu completes the test and obtains the Crescent moon pendants, this would reveal the ruins.

All the major factions would inevitably be drawn to the ruins, and no longer bother Fang Mu.

But once Fang Mu enters the ruins, owning a Crescent moon pendant makes him a potential threat to others seeking the heritage of the ruins, inevitably inviting attacks.

In this scenario, Fang Mu had no delusions of luck, for all the factions were extremely interested in the heritage of the ruins.

Fang Mu felt compelled to devise a strategy to prevent becoming a target after obtaining the Crescent moon pendant.

Chapter 713: Ms. Shuangya!_1

Fang Mu traveled while deeply thinking with a frown on his face.

After pondering for a long time, Fang Mu couldn't figure out a way to avoid being targeted by other powers.

No matter what, Fang Mu was determined to get his hands on the third crescent moon pendant!

According to the introduction in the brocade pouch, the crescent moon pendant itself has the potential to save lives.

However, to use the crescent moon pendant to save his life, he would need to crush the pendant.

This contradicted Fang Mu's goal of creating a full moon pendant.

Since he couldn't think of a solution for the time being, Fang Mu decided to stop racking his brains.

He would have to improvise when he got to the scene!

If it really came to a desperate situation, Fang Mu could reveal Meng Sha.

After he obtained the crescent moon pendant, he would have Liu Xi command Meng Sha to kidnap him and snatch the pendant we from his hands.

Meng Sha is a Void Beast Witch from the Witch School, She's not anonymous.

Meng Sha has already fooled the major powers once before.

If she seizes the crescent moon pendant in front of all the major powers again, she would undoubtedly attract a large pursuit.

If Liu Xi couldn't escape with Meng Sha under his control, he would have to abandon Meng Sha.

He would then find another suitable target from the other powers to control!

Fang Mu then relayed the situation to Shu Liangjun, Shui Miao and Qin Shao.

These three were responsible for his safety and had a right to know about the situation.

They knew of Liu Xi's existence but had no idea that he had made a pact with Liu Xi, evolving a Handsome Rank Evil Spirit into an Earth Evil Spirit in an instant.

Therefore, they did not suspect Liu Xi and assumed that Fang Mu had other plans in this large ancient battlefield.

Qin Shao treated Shu Liangjun as Fang Mu's bodyguard, but Jin Ya knew Shu Liangjun's real identity.

Shu Liangjun had absolutely nothing to do with being Fang Mu's bodyguard.

Shu Liangjun was an official member of Starwheel and was not acquainted with Fang Mu until three months ago.

A disciple of the Grandmaster Creator often has a guard during his tour outside.

Qixing gave so many resources of the Creating Sect to Fang Mu. How could they let Fang Mu go without a guard to protect him?

Most of the information must have come from Fang Mu's guard.

Shui Miao was the first to express his position.

“No matter if this test is related to the Ruins, I can guarantee your safety after you retrieve the items from the Ruins.”

“Before the other forces start to compete for the inheritance of the ruins, none of them would like to trigger a large-scale conflict. Once their members decrease, it’s equivalent to losing the qualification to compete for the inheritance.”

“However, once we enter the ruins and the inheritance is revealed, those forces will most likely form an alliance to gang up on us.”

As the Pavilion Master of the Twelve Pavilion, Shui Miao collected much information about the exploration process of various ancient battlefields.

Once a power is associated with the inheritance of the ruins, it will be kicked out of the game immediately.

Shui Miao can guarantee Fang Mu’s safety on the outside, but he could not do the same once they were inside.

In addition to human forces, there were also numerous Beast Controlling Forces hidden. These Beast Controlling Forces were also enemies.

Fang Mu nodded after hearing his words.

He had predicted the situation Shui Miao described.

In Fang Mu's past life, the players who exposed themselves first in games like Three Kingdoms Kill or Werewolf Kill were always the first to be out.

Fang Mu appreciated Shui Miao's honesty with him.

If Shui Miao was still making empty promises at this moment, Fang Mu would become uneasy instead!

Qin Shao also made the same assessment and statement as Shui Miao.

When Qin Shao made his stance with Jin Ya, he was much more cautious than Shui Miao.

Shu Liangjun suddenly said as though he thought of something.

"When we arrive, there will probably be many forces gathered here."

“Many forces have already entered the ancient battlefield for a few days and have formed complex alliances verbally.”

“At this time, every force wouldn’t mind sharing information with their allies in order to increase their chances of completing the test.”

“Judging from Yin Qingzhi’s attitude, whether this test is really related to the ruins or if Yin Qingzhi intentionally guided it this way.”

“It will motivate the forces at the scene to call on their allies.”

“After the ruins appear, they need to be infused with energy. Once the energy reaches a certain value, the ruins will open.”

“They will absorb the individuals who have infused energy into the ruins.”

“Those who haven’t infused energy into the ruins won’t be able to enter.”

“So, all the forces are fighting for the opportunity to infuse energy into the ruins.”

“The more allied forces on the scene, the stronger your force will be in the ruins.”

Shu Liangjun didn't need to explain the problem in such detail, but he thought Fang Mu didn't have any experience exploring large ancient battlefields before.

Even if Fang Mu had some understanding of the ruins from Qixing, he probably didn't know about the rules of the major forces fighting over the ruins.

So, Shu Liangjun decided to explain it to Fang Mu.

After explaining, Shu Liangjun turned the topic around.

"In fact, we can try to set up a scheme, pretending that the result of the test was stolen by a Beast Controlling Force."

"I don't know if the Luminous Snake Clan has entered the battlefield."

"Using a high-purity light element elixir as a bargaining chip to trade with Jiao Feng could be a way!"

No sooner had Shu Liangjun finished speaking than Qin Shao shook his head.

“In the ancient battlefield, Beast Controlling Forces and human forces are natural enemies, any Beast Controlling Force that cooperates with human forces will be considered a traitor by the Beast Controlling Tribes and prosecuted by the Emperor Beast Court!”

Chapter 714: Ms. Shuangya!_2

“Jiao Feng and Ah Mu are working together for the better continuation of the Luminous Snake Clan.”

“A deal with Jiao Feng would oppose his original goal. He would never agree!”

“Rather than considering an alliance with the Beast Controlling Force, we should consider an alliance with a group without plans of entering the relics.”

“Gu Lian from the Poisonous Gu Villa seems a suitable choice.”

These are some of the ideas casually suggested by Shu Liangjun and Qin Shao.

According to the information obtained by Liu Xi, the Luminous Snake Clan hasn't entered the ancient battlefield.

And as Qin Shao said, the reason Jiao Feng agreed to trade with him was out of respect for the resources of a Grandmaster Creator that he held.

During the trade, Fang Mu did try to seduce Jiao Feng, but Jiao Feng always prioritized the interests of the Luminous Snake Clan.

He was tempted, but his temptations were always secondary to his responsibilities as an elder of the Luminous Snake Clan.

Even if Jiao Feng was currently in the ancient battlefield, using Jiao Feng may end up with Fang Mu being sold out by him.

Moreover, the strength of the Luminous Snake Clan is only average among the Beast Taming Tribes and can't bear such a burden on its own.

The idea of trading with Gu Lian popped up in Fang Mu's mind, but he quickly dismissed it.

As the vice-mayor of the Poisonous Gu Villa, whether she can lead the Villa into the relic is linked to her own abilities and leadership skills.

Gu Lian would undoubtedly loathe any degradation of her leadership, which could affect her prestige in the faction.

And just as Gu Lian would not easily trust Fang Mu, Fang Mu did not trust Gu Lian's assurances either.

Shu Liangjun and Qin Shao reacted with such schemes immediately upon hearing the news. How dirty can these big shots be!

Just as he had this thought, Fang Mu was suddenly taken aback.

He also thought of a similar plan. Was he also a dirty-minded guy!?

With this thought, Fang Mu shook his head.

As a researcher in biology with interests in life evolution, how could he have a dirty heart!

Suddenly, Fang Mu sensed a familiar, intense fluctuation of light element from a branch road next to him.

The JuYang Giant Clam spurted a water curtain to block the spreading heat.

The people on the other side of the intersection noticed the situation here and quickly retracted their aura.

A powerful and cheerful voice was heard.

“We, old friends, meet again!”

“Yan Luo, how’s your harvest in the ancient battlefield!?”

“Did you find a Guardian Beast that can produce spiritual energy!?”

“On my side, I obtained many epoch relics but didn’t find a single Guardian Beast that can produce spiritual energy!”

“This is really inconsistent with my understanding of large ancient battlefields!”

“I’ve heard that there were many Beast Controlling Force movements. Some of their tribes have a very sensitive reaction to spiritual energy.”

“Could it be that all the guardian beasts that can produce spiritual energy have been taken away by the Beast Controlling Force!?”

The speaker was Wang Xu, one of the Twelve Great Archangels of the Truth Hall.

Words uttered by Wang Xu weren’t complaints but attempts to find a mutual topic and get closer to Fang Mu.

Wang Xu had heard from other allied forces and was preparing to rush to the strange stone platform.

Relics would appear soon, and Wang Xu wanted to make some strong allies.

He had not heard of the Infinite Tower.

However, these people could still lead the way in front of the Truth Hall without any Angel Species Beast, which proved the strength of the Infinite Tower!

With this intention, Wang Xu's words were full of enthusiasm.

Otherwise, he couldn't be bothered to communicate with unfamiliar people.

Yan Luo and the people of the Infinite Tower were rushing in this direction, probably because they had also heard the news.

Hearing this, Fang Mu laughed and said.

"We all explored for the same amount of time; our harvests couldn't have differed that much."

"As for the large-scale movements of Beast Controlling Forces, we did not see them. Could any group exploring the ancient battlefield have been wiped out by the Beast Controlling Force!?"

Besides when dealing with family, Fang Mu rarely showed any notable emotional fluctuations.

Moreover, even if his emotions did fluctuate swiftly, it wouldn't show on Fang Mu's face.

Fang Mu's calm and collected demeanor greatly surprised Wang Xu, as if the collective actions of the Beastmaster Tribe did not faze him at all.

"That's not the case. After all, we are on the human federation's territory. The Ten-thousand Nations Federation always acts in a domineering manner, and the Emperor Beast Court will need to cooperate with human forces.""

"The Emperor Beast Court will not allow those Beastmaster Tribes to wantonly slaughter the human forces in the human federation!""

“So many Beastmaster Tribes are exploring this large ancient battlefield this time.””

“Even if these Beastmaster forces are cooperating with the Panfeng Federation, the Ten-thousand Nations Federation has no reason to hold them accountable.””

“If the Emperor Beast Court wants to continue exchanging supplies with the Ten-thousand Nations Federation, they also have to proactively offer an explanation!””

Wang Xu’s words allowed Fang Mu to once again perceive the domineering spirit of a Grandmaster Creator.

Fang Mu suddenly felt that he had been too compliant when he used his identity as a disciple of a Grandmaster Creator.

The lack of Grandmaster Creator resources in the Beastmaster forces made Fang Mu feel that if given the opportunity, he can gain a large amount of spiritual materials for development of Mu Commerce Association through cooperation with them.

He can use the resources converted from these spiritual materials to support the Infinite Tower, providing it with one tangible industry after another.

At the same time, he can also use these resources to greatly develop the Dragon Rising Federation, which would also be Fang Mu’s way of repaying them.

Seeing that Fang Mu did not respond to his words, Wang Xu cleared his throat and continued.

“Brother Yan, I believe your Infinite Tower will certainly enter the ruins. Our Truth Hall is also destined to have the corresponding qualifications.””

“I hope that we may support each other in the ruins.””

“When the inheritance shows up, we can cooperate according to the actual situation at that time.””

“I wonder what Brother Yan thinks!?””

The way Wang Xu addressed Fang Mu caused Shui Miao, Qin Shao, Jin Ya, and Shu Liangjun to display strange expressions.

The four of them were well aware of Fang Mu’s age.

A teenager who was only in his teens being addressed as “brother” by Wang Xu, a two hundred-year-old man.

If Wang Xu knew Fang Mu’s real age, he might have wanted to burrow directly into the ground!

Conversely, Fang Mu responded as if it meant nothing to him.

“It seems Wang brother understands my thoughts!””

“This kind of flexible cooperation reveals more sincerity than the so-called friendships!””

Fang Mu’s words gave Wang Xu a response and the two formed an alliance officially.

However, it remains unknown whether this kind of alliance would end up like the hypocritical sisters-in-law!

Shui Miao and Qin Shao did not interact with Truth Hall much, but Shu Liangjun was quite critical of them.

According to Shu Liangjun, people who possessed Angel Species Beasts were generally hypocrites.

Evidently, Shu Liangjun must have been screwed over by the management of Truth Hall!

Shu Liangjun wouldn't speak baselessly. There must be something wrong with Truth Hall!

Since Fang Mu and his party were traveling with Truth Hall, and it was not convenient for Shu Liangjun to speak directly to Fang Mu, he resorted to using Soul Sound Transmission instead.

"Ah Mu, the Green magician of the Ancient Genesis group, I understand completely. His top-grade pollutant has a great demand for high-purity wood element potions due to it absorbing a unique polluting source."

"They always need to find a creator to help purify the polluting energy!"

"If you want to obtain pollutants or polluting sources, the Green magician among the Eight Evil Seeds is the best target for trading!"

"Compared to the Evil Heart Sect and the Eternal Alchemy Association, people from Ancient Genesis are much easier to approach."

"People from Ancient Genesis are rational enough due to their contract with pollutants, but they can be extremely crazy in order to achieve their goals."

"We can't define Ancient Genesis with simple dichotomies of good and evil!"

"In the past five hundred years, Ancient Genesis has done quite a lot of good and evil deeds."

"In order to meet a certain goal, Ji Hong Huakui and The Judge of Destiny of Ancient Genesis once stopped a giant tsunami that could have upset hundreds of thousands of miles of land, thus saving a total of sixteen medium and small-sized federations!"

"If you are trading with the Green magician, you may try to maneuver him around."

“Ancient Genesis doesn’t enjoy a good reputation among the grandmaster creators, and few of them are willing to give face to this group of lunatics.””

“Green magician, being ranked last among the Eight Evil Seeds for slaying, has a high demand for Grandmaster Creator resources, and such resources are extremely scarce for him.””

“Whenever he sees a way to steadily acquire Grandmaster Creator resources, Green magician would firmly hold onto it!””

“The reason I was trading with Ancient Genesis and maintaining contact with them after the trade is that these lunatics treat their allies quite well.””

“I can also help you get polluting sources and pollutants, but my source is not Green magician, but Ms. Shuangya, one of the Eight Evil Seeds.””

Chapter 715 - Fragrant Orchid Swiss Fairy Butterfly!_1

"The Eight Evil Seeds in the Ancient Genesis each have relatively independent resource acquisition channels, with little overlap in these channels."

"If you want to help the Qixing Grandmaster collect a large amount of pollution sources and pollutants, I suggest you approach the Green Magician!"

Fang Mu listened attentively to Shu Liangjun’s recommendation.

He took note of the names Ji Hong Huakui, The Judge of Destiny, and Ms. Shuangya.

According to Shu Liangjun, these three, just like the Green Magician, were all part of the Eight Evil Seeds in the Ancient Genesis.

Fang Mu planned to contract with special-grade pollutants.

Common Beast Masters can only contract one type of special-grade pollutant through spiritual power.

But Fang Mu, because he uses the Covenant Blood Essence for contracting with special-grade pollutants.

As long as he has the Contracting Blood, Fang Mu would be able to contract with pollutants freely.

The pollutant Sacred Radiance Bone Fragment, a weapon type, the enhancement type Vicious Lust Silk, and the Amplification Category Hundred Eyes Rubik's Cube pollutant were the three special-grade pollutants Fang Mu currently had at his disposal.

Fang Mu was interested in all three of these special-grade pollutants due to their formidable power.

Other Beast Masters are very wary of pollutants because they erode the emotions of living bodies.

A Beast Master who contracts a pollutant gradually becomes an emotionless monster.

However, despite these consequences, some Beast Masters still decide to contract with pollutants.

The Ancient Genesis, a force specializing in contracting with pollutants, emerged because of this.

The reason being, firstly, contracting with pollutants can rapidly increase one's strength without being restricted by a Beast Master's level, unlike in the case of a Guardian Beast.

Secondly, pollutants can maximize the limitation of a Creator's resources on one's power, not needing to rely so heavily on Creator resources as high-level Beast Masters who have contracted with a Guardian Beast do!

Fang Mu believed that he may be able to cultivate a group of members contracted with pollutants after establishing the Infinite Tower.

It's not because Fang Mu couldn't afford the costs to train a Beast Master to contract a Guardian Beast with his Creator resources on hand.

Rather, even with plentiful resources, the power of a Guardian Beast has to be increased little by little and cannot be achieved all at once.

Contrarily, having contracted with pollutants, as long as there is a sufficient amount of pollutant energy and sources, one's power can be rapidly increased!

The Infinite Tower needs to be resource-intensive to quickly churn out some formidable powers who can stand on their own.

Since Fang Mu held this purpose, trading with the Ancient Genesis became necessary!

A person who's contracted with a special-grade pollutant will lose their emotions, making them extremely unstable.

But Fang Mu has offspring of the Covenant Servant Soul Ant Queen, the Soul Parasite Ant.

The Soul Parasite Ant enables Fang Mu to control the souls of every member who's contracted with a special-grade pollutant.

This ensures that Fang Mu doesn't need to worry about betrayal from the people he's brought up.

The best way to trade with the Green Magician, who's become a completely rational being after contracting with pollutants and losing their emotions, is to lay your cards on the table, showing the benefits they can gain from trading.

Fang Mu, unable to transmit messages through the soul, turned his head and winked at Shu Liangjun.

Shu Liangjun immediately understood Fang Mu's intention and transmitted another soul message to him.

"Once we arrive, I will directly negotiate with the Green Magician through Soul Sound Transmission to see if he is interested in trading."

"If he expresses interest in trading, I'll arrange for him to have a private conversation with you!"

Wang Xu was standing beside Fang Mu and could feel the interaction between Fang Mu and Shu Liangjun.

Because they were too close, Wang Xu could vaguely sense the soul fluctuations that Shu Liangjun was transmitting to Fang Mu.

It was actually Soul Sound Transmission!

Wang Xu subconsciously channeled his soul power but found that he couldn't discern the content of Shu Liangjun's Soul Sound Transmission to Fang Mu.

If he stood even further from Fang Mu and about ten meters away from Shu Liangjun and Fang Mu,

Wang Xu felt he wouldn't sense any soul fluctuations at all.

Soul Sound Transmission requires spiritual power to activate and is not related to the quality of the soul.

This suggests that the man who stood behind Fang Mu was possibly stronger than Wang Xu.

Realizing this, Wang Xu's expression became more solemn.

Wang Xu was both fortunate to have begun a collaboration with this power known as the Infinite Tower and yet also inwardly lamented.

It's one thing not to know that the other party's strength surpasses one's own.

Once known, inevitably, concessions will have to be made if a conflict arises with them.

With such strong allies by this side, it is unlikely that the Truth Hall will be able to secure the inheritance within the relic.

If the strength of the Infinite Tower had been weaker than that of the Truth Hall,

They could have used their allies to defeat strong enemies and thus weaken their ally's power when encountering enemies.

But now, it appears that the Truth Hall is likely to be the cannon fodder when facing strong enemies!

Fang Mu was unaware that Wang Xu, having sensed the Soul Sound Transmission between himself and Shu Liang Jun, had unleashed his imagination.

From the moment Fang Mu decided to head to the second test location and face other competitors, he wasn't planning to keep a low profile.

It's just that until now, no opportunity for him to display his prowess has presented itself.

Suddenly, Fang Mu heard a soft "whoosh" sound from nearby. Then, a purple-black centipede with golden patterns crawled over from the distant wall.

Upon seeing this, Shui Miao said in a low voice.

"What is the intention of the Thunder Dragon Golden Electric Centipede Clan, boldly showing up and blocking our path in the ancient battlefield inhabited by human forces instead of quietly stirring up trouble?"

"They couldn't possibly be planning to block our path and clash with us, could they!?"

Chapter 716 - Fragrant Orchid Swiss Fairy Butterfly!_2

Upon hearing the five words "Thunder Dragon Golden Electric Centipede", Fang Mu's eyebrows furrowed tightly.

Out of all the beast controlling forces, the relationship between Insect Beast forces and humans is the worst.

Thunder Dragon Golden Electric Centipede has quite a reputation among Insect Beast forces, having killed a human Master Creator before and has always been hostile towards humans.

These small clusters of seven or eight Thunder Dragon Golden Electric Centipedes were hidden in the rocky wall.

If they were not targeting Fang Mu's group, there would be no need for them to reveal themselves!

Just as Shui Miao's voice fell, a white crystal wand suddenly appeared in Wang Xu's hand.

On the top end of the White Crystal Wand, a jewel emitting a golden glow was embedded.

A string of beads hung at the handle of the wand, with seven pure white holy feathers dangling from it.

Wang Xu held the wand, stomping his left foot on the ground, and Light Elemental Energy suddenly assembled around his foot.

The Light Elemental Energy created an illusion around Wang Xu's foot, a pond constructed of white bricks and tiles.

In the pond, several statues of young girls were seated in a kneeling and praying posture on the surface of the pond, with white gold spring water gushing out from their backs.

Fang Mu had previously seen the Angel of Glowing Radiance hovering above Wang Xu's head.

Fang Mu could vaguely feel a connection between the Angel of Glowing Radiance and the pond in front of Wang Xu.

It seems that this pond is most likely the Angel of Glowing Radiance's Angel Reincarnation Pool!

Only beast masters who are about to confront a tough battle and have contracted an Angel Species Beast would summon the Angel Reincarnation Pool, for the defeated Angel Species Beast to be reincarnated.

Summoning and condensing the Angel Reincarnation Pool requires large amounts of spiritual power of the Beast Master.

From this, it is obvious that Wang Xu is prepared to confront the Thunder Dragon Golden Electric Centipede Clan.

"Touch it? We don't intend to 'touch' anything with you now!"

"We appear to hope that you can return the way you came, or choose other areas to explore."

"If you do not heed our advice, then we, the Thunder Dragon Golden Electric Centipede Clan would not mind having a 'touch' with you!"

When Wang Xu heard this and was about to speak, the rustling sound echoed again.

Five beetles, as white as jade, climbed up to the sides of those seven or eight Thunder Dragon Golden Electric Centipedes.

These five beetles raised their abdomens towards the direction of the Angel Reincarnation Pool, with their light wings on their backs opening to emit a roaring fan sound.

The Light Elemental Energy in the Angel Reincarnation Pool was suddenly sucked away by these five beetles, making the Angel Reincarnation Pool gradually blurred out.

The holy light released by the Angel of Glowing Radiance was also absorbed into the abdomen of these beetles with the energy from the Angel Reincarnation Pool.

It was as if a water pump was inserted into an artery.

The speed at which this happened was even faster than when Fang Mu was offering blood in the Blood of Abundance.

Shui Miao waved the azure folding fan in his hand, a water curtain was created above the Angel Reincarnation Pool.

This finally halted the absorption of Light Elemental Energy by these five beetles.

"You, the Holy Scorching Beetle Clan, start to act as soon as it appears, does it mean that the beast controlling forces are going to start a war with us human forces in this ancient battlefield?!"

"I'm curious to know if the Emperor Beast Court is aware of your actions!"

A soft female voice spoke out of nowhere.

"We have no intention of battling with you, Lei Yan has already expressed it clearly, as long as you change your route, we can definitely live in peace!"

"On this point, we, the Holy Scorching Beetle Clan can assure you!"

"Cai Xuan, express your opinion too!"

"We three clans are all ranked in the Beast King List, we value promises more than you humans."

Just as the voice fell, a subtle fragrance came alive in the gloomy, humid environment filled with Dead Qi.

Tender orchid grass sprouted out from the ground, and colorful orchid flowers quickly bloomed silently.

High in the sky appeared three butterflies, with illusionary wings on their backs and blue patterns on their butterfly wings.

Fang Mu knew this Beast Taming Tribe, each of the Fanglan Rui Fairy Butterfly clan could be called High-Grade Auspicious.

With the nourishment of the Fanglan Rui Fairy Butterfly's pollen, the hardest to survive orchid-type beast could also grow healthily!

The Hidden World Clan- Silkworm Cocoon Fairy Garden has been keeping good relations with the Fanglan Rui Fairy Butterfly Clan and has been supporting them for thousands of years.

The aim was for Fanglan Rui Fairy Butterfly to help Silkworm Cocoon Fairy Garden cultivate its heritage beast - Fondly Butterfly Immortal Orchid.

This ensures that the Fondly Butterfly Immortal Orchid doesn't die when being divided, and it can successfully root and sprout.

In recent years, problems have arisen in the Silkworm Cocoon Fairy Garden, causing it to decline and lose the glory it once had as a top hidden world clan.

This has allowed the Fanglan Rui Fairy Butterfly to reappear in the Dust World!

Aside from being auspicious, the Fanglan Rui Fairy Butterfly is also a top healing Insect Beast.

As long as the Fanglan Rui Fairy Butterfly is not killed, the Beast that it protects will be hard to slay.

In the future, Fang Mu plans to use his identity within the Infinite Tower to trade with the Beast Controlling Force and does not wish to become enemies with them.

However, he is certain to go and decipher the last stone platform test in front.

Fang Mu doesn't want to waste time in a deadlock with these three Beast Controlling Forces.

The Beast Controlling Forces will most likely confirm the position of the ruins and eliminate some human forces before exploring the ruins.

Several Beast Taming Tribes eliminating some human forces can effectively increase their ratio in the exploration of the ruins.

Fang Mu is considering whether to call Liu Xi over, and let Liu Xi take control of the powerful individuals of the Fanglan Rui Fairy Butterfly Clan.

Without the support of the Fanglan Rui Fairy Butterfly Clan, it wouldn't be that hard to break through the Thunder Dragon Golden Electric Centipede and the Holy Scorching Beetle Clan!

It's precisely timed for Liu Xi to control several powerful Beastmasters, which can discard blame when he obtains the inheritance later.

At this time, Qin Shao's voice sounded.

"The Emperor Beast Court has not only signed an agreement with the Ten-thousand Nations Federation, both sides need to abide by the constraints of the treaty."

"The Emperor Beast Court has also signed a unilateral treaty with the Contract Garden."

"Any Beast Controlling Force, when its life is not threatened, and its interests have not been actively infringed upon, must not battle with the direct forces of a Master Creator."

"If the direct forces of a Master Creator need help from the Beast Controlling Forces, under the premise that it does not affect the life safety and interests of the Beast Controlling Forces members, the Beast Controlling Force needs to help unconditionally!"

"The treaty signed with the Contract Garden was initially actively promoted by the Emperor Beast Court."

"Do you three tribes want to flagrantly tear up the treaty that the Emperor Beast Court signed with the Contract Garden?!"

Qin Shao's words instantly made the atmosphere on the scene weird.

Wang Xu and the others from the Truth Hall subconsciously looked towards Fang Mu and his people.

Inside the Infinite Tower, there is actually a Grandmaster Creator stationed!

There are so many forces in the world, and there are definitely not a few forces with a Grandmaster Creator stationed inside.

Most of the Grandmaster Creators, even if they join the forces, they are only nominated within this force.

Originally, Wang Xu took the initiative to make friends with Fang Mu, even calling him "Brother Yan".

This was to gain an additional ally during the exploration of the ruins.

But now, Wang Xu genuinely wanted to befriend Fang Mu.

Befriending Fang Mu is almost equivalent to obtaining a channel related to the Grandmaster Creator.

The powerful individuals from the Thunder Dragon Golden Electric Centipede, Holy Scorching Beetle, and Fanglan Rui Fairy Butterfly Beast Controlling Forces were all quite awkward.

Let alone their three tribes only ranking in the Beast King List.

Even if their forces make efforts to break into the Beast Emperor Ranking, they dare not rip up the treaty between the Emperor Beast Court and Contract Garden.

When the Emperor Beast Court actively facilitated this treaty, it was to give the Beast Controlling Forces more opportunities to obtain Grandmaster Creator resources.

This is something beneficial to all Beast Taming Tribes.

Any tribe that tears up this treaty and affects both sides' cooperation would effectively become the culprit of all Beast Controlling Forces!

No Beast Controlling Force can bear this responsibility.

Fang Mu had heard about the Contract Garden organization before.

If it is said that the Ten-thousand Nations Federation is an organization that guards the major human federations, with an official nature and a large workforce.

Any force that can influence within a human federation is considered a part of the Ten-thousand Nations Federation.

Then Contract Garden is a loose force like a private gathering.

Any Master Creator would automatically become a core member of Contract Garden, enjoying the rights of the Contract Garden, without having to fulfill any obligations.

Therefore, no Master Creator would reject Contract Garden.

Fang Mu knew about the existence of Contract Garden, but he did not know that being a member of Contract Garden had these benefits!

Chapter 717 - Which Grandmaster are you talking about!?!_1

If that's the case, then Fang Mu could use his status in the Contract Garden to take care of many things that were previously inconvenient to handle.

At least later on, the process of trading with Beast Controlling Forces would naturally start.

The Thunder Dragon Golden Electric Centipede, the Sacred Fiery Beetles, and the Fragrant Orchid Swiss Fairy Butterfly, these three Beast Controlling Forces will surely broadcast this news.

At that time, many Beast Controlling Forces will actively seek contact with him, saving him the trouble of finding ways to connect with these forces and trading resources from them!

At first, Fang Mu didn't have a clear concept of Grandmaster Creator, however, because he possessed the power of a Grandmaster Creator, he flaunted the banner of being a Grandmaster Disciple.

But later, Fang Mu met Yi Han, a rising Grandmaster Creator.

According to Fang Mu's impression, a Grandmaster Creator should be very well-off.

However, Yi Han was very poor in terms of Grandmaster Creator resources. The resources he produced were not enough for his clan members to use.

He would figure out ways to get a chance to trade Grandmaster Creator's resources from Fang Mu.

Other Grandmaster Creators also have their own forces, and there might be multiple Chosen Clans behind them.

The scarcity of Grandmaster Creator resources on the market is partly due to the deliberate actions of some Grandmaster Creators, but more often it is because Grandmaster Creator resources are indeed very scarce.

Those Grandmaster Creators, even if they get on well with Beast Controlling Forces, will not release too many Grandmaster Creator resources. It's not necessarily because they are unwilling to trade with Beast Controlling Forces.

It's quite possible that most of the Grandmaster Creator resources they have on hand are consumed within the clan and don't reach the Beast Controlling Forces.

A large number of Grandmaster Creator resources, whether poured into a human force or a Beast Controlling Force, will make that force strong in a short amount of time.

If Fang Mu were to use a large amount of Grandmaster Creator resources to trade with Beast Controlling Forces, Fang Mu would not seek equal cooperation.

Fang Mu would attempt to control the Beast Controlling Force as much as possible through Grandmaster Creator resources, and take the lead in the trade with the Beast Controlling Force.

Just like how Fang Mu is with the Luminous Snake Clan.

After a brief shock, the leader of the Sacred Fiery Beetles Clan was the first to ask.

"Do you really have a connection with the Contract Garden? Are you a force under the direct control of the Grandmaster Creator!?"

"As long as you can prove this to us, we will let you pass immediately!"

When the Sacred Fiery Beetles Clan was arranged to block the way, two expectations were born in the heart of the Sacred Fiery Beetles Clan leader, Huirong.

Either they would persuade the human force to turn back, or they would kill the stubborn human force.

This inheritance in the ruins is likely related to the legend of the Sage, it's no small matter!

Huirong never thought that the human force they were blocking would be connected to the Contract Garden.

Forcing the force related to Contract Garden to retreat could unquestionably be of great benefit for Beast Controlling Forces in exploring the ruins.

But the Sacred Fiery Beetles Clan absolutely could not be the scapegoat!

Presumably, Cai Xuan and Lei Yan had the same idea.

As for actively befriending this force associated with Contract Garden, indeed it could be beneficial for the Sacred Fiery Beetles Clan.

However, at a time when Beast Controlling Forces and the human forces are at odds with each other, it would be quite inconvenient to actively befriend them.

They could only wait until the exploration of the ancient battlefield was finished, to build rapport with this force.

Hearing this, Fang Mu said.

"I really don't know how to prove whether our Infinite Tower is related to Contract Garden."

"In the Human World, would there be any force daring to swagger around under the name of a Grandmaster Creator!?"

"As for being a directly affiliated force under the banner of a Grandmaster Creator, I can't really define that."

"Because I don't know which Grandmaster Creator you're speaking of!"

Fang Mu's words not only astonished the strong members of the Thunder Dragon Golden Electric Centipede, Sacred Fiery Beetles, and Fragrant Orchid Swiss Fairy Butterfly Clans, but also surprised Shu Liangjun, Shui Miao, Qin Shao, and Jin Ya, who considered themselves to know Fang Mu very well!

But the surprise in the hearts of the four faded quickly.

Thinking of how Fang Mu could be so extravagant with so many high-level Grandmaster Creator resources and didn't care about them at all.

It turned out that even though Fang Mu was a Qixing Grandmaster Disciple, the resources he used were not produced by a Grandmaster Creator!

Fang Mu's words made everything make sense.

At this point, Wang Xu completely regarded Fang Mu as a big shot.

A force, where at least two Grandmaster Creators are seated, is rare indeed!

The Infinite Tower has been hidden from the world, and it certainly has a profound heritage!

After saying those words, Fang Mu didn't wait for the strong members of the three beast-controlling clans in front of him, he took out a wooden box directly.

The moment the wooden box was opened, a total of thirty-six high purity elixirs emitted their unique glow.

Earth, water, fire, wind, wood, light, dark, space - eight kinds of elements, four bottles for each kind.

For each group of element elixirs, two bottles have a purity of ninety-four percent and two bottles have a purity of ninety-six percent.

In addition to these thirty-two elixirs, there are also four life elixirs.

The purity of these four life elixirs have all reached a level of ninety-six percent.

The box was closed as soon as it was opened by Fang Mu.

"This should be considered proof, right!"

Having said that, Fang Mu weighed the box in his hand, and put the box back into his Purple Ice Crystal Ring.

From the moment Fang Mu opened the box, everyone had been drawn to the elixirs in the box.

Even Qin Shao, who was from the ancient heritage clan, couldn't help but express an amazed facial expression.

Chapter 718 - Which Grandmaster are you talking about!?!_2

Especially for the Beast Controlling Force, which had always been lacking resources from the Grandmaster Creator.

In contrast, Shui Miao and Shu Liangjun did not find Fang Mu's actions particularly unusual.

Because both of them had long gotten used to Fang Mu constantly pulling out grandmaster-level potions.

This box of potions is enough to prove that Fang Mu has a lucrative relationship with a Grandmaster Creator.

If it wasn't for the direct power of the Grandmaster Creator, how could they have so many grandmaster-level potions in hand!?

Lei Yan, Huirong and Cai Xuan, with the other Beast Controlling elites of their clans, hastily made way.

The three Beast Forces, despite being at odds with the human forces, proactively interacted with Fang Mu, their attitudes exceptionally sincere.

In fact, it was impossible to see that just three minutes prior, they were leading their clans to confront Fang Mu.

If there was only one Grandmaster Creator in the Infinite Tower, the Beast Forces might have resisted forming an association with Fang Mu.

However, upon learning that the Infinite Tower not only housed more than one Grandmaster Creator but also that the level of these Grandmaster Creators was at least at the level of a Senior Creation Zenith Master

The Beast Forces could no longer restrain themselves!

Fang Mu smiled at the Beast Forces, and made a polite gesture after they had finished speaking.

"We will go ahead and explore, and anything else can be discussed after we finish exploring the ancient battlefield!"

"The Infinite Tower has always been ruthless to its enemies, but it's very good to its friends!"

"If you are willing to become friends of the Infinite Tower, I would be willing to consider your request for a partnership!"

With that, Fang Mu glanced at Wang Xu.

Wang Xu, one of the twelve Great Archangels of the Truth Hall, subconsciously averted his gaze under Fang Mu's glance.

Fang Mu raised an eyebrow and said.

"I do not care about the other human force, they are friends of the Infinite Tower, we hope you give us, the Infinite Tower, some respect."

Once done speaking, Fang Mu moved forward.

Wang Xu, caught a little off guard, hurriedly led the people of Truth Hall to follow.

Wang Xu did not expect Fang Mu to lend a hand to the Truth Hall at this time.

Fang Mu said that Truth Hall was a friend of the Infinite Tower, which made Wang Xu very happy.

He finally understood what Fang Mu meant when he said that the Infinite Tower was very good to its friends.

If Fang Mu didn't give him a hand at this time, these three Beast Controlling Forces would definitely not allow the Truth Hall to pass!

If they confronted each other, their chances of winning were slim.

After all, the Truth Hall would not send many powerhouses to explore an ancient battlefield, with only one of the twelve archangels sent.

The three Beast Forces, Lei Yan, Huirong and Cai Xuan, looked at each other and chose not to intervene.

They allowed Fang Mu with the people of Truth Hall to pass through their defenses.

The three beasts understood the words Fang Mu had just said.

Fang Mu's warning that the Infinite Tower is ruthless to its enemies is a warning to them.

If they don't respect him, they will be treated as enemies by the Infinite Tower.

Fang Mu's kindness to friends shows that if they submit to the Infinite Tower and become the so-called friends of the Infinite Tower.

There may well be opportunities for them to trade Grandmaster Creator resources with the Infinite Tower in the future.

After letting Fang Mu and his group pass, the three Beast Controlling Forces felt quite pleased.

Since the other party has agreed to converse after the exploration of the ancient battlefield, they would absolutely keep their word!

The key was to avoid any conflict with Fang Mu and his group during the exploration of the ruins.

In this exploration of the large ancient battlefield, two Beast Controlling Forces listed on the Emperor's List had arrived.

With these two Beast Controlling Forces present, the inheritance within the ruins was completely unrelated to these clans listed on the King's List.

The three Beast Forces had all made the most beneficial choices for their clans.

Unity is always relative, in the beginning, the Luminous Snake Clan chose to stand with Fang Mu from a standpoint of self-interest.

The Thunder Dragon Golden Electric Centipede, Sacred Fiery Beetles, and Fragrant Orchid Swiss Fairy Butterfly tribes made the same choice as the Luminous Snake Clan.

This was not surprising, many Human forces, in the face of the Beast Controlling Forces' blockade, may also choose to stand with them for a better share of their distribution of resources.

The blocking by the Beast Controlling Force should have happened all at once.

Through exchanging information with Liu Xi, Fang Mu learned that not many forces had arrived at the testing site in the past five minutes.

Mr. Zi and Body Refinement Doctor had already started to confront a group led by Yin Qingzhi.

The addition of the Green Magician transformed the previous two-way confrontation into a three-way standoff.

Although most forces are willing to stand behind Yin Qingzhi, the decisive factor in the confrontation was the top powerhouses of the three conflicting parties.

No matter how many people Yin Qingzhi had, it was difficult to gain a dominant advantage.

As Chunhui smoothly brushed a strand of hair from her forehead behind her ear, her voice flit with various emotions as she said,

"It's not a solution to keep dragging things out here."

"Many of your communication beasts have already sent messages just now, the Beast Controlling Forces that infiltrated have started to act."

"Continuing this standoff, would be equivalent to handing over the opportunity to these Beast Controlling Forces!"

"The effect of the Soul Activation Potion that the old woman under your leadership, Qingzhi, has drunk is about to end."

"After the Soul of Life has been consumed, if the energy within it is not dissipated in time, it will harm the soul, and it'll be impossible to consume another soul through the Ghost Device for a while!"

Listening to Chunhui's words, Yin Qingzhi's teeth gritted audibly.

At this critical moment, that old hag Chunhui was still forcing her into a corner. It was infuriating!

But the reality was indeed as Chunhui had said; in another two minutes, the effect of the Soul Activation Potion that Elder Sun had drunk would dissipate.

If she used her own soul to contain the energy within the Soul of Life and did not dissipate it in time, it could burden her own soul.

However, looking at the current situation, whether it was the Ancient Genesis, Eternal Alchemy Association or the Evil Heart Sect, none of them would give her an opportunity.

At this time, someone should break the deadlock.

Chunhui appeared to be enjoying the show and clearly had no intention of being that person.

At this moment, a violent spatial energy sparked a silver storm, ripping through space and creating many fine cracks.

The silver storm attacked the green playing cards the Green Magician had spread around the stone platform.

Seeing this, the Green Magician's face held no expression as he collected the playing cards that were about to be hit by the silver storm.

The remaining cards overlapped and shot out a beam of green light.

It immediately transformed the silver spatial storm into a slow-moving mass of liquid.

As it rotated, the liquid became increasingly viscous!

The unique odor of the top-level contaminant was fully released, causing everyone present to frown.

The odor of the contaminant was fiercely antagonistic to the living.

It was like how a normal person would instinctively detest maggots in a pit latrine.

But soon, everyone's attention was focused on the stone platform.

After the Green Magician had taken back his cards, a figure of a young man quietly stood on the stone platform.

The young man's appearance was incredibly average, the type that would not attract a second glance in a crowd.

But this young man's methods were impressive enough to be described as advanced, having maneuvered multiple forces at once!

The young man was also bold enough to attempt to pluck the fruit right under the nose of the various forces present!

Looking at Fang Mu standing on the stone platform, the Green Magician, Mr. Zi, Body Refinement Doctor, Yin Qingzhi, Chunhui, and the leaders of various other forces chose not to make a move against Fang Mu.

None of the forces were willing to let their people try their luck on the stone platform.

If they failed, death would be the only outcome!

Previously, there were forces that attempted to break the Black Moon Curse on the members on the stone platform, but they had no effect at all.

If this guy was willing to stand on the stone platform to take the test, then just let him!

If he died, the Soul of Life would still have some uses!

Even if by luck he completed the test, with so many forces surrounding the place, could he just take the benefits and leave?!

Fang Mu's arrangement was made with the intention to exploit this kind of thinking from the others.

Both Crescent Moon Pendants were with Fang Mu, and only Fang Mu knew that the pendant obtained after passing the test was bound to the person who passed the test.

Chapter 719 - Baurait's Spider, Embrace Thorn Kill!_1

If the other forces knew about this, they would definitely not allow him to stand on the stone platform and complete the assessment!

Members of the Poisonous Gu Villa from among the crowd still wore shocked expressions on their faces.

The people of the Poisonous Gu Villa had already recognized the identity of the young man on the stone platform.

It was none other than their ally, the leader of the Infinite Tower!

Gu Lian looked at Fang Mu on the stone platform with a complicated expression. She never thought that the normally reserved Fang Mu would do something so ostentatious!

This move essentially puts the Infinite Tower at odds against all the other forces present.

As though he does not regard the other forces in attendance at all.

It is known that the human forces set to explore the ancient battlefield had already gathered in this location.

Except for a few powerful forces that have not yet emerged, all the forces qualified to explore the ruins are here.

Gu Lian was the one who had previously facilitated the cooperation between the Poisonous Gu Villa and the Infinite Tower. And in the cooperation between the two, her side was the more keen one.

Gu Lian was worried that Fang Mu would suddenly speak up and ask her to coordinate with him as an ally.

The Poisonous Gu Villa absolutely does not have the capability to collaborate with the Infinite Tower under these circumstances!

If the Poisonous Gu Villa had this ability, there would have been no need to cooperate with Fang Mu!

Gu Lian could have led the Poisonous Gu Villa to compete for the inheritance in the ruins directly.

Suddenly, a blue water curtain completely encased the stone platform, just like when Fang Mu was standing on it previously.

Seeing the water curtain wrap around the platform, Gu Lian breathed a sigh of relief, certain that Fang Mu did not intend to involve her.

But for some reason, Gu Lian didn't feel pleased. Instead, there was a faint sense of loss.

It was clear that he did not value the cooperation with the Poisonous Gu Villa.

Gu Lian knew she could take a stand with Fang Mu right now.

However, as deputy head of the Poisonous Gu Villa and the spearhead of this operation.

Before the benefit is clear, she cannot take the people of the Poisonous Gu Villa into this dangerous situation.

The major forces present were willing to tolerate Fang Mu standing on the stone platform for assessment, seeing him as a chess piece.

But these major forces could not tolerate a chess piece on the stage pretending to be mysterious.

The Green Magician was still locked in a stalemate with the silver space storm.

The leader of the Gold and Jade Group immediately summoned his Guardian Beast. A huge white sea lion appeared next to him.

This white sea lion, huge and well-fed, had a layer of soft snow and ice color about it.

This layer of snow and ice color regularly overlapped on the body of this massive sea lion.

Like one energy circuit after another with snow and ice at its core.

The early humans were able to forge spiritual instruments because some people observed the Guardian Beasts and discovered that the body colors of these beasts could form energy circuits.

These energy circuits not only conduct energy but can also lock it up!

Latterly, a group of people developed the ability to deduce these energy circuits.

Once they understood the principle of energy circuits, there was no need to observe them in nature.

So these people etched these energy circuits onto their instruments, giving rise to the profession of Spirit-smithing Master!

Any Guardian Beast that can form energy circuits on its body is not simple.

This huge sea lion was dressed in golden metal armor, each section centered with a light blue disk infused with the breath of snow and ice.

Each disk emits the aura of a Sequential Spiritual Instrument.

There were more than thirty such discs on the white sea lion.

This armor attached to the huge sea lion was an extremely luxurious spiritual instrument.

When put to use, it amplified the power of the white sea lion.

Yin Qingzhi stopped the two elders beside her from acting, whispering to them.

"With so many forces present, we do not need to make unnecessary enemies. He must have some support if he dares to act in such a way!"

"This Director of the Gold and Jade Group actually made this set of spiritual instruments for the Snowy Sea Lion!"

Hearing Yin Qingzhi's words, Sun Kumei held her Ghost Instrument Soul Scorpion Key and said with a frown.

"Many experienced users at their limit of Beast Controlling Force often make the habit of crafting a spiritual instrument for their beasts."

"But this set of instruments puts a lot of pressure on the Snowy Sea Lion to use. Liu Wei can only afford to be so extravagant because the Gold and Jade Group controls dozens of mineral vein!"

"As far as I know, Liu Wei is not the type to draw attention to himself."

"Now he rashly takes the lead in front of other forces, most likely to show off this set of instruments on the Snowy Sea Lion."

Yin Qingzhi pursed her lips at these words.

She watched as the Snowy Sea Lion roared, and the light blue discs on its body burst into bright light. The aura of ice and frost gathered around the Snowy Sea Lion.

Two Snowy Sea Lion tusks began to form at the mouth of the Snowy Sea Lion.

With another roar from the Snowy Sea Lion, these two tusks shot toward the water curtain in front of Fang Mu.

Many forces present worried that these two tusks will pierce the water curtain and kill Fang Mu, who was enclosed by it.

If that was the case, they would lose their chess piece, and major forces present would argue over which of them should take the stage first.

A bright cut filled with scorching aura slashed from afar onto one of the Snowy Sea Lion's tusks.

This hit made the Snowy Sea Lion's tusk explode in mid-air.

Chapter 720 - Bauraits Spider, Embrace Thorn Kill!_2

Several leaders of the forces quickly used methods to resist, to prevent their members from being frozen by this frost aura.

The breath of the Angel Species Beast contained in this light slash is very pure, obviously it was unleashed by Wang Xu's Guardian Beast, the Angel of Glowing Radiance, who is leading the team from Truth Hall this time.

What does Wang Xu mean by this?

Could it be that Wang Xu and the young man on the stone platform are accomplices!?

Even so, there's no need for Truth Hall to stand in the center of the whirlpool!

The leaders of various major forces in the field were speculating on Wang Xu's intentions, but they didn't know that Wang Xu had made such a decision with great courage.

After learning that there was more than one Grandmaster Creator in the Infinite Tower, Wang Xu decided to befriend the Infinite Tower.

Wang Xu understood clearly that fostering good relationships wasn't as easy as just talking about it.

Fang Mu's comment that the Infinite Tower treats friends better made Wang Xu decide to take a gamble.

No matter what, by taking such a big risk to help Fang Mu block the attack, Truth Hall certainly owes Fang Mu a favor!

Standing next to Liu Wei was a man wearing brown half-body armor.

Only two people were left behind this man in the brown half-body armor, both of whom were injured.

The man in the brown half-body armor was also not much better.

When he came in, he was in one piece, but now he has lost his right arm!

This man is the director of the Crystal Mining Group.

Because he encountered a Beast Taming Tribe and wanted to pick the peach from that Beast Taming Tribe.

As a result, he was targeted by several Beast Controlling Forces together.

If it weren't for Liu Wei happening to lead the strongmen of the Gold and Jade Group over and driving away those Beast Taming Tribes with the other two forces.

Li Jie would have almost lost his life there!

After being treated by a Healing Beast Tamer from the Gold and Jade Group for several hours, Li Jie has recovered.

Liu Wei launched an attack on the young man on the stone platform, so he should respond as his attack was blocked.

Li Jie let out a loud yell.

"Bauraits Spider, Bauraits Thorn Killer!"

The Snowy Sea Lion launched an elemental attack.

The bizarre ochre spider with eight slender spider legs, each with dozens of secondary limbs at the ends, was covered in a layer of deep brown crystal.

This Guardian Beast called the Bauraits Spider jumped high and its spider legs crossed over towards the azure water curtain.

Li Jie originally thought that the remaining sea lion tooth of Liu Wei would freeze the water curtain, shattering it.

Then his beast master Bauraits Spider would strike directly.

But he never expected that the sea lion tooth would not freeze the water curtain but pierce directly through the water curtain!

The same happened to his Bauraits Spider.

Shui Miao set up a water screen to prevent the aura inside the stone platform from leaking out, the water screen was not to protect Fang Mu's safety at all.

What really protected Fang Mu's safety was Qin Shao, who came out of the Abdominal Territory Worm after Fang Mu entered the stone platform.

Li Jie was about to use the Bauraits Spider to explore the situation inside the water screen, Li Jie found that next to the youth who had been standing on the stone platform, there was an additional woman with a radiant face and seductive eyes.

The black curse mark on the face of the youth should have become white at this time, it gradually melted into the body of the youth.

Li Jie was about to shout when he saw a hint of pink in the woman's eyes.

Li Jie's thinking stopped at this moment, immersed in the woman's eyes.

Seeing Li Jie's face change, Liu Wei quickly took a step closer to Li Jie.

Ready to ask Li Jie about the situation.

At the moment, every piece of information obtained was a chip for oneself, Liu Wei did not want Li Jie's discovery to be made public.

Liu Wei had no defenses against Li Jie, the Gold and Jade Group and the Crystal Mining Group were in cooperation, otherwise, Liu Wei would not have needed to save Li Jie under the siege of the Beast Controlling Forces.

But he did not expect that Li Jie suddenly took out his Sequential Spiritual Instrument, the Execution Cage, and then held himself in his arms.

They were both locked in the Execution Cage.

The Execution Cage rotated slowly, and the element energy gradually solidified into spikes and was drawn into the rotating Execution Cage.

Tens of thousands of elemental spikes poured in, everything inside the Execution Cage had been pierced a thousand times!

The sight made the pupils of everyone present shrink abruptly.

This was too strange, Li Jie actually held Liu Wei to meet their end together!

Mr. Zi was visibly excited.

So was the Body Refinement Doctor standing next to Mr. Zi, who seemed to be on the brink of a transformation at any moment.

Nothing delighted these two more than encountering and researching peculiar phenomena.

Both were far more capable than Liu Wei and Li Jie.

Neither Liu Wei nor Li Jie was qualified to enter the ruins.

As these two were ready to act, a pair of white hands with purple-grey nails halted them.

"Don't be hasty. Neither the Ancient Genesis, the Celestial College, nor the Beast-binding Hall have made a move—there's no need for us to lead the charge!"

"Both of you are too impulsive. Overzealous actions will make you targets for other forces!"

"They can't escape anyway, so your chances to act will come in the ruins!"

"We are in this together, and we will all contribute!"

Meng Sha's words tamed Mr. Zi and the Body Refinement Doctor's urge to act.

Normally, these two wouldn't readily trust a witch.

However, Meng Sha led a team and dared not reveal her identity to the other forces.

Such disclosure would make Meng Sha the target of all forces.

In this situation, Meng Sha was dependent on the two of them, which reassured them of her loyalty.

At that moment, they heard Meng Sha continue.

"However, we must keep an eye on the situation on the stone platform."

"We must seize the rewards for the assessment."

"I can't reveal myself because summoning the Void Beast would expose my identity immediately."

"You two should help fend off others while I keep my Spirit Witches here. I'll take care of the investigation"

Upon hearing Meng Sha's words, both of them frowned, feeling that Meng Sha was not one to step up for the team.

However, Meng Sha's words had no loopholes, just like the other forces weren't worried about Fang Mu standing on the stone platform.

Neither Mr. Zi nor the Body Refinement Doctor worried about Meng Sha pulling any tricks on them!

Could it be that Meng Sha would give up on the soon-to-be-open ruins and hide somewhere?

Meng Sha made a soul sound transmission to both of them, which they reciprocated.

Subsequently, Mr. Zi waved his hand, and fifty Stitched Body Invaders were released.

Every one of these invaders was specially enhanced, each equivalent to a fourth-stage Beastmaster.

The Body Refinement Doctor snapped his fingers, and members of the Eternal Alchemy Association immediately released their specially modified beasts.

These beasts appeared even more ferocious than the Stitched Body Invaders.

Nevertheless, the most terrifying sight was the bodies of the members of the Eternal Alchemy Association.

The Evil Heart Sect and the Eternal Alchemy Association were already situated not too far from the stone platform.

Mr. Zi and the Body Refinement Doctor exhibited their formations, semi-encircling the stone platform.

Dressed in a dark green robe, Meng Sha flew into the water curtain.

As she entered, a whip burning with the Ghost Flame of black and blue ruthlessly lashed at the water curtain.

The curtain dissipated with a snap, revealing a young man standing on the platform holding a Brocade Box.

Below the box was an Epoch relic.

The young man actually solved the chessboard and completed the assessment!

A relic from the Epoch, used specifically as a test reward, must be housing invaluable resources!

Could all the spiritual energy-related items that were scarce in this vast ancient battlefield be stored in the Epoch relic?

The young man looked exhausted as if his soul had been depleted.

Furthermore, at the moment the water curtain broke apart, the shock on the young man's face was apparent.

Two tentacles shot out from the figure under the dark green robe, seizing the Brocade Box and the Epoch relic from the young man's hands.

Upon witnessing this, Yin Qingzhi called out.

"A witch from the Witch School has infiltrated us!"

"Elder Sun, Old Man Gu, capture her!"
