

Beast Tamer 721

Chapter 721 Damned Witch!_1

Between her snarls, a sharp gleam flashed in Yin Qingzhi's eyes.

Yin Qingzhi was indeed swayed by the Witch School, but it was not just the Celestial College, which Yin Qingzhi represented, that was affected by the Witch School.

All other influences present were as well.

Yin Qingzhi did not bear any deep grudges against the Witch School; the reason why she had chosen to target them now was because she saw this as an opportunity to break the deadlock.

To break this deadlock with the Witch School as an excuse, other forces could not object.

With a wave of Sun Kumei's hand, a plum tree with a golden trunk appeared at her feet.

The plum blossoms were abundant, each glowing intensely with a metallic aura, slashing towards Meng Sha who was exposed by the Void Beast Tentacles.

The short and thin old man next to Sun Kumei summoned an eel of no great size.

Extravagant purple patterns were scattered over the eel's black skin.

The black-infused purple sparks closely followed the golden plum blossoms, streaking towards Meng Sha.

The eel opened its huge mouth, spitting out a gob of plasma that resembled thick phlegm.

This plasma induced a tingling sensation in everyone present.

Being young and limited in strength, Yin Qingzhi could only command the strong ones around her to act.

Even before Yin Qingzhi had spoken, Chunhui had already discharged two fairies from her robe.

One of the fairies, rosy pink all over with double wings on its back, was not bigger than a normal person's forearm but exhibited an overwhelming momentum.

Short hair hanging down to her shoulders, she was alit with rosy flames at the ends.

The other fairy had two pairs of wings on her back; the color fluttering from the four wings was much less intense than that of the previous double-winged fairy.

This showed that this fairy had only recently ascended to become a four-winged fairy.

Most Beast Masters controlled natural elements, with a few using spirit, soul, or mind as attack strategies.

Or they simply relied on their bodies to fight.

However, the ability this four-winged fairy employed was not within the commonly recognized realm.

A repelling force continuously erupted beside this four-winged fairy, with a rosy colored flame tornado and dozens of fluctuating repelling waves attacking Meng Sha.

When Meng Sha used her Void Beast Tentacles to snatch the brocade box and the Epoch relic from Fang Mu's hands, she had already shouted out loudly.

"Mr. Zi, Body Refinement Doctor, I've got the things!"

"The items inside are very valuable! If you help me block the attack, these things are ours!"

As soon as her words finished, Meng Sha stepped back and headed toward Mr. Zi and the Body Refinement Doctor.

Although Mr. Zi and the Body Refinement Doctor had taken their positions, they did not expect Meng Sha to directly show her true identity with the Void Beast Tentacles.

Just for stealing the item in the young man's hand, was it necessary for Meng Sha to expose herself before the young man offered any retaliation?

But now, Mr. Zi and the Body Refinement Doctor were stuck here, no time left for further contemplation.

They were temporarily compelled to help Meng Sha fend off the two strong opponents under Yin Qingzhi, along with Chunhui's attack.

Neither the two opponents under Yin Qingzhi nor Chunhui used their entire arsenals when attacking, but neither did they hold back.

Mr. Zi chose not to summon his Guardian Beast, choosing instead to directly use his Destiny Guardian Beast's Innate Divine Ability.

Behind Mr. Zi appeared a grey halo, which kept growing and covered Meng Sha.

Within the halo, a worm like a nightcrawler wriggled around as though this halo was a separate space of its own.

Strikes to the halo absorbed most of the impact.

The nightcrawler on the halo started to swell after absorbing the energy.

Every time it crawled out of the halo it spat out a few energy bombs.

Though the Void Beast Witch did not modify her body like the Body Refinement Doctor of the Eternal Alchemy Association,

Since the Void Beast Witch used her own body as a container to contract with the Void Beast, her physical fitness was much stronger than that of ordinary Beast Masters.

Such residual attacks can't harm Meng Sha in the slightest.

Mr. Zi successfully blocked the attack with his Destiny Guardian Beast's Innate Divine Ability, while the Body Refinement Doctor took this opportunity to unseal his body.

At this moment, Meng Sha, who had been flying towards the Body Refinement Doctor and Mr. Zi, suddenly turned around and flew in the opposite direction of the stone platform.

The two Spirit Witches under the cloak suddenly made their move, their powerful divine aura directly bombarding an unguarded Mr. Zi.

After one attack, they continuously followed up with several more.

Damn it! The ones under these robes weren't Spirit Witches, but two hero spirits controlled by the Spirit Witches!

The Mind Shield Nun, after attacking, quickly fled in Meng Sha's direction.

The heroic knight of the white horse protected the Mind Shield Nun behind her, helping the Mind Shield Nun resist the attacks.

She paid no respect to the fact that in blocking the attacks, she would harm herself.

While the sudden ambush by the Mind Shield Nun and Knight of the White Horse did not kill Mr. Zi, it did stun both Mr. Zi and the Body Refinement Doctor, who was about to finish unsealing his body.

Both had the same realization in their minds - they had been played by the Witch School!

The cursed witches had not been truthful from the beginning!

Thinking about it, both had felt upon their journey a sensation of being led by the nose by Meng Sha.

Meng Sha had stolen the items and run away, causing the Evil Heart Sect and the Eternal Alchemy Association to take the fall and become the target of public criticism.

Damn those witches!

If they could choose again, even at the risk of damaging their source, they would definitely kill Meng Sha and those two hero spirits upon meeting them!

Chapter 722 Damn Witch!_2

Suddenly, a question arose between them, if those two spirit witches were hiding under their robes, where were those spirit witches now!?

Not only were the forces of the Eternal Alchemy Association and Evil Heart Sect stunned, but the people from the other factions also found it difficult to comprehend the scene before them.

Mr. Zi and the Body Refinement Doctor were backing the Witch School, only to be stabbed in the back by them.

Even worse, Mr. Zi was ambushed by the Witch School, which damaged his body.

The fact that the spirits attacked only Mr. Zi and not the Body Refinement Doctor seemed to suggest that they saw Mr. Zi as an easy target!

Yin Qingzhi recovered first, and sternly rebuked Mr. Zi and the Body Refinement Doctor.

"I need you to give an explanation to Celestial College."

"I presume the other forces present will also need your explanation!"

The Beast-binding Hall and the Witch School had held grudges for a long time. Now, Chunhui did not maintain a neutral attitude but chose to side with Yin Qingzhi, admonishing aloud.

"So it seems the Evil Heart Sect and the Eternal Alchemy Association have been intertwined with the Witch School all along!"

"The Witch School must have already shared the first six pages of that ancient book that they stole with the Evil Heart Sect and Eternal Alchemy Association, right!?"

Yin Qingzhi and Chunhui, two heavyweight figures, were making things difficult for the Evil Heart Sect and the Eternal Alchemy Association, pushing the situation into a standoff again.

At the moment, it was clear that Yin Qingzhi and Chunhui had the upper hand.

Mr. Zi and the Body Refinement Doctor were extremely angry about Meng Sha's deception, and the talks of Yin Qingzhi and Chunhui infuriated them even more, making them almost spit blood.

What explanation do we need to give? We also want an explanation from the Witch School!

Are you saying that we are involved with the Witch School, are you blind!?

Didn't you see how Meng Sha just betrayed us!?

We also wanted to get the content of the first six pages of the ancient book from Meng Sha, but Meng Sha said that it was taken away when she first entered the ruins.

Would you believe it now if we tell you!?

Especially Mr. Zi was the most frustrated.

If he really was involved with the Witch School, why would he have been scammed out of eight million Souls of Death by Huang Yuan!?

Although furious, both Mr. Zi and the Body Refinement Doctor realized the current situation.

Now was not the time to confront other forces head-on. What they needed to do immediately was to pass the buck that was forcibly placed on them back to where it came from.

The two looked at each other, and finally set their eyes on Fang Mu who had just stepped off the stone platform.

"You clearly had the ability to withstand the attack of the Snowy Sea Lion, kill the Bauraits Spider, and influence Li Jie to mistakenly kill Liu Wei."

"Why did you let Meng Sha easily snatch away the fruits of your labor!?"

"You..."

Before Mr. Zi could finish speaking, he got interrupted by Fang Mu.

"So it turns out I'm in the wrong for getting robbed!?"

"Do you want to suggest that the Witch School, which was always with you, is actually on my side?"

Fang Mu's words were filled with outrage and disdain. From his tone, there was no sign of abnormality.

He was joking, Fang Mu has always been a great actor!

His words shut Mr. Zi up and casually explained the actual situation in a playful way.

It won't let other forces think too much about it further.

A winding stream of water came from a distance, piercing through the crowd of the Gold and Jade Group and the Crystal Mining Group.

This water stream, like a sharp sword, penetrated the bodies of the remaining forces of the Gold and Jade Group and the Crystal Mining Group.

It erased all traces of the Gold and Jade Group and the Crystal Mining Group, showing its dominance!

Shui Miao and Shu Liangjun came to Fang Mu's side from both sides.

As for Jin Ya and Qin Shao, they were already taken into the Mechanism Fortress by Fang Mu.

The moment Shu Liangjun arrived at Fang Mu's side, he spoke to the Green magician through Soul Sound Transmission.

"The Infinite Envoy would like to make a trade with you, offering resources of the Grandmaster Creator for the sources of pollution and pollutants in your hands!"

"We hope that in this exploration of the ancient battlefield, our two sides can work closely together."

"Our Infinite Tower has the ability to fill the gap in your personal resources for the Grandmaster Creator!"

After transmitting sound to the Green magician, Shu Liangjun informed Fang Mu.

Fang Mu's eyes met with those of the emotionless Green magician.

Mr. Zi was already on the brink of losing control, and now he had hit a snag with Fang Mu.

"Surely you are suspicious. If you could dispose of the Bauraits Spider, why didn't you resist and let Meng Sha take your things so easily!?"

"To prove your innocence, you must surrender your spatial equipment for our examination!"

Mr. Zi's words made the leaders of many forces present frown deeply.

Mr. Zi pointed out a valid issue, but many tactics in this world are disposable.

Moreover, even if the other party could prove this point, they would not publicly confirm it to keep their dignity.

Not to mention allowing their spatial equipment to be scrutinized!

This would be a severe insult for any force.

Mr. Zi had clearly intended to divert the hostility towards this trio!

Fang Mu smiled at the Green magician, then turned his head and sharply stared at Mr. Zi, speaking in a cold voice.

"Initially, I only wanted a reasonable explanation from the Eternal Alchemy Association and Evil Heart Sect. Now, I will make your Evil Heart Sect pay for what you've just insinuated!"

As soon as Fang Mu's words fell, Shu Liangjun raised his hand.

A silver glow tinged with purple flames arose from his hand.

A bracelet with a golden bell at the bottom was placed on Shu Liangjun's wrist.

Behind Shu Liangjun, a large ghostly apparition bound by threads appeared. A string of golden bells was tied to each end of the threads.

The specter, with silver hair sprawling, lifted its head, with bloody tears streaming from its eyes.

A sinister smile crossed its face.

The nine golden bells under the bracelet swayed, ringing crisply and shredding the void.

Threads spurted out from the front of the nine golden bells and in an instant, fifty specialized Body Refinement Hackers were tightly wrapped in threads!

The threads pierced the Body Refinement Hackers' bodies, grinding continuously.

The strong souls that were residing in the Body Refinement Hackers and used as their energy source, were entwined by these threads inside the Hacker's body.

The connection with the Body Refinement Hackers was utterly severed.

Shu Liangjun, with the bracelet in his hand, gave a jerk, and those fifty Body Refinement Hackers rushed in his direction.

They were then directly pulled into his spatial equipment by Shu Liangjun.

As soon as the ghostly apparition appeared behind Shu Liangjun, the pupils of the powerhouses present contracted sharply.

The merging of a ghost device with its user was a sign of Ghostly Inception, which was exceedingly hard to achieve!

The various forces present had always been in a standoff here.

This force called Infinite Tower had unexpectedly taken action against the Evil Heart Sect after being targeted!

And with its first strike, it had confiscated fifty enhanced Body Refinement Hackers!

Such a loss was unbearable not only for Mr. Zi but also for Mister Hei!

A tumult between Infinite Tower and the Evil Heart Sect was inevitable.

Infinite Tower was only targeting the Evil Heart Sect. It was unclear whether the Body Refinement Doctor of the Eternal Alchemy Association would assist the allied Evil Heart Sect during such a time.

If the Body Refinement Doctor decided to join the battlefield with the forces of the Eternal Alchemy Association, a great chaos would ensue before the ruins were even opened!

Once the chaos escalated, it would be unlikely for any force to remain unaffected.

Even if they were engulfed in it under normal circumstances, the major forces would still be willing to see the Evil Heart Sect and this Infinite Tower battle it out.

This conflict would initially screen the forces entering the ruins.

Even if everyone was involved, the forces at the center of the maelstrom would definitely suffer the most!

But at the moment, aside from human forces, numerous Beast Controlling forces had also entered this ancient battlefield.

All these Beast Controlling forces were eyeing the ruins as well.

Human forces and Beast Controlling forces were naturally hostile to each other.

Once the strength of human forces was reduced, it would be difficult to ensure an advantage in the conflict with the Beast Controlling forces!

Just as Yin Qingzhi and Chunhui were about to intervene, Wang Xu, the Great Archangel of Truth Hall, surprisingly openly took sides and joined the fray!

Chapter 723 The Soon-To-Disappear Pterodactyl!_1

Wang Xu, leading the members of Truth Hall, came to Fang Mu's side, raising a hand and pointing at Mr. Zi.

"You slander our ally of the Truth Hall, making you our enemy!"

"Scoundrels like you who use beast corpses as weapons should dissipate under the light!"

The Angel of Glowing Radiance swung his Angel Longsword towards Mr. Zi, sending a massive blade of flame in his direction during his speech.

Mr. Zi easily evaded the Angel of Glowing Radiance's attack.

In a battle of strong individuals, an attack is futile if it does not hit the opponent.

This fact makes Guardian Beasts with control and support abilities all the more valuable.

A Beast Master who has contracted with a functional Guardian Beast is immensely valuable at higher levels.

The Angel of Glowing Radiance's attack did not cause Mr. Zi any trouble but split the Guardian Beasts of several members of the Evil Heart Sect in half with a single stroke.

Three howls rang out sharply. The mental trauma caused to the Beast Master by the death of a Guardian Beast is unbearable.

Wang Xu's attack made Truth Hall's posture clear and added fuel to the conflict.

If the Evil Heart Sect has been offended, so be it. Truth Hall and the Evil Heart Sect are forces of the same level.

Due to differences in philosophy and direction of beast contracts, Truth Hall and the Evil Heart Sect have always been at odds with each other.

There is no possibility of the two factions becoming allies, and there is no need to overthink it.

The Eternal Alchemy Association is hostile to Truth Hall, and an angel of Truth Hall has fallen into the hands of the Eternal Alchemy Association.

The Eternal Alchemy Association and the Evil Heart Sect are extremely close brotherly forces, with overlap at the high levels, it is said.

To offend the Evil Heart Sect and to befriend the Infinite Tower, with at least two Grandmaster Creators, is a huge gain!

Wang Xu looked at the surprised eyes of the other faction leaders, knowing they probably thought he was crazy.

But Wang Xu felt that what he was doing was the right choice.

Gu Lian showed no reaction when Fang Mu initially appeared and did not intervene when Fang Mu was attacked.

This is contrary to the agreement previously made with Fang Mu.

Now, faced with the second conflict between the Infinite Tower and the Evil Heart Sect, he has to show his stance.

The cooperation previously agreed with the Infinite Tower will be broken if he does not.

Gu Lian and Wang Xu know each other well. In Gu Lian's view, Wang Xu has always been a man who takes advantage of opportunities.

There are only two possibilities why Wang Xu would firmly stand with the Infinite Tower.

Either Wang Xu has been blackmailed by the Infinite Tower, or taking this stance offers Wang Xu and Truth Hall immeasurable benefits.

If it's the former, Wang Xu being forced to side with the Infinite Tower wouldn't be this proactive.

Having guessed Wang Xu's motive, Gu Lian gathered his resolve and summoned his Destiny Guidebook from behind.

A small, unassuming black bug crawled out of the Destiny Guidebook and landed on Gu Lian's hand.

With a thrust of his hand, a dense swarm of black insects poured out from Gu Lian's hand.

These grains of black insects crawled onto the remaining members of the Evil Heart Sect and started to bite.

These members of the Evil Heart Sect hurriedly summoned their Guardian Beasts to defend.

While these bugs couldn't inflict lethal damage, they were enough for Gu Lian to state his position like Wang Xu did.

Gu Lian, leading the members of Poisonous Gu Villa, stood on the other side of Fang Mu without saying much.

Anyone who was observant could tell that Gu Lian had chosen to advance and retreat alongside the Infinite Tower.

The Infinite Tower is a force that Fang Mu had recently named, and it was unknown to other groups.

All the faction leaders mentally repeated the name 'Infinite Tower', certain that they had never heard of it before.

However, the attitudes of Gu Lian and Wang Xu indirectly confirmed the status of the Infinite Tower.

This was truly strange!

First, Mr. Zi was instigated into action by Meng Sha, then he was backstabbed by Meng Sha, making him the target of everyone's arrows.

He just wanted to pass the blame to Fang Mu, but he didn't expect Fang Mu to be tough.

Not only did he take sudden action controlling fifty specialized Body Refinement Hackers, but Truth Hall and Poisonous Gu Villa also attacked him!

Even with Mr. Zi's extensive experience, this sequence of events left him dazed.

The Body Refinement Doctor frowned, but his eyes kept flashing with sharp light.

The other party asked the Evil Heart Sect to explain but did not mention the Eternal Alchemy Association.

There was no need for him to risk his men for this Mr. Zi.

Mr. Zi is a code name in the Evil Heart Sect, and each Mr. Zi wears an identical standard mask.

Unlike the Body Refinement Doctor, where everyone has a name.

The current Mr. Zi is the most impulsive and irritable among all the Mr. Zis that the Doctor has encountered.

If more factions side with the Infinite Tower like Poisonous Gu Villa and Truth Hall, the Doctor plans to abandon Mr. Zi.

In the ancient battlefield, the existence of allies is meant to be sacrificed.

As long as he goes back and explains the situation, even if someone disapproves, they can't blame him.

It wasn't until now that the Green magician took his gaze off Fang Mu's face.

The prospect of a direct source to Grandmaster Creator resources was indeed tempting to the Green magician.

He had plenty of pollution and polluting sources, but he was in severe need of Grandmaster Creator resources, especially high-purity Wood Element Potions.

Chapter 724 The Soon-To-Disappear Pterodactyl!_2

If he didn't have a high-purity Wood Element Potion, his pollutant would have difficulty advancing any further.

The other party hoped that they could form a deep partnership in the exploration of the ancient battlefield. By providing this, he could fill the gap in his personal Grandmaster Creator resources.

The Green Magician had always been troubled by the shortage of Grandmaster Creator resources for himself.

The Green Magician didn't believe that the Infinite Envoy who wanted to cooperate with him, could truly solve the gap in his Grandmaster Creator resources.

As long as he could provide a large amount of resources for himself to create a Grandmaster, that would be enough.

The best way to deepen cooperation with the Infinite Tower is to target the Evil Heart Sect.

In the eyes of the Green Magician, neither Wang Xu from Truth Hall nor Gu Lian from Poisonous Gu Villa was clever.

If the two of them were smart, they would understand that only by truly hurting Mr. Zi himself would they be able to become the best allies with the Infinite Tower.

The green cards were fired at Mr. Zi.

These green cards automatically secreted crystal-clear green mucus.

Seeing this, Mr. Zi quickly retreated, fearful that his body would be smeared with the green mucus.

If it was an elemental or poison attack, Mr. Zi wouldn't need to be so nervous.

But an attack with the Pollutant carries powerful pollution capabilities, and once it sticks to a living body, it causes the body to change.

This change is irreversible.

In his rush to avoid these green cards, Mr. Zi had no way to take into account the other members of the Evil Heart Sect.

Most of the team led by Mr. Zi were his own minions, and some were from the Grey Fog Squad and the Red Mist Squad of the Evil Heart Sect.

Those from the Grey Fog Squad and the Red Mist Squad each had the ability to lead a team independently.

Once they donned their standard masks, they were Mr. Gray and Mr. Red.

They were all desperately resisting the attacks of the Green Magician, but the Green Magician didn't hold back at all.

More and more Evil Heart Sect's Guardian Beasts were transformed into green gel.

Soon these green gels began to behave like they were given life, launching attacks on the rest of the Evil Heart Sect.

A large number of Evil Heart Sect's Beast Masters were killed, and their Guardian Beasts turned into gel.

Mr. Zi realized that the Body Refinement Doctor, who was supposed to support him, showed no intentions of helping, which made his heart sink.

He understood that in this exploration of the ancient battlefield, the Evil Heart Sect had been abandoned by the Eternal Alchemy Association.

Under the circumstances where he was targeted by various forces, he had absolutely no chance of victory.

So, Mr. Zi summoned a giant dark red bat.

Against the dark red base color, the wing membrane had numerous black patches like patterns.

With one flap of its enormous wings, the bat dispelled energy all around.

The dominant aura of the sequence one Guardian Beast leaked out without any attempt to hide it.

However, since Mr. Zi summoned the dark red bat to escape, it lacked its usual terror, instead appearing somewhat comical.

Mr. Zi's escape route was the same direction that Meng Sha had fled in.

Seeing the situation, Fang Mu raised his eyebrows but didn't order anyone to chase Mr. Zi who had already fled.

Fang Mu treated the Evil Heart Sect as a target to be crushed at sight, but killing Mr. Zi was not urgent for him at the moment.

Fang Mu could feel the three crescent moon pendants in his Purple Ice Crystal Ring resonating with each other, emitting an incredibly domineering pressure.

Fang Mu knew that he had to take the opportunity to combine these three crescent moon pendants as soon as possible.

Otherwise, the consistent exposure to such pressure could lead to the collapse of the Beast Spirit of the pterodactyl housed within his Purple Ice Crystal Ring.

At this moment, the spirit of the pterodactyl that was housed within began to scream under this relentless pressure.

Liu Xi was Fang Mu's trump card. After being promoted to Earth Evil Spirit, because of her special abilities, she could control other beings in a charming way.

She could even control a sequence one Guardian Beast with a low soul strength.

But Liu Xi's time as an Earth Evil Spirit was ultimately too short.

Liu Xi had asked Fang Mu if she could try to control the blood-colored bat that Mr. Zi had just summoned.

However, she was outright rejected by Fang Mu.

Since Liu Xi was his trump card, Fang Mu wouldn't let her take any sort of risk.

Who knew if the dark-red bat summoned by Mr. Zi was actually a Guardian Beast that specialized in soul level abilities?

Moreover, Fang Mu didn't know much about this Mr. Zi, and couldn't confirm if he only had a guardian beast in the number one Sequential.

Even someone like him who hasn't been a Beast Master for long knows the importance of having a trump card, let alone the traditional powerhouses.

Secondly, to kill Mr. Zi, Fang Mu doesn't even need to act personally.

Shu Liangjun, Shui Miao, Qin Shao, and even the Green magician, are all willing to do it on his behalf.

After this ordeal, Fang Mu's most significant gain was a clearer understanding of a Grandmaster Creator's status.

He understood how arrogant a power with a Grandmaster Creator in command can be when dealing with other powers.

Chunhui found the changes in the situation before her eyes interesting.

Chunhui took a deep look at Fang Mu and put her two fairies back into the Destiny Guidebook.

At this point, Fang Mu's destiny was predetermined.

Whether the thing was really snatched away by the Witch School, or whether the current situation was meticulously arranged by the other party.

She has no reason to doubt him.

If it's the former, it's still okay, and if it's the latter, then this chess game of the Infinite Tower might have started before they entered the ancient battlefield!

The Witch School was willingly used by the Infinite Tower, from the seems of it, the Witch School probably only has Meng Sha left alive.

Chunhui looked at the situation openly, but Yin Qingzhi was rather upset at this time.

She went through the scenes just now several times in her mind and always felt that there was something wrong with the Infinite Tower.

Especially the young man leading the Infinite Tower.

She had never heard of the power of Infinite Tower, which is very unusual.

After arriving in Rock Peak City, she conducted an accurate investigation and statistics of the forces heading to Rock Peak City.

She even contacted Huang Yuan, and carefully investigated the power's registration manual from him.

But none of this information was related to the Infinite Tower.

Yin Qingzhi, using her Destiny Guardian Beast, sensed the three people of the Infinite Tower and found that they were all covered with a layer of hazy starlight and couldn't be seen clearly.

This indicates that all three have used disguise-type artifacts, and the disguise-type artifacts they used are the same!

The hidden powers do act low-key outside, but they are proud in their bones!

Everyone believes they represent the honor of their power and will not disguise themselves.

But in the end, Yin Qingzhi still kept her mouth shut and stopped talking.

Yin Qingzhi was prepared to keep a close eye on Fang Mu for now, in order to deeply probe the Infinite Tower.

Fang Mu didn't plan to explore the ancient battlefield at this time. What Fang Mu needed most was a safe and secret environment.

So that Fang Mu could summon the Abdominal Territory Worm and enter the inside of the Mechanism Fortress.

If he can't stop the crescent moon pendant from emanating momentum outside within five minutes, the Dragon Soul of the pterodactyl will dissipate.

Fang Mu was already used to the Purple Ice Crystal Ring and had no plans to replace it.

Fang Mu gave Shu Liangjun and Shui Miao a look, and then looked at a fork in the road not far away.

Seeing this, Shu Liangjun placed his right hand on Fang Mu's shoulder and wrapped his left hand under his robe around the Kong Zhiluoman.

Right after, Shu Liangjun disappeared into thin air with Fang Mu and entered the depths of this fork in the road.

Shui Miao bowed his hand to the other powers around him, and loudly said.

"Before the ruins appear, it's better for everyone to explore separately!"

"We chose this path, and hope you all won't engage in meaningless competition!"

"We will not hold back against competitors!"

"Let's talk about anything when the ruins appear before entering the ruins."

After saying that, Shui Miao leisurely walked towards the fork Fang Mu chose.

Fang Mu suddenly wants to find a quiet place, surely he doesn't want to be disturbed.

After Shu Liangjun took Fang Mu into the depths of the fork in the road, Shui Miao started to tidy up the aftermath.

Just then, Shui Miao was abruptly halted by the Green magician.

Chapter 725 The Function of the Crescent Moon Pendant!_1

Twelve playing cards were blocking Shui Miao's way, causing him to knit his brows.

Shui Miao lightly tossed his folding fan to create a beautiful fan flower, turning his head towards the Green Magician without saying much.

But his gaze clearly conveyed an inquiring meaning.

The Green Magician glanced all around, realizing that he and the member of Infinite Tower in front of him had become the center of everyone's attention.

The Green Magician didn't speak directly, but rather expressed himself through Soul Sound Transmission towards Shui Miao.

"Your Infinite Envoy wants to conduct a transaction with me, and I have shown enough sincerity."

"If the transaction can be completed as agreed, not only can we cooperate deeply in the exploration of the ancient battlefield, but we can also collaborate out there!"

Shui Miao felt that Shu Liangjun was using Soul Sound Transmission to communicate with the Green Magician, but Shui Miao didn't know what the specifics of Shu Liangjun's negotiation with the Green Magician were.

What collaboration was Fang Mu going to have with the Green Magician!?

But since Shu Liangjun had communicated with the Green Magician under the identity of Fang Mu.

Things should not go wrong!

Shui Miao also used the Soul Sound Transmission method to communicate with the Green Magician.

"I will relay your message to the Infinite Envoy."

"As the Infinite Envoy said, we will have opportunities to interact when we enter the ruins."

After saying that, Shui Miao's fan waved forward, several streams of water directly shattered the twelve playing cards.

Shui Miao's figure disappeared at the end of the path.

This scene made the pupils of the other powers in the field shrink.

The Green Magician, one of the Eight Evil Seed, must have some transactions with Infinite Tower!

Otherwise, with the temperament of the Green Magician, he would not let anyone behave arbitrarily in front of him.

This fan overthrows the cards, indicating that the Infinite Tower is in the upper hand in the transaction with the Green Magician.

Looking at the power exhibited by the Infinite Tower, the Infinite Tower is definitely a top force.

Poisonous Gu Villa, Truth Hall, the Infinite Tower and Ancient Genesis indirectly formed cooperation between these four powers.

Those forces that were not prepared to form alliances couldn't help but have some ideas of forming alliances.

If they don't find some powerful allies, they can't compete with this alliance formed by these four forces in the ruins.

After Shu Liangjun showed up with Fang Mu through space teleportation, Kong Zhiluoman spread from Shu Liangjun's feet to around, indiscriminately killing the undead around.

Shu Liangjun didn't know what Fang Mu was so urgent about, and Fang Mu didn't explain it to Shu Liangjun.

He simply summoned the Abdominal Territory Worm.

Fang Mu directly flashed into the Mechanism Fortress.

The Abdominal Territory Worm released a Spatial Haze to hide itself.

Seeing this, Shu Liangjun waited for Shui Miao outside while protecting the law outside the Abdominal Territory Worm.

Preventing that the undead and The Dead from attacking the Abdominal Territory Worm.

Don't look at the fact that the power of Abdominal Territory Worm has been upgraded to the Legendary Quality of Diamond Rank, such power in the ancient battlefield is not enough to look at.

Fang Mu just entered the Mechanism Fortress and saw Qin Shao and Jin Ya waiting at the entrance of the Mechanism Fortress.

Qin Shao handed over two silver Storage Spiritual Instruments to Fang Mu as soon as she saw him.

"Ah Mu, the bodies of the Bauraits Spiders are inside these two spiritual instruments."

"The attack capability of the Bauraits Spider is monotonous, only good at close combat."

"The financial reserves of the Crystal Mining Group is not less than that of the Gold and Jade Group."

"On the contrary, amongst all the Federations, the influence of the Crystal Mining Group is even greater!"

"The head of the Crystal Mining Group chose to contract the Bauraits Spider, probably hoping that the bloodline of the Bauraits Spider can retrace, transforming into the Burn Rock Jade Spider."

"But they have always failed."

"You can give the body of the Bauraits Spider to your master, let him refine the bloodline from the corpse."

"When cultivating other spider Guardian Beasts, breakthroughs can be achieved right from the start!"

"In the future, there will be more opportunities for Bloodline Transformation!"

Fang Mu took the two silver Space Spirit Tools handed from Qin Shao.

As agreed, all gains after entering the large-scale ancient battlefield belong to Fang Mu, so Fang Mu didn't need to be polite with Qin Shao.

Fang Mu spoke direction to Qin Shao due to the urgency of the situation.

"Aunt Shao, I have something to do, so I'm going upstairs first!"

"Ah Shui and Elder Shu are outside, you can see them as soon as you go out!"

Without waiting for Qin Shao to react, Fang Mu went straight upstairs.

The people from the Zhenyan Family and Luanyue Family were all on the first floor and greeted Fang Mu as they saw him.

Fang Mu was so urgent that he didn't even nod his head.

Because Fang Mu had already made a Marrow Pact with the Purple Ice Crystal Ring, Fang Mu could feel that the howling of the soul of the Pterodactyl Dragon had become even more mournful.

As soon as he got upstairs, Fang Mu had the Mechanism Fortress cut off the connection between the first and second floors.

The Mechanical Heart continuously flew out to strengthen the space of the second floor, preventing the leaking of aura.

As soon as Fang Mu arrived at the second floor, he took out the three brocade boxes that contained the Crescent Moon Pendants from the Purple Ice Crystal Ring.

At this time, the three Crescent Moon Pendants in the brocade box were like a real crescent moon, radiating a bright moonlight.

Fang Mu carefully read the contents recorded on the brocade pouches inside the three stone platforms.

When he confirmed that the contents of the three brocade pouches were exactly the same, Fang Mu put the three Crescent Moon Pendants together.

He was very curious about what surprise would be brought to him after these three Crescent Moon Pendants were fused into a Crescent Moon Pendant!

Chapter 726 The Function of the Crescent Moon Pendant! _2

Qin Shao was taken aback by Fang Mu's hasty retreat upstairs.

Ordinarily, since Fang Mu had completed the three tests and acquired the artifacts on the stone platform, fulfilling his objective, he should be relaxed now.

His anxiety suggested that an issue must have arisen.

Suddenly, Qin Shao wondered if Fang Mu's teacher had tasked him with an important assignment!

The only probable reason for Fang Mu, a stoic and calm person, to be in such a hurry would be if his teacher had contacted him urgently.

The mentioning of Shu Liangjun and Shui Miao being outside, clearly held a hidden message.

He hoped to meet with Shu Liangjun and Shu Miao without revealing his current status.

Qin Shao was genuinely curious about Fang Mu.

Drawing from their encounters thus far, Qin Shao perceived that Fang Mu was an extremely private person.

If he desired a closer relationship between his clan and Fang Mu, he should avoid actions that would offend him.

Subsequently, Qin Shao and Jin Ya exited the Mechanism Fortress.

Prior to leaving, he specifically set up a prohibition at the stairs leading to the second floor.

The people outside could not probe the fortress's interior, but those inside could freely enter and exit the restricted area.

The restriction would disappear once a person inside left.

Fang Mu observed as the three crescent moon pendants transformed into moonlight, eventually merging into a circular jade plate.

The jade plate, carved from exquisite soft jade embedded with faintly glowing streaks, imbued it with an aura of antiquity and solemnity.

If Fang Mu was to describe the sensation he got from the jade plate in colors, he thought 'moonlight' would be most fitting.

Looking at the jade plate left him puzzled, as the merging of the three crescent moon pendants into a round moon pendant didn't result in a particular transformation.

As Fang Mu reached to grab the jade plate, he had a sudden bleep of pain in his palm.

The plate's luminescence, akin to a razor's edge, sliced through Fang Mu's palm.

His blood dripped onto the jade plate, and immediately suffused it.

Before he could even withdraw his hand, Fang Mu felt the radiance from the plate become incredibly soft and lose all aggressiveness towards him.

Its touch felt incredibly warm and smooth.

A line of connection existed between Fang Mu and the jade plate, a somewhat similar yet different feeling compared to when he was contracting with a spiritual instrument.

Fang Mu didn't seem to be able to use the jade plate as he would a spiritual instrument, yet he felt a markedly stronger connection to it than with the spiritual instrument.

A shade of red suddenly appeared on the jade plate, which was the color of Fang Mu's blood, revealing a subdued golden radiance within.

The red hue gradually shaped into an image of Fang Mu.

Upon seeing the image on the jade plate, Fang Mu's pupils contracted.

An image of him with short black hair occupied the left half of the jade plate, his eyes sparkling bright and a faint smile playing on his lips, presenting a very affable impression.

The right half displayed a figure with red hair cascading down to the feet, eyes blacker than the darkest night.

A skull of a black ram swirled within the inky black eyes, gently wrapped in an ominous shadow.

The image on the jade plate made Fang Mu feel utterly exposed, stripped to the bone.

Nonetheless, Fang Mu didn't display the slightest worry.

The situation had arisen due to his own blood.

An idea to hide the image on the jade came to Fang Mu's mind.

Just then, Fang Mu noted a stirring within his Destiny Guardian Beast, Fool's Shadow.

Fang Mu summoned Fool's Shadow.

Fool's Shadow, following Fang Mu's desire, executed the skill [Breath Convergence].

The image with the red hair on the jade plate instantly morphed into the one with the black hair.

After the transformation was completed on the jade plate, Fang Mu received information feedback from the crescent moon pendant.

Fang Mu found out that the crescent moon pendant had three functions.

The first function allowed Fang Mu, under the moonlight, to use the crescent moon pendant to refine his spirituality with the moon's radiance, purging impurities from his spirit.

Spiritual power was crucial to a Beast Master's strength.

Creators as well as Forge Spirits Masters were invariably Beast Masters. Apart from talent, purity of spiritual power was a crucial factor to them.

Fang Mu had never heard of the possibility of purifying spiritual power.

Fang Mu had drawn many design sketches related to spiritual instruments even before becoming a Beast Master. He showed a great interest in being a Spirit-smithing Master.

However, Fang Mu, through his perception, could affirm that the purity of his spiritual power was not compatible with the path of a Spirit-smithing Master.

If he regularly absorbed moonlight using the Crescent Moon Pendant, his spiritual power would undergo refinement.

The purity of Fang Mu's spiritual power would constantly improve.

Although Fang Mu now had a dedicated Forging Spirit Grandmaster working for him to create spiritual instruments.

But now that he was qualified to become a Spirit-smithing Master, it still made Fang Mu very happy.

The higher the purity of spiritual power, the faster the upgrade speed through meditation.

One could say that purifying spiritual power is beneficial and not harmful.

The second function is that when Fang Mu encounters danger, he doesn't need to urge the Crescent Moon Pendant like shattering the Crescent Moon Pendant.

Fang Mu just needs to think about activating the Crescent Moon Pendant.

When Fang Mu is in danger of being deceived and controlled by soul and spirit, the Crescent Moon Pendant can also start according to Fang Mu's state of being.

It is an all-around self-protection method!

However, Fang Mu is uncertain about the power of the Crescent Moon Pendant that spans the epoch after being activated.

He didn't know if the activation of the Crescent Moon Pendant would be a one-time deal.

Unless Fang Mu's current self-protection ability can't guarantee his own safety, he would never easily activate the Crescent Moon Pendant for self-protection.

The third function is what Fang Mu currently needs and likes the most.

The Crescent Moon Pendant can promote the growth of spiritual power while purifying it.

With the combination of the Crescent Moon Pendant and the Sacred Relic Sakura Tempering Carp, there is a great possibility that Fang Mu could become a Biprong Star Tamer before going to college.

Fang Mu found a black rope and hung the Crescent Moon Pendant around his neck.

The Crescent Moon Pendant against his chest would keep his spiritual power active.

And according to the restoration of his hand injury just now, the Crescent Moon Pendant should also have some healing effects.

Fang Mu, satisfied, touched the Crescent Moon Pendant on his chest through his clothes and prepared to leave the Mechanism Fortress.

Seeing the prohibition Qin Shao set up on the second floor, a smile appeared on Fang Mu's face.

Just then, Fang Mu received a message from Liu Xi that the relics had appeared.

Fang Mu was somewhat surprised by the news from Liu Xi, and then thought to himself.

The appearance of the relics coincides exactly with the timing of his merging the Crescent Moon Pendant!

Could it be that the merging of the Crescent Moon Pendant is a prerequisite for the appearance of the relics?

Fang Mu stepped out of the Mechanism Fortress and was about to speak to Shui Miao and the others when he heard Shui Miao say.

"Ah Mu, I just got the news, the relics appeared in the southwest!"

"Let's go there right away!"

"It's said that the Beast Controlling Force has already surrounded the relics first. If we want to enter the relics, we'll have to fight the Beast Controlling Force!"

"The influence of the Contract Garden works in facing one or two Beast Controlling Forces, but its usefulness diminishes when facing the entire Beast Taming Tribes."

Shu Liangjun added on from the side.

"Master Yin Hanrong's granddaughter, Silver Pure Chih, although represents the Celestial College, is backed by the Contract Garden and the Ten-thousand Nations Federation."

"Silver Pure Chih will definitely mention the names of the Contract Garden and Ten-thousand Nations Federation, to negotiate with a group of Beast Controlling Forces."

"We just need to stand by and watch."

"Even if we really need to start a war with the Beast Controlling Force, we shouldn't be the lead bird."

Fang Mu nodded in agreement, he knew very well when to be high-key and when to be low-key.

Fang Mu has never been a high-profile person.

The previous high-profile confrontation with the Evil Heart Sect was firstly because Fang Mu had to snatch the third Crescent Moon Pendant,

And secondly, Fang Mu regarded the Evil Heart Sect as a deadly enemy and a target he must eliminate.

Being high-profile was the only and best way to achieve his goal at the time.

Now that his goal has been achieved, Fang Mu naturally would resume his low-profile status.

Through previous contact with the Soul Whale Princess and the Luminous Snake Clan, Fang Mu was not repelled by the Beast Controlling Force.

On the contrary, he was quite keen on making gains from the Beast Controlling Force.

Chapter 727 Beast Emperor Rises!_1

With such a purpose, Fang Mu was determined to minimize conflicts with the Beast Controlling Force as much as possible.

From now on, unless it directly affects his own interests, Fang Mu prepared to adopt a standoffish and observant attitude!

Unbeknownst to Fang Mu and others while they were heading towards the direction of the ruins, a strange phenomenon had occurred in the sky outside the ancient battlefield.

It was exactly midday, with the sun high in the sky.

The climate near Rock Peak City was arid, with little chance of overcast or rainy weather.

The cloudless noon, which left all the people and members of the forces within the city deeply worried.

Suddenly, the sun's light was no longer dazzling. In opposition to the sun was a full moon emitting a moonbeams clear radiance.

This full moon appeared at an unexpected time - midday. This strange phenomenon made the hearts of Rock Peak City's dwellers even more frightened!

This phenomenon was not only limited to the Panfeng Federation, the world had time differences due to the different latitudes.

At this moment, the creatures under the night sky of rainy areas suddenly discovered that moonlight penetrated the clouds, coating the dark clouds with layer of moonbeam-colored glow.

The creatures under a clear night sky noticed that the half-moon had instantly turned into a full moon.

The moon was much brighter than usual this night!

And those living in daylight had the same apprehensions as the inhabitants of Rock Peak City.

Many scholars recorded the scene of the sun and moon shining together in the sky, preparing for further research.

Some people thought this to be a good omen; some people thought it to be a bad omen.

Some members of adventure groups believed that the appearance of this phenomenon could very likely indicate the birth of a treasure or a special Guardian Beast.

In any case, the suddenly shining full moon had become a hot topic everywhere in the world.

And all of this was unknown to the members of forces who were exploring the large ancient battlefield outside Rock Peak City.

"As long as we can ensure our entrance into the ruins, we can adapt to the situation!"

"We have the Abdominal Territory Worm, a Space-based Beast, which can hide some of our troops."

"However, it is hard to guarantee that other forces do not have such means of storing people."

"At this sequential level, many Storage Spiritual Instruments can store manpower for short periods of time."

Upon hearing Fang Mu's words, Shui Miao shook his head, then nodded.

"Guardian Beasts similar to the Mechanism Fortress are rare, but they do exist!"

"But I have never seen a Guardian Beast like the Abdominal Territory Worm before!"

"The Mechanism Fortress needs to attach its Mechanical Heart to a target to construct its body with Mechanical Gears."

"It is precisely because the Mechanism Fortress was attached to the Abdominal Territory Worm that it could be easily summoned without being contracted."

"Even if someone contracts the Mechanism Fortress via the Destiny Guidebook, when the Mechanism Fortress is full of people, they cannot retrieve the Mechanism Fortress back into the Destiny Guidebook!"

"And because of the contract, beasts that have been contracted by a Beast Master cannot be stored in Spatial Equipment."

"So, bringing extra people into the ancient battlefield and hiding them would not be an easy task for other forces!"

"Sequential-level Spatial Equipment can accommodate Beast Masters."

"However, if it accommodates Hexagram Beastmasters, for every hour they stay in the Spatial Equipment, they need to be let out for half an hour!"

"This is to allow the Spatial Equipment to balance its internal space and prevent the internal space from collapsing under the interference of spiritual power."

"In a place like the ancient battlefield, if a force were to do this, they would soon be discovered by other forces."

"If a force wanted to bring more manpower in, they could just provide the Qingdian Clan with more Souls of Death."

"There is no need to go to such great lengths!"

"We should be cautious, but there is no need to worry too much."

As Shui Miao was explaining to Fang Mu, he began to feel that Fang Mu was operating on a higher level.

At Fang Mu's level, the Abdominal Territory Worm was not considered a rare Guardian Beast.

In reality, unless there were some random factors, even a Grandmaster Creator might not be able to breed an Abdominal Territory Worm!

Upon hearing Shui Miao's words, Fang Mu also became aware of this issue.

His knowledge was still too limited, his evaluation of the value of supplies was somewhat biased compared to others.

The Abdominal Territory Worm was bred by him using one hundred percent pure Spatial Energy, a nurturing path that even a saintly Creator could not replicate.

Since it is very difficult for other forces to hide their forces like he did, Fang Mu need not worry!

Fang Mu then turned to Qin Shao.

"Aunt Shao, you take Aya and stay in the Mechanism Fortress later!"

"If we need to fight against the Beast Controlling Force later, it would be too dangerous for Aya to stay outside!"

"Also, I plan to keep you as my trump card and allow you to act when necessary."

Upon hearing this, Qin Shao immediately replied.

"I will wait for your summon at the entrance of the Mechanism Fortress at any time."

"I'm not comfortable leaving Xiao Ya outside and solely relying on the Beast Soul Guard inside the spiritual instrument."

When Fang Mu made his public appearance, he was only accompanied by Shu Liangjun and Shui Miao.

It would be more suitable for her to stay in the Mechanism Fortress instead of Shu Liangjun and Shui Miao.

Fang Mu had been conversing with Liu Xi while they were on the move.

Liu Xi had always been fleeing, and Mr. Zi from the Evil Heart Sect was targeted by Fang Mu.

Chapter 728 The Beast King Appears!_2

Other forces have deemed the Evil Heart Sect and Witch School as conspiring, becoming a target that everyone wants to attack.

There is utterly no way to compete for the chance to enter the ruins.

Mr. Zi lost his temper and unleashed it on Meng Sha, pursuing her relentlessly.

Liu Xi clashed with Mr. Zi twice. On one occasion, Mr. Zi grievously wounded the Sister of Earth Spirit Mental Shield, and Liu Xi managed to escape with her.

The second time, once Liu Xi deduced that the Sister of Earth Spirit Mental Shield could not escape due to a broken leg, he directly had her self-destruct.

The explosion injured Mr. Zi's Eater Bat, which was ranked first in the Sequential, and then the Void Beast inside Meng Sha attacked the Eater Bat again.

Taking advantage of the Eater Bat's serious injury and weakness, Liu Xi used all his wits and power to control the Eater Bat.

He forcefully severed the covenant between the Eater Bat and Mr. Zi.

Taking advantage of Mr. Zi's spiritual injury, Liu Xi made his escape quickly with the Eater Bat.

Trading a Mind Shield Nun, who cannot increase power, for a top Sequential Beast Master, seemed extraordinarily suitable no matter how you look at it!

Mr. Zi was indeed not easy to handle. Besides a Ghost Device, Mr. Zi also had another Sequential Beast Master ranked first.

Another Sequential Beast Master was a moth with complicated, bizarre patterns on its wings, its body looking like a withered old man.

The scales from the Beast Master's wings fell on Meng Sha, causing her to be cursed.

Even though Meng Sha had escaped, her life energy was still being continuously absorbed by this first Sequential moth Beastmaster.

Meng Sha would enter an aging state within forty-eight hours.

If she could not find a way to break the curse within seventy-two hours, she would die due to the loss of life energy!

Luckily, the moth's scales only affected Meng Sha, having no impact on Liu Xi.

If that first Sequential Eater Bat hadn't been injured, Liu Xi would have tried to clash with Mr. Zi.

Now, the Earth Beast could indeed exert the strength of a first Sequential Beast Master, but it would take time to unleash the Earth Beast.

If they tried to unleash the Beast in front of Mr. Zi, he wouldn't give Meng Sha the opportunity.

But if they did so elsewhere, because the Earth Beast is gigantic and doesn't camouflage like other beasts, they'd be discovered by other forces the moment they completed the Unleashing.

If they could control both Meng Sha and Mr. Zi, Fang Mu would instantly acquire two top players!

Controlling Meng Sha and Mr. Zi would be the limit for Liu Xi.

Unless Liu Xi got promoted to the Heavenly Evil Spirit, it would be difficult for him to control more targets!

Originally, Fang Mu wanted to kill Mr. Zi, but now Mr. Zi had become a prey that Fang Mu aspires to capture.

Liu Xi was issuing commands to both Meng Sha and Mr. Zi in their fight and escape while also directing Huang Yuan in treating the injured warriors from the Beast Controlling Force.

Many members from different forces managed to hang onto their lives thanks to Huang Yuan's timely rescue.

This made their attitudes towards Huang Yuan switch from disdain to gratitude.

Liu Xi directing Huang Yuan greatly improved his relationship with many forces.

Huang Yuan was able to lend a hand to members of various human forces partly because he had a partnership with the Beast Controlling Force.

These Beast Controlling Forces inevitably had to give him some face.

While Huang Yuan was healing the members of these human forces, he ensured that they no longer fought over the ruins.

It was not the Beast Controlling Force's goal to open a massacre against human forces. They were just trying to obtain their inheritance from within the ruins.

Otherwise, it would be hard to explain to the Ten-thousand Nations Federation afterwards.

Liu Xi made Huang Yuan do this because Fang Mu had considered that Huang Yuan needed to become the lord of the Panfeng Federation's Royal Court afterwards.

It was more appropriate to let Huang Yuan manage the Panfeng Federation compared to people from the Zhenyan Family and the Luanyue Family.

With Liu Xi by his side, many of Fang Mu's original ideas could be adjusted.

As for how to arrange for the people from Zhenyan Family and Luanyue Family, Fang Mu had planned to discuss it with Jiang Weng before making a decision.

Jiang Weng was able to create a special kind of spiritual instrument, which was a disguise mask.

With the addition of the Beast Spirit of Variable Dung Beetles, it can alter a person's appearance and temperament.

This spiritual instrument can't reach the Sequential-level and is only at the Platinum-level, thus it's suitable for a Three Point Star Beast Master to use!

The most unique aspect of this spiritual instrument mask is that once combined with the face of a living person, it can't be taken off.

If forcibly removed, it would disfigure the user, allowing members of the Town Rock Family and Luanyue Clan to truly change their identities.

Once members of the Town Rock Family and Luanyue Clan put on the instrument mask, Fang Yuan could handle its distribution, and we can then launch the business of the Contemplation Hall!

Fang Mu already had the funds needed to establish the Contemplation Hall.

By the time Fang Mu, Shui Miao, and Shu Liangjun arrived at the location where the ruins appeared, Fang Mu saw intense spatial fluctuations in the distance.

This spatial fluctuation originated from an altar, with various Beast Taming Tribes gathered around it.

The Human forces were at an impasse with these Beast Taming Tribes.

Fang Mu always handled matters discreetly, but the trend was already unstoppable.

The appearance of Fang Mu and others immediately boosted the morale of those leading the human forces.

Previously, the powerful factions had seen Fang Mu as their biggest competitor, but now there is a cooperative relationship between the various human forces and Fang Mu.

As human forces, we all inevitably have to struggle jointly against the Beast Controlling Forces. After all, no human force wants the ruins to be solely occupied by the Beast Controlling Forces.

The Beast Controlling Forces had always had the upper hand.

Now that the human forces have rushed to the scene, a balance has been struck with the Beast Controlling Forces.

Fang Mu's gaze fell upon the Beast Controlling Forces, and his focus was quickly grabbed by two Guardian Beasts at the forefront.

These two Guardian Beasts each represented a grouping, both of which were listed in the Beast King Rankings.

The Beast Taming Tribes listed on the Beast King Rankings rarely appeared in Dust World, and each appearance indicated a significant movement by the Beast Controlling Forces!

Xuan Feather Surprised Crane, Luili Red Flame Deer, one representing birds, the other representing beasts.

Represents the two current most powerful lineages within the Emperor Beast Court.

The bird lineage and beast lineage have always suppressed fish and insects. Of course, the fish referred to in this context are the Fish Beasts in rivers, lakes, and ponds.

The Fish Beasts in the sea don't come under the administration of the Emperor Beast Court, but are managed by the four empires of the Sea Clan and the Sea Lord.

A murmuring crane's cry rang out, and then the Xuan Feather Surprised Crane flew up with a flap of its wings.

"In your human language, every matter should respect the precedence of arrival."

"We, the Beast Controlling Forces, discovered the ruins before your Human Forces, so these ruins should logically be explored by us, the Beast Controlling Forces!"

"Of course, we, the Beast Controlling Forces, also understand that these ruins appeared within the region radiated by your Human Federation."

"However, we, the Beast Controlling Forces, are collaborating with the Royal Qingdian Family of the Panfeng Federation, helping them drive out the specters."

"In response, the Qingdian Family has granted us, the major Beast Controlling Forces, the right to explore the ancient battlefield."

"But, in order to express our closeness to humans, we are willing to give 20% of the spots to your Human Forces for you to distribute internally."

Everyone originally thought of how to refute the earlier words of the Xuan Feather Surprising Crane, but the latter's words left them speechless.

The biggest advantage of human forces contesting the ruins with the Beast Controlling Forces again is that this place falls within the jurisdiction of the Human Forces.

However, the Beast Controlling Forces were invited by the Royal Qingdian Family of the Panfeng Federation.

The Surprised Crane from Xuan Feather mentioned that the Beast Controlling Forces were invited to assist the Panfeng Federation in eradication of the specters and the exploration of this ancient battleground was the reward given by the Qingdian Family.

This action justified the appearance of the Beast Controlling Forces.

It put the human forces and Beast Controlling Forces on equal footing once again.

Yin Qingzhi looked at Fang Mu and noticed that Fang Mu seemed peaceful and showed no interest in taking the initiative to speak.

The Green magician, Body Refinement Doctor, Chunhui apparently do not intend to speak either. Otherwise, these three would have represented the human forces in negotiations with the Beast Controlling Forces just now!

Chapter 729:

Yin Qingzhi gritted her teeth, taking a step forward to speak.

"The one who can hold the resources within the ancient battlefield shall possess them; there has never been talk of coming first or arriving last!"

"If your Beast Controlling Force understood the principle of first come, first serve, why did you rob our human forces of our gains in the ancient battlefield!?"

"So, do not make your arguments sound so just!"

"We, the human forces, demand at minimum sixty percent of the places to enter the relics!"

"You Beast Controlling Forces, with your numbers, have besieged and seriously injured or killed so many members of the human force."

"I will definitely report this matter to the Ten-thousand Nations Federation and demand an explanation from the Emperor Beast Court!"

Yin Qingzhi cited the Ten-thousand Nations Federation to suppress the arrogance of these two-class warriors from the Monster Emperor Beast Taming Tribe.

Among the many human forces present, it was most appropriate for Yin Qingzhi to bring up the Ten-thousand Nations Federation.

The moment Yin Qingzhi finished speaking, the Luili Red Flame Deer stamped its hooves on the ground.

A dazzling red Luili flame formed under its hooves, creating a domain.

A cold and firm voice sounded.

"Let's discuss the issue at hand, the Emperor Beast Court and the Ten-thousand Nations Federation are interdependent, you humans have gained many spirit materials from the Beastmaster Tribes under the jurisdiction of the Emperor Beast Court!"

"These spirit materials have nurtured many strong warriors among your human forces. If you bring up the Ten-thousand Nations Federation, can't we bring up the Emperor Beast Court!?"

"The personal relationships that the Founding Grandmasters have with the Emperor Beast Court have nothing to do with the Ten-thousand Nations Federation itself."

"Moreover, when we Beast Controlling Force barricaded the path, we didn't directly attack you. We have been persuading your human forces not to participate in the competition for the relics."

"It's these obstinate human forces that caused the conflict!"

"You can't blame such errors on us Beast Controlling Forces!"

"Offering thirty percent of the places is our limit. If you humans agree to these thirty percent, we are willing to share the relics!"

Upon hearing the Luili Red Flame Deer's words, Yin Qingzhi gritted her teeth.

These two characters were both eloquent speakers. Their arguments were extremely clear, they were simply the best debaters within the Beast Controlling Force!

They not only refuted every point I made, they also knew how to play good cop.

They appeared generous, giving an additional ten percent of spots to the human forces.

If our side really agreed to it and allowed the human forces to occupy only thirty percent of the spots,

Wouldn't we be at the mercy of you Beast Controlling Forces once we entered the relics!?

Besides, whether the Beast Controlling Forces were persuasive or aggressive when they blockaded the path is a matter that hasn't been verified yet.

So naturally, whatever you say is taken as the truth, right!?

Yin Qingzhi glanced at Fang Mu and Chunhui, noticing that the Green Magician was clearly siding with Fang Mu.

Besides herself, Chunhui and Fang Mu are now the most influential speakers!

She had already taken the lead, it was time to pass the baton to Fang Mu and Chunhui.

Yin Qingzhi had always been inquiring about the situation of the Infinite Tower.

The Infinite Tower was incredibly secretive, with few forces having any knowledge about it.

But the Celestial College and Poisonous Gu Villa are both under the control of the Ten-thousand Nations Federation, and Gu Lian, who sided with Fang Mu, has close ties with the Infinite Tower.

Yin Qingzhi had asked Gu Lian and learned from her that there is a Founding Grandmaster within the Infinite Tower.

Chunhui had complex relationships with several Founding Grandmasters, so both of them had the clout to negotiate with the Beast Controlling Forces.

Listening to the words of the Xuan Feather Surprised Crane and Luili Red Flame Deer, Chunhui was seething with anger.

What right did this stupid bird and silly deer have to be arrogant!?

No matter how high their bloodline levels, they haven't exceeded the limit of the first Sequential level. Moreover, it's not like there aren't human strong warriors who have subdued members of the Xuan Feather Surprised Crane clan and Luili Red Flame Deer clan.

It's rumored that the Beast Car that Shuoyang Grandmaster of the Dragon Soaring Federation rode to the Ten-thousand Nations Federation conference was pulled by a Luili Red Flame Deer.

Assuming the Beast Controlling Force had an overwhelming advantage over the human forces,

If the Beast Controlling Force declared that they can only offer thirty percent of the spots to enter the relics, the human forces would have to grit their teeth and bear it.

But under the current evenly matched situation, what right does the Beast Controlling Force have to make such a decision!?

Chunhui chuckled slightly.

"Do you think we're haggling with you!?"

"If you're in the mood for selling twenty or thirty percent, we're not!"

"We, human forces, demand sixty percent because this ancient battlefield opened up within our territory."

"The Qingdian Clan's authorization merely allowed you to enter the ancient battlefield, when did it permit you to compete with the human forces!?"

"Now that our forces are equally matched, it would be most fair for each to occupy fifty percent of the spots to enter the relics!"

"Otherwise, let's have a fight. The loser will be completely wiped out and the relics will all belong to the winner!"

Chunhui's voice was soft and sweet, her words came out slowly and gently like a lover's whisper.

However, Chunhui's words once again brought the atmosphere of the scene to the brink of explosion.

Just as the Xuan Feather Surprised Crane was pondering how to retort, the Luili Red Flame Deer's temper flared up due to Chunhui's words.

"Why not have a fight!? Would we, Beast Controlling Forces, be afraid of you, human forces!?"

The human forces hadn't even changed their expressions upon hearing the words of the Luili Red Flame Deer, but the Xuan Feather Surprised Crane's face had already changed.

Chapter 730 If there's a fight, let's have a fight! _2

What a fool, his head wrapped in Fire Elements, ready to explode at a spark!

The Emperor Beast Court has dispatched us here with a clear mandate: to find evidences and clues regarding the sage's heritage in the relics.

Fighting with the human forces now will only impede our mission!

Even if we do manage to defeat the human forces, decimating them to the last one.

Not only will the Emperor Beast Court find it hard to explain to the Ten-thousand Nations Federation, we may also exhaust our energy, hindering the exploration of the relics in the process.

You must understand that the relics are fraught with danger!

The Xuan Feather Surprised Crane wanted to bring the situation back on track, but couldn't risk undermining his partner no matter what.

Otherwise, it would not only make the human forces perceive discord within the Beast Controlling Force, but also affect the morale of the entire Beastmaster Tribe.

Both Yin Qingzhi and Chunhui have made their stance clear for the human forces. The two looked at Fang Mu simultaneously.

Along with Yin Qingzhi and Chunhui, the other members of the human forces did the same.

Just as Yin Qingzhi, Chunhui, and the other members of the human forces were looking at Fang Mu, he stretched out his hand and applauded, smiling.

Accompanying the clapping was a cheerful voice.

"Well said! If it is a fight, then let's have a fight!"

Fang Mu's words stunned everyone, including the Luili Red Flame Deer who had proposed to fight.

What the hell is he thinking?!

Anyone with eyes could see that it was the Beast Controlling Force making threats, yet he was going along with it!

Is this a slope you should casually walk down?!

Are you telling us that the Infinite Tower is confident it will not incur any losses in a battle against the Beast Controlling Force?!

Fang Mu paused for two seconds before he continued.

"A clash between the two forces leading to massive losses is something none of us want to see."

"You, the Beast Controlling Force, refuse to give us, the human forces, fifty percent slots to enter the ruins."

"Therefore, we, the human forces, have no choice but to prove ourselves!"

"Why don't each side send five powerful individuals into battle? Each battle decides twenty percent of the quotas."

"The battles should be limited to a point, preferably without causing any deaths."

"If deaths do occur, the offending party will lose twenty percent of its exploration rights!"

"If there is nothing left to deduct, the party must compensate with resources for the entire opposing force!"

"The specific amount of compensation can be negotiated when casualties occur."

On the surface, it would seem that Fang Mu's words were just a casual proposal, compelled by the flow of the conversation.

But in reality, they were all carefully planned by Fang Mu!

Fang Mu intended to use this conflict to understand the current strength levels of the Beast Controlling Force and the human forces.

So that he could be prepared during the exploration of the relics.

At the same time, Fang Mu planned to display his own power through Shui Miao and Shu Liangjun, to make other forces wary of him!

So that both human and Beast Controlling forces would think twice about the consequences of opposing him when they enter the relics and begin dividing up the benefits.

This would undoubtedly save Fang Mu a lot of trouble.

Not only did the Xuan Feather Surprised Crane roll his eyes, even the Luili Red Flame Deer was left dumbstruck by Fang Mu's proposal.

Although Fang Mu's proposal seemed faultless, within it lay a scheme that immediately negated the Beast Controlling Force's advantage!

If there were ten battles, with each contributing to ten percent of the stakes, the pressure on each individual would be much lower.

If you lost, you just needed your team to make up for it by winning another battle.

But if each battle was worth twenty percent of the stakes, you would need to ensure that every battle was won.

Many had reserved some special tactics for the exploration of the relics, but would have to use them if engaged in combat now.

Because if you can't reach the relics, no matter how many hidden tactics you have, they're all useless!

Fang Mu's words had many forces complaining inwardly, but they could sense that he was actually a pacifist.

He didn't want this fight to result in casualties!

Otherwise, he wouldn't have proposed the additional condition at the end.

If it weren't for this condition, once the fight started, it was bound to ignite into a raging battle.

Aside from letting off steam in battle, both sides surely aim to seriously injure or altogether eliminate the other's top fighters after assessing their interests.

In any case, disabling them from participating in the subsequent exploration of the relics is the goal.

If compensation were proposed in advance, it would give both powers an internal measure of the its cost.

If we don't talk about compensation now and wait until problems arise, we'd have to face outrageous demands from the opponents!

Not to mention that we would still have to bear the loss of twenty percent of our quota!

The strong ones from each Beast Controlling Force tribe knew that they shouldn't agree to this requirement, but it was the Luili Red Flame Deer that proposed it first, not leaving them with much choice!

Before Fang Mu made this suggestion, he had already discussed it with Shu Liangjun and Shui Miao.

Shui Miao and Shu Liangjun both thought that this was the best time to reveal their strength.

As long as they demonstrated enough strength to lead the human forces, they could at least relieve some of the pressure from the human forces once in the ancient battlefield!

The Xuan Feather Surprised Crane, helpless, glanced at the Luili Red Flame Deer and then let out a cry.

"We accept your humans' proposal!"

"Before deciding on the manpower, both sides will have ten minutes to discuss."

"Let's decide on the manpower for the first fight now!"

After speaking, the Xuan Feather Surprised Crane landed among the Beast Taming Tribes.

Fang Mu calmly received the psychoanalytical stares from the various human forces, then seriously stated.

"I've used this battle to secure a fair chance for both sides, this is currently the best method!"

"Otherwise, the Beast Controlling Forces would never give up the advantage they hold right now!"

Although Fang Mu made the decision somewhat autocratically, no one could argue against the truth of his words.

Yin Qingzhi stared at Fang Mu for a while, not understanding why Fang Mu was so confident.

Chunhui was always interested in the Infinite Tower. She saw now as the perfect opportunity to better understand their force.

Suddenly, an idea appeared in Chunhui's mind. She wanted to test the real strength of the Infinite Tower.

She smirked at Fang Mu and said.

"Our Beast-binding Hall can send a representative to fight against the Beast Controlling Force."

"Since the Infinite Tower came up with this idea, why not let you send two representatives to fight!?"

When Chunhui said this, she never thought that Fang Mu would accept.

The other human forces present didn't think so either.

However, to everyone's shock, Fang Mu calmly accepted Chunhui's proposal.

"Letting the Infinite Tower fill two spots is no problem, but correspondingly, we, the Infinite Tower, will secure forty percent of the quota for ourselves and bring along our friends from Poisonous Gu Villa, Truth Hall, and Ancient Genesis!"

"There will be no more snatching of quotas once they have been determined!"

Fang Mu's proposal left the human forces' leaders in silence for a while, although they did not disagree.

If the Infinite Tower could really secure forty percent of the spots, Fang Mu's proposal would not be considered excessive!

However, they did not understand why Fang Mu, or the Infinite Tower, were so confident!

Everyone knew that both the Xuan Feather Surprised Crane and the Luili Red Flame Deer would definitely join the fight.

Wang Xu and Gu Lian were quite excited.

They didn't regret bringing along members of their own factions, taking the risk of standing with the Infinite Tower, despite becoming targets of public criticism!

Through this, Fang Mu was fulfilling his statement that "the Infinite Tower takes better care of friends!"

Strangely, the Green magician felt a peculiar sense of appreciation.

Since when did someone begin to cover for Ancient Genesis!?

While the Green magician thought it was a bit odd, believing that the Infinite Tower didn't need to act this way.

Even with just twenty percent of the quota, Ancient Genesis could still be one of the selected human forces.

Despite these thoughts, the Green magician nevertheless owed a favor to Fang Mu.

Looking at Fang Mu, a hint of warmth sparkled in his otherwise overly rational eyes.

Although the contract with a top-level pollutant extinguishes emotion, one can still judge the degree of closeness.

A battle between the human forces and the Beast Controlling Force was about to break out!
