

Beast Tamer 731

Chapter 731 - Spring-slaughter Shadow and Bliss Palace!_1

Yin Qingzhi looked at Fang Mu, hoping to discern Fang Mu's idea through his expression.

But clearly, Yin Qingzhi failed.

Yin Qingzhi found Fang Mu's gaze unusually calm, as if the proposal to Engage in five battles with the Beast Controlling Force was not proposed by Fang Mu himself.

Yin Qingzhi always felt that Fang Mu's intentions were not as simple as what he stated.

But for a while, Yin Qingzhi could not figure anything out.

If this ordinary-looking young man in front of her hoped to get a glimpse of the strength of human forces and the Beast Controlling Forces through this battle.

Then with the Infinite Tower sending out two powerful individuals, undoubtedly, the Infinite Tower would reveal more of its power!

Yin Qingzhi spoke softly to Sun Kumei beside her.

"Elder Sun, use those three Dream Weavers to set up the Barrier!"

Hearing Yin Qingzhi's command, Sun Kumei turned to three identical-looking young girls in the middle of the team, who only differed in hairstyle.

"You three, use your Spirits of Hero to set up the Barrier, remember to set the level on the edge of the Barrier to A, and the middle level of the Barrier set to A+."

Upon hearing this, the three girls put their hands together and started praying.

Three dense glows of light appeared in front of the three girls.

Three elegant, platinum-robed female Spirits of Hero, each holding two weaving needles, appeared in front of Fang Mu.

Sensing the energy of these three Spirits of Hero, and the headbands they wore,

Fang Mu could confirm that these three Dream Weavers were at the peak level of being Generals.

There was still a considerable gap to reach the level of the Ground British Spirit.

After the three Dream Weavers appeared, their weaving needles began to shuttle swiftly in the air.

A number of platinum light nets were drawn up by these three Spirits of Hero, separating the human forces and the Beast Taming Tribes.

This net was to prevent the human forces from overhearing the conspiracy of the Beast Taming Tribes.

Any movement on the side of the Beast Taming Tribes, would magnify and transmit through the Barrier.

The pre-war planning between Humans and Beast Taming Tribes had already begun.

Ever since Shu Liangjun took Fang Mu under his wing, he would consciously explain to Fang Mu whenever he was curious about something.

"Ah Mu, don't be deceived by the youthful appearances of these three girls. They are over two hundred years old, about the same age as Ah Shui!"

"Since they contracted Spirits of Hero at a young age, they look younger than other Beast Masters due to the nourishment of Light Elements."

"These three under Master Yin Hanrong are quite famous since they have an evil spirit with Barrier ability that you also have."

"When Master Yin Hanrong obtained these three Dream Weavers, they were in the early stages of being General-level Evil Spirits."

"Master Yin Hanrong wanted to grow them into Ground Evil Spirits, but after achieving only one accomplishment out of the six decorations and a crown, no further improvement could be made."

"If these three Dream Weavers become Ground Evil Spirits, their strategic value and significance would greatly enhance!"

"But according to the way the old lady set up the Barrier, it should be enough."

"The A-level edge region requires three nets, the A+ middle region requires four nets, which should be enough to prevent any Information leaks."

Shu Liangjun was very meticulous in his explanations; with each explanation, Fang Mu was able to absorb an abundance of knowledge from Shu Liangjun's words,

This made Fang Mu very grateful to Shu Liangjun.

If it were not for Shu Liangjun taking him under his wings, Fang Mu would have had a hard time gaining such knowledge.

Now, even if Fang Mu did not display his Grandmaster-level Potion or flaunt items like Sequential Spiritual instruments to show off his status,

merely his way of speaking and insight alone, would command respect.

This would prevent any doubts about him being a Grandmaster Disciple from the people who meet Fang Mu.

Now Fang Mu understood the strategic value of an evil spirit with Barrier capability in a real battle situation.

Fang Mu planned to cultivate the General-level evil spirit he had captured.

Previously, Fang Mu did not pay much attention to this General-level evil spirit, so he did not even bother to find out its name.

This male evil spirit, in terms of appearance, was not inferior to these three Dream Weavers.

Master Yin Hanrong cultivated the Dream Weavers using only the Soul of Death.

However, when Fang Mu helped Liu Xi to promote to Ground Evil Spirit, he used a lot of Covenant Blood Essence and Blood Aged Wine apart from using Contracting Blood to help Liu Xi to ascend in life level.

With the presence of Covenant Blood Essence and Blood Aged Wine, Fang Mu was confident that he could level up those generals who had the ability to create barriers to Ground Evil Spirits.

With Yin Qingzhi revealing her hand now, she was essentially helping all the human forces present.

However, with the Infinite Tower definitively stating it would send out two powerful individuals, even if Yin Qingzhi allied with Chunhui,

They might not necessarily overwhelm the Infinite Tower in terms of momentum and status.

"Before we confirm our choices, why don't we first analyze the potential candidates that the Beast Taming Tribes might put forth!"

"Xuan Feather Surprised Crane is not suitable for 1v1 battles, it specializes in team support with its strong defense capability."

"So, it's unlikely for Xuan Feather Surprised Crane to be in the battle, but the Luili Red Flame Deer will definitely be,"

"Also, the powerful Guardian Beasts like the Yellow Spring Dragon Rhinoceros, Bi Luo Elephant, Day and Night Crowned Tiger, Dark Corrosion African Emperor Scorpion could all potentially send out strong fighters for this battle."

Yin Qingzhi spoke these words sincerely.

Chapter 732 - Spring-slaughter Shadow and Bliss Palace!_2

Master Yin Hanrong felt comfortable sending Yin Qingzhi to explore this ancient battlefield for two reasons. The first was the intention to train his granddaughter.

The second was because Yin Hanrong knew that her granddaughter, Yin Qingzhi, had a rare calm demeanor when dealing with significant matters.

She also had a strong analytical mind.

If she was but a bumblehead, even if she was his own granddaughter, Yin Hanrong would not invest so much effort into her training.

He would only provide resources necessary for enhancing her strength.

After all, bumbler has always had a hard time ascending to the grand hall!

Yin Qingzhi did not expect Chunhui, this old woman, to start firing at her because of her analysis!

"What's the use of analyzing who from the Beast Controlling Force will appear!?"

"Even if you can predict which tribe will appear, you can't determine the order of appearance."

"We only have ten minutes. Don't waste them on meaningless things!"

"All your speculations are based on your understanding of the current situation."

"But is your understanding of the situation really accurate!?"

"As far as I know, the strong figure from the Black Feather Surprised Crane Tribe who was assigned to the Beast King List by the Emperor Beast Court, is called Hexin."

"His strength is reflected in his skills and unique attributes."

"Those Wild Beast Users can't have Destiny Guardian Beasts like we Beast Masters, they don't have Guardian Beast partners and cannot use spiritual instruments."

"But after stepping into the Sequential, they can contract a Ghost Device that grows with them."

"The Ghost Device of the top Beast Controlling Force will combine the beast tribe's ancestor's bones and blood with the Ghost Device to form a Beast Ghost Device, which will perfectly match the Guardian Beast."

"Hexin's Beast Ghost Device is somewhat special, and Hexin maybe due to several skills or unique characteristics, he has his own unique fighting style!"

"Beast-binding Hall has once collaborated with the Tear the Sky Bear Tribe who is listed in the Beast King List."

"A strong figure from the Tear the Sky Bear Tribe was seriously injured during his battle with Hexin."

"So your prediction that Hexin won't appear is completely wrong, Hexin will definitely show up!"

"And he will be used as one of the ace cards of Beast Controlling Force!"

"Just like us humans hide our best cards, so does the Beast Controlling Force."

"It is impossible to understand the enemy in order to become familiar with ourselves. It's already good if we can understand ourselves."

"Moreover, the reality now is that we can't even fully understand ourselves!"

After saying this to Yin Qingzhi, Chunhui turned to Fang Mu and said,

"We from Beast-binding Hall will produce someone for the first battle."

"Ayin, I entrust the first battle to you!"

Hearing Chunhui's words, a petite figure from among the dozen or so people of Beast-binding Hall stepped forward lightly.

From under her robe, a pair of delicate fair hands were extended, gently taking off her thick robe.

A shy 21 or 22-year-old woman stood there, seemingly uncomfortable with being stared at by so many people.

The blushing woman nodded gently at Chunhui, then softly uttered an "alright".

Shui Miao and Shu Liangjun's expressions tightened, a hint of solemnity appearing in their eyes as they looked at the woman.

As the Pavilion Master of Beast-binding Hall, Chunhui was one of the five main managers of Beast-binding Hall.

But the strongest five figures from Beast-binding Hall are the Guardians of the Five Halls.

The woman before them was Qianying, the Guardian of Spring Hall in Beast-binding Hall who is known as "Spring-slaughter shadow".

She was one of the few believers in slaughter among the strong figures who respected nature at Beast-binding Hall.

Among the five Hall Guardians, she was the one who enjoyed killing the most.

Shui Miao and Shu Liangjun were unsure about the actual strength of Qianying, just like other forces were unclear about the actual strength of Twelve Pavilion Masters and the Golden Toad Manor.

Chunhui's willingness to let Qianying step in instead of acting herself was a gesture of statement.

If any strong figure from any force does not exert their full strength in a battle against the Beast Controlling Force, Beast-binding Hall would surely settle the score afterwards!

At first, when Yin Qingzhi was targeted by Chunhui, she was filled with anger.

But after careful deliberation over Chunhui's words, Yin Qingzhi took them to heart.

The Green Magician, one of the Eight Evil Seeds from Ancient Genesis, did not intend to participate in the match.

Extremely rational people have always disliked taking risks. Besides, he definitely had the qualification to enter the ancient battlefield.

After all, it was impossible for humans to not win a single round against the Beast Controlling Force.

Chunhui glanced at the time and noticed they had only two minutes left. Counting the two from the Infinite Tower who were sure to battle, there were only three people confirmed to fight.

Yin Qingzhi represented Grandmaster Yin Hanrong and the Celestial College.

Being a direct force under the Ten-thousand Nations Federation, it was sure to send someone!

Master Yin Hanrong would let his granddaughter get experience, but it was impossible for her to ensure her granddaughter's safety by only relying on Sun Kumei,

The people of Ancient Genesis were very difficult to communicate with.

As soon as the Green magician decided not to make a move, no matter how much you called, he wouldn't respond.

Helpless, Chunhui turned her head to look at the end of the crowd.

"Bliss Palace, how long are you going to stay in the Harvest Union's team!?"

"Isn't it time for your Bliss Palace to send someone out?"

After Chunhui's words fell for a while, a helpless old voice sounded from the back of the crowd.

"Lord Chun's intelligence ability really impresses me, even knowing that my Bliss Palace is travelling with the Harvest Union!"

"Well, let my Bliss Palace be the third to play!"

"The Infinite Tower is so big and sent two people, let the people of Infinite Tower fight the second battle, it will show us a bit!"

The Bliss Palace's pavilion master was named Eternal Mother Yongle, who was a killer by trade.

The killers within the Bliss Palace were divided into three departments.

Yue Kill specialized in cooperating with various Federations to help them capture and assassinate criminals.

However, because of the high fees of Bliss Palace, the powerful Federations have the ability to deal with criminals themselves.

Bliss Palace's main source of income comes from those relatively weak Federations that do not have the ability to deal with criminals.

The Earth Kill targeted members of all major forces, including the Beast Controlling Force.

As long as their force was within Sequential Four, they were all within the range of Earth Kill.

The Sky Kill targeted everyone in the world, even Grandmaster Creators could be offered a reward as long as they could afford the price.

At the beginning, all the major forces thought that "Sky Kill" was just a slogan thrown out by Bliss Palace.

But then Bliss Palace actually killed a Grandmaster Creator!

This made Bliss Palace anger the Contract Garden, this loose organization composed of Grandmaster Creators.

Because of the Contract Garden, Bliss Palace hid in the Dust World for more than two hundred years.

Unexpectedly, this group of killers from Bliss Palace, who only feared that the world would not be in chaos, were actually interested in a large ancient battlefield!

No matter how you think about it, something seems off.

This group of lunatics from Bliss Palace even dared to kill Grandmaster Creators, there was probably no one in the world that Bliss Palace would not dare to move against!

Shui Miao and Shu Liangjun both felt a wave of pressure.

Although the people of Bliss Palace had obviously decided to send someone to fight against the Beast Controlling Force, they had not yet appeared in front of people, which was very consistent with Bliss Palace's way of doing things.

Luckily, Qin Shao was hidden by Fang Mu.

With the three of them there, safeguarding Fang Mu's safety should not be a problem!

But whether they can get the inheritance in the relics is uncertain!

From this old man's words, it can be heard that Bliss Palace is interested in the Infinite Tower.

The Main Battle Mystic Beasts that Shu Liangjun and Shui Miao had contracted when they were young had become substitute Mystic Beasts after they became Hexagram Beastmasters.

The Main Battle Mystic Beasts had been reselected.

In recent years, Shui Miao and Shu Liangjun have been very low-key in their actions.

So when they really start to take action, both Shui Miao and Shu Liangjun are not afraid that someone would recognize them.

Fang Mu, hearing Shui Miao and Shu Liangjun's Soul Sound Transmission, also glanced towards the rear of the crowd.

If it's not necessary, Fang Mu would not want to make an enemy of Bliss Palace.

A group of assassins hiding in the dark were the most troublesome.

Once you make an enemy of Bliss Palace, you would need to be vigilant against assassination at all times.

His own family might also become a target of Bliss Palace.

A group of killers absolutely wouldn't play by the rules with you.

When Chunhui called out Bliss Palace, Yin Qingzhi's face immediately showed a change of expression.

In the end, Yin Qingzhi took a deep breath and suppressed the hatred and killing intent in her eyes.

Yin Qingzhi was prepared to pass a message to her grandfather, to let her own grandfather inform Lord Han Ming.

Chapter 733 - Vicious Beast: Abormal Lizard!_1

Outsiders only know that Yin Hanrong is a Grandmaster Creator, and even insiders within the Ten-thousand Nations Federation are unaware of the relationship between Yin Hanrong and Han Ming.

As a matter of fact, Yin Hanrong once studied under Han Ming in his youth, and was carefully taught by him.

Because of Han Ming, Yin Hanrong, who has always been immersed in the research of Guardian Beasts, joined the Ten-thousand Nations Federation.

And became a Grandmaster Creator revered in the Ten-thousand Nations Federation!

The Grandmaster Creator who was assassinated by the Bliss Palace was also a disciple of Han Ming.

However, he was not a Direct Disciple like Yin Hanrong, but a nominal disciple who was merely guided by Han Ming for a while.

Yet, this Grandmaster Creator had a close relationship with Yin Hanrong, Yin Qingzhi's grandfather.

The Bliss Palace has been hidden for nearly two hundred years, and her grandfather has always carried a scar in his heart for his fallen disciple's death.

This scar has made it hard for her grandfather to focus, and his abilities as a Creator have never progressed.

Yin Qingzhi hoped that the discovery of the Bliss Palace's whereabouts this time would help her grandfather resolve his internal conflict.

Among the five combat candidates, four of them have now been determined. Yin Qingzhi stepped forward with a frosty expression on her face, and said:

"The final spot will be filled by our Celestial College!"

"As for who we will send to fight, we won't introduce them in detail right now!"

"Our Celestial College will do our best to win the duel, and secure a 20% quota for our human faction to enter the ancient relics."

Chunhui saw the expression on Yin Qingzhi's face.

She understood the grudges between the Bliss Palace and Yin Hanrong, as well as the other Grandmaster Creators.

Every Grandmaster Creator has cherished friends, and most of these cherished friends are also Grandmaster Creators.

Otherwise, it's hard for them to find common ground.

Yin Qingzhi must certainly be dwelling on the grudges with the Bliss Palace.

The Bliss Palace has always been practical, not resorting to meaningless actions unless they bring substantial benefits.

As long as Yin Qingzhi avoid stirring up trouble, there would be no conflict with the Bliss Palace.

The Bliss Palace's leader, the Eternal Mother Yongle, had already suffered a big loss due to the death of that Grandmaster Creator.

This incident roused Han Ming to action, leading to him personally stepping in.

The Bliss Palace has hidden from the Dust World for two hundred years, paying the price.

If the old issue is brought up again, the Eternal Mother Yongle is unlikely to let it go!

Chunhui hoped that Yin Qingzhi and Master Yin Hanrong wouldn't do anything foolish.

The five candidates are now decided, just waiting for the Beast Controlling Force to send their fighters for the duel.

There are quite a few forces present with hidden cards up their sleeves, but none of them wants to take the initiative to participate in the duel.

Firstly, winning doesn't bring real benefits while losing gets them blamed!

Secondly, even though they had already agreed not to fight to the death, no one expects such a high-level duel to truly stop at the precise point necessary!

Should one's attack miss, there is a high probability of getting ambushed in the resulting gap, leading to the reversal of victory and defeat.

Under the circumstances where injuries are highly probable, the normally dominant leaders of the forces are now all acting mysteriously quiet.

Qian Ying will be the first to take to the stage. Qian Ying is currently toying with her hair, appearing as if nothing is the matter.

But those in the Beast-binding Hall who are familiar with Qian Ying know that she is beyond excited at the moment.

Qian Ying believes in slaughter, and rarely has the opportunity to unleash her bloodlust in the Beast-binding Hall.

Chunhui knew that Qian Ying couldn't stand it anymore.

Luckily, Qian Ying knew her limits and wouldn't lose control in the upcoming battle against the Beast Controlling Force.

As the two main leaders of the Hall of Spring, Chunhui as the decision maker always thought of Qian Ying, the Guardian, as a complete lunatic!

When a little bunny believes in slaughter and is obsessed with blood, that bunny can tear a wolf to pieces!

Once everything was ready, Sun Kumei gave a sign, and the three young girls simultaneously moved their long needles.

The Barrier split in an instant, and the Beast Controlling Force on the other side was already prepared for battle.

However, when he saw the lineup of the Beast Controlling Force, Fang Mu felt overwhelmed by their cuteness.

Each of the Beast Taming Tribe's leaders were showing their true form, with the other tribe members remaining in their disguised forms.

Those disguised beasts looked like chicks following a mother hen, making the upcoming duel seem less serious.

It's more like playing a game of 'Catch the Chicken!'

The Xuan Feather Surprised Crane flapped its wings and let out a crane cry, then asked very seriously:

"Should our sides send out the strong ones directly, or shall we take turns sending out one by one?"

Upon hearing this, Yin Qingzhi furrowed her eyebrows and asked:

"The first method might put one side at a disadvantage as it could delay their dispatch of people, making it easy for the other side to switch their people according to our moves!"

"The second method seems nice, but in five matches, there will definitely be a case where one side sends out three people first and the other side sends out two people first."

Before Yin Qingzhi could finish her words, she was interrupted by the cold voice of the Luili Red Flame Deer.

"You humans just love useless squabbling."

"We are completely unaware of whom you are preparing for the battle, so how can we make a timely counter-strategy."

"If we had the ability to probe your human affairs, we wouldn't be in this deadlock with you."

"Of course, the same applies to you humans regarding us, we can't be bothered to bicker about who will go first."

"We, the Beast Controlling Force, will go first, so that we will send three people first and you will send out two, according to your human logic, we'll let you take some advantage!"

Chapter 734 - Vicious Beast: Abnormal Lizard!_2

After ten minutes of calming down, the Luili Red Flame Deer had realized that it had been outmaneuvered by that young man.

That young man outmaneuvered it, causing the advantages of the entire Beast Taming Tribes to be squandered.

This infuriated the Luili Red Flame Deer.

Therefore, as soon as Yin Qingzhi opened her mouth, the Luili Red Flame Deer immediately started to taunt her.

The words of the Luili Red Flame Deer almost caused Hexin to not hold back, impulsively flapping his wings and knocking Luzhuo's head off with a swing.

Hexin was initially planning to take advantage of this situation to pressure humans and gain some advantages and conditions for the Beast Controlling Force.

However, before he could start, all the advantages were completely squandered by Luzhuo!

Even if Hexin is going on a mission by himself, he wouldn't want to have an impulsive and hot-tempered fool for a teammate again!

Since Luzhuo had already agreed so straightforwardly, Hexin naturally couldn't go back on his words.

Yin Qingzhi was taken aback for a moment, but soon laughed lightly and said.

"As expected from a strong one from the Beast Controlling Force listed under the Beast Emperor's list, truly heroic!"

"We thank you in advance!"

After saying that, Yin Qingzhi stretched out her hand, indicating that the Beast Controlling Force should send out the first contender for the duel.

Chunhui shot a glance at Yin Qingzhi, seeing through her little thoughts.

Yin Qingzhi was trying to display a sense of representing the human force in front of the Beast Taming Tribes.

Although the humans were currently vying with the Beast Controlling Force for the qualifications to enter the ruins, they were still expected to cooperate outside.

Chunhui inwardly thought that she had overestimated Yin Qingzhi!

Even being the granddaughter of Master Yin Hanrong and having experienced many battles, Yin Qingzhi was still too young.

Compared to Yin Qingzhi, Fang Mu, who was low-key, was taken more seriously by Chunhui.

Having completed his assessment as soon as he appeared in the human forces, suppressing the Evil Heart Sect and making Mr. Zi from the Evil Heart Sect flee from the Infinite Tower, Fang Mu was now at the core of the human forces.

When the Infinite Tower decided to send two strong ones to fight against the Beast Controlling Force, Fang Mu's influence among the human forces had already surpassed Yin Qingzhi's by a lot.

After seeing the two strong ones sent out by the Infinite Tower, the Beast Controlling Force would also soon notice this.

So Yin Qingzhi's behavior was akin to doing something unnecessary.

A roar similar to that of a dragon-like Guardian Beast but with less rugged majesty and more sharp coldness resounded.

A ferocious lizard beast with a brown base and purple-green spots all over its body walked out of the ranks of the Beast Taming Tribes.

Every step this lizard beast took, the ground would make a slimy sound.

One after another muddy footprints coated with slime appeared behind this lizard beast.

Horned spikes protruded from the joints, but from the outside, Fang Mu thought that this lizard beast should be very good at close combat.

The human forces would seriously discuss and actively prepare for the battle, and so would the Beast Controlling Force on the other side.

This lizard beast, which Fang Mu had never seen or heard of, was definitely a powerful existence amongst the Beast Taming Tribes!

Fang Mu turned his head to look at Shu Liangjun and saw the solemn look in his eyes.

This time, Shu Liangjun did not use Soul Sound Transmission, but instead spoke out directly.

"The Emperor Beast Court really dares to put everything at stake, even willing to let the Abnormal Lizard out!"

"If this vicious beast known as the 'Annihilation Rift' dies, the Emperor Beast Court would effectively lose a large-scale destructive strategic resource!"

Fang Mu read many books in the Scavenger Hall of Honor, one of which introduced malicious beasts.

Vicious beasts were extremely remote to the common Beast Master, as each malicious beast could create a disaster no less than a Disaster Level Dimensional Rift!

Vicious beasts were not exclusive to The Seventh Era product, many records about vicious beasts also existed in the ancient books of the Fifth and Sixth Epoch.

At that time, people preferred to call malicious beasts as Cancer Spirits.

In the Insect Valley related to the Poisonous Gu Villa, many insect-type malicious beasts were bred and worshipped.

This malicious beast called the Abnormal Lizard was the first Fang Mu had ever seen.

The power of this Abnormal Lizard clearly exceeds the Diamond Rank. Fang Mu was unable to investigate it using the Innate Divine Ability [Eye of Omniscience] of his Destiny Guardian Beast, Fool's Shadow.

However, through Fang Mu's senses, the tier position of this Abnormal Lizard wasn't too high, and it was probably in the range from Sequential Eight to Sequential Nine.

A Vicious Beast of this level could represent the first to battle from the Beast Controlling Force!

The title "Rift of Extinction" was enough to prove the strength of this Abnormal Lizard.

Vicious Beasts did not Have Clans. They were solitary individuals.

This was why Shu Liangjun had said that if this Abnormal Lizard encountered an accident, the Emperor Beast Court would grieve over it.

If this Abnormal Lizard died, there would likely be no more Abnormal Lizards in the world!

Vicious beasts were very special creatures that cannot breed offspring like normal Guardian Beasts.

This was the reason the Vicious Beasts remained in the world.

Otherwise, not to mention humans, even Emperor Beast Court would not dare to cultivate Vicious Beasts as they do now, treating them as weapons!

Shui Miao said to Fang Mu through Soul Sound Transmission.

"Emperor Beast Court has sent a Vicious Beast, this is not as simple as what we imagined in these ruins!"

"Elder Bright Edge of the Luminous Snake Clan either really doesn't know anything, or he is deliberately hiding some information."

"A Sequential Eight Vicious Beast, unless a Guardian Beast that has reached a transcended sequential level takes action, it will be difficult to kill this Abnormal Lizard."

"Even if the current environment has restricted the Abnormal Lizard, the attack from a Sequential Eight Abnormal Lizard could likely overwhelm many Sequential One Guardian Beasts!"

"The minds of Vicious Beasts are chaotic and violent. They cannot be contracted through spiritual power."

"Even if they had a step into the Sequential rankings, their minds would still be like that of a one-year-old."

"Once a small Federation secretly cultivated a Vicious Beast, but it eventually backfired, turning the entire Federation into a Dead Zone."

"If Elder Shu had taken part in this duel instead of Ah Mu, it would have been much better than Qian Ying!"

"No matter if it is Beast Mastering or using the Ghost Device, Elder Shu could restrain this Abnormal Lizard."

Before Shui Miao finished speaking, Qian Ying, who was standing next to Chunhui, had transformed into a phantom and was standing directly in front of the Abnormal Lizard.

Qian Ying flicked her hair lightly, and a fairy with two pairs of wings crawled out of Qian Ying's hair.

This small fairy had dark skin, and the black fishtail skirt it wore was basically the same color as its skin.

The black hair was slightly curled, and the length of her hair just halfway covered the small four-winged fairy

In a battle of this level, no one would step forward to declare the start.

The moment when one party exhibited an attack, the battle would naturally begin.

The back legs of the Abnormal Lizard lifted high, its front claws thrust forward.

A large amount of murky mucus excreted from the limbs of the Abnormal Lizard, and immediately after, Fang Mu saw the Abnormal Lizard suddenly split.

The originally three-meter figure divided into two.

Fang Mu keenly noticed that during the splitting process of the Abnormal Lizard, visible flesh enveloped in a membrane could be seen.

This type of splitting exceeded Fang Mu's comprehension, then the Abnormal Lizard, which had divided into two, split into four, eight, and sixteen.

In just a few seconds, it split more than a dozen times.

Almost four thousand Abnormal Lizards surged towards Qian Ying like a tide, not only startling Fang Mu but also shocking many of the strong human forces present!

During the process of the Lizard Beast Group charging at Qian Ying, the splitting of the Abnormal Lizard continued.

This terrifying rate of reproduction reminded Fang Mu of the bacteria in the Petri dish in the lab.

This was what they referred to as a Vicious Beast!

Now is not the time to ask questions. After entering the ruins, Fang Mu planned to ask Shui Miao, Shu Liangjun, and Qin Shao about the situation of the Vicious Beast.

Ask how to cultivate a Vicious Beast.

Can he contract a Vicious Beast through the Covenant Blood Essence!?

Chapter 735 - Scythe Shadow Thorn Demon! _1

Fang Mu had a particularly strong curiosity about all kinds of lives.

If every life had a chance to form a contract, Fang Mu would gladly oblige.

Moreover, a Vicious Beast of Sequence Eight could be seen on par with a powerhouse like Qian Ying. Wouldn't a Vicious Beast of Sequence Seven be able to compete with the beasts above the sequence!?

Although Fang Mu didn't know how to cultivate Vicious Beasts, he was certain that it would be extremely difficult to do so!

Because, if it was easy to cultivate Vicious Beasts, this Abnormal Lizard, carefully cultivated by the Emperor Beast Court, wouldn't be stuck at the level of Sequence Eight!

If Fang Mu could contract ordinary guardian beasts, Evil Spirits, pollutants, and Vicious Beasts, he'd be an all-round talent!

Just by swapping a different piece of Noface Star Paper, Fang Mu could evolve different identities!

Although Fang Mu had no interest in creating too many identities, they could be of great use in necessary situations.

Yin Qingzhi pursed her lips and voiced her worries.

"This Vicious Beast has already split into tens of thousands, it's really hard to determine where its main body actually is."

"Elder Qian Ying only summoned a Four-winged fairy, and I..."

Before Yin Qingzhi could finish, Chunhui interrupted her.

"There's no need to worry about the powerhouses of my Beast-binding Hall."

"It would be better to worry more about your battles in Celestial College!"

"There is no difference between the main body and the fragments of these Abnormal Lizards."

"All the Abnormal Lizards are the main body!"

"The reason why Abnormal Lizards can be called Vicious Beasts is that unless all of them are killed in a flash, their fragmentation will never be suppressed!"

"The tens of thousands of fragments are just the beginning, an Abnormal Lizard of Sequence Eight, if it wants to split could produce nearly a million descendants in a very short time!"

"If they have a replenishing energy source that allows the Abnormal Lizards to reproduce freely, in less than two months there would be more Abnormal Lizard herd than people in the Panfeng Federation!"

The moment the first Abnormal Lizard was about to touch Qian Ying, a profound shadow emerged from the black-skinned four-winged fairy in her fish-tail skirt.

Shadows enveloped Qian Ying. The fairy and Qian Ying merged into one and disintegrated into countless shadows that melted into the shadows under the Abnormal Lizard herd.

Seeing this, Fang Mu immediately thought of Qian Ying's title, "Spring-slaughter shadow".

He had heard of this kind of Fairy Type Beast Control that can merge with the Beast Master, but it was the first time he saw it.

Suddenly, a palm made of shadows split out from all the Abnormal Lizard's shadows.

This palm locked tightly onto the throat of the Abnormal Lizard, much like how a lion's wide-open bloody mouth traps the neck of its prey.

This shadow palm, possessed with great power, bore the sounds of "crack crack crack" as the vertebrae snapped.

This sound reminded Fang Mu of a former life when he was in a small town celebrating the New Year, where at midnight firecrackers rang out from all households.

Qian Ying's shots were powerful, basically each strike crushed a Abnormal Lizard.

However, Qian Ying's attack speed couldn't keep up with the speed of the Abnormal Lizard's division.

The Abnormal Lizards completely ignored Qianying's attacks, did not put up any defense, and let Qianying kill the lizard herd.

The body division is the natural talent of the Abnormal Lizard and does not require much energy.

Those dead Abnormal Lizards would quickly be eaten up by the dividing Abnormal Lizards.

Converting it into energy for continued division.

And each time Qian Ying launched such a fierce attack, it required a certain amount of energy.

When Qian Ying's energy is exhausted, Abnormal Lizards can easily win without attacking.

Seeing this scene, every human member present couldn't help but break a cold sweat for Qian Ying.

Those split Abnormal Lizards secreted a turbid mucus from their limbs, which covered the shadow underneath.

After being attacked by Qian Ying with the aid of shadows a few times, the Abnormal Lizards found that as long as there was mucus covering the shadows, the attack intensity of the hand that probed out from the shadows would weaken.

The mucus secreted by Abnormal Lizards has the effect of absorbing energy, which can accelerate Qian Ying's consumption.

Qian Ying also apparently realized this after the first impact.

The shadow condensed above the lizard herd, and Qian Ying's figure appeared in the sky.

These Abnormal Lizards, like an insect swarm, used their bodies as ladders.

In just a few seconds, each Abnormal Lizard, which was only about three meters long, built a Lizard Tower nearly two hundred meters high.

The Abnormal Lizard leaped high off the Lizard Tower and attacked Qian Ying.

Qian Ying raised her hands, her fists clenching.

Black intermingled with tender green, the Ghost Flame ignited on Qian Ying's fists.

Qian Ying's hands were fitted with boxing blades, extending to her forearms.

After being at a disadvantage in the earlier attack, Qian Ying decisively used her Ghost Device.

High-level Wild Beast Users can contract a perfect Ghost Device forged out of ancestor's remains.

And the Abnormal Lizard doesn't have ancestor's remains, and its intellect doesn't reach the level to use Ghost Devices.

Qian Ying has determined that the power of the Abnormal Lizard lies only in its ability to split constantly.

Normally, Vicious Beasts do not have skills and exclusive characteristics like normal Guardian Beasts do.

Thus, the methods of attack for Vicious Beasts are often very singular.

If Vicious Beasts also had skills and exclusive characteristics, then once Vicious Beasts formed a scale, they would have already started to consume and rule the world!

Chapter 736 - Scythe Shadow Thorn Demon!_2

The power of the Vicious Beasts continues to increase, as does their Spiritual Intelligence.

If the Vicious Beast truly gave birth to a tribe, occupying a region of the world to form a nest.

When the strength of the Vicious Beast transcends to the Sequential level, their intelligence would be no less than that of a young man.

Qian Ying's fists collided fiercely, and the phantom flames of black and tender green intertwining formed a spherical shockwave.

A massive force rolled towards the nearly hundred Lizard Towers erected around.

The Abnormal Lizards, which were thrown out as cannonballs, crashed into the shockwave without any blind spots, but did not explode into fragments.

They merged into the shockwave just like coins dropping into water.

These Abnormal Lizards contributed to the surge of the bonfire, making it burn more and more fiercely.

The range of the shockwave became larger and its power increased significantly.

After this shockwave devoured several Lizard Towers around it, it quickly expanded. However, the shockwave unleashed by Qian Ying clearly had limits.

During the process of devouring the Lizard Towers, when a large number of Abnormal Lizards were fused into the shockwave, holes appeared in the shockwave.

A large number of Abnormal Lizards managed to pass through the shockwave and enter its interior, setting up Lizard Towers again.

At this time, Qian Ying's fists clad in Ghost Devices collided once more.

The second and third shockwaves were unleashed in succession.

After launching these three attacks, Qian Ying called out her Destiny Guidebook and summoned another fairy with two pairs of wings.

This fairy had a long dress woven with numerous thorny thistles.

A crown made of thorns was on her head.

There was a red teardrop mole under her ink-green eyes.

The moment this fairy was summoned, the elder voice representative of the Bliss Palace echoed from the back of the team.

"It's been nearly two hundred years since I last saw Miss Qian Ying, and Miss Qian Ying's Scythe Shadow Thorns has evolved into a Scythe Shadow Thorn Demon!"

"It seems that her power has reached the peak of the first Sequential tier. She's only half a step away from unraveling the mystery of Order and becoming an Order Twelve Mystic Beast!"

"I want to offer my congratulations here, in advance, to the Beast-binding Hall! In less than fifty years, you'll have an Order Strong among you!"

Despite hearing the elder's voice, Chunhui couldn't figure out who he was. However, it was very clear that this Bliss Palace leader was very familiar with Qian Ying.

Two hundred years ago, even though the Beast-binding Hall and the Bliss Palace weren't buddies, there was some collaboration between the two forces.

In addition to being assassins, the Bliss Palace also has a merchant attribute.

However, Bliss Palace does not sell ordinary Supplies. It helps the employer collect precious materials according to their orders.

As long as you can afford the price, Bliss Palace could find you the material you need.

Even if they can't find it, Bliss Palace would return the commission.

In this regard, Bliss Palace always keeps its word.

The Beast-binding Hall always commissions the Bliss Palace to collect Mystic Beasts with a Fairy Bloodline.

The speaker's words were filled with blessings and contained no malice.

Chunhui paid her respects to the crowd from afar.

Upon understanding the splitting ability of the Abnormal Lizards, the other human force members present didn't think highly of Qian Ying.

But Chunhui never worried.

That's because Qian Ying's Main Battle Mystic Beast, the Scythe Shadow Thorn Demon, is a very powerful ground fairy.

After forming a formation, the Scythe Shadow Thorn Demon plants Scythe Shadow Thorns that wrap around the remnants of the Abnormal Lizards with a Root Whisker upon killing them.

The energy within the remnants of the Abnormal Lizards is absorbed and converted into its own nutrients.

Previously, it was always the Abnormal Lizards planning to drain Qian Ying's energy.

The Scythe Shadow Thorn Demon was capable of returning the tactics of the Abnormal Lizards back to them in its original form.

At this moment, the Scythe Shadow Thorn Demon had already begun sowing seeds under Qian Ying.

Lots of Scythe Shadow Thorns sprouted from the ground. The three shockwaves were just like a filter, only a small part of the Abnormal Lizards could break through.

This small part of the Abnormal Lizards could just be devoured and slaughtered by the Scythe Shadow Thorns that had just sprouted out of the ground.

Each Scythe Shadow Thorn could grow seven to eight barbed whips.

The front end of each barbed whip was like a scythe.

In addition to the massive Scythe Thorn at the front, each barbed whip also had intricate sword-shape thorns.

Each swing of the Scythe Shadow Thorns stirred up a sky full of Scythe Shadows, capable of reaping life on a large scale.

The efficiency of the energy absorption of normal plant roots is limited, but what truly makes the Scythe Shadow Thorns powerful is not the vines above the ground, but rather the roots beneath the ground covered in Shield Scales.

The roots of the Scythe Shadow Thorns can keep dividing as long as they're provided with energy.

Once these shield-scaled root whiskers entangle the remains, each shield scale joint would sprout an air root-like object.

These air root-like objects would quickly hollow out each of the remains.

After draining the flesh, they even burrow into the bones to suck out the bone marrow.

Finally, they completely drained the energy from within the bones, causing the skeletons to weather into debris.

Once the Scythe Shadow Thorns reached a certain scale, Qian Ying's situation began to turn from disadvantage to advantage.

Presently, the situation finally made He Xin, Lu Zhuo, and a member of the Beast Controlling Force look serious.

Due to its low intelligence, the Abnormal Lizard fought completely on instinct.

If any other powerful members of the Beast Controlling Force were involved, after seeing the way the Scythe Shadow Thorn Demon fought, they would never give it energy, helping the Scythe Shadow Thorn Demon recover itself.

But the Abnormal Lizard could only rush up blindly.

He Xin sighed.

"Alas, vicious beasts indeed need humans to instruct them. Otherwise, if you let the vicious beasts fight by themselves, they can easily be tricked!"

Upon hearing this, Lu Zhuo said with a cold voice.

"The Abnormal Lizard, though stupid, the victory is still uncertain!"

"Where is the flesh and blood of the Abnormal Lizard easy to consume!?"

As the Scythe Shadow Thorns and the Abnormal Lizard engaged in a tug-of-war, Qian Ying suddenly sensed something wrong.

It turned out that, the control of the Scythe Shadow Thorn Demon over the Scythe Shadow Thorns that was spread by itself was gradually decreasing.

This is something that has never happened before!

Qian Ying quickly realized that this happening was probably related to the fact that the Scythe Shadow Thorns had absorbed a large amount of flesh and blood from the Abnormal Lizard.

Qian Ying decisively ordered the Scythe Shadow Thorn Demon to destroy the Scythe Shadow Thorns.

She was concerned that these Scythe Shadow Thorns, after completely breaking away from the Scythe Shadow Thorn Demon's control, would pose a threat to herself.

When destroying them, Qian Ying, out of caution, did not let the Scythe Shadow Thorn Demon absorb the energy within the Scythe Shadow Thorns.

Obviously, it is not appropriate to regenerate new Scythe Shadow Thorns at this time.

On the one hand, Qian Ying had never expected such a change before. The majority of the energy within the Scythe Shadow Thorn Demon had been used to generate the previous large cluster of Scythe Shadow Thorns.

On the other hand, the Abnormal Lizard had largely passed through the three shock waves fired by the Ghost Device.

It takes preliminary steps to regenerate a cluster of Scythe Shadow Thorns.

The Abnormal Lizards would not give the Scythe Shadow Thorn Demon the time to regenerate the Scythe Shadow Thorns again.

Qian Ying still has her Destiny Guardian Beast that she hasn't used, but using the Destiny Guardian Beast would cost her a lot!

This cost, though it won't harm herself, but it will render her unable to use the Destiny Guardian Beast once she enters the ruins.

This will cause the Beast-binding Hall to lose the competitiveness it should have.

Although she and Chunhui are both the main forces of the Hall of Spring, Chunhui is the one in charge.

The action of the guardian in a critical moment should be decided by the manager!

Qian Ying turned her gaze to Chunhui.

At this moment, Chunhui's heart is extremely conflicted.

Chunhui is also aware of the problem Qian Ying will face after using her Destiny Guardian Beast.

Moreover, using the Destiny Guardian Beast is not guaranteed to defeat the Abnormal Lizard.

Who could have predicted that the flesh and blood of the Abnormal Lizard would be so tricky!

However, if she doesn't allow Qian Ying to give her all, Qian Ying will lose right now.

The old man from the Bliss Palace understands Qian Ying so well, even if he doesn't know the capabilities of Qian Ying's Destiny Guardian Beast, he ought to know about Qian Ying possessing a Destiny Guardian Beast.

Now, it's human forces fighting against the Beast Controlling Force for their own benefits.

Once people realize that Qian Ying hasn't given her all, it could affect the reputation of the Beast-binding Hall amongst human forces.

There is competition amongst the five halls of the Beast-binding Hall.

This trip to the Panfeng Federation was something the Spring Hall had fought for, any gains from this trip will belong to the Spring Hall.

If the actions of the Spring Hall affect the reputation of the Beast-binding Hall among human forces, the Spring Hall's authority will be downgraded.

This is even more unacceptable to Chunhui than to leave the ruins empty-handed!

With these thoughts, Chunhui nodded heavily at Qian Ying.

Chapter 737 - Destiny Guardian Beast: Ancient Demon Worshiper! _1

Qian Ying looked across the distance at Chunhui. Upon seeing Chunhui nod, Qian Ying's face did not show any displeasure or worry, but instead, she smiled with pleasure.

Finally, I can invoke the Destiny Guardian Beast!

It has been decades since I last invoked the Destiny Guardian Beast, Qian Ying almost forgot what it felt like!

Seeing the horde of Abnormal Lizards that had swarmed close, Qian Ying placed her hands on her heart.

A surge of overwhelming power swept out from Qian Ying's body.

The sound of her heartbeat echoed like a ceremonious symphony.

The Scythe Shadow Thorn Seeds just sown by the Scythe Shadow Thorn Demon sprouted outwards madly in an instant.

In the process, three pairs of wings filled with verdant vitality sprouted on Qian Ying's back.

At this moment, Qian Ying seemed to transform into a Six-winged Fairy.

The Four-winged fairy that had originally fused with Qian Ying left her body and melted into the shadow of the wildly growing Scythe Shadow Thorns.

A melodious and obscure chant came from Qian Ying's mouth.

At this moment, the rate at which the Scythe Shadow Thorns multiplied surpassed that of the Abnormal Lizards in an instant.

The Scythe Shadows swayed, with each sway resulting in the slaughter of hundreds of thousands of Abnormal Lizards.

The Fairy that had blended into the shadow of the Scythe Shadow Thorns also moved into the crowd of Abnormal Lizards from the shadows.

Using a previous method, it quickly strangled the throats of the Abnormal Lizards.

The Abnormal Lizards needed time to prepare to secrete mucus from their limbs.

The sudden attack launched by Qian Ying was something the Abnormal Lizards had not anticipated.

Many of the human force members present showed an excited expression on their faces.

Yin Qingzhi spoke loudly.

"Once we have suppressed the rate of multiplication of the Abnormal Lizards, there is nothing to fear about the Abnormal Lizards!"

"We humans should win this first battle!"

Fang Mu shook his head upon hearing this.

Previously, Yin Qingzhi had been competing with Fang Mu for the leadership of the human force. Fang Mu was naturally aware of this.

Fang Mu did not want to openly compete with Yin Qingzhi.

However, it was acknowledged that gaining absolute leadership of the human force would be beneficial to the exploration of the ruins in the future!

It would also help to establish the prominence of the Infinite Tower.

Shui Miao, Shu Liangjun, and Qin Shao were not members of the Infinite Tower's force.

The three of them publicly claimed to be members of the Infinite Tower out of respect for Fang Mu.

The leader of the human force must at least be able to clearly see the actual situation of the battlefield. It would be embarrassing if they could not even distinguish the outcome!

Since Yin Qingzhi made an obvious mistake, Fang Mu didn't see any reason not to assert his own interests.

"I really hope humans can win the first round against the Beast Controlling Force."

"But the outcome of this confrontation was clear to Lord Chun before Qian Ying even invoked her Destiny Guardian Beast!"

"The number of Abnormal Lizards underground is far greater than those on the surface, and the underground lizards can't be handled through shadows."

"Alone, the Scythe Shadow Thorns' root system can neither keep up with the multiplying rate of the underground Abnormal Lizards, nor can it reach the depths where the underground Abnormal Lizards have invaded."

The final words from Fang Mu were not said out of supposition or because Shui Miao and Shu Liangjun had informed him.

It is what Fang Mu discovered through the Eye of Omniscience.

Anyone present who possessed a certain level of power could distinguish the truth or falsehood of his words.

Otherwise, the Beast Taming Tribes led by Xuan Feather Surprised Crane and Luminous Flame Deer wouldn't be so calm.

Yin Qingzhi's face stiffened upon hearing this.

Yin Qingzhi had indeed seen a portion of the Abnormal Lizards burrow underground, but she didn't know that the number of Abnormal Lizards underground far exceeded the ones above!

Seeing Chunhui not refute Fang Mu, Yin Qingzhi knew that Fang Mu was right.

She saw the earlier interaction between Chunhui and Qian Ying. She assumed Qian Ying needed to consult with Chunhui to use a lethal move that required a certain price.

However, she never imagined that Qian Ying's inquiry was about whether it was necessary to put forth every effort under the condition of certain defeat.

Yin Qingzhi glared at Fang Mu before falling silent.

On the other side, Qian Ying's energy was exhausted, and she knelt on the ground.

If it wasn't for her fists supporting her on the ground, Qian Ying might have collapsed entirely.

A chorus of lizard cries echoed from underneath the ground as a surge of Abnormal Lizards breached the surface and surrounded Qian Ying.

Due to the previous agreement, even though the Abnormal Lizards eyed her menacingly, they refrained from harming Qian Ying.

If they killed Qian Ying, the Beast Controlling Force would not only lose their 20% quota to enter the ruins but would also have to hand over a 20% quota to the human force.

Xuan Feather Surprised Crane emitted a series of resonant crane calls, rallying the Beast Taming Tribes' lineup.

"We won the first round. The second will start in ten minutes!"

"This environment has been utterly ravaged. Let us reorganize the battlefield!"

As soon as the words of Xuan Feather Surprised Crane were spoken, a white giant elephant and a pale-gold giant rhino walked out of the Beast Taming Tribes' lineup.

The two giant beasts stepped on the dilapidated battlefield. The ground began to heal as if it possessed life.

The land thus consolidated by the two giant beasts resembled a massive arena, with the ground tramped down very solidly.

If Qian Ying and the Abnormal Lizards had fought in such an environment, the Abnormal Lizards would definitely have had a hard time multiplying their numbers underground.

The actions of the Beast Controlling Force made Fang Mu aware of two extremely useful pieces of information.

Chapter 738 - Destiny Guardian Beast: Ancient Demon Worshiper! _2

The first is the mighty Yellow Spring Dragon Rhinoceros and Bi Luo Rhinoceros Clan, who will not participate in the subsequent duel.

It is clear that it is the leaders of these two groups who have come to level the ground, expending their own energy before the battle is not a wise move!

The second is the Guardian Beasts that the Beast Controlling Force will send out next, who are likely not adept at fighting underground.

Otherwise, the actions of the Yellow Spring Dragon Rhinoceros and the Bi Luo Rhinoceros would limit the performance of the upcoming Guardian Beasts.

Previously, Yin Qingzhi had predicted the possible groups in this duel from the Beast Controlling Force, which included the Yellow Spring Dragon Rhinoceros and Bi Luo Rhinoceros Clan.

Fang Mu's just spoken words had put a damper on Yin Qingzhi.

The current actions of the leaders of the Bi Luo Rhinoceros and the Yellow Spring Dragon Rhinoceros in levelling the ground, are equivalent to a second blow to Yin Qingzhi.

This prevented Yin Qingzhi from actively arranging the second duel to be held.

Chunhui helped Qian Ying, who was severely depleted of energy and very weak at the moment, back on her feet.

The things that Qian Ying had exhausted were not only her spiritual power, her internal energy, but also the life energy hidden within her bodily cells.

This was one of the side effects of Qian Ying using her Destiny Guardian Beast, the Ancient Demon Worshiper.

Chunhui was preparing to help Qian Ying recover, hoping that Qian Ying would have eighty percent of her previous combat power when exploring the ruins.

Just then, Chunhui noticed a gleaming green Life Elixir being tossed over from Fang Mu's hand.

"Use this high-purity Life Elixir, and Senior Qian Ying's life energy can be quickly replenished."

"Otherwise, it's likely to have an impact on your foundation!"

Chunhui reached out to take the elixirs, looking at Fang Mu, only to see the ordinary-looking young man smiling and nodding at her.

Chunhui knew that the young man in front of her was doing this because he wanted to build a relationship with the Beast-binding Hall.

Chunhui was not polite with Fang Mu, and flashed him a smile, saying,

"Let's formally get to know each other, my name is Chunhui."

"If there's anything you need help with in the future, don't hesitate to ask. I owe you a favor!"

After saying so, Chunhui inspected the Life Elixir tossed over by Fang Mu, then fed it to Qian Ying.

Qian Ying, who had just experienced a brutal battle, was not at all disappointed to have lost the duel. Instead, she was exceptionally satisfied.

After drinking the Life Elixir, Qian Ying felt her life energy-depleted cells filling up again!

Qian Ying timidly nodded at Fang Mu, then donned her cloak and returned to the ranks of the Beast-binding Hall.

The leaders of the other forces present knew that the Beast-binding Hall and the Infinite Tower had formed an alliance.

But based on Chunhui's inference, this alliance was not limited to this large ancient battlefield.

The two factions also wanted to form an alliance outside!

Owing a favor to Chunhui was not an easy thing to do!

It was generous to just give away a Life Elixir with a purity of ninety-two percent.

While such resources of Grandmaster Creator level are not easy to come by, Chunhui was able to give it away easily.

The news that Chunhui has a Grandmaster Creator as a lap dog was not a rumor.

Otherwise, relying solely on her strength and the status of the Master of the Hall of Spring, Chunhui would not be able to hold her own against Yin Qingzhi, the granddaughter of Master Yin Hanrong!

Chunhui had such a pure Life Elixir in her hand.

If Chunhui didn't want to have contact with the Infinite Tower, she could completely throw the Life Elixir back.

However, Chunhui didn't do that, but accepted the branch of friendship extended by the Infinite Tower.

Many leaders of the forces present wanted to make friends with Chunhui, but Chunhui did not give them the opportunity.

Fang Mu didn't rush like Yin Qingzhi to establish a voice in the human forces.

Fang Mu knew very well that strength was the fundamental underpinning of establishing a voice. With strength comes voice!

A voice is not something that can be easily fought for!

Fang Mu just said one thing.

"Since the elders of the Bliss Palace want to see our Infinite Tower's strength, then the next duel will be taken on by us, the Infinite Tower!"

Fang Mu's words made everyone from all the major forces present in the arena pause in surprise.

What's going on?

This young man had just won over the Beast-binding Hall, and now wants to make a connection with the Bliss Palace!?

The Bliss Palace is not that easy to get in touch with!?

If one compares the human force to a Guardian Beast, then the Bliss Palace is the eccentric among Guardian Beasts, similar to a Vicious Beast!

After Fang Mu seized the power to control the conversation, Yin Qingzhi felt a dissatisfaction brewing within her.

As far as Yin Qingzhi was concerned, Fang Mu was a social butterfly who would take the opportunity to befriend any person he met.

The only problem was that Fang Mu lacked the looks to asset his social prowess.

While Yin Qingzhi was voicing out her thoughts on Fang Mu, the people from the Bliss Palace had stepped forward from the crowd.

The individuals from Bliss Palace were donned in roomy robes, their hats conveniently concealing everything below their chins.

The leader from the Bliss Palace spoke in an old and hoarse voice.

"I am indeed interested in the strength of your Infinite Tower."

"If your Infinite Tower manages to win the upcoming confrontation, Bliss Palace is willing to offer you a Happy Land Order."

"With the Happy Land Order, you can command us, the Bliss Palace, to defeat any non-Bliss Palace affiliated member!"

Fang Mu raised an eyebrow upon hearing this, it was quite a novel proposal!

Others usually gifted spirit materials, Guardian Beasts, and at times, valuable Elixirs concocted by Creators or spiritual instruments forged by Spirit-smithing Masters.

Fang Mu had never come across a gift of a single kill-on-demand opportunity!

Fang Mu was intrigued by this offer!

He wanted to befriend the Bliss Palace and entertained thoughts of placing orders with them in the future.

Given that Bliss Palace dared kill even a Grandmaster Creator for the right sum, indicated just how reputable they were!

Although Fang Mu didn't plan on contracting Bliss Palace for the assassination of a Grandmaster Creator, there were always some problems that Fang Mu couldn't solve through his various identities.

Hiring the services of the Bliss Palace would be ideal in such situations.

It had been made clear to him by Shu Liangjun that placing an order with the Bliss Palace would cost a big fortune.

The purchasing power of currencies across the different federations was not homogeneous.

As for the Dragon Rising Federation, one of the major federations, the Dragon Rising Coin was recognized across most federations and powers.

However, as for the smaller and medium-sized federations, not many forces recognized their currencies.

This led to massive circulation issues.

The Bliss Palace, as opposed to the federations, fancied resources from Creators and Spirit-smithing Masters.

They particularly valued Elixirs and Sequential Spiritual Instruments churned out by Grandmaster Creators and Forging Spirit Grandmasters.

Having Jiang Weng, a Forging Spirit Grandmaster, at his disposal, Fang Mu would not require Shui Miao's services in forging spiritual instruments.

From now on, Fang Mu's supply of Sequential Spiritual Instruments would not run short.

Fang Mu would even be able to custom-make Ghost Devices for Fang Qin, Fang Yuan, Yan Wood and other key members of Infinite Tower.

However, with just one Forging Spirit Grandmaster, Fang Mu's Spirit-smithing Master resources would never be sufficient.

On the other hand, he had an abundance of Grandmaster Creator resources!

After ascending to a Biprong Star Tamer and elevating his hierarchical status to the Golden ranks.

Fang Mu's Elixir production ability would increase even further!

Fang Mu would likely become a huge client of Bliss Palace if any forces were to offend him, with his potential for endless orders.

Ten minutes went by swiftly, and Fang Mu had no idea who the Beast Controlling Force would send up for the next battle.

As such, he could not make a choice between Shui Miao and Shu Liangjun.

Both Shui Miao and Shu Liangjun knew they could not afford to lose this battle.

Firstly, the outcome of this battle would determine the morale of the human forces.

Should the humans lose the second round after losing the first, their spirit would plummet.

Secondly, the Happy Land Order promised to Fang Mu by Bliss Palace was also on the line.

Both Shui Miao and Shu Liangjun could see that Fang Mu was rather tempted by the Happy Land Order.

Thirdly, the reputation of the Infinite Tower was at stake.

Neither Shui Miao nor Shu Liangjun were aware that the Infinite Tower was a faction name made up by Fang Mu.

The hidden fact that Infinite Tower housed more than two Grandmaster Creators was also deliberately released by Fang Mu.

The two of them believed that the Infinite Tower was an even more secretive force than the ancient races, with Qixing Grandmaster being one of its members.

Neither Shui Miao nor Shu Liangjun wanted to tarnish the reputation and spirit of Infinite Tower due to their own conflicts.

If they did, they would be lucky to not garner resentment from Qixing and other Grandmaster Creators of Infinite Tower, let alone being able to befriend them!

Chapter 739 - Above the Sequential!_1

Shui Miao and Shu Liangjun exchanged a glance with each other.

In the end, Shu Liangjun nodded at Shui Miao, then whispered to Fang Mu.

"Infinite Envoy, let me go first in this duel!"

Shu Liangjun's tone was filled with respect.

Fang Mu knew this was a show Shu Liangjun put on to coordinate with him, which made him feel grateful.

For a powerhouse like Shu Liangjun, there was no need to lower himself as part of the Infinite Tower, let alone refer to himself as an Infinite Envoy.

However, the more powerful the force, the stricter the rules within it.

Shu Liangjun's behavior instantly elevated Fang Mu's status as an Infinite Envoy.

"Elder Shu, I appreciate your help!"

Fang Mu casually said this to Shu Liangjun, appearing totally composed, as if the Beast Controlling Forces mattered nothing to him.

But in truth, Fang Mu was quite nervous at the moment.

In such a duel with the Beast Controlling Forces, Fang Mu was not sure if Shu Liangjun would definitely win.

If we are to speak of who had the best chance of winning, Fang Mu himself would've been the candidate.

As long as the opponent launched a fatal attack on him, triggering the specific feature of the Blood of Abundance[End of Ash Dyed], they could potentially lose their life as a result of their own attack.

For the Beasts that had grown up in the wild adhering to the jungle laws, Fang Mu wasn't certain if the injuries he would take would be more severe than that of these Beasts.

But for those from the powerful Beast Taming Tribes, born and nurtured by top powerhouses, these Beasts seldom had the opportunity to suffer severe injuries.

Even after growing into the top powerhouses of the Beast Taming Tribes for many years, the injuries they sustained may not necessarily be more severe than what Fang Mu suffered in these few months.

Just like how the Soul Whale Princess treated her progeny, as if they were her own little gems.

Fang Mu learned from his conversations with the Soul Whale Princess that the injuries her progeny suffered this time from being captured by the Gao Family was the most severe they had ever experienced from young till now.

For the powerful Beastmaster Tribe to have new members born, it is far more difficult than the prestigious human families welcoming a new generation.

Therefore, the Beast Controlling Force is much more protective over their offspring than human powers.

However, Fang Mu could not take the initiative.

Firstly, if Fang Mu took the initiative, it would result in the death of the opponent Beast, even if it was due to their own attack.

This would surely provoke the hatred of the Beast Taming Tribe where the opponent resided.

This kind of hatred transcends status, and is often irreconcilable to the death.

Fang Mu would rather not invite a powerful Beast Taming Tribe to be his enemy.

Secondly, in a duel resulting in the opponent's death, Fang Mu would not only fail to earn the qualification to enter the ruins, but would also have to pay a 20% penalty of the qualification to the Beast Controlling Force.

The third point is that Fang Mu could not expose his hidden aces in front of a crowd.

Only when someone secretly targets Fang Mu, when Shui Miao, Shu Liangjun, and Qin Shao could not protect him, then would Fang Mu display his hidden aces.

For the first round of the duel, the Beast Controlling Forces went first. According to the rules, it was now the turn of humans to go first.

Both Xuan Feather Surprised Crane and Luili Red Flame Deer frowned when they saw Shu Liangjun stepping forward.

They had heard about human powerhouses like Qian Ying, but they could not recognize Shu Liangjun, who had disguised himself with the Noface Star Paper and appeared as a gentle, unremarkable middle-aged man in appearance.

Not only could the Beast Controlling Forces not recognize Shu Liangjun, the people on the human side were also guessing his identity.

The people from the human side had seen Shu Liangjun take action before.

With a single Ghost Device, he had captured forty Ghast Ghouls, whose strength was comparable to those of the Sequential Fourth Beast, in an instant.

This left Mr. Zi without the capital to contend for supremacy.

Judging from the power displayed by Shu Liangjun through the Ghost Device just now, his Ghost Device is of the space attribute.

Space attributes are not common, much rarer than natural attributes.

Shu Liangjun had just used the Ghost Device to deal with the Ghast Ghouls, and pulled back his hand in a mere moment.

It is difficult for one to figure out what is extraordinary about Shu Liangjun's Space Series Ghost Device.

Some of the Beast Taming Tribes would reveal internal news to humans for their own interests, such as Elder Bright Edge of the Luminous Snake Clan who had revealed a lot of internal news of the Beast Taming Tribes to Fang Mu.

It is estimated that there are also people on the side of the human forces who are secretly passing messages to the Beast Controlling Forces for benefits.

Otherwise, those Beast Controlling Forces would not have been able to block the human forces so precisely.

They made it so a large portion of the human forces failed to reach the area where the ruins were.

He Xin flapped his wings a couple of times and said to Lu Zhuo.

"Why don't I take this round of duel!?"

He Xin knew his fighting style was very special, and was not counteracted by the power of space attributes.

On the other hand, Lu Zhuo's power was mainly based on Elemental Energy, which was easily counteracted by the power of space.

He Xin and Lu Zhuo had received the news of the recent scuffle between the Infinite Tower and the Evil Heart Sect.

The next person from Infinite Tower who was about to take the field would use water attribute-related abilities.

At that time, this side could send out another secret weapon.

Lu Zhuo could take on the remaining two powerhouses on the human side, and in all likelihood, win another round.

Even if the secret weapon against the Water Attribute Stronghold failed to take effect, the Beast Controlling Forces would at least gain 60% of the qualification to enter the ruins.

Chapter 740 - Above Sequential! _2

The Beast Controlling Force side winning the first contest greatly boosted their morale.

If they win the second round as well, the momentum of the Beast Controlling Force side will be unstoppable, and the morale of the human forces will plummet!

Hexin thought that Luzhuo would agree with his proposal, considering his strength was somewhat stronger than Luzhuo's.

The Black Feather Surprised Crane Clan are not skilled at combat.

Being an anomaly within the Black Feather Surprised Crane Clan, among those of a similar age to him in the Clan Rankings, many had been taught lessons by him.

But Hexin didn't expect Luzhuo to have been suppressing his anger.

Especially seeing Fang Mu's indifferent expression, the anger Luzhuo had been suppressing instantly ignited.

This young-looking man had just tricked him.

All Luzhuo thought about was regaining face; what significant ability could a space attribute possibly have?

In the end, didn't it all come down to who was stronger?

His Beasts Ghost Device had just been refined by an ancestor's remains before arrival; Luzhuo only wanted to regain face as quickly as possible.

"Hexin, you hold the fort, leave the second round to me!"

Before Hexin had a chance to respond to Luzhuo's words, Luzhuo started walking forward.

Leaving Hexin no chance to stop Luzhuo.

Hexin closed his beak tightly, wishing he could poke a bloody hole in Luzhuo's butt.

Damn it, when he got back he'd definitely report Luzhuo's situation to the Emperor Beast Court.

Next time there was a mission, he wouldn't accompany Luzhuo or members of the Amber Red Flame Deer Group anymore!

Why was it so hard to earn some points from the Emperor Beast Court?

If Luzhuo lost the contest, after exploring the relics he definitely had to give him a good beating.

How could an unruly little deer be like a gas tank, ready to explode when you don't light it!?

The members of the Beast Taming Tribes in the field didn't know Hexin's thoughts. Seeing Luzhuo take the stage, they roared in succession, cheering for Luzhuo in their beast-controlling way.

The Human Force side appeared much calmer.

Members from all powers were thinking about understanding the strength of the Infinite Tower through this battle.

Shu Liangjun watched Luzhuo with a calm expression.

Shu Liangjun couldn't help thinking, he had eaten Amber Red Flame Deer meat as a teenager in his family.

The meat of the Amber Red Flame Deer, due to being infused with too many fire elements, tasted somewhat spicy and the meat was hard, not delicious.

Compared to it, the meat of the Diamond Rank Golden Spotted Deer tasted better for its texture and flavor.

Thinking of the past, Shu Liangjun's eyes narrowed unintentionally.

The Amber Red Flame Deer thought it had intimidated Shu Liangjun with its momentum, not knowing that Shu Liangjun was disdaining the taste of the flesh and blood of its tribe members.

Shu Liangjun didn't want to reveal too much like Qian Ying did with her opponent, if it was not necessary.

Therefore, the best way in a battle was to exert the strongest strength and directly suppress this Amber Red Flame Deer.

If he kept summoning beasts to fight with the Amber Red Flame Deer, wouldn't that be like playing a show?

Some of his beasts couldn't be revealed, once exposed, there was a high probability that he would be identified by some human forces and beast taming tribes present.

The Infinite Tower is currently being touted, becoming the leader of human forces right now.

He didn't need to keep a low profile anymore.

Suddenly, a terrifying spatial fluctuation rose from Shu Liangjun's body, turning his back into a swirling black hole, devouring the surrounding space non-stop.

Shu Liangjun took a step back and entered the black hole.

Before he stepped into the black hole, everyone saw Shu Liangjun summon his Destiny Guidebook.

After Shu Liangjun voluntarily entered the black hole, the black hole expanded rapidly, sucking in the Amber Red Flame Deer as well.

Yin Qingzhi's heart was filled with resentment, and she mumbled to herself.

"Hiding things in a contest, what a..."

Before Yin Qingzhi finished speaking, Chunhui frowned and scolded.

"This black hole is a Domain-Type Control Beast of sequence one's embodiment, using Domain-Type Control Beasts for battles inside their domain is standard practice, where does the hiding come from?"

"You are so interested in studying the various Beast Controlling Forces; the next round will have to pick someone from you and Bliss Palace to go on stage!"

"Instead of that, why don't you study it properly!"

Chunhui had teased Yin Qingzhi for amusement prior, not caring for a woman who was constantly reserved.

Although this woman was very young and likely lacked experience or worldliness.

But now, Chunhui found herself somewhat repulsed by Yin Qingzhi.

From the words that Yin Qingzhi had uttered, it was evident that she was not particularly ambitious.

Anyone wishing to become a paragon of the modern world needs to conquer the barrier between steps.

Not all ambitious strong contenders can achieve this, but the ones lacking in ambition definitely cannot!

The premier figure from the Bliss Palace spoke in a chilly tone.

"We had decided earlier that Bliss Palace would send the third participant. We will be selected in the upcoming round!"

"After so many years, the forces under the Ten-thousand Nations Federation are still shrewd at power plays, really reminiscent of Han Ming in his prime!"

The words of this elder from Bliss Palace attracted the attention of the major powers present.

Even the Beast Controlling Force couldn't help but take note.

There have been unconfirmed reports that, upon his continued seclusion, Han Ming has now become a Grandmaster Creator.

Even without becoming a Grandmaster Creator, Han Ming is a top Creation Master.

Within the Ten-thousand Nations Federation, he wields considerable power. The people daring to speak of Han Ming in this manner are likely his old acquaintances.

Within Bliss Palace, fewer than five are qualified to speak thus - apart from the matriarch of Bliss Palace, Eternal Mother Yongle, only her four Eternal Serenity Servants qualify!

However, it was uncertain which among the Servants had spoken.

No matter who said it, these words would eventually reach the ears of Master Han Ming.

It seems that Eternal Mother Yongle has likely broken through to Grandmaster Creator as well!

From the brief exchanges between these forces, perceptive individuals can glean a wealth of information.

It was said that Eternal Mother Yongle chose to go incognito with Bliss Palace due to the death of a Grandmaster Creator which caused the Contract Garden to pressure her.

Unwilling to abandon the Contract Garden and recognizing her own fault, Eternal Mother Yongle made this choice, not out of fear for Han Ming.

If Eternal Mother Yongle has become a Grandmaster Creator, there wouldn't be any need to treat Han Ming seriously.

Presumedly, Bliss Palace will likely collide with Master Han Ming.

All members of the major powers present, including Chunhui, chose not to intervene.

In the clash between two Grandmaster Creators, self-preservation is the top priority.

Earlier, Yin Qingzhi had to admit that she had been too impulsive, leading her to recklessly utter those words.

Now, Yin Qingzhi had completely cooled down.

From the manner of Bliss Palace, it was obvious that they came prepared and were not afraid of the Ten-thousand Nations Federation.

Knowing fully well that Celestial College was a power under the Ten-thousand Nations Federation, she had dared to speak in such a way despite being the granddaughter of a Creation Master.

This was highly suspicious, almost like a fishing expedition!

Later, when explaining the situation to her grandfather, Yin Qingzhi intended to give a detailed account of everything.

For her grandfather to make judgments accordingly.

At this moment, there were intense fluctuations in the black hole.

Suddenly, the black hole spewed out the Luili Red Flame Deer, heavily wounded and with all four limbs broken.

The once fiery Luili Red Flame Deer, its flames now extinguished, revealed its radiant body that shone like diamond polished glass.

The sight of the Luili Red Flame Deer, unable to struggle up from the ground, was a pathetic one.

The Luili Red Flame Deer stared at the insides of the black hole in terror.

Just then, Shu Liangjun walked out from the black hole, hands behind his back.

Shu Liangjun smiled and gave the Luili Red Flame Deer a salute.

"Thank you for your forbearance."

For a while, the Luili Red Flame Deer was too stunned to react.

The strong contender that the Infinite Tower had sent into the black hole had just inflicted inhumane torture on it, so why had he suddenly become so polite and courteous upon exiting!?

The memory of the cold laughter echoing as his four legs were broken was enough to give Luzhuo the creeps.

Luzhuo gave a dry laugh.

"It seems I was no match for you. I must admit that I never expected humans had a contender who crossed the sequential threshold to participate in the exploration of this large ancient battlefield and dispute over this heritage!"
