

## **Beast Tamer 741**

Chapter 741 Yin Yang Leopard!\_1

When Luzhuo spoke, he emphasized the level above the Sequential.

Those below the Sequential are incapable of peering into the levels above it.

Therefore, Luzhuo did not know whether the Guardian Beast summoned by the seemingly ordinary middle-aged man in front of him was at which level in the Order.

Luzhuo had emphasized the level above the Sequential in his speech for two reasons.

Firstly, he was genuinely surprised. It was quite unusual for a powerful person who could dabble in the Order to come here to explore.

In Luzhuo's opinion, those powerful people who dabble in the Order should not be interested in the loot from a large ancient battlefield.

Could it be that Infinite Tower heard rumors about the legacy of the sage!?

Only if this is the case would the Infinite Tower dispatch such a powerful character.

The second purpose was to shift the blame onto Hexin and the other members of the Beast Controlling Force, stating that there was a reason for his potential loss in the duel.

If Hexin were to encounter this Order-dabbling powerhouse, he would also inevitably be defeated.

Despite being a Beast King participating in the exploration of the ancient battlefield on behalf of the Beast Taming Tribes, this honor was mainly because the Emperor Beast Court granted him the authority.

Otherwise, stronger individuals from other Beast Taming Tribes would merely afford him courtesy out of respect for his origin, not listen to his commands.

The commanding officer for this operation was Hexin. In the Royal Court of the Panfeng Federation, Hexin often met with a small biologically mimic creature behind Luzhuo's back and showed it a great deal of respect.

This mimicked creature would probably be their backup strategy.

But of course, this was just Luzhuo's speculation.

Luzhuo wanted to be the first one to act both because he was genuinely provoked by Fang Mu and to prove himself.

While Hexin was fuming at Luzhuo's defeat, he calmed down a bit after learning that Luzhuo's opponent had surpassed the bounds of the Sequential.

Hexin instructed two stronger characters from the Beast Taming Tribes to bring Luzhuo back to the team.

After reigniting its Red Flame, the Luili Red Flame Deer could use its Fire Elemental Energy to heal its wounds.

So there was no need to heal Luzhuo for now.

Luzhuo couldn't be blamed for being defeated against a power above the Sequential, but the image of him cluelessly lying there was hugely demoralizing!

Hexin subconsciously turned to look at the small leopard lying on the back of his Yellow Spring Dragon Rhinoceros. The leopard's fur was half black, half white, and it bore a Yin Yang face.

The small leopard no longer appeared drowsy as it had before.

The Yin Yang-faced leopard was now glaring sharply at Shu Liangjun and Shui Miao, who had been guarding Fang Mu's side.

Both of them were powerful characters from the Infinite Tower, and they stayed close to a young man named Yan Luo.

The strength of the other powerful character from the Infinite Tower might also have reached the level above the Sequential.

After reeling in its gaze, the Yin Yang-faced leopard nodded its head at Hexin.

it then jumped off the back of the Yellow Spring Dragon Rhinoceros and walked over to Hexin.

Upon laying eyes on the grievously wounded and limping Luili Red Flame Deer, the Yin Yang-faced leopard huffed.

An unnoticeable white light was released from its fur and fell onto the Luili Red Flame Deer.

Instantly, the currently power-drained Luili Red Flame Deer reignited its Red Flame.

This scene was picked up on by Fang Mu's acute senses.

Most of the powerful humans on the scene had their eyes on Shu Liangjun.

Especially Wang Xu and Gu Lian, who had conversed with Shu Liangjun before.

In comparison with Shui Miao, Shu Liangjun was much more talkative towards Wang Xu, Gu Lian, and others.

As Shu Liangjun's strength was revealed, Shui Miao also started getting scrutinized by many powerful beings from human forces.

Fang Mu turned to look at the area where Bliss Palace was located and asked with a smile.

"I wonder if my Infinite Tower's strength is attractive enough for Bliss Palace?"

The hoarse-voiced elder responded with a couple of chuckles and directly threw a yellow crystal token carved into a command to Fang Mu.

Fang Mu caught the so-called Happy Land Order and put it into his Purple Ice Crystal Ring.

The elder, not being a man of many words, didn't say much. However, his actions had clearly shown his intent.

Previously Fang Mu was trying to coax Bliss Palace, but now it had turned into Bliss Palace actively seeking an alliance with Fang Mu.

The indication of the two actions is entirely different.

After throwing the Happy Land Order to Fang Mu, the elder did not wait for the ten-minute preparation time to elapse.

He stepped forward, his hoarse voice echoing, "A while ago, you Infinite Tower had demonstrated to us Bliss Palace. Now it is our turn to demonstrate to you Infinite Tower."

"I hope our interaction can extend beyond mere cooperation between assassins."

The figure concealed by a robe did not remove its hood, but a menacing aura was naturally emitted, making the atmosphere deadly silent.

Two mysterious shadows, one black and one red, slipped out from under the robe and quickly blend into the environment.

"Enough with the ten-minute preparation time, you have all decided who you will send. Get up here and duel!"

"My skills are all for eliminating enemies, I will try not to kill during the fight"

Upon hearing this, Fang Mu raised an eyebrow. This guy from Bliss Palace sure knows how to act cool!

Just now, when he mentioned that he hoped they could extend a relationship beyond the cooperation of assassins, it indicated that Bliss Palace intended to deepen its relationship with Infinite Tower.

Chapter 742 Yin Yang Leopard!\_2

Despite being up against Han Ming, who is fast becoming a Grandmaster Creator, Bliss Palace certainly wants to bolster their chances by allying with some powerful forces.

Fang Mu thought to himself, "A peace offering from Bliss Palace has been put forth. From Han Ming's side too, a peace offering is most likely being presented towards the Infinite Tower!"

Although Master Hanming has a solid foundation within the Ten-thousand Nations Federation, it doesn't mean he can fully control the Federation.

After communicating with Shui Miao and Shu Liangjun extensively, Fang Mu came to understand this.

The true leadership of humanity lies within the Contract Garden, where Han Ming and The Eternal Mother Yongle of the Bliss Palace are both part of.

The Eternal Mother Yongle isolated Bliss Palace from the world for over two hundred years, precisely because she did not want to be expelled from the Contract Garden.

The status of the Contract Garden can thus be seen in the minds of the Grandmaster Creators!

Fang Mu had previously benefited from the Contract Garden, but the truth is that there are no real Grandmaster Creators on Fang Mu's side.

However, things can be changed by effort. During his communication with Bliss Palace and the representatives of the Ten-thousand Nations Federation, Fang Mu can take the time to understand the Contract Garden deeply.

And then, based on his understanding, he can attempt to consolidate the position of the Infinite Tower.

Many call Grandmaster Creators omnipotent, but the abilities that Fang Mu possesses, the Blood Aged Wine that Fang Mu produces and the special Guardian Beasts born out of the "Creation of Blood and Life," are all abilities that Grandmaster Creators do not possess!

The strength of the strong Guardian Beasts are usually stuck at a critical point, and even decades or even hundreds of years of nurturing cannot bring about a breakthrough.

At this threshold, a few hundred milliliters of Blood Aged Wine might well act as a catalyst, enabling these beasts to progress further!

Even if he doesn't obtain any inheritance from the ruins this journey to the Panfeng Federation, he has gained a great deal of Souls of Death, many excellent Undead Guardian Beasts from Earth Evil Spirit Liu Xi, a Mysterious Moon Pendant that can facilitate the growth of spiritual power, as well as the friendship and favor of several powerful forces.

All these are Fang Mu's gains!

These gains are something that Fang Mu could never have achieved by nestling in JA City.

While Fang Mu was considering all this, Hexin spread its wings to prepare to enter the battlefield to contend with the old man from Bliss Palace.

From the aura this old man exuded, Hexin had faintly guessed that his strength might be above the sequential level.

Hexin couldn't detect the two enigmatic figures that had just emerged from the old man's robe with his Spirit Sense.

However, the peculiar sharpness of those figures was constantly present!

Such a situation indicated that his level was below those of the two enigmatic figures.

Although Hexin is always proud of his abilities, he's not arrogant enough to think he can defeat an Order Strong!

Most likely, he would be defeated in a few rounds. But such a circumstance was something Hexin couldn't avoid.

The Beast Controlling Force needed to maintain their dignity too.

As a leader, it would be bad to send cannon fodder at this time.

If that happened, he would lose his prestige in the Beast Controlling Force!

Before Hexin could leave the range where the Beast Taming Tribes were located, he was stopped by a black light.

The Yin-Yang Leopard took a step forward and said in a clear voice.

"According to the rules, the Beast Controlling Force should go first, followed by your human forces."

"Attaining Order is no excuse to break the rules!"

"Both sides are here for the exploration of the ruins. Aside from the inheritance, the ruins are filled with considerable precious resources."

"The quality of resources within the ruins is much superior than that of outside!"

"In an Order-level fight, even if life and death aren't involved, one side will end up severely injured."

"I'd imagine that the Order Level Powerhouse among you humans wouldn't want to fight with me!"

After saying this, the Yin-Yang Leopard released a far stronger aura than an Order-class beast.

The Yin-Yang Leopard then continued, saying.

"Both sides have each won one and lost one fight. Your human side still has two Order Strong, while we only have one."

"Each Order-level Powerhouse counts as twenty percent of the shares. You humans have sixty percent, while we have forty percent."

"I wonder what your opinions are!"

The old man from Bliss Palace, who had been getting prepared to fight, responded indifferently upon hearing this.

"So the Yin-Yang Lian Leopard Clan has emerged!"

"Please send my regards to the Prophet of the Wise Cat Clan!"

After saying this, the old man representing Bliss Palace returned to the crowd.

Yin Qingzhi had never heard of the so-called Yin-Yang Lian Leopard Clan, though she had faintly heard her grandfather mention the Wise Cat Clan.

However, she didn't know that the Wise Cat Clan had a so-called prophet.

Yin Qingzhi did not entirely agree with what the Yin-Yang Leopard was saying.

"We humans don't want to clash with these Order-Level Beasts, so are you Order-Level beasts eager to clash with us humans!?"

"The outcome of our battles is uncertain, but at most it would end in a tie, with each side having a ten percent chance!"

"We humans will have a better chance at winning if we have more power on our side. We still have a battle to fight!"

"Once the battle is over, we will allocate the twenty percent quota based on the results. That would be fair."

As Yin Qingzhi spoke, her gaze flickered with intensity. She was sure that the Beast Master Tribe was soon to dispatch a powerful beast from the prestigious Xuan Feather Surprised Crane Clan. This gave the human forces a chance to strategize.

Her words showed consideration for the human forces' interests. However, Fang Mu subtly shook his head after hearing Yin Qingzhi out.

Yin Qingzhi's ideas were just too naive.

The Beast Controlling Force had revealed their Order-Level beast, similar to laying their cards on the table while gambling.

The forty percent was the Beast Taming Tribes' bottom line. The Order-Level Yin Yang Leopard didn't mind having a battle with the Order-Level human Beast Masters if it went any lower!

Had Yin Qingzhi dispatched an Order-Level powerhouse and said these words, it wouldn't be an issue.

However, unfortunately, Yin Qingzhi's side didn't have this sort of powerhouse.

This equated to Yin Qingzhi making decisions on behalf of herself and the Order-strong warrior on the side of the Bliss Palace.

Fang Mu could vaguely guess that Qin Shao's strength had also reached the Order-Level, and he might even be stronger than Shui Miao and Shu Liangjun.

However, Fang Mu had no intention of having Qin Shao fight.

Firstly, Fang Mu didn't want either Shui Miao or Qin Shao to fight against this Order-Level Yin Yang Leopard.

Both of them were already helping him out, and if either of them experienced any losses, Fang Mu would owe them a favor!

Secondly, Fang Mu didn't want to offend the Beast Controlling Force.

The elder from Bliss Palace politely greeted the Prophet of the Wise Cat Clan, indicating that the Wise Cat Clan was indeed extraordinary.

Fang Mu did not rebut Yin Qingzhi's words. It would be tricky to rebut her words as it would seem like he wasn't willing to contribute to the human force.

Such conduct would be criticized by other human forces.

Otherwise, the elderly leader from Bliss Palace would have rebutted Yin Qingzhi already!

The Yin Yang Leopard would naturally refute Yin Qingzhi's declaration.

"Little girl, you're charting a smart course!"

"Do you think our Beast Controlling Force is only worthy of thirty percent quota?"

"If a real battle breaks out, and neither side is afraid to be wounded, there's still no telling who would win!"

"Our Beast Controlling Force has the opportunity to achieve a sixty percent quota too."

"Didn't your elders teach you when enough is enough when you were out in the world?"

The Yin Yang Leopard's words instantly turned Yin Qingzhi's face red.

If the Yin Yang Leopard was a little less civil, he would've asked Yin Qingzhi outright if she had any shame left.

She was facing an Order-Level beast, so Yin Qingzhi couldn't say much.

Only her grandfather could hold equal dialogue with such a powerful beast.

At this moment, the Yin Yang Leopard continued his remarks.

"Little girl, it seems like your side hasn't dispatched any Order-Level beings. Where does your audacity come from to decide the fate of Order-Level powerhouses?"

After that, the Yin Yang Leopard turned his gaze towards Fang Mu.

The Bliss Palace elder had already made his position clear. With one existing Order-Level powerhouse yet to fight on the human side, the Infinite Tower held the most authority.

And Fang Mu was the decision-maker of the Infinite Tower.

It was at this point that Fang Mu made his position known by giving a friendly wave towards the Yin Yang Leopard.

"We appreciate the sincerity of the Beast Controlling Force. Let's agree on a sixty percent quota for humans and a forty percent quota for the Beasts!"

"When we enter the ruins, we'll compete based on strength. Then, we can let fate decide without any restrictions!"

Chapter 743 Sunset Elegant Lotus!\_1

Fang Mu's words ultimately determined the final decision of the human forces.

They also agreed with the proposal of Yin Yang Leopard, an Order-level beast.

At the same time, Fang Mu's words also revealed the cruelty inside the ruins, serving as a reminder to both the human forces and Beast Controlling Force present.

Upon hearing Fang Mu's words, the Yin Yang Leopard fixed its gaze on him.

"If I'm not mistaken, you're even younger than that little girl."

"But you speak more sensibly than her!"

After saying this, the Yin Yang Leopard leaped nimbly onto the back of the Yellow Spring Dragon Rhinoceros.

The injuries of the Luili Red Flame Deer had fully healed by now, and the Yin Yang Leopard didn't seem interested in dealing with the allocation of spots.

It handed over the right to allocate spots to He Xin and Lu Zhuo.

Fang Mu was surprised that the Yin Yang Leopard could discern his true age and announce it after seeing through his facade.

The gaze of all the powerful human forces present fell on Fang Mu, particularly those who had a connection with him: Chunhui, Wang Xu, and Gu Lian.

None of these people could have imagined that Fang Mu was so young!

Two Order Level Powerhouses were safeguarding such a young boy.

It was more like they were accompanying this young man on a training exercise rather than coming here to explore this major ancient battlefield.

Wang Xu remembered Fang Mu stating that he was one of the two representatives of the Infinite Tower.

A position of authority at such a young age suggested his influence in the Infinite Tower would only increase in future.

This made befriending Fang Mu increasingly worthwhile.

Befriending a minion in a faction is completely different from befriending a leader within that faction!

Yin Qingzhi was once again mocked by the Yin Yang Leopard, which triggered her rage.

But what truly shocked Yin Qingzhi was that she never envisaged Fang Mu as her peer, let alone being younger than her!

This realization left Yin Qingzhi with a sense of defeat.

A feeling she had never experienced when facing her peers before.

The Beast Controlling Force started choosing their factions to enter the ruins.

After surveying the human forces, Chunhui seriously conversed with Fang Mu.

"Your Infinite Tower secured 40% of the spots for humans to enter the ruins. Do you have any opinions or requests about which forces should enter the ruins?"

By asking this, Chunhui intended to leave the decision to Fang Mu about which forces should be allowed entrance into the ruins.

Once they had competed with the Beast Controlling Force, it was impossible to organize more internal contests among the human forces.

They had already wasted too much time in attempting to enter the ruins.

Under such circumstances, Fang Mu's choice would essentially directly assign the factions.

All the major forces present knew that Chunhui's assertion was perfectly reasonable given that most of the spots were won by the Infinite Tower.

However, if any force failed to successfully enter the ruins, they would undoubtedly feel some resentment.

Fang Mu, having no vested interests in these forces, didn't want to unnecessarily favor some or cause others to harbor grievances against him.

The factions who gained entry through his favor may not necessarily be grateful to him!

Fang Mu shook his head and replied,

"I have no opinions or requests. I'd already decided before the clash."

"Let's stick with the previous agreement: Poisonous Gu Villa, Ancient Genesis, and Truth Hall may join us in the Infinite Tower to explore the ruins!"

Upon hearing this, Chunhui was somewhat surprised.

Then, the leading elder of Bliss Palace also spoke up.

"Our Bliss Palace only wants one spot to explore the ruins."

"The remaining spots should be distributed based on strength through collective decision."

"The forces who aren't chosen don't deserve the spot and have nothing to regret. They can stay behind and explore the ancient battlefield."

"There are probably many Epoch relics in this ancient battlefield still undiscovered."

Obviously, no one would contradict the words of an Order Strong from Bliss Palace.

Yet, judging a faction's strength by appearances wasn't fair, and the resources now available in the ancient battlefield couldn't compare to the richness of the ruins.

But no one from any force dared to object to the words of an Order Strong.

Soon, the twelve forces that would enter the ruins on the human side were chosen.

Eight Beast Taming Tribes were also chosen by the Beast Controlling Force. The previous battle had already determined the ratio of slots.

All the leading Beast Controlling Forces voluntarily moved away from the altar, allowing the twelve chosen human forces to come to the altar.

Yin Qingzhi was about to speak, but when she thought about the current situation of Celestial College, she shut her mouth.

Shui Miao knew that Fang Mu had no prior experience of exploring ancient battlefields, and thus certainly hadn't explored the ruins before.

So Shui Miao spoke on behalf of Fang Mu,

"The ruins range in size, and each round of teleportation from the altar sends people to different locations within the ruins."

"I suggest that one force forms one group. Twenty groups will be teleported in batches."

"There's no need for allied forces to be teleported together. This will ensure that each force can gain more resources."

"Our Infinite Tower won 40% of the spots. If we are the first to be teleported, I assume no one will object."

Chapter 744 Sunset Elegant Lotus!\_2

Having said that, Fang Mu and Shu Liangjun were the first to ascend the altar.

Neither human forces nor beast-controlling forces attempted to stop them.

This was partly because the Infinite Tower indeed deserved such privilege and partly because no force was capable of stopping the Infinite Tower.

Among the Order Strong present, half were from the Infinite Tower.

The main reason why Shui Miao would say those words was to prevent the beast-controlling forces from teleporting together.

If the beast-controlling forces were to teleport together, any human force that collided with them in the ruins would certainly be attacked.

The human forces, on the other hand, would be calculating against each other during the exploration of resources and search for inheritance, unable to unite and cooperate.

Moreover, being the first to enter the ruins had benefits.

Apart from the Infinite Tower, there were nineteen other forces to enter the ruins, and the time to determine the order of entry would not be short.

During this time, they could help Fang Mu find some treasures.

The ancient book only recorded the situation outside the ancient battlefield ruins, and now it had lost its use completely.

Ever since Liu Xi took control of Mr. Zi's Eater Bat, which was Sequential One, and continuously helped it recover during the escape, Mr. Zi had been hiding in the dark.

Anyway, Meng Sha was cursed and would enter a state of decay within forty-eight hours.

If the curse was not lifted within seventy-two hours, she would die due to loss of vitality!

His own moth was injected with the devil's bloodline, reinforcing the effect of the curse.

It's impossible for Meng Sha to find a way to break the curse unprepared!

The Spirit of Hero Mind Shield Nun, which has healing and curse-removal effects, has already been killed by him.

If Meng Sha truly removed the curse, his moth would be able to feel it.

Mr. Zi could confirm that there must be a problem with Meng Sha, most of the strength of the Void Beast Witch was shown through the Void Beast.

This Void Beast of Meng Sha does not have the ability to control.

Even if Meng Sha somehow gained the ability to control, she could not possibly control his Eater Bat.

Once Fang Mu knew that Mr. Zi had hidden in the dark, he let Meng Sha rush to the area where the altar was.

Order Strong could easily sense Liu Xi's presence.

With the Yin Yang Leopard and the old man from Bliss Palace present, Fang Mu could not let Liu Xi appear in public.

But once the Bliss Palace's old man and the existence of Yin Yang Leopard, who had stepped into the Order, were teleported to the ruins through the altar.

Fang Mu could let Liu Xi attach to any member of the human forces and enter the ruins.

As for Meng Sha let her stay outside and run circles with the Eater Bat and Mr. Zi of Sequential One!

Once Mr. Zi confirmed that he had cursed Meng Sha, he will not risk severe injury to fight Meng Sha to death.

Fang Mu would never let Mr. Zi go, even if Mr. Zi prepared to leave the ancient battlefield, Huang Yuan could receive the message.

If Mr. Zi lost his spirit beast and was mentally traumatized, even if he were prepared to leave the ancient battlefield, Liu Xi could direct Huang Yuan to invite Mr. Zi to recuperate in the Royal Court for a while.

Once Mr. Zi accepted Huang Yuan's invitation, he would fall into Fang Mu's trap!

There was a violent spatial fluctuation from the altar, Fang Mu felt an intense dizziness and weightlessness.

This was even after Fang Mu had made a contract with the messenger.

If Fang Mu had not made a contract with the messenger, he might have fainted under such violent spatial fluctuations.

Seeing Fang Mu holding his head, Shu Liangjun immediately took out a silver fruit and handed it to Fang Mu.

"Ah Mu, first smell the fragrance of this fruit from the Shuttle Olive," he said.

"The aroma of Shuttle Olive fruit can alleviate the dizziness caused by long-distance teleportation."

"When you go out of the ruins, you can eat this Shuttle Olive, which will prevent you from being affected by negative effects during spatial teleportation in the future!"

Fang Mu brightened upon hearing this and hurriedly held the silver Shuttle Olive under his nose.

The discomfort Fang Mu had previously felt immediately dissipated by a large extent.

According to Shu Liangjun, Fang Mu knew that this Shuttle Olive could definitely be called an excellent treasure.

As for these treasures that could enhance oneself, Fang Mu had always been unreserved.

"Elder Shu, thank you for the Shuttle Olive, I..."

Before Fang Mu could finish his sentence, a cicada cry came from the front.

Fang Mu looked ahead and found a row of tall weeping willows.

Through his innate divine skill, the Eye of Omniscience, Fang Mu examined the weeping willows and found that they were just very ordinary plants, not even beasts.

After a brief observation, Shu Liangjun exclaimed with excitement.

"I can sense the presence of spiritual energy in the air, there must be a Guardian Beast capable of producing spiritual energy up ahead!"

"This relic seems large, but we also have to prevent others from getting to it first."

Upon hearing this, Fang Mu nodded and quickly walked towards the direction where the cicada's cries came from.

As for expressing gratitude, Fang Mu felt there was no need to vocalize it.

After all, Shu Liangjun would be with him for a long time. Fang Mu was fully capable of showing his gratitude to Shu Liangjun over this period.

Passing through a cluster of tall weeping willows, Fang Mu saw these tall trees enclosing a pond of only seven or eight square meters.

There were no fish in this pond, only a budding lotus flower.

The bud of the lotus was in a color of sunset, getting purpler as it went downward.

The top of the bud was a golden orange color.

A cicada, seemingly carved from jade, was perched on the lotus bud, making a leisurely chirping sound.

The space of the relic had no major difference from the outside world, where every creature could go through the process of birth, reproduction, and death.

The weeping willow forest just now had many traces of life and death.

Many willow trees had met their end, yet the fallen branches for some unknown reason had grown into tall and upright weeping willows again.

Fang Mu could feel that the spiritual energy was emanating from the bud of this lotus flower.

Fang Mu immediately used the Eye of Omniscience to probe the lotus in the pond and the cicada.

[Beast Name]: Sunset Elegant Lotus

[Beast Species]: Lotus Subfamily/Lotus Genus

[Beast Level]: Gold (3/10)

[Beast Element]: Water/Wood

[Beast Potential]: Platinum

[Beast Quality]: Perfect Quality

Skills:

[Blooming Sunset Glow]: After the flower blooms, it enters the dusk condition. The production of all water and wood dual-element Guardian Beasts covered by the dusk will increase based on the original foundation.

[Containing Spiritual Stamen]: The dusk condition will activate its inherent ability to produce spiritual energy, allowing the stamen to contain more spiritual energy.

[Bone-generating Lotus Root]: The produced lotus root has the effect of activating the gene template. Long-term nurturing with the lotus root can prompt the target to complete their incomplete gene template.

Exclusive Trait:

[Accelerating Lotus Root Formation]: Under high concentrations of spiritual energy, it can have sufficient life energy absorption of wood and water dual-element energy, which can accelerate the development of lotus roots. When necessary, it can maintain the current growth state by consuming lotus roots.

Evolutionary Path:

①: Residual Sun Elegant Lotus, ②: Silent Wave Elegant Lotus, ③: New Day Healing Lotus.

.....

[Beast Name]: Lotus Companion Jade Cicada

[Beast Species]: Cicada Family/Tettigoniid Genus

[Beast Level]: Silver (8/10)

[Beast Element]: Wood

[Beast Potential]: Gold

[Beast Quality]: Elite Quality

Skills:

[New Leaf Cry]: Cicada's call can promote plant growth and prompt new leaves, but daily cicada call time cannot exceed a certain limit, otherwise, the newly sprouted leaves will wither.

[Jade Cicada Molting]: Every once in a while, it will molting, its slough has the effect of accelerating the overall growth of the plant and making the roots of the plant more robust.

Evolutionary Path:

①: Banmu Yuchan, ②: Lotus Gifting Jade Cicada, ③: Spring Wave Jade Cicada.

Fang Mu already has a Guardian Beast that can produce spiritual energy, and for Fang Mu the primary way to obtain spiritual energy is to let the abdominal environment caterpillar use the spiritual energy as his sanctuary energy.

Therefore, the Guardian Beast that can produce spiritual energy no longer has such a strong attraction for Fang Mu.

Fang Mu just harbored a mentality of the more the merrier.

But after seeing the data of the Sunset Elegant Lotus, Fang Mu couldn't help but get excited.

Fang Qin's severed finger has always been a concern for Fang Mu, now it seems there may be a way to restore Fang Qin's severed finger!

Chapter 745 Banmu Yuchan!\_1

Before, when Fang Qin served as a member of Jinghai Army Special Action Team, she executed internal classified missions.

About two-thirds of the members of the Jinghai Army Special Action Team are Jinghai Tianyu University graduates.

Jinghai Tianyu University graduates are each the cream of the crop.

During the special action team's execution of missions, there is a twenty-person guard squad to assist from the side.

Aside from assisting the special action group in executing missions, the most vital purpose of this guard squad is to ensure the safety of the special action team members.

Special action team members, after sufficient experience, eventually, a large portion of them becomes the backbone of the Jinghai Army.

Fang Qin's older sister lost two fingers and it seemed like it was for her professional belief.

But in fact, Fang Qin did not need to take on such a dangerous task.

After all, Fang Qin joined the special action team less than three years ago.

Fang Qin did this to earn more resources and to alleviate Fang Yuan's pressure.

Fang Qin has a very strong character. As the older sister, she felt particularly bad about placing all the burden of supporting the family on Fang Yuan!

Beast Masters must have resources to progress. Without resources, even if the Beast Master has high talent, there's no way to improve their Guardian Beast's strength.

The ability of Fang Yuan's Destiny Guardian Beast makes it so that the more leopard beasts he contracts, the stronger Fang Yuan becomes.

But Fang Yuan only contracted one Guardian Beast.

Every time Fang Qin urged Fang Yuan to pay more attention to his own strength improvement, Fang Yuan would always respond in an unconcerned manner.

"After all, being an important Golden Glove of the Ten Thousand Treasures Commerce, execution ability is more important than strength!"

But in the Beastmaster world, there is no profession that does not require strength.

This is because Fang Qin wanted to share Fang Yuan's burden and help Fang Mu and Yan Wood to have a better future during their student phase.

That's why Fang Qin would apply to participate in one dangerous mission after another.

Fang Qin never told Fang Mu about the Frost Dragon Fish, but Fang Mu heard about it from Luo Su.

Fang Qin gave up the Frost Dragon Fish, which is very compatible with her Destiny Guardian Beast, to exchange for one item for herself and Yan Wood.

No matter what hope there may be, Fang Qin would always wish for Fang Mu to also become a Beast Master.

After the bionic finger is created from some special metal spiritual material, it does indeed alleviate the inconvenience in life.

Some Spirit-smithing Masters would even create spiritual instrument-level prosthetics for some prestigious clients.

But even the best prosthetic needs to have the fingers removed for washing hands and pouring out accumulated water inside.

Fang Mu has been searching for a method to regenerate lost limbs, and specifically asked Shui Miao, Shu Liangjun, and Qin Shao about it.

But the three didn't have any good solutions.

Indeed, some Beast Masters have regenerated their lost limbs before, but this is mainly due to the special Destiny Guardian Beast of the Beast Master.

The ability that this Destiny Guardian Beast grants to the Beast Master cannot be added to any other target.

This left Fang Mu with deep regret.

Now, this Guardian Beast called Sunset Elegant Lotus can help Fang Qin regenerate her lost fingers with its Skill [Bone-Generating Lotus Root].

The lotus root of the Sunset Elegant Lotus has the effect of activating the genetic template and can also promote the completion of the existing defects under activation.

A severed finger is a deficiency in the genetic template

This is because Fang Qin's genes should have fingers.

After Fang Mu returns to JA City, Fang Mu plans to grind the lotus root of the Sunset Elegant Lotus into Lotus Root Powder and give it to Fang Qin to eat for breakfast every day.

Let's see how exactly the skill [Bone-Generating Lotus Root] works!

Normally, the higher the bloodline class of a lotus-type Guardian Beast, the slower the Lotus Root generation

Some top-of-the-line lotus-type Guardian Beasts could take several decades to grow a tender lotus root.

The Lotus Root is essentially the rhizome of the Lotus Guardian Beast, severing the Lotus Root harms the root of the Lotus Guardian Beast itself.

Fortunately, Sunset Elegant Lotus has an exclusive trait [Accelerated Lotus Formation], which only requires life energy, water, and wood dual attribute energy that can be absorbed in a high-concentration spiritual energy environment.

This can ensure the generation speed of its Lotus Root.

The exclusive trait [Accelerated Lotus Formation], apart from promoting the growth of the Sunset Elegant Lotus's rhizome, is also a self-recovery ability.

Under situations where there is a lack of energy or the Sunset Elegant Lotus itself is injured, it can maintain its own growth by consuming the Lotus Root.

Once the Sunset Elegant Lotus comes into Fang Mu's hands, Fang Mu will definitely provide Sunset Elegant Lotus the best living environment.

The secret region space of the Abdomen Environment Caterpillar will soon be filled with spiritual energy.

Whether it's Spirit Absorbing Goldfish or Five Blessings Lancun Absorbing Spirit Goldfish, both have the ability to refine spiritual energy.

Fang Mu has plenty of life energy and water-wood dual-attribute elemental energy.

Fang Mu can provide 100% pure life energy and water-wood dual attribute elemental energy to the Sunset Elegant Lotus, helping the Sunset Elegant Lotus to accelerate Lotus formation.

Many people in the Beastmaster world have physical defects due to battles, including some who are members of major forces.

The lotus root powder made by grinding the lotus root of Sunset Elegant Lotus can be used as a treasure for Fang Mu to trade with other powers after it helps Fang Qin recover her body.

As long as a person's genetic template was normal at birth, even blindness or deafness can be cured!

In some special cases, the lotus root of Sunset Elegant Lotus isn't necessarily less valuable than a Grandmaster-level life elixir.

Furthermore, as the Sunset Elegant Lotus continues to evolve and enhance, the effect of the lotus root might very well increase.

Chapter 746 Banmu Yuchan!\_2

As for the ordinary skill [Blooming Sunset Glow] of the Sunset Elegant Lotus, it was also considered a divine technique in Fang Mu's eyes.

Planting the Sunset Elegant Lotus in the Plant Spring, the moment the buds of the Sunset Elegant Lotus bloom, they could enter the state of dusk.

Under the state of dusk, the production of dual-attribute Plant and Water beasts would increase.

Beasts like the Sun and Moon Jellyfish and Yunque Hibiscus, which produce spiritual energy, would enhance their production speed under the state of dusk.

Moreover, Fang Mu planted the Restoring Appearance Palm and Heaven Fragrance Peony within the dusk range of the Sunset Elegant Lotus, enhancing the yield of Restoring Appearance Palm Oil, Heavenly Fragrant Peony Flower Powder, and Flower Beads.

This indeed further enhanced the value of the dual-attribute Plant and Water production beasts!

The Sunset Elegant Lotus produced spiritual energy through the skill [Spirit-Containing Stigma].

The Sunset Elegant Lotus condensed spiritual energy through its stigma. Fang Mu didn't need to deliberately collect the stigma of the Sunset Elegant Lotus.

Once the stigma of the Sunset Elegant Lotus matured, it would simply fall into the Plant Spring.

By then, the Five Blessings Orchid Longevity Goldfish that Absorbs Spirits would naturally concentrate the spiritual energy in the stigmas.

From the perspective of the evolution path, the Sunset Elegant Lotus could evolve into the Residual Sun Elegant Lotus, Silent Wave Elegant Lotus, and New Day Healing Lotus.

It was clear that the Residual Sun Elegant Lotus evolved according to the bloodline of the Sunset Elegant Lotus.

Most likely, the evolution would enhance and uplift the effects of the dusk state.

The enhancement of the effects of the dusk state would naturally boost the ability of the Sunset Elegant Lotus to produce lotus roots.

The Silent Wave Elegant Lotus followed the path of the Water attribute, and the attributes of the Sunset Elegant Lotus would likely change from dual attributes of Water and Plant to a single attribute of Water.

Even if the capabilities after evolution were strong, they would not surpass the value afforded by the dusk state.

The New Day Healing Lotus followed the path of healing beasts.

Fang Mu didn't have any pure healing beasts at hand.

Even though Eden Dreamland has a certain healing effect, compared to pure healing beasts, the effect of Eden Dreamland is not very strong.

Luckily Fang Mu contracts beasts through the Covenant Blood Essence, Fang Mu can contract countless beasts in his life.

Fang Mu has no reason not to develop comprehensively.

Fang Mu had thought of contracting a pure healing beast, but this pure healing beast would not be the New Day Healing Lotus.

Now that Fang Mu has a way to obtain spiritual energy, he couldn't help but think of the Hundred Lilies Flower Child that Feng Lin was breeding.

It was said that the Hundred Lilies Flower Child possessed the bloodline of Lily Lily.

When Feng Lin spoke of Lily Lily, he mentioned that Lily Lily, this legendary beast, was a very precious existence in the fifth and sixth epochs.

Fang Mu thought that if he could find a purebred Lily Lily, he could try to cultivate Lily Lily through spiritual energy, in order to restore Lily Lily's glory!

Thinking of this, Fang Mu gently shook his head.

Finding a purebred Lily Lily was not easy, and the Hundred Lilies Flower Child bred by Feng Lin only held a small amount of Lily Lily bloodline.

If it wasn't a contract with a purebred Lily Lily, there would be no meaning in cultivating Lily Lily.

After inspecting the Sunset Elegant Lotus, Fang Mu set his eyes on the Lotus Companion Jade Cicada.

It was due to the cicada's cry of the Lotus Companion Jade Cicada that it attracted the attention of himself and others, leading them to the pond's edge.

The Lotus Companion Jade Cicada's rank was only at the Silver Stage and of Elite quality, without any exclusive traits.

Generally, a Creator would not pay too much attention to such a beast during the process of wild gathering.

Uncertainties concerning exclusive traits could lead to a lot of variables in the cultivation process of the beast.

These variables could affect the overall value of the beast, hence, only some precious beasts could sell well once they are cultivated to Epic Quality.

However, this Lotus Companion Jade Cicada had proven its value through the skills [New Leaf Cry] and [Jade Cicada Molting].

The Lotus Companion Jade Cicada served as an excellent accessory for Lotus beasts.

[New Leaf Cry] had the function of promoting the growth of lotus beasts.

Although the cicada's cry couldn't exceed a certain time limit each day, otherwise it would cause new leaves to wither.

However, Fang Mu didn't need to focus on cultivating a lotus beast all day.

Fang Mu could, after calculating a good time limit, allow the Lotus Companion Jade Cicada to promote the growth of more lotuses.

As for the Silver Grade Skill [Jade Cicada Molting], which can accelerate the overall growth of lotus species and make the rhizomes of the lotus vessel stronger, it perfectly fits the Sunset Elegant Lotus.

As long as Fang Mu feeds the cicada molts produced by the Lotus Companion Jade Cicada to the Sunset Elegant Lotus, the lotus root of the Sunset Elegant Lotus will become more plump.

Let the Sunset Elegant Lotus produce more resources!

The evolutionary path of the Lotus Companion Jade Cicada is Banmu Yuchan, Gift Lotus Jade Cicada, and Spring Wave Jade Cicada.

The Banmu Jade Cicada obviously expands the range of the cicada cry and cicada molt from Lotus Companion Jade Cicada.

This transformation makes the cicada cries and cicada molts of the Lotus Companion Jade Cicada not only influence lotus beasts but a majority of plants.

This ability is a significant enhancement for the Lotus Companion Jade Cicada.

No wonder the Fool's Shadow put this evolution route in the front when presenting the data!

The Gift Lotus Jade Cicada obviously enhances the Lotus Companion Jade Cicada's enhancement effect on lotus beasts.

This evolutionary path of the Spring Wave Jade Cicada allows the Lotus Companion Jade Cicada to transform towards healing beasts.

The Spring Wave Jade Cicada may have unexpected effects on healing plant beasts.

However, the Bright Moon Golden Osmanthus in Fang Mu's possession also has miraculous effects on healing plant beasts. The abilities of the Spring Wave Jade Cicada and the Bright Moon Golden Osmanthus overlap.

Of course, even without the overlap, in Fang Mu's heart, the evolutionary path of the Spring Wave Jade Cicada is not comparable to Banmu Jade Cicada and Gift Lotus Jade Cicada.

Fang Mu needs to make a choice between the evolution routes of Banmu Jade Cicada and Gift Lotus Jade Cicada.

This made Fang Mu a little tangled for a moment, but in the end, Fang Mu decided to choose Banmu Jade Cicada.

In the future, the resource-producing plant beasts that Fang Mu obtains will not be limited to the Sunset Elegant Lotus.

Some plant beasts might be more valuable than the Sunset Elegant Lotus.

Fang Mu's main purpose of obtaining Lotus Roots is to restore Fang Qin's broken finger, to be able to remedy when his relatives and friends encounter accidents.

Fang Mu's hands are filled with things that could be exchanged for resources with major forces, and the special beasts he cultivated through "Creation of Blood and Life" only require ten percent of the spiritual power needed to contract regular beasts.

The audience for these resources is far larger than that of the lotus roots of the Sunset Elegant Lotus.

So Banmu Jade Cicada is more suitable for Fang Mu!

While Fang Mu was investigating the attributes of the Sunset Elegant Lotus and Lotus Companion Jade Cicada, he had the Rainy Doll dive into the pond in front of him.

He gently manipulated the water flow to roll up the sediment at the bottom of the pond and dug up the Sunset Elegant Lotus.

He even used three water nets to surround an area one meter around the Lotus Companion Jade Cicada.

This is to ensure that if the Lotus Companion Jade Cicada has the idea of flying away, it can be captured immediately.

Once the Lotus Companion Jade Cicada is placed in the abdominal space of the Abdominal Territory Worm, Fang Mu doesn't need any worries.

Anyway, any creature that reaches the Abdomen Environment cannot escape it.

The deeper the Rainy Doll stirs up the mud in the pond, the more surprised Fang Mu becomes.

Fang Mu discovered this Sunset Elegant Lotus may have passed maturity.

Because the volume of the lotus root of the Sunset Elegant Lotus is much larger than its volume above the water!

Judging from the volume of the lotus root, this Sunset Elegant Lotus should not live long.

Fortunately, Fang Mu got the Plant Spring Eye, which can ensure that plant beasts bathed in the Plant Spring will not age anymore.

When the Rainy Doll completely dug the Sunset Elegant Lotus out from the water and raised it mid-air,

The Lotus Companion Jade Cicada was still trying to escape.

The Rainy Doll's quality is much higher than that of the Lotus Companion Jade Cicada, and it immediately turned into a water cell to envelope the Lotus Companion Jade Cicada.

Fang Mu temporarily put the Lotus Companion Jade Cicada and Sunset Elegant Lotus in the Purple Ice Crystal Ring, feeling quite impressed, he said to Shui Miao and Shu Liangjun,

"The resources inside this ruin are not on the same level as those outside!"

Shu Liangjun and Shui Miao do not have abilities like the Eye of Omniscience and have no way to understand the ability of a beast they have never seen before!

The two didn't know why Fang Mu suddenly exclaimed this.

Just then, Shui Miao and Shu Liangjun suddenly felt intense energy fluctuations coming from afar.

Most likely, several strong forces are battling it out.

Chapter 747 Do You Really Consider Yourself a Dish in the Menu!? \_1

If your power is insufficient, when you see a fight in the ruins, get as far away as possible.

While resources in the ruins aren't particularly abundant, they're not too scarce either.

There's no need to contest with other powers to acquire these resources.

All power forces that manage to enter the ruins are not weak.

However, stronger forces will rush in upon identifying the struggle for the same resource, as those resources fought over by other forces are generally rare and highly valuable.

In the process of contending with the Beast Controlling Force, it was confirmed that Infinite Tower is the most powerful force.

The one with the ability has always possessed the resources in the ruins. The more capable the force, the higher the priority to obtain resources.

"Ah Mu, there's a power struggle ahead of us. There must be some precious resources to be gathered!"

"To gain heritage in the ruins, it's not only about power but also luck."

"If luck isn't in our favor, no matter how strong we are, we can't force it. Let's help you collect supplies and seek heritage on the side!"

"The lotus and cicada that you just got are Guardian Beasts that proliferate and heritage in the ruins."

"Such Guardian Beasts are not common in ruins."

While speaking, Shui Miao felt a sense of admiration, he had managed to gather two Guardian Beasts just after entering the ruins.

These Guardian Beasts found in the ruins are of significant research value!

Fang Mu immediately became interested upon hearing this.

Fang Mu can't continually go out on expeditions, this trip to the Panfeng Federation has already taken up much of his time.

After the exploration of ancient battlefields, Qin Shao and Jin Ya would return to Radiant Castle.

After deciding on building his Ghost Device, Shui Miao would also leave, only Shu Liangjun would continue to stay by his side.

Fang Mu prepared to make good use of Crescent Moon Pendant and Sakura Fall Carp to accumulate further, aiming to become a Biproong Star Tamer before entering college.

He also planned to participate in the nationwide high school graduate competition.

Securing a good position in this competition is considered a lifetime honor in the Dragon Rising Federation.

Every year, top-ranking players in the league will receive additional privileges or special powers when entering college.

When Fang Mu goes to college, he plans to form his own league team, ensuring one of the roles stand out on stage.

Obtaining good results in the high school graduation competition will make it easier for Fang Mu to choose quality teammates.

Therefore, Fang Mu plans to gain as much as possible from this exploration of the ruins.

"Let's go, let's see what's worth fighting over by two groups!"

Upon hearing this, Shu Liangjun raised a silver mirror.

"Due to the relatively stable space within the ruins, it's more suitable for teleportation than the outside world."

"With this environment, teleportation will hardly divert."

"We can safely put things away, saving the two forces from casualties in the struggle."

"So, we can say that we are doing something good after all!"

Fang Mu blinked at this.

Fang Mu feels like he understands Shui Miao and Shu Liangjun quite well.

The more he understood, the more he realized Shu Liangjun had some shamelessness in his character!

What Shu Liangjun characterized as doing good deeds was like breaking someone's legs to guard against them stumbling when they go out.

It's completely Schrödinger's good deed!

However, Fang Mu quite liked Shu Liangjun's character; at least Shu Liangjun was not a sanctimonious person.

If Fang Mu had chosen a sanctimonious person to be his guard, he absolutely couldn't bear it!

Shu Liangjun's character can better protect Fang Mu's safety and execute Fang Mu's instructions.

From the guard's perspective, Shu Liangjun is superior to Shui Miao.

But in terms of intelligence mastery, Shui Miao far outdoes Shu Liangjun!

Shui Miao, the master of the Twelve Pavilion, was not for nothing!

For every human or Beast Controlling Force he saw, Shui Miao could thoroughly describe the information about that power.

When the silver mirror was shone on Fang Mu, Shui Miao and Shu Liangjun, they were teleported to the location of the recent battle.

The two opposing forces, one was a human force, and the other was a Guardian Beast force; the human force had always been trailing behind Yin Qingzhi and had no interaction with Fang Mu whatsoever.

As for this Beast Controlling Force, it was familiar to Fang Mu, it was the Fanglan Rui Fairy Butterfly clan.

The Fanglan Rui Fairy Butterfly clan was not adept at fighting but had unparalleled control skills.

However, in the battle with human forces, the Fanglan Rui Fairy Butterfly clan was slowly falling to the disadvantage.

A piece of stone material wrapped in skin was being firmly grasped by the violent winds generated by the wings of a Fanglan Rui Fairy Butterfly.

The leader of the human force said coldly.

"I advise you to give up the Phoenix Blood Jadeite rough stone quickly!"

"If you're still persistent in vying for the Phoenix Blood Jadeite rough stone, we won't be polite!"

On hearing this from the sturdy man in front of her, Cai Xuan was so angry that her illusion wings solidified a bit.

What does he mean by 'we're being stubborn'!

They were the ones who first found the Phoenix Blood Jadeite rough stone; this human force started attacking the Fanglan Rui Fairy Butterfly clan the moment they appeared.

If it wasn't for almost equal powers and the current stalemate, they wouldn't have been in any immediate danger.

Chapter 748 Do You Really Consider Yourself a Dish in the Menu!? \_2

This human force had already made their move!

There are many spiritual materials in this world that can promote the bloodline of dragons, but precious few can enhance the bloodline of phoenix-type beasts.

From the appearance of its outer skin and the exposed part of the stone, this Phoenix Blood Jade raw stone must have reached at least the sticky grade.

The sticky grade Phoenix Blood Jade has the chance to transform the bloodline of the Fanglan Rui Fairy Butterfly into the Fanglan Phoenix Fairy Butterfly!

Once evolved into the Fanglan Phoenix Fairy Butterfly, the strength will be greatly enhanced.

It will no longer be just an assistive beast master!

If we look at the bloodline, the bloodline of the Fanglan Rui Fairy Butterfly is not necessarily worse than the bloodline of the Fanglan Phoenix Fairy Butterfly.

But the Fanglan Rui Fairy Butterfly Clan desperately needs the Fanglan Phoenix Fairy Butterfly, which has a strong combat capability.

If there is a Fanglan Phoenix Fairy Butterfly in my team now, we wouldn't be so controlled and threatened by this human force!

At this moment, Cai Xuan and the leader of the human forces both saw Fang Mu suddenly teleport in.

And Shui Miao and Shu Liangjun behind Fang Mu.

Upon seeing Fang Mu, Cai Xuan knew that she couldn't keep this Phoenix Blood Jade raw stone.

But giving it to Fang Mu's hands makes Cai Xuan feel much better than giving it to these human forces!

Not to mention the Fanglan Rui Fairy Butterfly Clan, any beast taming tribe would be unable to compete with the Infinite Tower.

The Infinite Tower was the first force to be teleported to the ruins, stressed by the Great Yin Yang Leopard after the Infinite Tower's teleportation was completed.

No force in the ruins should conflict with the Infinite Tower for benefits.

In other words, even the Great Yin Yang Leopard could not afford to offend the Infinite Tower.

Cai Xuan admitted defeat, but the muscular man's eyebrows furrowed slightly.

"Good day to you, sir, I am the head of the Original Lion Group, I didn't expect to see you here!"

"This is truly our Original Lion Group's honor!"

"Our Original Lion Group has always been in good relations with Master Yin Hanrong, and this Phoenix Blood Jade is exactly what Master Yin Hanrong needs."

"I don't know what you think..."

Before the muscular man finished speaking, Shu Liangjun interrupted.

"The Original Lion Group just operates a few plains in Lan Ga Continent and happens to have some specific Lion Type beasts on these plains."

"You Original Lion Group, just because you got rich off these special Lion Type beasts and managed to curry favour with Master Yin Hanrong, you start to think too highly of yourselves!"

"Even if Master Yin Hanrong personally comes here, I'm afraid he wouldn't dare to ask us The Infinite Tower for this piece of Phoenix Blood Jade raw stone!"

"And besides, Master Yin Hanrong probably doesn't take your Original Lion Group too seriously."

"A third-rate force is always a third-rate force. If it weren't for Yin Qingzhi favouring you, you might not even be qualified to enter the ruins!"

Shu Liangjun hated people who took advantage of others' names, so his words were a bit harsh.

Upon hearing these words, Shui Miao also frowned at the muscular man.

Although what Shu Liangjun just said was not very pleasant, it was not wrong.

Neither the Bliss Palace nor us really have the time to manage the selection of forces to enter the ruins, and Yin Qingzhi has arranged for many forces related to Master Yin Hanrong to enter the ruins.

Yin Qingzhi's behavior has been criticized by many forces, for it more or less affects the interests of those forces.

The leader of the Original Lion Group brought up Yin Hanrong's name, obviously thinking that the Infinite Tower should give face to this Grandmaster Creator.

But after it became clear that the Infinite Tower had at least two Grandmaster Creators, at least one of whom was a Senior Creation Zenith Master.

Shui Miao had already put the Infinite Tower on a certain pedestal.

The Infinite Tower really doesn't need to give face to Master Yin Hanrong, on the contrary, there are times when Master Yin Hanrong should give face to the Infinite Tower!

After making these remarks, Shu Liangjun, ignoring the expression of the head of the Original Lion Group, reached out to Cai Xuan.

"We meet again!"

"Before, you guys blocked our way voluntarily, but we weren't ready to make a fuss."

"After taking the Phoenix Blood Jade raw stone, you can leave!"

Hearing this, Cai Xuan quickly and respectfully handed the Phoenix Blood Jade raw stone to Shu Liangjun.

Then she immediately left with the other members of her clan.

Honestly, Cai Xuan was indeed a bit afraid Fang Mu would go back to the previous situation set up by the Fanglan Rui Fairy Butterfly Clan.

Even if powerful beings from the Infinite Tower were to kill them here, there would be little the Beast Controlling Force could say or do.

Entering the relic was always a gamble between life and death.

Previously, so many large ancient battlefields had opened, how many powerful beings from the Beast Controlling Force, members of the human forces had died therein!

But in the end, there were no reports of any force going to reclaim the situation!

Many powerful beings died mysteriously, and it was difficult for information about the situation in the relics to be transmitted to the outside world.

The leader of the Original Lion Group hadn't thought that after exposing Master Yin Hanrong, such a situation would occur.

The Infinite Tower had two powerful beings who had touched the Order.

If they didn't give face to Master Yin Hanrong, it meant that there must be a Grandmaster Creator within the force of the Infinite Tower whose strength was no less than that of Master Yin Hanrong.

The leader of the Original Lion Group found himself in a difficult position.

After getting the Phoenix Blood Jade Original Stone, Fang Mu no longer paid attention to the people of the Original Lion Group. Instead, he followed Shu Liangjun and Shui Miao to continue grabbing the supplies.

They also conveniently searched for inheritance within the relic during the process of grabbing supplies.

Since they had entered the relic, they certainly had to fight for the inheritance therein!

Fang Mu made several proactive efforts and obtained good results.

Fang Mu noted that every time he was teleported to a different area, the temperature of the Crescent Moon Pendant hanging on his chest would change differently.

When moving north, the temperature of the Crescent Moon Pendant on his chest was significantly higher.

There must be a reason for this.

Fang Mu's Crescent Moon Pendant was obtained after completing three tests in the ancient battlefield.

Right after the three Crescent Moon Pendants combined into one Crescent Moon Pendant, the relic immediately appeared.

The Crescent Moon Pendant had an inseparable relationship with the relic. Could these temperature changes relate to the inheritance of the relic?

Upon considering this, Fang Mu seriously said to Shu Liangjun.

"Elder Shu, you take Ah Shui and me to teleport northward!"

"Don't make each teleportation distance too far, for I have a premonition that the inheritance may be hidden to the north!"

Upon hearing Fang Mu's words, both Shu Liangjun and Shui Miao looked surprised.

They didn't understand why Fang Mu would say that.

But they both knew that Fang Mu must have a reason for saying this.

Perhaps Fang Mu had discovered something through some means.

Some Destiny Guardian Beasts in legends have a certain power of foresight.

Fang Mu being accepted as a disciple by a Grandmaster Creator, certainly had his own Destiny Guardian Beast.

Perhaps Fang Mu's Destiny Guardian Beast has the power of foresight!

Both Shui Miao and Shu Liangjun knew Fang Mu was steady and they didn't doubt him.

Even if Fang Mu's speculation was wrong, they wouldn't say much.

It was because they were here to accompany Fang Mu for practice in the ancient battlefield.

Fang Mu was the absolute leader of this trip.

"Ah Mu, how about we teleport five kilometers each time?"

"If you think a distance of five kilometers is a bit far, I can shorten it to three kilometers."

"But if the distance is shortened, our time for exploring inheritance will increase!"

"Regardless of the distance, my Silver Mirror needs around two to three minutes cooldown time after each teleportation."

Upon hearing this, Fang Mu laughed and replied to Shu Liangjun.

"Elder Shu, five kilometers is good!"

"You should not need to teleport more than a few times before I can confirm whether the spot I am looking for is here."

Currently, both the Beast Controlling Force and human forces have just entered the relic and not much time has passed.

If he could obtain the inheritance in a very short time, it would save him the trouble of competition if many forces discovered the inheritance!

Chapter 749 "Fisherman" Fang Mu! \_1

Fang Mu had indeed heard about the Luminous Snake Clan from Jiao Feng.

The reason why so many Beast Controlling Forces were heading towards the Panfeng Federation to explore this major ancient battlefield was because it was rumored among the Beast Controlling Clans that this battlefield had something to do with the Sage!

Fang Mu didn't know who the Sage was or what significance the title had.

But that didn't stop Fang Mu from being curious about the Sage.

If given the opportunity, Fang Mu would also like to uncover the legend of the Sage.

Anything or secret related to the Sage that the Beast Controlling Forces continuously sought coverage for must be incredibly valuable.

Shu Liangjun used the Silver Mirror to teleport Fang Mu four times in a row towards the direction of north.

Fang Mu carefully felt the temperature of the crescent moon pendant on his chest. He found that during the third time, the crescent moon pendant heated to the point that his chest was slightly painful.

However, after the fourth teleportation, the temperature of the Crescent Moon Pendant decreased.

This confirmed Fang Mu's hypothesis that the object causing the Mysterious Moon Pendant to heat up was near the previous location.

"Elder Shu, please teleport me back to the previous location. Let's thoroughly search that area!"

Shu Liangjun nodded upon hearing Fan Mu's words, but was confused about what was so special about the previous location.

Every time Shu Liangjun teleported, during the two to three-minute cooldown of the silver mirror, he would inspect the surroundings.

At the site where Fang Mu had found the Phoenix Blood Jade Original Stone, there were relatively valuable supplies.

But the further he explored northwards, the fewer resources there were.

There doesn't seem to be any forces present nearby; perhaps some human forces and Beast Controlling Forces had teleported to this location, but upon understanding the situation, they all likely shifted their direction.

Despite being puzzled, Shu Liangjun promptly moved to teleport Fang Mu and Shui Miao back to the previous location as soon as the cooldown period of the silver mirror ended.

Fang Mu tentatively took one hundred steps in every direction, then chose a location that made the Crescent Moon Pendant even hotter than at the center. He marked a curve towards this location.

Quickly, Fang Mu determined that moving about 21 degrees in the northeast direction heated the Crescent Moon Pendant the most.

So, Fang Mu waved at Shu Liangjun and Shui Miao and headed in the direction he sensed.

Looking at the vast plains landscape that lay before him, a frown appeared on Fang Mu's face.

He had already walked almost one kilometer in the direction of northeast 21 degrees.

The plains were endless. Shu Liangjun's fourth teleportation also landed them on a prairie, which was likely the same region.

Could it be that what heats up the Crescent Moon Pendant is on these endless plains!? Fang Mu turned to Shu Liangjun and Shui Miao and said,

"Ah Shui, Elder Shu, I can guarantee that the location ahead definitely has a secret!"

"Could you possibly help me search thoroughly?"

Shui Miao and Shu Liangjun, who had been following at Fang Mu's side, started sensing the environment around them through their spiritual power when they heard Fang Mu's certainty.

Shu Liangjun was the first to shake his head, indicating he had not noticed anything unusual.

However, the expression on Shui Miao's face changed slightly.

"This environment seems calm, but Elder Shu, didn't you realize, there's no wind here!"

"The grass field five hundred meters ahead, the grass is visibly darker and more lush compared to the surroundings."

While he was speaking, Shui Miao issued a command to the JuYang Giant Clam in Fang Mu's palms.

Suddenly, a water curtain sprayed out from the JuYang Giant Clam.

The water curtain covered the grass around a kilometer radius and fiercely washed the surface.

A significant amount of grass peeled off from the ground.

Fang Mu acutely noticed that the grass planted at the location previously pointed out by Shui Miao hadn't separated from the ground.

Shu Liangjun turned the Silver Mirror, and immediately transported Fang Mu and Shui Miao to the edge of this grass patch.

Shui Miao crouched down and pressed on the grass patch, then a fan dance emerged from the folding fan in his hand.

A blade of water slashed at the grass patch, splitting the patch in two.

The splitting of the grass was accompanied by a harsh sound of metal being cut.

Seeing the energy circuits etched onto the divided metal plate, Shui Miao's and Shu Liangjun's brows furrowed simultaneously.

Energy circuits could be drawn by any Spirit-smithing Master in the Seventh Era.

However, in the Fifth and Sixth Epochs, spiritual instruments were crafted by Creators.

Creators had mysteriously melted precious spiritual materials together perfectly.

In some relics, spiritual instruments from the Fifth and Sixth Epochs, made by these Creators, have been found.

In ancient texts, these special spiritual tools are referred to as Treasure Instruments.

Most of these Treasure Instruments lost their effectiveness after prolonged exposure to the elements, and the materials applied to craft these Treasure Instruments also deteriorated, leaving little room for further study.

They merely serve to inform people from the Seventh Era of the splendid civilization that existed during the Fifth and Sixth Epochs.

If it weren't for the energy circuits appearing on the metal plate beneath the cut grass patch, Shui Miao and Shu Liangjun wouldn't have been so alarmed.

The fact that a metal plate with energy circuits appeared here suggested that the things hidden here were probably not placed by the original settlers of the relic.

After inspecting these energy circuits carefully, Shui Miao concluded that these energy circuits absorbed elemental energy from the environment to mask their aura.

Chapter 750 "Fisherman" Fang Mu!\_2

If it were just ordinary means, Shui Miao and Shu Liangjun would not fail to detect it with their spiritual power.

The JuYang Giant Clam once again spewed out two streams of water. Under the control of the clam, these two streams of water turned over the grass and separated two metal plates beneath it, revealing an underground passageway.

A secret tunnel leading downstairs appeared before the three of them, Fang Mu, Shui Miao and Shu LiangJun.

Panoramic view shows the entire entrance of the tunnel wrapped in a Diamond Rank metal spiritual material known as Radium Uranium Steel.

Inside the secret tunnel is a continuous staircase which bears beast-head totems crafted from Radium Uranium Steel on every few steps on both handrails.

Each of these beast heads is different, yet, without exception, they are all carved in the shape of a dragon's head!

Even though Fang Mu is not a Spirit-smithing Master, he knows that Radium Uranium Steel is the pinnacle of hardness among all Diamond Rank spiritual metal materials.

Sequential beasts would find it very difficult to leave a scratch on a panel of Radium Uranium Steel, let alone undertake such detailed carvings!

Fang Mu figured that this secret tunnel surely stores the legacy of this ruins.

Otherwise, a secret tunnel like this wouldn't be so intricately crafted.

These dragon heads, elaborately carved out of Radium Uranium Steel, have become mottled over countless years. Such mottled traces could not possibly have been artificially created.

Even if the entrance to the secret tunnel was covered by people from the Seventh Era, their concealment has no relation with the existence of the secret tunnel itself.

"Let's go, let's check it out together!"

"Let's see who's playing tricks here!"

"If someone has entered the secret tunnel and the metal plate concealing it from outside has not been retracted, it means the last person who entered the tunnel has not come out yet!"

"Human spirit-smiths generally only create usable spiritual instruments. Metal panels marked with energy circuits are functional tools."

"The person who came was well-prepared!"

"There are no footprints or traces of trespassing outside, meaning this entity either flew into this tunnel or carefully concealed their tracks."

"If my guess is correct, it's mostly a Beast Controlling Force that has entered this tunnel."

"The Beast Controlling Force was able to locate this place so quickly, and it could be a matter of luck."

"But the various signs all suggest that the Beast Controlling Force came prepared."

"We're able to get a map of the outside of the ruins. It's highly possible that the Beast Controlling Force has a map of the inside of the ruins!"

Fang Mu nodded slightly to these remarks.

What Shui Miao and Shu LiangJun said are all conjectures, not necessarily the truth.

However, having now arrived here, there's no justification for not seizing what's theirs.

Shui Miao was the first to enter the tunnel and said,

"Elder Shu, you should follow behind Ah Mu."

"If anything goes wrong, just start teleportation with Ah Mu. Don't worry about me."

"The actual leader of the Beast Controlling Force is a Yin Yang Leopard."

"Even if the Yin Yang Leopard ascends to an Order Level, I might still be able to overpower it. At worst, after you teleport Ah Mu, I can easily disengage."

Upon hearing this, Shu LiangJun did not insist on staying and fighting alongside Shui Miao.

Even if the two Order Level powerhouses fight against the Yin Yang Leopard, they may have the upper hand,

or they might even manage to kill the Yin Yang Leopard eventually.

However, they cannot guarantee Fang Mu's safety under the relentless attack by the Yin Yang Leopard.

To ensure Fang Mu's safety, teleporting him away is the best choice!

"Ah Shui, I will release my beast to assist you before we leave."

"We've seen few Beast Controlling Forces along the way, but they account for as much as 40% of the total parties entered into the ruins."

"The Beast Controlling Forces are much more united than human forces. Suppose the Beast Controlling Forces are abundant in numbers and have the support of Xuan Feather Surprised Crane and Luili Red Flame Deer, you might get hold back."

We're entering the final stage of the race for the relics legacy, it's do-or-die here!

Fang Mu took a deep breath and followed behind Shui Miao.

Fang Mu never liked taking risks. In his previous life, he came from a scholarly family and was educated since childhood by his parents that a gentleman doesn't stand on a dangerous wall.

However, Fang Mu did have his own bold side. When it was crunch time, he always chose to dash forward!

This was related to his solid foundation.

If it hadn't been for this, Fang Mu wouldn't have dared to step into dangerous territory so readily.

Fang Mu was very sensitive to blood energy. As soon as he entered the entrance of this secret tunnel, he sensed the fresh smell of blood coming from below.

Before Fang Mu could warn Shui Miao and Shu Liangjun, they too had noticed this.

Shu Liangjun directly summoned a ghost device, and the nine purple gold bells under the silver bracelet trembled slightly, but made no sound.

Once faced with danger, these nine purple gold bells would immediately ring out.

The suspended staircase kept going down, but the environment around it did not get darker.

On the handrails of the staircase on both sides, dragon heads were inlaid with a special crystal that emitted a faint glow.

Fang Mu did not choose to immediately remove these special crystals from the dragon statues.

A well-lit environment was beneficial for the exploration of Fang Mu and the others.

Once they obtained the heritage of the ruins, Fang Mu could take away all the dragon heads on the handrails of the ladder, which were made of radium uranium steel.

These animal heads crafted from radium uranium steel were very valuable, so there was no need to damage the dragon heads just for the sake of the crystals embedded in them.

The suspended staircase was very wide, easily allowing more than ten people to walk side by side.

As the trio walked along the edge of the staircase, they suddenly saw a pile of metal fragments scattered on the staircase ahead.

Shui Miao, who was leading the way, bent down, picked up a piece of metal fragment, and after studying it for about ten seconds, said.

"The master who left this relic was an expert in handling mechanical puppets!"

"These parts mostly come from a mechanical puppet, which has been shattered."

"The body of the mechanical puppet has already been taken away by someone."

"There's still some blood on the ground that hasn't dried up, it must have come from the side that fought the mechanical puppet!"

With that, Shui Miao took out a cork stick used by spirit-smithing masters in the process of carving energy circuits to wipe them.

Shui Miao dipped the cork stick in the blood that hadn't dried up, smelled it lightly, and said with certainty.

"This blood comes from a creature with a gigantic elephant bloodline."

"Among the beast taming tribes who entered the ruins, the ones that match this bloodline could either be the Bi Luo Elephant or the Rock Moving Elephant."

"It looks like the one who made the deployment was indeed the Beast Controlling Force and their members!"

"Whether it's the Bi Luo Elephant or the Rock Crushing Elephant, they both have astonishing defence capabilities."

"These mechanical puppets are able to pierce the defence of these beasts, which indicates that the level of these mechanical puppets' attacks has reached the top of the Sequential Level!"

Listening to Shui Miao's words, Fang Mu truly realized the danger of this Underground Palace.

Mechanical Puppetry was a craftsmanship skill during the Fifth and Sixth Epochs.

By the Seventh Epoch, both craftsmen and Spirit-Smithing Masters would be using this technique.

The puppets created by Mechanical Puppetry had a fundamental difference from Mechanical Beasts.

Mechanical Beasts were alive, and the Mechanical Heart allowed them to have feelings and life.

But Mechanical Puppets, possessing an energy core, were inanimate objects.

Those who created the Mechanical Puppets would add commands to the energy core of the puppets.

Unless the creator of the Mechanical Puppet changed the commands, it would continue to operate according to the previously set commands.

For Mechanical Puppets, what really makes them powerful is not their attack power, but their defensive capabilities.

The further they went down, the more shattered mechanical puppet fragments scattered on the ground, and the more blood stains became visible.

Looking at the bloody stairs in front of him, Fang Mu was certain that the Beast Controlling Force must have suffered heavy casualties!

Only the corpses have been taken away by the surviving beasts.

At this moment, Fang Mu couldn't help but feel like he was reaping the benefits of others' hard work.

As the saying goes, 'when the snipe and the clam grapple, the fisherman catches both'.

No matter if the Beast Controlling Force was the snipe or the clam, Fang Mu was that fisherman.

Finally, Fang Mu and the others made it to the end of the suspended staircase, coming upon an underground plaza of enormous size.

In the middle of the square was an altar, which was surrounded only by a handful of leaders of the Beast Controlling Force.
