

Beast Tamer 751

Chapter 751:

All the leaders of these Beast Controlling Forces were wounded, the Xuan Feather Surprised Crane being the most severely injured.

The left half of Xuan Feather Surprised Crane's wing had been severed, with a wound spiraling from its back to its belly.

One could see the bone exposed as the flesh and skin split open!

The wound was clearly corroded by Dark Element Energy, and even as a Sequential Guardian Beast with powerful healing abilities, it would take some time before the wound could heal.

Blood was still flowing out.

Although the Xuan Feather Surprised Crane was the most severely injured, the injuries suffered by the other Guardian Beasts were not much lighter!

The naturally small Mi Fa Qing Fox, belonging to the tail fox family, was a five-tailed fox Guardian Beast.

Five tails were the unique mark of the five-tailed fox Guardian Beast.

The leading Mi Fa Qing Fox now had one tail broken off at the root, and another half-cut.

The other several Mi Fa Qing Foxes also had varying degrees of tail damage, and one had even lost an ear in the battle.

Just now, Shui Miao had obtained the blood of the Bi Luo Elephant in the corridor, and now the Bi Luo Elephant was prostrating weakly on the ground.

If it weren't for the fact that you could see the body of the Bi Luo Elephant slightly heaving, you would think it was already dead.

A few Guardian Beasts with healing abilities were continuously giving priority to treating the Xuan Feather Surprised Crane and other leaders of the Guardian Beast Tribes.

However, these healing-capable Guardian Beasts had long exhausted the energy within their bodies and had entered a state of overdraw.

Applying healing abilities at this moment was equal to overdrawing their own essence.

Both the Xuan Feather Surprised Crane and all the other Guardian Beasts had already noticed Fang Mu and his companions.

A series of complex emotions of surprise, accident, and nervousness crossed the face of the Xuan Feather Surprised Crane.

The Xuan Feather Surprised Crane had not expected that the human forces would find this place so quickly.

In order to conceal their actions, the Yin Yang Leopard had intentionally acted before the distant Beast Controlling Force could gather.

A very intricate disguise was also set at the entrance of the secret passage.

If it had been another human force that came here, the Xuan Feather Surprised Crane wouldn't have been so worried.

Despite the severe injuries sustained by themselves and the leaders of other Beast Controlling Forces, dealing with forces without the protection of an Order Strong wouldn't be a big problem.

Although there were only three people in front of them, among these three, two were Order Strong.

Hexin forced himself to calm down, intending to say something.

But for a while, Hexin couldn't utter a word.

The Infinite Tower came here to obtain the inheritance in the ruins.

No matter what he said, it wouldn't change the decision of the Infinite Tower.

The Yin Yang Leopard had entered the altar with Luzhuo. If the Yin Yang Leopard was still here, they could at least fight the Infinite Tower because of their numerical advantage.

Now, with all these injured Guardian Beast warriors, they couldn't hold off the Infinite Tower!

Fang Mu was slowly walking towards the altar, each step bringing great pressure to the strong Guardian Beasts.

"I guess you don't need me to say much, just move aside!"

"Or you know the consequences."

Hexin flapped his wings twice, hesitated for a moment, and then sighed heavily.

"If I lead the other members of the Guardian Beast Tribes to retreat to a safe distance, can you let us go?"

"We haven't intended to be your enemy all along, and until now there hasn't been any misunderstanding."

"If you are willing to let us go, I can introduce you to this altar!"

"To be honest, this altar is very peculiar, and there have been strong Guardian Beasts losing their lives because of it!"

Upon hearing this, Fang Mu looked at Hexin with some admiration.

In Fang Mu's view, Hexin was very intelligent and had a clear understanding of the current situation.

As a leader, he knew how to maximize the benefits of the Guardian Beast Tribes.

To be honest, Fang Mu was also reluctant to lay hands on the leading Guardian Beasts.

Once there was a conflict between the two sides, Fang Mu would no longer be able to trade with the Beast Controlling Force or cooperate again.

Even the Luminous Snake Clan, which had already traded with Fang Mu, would likely cut off their cooperation for the influence of their own clan among the Guardian Beast Tribes.

"Of course, we from the Infinite Tower do not wish to be enemies with your Guardian Beast Forces!"

"Rather than becoming enemies, I would prefer us to become cooperative partners."

"I see that many of the Guardian Beasts here are in a dying state, and I can help these dying Guardian Beasts to recover."

"This can be considered a gesture of goodwill from the Infinite Tower!"

Upon seeing the Beast Controlling Forces offering an olive branch, Fang Mu didn't hesitate to reach out for it.

At this moment, reaching out an olive branch was undoubtedly the best choice.

The Beast Controlling Forces really needed his help. Any losses of the strong from any Guardian Beast tribes would be hard to accept for that tribe.

Upon hearing this, Hexin's hanging heart suddenly relaxed.

Despite making a compromise, this was actually the best choice for the Beast Controlling Forces at this point.

Even if the Yin Yang Leopard was here, nothing could be picked on.

Hexin had been constantly worried about the safety of several Guardian Beast warriors.

The Bi Luo Elephant was the most severely injured. The stronger the bloodline of the Guardian Beast Tribe members, the fewer they were.

There were only seventy or eighty members left in the Bi Luo Elephant's clan.

This dying Bi Luo Elephant was the one in the clan with the highest possibility of stepping into the Order.

Chapter 752 Fang Mu's 'Rashness'!_2

The willingness of the Infinite Tower to help heal these critically injured beast-controlling elites is simply too good!

Hexin placed his remaining wing on his chest, bowing deeply to Fang Mu in the way of humans.

This action pulled at the wound on Hexin's back, causing Hexin's beak to twist in pain.

"Thank you for your help and sacrifice!"

"When I return, I shall report this incident to the Emperor Beast Court."

"At that time, the Emperor Beast Court will certainly reward you handsomely!"

Upon hearing this, Fang Mu was preparing to bring out the Life Elixir, but Shui Miao quickly grabbed Fang Mu's arm.

"Ah Mu, I have a beast that excels in healing injuries. You can simply leave the injuries of these beast-controlling elites to me!"

Shui Miao had seen Fang Mu's readiness to bring out the Life Elixir at the drop of a hat.

Beast-controlling elites have a strong ability to self-heal. Feeding the Life Elixir to these severely injured controlling beast elites, these beast-controlling elites would absorb the pure life energy and restore their origin.

But doing so is frankly a bit of a waste!

Even if there are at least two Grandmaster Creators in the Infinite Tower, Shui Miao still hopes that Fang Mu can spend the Life Elixir wisely.

After all, when trading with Beast Controlling Force, a few bottles of Life Elixir can trade for a lot of spiritual materials.

After saying that, Shui Miao summoned the Early Lotus Tri-life Carp that he had once summoned in Lu City.

The Early Lotus Tri-life Carp is not big, its body is white with ink-blue lotus patterns.

It looked like blue and white porcelain cooked in a misty day.

The Early Lotus Tri-life Carp's tail flicked, and a water curtain like layered petals enveloped these severely injured beasts.

Hexin was also included.

The soft and healing water element moisturized the wounds of these beasts, promoting wound recovery.

However, the injuries of these beast- controlling elites were too severe, even with the treatment of the Early Lotus Tri-life Carp, it was difficult to help these beast-controlling elites recover in a short time.

After all, the rank of the Early Lotus Tri-life Carp is only at the top of Sequence Two, still a little short from Sequence One.

All the beasts healed by the Early Lotus Tri-life Carp are, without exception, almost the same level as it.

But the treatment of the Early Lotus Tri-life Carp still made Hexin overjoyed and he kept thanking Fang Mu.

At least after the treatment of the Early Lotus Tri-life Carp, the Bi Luo Elephant and other critically injured beast-controlling elites had completely left the danger of death.

Fang Mu coughed lightly and said seriously.

"Now you should tell me about the special features of this altar!"

"Could it be that the inside of this altar is very dangerous, that's why there are elite members of the beast taming tribes who lost their lives in the altar?"

Upon hearing this, Hexin gently shook his head.

"I didn't get into the inside of the altar, so I don't know the situation."

"If you have always been exploring the ancient battlefields, you should know that the altars in the relics of the ancient battlefields have a fixed number of teleportation slots."

"And the slots of the altar can only be experimented with during the teleportation process."

"This altar can only teleport two powerhouses at a time. During the experiment, a Sequence Two Black Feather Golden Eagle lost its life!"

Hexin's expression was of great sorrow as he spoke.

The deceased Black Feather Golden Eagle was a subordinate species under the Black Feather Surprised Crane Clan, there was a certain blood connection between the two large families.

The death of the Black Feather Golden Eagle, to a certain extent, meant a weakening of the power of the Black Feather Surprised Crane Clan.

Upon hearing this, Fang Mu, Shui Miao, and Shu Liangjun's faces all darkened.

If you really have to say, Shui Miao and Shu Liangjun are not enthusiastic about finding relics in the ancient battlefield.

Instead of carefully looking for relics and exploring the ancient battlefield.

Shui Miao would rather trade more information with the Twelve Pavilion and those forces that come knocking.

There are many forces that want to buy information from the Twelve Pavilion, but only a small part of them can really be received by the Twelve Pavilion.

Shu Liangjun's Golden Toad Manor is half a business organization, helping Shu Liangjun to collect various rare treasures and methods to prolong life.

They didn't have enough manpower to devote to the exploration of the ancient battlefield.

So the two of them don't have much understanding of the specifics of the relics.

If they had found this secret path and saw this altar, they would most likely choose to teleport all three at the same time.

Fang Mu stood in the middle, with Shu Liangjun and Shui Miao behind and ahead, respectively.

No matter who comes third, they will be exiled into the boundless void.

Either they drift in the void until their life ends, or they are devoured by Void Beasts lurking there.

Even if the Guardian Beast and Ghost Device bound by Shu Liangjun are entities of spatial attributes, even if their power steps into the realm of Order, it's still impossible for them to escape from the void.

At this moment, the three of them heard Hexin continue to speak.

"The Master, the Yin Yang Leopard, and Luzhuo have already entered the altar's inner sanctum."

"I will send a message to the Yin Yang Leopard to bring Luzhuo out and clear the spot for you!"

Having said that, Hexin took out a Void Message Crystal.

The Void Message Crystal is produced in the Subterranean Dimensional Rift and is one of the few treasures capable of communicating across different dimensions.

The price is very high; each piece is even more expensive than the Shadow Eye Stone!

Before Hexin could send a message, there was a change in his expression according to the information transmitted by the Void Message Crystal.

After a while, he said with a dry voice,

"Luzhuo is already dead, and the Yin Yang Leopard is asking for our help."

"I never thought this secret of inheritance would be so dangerous, even the Yin Yang Leopard, a formidable in the Order, is in peril!"

"Could you give me a chance to go in and help the Yin Yang Leopard?"

"Then I will explain the situation and bring out the Yin Yang Leopard. After that, you can send someone in!"

The words of Hexin surprised Fang Mu, Shui Miao, and Shu Liangjun.

The three of them never thought that the final step to obtain the secret of inheritance could still carries risk!

The Yin Yang Leopard was a formidable figure in the Order, and upon teleporting into the sacred land through the altar, he ended up in danger, so this could also happen to Shui Miao and Shu Liangjun.

Therefore, at this time, Fang Mu couldn't let Shui Miao and Shu Liangjun enter the altar.

Because the altar has a restriction on the number of people, extra beings entering the altar will be exiled to the void.

Most likely, after Fang Mu enters the altar, he won't be able to summon the Abdominal Territory Worm to release Qin Shao.

Fang Mu now had two choices—he could either give up the inheritance in the remains and leave, or he could enter the remains alone.

There was a moment of hesitation, but Fang Mu finally made up his mind to enter the altar.

On one hand, Fang Mu had the ability to protect himself. The exclusive feature of the Blood Fertility, [Ash-Dyed End], had not been triggered yet.

On the other hand, he was led here by the Crescent Moon Pendant, which he had obtained in the ancient battlefield after passing three tests.

The Crescent Moon Pendant could very well be the key to receiving the inheritance!

With that in mind, Fang Mu said to Hexin,

"How will you ensure your safety once you enter?"

"It's better I take the last spot!"

Shui Miao and Shu Liangjun were slightly taken aback when they heard Fang Mu's words.

The two of them instinctively glanced at each other and found the answer in each other's eyes.

Shui Miao and Shu Liangjun had made up their minds.

No matter who Fang Mu chose to go into the inheritance land, they would go.

Shu Liangjun owed Fang Mu his life, if it wasn't for Fang Mu, he would have probably died during the extraction of the source of contamination.

Even if the inheritance land was extremely dangerous, he could return his life to Fang Mu at worst.

Shui Miao originally owed Fang Mu a tremendous favor. Without hesitation, Fang Mu gave him the Cold Drawing Master Fish when he knew Shui Miao needed it.

If he helped Fang Mu enter the inheritance land, this favor would be deemed returned.

But if Fang Mu really did so, Shui Miao's opinion of him would change.

As for Shui Miao, he considered Fang Mu as his best friend and favored younger generation.

Shui Miao wouldn't let him take risks or put him in danger.

At this moment, Shui Miao and Shu Liangjun saw Fang Mu turning his head and looking towards them.

"Ah Shui, Elder Shu, could you please wait outside the altar for me to come out!"

Chapter 753 The True Heritage!_1

Upon hearing Fang Mu's words, surprise and terror were painted across the faces of Shui Miao and Shu Liangjun.

Neither Shu Liangjun nor Shui Miao expected Fang Mu to make such a decision.

In their eyes, Fang Mu was never one to act recklessly or too ambitiously.

Even the Yin Yang Leopard faced danger when it entered the land of inheritance, so why did Fang Mu believe he could acquire the inheritance without trouble?

Shu Liangjun and Shui Miao did not know what cards Fang Mu had up his sleeve, but they did know that he was resolute about his decision.

Could Fang Mu's decision to make such a choice have anything to do with Master Qixing's demands?

This reason was the only one that could reasonably explain everything.

Considering how well Qixing treated Fang Mu, allowing him unlimited access to the resources of the Grandmaster Creator, he certainly wouldn't let Fang Mu lose his life so easily.

However, with every risk comes a level of uncertainty, even the strongest being stepping into an Order can't guarantee a safe passage.

With these thoughts, Shui Miao gritted his teeth and spoke to Fang Mu through a Soul Sound Transmission.

"Ah Mu, if for some objective reasons you are compelled to enter the inheritance land, we can try a different approach."

"At worst, we will exterminate all the Beast Controlling Forces present, so the news from the ruins will not leak out!"

Although Shui Miao communicated to Fang Mu through the Soul Sound Transmission, when Fang Mu looked at him, Shui Miao firmly nodded.

Sensing the situation, Fang Mu had always been establishing his identity in front of the two.

This establishment was subtly done and needed a long period of preparation.

By this time, Shui Miao and Shu Liangjun definitely believed in his identity.

At such a time, people's thinking undergoes a form of deification, engaging in imaginative speculation.

Shui Miao and Shu Liangjun were in this phase now.

Fang Mu shook his head at Shui Miao and Shu Liangjun, then strode decisively into the altar.

It was unclear whether it was because the spatial teleportation distance was short, or it was because of the olive that Shu Liangjun gave Fang Mu.

In any case, the spatial teleportation did not cause Fang Mu any discomfort.

Fang Mu looked around, and found the inheritance land to be a confined space not exceeding eighty square meters.

The body of the Yin Yang Leopard was being suppressed by a purple-black Small Tower.

The black-purple Small Tower was releasing pure Dark Element Energy.

Logically, as a Guardian Beast with dual light and dark attributes, the Yin Yang Leopard should be more resistant to dark elemental energy compared to other Guardian Beasts.

The Small Tower was continuously draining the Life Energy from within the Yin Yang Leopard.

Although the Yin Yang Leopard had no wounds, its fur had become dry and had lost its luster.

Even its body had become somewhat hunched compared to before.

Fang Mu thought to himself, this must be due to a large amount of Life Energy being removed, causing a decrease in lifespan.

While Fang Mu was observing the purple-black Small Tower and Yin Yang Leopard, the Yin Yang Leopard also noticed Fang Mu.

The Yin Yang Leopard had a complicated look in its eyes. Seeing Fang Mu, it knew that the human from the Infinite Tower power had found the entrance to the land of inheritance.

It had no idea about the current state of those Guardian Beasts standing guard outside the altar!

The Yin Yang Leopard sought help from Hexin, this was merely an attempt to increase its chances of survival.

Though Hexin is somewhat stronger than Luzhuo, their strengths are equal in terms of realm.

What Luzhuo couldn't do even if it risked its life, Hexin probably wouldn't be able to do either.

However, this young man in front of him might be able to do it.

The Yin Yang Leopard was always intrigued by Fang Mu, discovering that he was under the age of twenty.

A man of such age being guarded by two powerful humans of the Order must hold an esteemed status in the human world, having a Grandmaster backing him up.

This young man would have entered the inheritance land alone and must have a means to protect himself.

Otherwise, a precious talent would never take any risks lightly!

The Yin Yang Leopard had underestimated the land of inheritance and did not expect that after setting foot on the land of inheritance, there would be such a dangerous test.

If it had known about this, the Yin Yang Leopard would not have come in person.

Ordinarily, the Yin Yang Leopard would protect those Guardian Beasts.

But at this critical moment concerning its own life and death, those Guardian Beasts were nothing more than tools to the Yin Yang Leopard.

Being suppressed by this purple-black Small Tower, the Yin Yang Leopard felt itself growing weaker and weaker.

A large amount of Life Energy was drawn away, leaving very little lifespan remaining.

However, as long as there was the slightest chance of survival, the Yin Yang Leopard still hoped that it could live.

As the Yin Yang Leopard was pondering how to make the Infinite Envoy of the Infinite Tower save itself, Fang Mu was also closely observing the Yin Yang Leopard.

The Luili Red Flame Deer had died not far from the Yin Yang Leopard. It was clear that it had died because the Small Tower had completely drained its Life Energy.

Either the Yin Yang Leopard had sent the Luili Red Flame Deer to test the inheritance first as a precaution, or the Yin Yang Leopard had taken the initiative to investigate the inheritance and, as a result, been suppressed by the black-purple Small Tower, using the Luili Red Flame Deer as a human shield.

Regardless, the Yin Yang Leopard still couldn't escape.

No matter which possibility, it indicates the beast's true nature is cold.

Trading with beings that have a cold nature can never be guaranteed.

Promises don't hold any binding power for these creatures.

Chapter 754 Real Inheritance! _2

Fang Mu stood at a distance without rushing forward at first, allowing the purple-black mini tower to drain the Yin Yang Leopard's life energy.

Whether the Yin Yang Leopard lived or died did not matter to Fang Mu.

If the Yin Yang Leopard could offer him significant benefits and allow the offspring of the Servant Soul Ant Queen to successfully settle in the leopard's soul.

Only then might Fang Mu consider saving it.

If not, with the death of the Yin Yang Leopard, Fang Mu could use the carcasses of the leopard and the Luili Red Flame Deer, enabling the control of the leopard's carcass through electronic butterflies.

However, given its current tier, it would take quite a long time for Fang Mu to acquire a war power that could compete within the Order.

While Fang Mu stood motionless, the Yin Yang Leopard became anxious.

If the purple-black mini tower continued to drain, its lifespan would be exhausted!

Like humans, adding to the lifespan of the Guardian Beast is extremely difficult.

Because most Guardian Beasts rely on their physical strength for combat, their bloodline is very potent.

Thus, many materials that are beneficial for increasing human lifespan have a significantly reduced effect on Guardian Beasts.

"Hello, my name is Zhuo An, a councillor of the Eternal Darkness Seat of the Emperor Beast Court."

"I hope you can help me sneak the controls of this purple-black mini tower!"

"I will definitely thank you handsomely if you can help me!"

Hearing this, Fang Mu did not rush forward but looked curiously at the withering Yin Yang Leopard and asked.

"What does your status as a councillor in the Eternal Darkness Seat of the Emperor Beast Court have to do with helping you?"

"At this time, does a councillor of the Emperor Beast Court's Eternal Darkness Seat only make requests without sincerity?"

"If we of the Infinite Tower had entered here first and I was under the control of this purple-black mini tower."

"If I seek your help without any sincerity, would you help me?"

Fang Mu's words struck a chord in the Yin Yang Leopard's heart; the young man before him did not declare that he couldn't help.

He only stated that the Leopard's promise lacked sincerity.

This indicated that the young man before him might indeed have the capability to assist it!

With this thought in mind, the Yin Yang Leopard gritted its teeth and swallowed its pride.

"Infinite Envoy, Zhuo An requests your assistance!"

"As long as you are willing to help me escape from this mini tower's control, I am willing to do anything!"

Feeling the few years he had left, Zhuo An lay completely prone on the ground.

Zhuo An acted this way primarily because he knew that it was his only chance for survival.

Secondarily, it was because, no members of the Beast Controlling Force were present at this time.

If there were members of the Beast Controlling Force present after this event, even powerful Guardian Beasts like Lu Zhuo and He Xin, Zhuo An would dispose of them for the sake of his reputation.

Seeing this, Fang Mu realized that Zhuo An was psychologically prepared.

For his survival, Zhuo An could only agree to Fang Mu's demands.

On his own, Fang Mu wouldn't be so presumptuous.

But after entering the inheritance site, Fang Mu felt the purple-black mini tower's sense of belonging to the Crescent Moon Pendant.

As if the purple-black mini tower and Crescent Moon Pendant should be one entity!

Fang Mu attempted to issue commands to the purple-black mini tower through the Crescent Moon Pendant, and found that the mini tower did respond.

Fang Mu could collect the purple-black mini tower into the Crescent Moon Pendant at any time.

That's why Fang Mu took this opportunity and wanted to subdue the Yin Yang Leopard.

"It's not enough to just say that you're willing to do anything!"

"I don't believe your verbal promises."

"As long as you can allow this Soul Parasite Ant to settle in your soul and allow me to control your soul through it, I will help you!"

Having said that, Fang Mu took out a Soul Parasite Ant that had just come out of the Servant Soul Ant Queen in less than a day and snapped his fingers.

The Blood Race Prince controlled by the electronic butterfly immediately lifted the Soul Parasite Ant in Fang Mu's hand and walked towards Zhuo An.

Zhuo An didn't expect that the young man in front of him would be so cautious.

Zhuo An didn't take promises seriously.

However, when facing Fang Mu, Zhuo An never thought of harming Fang Mu after escaping.

For one thing, Zhuo An wasn't sure if he had the strength to take down Fang Mu, he wasn't aware of Fang Mu's trump cards.

And even if he did manage to kill Fang Mu, there were two powerful individuals from the Infinite Tower waiting outside this legacy site.

Zhuo An didn't believe he could survive in the hands of two angry powers of Order, given his current state.

However, Fang Mu's request seemed to be a good choice.

After being controlled by this creature called Soul Parasite Ant, Fang Mu could determine his life and death at will.

It would release Fang Mu from constantly guarding against him.

Otherwise, his actions might easily cause misunderstandings.

However, one critical issue remained unsolved.

That was, with him being enveloped by this Purple-Black Mini Tower, as soon as he touches that Soul Parasite Ant, the tower would drain the Life Energy of the Soul Parasite Ant.

So, to control him through the Soul Parasite Ant, it was necessary to remove the control of the Purple-Black Mini Tower first!

Before Zhuo An could bring up the problem, a moonbeam shot out from Fang Mu's chest.

The light wrapped around the Purple-Black Mini Tower, preventing it from controlling Zhuo An or absorbing his life energy.

Zhuo An was frightened by this.

What happened?! How could this young man break the Offensive Aura within this legacy land so easily?!

It seemed as if this legacy place was specifically left for Fang Mu.

The situation was beyond Zhuo An's comprehension.

However, Zhuo An knew that since the youth could control the Purple-Black Mini Tower, he had control of it.

The Yin Yang Leopard quickly accepted the Soul Parasite Ant passed over by Blood Clan Prince Carlos, letting it enter its soul obediently.

He even consumed his own Soul Energy to feed the Soul Parasite Ant for nest-building.

Though Yin Yang Leopard's life was no longer in danger, it was still worried about its lifespan.

Almost all of its lifespan had been drained by the Purple-Black Mini Tower.

After a careful calculation, the Yin Yang Leopard found it only had about seven to ten years left to live.

For the Yin Yang Leopard, whose lifespan could be measured in millennia, it was just a blink of an eye.

Not only the strong but also ordinary people who have suffered from hardships since childhood wish for a longer lifespan.

Fang Mu felt Yin Yang Leopard's gloom, guessing why it was so depressed.

To make the horse run, one must fully control it.

It wasn't enough to just be the horse's master, one must also have the motivation to make the horse run!

Fang Mu directly said to the Yin Yang Leopard.

"This Purple-Black Mini Tower absorbed your lifespan, and I cannot make it return that life span to you."

"But I have a method to increase your lifespan. When your lifespan is less than a year, I can add ten more years."

"If you perform well in the future, adding hundreds or thousands of years to your lifespan won't be impossible!"

As he spoke, Fang Mu walked up to the corpse of the Luili Red Flame Deer.

He unabashedly gathered the corpse of the Luili Red Flame Deer into the Purple Ice Crystal Ring.

No matter how long it took, with the corpse, Fang Mu would have a Beast Controlling Force of a first rank Beast Master!

Zhuo An, who was initially sighing about his lifespan, was overjoyed at Fang Mu's words.

If this young man in front of him could add a thousand years to his lifespan, then the loss of his lifespan was negligible.

Just as Zhuo An didn't promise to abide by his words, he didn't believe Fang Mu would fully keep his promises either.

But at the moment, Zhuo An didn't question Fang Mu's qualifications.

Zhuo An took a deep breath, pointing to the place where the Purple-Black Mini Tower was originally located.

"Master, what's stored in this brocade box is the real treasure of this ruin!"

Chapter 755:

Fang Mu cast his gaze towards the pedestal where the purple-black mini tower was originally placed, discovering a brocade box just large enough to hold a grapefruit placed on top of it.

The brocade box was made of a black satin, with four black diamonds embedded in it that still sparkled in the dark.

Merely from the box's craftsmanship, it was obvious there was nothing ordinary about it!

If Fang Mu was not mistaken, the four black diamonds on the box should be the Ink-sealed Diamonds produced in the Catastrophe Class subterranean Dimensional Rift.

Each Ink-sealed Diamond alone possesses a strong ability to isolate aura.

The presence of four Ink-sealed Diamonds made Fang Mu certain that the object in the box had a formidable aura; otherwise, there would be no need to suppress it with four Ink-sealed Diamonds.

The Yin Yang Leopard was now completely parasitized by the Soul Parasite Ant in its soul.

Because the Yin Yang Leopard intentionally supplied its Soul Energy to the Soul Parasite Ant, the ant had already built its nest in the leopard's soul.

Therefore, Fang Mu no longer needed this purple-black mini tower to control and suppress Zhuo An.

Fang Mu attempted to control the purple-black mini tower, allowing it to fall into his hands.

He began examining the purple-black mini tower.

Fang Mu used the Eye of Omniscience to probe the purple-black mini tower, but alas, the rank of the mini tower was apparently higher than his Destiny Guardian Beast, Fool's Shadow.

Therefore, no data was revealed.

Fang Mu was not surprised by this, after all, Fool's Shadow can only probe the data of living things and items within its five ranks.

Regardless, as this purple-black mini tower can suppress an Order Strong, it can be used as Fang Mu's new trump card.

Fang Mu felt the attraction of the Crescent Moon Pendant in his chest towards the purple-black mini tower.

Fang Mu did not suppress this attraction, as the Crescent Moon Pendant already had a contract with him, it belonged to him.

Fang Mu allowed the Crescent Moon Pendant to draw in the purple-black mini tower.

The purple-black mini tower transformed into a beam of light and entered the Crescent Moon Pendant.

Seeing this, Fang Mu thought to himself. Looks like this purple-black mini tower and the Crescent Moon Pendant truly are of the same origin!

Fang Mu tried to summon the purple-black mini tower back.

As soon as Fang Mu had the thought, the purple-black mini tower appeared in front of him.

Fang Mu discovered that he could not only freely control the purple-black mini tower, but also could make it expand and contract its size.

Zhuo An was completely stunned at this moment.

Zhuo An couldn't help but think, could it be that the heritage within this ruin was left behind by this young man's ancestors!?

Otherwise, why would the current situation happen!?

When Fang Mu was controlling the purple-black mini tower, he did not avoid Zhuo An.

Firstly because Fang Mu felt that there was no need to hide from a servant whose life was controlled by him.

Secondly, it was to intimidate Zhuo An.

Fang Mu looked at Zhuo An, dumbstruck, and asked carelessly,

"What do you know about this heritage related to the sage?"

On hearing this, Zhuo An froze, not expecting Fang Mu to ask such a question!

Had it been any other question - even one concerning the secrets of the Emperor Beast Court - Zhuo An could answer freely.

However, this matter involved the Prophet of the Wise Cat Clan which made Zhuo An hesitate for a time.

Meanwhile, he was wondering how Fang Mu, as a human, came to know such secret information of the Beast Controlling Force?

Just then, Zhuo An heard Fang Mu snort coldly.

Fang Mu's snort sent a chill down Zhuo An's spine.

Remembering that his life was in Fang Mu's hands, Zhuo An informed Fang Mu of all the information he had.

"Master, I don't know if you have heard about the Prophet of the Wise Cat Clan?"

"This information was leaked from the Wise Cat Clan, which is why the Emperor Beast Court sent so many Beast Controlling Forces to the Panfeng Federation to explore this large ancient battlefield."

"But in truth, I only know this much information."

"If I had known more, I wouldn't have been threatened with death as soon as I arrived at the heritage site!"

Fang Mu's attention drifted from Zhuo An and returned to the black brocade box.

Fang Mu knew that Zhuo An would not dare lie to him.

If Zhuo An were to lie, his soul would certainly fluctuate, which the Soul Parasite Ant would detect!

The fact that the Soul Parasite Ant did not devour Zhuo An's soul confirmed that everything Zhuo An said was true!

Approaching the black brocade box, Fang Mu discovered that it was actually bound by a restriction.

In plain terms, this restriction was somewhat similar to the Black Moon Curse Fang Mu faced when solving the chess game.

In other words, most likely only those who had triggered the restrictions of the brocade box could open it and access its contents.

Had it not been for this discovery, Fang Mu would have definitely let Zhuo An open the box.

This was to prevent any potentially unsafe elements inside the box from threatening his safety.

However, because the restriction existed, Fang Mu could not allow Zhuo An to open the box.

Otherwise, the heritage would have become Zhuo An's!

Fang Mu's hands touched the brocade box. Upon touching the restriction, Fang Mu immediately made a connection with the box.

Fang Mu took a deep breath and rotated the four embedded Ink-sealed Diamonds on the box.

After hearing the four crisp sounds, Fang Mu opened the box with force.

At that moment, a caterpillar about the thickness of a thumb, covered in heavy scale armor, shot out from the box, rushing to bite Fang Mu.

Fang Mu instantly felt an unprecedented sense of crisis.

Chapter 756 The Triggered Ashes Dyed Dying!_2

This sense of crisis sent a chill down his spine.

Suddenly, a blood well illusion appeared in front of Fang Mu.

The Blood Well illusion's violent writhing was like a cavernous, wrinkled well wall. Thousands of blood-red ghost hands shot out from within the well to grasp at the caterpillar darting out of the brocade box.

Fang Mu knows that he had triggered the exclusive feature of the Blood of Abundance [Ash-Dyed End].

Under the cover of blood-red fog, Fang Mu's black hair instantly turned red.

Soon after, his red hair continued to grow longer, hanging down to his shoulders.

At this moment, Fang Mu's eyeballs turned completely blood-red, and inside the pupils, black goat skulls were spinning rapidly.

There was no restraining force on these rotating black goat skulls, and they spun faster and faster.

These created two whirlpools of blood-red fog in front of Fang Mu's eyes.

Fang Mu was dealing with the danger and did not realize how terrifying the aura he was emitting was.

The Yin-Yang Lian Leopard couldn't help but shrink its neck, its front claws restlessly scratching the ground.

Zhuo An was almost certain that this young human in front of him was probably not a human at heart.

No human could undergo such changes!

Moreover, Zhuo An felt an overwhelmingly oppressive bloodline power coming from Fang Mu.

This bloodline power was chaotic and unordered, yet seemed inclusive and nurturing of everything.

Zhuo An had never felt such a special bloodline power from any creature before.

The exclusive feature [Ash-Dyed End] quickly completed its judgment.

The caterpillar, less than eight centimeters long and as thick as a finger, covered in scales had now turned into a corpse, falling on the stone platform in front of Fang Mu.

The moment the judgment was completed, the blood well illusion in front of Fang Mu vanished completely, and his hair turned back to black.

As if everything that had just happened never occurred!

Before Fang Mu could pick up the corpse of the caterpillar to investigate, he saw Zhuo An anxiously rushing towards him.

After Zhuo An allowed the Soul Parasite Ant to enter his spirit, he understood the situation of the Soul Parasite Ant.

The Soul Parasite Ant was simply the offspring of an insect beast.

If Fang Mu had used the offspring of this insect beast to control him, it meant that Fang Mu had certainly contracted with the Insect Beast's mother.

If Fang Mu had died due to the previous accident, the Soul Parasite Ant, without the control of its mother, would become restless.

After consuming its own spirit, it would self-destruct!

So although Zhuo An was forced to become Fang Mu's servant, their care for Fang Mu was genuine.

Fang Mu ignored the concern of the Yin-Yang Lian Leopard, as he had always treated friends and servants differently.

Additionally, Fang Mu knew why the Yin-Yang Lian Leopard was so concerned about his safety.

In Fang Mu's eyes, there was no essential difference between the Yin-Yang Lian Leopard and the members of the Zhenyan Family and Luanyue Family.

If the Yin-Yang Lian Leopard obediently followed Fang Mu's orders, Fang Mu would naturally give the Yin-Yang Lian enough benefits.

It would be a reward for being an obedient kitten!

If the Yin-Yang Lian Leopard couldn't help him gather information and trade supplies among the Beast Taming Tribes.

Then Fang Mu had no reason to continue indulging the Yin-Yang Lian Leopard.

After all, Fang Mu wasn't expecting the Yin-Yang Lian Leopard to boost his power in a short time.

Fang Mu didn't expect that there were still deadly threats inside the brocade box!

For a while, Fang Mu truly didn't know what kind of mentality the person who left the legacy had.

Only two people were allowed in. That purple-black tower and this caterpillar were both deadly threats, was the person trying to wipe out all the people who entered the legacy?

If the legacy was related to the Sage, Fang Mu had reason to suspect that the Sage was a master at slaughtering pigs!

Inside the brocade box, there was a black feather-shaped brooch.

Fang Mu regarded this black feather-shaped brooch as a Sequential Spiritual Instrument.

Before preparing to make a marrow pact with the feather-shaped sequential spiritual instrument, Fang Mu subconsciously communicated with the spiritual instrument through his spiritual power, trying to see its specific effect.

However, the moment his spiritual power came into contact with the spiritual instrument, Fang Mu found that his spiritual power had immediately seeped into the black feather-shaped brooch.

Inside this was a significantly large storage space.

Moreover, the area of this storage space is even larger than that of the Purple Ice Crystal Ring!

With Fang Mu's current One-point Stars Beast Master strength, he wouldn't even be able to stimulate a gold-ranked spiritual instrument, yet he was able to easily stir the black feather-like spiritual instrument inside the brocade box.

This proves that there are no rank limitations to using this black feather-like spiritual instrument!

What's more, this black feather-like spatial instrument contains a large number of spiritual materials.

Although there are no living creatures, most of these spiritual materials are derived from the Five-Six Epoch, with great research value!

Just taking out one of them in the outside world could cause high-level Creators to scramble for it.

Even Master Creators, when encountered, would be willing to buy it at a high price!

If you bring this kind of thing to ask for help from the Grandmaster Creator, as long as the request is not too excessive, the Grandmaster Creator will most likely not refuse!

The wealth represented by the spiritual materials that fill almost half of this spatial instrument is extremely difficult to estimate.

Fang Mu needs to find time to organize these spiritual materials properly.

These spiritual materials have been regarded by Fang Mu as reserves for the Infinite Tower.

In addition to this black feather-shaped brooch, there was also a neatly folded letter.

Fang Mu opened the letter and saw a line of silver-hook iron painting-like characters on it.

Just from the typeface, one could tell that the person writing conveyed a strong sense of severity, giving a sense of stern scrutiny.

[Fortunate one, I'm glad you could get a little something I left behind, don't blame me for leaving so many killing moves, these are all tests for you!]

[If you can't withstand these tests, nor keep what's inside the Diamond-grade Spirit Capturing Box!]

Fang Mu's eyebrows jumped wildly as he read the content of the letter.

Among the people who came to explore this ancient battlefield, only I was able to complete the three assessments outside the relics.

To put it bluntly, only I could obtain the Crescent Moon Pendant.

If there was no Crescent Moon Pendant, presumably anyone who enters the heritage site would not escape Zhuo An's fate.

At the same time, Fang Mu keenly caught the term "Diamond-grade Spirit Capturing Box".

Presumably, the Diamond-grade Spirit Capturing Box is what the people of the Five-Six Epoch called that black feather-like brooch.

Now, Fang Mu has under him a Forging Spirit Grandmaster.

Fang Mu plans to transfer everything in this Diamond-grade Spirit Capturing Box to the Purple Ice Crystal Ring and then give the Diamond-grade Spirit Box to Jiang Weng to research.

See if Jiang Weng, this Forging Spirit Grandmaster, can figure out how to make a Diamond-grade Spirit Capturing Box!

When taking away this Diamond-grade Spirit Box in black feather shape, Fang Mu didn't forget to take away the black brocade box.

In Fang Mu's view, this black brocade box is quite suitable for storing pollutants.

The four Ink-sealed Diamonds are sufficient to block the scent of supergrade pollutants.

Since the inheritance has already been taken by me, Fang Mu's gaze once again falls on Zhuo An.

Fang Mu addressed Zhuo An in a straightforward manner.

"I give you two choices, the first is to follow me from now on, becoming a member of the Infinite Tower's Beast Master.

"The second option is for you to go back to the Emperor Beast Court to work for me, helping me accomplish a big deal with the Beast Controlling Force."

"If you choose the former, I will provide you with ten 92% pure Life Elixirs every year, five 94% pure Light Element Elixirs, and five 94% pure Dark Element Elixirs."

"If you choose the latter, I will double the resources I give you based on the original."

As an experienced veteran, the Yin-Yang Lian Leopard understood what Fang Mu meant.

Choosing the former would mean that I had died in the heritage land, serving only the Infinite Tower from now on, serving as something akin to a "hidden guard".

Compared with the former, Zhuo An would definitely prefer the latter.

Zhuo An held a high position in the Emperor Beast Court, and going back meant leading an easy and comfortable life.

And, Zhuo An did not want to lose the status of a Permanent Dark Seat Councilor.

The Yin-Yang Lian Leopard Clan had pushed me to this position, and if I died, it would be a betrayal of the Yin-Yang Lian Leopard Clan's sacrifices, equivalent to being a sinner of the clan.

It's just that I gained nothing in the relics, and choosing the latter was not appropriate.

The Yin-Yang Lian Leopard pondered for a while, and expressed his concerns to Fang Mu.

Hearing this, Fang Mu suddenly brightened up, coming up with a great idea in his mind.

Chapter 757 "Black-hearted Cuckoo" Fang Xiaomu!_1

The second exclusive feature of the blood abundance of Fang Mu's Destiny Guardian Beast, after [Ash-Dyed End], was called "Creation of Blood and Life".

The life created by "Creation of Blood and Life" was not only extremely special in the eyes of Beast Masters, but also in the eyes of the Beast Controlling Force.

Beast Masters would desperately compete for the Guardian Beasts created by "Creation of Blood and Life" because the Guardian Beasts they created only required a tenth of the spiritual power of a regular contract Guardian Beast.

The Beast Controlling Force valued the Guardian Beasts created by "Creation of Blood and Life" because they had a bloodline fused from a number of different species.

If he were to return to the Emperor Beast Court with a few Guardian Beasts created by "Creation of Blood and Life" under the Yin Yang Leopard's care...

Claiming that these Guardian Beasts created by "Creation of Blood and Life" were historically obtained treasures, hopefully the Yin Yang Leopard would settle things

After all, the Emperor Beast Court did not know exactly what was in the historical ruins.

The Wise Cat Clan Prophet was similarly uninformed.

If the Prophet knew the situation in the ruins, he would not have sent the Yin Yang Leopard to face death without making prior preparations!

Upon this realization, Fang Mu summoned the five creatures he had created with "Creation of Blood and Life" during this period.

Each of these creatures carried the high-quality bloodlines of at least ten Guardian Beasts.

Fang Mu questioned Zhuo An.

"Do you think you can give a satisfactory explanation if you take these five Guardian Beasts back?"

The Yin Yang Leopard started inspecting these five Guardian Beasts the moment Fang Mu summoned them.

The more the Yin Yang Leopard inspected, the more surprised it became.

These Guardian Beasts were very weak in strength, all at the Bronze rank.

But these Guardian Beasts had bloodlines that shouldn't be combined and these bloodlines were surprisingly well fused!

Bloodlines of different Guardian Beasts are mutually repelling, only a minority like the Dragon race can continue their Bloodline amongst other species.

However, such a process is doomed to dilute the inheritance of bloodlines.

This is exactly why so many Sub-Dragons are in existence!

The five Guardian Beasts summoned by Fang Mu subverted Zhuo An's understanding and the general knowledge about bloodline inheritance.

Merely taking these five Guardian Beasts back to the Emperor Beast Court may be quite hard to justify.

Because the inheritance from a large ancient battlefield relic couldn't be just this simple.

"Master, not to hide anything, presenting these five unique Guardian Beasts as the inherited outcome of the relics could indeed create a plausible deception."

"But the bloodline level of these five Guardian Beasts is a little weak!"

"Moreover, some of these Guardian Beasts have bloodlines that evolved in The Seventh Era."

"If we bring these back, it is likely that we can only add to the tally!"

Zhuo An was afraid that Fang Mu would be angry when he said this.

Although his words were the truth, they could, unavoidably, be interpreted as haggling by others.

Yet, he had absolutely no right to haggle!

Contrary to Zhuo An's imagination, Fang Mu did not show any displeasure upon hearing his words.

On the contrary, a new idea emerged in Fang Mu's mind.

The Guardian Beasts created by "Creation of Blood and Life" were essentially fused from Fang Mu's own blood and the blood of other lifeforms.

Fang Mu's blood was the basis for creating other lives.

Those Guardian Beasts created by "Creation of Blood and Life" could be controlled by Fang Mu as long as they were alive.

Fang Mu initially planned to give some creatures created by "Creation of Blood and Life" to Zhuo An to take back.

In passing, he wanted the Beast Controlling Force to help him nurture those creatures.

This was like the Beast Controlling Force helping Fang Mu train his loyal subordinates at their expense.

Apart from the Yin Yang Leopard, Fang Mu would have more moles in the Beast Controlling Force.

Since Zhuo An deemed the bloodline level of the five Guardian Beasts created by "Creation of Blood and Life" to be low, Fang Mu said directly.

"I assume you have some high-class Guardian Beast blood on you?"

"You can give me these high-class Guardian Beast blood samples, and I can immediately cultivate a Guardian Beast for your return!"

"You can take this drop of blood back and tell anyone who asks that it was also found in the ruins."

"You can put fresh blood from multiple Guardian Beast Tribes into this drop of blood, and the Bloodlines contained in this essence blood will automatically fuse and become a new life!"

After speaking, Fang Mu handed a drop of ordinary Blood Aged Wine to the Yin Yang Leopard.

The Yin Yang Leopard felt a compelling force for life's evolution from this drop of blood given by Fang Mu.

This compelling force for life's evolution made the Yin Yang Leopard incredibly fascinated.

Were it not for Fang Mu's presence, the Yin Yang Leopard would find it very difficult to resist its instinctual urge to swallow this drop of blood.

"Master, is this drop of blood really that fantastic?"

Fang Mu looked at Zhuo An, who was talking, as if looking at a fool, and said speechlessly.

"This is just an excuse I gave you, so that you can have a way out when you return to the Beast Controlling Force."

"If you want to try creating life from a variety of Guardian Beast bloodlines, you can come to me with this drop of blood."

"I believe that the Emperor Beast Court should not limit your personal freedom!"

Although Zhuo An knew that this drop of blood could not actually fuse multiple Guardian Beast Bloodlines and create life,

the feeling this blood gave Zhuo An still fascinated him his greatly.

Chapter 758 "Black-Hearted Cuckoo" Fang Xiaomu!_2

The thought of Fang Mu asking for the blood of a high-grade Guardian Beast, Zhuo An genuinely didn't have any on hand.

Powerful Beastmasters often only accumulate resources that are useful to them.

As a Leopard Beast, the Yin-Yang Lian Leopard, even if it needed the bloodline of high-grade Guardian Beasts to strengthen itself, this so-called high-grade Guardian Beast must also be a Leopard-based Beast!

Within the Leopard Beast population, the Yin-Yang Lian Leopard was already at the top tier.

Although there were some Leopard tribes that could compete with the Yin-Yang Lian Leopard, they were all inferior in their control of light and dark attributes compared to the Yin-Yang Lian Leopard Clan!

For these useless things, not only Zhuo An, but other Guardian Beast masters would also not carry them around.

Zhuo An carefully explained to Fang Mu, and Fang Mu did not doubt the truth of Zhuo An's words.

If Zhuo An was lying, the Soul Parasite Ant would warn him by sensing the fluctuations of Zhuo An's soul.

Zhuo An's earlier performance had already proven that he was indeed savvy.

At this moment, Fang Mu heard Zhuo An grit his teeth and say,

"Master, I'm not sure if you could grant me more opportunities like this one?"

"Once I bring this news back to the Emperor Beast Court, many powerful Beastmaster species will likely wish to use this opportunity to form marriage alliances with other species."

"Together, they would cultivate offspring that symbolize friendship between multiple tribes!"

Zhuo An was quite nervous as he said these words.

Fang Mu only gave him one opportunity, but that was enough to report back to the Emperor Beast Court!

However, selfishly, Zhuo An hoped to earn more such opportunities.

In this way, his status in the Emperor Beast Court would surely greatly improve!

Zhuo An felt that Fang Mu did not view these creatures, born of multiple Guardian Beast bloodlines, as precious.

Zhuo An didn't understand why Fang Mu wanted to use these Guardian Beasts as his response to the Emperor Beast Court.

If he knew Fang Mu's aim, Fang Mu was planning to pull a cuckoo move, making the Beast Controlling Forces raise his children.

Those trained by the Beast Controlling Forces would recognize only Fang Mu as their "Cuckoo Dad".

Zhuo An would never have asked for more similar opportunities in this case.

Although Zhuo An had become Fang Mu's minion, he still harbored more loyalty to the Beast Controlling Forces.

Adhering to Fang Mu and following his arrangements were merely for survival.

Zhuo An just assumed that due to Fang Mu's age, he couldn't determine the value of these Guardian Beasts to the Beast Controlling Forces.

Upon hearing these words, Fang Mu looked at Zhuo An with amusement.

"Since you say these five Guardian Beasts are not enough to fulfil my request, I'll take these five Guardian Beasts back."

"At the moment, I can only offer you five opportunities. If you perform well in the future, I might use these opportunities as rewards for you!"

"Remember, when you come to me next time, bring a few more drops of each Guardian Beast's Essence blood."

"If you bring too little, I can't guarantee that the fusion will be successful!"

"Extra fused bloodlines don't have to be the same type Guardian Beasts, but they must belong to the same category!"

"The Beast being created will prioritize one of the bloodlines; only one bloodline can serve as the main template, accounting for at least fifty percent of the manufactured Beast's bloodline!"

"You need to be clear about this!"

If it truly was as Zhuo An had said, and many powerful Beastmaster species wished to cultivate offspring that represented the friendship of multiple tribes, then Fang Mu had hit the jackpot!

In the future, these Beasts created by "Creation of Blood and Life" would surely hold high positions within the Beast groups, and might even rank higher than Zhuo An!

The more Zhuo An heard from Fang Mu, the happier he was in his heart. Five opportunities had already far exceeded Zhuo An's expectations.

Zhuo An could imagine the treatment he would receive upon his return to the Emperor Beast Court.

Suddenly, Fang Mu thought of the Vicious Beast that had shown great power during their previous confrontation, the Abnormal Lizard.

Fang Mu asked Zhuo An,

"How many Vicious Beasts are there in your Beast Controlling Force?"

This question touched on the secrets of the Emperor Beast Court, which left Zhuo An feeling quite troubled. Nevertheless, Zhuo An answered truthfully.

"Master, the Emperor Beast Court has reserves of around 1400 Vicious Beasts."

"The majority of these Vicious Beasts are in a sealed state."

"The current active Legion of Vicious Beasts only has seventy-six beasts, and the Abnormal Lizard is one of them!"

Fang Mu felt somewhat surprised hearing this.

If the strength of the Vicious Beasts was so strong, why didn't the Beast Controlling Forces cultivate more of them?

Seeing the confusion on Fang Mu's face, Zhuo An quickly continued to explain.

"Master, the thoughts of the Vicious Beasts are extremely chaotic and hard to control. The Abnormal Lizard is considered one of the easier ones to control among the Vicious Beasts."

"Using those sealed Vicious Beasts would pose a certain risk to the Beast Controlling Forces themselves."

"Moreover, many of the Vicious Beasts are extremely hard to cultivate, and these difficult to cultivate beasts are unlikely to be raised to Serial level."

"Actually, the captured Vicious Beasts by the Emperor Beast Court aren't just these fourteen hundred or so. The number of Vicious Beasts that the Emperor Beast Court has captured has surpassed ten thousand long ago."

"Those unmanageable and highly dangerous Vicious Beasts are taken care of as soon as they're discovered!"

"Over the years, the Ten-thousand Nations Federation has been continually suppressing the Emperor Beast Court's cultivation of Vicious Beasts, signing many treaties for this purpose."

"Otherwise, the current total of Vicious Beasts in the Emperor Beast Court would have reached at least three thousand!"

What Fang Mu wanted to hear wasn't these. He wanted to ask for a Vicious Beast from Zhuo An to see if he could make a contract with it using the Covenant Blood Essence.

If the Vicious Beast that was contracted through the Covenant Blood Essence did not follow Fang Mu's order, Fang Mu would also handle it!

"When you come back with those five drops of blood, remember to bring a Vicious Beast for me."

Hearing this, Zhuo An quickly agreed without any burden. It wasn't difficult for Zhuo An with his status in the Emperor Beast Court to get a Vicious Beast.

One of Zhuo An's duties as a Councillor of the Eternal Darkness seat is to collect Vicious Beasts from around the world.

But Zhuo An had no idea what Fang Mu's requirements for the Vicious Beast were.

Fang Mu finally gave him a task. Zhuo An hoped to do it well.

In the future, he might be able to get more rewards from Fang Mu.

"Master, which kind of Vicious Beast are you interested in?"

Since Fang Mu wanted to test whether he could contract with a Vicious Beast using Covenant Blood Essence, he simply said.

"The more powerful and dangerous the Vicious Beast, the better, no need to consider whether it's easy to cultivate!"

Zhuo An's pupils contracted when he heard Fang Mu's words.

The more powerful and dangerous, the better? What kind of requirement was that!?

Didn't Fang Mu realise the danger of Vicious Beasts?!

Zhuo An wanted to admonish Fang Mu because the Ten-thousand Nations Federation was so against the cultivation of Vicious Beasts by the Emperor Beast Court.

Because the Emperor Beast Court had once cultivated Vicious Beasts, they caused a disaster far beyond a Disaster Level Dimensional Rift, resulting in the obliteration of four Human Federations in the catastrophe.

Otherwise, the Emperor Beast Court would not have signed such a treaty.

But before Zhuo An could voice his advice, he came to a sudden realization of his own status.

In view of his status, he had no right to advise Fang Mu in the first place.

What if he angered Fang Mu and the promises Fang Mu made earlier became void?!

Since Fang Mu wanted a powerful Vicious Beast which didn't take into consideration the danger and cultivation issues.

He happened to have one right now!

This Vicious Beast was captured on his way to the Panfeng Federation while on this task.

Its ability was extremely powerful, but it was also extremely dangerous. It was certain to be destroyed once it was brought back to the Emperor Beast Court!

Even if this Vicious Beast's danger level was extremely low, it would not be cultivated.

Because the resources needed for cultivating this Vicious Beast are extremely numerous, it is like a Bottomless Pit.

This Vicious Beast was just right for Fang Mu's requirements.

"Master, I have such a Vicious Beast with me now. I'll take it out right away to see if it meets your requirements!"

Saying so, Zhuo An opened his large mouth, and there was a black and white crystal ring encasing the elongated fang on the upper left side of his mouth.

This black and white crystal ring was Zhuo An's Storage Spiritual Instrument.

A fluffy grey mass of something was taken out from Zhuo An's storage equipment.

Chapter 759 Vicious Illusion Sparrow!_1

The object, gray and collapsed, was covered in dark red bloodstains.

The beast was clearly badly injured.

A low-level beast's injuries could be easily treated but the fact that Zhuo An did not heal this beast indicated that it was intentionally injured.

Fang Mu initially thought that the crumpled beast was a rodent of some sort. However, he quickly realized that the beast had wings.

Taking a closer look, Fang Mu realized that this beast was a skittish bird, appearing dirty and of common breed.

Fang Mu was about to use the Eye of Omniscience to investigate the bird-like beast to see whether it was worthy of his cultivation.

That's when he noticed a special energy, almost akin to spiritual power, emanating from the small head of the bird.

Upon closer examination, he realized that this energy had fundamental differences from spiritual power.

Suddenly, Fang Mu saw the bird-like beast rapidly multiplying at a pace faster than the Abnormal Lizard.

The Abnormal Lizard's multiplication was predictable, with the body of the beast splitting and continually multiplying to form a cluster.

However, the bird-like beast's flock appeared out of thin air under the influence of this strange energy.

The Yin Yang Leopard quickly spat out a cloud of black mist infused with dark attribute energy.

This black mist, like a huge net, tightly caught the multiplying birds.

The net was quickly thrown to the ground. All the birds in the net vanished, leaving only the hurt and struggling bird-like beast.

The Yin Yang Leopard offered a serious explanation to Fang Mu,

"Master, this bird-like beast is called a Vicious Illusion Sparrow and it possesses the ability known as Illusion Divide."

"Illusion Divide allows the Vicious Illusion Sparrow to multiply itself using its own imagination."

"As long as the Vicious Illusion Sparrow's imagination is strong enough, it can continuously create its own species without limits."

"If we were to rank the danger level of beasts, it would reach the SS level."

"In the classification of beasts, it is considered the rarest Vicious Illusion Beast!"

The Yin Yang Leopard's words sparked a light in Fang Mu's eyes. The ability to use imagination to create a large group sounded very powerful!

Imagination is an unrestricted existence for all living beings.

It doesn't mean that beasts with chaotic thoughts are unworthy of having unlimited imagination.

Through Fang Mu's previous life studies of creatures, the mental activity shown by many microorganisms may be even stronger than the romantic thinkers of humans!

But if a beast can only multiply infinitely, it doesn't mean this beast is useful.

Seeing that Fang Mu's eyes only lit up briefly and that he quickly lost interest in the Vicious Illusion Sparrow, Zhuo An hurriedly spoke up.

"Master, a beast may not only have one ability."

"Like the Abnormal Lizard you saw before, besides the ability to multiply, the mucus it secretes from its feet is another one of its abilities!"

"This mucus not only accelerates the healing of the Abnormal Lizard's wounds and is toxic —."

"It also isolates damaging energies!"

"The Vicious Illusion Sparrow has another ability called Leap Thrust!"

Upon hearing this, Fang Mu did not wait for Zhuo An to finish, but took the initiative to explore the fallen, critically injured little creature before him with the Eye of Omniscience.

[Beast Name]: Vicious Illusion Sparrow

[Species]: Thought Sparrow Family/Illusion Sparrow Genus

[Beast level]: Copper Stage (8/10)

[Beast element]: Metal/Earth

[Beast Potential]: Silver Stage

[Quality]: Standard Quality

Abilities:

[Illusion Divide]: Multiplies the individual through its own imagination. As long as its brain is not wounded and its imagination is not limited, it can multiply almost infinitely based on its imagination.

[Leap Thrust]: Transforms the body into a Sparrow Spear from the sky to pierce the target. During the piercing process, it has the ability to pierce targets of a higher level. The effects of the Sparrow Spear vary based on the spiritual material absorbed by the imagined individuals.

Fang Mu was seeing the beast data under the Eye of Omniscience for the first time.

So beasts also have attributes and qualities!

Even though the quality improvement of a beast won't get a proprietary trait, it enhances the beast's existing abilities.

Most beasts must reach legendary quality before stepping into the Sequential, just like the Guardian Beasts!

However, beasts like these don't have an Evolutionary Path, and their bloodlines cannot evolve further.

Other than this, the data did not seem to be very different from the Guardian Beasts.

After carefully observing the Vicious Illusion Sparrow's ability, Leap Thrust, Fang Mu finally understood why Zhuo An graded the Vicious Illusion Sparrow's danger level as SS rank.

Fang Mu could imagine a scene, where the sky was filled with a massive flock brought about by the imagination of the Vicious Illusion Sparrow.

Suddenly, the dark sky filled with birds, with their tails pulled in and beaks pointing downward, transformed into Sparrow Spears, raining down on the ground in a piercing manner.

Any lives on the ground, or even underground, would inevitably turn into wreckage under this rain of Sparrow Spears!

The key is, after the flock transforms into Sparrow Spears, as long as the Vicious Illusion Sparrow's imagination is not affected, a new flock will regenerate instantaneously.

Chapter 760 Vicious Illusion Sparrow!_2

"Leap Thrust" the six-character phrase, Fang Mu couldn't make a definitive conclusion without testing it.

However, with Fang Mu's long-term use of the "Eye of Omniscience" and his understanding of the Fool's Shadow's innate divine ability.

Usually, the "Eye of Omniscience" won't add the term "leap" into the descriptions of skills, abilities or exclusive traits.

Plus, according to the skill description, these sparrow spears can still be strengthened!

The Vicious Illusion Sparrow is a beast with both metal and earth attributes. This means the Vicious Illusion Sparrow's divided entity can consume various kinds of ores or metals, absorbing the specific traits within the ores and metals.

These traits can then be attached to the manifested sparrow spears.

If Fang Mu can really make a pact with and control the Vicious Illusion Sparrow, he can have the Vicious Illusion Sparrow manifest some units.

Then, he can specifically cultivate these units to have different abilities and effects.

For instance, some metal spiritual materials have the effect of "Armor Break".

Metals and ores are two types of things that are rich in numerous particular traits.

The Vicious Illusion Sparrow, with the abilities of "Illusion Divide" and "Leap Thrust", is already quite formidable.

If it can be purposefully cultivated with the aid of various metal spiritual materials and special ores, the strength of the Vicious Illusion Sparrow would become even more multifaceted.

Having finished introducing the two abilities of the Vicious Illusion Sparrow, Zhuo An intensely gazed upon Fang Mu.

Zhuo An couldn't guess whether Fang Mu actually favored the struggling Vicious Illusion Sparrow on the ground as Fang Mu squinted at it. In any case, Zhuo An had finished his introduction and now had to behave obediently, waiting for Fang Mu's inquiry.

If Fang Mu doesn't favor the Vicious Illusion Sparrow, it's no big deal - Zhuo An would just help Fang Mu find a couple more vicious beasts upon returning to the Emperor Beast Court!

Indeed, some vicious beasts were hidden within his tribe.

Zhuo An could adjust these vicious beasts and offer them to Fang Mu!

After observing the Vicious Illusion Sparrow's data, Fang Mu averted his gaze from the creature.

"Since you say that the Vicious Illusion Sparrow's second ability is called Leap Thrust, do you happen to know what kind of creatures the Illusive Sparrow's cross-boundary perforation can penetrate?"

Upon hearing this, the Yin Yang Leopard spoke with great earnestness to Fang Mu.

"I'm not quite clear how the Ten-thousand Nations Federation defines vicious beasts, in our Emperor Beast Court, the strength of vicious beasts can only be compared with other vicious beasts."

"Because of its danger and the difficulty of cultivating it, I had never planned on cultivating this Vicious Illusion Sparrow."

"However, from my understanding of the Illusion Vicious Beasts, they are generally stronger than ordinary vicious beasts."

"As long as this Vicious Illusion Sparrow steps into the sequential realm with its ability of Leap Thrust."

"Two to three sparrow spears should be able to kill an Abnormal Lizard!"

Hearing this, Fang Mu's eyes suddenly lit up.

Doesn't this mean that as soon as the Vicious Illusion Sparrow steps into the sequential realm, it can compete with powerful beings like Qian Ying!?

Fang Mu thought for a while, specifically using a silver Space Spirit Tool to capture the Vicious Illusion Sparrow.

After contracting with Liu Xi, Fang Mu hadn't yet condensed a new Contracting Blood.

Fang Mu would have to wait until he condenses a new Contracting Blood before attempting to contract the Vicious Illusion Sparrow.

If Fang Mu cannot control the Vicious Illusion Sparrow through the Contracting Blood, he will obliterate a vicious beast like the Vicious Illusion Sparrow.

Otherwise, with the enhancement of the Contracting Blood, leading to the transposition of the Vicious Illusion Sparrow's Life Level.

The Vicious Illusion Sparrow would definitely cause an immeasurable catastrophe in the Main World!

As he put away the Vicious Illusion Sparrow, Fang Mu asked Zhuo An.

"The resources needed to aid the growth of Vicious Illusion Sparrow aren't hard to come by."

"Why did you say earlier that it's hard to enhance the strength of the Vicious Illusion Sparrow?"

Zhuo An was almost choked by Fang Mu's words.

Indeed, Life Energy and Earth Element Energy aren't particularly rare.

However, high-purity Life Energy and Earth Element Energy are a different story!

The stronger the Vicious Illusion Sparrow, the higher the purity of energy it requires for absorption.

Without abundant resources of a Grandmaster Creator, even promoting a single Vicious Beast to the Diamond Rank is difficult.

Moreover, the main body of the Vicious Illusion Sparrow must absorb pure Golden Element Energy that does not contain any metallic characteristics.

If the main body of the Vicious Illusion Sparrow is influenced by metallic characteristics, it is very likely to affect the deployment of its ability, "Illusion Divide."

Even Grandmaster Creators struggle to refine this kind of Golden Element Energy, devoid of any metallic traits.

Such a thing can occasionally only be found at the heart of a massive vein where the mineral's core emerges, and it is extremely precious!

Some Forging Spirit Grandmasters are able to extract these energies through energy circuits.

Yet, even if they extracted non-stop day and night for a month, they wouldn't be able to produce more than one or two bottles.

The Beast Controlling Force does not have that many resources to invest on a single Vicious Beast.

Thinking of the rewards Fang Mu previously promised him, Zhuo An thinks, perhaps in the young man's heart, those precious Grandmaster-level elixirs aren't truly worth much!

Zhuo An candidly informed Fang Mu about the requirements for cultivating the Vicious Illusion Sparrow, while in his mind he pondered something.

Being forced to become Fang Mu's guardian beast because he was controlled by the purple-black Small Tower might not be such a bad thing!

Because this way, he could gain more Grandmaster-level elixirs.

This would be beneficial for both his tribe and the entire Beast Controlling Force!

Although Zhuo An, being controlled by the Soul Parasite Ant, couldn't lie or betray Fang Mu, or do anything harmful to him,

it did not mean Zhuo An couldn't consider his own interests.

Anyway, as soon as he returned to the Beast Taming Tribes and presented the five drops of blood that could merge multiple Beast Bloodlines, he would report this matter to the Emperor Beast Court.

Then, he would indeed be considered a hero by the entire Beast Controlling Force.

He might even get a chance to improve his position among the Permanent Dark Seat Councilors, becoming one of the three council leaders.

Suddenly thinking of something, Zhuo An said to Fang Mu,

"Master, if a Vicious Beast encounters a pollutant that matches its own abilities during its growth, it can try to absorb it!"

"Once it successfully absorbs it, there's a chance it can enhance its original abilities and evolve new ones!"

"The Abnormal Lizard was able to defeat the strong man of the Beast-binding Hall because it had once devoured a kind of pollutant."

"But the Abnormal Lizard failed to completely absorb this pollutant."

"Its ability didn't strengthen nor increase, but its blood contained a touch of toxic pollution."

"Vicious Beasts are highly resistant to pollutants, and pollutants' energies seldom harm the beasts as long as they suit their abilities."

Fang Mu noted what Zhuo An had said.

Of course, searching for pollutants for the Vicious Illusion Sparrow was secondary. Fang Mu needed to ensure he could make a pact and control the Vicious Illusion Sparrow first!

There was no reason to stay in the inheritance site any longer.

If he planned to portray Zhuo An as a successful explorer who gains something from the ruins, himself leaving early would undoubtedly be the best option.

After leaving, he'd take Shui Miao and Shu Liangjun away from the "Underground Palace". Zhuo An could explain the remaining matters after his return.

Zhuo An should certainly be able to handle it!

Moreover, the Beast Controlling Forces outside wouldn't dare to doubt Zhuo An's words.

"Zhuo An, I'll leave first. You can leave in half an hour!"

"When we arrived, the beasts outside were all injured. Our Infinite Tower saved those beasts."

"Remember to bring the Beastmaster Tribe's appreciation gifts when you come to find me with those five drops of blood!"

Having said that, Fang Mu was teleported out through the altar connected to the outside world.

Zhuo An felt a change in his perception of Fang Mu upon hearing his words.

Because from Fang Mu's actions, Zhuo An could feel that Fang Mu held a kind intention towards the Beast Taming Tribes.

And this kind intention was not just a superficial guise!
