

Beast Tamer 76

Chapter 76: Fragrant Peony and Age Fix Palm! 1

The attendant took a deep breath, revealing a smile that was even more radiant than the golden autumn chrysanthemums.

“Rest assured! I will ask the chef to make each specialty dish in smaller portions. ”

“To let you try more of the Sea Banquet Palace’s flavours!”

Feng Chenhao and Fang Mu walked side by side.

Upon hearing what Fang Mu had just said, Feng Chenhao felt pleased and invigorated.

Fang Mu’s manner in ordering the meal, clearly indicated that he didn’t see him as an outsider.

The thing Feng Chenhao feared most was that Fang Mu might distance himself and withhold information during discussions with him.

At any point during their cooperation, Fang Mu could easily withdraw.

Once the cosmetics brand was built, he would be unable to retreat completely!

During the meal, Fang Mu noticed that Feng Chenhao wanted to bring up matters several times.

Fang Mu poured a cup of Citron Pine Nut Tea for Feng Chenhao to cut through the greasiness of the food and said,

“We can talk about the cooperation after we finish eating! ” “If you are here with genuine intentions, I have no reason to back out.”

Fang Mu’s words served as a calming pill for Feng Chenhao.

With this calming pill, Feng Chenhao was finally able to settle down and enjoy the delicacies before him.

After Fang Mu and Feng Chenhao finished their meal, the attendant cleared the table.

Then, he served two desserts for them.

Knowing Fang Mu and Feng Chenhao had matters to discuss,

The attendant lowered the soundproof partition before leaving.

Feng Chenhao took a deep breath, pulled out a list from his pocket and handed it to Fang Mu, saying,

“The reason I came so late was to find Guardian Beasts similar to the effects of the Coagulated Jade Camellia.”

“Basically, I have gathered all the Guardian Beasts needed to build the cosmetics brand!”

“Many of them are quite high-end.”

Feng Chenhao had prepared this list because during his negotiation with Fang

Mil,

It was inconvenient for Feng Chenhao to pull out each of the Guardian Beasts one by one from the Space Spirit Tool to show Fang Mu.

Fang Mu looked at the list in his hand and the two Guardian Beasts that were highlighted on it.

He mentally gave Feng Chenhao a big thumbs up.

This list represented Feng Chenhao's sincerity and determination to establish this cosmetics brand.

The Guardian Beasts, Fragrant Peony, and Age Fix Palm, were even rarer than the Red Jade Mountain Tea from the standpoint of scarcity.

To get the Fragrant Peony and Age Fix Palm, Feng Chenhao must have spent a lot of thought.

Expending many resources and money.

The fragrance from the Fragrant Peony's pollen is ranked in the top ten of all fragrances.

Yet, it is the easiest fragrance to obtain in the top thirty.

Adding Fragrant Peony pollen to cosmetics will instantly increase their value.

Many women secretly consider the fragrance of the Fragrant Peony a "man-killer" scent.

Although the palm oil produced by the Age Fix Palm can't whiten and remove scars, nor tighten skin like Condensed Jade Dew,

It can have a tremendously ageing reversing effect.

It's highly welcomed by young women and refined men.

Those who regularly use cosmetics infused with Age Fix Palm Oil will look at least a decade younger than their peers.

Making someone in their fifties or sixties possess the appearance of someone in their thirties.

Despite the miraculous effects of the Fragrant Peony pollen and the oil from the Age Fix Palm,

To make the Fragrant Peony bloom to get pollen, and the Age Fix Palm produce oil,

Are as challenging as making the Coagulated Jade Camellia condense into flower dew.

Both require nourishment from a certain purity of Wood Element Energy and Life Energy.

Just like how Fang Mu initially used the Blood Aged Wine to evolve the Red Jade Mountain Tea,

If Fang Mu uses Blood Aged Wine to cultivate the Fragrant Peony and Age Fix Palm, he should be able to make them evolve as well.

“You’ve prepared quite comprehensively, and I will continue to provide you with the spiritual materials produced by these Guardian Beasts.”

“Regarding the Creator resources needed to establish the brand, you don’t need to lift a finger.”

“I’ll repeat myself.”

“If you can accept taking only ten percent of the cut and all investments aside from the Creator resources,

“We can sign the contract right away.” “Think about it!”

Feng Chenhao had a lot to say to Fang Mu.

However, he didn’t expect that Fang Mu would agree right after reading the list.

Now he himself needs to consider!

Feng Chenhao pondered for a while, looked at Fang Mu earnestly, and asked sincerely.

“Can you guarantee that you can provide me with 300 grams of fragrant peony pollen, 500 droplets of Coagulated Jade Dew, and ten pounds of Age Fix Palm Oil per month?”

Fang Mu knew that Feng Chenhao was calculating the financial investment and Creator resource outputs.

Fang Mu did not loathe Feng Chenhao’s caution and meticulousness, but admired it.

This showed Feng Chenhao was a person who took responsibility for himself.

Working with such a person, Fang Mu could confidently allow him to run things.

The resource needs proposed by Feng Chenhao could be met each month with a dozen bottles of Life Elixir and wood element potions with a purity of sixty

percent.

For the production speed of these resources, it was a piece of cake.

“Of course there is no problem!”

“Since it’s a collaboration with me, don’t limit your vision!”

“The spiritual materials I give you will be double or even more than you expected!”

As he spoke, Fang Mu made a gesture of expanding the field to Feng Chenhao.

Of course, if this gesture was seen by others, it could cause Fang Mu to lose a market in a federation.

Hearing Fang Mu’s words, Feng Chenhao immediately expressed his excitement.

“Deal! I hope we can have a pleasant cooperation in the future!” “Since the brand is mainly you, you decide the brand name!” Fang Mu heard this and stood up, saying. “It is often said that pretty women are like the peaches of spring!” “The brand’s name will be Peach Beguile!”

“I will have someone contact you tomorrow morning to discuss the agreement.”

“There are rooms available in Sea Banquet Palace. I will have an attendant arrange it for you!”

Fang Mu did not expect things to go so smoothly.

It’s not even ten o’clock in the evening yet.

Since all business has been settled, Fang Mu decides to continue feeding his pet.

In view of its daily task of cleaning up the waste produced by the Water Attribute Beasts, the Clean Water Spirit will soon be able to upgrade to the Silver Stage.

Recently, Fang Mu hasn’t been feeding the Clean Water Spirit the pure Water Element Crystals he collects every day.

Instead, he’s waiting for the Water Element Crystals, with a purity of one hundred percent, to accumulate to a certain level.

Then feed them to the Clean Water Spirit all at once.

As a result, Fang Mu allowed his pet to waste quite a bit of time!

The reason why Fang Mu did this, spending nearly ten hours to condense

Water Element Crystals of one hundred percent purity,

Was to see if he could raise the Spirit's quality while promoting it to the Silver Stage.

A large amount of pure Water Element Crystals should at least raise the quality of the Clean Water Spirit to Epical.

Even reaching Legendary Quality isn't impossible!

More importantly, pure elemental energy can promote the Clean Water Spirit to evolve towards a Semi-elf like the Rainy Doll.

By cultivating the Clean Water Spirit in the best possible way, it might even bring additional surprises to Fang Mu!
