

Beast Tamer 761

Chapter 761 Fang Mu's Dao Protector!_1

Zhuo An's greatest fear, after being controlled by Fang Mu, was that Fang Mu would use him to harm the entire Beast Controlling Force.

If that were to happen, Zhuo An would have to take considerations!

Even though Zhuo An also feared death, a Guardian Beast good enough to step into the Order, if it did not face any risks, could live for thousands of years, free and easy.

Zhuo An also had his own calculations, but the fear of death or calculations were all within a small range.

When it rose to the entire Beast Taming Tribes, Zhuo An was not afraid of death.

Fang Mu's choice to control him was obviously to achieve a win-win situation between the Infinite Tower and the Beast Controlling Force. This eased Zhuo An's guilt a lot.

Of course! Zhuo An didn't know what Fang Mu's specific purposes and methods were, and Fang Mu would not let Zhuo An know!

Fang Mu gave Zhuo An five drops of Blood Aged Wine to use as a token when coming to find him.

In fact, Fang Mu had his considerations.

Creating creatures through the exclusive feature of the Blood of Abundance, "Creation of Blood and Life," did not cost much essence blood.

When the time came, Fang Mu would be able to reserve some of the essence blood that Zhuo An gave him.

As a member of the Yin-Yang Lian Leopard Clan, those essence bloods would definitely have the existence of a Yin Yang Leopard.

If Fang Mu wanted to ask Zhuo An for a Yin Yang Leopard cub, Zhuo An would definitely disagree with giving him a cub.

Once Fang Mu had the essence blood of the Yin Yang Leopard, he could create a Leopard Beast with the Yin Yang Leopard bloodline for Fang Yuan.

This time at the land of inheritance, Fang Mu struck it rich!

But in the eyes of the Beast Controlling Forces outside, Fang Mu was nothing but a failure.

Seeing Fang Mu safely teleport out from the place of inheritance, Shui Miao and Shu Liangjun hurried to greet him.

The two made eye contact with Fang Mu, Fang Mu just shook his head with a smile.

The members of the Beast Controlling Force all looked nervously at Fang Mu at this moment.

Fang Mu spoke up directly.

"Elder Zhuo An is still inside. After he finishes counting his harvest, he will come out!"

After hearing Fang Mu's words, the faces of the Beast Controlling Force's strongmen all showed excited expressions.

So, the contest within the inheritance site ended in a massive victory for the Beast Controlling Force, this couldn't be any better!

Especially for Hexin, whose hanging heart had finally been put to rest.

If Zhuo An died and all he took back to the Emperor Beast Court was a group of Beast Taming Tribes with heavy casualties and no gains...

Then he would become the laughingstock of the Emperor Beast Court.

He would not be able to cope with the doubts and inquiries from all sides upon returning!

Fortunately, Elder Zhuo An wasn't hurt and even got the final inheritance from the land of inheritance.

Now, if there were any problems, Elder Zhuo An would shoulder it all.

The Beast Controlling Force suffered such heavy losses, some tribes even lost their king.

Even if Elder Zhuo An had gained a lot in the ruins, wouldn't it be hard to explain when he got back?!

Shu Liangjun and Shui Miao had a lot of questions to ask Fang Mu, but after hearing Fang Mu's words to Hexin, their curiosity remained unspoken out of fear of hitting Fang Mu's painful spot.

Fang Mu risked entering the land of inheritance due to his master's orders, and now that he lost to Zhuo An in the land of inheritance, it might be hard to justify himself to his master once he returned!

Everyone has secrets. Even with friends, one can't be 100% open.

Especially in the Beastmaster world where martial might is respected.

So Fang Mu had no intention of telling Shui Miao and Shu Liangjun about his submission of Zhuo An.

It was Fang Mu's decision not to say anything, but their decision not to ask touched Fang Mu deeply.

Fang Mu and his party had already left the Underground Palace.

Fang Mu handed Shui Miao and Shu Liangjun a suitcase each.

"Ah Shui, Elder Shu, thank you for taking me out to practice. It has widened my horizon and I also gained a lot!"

The two knew that what Fang Mu gave them must be Grandmaster-level Potions.

The suitcases that Fang Mu gave them were standard potion suitcases from the Creator's Guild of the Dragon Rising Federation. The weight of the suitcase itself is exactly one kilogram.

All Federations that joined the Ten-thousand Nations Federation had many styles and designs of suitcases used to hold potions.

But the weight was basically fixed.

When they took the suitcase, they only felt the suitcase was heavy in hand, knowing for sure that it must be filled with potions.

Shui Miao and Shu Liangjun were not the type to check rewards immediately, but the weight of these potions was a bit too much.

Based on their understanding of and friendship with Fang Mu, they knew Fang Mu wouldn't give too little.

But if it was too much, they couldn't take it either!

When they opened the suitcase, Shui Miao saw that his own suitcase was neatly full of high-purity Water Elemental Potions.

Shu Liangjun's suitcase was neatly full of Space Potions.

Fang Mu thoughtfully matched the properties of the potions with the attributes of their Guardian Beasts!

Shui Miao quickly took the suitcase and tried to return it to Fang Mu.

"Ah Mu, these potions are really too many! I don't..."

Before Shui Miao could say the words 'refuse to accept', Fang Mu cut him off.

"Ah Shui, we will work together in the future. There's no need for such politeness!"

"We might have plenty of opportunities for collaboration in the future!"

After finishing his words to Shui Miao, Fang Mu turned his gaze towards Shu Liangjun.

Chapter 762 Fang Mu's Dao Protector!_2

"The same for Elder Shu."

"You'll be by my side for a long time, Elder Shu. The stronger you are, the better you can protect me!"

These words warmed Shu Liangjun's heart.

As his life was coming to an end, Shu Liangjun realized he was all alone.

Golden Toad Manor was a power serving and earning money for him, and could not form a bond with him.

An idea formed in Shu Liangjun's heart. Without holding back, he turned to Fang Mu and asked,

"Ah Mu, I don't know if your master has found you a Dao protector?"

"If not, let me be your Dao protector!"

"You don't have to rush to answer me. You can ask your master what he thinks."

"If your master agrees, I am willing to sign a Dao protector contract with you, accompanying you to become a Beast Master with a sequential Guardian Beast."

Fang Mu was extraordinarily moved by Shu Liangjun's proposal.

He was well aware of what having a Dao protector meant.

Only the children of truly powerful forces would have such thing as a Dao protector.

The establishment of a bond with a Dao protector involves a powerful individual swearing upon a spiritual material called Crimson Soul Incense through his soul.

The Crimson Soul Incense will absorb a portion of the True Spirit from the soul of this powerful individual and then transfer this True Spirit to the body of the person being protected.

It can spur the growth of the guardian's spiritual power and enhance his ability to comprehend mysterious patterns.

True Spirit is extremely important to a powerful individual, so few would willingly become the Dao protector of a young generation.

Simply put, a Dao protector is not much different from a half-mentor.

For an outsider like Fang Mu, who has been posing as a certain persona, having an experienced person guiding him all the time is essential.

If Shu Liangjun becomes his Dao protector, it would undoubtedly be much easier for Fang Mu to consult him in the future.

Fang Mu solemnly bowed to Shu Liangjun.

"Elder Shu, I look forward to you being my Dao protector!"

"As soon as I return to the Dragon Rising Federation, I'll ask my master about it. I believe he wouldn't refuse something like this!"

Upon hearing Fang Mu's words, Shu Liangjun burst into laughter.

"I've been a wanderer for so many years, it seems I'll finally have a home to return to!"

Shui Miao was somewhat surprised by Shu Liangjun's decision, but considering Shu Liangjun's attitude towards Fang Mu and Fang Mu's rescue of Shu Liangjun, it all seemed reasonable.

"Let's leave the ruins too."

"Even if there were any resources left in the ruins, they would've already been taken by the human forces and Beast Controlling forces."

"Once the legacy of the ruins is obtained, the ruins will automatically close within an hour."

"Leaving early will save us from baseless speculation by those forces and prevent unnecessary trouble."

"The Beast Controlling forces are unwilling to confront us directly, but they won't stop using us as scapegoats just because we helped them."

As the Pavilion Master of the Twelve Pavilion, Shui Miao knew a lot about the methods of human and Beast Controlling forces.

He was clear about the true nature of the Beast Controlling forces.

Many times, the fight among major forces is even fiercer after the exploration of the ruins than before.

Although the transportation into the ruins was random, there was a central altar to transport out.

On the way to the central altar, Fang Mu's team ran into people from the Poisonous Gu Villa and True Wisdom Court.

The two groups had already interacted.

Upon seeing Fang Mu and his group, Gu Lian and Wang Xu immediately came forward.

"We've been searching for you while gathering supplies, Yan Luo, but we couldn't find any sign of you for a while!" exclaimed Fang Mu somewhat angrily.

"Ah, the legacy of the ruins has already been grabbed by the Beast Controlling forces!"

"This ruins exploration was rather pointless. You guys didn't run into us before, so just keep whatever you gained after entering the ruins."

Having said that, Fang Mu walked to the side of the altar.

Shui Miao went through the altar first, followed by Fang Mu, and Shu Liangjun last.

Fang Mu's words left Gu Lian and Wang Xu exchanging glances.

The Beast Controlling forces got the legacy so quickly?

How long had they been in the relic? To think that the Beast Controlling Force would move so quickly!

Since Fang Mu had already received a message, it was likely that he had come across those from the Beast Controlling Force.

That is to say, this relic would close within one hour.

Both Gu Lian and Wang Xu had the idea of leading a team to explore the relic again.

But when they thought of how all the major forces had previously scoured the area for resources, effectively clearing out all obtainable resources...

Continuing to search would be difficult to yield any results, and they could easily be plundered by the Beast Controlling Force led by the Yin Yang Leopard.

With this in mind, both Wang Xu and Gu Lian sighed, taking their teams and leaving the relic.

Now, using this time, Fang Mu prepared to deal with Mr. Zi.

Liu Xi possessed a member of the Yin Qingzhi force, and also snuck into the relic.

But he couldn't help Fang Mu inside the relic.

After leaving the inheritance site, Fang Mu notified Liu Xi, asking him to leave the relic early and return to the ancient battlefield.

Having lost Liu Xi's control, the Void Witch Mengsha could only be remotely controlled by him.

She was severely wounded twice by Mr. Zi when the opportunity arose.

Furthermore, Meng Sha, under the curse of Satan's curse moth, became very weak.

Liu Xi's control over Meng Sha became slower, and Meng Sha was in dire need of treatment at the moment!

Otherwise, this puppet called Meng Sha would be completely destroyed.

These escapes and killings allowed Liu Xi to better grasp Mr. Zi's strength and roughly understand the capabilities of his ghost device.

Knowing that Fang Mu had already come out, Liu Xi made a move with Meng Sha.

It could be said that Meng Sha was the best way to lure out Mr. Zi, and Fang Mu also let out both Qin Shao and Jin Ya from the Mechanism Fortress.

Qin Shao had always been on standby in the Mechanism Fortress.

He thought he could play his part soon, and never thought that Fang Mu actually didn't need him after all.

This made Qin Shao somewhat disappointed.

But Qin Shao didn't let this disappointment show on his face.

Just then, Qin Sha only heard Fang Mu speak very seriously.

"Aunt Shao, thank you for your assistance in this exploration of the ancient battlefield!"

"I will strive for two more positions to prolong life for you at my master's side."

Upon hearing this, Qin Shao was overjoyed.

There's no emotional foundation between Qin Shao and Fang Mu.

As the real helmsman of the ancient relics tribe, Qin Shao had always seen feelings as unimportant.

Except the members of their own tribe, outsiders are always less important than the interests of the tribe.

If not for this, their tribe would not have been passed down to this day.

Remember when the four Tianqi families were so loving to each other, considering they were of the same origin.

But in the end, they fell apart due to conflicting interests, splitting into factions and embroiling themselves in a long struggle.

Qin Shao, having seen so many of these situations over the long years...

For her part in helping Fang Mu, Qin Shao thought one of the slots for prolonged life would be adequate payment.

But Fang Mu raised the number of slots from one to two.

Qin Shao couldn't possibly decline the slots provided by Fang Mu.

Because this opportunity is too precious for the tribe, but Qin Shao won't take it for free.

What if she's seen as taking advantage of Fang Mu by the Grandmasters of the Infinite Tower? That wouldn't be good!

Qin Shao did not intend to lose out.

If possible, Qin Shao would like to engage in more cooperation with Fang Mu!

When she thought of the water system half-elf that Fang Mu had contracted, she bit her teeth and took out a wooden bottle tightly corked.

Bottles are a type of container for storing liquids or solids, and in general, bottles made from wood are rare.

Moreover, the wood that this bottle was made from was the legendary Pure Tone Sandalwood.

Qin Shao handed this bottle to Fang Mu, smiling as she spoke.

"Ah Mu, the silver stage water system half-elf you've contracted possesses excellent talents."

"If equipped with the Heart of the Elf contained in this bottle, it won't be long before it will climb higher!"

Chapter 763 Elves: Lan River Rain Mother!_1

Heart of the Elf!

It is actually Heart of the Elf!

Fang Mu had never seen a Heart of an Elf before, but he had heard of it.

Heart of the Elf is a substance that forms from an elf's bloodline after a full-blooded elf dies.

Hearts of Elves can be directly absorbed by elves of the same element to enhance their own elven bloodline.

It also has a certain probability of changing the user's existing bloodline.

For a half-elf, the Heart of an Elf could be considered the best of supplements.

Fang Mu's Rainy Doll evolved from pure water, and basically any Water System's Heart of an Elf can be digested and absorbed by her.

Perhaps during the absorption of the Heart of the Elf, Rainy Doll might inherit some of the features of the Heart's original owner.

Fang Mu took the Pure Rhyme Sandalwood Bottle handed over by Qin Shao and examined it simply before asking Qin Shao:

"Aunt Shao, do you know where this Heart of the Elf is from?"

On hearing this, Qin Shao responded with a smile.

"Of course I know which Water System Elf this Heart comes from; Otherwise, I wouldn't have recommended this Water System Heart of an Elf to you."

"This Heart of an Elf was formed after an elf known as the Lan River Rain Mother, a sequential level elf, died."

"The Lan River Rain Mother's main ability is rainmaking, which very much aligns with your half-elf of the Water System."

"The rain brought down by the Lan River Rain Mother has a property known as Rain Erosion. If your half-elf could inherit this ability, it would add a lethal skill to her arsenal."

Upon hearing about the ability called Rain Erosion, Fang Mu's eyes overflowed with excitement.

Fang Mu had heard of this Rain Erosion ability. In all of the Water System abilities, Rain Erosion would at least rank as A+.

Rain Erosion refers to the ability to use rainwater to neutralize the energy emitted by the target, while also corroding the energy within the target.

If Rainy Doll truly gained this ability, she would no longer worry about any Guardian Beasts that could form elemental shields around themselves or create protective layers around their bodies using blood energy.

Otherwise, during arena battles, such guardian beasts could see through the screen of rain created by Rainy Doll and attack Fang Mu's actual body!

The Splendid Clan, as expected of the heritage from ancient times, had many treasures!

Once Fang Mu returned to the Dragon Rising Federation, many Guardian Beasts were waiting for him to nurture.

By that time, most likely a new drop of Contracting Blood would have formed.

Since Fang Mu had left the Dragon Rising Federation, he could no longer communicate with his family via phone.

Fortunately, Fang Qin, Fang Yuan, and Yan Wood all thought he was out traveling with his master, otherwise they would be worried sick!

Besides thinking about Fang Qin, Fang Yuan, and Yan Wood, Fang Mu also missed Hu Tao.

He wondered how Little Walnut was getting along at school this time, and whether she kept getting hurt in fighting practice?

Just then, Shu Liangjun, Shui Miao, and Qin Shao all turned their gaze sharply toward the distance.

The person arriving was Meng Sha, who had been controlled and sent there by Liu Xi!

However, Shu Liangjun, Qin Shao, and Shui Miao didn't know that Meng Sha was now under Fang Mu's control.

Just as they were preparing to act, they heard Fang Mu say,

"Ah Shui, Aunt Shao, Elder Shu, she's one of us."

"When Mr. Zi from the Evil Heart Sect arrives, I hope you can help me take him down!"

"I have grievances with the Evil Heart Sect that can never be resolved!"

Given the current situation, Fang Mu's words amounted to quite the formal request to the trio.

Shui Miao and Shu Liangjun had taken numerous elixirs from Fang Mu and Qin Shao had taken two of Fang Mu's life extension slots. All of them felt undeserving.

As they were thinking of how to repay Fang Mu, the opportunity arrived!

Qin Shao was the first to express her position.

"Ah Mu, I've been staying in the Mechanism Fortress without being able to assist much."

"Since you've asked, even if Mister Hei from the Evil Heart Sect comes, I would stop him!"

After Qin Shao expressed her position, Shui Miao and Shu Liangjun planned to let Qin Shao take the lead in the fight, while they would chip in from the side.

Mr. Zi was all consumed with thoughts of revenge. Even though Meng Sha had been cursed by Satan's curse moth and ambushed by him many times, she still managed to escape like a slippery eel!

After the top-ranking Eater Bat under his control lost contact with him, Mr. Zi fell into madness.

Raising a sequential Beast requires a lot of resources, let alone a Beast that steps into the first sequence and has the ability to promote Order!

So Mr. Zi never considered that Meng Sha might have teammates, and he, himself, was being hunted.

Since it was a trap set for Mr. Zi, Fang Mu and his party obviously had to hide.

Ever since being forced to use the exclusive feature [Ash-Dyed End] of Blood of Abundance, Fang Mu had become extra cautious about safety.

While [Ash-Dyed End] had not recovered from its cooldown, Fang Mu would always stay highly alert.

Without the skill [Ash-Dyed End], Fang Mu would probably be dead by now!

Mr. Zi was becoming increasingly furious as he chased Meng Sha.

Finally, Mr. Zi saw Meng Sha collapsed on the ground.

Mr. Zi walked towards Meng Sha with a malicious grin, the Ghost Flame rising in his hand, and a long hook with a spiked head appeared.

"Meng Sha, you finally couldn't hold on anymore!"

"I will let my Soul-eating Bone-devouring Hook consume your soul and body!"

Chapter 764 Elves: Lan River Rain Mother!_2

"You despicable witch, full of lies!"

Meng Sha acted as if she hadn't heard Mr. Zi's words, laying on the ground and desperately trying to release her Void Beast.

She was in a dire situation, but still struggled to survive.

Meng Sha's demeanor did not raise a single suspicion from Mr. Zi.

The moment Mr. Zi stepped closer to Meng Sha, raising his Ghost Device to strike, a charming but cold chant started to ring out.

Mr. Zi's eyes became confused, and his movements slowed.

At that moment, the Meng Sha controlled by Liu Xi suddenly made a move, four tendrils of the Void Beast erupted from the crystal at her chest.

Like a bottle opener, the tendrils cruelly stabbed into Mr. Zi's body.

The tendrils pierced through and firmly wrapped up Mr. Zi.

The metabolyte fluid produced by the Void Beast Meng Sha had contracted with had an energy restraining effect.

This restraint turned Mr. Zi into a complete sitting duck.

His energy was restrained and Mr. Zi couldn't even summon Satan's curse moth again.

Seeing this, Fang Mu knew Mr. Zi had become a tool for Liu Xi.

All Liu Xi had to do next was try to control Mr. Zi!

"Let's go. We'll wait for the Green magician of the Ancient Genesis outside the ancient battlefield."

Shu Liangjun, Qin Shao, and Shui Miao were surprised that Fang Mu would call the witch one of us.

Fang Mu can control a Sequential witch. Does this mean the relationship between the Infinite Tower and the Witch School is extremely close?

The actions of the Witch School can be bizarre. Some even bordering on the absurd.

However, the Witch School is indeed powerful!

In terms of raw power, the Witch School is stronger than the Evil Heart Sect and slightly inferior to the Eternal Alchemy Association.

But the Witch School has the most tricks up their sleeves.

Because Fang Mu and his group left earliest, no one noticed that Liu Xi had gained control over Mr. Zi after they had departed.

In order to show his sincerity in cooperating with the Green magician, Fang Mu waited at the entrance of the ancient battlefield instead of resting in the Royal Court.

Fang Mu, standing at the entrance of the ancient battlefield, was observing the Gobi scenery, a rare sight in the Dragon Rising Federation, while exchanging thoughts with Liu Xi in his mind.

Before Liu Xi could advance further, controlling Huang Yuan, Meng Sha, and Mr. Zi already pushed her to her limits.

If Liu Xi wanted to control more targets, she would have to wait for either Meng Sha or Mr. Zi to fall.

Controlling Huang Yuan didn't consume much of Liu Xi's spiritual power and soul power, most of it was spent on Meng Sha and Mr. Zi.

After Fang Mu realized how dangerous the ancient battlefield was internally, he had Jiang Weng and Jiang Tuo stay with Huang Yuan.

No matter if it were Jiang Weng or Jiang Tuo, Fang Mu didn't want either of them to run into any trouble.

Fang Mu and the others waited for less than half an hour before they started seeing other forces emerging from the ancient battlefield one after another.

Before entering the ancient battlefield, the group of five was unknown. Anyone who saw Fang Mu and his group chose to ignore them.

Now, whether human or beast controlling forces, everyone would enthusiastically come forward to greet Fang Mu when they saw him.

The Infinite Tower, a power that didn't previously exist in this world, seemed to have sprung up overnight.

It became a strong and mysterious force recognized by other forces.

After leaving the ancient battlefield, the Green magician spotted Fang Mu at a glance.

Seeing Fang Mu waiting for him, a sigh of relief flashed across the Green magician's eyes.

The Green magician's position in the Eight Evil Seeds of the Ancient Genesis was quite embarrassing, his pollution substance was both of his making and his downfall.

He had ascended to the ranks of the Eight Evil Seeds due to the potency of his pollution substance initially.

But, after ascending to the Eight Evil Seeds, the speed at which his pollution substance improved slowed down.

This caused the Green magician's rank among the Eight Evil Seeds to fall to sixth place!

The two Seed members behind him required far fewer resources to enhance their pollution substances than his, and it was only a matter of time before they had surpassed him.

The Green magician was always a level-headed person. When Shu Liangjun first contact him via soul sound transmission, he didn't believe Fang Mu's promise.

It wasn't until after Shen Liangjun and Shui Miao displayed their Order-level power that he began to believe Fang Mu's words.

He pinned his hope for breaking out of the dilemma on Fang Mu.

The more rational the person, the more he fears disappointment.

The moment the Green magician saw Fang Mu and others waiting here, he knew that as long as he could pay the price, this deal was guaranteed to be settled.

The Green magician knew very well that strength was all that mattered.

As long as it could increase his strength, the Green magician was willing to make any attempt to pay the price!

Of course, Fang Mu's demands can't be excessive.

"Yan Luo, how was your harvest in the relics?"

The member of the force next to him was already very wary of the Green magician, who would kill without hesitation.

On this trip to the Panfeng Federation, at least two hundred force members died at the hands of the Green magician before even entering the ancient war.

There were also quite a few force members who died at the hands of the Green magician after entering the ancient battlefield.

The Eight Evil Seed of Ancient Genesis has always given people a feeling of cold indifference.

They didn't expect that the Green magician would even take the initiative to greet people!

Fang Mu smiled and shook his head when he heard the words.

"There are indeed gains within the relics, but the inheritance within the relics has been stolen by the Beast Controlling Force!"

The Green magician had clearly heard about this and comforted him.

"The Beast Controlling Force definitely received some information, otherwise, the inheritance in the relics should have been obtained by the Infinite Tower with your strength!"

The fact is that people who contract with top-grade pollutants lose their emotions, but it doesn't mean that a person with no emotions wouldn't utter platitudes.

As the Green magician began to speak, a crane's cry sounded.

Hexin looked proudly at the Green magician.

However, with Fang Mu's help, he didn't forget to bow towards Fang Mu when he saw him.

While the Infinite Tower and the Emperor Beast Court are competitors regarding the inheritance of the relics, it's a separate matter.

The Emperor Beast Court still needs to thank the Infinite Tower for its assistance!

The other Beast Kings all looked the same as Hexin.

Zhuo An felt a bit uneasy seeing this, and a leopard roar sounded from his mouth.

"We go back! There is no necessity to stay on human territory!"

To avoid suspicion, Zhuo An did not pay attention to Fang Mu.

The space-based Beasts immediately activated the Spatial Array and teleported the Beast Controlling Force members away.

The Heart of Yin Yang Leopard was somewhat unsure, afraid that the Beast Controlling Force would send out strong people to plunder them.

This is a tactic the human forces are good at!

The Green magician was somewhat surprised to see the Beast Kings greeting Fang Mu.

He didn't expect that the Infinite Tower would be so popular among the Beast Controlling Forces!

It is known that because the Infinite Tower and the Beast Controlling Force were competing for the quota to enter the relics, the human forces ended up occupying 60% of the quotas.

Fang Mu heard the words of the Green magician and shook his head with a smile.

"Whoever it should belong to, it belongs to. If we are inferior in skill, we can't blame the situation!"

While speaking, Fang Mu beckoned to Huang Yuan.

"This isn't the place to discuss cooperation, how about we talk about it in the Panfeng Royal Court?"

"It has been a long time since entering the ancient battlefield, and we need to find a comfortable environment to rest a bit!"

The Green magician agreed with Fang Mu's decision when he heard it.

Discussing cooperation in the Panfeng Royal Court is indeed much better than here.

As Liu Xi controlled Huang Yuan, he naturally cooperated fully with Fang Mu.

Just as Fang Mu, Shu Liangjun, Shui Miao, Qin Shao, Jin Ya, and the Green magician were preparing to head to the Royal Court under Huang Yuan's guidance.

Suddenly, an old voice came from the horizon.

"Since the Bliss Palace has appeared in the Dust World, then let us see which official under the Eternal Mother Yongle's leadership is the leader of this trip!"

"Let me also see if the one who came is familiar!"

Fang Mu keenly felt endless killing intent from this old voice.

Chapter 765 The Kidnapped Grandmaster Creator!_1

A thought flitted through Fang Mu's heart. The person who had arrived most likely originated from the Ten-thousand Nations Federation!

It could very well be Grandmaster Yin Hanrong, Yin Qingzhi's grandfather!

Firstly, only a Grandmaster Creator would dare to speak in such a way to a powerful warrior from The Order, brazenly displaying murderous intent.

Secondly, Fang Mu had learned from Shui Miao about the rivalry between the Bliss Palace and the Ten-thousand Nations Federation.

Yin Qingzhi had no reason not to inform her grandfather about the appearance of Bliss Palace.

No matter what conflict arises between the Ten-thousand Nations Federation and Bliss Palace, it wouldn't concern him.

Fang Mu was now completely spectating with amusement.

After sensing the scent of conflict, many factions in attendance with no confidence promptly took action to avoid being implicated.

However, those powerful factions with enough confidence remained in place, like Fang Mu, waiting quietly for the development of the situation.

Bliss Palace may act in secret, but they never keep a low profile.

Bliss Palace, who was miserably suppressed by the Ten-thousand Nations Federation in the past suffered a great deal.

Now that the restrictions imposed on Bliss Palace by Contract Garden have expired, Bliss Palace is probably more eager than the Ten-thousand Nations Federation to reclaim their prominence!

At this moment, three sharp auras suddenly cleaved towards the sky.

"I am an official under the command of the Eternal Mother Yongle, I have no relation with you, Yin Hanrong!"

"Are you suggesting you, an old acquaintance of mine, wish to share three cups of wine with me?"

The tower-like man, who had appeared in the sky, suddenly blocked these three sharp auras.

Three imprints were left on the chainmail outfit the man was wearing, but not a bit of harm was done to this man who was as sturdy as an iron tower.

This man with sharp eyes fixed his gaze on the elder from Bliss Palace whose body was hidden beneath his robe.

"Don't forget why Bliss Palace was punished by Contract Garden in the first place. Now, you even dare to raise a hand against a Grandmaster Creator from our Ten-thousand Nations Federation. Truly audacious!"

"Let me give you a proper lesson!"

After saying this, the tower-like man summoned a wolf Beast Guardian whose terrifying appearance could be described as horrific.

The muscles of the giant wolf were so strong it looked as if there were many spurs of bone underneath its skin.

Its fur was a medley of silver and yellow, hovering over it was an aura of blood, making its fur appear as if it had bathed in blood.

The elongated wolf's fangs were lined with sharp teeth, behind its wolf head was a huge golden cyclops.

This wolf Beast Guardian could be deemed the most gruesome and terrifying one Fang Mu had ever seen among all wolf Beast Guardians!

The words of this man who looked like an iron tower made Fang Mu feel somewhat uncomfortable.

Master Yin Hanrong brought this tower-like man here, making it clear that they wanted to pick a fight.

Yet when they end up mentioning Contract Garden, they use Contract Garden to oppress Bliss Palace.

The Eternal Mother Yongle was also part of Contract Garden. As long as the conflict between the two major forces didn't breach the interests of the Grandmaster Creator, Contract Garden wouldn't involve itself.

The words of this tower-like man have clearly ignited the anger of the old man from the Bliss Palace.

However, suddenly, the imposing aura of the old man from Bliss Palace eased.

His figure, hidden beneath his robe, didn't allow one to discern his features.

Yet everyone present knew that Bliss Palace must have other plans waiting for the Ten-thousand Nations Federation!

"You lot came here in a great hurry to discipline me, perhaps you made a mistake!"

"Actually, I also wanted to discipline you"

"Since you've come to the doorstep, it wouldn't hurt to stay at our Bliss Palace for some time!"

Saying this, the old man adjusted his cloak and respectfully bowed towards the sky.

"Lord Flower Envoy, please make your move!"

As soon as the old man finished speaking, two double-petaled lotus flowers suddenly bloomed in the sky.

These two bright flowers, with their buds acting like Spirit Snakes exploring a hole, directly imprisoned the iron tower-like man and the giant wolf, as well as Master Yin Hanrong, holding a wand, within their flower buds.

A cold, melodious piece of mockery resounded in the sky.

"Remember to send a message to Han Ming, if he wants these two individuals back, he'll have to personally go to Eternal Bliss Palace to retrieve them!"

After the words were spoken, a cluster of gorgeous red Fumei flowers also appeared under the feet of the crowd from Bliss Palace.

It took everyone from Bliss Palace, including that Order-Level elder, right back into the blooming Fumei flower.

The experts of all the major forces present looked at each other, even a shocked expression appeared on the face of the green magician.

A Grandmaster Creator and a strong individual, clearly more powerful than The Order were just taken away by the people of Bliss Palace like that!

Flower Envoy, under the command of the Eternal Mother Yongle, there were only two lords.

Flower Envoy Fumei and Wood Envoy Fengzhu.

That Flower Envoy Fumei had secretly planned this, reveals that Bliss Palace had a backup plan from the start.

She even left behind a message for Master Hanming of the Ten-thousand Nations Federation, to come and collect people from Bliss Palace!

The world is about to become turbulent!

The grudges from two hundred years ago that the Ten-thousand Nations Federation clearly hadn't given up on, and Bliss Palace also dares to accept the challenge.

However, Master Yin Hanrong was probably just being held hostage by Fumei, she shouldn't dare to harm Master Yin Hanrong.

Otherwise, Contract Garden would definitely intervene again!

Athin smile spread across Shui Miao's face at all this.

Master Yin Hanrong was captured by Fumei, the Flower Envoy of Bliss Palace, and certainly, many people would want to find out the details of this.

When the time comes, many people would inevitably come to the Twelve Pavilion for news.

The Twelve Pavilion could earn a fortune based on the control of the news!

The news channel of the Twelve Pavilion was extremely broad, Shui Miao and Flowery Envoy Fumei were old acquaintances.

Shui Miao planned to personally go and inquire about the news from Fumei.

Chapter 766 The Kidnapped Grandmaster Creator!_2

Fang Mu didn't focus much on this interlude and appeared quite calm.

As a member of the Dragon Rising Federation, Fang Mu was fundamentally under the control of the Ten-thousand Nations Federation.

During his time in the ancient battlefield, Fang Mu had attempted to make contact with the Bliss Palace and had succeeded in obtaining a Happy Land Order.

This established a certain connection between him and the Bliss Palace.

However, deep down, Fang Mu didn't harbor much personal feelings towards the Bliss Palace or the Ten-thousand Nations Federation.

His cooperation with the Bliss Palace was, frankly, merely exploiting their benefits.

Therefore, Fang Mu would not get involved in their disputes, nor would such disputes affect his dealings with either party.

After reaching the Panfeng Royal Court, Fang Mu didn't immediately converse with the Green magician.

Instead, he returned to his room and took a relaxing hot bath.

Fang Mu planned to negotiate a deal with the Green magician sometime later in the evening.

Elder Jiang and Jiang Tuo arrived at Fang Mu's room. Fang Mu, freshened up by then and dressed in his usual clothes, didn't bother to disguise.

It was only then that Elder Jiang, a Grandmaster Forging Spirit, realized how young the person he was serving was.

The boy seemed to be only fifteen or sixteen, not much older than Jiang Tuo.

Jiang Tuo, out of curiosity, looked at Fang Mu, yet his respectful attitude towards Fang Mu didn't change despite his young age.

Elder Jiang and Jiang Tuo were insiders, the backbone of the Infinite Tower.

Fang Mu couldn't possibly keep disguising himself when dealing with them in the future.

Whether it was Elder Jiang or Jiang Tuo, Fang Mu intended to bring them into the Dragon Rising Federation.

Fang Mu waved at Elder Jiang and Jiang Tuo with a smile.

"Elder Jiang, Xiao Tuo, let's sit down and chat!"

"Xiao Tuo, did you gain anything from this outing?"

Hearing this, Jiang Tuo nodded vigorously.

"This is the first time Grandpa has taken me into the ancient battlefield."

"Although he didn't take me too deep in, I found the adventure extremely exciting!"

Jiang Tuo's eyes were full of longing; Fang Mu could see from this that Jiang Tuo was a person who loved adventure.

Only such a person could have a better chance of becoming a powerhouse!

Seeing Fang Mu and Jiang Tuo getting along so well, a smile unconsciously emerged on Elder Jiang's face.

He had been very afraid that Jiang Tuo and Fang Mu wouldn't be able to get along.

If that were to happen, it would be difficult for the promise Fang Mu made to Jiang Tuo to come true!

After all, no one would invest valuable resources in a person one dislikes.

At first, Elder Jiang felt somewhat resentful about selling themselves to Fang Mu, especially considering that it included both him and his grandson.

While it may sound nice to serve under Fang Mu, selling oneself was the actual reality!

Half of the discomfort in Elder Jiang's heart came from fear of the unknown, and the other half from distrust of Fang Mu.

Elder Jiang had no prior private understanding with Fang Mu.

However, after a long time of interaction and hearing about the capabilities exhibited by the Infinite Tower that Fang Mu represented,

Elder Jiang felt like he'd hit the jackpot!

Serving Fang Mu in the Infinite Tower provided him with an excellent retirement plan and the opportunity to watch his grandson progress.

Now, Elder Jiang was more than willing to complete any task handed down by Fang Mu.

After chatting with Jiang Tuo for a while, Fang Mu took out a black feather-like item called the Diamond-grade Spirit Capturing Box and handed it to Elder Jiang.

He asked Elder Jiang,

"Elder Jiang, can you figure out the principle of this spatial equipment?"

Elder Jiang initially thought that what Fang Mu gave him was just an ordinary Space Spirit Tool, for there was no sign of a Sequential Spiritual Instrument on it.

But when Elder Jiang took the black feather and probed it,

his face couldn't hide an expression of astonishment.

"Young Master, is this your bounty from the ruins?"

"This spatial equipment does not use energy circuits, but a special method to facilitate fusion between spiritual materials, similar to the way a Creator mixes elixirs!"

Saying so, Elder Jiang paused before speaking confidently,

"Yes! Just like a Creator mixes elixirs!"

"The materials to make the spiritual instrument were perfectly fused together in the way that elixirs are mixed, with not a single energy circuit inside!"

Hearing Elder Jiang's words, Fang Mu quickly understood the difference between the crafting methods of humans in the Fifth and Sixth Epochs, and those in the Seventh Epoch.

Elder Jiang immediately recognized the origin of this spatial equipment, attesting to his extensive knowledge.

Fang Mu went straight to the point and asked Elder Jiang,

"Elder Jiang, if I were to leave this spatial equipment with you for study, could you attempt to replicate something similar?"

On hearing Fang Mu's words, Elder Jiang pondered a bit, but didn't dare to give a definite answer.

There might be few in the entire human world who have such complete spatial equipment inherited from the Fifth and Sixth Epochs!

Studying it myself, there's a possibility to replicate it if the principle of the fusion of spiritual materials is understood.

"Young Master, I will do my best not to disappoint you!"

Fang Mu had considered having Shui Miao, the Forging Spirit Grandmaster, conduct the research in collaboration, but ultimately he decided against it.

Although they were friends and both official members of Starwheel, he was the Dominator of the Infinite Tower, and the resources of the Infinite Tower were not to be shared with other powers.

If Elder Jiang ultimately couldn't develop it, Fang Mu could consider recruiting another Forging Spirit Grandmaster into the Infinite Tower.

Or co-develop this spatial equipment with the Twelve Pavilion, where Shui Miao resides!

"Elder Jiang, keep this spatial equipment for research. Remember, this equipment is extremely important, and must not be shown to outsiders!"

"When the time comes, I will arrange a suitable research environment for you. If you lack any resources, just let me know!"

After finishing the conversation with Elder Jiang and Jiang Tuo, it was almost dinner time.

Fang Mu put on the Noface Star Paper again, and headed to the restaurant with Shu Liangjun, Shui Miao, and Qin Shao.

The Green magician, already dressed in new clothes, was already waiting there.

Before Fang Mu could speak, the Green magician said in a serious tone,

"You should know me well and know what I need."

"Otherwise, you wouldn't have mentioned the high-purity wood element potions and Life Elixirs when we first started negotiations."

"As long as you're willing to supply me with large quantities of high-purity wood element potions and Life Elixirs, not only am I willing to trade resources with you,"

"But if there's something you need to do but can't, you can ask me to do it for you!"

Extremely rational people can best understand the current situation.

The Green magician knew that he couldn't have the upper hand in negotiations with the Infinite Tower.

Since that's the case, he decided to be straightforward and reveal his hand, because ultimately, whether to trade or not, it's up to him to decide.

If he's not willing, the Infinite Tower can't force him!

Upon hearing these words, Fang Mu smiled.

"I enjoy doing business with straightforward people the most!"

"I'm interested in pollutants and their sources. I need to obtain large quantities of pollutants and their sources from you."

"Pollutants and their sources have a clear price tag in the black markets of some Federations. While Creator resources are scarce on the black market, they do have clear prices once they appear."

"We'll exchange goods according to the black market prices!"

"In this way, although I'll be at a slight disadvantage, the value of having you to handle things when I can't is more important to me!"

If the Green magician revealed his hand to show sincerity to Fang Mu, then Fang Mu's words were akin to settling the price directly.

The Green magician had been through many negotiations. This one with Fang Mu was definitely one of the smoothest!

Many people negotiate under the guise of acting on others' behalf, but in fact, they are gaining the most for themselves.

However, the price quoted by Fang Mu was indeed, as he said, slightly disadvantageous on his part.

Because the scarcity of Creator resources on the black market is indeed higher than pollutants and their sources.

Although both parties have clear prices, they can't be directly compared in terms of value!

Chapter 767 Fang Mu's Spiritual Energy Freedom!_1

Though there was no change in the Green Magician's expression, his heart was incredibly stirred.

Previously, the Green Magician had been wondering if Fang Mu was going to take advantage of the situation.

Knowing that he was lacking highly pure life elixirs and wood element potions, he had deliberately offered a high price.

The fact that he needed wood element potions and life elixirs were no secret.

Not only did the people inside Ancient Genesis know, but many of the powers that he had traded with also knew it.

Now, the Green Magician finally felt at ease, and his goodwill towards Fang Mu soared.

In this moment, Fang Mu became like a treasure chest in the eyes of the Green Magician.

The Green Magician's hopes for improving his strength in the future had come to rest on Fang Mu.

Even if seven members of the eight evil seeds within Ancient Genesis wanted to harm Fang Mu, the Green Magician would immediately intervene to stop them.

"Yan Luo, I feel your sincerity. As you are so generous to me, I will not let you be at a disadvantage!"

"Only for the advanced and special class pollutants and sources of pollution, I will exchange them according to the black market prices."

"Low-level and mid-level pollutants and sources of pollution, will be priced at 60% during exchange."

"Of course, if you don't want low-level and mid-level pollutants and sources, I can assure you that I will not hold back on the high-level and special class pollutants and sources."

"I won't just trade the relatively special abilities to you!"

The words prompted Fang Mu to extend a hand in laughter to the Green Magician.

"Then let's have a pleasant cooperation!"

"I also need low-level and mid-level pollutants and sources. You can trade as many as you have with me, don't worry about me not being able to handle it!"

"The reserves of the Infinite Tower are certainly more than you can imagine!"

As Fang Mu spoke, he purposefully used a tone of arrogance, and a hint of pride flickered across his face.

The boy Fang Xiaomu, who was adept at the "Fishing Method," was good at enticing powers or individuals during negotiation in this way.

Guiding these people or powers to harbour speculations and ideas in the direction Fang Mu hopes for.

The more powerful the Infinite Tower is portrayed in front of the Green Magician, the more beneficial it will be for Fang Mu to transact with him.

Fang Mu was not afraid of the Green Magician having hidden intentions.

Between the top-level pollutants and sources, there were no absolute strengths or weaknesses.

Top pollutants each have special functions, with different impacts on different individuals.

If the top pollutants had strengths and weaknesses, there wouldn't be an equal relationship between the eight evil seeds of the Ancient Genesis!

When the Green Magician heard Fang Mu's words, joy was unmistakably visible on his face.

In comparison to high-level and special class contaminants and sources, he had the most of the low and mid-level contaminants and sources.

Fang Mu's willingness to accept these things had allowed the Green Magician to exchange for more life elixirs and wood element potions.

"Since Infinite Tower possesses a large quantity of potion reserves, why don't we conduct our first transaction with roughly 200 low and mid-level pollutants and sources, and around 30 high-level and special-class pollutants and sources, how does that sound?"

Upon hearing this, Fang Mu gestured to the direction of the door. Huang Yuan quickly brought out the prepared dishes.

"Let's eat first, and you can list your inventory after the meal."

"My people will negotiate the quantity of potions for the transaction according to your list."

"We are simply business partners right now, but if we can become more involved partners in the future, I can promise to increase the purity of the potions by 2% in each transaction."

Fang Mu's words resonated with the Green Magician like a heartfelt promise.

And though the Green Magician, who had bonded with the pollutants lacked emotions, a person without emotions had a tighter grip on their interests than those with emotions.

At this moment, Fang Mu had become the Green Magician's greatest interest.

The Green Magician, who was a long-established powerful figure, was even seen toasting Fang Mu with his wine glass!

"Yan Luo, I look forward to becoming close partners with you!"

Without waiting for Fang Mu to lift his glass, he had already drained his own.

Seeing this, Shui Miao, Shu Liangjun, and Qin Shao knew that the Green Magician was now fully aligned with Fang Mu.

If anyone dared to be disrespectful to Fang Mu or make any move against him now,

the Green Magician would undoubtedly fight to the death with the offender!

The three of them didn't understand why Fang Mu needed so many pollutants and sources.

Pollutants and sources had a strong impact on life forms and could hardly be considered good things.

Shui Miao had personally suffered from the bitter effects of the pollutants, and for Creators, it was clear that the higher the level of the source and pollutants, the more valuable they were for research.

However, Fang Mu was willing to accept all, even the low and mid-level pollutants and sources.

There must be some research on pollutants and sources happening inside the Infinite Tower.

The three of them had no clue that Fang Mu would make such a move, it was completely Fang Mu's personal intention.

Fang Mu wanted these low and mid-level pollutants and sources to be used as raw materials for purification of pure pollution energy.

These pure pollution energies would then be used to cultivate his own pollutants!

For high-level and special class pollutants and sources, Fang Mu would sort through them after getting his hands on them.

Those useful to him would be kept, while the ones without much use would also become food for "Suction".

Fang Mu's actions seemed wasteful, but in actuality, they saved a great deal of his own time cost.

Chapter 768 Fang Mu's Spiritual Energy Freedom!_2

This allowed Fang Mu to save more time to do other things.

After dinner, Fang Mu returned to his room and released She Wan and Lu Xiaoyin from the Mechanism Fortress.

During this time, She Wan and Lu Xiaoyin didn't demand much of Fang Mu's attention, as they mostly helped him sort out the supplies they had obtained.

As Fang Mu's personal housekeeper, Lu Xiaoyin knew from the start that her strength was not her strong suit in Fang Mu's presence.

Her strength lay in being thorough, being able to perform her duties as a private housekeeper well.

So Lu Xiaoyin always maintained a normal mentality.

However, She Wan, as Fang Mu's guard, had not been able to ensure Fang Mu's safety during this period.

Even in the ancient battlefield, her presence became a burden for Fang Mu.

This made She Wan feel both depressed and terrified.

If she couldn't protect Fang Mu, then her identity as a guardian would become a joke!

She Wan bowed deeply to Fang Mu, apologizing earnestly.

"Young Master, it's my fault that I haven't fulfilled my duty as a guard!"

Fang Mu stretched out his hand and patted She Wan's shoulder upon hearing this.

"Sister Wan, you're the one who protected my life when the Evil Heart Sect attacked JA City!"

"How can you say that you weren't fulfilling your guard duties?"

"I gained a lot from exploring the ancient battlefield this time, and Master would give me many rewards."

"When the time comes, I will pour a large amount of resources into you to help you rapidly increase your strength."

"Apart from guarding, you also have the ability to negotiate with other forces on my behalf."

"What I value more than a guard is talent in internal affairs!"

"Remember not to belittle yourself - your strength will soon catch up!"

A great surge of surprise and emotion flashed unchecked in She Wan's eyes upon hearing these words.

If one were to say that two months ago, when she first came to Fang Mu's side, She Wan would have been surprised that her strength was about to be improved upon hearing Fang Mu's words.

Now, what was more surprising to She Wan was that she could be trusted by Fang Mu.

After finishing speaking to She Wan, Fang Mu turned his attention to Lu Xiaoyin.

"Xiao Yin, you should also try to upgrade your Beast Master level as soon as possible and become a Hexagram Beastmaster!"

"You have only contracted with a Crowned Scorpion-Lion, you should be most compatible with large Beast Familiars."

"I will find some good Beast Familiars for you to choose from!"

Fang Mu's words certainly warmed the hearts of both She Wan and Lu Xiaoyin.

Lu Xiaoyin was previously just a leader of attendants in JA City Creators Guild, but he received such treatment from Fang Mu.

This made Lu Xiaoyin feel a sense of loyalty and gratitude towards Fang Mu!

For a moment, Lu Xiaoyin was filled with various emotions and didn't know what to say to express his gratitude to Fang Mu.

"By the way, Xiao Yin, you go on my behalf and communicate with the Green Magician of the Ancient Genesis. Confirm the number of Elixirs we need to trade with the Green Magician."

During this trip to the Panfeng Federation, not only did Fang Mu grow, but Lu Xiaoyin and She Wan also expanded their horizons.

As Fang Mu's personal housekeeper, Lu Xiaoyin was able to converse equally with the heads of the Lu Du Five Families.

Even the heads of Lu Du Five Families had to please him.

Now he even had the opportunity to negotiate with top powers like the Green Magician on behalf of Fang Mu!

This gave Lu Xiaoyin a more profound understanding of his own value.

"Rest assured, Young Master, I will definitely handle this matter well and won't let you down!"

All the while, there wasn't a trace of tension or fear in Lu Xiaoyin's voice. Lu Xiaoyin understood that he represented Fang Mu in his negotiations with the Green Magician from the Ancient Genesis.

Any hint of cowardice or anxiety on his part would be tantamount to losing face for Fang Mu!

After Lu Xiaoyin left, She Wan seriously recommended to Fang Mu.

"Young Master, Scorpion-Lions have a strong synergy with each other."

"If you plan to prepare new Beast Familiars for Xiao Yin, I suggest continuing to choose among the Scorpion-Lion Familiars."

"Within our She Family exists a unique scorpion-lion, known as the Demon Silk Scorpion-Lion."

"The Demon Silk Scorpion-Lion is a rare Soul-System Beast. According to extensive research by scholars and creators, establishing a contract with a Soul-System Beast can have excellent effects on the development of the brain and soul!"

"It would be a good idea for Xiao Yin to develop her brainpower in her future role as your personal housekeeper!"

She Wan saying this firstly due to her good relationship with Lu Xiaoyin, otherwise, She Wan wouldn't have offered her anything from the She Family.

Secondly, She Wan hopes to further improve her relationship with Lu Xiaoyin.

Due to Fang Mu's explicit confidence in her, She Wan knows that Fang Mu doesn't hold any prejudices against Lu Xiaoyin due to her abilities.

He will continue to rely on Lu Xiaoyin in the future!

Whatever She Wan says to Fang Mu, he will definitely convey to Lu Xiaoyin.

Upon learning this, Lu Xiaoyin will undoubtedly be indebted to her.

Since both she and Lu Xiaoyin work under Fang Mu, their relationship should be good.

Like Yin Nanzhen, who serves as Fang Mu's charioteer, She Wan would assist him in many ways, but would not seek a closer relationship with him.

Yin Nanzhen was made a charioteer by Fang Mu because there were not enough people under Fang Mu's command, so Yin Nanzhen benefited.

Yin Nanzhen's Hellhounds need more time to advance in rank, and Fang Mu could replace Yin Nanzhen at any time.

She Wan knows that Fang Mu intends to build a Contemplation Hall, so Yin Nanzhen will most likely work there in the future.

Fang Mu is always good to those who follow him, so Yin Nanzhen will probably become a junior leader in the Contemplation Hall.

This can be considered as Yin Nanzhen's blessing!

If it were not for Fang Mu, Yin Nanzhen might still be fretting about obtaining the Light Element Potion!

If Yin Nanzhen only had limited power, he would not have been ousted immediately.

The crucial thing is that Yin Nanzhen's knowledge and emotional intelligence are insufficient to handle the responsibilities of being Fang Mu's driver.

She Wan can clearly see this.

"Sister Wan, Xiao Yin will surely be delighted that you have been considering her for Beast Contracting."

"You should tell Xiao Yin about this yourself, and see if she's interested in the Demon Silk Scorpion-Lion!"

Upon hearing this, She Wan bowed respectfully to Fang Mu.

"Young Master, you have worked hard in the Ancient Battlefield. You should rest and catch up on sleep!"

"Once Xiao Yin's negotiations with the green magician are complete, I will wake you up immediately, should you require it!"

Fang Mu waved his hand at her words.

"I don't need to rest, but I do have some guardian beasts to cultivate."

"You should guard the outside for me and remember not to let anyone disturb me!"

"If Elder Shu or Ah Shui are looking for me, knock on the door and let me know."

Hearing this, She Wan nodded and quietly left the room, closing the door behind her.

Fang Mu stretched lazily in his room, then raised his hand to summon the Abdominal Territory Worm.

The worm had been regularly fed high-purity space potions by Fang Mu recently.

Now, the Abdominal Territory Worm had already reached the 10th level of Platinum Rank. It had basically reached the limit of Epic Quality!

If Fang Mu hadn't been trying to elevate the worm's rank to Legendary Quality at Platinum Rank before raising it to Diamond Rank,

The Abdominal Territory Worm would already be a beast at the Diamond Rank!

Although Fang Mu hasn't contracted with the Abdominal Territory Worm, it has developed thoughts since being nurtured and fed by Fang Mu.

The Abdominal Territory Worm has deep feelings for Fang Mu.

The Gold Rank skill [Secret Realm Energy] of the Abdominal Territory Worm still hadn't specified what kind of energy to use as the special energy source within its abdominal space.

Now that Fang Mu can prepare spiritual energy, he plans to make spiritual energy the designated energy for the Gold Rank Skill [Secret Realm Energy].

In this way, the Abdominal Territory Worm will be able to generate spiritual energy for its abdominal space by consuming its own Life Energy.

To replenish the Life Energy of the Abdominal Territory Worm, you only need the Life Elixir.

The Gold Rank Skill [Secret Realm Energy] of the Abdominal Territory Worm essentially allows Fang Mu to gain a large quantity of Spiritual Energy through the Life Elixir.

From now on, Fang Mu should be able to freely utilize Spiritual Energy!

Chapter 769 Great Transformation of the Abdominal Space!_1

Many Creators express a desire to unravel the secrets of the Fifth and Sixth Epochs.

But to Fang Mu, these declarations by Creators are less like goals and more like empty slogans.

A goal is something achievable through effort, while a slogan is more often an empty longing.

How can they talk about exploring the Fifth and Sixth Epochs when they can't even freely prepare and use Spiritual Energy!?

Achieving freedom with Spiritual Energy is fundamental to exploring the Fifth and Sixth Epochs.

Although Fang Mu is quite curious about the situation in the Fifth and Sixth Epochs, his focus isn't on exploring them.

Instead, he's focused on his own development in the Seventh Epoch. After all, one must always look forward!

Fang Mu took the spiritual energy concentrated in the past few days, by the Five Blessings Orchid Longevity Absorbing Spirit Goldfish, using the Silver-tier skill [Liquid Spirit Compression].

This spiritual energy was jointly released by several Sun and Moon Jellyfish and Yunque Hibiscus. Fang Mu didn't immediately feed the purified spiritual energy to the Abdominal Territory Worm.

Instead, he first summoned Xixi to devour this spiritual energy for purification.

The purer the spiritual energy the Abdominal Territory Worm absorbs to use as Mysterious Realm Energy, the better!

To Xixi, purifying this spiritual energy was trivial. Hundred percent pure spiritual energy was purified by Xixi.

Fang Mu carefully fed this spiritual energy to the Abdominal Territory Worm.

Fang Mu discovered that the moment the Abdominal Territory Worm absorbed this pure spiritual energy, its body color gradually changed from silver-gray to a transparent color.

During this process, the size of the Abdominal Territory Worm kept decreasing until it became only as large as Fang Mu's forearm!

The Mechanism Fortress, affected by the spatial energy of the Abdominal Territory Worm, also decreased in size.

Even without the concealment of the Void Mist, the Abdominal Territory Worm, which underwent changes after absorbing pure spiritual energy, would be very hard to detect.

After being concealed by the Void Mist, unless you have a very strong exploration skill, you would never be able to find the trace of the Abdominal Territory Worm.

Although the size of the Abdominal Territory Worm became smaller, if Fang Mu wanted it to enlarge its body,

The Abdominal Territory Worm only needed to fill its body with spatial energy, and its size would instantly grow enormously!

The Abdominal Territory Worm underwent such a massive change after absorbing pure spiritual energy, it clearly had nothing to do with the Abdomen Environment, but the evolution influence of the pure spiritual energy itself.

Now the pure spiritual energy has become the Mysterious Realm Energy bound to the Abdominal Territory Worm.

Fang Mu communicated with the Abdominal Territory Worm, and the Abdominal Territory Worm directly pulled Fang Mu into its Abdomen Environment.

Upon entering the Abdomen Environment, Fang Mu measured the area of the Abdomen Environment.

At this time, the area of the Abdomen Environment was almost 500 square meters, which was enough for Fang Mu to use!

As the rank of the Abdominal Territory Worm gets higher and higher, the interior area of the Abdomen Environment will continue to increase.

The Abdomen Environment can be modified at will, but Fang Mu himself is not a craftsman and does not have the ability to build the Abdomen Environment independently.

If you want to change the environment, craftsmen are no better than the gnomes produced by the underworld.

The climate in the Panfeng Federation is arid, mainly dominated by deserts and wastelands.

In such an environment, it is easiest to tunnel a Subterranean Dimensional Rift. There must be a reserve of gnomes within the Panfeng Federation!

Fang Mu contacted Liu Xi, asking him to control Huang Yuan to dispatch two gnomes for his use.

After Fang Mu brought these two gnomes to the Abdomen Environment, he began to negotiate with them.

He asked the two gnomes to help him build a winding stream with Azure Jade Fragments that could house the Plant Spring Eye.

This stream, covering an area of nearly one hundred square meters, can make maximum use of the Plant Spring Eye.

After being captured by humans, the most basic thing for gnomes is to learn human language.

These two gnomes clearly understood Fang Mu's needs.

Gnomes are sly, greedy, crafty, and very timid. This makes gnomes try their utmost to satisfy human requests, just to stay alive.

After understanding Fang Mu's needs, these two gnomes perfectly completed the construction of the stream.

The winding stream is one meter wide and approximately eighty centimeters deep.

The flowing form has a very elegant beauty. This is the talent of gnomes in construction.

Even a Master Craftsman would have trouble comparing with gnomes on this aspect of talent!

Fang Mu recalled that he had harvested quite a number of fully jadified Xufeng Pear Woods during the assessment.

After Xufeng Pear Wood undergoes a metamorphosis in a high-purity spiritual energy environment, it has the effects of anti-corrosion, releasing soothing wind, and maintaining fresh air.

Under the nourishment of spiritual energy, it emits a source color of light that matches the wood itself.

There is no light in the Abdomen Environment of the Abdominal Territory Worm. Fang Mu was using a type of plant-type beastmaster called Sunlight Morning Glory for lighting.

This plant-type beastmaster, Sunlight Morning Glory, needs to absorb sunlight in the outside world in order to gain a temporary lighting function.

Using it in the Abdomen Environment is not a long-term solution!

When Fang Mu took out the completely jadified Xufeng Pear Woodboard after, the Xufeng Pear Woodboard felt the spiritual energy and released a clear amber-colored light.

A piece of Xufeng Pear Woodboard illuminated at least two square meters of the surrounding environment!

Fang Mu collected at least a thousand pieces of Xufeng Pear Woodboard. He let the two gnomes place the Xufeng Pear Woodboards inside the stream.

Chapter 770:

In Fang Mu's hands, the near-thousand Xufeng Pear Woodboards, perfectly covered the winding stream several hundred meters long.

Fang Mu placed the Plant Spring Eye in the stream, and within twenty minutes, the plant-laden spring water it ejected filled the stream completely.

It also resulted in a water cycle at the end of the stream.

Gazing at the scene before him, Fang Mu felt as though he had created a river of stars in the night sky!

The stream emanating an amber glow set a unique ambiance, enhancing the beauty of the Abdominal Space instantly!

Fang Mu planned to collect more precious wood in the future to place within the Abdominal Space.

As the density of spiritual energy within the Abdominal Space continually increased, any precious wood placed within would naturally undergo a jade transformation!

Fang Mu set down the four Sun and Moon Jellyfish and Five Blessings Orchid Longevity Absorbing Spirit Goldfish he held in his hand into the stream.

Instantly, the stream was imbued with life.

While gathering the Five Blessings Orchid Longevity Absorbing Spirit Goldfish, Fang Mu also harvested a special type of seaweed.

The Fish Tail Veil Algae, a beautiful annoyance, was planted by Fang Mu beneath the Spirit Spring Eye.

The flowing water on the Fish Tail Veil Algae made it sway and bloom like a white dress.

Subsequently, Fang Mu deposited the fish eggs of the Absorbing Spirit Goldfish in the Fish Tail Veil Algae.

Under the washing of the Plant Spring, these eggs absorbing water elemental energy and spiritual energy should hatch soon.

Once these Absorbing Spirit Goldfish hatch, there will be at least two to three hundred of them swimming within the winding hundred meters of the stream!

After carefully positioning these eggs of the Absorbing Spirit Goldfish, Fang Mu planted the Yunque Hibiscus in a part of the stream.

He meticulously prepared this section for the Gnome to design, placing some substrates suitable for plant anchorage.

This area would be used by Fang Mu for nurturing plant-type beastmasters in the future.

Upon finishing with the acquisitions of the ancient battlefield, Fang Mu did not forget about the Blood Brewing Grapevine, a plant-type beastmaster.

The Blood Brewing Grapevine was a reward for Fang Mu after he unlocked the first Epoch relic.

Upon scrutinizing the data of the Blood Brewing Grapevine with the Eye of Omniscience, Fang Mu was eagerly anticipating the bearing of its fruits.

If he could consume the fruits of the Blood Brewing Grapevine to boost his rate of blood production, then the rate at which Fang Mu forms Covenant Blood Essence would significantly surge!

Fang Mu placed the Blood Brewing Grapevine, grown within the Plain Jade Basin, by the winding stream.

Therefore, the spring water from the Plant Spring could fill the Plain Jade Basin, providing the Blood Brewing Grapevine freedom to absorb the spring water.

Fang Mu did not forget the Sunset Elegant Lotus and the Lotus Companion Jade Cicada he had collected from the relic.

The Sunset Elegant Lotus could also produce spiritual energy, so before planting it in the substrate within the stream, Fang Mu harvested all the lotus roots.

These lotus roots will be ground into powder by She Wan and stored away without delay.

Upon his return to the Dragon Rising Federation, Fang Mu should be able to regenerate Fang Qin's severed fingers.

This would restore Fang Qin's right hand to its original condition!

The Lotus Companion Jade Cicada obediently settled on the bud of the Sunset Elegant Lotus.

The Sunset Elegant Lotus still needed time to bloom.

Once the Sunset Elegant Lotus blooms and enters the Dusk condition, the brightness within the Abdominal Space will receive a boost.

The whole stream will emanate the feeling of being bathed in the glow of the setting sun!

Even if the Lotus Companion Jade Cicada flutters around, it won't escape the five-hundred-square-meter Abdominal Space.

As of now, Fang Mu has arranged everything that needed to be arranged, but it will take a certain period for the density of spiritual energy in the Abdominal Space to increase.

Firstly, even if enough life energy is provided for the Abdominal Territory Worm, there is a certain limit to the amount of spiritual energy it can produce by consuming life energy.

Once there are too many targets absorbing spiritual energy within the Abdominal Space and the demand for spiritual energy becomes too large,

then the density of spiritual energy within the Abdominal Space would become unable to rise!

Secondly, the ranks of the Sun and Moon Jellyfish, Yunque Hibiscus, and Sunset Elegant Lotus are still too low.

Wait until the ranks of the Sun and Moon Jellyfish, Yunque Hibiscus, and Sunset Elegant Lotus increase, and the ranks of the hatched Absorbing Spirit Goldfish all rise to Silver Stage or higher,

then the density of spiritual energy in the Abdominal Space would be very considerable!

Fang Mu only staged a simple arrangement for the Abdominal Space, he would gradually perfect it over time.

After leaving the Abdominal Space, Fang Mu recalled the Abdominal Territory Worm back into the Purple Ice Crystal Ring.

Once the Abdominal Territory Worm reaches the Diamond Rank and can freely mimic, Fang Mu can keep the worm on him!

Just after Fang Mu left the Abdominal Space, he heard someone knocking on his door.

Fang Mu lightly tapped the table with his hand.

Upon receiving his signal, Lu Xiaoyin pushed the door open and walked in.

"Master, I have exchanged name lists with the Green magician of the Ancient Genesis."

"According to the list of pollutants and sources of contamination provided by the Green magician, and based on the conditions you provided, you'll need to provide the Green magician with thirteen Life Elixirs of ninety percent purity, and eighteen Wood Element Potions of the same purity."

"The Green magician said he can provide the resources on the list immediately."

Lu Xiaoyin passed the list to Fang Mu as she spoke.

Lu Xiaoyin made it very clear, the Green magician wants to proceed with the trade immediately.

But Lu Xiaoyin wasn't sure if Fang Mu could provide such a large number of potions at this time.

Hence, Lu Xiaoyin didn't give a definite answer to the Green magician, but came back to report to Fang Mu and let him make the decision.

Fang Mu was trading with the Green magician for the first time, and the whole process was being done privately.

Therefore, Fang Mu had no reason to restrain his strength and delay the transaction.

On the contrary, providing these potions to the Green magician immediately would increase the value of his transactions with the magician.

He knew clearly the strength of his side!

Fang Mu took out the thirty-one potions for trade from the Purple Ice Crystal Ring, and placed them in a leather case specially for storing potions.

"Xiao Yin, take these potions to the Green magician right now, then take Sister Wan to inspect these pollutants and their sources."

"Bring them back to me after confirming their accuracy!"

Upon hearing his words, Lu Xiaoyin carefully took the leather case from Fang Mu's hands, and before leaving the room, she said to Fang Mu.

"Master, the Green magician would like to invite you to visit Sprouting City. Are you interested?"

Fang Mu raised his eyebrows upon hearing this.

Sprouting City, the stronghold of the Ancient Genesis, is divided into an inner and outer city.

Only core members of the Ancient Genesis can enter the inner city, while the outer city is more like a large trading market.

However, there's no absolute guarantee on the goods traded within the market of the outer city; it was easy to be fleeced!

Only those who are desperately wicked and have no other resort would choose to come here.

Fang Mu had absolutely no interest in visiting Sprouting City.

Therefore, Fang Mu shook his head at Lu Xiaoyin.

"Xiao Yin, tell the Green magician, we will have opportunities to trade in the future."

"If he wants to communicate with me conveniently, let him prepare a Communication Beast."

Upon hearing his words, Lu Xiaoyin finally let out a sigh of relief.

During the negotiation with the Green magician, Lu Xiaoyin could feel the immense pressure the magician brought.

People like him, who formed contracts with pollutants without any emotions were extremely dangerous.

Lu Xiaoyin was afraid that the Green magician might harm Fang Mu.

What Lu Xiaoyin didn't know was that her master, Fang Mu, had already become the apple of the Green magician's eye.

The Green magician was astonished that Fang Mu could come up with thirty-one Grandmaster-level potions right away.

This trade made the Green magician fully aware of the depth of the Infinite Tower, which excited him as if he had found a treasure.

The Green magician didn't feel a bit sorry for Fang Mu's rejection of his invitation.

After all, his invitation was just a perfunctory courtesy, aimed to show goodwill to Fang Mu!

What the Green magician valued more was the opportunity to continue trading with Fang Mu in the future.

And this opportunity, Fang Mu had already promised.

Long-distance Communication Beasts were extremely precious, but for such an opportunity, the Green magician was willing to offer a pair of such beasts, giving one to Fang Mu.
