

Beast Tamer 80

Chapter 80 Human Oil! _1

After repotting the Fragrant Peony and moving it to the patio, Fang Mu shook the crystal bottle with just over 600 milliliters of Blood Aged Wine left.

He poured the Blood Aged Wine into the stone pot growing the Age Fix Palm.

The stone pot growing the Age Fix Palm was two meters in diameter, enough to facilitate the growth and expansion of the palm's root system.

The transformation of the Age Fix Palm during its evolution was far less stunning than that of the Fragrant Peony.

But it still transformed!

Firstly, the Age Fix Palm was like a heartbroken fat person, channeling his fury into eating.

The trunk of the Age Fix Palm visibly began to expand.

The trunk of the Age Fix Palm was originally about the same thickness as Fang Mu's thigh.

Now, the trunk of the Age Fix Palm was large enough to accommodate four Fang Mu's standing upright.

As the trunk thickened, its bark continuously cracked open, and a significant quantity of palm oil oozed out of the fissures.

This oil made the entire trunk greasy, turning it into an "earthly oil item!"

When the trunk's thickness expanded to about one meter, its growth stopped.

The color of the leaves at the top of the trunk darkened, becoming shorter than before.

Between the leaves of the Age Fix Palm, many fist-sized dark green fruits began to form.

The surface of the fruit was covered in a thick layer of oily fat.

Droplets of fat steadily dropped from above, splashing on the flower pot beneath.

This made the entire pot of soil oily, resembling a pot of sesame paste.

Fang Mu thought to himself.

if those ladies knew that the ingredients they crazed over in their skincare products were produced by this “Oil King” in front of them.

What would they think!?

But after Fang Mu used the Eye of Omniscience to inspect the Age Fix Palm that just finished its transformation.

He changed his initial idea. [Beast Name]: Restoring Appearance Palm

[Beast Species]: Arecaceae/Palm [Beast Level]: Bronze (3/10) [Beast Element]: Wood [Beast Potential]: Silver [Beast Quality]: Ordinary

Skill:

[Cute Face]: When infused in its secreted oil, the state of the skin gradually reverses to its youthful appearance. With long term use, the reversal will not revert back.

Evolution Path:

1 Shotgun Palm, 2 False Smile Palm, 3 Mucus Palm.

After Age Fix Palm had transformed into Restoring Appearance Palm, it could actually make the state of the skin gradually revert to its youthful appearance!

Although this could not increase the lifespan of a person, it certainly had a miraculous effect of reversing age in terms of appearance.

And furthermore, constant use of Restoring Appearance Palm's secreted oil could even ensure the effect of age reversal did not diminish.

Keep in mind that the Age Fix Palm was used to help slow the aging process after its use.

But for those who were already old, the Age Fix Palm brought about any effect.

If the oil from the Restoring Appearance Palm was added to cosmetics, granting them the miraculous effect of "reverse aging". Who knows how many women would go crazy over it!

No! Many men would go crazy for it too!

I'm afraid there's no one who after growing old wouldn't wish to regain their youthful skin condition.

To regain the appearance of their youth!

Previously, Fang Mu merely wanted the "Peach Beguile" brand to dominate a position in the high-end cosmetics market and that would be enough.

But now with the power of Restoring Appearance Palm, “Peach Beguile” has the potential to tower above other cosmetics brands.

Fang Mu was unsure whether this world had a Heaven Fragrance Peony.

But he was sure this world certainly didn’t have Restoring Appearance Palm!

If Restoring Appearance Palm had truly existed in this world before.

Those cosmetics brands who were fighting tooth and nail, raising their status just to snatch the market share.

Would have already played this trump card, striking down their opponents!

Fang Mu sighed in his heart, his blood was truly a treasure!

Amidst all this disbelief, an inexplicable sense of crisis also arose in Fang Mu’s heart.

No one other than himself must know about this!

Even Fang Qin, Fang Yuan, and Yan Wood were no exceptions!

It wasn’t that Fang Mu didn’t trust the three.

But rather, after knowing this, not only would they not benefit, it may even put them in potential danger because of him.

Fang Mu watched as the oil from the Restoring Appearance Palm continued to drip into the basin.

He took out an iron bucket immediately, then inserted a drainage tube designed for extracting oil from palm trees into the lower part of the Restoring Appearance Palm's trunk.

A large amount of bright yellow oil immediately began to flow through the drainage tube and into the bucket.

The twenty- litre capacity bucket was quickly filled up.

Fang Mu carefully scraped the oil from the edge of the bucket into it.

Although it might seem like the Restoring Appearance Palm was producing oil like it was free, every drop of its oil was, in fact, immensely valuable.

It could allow many to fulfill their youthful regrets.

The youth of the sisters would be protected by Fang Xiaomu in the future!

After Fang Mu placed the second iron bucket beneath the drainage tube, the speed at which the Restoring Appearance Palm produced oil began to slow down.

It would probably take a day or two to fill this bucket.

When Fang Mu was extracting the oil just now, he had already considered the three evolutionary paths of the Restoring Appearance Palm.

The Shotgun Palm was all about hardening and increasing the quantity of fruits the Restoring Appearance Palm produced. By shaking its trunk, it can disperse its fruits like shotgun pellets.

To Fang Mu, this evolutionary path gave off a low-end vibe at every turn.

It also changed the Restoring Appearance Palm's positioning entirely.

The False Smile Palm retained the Restoring Appearance Palm's effect, but after using it, everyone would wear a mask of a smile.

Just like an "entertainer" singer from Fang Mu's past life, who sported a semi-permanent smile!

People are diverse, and expressions are the most vivid way for them to express their emotions.

Therefore, no matter how you look at it, the False Smile Palm just doesn't stand up to the Restoring Appearance Palm's effect.

As for the third evolution, the Mucus Palm, it's similar to the Shotgun Palm.

Both strengthen the Restoring Appearance Palm's combat capability.

Combat capabilities are not what a production type beast needs at all!

Turning tree oil that can restore youth into disgusting mucus, it's a deal that only fools would make!

Therefore, Fang Mu decided to simply not let the Restoring Appearance Palm evolve anymore!

To promote rank while ensuring the preservation of the inherent bloodline!

Fang Mu poured the remaining 300 ml of Blood Aged Wine back into the Blood of Abundance.

Then, he began to mix Spiritual Liquid with Life Crystal to water and cultivate the other beasts that needed nurturing.

After all these things were done, Fang Mu looked around at the environment in front of him.

He suddenly had the idea to buy a large house.

Firstly, Fang Mu now had enough financial means.

Secondly, he needed a secluded and private environment to serve as the cultivation place for his beasts.

The Jinghai Tianyu University and Jinghai High School for Beast Masters are not far from each other.

Fang Mu intended to apply to Jinghai Tianyu University later, so he might as well pick a large house near the university!

Firstly, this would provide a convenient spot for him around the university when he started college.

Secondly, the old house in which Fang Mu was now living had many aging facilities.

When Fang Qin, Fang Yuan, and Yan Wood came home to celebrate the new year together, the house would seem somewhat cramped.

Fang Mu did not want to refurbish the old house that had been his home since childhood.

It is better to preserve it for nostalgia!

Fang Mu suddenly remembered that Lu Yuyu came from the Keystone Construction.

During the self-introduction to him, Lu Yuyu purposely emphasized this.

A few days ago, when Fang Mu logged onto the Beastmaster Web, Fang Yuan messaged him stating his intention to choose a piece of land appropriate for building a commerce office in the Capital.

After he made his selection, he would leave the final decision to Fang Mu.

Fang Mu had previously thought of introducing Lu Yuyu to Fang Yuan, wanting to lighten Fang Yuan's load.

Why not wait until the day after tomorrow when he sees Lu Yuyu again, and mention these two things to him?

As a Ktext to JA City, Lu Yuyu must know which houses around Jinghai Tianyu University are the best!

Furthermore, seeking Lu Yuyu's help for Fang Yuan, asking Keystone Construction to build Mu Commerce Association's headquarter, is essentially securing a significant project for Keystone Construction—Lu Yuyu has no reason to refuse.

Lately, Fang Mu noticed that Lu Yuyu seemed to want to say something to him but didn't know how to broach the subject.

If he, Fang Mu, takes the initiative to ask Lu Yuyu for help, then Lu Yuyu should have the courage to open up, right?

After arranging everything, as usual, Fang Mu started reading.

He read until one in the morning.

As soon as it was one o'clock, Fang Mu promptly closed his book, "Wood Attribute Mysterious Patterns and Practical Applications".

He laid flat on his bed, listening to the sound of oil dripping into the iron bucket, and quickly fell asleep to the sound of "sucking and sipping"..
