

Beast Tamer 811

Chapter 811: Fang Mu's Spirit Mayfly!

Seeing the expression on Fang Yuan's face, Fang Mu's face showed a relieved expression.

Fang Mu knew that Fang Yuan had taken his words to heart.

Fang Qin and Yan Wood also focused on improving their strength.

Just now, at the dinner table, Yi Han had received a message and subtly revealed some content to himself.

The three major departments of the Dragon Rising Federation, the Dragon Guard Sacred Hall, the Beastmaster Alliance, and the Purple Que School Palace, jointly screened the younger generation for talent.

Although Fang Mu did not know the purpose of this talent screening, being selected surely had its benefits!

Whether it was Fang Qin, Fang Yuan, or Yan Wood, in terms of Beast Master rank, they all excelled among their peers.

What they previously lacked were sufficient resources to cultivate their Guardian Beasts.

These could be compensated for with sufficient Creator resources.

Therefore, Fang Qin, Fang Yuan, and Yan Wood all had the qualifications to compete.

Yi Han's words were very vague, allowing Fang Mu to only glean one important piece of information.

That was that the Dragon Rising Federation wanted to unearth strong individuals among the younger generation.

Those discovered by the joint efforts of the three departments of the Dragon Rising Federation would definitely obtain excellent resource support.

The Fang Family did not care about high-end Creator resources; Fang Mu had plenty of them.

But the prestige and power that derived from this were worth Fang Mu spending his efforts on.

Since it was a grand event targeted at the youth, the news should be disseminated soon.

In the Beastmaster world, where the average lifespan reached one hundred and fifty years, the concept of youth was very broad.

It was impossible to have teenagers over ten competing on the same stage with youth in their thirties, so the competition would definitely be divided by age ranges.

It was similar to the age division battles in the Battle Network.

Only when competitors of close ages competed could the stronger and weaker be discerned.

Thinking of this, Fang Mu felt confident.

Fang Yuan, Fang Qin, and Yan Wood had all attended Jinghai High School for Beast Masters on their own merit.

Later, they advanced to Janghai Sky Domain University and became honored alumni.

They were already exceptionally outstanding among their peers!

During this time, with Fang Mu providing Grandmaster Creator resources for the three, they had completely risen.

Offering them a high volume of high-purity elixirs in a short period could further enhance their strength.

Yan Wood was Yi Han's disciple, and Fang Qin was "Dragon Mother's" disciple.

Both would certainly hope their disciples would come out on top in this grand event.

Before the selection started, they would provide targeted guidance to Yan Wood and Fang Qin.

The knowledge and experience in Mr. Zi's brain, controlled by Liu Xi, had not disappeared.

Fang Yuan currently had no mentor, no one to teach him.

With Mr. Zi's strength and vision, while protecting Fang Yuan, he could serve as Fang Yuan's guide.

Actually, rather than saying Mr. Zi was guiding Fang Yuan, it would be more accurate to say Liu Xi had become half a mentor to Fang Yuan.

An Evil Spirit transformed from a being of five or six Epochs would have a broader understanding than the strong individuals of this era.

If placed in Fang Mu's previous life, anyone with such a spirit providing guidance would be like the protagonist of a novel.

Faced with his younger brother, Fang Mu saw no need to hide the message Yi Han had just conveyed.

“Second Brother, you are only twenty-six this year, and under your management, everything at the Commerce Association is on the right track,” Fang Mu said.

“Afterward, you should cultivate some confidants. You only need to make decisions on major matters!”

“The Contemplation Hall does not need urgent development. As long as the people below are sharp enough not to make mistakes, everything will go just as you expected without any problem!”

“Yi Han told me that the Dragon Rising Federation will divide the younger generation into several age groups and then select talent within these age segments.”

“Second Brother, I think you have the ability to come out on top in the selection.”

“This is the reward my master gave me after completing this period of Cultivation. I’ve already taken what I need; the rest I’ve divided into three parts, and this is yours,” he continued.

“Second Brother, rather than rushing to improve the quality of the Guardian Beast, it’s more important to enhance the Guardian Beast’s Bloodline.”

“Improving quality can be seen as a medium that induces the transformation of the Guardian Beast’s Bloodline.”

With Qixing as a cover, Fang Mu no longer needed to explain why he provided high-star Creator resources to his family.

Every time he provided resources for Fang Qin, Yan Wood, and Fang Yuan, the three always feared that accepting them would impact themselves.

So this time, Fang Mu smartly stated that he had taken out what he needed, also effectively silencing the three of them.

Fang Mu could skillfully use an actor’s self-cultivation when performing for outsiders.

But when faced with his family, Fang Mu did not wish to disguise himself.

However, Fang Mu was well aware that such disguise was necessary.

Because sometimes, pretending is the best camouflage to protect one’s family.

If Fang Qin, Fang Yuan, and Yan Wood knew the real situation, could they really keep from showing any cracks when facing a giant like Master Yi Han?

Fang Yuan, hearing Fang Mu say so, did not stand on ceremony with him.

Fang Yuan was also very enthusiastic about improving his strength.

Under Fang Mu's persuasion, Fang Yuan also realized that he should not devote all his time to managing the Commerce Association.

Jianmu Commerce Association was already developing healthily, and he really need not rush.

"Little Wood, I'll say it again, no matter what happens, take care of yourself first and do not do anything that would upset your master!"

Fang Yuan did not know much about Grandmaster Creators, and the only one he genuinely knew was Yi Han.

During his time at the Ten Thousand Treasures Commerce, Fang Yuan had deeply felt the peculiar temperaments of the Creators.

Chapter 812: Fang Mu's Spirit Mayfly!_2

Fang Yuan was worried that Fang Mu might become arrogant due to being doted on, so he gave Fang Mu a reminder.

Fang Mu always took things from home, and it probably wouldn't make Qixing happy, right!?

Upon hearing this, Fang Mu smiled and nodded his head.

"Little brother, it's getting late, you should go back and rest!"

"Aren't you supposed to attend a dinner tomorrow hosted by a few Master Creators? Those Master Creators are indeed worth making connections with!"

Just like when they were children, Fang Yuan rubbed the top of Fang Mu's head with the palm of his hand upon hearing this.

Fang Mu's hair was very soft and felt extremely comfortable to touch.

"Little Wood, you should also rest early. Recently, Xiao Yan was so focused on the Club Guild, working day and night, that she developed chest pain."

"Thankfully, Xiao Yan recovered in time and replenished her energy."

"Otherwise, overexertion could easily lead to chronic illness!"

"These days, unless it's something urgent, I no longer stay up late like I used to!"

Due to the Royal Beast Blood Abundance, Fang Mu's physical constitution had long since surpassed that of ordinary humans.

Now, if not for needing to allow the Covenant Servant Soul Ant Queen to extract souls at night, Fang Mu's rest time could be reduced to under three hours.

So, there was really no issue of Fang Mu not resting well.

“Don’t worry, big brother, I’ll take care!”

“And you shouldn’t stay up late for the commerce association’s matters either.”

“By the way, big brother, if you have any doubts about enhancing your strength, you can directly contact the Guardian I left at the Jianmu Commerce Association.”

“He is more than willing to explain and solve problems for you!”

“As long as it doesn’t involve knowledge at the level of Order, he would almost certainly give you the answers without any reservation.”

Upon hearing this, an expression of great joy couldn’t help but appear on Fang Yuan’s face.

Fang Qin and Fang Yan Xian now have one being taught by the Dragon Mother, one of the three major bishops of the Garbage Man Guild, and the other by the newly minted Grandmaster Creator Yi Han.

But previously, Fang Yuan hadn’t had such opportunities.

Now, not only had Fang Mu equipped him with a powerful guard, but he had also provided him with an excellent mentor.

With a mentor to guide him, many things that had previously puzzled him would likely now be resolved easily!

Having set his future goal on enhancing his strength, Fang Yuan felt a fervor in his heart that he hadn’t felt in a long time.

It had been quite a while since he had last logged into the Battle Network.

During his college days, the thing Fang Yuan loved most was to log into the Battle Network for duels, to assess the improvements in his abilities over that period.

After these busy days, Fang Yuan felt that he should find an opportunity to log into the Battle Network and revive his youthful passion.

More importantly, competing on the Battle Network could indeed help enhance his abilities.

Constantly facing opponents of equal or greater strength on the Battle Network also saved Fang Yuan the trouble of finding sparring partners.

Just as Fang Mu had returned to his room and before he had time to pour a cup of tea, he received a call from Yi Han.

“Little Wood, I called Zhao Deng when I came back.”

“Zhao Deng hasn’t been out recently and is just in the Capital.”

“I told Zhao Deng to send that Spirit Mayfly over to you!”

After taking Fang Qin as a disciple, the relationship between Yi Han and Fang Mu had completely closed the gap.

Now, Yi Han no longer thought about how to please Fang Mu.

But as the saying goes, put yourself in others’ shoes.

Yi Han believed that Fang Mu could feel how earnestly he was working for him,

otherwise, as a Grandmaster Creator, there was absolutely no need for him to personally tend to such matters immediately after attending a feast at Jianmu Commerce Association.

Normally, this was something Cai Guili should negotiate with Zhao Deng about.

Since Zhao Deng had always had a good relationship with him, and had come directly to him seeking affiliation after his promotion to Grandmaster Creator,

Yi Han had shared some details about Fang Mu with Zhao Deng.

Though Fang Mu had always waved the flag of Grandmaster Disciple, he had never publicly disclosed his standards as a Qixing Creator.

The knowledge of the Creator's standards in Qixing that the outside world comprehends all came from the elixirs Fang Mu had produced, as well as his repeated deifications and self-strategies.

Yi Han had already strategized himself, which caused Yi Han to exaggerate the situation a few notches when explaining to Zhao Deng.

Zhao Deng was a Master Creator, yet he exhibited an extremely humble demeanor upon visiting the Jianmu Commerce Association.

Despite this, Fang Mu did not neglect Zhao Deng.

Any Master Creator is a resource worth cultivating relationships with.

After receiving a call from Yi Han, Fang Mu specifically waited for Zhao Deng at the entrance of the Jianmu Commerce Association.

As soon as Zhao Deng got out of the Beast Car, he hurriedly walked towards Fang Mu.

He respectfully bowed and said,

“Sir Jianmu, I have long heard of your great reputation but never had the opportunity to seek an audience.”

“Now that I have the chance to meet you, it is indeed my honor!”

“My name is Zhao Deng, you can call me Xiao Zhao or Xiao Deng!”

“I hope I will have the opportunity to engage with you more in the future.”

Zhao Deng put on a humble demeanor, resolutely deciding to forge a connection with Fang Mu and thus probe what kind of character Fang Mu really had.

In Zhao Deng’s eyes, being noticed by a high-level Grandmaster Creator and becoming a Grandmaster Disciple at such a young age,

such a young man must be proud and possibly somewhat arrogant and presumptuous.

It was to cater to this kind of personality that Zhao Deng adopted such an attitude.

Zhao Deng did not realize that Fang Mu was not such a person.

Fang Mu quickly stepped forward to help Zhao Deng up, smiling as he spoke to Zhao Deng.

“Master Zhao, those are your words, I should be learning more from you!”

“You have gone out of your way to deliver Spirit Mayflies for me tonight.”

“Actually, I should have made an appointment with you and personally picked it up from your residence!”

“It’s dark and the road is long, Master Zhao, why not stay at the Jianmu Commerce Association tonight? I’ll have a room prepared for you.”

Zhao Deng learned from Yi Han that Fang Mu had just arrived in The Capital and even Yi Han felt it was inappropriate to stay too long at the Jianmu Commerce Association.

Zhao Deng would not engage in such an untimely manner.

By bringing the Spirit Mayflies today, he had made Fang Mu’s acquaintance and also gave Fang Mu a favor.

Managing the relationship with Fang Mu didn’t need to be rushed at this moment.

Zhao Deng carefully took a few more glances at Fang Mu.

To be such a prominent figure at a young age and still be so humble, no wonder he was favored by Qixing!

When Zhao Deng himself was as young as the young man before him, he did not have such maturity.

If Fang Mu were arrogant and haughty, such a person would not be worthy of Zhao Deng’s attention.

Zhao Deng would only use Fang Mu as a stepping stone to connect with Qixing, but now Zhao Deng was prepared to seriously build a relationship with Fang Mu.

Even without discussing Qixing, Fang Mu would certainly be a remarkable person in the future.

“Sir Jianmu, the Spirit Mayfly is enclosed in this silver Space Spirit Tool. I have research to continue tonight when I get back, so I will not disturb you any further!”

Having said that, Zhao Deng bowed again to Fang Mu, got into the Beast Car, and went back to his own mansion.

Fang Mu held the silver Space Spirit Tool in his hand, feeling his emotions surge.

Just then, while dining in the family activity room, new Contracting Blood had just condensed from the Blood of Abundance.

With this drop of Contracting Blood to bond the Spirit Mayfly, Fang Mu’s Rainy Doll, Subduing Dragon Nightmare Tiger, Yan Yubanruo, and Eden Dreamland Guardian Beats could all step into the Golden Stage ahead of schedule.

When Fang Mu completed his training at the Ancient Battlefield and parted ways with Qin Shao and Jin Ya, Qin Shao gave Fang Mu a Heart of the Elf from Lan River Rain Mother.

Fang Mu had not yet used it for the Rainy Doll.

Now that the Rainy Doll could advance to the Golden Stage with the help of the Spirit Mayfly, it could be induced to metamorphose through the Heart of the Elf from Lan River Rain Mother!

Hopefully, while mastering the skill “Rain Erosion,” the Rainy Doll could further stimulate the Elf Bloodline and ascend to become the Lake Flame Gemini.

Once ascended to Lake Flame Gemini, the Rainy Doll’s combat power could increase by at least three times.

After returning to his room, Fang Mu immediately released the Spirit Mayfly from the silver Space Spirit Tool.

Chapter 813: Transform! Rainy Doll!

The Spirit Mayfly at the Platinum Tier appeared no larger than a green bean to the naked eye and resembled a fast-moving, tiny orb of light.

Without an Innate Divine Ability like the Eye of Omniscience, even if one saw the Spirit Mayfly's true form, it would be hard to believe that this tiny light orb was actually a living being.

The Spirit Mayfly that Zhao Deng brought over had not yet been contracted, and its level was only at the Copper Stage.

After releasing the Spirit Mayfly, if it were not for Fang Mu's careful detection of its presence, it would also be essentially difficult to notice the Spirit Mayfly.

The Spirit Mayfly really lacked presence!

This sesame-sized weak light orb was extremely panicked at this moment, desperately trying to get away from Fang Mu.

However, it was easily confined within a narrow space by the Rainy Doll summoned by Fang Mu using a curtain of rain.

Fang Mu used the Eye of Omniscience to investigate the Copper Stage Spirit Mayfly.

Upon inspection, the data of the Spirit Mayfly appeared before Fang Mu.

[Beast Name]: Spirit Mayfly

[Beast Species]: Mayfly Family/Mayfly Genus

[Beast Level]: Copper Stage (8/10)

[Beast Element]: Spirit Series

[Beast Potential]: Silver

[Beast Quality]: Perfect

Skill:

[Mental Reserve]: With the continuous elevation of its stage, it increases its own spiritual power, keeping its spiritual power in a replete state.

Exclusive Trait:

[Mayfly Leaping]: In targeting a mass of spiritual power, it can directly enter the target's spiritual power for an instant mental transference between spirits.

Evolutionary Path:

1: Spirit Mayfly·Storage, 2: Spirit Mayfly·Slash, 3: Spirit Mayfly·Control.

Fang Mu noticed that the Copper Stage skills and Perfect Quality exclusive traits of this Spirit Mayfly were exactly the same as those of Cai Boshen's.

This indicates that the Spirit Mayfly is a type of Guardian Beast with highly stable growth.

During advancement, it relies on continuous enhancement of its genetic template rather than mutations induced by external stimuli.

With this in mind, Fang Mu felt that there was a certain likelihood his Spirit Mayfly could develop similar skills and exclusive traits to those of Cai Boshen.

However, this possibility was very slim.

Because the resources Fang Mu provided to the Spirit Mayfly were incomparable to what Cai Boshen could offer.

Even for stable-growing Guardian Beasts, due to individual differences, there would be variations in the evolutionary path.

As Fang Mu was particularly interested in beasts like the Spirit Mayfly, he consciously noted down the evolutionary paths of Cai Boshen's Spirit Mayfly when investigating it.

These were Spirit Mayfly·Storage, Spirit Mayfly·Sword, Spirit Mayfly·Explosion.

These three evolutionary paths were different from those of his own Spirit Mayfly.

However, Fang Mu didn't want to spend too much effort on such evolutionary paths that were difficult to define precisely in terms of abilities.

He decided to simply follow the direction towards Spirit Mayfly·Storage as suggested by the Eye of Omniscience!

Enhancing the strength of the Spirit Mayfly was not difficult; it only required providing it with elixirs or spiritual materials containing spiritual energy and high-purity Life Elixirs.

These items were considered precious and rare in the eyes of others, but Fang Mu had plenty.

The greatest fear for a Beast Master during combat is the excessive depletion of spiritual power and internal energy.

Thus, Fang Mu had prepared many spiritual potions imbued with spiritual power.

Of course, before providing these resources to the Spirit Mayfly, Fang Mu needed to contract with the Spirit Mayfly first.

Fang Mu was curious whether his own Contracting Blood could bring some surprises after contracting with the Spirit Mayfly.

Fang Mu took out the Contracting Blood and, with the help of the Rainy Doll, wrapped the Spirit Mayfly in it.

Initially, under the control of the Rainy Doll, the Spirit Mayfly was frantically bumping around in fear and anxiety.

In such chaotic motion, the spiritual fluctuations of the Spirit Mayfly reached a peak, and its Life Energy began to show a declining trend.

However, upon sensing the aura of the Contracting Blood, the Spirit Mayfly immediately stumbled toward the Contracting Blood.

The Spirit Mayfly could sense the aura released by the Contracting Blood, which could bring benefits to itself.

Wrapped in the Contracting Blood, the Spirit Mayfly's spiritual fluctuations broke through the original peak.

However, its Life Energy did not continue to decline but instead became more robust.

The contracting with the Contracting Blood did not result in the surprises Fang Mu had expected.

At this moment, the Spirit Mayfly had already been contracted by Fang Mu.

Under the Eye of Omniscience, the data of the Spirit Mayfly showed little change, but Fang Mu could keenly feel that something about the Spirit Mayfly had become different from before!

Fang Mu then provided the Spirit Mayfly, now connected to his own bloodline, with the pre-prepared spiritual potions and Life Elixirs of 100% purity.

As the Spirit Mayfly absorbed this energy, its aura continually strengthened, and its light point significantly increased in size from its original basis.

Fang Mu provided these resources to the Spirit Mayfly until he reached the limit his spiritual power could withstand.

Fang Mu could clearly feel, with the elevation of the Spirit Mayfly's stage, that his own spiritual power had gained an additional reserve, as if a battery had been added, unexpectedly providing some extra capacity.

This reserve of spiritual power could help him withstand pressure, just like his normal spiritual power.

While sensing the strength of his own spiritual power, Fang Mu investigated the Spirit Mayfly that had reached its limit.

Chapter 814: Transform! Rainy Doll!_2

[Beast Name]: Soul Mayfly

[Beast Species]: Mayfly Family/Mayfly Genus

[Beast Level]: Gold (10/10)

[Beast Element]: Spirit Series

[Beast Potential]: Platinum

[Beast Quality]: Epic

Skills:

[Mental Reserve]: With each promotion in rank, increases one's spiritual power, keeping it in a state of extreme fullness.

[Spiritual Nourishment]: Warms and nurtures one's spiritual power, increasing the speed at which spiritual power is enhanced and having a positive effect on the external combination with one's spiritual power.

[Spirit Explosion]: Consumes spiritual power to its limits, achieving a brief breakthrough, and during the breakthrough, is immune to a series of negative effects from the spirit level.

Exclusive Traits:

[Mayfly Leaping]: When targeting a cluster of spiritual power, it can directly enter the target's spiritual power for instantaneous spirit-to-spirit transmission.

[Mayfly Layered Wings]: Each accumulation of spiritual power can condense wings that stack beneath the main wings, consuming the layered wings grants access to the spiritual power inside (the efficiency of using the spiritual power inside the layered wings is 60%).

Evolutionary Path:

①: Soul Mayfly: Extreme Accumulation, ②: Soul Mayfly: Precision Strike, ③: Soul Mayfly: Soul Control.

When Fang Mu first investigated the data on the Soul Mayfly, he was only shocked by the skills and exclusive traits of his Soul Mayfly.

But soon Fang Mu noticed a problem.

The Soul Mayfly should have only been able to help a Beast Master ascend a rank, and even after ascending, it should have been only at the level of Gold Rank One.

Yet, now the level of the Soul Mayfly had reached Gold Rank Ten!

This was a significant discrepancy from Fang Mu's understanding of the Soul Mayfly.

After some thought, Fang Mu felt this might have been due to the Covenant Blood Essence causing an abnormality within the Soul Mayfly during the contract.

The same situation had occurred when he formed a contract with Xi Xi.

Compared with Cai Boshen's Platinum Soul Mayfly, Fang Mu found that his own Soul Mayfly was much stronger in skill effects, despite having the same names.

Cai Boshen's Copper Level Skill [Mental Reserve] was to keep spiritual power in a full state.

But Fang Mu's Soul Mayfly kept the spirit in an extremely full state.

The word "extreme" was precisely the reason for the Soul Mayfly's Gold Rank Ten level.

Beyond that, while Fang Mu's Silver Grade Skill [Spiritual Nourishment] had a good promotional effect on external spirit power combined with one's own,

Cai Boshen's Soul Mayfly only had a weak promotional effect.

The difference in degree led to a groundbreaking change in the level of the two skills.

Cai Boshen's Gold Level Skill of his Soul Mayfly was [Spirit Chain], which was a control type skill.

However, Fang Mu's Gold Level Skill [Spirit Explosion] still focused on the enhancement of his own spiritual power.

By consuming spiritual power to its limits, the spirit is allowed to break through temporarily, while also being immune to negative mental influences.

If Fang Mu managed to break through his spiritual power, a Beast Master, with sufficient resources, could temporarily surpass the limits of their current rank.

Beyond that, the breakthrough of a Beast Master's spiritual power could enable Mysterious Patterns and Chapters to have greater effects.

The reason the Soul Mayfly was held in high esteem and even Fang Mu wanted to make a contract, placing it even above top-grade pollutants and Vicious Beasts,

was due to the Soul Mayfly's amplification of the spirit.

Gold Level Skill [Spirit Explosion] revolutionized this amplification, taking the enhancement of spiritual power to a higher level.

If Fang Mu were to use the Soul Mayfly's Gold Level Skill [Spirit Explosion] in a Battle Network duel,

as a One-point Star Beast Master, he could combat using a Platinum Beast.

This has never happened in the entire history of Beast Masters.

Fang Mu once again created a miracle in the history of Beast Masters by using the Covenant Blood Essence!

As for the exclusive trait [Mayfly Layered Wings] that the Soul Mayfly gained when it ascended to Epic Quality, it completely blew Cai Boshen's Soul Mayfly's exclusive trait [Accelerated Recovery] out of the water.

[Accelerated Recovery] speeds up the restoration of spiritual power when some of it has been consumed, the more the spiritual power is consumed, the faster it recovers.

Meanwhile, Mayfly Layered Wings expand Fang Mu's mental reserve by converting spiritual power into wings.

A small pond is still a small pond no matter how much water is poured into it; it simply cannot be compared to a lake.

The two exclusive traits may be similar in effect, but they differ greatly in level.

Before, Fang Mu thought Cai Boshen's Soul Mayfly was impressive, but now, after cultivating his own Soul Mayfly, Cai Boshen's seemed hardly worth a second glance.

Fang Mu took a deep breath and stored away the Soul Mayfly.

Zhao Deng had specifically warned Fang Mu before leaving that the strength of his other Guardian Beasts must not exceed the stage limitations of the Soul Mayfly.

Otherwise, there's a real risk of mental breakdown and confusion, leading to lifelong mental trauma.

Having seen firsthand the effects of mental discrepancies and collapses on Beast Masters during his Battle Network duel with Cai Boshen, Fang Mu certainly wasn't going to arrogantly step outside his bounds and invite discomfort!

Fang Mu looked up at the Rainy Doll, who had been by his side all this time.

The Rainy Doll was the first Guardian Beast Fang Mu had bonded with using Contracting Blood after Xi Xi.

It was one of the earliest to follow Fang Mu.

Fang Mu hadn't cultivated the Rainy Doll in a long time.

Even with the Rainy Doll's stage limitations, Fang Mu still hadn't given up on building its foundation.

Thanks to the Heart of the Elf from the Lan River Rain Mother, the Rainy Doll's upgrade to Lake Flame Gemini when ascending to the Gold stage was already a done deal.

Fang Mu conducted a thorough examination of the Rainy Doll. [Beast Name]: Rainy Doll

[Beast Species]: Elemental Department/Aqua Spirit Type

[Beast Level]: Silver (10/10)

[Beast Element]: Water System

[Beast Potential]: Gold

[Beast Quality]: Legendary

Skill:

[Water Spirit Conversion]: Uses its own Water Elemental Energy as a carrier to absorb another type of Elemental Energy, treating this energy as an adjunct and able to mimic a creature of the absorbed property.

[Silent Rain Cry]: When its watery body spreads into the surrounding area, it reduces the concentration of other elements, and upon contact, impedes the target's resonance with Elemental Energy.

Exclusive Traits:

[Poison Mark Fragments]: Every time the target is harmed by the poison damage caused by the skill, a poison mark is formed. Every three marks trigger an explosion, where the blast damage is related to the strength of the poison.

[Curtain Water Decay and Prosperity]: Damage from water attacks on a target is converted into healing effects, temporarily delivered to the Contractor through rain threads, allowing the healing to be distributed via a medium (the healing effect dissipates after some time).

[Element Twins]: Choose an element opposed to oneself to form twins. The twins share the effects of Water Spirit Conversion's accommodated element and also share other skills and exclusive traits. When necessary, the twin elements can convert into each other.

Evolutionary Path:

①: Lake Flame Gemini, ②: Wave Melt Water Servant, ③: Burnt Stream Water Witch.

After examining, Fang Mu took a cup of Blood Aged Wine and dropped the Heart of the Elf into it.

Then he threw the cup towards the Rainy Doll.

In addition to ten vials of Pure Water Elemental Potion with one hundred percent purity, Fang Mu also tossed ten vials of Fire Elemental Potion with the same purity level.

The Rainy Doll's body turned into a flow of water that swept over the resources Fang Mu had tossed.

A Flame Tornado and a swiftly rotating Whirlpool appeared around the Rainy Doll's body.

Water and fire, inherently incompatible elements, began to attempt a fusion under the energy discharged from the Rainy Doll's body.

Suddenly, a pair of fair arms bearing a red and a blue mark emerged from the mingling Flame Tornado and Whirlpool.

Chapter 815: Sea Flame Twins!

Before the promotion, the Rainy Doll's arms were very tender and small.

They looked just like those of a five- or six-year-old human infant.

But now, upon examining the arms the Rainy Doll had extended, Fang Mu discovered they had grown to the extent of a twelve or thirteen-year-old human girl.

They were still tender but had already gained a certain sense of strength.

Following the two arms, another pair marked with red and blue emerged from behind the whirlwind of flames.

The two pairs of arms, marked with different colors, proved that under Fang Mu's provided resources, the Rainy Doll had successfully promoted towards becoming the Sea Flame Twins.

Once again stirring the bloodline of the Half-Elf.

Next, Fang Mu just needed to observe whether the elf heart from the Lan River Rain Mother could grant the Rainy Doll the ability of [Rain Erosion].

Fang Mu had initially thought it would be quite simple to enhance an elf's sensibility with an elf heart.

It wasn't until he conversed with Shui Miao that he understood the truth.

It turned out that awakening an elf's abilities through the absorption of an elf heart relied entirely on luck!

Even if the elf's foundation was strong, there was only about a one in ten chance to inherit abilities.

And this data wasn't fabricated by Shui Miao.

Firstly, Shui Miao wasn't the kind of person to make things up, and secondly, Shui Miao wouldn't have told such fabricated data to Fang Mu.

As a Pavilion Master of the Twelve Pavilion, Shui Miao had access to an extensive network of information.

Shui Miao even had channels to some Grandmaster Creators.

Although it was rare to trade resources from these Grandmaster Creators on ordinary days, obtaining information was still within Shui Miao's capabilities.

Because these Grandmaster Creators also needed resources, they inevitably had to inquire about the situation through the Twelve Pavilion.

Fang Mu watched the Rainy Doll who had begun to refine the elf heart when suddenly, a thin misty rain descended from the completely merged whirlpool of water and fire.

This misty rain fell on the ground, eroding the ground into fine pores.

Seeing this, Fang Mu's spirits lifted.

One should know that the floors of the rooms owned by the Jianmu Commerce Association were laid with a type of jade called Green Fluorescent Jade.

Green Fluorescent Jade was a spiritual material often used by major forces to craft objects, most commonly seen in items such as bowls, chopsticks, and panels.

Paving the floor with Green Fluorescent Jade was a luxury seldom seen!

The aura released by the Green Fluorescent Jade had a focusing effect and therefore wasn't considered wasteful.

The texture of Green Fluorescent Jade was extremely hard, also possessing certain anti-corrosion and anti-toxic properties.

The pores in the floor were eroded by the Rainy Doll's delicate rain curtain through physical means.

The previous Rainy Doll never had such an ability!

Thinking of this, Fang Mu's face suddenly showed an expression of pleasant surprise.

This ability was just within the scope of [Rain Erosion]!

It seemed the Rainy Doll was extremely lucky, hitting the one in ten odds!

About five minutes later, the completely merged whirlpool of water and fire and the rain curtain completely dissipated.

Fang Mu saw two girls in skirts standing side by side on a curtain of water.

This curtain of water looked like a burning lake at first glance. The girl on the left, wearing a blue dress, had a long gown that trailed on the floor.

The blue gown fluttered behind her, and though this girl had resolute blue eyes, her demeanor appeared valiant.

In her outer hand, the water turned into a water sword, with a hilt resembling clear water droplets.

But Fang Mu could feel that as these water droplets assisted the water sword in slashing and spraying out, they would deal damage with a strong penetration effect.

The girl on the right wore a fiery short puffy red dress, with the hem of the red skirt not even reaching her knees.

Although dressed provocatively, this girl with red eyes appeared shy and delicate.

In her outer hand was a delicate red folding fan, which occasionally sent flames darting out as it fluttered.

When Fang Mu looked at these two girls, they were also looking back at him.

Compared to before when they were still the Rainy Doll, the eyes of these two girls seemed much more spirited.

The former Rainy Doll had just stepped on the path of being an elf, only able to be considered a Half-Elf.

But now, the Sea Flame Twins gave off the impression of having reached the limit of a Half-Elf. It didn't seem excessive to say they were a low-tier Lower Spirit.

Fang Mu used the Eye of Omniscience from his Destiny Beast, Fool's Shadow, to assess the Sea Flame Twins.

[Beast Name]: Sea Flame Twins

[Beast Species]: Elemental Department / Multi-Element Species

[Beast Level]: Gold (1/10)

[Beast Element]: Water System / Fire System

[Beast Potential]: Platinum

[Beast Quality]: Legendary

Skill:

[Water Spirit Conversion]: Use one's water elemental energy as a carrier to contain another type of elemental energy, turning it into an adjunct and capable of mimicking a living being of the absorbed attribute.

[Silent Rain Cry]: When one's watery body diffuses into the surrounding environment, it reduces the concentration of other elements in that environment. When the water body touches the target, it will hinder the target's resonance with elemental energy.

[Lake Suppression Flame Flow]: Use the vast water elemental energy to transform into a lake to suppress the target, control their movement, and in an instant, have burning fire elemental energy erode the target with a scorching effect, causing high evaporation damage.

Exclusive Trait:

[Poison Mark Fragments]: Each time the target suffers from toxin damage brought by oneself, a poison mark will condense. After every third layer of poison marks, an explosion will occur, with the explosion's damage related to the potency of the toxin.

Chapter 816: Sea Flame Twins!_2

“^

[Skill "Curtain Water Decay and Prosperity"]: Any damage received by the target when attacked by a water body is transformed into a healing effect, which is temporarily transferred into the Contractor's body through the rain threads. The Contractor can distribute the healing effect through a medium (the healing effect will dissipate after a while).

[Element Twins]: Choose an element that is opposite to one's own to form twins. The element in the Twin state will have the same effect as the element contained by [Water Absorption Spirit] and shares other skills and exclusive characteristics. When there is a specific need, the elements in the Twin state can convert into each other.

Evolutionary Path:

① Sea Flame Twins, ② Wave Burn Water Vassal, ③ Thunder Flame Rain Witch.

After probing, Fang Mu couldn't help but feel a bit of awe in his heart.

Under the effect of the Spirit Mayfly, the Lake Flame Twins truly advanced to the Golden Stage, becoming a Golden Tier Guardian Beast!

However, Gold Rank One was clearly not the limit for the Lake Flame Twins.

Next, Fang Mu would continue to provide resources for the Lake Flame Twins, aiming to raise their tier to Gold Rank Ten.

When Fang Mu first contracted the Lake Flame Twins, he was but a rookie Beast Master.

It was quite courageous of Fang Mu to contract with a pool of Pure Water.

Since becoming a Beast Master, it had only been a matter of months for Fang Mu.

To cultivate a pool of Pure Water to this level in just a few months, perhaps even a Grandmaster Creator would find it hard to believe.

The Golden Tier Skill [Lake Suppression Flame Flow] of the Rainy Doll is quite a powerful move, transforming the Master's own Water Element into a lake weighing tens of thousands of pounds to press down on the target.

The lake water binds the target tightly.

After such powerful control, the Water Element will transform towards the Fire Element through the exclusive characteristic [Element Twins].

The vast Fire Elemental Energy will erode the target, causing great damage.

Meanwhile, the Water and Fire Elements will cause evaporation, breaking through the target's defenses.

Allowing both the Water and Fire Elements to invade the interior of the target, to evaporate the tissue fluids inside the target's body or even other elements.

This type of evaporation effect, with its great lethality and defense-breaking ability, combined with [Rain Erosion], can quickly dismantle the opponent's defenses, striking the target from both the physical and elemental levels.

Don't be fooled by the Rainy Doll's promotion to the Lake Flame Twins, which has gained the means to attack with both Water and Fire Elemental Energy.

In reality, the Rainy Doll's trump card is still the toxin hidden within the rain curtain.

The common-level Skill [Water Spirit Conversion] is the foundation of the Rainy Doll.

The Rainy Doll has already absorbed many toxins that are far beyond its own level, some of which include the unique contaminating energy of pollutants.

Once the Rainy Doll's toxin invades the target's body, even a Platinum Tier Guardian Beast would find it difficult to contend with the Rainy Doll.

In terms of the Evolutionary Path, Sea Flame Twins is obviously the Lake Flame Twins' most optimal current bloodline evolution.

It will also be the Evolutionary Path that Fang Mu is destined to choose in the future.

As for the second Evolutionary Path, Wave Burn Water Vassal, which focuses on the attack of Fire Elemental Energy, this would cause the Lake Flame Twins to be unbalanced in their elemental development.

If the balance cannot be maintained between the two, it will destroy the structure of the Twins.

Among Elves, Gemini Elves belong to one of the five top bloodlines with great developmental potential.

When the Gemini form reaches a certain level, there is a chance it can transform into Twin Immortals.

Once transformed into Twin Immortals, the Twin Immortals bloodline could exponentially stimulate the Elemental Energy within the Lake Flame Twins' bodies.

This is also the long-term direction Fang Mu has set for the Lake Flame Twins.

By the time Fang Mu raised the Lake Flame Twins to Gold Rank Ten, the sun had already risen.

Not having slept all night did not make Fang Mu feel tired, but the Covenant Servant Soul Ant Queen, which had contracted with him, felt somewhat aggrieved.

Another night had passed without being able to absorb Fang Mu's Soul Energy!

But ever since the Ant Nest was established, the Covenant Servant Soul Ant Queen no longer solely relied on Fang Mu for energy.

Otherwise, no matter what Fang Mu was doing, even if exploring the Ancient Battlefield, he would have to ensure he slept at least six hours every day.

Fang Mu had many Guardian Beasts that could advance to the Golden Stage, but he was not in a hurry to do so.

Because today, Fang Mu was going to follow Fang Yan to the Mu Yan Club Guild to have a look.

Then, he would take Fang Yan to visit Master Yi Han.

Since Yi Han had taken Fang Yan as her disciple, Fang Mu, to some extent, had also become a junior to Yi Han.

“\

Fang Mu’s disrespect towards Yi Han was tantamount to disrespecting his own Third Sister, Fang Yan.

In the world of Beast Masters, apprenticeship is extremely important.

A master is not quite a parent but is not much different either.

Therefore, visiting Yi Han was an affair that absolutely could not be neglected!

Fang Mu looked through his own inventory and specially prepared five gifts for Yi Han.

After a good while, he handed them to Fang Yan and let Fang Yan present these five gifts to Yi Han.

Fang Mu had contemplated the reasons Yi Han would accept Fang Yan as a disciple—forty percent because of the Xi Hui Reflective Crane, and sixty percent because of himself.

If Yi Han wanted to rapidly develop the Yi Family, he would need a large number of high-star Grandmaster Creator resources.

At present, only Fang Mu could provide Yi Han with high-star Grandmaster Creator resources.

Yi Han had not established channels with Sect Master Xiao Xiang and Shuoyang Grandmaster; otherwise, Yi Han would not have needed to value the cooperation with Fang Mu so highly.

The best way for Fang Mu to ensure that Yi Han treated Fang Yan well was to make Yi Han even more dependent on him.

For many people, such dependency is a burden, but for Fang Mu, it was not the case.

Because Fang Mu could provide resources to Yi Han on a long-term basis, making Yi Han increasingly dependent on him.

Only then would Yi Han treat Fang Yan better and better, giving Fang Yan the opportunity to form a genuine bond of master and disciple with Yi Han.

Compared with “Dragon Mother,” Yi Han was undoubtedly much more pragmatic and opportunistic.

The best way for Fang Mu to make Yi Han sincerely connect with Fang Yan was to give Yi Han what he wanted.

Fang Mu would not naively believe that without the mutual benefits involved, Yi Han had chosen Fang Yan based on the Xi Hui Reflective Crane alone.

After all, the Xi Hui Reflective Crane itself represented high-level Creator resources.

Indeed, Fang Mu thought that when Yi Han saw the five items in the box tomorrow, he would surely treat Fang Yan even better!

Fang Mu was growing swiftly, and beneath his order, he already had two of the top fighters.

Shu Liangjun had already become Fang Mu's Dao Protector.

Not to mention Yi Han, the newly emerging Grandmaster Creator, even an old Grandmaster Creator.

As long as the senior Grandmaster Creator wasn't of high rank, Fang Mu was fearless.

Now, there were many rumors that the leaders of Bliss Palace, who had retreated from the world for two hundred years, had gone insane, daring to abduct a Grandmaster Creator!

Those who thought this way either did not understand Bliss Palace well enough or were over-idealizing Grandmaster Creators.

It is true that Grandmaster Creators are top resource producers in this world, affecting the strength of every powerhouse.

But the number of Grandmaster Creators is more than just a few.

Fang Mu once heard Yi Han say that the number of Creators in Contract Garden had already exceeded one hundred.

A top fighter or power only needs to establish good relations with several Grandmaster Creators to continuously obtain Grandmaster Creator resources.

So for top powers and strong fighters, offending a Grandmaster Creator is not an unacceptable matter.

Especially if it's a Grandmaster Creator on good terms with opposing forces.

Bliss Palace had the capability, and furthermore, Yongle Palace also wanted to wield this incident as a show of strength.

To make the wise realize that Eternal Mother Yongle of Bliss Palace had become a Saint Creator, just like Master Hanming of the Ten-thousand Nations Federation.

Fang Mu did not need to obtain resources from any single Grandmaster Creator.

Previously Fang Mu did not dare to offend Grandmaster Creators for fear that the forces under the Grandmaster Creators would threaten and affect him, and secondly, he did not want to be overly conspicuous.

But Fang Mu now had the capital to go toe-to-toe with a Grandmaster Creator.

This made Fang Mu's mentality shift more towards that of a strong fighter, and there was no need to calculate everything meticulously.

If Yi Han wanted to cling to his coattails, Fang Mu would let Yi Han cling all the more tightly.

To the point where he would lose the ability to let go!

More than Yi Han's teaching, what Fang Mu valued was that the status of Fang Yan as a Grandmaster Disciple could improve Fang Yan's safety.

Fang Yuan's side, with the operation of the Jianmu Commerce Association and the plans for Far Wood View in the future, also similarly needed connections to stand behind.

Chapter 817: 385 Xi Xi's New Features!

"Parenthood brings far-sighted planning for their children."

Fang Mu probably had such thoughts.

Only such thoughts would lead Fang Mu to calculate all affairs deep into his bones.

In his previous life as a Biologist, Fang Mu was not someone who liked to scheme.

In this life, Fang Mu's months of scheming had propelled the Fang Family into a truly well-established powerhouse within the Dragon Rising Federation!

Fang Mu glanced at the time; his elder sister Fang Qin had just woken up.

During her tenure with the Jinghai Army, Fang Qin had developed the habit of waking up at five, which had remained unchanged for many years.

Fang Yuan and Yan Wood would wake up a bit later.

Fang Mu didn't rush to leave his room but instead released Xi Xi.

Upon seeing Fang Mu, Xi Xi eagerly extended its handle into Fang Mu's hand.

It was as if Xi Xi was saying, "Fang Mu, Fang Mu, quick, touch Xi Xi!"

Having spent time exploring the Ancient Battlefield in the Panfeng Federation with Fang Mu, indeed, Xi Xi had much less of Fang Mu's company.

Unlike before when Fang Mu lived alone, he could summon Xi Xi at any time, allowing it to stay by his side.

Xi Xi, just like the Blood of Abundance and Fool's Shadow, was one of Fang Mu's trump cards.

They were something that should never be easily revealed to others!

So during this period, Fang Mu could only make Xi Xi suffer a little inconvenience.

Fang Mu didn't hurry to issue commands to Xi Xi or make plans for its cultivation.

Instead, he grasped the handle that Xi Xi offered, soothingly caressing it.

Xi Xi happily wriggled its metallic front filaments, producing a soft friction sound that was not very noticeable.

Xi Xi had been stuck at Silver Rank Level Ten of Epic Quality for quite a long time.

Fang Mu used the Eye of Omniscience to check Xi Xi's data.

[Beast Name]: Xi Xi (Created by the Contractor, who may name it as they see fit.)

[Beast Species]: Weapon Holder / Broom Holder Species

[Beast Level]: Silver (11010)

[Beast Element]: Mechanical

[Beast Potential]: Gold

[Beast Quality]: Epic

Skills:

[Garbage Recycling]: Refines and extracts the absorbed trash within its body, digesting the useless parts and purifying the useful elements, storing them in an external compartment of the Mechanical Heart.

[Sealing Scenery]: Absorbs the surrounding scenery and imagery through its floating tendrils into its body, forming concentrated Scenery Fantasy Pearl. The Scenery Fantasy Pearl can be absorbed by living beings, and the degree of absorption depends on mental strength and Comprehension Power.

Exclusive Characteristics:

[Electronic Butterfly]: The Machinery Granted heart can condense an Electronic Butterfly at intervals. The Electronic Butterfly infects objects determined as trash devoid of life, invigorating the strength of the lifeform had before its death (the duration of infection relates to the lifeform's previous strength).

[Machinery Granted]: Generates a Gear infused with the origin of mechanics through the absorption of Metal Spiritual Materials containing spirit, adaptable to any Mechanical Beasts. These Mechanical Gears can be provided to other Mechanical Beasts to expand their inherent Potential.

Evolutionary Path: ???

Since Shui Miao arrived beside Fang Mu, as a Forging Spirit Grandmaster, she had given Fang Mu a large amount of discarded Metal Spiritual Materials.

Consequently, Fang Mu no longer had to scour for spiritual instrument fragments to enhance Xi Xi's power.

Feeding the high-level spiritual instrument fragments to Xi Xi in large quantities finally allowed its quality to be elevated.

The new exclusive characteristic [Machinery Granted], in Fang Mu's view, meant that Xi Xi could produce resources specifically for Mechanical Beasts.

It enhanced the Potential of Mechanical Beasts.

With [Machinery Granted], Xi Xi had become a Creator among Mechanical Beasts.

Before this, Fang Mu hadn't heard of any precedents of enhancing the Potential of Mechanical Beasts.

Initially, Fang Mu didn't take Xi Xi's newly acquired exclusive characteristic [Machinery Granted] very seriously.

Firstly, because among Fang Mu's beasts, there was only one Mechanism Fortress.

Second, Fang Mu wasn't particularly fond of Mechanical Beasts.

Someone from a previous life who studied biology would find it hard to take an interest in electronic products.

Nevertheless, Fang Mu still fed the Mechanical Gears produced by Xi Xi to the Mechanism Fortress.

As a result, after absorbing those Gears, the Mechanism Fortress underwent a tremendous transformation in its essence.

The Heart of the Elf within the Mechanism Fortress became more intricate than before!

The Gears it could control saw a massive increase over their original number!

This allowed the Mechanism Fortress to expand its interior space continuously, even though its rank and quality had not increased.

Only after personally experiencing the boost provided by the Mechanical Gears produced through [Machinery Granted], did Fang Mu truly understand the power of this exclusive characteristic!

Any power usually has its signature standardized Guardian Beasts.

The Infinite Tower also needed to have a signature standardized Guardian Beast.

A Mechanical Beast with a Potential that could be infinitely enhanced suits both offensive and defensive needs of Beast Masters.

Fang Mu had plans to cultivate a signature Guardian Beast for the Infinite Tower using the Gears condensed by [Machinery Granted].

After playing with Xi Xi for quite a while, Fang Mu finally spoke to Xi Xi.

“Xi Xi, you’ve been suppressing your rank advancement, focusing all your efforts on improving quality.”

“Starting from now, you can try to advance your rank while absorbing those spiritual instrument fragments!”

Chapter 818: Xi Xi’s New Features!_2

Xi Xi’s promotion to the Silver Stage granted Fang Mu a great surprise with the skill [Sealed Landscape].

Fang Mu was very curious about what kind of skill Xi Xi would acquire after advancing to the Golden Stage.

Upon hearing Fang Mu’s instructions, Xi Xi’s simulated voice responded with great excitement.

“Fang Mu, Xi Xi can finally advance in rank!”

“After the promotion, Xi Xi wants to be even more helpful to Fang Mu!”

Hearing this, Fang Mu touched the part of Xi Xi closest to the Mechanical Heart and said earnestly,

“Xi Xi, you have already been a great help to me.”

“It doesn’t matter what skill you get when you advance to the Golden Stage, so don’t feel too much pressure, okay?”

After playing with Xi Xi for a while longer, Fang Mu returned Xi Xi to the Destiny Guidebook.

Each page of the Destiny Guidebook is a very spacious spiritual space where Guardian Beasts can engage in any activity.

Thus, even within the Destiny Guidebook, Guardian Beasts are able to advance in rank.

Watching the rising sun, Fang Mu left his room.

Yan Wood had clearly just woken up and sat drowsily at the dining table.

She stared blankly at the bowl of pearl soup in front of her, her eyes occasionally wandering to the several small dishes ahead.

She seemed to be considering which one to eat first to whet her appetite more.

Fang Qin was moving her three mechanical fingers.

Fang Qin’s mechanical fingers, forged by a Spirit-smithing Master, fit snugly around her wound.

They allowed Fang Qin to use her fingers without being too affected by her amputations, and she had gotten used to the feeling.

However, when she woke up this morning, Fang Qin suddenly felt a noticeable sensation of blockage when she put on these three mechanical fingers.

It felt as if her fingers had suddenly thickened!

After examining for a while, Fang Qin identified the cause.

It was because, after a night, her amputated fingers had grown a bit.

This realization filled Fang Qin with an unusual surprise.

The regeneration rate of her amputated fingers was not as slow as Fang Mu had described; in just one day, there was noticeable growth.

At this rate, it wouldn't be long before her fingers fully grew back!

By then, she would be free from the limitations of her disability.

Fang Yuan sat leisurely in a chair, and when he saw Fang Mu approaching, he quickly waved him over.

"Little Wood, this morning I specially asked the chef to make your favorite fried dumplings. Come and try them!"

"You and Xiao Yan are going to the club later; I'll have Lu Bo accompany you."

"Lu Bo also has to help Xiao Yan contact a professional service team who previously worked with Grade A clubs."

"With this professional team supporting Xiao Yan, I can be at ease."

After becoming the president of Mu Commerce Association, Fang Yuan had become increasingly accustomed to using “Cash Ability” to solve problems.

To many, using “Cash Ability” for minor issues seemed wasteful.

Fang Yuan felt the same initially.

But gradually, Fang Yuan understood his capacity for creation, knowing how many resources he could generate each day.

Once he realized this, Fang Yuan no longer felt that using “Cash Ability” was wasteful.

On the contrary, being skilled in using “Cash Ability” freed up his time, allowing him to create even more value for Mu Commerce Association!

A team that has served a Grade A club has experience that other teams would find challenging to match.

Such experience, if Xiao Yan had to start with a new team, would take a long time to develop.

Upon hearing Fang Yuan’s words, Xiao Yan finally looked up from her bowl of pearl soup and softly thanked him.

“Second brother, thank you!”

“If you hadn’t been helping me all along, the club wouldn’t have been able to get up and running so quickly.”

Hearing this, Fang Yuan couldn’t help but roll his eyes.

“Xiao Yan, when did you start being so formal with me!?”

"I'm your brother, isn't it right that I help you from time to time?"

"If I don't help you, am I supposed to help someone else!?"

"Yesterday, Little Wood told me that even if I became the president of a commerce association, I must not neglect improving my strength no matter how busy I am with the affairs."

"I was quite moved by Little Wood's words. Yan, you should remember to focus on enhancing your strength in the future too; don't let running a club guild take up too much of your time!"

Yan Wood had already understood this point; strength was indeed the foundation of everything.

But facing Fang Yuan's admonition, she still nodded seriously and said,

"Second brother, rest assured, I will always strive to enhance my strength!"

"Second brother, you can test my strength anytime you want!"

"Second brother, I know you've invested a lot of effort in the commerce association, and it will be difficult not to manage its related affairs in the future."

"But I hope you can push yourself just as you've advised me to, and don't let me surpass you in the future!"

Yan Wood had noticed Fang Yuan's issue long ago and had wanted to speak with him about it, just never finding the opportunity.

That Yan Wood said this to Fang Yuan today was because she received a phone call from Yi Han the night before.

After returning to Yi Mansion last night, Yi Han received certain news.

Having only Yan Wood as a disciple, Yi Han shared the news with the younger members of the Yi Family and then told Yan Wood.

Yan Wood hoped Fang Yuan would seize this opportunity.

Ever since becoming a disciple of a Grandmaster Creator, Fang Mu had been supporting the family, and Yan Wood harbored the same thoughts.

Having become Yi Han's disciple, she ultimately had to do something for Fang Yuan, Fang Qin, and Fang Mu.

Yan Wood didn't know that Fang Mu was able to provide so many resources for the family because he produced them himself.

Any disciple of a Creator who was not the Creator's own child could never be like Fang Mu.

Even if they were the Creator's own, they could, at most, use only one-third of the resources Fang Mu provided to his family!

It could be said that Fang Mu had set a wrong example for Yan Wood.

However, with Yan Wood's special situation, Yi Han had to maintain the relationship with Qixing, who stood behind Fang Mu, through her.

This meant that Yi Han would agree to any request from Yan Wood.

Fang Qin watched her younger brother and sisters smilingly, feeling very relieved.

A year ago, during the Spring Festival family reunion dinner, Fang Qin felt pressure so intense it left her feeling breathless.

But now, everything changed with Fang Mu's powerful rise.

Consequently, everyone else also found their own opportunities because of Fang Mu.

"Today, I'll help Little Far with planning for the Contemplation Hall at Jianmu Commerce Association; you two remember to come back early."

"I'll cook tonight. It's been a long time since you've tasted my cooking!"

With that, Fang Qin placed a crisp sour and spicy pickled cucumber strip onto each of their plates with serving chopsticks then took one for herself.

While the sour and spicy cucumber strips were indeed refreshing and appetizing, the thought of Fang Qin's culinary skills simultaneously made Fang Yuan, Yan Wood, and Fang Mu lose their appetite.

Fang Mu and Yan Wood both looked at Fang Yuan, who quickly said,

"Elder sister, I have a lot to discuss with you about the Contemplation Hall, and you might not make it in time for dinner!"

"Let the chefs handle it instead!"

"There will be plenty of chances to enjoy your cooking later; we're not in a rush right now!"

Upon hearing there was important business to attend to, Fang Qin promptly said,

"Okay! Little Far, since you'll be focusing on enhancing your strength from now on, let me take on some of the work from the Contemplation Hall!"

Fang Yuan shook his head and replied,

“Elder sister, you don’t have prior experience handling these affairs; taking on this burden will take up a lot of your time.”

“I can manage on my end, and I won’t relax in improving my strength!

“The benefit of my Destiny Guardian Beast, the Vicious Leopard Demon, growing large is that it allows me to contract more Leopard Beasts, enhancing their synergy to produce an effect greater than the sum of their parts.”

“Right now, I’m unsure whether to contract more Leopard Beasts or conserve my spiritual power to comprehend more mystical patterns.”

“To be honest, my Comprehension Power for mystical patterns isn’t strong; so far, I’ve only contracted one.”

“It seems like contracting more Leopard Beasts would allow me to quickly enhance my strength.”

Chapter 819: The Flower Beads and Fantasy Jade of the Present World!

Fang Yuan understood his own situation extremely well.

He was clear about his strengths and weaknesses and knew that the ability to comprehend Mysterious Patterns was innate.

Some people could easily comprehend Mysterious Patterns in the course of their travels.

Others might visit famous mountains and rivers, expend many resources, and yet end up with nothing to show for it.

Mysterious Patterns have always been seen by Beast Masters as a gift from above, something to be sought but not demanded.

Even some Master Creators and even Grandmaster Creators were unable to condense a First-class Mysterious Chapter due to insufficient Comprehension Power of Mysterious Patterns.

One must understand that the resources accumulated by a Master Creator or Grandmaster Creator are beyond what ordinary people can imagine.

And those who controlled such resources had always been very willing to spend them to enhance their own strength.

If even these Master Creators and Grandmaster Creators could not demand it despite dispersing their family fortunes, why should he be fixated on the comprehension of Mysterious Patterns?

Ever since becoming the chairman of the Jianmu Commerce Association, Fang Yuan had indeed made countless amounts of money.

Now, whether it was Fang Mu, Fang Qin, or Yan Wood, they all had good prospects.

Fang Yuan had made enough money to spend on himself.

Lately, Fang Yuan had not been sparing his visits to the Contemplation Hall, indulging himself in the top services offered there.

However, Fang Yuan ended up without any gains whatsoever.

The comprehension of Mysterious Patterns became a massive mountain weighing down on Fang Yuan's advancement in strength.

But Fang Yuan lacked the ability to change this; over time, he gradually came to accept it.

Fang Yuan thought about seeking breakthroughs from other aspects.

Otherwise, staying stuck here, with only two Leopard Beasts and a Vicious Leopard Demon, he would never make it ahead among the younger generation!

Upon hearing this, Fang Mu abruptly remembered that he had yet to give the Flower Beads of the Heaven Fragrance Peony to his brother and sisters.

During his recent trip to the Ancient Battlefield, Xi Xi had used the Skill [Sealed Landscape] to condense quite a few Scenery Fantasy Pearls.

Most of these Scenery Fantasy Pearls contained scenes from the Ancient Battlefield and were more suitable for Beast Masters who had contracted Necromancy Beasts to absorb.

These Scenery Fantasy Pearls could only be used by Fang Mu himself.

However, in the future, Fang Mu would be able to condense more Scenery Fantasy Pearls using the Skill [Sealed Landscape].

Fang Mu immediately took out a Brocade Box and handed it to Fang Yuan, saying,

“Second brother, to comprehend Mysterious Patterns, you don’t necessarily have to rely solely on your own spiritual power to achieve comprehension.”

“There are other things that can assist you!”

“For example, these Flower Beads that I have here. When you are contemplating, if you hold a Flower Bead in your mouth, the spiritual power released from it will amplify your comprehension ability!”

“These pillars of flowers are an exclusive item from my master, and I have quite a few of them.”

“Big sister, second brother, Third Sister, from now on, you can use Flower Beads every few days to try and comprehend Mysterious Patterns.”

“Although using Flower Beads to comprehend Mysterious Patterns does not guarantee success, it does have a very strong effect!”

“Besides, you can tell me the type of Mysterious Patterns you want to comprehend. There is a special kind of fantasy pearl in the world that can condense natural scenery to help Beast Masters comprehend Mysterious Patterns in a targeted manner.”

“Tell me now, and I’ll send Sister Wan to The Capital personally after some time to deliver them to you.”

As Fang Mu spoke, his tone became very serious.

“You must not hesitate to use such resources out of fear of wasting them. Improving your strength is the most important thing!”

“Since we have this condition, the four of us siblings must all condense First-class Mysterious Chapters. We cannot be complacent!”

“Even if we have contracted many Guardian Beasts, with these two types of assistance, we won’t have any limitations.”

Fang Mu’s words sounded light, but they completely overturned the understanding Fang Yuan, Fang Qin, and Yan Wood had of the situation.

The three of them had never imagined that Fang Mu could produce resources of such caliber!

If other forces out there knew about such things, surely people would immediately come looking for Fang Mu, hoping to get their hands on the so-called Flower Beads and fantasy pearls!

Even if the Grandmaster Creator was protecting Fang Mu, it would be difficult for him to guarantee his safety amidst such a Whirlpool!

Thinking of this, the three of them did not rejoice at the prospect of using these resources in the future. Instead, they were genuinely worried about Fang Mu's safety from the bottom of their hearts.

Especially Fang Qin, as the eldest sister, could not help but start admonishing Fang Mu.

"Little Wood, how can you casually bring out such precious things!?"

"Let's not even talk about whether or not your master is willing to provide such resources to the family; if others find out you have such things, how will you ensure your safety?"

"If I'm not mistaken, such resources must have been specially configured by the Qixing Grandmaster himself."

"Other Grandmaster Creators probably do not have such means."

Fang Qin spoke with great certainty. Since becoming a disciple of "Dragon Mother," her vision had been much broader than before.

"Dragon Mother" would provide Mo Shang with any resources she provided to her.

Among the resources "Dragon Mother" supplied to her and Mo Shang, there was nothing that increased the Comprehension Power of Mysterious Patterns.

Mo Shang was also trying everything possible to comprehend Mysterious Patterns and condense Mysterious Chapters, still weighing between First-grade Mysterious Chapter and second-grade mastery.

If such resources truly existed in the world, with "Dragon Mother's" fondness for Mo Shang, she would have sought them out long ago!

Fang Mu nodded earnestly upon hearing this.

“Big sister, you’re not wrong. These resources are indeed unique to my master.”

“He wouldn’t mind if I let you use them.”

Chapter 820: The Flower Beads and Phantom Jade of the Present World!_2

“I have been providing resources for you all this time in this world,” Fang Mu said. “If his master doesn’t wish for it, then I won’t have so many resources to give you!”

“The master thinks highly of you all and is willing to help you grow.”

“In fact, these Flower Beads and Phantom Jade aren’t that difficult to blend. Their value lies in their rarity.”

“Peach Beguile sells so well precisely because the functions of the entire Peach Beguile skincare line are unmatched by other products.”

“There’s no need to worry about these resources that I’m giving you!”

“Are you suggesting that you’ll betray me by leaking information about these Flower Beads and Phantom Jade!?”

“Big sister, I will strive to ensure my own safety,” Fang Qin said.

“The master has also provided me with top-notch Guard, and besides, I have a Dao Protector who is above the Sequential ranks.”

“So you don’t need to worry about my safety!”

“On the contrary, you all need to be more careful with your safety!”

Upon hearing Fang Mu say this, Fang Qin finally accepted the Flower Beads that Fang Mu offered.

Fang Mu was really too good to his family; Fang Qin had always been afraid that Fang Mu might annoy the Qixing Grandmaster by taking care of the family.

Now that Fang Mu had made things so clear, it would be unwise for herself to continue declining, as it would make her seem unaware of how to behave as an elder sister.

The fact that Qixing would arrange a Dao Protector above the Sequential level for Fang Mu was a clear sign of how much Qixing valued him.

This level was beyond Fang Qin’s understanding.

Whether her own master, “Dragon Mother,” had reached above the Sequential ranking was something Fang Qin dared not confirm.

Fang Yuan opened the wooden box and distributed the Flower Beads he had.

Inside the box were thirty Flower Beads; Fang Yuan, Fang Qin, and Yan Wood received ten each.

After distributing the Flower Beads, Fang Yuan spoke seriously to Fang Qin and Yan Wood.

“Big sister, Xiao Yan, now that you both have masters, you should be clear that there are some things you receive from Little Wood that you can’t let your masters know about!”

“Otherwise, it could bring trouble to Little Wood!”

“I hope you understand this.”

Fang Qin and Yan Wood exchanged glances, clearly grasping the meaning behind Fang Yuan’s words.

Both Fang Qin and Yan Wood were astute; they were well aware of why one was able to become a Disciple of “Dragon Mother” and the other a Disciple of Master Yi Han.

Before Fang Mu was taken as a disciple by the Grandmaster Creator, nobody paid any attention to them.

They became sought after in an instant entirely because Fang Mu had a Grandmaster Creator supporting him!

Fang Qin had been the disciple of “Dragon Mother” for some time and respected her greatly.

However, Fang Qin’s heart was always with Fang Mu.

If she had to choose between Fang Mu and “Dragon Mother,” Fang Qin would not hesitate to choose Fang Mu.

Yan Wood felt the same way.

Not to mention resources like these that cannot be shared openly, even the Grandmaster Creator resources that Fang Mu regularly provided they also would not share with their masters.

Quietly improving their own strength was the most important thing!

Besides meeting with his family, Fang Mu’s trip to The Capital was also to help Fang Qin with the renewal of her severed finger and to assist his brother and sister in quickly Comprehending Mysterious Patterns.

Now, Fang Mu had achieved his objective.

Fang Mu downed the spicy pickled vegetables that Fang Qin had served him in two bites and said to Yan Wood.

“Third Sister, later I’ve arranged for a few Grandmaster Craftsmen from Keystone Construction to visit your Club Guild,” he said.

“This morning, in addition to inspecting the team that brother has arranged for you, you also need to discuss with these Grandmaster Craftsmen to see if there’s any other hardware that needs to be added to the club.”

“Once all of these preparations are complete, you can start selecting your team members!”

When Fang Yuan finished buying the land and building the infrastructure for the Mu Yan Club, he had brought in a team with Gnomes.

Now Fang Mu had even moved a few Grandmaster Craftsmen directly to his place.

This made Yan Wood feel like having established a Club Guild, she had become the one who contributed the least.

Basically, all matters on this side had already been arranged by Fang Mu and Fang Yuan.

Yan Wood enjoyed the feeling of being taken care of by family.

While she had always been guarding her little charge in JA City, now they had begun to guard her!

Yan let Fang Mu and Fang Yuan help with these external matters, but when it came to selecting team members, she had to do it on her own.

Otherwise, she would lose the original intention of preparing the Mu Yan Club Guild.

“Little Wood, actually Second Brother already gave me many pieces of furniture crafted by Grandmaster Craftsmen for the club,” she said.

“Each piece of furniture is worth millions of Dragon Rising Coins, and the club lacks nothing!”

“Having Grandmaster Craftsmen spend more money in the club would really be wasteful.”

Upon hearing this, Fang Mu smiled and shook his head.

“Third Sister, if your plan for the club’s style is just to place a few Grandmaster Craftsmen-crafted pieces, then there’s indeed no need to spend more money and effort,” he said.

“But the facilities of a top-tier club guild can’t possibly only feature furniture crafted by Grandmaster Craftsmen.”

“The overall decoration style must be seamless!”

“Third Sister, don’t be afraid to spend resources. The land is ours, and even if you don’t plan to continue with this club guild, when you decide to sell it...”

“All of our initial resource investment can be recouped during the sale!”

“Whatever requirements and ideas you have, just discuss them with those Grandmaster Creators. Those Grandmaster Craftsmen would love the opportunity to work for us and exchange their services for resources,” he said.

“Wait until Master Yi Han announces your Disciple status. At that time, a lot of forces will approach you.”

“These forces will go to great lengths to please you, and you must keep hold of yourself amidst this flattery!”

Yan Wood nodded, seeming to understand but not quite grasping the concept.

What Fang Mu was talking about was the situation he encountered after becoming a Grandmaster Disciple himself.

Yan Wood was not yet able to appreciate what Fang Mu was talking about.

Although Yan Wood had been mature from a young age, compared to those who had managed powers for decades, she was still a child!

Out of respect for Yi Han, they would at most take some small advantage in resources from Yan Wood and not let her suffer any significant losses.

In this process, Yan Wood's mental acuity would be greatly enhanced!

After a few years of tempering, Fang Mu would no longer need to worry about Yan Wood!

After breakfast, Fang Mu and Yan Wood rode in a Jianmu Commerce Association standard Beast Car towards the headquarters of the Mu Yan Club Guild.

Everyone in The Capital who knew about the Mu Yan Club were aware that it was backed by the Jianmu Commerce Association.

So who would dare cause any trouble?

Yan Wood had heard that when many clubs in The Capital were opening, the powerful clubs would always make a show of force in advance.

This was considered an unwritten rule in the club industry.

Indeed, some club guild managers and leaders had visited the Mu Yan Club, but at most, they only dared to make a few unpleasant remarks without causing any real trouble.

“Little Wood, about ten more minutes ahead, and after crossing Fallen Dragon Square, you’ll be able to see the full view of Mu Yan Club’s headquarters!” she said.

“The land that Second Brother secured for me is among the top in The Capital.”

“To secure this land, Second Brother competed with two powers and poured in a lot of true silver; it was acquired at a premium!”

At this point, Yan Wood felt somewhat distressed.

Spending several billion Dragon Soaring Coins for a piece of land was extremely extravagant!

Yan Wood had not intended to spend a lot of resources when she planned on establishing the club; it was supposed to be a minor venture.

But once Fang Yuan made his move, he opened up Yan Wood’s vision, forcing her to set high standards for herself.

Otherwise, it would really be a disservice to Fang Yuan’s investment!

Yan Wood did indeed have some players she viewed favorably.

Some of these players were in other club guilds, some were her senior brothers and sisters.

Others were popular casters on the Battle Network.

For a time, Yan Wood really didn’t know how to lure these people to her own club guild.
