Chapter 126: Get them to death

Holy shit!

Who would have thought that fighting was such profound learning?

Chu Tian was stunned as he blankly felt his battle progress.

What dodging; what vital points, what skills, what predictions; and so on. The content was rich and majestic, comparable to hacker abilities.

In fact, in a daze, Chu Tian felt he had been immersed in the "martial arts" for several lifetimes. His grasp of the battle had reached the peak of perfection.

Seeing Chu Tian's stunned expression, Li Niannian couldn't help smiling. "Big sister, what are you talking about? Look, young master, are you scared?"

"Ah?" Chu Tian snapped back to his senses and smiled. "What's wrong?"

Li Niannian laughed and said, "Did you get scared by my sister? She's teasing you."

"Oh, no." Chu Tian smiled and said, "How can this scare me? What a joke. My combat strength is absolutely amazing. You guys just haven't seen it before. I'm really outstanding at fighting. I don't even care about eight or ten people."

Li Sisi smiled and took a sip of red wine. "Actually, I'm really not joking. This kind of thing would happen."

Bai Xiaochun frowned and looked at Li Sisi. She quickly looked at Chu Tian and said, "Hubby, might you really be kidnapped? Then why don't we sell it to them?"

"Don't think nonsense." Chu Tian smiled as he hugged Bai Xiaochun and said, "Sis Sisi is joking with you. In a society ruled by law, how can they kidnap me? They're not in heaven. Do you really think the law can't control them? I'm just teasing you."

Chu Tian smiled and looked at Li Sisi.

"Look at you." Li Sisi understood and said smilingly, "I was teasing you. You really believe me."

Bai Xiaochun pouted when she heard Li Sisi's words. "Sis, you really hate it. You're scaring people."

.....

Time passed in a flash. It was at 9 PM that Li Niannian and Bai Xiaochun went to the tea shop next door.

After the two left, Li Sisi took a deep breath and said, "Young Master, you know, I'm not joking. They really have the possibility of kidnapping you."

"Xiang Piao Group is also in the milk tea industry. How could they bear the progress of our white milk tea? They must have a dark side inside."

"If they might buy it, then no issue. But if they can't buy it, White Milk Tea Shop is a fatal threat to the Xiang Piao Group."

"I have been paying attention, and it has been closed for two days. Xiang Piao milk tea will perish once our white milk tea is served."

"Price is a major factor in our success. They sell 45 cups per hour, while we only sell 25."

"The taste is not a level. White Milk Tea can shake the Xiang Piao milk tea on the streets."

"In this case, I estimate the Xiang Piao Group's current high-level; now I have nightmares. Now, the entire Xiang Piao Group is afraid of your value."

"If you were to make White Milk Tea Shop, then the time for Xiang Piao Milk Tea to face a huge loss has come. In this situation, they would still dare to kidnap two of you and even three of us."

"I know." Chu Tian smiled and said, "However, don't say it in front of Xiao Bai." "She is already scared."

"Then, aren't you afraid?" Li Sisi said.

"I'm not afraid." Chu Tian smiled and said, "They can't kill me. If they want to kill me, it will be difficult."

Although Li Sisi didn't know, Chu Tian knew he could heal like a dead servant.

Trying to kill him is not a normal difficulty.

As long as he had one more cell alive, he couldn't die.

"And more." Li Sisi continued, "To safeguard your formula, you need to make our kitchen side safer as one can easily come through there and steal your formula."

"It's not that easy." Chu Tian shook his head with a smile and said, "At first, I also thought that this formula was not too complicated, but it might be. But later, I found that it was really not easy. If you didn't know the exact ratio, there was almost no chance that you could copy it. In the case of not knowing the specific proportion, the proportion requirement was imposed. The possibility of imitation was almost zero, and the proportion requirement was very precise, even involving two decimal places."

"That way, without counting, there are billions or even tens of billions of proportions. Try one by one, and they won't be able to try again until they die."

"And, this is only the proportion. There is post-processing; it needs a certain mysterious temperature and time. Even if I loan them 10 years, they cannot imitate."

"That's worse. If they can see hope, they won't take extreme measures." Li Sisi smiled. "If they can't see hope, it's easier to take extreme measures, and you have a better chance of being kidnapped."

"I don't care." Chu Tian opened a bottle of beer and said, "If they dare to do this, then I will kill them."

"I don't give a damn about a lousy company. If I want to take care of them, I can bankrupt them in an hour."
